About the Cover

This amazing artwork by Sandy Gonzaga shows a deep gnome, or svirfneblin, in peril of becoming an Aboleth snack. Worry not, for it has the talent Deep Warrior, which allows it to use a reaction to impose disadvantage on any aberration's attack roll. That should buy this little fella a round or two before inevitably becoming fish bait.

About this Book

The first Talents book provided a ton of character flavor and fun options to play around with. But being the first book, it only covered content from the Player's Handbook. This caused balance issues if used in campaigns that were utilizing content from other sources. Character Options Talents II finally address that by having over 200 talents supporting the new archetypes, classes, and races from Xanathar's Guide to Everything, Unearthed Arcana, Sword Coast Adventurer's Guide, Elemental Evil, and the Dungeon Master's Guide. Another set of talents you will discover are ones that build on the feats introduced in the Player's Handbook. Those are the only feats I touched though. I stayed away from the Unearthed Arcana feats, as they are already too similar to the previous talents I have created. Another section I wasn't able to touch was the Rune Scribe Prestige Class. With no other prestige classes to compare, it was hard to create balanced talents. And with very little to work on, I just decided not to touch it.

Additionally, this book treats content from Xanathar's Guide to Everything as the priority rule over similar content from Unearthed Arcana.

Finally, you will notice that the monstrous talents I promised in the first book are missing. I didn't quite anticipate the number of talents that would go into the second book just supporting the new content. After much thought, I decided to just plan another book solely about Monstrous Talents. This would include the new monstrous races introduced in Volo's Guide to Monsters. There will also be a section in the book with dozens of stat blocks of creature templates showcasing the new monstrous talents. Exciting things ahead! Expect a release sometime in the late 1st quarter or early 2nd quarter of 2018!

In the meantime, I hope you enjoy playing around with the new talents! And yes, I would love to hear about your feedback. If you want to raise balance concerns, please do so and I will definitely consider making changes. Cheers!

Introduction

What are Talents?

Talents are extraordinary aspects of a character's abilities, background, personality, physique, proficiencies, and features.

They are similar to, but not always as powerful as, standard Feats. They offer a means for you to improve your current existing abilities, slightly or temporarily shift game mechanics into your favor, provide you with a new capability, or build your character's background and personality for a richer roleplaying experience.

Acquiring Talents

How you wish to implement the acquisition of talents is entirely up to you as the DM. However, below are three suggested options:

1. Custom Rule. You acquire a talent at 1st level, and again at 3rd level, and every 3 levels thereafter. If you use this option, you must ensure that NPCs and monsters acquire talents too (see game balance).

2. Treat as Feat. When you are eligible to acquire a feat, you can take a talent instead. When you do so, you also increase an Ability score of your choosing by 1.

3. Treat as one half of a Feat. When you are eligible to acquire a feat, you can take two talents instead.

Prerequisites

Some talents have prerequisites. Your character must have the indicated ability score, class level, faction, feature, feat, race, skill, or other quality designated in order to select or use that talent. You cannot use or gain the benefit of a talent if you lose the prerequisite.

Types of Talents

Some talents are general, meaning that no special rules govern them as a group. Others are racial, which means that those talents are only available to members of that race. Finally, there are class talents. These comprise the majority of the talents, and most have specific class level requirements.

Game Balance

The introduction of talents may result in some game imbalance issues in favor of the players, especially if you use the first option (New Rule) in acquiring talents.

To address this, you can use some or all of the following options:

- Reduce the starting total ability scores of players by 2-4 and/or set a maximum starting ability score of 14 after racial bonuses.
- Assign talents to NPCs or even humanoid monsters. As a standard, monsters can have one talent for every four hit dice they have, rounded up. Class talents can also be applied to monsters who have classes or class-like features.
- Increase the average level of the party by 1 for every 3 levels when calculating CR.

Source Materials

As noted in the cover and the preface, a lot of the talents use material from the Unearthed Arcana series, the Sword Coast Adventurer's Guide, and Elemental Evil. You must have access to these materials. See Appendix 1. Unearthed Arcana Links.

The Talents

Talent Descriptions

Below is the format for talent descriptions:

Talent Name

Description of what the talent does or represents in plain language.

Prerequisite: *A minimum ability score, another talent or talents, member of a race or faction, or a class level that a character must have in order to acquire this talent. This entry is absent if a talent has no prerequisite. A talent may have more than one prerequisite.*

Benefit: What the talent enables the character ("you" in the talent description) to do. If a character has the same talent more than once, its benefits do not stack unless indicated otherwise in the description.

