PRAISE FOR MONSTER MANUAL EXPANDED

"A fantastic resource for DMs that want to keep players on their toes or want stronger or weaker variants of certain monsters."

- Comicbook.com

"The attention to detail, and the scale of this product is absolutely worth your money."

- Celeste Conowitch

"Monster Manual Expanded does a fantastic job of lovingly recreating monsters that were sadly missing from 5e."

- Nerd Immersion

"I'm just going to call this Monster Manual II. This is by far the BEST product I have ever purchased on DMs Guild!"

- Paul S. M

"The variants are more than additional stats for DMs to memorize; they are reference materials that enhance the known lore of beloved creatures, giving more clues to their ecological life histories and/or societal structures."

- Bob World Builder

"The creativity and attention to detail that went into this already makes it must have companion to your MM... This is one of those ideas that creators would slap their forehead and wonder why they didn't think of it first. While some products have offered variations on known monsters before, this perfects that model with expansive worldbuilding while taking very logical steps both up and down in power from the standard blocks."

- Garin J.

"It gives you a wealth of options at various levels which just creates more replayability. Very well done! Well worth your money!"

- Allthingslich

"The reviews about this product are bang on. This is the MM on steroids!"

- Brian S.

"The creativity and attention to detail that went into this already makes it must have companion to your Monster Manual."

- D&D Character Lab

"Superb resource for challenging high-level PCs with a variety of subtly different versions of familiar adversaries. Great idea, completed by great design and utility. Highly recommended. Makes DM-ing for a gonzo group of murderhomebrewed murder hobos more interesting, surprising and convenient."

- Aran M.

"Outstanding! Particularly if you have a campaign of high-level players who have memorized the Monster Manual, get this book!"

- Mike M.

"The writing, layout and art are all top-notch. This a hefty tome offering hundreds of monsters and NPCs that really fill important gaps with the official Monster Manual. "

- Christopher B.

"What a spectacular thing to behold! This amazing product contains some unique monsters never seen before in other supplements with amazing mechanics that will surely surprise your players!"

- Libedrator E.

"An incredible product and a must for any Dungeon Master or creator of adventures."

- 5E S. G.

"This product is a wonderful complement to the moster manual. I found the expanded monster variants to be very helpful when designing interesting and challenging encounters. "

- Stephen G.

I was hesitant to buy this because of the price, but i'm very happy I did, seeing the table of contents was what sold it... Can't stress this enough, if you're on the fence, you should probably just buy it :).

- Josh W.

"Fantastic product! A great reference to keep my vetran[sic] players on thier[sic] toes. Also great for inspiring me when writtingvadventures[sic]."

- Dustin T.

"A fantastic Monster List adds loads to the Monster Manual's creatures, highly recommeneded[sic]."

- Lee R.

ABOUT THIS BOOK

The Monster Manual is a fantastic body of work. However, as a detail and tactical-oriented DM, I felt that the content was lacking in a variety of creature types that I could use to represent my miniatures - something that the 3rd/4th editions had in abundance. This gap inspired me to create an expansion that would address my needs. I hope this book addresses your needs, as well. Enjoy unleashing new horrors to surprise your players and keep them on their toes!

ABOUT THE COVER

I wanted to pay homage to the current Monster Manual, which shows one of my favorite monsters of all time - the beholder. I remember when I first beheld the beholder was when I bought a copy of the Companion Set. I was in awe of its appearance and its powers. I remember I couldn't wait to unleash it on my players. So now that I have created my version of the Ultimate Tyrant, I wanted to show it on this book's cover.

CHAPTER I. THE BESTIARY

Within the next 300+ pages are four hundred plus creatures, stat blocks, and lore that can be used for any D&D Campaign. Among the creatures included are 1st, 2nd, and 3rd edition classics as well as original variants. Among the old favorites returning are the elder orb, gorgimera, lamia noble, margoyle, neo-otyugh, and ultimate tyrant. Some come from the more obscure sources, and are probably only familiar to a few: the agarat, baernoloth, gulguthydra, uchuulun, and the urophion.

The Bestiary serves as an expansion to the Monster Manual. Almost all creatures from the Monster Manual are represented, with additional lore provided for nearly every new variant. These creatures are not just high level rehashes of their original bases. As much as possible, each has been thoughtfully designed to provide a different combat experience, enabling the Dungeon Master to startle and catch player characters off guard. Good examples of these are the demon and devil variants that bring back the feel of the classics: vrocks that can perform the dance of ruin, balor lords that can cast spells and dive down like a meteor, and pit fiends with eye beams that can disintegrate their foes.

The Bestiary's largest impact, however, will be on the various humanoids and giants, whose ranks swell with various archetypes. Berserkers, bruisers, champions, chieftains, shamans, skirmishers, marauders, priests, witch doctors, and many more have been created to provide the Dungeon Master flexibility

and variety of options to populate their lairs. No longer will the Dungeon Master keep using the same type of giant or humanoid in every room the players enter.

In a goblins' lair, for example, you can now have goblin skirmishers and cutthroats mixed in with the regular goblins as guards in the common areas. In worship rooms, you can place shamans and witch doctors. In arcane-type chambers, you can have alchemists and blackblades. In the throne room, you can have the chieftain and goblin bodyguards, as well as a goblin boss serving as its council.

Another thing the Bestiary addresses is creating high CR variants of typically low CR creatures. This provides the low CR creatures with boss versions, such as the ankheg brood queen, battle horror, harpy witch, werewolf pack lord, and the various elder hags.

Finally, the Bestiary also provides the Dungeon Master a handful of epic encounters that should challenge the mightiest of player characters. These include the aboleth overseer, ancient behir, cloaker lord, death knight lord, greater banshee, greater medusa, lamia queen, oni lord, rakshasa maharaja, Shaytan angels, ultimate tyrant, and the vampire lord.

As in the Monster Manual, there will be two appendices following the Bestiary. The first one will be assorted creatures that will feature various vermin and beasts, including the returning greenwise, hatori, and sword spider. The second one will be various nonplayer characters, which shall feature both low and high-level archetypes.

AARAKOCRAS

AARAKOCRA BRAVE

Aarakocra braves are masters of aerial combat and serve as their tribe's primary warriors. They engage in hit and run tactics, taking full advantage of their flyby feature.

AARAKOCRA SCOUT

Aarakocra scouts serve their tribes as skilled hunters and early-warning sentries. They often engage in reconnaissance missions, searching for any possible threats to their roosts. On rare occasions they may be hired as scouts, as long as they are convinced that the nature of the work will be not be in detriment to the innocent.

ABOLETHS

ABOLETH OVERSEER

One of the most powerful and exceedingly insidious creatures that can be encountered in the Realms, the aboleth overseer is an ancient being that has enslaved city after city, leaving despair in its wake.

Insidious Enslaver. When an aboleth overseer finds a new city near a large body of water (coast, lake, etc.), it begins its onslaught by enslaving nearby locals and criminal elements such as pirates to gather information, all the while being careful not to show its true appearance. It then works its way up, using the enslaved locals to bring strategic targets (such as officials, wealthy merchants, etc.) to within the aboleth overseer's enslave range.

Master Manipulator. Once it has established a network of controlled individuals in strategic positions, it strengthens its stranglehold through bribery, coercion, murder, and enslavement. Within a matter of a few years, the aboleth overseer may have total control of the entire city. When it has finally acquired all the knowledge and treasure it can gain, or tires of the city, it manipulates its victims to sow distrust and cause mayhem, resulting in civil unrest and mass killings. It is so devious in its methods that it may leave a city devastated without anyone knowing that it existed.

ABOLETH SLIME LORD

The slime lord is a species commonly found within the underwater depths of Demogorgon's palace known as the Abyss, and the Far Realm. However, they can also be very rarely encountered in deep, fetid marshy waters and the foulest Underdark lakes.

Acidic Mucus. The slime lord is a disgusting version of an aboleth, if such a thing is even possible. The foul mucus the aboleth slime lord secretes is so caustic and sticky that it has developed the ability to cast it at targets in order to ensnare and weaken them.

Amphibious. The aboleth can breathe air and water.

Legendary Resistance (3/Day). If the aboleth fails a saving throw, it can choose to succeed instead.

Mucous Cloud. While underwater, the aboleth is surrounded by transformative mucus. A creature that touches the aboleth or that hits it with a melee attack while within 5 feet of it must succeed on a DC 17 Constitution saving throw. On a failure, the creature is diseased for 1d4 hours. The diseased creature can breathe only underwater.

Probing Telepathy. If a creature communicates telepathically with the aboleth, the aboleth learns the creature's greatest desires if the aboleth can see the creature.

Innate Spellcasting (Psionics). The aboleth's innate spellcasting ability is Intelligence (spell save DC 20). The aboleth can innately cast the following spells, without providing material components:

At will: *hypnotic pattern*, *invisibility*, *phantasmal force*

3/day each: *hallucinatory terrain*, *major image*

2/day each: *phantasmal killer*, *project image*

1/day each: *mirage arcane*, *psychic scream*, *weird*, *plane shift* (self only)

ACTIONS

Multiattack. The aboleth makes four tentacle attacks.

Tentacle. *Melee Weapon Attack:* +14 to hit, reach 10 ft., one target.

Hit: 18 (2d10 + 7) bludgeoning damage and the target is grappled (escape DC 18). If the target is a creature, it must succeed on a DC

19 Constitution saving throw or become diseased. The disease has no effect for 1 minute and can be removed by any magic that cures disease. After 1 minute, the diseased creature's skin becomes translucent and slimy, the creature can't regain hit points unless it is underwater, and the disease can be removed only by heal or another disease-curing spell of 6th level or higher. When the creature is outside a body of water, it takes 6 (1d12) acid damage every 10 minutes unless moisture is applied to the skin before 10 minutes have passed.

Tail. *Melee Weapon Attack:* +14 to hit, reach 10 ft., one target.

Hit: 23 (3d10 + 7) bludgeoning damage.

Enslave (3/Day). The aboleth targets one creature it can see within 30 feet of it. The target must succeed on a DC 19 Wisdom saving throw or be magically charmed by the aboleth until the aboleth dies or until it is on a different plane of existence from the target. The charmed target is under the aboleth's control and can't take reactions, and the aboleth and the target can communicate telepathically with each other over any distance.

Whenever the charmed target takes damage, the target can repeat the saving throw. On a success, the effect ends. No more than once every 24 hours, the target can also repeat the saving throw when it is at least 1 mile away from the aboleth.

Fling. One Large or smaller object held or creature grappled by the aboleth is thrown up to 60 feet and knocked prone. If a thrown target strikes a solid surface, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the target is thrown at another creature, that creature must succeed on a DC 18 Dexterity saving throw or take the same damage and be knocked prone. If the aboleth uses multiattack, it can use its Fling in place of one of its tentacle attacks.

LEGENDARY ACTIONS

The aboleth can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The aboleth regains spent legendary actions at the start of its turn.

Enslave. The aboleth uses its Enslave feature.

Tail Swipe. The aboleth makes one tail attack.

Psychic Drain (Costs 2 Actions). One creature charmed by the aboleth takes 28 (8d6) psychic damage, and the aboleth regains hit points equal to the damage the creature takes.

Cast a Spell (Costs 3 Actions). The aboleth casts a spell from its list of innate spells, using a spell slot as normal.

Psychic Drain (Costs 2 Actions). One creature charmed by the aboleth takes 17 (5d6) psychic damage, and the aboleth regains hit points equal to the damage the creature takes.

Slime Sphere (Costs 3 Actions). The aboleth conjures a ball of acidic slime that explodes at a point it can see within 120 feet of it. Each creature in a 20-foot-radius sphere centered on that point must succeed on a DC 16 Strength saving throw. On a failed save, the target takes 14 (4d6) acid damage and is restrained, or half as much damage and isn't restrained on a successful one. A restrained creature takes 10 (3d6) acid damage at the start of each of the Aboleth's turns. A restrained creature can use an action to perform a DC 16 Strength (Athletics) or Dexterity (Acrobatics) check, ending the effect on itself on a success.

SKUM

The skum are a race of creatures that were once humanoids, beasts, and giants. They were captured and transformed by the aboleth and now serve their masters as slaves and guards.

Skum Minion. Loathsome and disgusting, skum minions are weaker and more common versions of skum (from *Ghosts of Saltmarsh*). They look like feral amphibious humanoids with limbs ending in webbed claws and feet and a long spiny frill running down its hunched back.

Skum Beast. These are the poor animals and beasts that have been transformed by the aboleth's disease and now serve as guardians and scouts.

Skum Hulk. On very rare occasions, the aboleth might be able to capture and enslave an ogre or even a young giant, transforming it into one of its mutated slaves, making it one of its personal bodyguards.

ANGELS, SHAYTAN

While most fallen angels have usually gone astray due to Asmodeus' corruption, some have succumbed to the temptations of Graz'zt, The Dark Prince of Pleasure, or Malcanthet, the Succubus Queen. These angels are known as Shaytan or shayatin. Once beautiful and majestic, they have turned into dark and hateful opposites of their former selves.

Shadow Step. While in dim light or darkness, the shaytan can teleport as a bonus action up to 60 feet to an unoccupied space it can see that is also in dim light or darkness. It then has advantage on the first melee attack it makes before the end of the turn.

ACTIONS

Multiattack. The shaytan makes two mace attacks. It can use Life Drain in place of one mace attack.

Mace. Melee Weapon Attack: +8 to hit, reach 5 ft., one target.

Hit: 7 (1d6 + 4) bludgeoning damage plus 18 (4d8) necrotic damage.

Life Drain (3/day). Melee Weapon Attack: +8 to hit, reach 5 ft., one creature. **Hit:** 20 (4d8 + 2) necrotic damage. The target must succeed on a DC 16 Constitution saving throw or its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Change Shape. The shaytan magically polymorphs into a humanoid or beast that has a challenge rating equal to or less than its own, or back into its true form. It reverts to its true form if it dies. Any equipment it is wearing or carrying is absorbed or borne by the new form (the shaytan's choice). In a new form, the shaytan retains its game statistics and ability to speak, but its AC, movement modes, Strength, Dexterity, and special senses are replaced by those of the new form, and it gains any statistics and capabilities (except class features, legendary actions, and lair actions) that the new form has but that it lacks.

Shadow Fiends. No longer celestials, these angels have lost some of their powers, including fast flight speed, magic resistance, and the ability to project radiant energy. These changes resulted in driving most of them insane. Now as fiends, they draw their power from the Shadowfell and the Abyss. Their bodies are always cloaked with oozing shadows and their eyes limned with abyssal fire.

Demonic Servants. Once messengers and executors of the will of their gods, they now serve Demon Princes as assassins and generals, often leading shadow demons in their missions. Twisted and vengeful, they scheme and bide their time until an opportunity presents itself where they can wreak havoc and deal the most damage against their former gods who have forsaken them, often striking at those who worship them.

Multiattack. The shaytan makes two greatsword attacks.

Greatsword. *Melee Weapon Attack:* +15 to hit, reach 5 ft., one target. *Hit:* 22 (4d6 + 8) slashing damage plus 27 (6d8) necrotic damage.

Slaying Longbow. *Ranged Weapon Attack:* +13 to hit, range 120/600 ft., one target. *Hit:* 15 (2d8 + 6) piercing damage plus 27 (6d8) necrotic damage. If the target is a creature that has 100 hit points or fewer, it must succeed on a DC 15 Constitution saving throw or die.

Flying Sword. The shaytan releases its greatsword to hover magically in an unoccupied space within 5 feet of it. If the shaytan can see the sword, the shaytan can mentally command it as a bonus action to fly up to 50 feet and either make one attack against a target or return to the shaytan's hands. If the hovering sword is targeted by any effect, the shaytan is considered to be holding it. The hovering sword falls if the shaytan dies.

Life Drain (4/day). *Melee Weapon Attack:* +16 to hit, reach 5 ft., one creature. *Hit:* 40 (8d8 + 4) necrotic damage. The target must succeed on a DC 23 Constitution saving throw or its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

LEGENDARY ACTIONS

The shaytan can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The shaytan regains spent legendary actions at the start of its turn.

Teleport. The shaytan magically teleports, along with any equipment it is wearing or carrying, up to 120 feet to an unoccupied space it can see.

Necrotic Burst (Costs 2 Actions). The shaytan emits magical abyssal energy. Each creature of its choice in a 10-foot radius must succeed on a DC 23 Dexterity saving throw, taking 14 (4d6) fire damage plus 14 (4d6) necrotic damage on a failed save, or half as much damage on a successful one.

Dreadful Glare (Costs 3 Actions). The shaytan targets one creature it can see within 30 feet of it. The target must succeed on a DC 24 Wisdom saving throw against this magic or be frightened. While frightened in this way, the target is paralyzed. A frightened creature repeats the saving throw at the end of each of its turns, ending the effect on itself with a success. If the target's saving throw is successful, the target is immune to the shaytan's gaze for the next 24 hours.

ANIMATED OBJECTS

ANIMATED STATUES

Animated statues look very much like large 8-to-12-foot tall statues that you can find in temples, gardens, crypts, and palace halls.

Faux Golems. Often mistaken for golems, animated statues are less potent but inexpensive substitutes, often crafted to serve as intimidating deterrents to burglars and intruders. Sometimes, the wealthy families hire unscrupulous wizards and artificers to create golems for them to serve as guardians, and they unknowingly end up paying for animated statues, unable to tell the difference.

ANKHEG

BROOD QUEEN

An ankheg brood queen is very rarely seen, as it spends most of its time deep underground where it is well protected by its brood.

Egg layer. The brood queen is about twice the size of a normal adult ankheg and has a huge bloated abdomen filled with egg sacs. When threatened, it will lay eggs in which broodlings will hatch from and they will immediately protect their queen.

Fiercely Territorial. The brood queen is cunning and very paranoid. Its territory stretches for miles and it will actively hunt down any other potential brood queen threat, even if it is its progeny.

Directors. If ankheg attacks appear to be coordinated and organized, chances are a brood queen is behind them. Adventurers may be hired for the dangerous task of finding its lair and killing it.

Each creature within 15 feet of the brood queen must succeed on a DC 17 Strength saving throw, taking 20 (4d6 + 6) bludgeoning damage and is knocked prone on a failed save, or half as much damage and isn't knocked prone on a successful one.

BANSHEE, GREATER

A greater banshee appears to be like any other banshee at first, except for the power it radiates. It may be too late however before adventurers can even tell the difference.

Noble Magic-users. Greater banshees were once powerful magic practioners in life and often held important responsibilities or positions, such as a queen, royal advisor, or guild wizard. But due to greed, jealousy, and narcissism, they had schemed and acted out evil and malicious deeds.

Vengeful and Malevolent Spirits. Caught and executed for their crimes, they would rise from the dead after many years, or even centuries, later and haunt their sites, slaying anything living. They would actively hunt for the descendants of those who they believe have wronged them.

Agatha

"The twisted visage of a long-dead elven maiden, her skin withered and stretched along her hollow face and her eyes bereft of color or any spark of life."

- R. A. Salvatore, *The Halfling's Gem*

Agatha was a powerful elven wizard, often described by those few who seen her and returned alive as a graceful elven figure wearing a rich gown and flowing white hair. However, her skin has shriveled and her eyes are but empty sockets.

Agatha lives in the Dessarin river region, in a grove that can be found at the end of a trail in the northwest part of the Conyberry area in Neverwinter Winter Wood and southwest of Longsaddle.

Unlike most banshees, Agatha does not appear to be inherently evil. She avoids contact whenever possible, and has taken up the task as the protector of the town of Conyberry, sometimes providing the townsfolk with food during the harsh winters and defending against humanoid raiders.

It is not impossible to seek her out for her knowledge or trading for magical items, but she has gone very wary and more isolated ever since a magical item of hers, a mask that enabled the wearer to appear as a different race, was stolen by the dark elf Drizzt and his companions. Still, Agatha is known to be a collector of spellbooks and artifacts, and may not resist a tempting offer from resourceful adventurers.

Incorporeal Movement. The banshee can move through other creatures and objects as if they were difficult terrain. She takes 5 (1d10) force damage if she ends her turn inside an object.

Spellcasting. The banshee is a 12th-level spellcaster. Its spellcasting ability is Intelligence (spell save DC 17, +9 to hit with spell attacks). It has the following wizard spells prepared:

Cantrips (at will): *mage hand, minor illusion, ray of frost*

4th level (3 slots): *banishment, ice storm, storm sphere*

5th level (2 slots): *cone of cold, dominate person, enervation*

6th level (1 slot): *chain lightning*

ACTIONS

Multiattack. The banshee can use its Dreadful Visage and then use Life Drain. It can use Kiss of Death in place of Life Drain.

Life Drain. *Melee Spell Attack:* +9 to hit, reach 5 ft., one creature.

Hit: 25 (6d6 + 4) necrotic damage. The target must succeed on a DC 17 Constitution saving throw or its hit point maximum is reduced by

an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Dreadful Visage. Each non-undead creature within 60 feet of the banshee that can see her must succeed on a DC 17 Wisdom saving throw or be frightened for 1 minute. If the initial saving throw fails by 5 or more, the creature is paralyzed while frightened in this way. A frightened target can repeat the saving throw at the end of each of its turns, with disadvantage if the banshee is within line of sight, ending the effect on itself on a success. If a target's saving throw is successful or the effect ends for it, the target is immune to the banshee's Dreadful Visage for the next 24 hours.

Kiss of Death. *Melee Spell Attack:* +9 to hit, reach 5 ft., one charmed, frightened, or incapacitated male humanoid creature.

Hit: The target must succeed on a DC 17 Charisma saving throw.

On failed save, the target's hit points is reduced to 0. On a success, the creature takes 25 (6d6 + 4) necrotic damage and its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Wail (2/day). The banshee releases a mournful wail, provided that she isn't in sunlight. This wail has no effect on constructs and undead. All other creatures within 60 feet of her that can hear her must succeed on a DC 17 Constitution saving throw. On a failure, a creature drops to 0 hit points. On a success, a creature takes 21 (6d6) psychic damage.

LEGENDARY ACTIONS

The banshee can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The banshee regains spent legendary actions at the start of its turn.

Move. The banshee up to half its speed without provoking opportunity attacks.

Keening (Costs 3 Actions). The banshee uses its Wail, if available.

BASILISK, GREATER

GREATER BASILISK

A greater basilisk, often called a true basilisk, is a larger and more fearsome cousin of the more common basilisk. It has all of the same dangerous abilities of the basilisk, but due to its size it can now employ its foreclaws as weapons to rend its victims. Even worse, it can breathe poisonous gas that causes the lungs of those who inhale it to harden and slowly turn to stone.

Petrifying Gaze. If a creature starts its turn within 30 feet of the basilisk and the two of them can see each other, the basilisk can force the creature to make a DC 15 Constitution saving throw if the basilisk isn't incapacitated. On a failed save, the creature magically begins to turn to stone and is restrained. It must repeat the saving throw at the end of its next turn. On a success, the effect ends. On a failure, the creature is petrified until freed by the greater restoration spell or other magic.

A creature that isn't surprised can avert its eyes to avoid the saving throw at the start of its turn. If it does so, it can't see the basilisk until the start of its next turn, when it can avert its eyes again. If it looks at the basilisk in the meantime, it must immediately make the save.

If the basilisk sees its reflection within 30 feet of it in bright light, it mistakes itself for a rival and targets itself with its gaze.

This section covers 4 species of beholderkin: the elder orb, the eye of flame, the eye of frost, and the ultimate tyrant.

ELDER ORB

Compared to its normal kin, the Elder Orb is a more advanced and dangerous beholder with the innate ability to cast arcane spells. Save for the Ultimate Tyrant, the Elder Orb is probably the most intelligent of its kind, but also the most cunning, diabolical, and cruel as well.

Master Racists. Elder Orbs sometimes serve as advisors to Ultimate Tyrants, but most are leaders of various beholder

factions. They think of themselves as the pinnacle of beholderkind, as well as pushing beholders as the supreme race and master of all other beings. They have bribed, threatened, and killed their way to place themselves in strategically high, if not the highest, positions of every faction they have managed to reach, often without revealing their true nature. It is rumored that the current Xanathar is an Elder Orb.

Antimagic Cone. The beholder's central eye creates an area of antimagic, as in the antimagic field spell, in a 150-foot cone. At the start of each of its turns, the beholder decides which way the cone faces and whether the cone is active. The area works against the beholder's own eye rays.

Innate Spellcasting (Psionics). The beholder's innate spellcasting ability is Intelligence (spell save DC 18). As long as the beholder's antimagic cone is inactive, the beholder can innately cast the following spells, without providing material components:

At will: *darkness*, *detect magic*, *detect thoughts*, *see invisibility*

3/day each: *dispel magic*, *stoneskin*

2/day each: *globe of invulnerability*, *wall of force*

1/day each: *move earth*, *power word stun*

ACTIONS

Bite. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one target. *Hit:* 14 (4d6) piercing damage.

Eye Rays. The beholder shoots three of the following magical eye rays at random (reroll duplicates), choosing one to three targets it can see within 120 feet of it:

1. **Charm Ray.** The targeted creature must succeed on a DC 18 Wisdom saving throw or be charmed by the beholder for 1 hour, or until the beholder harms the creature.

2. **Paralyzing Ray.** The targeted creature must succeed on a DC 18 Constitution saving throw or be paralyzed for 1 minute. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

3. **Fear Ray.** The targeted creature must succeed on a DC 18 Wisdom saving throw or be frightened for 1 minute. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

4. **Slowing Ray.** The targeted creature must succeed on a DC 18 Dexterity saving throw. On a failed save, the target's speed is halved for 1 minute. In addition, the creature can't take reactions, and it can take either an action or a bonus action on its turn, not both. The creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

5. **Enervation Ray.** The targeted creature must succeed on a DC 18 Constitution saving throw, taking 36 (8d8) necrotic damage on a failed save, or half as much damage on a successful one.

6. **Telekinetic Ray.** If the target is a creature, it must succeed on a DC 18 Strength saving throw or the beholder moves it up to 30 feet in any direction. It is restrained by the ray's telekinetic grip until the start of the beholder's next turn or until the beholder is incapacitated. If the target is an object weighing 300 pounds or less that isn't being worn or carried, it is moved up to 30 feet in any direction. The beholder can also exert fine control on objects with this ray, such as manipulating a simple tool or opening a door or a container.

7. **Sleep Ray.** The targeted creature must succeed on a DC 18 Wisdom saving throw or fall asleep and remain unconscious for 1

minute. The target awakens if it takes damage or another creature takes an action to wake it. This ray has no effect on constructs and undead.

8. **Petrification Ray.** The targeted creature must succeed on a DC 18 Dexterity saving throw. On a failed save, the creature begins to turn to stone and is restrained. It must repeat the saving throw at the end of its next turn. On a success, the effect ends. On a failure, the creature is petrified until freed by the greater restoration spell or other magic.

9. **Disintegration Ray.** If the target is a creature, it must succeed on a DC 18 Dexterity saving throw or take 45 (10d8) force damage. If this damage reduces the creature to 0 hit points, its body becomes a pile of fine gray dust. If the target is a Large or smaller nonmagical object or creation of magical force, it is disintegrated without a saving throw. If the target is a Huge or larger object or creation of magical force, this ray disintegrates a 10-foot cube of it.

10. **Death Ray.** The targeted creature must succeed on a DC 18 Dexterity saving throw or take 55 (10d10) necrotic damage. The target dies if the ray reduces it to 0 hit points.

LEGENDARY ACTIONS

The beholder can take 3 legendary actions, using the options listed below. It can take only one legendary action at a time and only at the end of another creature's turn. The beholder regains spent legendary actions at the start of its turn.

Antimagic Cone. The beholder turns which way the cone faces and whether the cone is active.

Eye Ray. The beholder uses one random eye ray.

Cast a Spell (Costs 2 Actions). The beholder casts a spell from its list of innate spells, using a spell slot as normal.