General Talents

Background

Artful Trickster

You are the wise fool telling bawdy jokes, the royal jester who juggles knives, the lark-voiced minstrel strumming a lute, or a court magician casting spells of illusion. You live to entertain but you also use your outside persona as a front and a tool to scheme, spy, distract and undermine your foes, protect those you love, or further your own goals.

Benefit: You have 3 Artful Trickster points. Whenever you make an ability check that involves the skill Acrobatics, Deception, Performance, Sleight of Hand, or the Disguise Kit tool, you can spend one Artful Trickster point to roll a d12 and add it to the result. You can choose to spend one of

your Artful Trickster points after you roll the die, but before the outcome is determined.

You regain your expended Artful Trickster points when you finish a long rest.

Bounty Hunter

You are an accomplished tracker and relentless pursuer of criminals and outlaws. Sometimes you are paid to slay monsters that have been terrorizing locals. You lay ambushes or stalk your prey. No matter what your quarry is, you do not stop until you have its head or brought it back to justice.

Benefit: You have 3 Bounty Hunter points. Whenever you make an ability check that involves the skill Stealth, or any Intelligence, Wisdom, or Charisma check used to gain information on, detect, or track your quarry, you can spend one Bounty Hunter point to roll a d12 and add it to the result. You can choose to spend one of your Bounty Hunter points after you roll the die, but before the outcome

is determined.

You regain your expended Bounty Hunter points when you finish a long rest.

Devoted Bodyguard

You spent most of your life watching over and protecting people you serve or love, honing your skills in defending them from harm.

Prerequisite: *Sentinel feat.*

Benefit: You have 3 Devoted Bodyguard points. Once per turn, you can use one of the following features:

Defend Ward. Spend 2 Devoted Bodyguard points.

Choose a creature within 5 feet of you. You can use a reaction and impose disadvantage to all attacks made against that creature until the end of the turn. You must decide to use this feature before an attack roll is made.

Shield Ward. Spend 1 Devoted Bodyguard point. When a creature within 5 feet of you takes damage from an attack, you can use a reaction to interpose yourself between the source of the attack and the creature, and take the damage yourself instead.

Vigilance. Spend 1 Devoted Bodyguard point. Reroll an Initiative roll or Intelligence or Wisdom ability check made to identify or spot a possible ambush, threat, or enemy. You must use the result of the second roll, even if it is lower.

You regain your expended Devoted Bodyguard points when you finish a short or long rest.

Street Fighter

You learned to fight and survive within the dangerous seedy streets and alleyways. You use your familiarity of it to your advantage.

Prerequisite: *Tavern Brawler feat.*

Benefit: You have 3 Street Fighter points. Once per turn, you can use one of the following features:

Knock Foe. Spend 2 Street Fighter points. On your turn, after a successful attack against a creature with an unarmed strike or improvised weapon, you can choose to stun it. The target is allowed a Constitution saving throw to negate the effect. The DC is equal to 8 + your Proficiency bonus + your Strength modifier. If the creature fails its saving throw, it is stunned until the end of your next turn.

Distract Foe. Spend 1 Street Fighter point. While unarmed or using an improvised weapon, select a creature that is within 5 feet of you that is about to attack. You can use a reaction and impose disadvantage to that creature's attack roll. You must decide to use this feature before an attack roll is made.

Territorial Advantage. Spend 1 Street Fighter point. Reroll any Strength, Dexterity, or Wisdom ability check made in a city, town, or village you lived in for at least a year. You must use the result of the second roll, even if it is lower.

You regain your expended Street Fighter points when you finish a short or long rest.

Witch Hunter

You are trained and experienced in tracking and bringing down all manner of non-good aligned spellcasters.

Prerequisite: *Mage Slayer feat.*

Benefit: You have 3 Witch Hunter points. Once per turn, you can use one of the following features:

Slay Witch. Spend 2 Witch Hunter points. Reroll an attack roll made against a non-good aligned spellcaster.

Resist Witch. Spend 2 Witch Hunter points. Reroll a saving throw made against an ability or spell cast by a non-good aligned spellcaster.

Hunt Witch. Spend 1 Witch Hunter point. Reroll an Intelligence or Wisdom ability check made to gain information on, detect, or track a non-good aligned spellcaster. You must use the result of the second roll, even if it is lower.

You regain your expended Witch Hunter points when you finish a short or long rest.

Combat

Ambuscade

You are often on your guard and can act before anybody else at the start of combat.

Prerequisite: *Alert feat.*

Benefit: When you roll initiative, you can use a special turn that takes place before other creatures can act. On this turn you can use your action to either take the Attack, Dash, or Hide action. You can also use your action to Cast a Spell or Use an Item action but the spell's casting time or item activation should take no more than 1 action. If you would normally be surprised at the start of an encounter, you are not surprised but you do not gain this extra turn.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Battle Magic

You can strike with your melee weapon after casting a cantrip or spell.