REACTIONS

Redirect Antimagic Cone. When the beholder sees a creature within 150 feet cast a spell, the beholder activates its antimagic cone and points it at the creature.

EYE OF FLAME

The Eye of Flame is a relatively weaker species compared to the common beholder but it is still as devious and ruthless. It closely resembles a normal beholder, save for the crimson tone of its chitinous bony plates. If not lording over less intelligent races, they serve as guardians under the employ of more powerful beholders, red dragons, fire giants, and efreet. Their masters highly value the eye of flame's vulnerability to fire cone, as this makes their fire-based abilities even more dangerous.

Fire Vulnerability Cone. The beholder's central eye creates an area of vulnerability to fire, in a 120-foot cone, even when the beholder uses its Optic Fire Blast. While inside the area of effect, a creature that is not immune to fire gains vulnerable to fire.

At the start of each of its turns, the beholder decides which way the cone faces and whether the cone is active.

ACTIONS

Bite. *Melee Weapon Attack:* +4 to hit, reach 5 ft., one target. *Hit:* 14 (4d6) piercing damage.

Eye Rays. The beholder shoots two of the following magical eye rays at random (reroll duplicates), choosing one to two targets it can see within 120 feet of it:

1. **Fire Ray.** The targeted creature must succeed on a DC 15 Dexterity saving throw, taking 14 (4d6) fire damage on a failed save, or half as much damage on a successful one.

2. **Fear Ray.** The targeted creature must succeed on a DC 15 Wisdom saving throw or be frightened for 1 minute. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

3. **Telekinetic Ray.** If the target is a creature, it must succeed on a DC 15 Strength saving throw or the beholder moves it up to 30 feet in any direction. It is restrained by the ray's telekinetic grip until the start of the beholder's next turn or until the beholder is incapacitated. If the target is an object weighing 300 pounds or less that isn't being worn or carried, it is moved up to 30 feet in any direction. The beholder can also exert fine control on objects with this ray, such as manipulating a simple tool or opening a door or a container.

Optic Fire Blast (Recharge 5-6). The beholder's central eye projects fire in a 60-foot cone. Each creature in that area must succeed on a DC 15 Dexterity saving throw, taking 27 (6d8) fire damage on a failed save, or half as much damage on a successful one.

LEGENDARY ACTIONS

The beholder can take 3 legendary actions, using the Eye Ray option below. It can take only one legendary action at a time and only at the end of another creature's turn. The beholder regains spent legendary actions at the start of its turn.

Eye Ray. The beholder uses one random eye ray.

EYE OF FROST

The Eye of Frost is a solitary type of beholderkin that has mostly shunned the rest of its kind. It has ivory white chitinous skin that blends well with its preferred snowy surroundings. It is almost always only found in arctic locales or in cavern complexes deep beneath frozen glaciers. It prefers to have servants and slaves though, thus it would go out of its way to conquer a local humanoid or monstrous tribe, slaying its leaders before finally taking over as its master. It wouldn't be surprising to find its lair to be occupied by winter wolves, yeti, and arctic goblins that do its bidding.

As with the Eye of Flame, the Eye of Frost is valued by more powerful cold-type creatures such as white dragons and frost giants for its ability to project cold vulnerability. Thus, they are often bribed and paid handsomely for their services as lair guardians.

Cold Vulnerability Cone. The beholder's central eye creates an area of vulnerability to cold, in a 120-foot cone. While inside the area of effect, a creature that is not immune to cold gains vulnerable to cold. If a creature takes cold damage while inside the area of effect, its speed is halved, it can't take reactions, and it can take either an action or a bonus action on its turn, not both. These effects last until the end of the creature's next turn.

At the start of each of its turns, the beholder decides which way the cone faces and whether the cone is active.

ACTIONS

Bite. *Melee Weapon Attack:* +4 to hit, reach 5 ft., one target. *Hit:* 14 (4d6) piercing damage.

Eye Rays. The beholder shoots two of the following magical eye rays at random (reroll duplicates), choosing one to two targets it can see within 120 feet of it:

1. **Frost Ray.** The targeted creature must succeed on a DC 15 Dexterity saving throw, taking 22 (5d8) cold damage on a failed save, or half as much damage on a successful one.

2. **Freeze Ray.** The targeted creature must succeed on a DC 15 Strength saving throw, taking 10 (3d6) cold damage and is restrained for 1 minute, or half as much damage and is not restrained on a successful one. While restrained in this way, the target takes 10 (3d6) cold damage at the start of each of the beholder's turns. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

3. **Telekinetic Ray.** If the target is a creature, it must succeed on a DC 15 Strength saving throw or the beholder moves it up to 30 feet in any direction. It is restrained by the ray's telekinetic grip until the start of the beholder's next turn or until the beholder is incapacitated. If the target is an object weighing 300 pounds or less that isn't being worn or carried, it is moved up to 30 feet in any direction. The beholder can also exert fine control on objects with this ray, such as manipulating a simple tool or opening a door or a container.

LEGENDARY ACTIONS

The beholder can take 3 legendary actions, using the Eye Ray option below. It can take only one legendary action at a time and only at the end of another creature's turn. The beholder regains spent legendary actions at the start of its turn.

Eye Ray. The beholder uses one random eye ray.

REACTIONS

Ice Armor. The beholder adds 4 to its AC against one weapon or spell attack that would hit it. To do so, the beholder must see the attacker.

ULTIMATE TYRANT (HIVE MOTHER)

The Ultimate Tyrant, also known as the Hive Mother, is a massive 12-foot diameter monstrosity that dwarfs all other beholders. Extremely rare and only found within the beholder communities and even revered as a god, the centuries-old Ultimate Tyrant holds absolute power and dominion over all other beholders. Its cruelty and tyranny has no limits, and it spends most of its time scheming and planning on how to expand its territories and reach.

In combat, the ultimate tyrant prefers to hang back and observe while its minions do the fighting. If it respects its enemies, it unleashes its eye rays at the most vulnerable targets while keeping its central eye focused on enemy spellcasters. If it does not, it moves in to take a bite at them instead.

Eye Rays. The ultimate tyrant shoots four of the following magical eye rays at random (reroll duplicates), choosing one to four targets it can see within 120 feet of it:

1. **Charm Ray.** The targeted creature must succeed on a DC 20 Wisdom saving throw or be charmed by the ultimate tyrant for 1 hour, or until the ultimate tyrant harms the creature.

2. **Paralyzing Ray.** The targeted creature must succeed on a DC 20 Constitution saving throw or be paralyzed for 1 minute. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

9. **Disintegration Ray.** If the target is a creature, it must succeed on a DC 20 Dexterity saving throw or take 45 (10d8) force damage. If this damage reduces the creature to 0 hit points, its body becomes a pile of fine gray dust. If the target is a Large or smaller nonmagical object or creation of magical force, it is disintegrated without a saving throw. If the target is a Huge or larger object or creation of magical force, this ray disintegrates a 10-foot cube of it.

BLIGHT

ANCIENT BLIGHT

Ancient blights were once treants that have been corrupted by the blood of Gulthias. It resembles a normal dead tree from afar, until its roots come alive and become grasping, clawing tendrils when a victim comes too close. Once it has captured its prey, the ancient blight clubs it to death with its powerful limbs. It then lets the victim's blood drain into the ground where its roots wait to absorb it.

TREE BLIGHT

Tree blights are corrupted awakened trees. They no longer swing their limbs but instead have branches that end in claws which they use to tear their victims to shreds. The insidious tree blights will mostly set themselves near a seldomly used path or animal trail and lie in wait amongst other snags. It is not uncommon to find them around a hag's lair.

BUGBEARS

BRUISER

Bruisers are a bugbear tribe's shock troops, always on the frontlines leading the raid or attack. They are often armed with greataxes but some may wield two weapons at a time.

CHAMPION OF HRUGGEK

Believed to be blessed by the bugbear deity, the Champion of Hruggek is often the largest and mightiest bugbear of the tribe. Wielding an oversized morningstar, this monstrous bugbear can stagger even the hardest of opponents if it hits them hard enough.

FOOTPAD

Cunning and sneaky, the footpads serve as the tribe's scouts and assassins. They can infiltrate enemy camps, strangle targets quietly with their garrotes, and leave without getting noticed.

MARAUDER

These highly mobile bugbears are killers who aim to break enemy ranks and distract defenders with their attacks. In battle, the raiders move to flank their foes or rush vulnerable targets in order to create openings for their allies.

PRIEST OF HRUGGEK

The priests often hold the most influence and political power of a tribe. They are primarily concerned with advancing Hruggek's and their tribes' interests, as well as their own.

While they primarily serve as support, priests of Hruggek relish the opportunity to be in the thick of the battle, smiting foes with their empowered weapons as well as bestowing boons to nearby allies.

Fury of Hruggek. As a bonus action, when the bugbear hits a creature with a weapon attack, it can expend a spell slot to deal 1d8 poison damage to the target, and the target must succeed on a DC 14 Wisdom saving throw or be frightened until the end of the bugbear's next turn. If the bugbear expends a spell slot of 2nd level or higher, the extra poison damage increases by 1d8 for each level above 1st (maximum 5d8).

BULLYWUGS

BRUTE

These 7-foot tall, squat monstrosities look like humanoid bullfrogs, and are the most savage of their kind. They will try to eat anything they can kill and fit into their maws, even other bullywugs.

CHIEFTAIN

The opportunistic bullywug chieftain cares nothing more than to fatten itself up and accumulate as much wealth as it can. It will not hesitate to sacrifice its kin if it will in any way improve its current standing. But if forced into battle, it will fight fiercely and lead its troops... for as long as its life will not be in any imminent danger.

SWAMP STALKER

Swampstalkers serve its bullywug tribe as their best scouts and hunters. If they find an opportunity to strike without getting noticed, they will do so. If not, they will lie in wait, observe their prey, and report back to the tribe.

WITCH DOCTOR

Bullywugs used to revere Ramenos, an evil and gluttonous deity that has long since died. And yet it is not fully understood how bullywug witch doctors continue to draw supernatural power from the dead god, which enables them to imbue themselves with deadly, poisonous attacks.

BULETTE

GREAT BULETTE

Even more terrible than the bulettes are their very rare elder cousins, the great bulettes.

About the size of a two-story house, the ferocious great bulette can lay waste to a village in a few hours and not leave a single survivor. Adventurers have stumbled into dungeons that have been stripped of its inhabitants, devoured by the massive bulette that only cares to eat, leaving only gaping tunnels and pits in its wake.

In combat, the great bulette prefers to ambush its prey by bursting forth from underground to knock them down. It then uses *Deadly Leap* if it can hit two or more targets. Afterwards, it will focus on trying to catch a target with its bite so that it can swallow it.

Challenge 12 (8,400 XP)

Standing Leap. The bulette's long jump is up to 40 feet and its high jump is up to 20 feet, with or without a running start.

Burst Forth (Recharges after a Short or Long Rest). As a bonus action, the bulette breaks through solid ground or wall, showering the area with debris. Each creature within 15 feet of the bulette that is surprised must succeed on a DC 18 Strength saving throw, taking 20 (4d6 + 6) bludgeoning damage and is knocked prone on a failed save, or half as much damage and isn't knocked prone on a successful one.

Relentless (Recharges after a Short or Long Rest). If the bulette takes 29 damage or less that would reduce it to 0 hit points, it is reduced to 1 hit point instead.

ACTIONS

Multiattack. The bulette makes three melee attacks: one with its bite and two with its claws.

Bite. *Melee Weapon Attack:* +10 to hit, reach 5 ft., one target.

Hit: 38 (5d12 + 6) piercing damage, and if the target is Medium or smaller, it is grappled (escape DC 16). Until this grapple ends, the bulette can bite only the grappled creature and has advantage on attack rolls to do so.

Claw. Melee Weapon Attack: +10 to hit, reach 5 ft., one target. *Hit:* 19 (3d8 + 6) slashing damage.

Deadly Leap. If the bulette jumps at least 15 feet as part of its movement, it can then use this action to land on its feet in a space that contains one or more other creatures. Each of those creatures must succeed on a DC 18 Strength or Dexterity saving throw (target's choice) or be knocked prone and take 19 (3d8 + 6) bludgeoning damage plus 19 (3d8 + 6) slashing damage. On a successful save, the creature takes only half the damage, isn't knocked prone, and is pushed 5 feet out of the bulette's space into an unoccupied space of the creature's choice. If no unoccupied space is within range, the creature instead falls prone in the bulette's space.

Swallow. The bulette makes one bite attack against a Medium or smaller target it is grappling. If the attack hits, the target is also swallowed, and the grapple ends. While swallowed, the target is blinded and restrained, it has total cover against attacks and other effects outside the bulette, and it takes 21 (6d6) acid damage at the start of each of the bulette's turns. A bulette can have only up to one Medium or two Small creatures swallowed at a time.

If the bulette takes 30 damage or more on a single turn from the swallowed creature, the bulette must succeed on a DC 17 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the bulette. If the bulette dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 10 feet of movement, exiting prone.

CARRION CRAWLER

ENORMOUS CARRION CRAWLER

Every once in a while a carrion crawler will grow to an immense size that is unheard of. Whether it was due to it stumbling into a mass grave or it simply devoured anything it encountered, we will never know for sure. What we do know is that this monstrosity is nearly 40-feet long and rises up to 15 feet when it rears up to attack. Due to its size, its tentacles are large and long enough to attack different targets within reach, making it even more dangerous. Worse, it can unleash its tentacles in a blinding flurry, able to attack up to eight targets!

CHIMERA

Presented in this section are three additional and very rare species of chimera - the ankhimera, gorgimera, and mantimera, as well as the advanced version of the standard chimera - the ancient chimera.

ANCIENT CHIMERA

When the common chimera has lasted more than twice its average lifespan, it eventually grows into a more powerful and formidable form. It is easily twice the size of the normal chimera, and has developed the ability to unleash a frightening roar.

The ancient chimera is fiercely territorial, and will actively hunt down and drive out any competitors and predators within miles of its lair. When an ancient chimera has finally settled, the area around it soon becomes dismal and desolate - with the various bones of its prey littering the ground.

Although more beast than dragon, the ancient chimera is still fond of hoarding treasure, and may actually be coaxed by a formidable creature (such as an archmage, demon, lich, or giant) to serve as a guardian if paid and fed well.

Challenge 16 (15,000 XP)

Three-Headed. The chimera has advantage on Wisdom (Perception) checks and on saving throws against being blinded, charmed, deafened, frightened, stunned, and knocked unconscious.

ACTIONS

Multiattack. The chimera makes four attacks: one with its lion head's bite, one with its dragon head's bite, one with its horns, and one with its claws. When its fire breath is available, it can use the breath in place of its dragons head's bite.

Dragon Head's Bite. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:* 17 (2d10 + 6) piercing damage plus 4 (1d8) fire.

Lion Head's Bite. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:* 15 (2d8 + 6) piercing damage.

Horns. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:*

15 (2d8 + 6) bludgeoning damage.

Claws. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:* 15 (2d8 + 6) slashing damage.

Tail. *Melee Weapon Attack:* +11 to hit, reach 15 ft., one target. *Hit:* 15 (2d8 + 6) bludgeoning damage.

Fire Breath (Recharge 5-6). The dragon head exhales fire in a 30-foot cone. Each creature in that area must succeed on a DC 19 Dexterity saving throw, taking 63 (14d8) fire damage on a failed save, or half as much damage on a successful one.

LEGENDARY ACTIONS

The chimera can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The chimera regains spent legendary actions at the start of its turn.

Detect. The chimera makes a Wisdom (Perception) check.

Move. The chimera moves up to half its speed.

Tail. The chimera makes a tail attack.

Lion's Roar (Costs 2 Actions). The chimera's lion head emits a magical roar. Each creature within 120 feet that can hear its roar must succeed on a DC 19 Wisdom saving throw or be and frightened for one minute. If a creature fails its saving throw by 5 or more, the creature is also paralyzed while frightened for the same duration. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the Lion's Roar the next 24 hours.

Challenge 6 (2,300 XP)

Three-Headed. The ankhimera has advantage on Wisdom (Perception) checks and on saving throws against being blinded, charmed, deafened, frightened, stunned, and knocked unconscious.

ACTIONS

Multiattack. The ankhimera makes three attacks: one with its ankheg head's bite, one with its dragon head's bite, and one with its horns. When its acid spray is available, it can use the acid spray in place of its ankheg head's bite. When its cold breath is available, it can use the cold breath in place of its dragon head's bite. However, it can't use both acid spray and cold breath on the same turn.

Ankheg Head's Bite. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 11 (2d6 + 4) piercing damage plus 3 (1d6) acid. If the target is a Large or smaller creature, it is grappled (escape DC 14). Until this grapple ends, the ankheg head can bite only the grappled creature and has advantage on attack rolls to do so.

Dragon Head's Bite. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 15 (2d10 + 4) piercing damage plus 4 (1d8) cold.

Horns. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 10 (1d12 + 4) bludgeoning damage.

Acid Spray (Recharge 6). The ankheg head spits acid in a line that is 30 feet long and 5 feet wide, provided that it has no creature grappled. Each creature in that line must succeed on a DC 15 Dexterity saving throw, taking 21 (6d6) acid damage on a failed save, or half as much damage on a successful one.

Cold Breath (Recharge 6). The dragon head exhales cold in a 15-foot cone. Each creature in that area must succeed on a DC 15 Dexterity saving throw, taking 31 (7d8) cold damage on a failed save, or half as much damage on a successful one.

ANKHIMERA

The ankhimera is a fairly new type of chimeric creature that was created through the experiments of a mad wizard. Instead of having a lion's head and foreclaws, the ankhimera has an ankheg's. Due to this change, the ankhimera is able to burrow through earth using its ankheg's forelimbs. In combat, it is able to spit acid just like a normal ankheg, in addition to its normal dragon's breath. When hunting, the ankhimera prefers to wait and hide in a burrow to ambush prey.

GORGIMERA

The deadly gorgimera combines the standard dragon and lion parts with that of a gorgon's head and hind quarters. In addition to its dragon's breath, the chimera can now also use a petrification breath. The gorgimera is more aggressive and ill-tempered than its common cousin, and is quick to charge at any creature that approaches or looks like food to it.

Trampling Charge. If the gorgimera moves at least 20 feet straight toward a creature and then hits it with a gore attack on the same turn, that target must succeed on a DC 17 Strength saving throw or be knocked prone. If the target is prone, the gorgon can make one attack with its hooves against it as a bonus action.

ACTIONS

Multiattack. The gorgimera makes four attacks: one with its lion head's bite, one with its dragon head's bite, one with its gore, and one with its claws. When its lightning breath is available, it can use the lightning breath in place of its dragon head's bite. When its petrification breath is available, it can use the petrification breath in place of its gore. However, it can't use both lightning and petrification breaths on the same turn.

Dragon Head's Bite. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 16 (2d10 + 5) piercing damage plus 5 (1d10) lightning.

Lightning Breath (Recharge 6). The dragon head exhales lightning in a 30-foot line that is 5 feet wide. Each creature in that line must succeed on a DC 16 Dexterity saving throw, taking 44 (8d10) lightning damage on a failed save, or half as much damage on a successful one.

Petrification Breath (Recharge 6). The gorgon head exhales petrifying gas in a 15-foot cone. Each creature in that area must succeed on a DC 14 Constitution saving throw. On a failed save, a target begins to turn to stone and is restrained. The restrained target must repeat the saving throw at the end of its next turn. On a success, the effect ends on the target. On a failure, the target is petrified until freed by the greater restoration spell or other magic.

MANTIMERA

While not as powerful as the gorgimera, the mantimera is certainly the most hideous species of chimera. Instead of the standard lion parts, the mantimera has the head, forelimbs, and tail of a mantichore. Just like a mantichore, it can unleash terrible iron-like spikes from its tail during combat.

ACTIONS

Multiattack. The chuul makes two pincer attacks and uses its telekinetic pull. If the chuul is grappling a creature, the chuul can also use its tentacles once.

Pincer. Melee Weapon Attack: +10 to hit, reach 10 ft., one target.

Hit: 17 (2d10 + 6) bludgeoning damage. The target is grappled (escape DC 16) if it is a Huge or smaller creature and the chuul doesn't have two other creatures grappled.

Tentacles. One creature grappled by the chuul must succeed on a DC 17 Constitution saving throw or be poisoned for 1 minute. Until this poison ends, the target is paralyzed and takes 11 (2d10) poison damage at the start of each of its turns. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Telekinetic Pull. The chuul projects a powerful telekinetic force that grips and crushes a target within 120 feet. If the target is a Huge or smaller creature, it must succeed on a DC 13 Strength saving throw or it takes 16 (3d10) psychic damage and the chuul pulls the target up to 30 feet towards itself. It is restrained by the chuul's telekinetic grip until the start of the chuul's next turn or until the chuul is incapacitated.

CHUUL JUGGERNAUT

Although rare, some chuul grow to an immense size and develop some psychic abilities. These are called juggernauts, and are often sought out by aboleths to use as personal guardians.

UCHUULUN

Mind flayers capture and enslave chuuls to serve as guardians. They implant chuuls with illithid tadpoles that causes the chuuls to transform into an Uchuuluns, or slime chuul. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

CLOAKERS

CLOAKER LORD

Cloaker Lords are huge shadows that take to the air, having an average wingspan of 30 feet. They are the highly intelligent supreme leaders and rulers of all cloakerkind and sometimes lead their kin in daring raids against Underdark drow, svirfneblin, and illithid communities. However, cloaker lords prefer to stay within the confines of their lairs, sending out cloakers to scout and do their bidding. They are never without at least half a dozen cloakers nearby as bodyguards.

When forced into combat, a cloaker lord first unleashes its spells and uses its phantasm for protection. When it finds a suitable vulnerable target, such as a spellcaster, it targets that for its bite attack and attachment. While attached to its victim, the cloaker lord will fend off attackers with its tail, disrupting moan, and commanded cloakers.

False Appearance. While the cloaker lord remains motionless without its underside exposed, it is indistinguishable from a dark leather cloak.

Light Sensitivity. While in bright light, the cloaker lord has disadvantage on attack rolls and Wisdom (Perception) checks that rely on sight.

Innate Spellcasting (Psionics). The cloaker lord's spellcasting ability is Intelligence (spell save DC 17). The cloaker lord can innately cast the following spells, without providing material components:

At will: *darkness*, *invisibility*, *phantasmal force*

3/day each: *evard's black tentacles*, *major image*, *stinking cloud*

2/day each: *dominate person*, *hold monster*, *negative energy flood*

1/day each: *maddening darkness*, *plane shift*

ACTIONS

Multiattack. The cloaker lord uses Command Cloaker. It then makes two attacks: one with its bite and one with its tail. It can use its moan or disrupting moan in place of its bite.

Bite. Melee Weapon Attack: +11 to hit, reach 5 ft., one creature. **Hit:** 12 (3d6 + 5) piercing damage, and if the target is Large or smaller, the cloaker lord attaches to it. If the cloaker lord has advantage against the target, the cloaker lord attaches to the target's head, and the target is blinded and unable to breathe while the cloaker lord is attached. While attached, the cloaker lord can make this attack only against the target and has advantage on the attack roll. The cloaker lord can detach itself by spending 5 feet of its movement. A creature, including the target, can take its action to detach the cloaker lord by succeeding on a DC 19 Strength check.

Tail. Melee Weapon Attack: +11 to hit, reach 15 ft., one creature. **Hit:**

10 (1d10 + 5) piercing damage.

Command Cloaker. The cloaker lord targets an allied cloaker within 30 feet that can see and hear the cloaker lord. The target uses its reaction to move up to half its speed and make one melee attack.

Moan. Each creature within 60 feet of the cloaker lord that can hear its moan and that isn't an aberration must succeed on a DC 17 Wisdom saving throw or become frightened for 1 minute. If the target's saving throw fails by 5 or more, it is paralyzed while frightened in this way. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful, the creature is immune to the cloaker lord's moan for the next 24 hours.

Disrupting Moan (Recharges 5-6). Each creature within 60 feet of the cloaker lord that can hear its moan and that isn't an aberration must succeed on a DC 17 Intelligence saving throw. On a failed save, the target takes 21 (4d8+3) psychic damage and is stunned until the end of its next turn. On a successful save, the target takes half as much damage and isn't stunned.

Phantasms (Recharges 5-6). The cloaker lord magically creates four illusory duplicates of itself if it isn't in bright light. The duplicates move with it and mimic its actions, shifting position so as to make it impossible to track which cloaker lord is the real one. If the cloaker lord is ever in an area of bright light, the duplicates disappear.

Whenever any creature targets the cloaker lord with an attack or a harmful spell while a duplicate remains, that creature rolls randomly to determine whether it targets the cloaker lord or one of the duplicates. A creature is unaffected by this magical effect if it can't see or if it relies on senses other than sight.

A duplicate has the cloaker lord's AC and uses its saving throws. If an attack hits a duplicate, or if a duplicate fails a saving throw against an effect that deals damage, the duplicate disappears.

LEGENDARY ACTIONS

The cloaker lord can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The cloaker lord regains spent legendary actions at the start of its turn.

Move. The cloaker lord moves up to half its speed without provoking opportunity attacks.

Tail. The cloaker lord makes a tail attack.

SHADOW CLOAKER

Shadow Cloakers, also known as Shadowcloaks, are menacing hunters that have been tainted by the Shadowfell. Vicious and cunning, they scour the Underdark caverns for victims to torment and consume.

If the cloaker has advantage against the target, the cloaker attaches to the target's head, and the target is blinded and unable to breathe while the cloaker is attached. While attached, the cloaker can make this attack only against the target and has advantage on the attack roll. The cloaker can detach itself

by spending 5 feet of its movement. A creature, including the target, can take its action to detach the cloaker by succeeding on a DC 17 Strength check.

Tail. *Melee Weapon Attack:* +8 to hit, reach 10 ft., one creature. *Hit:* 8 (1d8 + 4) slashing damage plus 3 (1d6) necrotic damage.

Vampiric Drain. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one creature the cloaker is attached to. *Hit:* 11 (2d6 + 4) piercing damage plus 7 (2d6) necrotic damage. The target's hit point maximum is reduced by an amount equal to the necrotic damage taken, and the cloaker regains hit points equal to that amount. The reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0. A humanoid slain in this way rises as a shadow under the cloaker's control.

Moan. Each creature within 60 feet of the cloaker that can hear its moan and that isn't an aberration must succeed on a DC 14 Wisdom saving throw or become frightened until the end of the cloaker's next turn. If a creature's saving throw is successful, the creature is immune to the cloaker's moan for the next 24 hours.

Phantasms (Recharges after a Short or Long Rest). The cloaker magically creates three illusory duplicates of itself if it isn't in bright light. The duplicates move with it and mimic its actions, shifting position so as to make it impossible to track which cloaker is the real one. If the cloaker is ever in an area of bright light, the duplicates disappear.

Whenever any creature targets the cloaker with an attack or a harmful spell while a duplicate remains, that creature rolls randomly to determine whether it targets the cloaker or one of the duplicates. A creature is unaffected by this magical effect if it can't see or if it relies on senses other than sight.

A duplicate has the cloaker's AC and uses its saving throws. If an attack hits a duplicate, or if a duplicate fails a saving throw against an effect that deals damage, the duplicate disappears.

Shadow Jump. If the cloaker is in dim light or darkness, each creature of the cloaker's choice within 5 feet of it must succeed on a DC 14 Constitution saving throw or take 21 (3d12 + 2) necrotic damage.

The cloaker then magically teleports up to 60 feet to an unoccupied space it can see. It can bring one creature it's attached to, teleporting that creature to an unoccupied space it can see within 5 feet of its destination. The destination spaces of this teleportation must be in dim light or darkness.

COCKATRICE

GREATER COCKATRICE

The abominable greater cockatrice is a far more horrifying version of the common cockatrice. It is about the size of a horse, has more leathery reptilian scales and skin than it has feathers, a long serpentine tail that ends with a vicious stinger, and a foul beak that drips with venom.

Rare Guardians. Thankfully, the greater cockatrice is rarely encountered, as it avoids populous areas, and is said to haunt only deserted ruins and desolate locales. They are often kept as

guardians or pets by more powerful creatures such as lamias and greater medusae.

Prized Carcass. Apothecarists, artificers, enchanters, and wizards greatly value the body parts of a greater cockatrice as magical ingredients for their concoctions, spells, and magical creations and would hire adventurers to seek and hunt a greater cockatrice. Only a few manage to return to claim their rewards, and seldom do they account for the cost it took.

Petrifying Gaze. If a creature starts its turn within 30 feet of the cockatrice and the two of them can see each other, the cockatrice can force the creature to make a DC 14 Constitution saving throw if the cockatrice isn't incapacitated. On a failed save, the creature magically begins to turn to stone and is restrained. It must repeat the saving throw at the end of its next turn. On a success, the effect ends. On a failure, the creature is petrified until freed by the greater restoration spell or other magic.

A creature that isn't surprised can avert its eyes to avoid the saving throw at the start of its turn. If it does so, it can't see the cockatrice until the start of its next turn, when it can avert its eyes again. If it looks at the cockatrice in the meantime, it must immediately make the save.

ACTIONS

Multiattack. The cockatrice makes three attacks: one with its bite, one with its claws, and one with its stinger.

Beak. Melee Weapon Attack: +7 to hit, reach 5 ft., one creature. **Hit:** 11 (2d6 + 4) piercing damage plus 10 (3d6) poison damage, and the target must succeed on a DC 14 Constitution saving throw against being magically petrified. On a failed save, the creature begins to turn to stone and is restrained. It must repeat the saving throw at the end of its next turn. On a success, the effect ends. On a failure, the creature is petrified for 24 hours.

Claws. Melee Weapon Attack: +7 to hit, reach 5 ft., one target. **Hit:** 11 (2d6 + 4) slashing damage.

Stinger. Melee Weapon Attack: +7 to hit, reach 10 ft., one creature. **Hit:** 11 (2d6 + 4) piercing damage. The target must succeed on a DC 15 Constitution saving throw, taking 31 (9d6) poison damage on a failed save, or half as much damage on a successful one.

COUATL

GREATER COUATL

Greater couatls are the advanced and larger cousins of the common couatl, and are the natural leaders and champions of a couatl community.

They sometimes serve as messengers of the gods and are sometimes sent on secret missions to support and or rescue heroes in need. They seldom show their true form, and often use a humanoid form that it deems most comfortable for its audience.

Innate Spellcasting. The greater couatl's spellcasting ability is Charisma (spell save DC 18). It can innately cast the following spells, requiring only verbal components:

At will: *detect evil and good, detect magic, detect thoughts*

3/day each: *bless, create food and water, cure wounds, lesser restoration, protection from poison, sanctuary, shield*

2/day each: *dawn, dream, greater restoration, scrying*

1/day each: *divine word, resurrection, temple of the gods*

Ethereal Jaunt. As a bonus action, the greater couatl can magically shift from the Material Plane to the Ethereal Plane, or vice versa.

Flyby. The greater couatl doesn't provoke an opportunity attack when it flies out of an enemy's reach.

Magic Weapons. The greater couatl's weapon attacks are magical.

Shielded Mind. The greater couatl is immune to scrying and to any effect that would sense its emotions, read its thoughts, or detect its location.

Twist Free. The greater couatl automatically makes its saving throws against paralysis and being restrained at the end of its turn as long as it is not unconscious.

ACTIONS

Multiattack. The greater couatl makes two attacks: one with its bite and one to constrict.

Bite. *Melee Weapon Attack:* +10 to hit, reach 5 ft., one creature.

Hit: 12 (2d6 + 5) piercing damage and the target must succeed on a DC 18 Constitution saving throw or be poisoned for 24 hours. Until this poison ends, the target is unconscious. Another creature can use an action to shake the target awake.

Constrict. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one Large or smaller creature. *Hit:* 16 (2d10 + 5) bludgeoning damage, and the target is grappled (escape DC 15). Until this grapple ends, the target is restrained, and the greater couatl can't constrict another target.

Change Shape. The greater couatl magically polymorphs into a humanoid or beast that has a challenge rating equal to or less than its own, or back into its true form. It reverts to its true form if it dies. Any equipment it is wearing or carrying is absorbed or borne by the new form (the greater couatl's choice).

In a new form, the greater couatl retains its game statistics and ability to speak, but its AC, movement modes, Strength, Dexterity, and other actions are replaced by those of the new form, and it gains any statistics and capabilities (except class features, legendary actions, and lair actions) that the new form has but that it lacks. If the new form has a bite attack, the greater couatl can use its bite in that form.

LEGENDARY ACTIONS

The greater couatl can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The greater couatl regains spent legendary actions at the start of its turn.

Bite. The greater couatl makes a bite attack.

Teleport. The greater couatl teleports up to 60 feet to an unoccupied space it can see.

Cast a Spell (Costs 2 Actions). The greater couatl casts a spell from its list of innate spells, using a spell slot as normal.

Radiant Burst (Costs 3 Actions). The greater couatl emits a burst of radiant energy. All allies within 20 feet of the greater couatl regain 18 (3d8) hit points. All other creatures within 20 feet must succeed on a DC 18 Dexterity saving throw, taking 18 (3d8) radiant damage on a failed save, or half as much on a successful one.

CRAWLING CLAW

SWARM OF CRAWLING CLAWS

A swarm of crawling claws is a horrid sight to behold. It acts like a normal swarm of insects with a malevolent intelligence that has caught its victims by surprise.

The swarm often attacks only a single creature at a time, using sheer numbers to overwhelm and knock a target prone so it can finish it with its flesh rending fingers.

ACTIONS

CYCLOPES

CYCLOPS BERSERKER

These muscled brutes always charge into battle fearlessly, aiming to draw attention to themselves and away from their weaker allies. They are prized by slavers as they make excellent arena gladiators.

CYCLOPS STORM SORCERER

Often thought of as shamans by their kin, these natural spellcasters are able to harness the natural energy around themselves and control the weather to suit the needs of their tribe.

CYCLOPS WARRIOR

Slightly more experienced in battle than the normal cyclops, these warriors often serve as guards more than soldiers.

ACTIONS

Multiattack. The cyclops makes two greataxe attacks. It can use its Cleaving Swing in place of one of these attacks, if available.

Greataxe. *Melee Weapon Attack:* +10 to hit, reach 10 ft., one target. *Hit:* 26 (3d12 + 7) slashing damage.

Spellcasting. The cyclops is a 9th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 15, +7 to hit with spell attacks). It has the following sorcerer spells prepared:

Cantrips (at will): *firebolt*, *light*, *mage hand*, *shocking grasp*

Quickened Spell: When the cyclops casts a spell that has a casting time of 1 action, it can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

DARKMANTLE

MINDMANTLE

In very rare instances, a darkmantle would happen upon a very weak, wounded, or dying mind flayer that has either been left by its companions or cast out from its community. Unable to defend itself, the once mighty mindflayer becomes prey to the lowly darkmantle.

Weeks after the darkmantle has consumed the mindflayer, a mutation curiously occurs. The darkmantle's head slightly increases in size, and its intelligence and awareness improves, slowly viewing its brethren as crude and slow. It transforms into a mindmantle and begins to crave brain matter.

Madness Inducers. At first, the mindmantle behaves like any other darkmantle. It clings to a cavern ceiling and waits for its prey to pass underneath. When it strikes, it attaches itself to its victim's head. As soon as it gets a strong hold, it uses its madness ability to gain control of it and fend off the victim's allies.

Damage Transfer. While attached to a creature, the mindmantle takes only half the damage dealt to it (rounded down) and that creature takes the other half.

Echolocation. The mindmantle can't use its blindsight while deafened.

False Appearance. While the mindmantle remains motionless, it is indistinguishable from a cave formation such as a stalactite or stalagmite.

ACTIONS

Crush. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one creature.

Hit: 6 (1d6 + 3) bludgeoning damage, and the mindmantle attaches to the target. If the target is Medium or smaller and the mindmantle has advantage on the attack roll, it attaches by engulfing the target's head, and the target is also blinded and unable to breathe while the mindmantle is attached in this way.

While attached to the target, the mindmantle can attack no other creature except the target but has advantage on its attack rolls. The mindmantle's speed also becomes 0, it can't benefit from any bonus

to its speed, and it moves with the target.

A creature can detach the mindmantle by making a successful DC 13 Strength check as an action. On its turn, the mindmantle can detach itself from the target by using 5 feet of movement.

Darkness Aura (3/Day). A 15-foot radius of magical darkness extends out from the mindmantle, moves with it, and spreads around corners. The darkness lasts as long as the mindmantle maintains concentration, up to 10 minutes (as if concentrating on a spell). Darkvision can't penetrate this darkness, and no natural light can illuminate it. If any of the darkness overlaps with an area of light created by a spell of 2nd level or lower, the spell creating the light is dispelled.

Madness. A target the mindmantle is attached to must succeed on a DC 12 Wisdom saving throw with disadvantage on the roll or be magically charmed by the mindmantle until the mindmantle dies, is incapacitated, or is detached from the target. While the target is charmed in this way, it can telepathically see through the mindmantle's eyes.

The charmed target is under the mindmantle's control and the mindmantle and the target can communicate telepathically. The mindmantle can choose to loosen its grip on the target's head so that the target can breathe.

On each of its turns, the charmed target must move toward a creature of the mindmantle's choosing and make a melee attack against it if it is within reach.

On its subsequent turns, the mindmantle must use its action to maintain control over the target, or the effect ends.

The target can make a Wisdom saving throw at the end of each of its turns. On a success, the spell ends. Also, whenever the charmed target takes damage, the target can repeat the saving throw. On a success, the effect ends.

DEATH KNIGHT LORD

DEATH KNIGHT LORD

Death Knight Lords were once powerful noble paladins and blackguards. Stronger and deadlier, it is fortunate that there are only a few of them existing, and each has a name that brings chills up the spines of hardened adventurers.

Seldom does the death knight lord leave its lair. But when it does, it is a harrowing sight as a death knight lord is never without its entourage of skeleton champions, knights, and banshees. Most have nightmares as steeds but a few command skeleton dragons or even dracoliches. More often than not, if it is travelling, it is leading an army of the undead.

Undead Nature. A death knight lord doesn't require air, food, drink, or sleep.

Fear Aura. A creature that starts its turn within 20 feet of the death knight must succeed on a DC 13 Wisdom saving throw, unless the death knight is incapacitated. On a failed save, the creature is frightened for 1 minute. While frightened in this way, a creature must take the Dash action and move away from the death knight by the safest available route on each of its turns, unless there is nowhere to move, in which case it needn't take the Dash action. If the creature ends its turn in a location where it doesn't have line of sight to the death knight, the creature can repeat the saving throw. On a success, the effect ends. If a creature's saving throw is successful, the creature is immune to the death knight's Fear Aura for the next 24 hours.

Magic Resistance. The death knight has advantage on saving throws against spells and other magical effects.

Marshal Undead. Unless the death knight is incapacitated, it and undead creatures of its choice within 60 feet of it have advantage on saving throws against features that turn undead.

Smite (1/Turn). As a bonus action, when the death knight hits a creature with a weapon attack, it can expend a 1st level spell slot to deal 2d8 radiant or necrotic damage to the target. If the death knight expends a spell slot of 2nd level or higher, the extra damage increases by 1d8 for each level above 1st (maximum 5d8).

Spellcasting. The death knight is a 19th-level spell caster. Its spellcasting ability is Charisma (spell save DC 19, +11 to hit with spell attacks). It has the following paladin spells prepared:

1st level (4 slots): *command, compelled duel, searing smite*

2nd level (3 slots): *hold person, magic weapon*

3rd level (3 slots): *dispel magic, elemental weapon*

4th level (3 slots): *banishment, staggering smite*

5th level (2 slots): *destructive wave (necrotic)*

ACTIONS

Multiattack. The death knight uses Command Undead. It then makes three melee attacks.

Longsword. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:* 9 (1d8 + 5) slashing damage, or 10 (1d10 + 5) slashing damage if used with two hands, plus 22 (5d8) necrotic damage.

Shield Bash. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one creature. *Hit:* 7 (1d4 + 5) bludgeoning damage plus 22 (5d8) necrotic damage. If the target is Large or smaller, it must succeed on a DC 19 Strength saving throw or be knocked prone.

Command Undead. The death knight targets one undead ally it can see within 30 feet of it and gives it a telepathic command. The target can use its reaction to move up to half its speed and make one weapon attack.

Hellfire Orb (1/Day). The death knight hurls a magical ball of fire that explodes at a point it can see within 120 feet of it. Each creature in a 20-foot radius sphere centered on that point must succeed on a DC 19 Dexterity saving throw. The sphere spreads around corners. A creature takes 42 (12d6) fire damage and 42 (12d6) necrotic damage on a failed save, or half as much damage on a successful one.

LEGENDARY ACTIONS

The death knight can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The death knight regains spent legendary actions at the start of its turn.

Weapon Attack. The death knight makes a weapon attack.

Move. The death knight moves up to half its speed.

Command. The death knight uses its Command Undead ability.

Cast a Spell (Costs 1-3 Actions). The death knight expends a spell slot to cast a 1st-, 2nd-, or 3rd-level spell that he has prepared. Doing so costs 1 legendary action per level of the spell.

REACTIONS

Parry. The death knight adds 6 to its AC against one melee attack that would hit it. To do so, the death knight must see the attacker and be wielding a melee weapon.

DEMONS AND DEVILS

Presented in these two sections are additional advanced versions of almost every demon and devil presented in the *Monster Manual*.

DEMONS

BALOR LORD

Balor lords are amongst the mightiest of demons, second only to Demon Princes of the Abyss and Demon Lords. Unlike normal balors, balor lords have terrifying cataclysmic powers and additional magical abilities.

There are currently only a few known balor lords. Some of the well known ones are Alzoll, Axithar, Badrazel, Balor (the original and strongest of all balors), Chare'en, Errtu, Ndulu, Ter-Soth, and Wendonai.

When the balor dies, it explodes, and each creature within 30 feet of it must succeed on a DC 21 Dexterity saving throw, taking 70 (20d6) fire damage on a failed save, or half as much damage on a successful one. The explosion ignites flammable objects in that area that aren't being worn or carried, and it destroys the balor's weapons.

Fire Aura. At the start of each of the balor's turns, each creature within 5 feet of it takes 10 (3d6) fire damage, and flammable objects in the aura that aren't being worn or carried ignite. A creature that touches the balor or hits it with a melee attack while within 5 feet of it takes 10 (3d6) fire damage.

Magic Resistance. The demon has advantage on saving throws against spells and other magical effects.

Magic Weapons. The balor's weapon attacks are magical.

Innate Spellcasting. The balor's innate spellcasting ability is Charisma (spell save DC 21). The balor can innately cast the following spells, without providing material components:

3/day each: *dispel magic*, *dominate person*, *telekinesis*

1/day each: *dominate monster*, *fire storm*, *power word stun*

ACTIONS

Multiattack. The balor can use its Frightful Presence. It then makes two attacks: one with its longsword and one with its whip.

Longsword. *Melee Weapon Attack:* +15 to hit, reach 10 ft., one target. *Hit:* 21 (3d8 + 8) slashing damage plus 13 (3d8) lightning damage. If the balor scores a critical hit, it rolls damage dice three times, instead of twice.

Whip. *Melee Weapon Attack:* +15 to hit, reach 30 ft., one target. *Hit:* 15 (2d6 + 8) slashing damage plus 10 (3d6) fire damage, and the target must succeed on a DC 23 Strength saving throw or be pulled up to 25 feet toward the balor.

Frightful Presence. Each creature of the balor's choice that is within 120 feet of the balor and aware of it must succeed on a DC 21 Wisdom saving throw or become frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the balor's Frightful Presence for the next 24 hours.

Meteor Strike (1/Day). While flying, the balor lord dives at least 40 feet toward a target space on the ground, creating a massive explosion 60 feet in diameter centered on the balor. This sprays rock and fire in all directions and forms a crater the size of the explosion. Each creature within 30 feet of the target space must succeed on a DC 21 Strength saving throw, taking 28 (8d6) fire damage and 28 (8d6) bludgeoning damage and is knocked prone on a failed save, or half as much damage and is not knocked prone on a successful one. Additionally, the ground in that area becomes difficult terrain is engulfed in flames for ten minutes. A creature that starts its turn in the area while it is still in flames takes 10 (3d6) fire damage. Each 5-foot-square portion of the area requires at least 30 minutes to clear by hand.

Teleport. The balor magically teleports, along with any equipment it is wearing or carrying, up to 120 feet to an unoccupied space it can see.

LEGENDARY ACTIONS

A creature that touches the immolith or hits it with a melee attack while within 5 feet of it takes 5 (1d10) fire damage. In addition, the immolith can enter a hostile creature's space and stop there. The first time it enters a creature's space on a turn, that creature takes 5 (1d10) fire damage and catches fire; until someone takes an action to douse the fire, the creature takes 5 (1d10) fire damage at the start of each of its turns.

Claw. *Melee Weapon Attack:* +12 to hit, reach 10 ft., one target. *Hit:* 15 (3d6 + 5) slashing damage.

Horror Nimbus (Recharges 5-6). The nalfeshnee magically emits scintillating, multicolored light. Each creature within 20 feet of the nalfeshnee that can see the light must succeed on a DC 16 Wisdom saving throw or be frightened for 1 minute. If the initial saving throw fails by 5 or more, the creature is paralyzed while frightened in this way. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the nalfeshnee's Horror Nimbus for the next 24 hours.

Ruthless Command (Recharges after a Short or Long Rest). For 1 minute, the nalfeshnee can issue a telepathic command whenever a nonhostile creature that it can see within 30 feet of it makes an attack roll. The creature takes 1d8 psychic damage and can add a d10 to its roll provided it can understand the nalfeshnee. A creature can benefit from only one ruthless command die at a time. This effect ends if the nalfeshnee is incapacitated.

Teleport. The nalfeshnee magically teleports, along with any equipment it is wearing or carrying, up to 120 feet to an unoccupied space it can see.

LEGENDARY ACTIONS

The nalfeshnee can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The nalfeshnee regains spent legendary actions at the start of its turn.

Claw. The nalfeshnee makes a claw attack.

Command. The nalfeshnee targets one ally it can see within 30 feet of it. If the target can see and hear the nalfeshnee, the target can make one weapon attack as a reaction.

Teleport (Costs 2 Actions). The nalfeshnee magically teleports, along with any equipment it is wearing or carrying, up to 120 feet to an unoccupied space it can see.

Cast a Spell (Costs 2 Actions). The nalfeshnee casts a spell from its list of innate spells, using a spell slot as normal.

NALFESHNEE CAPTAIN

The vicious nalfeshnee captain, unlike its lower-ranked brethren, is able to wield spells and bully demon underlings to follow its command. It is so ferocious in battle, it can incapacitate a creature momentarily with its rending iron claws.

Among the known nalfeshnee captains are Nalfeshnee himself and Zerevimeel.

GREATER SHADOW DEMON

When a more powerful demon such as a hezrou is slain and its spirit is unable to reform in the abyss, its essence can take form as a greater shadow demon. These insidious creatures are far deadlier and more frightening than the normal shadow demon.

Incorporeal Movement. The demon can move through other creatures and objects as if they were difficult terrain. It takes 5 (1d10) force damage if it ends its turn inside an object.

Light Sensitivity. While in bright light, the demon has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

Shadow Stealth. While in dim light or darkness, the demon can take the Hide action as a bonus action.

Shadow Step. While in dim light or darkness, the demon can teleport as a bonus action up to 60 feet to an unoccupied space it can see that is also in dim light or darkness. It then has advantage on the first melee attack it makes before the end of the turn.

ACTIONS

Multiattack. The demon makes two claw attacks.

Claw. *Melee Weapon Attack:* +7 to hit, reach 10 ft., one target. *Hit:* 14 (3d6 + 4) psychic damage or, if the demon had advantage on the attack roll, 25 (6d6 + 4) psychic damage.

Insidious Darkness (1/Day). Magical darkness surges forth from the demon, filling a 30-foot radius sphere centering around it and spreading around corners. A creature with darkvision can't see through this darkness. Non-magical light, as well as light created by spells of 4th level or lower, can't illuminate the area. Demonic cackling, screams, and laughter can be heard within the sphere. Whenever a creature that isn't a demon starts its turn in the sphere, it must succeed on a DC 14 Wisdom saving throw, taking 18 (4d8) psychic damage on a failed save, or half as much damage on a successful one. The demon must concentrate to maintain the insidious darkness (as if concentrating on a spell), which lasts for up to 1 minute.

Challenge 8 (3,900 XP)

Innate Spellcasting. The vrock's innate spellcasting ability is Wisdom (spell save DC 13). The vrock doomsayer can innately cast the following spells, without providing material components:

At will: *darkness*, *detect magic*, *heroism*, *mirror image*
3/day each: *polymorph* (self only), *telekinesis*

Magic Resistance. The vrock has advantage on saving throws against spells and other magical effects.

ACTIONS

Multiattack. The vrock doomsayer makes three attacks: one with its beak and two with its talons.

Beak. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 11 (2d6 + 4) piercing damage.

Talons. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 15 (2d10 + 4) slashing damage.

Spores (Recharge 5-6). A 15-foot-radius cloud of toxic spores extends out from the vrock. The spores spread around corners. Each creature in that area must succeed on a DC 15 Constitution saving throw or become poisoned. Until this poison ends, the target takes 5 (1d10) poison damage at the start of each of its turns. A target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. Emptying a vial of holy water on the target also ends the effect on it.

Stunning Screech (Recharge 6). The vrock emits a horrific screech. Each creature within 20 feet of it that can hear it and that isn't a demon must succeed on a DC 15 Constitution saving throw or be stunned until the end of its next turn.

Dance of Ruin (1/Day). The vrock doomsayer joins hands with at least 2 other vrocks in a circle, chanting and performing a wild ritual dance for 3 consecutive turns. They share the same initiative, and take their turns at the same time. At the end of 3 turns of dancing, a violent wave of crackling, infernal energy explodes in a 100-foot radius, centered on the vrocks. Each target caught in the explosion that isn't a demon must succeed on a DC 13 Dexterity saving throw, taking 21 (6d6) lightning damage and 21 (6d6) necrotic damage on a failed save, or half as much on a successful one. For each additional vrock that joins in the dance, the damage increases by 7 (2d6) lightning damage and 7 (2d6) necrotic damage, to a maximum of 35 (10d6) lightning damage and 35 (10d6) necrotic when five or more vrocks are dancing.

The dance of ruin immediately ends if the vrock doomsayer is incapacitated or dies, or if the number of vrocks performing the dance drops below 3.

VROCK DOOMSAYER

Vrock doomsayers are very rare type of vrock that can perform a ritualistic dance that enables them to harness destructive energy. Once very numerous, the vrock doomsayers have nearly died out, leaving only a few left who can perform the dance.

Amorphous Flurry (Demon Form only, Recharge 5-6). The yochlol elder makes four slam attacks.

Noxious Mist Form. The yochlol elder transforms into toxic mist or reverts to its true form. Any equipment it is wearing or carrying is also transformed. It reverts to its true form if it dies.

While in mist form, the yochlol elder is incapacitated and can't speak. It has a flying speed of 30 feet, can hover, and can pass through any space that isn't airtight. It has advantage on Strength, Dexterity, and Constitution saving throws, and it is immune to nonmagical damage.

While in mist form, the yochlol elder can enter a creature's space and stop there. Each time that creature starts its turn with the yochlol elder in its space, the creature must succeed on a DC 14 Constitution saving throw or take 10 (3d6) poison damage and be poisoned until the start of its next turn. Until this poison ends, the target is incapacitated.

Teleport. The yochlol elder teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Claw. Melee Weapon Attack: +7 to hit, reach 5 ft., one target. **Hit:** 7 (1d6 + 4) piercing damage. If the target is a creature other than an undead or a construct, it must succeed on a DC 15 Wisdom saving throw or be frightened. A frightened creature repeats the saving throw at the end of each of its turns, ending the effect on itself with a success. If the target's saving throw is successful, the target is immune to being frightened by the devil's claw for the next 24 hours.

Hurl Flame. Ranged Spell Attack: +7 to hit, range 60 ft., one target. **Hit:** 10 (3d6) fire damage. If the target is a flammable object that isn't being worn or carried, it also catches fire.

Tail. Melee Weapon Attack: +7 to hit, reach 10 ft., one creature. **Hit:** 11 (2d6 + 4) piercing damage. If the target is Medium or smaller, it is grappled (escape DC 14). Until this grapple ends, the target is restrained, the devil can automatically hit the target with its tail, and the devil can't make tail attacks.

REACTIONS

Redirect Attack. When a creature the devil can see targets it with an attack, the devil chooses another ally within 5 feet of it. The two swap places, and the chosen ally becomes the target instead.

Directed Strike (2/Day). When a creature the devil can see within 30 feet of it makes an attack roll, and the creature can hear the devil, the devil grants advantage to that roll.

Each time the devil hits the wounded target with this attack, the damage dealt by the wound increases by 5 (1d10). Any creature can take an action to stanch the wound with a successful DC 13 Wisdom (Medicine) check. The wound also closes if the target receives magical healing.

Chain. *Melee Weapon Attack:* +9 to hit, reach 15 ft., one target. *Hit:* 12 (2d6 + 5) slashing damage. The target is grappled (escape DC 15) if the devil isn't already grappling a creature. Until this grapple ends, the target is restrained and takes 7 (2d6) piercing damage at the start of each of its turns.

Chain Slam. The devil slams a Medium or smaller creature grappled by its chain into another creature or a solid surface within its reach. If slammed into another creature, both creatures must succeed on a DC 15 Strength saving throw or take 12 (2d6 + 5) bludgeoning damage and be stunned until the end of its next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

Whirling Chains (Recharge 6). The devil moves up to half its walking speed and targets each creature within 15 feet of it during its movement. Each target must succeed on a DC 15 Dexterity saving throw or take 19 (4d6 + 5) slashing damage. The devil's movement during this action will not provoke opportunity attacks. If the devil has a creature grappled by any of its chains (not the animated ones), the creature automatically fails its saving throw but is immediately released to a random space within 10 feet of the devil's space where it began to use Whirling Chains.

Animate Chains (Recharges after a Short or Long Rest). Up to four chains the devil can see within 60 feet of it magically sprout razor-edged barbs and animate under the devil's control, provided that the chains aren't being worn or carried.

Each animated chain is an object with AC 20, 20 hit points, resistance to piercing damage, and immunity to psychic and thunder damage. When the devil uses Multiattack on its turn, it can use each animated chain to make one additional chain attack. An animated chain can grapple one creature of its own but can't make attacks while grappling. An animated chain reverts to its inanimate state if reduced to 0 hit points or if the devil is incapacitated or dies.

REACTIONS

Unnerving Mask. When a creature the devil can see starts its turn within 30 feet of the devil, the devil can create the illusion that it looks like one of the creature's departed loved ones or bitter enemies. If the creature can see the devil, it must succeed on a DC 15 Wisdom saving throw or be frightened until the end of its turn.

it must succeed on a DC 19 Constitution saving throw or lose 10 (3d6) hit points at the start of each of its turns due to an infernal wound. Each time the devil hits the wounded target with this attack, the damage dealt by the wound increases by 10 (3d6). Any creature can take an action to stanch the wound with a successful DC 12 Wisdom (Medicine) check. The wound also closes if the target receives magical healing.