Prerequisite: *War Caster feat.*

Benefit: Whenever you cast a cantrip or spell, you can use a bonus action to make one melee weapon attack.

Benefit: You can make opportunity attacks without using a reaction against creatures within 5 feet of you. You can only make up to two opportunity attacks per turn.

Crossbow Master

Your crossbow attacks deal more damage than normal.

Prerequisite: *Crossbow Expert feat.*

Benefit: You deal an additional 2 weapon damage when using any type of crossbow.

Extra Combat Maneuver

You have knowledge of more combat maneuvers than normal.

Benefit: You gain one additional combat superiority die.

Feinting Strike

You can momentarily distract a creature with one of your weapon attacks in order to setup a successful second strike.

Prerequisite: *Dual Wielder feat.*

Benefit: Whenever you hit a creature with one of your weapons the first time in a turn, you can choose to gain advantage on the attack roll made within the same turn with the weapon in your

other hand. You must decide to use this feature before rolling.

You can use this feature three times. You regain all expended uses after you finish a long rest.

Improved Archery

You can aim better with your ranged attacks.

Prerequisite: Archery fighting style.

Benefit: When you make a ranged attack roll, you can choose to give yourself advantage on that roll. You must decide to use this feature before rolling.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Improved Charger

You are more likely to hit your target when charging.

Prerequisite: Charger feat.

Benefit: You can reroll the attack roll made using the bonus action if you had previously moved 10 feet in a straight line towards the target. You must use the result of the second roll, even if it is lower.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Improved Combat Reflexes

You can make opportunity attacks against creatures who move near you.

Prerequisite: Combat Reflexes.

Benefit: You can use your reaction to make a melee attack against a creature that moves more than 5 feet while within your reach.

Improved Defense / Mariner

Your defensive abilities are better than normal.

Prerequisite: Defense or Mariner fighting style.

Benefit: When a creature has targeted you with a weapon attack, you can use a reaction to impose disadvantage on that creature's attack. You must decide to use this feature before the attack is rolled.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Improved Defensive Duelist

You can make a counter attack after deflecting an attack.

Prerequisite: Defensive Duelist feat.

Benefit: If a creature's melee attack missed you as a result of using the Defensive Duelist feat, you can immediately make a melee weapon attack at the same creature.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Improved Dueling

You can be more accurate with your strikes.

Prerequisite: Dueling fighting style.

Benefit: When you are attacked with a melee weapon, you can use a reaction to impose

disadvantage to the attack. You must decide to use this feature before the attack is rolled.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Improved Great Weapon Fighting

You can be more accurate with your two-handed weapon attacks.

Prerequisite: *Great Weapon fighting style.*

Benefit: When you make an attack roll with a melee weapon you are wielding with two hands, you can choose to give yourself advantage on that roll. You must decide to use this feature before rolling. The weapon must have the two-handed or versatile property for you to gain this benefit.

Prerequisite: *Protection fighting style.*

Benefit: On your turn, after hitting a creature with a melee attack, you can choose to impose disadvantage to all of its attack rolls not made against you until the start of your next turn.

You can use this feature three times. You regain expended uses after you finish a long rest.

Overrun

You can trample creatures with your mount.

Prerequisite: *Mounted Combatant feat.*

Benefit: After moving more than 10 feet while mounted and then entering the space of a medium sized creature, you can use a bonus action to try to knock the creature prone. The creature must make a Strength saving throw equal to 8 + your proficiency modifier + your mount's Strength modifier. On a failed save, the creature is knocked prone and your mount can immediately make one melee natural weapon attack (hoof or claw). On a successful save, the creature isn't knocked prone, and is pushed 5 feet out of your space into an unoccupied space of the creature's choice. If no

unoccupied space is within range, the creature instead falls prone in your space.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Polearm Defense

You are harder to hit while you wield a polearm.

Prerequisite: *Polearm Master feat.*

Benefit: You gain +1 bonus to AC while using a polearm.

Shield Bash

You can bash your enemies with your shield when you attack.

Prerequisite: *Shield Master feat.*

Benefit: When you use the Attack action, you can use a bonus action to attack with your shield. The creature takes 1d4 bludgeoning damage plus your Strength modifier.

You can use this feature three times. You regain all expended uses after you finish a long rest.

Sniper

You can deliver a deadly ranged attack.