Hurl Flame. *Ranged Weapon Attack:* +8 to hit, range 150 ft., one target. *Hit:* 14 (4d6) fire damage. If the target is a flammable object that isn't being worn or carried, it also catches fire.

Spiked Chain Slam. The devil slams a Large or smaller creature grappled by its spiked chain into another creature or a solid surface within 20 feet. Both creatures must succeed on a DC 19 Strength saving throw or take 17 (2d10 + 6) bludgeoning damage and be stunned until the end of its next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

Sweeping Spiked Chains (Recharges 5-6). The devil expertly whirls its spiked chains rapidly around in a wide sweeping arc, and every creature within 20 feet of it must succeed on a DC 19 Strength saving throw. On a failed save, a creature takes 28 (4d10 + 6) slashing damage and, if it is Large or smaller, is knocked prone. On a successful save, the creature takes half as much damage and is not knocked prone. The devil can't use this feature if it has a creature grappled by its spiked chains.

Teleport. The devil magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

LEGENDARY ACTIONS

The devil can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The devil regains spent legendary actions at the start of its turn.

Move. The devil moves up to half its speed.

Attack. The devil makes one spiked chain, tail, or hurl flame attack.

Teleport (Costs 2 Actions). The devil magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Cast a Spell (Costs 2 Actions). The devil casts a spell from its list of innate spells, using a spell slot as normal.

ICE DEVIL OVERLORD

Second only to pit fiends and archdevils, the ice devil overlords are coldblooded and calculating military strategists that are willing to sacrifice their troops if it will give them the advantage in the long run.

Master of Frost. In combat, the ice devil overlord is set apart from its normal kin, with its frost aura, an array of devastating spells, and the ability to unleash freezing blizzards. In melee, few escape its dreaded ice spear that can chill the blood and numb the senses of its victims.

Challenge 18 (20,000 XP)

Aura of Chilling Frost. A creature that starts its turn within 10 feet of the devil takes 10 (3d6) cold damage and can't use reactions until the end of the devil's next turn.

Devil's Sight. Magical darkness doesn't impede the devil's darkvision.

Innate Spellcasting. The devil's innate spellcasting ability is Charisma (spell save DC 19). It can innately cast the following spells, without providing material components:

At will: *darkness*, *detect magic*

3/day each: *fly*, *ice storm*

2/day each: *cone of cold*, *programmed illusion*

1/day: *divine word*

Magic Resistance. The devil has advantage on saving throws against spells and other magical effects.

ACTIONS

Multiattack. The devil makes three attacks: one with its bite, one with its ice spear, and one with its tail. It can use its Frost Ray in place of a melee attack.

Bite. *Melee Weapon Attack:* +11 to hit, reach 5 ft., one target. *Hit:* 12 (2d6 + 5) piercing damage plus 10 (3d6) cold damage.

Ice Spear. *Melee Weapon Attack:* +11 to hit, reach 10 ft., one target. *Hit:* 14 (2d8 + 5) piercing damage plus 10 (3d6) cold damage. If the target is a creature, it must succeed on a DC 17 Constitution saving throw, or for 1 minute, its speed is reduced by 10 feet; it can take either an action or a bonus action on each of its turns, not both; and it can't take reactions. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Frost Ray. *Ranged Spell Attack:* +11 to hit, range 120 ft., one creature. *Hit:* 17 (5d6) cold damage.

Tail. *Melee Weapon Attack:* +11 to hit, reach 10 ft., one target. *Hit:* 12 (2d6 + 5) piercing damage plus 10 (3d6) cold damage.

Ruthless Command (Recharges after a Short or Long Rest). For 1 minute, the devil can issue a telepathic command whenever a nonhostile creature that it can see within 30 feet of it makes an attack roll. The creature takes 1d8 psychic damage and can add a d10 to its roll provided it can understand the devil. A creature can benefit from only one ruthless command die at a time. This effect ends if the devil is incapacitated.

Wall of Ice (Recharge 6). The devil magically forms an opaque wall of ice on a solid surface it can see within 60 feet of it. The wall is 1 foot thick and up to 30 feet long and 10 feet high, or it's a hemispherical dome up to 20 feet in diameter.

When the wall appears, each creature in its space is pushed out of it by the shortest route. The creature chooses which side of the wall to end up on, unless the creature is incapacitated. The creature then makes a DC 19 Dexterity saving throw, taking 35 (10d6) cold damage on a failed save, or half as much damage on a successful one.

The wall lasts for 1 minute or until the devil is incapacitated or dies. The wall can be damaged and breached; each 10-foot section has AC 5, 30 hit points, vulnerability to fire damage, and immunity to acid, cold, necrotic, poison, and psychic damage. If a section is destroyed, it leaves behind a sheet of frigid air in the space the wall occupied. Whenever a creature finishes moving through the frigid air on a turn, willingly or otherwise, the creature must succeed on a DC 19 Constitution saving throw, taking 17 (5d6) cold damage on a failed save, or half as much damage on a successful one. The frigid air dissipates when the rest of the wall vanishes.

Teleport. The devil magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

LEGENDARY ACTIONS

The devil can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The devil regains spent legendary actions at the start of its turn.

Attack. The devil makes a bite, ice spear, tail, or frost ray attack.

Command. The devil targets one ally it can see within 30 feet of it. If the target can see and hear the devil, the target can make one weapon attack as a reaction.

Teleport (Costs 2 Actions). The devil magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Blizzard (Costs 3 Actions). Blinding snow and freezing jagged ice cascade and swirl magically around the devil. Each creature within 20 feet of the devil must succeed on a DC 19 Constitution saving throw. On a failed save, the target takes 21 (6d6) cold damage and is blinded and can't use reactions, its speed is halved, and it can't make more than one attack on its turn. In addition, the creature can use either an action or a bonus action on its turn, but not both. These effects last until the end of the devil's next turn. On a successful save, the target takes half as much damage and suffers no other effects.

PIT FIEND ARISTOCRAT

The most powerful of the greater devils who answers only to archdevils, the pit fiend aristocrat represents the most diabolical, cunning, and intelligent of devil nobility. Its mere presence alone strikes fear into the heart of any of the lesser fiends, let alone mortals.

Super Powers. It is exceptionally strong for its size, and can brutally manhandle creatures twice or even thrice its size. Aside from its strength, the pit fiend aristocrat sports an array of other fearsome abilities and spells that far exceed that of a normal pit fiend.

Mastermind. Still, the pit fiend aristocrat is not just feared for its combat abilities. Its more intelligent foes fear it for being a brilliant tactician and general. It is always a few steps ahead of them and always ready for any surprise they might try against it.

Some of the most notable pit fiend aristocrats are Bel the Warlord and the members of the Dark Eight.

Challenge 22 (41,000 XP)

Fear Aura. A creature that starts its turn within 20 feet of the pit fiend must succeed on a DC 13 Wisdom saving throw, unless the pit fiend is incapacitated. On a failed save, the creature is frightened for 1 minute. While frightened in this way, a creature must take the Dash action and move away from the pit fiend by the safest available route on each of its turns, unless there is nowhere to move, in which case it needn't take the Dash action. If the creature ends its turn in a location where it doesn't have line of sight to the pit fiend, the creature can repeat the saving throw. On a success, the effect ends. If a creature's saving throw is successful, the creature is immune to the pit fiend's Fear Aura for the next 24 hours.

Magical Resistance. The devil has advantage on saving throws against spells and other magical effects.

Magical Weapons. The pit fiend's weapon attacks are magical.

Innate Spellcasting. The devil's spellcasting ability is Charisma (spell save DC 22). It can innately cast the following spells, without providing material components:

At will: *darkness*, *detect magic*, *fireball*

3/day each: *hold monster*, *programmed illusion*, *wall of fire*

2/day each: *divine word*, *power word stun*

1/day: *meteor swarm*

ACTIONS

Multiattack. The pit fiend makes four attacks: one with its bite, one with its claw, one with its mace, and one with its tail. It can use its Fling in place of its claw attack.

Bite. *Melee Weapon Attack:* +15 to hit, reach 5 ft., one target. *Hit:* 22 (4d6 + 8) piercing damage. The target must succeed on a DC

22 Constitution saving throw or become poisoned. Until this poison ends, the target can't regain hit points, and it takes 21 (6d6) poison damage at the start of each of its turns. The poisoned target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Claw. *Melee Weapon Attack:* +15 to hit, reach 10 ft., one target. *Hit:* 17 (2d8 + 8) slashing damage, and if the target is Large or smaller, it is grappled (escape DC 18). Until this grapple ends, the target is restrained and the pit fiend can automatically hit the target with its claw but can't make claw attacks against other targets.

Mace. *Melee Weapon Attack:* +15 to hit, reach 10 ft., one target. *Hit:* 15 (2d6 + 8) bludgeoning damage plus 21 (6d6) fire damage.

Tail. *Melee Weapon Attack:* +15 to hit, reach 10 ft., one target. *Hit:* 24 (3d10 + 8) bludgeoning damage.

Fling. One Large or smaller object held or creature grappled by the pit fiend is thrown up to 60 feet and knocked prone. If a thrown target strikes a solid surface, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the target is thrown at another creature, that creature must succeed on a DC 23 Dexterity saving throw or take the same damage and be knocked prone.

Teleport. The devil magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Hellfire Gaze (Recharge 6). The pit fiend's eyes projects intense fiery energy in a 60-foot line that is 5 feet wide. Each creature in that line must make a DC 22 Dexterity saving throw, taking 30 (4d6 + 16) fire damage on a failed save, or half as much on a successful one. If this damage reduces the target to 0 hit points, it is disintegrated. A disintegrated creature and everything it is wearing and carrying, except magic items, are reduced to a pile of fine ash and slag. The creature can be restored to life only by means of a true resurrection or a wish spell.

LEGENDARY ACTIONS

The pit fiend can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The pit fiend regains spent legendary actions at the start of its turn.

Move. The pit fiend moves up to half its speed.

Attack (Costs 2 Actions). The pit fiend makes a claw, mace, or tail attack.

Teleport (Costs 2 Actions). The pit fiend magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Cast a Spell (Costs 3 Actions). The pit fiend casts a spell from its list of innate spells, using a spell slot as normal.

Devil's Sight. Magical darkness doesn't impede the devil's darkvision.

Innate Spellcasting. The spined devil scout's spellcasting ability is Wisdom (spell save DC 12). The spined devil scout can innately cast the following spells, without providing material components:

2/day each: *disguise self*, *produce flame*

1/day: *stinking cloud*

Limited Spines. The devil has twelve tail spines. Used spines regrow by the time the devil finishes a long rest.

Magic Resistance. The devil has advantage on saving throws against spells and other magical effects.

Sneak Attack (1/Turn). The spined devil scout deals an extra 7 (2d6) damage when it hits a target with a weapon attack and has advantage on the attack roll, or when the target is within 5 feet of an ally of the spined devil scout that isn't incapacitated and the spined devil scout doesn't have disadvantage on the attack roll.

ACTIONS

Multiattack. The devil makes two attacks: one with its bite and one with its fork or two with its tail spines.

Bite. *Melee Weapon Attack:* +3 to hit, reach 5 ft., one creature. *Hit:* 8 (2d6 + 1) piercing damage.

Fork. *Melee Weapon Attack:* +3 to hit, reach 5 ft., one target. *Hit:* 5 (1d8 + 1) piercing damage.

DINOSAURS

MOSASAURUS

Mosasaurs are 50-foot long marine reptiles that look like short-necked komodo dragons with flippers instead of legs. They are voracious apex predators that will not hesitate to attack prey larger than themselves.

SPINOSAURUS

A spinosaurus looks like an upright bipedal carnivorous dinosaur with a crocodilian head and a sail on its back. It is a vicious ambush hunter that lies in wait under pools of water or underbrush. It is somewhat clumsy when pursuing its prey on land, which is why it prefers to attack while its target is half submerged in water where it can easily outmaneuver and catch it.

Bite. *Melee Weapon Attack:* +12 to hit, reach 10 ft., one target.
Hit: 47 (6d12 + 8) piercing damage. If the target is a Large or smaller creature, it is grappled (escape DC 18). Until this grapple ends, the mosasaurus can only bite the grappled creature and has advantage on attack rolls to do so.

Tail. *Melee Weapon Attack:* +12 to hit, reach 10 ft., one target.
Hit: 27 (3d12 + 8) bludgeoning damage.

Swallow. The mosasaurus makes one bite attack against a Large or smaller target it is grappling. If the attack hits, the target is also swallowed, and the grapple ends. While swallowed, the target is blinded and restrained, it has total cover against attacks and other effects outside the mosasaurus, and it takes 28 (8d6) acid damage at the start of each of the mosasaurus's turns. A mosasaurus can have only up to one Large, two Medium, or four Small creatures swallowed at a time.

If the mosasaurus takes 30 damage or more on a single turn from the swallowed creature, the mosasaurus must succeed on a DC 15 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the mosasaurus. If the mosasaurus dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 15 feet of movement, exiting prone.

DISPLACER BEASTS

BEAST PACK LORD

The pack lord is the dominant male of a displacer beast pack, and is usually the only male of the pack. When hunting, a pack lord will normally hang back and let its females do the actual killing. But when faced with a formidable prey, the pack lord will coordinate the attack to make an efficient kill.

STALKER

A stalker is a displacer beast that has learned to be nearly invisible when prowling and hunting. More often than not, its prey does not even have time to realize what attacked it before it is slain.

Avoidance. If the displacer beast is subjected to an effect that allows it to make a saving throw to take only half damage, it instead takes no damage if it succeeds on the saving throw, and only half damage if it fails.

Displacement. The displacer beast projects a magical illusion that makes it appear to be standing near its actual location, causing attack rolls against it to have disadvantage. If it is hit by an attack, this trait is disrupted until the end of its next turn. This trait is also disrupted while the displacer beast is incapacitated or has a speed of 0.

Pack Tactics. The displacer beast has advantage on an attack roll against a creature if at least one of the displacer beast's allies is within 5 feet of the creature and the ally isn't incapacitated.

Shapechanger. The doppelganger can use its action to polymorph into a Small or Medium humanoid it has seen, or back into its true form. Its statistics, other than its size, are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Ambusher. In the first round of combat, the doppelganger has advantage on attack rolls against any creature it has surprised.

Assassinate. During its first turn, the doppelganger has advantage on attack rolls against any creature that hasn't taken a turn. Any hit the doppelganger scores against a surprised creature is a critical hit.

Cunning Action. The doppelganger can take the Dash, Disengage, or Hide action as a bonus action on each of its turns.

Evasion. If the doppelganger is subjected to an effect that allows it to make a Dexterity saving throw to take only half damage, the doppelganger instead takes no damage if it succeeds on the saving throw, and only half damage if it fails.

Sneak Attack (1/Turn). The doppelganger deals an extra 17 (5d6) damage when it hits a target with a weapon attack and has advantage on the attack roll, or when the target is within 5 feet of an ally of the doppelganger that isn't incapacitated and the doppelganger doesn't have disadvantage on the attack roll.

ACTIONS

Multiattack. The doppelganger makes three melee attacks.

Slam. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target.
Hit: 8 (1d6 +5) bludgeoning damage.

Shortsword. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target.
Hit: 8 (1d6 + 5) piercing damage, and the target must succeed on a DC 15 Constitution saving throw, taking 24 (7d6) poison damage on a failed save, or half as much damage on a successful one.

Read Thoughts. The doppelganger magically reads the surface thoughts of one creature within 60 feet of it. The effect can penetrate barriers, but 3 feet of wood or dirt, 2 feet of stone, 2 inches of metal, or a thin sheet of lead blocks it. While the target is in range, the doppelganger can continue reading its thoughts, as long as the doppelganger's concentration isn't broken (as if concentrating on a spell). If the creature ends its turn in a location where it doesn't have line of sight to the doppelganger, the creature can repeat the saving throw. On a success, the effect ends.

Psychic Blades (3/day). The doppelganger deals an extra 17 (5d6) damage when it hits a target with a weapon attack.

Spellcasting. The doppelganger is a 11th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 15, +7 to hit with spell attacks). It has the following bard spells prepared:

Rapier. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one target.
Hit: 8 (1d8 + 4) piercing damage plus 10 (3d6) poison damage.

Read Thoughts. The doppelganger magically reads the surface thoughts of one creature within 60 feet of it. The effect can penetrate barriers, but 3 feet of wood or dirt, 2 feet of stone, 2 inches of metal, or a thin sheet of lead blocks it. While the target is in range, the doppelganger can continue reading its thoughts, as long as the doppelganger's concentration isn't broken (as if concentrating on a spell). While reading the target's mind, the doppelganger has advantage on Wisdom (Insight) and Charisma (Deception, Intimidation, and Persuasion) checks against the target.

DRAGON TURTLES

YOUNG DRAGON TURTLE

Young dragon turtles are more commonly encountered as they are more prone to attack smaller ships compared to the bigger adults. It is also at this stage that they begin to build their obsession with gold and treasure which they discover can be easily taken from busy shipping lanes.

Fortunately for the sailors, young dragon turtles rarely live to adult age, as they are often mortally wounded by savagely territorial and greedy dragon turtles.

DRAGON TURTLE WYRMLING

Wyrmlings are newly-hatched up to 6-month-old dragon turtles. They are often encountered near sandy beaches and shallow waters. Only a few survive to an adolescent age, as they are often killed on sight by larger dragon turtles, other sea monsters, and various humanoids that hunt them for their tough shells which they use to build shields with.

"Something I overheard from a harbormaster at Port Nyanzaru... a pirate ship was spotted taking refuge in a secret cove somewhere north of the Mistcliffs in the bay of Chult. Mercenaries and adventurers were conscripted to capture them the following day. But after they tracked them down, they were shocked at what they discovered... hundreds of sea gulls, crabs, and other scavengers feasting on the blood, torn limbs, and gutted remains lying on the beach. And not a single living pirate in sight. You know what was interesting? They discovered dozens of giant cracked shells half buried in the beach not too far from where the pirates made camp. Those pirates sure picked the right place... but the wrong time to get drunk."

DRIDER SORCERER AND WARLOCK

Some drow were sorcerers and warlocks before they were cursed and transformed into driders. While most lose their powers and memories of their former drow selves, a rare few manage to retain their abilities, making them dangerous opponents. Whether this was willed by Lolth or not, it's anyone's guess.

Because they still retain memories of a portion of their lives, they grow to hate the drow that have forsaken them. Thus, these drider spellcasters wander off into the Underdark to find their own lair and live like hermits. They will not hesitate to attack anyone or anything that enters their territory, even drow.

DRYAD

DRYAD WITCH OF THE FEY

While most dryads develop druidic powers, some dryads develop eldritch abilities, partly due to their patronship of either Titania of the Summer Court, or Oberon, the Green Lord.

Of all dryads, they are the ones most prone to play tricks and pranks on those foolish enough to wander near their lair.

Tree Stride. Once on her turn, the dryad can use 10 feet of her movement to step magically into one living tree within her reach and emerge from a second living tree within 60 feet of the first tree, appearing in an unoccupied space within 5 feet of the second tree. Both trees must be Large or bigger.

ACTIONS

Scimitar. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one target. *Hit:* 5 (1d6 + 2) plus 7 (2d6) poison damage.

Fey Charm. The dryad targets one humanoid or beast that she can see within 30 feet of her. If the target can see the dryad, it must succeed on a DC 16 Wisdom saving throw or be magically charmed. The charmed creature regards the dryad as a trusted friend to be heeded and protected. Although the target isn't under the dryad's control, it takes the dryad's requests or actions in the most favorable way it can.

Each time the dryad or its allies do anything harmful to the target, it can repeat the saving throw, ending the effect on itself on a success. Otherwise, the effect lasts 24 hours or until the dryad dies, is on a different plane of existence from the target, or ends the effect as a bonus action. If a target's saving throw is successful, the target is immune to the dryad's Fey Charm for the next 24 hours.

The dryad can have no more than one humanoid and up to three beasts charmed at a time.

REACTIONS

Misty Escape (Recharges after a Short or Long Rest). In response to taking damage, the dryad turns invisible and teleports up to 60 feet to an unoccupied space it can see. It remains invisible until the start of its next turn or until it attacks, makes a damage roll, or casts a spell.

ELVES: DROW

ARCANE GUARD

Drow arcane guards specialize in weaving magic and martial skills together in an efficient manner. If provided a moment to prepare, they will conjure mirror images to confuse their foes. They then utilize their metamagic features to great advantage.

DEMONBINDER

Drow demonbinders are practitioners of the forbidden art of drawing and absorbing the essence of demons in order to gain additional powers and abilities. They do not care that doing so condemns them to an eternity in the Abyss.

DREAD FANG OF LOLTH

The dread fangs of Lolth are elite assassins, often under the employ of noble houses in a drow society. While very capable of fighting alone, they are deadlier when working with a team, as they have the ability to provide an opening for an ally when in melee against a common target.

SERGEANT

Sergeants are veteran drow warriors who are tasked with leading guard patrols and soldiers. They are cunning in battle, able to direct their underlings with deadly efficiency.

SKIRMISHER

Often serving as scouts and spies, drow skirmishers avoid direct fighting. They prefer to select their targets first, moving toward them without being seen, striking, and then retreating before their foes can counter.

Morningstar. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 15 (2d8 + 6) piercing damage and the target gains disadvantage on its next attack roll until the end of its next turn.

Whirling Attack (Recharges 5-6). The ettin moves up to its walking speed and targets each creature within 5 feet of it during its movement. Each target must succeed on a DC 17 Dexterity saving throw with disadvantage on the roll or take 24 (4d8 + 6) slashing damage. Until the start of its next turn, all attacks against the ettin have advantage.

FLAMESKULLS

ELDRITCH

Sometimes evil spellcasters unknowingly create a flameskull from a dead warlock, mistaking it for a wizard. Instead of green flames, purplish flames erupt from the skull. Otherwise, it functions as a regular flameskull, except it uses warlock spells.

GREATER FLAMESKULL

Powerful evil spellcasters, such as archmages and liches, can fashion potent flameskulls from the corpses of high-level wizards. These greater flameskulls make very formidable guardians.

Rejuvenation. If the flameskull is destroyed, it regains all its hit points in 1 hour unless holy water is sprinkled on its remains or dispel magic or remove curse spell is cast on them.

Spellcasting. The flameskull is an 11th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 14, +6 to hit with spell attacks). It regains its expended spell slots when it finishes a short or long rest. It knows the following warlock spells:

FOMORIANS

BERSERKER

These brutish and hulking fomorians serve as the shock troops of fomorian war parties. They charge into enemy groups recklessly, hacking wildly with their cleaving greatswords.

SHAMAN

Fomorian shamans are coldhearted druids who harness the natural energies of the earth. In addition to their spells, they are able to psychically extract the most painful memories of their foes and have them experience them all at once again, putting them in mental anguish.

A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

ACTIONS

FUNGI

PHANTOM FUNGUS

Sharing more characteristics with an animal than a plant, the phantom fungus is an invisible predator that stalks its prey until it can get close enough to attack it with its deadly tendrils which drip with paralytic poison.

Giant Phantom Fungus. A phantom fungus, if left unchecked and with no natural predators, can grow up to 8 feet tall. It can attack with four tendrils each turn.

ZUGGTMOY-TOUCHED SHRIEKER

At first these appear to be normal shriekers, but these fungi have been infected with Zuggtmoy's spores, making them effective delivery packages of the Demon Queen of Fungi's will. The shrieker attracts the attention of any creature that wanders into range of its piercing screech, making itself a target. When destroyed, it explodes and releases the deadly spores onto its unwitting victims.

Unlike their smaller versions, these larger species of violet fungus can always attack with four of its tendrils.

ACTIONS

Creatures immune to the poisoned condition are immune to this disease.

Spores invade an infected creature's system, killing the creature in a number of hours equal to 1d12 + the creature's Constitution score, unless the disease is removed. In half that time, the creature becomes poisoned for the rest of the duration. After the creature dies, it sprouts 2d4 Tiny gas spores that grow to full size in 7 days.

REACTIONS

Shriek. When bright light or a creature is within 30 feet of the shrieker, it emits a shriek audible within 300 feet of it. The shrieker continues to shriek until the disturbance moves out of range and for 1d4 of the shrieker's turns afterward.

GARGOYLE, MARGOYLE

A margoyle is an abhorrent species of gargoyle that is more savage in combat than that of its normal kind.

Ambush Hunters. It waits until its unsuspecting victim dismisses it as a normal gargoyle and turns its back to it. The margoyle then launches itself up in the air and dives toward its prey with its sharp horns forward. If that isn't enough to kill its prey, its rending claws and toothy maw will.

GENIES, NOBLE

Presented here are some advanced versions of the dao, djinni, efreeti, and marid.

DAO GREAT KHAN

The Great Khan is the undisputed ruler of the dao. It lives in a massive gem-encrusted stone palace within the Great Dismal Cave, a region carved and built entirely from slave labor. As one of the true primary genies, it can even grant a wish. However, it loathes to do so and almost never does it.

Challenge 20 (25,000 XP)

Captivating Presence. Any creature that starts its turn within 30 feet of the dao must make a DC 17 Wisdom saving throw. On a failed save, the creature becomes charmed by the dao for 1 minute or until the creature is farther than 30 feet away from it. On a successful save, the creature becomes immune to the dao's Captivating Presence for 24 hours.

Grant Wish (3/year). The dao can grant a *wish* spell to a creature that isn't a genie. In order to work, the dao must be willing to grant the *wish*. Unless carefully and properly worded, the dao will pervert the *wish*'s intent into a literal but undesirable or partial fulfillment. The dao can't grant a wish purposely to serve its own needs.

Earth Glide. The dao can burrow through nonmagical, unworked earth and stone. While doing so, the dao doesn't disturb the material it moves through.

Elemental Demise. If the dao dies, its body disintegrates into crystalline powder, leaving behind only equipment the dao was wearing or carrying.

Innate Spellcasting. The dao's innate spellcasting ability is Charisma (spell save DC 17). The dao can innately cast the following spells, without providing material components:

At will: *detect evil and good*, *detect magic*, *move earth*, *passwall*,

stone shape, *tongues*

3/day each: *conjure elemental* (earth elemental only), *dispel magic*, *gaseous form*, *invisibility*, *phantasmal killer*, *plane shift*, *wall of stone*

1/day each: *earthquake*, *flesh to stone*

Magic Resistance. The dao has advantage on saving throws against spells and other magical effects.

Surefooted. The dao has advantage on Strength and Dexterity saving throws made against effects that would knock it prone.

ACTIONS

Multiattack. The dao makes two fist attacks or two maul attacks.

Fist. Melee Weapon Attack: +14 to hit, reach 10 ft., one target.
Hit: 21 (3d8 + 8) bludgeoning damage.

Maul. Melee Weapon Attack: +14 to hit, reach 10 ft., one target.
Hit: 29 (6d6 + 8) bludgeoning damage. If the target is a creature, it must succeed on a DC 22 Strength saving throw or be knocked prone. If a target's saving throw fails by 5 or more, the creature is also stunned until the end of its next turn.

LEGENDARY ACTIONS

The dao can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The dao regains spent legendary actions at the start of its turn.

Maul. The dao makes a maul attack.

Cast a Spell (Costs 2 Actions). The dao casts a spell from its list of innate spells, using a spell slot as normal.

Hurl Boulders (Costs 2 Actions). The dao creates up to three boulders and magically hurl them at targets within 120 feet. The dao makes a ranged spell attack (+9 to hit) for each boulder. On a hit, the target takes 19 (3d10 + 3) bludgeoning damage. If the target is a creature, it must succeed on a DC 17 Strength saving throw or be knocked prone.

Teleport (Costs 2 Actions). The dao magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Elemental Demise. If the dao dies, its body disintegrates into crystalline powder, leaving behind only equipment the dao was wearing or carrying.

Innate Spellcasting. The dao's innate spellcasting ability is Charisma (spell save DC 16). The dao can innately cast the following spells, without providing material components:

At will: *detect evil and good*, *detect magic*, *move earth*, *passwall*, *stone shape*, *tongues*

2/day each: *conjure elemental* (earth elemental only), *dispel magic*, *gaseous form*, *invisibility*, *phantasmal killer*, *plane shift*, *wall of stone*

1/day: *flesh to stone*

Surefooted. The dao has advantage on Strength and Dexterity saving throws made against effects that would knock it prone.

ACTIONS

Multiattack. The dao makes two fist attacks or two maul attacks.

Fist. Melee Weapon Attack: +12 to hit, reach 5 ft., one target.

Hit: 16 (2d8 + 7) bludgeoning damage.

Maul. Melee Weapon Attack: +12 to hit, reach 5 ft., one target.

Hit: 21 (4d6 + 7) bludgeoning damage. If the target is a creature, it must succeed on a DC 20 Strength saving throw or be knocked prone. If a target's saving throw fails by 5 or more, the creature is also stunned until the end of its next turn.

Ruthless Command (Recharges after a Short or Long Rest). For 1 minute, the dao can issue a telepathic command whenever a nonhostile creature that it can see within 30 feet of it makes an attack roll. The creature takes 1d8 psychic damage and can add a d10 to its roll provided it can understand the dao. A creature can benefit from only one ruthless command die at a time. This effect ends if the dao is incapacitated.

DJINNI GRAND CALIPH

The Grand Caliph rules over all djinn from his palace in the djinni capital known as the Citadel of Ice and Steel in the Elemental Plane of Air. The Grand Caliph's word is law, and to disobey his order can be punishable by death.

As a true primary genie, he is able to grant a wish, and he does so to those he deems deserving.

Challenge 20 (25,000 XP)

Captivating Presence. Any creature that starts its turn within 30 feet of the djinni must make a DC 20 Wisdom saving throw. On a failed save, the creature becomes charmed by the djinni for 1 minute or until the creature is farther than 30 feet away from it. On a successful save, the creature becomes immune to the djinni's Captivating Presence for 24 hours.

Grant Wish (3/year). The djinni can grant a *wish* spell to a creature that isn't a genie. In order to work, the djinni must be willing to grant the *wish*. Unless carefully and properly worded, and if the djinni has good reason to, the djinni will pervert the *wish*'s intent into a literal but undesirable or partial fulfillment. The djinni can't grant a wish purposely to serve its own needs.

Elemental Demise. If the djinni dies, its body disintegrates into a warm breeze, leaving behind only equipment the djinni was wearing or carrying.

Innate Spellcasting. The djinni's innate spellcasting ability is Charisma (spell save DC 20). The djinni can innately cast the following spells, without providing material components:

At will: *create food and water* (can create wine instead of water), *detect evil and good*, *detect magic*, *thunderwave*, *tongues*, *wind walk*

3/day each: *conjure elemental* (air elemental only), *creation*, *dispel magic*, *gaseous form*, *invisibility*, *major image*, *plane shift*

1/day each: *chain lightning*, *storm of vengeance*

Magic Resistance. The djinni has advantage on saving throws against spells and other magical effects.

ACTIONS

Multiattack. The djinni makes three scimitar attacks.

Scimitar. Melee Weapon Attack: +13 to hit, reach 10 ft., one target. **Hit:** 17 (3d6 + 7) slashing damage plus 7 (2d6) lightning or thunder damage (djinni's choice) and the target can't take reactions until the end of the djinni's next turn.

Create Whirlwind. A 10-foot-radius, 60-foot-tall cylinder of swirling air magically forms on a point the djinni can see within 120 feet of it. The whirlwind lasts as long as the djinni maintains concentration (as if concentrating on a spell). Any creature but the djinni that enters the whirlwind must succeed on a DC 22 Strength saving throw or be restrained by it. The djinni can move the whirlwind up to 60 feet as an action, and creatures restrained by the whirlwind move with it. The whirlwind ends if the djinni loses sight of it.

A creature can use its action to free a creature restrained by the whirlwind, including itself, by succeeding on a DC 22 Strength check. If the check succeeds, the creature is no longer restrained and moves to the nearest space outside the whirlwind.

LEGENDARY ACTIONS

The djinni can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The djinni regains spent legendary actions at the start of its turn.

Scimitar. The djinni makes a scimitar attack.

Cast a Spell (Costs 2 Actions). The djinni casts a spell from its list of innate spells, using a spell slot as normal.

Teleport (Costs 2 Actions). The djinni magically teleports, along with any equipment it is wearing or carrying, up to 60 feet to an unoccupied space it can see.

Tornado Form (Costs 3 Actions). The djinni magically transforms into a violent, twisting tornado and moves up to half its flying speed in a straight line and targets each creature its space it enters without provoking opportunity attacks. Each target must succeed on a DC 22 Strength saving throw. On a failure, the target takes 18 (4d8) bludgeoning damage, 9 (2d8) lightning damage, and 9 (2d8) thunder damage and is flung up 30 feet away from the djinni in a random direction and knocked prone. If a thrown target strikes an object, such as a wall or floor, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the target is thrown at another creature, that creature must succeed on a DC 22 Dexterity saving throw or take the same damage and be knocked prone. If the saving throw is successful, the target takes half the damage and isn't flung away or knocked prone. The djinni reverts to its true form at the start of the next turn.

DJINNI WIND WARDEN

Wind wardens are guardians and protectors of the djinni and their holdings. They are often found in temples and in the Citadel of Ice and Steel where they serve as personal bodyguards of the Great Caliph. Sometimes, they are sent on missions to the Material Plane to retrieve an item or to exact justice, which may lead them to ask help from, or bring them into conflict, with adventurers.

EFREETI SULTAN

All efreet are led by the powerful and terrifying Sultan, who seldom leaves from his ruby and diamond palace in the City of Brass in the Elemental Plane of Fire. He spends most of his time scheming and planning with the noble efreeti on how to conquer and expand the sultanate.

As a true primary genie, he is able to bestow wishes. He almost never does though.

ACTIONS

Multiattack. The djinni makes three scimitar attacks. The djinni can replace one of those attacks with Spirit Away.

Scimitar. Melee Weapon Attack: +11 to hit, reach 5 ft., one target. **Hit:** 13 (2d6 + 6) slashing damage plus 3 (1d6) lightning or thunder damage (djinni's choice).

Create Whirlwind. A 5-foot-radius, 30-foot-tall cylinder of swirling air magically forms on a point the djinni can see within 120 feet of it. The whirlwind lasts as long as the djinni maintains concentration (as if concentrating on a spell). Any creature but the djinni that enters the whirlwind must succeed on a DC 20 Strength saving throw or be restrained by it. The djinni can move the whirlwind up to 60 feet as an action, and creatures restrained by the whirlwind move with it. The whirlwind ends if the djinni loses sight of it.

A creature can use its action to free a creature restrained by the whirlwind, including itself, by succeeding on a DC 20 Strength check. If the check succeeds, the creature is no longer restrained and moves to the nearest space outside the whirlwind.

Spirit Away. The djinni targets a nonhostile creature within 60 feet of it. Until the end of the turn, the target gains a flying speed of 40 feet and can use its reaction to move up to its flying speed without provoking opportunity attacks.

REACTIONS

Intercept Attack. In response to another creature within 5 feet of it being hit by an attack roll, the djinni gives that creature a +5 bonus to its AC against that attack, potentially causing a miss. To use this ability, the djinni must be able to see the creature and the attacker.

Challenge 20 (25,000 XP)

Captivating Presence. Any creature that starts its turn within 30 feet of the efreeti must make a DC 18 Wisdom saving throw. On a failed save, the creature becomes charmed by the efreeti for 1 minute or until the creature is farther than 30 feet away from it. On a successful save, the creature becomes immune to the efreeti's Captivating Presence for 24 hours.

Grant Wish (3/year). The efreeti can grant a *wish* spell to a creature that isn't a genie. In order to work, the efreeti must be willing to grant the *wish*. Unless carefully and properly worded, the efreeti will pervert the *wish's* intent into a literal but undesirable or partial fulfillment. The efreeti can't grant a wish purposely to serve its own needs.

Elemental Demise. If the efreeti dies, its body disintegrates into a flash of fire and puff of smoke, leaving behind only equipment the efreeti was wearing or carrying.

Innate Spellcasting. The efreeti's innate spellcasting ability is Charisma (spell save DC 18). The efreeti can innately cast the following spells, without providing material components:

1/day each: *fire storm*, *incendiary cloud*

Magic Resistance. The efreeti has advantage on saving throws

against spells and other magical effects.

ACTIONS

Multiattack. The efreeti makes two scimitar attacks or uses its Hurl Flame twice.

Scimitar. Melee Weapon Attack: +14 to hit, reach 10 ft., one target. *Hit:* 18 (3d6 + 8) slashing damage plus 10 (3d6) fire damage.

Hurl Flame. Ranged Spell Attack: +10 to hit, range 120 ft., one target. *Hit:* 21 (6d6) fire damage.

Hellfire Gaze (Recharge 6). The efreeti's eyes projects intense fiery energy in a 60-foot line that is 5 feet wide. Each creature in that line must make a DC 18 Dexterity saving throw, taking 30 (4d6 + 16) fire damage on a failed save, or half as much on a successful one. If this damage reduces the target to 0 hit points, it is disintegrated. A disintegrated creature and everything it is wearing and carrying, except magic items, are reduced to a pile of fine ash and slag. The creature can be restored to life only by means of a true resurrection or a wish spell.

LEGENDARY ACTIONS

The efreeti can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The efreeti regains spent legendary actions at the start of its turn.

Conflagrate (Costs 3 Actions). The efreeti targets up to three creatures it can see within 30 feet of it. Each target that is not immune to fire must succeed on a DC 18 Wisdom saving throw. On a failed save, a creature becomes frightened, takes 14 (4d6) fire damage, and catches fire, taking 10 (3d6) fire damage at the end of each of its turns. The creature remains frightened until the fire is extinguished. An affected creature or another creature within 5 feet of it can take an action to extinguish the fire. On a successful save, the creature is not frightened, takes half as much damage and doesn't catch fire.

Arcing Fireblade (Recharge 5-6). The efreeti swings its scimitar in a full arc, and every creature within 10 feet of it must succeed on a DC 20 Dexterity saving throw. On a failed save, a creature takes 14 (2d6 + 7) slashing damage plus 7 (2d6) fire damage and if the target is not immune to fire, it gains vulnerability to fire damage until the end of the efreeti's next turn. Water Jet. The marid magically shoots water in a 60-foot line that is 5 feet wide. Each creature in that line must make a DC 17 Dexterity saving throw. On a failure, the target takes 21 (6d6) bludgeoning damage and, if it is Huge or smaller, is pushed up to 20 feet away from the marid and knocked prone. On a success, the target takes half the bludgeoning damage, but is neither pushed nor knocked prone.

Water Spouts (Recharge 5-6). The marid targets up to four creatures it can see within 30 feet of it and magically creates powerful water spouts beneath them. Each target must succeed on a DC 17 Dexterity saving throw. On a failed save, a creature takes 21 (6d6) bludgeoning damage, and if it is Large or smaller, is flung upward up to 30 feet. If a thrown target strikes an object, such as a wall or floor, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. At the end of the turn, the water spouts end and the affected creatures fall back down (taking falling damage) and are knocked prone. On a successful save, the creature takes half as much damage and is not flung upward.

EFREETI CINDERLORD

GHOSTS

Presented here are examples of ghost characters: the ghost knight, ghost necromancer, and ghost warlock.

GHOST KNIGHT

When a knight has fallen before it was able to fulfill its life long quest or was cursed after performing an evil deed, it may rise as a ghost. Unfortunately, these poor souls often either become insane or lose memories of their past life after they transition to undeath.

Challenge 5 (1,800 XP)

Ethereal Sight. The ghost can see 60 feet into the Ethereal Plane when it is on the Material Plane, and vice versa.

Incorporeal Movement. The ghost can move through other creatures and objects as if they were difficult terrain. It takes 5 (1d10) force damage if it ends its turn inside an object.

ACTIONS

Multiattack. The ghost makes two withering blade attacks.

Withering Blade. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one creature. *Hit:* 7 (2d6) slashing damage plus 17 (4d6 + 3) necrotic damage.

Etherealness. The ghost enters the Ethereal Plane from the Material Plane, or vice versa. It is visible on the Material Plane while

it is in the Border Ethereal, and vice versa, yet it can't affect or be affected by anything on the other plane.

Horrorifying Visage. Each non-undead creature within 60 feet of the ghost that can see it must succeed on a DC 14 Wisdom saving throw or be frightened for 1 minute. If the save fails by 5 or more, the target also ages 1d4 x 10 years. A frightened target can repeat the saving throw at the end of each of its turns, ending the frightened condition on itself on a success. If a target's saving throw is successful or the effect ends for it, the target is immune to this ghost's Horrorifying Visage for the next 24 hours. The aging effect can be reversed with a greater restoration spell, but only within 24 hours of it occurring.

Possession. One humanoid that the ghost can see within 5 feet of it must succeed on a DC 14 Charisma saving throw or be possessed by the ghost; the ghost then disappears, and the target is incapacitated and loses control of its body. The ghost now controls the body but doesn't deprive the target of awareness. The ghost can't be targeted by any attack, spell, or other effect, except ones that turn undead, and it retains its alignment, Intelligence, Wisdom, Charisma, and immunity to being charmed and frightened. It otherwise uses the possessed target's statistics, but doesn't gain access to the target's knowledge, class features, or proficiencies.

The possession lasts until the body drops to 0 hit points, the ghost ends it as a bonus action, or the ghost is turned or forced out by an effect like the dispel evil and good spell. When the possession ends, the ghost reappears in an unoccupied space within 5 feet of the body. The target is immune to this ghost's Possession for 24 hours after succeeding on the saving throw or after the possession ends.

REACTIONS

Parry. The ghost adds 2 to its AC against one melee attack that would hit it. To do so, the knight must see the attacker and be wielding a melee weapon.

Etherealness. The ghost enters the Ethereal Plane from the Material Plane, or vice versa. It is visible on the Material Plane while it is in the Border Ethereal, and vice versa, yet it can't affect or be affected by anything on the other plane.

Horrifying Visage. Each non-undead creature within 60 feet of the ghost that can see it must succeed on a DC 14 Wisdom saving throw or be frightened for 1 minute. If the save fails by 5 or more, the target also ages 1d4 x 10 years. A frightened target can repeat the saving throw at the end of each of its turns, ending the frightened condition on itself on a success. If a target's saving throw is successful or the effect ends for it, the target is immune to this ghost's Horrifying Visage for the next 24 hours. The aging effect can be reversed with a greater restoration spell, but only within 24 hours of it occurring.

Possession. One humanoid that the ghost can see within 5 feet of it must succeed on a DC 14 Charisma saving throw or be possessed by the ghost; the ghost then disappears, and the target is incapacitated and loses control of its body. The ghost now controls the body but doesn't deprive the target of awareness. The ghost can't be targeted by any attack, spell, or other effect, except ones that turn undead, and it retains its alignment, Intelligence, Wisdom, Charisma, and immunity to being charmed and frightened. It otherwise uses the possessed target's statistics, but doesn't gain access to the target's knowledge, class features, or proficiencies.

The possession lasts until the body drops to 0 hit points, the ghost ends it as a bonus action, or the ghost is turned or forced out by an effect like the dispel evil and good spell. When the possession ends, the ghost reappears in an unoccupied space within 5 feet of the body. The target is immune to this ghost's Possession for 24 hours after succeeding on the saving throw or after the possession ends.

GHOULS

ADEPT OF ORCUS

Adepts of Orcus were priests who worshipped Orcus and were rewarded with the gift of unlife when they sacrificed themselves to their god. They still serve as priests, but now with an eternal thirst for flesh.

AGARAT

When a bard is unfortunately transformed into a ghoul or a ghastr, it can sometimes become an agarat - a grotesque undead creature that can unleash a horrific scream that can drain the life of the living unfortunate enough to hear it.

Each creature within 30 feet that can hear its scream takes 5 (1d10) necrotic damage and must succeed on a DC 11 Constitution saving throw. On a failed save, a creature will have its hit point maximum reduced by an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

ABOMINATION

Sometimes when a large humanoid or giant that was a cannibal or flesheater in life was slain through magical means, it may rise as a horrid ghoulish abomination. This creature's hunger for flesh is so insatiable that it can decimate a whole town alone if left unchecked.

LACEDON

Lacedons are undead amphibious humanoids such as merfolk, kuo-toa, or sahuagin that exhibit ghoulish characteristics. They are somewhat weaker than ghouls, but are still dangerous since they can still paralyze living targets.

GIANTS

CLOUD GIANT COUNT

The cloud giant count was a knight that was corrupted by Asmodeus, who tempted him with promises of power, holdings, and glory that was once held by giants past. Now he is a cold, threacherous blackguard who spends most of his time scheming and planning with leaders of other giants against the populous races.

He is never without his loyal fellow cloud giants and an array of barbed and bearded devil servants granted to him by Asmodeus.

GIBBERING

GIBBERING HORROR

Challenge 6 (2,300 XP)

Aberrant Ground. The ground in a 15-foot radius around the horror is doughlike difficult terrain. Each creature that starts its turn in that area must succeed on a DC 12 Strength saving throw or have its speed reduced to 0 until the start of its next turn.

Gibbering. The horror babbles incoherently while it can see any creature and isn't incapacitated. Each creature that starts its turn within 30 feet of the horror and can hear the gibbering must succeed on a DC 12 Wisdom saving throw. On a failure, the creature can't take reactions until the start of its next turn and rolls a d8 to determine what it does its turn. On a 1 to 4, the creature does nothing. On a 5 or 6, the creature takes no action or bonus action and uses all its movement to move in a randomly determined direction. On a 7 or 8, the creature makes a melee attack against a randomly determined creature within its reach or does nothing if it can't make such an attack.

ACTIONS

Multiattack. The gibbering horror uses Engulf. It then makes two Pseudopod Bite attacks, and if it can, uses its Blinding Spittle.

Pseudopod Bite. *Melee Weapon Attack:* +5 to hit, reach 15 ft., one creature. *Hit:* 15 (3d8 + 2) piercing damage. If the target is Large or smaller, it must succeed on a DC 13 Strength saving throw or be knocked prone and grappled (escape DC 12). Until the grapple ends, the target is restrained, and the horror can't use the same pseudopod bite on another target. If the horror starts its turn grappling with a creature, it can use a bonus action to pull that creature within 5 feet of it.

Blinding Spittle. The horror spits a chemical glob at a point it can see within 20 feet of it. The glob explodes in a blinding flash of light on impact. Each creature within 5 feet of the flash must succeed on a DC 16 Dexterity saving throw or be blinded until the end of the horror's next turn.

Engulf. The horror moves up to its speed. While doing so, it can enter Medium or smaller creatures' spaces. Whenever the horror enters a creature's space, the creature must make a DC 13 Dexterity saving throw. On a successful save, the creature can choose to be pushed 5 feet back or to the side of the horror. A creature that chooses not to be pushed suffers the consequences of a failed saving throw. On a failed save, the horror enters the creature's space, and the creature takes 29 (6d8 + 2) piercing damage and is engulfed. While engulfed, the creature is blinded, can't breathe, is restrained, and takes 9 (2d8) piercing damage and 9 (2d8) acid damage at the start of each of the horror's turns. If the target is killed by this damage, it is absorbed into the horror. When the horror moves, the engulfed creature moves with it. An engulfed creature can try to escape by taking an action to make a DC 13 Strength check. On a success, the creature escapes and enters a space of its choice within 5 feet of the horror. The horror can have only up to two Medium or small creatures engulfed at a time.

The crafty goblin alchemist always carries three types of concoctions that it can hurl at its foes. Unfortunately, these concoctions are so volatile that if the alchemist is struck in combat, it might cause a breakage and accidentally set off a fiery explosion.

BLACKBLADE

In very rare occasions, a goblin shows an affinity for the dark arts and becomes a warlock. Most of these become hexblades. They are simply called blackblades by the goblins.

Volatile. When the goblin takes damage that is not poison or psychic damage, roll 1d20. On a roll of 1 to 5, the goblin's alchemical pack explodes. The goblin and each creature within 10 feet of it must succeed on a DC 11 Dexterity saving throw, taking 17 (5d6) fire damage on a failed save, or half as much damage on a successful one. The goblin has disadvantage on its saving throw.

ACTIONS

Scimitar. *Melee Weapon Attack:* +4 to hit, reach 5 ft., one target. *Hit:* 5 (1d6 + 2) slashing damage.

Acid Flask. *Ranged Weapon Attack:* +4 to hit, range 5/20 ft., one target. *Hit:* 7 (2d6) acid damage.

Goblin Molotov. *Ranged Weapon Attack:* +4 to hit, range 20 ft., one target. *Hit:* 2 (1d4) fire damage and the target catches fire, taking 2 (1d4) fire damage at the end of each of its turns. Tangleweb. *Ranged Weapon Attack:* +4 to hit, range 20 ft., one creature. *Hit:* The creature must succeed on a DC 11 Strength saving throw or be restrained by sticky web-like adhesive. As an action, the restrained creature can make a DC 11 Strength check, escaping from the tangleweb on a success. The effect ends if the tangleweb is destroyed. Hexblade's Curse (Recharges after a Short or Long Rest). As a bonus action, the goblin targets a creature it can see within 30 feet of it. The target is cursed for 1 minute. The curse ends early if the target dies, the goblin dies, or it is incapacitated. Until the curse ends, the goblin gains the following benefits:

- It deals an extra 2 damage on damage rolls against the cursed target.

BODYGUARD

Some goblins who are devout and fanatical worshippers of Maglubiyet but are unable to pray for divine spells instead become bodyguards. They believe that sacrificing themselves to protect their charge will bring them closer to their god.

CHIEFTAIN

The chieftain is the overall leader of a goblin tribe. It is attended to by a number of advisors, mostly shamans and witch doctors, and is always protected by personal bodyguards. While it may lead its warriors into battle, it will do so from behind its toughest warriors and never away from its bodyguards. Its highest priority is always self-preservation. Goblin shamans provide spiritual guidance to their kin, and are thus often sought as advisors by their chieftains. In combat, they are able to cast druidic spells and summon rats and spiders. Its statistics, other than its size, are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

SKIRMISHER

Goblin skirmishers are charged with disrupting the ranks of enemy troops. They target the weak sides, employing hit and run tactics to distract them from another assault coming from a different direction.

Acid Absorption. Whenever the golem is subjected to acid damage, it takes no damage and instead regains a number of hit points equal to the acid damage dealt.

Berserk. Whenever the golem starts its turn with 90 hit points or fewer, roll a d6. On a 6, the golem goes berserk. On each of its turns while berserk, the golem attacks the nearest creature it can see. If no creature is near enough to move to and attack, the golem attacks an object, with preference for an object smaller than itself. Once

the golem goes berserk, it continues to do so until it is destroyed or regains all its hit points.

Immutable Form. The golem is immune to any spell or effect that would alter its form.

Magic Resistance. The golem has advantage on saving throws against spells and other magical effects.

Magic Weapons. The golem's weapon attacks are magical.

ACTIONS

Multiattack. The golem makes two slam attacks.

Slam. Melee Weapon Attack: +12 to hit, reach 10 ft., one target.

Hit: 23 (3d10 + 7) bludgeoning damage. If the target is a creature, it must succeed on a DC 17 Constitution saving throw or have its hit point maximum reduced by an amount equal to the damage taken. The target dies if this attack reduces its hit point maximum to 0. If the target's saving throw fails by 5 or more, the target is also knocked prone and the golem can make one stomp attack against it as a bonus action. The reduction lasts until removed by the greater restoration spell or other magic.

Stomp. Melee Weapon Attack: +12 to hit, reach 5 ft., one prone creature. **Hit:** 18 (2d10 + 7) bludgeoning damage.

Haste (Recharge 5-6). Until the end of its next turn, the golem magically gains a +2 bonus to its AC, has advantage on Dexterity saving throws, and can use its slam attack as a bonus action.

Challenge 10 (5,900 XP)

Berserk. Whenever the golem starts its turn with 50 hit points or fewer, roll a d6. On a 6, the golem goes berserk. On each of its turns while berserk, the golem attacks the nearest creature it can see. If no creature is near enough to move to and attack, the golem attacks an object, with preference for an object smaller than itself. Once the golem goes berserk, it continues to do so until it is destroyed or regains all its hit points.

The golem's creator, if within 60 feet of the berserk golem, can try to calm it by speaking firmly and persuasively. The golem must be able to hear its creator, who must take an action to make a DC 15 Charisma (Persuasion) check. If the check succeeds, the golem ceases being berserk. If it takes damage while still at 50 hit points or fewer, the golem might go berserk again.

Aversion to Fire. If the golem takes fire damage, it has disadvantage on attack rolls and ability checks until the end of its next turn.

Immutable Form. The golem is immune to any spell or effect that would alter its form.

Lightning Absorption. Whenever the golem is subjected to lightning damage, it takes no damage and instead regains a number of hit points equal to the lightning damage dealt.

Magic Resistance. The golem has advantage on saving throws against spells and other magical effects.

Magic Weapons. The golem's weapon attacks are magical.

ACTIONS

Multiattack. The golem makes two slam attacks. It can use *Fling* in place of one of these attacks.

Slam. Melee Weapon Attack: +10 to hit, reach 5 ft., one target.

Hit: 19 (3d8 + 6) bludgeoning damage and the target is grappled (escape DC 16). Until this grapple ends, the target is restrained and the golem can automatically hit the target with its slam attack but can't use one of its slam attacks against other targets.

Fling. One object held or creature that is smaller than the golem and is grappled by the golem is thrown up to 30 feet towards a target space and knocked prone. If a thrown creature strikes a solid surface, the creature takes 6 bludgeoning damage plus 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the creature is thrown at another creature, that creature must succeed on a DC 17 Dexterity saving throw. On a failed save, the target takes the same damage and is knocked prone.

FLESH GOLEM ABOMINATION

Magic Weapons. The golem's weapon attacks are magical.

ACTIONS

Multiattack. The golem makes two slam attacks and uses *Slow* if available.

Slam. Melee Weapon Attack: +13 to hit, reach 5 ft., one target.

Hit: 26 (4d8 + 8) bludgeoning damage. If the target is a creature and the attack roll against the target succeeds by 5 or more, the target must succeed on a DC 22 Constitution saving throw or be stunned until the end of its next turn.

Ground Smash (Recharge 5-6). The stone golem slams the ground, triggering an earth tremor and violently pelting the area around it with debris. All other creatures on the ground within 15 feet of the golem must succeed on a DC 22 Strength saving throw, taking 26 (4d8 + 8) bludgeoning damage and is knocked prone on a failed save, or half as much damage and isn't knocked prone on a successful one.

Slow (Recharge 5-6). The golem targets one or more creatures it can see within 15 feet of it. Each target must make a DC 19 Wisdom saving throw against this magic. On a failed save, a target can't use reactions, its speed is halved, and it can't make more than one attack on its turn. In addition, the target can take either an action or a bonus action on its turn, not both. These effects last for 1 minute. A target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

STONE GOLEM SENTINEL

Twice as large as the normal stone golem, these giants are thankfully very rare due to the cost and time to make one. They are mostly found guarding main temples, archmage towers, and royal crypts. In combat, they can slam the ground to create a miniature shockwave that can hit multiple nearby foes.

IRON GOLEM JUGGERNAUT

Even mightier than the iron golem, the juggernaut is at least 20 feet tall. It is so massive that during combat, it merely crushes its opponents by stepping on them. Thankfully, it is very rare as only the wealthiest and most powerful can afford to have one created.