Prerequisite: *Sharpshooter feat.*

Benefit: On your turn, if there would normally be no disadvantage imposed on your ranged attack, you can use a bonus action to gain advantage on your next ranged attack roll. You must decide to use this feature before rolling. If you roll a number that is at least 5 or more than what is needed to hit, you score a critical hit.

Once you have successfully used this feature, you cannot use it again until you finish a long rest.

Spell Marksman

You seldom miss or deal glancing shots with your ranged attacks.

Prerequisite: *Spell Sniper feat.*

Benefit: You can reroll a ranged spell attack. You must use the result of the second roll, even if it is lower.

Once you use this feature, you cannot use it again until you finish a long rest.

Sundering Blow

You can deliver a powerful, armor crunching blow that momentarily makes the target vulnerable.

Prerequisite: *Great Weapon Master feat.*

Benefit: On your turn, after successfully dealing damage to a creature with your weapon, you can choose to give advantage to the next attack roll made against the same creature before the end of your next turn.

Once you use this feature, you cannot use it again until you finish a short or long rest.

Wrestler

Your grappling skills are more advanced than normal.

Prerequisite: *Grappler feat.*

Benefit: Whenever you successfully grapple a creature, you can use a bonus action to automatically pin that creature.

Additionally, while you are restrained, your attacks against the pinned creature do not suffer disadvantage.

Miscellaneous

Canny

Your intellectual skills are impeccable.

Prerequisite: *Keen Mind feat.*

Benefit: Whenever you make an Intelligence ability check, you can roll a d12 and add it to the result. You can choose to do this after you roll the initial die, but before the outcome is determined.

You can inspire your allies more effectively than normal.

Prerequisite: *Inspiring Leader feat.*

Benefit: When inspiring your companions, you can choose to give each creature you inspire a d4 Inspiration die. Once within the next 10 minutes, the creature can roll the die and add the number rolled to one ability check, attack roll, or saving throw it makes. The creature can wait until after it rolls the d20 before deciding to use the Inspiration die, but must decide before the DM says whether the roll succeeds or fails. What are Monstrous Talents?

Monstrous talents are extraordinary and supernatural aspects of a creature's abilities, physique, and proficiencies. They offer a means for you to improve a creature's current existing abilities, slightly or temporarily shift game mechanics into their favor, or provide them with new capabilities of which to challenge your players.

A creature can have one talent for every four hit dice it has, rounded up (1 talent at 1-4 HD, 2 talents at 5-8 HD, 3 talents at 9-12 HD, etc.).

Below are a couple Monstrous Talents for you to chew on:

Cleaving Blow

A large creature swings its weapon in a sweeping arc, attempting to hit all those within reach.

Prerequisite: *Large creature with a weapon attack that has a reach of at least 10 feet.*

Benefit: On its turn, using its attack option, the creature can make a single weapon attack with disadvantage against each creature within reach. The creature uses the same attack roll result to determine if it hits each target.

Extra Claw Attack

A creature gains the ability to attack to make one extra claw attack.

Prerequisite: *Claw melee weapon attack.*

Benefit: The creature can make two claw attacks.

Freezing Breath

A large creature swings its weapon in a sweeping arc, attempting to hit all those within reach.

Prerequisite: *Breath attack that deals cold damage, Numbing Breath.*

Benefit: On its turn, using its attack option, the creature can make a single weapon attack with disadvantage against each creature within reach. The creature uses the same attack roll result to determine if it hits each target.

Grab and Throw

A large creature can throw a grappled enemy, possibly towards another target.

Prerequisite: *Large or larger creature, grapple attack.*

Benefit: On its turn, using one of its attacks, a creature can throw a grappled enemy up to a distance equal to 10 x the creature's Strength modifier. The grappled enemy thrown takes 1d6 damage for every 10 feet traveled + the creature's Strength modifier. The thrown enemy must also make a Dexterity saving throw. The DC is equal to 8 + creature's proficiency bonus + creature's Strength modifier. A failed saving throw results in the thrown enemy getting knocked prone. If it is aiming at another enemy, it must make a ranged attack roll. If it hits, both the grappled enemy and the target take the same amount of damage and must each making a saving throw or be knocked prone.

Numbing Breath

The creature's cold breath can chill and numb its targets.

Prerequisite: *Breath attack that deals cold damage.*

Benefit: Enemy targets that fail their saving throws and take damage to the creature's cold breath weapon are slowed for 1 minute. The targets can repeat the saving throw at the end of each of their turns, ending the effect on itself on a success. If the breath weapon does not allow a saving throw, enemies that take damage from the breath are slowed until the end of their next turn.

A female warrior with dark hair and a gold forehead ornament, wearing blue and silver armor, holding a sword. The background is a dark, rocky wall with a warm, orange glow on the right side.