Crushing Stride. The golem moves up to its speed in a straight line. During this move, it can enter Large or smaller creatures' spaces. A creature whose space the golem enters must succeed on a DC 23 Dexterity saving throw. On a successful save, the creature is pushed 5 feet to the nearest space out of the golem's path. On a failed save, the creature falls prone and takes 27 (4d8 + 9) bludgeoning damage. If the golem remains in the prone creature's space, the creature is also restrained until it's no longer in the same space as the golem. While restrained in this way, the creature, or another creature within 5 feet of it, can make a DC 23 Strength check. On a success, the creature is shunted to an unoccupied space of its choice within 5 feet of the golem and is no longer restrained.

Challenge 5 (1,800 XP)

Innate Spellcasting (Psionics). The grell's innate spellcasting ability is Intelligence (spell save DC 13). It can innately cast the following spells, without providing material components:

At will: *mage armor*, *fog cloud*, *shield*

3/day each: *charm person*, *invisibility*, *ray of enfeeblement*

ACTIONS

Multiattack. The grell makes two attacks: one with its tentacles and one with its beak, or uses its lightning ray twice.

Tentacles. Melee Weapon Attack: +7 to hit, reach 15 ft., one target. **Hit:** 14 (2d10 + 3) piercing damage, and the target must succeed on a DC 14 Constitution saving throw or be poisoned for 1 minute. The poisoned target is paralyzed, and it can repeat the saving throw at the end of each of its turns, ending the effect on a success.

The target is also grappled (escape DC 14). If the target is Large or smaller, it is also restrained until this grapple ends. While grappling the target, the grell has advantage on attack rolls against it and can't use this attack against other targets. When the grell moves, any Large or smaller target it is grappling moves with it.

Beak. Melee Weapon Attack: +7 to hit, reach 5 ft., one target. **Hit:** 11 (2d6 + 4) percing damage.

Lightning Ray. Ranged Weapon Attack: +5 to hit, range 60 ft., one target. **Hit:** 12 (3d6 + 2) lightning damage.

GRICKS

DEN MOTHER

The den mother is massive grick that is about 50-60 feet long. When it rears up, it can reach a height of 15 feet. This creature makes its lair in a massive cavern deep in the Underdark where it guards hundreds of its eggs and hatchlings.

It is always attended to by dozens of gricks and grick alphas, which bring it food after hunting forays.

HATCHLING

Hatchlings are weeks-old wormlings about 4-5 feet long in length. Despite their small size, they are ravenous hunters that will prey on smaller vermin and the occasional adventurer.

If a creature's saving throw is successful or the effect ends for it, the creature is immune to the griffon's Frightful Presence for the next 24 hours.

Xvim

Iyachtu Xvim was the half-fiend son of Bane, the greater deity of Fear, Hatred, and Tyranny. For a period of time after his father's death, he took over his father's portfolio. During his reign, he deliberately implanted his essence into predatory and evil-natured beasts, monstrosities, and aberrations. This transformed the creatures into strong, fiendish abominations. His clergy saw them as physical manifestations of his power and will. Despite his death in 1372 DR when his father consumed his body to return from death, his essence continued to linger throughout the realms. Once in a while, especially when one of his fanatical followers makes a sacrifice to him, another beast of Xvim is born to wreak havoc amongst the enemies of Xvim and Bane. Whether it is the dead Xvim himself or Bane granting the transformation is anybody's guess.

HAGS, ELDER

Presented in this section are the elder versions of the green, night, and sea hag. Elder hags are ancient hags that have grown more powerful from the knowledge and experience they have gathered through several centuries.

ELDER GREEN HAG

Elder green hags are powerful druids that can draw and channel the magical energies of the swamp where it usually lives. Aside from its many abilities as a hag, it can also let loose a disturbing cackle that can drive any who hear it into insane acts of violence.

Elder green hags subjugate and take command of any humanoid and giant tribes that live nearby its lair and thus, it is not common to have Lizardfolk, ogres, redcaps, trolls, ettins, and even hill giants serving as the elder green hag's guards.

Amphibious. The hag can breathe air and water.

Innate Spellcasting. The hag's innate spellcasting ability is Charisma (spell save DC 14). She can innately cast the following spells, without providing material components:

At will: *dancing lights*, *minor illusion*, *vicious mockery*.

Spellcasting. The hag is an 12th-level spellcaster. Its spellcasting ability is Wisdom (spell save DC 17, +9 to hit with spell attacks). It has the following druid spells prepared:

6th level (1 slot): *bones of the earth*

Mimicry. The hag can mimic animal sounds and humanoid voices. A creature that hears the sounds can tell they are imitations with a successful DC 14 Wisdom (Insight) check.

ACTIONS

Claws. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one target.

Hit: 13 (2d8 + 4) slashing damage. If the target is a creature, it must succeed on a DC 15 Constitution saving throw or have its Strength score reduced by 1d4. The target dies if this reduces its Strength to 0. Otherwise, the reduction lasts until the target finishes a short or long rest.

Change Shape (Recharges after a Short or Long Rest). The hag magically polymorphs into any beast of CR 4 or less, remaining in that form for up to 1 hour. It can revert to its true form as a bonus action. Its statistics, other than its size, are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Illusory Appearance. The hag covers herself and anything she is wearing or carrying with a magical illusion that makes her look like another creature of her general size and humanoid shape. The illusion ends if the hag takes a bonus action to end it or if she dies.

The changes wrought by this effect fail to hold up to physical inspection. For example, the hag could appear to have smooth skin, but someone touching her would feel her rough flesh. Otherwise, a creature must take an action to visually inspect the illusion and succeed on a DC 20 Intelligence (Investigation) check to discern that the hag is disguised.

Invisible Passage. The hag magically turns invisible until she attacks or casts a spell, or until her concentration ends (as if concentrating on a spell). While invisible, she leaves no physical evidence of her passage, so she can be tracked only by magic. Any equipment she wears or carries is invisible with her.

Maddening Cackle (Recharge 5-6). Each creature within 30 feet of the hag and able to hear the hag must succeed on a DC 17 Charisma saving throw. On a failed save, the target takes 15 (3d8 + 2) psychic damage, and must use its reaction to move up to half its speed and make a melee weapon attack against one creature of the hag's choice that the hag can see. On a successful save, it takes half as much damage and suffers no other effects. Constructs and undead are immune to this effect.

Amphibious. The hag can breathe air and water.

Innate Spellcasting. The hag's innate spellcasting ability is Charisma (spell save DC 18, +10 to hit with spell attacks). She can innately cast the following spells, without providing material components:

At will: *detect magic*, *magic missile*

2/day each: *plane shift* (self only), *ray of enfeeblement*, *sleep*

Spellcasting. The hag is a 17th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 18, +10 to hit with spell attacks). It regains its expended spell slots when it finishes a short or long rest. It knows the following warlock spells:

Cantrips (at will): *eldritch blast*, *friends*, *mage hand*, *minor illusion*, *poison spray*, *prestidigitation*, *shocking grasp*

1st level-5th level (4 5th-level slots): *banishment*, *burning hands*, *fireball*, *flame strike*, *hellish rebuke*, *magic circle*, *mirror image*, *scorching ray*, *scrying*, *wall of fire*

1/day each: *circle of death*, *finger of death*, *maddening darkness*, *psychic scream*

Magic Resistance. The hag has advantage on saving throws against spells and other magical effects.

Dark One's Own Luck (Recharges after a Short or Long Rest).

When the hag makes an ability check or saving throw, it can add a d10 to the roll. It can do this after the roll is made but before any of the roll's effects occur.

ACTIONS

Claws. Melee Weapon Attack: +9 to hit, reach 5 ft., one target.

Hit: 13 (2d8 + 4) slashing damage. If the target is a creature, it must succeed on a DC 18 Wisdom saving throw or fall unconscious. The creature remains unconscious for 1 minute, or until it takes damage, or someone uses an action to shake or slap the creature awake.

Change Shape. The hag magically polymorphs into a Small or Medium female humanoid, or back into her true form. Her statistics are the same in each form. Any equipment she is wearing or carrying isn't transformed. She reverts to her true form if she dies.

Etherealness. The hag magically enters the Ethereal Plane from the Material Plane, or vice versa. To do so, the hag must have a *heartstone* in her possession.

Nightmare Haunting (1/Day). While on the Ethereal Plane, the hag magically touches a sleeping humanoid on the Material Plane. A protection from evil and good spell cast on the target prevents this contact, as does a magic circle. As long as the contact persists, the target has dreadful visions. If these visions last for at least 1 hour, the target gains no benefit from its rest, and its hit point maximum is reduced by 5 (1d10). If this effect reduces the target's hit point maximum to 0, the target dies, and if the target was evil, its soul is trapped in the hag's soul bag. The reduction to the target's hit point maximum lasts until removed by the greater restoration spell or similar magic.

Stupefying Cackle (Recharge 5-6). Each creature within 30 feet of the hag and able to hear the hag must succeed on a DC 18 Charisma saving throw. On a failed save, the target takes 23 (4d8 + 5) psychic damage, and falls unconscious. The creature remains unconscious for 1 minute, or until it takes damage, or someone uses an action to shake or slap the creature awake. On a successful save, it takes half as much damage and isn't unconscious. Constructs and undead are immune to this effect.

ELDER NIGHT HAG

As night hags age, they also become powerful warlocks of the fiend. They can also induce creatures to sleep with a single cackle.

Elder night hags normally employs all manner of fiends as guards, but banderhobbs, oni, jackalweres, and redcaps have been found to serve her as well.

Challenge 9 (5,000 XP)

Amphibious. The hag can breathe air and water.

Horrific Appearance. Any humanoid that starts its turn within 30 feet of the hag and can see the hag's true form must make a DC 16 Wisdom saving throw. On a failed save, the creature is frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, with disadvantage if the hag is within line of sight, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the hag's Horrific Appearance for the next 24 hours.

Unless the target is surprised or the revelation of the hag's true form is sudden, the target can avert its eyes and avoid making the initial saving throw. Until the start of its next turn, a creature that averts its eyes has disadvantage on attack rolls against the hag.

Spellcasting. The hag is a 12th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 16, +8 to hit with spell attacks). It has the following sorcerer spells prepared:

Cantrips (at will): *chill touch*, *minor illusion*, *mending*, *poison spray*, *shape water*

1st level (4 slots): *charm person*, *thunderwave*

2nd level (3 slots): *hold person*, *misty step*

3rd level (3 slots): *lightning bolt*, *tidal wave*

4th level (3 slots): *dimension door*, *vitriolic sphere*, *watery sphere*

5th level (2 slots): *cloudkill*, *enervation*

6th level (1 slot): *scatter*

Sorcery Points. The hag has 12 sorcery points. It can spend 1 or more sorcery points to gain one of the following benefits:

Heightened Spell: When the hag casts a spell that forces a creature to make a saving throw to resist the spell's effects, the hag can spend 3 sorcery points to give one target of the spell disadvantage on its first saving throw against the spell.

Quicken Spell: When the hag casts a spell that has a casting time of 1 action, the hag can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

ACTIONS

Claws. Melee Weapon Attack: +7 to hit, reach 5 ft., one target.

Hit: 10 (2d6 + 3) slashing damage. If the target is a creature, it must succeed on a DC 15 Constitution saving throw or be poisoned for 24 hours.

Death Glare. The hag targets one frightened creature she can see within 30 feet of her. If the target can see the hag, it must succeed on a DC 16 Wisdom saving throw against this magic or drop to 0 hit points.

Illusory Appearance. The hag covers herself and anything she is wearing or carrying with a magical illusion that makes her look like an ugly creature of her general size and humanoid shape. The effect ends if the hag takes a bonus action to end it or if she dies.

The changes wrought by this effect fail to hold up to physical inspection. For example, the hag could appear to have no claws, but someone touching her hand might feel the claws. Otherwise, a creature must take an action to visually inspect the illusion and succeed on a DC 21 Intelligence (Investigation) check to discern that the hag is disguised.

REACTIONS

Confounding Cackle (Recharge 4-6). When a creature targets the hag or the hag's ally with an attack, and the creature is within 30 feet, visible to and can hear the hag, the hag can force the creature to make a DC 16 Charisma saving throw. On a failed save, the hag chooses another creature within reach or range of the attacker's attack and the chosen creature becomes the target instead. If there are no other creatures within range, the hag imposes disadvantage on the attacker's attack roll instead.

ELDER SEA HAG

Elder sea hags develop sorcerer abilities. When attacked, it can unleash a distracting cackle that misleads the attacker into striking a different target.

Elder sea hags take control of any humanoid and giant tribes that live near its lair, as well as other monstrosities. They often have chuuls, merrow, sahuagin, and scrag trolls as guardians.

HALF-DRAGON DINOSAURS

When Tiamat's second coming was thwarted by a group of adventurers, it was the beginning of the end of the sudden rise of the Cult of the Dragon as forces of the Lord's Alliance, the Order of the Gauntlet, and the Harpers systematically struck each of the cult's main lairs. A small faction of the cult managed to escape the Sword Coast and fled to the Chultan peninsula, carting off with them several dozen unhatched dragon eggs. As they began building a foothold in one of the jungles, they experimented combining the dragon eggs with dinosaur ones to create half-dragon dinosaurs which would serve them as guard drakes. Some examples of their creations are presented here.

The harpy must take a bonus action on its subsequent turns to continue singing. It can stop singing at any time. The song ends if the harpy is incapacitated.

While charmed by the harpy, a target is incapacitated and ignores the songs of other harpies. If the charmed target is more than 5 feet away from the harpy, the target must move on its turn toward the harpy by the most direct route. It doesn't avoid opportunity attacks, but before moving into damaging terrain, such as lava or a pit, and whenever it takes damage from a source other than the harpy, a target can repeat the saving throw. A creature can also repeat the saving throw at the end of each of its turns. If a creature's saving throw is successful, the effect ends on it. A target that successfully saves is immune to this harpy's song for the next 24 hours.

When a creature within 30 feet of the harpy is visible to the harpy, and can hear the harpy makes an attack roll but before the outcome is determined, the harpy can impose disadvantage to the creature's attack roll. TALON OF TIAMAT

The Talon of Tiamat is a champion of the Dragon Queen and all evil dragons. It serves to enforce the Dark Lady's will by destroying metallic dragons and its allies, such as the Harpers and the Lord's Alliance.

Aside from its sorcerous abilities, it can also magically breathe two types of dragon fire at its foes.

VETERAN

The hobgoblin veteran normally trains young hobgoblins for war and is often encountered with them. The veteran is an effective combatant due to its experience and familiarity with how its allies fight.

WAR PRIEST

The war priest is a worshipper of Maglubiyet, the goblinoid god of war and domination. They are usually found leading goblinoid armies to battle or planning military strategies with other goblinoid leaders. It prefers to use its spells to wreak havoc on its foes rather than heal its wounded allies.

HOOK HORRORS

ALPHA

The hook horror alpha is always the largest and most battle-scarred hook horror in its pack. It leads hunting forays into humanoid territories and is always the first to strike.

Beak Strike. During combat, after hitting its prey with both its hooks, it can make a beak attack.

Challenge 9 (5,000 XP)

Hold Breath. The hydra can hold its breath for 1 hour.

Multiple Heads. The hydra has five heads. While it has more than one head, the hydra has advantage on saving throws against being blinded, charmed, deafened, frightened, stunned, and knocked unconscious.

Whenever the hydra takes 25 or more damage in a single turn, one

of its heads dies. If all its heads die, the hydra dies.

At the end of its turn, it grows two heads for each of its heads that died since its last turn, unless it has taken fire damage since its last turn. The hydra regains 10 hit points for each head regrown in this way.

Reactive Heads. For each head the hydra has beyond one, it gets an extra reaction that can be used only for opportunity attacks.

Wakeful. While the hydra sleeps, at least one of its heads is awake.

ACTIONS

Multiattack. The hydra makes as many bite attacks as it has heads, one of which it can replace with one use of Cold Breath.

Bite. *Melee Weapon Attack:* +9 to hit, reach 10 ft., one target.

Hit: 10 (1d10 + 5) piercing damage plus 3 (1d6) cold damage.

Cold Breath (1/Turn). One of the hydra's heads exhales cold in a 15-foot cone. Each creature in that area must succeed on a DC 17 Dexterity saving throw, taking 17 (5d6) cold damage on a failed save, or half as much damage on a successful one.

CRYOHYDRA

The cryohydra has a mottled white hide with a pale white underside. Each of its heads has the ability to breathe frost in a 15-foot cone, but since the hydra has only one set of lungs, only one of the heads can do so per turn. They are normally found in the arctic terrain, such as glaciers and icy caverns. Frost giants sometimes keep them as guards.

Carnivorous Scavenger. The gulguthydra is a scavenger that will try to eat anything that looks or used to look alive. It will always prefer living creatures over carrion. It can devastate a whole ecosystem if left unchecked. Fortunately, they are extremely rare.

Stench. Any creature that starts its turn within 10 feet of the gulguthydra must succeed on a DC 19 Constitution saving throw or

be poisoned until the start of its next turn. On a successful saving throw, the creature is immune to the gulguthydra's Stench for 24 hours.

Wakeful. While the hydra sleeps, at least one of its heads is awake.

ACTIONS

Multiattack. The hydra makes as many bite attacks as it has heads, and two tentacle attacks. It can replace both tentacle attacks with tentacle slam.

Bite. *Melee Weapon Attack:* +11 to hit, reach 10 ft., one target. *Hit:* 11 (1d10 + 6) piercing damage. If the target is a creature, it must succeed on a DC 19 Constitution saving throw against disease or become poisoned until the disease is cured. Every 24 hours that elapse, the target must repeat the saving throw, reducing its hit point maximum by 5 (1d10) on a failure. The disease is cured on a success. The target dies if the disease reduces its hit point maximum to 0. This reduction to the target's hit point maximum lasts until the disease is cured.

Tentacle. *Melee Weapon Attack:* +11 to hit, reach 15 ft., one target. *Hit:* 15 (2d8 + 6) bludgeoning damage plus 9 (2d8) piercing damage. If the target is Large or smaller, it is grappled (escape DC 16) and restrained until the grapple ends. The gulguthydra has two tentacles, each of which can grapple one target.

Tentacle Slam. The gulguthydra slams creatures grappled by it into each other or a solid surface. Each creature must succeed on a DC 19 Strength saving throw or take 20 (4d6 + 6) bludgeoning damage and be stunned until the end of the gulguthydra's next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

MORDANT

The mordant hydra has a dark purple and mottled hide with a light purplish underside. Each of its heads has the ability to breathe acid in a 30-foot line but since the hydra has only one set lungs, only one of the heads can do so per turn.

PYROHYDRA

The pyrohydra has a scaly, dark red hide with a light underside. Each of its heads has the ability to breathe fire in a 15-foot cone, but since the hydra has only one set of lungs, only one of the heads can do so per turn. JACKALWERES

THUG

A typical jackalwere would never attack in the open and will always prefer a more subtle way to get at its intended victims. A jackalwere thug, on the other hand, does not have the patience and will simply ambush its prey or overwhelm it through sheer numbers. They are still cowards though, and flee if they feel they cannot win the fight without it costing a lot.

They almost always serve the lamia, but some have been employed by night hags, mummy lords, and oni lords.

Shapechanger. The jackalwere can use its action to polymorph into a specific Medium human or a jackal-humanoid hybrid, or back into its true form (that of a Small jackal). Other than its size, its statistics are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Keen Hearing and Smell. The jackalwere has advantage on Wisdom (Perception) checks that rely on hearing or smell.

Pack Tactics. The jackalwere has advantage on an attack roll against a creature if at least one of the warhound's allies is within 5 feet of the creature and the ally isn't incapacitated.

Sneak Attack (1/Turn). The jackalwere deals an extra 7 (2d6) damage when it hits a target with a weapon attack and has advantage on the attack roll, or when the target is within 5 feet of an ally of the jackalwere that isn't incapacitated and the jackalwere doesn't have disadvantage on the attack roll.

ACTIONS

Sleep Gaze. The jackalwere gazes at one creature it can see within 30 feet of it. The target must make a DC 10 Wisdom saving throw. On a failed save, the target succumbs to a magical slumber, falling unconscious for 10 minutes or until someone uses an action to shake the target awake. A creature that successfully saves against the effect is immune to this jackalwere's gaze for the next 24 hours. Undead and creatures immune to being charmed aren't affected by it.

DECEIVER

A few jackalwere exhibit uncanny intelligence, and develop a talent for deception and the performance of the arts. They become bards and are sent to the College of Whispers by their masters. With their new abilities, they are used for the more complex missions of assassination, spreading false information, sabotage, and spying.

A jackalwere deceiver will never put itself at risk unnecessarily, such as fighting in the open. It will always try to outwit or negotiate its way out of a bind. But if caught, it will defend itself with its spells and abilities.

Pack Tactics. The jackalwere has advantage on an attack roll against a creature if at least one of the warhound's allies is within 5 feet of the creature and the ally isn't incapacitated.

Dark Whispers. The jackalwere can use a bonus action on its turn to target one creature within 30 feet of it. If the target can hear the jackalwere, the target must succeed on a DC 15 Charisma saving throw or be frightened for 1 minute. While frightened in this way, a creature must take the Dash action and move away from the jackalwere by the safest available route on each of its turns, unless there is nowhere to move, in which case it needn't take the Dash action. If the creature ends its turn in a location where it doesn't have line of sight to the jackalwere, the creature can repeat the saving throw. On a success, the effect ends.

Psychic Blades (3/day). The jackalwere deals an extra 10 (3d6) damage when it hits a target with a weapon attack.

When a creature within 30 feet of the jackalwere, is visible to the jackalwere, and can hear the jackalwere makes an attack roll but before the outcome is determined, the jackalwere can impose disadvantage to the creature's attack roll. If the attack misses, the creature must succeed on a DC 13 Charisma saving throw or take 13 (3d8) psychic damage and is knocked prone.

Dragonwrought sorcerers are a very rare type of winged kobold born with the ability to exhale dragon breath. They show exceptional abilities and intelligence unseen from normal kobolds, and some even become arcane spellcasters. They become natural leaders of their tribe, if not all of the tribes in the region.

KRAKEN

YOUNG KRAKEN

The ancient adult kraken is very rarely seen, as there are almost no survivors to ever tell the story when one encounters it. Young krakens, on the other hand, appear to be the ones that most sailors see and get to live to tell the tale, albeit barely.

These behemoths are huge, despite being just a third the size of the adult kraken. They can attack and sink any of the large ships singlehandedly if not fended off quickly enough.

Amphibious. The kraken can breathe air and water.

Freedom of Movement. The kraken ignores difficult terrain, and magical effects can't reduce its speed or cause it to be restrained. It can spend 5 feet of movement to escape from nonmagical restraints or being grappled.

Siege Monster. The kraken deals double damage to objects and structures.

ACTIONS

Multiattack. The kraken makes three tentacle attacks, each of which it can replace with one use of Fling.

Bite. *Melee Weapon Attack:* +12 to hit, reach 5 ft., one target. *Hit:* 17 (2d8 + 8) piercing damage. If the target is a Medium or smaller creature grappled by the kraken, that creature is swallowed, and the grapple ends. While swallowed, the creature is blinded and restrained, it has total cover against attacks and other effects outside the kraken, and it takes 21 (6d6) acid damage at the start of each of the kraken's turns. If the kraken takes 25 damage or more on a single turn from a creature inside it, the kraken must succeed on a DC 20 Constitution saving throw at the end of that turn or

regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the kraken. If the kraken dies, a swallowed creature is no longer restrained by it and can escape from the corpse using 10 feet of movement, exiting prone.

Tentacle. *Melee Weapon Attack:* +12 to hit, reach 20 ft., one target. *Hit:* 15 (2d6 + 8) bludgeoning damage, and the target is grappled (escape DC 16). Until this grapple ends, the target is restrained. The kraken has ten tentacles, each of which can grapple one target.

Fling. One Large or smaller object held or creature grappled by the kraken is thrown up to 40 feet in a random direction and knocked prone. If a thrown target strikes a solid surface, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the target is thrown at another creature, that creature must succeed on a DC 16 Dexterity saving throw or take the same damage and be knocked prone.

Lightning Storm. The kraken magically creates three bolts of lightning, each of which can strike a target the kraken can see within 120 feet of it. A target must make a DC 17 Dexterity saving throw, taking 11 (2d10) lightning damage on a failed save, or half as much damage on a successful one.

LEGENDARY ACTIONS

The kraken can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The kraken regains spent legendary actions at the start of its turn.

Tentacle Attack or Fling. The kraken makes one tentacle attack or uses its Fling.

Lightning Storm (Costs 2 Actions). The kraken uses Lightning Storm.

Ink Cloud (Costs 3 Actions). While underwater, the kraken expels an ink cloud in a 40-foot radius. The cloud spreads around corners, and that area is heavily obscured to creatures other than the kraken. Each creature other than the kraken that ends its turn there must succeed on a DC 17 Constitution saving throw, taking 16 (3d10) poison damage on a failed save, or half as much damage on a successful one. A strong current disperses the cloud, which otherwise disappears at the end of the kraken's next turn.

Despite their serpentine forms, they move with a surprising grace.

They are also more capable of venturing further from their desolate lairs than other lamias. They rarely show their true form, and anyone who discovers their true nature is swiftly and quietly eliminated.

MEDUSA, ANCIENT

ANCIENT MEDUSA

Said to be where all common medusa have come from, the ancient medusa is a legendary creature. Once the most alluring mortal in the known world, she believed she was even more beautiful than the gods. Angered, the gods transformed her into a hideous, snake-haired monster and then cursed her, ensuring that nobody else would ever behold her form again, lest they turn to stone.

Dangerous Combatant. She is a deadly foe to face in combat. Aside from the obvious danger of being turned into stone, she is an accomplished sorcerer and an expert marksman with the longbow. Her very blood is poisonous, and when it hits the ground, a swarm of snakes spring from it and attack her foes.

Challenge 17 (18,000 XP)

Blood of the Serpents. A creature that hits the medusa with a melee attack that deals piercing or slashing damage and is within 5 feet of it takes 5 (1d10) poison damage. Additionally, a swarm of snakes (MM p.338) appears in an unoccupied space within 5 feet of the medusa, and acts as an ally of the medusa.

Legendary Resistance (3/Day). If the medusa fails a saving throw, it can choose to succeed instead.

Petrifying Gaze. When a creature that can see the medusa's eyes starts its turn within 30 feet of the medusa, the medusa can force it to make a DC 18 Constitution saving throw if the medusa isn't incapacitated and can see the creature. If the saving throw fails by 5 or more, the creature is instantly petrified. Otherwise, a creature that fails the save begins to turn to stone and is restrained. The restrained creature must repeat the saving throw at the end of its next turn, becoming petrified on a failure or ending the effect on a success. The petrification lasts until the creature is freed by the greater restoration spell or other magic.

Unless surprised, a creature can avert its eyes to avoid the saving throw at the start of its turn. If the creature does so, it can't see the medusa until the start of its next turn, when it can avert its eyes again. If the creature looks at the medusa in the meantime, it must immediately make the save.

If the medusa sees itself reflected on a polished surface within 30 feet of it and in an area of bright light, the medusa is, due to its curse, affected by its own gaze.

Spellcasting. The medusa is a 12th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 18, +10 to hit with spell attacks). It has the following sorcerer spells prepared:

Cantrips (at will): *chill touch*, *minor illusion*, *mending*, *poison spray*, *shape water*

1st level (4 slots): *shield*, *thunderwave*

2nd level (3 slots): *hold person*, *misty step*

3rd level (3 slots): *counterspell*, *fire ball*

4th level (3 slots): *charm monster*, *dimension door*, *vitriolic sphere*

5th level (2 slots): *cone of cold*, *enervation*

6th level (1 slot): *globe of invulnerability*

Sorcery Points. The medusa has 12 sorcery points. It can spend 1 or more sorcery points to gain one of the following benefits:

Heightened Spell: When the medusa casts a spell that forces a creature to make a saving throw to resist the spell's effects, the medusa can spend 3 sorcery points to give one target of the spell disadvantage on its first saving throw against the spell.

Quickened Spell: When the medusa casts a spell that has a casting time of 1 action, the medusa can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

Subtle Spell: When the medusa casts a spell, it can spend 1 sorcery point to cast the spell without any somatic or verbal components.

ACTIONS

Multiattack. The medusa makes either three melee attacks - one with its snake hair, one with its scimitar, and one to constrict - or three ranged attacks with its longbow.

Snake Hair. Melee Weapon Attack: +10 to hit, reach 5 ft., one creature. *Hit:* 6 (1d4 + 4) piercing damage plus 21 (6d6) poison damage.

Scimitar. Melee Weapon Attack: +10 to hit, reach 5 ft., one creature. *Hit:* 11 (2d6 + 4) slashing damage plus 10 (3d6) poison damage.

Constrict. Melee Weapon Attack: +9 to hit, reach 10 ft., one target. *Hit:* 10 (2d6 + 3) bludgeoning damage. If the target is a Large or smaller creature, it is grappled (escape DC 13). Until this grapple ends, the target is restrained, and the medusa can't constrict another target.

Longbow. Ranged Weapon Attack: +10 to hit, range 60 ft., one target. *Hit:* 13 (2d8 + 4) piercing damage plus 10 (3d6) poison damage.

LEGENDARY ACTIONS

The medusa can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The medusa regains spent legendary actions at the start of its turn.

Attack. The medusa makes a scimitar or longbow attack or uses Constrict.

Force Petrifying Gaze (Costs 2 Actions). The medusa forces a creature grappled and restrained by it to meet its gaze. The target must succeed on a DC 18 Constitution saving throw or become petrified (see *Petrifying Gaze*).

Cast a Spell (Costs 2 Actions). The medusa casts a spell from its list of prepared spells, using a spell slot as normal.

Challenge 7 (2,900 XP)

Shapechanger. The mimic can use its action to polymorph into an object or back into its true, amorphous form. Its statistics are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Adhesive (Object Form Only). The mimic adheres to anything that touches it. A creature adhered to the mimic is also grappled by it (escape DC 15). Ability checks made to escape this grapple have disadvantage.

Ambusher. The mimic has advantage on attack rolls against any creature it has surprised.

False Appearance (Object Form Only). While the mimic remains motionless, it is indistinguishable from an ordinary object.

Grappler. The mimic has advantage on attack rolls against any creature grappled by it.

ACTIONS

Multiattack. The mimic makes three attacks: two with its pseudopods and one with its bite or acid spit.

Pseudopod. Melee Weapon Attack: +8 to hit, reach 5 ft. one target. **Hit:** 14 (2d8 + 5) bludgeoning damage. If the mimic is in object form, the target is subjected to its Adhesive trait.

Bite. Melee Weapon Attack: +8 to hit, reach 5 ft. one target. **Hit:** 14 (2d8 + 5) bludgeoning damage plus 9 (2d8) acid damage.

Acid Spit. Ranged Spell Attack: +4 to hit, range 60 ft., one target. **Hit:** 18 (4d8) acid damage.

GREATER MIMIC

The greater mimic is an advanced form of mimic. It normally assumes the form of large-sized objects such as a giant-sized chest, a king-sized bed, or a carriage.

During combat, it can attack twice with its pseudopods and bite those who are close enough to reach, or spit acid at distant targets.

ENORMOUS MIMIC

The enormous mimic is the stuff of nightmares. It is able to assume to take the form of huge structures. It is said that a single enormous mimic devoured an entire legion of soldiers without getting caught when it assumed the form of a garrison.

Challenge 13 (10,000 XP)

Shapechanger. The mimic can use its action to polymorph into an object or back into its true, amorphous form. Its statistics are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Adhesive (Object Form Only). The mimic adheres to anything that touches it. A creature adhered to the mimic is also grappled by it (escape DC 17). Ability checks made to escape this grapple have disadvantage.

Ambusher. The mimic has advantage on attack rolls against any creature it has surprised.

False Appearance (Object Form Only). While the mimic remains motionless, it is indistinguishable from an ordinary object.

Grappler. The mimic has advantage on attack rolls against any creature grappled by it.

ACTIONS

Multiattack. The mimic makes four attacks: two with its pseudopods and one with its bite or acid spit.

Pseudopod. Melee Weapon Attack: +12 to hit, reach 5 ft. one target. **Hit:** 20 (3d8 + 7) bludgeoning damage. If the mimic is in object form, the target is subjected to its Adhesive trait.

Bite. Melee Weapon Attack: +12 to hit, reach 5 ft. one target. **Hit:** 20 (3d8 + 7) bludgeoning damage plus 13 (3d8) acid damage, and if the target is Medium or smaller, it is grappled (escape DC 17). Until this grapple ends, the mimic can bite only the grappled creature and has advantage on attack rolls to do so.

Acid Spit. Ranged Spell Attack: +6 to hit, range 60 ft., one target. **Hit:** 27 (6d8) acid damage.

Swallow. The mimic makes one bite attack against a Medium or smaller target it is grappling. If the attack hits, the target is also swallowed, and the grapple ends. While swallowed, the target is blinded and restrained, it has total cover against attacks and other effects outside the mimic, and it takes 21 (6d6) acid damage at the start of each of the mimic's turns. A mimic can have only up to one Medium or two Small creatures swallowed at a time.

If the mimic takes 30 damage or more on a single turn from the swallowed creature, the mimic must succeed on a DC 16 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the mimic. If the mimic dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 10 feet of movement, exiting prone.

MIND FLAYERS

Presented in this section are three mindflayer nonplayer character examples: the mind flayer assassin, the mind flayer sorcerer, and the mind flayer warlock.

MIND FLAYER ASSASSIN

The mind flayer assassins are a rare breed in the illthid community. There are only a few in every colony, and almost all directly serve the Elder Brain or an Ulitharid.

Psionic Killers. While their kin have dedicated their lives in gathering knowledge to improve their arcane and psionic abilities, mind flayer assassins focus on developing their ability to bring down foes quickly and as quietly as possible.

Soul Knives. Mind flayer assassins are able to create psionic blade-like energy projections from their fists. They use this to keep their targets off-balance, making them unable to react in combat.

Challenge 8 (3,900 XP)

Magic Resistance. The mind flayer has advantage on saving throws against spells and other magical effects.

Assassinate. During its first turn, the mind flayer has advantage on attack rolls against any creature that hasn't taken a turn. Any hit the mind flayer scores against a surprised creature is a critical hit.

Innate Spellcasting (Psionics). The mind flayer's innate spellcasting ability is Intelligence (spell save DC 15). The mind flayer can innately cast the following spells, without providing material components:

At will: *detect thoughts*, *levitate*

1/day each: *dominate monster*, *plane shift* (self only)

Soul Knives. As a bonus action, the mind flayer can create scintillating knives of energy that project from both of its fists. It can't hold anything in its hands while manifesting these blades. It can dismiss them as a bonus action.

Sneak Attack (1/Turn). The mind flayer deals an extra 10 (3d6) damage when it hits a target with a weapon attack and has advantage on the attack roll, or when the target is within 5 feet of an ally of the mind flayer that isn't incapacitated and the mind flayer doesn't have disadvantage on the attack roll.

ACTIONS

Multiattack. The mind flayer makes three attacks: one with its tentacles and two with its soul knives.

Soul Knife. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one creature. *Hit:* 8 (1d8 + 4) psychic damage, and the target can't take reactions until the end of the mind flayer's next turn.

Tentacles. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one creature. *Hit:* 15 (2d10 + 4) psychic damage. If the target is Medium or smaller, it is grappled (escape DC 15) and must succeed on a DC 15 Intelligence saving throw or be stunned until this grapple ends.

Extract Brain. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one incapacitated humanoid grappled by the mind flayer. *Hit:* The target takes 55 (10d10) piercing damage. If this damage reduces the target to 0 hit points, the mind flayer kills the target by extracting and devouring its brain.

Mind Blast (Recharge 5-6). The mind flayer magically emits psychic energy in a 60-foot cone. Each creature in that area must succeed on a DC 16 Intelligence saving throw or take 22 (4d8 + 4) psychic damage and be stunned for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Quicken Spell: When the mind flayer casts a spell that has a casting time of 1 action, the mind flayer can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

MIND FLAYER WARLOCK

The mind flayer warlock is almost always a servant of the Great Old One. It uses its warlock spells to great effect, such as immobilizing its targets with Evard's black tentacles or positioning itself with dimension door before unleashing its mind blast the next turn.

MINOTAURS

BERSERKER

The minotaur berserker is a ferocious combatant able to charge recklessly into a throng of foes, hoping to cleave through several of them with its massive greataxe. Even after it is struck with a fatal blow, the minotaur can still make one final lunging strike at its attacker before dropping dead.

SAVAGE BULL OF BAPHOMET

On very rare instances, Baphomet the Prince of Beasts would instill its essence in a minotaur. It would transform into what is called a Savage Bull of Baphomet - a powerful, feral version of the minotaur.

Charge. If the minotaur moves at least 10 feet straight toward a target and then hits it with a gore attack on the same turn, the target takes an extra 9 (2d8) piercing damage. If the target is a creature, it must succeed on a DC 16 Strength saving throw or be pushed up to 10 feet away and knocked prone.

Labyrinthine Recall. The minotaur can perfectly recall any path it has traveled.

Reckless. At the start of its turn, the minotaur can gain advantage on all melee weapon attack rolls during that turn, but attack rolls against it have advantage until the start of its next turn.

ACTIONS

Multiattack. The minotaur makes two attacks: one with its greataxe and one with gore. It can use Cleaving Swing in place of one attack.

Greataxe. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one target.
Hit: 18 (2d12 + 5) slashing damage.

Gore. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one target.
Hit: 14 (2d8 + 5) piercing damage.

Cleaving Swing (Recharges 5-6). The minotaur swings its greataxe, and each creature within 5 feet of it must succeed on a DC 16 Dexterity saving throw. On a failed save, the target takes 18 (2d12 + 5) slashing damage, or half as much damage on a successful one.

REACTIONS

Death Strike. In response to being reduced to 0 hit points by an attack and the attack is not a critical hit, the minotaur can move up to half its speed and make one melee attack with advantage before dying or falling unconscious.

ACTIONS

Multiattack. The mummy can use its Dreadful Glare twice (once for each head) and makes two rotting fist attacks.

Rotting Fist. Melee Weapon Attack: +11 to hit, reach 5 ft., one target. **Hit:** 17 (3d6 + 7) bludgeoning damage plus 10 (3d6) necrotic damage. If the target is a creature, it must succeed on a DC 15 Constitution saving throw or be cursed with mummy rot. The cursed target can't regain hit points, and its hit point maximum decreases by 10 (3d6) for every 24 hours that elapse. If the curse reduces the target's hit point maximum to 0, the target dies, and its body turns to dust. The curse lasts until removed by the remove curse spell or other magic.

Dreadful Glare. The mummy targets one creature it can see within 60 feet of it. If the target can see the mummy, it must succeed on a DC 12 Wisdom saving throw against this magic or become frightened until the end of the mummy's next turn. If the target fails the saving throw by 5 or more, it is also paralyzed for the same duration. 4th level (3 slots): *dimension door*, *greater invisibility*

5th level (2 slots): *cloudkill*, *cone of cold*

Sorcery Points. The mummy has 10 sorcery points. It can spend 1 or more sorcery points to gain one of the following benefits:

Heightened Spell: When the mummy casts a spell that forces a creature to make a saving throw to resist the spell's effects, it can spend 3 sorcery points to give one target of the spell disadvantage on its first saving throw against the spell.

Quicken Spell: When the mummy casts a spell that has a casting time of 1 action, the mummy can spend 2 sorcery points to change the casting time to 1 bonus action for this casting.

Subtle Spell: When the mummy casts a spell, it can spend 1 sorcery point to cast the spell without any somatic or verbal components.

ACTIONS

Multiattack. The mummy can use its Dreadful Glare and makes one attack with its rotting fist.

Rotting Fist. Melee Weapon Attack: +7 to hit, reach 5 ft., one target. **Hit:** 10 (2d6 + 3) bludgeoning damage plus 14 (4d6) necrotic damage. If the target is a creature, it must succeed on a DC 15 Constitution saving throw or be cursed with mummy rot. The cursed target can't regain hit points, and its hit point maximum decreases by 10 (3d6) for every 24 hours that elapse. If the curse reduces the target's hit point maximum to 0, the target dies, and its body turns to dust. The curse lasts until removed by the *remove curse* spell or other magic.

Dreadful Glare. The mummy targets one creature it can see within 60 feet of it. If the target can see the mummy, it must succeed on a DC 16 Wisdom saving throw against this magic or become frightened until the end of the mummy's next turn. If the target fails the saving throw by 5 or more, it is also paralyzed for the same duration. A target that succeeds on the saving throw is immune to the Dreadful Glare of all mummies (but not mummy lords) for the next 24 hours.

MYCONIDS

GUARD

Myconid guards watch over the myconid workers, protecting them from intruders and predators.

DEVOTED

The myconid devoted serves as the healer of the myconid. Aside from its other spore abilities, it can also release spores that heal the wounds of multiple targets.

Pacifying Spores (3/Day). The myconid ejects spores at one creature it can see within 5 feet of it. The target must succeed on a DC 12 Constitution saving throw or be stunned for 1 minute. The target can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Report Spores. A 20-foot radius of spores extends from the myconid. NIGHTMARE, CAUCHEMAR

CAUCHEMAR

The cauchemar is a larger and more dangerous nightmare. It perpetually projects an aura of dread and can exhale a cone of sulfurous smoke that can nauseate those who are unfortunate enough to get caught in it. They are normally the steeds of large fiend commanders and blackguards.

Challenge 8 (3,900 XP)

Aura of Dread. A creature hostile to the cauchemar that starts its turn within 20 feet of the cauchemar must succeed on a DC 14 Wisdom saving throw, unless the cauchemar is incapacitated. On a failed save, the target is frightened until the start of its next turn. While frightened in this way, the target can't perform any actions except move up to half its speed. If a creature's saving throw is successful, the creature is immune to the cauchemar's Aura of Dread for the next 24 hours.

Confer Fire Resistance. The cauchemar can grant resistance to fire damage to anyone riding it.

Illumination. The cauchemar sheds bright light in a 15-foot radius and dim light for an additional 15 feet.

ACTIONS

Multiattack. The cauchemar makes two attacks: one with its bite and one with its hooves.

Bite. *Melee Weapon Attack:* +9 to hit, reach 15 ft., one target.

Hit: 13 (2d6 + 6) piercing damage plus 10 (3d6) fire damage.

Hooves. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target.

Hit: 20 (4d6 + 6) bludgeoning damage plus 10 (3d6) fire damage.

Ethereal Stride. The cauchemar and up to three willing creatures within 5 feet of it magically enter the Ethereal Plane from the Material Plane, or vice versa.

Sulfur Breath (Recharge 5-6). The cauchemar exhales nauseating sulfurous smoke in a 15-foot cone. The smoke spreads around corners, and its area is heavily obscured. Each creature in that area must succeed on a DC 16 Constitution saving throw. On a failed save, the creature takes 14 (4d6) fire damage and spends its action on each of its turns retching and reeling for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. Creatures that don't need to breathe or are immune to fire automatically succeed on this saving throw. On a successful save, the creature takes half as much damage and does not suffer any other effects.

NOTHICS

EYE OF VECNA

An eye of Vecna was once a necromancer wizard who tirelessly sought the secrets of Lichdom. In the end, it failed and was cursed to become a dark and grotesque form of nothic. It can cause a creature's flesh to decay and rot with a mere stare.

Decaying Gaze. When a creature starts its turn within 30 feet of the nothic and is able to see the nothic's eye, the nothic can magically force it to make a DC 13 Constitution saving throw, unless the nothic is incapacitated.

On a failed save, the creature takes 21(6d6) necrotic damage and its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the creature finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Keen Sight. The nothic has advantage on Wisdom (Perception) checks that rely on sight.

ACTIONS

Multiattack. The nothic uses its Decaying Gaze and makes two claw attacks.

Claw. Melee Weapon Attack: +6 to hit, reach 5 ft., one target.

Hit: 7 (1d8 + 3) slashing damage plus 10 (3d6) necrotic damage.

Decaying Glare. The nothic targets one creature it can see within 30 feet of it. The target must succeed on a DC 13 Constitution saving throw against this magic or take 21 (6d6) necrotic damage and its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the creature finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Mind Twitch (Recharge 5-6). The nothic chooses up to three creatures it can see within 60 feet of it. Each target must succeed on a DC 14 Intelligence saving throw, or it takes 21 (4d8 + 3) psychic damage and must use their reaction to move up to half its speed to a space of the nothic's choice that the nothic can see. This movement provokes opportunity attacks. Constructs and undead are immune to this effect.

Weird Insight. The nothic targets one creature it can see within 30 feet of it. The target must contest its Charisma (Deception) check against the nothic's Wisdom (Insight) check. If the nothic wins, it magically learns one fact or secret about the target. The target automatically wins if it is immune to being charmed.

On a failed save, the creature must use its action to move up to its speed and make a melee weapon attack against a creature of the nothic's choice that the nothic can see. Constructs and undead are immune to this effect.

Keen Sight. The nothic has advantage on Wisdom (Perception) checks that rely on sight.

ACTIONS

Multiattack. The nothic uses its Rotting Gaze and makes two claw attacks.

Claw. Melee Weapon Attack: +6 to hit, reach 5 ft., one target.

Mind Rot (Recharge 5-6). The nothic chooses up to three creatures it can see within 60 feet of it. Each target must succeed on a DC 14 Intelligence saving throw, or it takes 15 (3d8 + 2) psychic damage, has disadvantage to attack rolls, ability checks, and saving throws, and can't use reactions until the end of the nothic's next turn. If the target is a spellcaster that has unused spell slots, it also expends 1d4 spell slots (chosen at random). Constructs and undead are immune to this effect.

Weird Insight. The nothic targets one creature it can see within 30 feet of it. The target must contest its Charisma (Deception) check against the nothic's Wisdom (Insight) check. If the nothic wins, it magically learns one fact or secret about the target. The target automatically wins if it is immune to being charmed.

MINDBLIGHT

The mindblight was a wizard enchanter before it was cursed to become a nothic. Those foolish enough to look at it risk becoming temporarily mind controlled by the mindblight.

OGRES

BRUISER

The ogre bruiser cares about nothing else but inflicting pain to its foes before finishing them with its greatclub.

CHAMPION OF VAPRAK

Vaprak, the god of trolls and ogres, will sometimes implant his divine essence into an ogre infant. This causes the infant to grow into a monstrous ogre with the ability to regenerate wounds like a troll and smite its foes. Such a creature normally leads its kin to battle.

CHIEFTAIN

The ogre chieftain is the largest and most intimidating ogre in its tribe. While it sees itself as a commander and tactician in battle, it is not a particularly good one as it merely bullies its troops into action.

SHAMAN

The ogre shaman is the spiritual leader of an ogre tribe and is second only to its chieftain. In combat, it would support its kin as healer and unleash the powers of the earth against its foes.

SKIRMISHER

Leaner but quicker than the average ogre, the skirmisher prefers to attack from afar and use hit and run tactics.

REACTIONS

Skirmisher. When an enemy the ogre can see ends its turn within 5 feet of it, the ogre can move up to half its speed. This movement doesn't provoke opportunity attacks.

WARHULK

The warhulk is a large ogre that has mastered the use of the giant flail. In combat, it can move and swing its flail around and hit multiple foes.

SKULLCRUSHER

Ogres normally just wear loincloths and hide as armor, but not the skullcrusher. They can wear plate armor and shields, and prefer to use giant morningstars as weapons, which they use to crush skulls with. Unlike their kin, skullcrusher ogres are more disciplined and are trained to follow orders during battle.

ONI

NIGHT HAUNTER

The night haunter is an insidious oni that prefers to slay its victims in their sleep.

The Bogeyman. The oni night haunter begins by assuming a humanoid form appropriate to its surroundings, and befriends a fellow traveler before entering a town or village. After successfully injecting itself into a community and winning the trust of the people around it, it starts haunting them one by one in their dreams. It prioritizes targeting the children first, as these are its favorite to devour. Only when it has slain one using its Nightmare Haunting ability does it materialize and feast on the victim's corpse. It continues to repeat this process until it has slain and devoured as many victims as it can before attracting unwanted attention to itself.

Innate Spellcasting. The oni's innate spellcasting ability is Charisma (spell save DC 14). The oni can innately cast the following spells, without providing material components:

At will: *darkness*, *invisibility*

2/day: *charm person*, *ray of enfeeblement*, *sleep*

1/day each: *cone of cold*, *gaseous form*, *plane shift* (self only)

Magic Weapons. The oni's weapon attacks are magical.

Regeneration. The oni regains 10 hit points at the start of its turn if it has at least 1 hit point.

Soul Devourer. The oni devours the souls of the victims it has slain through its Nightmare Haunting. Only through a *wish* spell, or by slaying the oni, can the victims' souls be free and willing to be resurrected.

ACTIONS

Multiattack. The oni makes two attacks, either with its claws or with its morningstar.

Morningstar. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 13 (2d8 + 4) bludgeoning damage.

Claw (Oni Form Only). *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 7 (1d8 + 3) slashing damage. If the target is a

creature, it must succeed on a DC 14 Wisdom saving throw or fall unconscious. The creature remains unconscious for 1 minute, or until it takes damage, or someone uses an action to shake or slap the creature awake.

Change Shape. The oni magically polymorphs into a Small or Medium humanoid, into a Large giant, or back into its true form. Other than its size, its statistics are the same in each form. The only equipment that is transformed is its glaive, which shrinks so that it can be wielded in humanoid form. If the oni dies, it reverts to its true form, and its morningstar reverts to its normal size.

Nightmare Haunting (1/Day). While on the Ethereal Plane, the oni magically touches a sleeping humanoid on the Material Plane. A protection from evil and good spell cast on the target prevents this contact, as does a magic circle. As long as the contact persists, the target has dreadful visions. If these visions last for at least 1 hour, the target gains no benefit from its rest, and its hit point maximum is reduced by 5 (1d10). If this effect reduces the target's hit point maximum to 0, the target dies, and the oni gains 3d10 temporary hit points. The oni's temporary hit points last for 12 hours. The reduction to the target's hit point maximum lasts until removed by the greater restoration spell or similar magic.

REACTIONS

Fade into Mist (Recharge 5-6). When hit by an attack roll, the attack instead misses and the oni turns into a gaseous form and moves up to 60 feet away to an unoccupied space it can see. While in this form, the oni can enter the space of another creature and has resistance to nonmagical damage, and it has advantage on Strength, Dexterity, and Constitution saving throws. The target can pass through small holes, narrow openings, and even mere cracks, though it treats liquids as though they were solid surfaces. The target can't fall and remains hovering in the air even when stunned or otherwise incapacitated.

While in the form of a misty cloud, the target can't talk or manipulate objects, and any objects it was carrying or holding can't be dropped, used, or otherwise interacted with. It remains in this form until the start of its next turn.

ONI MAGI

Oni magi are advanced oni that have improved combat and spellcasting abilities. These oni prefer to recruit, unite, and command humanoid and giant tribes against civilized folk with the aim of enslaving and devouring them. They are often found working with ogres, trolls, and hill giants.

Spiked Chain. *Melee Weapon Attack:* +8 to hit, reach 20 ft., one target. *Hit:* 15 (2d10 + 4) slashing damage, and the target is grappled (escape DC 18). While a creature is grappled this way, the oni can't use one of its spiked chain attacks.

Spiked Chain Slam. The oni slams a Large or smaller creature grappled by its spiked chain into another creature or a solid surface within 20 feet. Both creatures must succeed on a DC 18 Strength saving throw or take 15 (2d10 + 4) bludgeoning damage and be stunned until the end of its next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

Change Shape. The oni magically polymorphs into a Small or Medium humanoid, into a Large giant, or back into its true form. Other than its size, its statistics are the same in each form. The only equipment that is transformed is its glaive, which shrinks so that it can be wielded in humanoid form. ONI LORD

The oni lord, also known as the oni omo, is a powerful ogre mage that rules over all other oni in its territory. It is a highly intelligent battle commander and spends most of its time organizing and planning excursions into enemy communities.

The oni yama-uba, also known as the demon hag, is a bloodthirsty, cunning, and very patient hunter. It is a devourer of human flesh, and is particularly fond of eating children, especially the very portly ones.

Two-Faced Killers. It always appears as a female hermit or solitary crone living deep in the forested mountains. When encountered, it appears friendly and accommodating, offering real food and its home as a safe refuge to spend the night. It will even offer healing to any wounded, providing them with healing salves. Once it has earned the trust of its would-be victims, the oni yama-uba then finds ways to draw out and divide the group. Challenge 9 (5,000 XP)

Horrific Appearance. Any humanoid that starts its turn within 30 feet of the oni and can see the oni's true form must make a DC 16 Wisdom saving throw. On a failed save, the creature is frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, with disadvantage if the oni is within line of sight, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the oni's Horrific Appearance for the next 24 hours.

Unless the target is surprised or the revelation of the oni's true form is sudden, the target can avert its eyes and avoid making the initial saving throw. Until the start of its next turn, a creature that averts its eyes has disadvantage on attack rolls against the oni.

Innate Spellcasting. The oni's innate spellcasting ability is Charisma (spell save DC 16). The oni can innately cast the following spells, without providing material components:

Claw (Oni Form Only). *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 7 (1d8 + 3) slashing damage plus 10 (3d6) poison damage.

Death Glare. The oni targets one frightened creature she can see within 30 feet of her. If the target can see the oni, it must succeed on a DC 16 Wisdom saving throw against this magic or drop to 0 hit points.

Change Shape. The oni magically polymorphs into a Small or Medium humanoid, into a Large giant, or back into its true form. Other than its size, its statistics are the same in each form. If the oni dies, it reverts to its true form.

Maddening Cackle (Recharge 5-6). Each creature within 30 feet of the oni and able to hear the oni must succeed on a DC 16 Charisma saving throw. On a failed save, the target takes 17 (3d8 + 4) psychic damage, and must use its reaction to move up to half its speed and make a melee weapon attack against one creature of the oni's choice that the oni can see. Constructs and undead are immune to this effect.

REACTIONS

Fade into Mist (Recharge 5-6). When hit by an attack roll, the attack instead misses and the oni turns into a gaseous form and moves up to 60 feet away to an unoccupied space it can see. While in this form, the oni can enter the space of another creature and has resistance to nonmagical damage, and it has advantage on Strength, Dexterity, and Constitution saving throws. Amorphous. The pudding can move through a space as narrow as 1 inch wide without squeezing.

Corrosive Form. A creature that touches the pudding or hits it with a melee attack while within 5 feet of it takes 4 (1d8) acid damage. Any nonmagical weapon made of metal or wood that hits the pudding corrodes. After dealing damage, the weapon takes a permanent cumulative penalty to damage rolls. If its penalty drops to -5, the

weapon is destroyed. Nonmagical ammunition made of metal or wood that hits the pudding is destroyed after dealing damage.

The pudding can eat through 2-inch-thick, nonmagical wood or metal in 1 round.

Spider Climb. The pudding can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

ACTIONS

Multiattack. The pudding makes two pseudopod attacks.

Pseudopod. Melee Weapon Attack: +8 to hit, reach 10 ft., one target. **Hit:** 9 (1d8 + 5) bludgeoning damage plus 18 (4d8) acid damage. In addition, nonmagical armor worn by the target is partly dissolved and takes a permanent and cumulative -1 penalty to the AC it offers. The armor is destroyed if the penalty reduces its AC to 10.

REACTIONS

Split. When a pudding that is Medium or larger is subjected to lightning or slashing damage, it splits into two new puddings if it has at least 10 hit points. Each new pudding has hit points equal to half the original pudding's, rounded down. New puddings are one size smaller than the original pudding. Ooze Cube. The cube takes up its entire space. Other creatures can enter the space, but a creature that does so is subjected to the cube's Engulf and has disadvantage on the saving throw. Creatures inside the cube can be seen but have total cover. A creature within 5 feet of the cube can take an action to pull a creature or object out of the cube. Doing so requires a successful DC 15 Strength check, and the creature making the attempt takes 14 (4d6) acid damage. The cube can hold only one Huge, two Large, or up to four Medium or smaller creatures inside it at a time.

Transparent. Even when the cube is in plain sight, it takes a successful DC 15 Wisdom (Perception) check to spot a cube that has

neither moved nor attacked. A creature that tries to enter the cube's space while unaware of the cube is surprised by the cube.

ACTIONS

Multiattack. The cube makes two pseudopod attacks.

Pseudopod. Melee Weapon Attack: +7 to hit, reach 10 ft., one target. *Hit:* 14 (4d6) acid damage. If the target is a Large or smaller creature, it is grappled (escape DC 14). Until this grapple ends, the target is restrained, takes 14 (4d6) acid damage at the start of each of the cube's turns, and the cube can't use this pseudopod to attack another creature.

Engulf. The cube moves up to its speed. While doing so, it can enter Large or smaller creatures' spaces. Whenever the cube enters a creature's space, the creature must make a DC 15 Dexterity saving throw.

On a successful save, the creature can choose to be pushed 5 feet back or to the side of the cube. A creature that chooses not to be pushed suffers the consequences of a failed saving throw.

On a failed save, the cube enters the creature's space, and the creature takes 14 (4d6) acid damage and is engulfed. The engulfed creature can't breathe, is restrained, and takes 28 (8d6) acid damage at the start of each of the cube's turns. When the cube moves, the engulfed creature moves with it.

An engulfed creature can try to escape by taking an action to make a DC 15 Strength check. On a success, the creature escapes and enters a space of its choice within 5 feet of the cube.

Bite. *Melee Weapon Attack:* +6 to hit, reach 10 ft., one target.

Hit: 12 (2d8 + 3) piercing damage. If the target is a creature, it must succeed on a DC 16 Constitution saving throw against disease or become poisoned until the disease is cured. The target dies if the disease reduces its hit point maximum to 0. This reduction to the target's hit point maximum lasts until the disease is cured.

Tentacle. *Melee Weapon Attack:* +6 to hit, reach 10 ft., one target.

Hit: 7 (1d8 + 3) bludgeoning damage plus 4 (1d8) piercing damage. If the target is Medium or smaller, it is grappled (escape DC 13) and restrained until the grapple ends. The otyugh has two tentacles, each of which can grapple one target.

Tentacle Slam. The otyugh slams creatures grappled by it into each other or a solid surface. Each creature must succeed on a DC 14 Constitution saving throw or take 10 (2d6 + 3) bludgeoning damage and be stunned until the end of the otyugh's next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

REACTIONS

Lifeleech. When a creature within 30 feet of the otyugh is targeted by a spell that allows the creature to regain hit points, it instead targets the otyugh. If an otyugh regains hit points as a result of this, it gains advantage on all attack rolls and saving throws until the end of its next turn.

ACTIONS

Bite. Melee Weapon Attack: +9 to hit, reach 10 ft., one target.

Hit: 23 (4d8 +5) piercing damage. If the target is a creature, it must succeed on a DC 18 Constitution saving throw against disease or become poisoned until the disease is cured. Tentacle Slam. The otyugh slams creatures grappled by it into each other or a solid surface. Each creature must succeed on a DC 17 Constitution saving throw or take 19 (4d6 + 5) bludgeoning damage and be stunned until the end of the otyugh's next turn. On a successful save, the target takes half the bludgeoning damage and isn't stunned.

REACTIONS

Meat Shield. The otyugh uses its grappled victims as a shield against melee attacks. If the grappled creature is Medium or smaller, the otyugh adds 3 to its AC against one melee attack that would hit it. If the grappled creature is Large, the otyugh adds 5 to its AC against one melee attack that would hit it. If the attack misses the otyugh as a result, the melee attack instead hits the grappled creature. To do so, the otyugh must see the attacker and must be grappling with a creature.

NEO-OTYUGH

The neo-otyugh is larger, more cunning, and very dangerous when compared to the normal otyugh. Its horrendous, foul-smelling bloated mass is nearly 15 feet in diameter.

Meat Shield. After it has successfully grappled a victim caught by its tentacle, the neo-otyugh can use it as a shield against an impending melee hit. This results in the attack hitting the victim instead of the otyugh.

PURPLE WORMS

PURPLE WORM HATCHLING

The purple worm larva is more commonly encountered than its bigger versions, as it tends to attack easy prey such as livestock and beasts of burden. Due to its size, it is only able to swallow small creatures.

Innate Spellcasting. The rakshasa's innate spellcasting ability is Charisma (spell save DC 18, +10 to hit with spell attacks). The rakshasa can innately cast the following spells, without providing material components:

At will: *detect thoughts, disguise self, mage hand, toll the dead*
3/day each: *animate dead, blindness/deafness, contagion, create undead, detect magic, enervation, ray of enfeeblement*
1/day each: *Abi-Dalzim's horrid wilting, finger of death, harm, magic jar*

ACTIONS

Multiattack. The rakshasa uses Command Undead. It then makes two claw attacks.

Claw. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target.

Hit: 9 (2d6 + 2) slashing damage plus (7) 2d6 necrotic damage, and the target is cursed if it is a creature. The cursed target is unable to regain hit points. The curse lasts until it is lifted by a remove curse spell or similar magic.

Command Undead. The rakshasa targets one undead ally it can see within 30 feet of it and gives it a telepathic command. If the target is not incapacitated, the target can use its reaction to move up to half its speed and make one weapon attack.

Pain Wave (Recharges 5-6). The rakshasa magically emits nerve-racking negative energy. Each creature within 20 feet of the rakshasa must succeed on a DC 18 Constitution saving throw. On a failed save, the target takes 36 (8d8) necrotic damage and is stunned until the end of the rakshasa's next turn. On a successful save, the target takes half as much damage and isn't stunned.

ACTIONS

Multiattack. The rakshasa makes two melee attacks or two ranged attacks.

Shortsword. Melee Weapon Attack: +9 to hit, reach 5 ft., one target. **Hit:** 7 (1d6 + 4) piercing damage, and the target must make a DC 15 Constitution saving throw, taking 24 (7d6) poison damage on a failed save, or half as much damage on a successful one.

Claw. Melee Weapon Attack: +9 to hit, reach 5 ft., one target. **Hit:** 11 (2d6 + 4) slashing damage, and the target is cursed if it is a creature. In combat, the rakshasa maharajah can be a terrifying creature to face, with its array of abilities and spells that can confuse, mislead, and bend a foe's will to do its bidding. Its mere touch can drive a creature senseless.

Aura of Misdirection. Whenever a creature that is within 30 feet of the rakshasa targets the rakshasa with an attack, spell, or other ability, it must succeed on a DC 19 Intelligence saving throw, unless the rakshasa is incapacitated. On a failed save, the affected creature regards every creature it can see, other than the rakshasa, as enemies until the start of its next turn. It then chooses another target at random from among the enemies it can see within range of the attack, spell, or other ability it's using. If an enemy provokes an opportunity attack from the affected creature, the creature must make that attack if it is able to. If a creature's saving throw is successful, the creature is immune to the rakshasa's Aura of Misdirection for the next 24 hours.

Legendary Resistance (3/Day). If the rakshasa fails a saving throw, it can choose to succeed instead.

Limited Magic Immunity. The rakshasa can't be affected or detected by spells of 6th level or lower unless it wishes to be. It has advantage on saving throws against all other spells and magical effects.

ACTIONS

Multiattack. The rakshasa makes two claw attacks.

Claw. Melee Weapon Attack: +8 to hit, reach 5 ft., one target.

Hit: 9 (2d6 + 2) slashing damage plus 14 (4d6) psychic damage, and the target's Intelligence score is reduced by 1d6. The target is stunned if this reduces its Intelligence to 0. Otherwise, the reduction lasts until the target finishes a short or long rest or if a *Greater Restoration* or similar spell is cast on it.

Word of Discord (Recharge 5-6). Each creature within 60 feet of the rakshasa and can hear the rakshasa must succeed on a DC 19 Charisma saving throw, or take 32 (6d8 + 5) psychic damage and must use its reaction to make a melee weapon attack against one creature of the rakshasa's choice that the rakshasa can see. Constructs and undead are immune to this effect.

LEGENDARY ACTIONS

The rakshasa can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The rakshasa regains spent legendary actions at the start of its turn.

Claw. The rakshasa makes a claw attack.

Move. The rakshasa moves up to half its speed without provoking opportunity attacks.

Cast a Spell (Costs 2 Actions). The rakshasa casts a spell from its list of innate spells, using a spell slot as normal.

REMORHAZ

ANCIENT REMORHAZ

The rare ancient remorhaz is a monstrous creature that spends most of its time hibernating, active only for a few weeks to hunt for prey before returning to sleep. However, those few weeks can spell disaster to any established community and natural ecosystem within its territory, as the ancient remorhaz is as voracious as its younger cousins. Rejuvenation. When the revenant's body is destroyed, its soul lingers. After 24 hours, the soul inhabits and animates another humanoid corpse on the same plane of existence and regains all its hit points. While the soul is bodiless, a wish spell can be used to force the soul to go to the afterlife and not return.

Turn Immunity. The revenant is immune to effects that turn undead.

Vengeful Tracker. The revenant knows the distance to and direction of any creature against which it seeks revenge, even if the creature and the revenant are on different planes of existence. If the creature being tracked by the revenant dies, the revenant knows.

Smite (1/Turn). As a bonus action, when the revenant hits a creature with a weapon attack, it can expend a 1st level spell slot to deal 2d8 radiant or necrotic damage to the target. If the revenant expends a

spell slot of 2nd level or higher, the extra damage increases by 1d8 for each level above 1st (maximum 5d8).

Spellcasting. The revenant is a 10th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 16, +8 to hit with spell attacks). It has the following paladin spells prepared:

1st level (4 slots): *bane*, *hunter's mark*, *wrathful smite*

2nd level (3 slots): *branding smite*, *hold person*, *misty step*

3rd level (2 slots): *blinding smite*, *haste*

ACTIONS

Multiattack. The revenant makes two melee attacks.

Greatsword. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one creature. *Hit:* 18 (4d6 + 4) damage. If the target is a creature against which the revenant has sworn vengeance, the target takes an extra 14 (4d6) slashing damage.

Fist. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one creature. *Hit:* 11 (2d6 + 4) bludgeoning damage. If the target is a creature against which the revenant has sworn vengeance, the target takes an extra 14 (4d6) bludgeoning damage. Instead of dealing damage, the revenant can grapple the target (escape DC 14) provided the target is Large or smaller.

Vengeful Glare. The revenant targets one creature it can see within 30 feet of it and against which it has sworn vengeance. The target must make a DC 16 Wisdom saving throw. On a failure, the target is paralyzed until the revenant deals damage to it, or until the end of the revenant's next turn. When the paralysis ends, the target is frightened of the revenant for 1 minute. The frightened target can repeat the saving throw at the end of each of its turns, with disadvantage if it can see the revenant, ending the frightened condition on itself on a success.

REACTIONS

Parry. The revenant adds 4 to its AC against one melee attack that would hit it. To do so, the revenant must see the attacker and be wielding a melee weapon.

Roc

YOUNG ROC

Adventurers are probably going to encounter young rocs more often than an adult roc, as the younger ones are more likely to attack medium-sized smaller prey, as well as steeds, beasts of burden, and livestock.

ROPERS

ANCIENT ROPER

Very rarely do ropers live to become ancient ropers, as they have a lot of competition in the Underdark. But those that live to reach that age can be very frightening. They are larger and more cunning, have become more resistant to magic, and can attack with more tendrils than the younger roper.

Destroying a tendril deals no damage to the roper, but reduces its number of tendrils. A tendril can also be broken if a creature takes an action and succeeds on a DC 17 Strength check against it. A lost tendril regrows after 24 hours.

Magic Resistance. The roper has advantage on saving throws against spells and other magical effects.

Challenge 9 (5,000 XP)

False Appearance. While the urophion remains motionless, it is indistinguishable from a normal cave formation, such as a stalagmite.

Grasping Tendrils. The urophion can have up to six tendrils at a time. Each tendril can be attacked (AC 20; 10 hit points). Destroying a tendril deals no damage to the urophion, but reduces its number of tendrils. A tendril can also be broken if a creature takes an action and succeeds on a DC 15 Strength check against it. A lost tendril regrows after 24 hours.

Magic Resistance. The urophion has advantage on saving throws against spells and other magical effects.

Spider Climb. The urophion can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

Innate Spellcasting (Psionics). The urophion's innate spellcasting ability is Intelligence (spell save DC 15). The urophion can innately

cast the following spells, without providing material components:

At will: *detect thoughts*, *suggestion*

ACTIONS

Multiattack. The urophion makes four attacks with its tendrils, uses Reel, and makes one attack with its bite.

Bite. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one target.

Hit: 22 (4d8 + 4) piercing damage.

Tendrils. *Melee Weapon Attack:* +8 to hit, reach 50 ft., one target.

Hit: 5 (1d4 + 3) psychic damage and the target is grappled (escape DC 14) and must succeed on a DC 15 Intelligence saving throw or be stunned until the end of the urophion's next turn. Until this grapple ends, the urophion can automatically hit the target with its tendril, and the roper can't make the same tendril attack other targets.

Extract Brain. *Melee Weapon Attack:* +8 to hit, reach 5 ft., one incapacitated humanoid grappled by the urophion. *Hit:* 55 (10d10) piercing damage. If this damage reduces the target to 0 hit points, the urophion kills the target by extracting and devouring its brain.

Mind Blast (Recharge 5-6). The urophion magically emits psychic energy in a 60-foot cone. Each creature in that area must succeed on a DC 15 Intelligence saving throw or take 21 (4d8 + 3) psychic damage and be stunned for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

Reel. The urophion pulls each creature grappled by it up to 30 feet straight toward it.

UROPHION

When a roper is infected with an illithid tadpole, it transforms into a urophion. They are created by the mind flayers to serve as guards.

A urophion sees itself as intelligent equals to the mind flayer, but are treated as social outcasts and are usually shunned and ignored by other illithids. This may cause some urophion to become insane. Others may escape their servitude, and wander off into the Underdark. If they encounter an intelligent creature, they may not automatically be hostile, as it longs to have a decent conversation. That is, until it begins to crave its brain.

RUST MONSTER

DIRE RUST MONSTER

Of the most feared creatures a group of adventurers will ever face, the dire rust monster is probably one of the few they will dread the most.

Unlike the more common rust monster, the dire rust monster has the ability to corrode magical metal, such as weapons and armor. In fact, it prefers and relishes such items as it has a more unique taste than the common nonmagical metal.

Iron Scent. The rust monster can pinpoint, by scent, the location of ferrous metal within 30 feet of it.

Rust Metal. Any nonmagical weapon made of metal that hits the rust monster corrodes. After dealing damage, the weapon takes a permanent and cumulative -1 penalty to damage rolls. If its penalty drops to -5, the weapon is destroyed.

When a creature hits the rust monster with a magical weapon made of metal and deals damage, it must succeed on a DC 13 Wisdom saving throw with advantage on the roll. On a failed save, the weapon takes a permanent and cumulative -1 penalty to damage rolls. If its penalty drops to -5, the weapon is destroyed.

Ammunition made of metal that hits the rust monster is destroyed after dealing damage.

ACTIONS

Multiattack. The rust monster attacks twice, one with its bite and one with its antennae.

Beak. Melee Weapon Attack: +5 to hit, reach 5 ft., one target.

Hit: 12 (2d8 + 3) piercing damage.

Antennae. The rust monster corrodes a ferrous metal object it can see within 5 feet of it. If the object isn't being worn or carried, the touch destroys a 1-foot cube of it. If the object is being worn or carried by a creature, the creature can make a DC 13 Dexterity saving throw to avoid the rust monster's touch. If the object is magical, the creature has advantage on the saving throw.

If the object touched is either metal armor or a metal shield being worn or carried, it takes a permanent and cumulative -1 penalty to the AC it offers. Armor reduced to an AC of 10 or a shield that drops to a +0 bonus is destroyed. If the object touched is a held metal weapon, it rusts as described in the Rust Metal trait.

Distracting Strike (1/Turn). When the salamander hits a creature with a weapon attack, the next attack roll against the target by an attacker other than the salamander has advantage if the attack is made before the start of the salamander's next turn.

ACTIONS

Multiattack. The salamander makes two attacks: one with its spear and one with its tail. It can use *Maneuver Allies* in place of one attack.

Spear. *Melee or Ranged Weapon Attack:* +7 to hit, reach 5 ft. or range 20/60 ft., one target. *Hit:* 11 (2d6 + 4) piercing damage, or 13 (2d8 + 4) piercing damage if used with two hands to make a melee attack, plus 3 (1d6) fire damage.

Tail. *Melee Weapon Attack:* +7 to hit, reach 10 ft., one target. *Hit:* 11 (2d6 + 4) bludgeoning damage plus 7 (2d6) fire damage, and the target is grappled (escape DC 14). Until this grapple ends, the target is restrained, the salamander can automatically hit the target with its tail, and the salamander can't make tail attacks against other targets.

Maneuver Allies (Recharge 5-6). Up to four allies within 60 feet of this salamander that can hear it can each use their reaction to move up to half their speed without provoking opportunity attacks.

REACTIONS

Command Retaliation. In response to a creature missing the salamander with a melee attack and the attacker is visible to the salamander, it can target an ally within 5 feet of the creature. If the ally can see and hear the salamander, it uses its reaction to make one melee weapon attack against the creature with advantage on the attack roll.

SCARECROW

ELDRITCH SCARECROW

The scarecrow is normally created by its animator after it has summoned and bound an evil spirit to it. But on very rare occasions, the evil spirit summoned is that of a restless and vengeful warlock or hag. As soon as it is bound to the scarecrow, it becomes an eldritch scarecrow, and it is free to do its will. The first thing it normally does is destroy its animator. If the animator is stronger, it will bide its time, acting as a normal scarecrow, until it has the upper hand. As soon as the eldritch scarecrow is free, it sets out and plans its revenge on those that have slain it.

SHAMBLING MOUND

ANCIENT

A shambling mound left unchecked will consume everything around it and eventually grow into an ancient shambler, a huge, monstrous version of the shambling mound.

ZUGGTMOY-TOUCHED

Zuggtmoyn will sometimes instill her essence into a shambling mound, thus infecting it with her spores. This monster turns evil, and its natural impulse is to find creatures to infect it with its spores and poison.

Each creature within 20 feet of it must succeed on a DC 15 Constitution saving throw or take 28 (8d6) poison damage and become infected with a disease on a failed save. Creatures immune to the poisoned condition are immune to this disease.

Spores invade an infected creature's system, killing the creature in a number of hours equal to 1d12 + the creature's Constitution score, unless the disease is removed. In half that time, the creature becomes poisoned for the rest of the duration. After the creature dies, it sprouts 2d4 Tiny gas spores that grow to full size in 7 days.

Lightning Absorption. Whenever the shambling mound is subjected to lightning damage, it takes no damage and regains a number of hit points equal to the lightning damage dealt.

ACTIONS

Multiattack. The shambling mound makes two slam attacks. If both attacks hit a Medium or smaller target, the target is grappled (escape DC 17), and the shambling mound uses its Engulf on it.

Challenge 11 (7,200 XP)

Bound. The shield guardian is magically bound to an amulet. As long as the guardian and its amulet are on the same plane of existence, the amulet's wearer can telepathically call the guardian to travel to it, and the guardian knows the distance and direction to the amulet. If the guardian is within 60 feet of the amulet's wearer, half of any damage the wearer takes (rounded up) is transferred to the guardian.

Regeneration. The shield guardian regains 12 hit points at the start of its turn if it has at least 1 hit point.

Spell Storing. A spellcaster who wears the shield guardian's amulet can cause the guardian to store one spell of 5th level or lower. To do so, the wearer must cast the spell on the guardian. The spell has no effect but is stored within the guardian. When commanded to do so by the wearer or when a situation arises that was predefined by the spellcaster, the guardian casts a stored spell with any parameters set by the original caster, requiring no components. When the spell is cast or a new spell is stored, any previously stored spell is lost.

ACTIONS

Multiattack. The shield guardian makes two fist attacks.

Fist. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 12 (2d6 + 5) bludgeoning damage plus 3 (1d6) lightning damage.

Concussion Projectile (Recharges after a Long Rest). The shield guardian shoots from its shoulder a magically-charged projectile that explodes at a point it can see within 60 feet of it. Each creature in a 10-foot-radius sphere centered on that point must succeed on a DC 17 Constitution saving throw. On a failed save, the target takes 18 (4d8) thunder damage and is stunned until the end of its next turn, or half as much damage and isn't stunned on a successful one.

Flame Jets (Recharges after a Long Rest). The shield guardian shoots searing flames from its fingertips in a 15-foot cone. Each creature in that area must succeed on a DC 17 Dexterity saving throw, taking 28 (8d6) fire damage on a failed save, or half as much damage on a successful one.

Shock Burst (Recharges after a Long Rest). Lightning erupts from the shield guardian, striking creatures close to it. Each creature within 5 feet of the shield guardian must succeed on a DC 17 Dexterity saving throw. On a failed save, the target takes 21 (6d6) lightning damage, or half as much damage on a successful one.

REACTIONS

Force Field. When a creature makes an attack against the wearer of the guardian's amulet, the guardian grants a +4 bonus to the wearer's AC and saving throw if the guardian is within 5 feet of the wearer.

Self-Sacrifice (Recharge 5-6). When the wearer of the guardian's amulet is hit by an attack, the shield guardian swaps places with the wearer and is hit instead. To do so, the shield guardian must be within 5 feet of the wearer.

Tongue. Melee Weapon Attack: +13 to hit, reach 15 ft., one target. *Hit:* 16 (2d8 + 7) piercing damage plus 7 (2d6) necrotic damage.

Claw. Melee Weapon Attack: +13 to hit, reach 5 ft., one target. *Hit:* 16 (2d8 + 7) slashing damage plus 7 (2d6) necrotic damage.

1. The target takes 35 (10d6) fire damage.
2. The target takes 35 (10d6) acid damage.
3. The target takes 35 (10d6) lightning damage.
4. The target takes 35 (10d6) poison damage.
5. The target takes 35 (10d6) cold damage.
6. The target is restrained. It must then make a DC 20 Constitution saving throw at the end of each of its turns. If it successfully saves three times, the spell ends. If it fails its save three times, it permanently turns to stone and is subjected to the petrified condition. The successes and failures don't need to be consecutive; keep track of both until the target collects three of a kind.
7. The target is blinded. It must then make a DC 20 Wisdom saving throw at the start of the slaad's next turn. A successful save ends the blindness. If it fails that save, the creature is transported to another plane of existence of the DM's choosing and is no longer blinded. (Typically, a creature that is on a plane that isn't its home plane is banished home, while other creatures are usually cast into the Astral or Ethereal planes.)
8. Two effects. Roll twice more, rerolling any 8.

LEGENDARY ACTIONS

The slaad can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The slaad regains spent legendary actions at the start of its turn.

Tongue. The slaad makes a tongue attack.

Move. The slaad moves up to half its speed without provoking opportunity attacks.

Chaos Spittle (Costs 2 Actions). The slaad makes an acid spittle attack.

Cast a Spell (Costs 2 Actions). The slaad casts a spell from its list of innate spells, using a spell slot as normal.

On a failed save, the target is frightened until the start of its next turn. While frightened in this way, the target can't perform any actions except move up to half its speed. If a creature's saving throw is successful, the creature is immune to the spectre's Aura of Dread for the next 24 hours.

Incorporeal Movement. The spectre can move through other creatures and objects as if they were difficult terrain. It takes 5 (1d10) force damage if she ends her turn inside an object.

Sunlight Sensitivity. While in sunlight, the specter has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

ACTIONS

Life Drain. *Melee Spell Attack:* +6 to hit, reach 5 ft., one creature.

Hit: Hit: 24 (6d6 + 3) necrotic damage. The target must succeed on a DC 13 Constitution saving throw or its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the creature finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Diving Charge. If the sphinx is flying and dives least 20 feet straight toward a target and then hits it with a gore attack on the same turn, the target takes an extra 17 (2d10 + 6) piercing damage. If the target is a creature, it must succeed on a DC 18 Strength or knocked prone. If the target's saving throw fails by 5 or more, the target is also stunned until the end of its next turn.

Inscrutable. The sphinx is immune to any effect that would sense its emotions or read its thoughts, as well as any divination spell that it refuses. Wisdom (Insight) checks made to ascertain the sphinx's intentions or sincerity have disadvantage.

Gore. *Melee Weapon Attack:* +10 to hit, reach 5 ft., one target. *Hit:* 17 (2d10 + 6) piercing damage.

Goring Rush (Recharge 5-6). The sphinx moves up to its speed in a straight line. During this move, it can enter Large or smaller creatures' spaces. A creature whose space the sphinx enters must succeed on a DC 18 Dexterity saving throw. On a successful save, the creature is pushed 5 feet to the nearest space out of the sphinx's path. On a failed save, the creature takes 17 (2d10 + 6) bludgeoning damage and falls prone. If the sphinx remains in the prone creature's space, the creature is also restrained until it's no longer in the same space as the sphinx. While restrained in this way, the creature, or another creature within 5 feet of it, can make a DC 18 Strength check. On a success, the creature is shunted to an unoccupied space of its choice within 5 feet of the sphinx and is no longer restrained.

Anesthetic Proboscis. If the stirge hits a creature with its blood drain attack without being detected, the target will not notice the damage and the stirge can remain attached. This requires a successful Dexterity (Stealth) check against the target's Wisdom (Perception), rolled secretly by the DM.

Shadow Stealth. While in dim light or darkness, the stirge can take the Hide action as a bonus action.

ACTIONS

Blood Drain. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one target. *Hit:* 6 (1d4 + 4) piercing damage, and the stirge attaches to the target. While attached, the stirge doesn't attack. Instead, at the start of each of the stirge's turns, the target loses 6 (1d4 + 4) hit points due to blood loss.

Challenge 7 (2,900 XP)

Shapechanger. The fiend can use its action to polymorph into a Small or Medium humanoid, or back into its true form. Without wings, the fiend loses its flying speed. Other than its size and speed, its statistics are the same in each form. Any equipment it is wearing or carrying isn't transformed. It reverts to its true form if it dies.

Spellcasting. The fiend is a 11th-level spellcaster. Its spellcasting ability is Charisma (spell save DC 16). It has the following bard spells prepared:

Cantrips (at will): *friends, minor illusion, prestidigitation, vicious mockery*

1st level (4 slots): *charm person, healing word, dissonant whispers, thunderwave*

2nd level (3 slots): *enthrall, hold person*

3rd level (3 slots): *fear, fireball, major image*

4th level (3 slots): *confusion, greater invisibility, polymorph*

5th level (2 slots): *destructive wave, dominate person*

6th level (1 slot): *mass suggestion*

Telepathic Bond. The fiend ignores the range restriction on its telepathy when communicating with a creature it has charmed. The

two don't even need to be on the same plane of existence.

Dark Whispers. The fiend can use a bonus action on its turn to target one creature within 30 feet of it. If the target can hear the fiend, the target must succeed on a DC 16 Charisma saving throw or be frightened for 1 minute. While frightened in this way, a creature must take the Dash action and move away from the fiend by the safest available route on each of its turns, unless there is nowhere to move, in which case it needn't take the Dash action. If the creature ends its turn in a location where it doesn't have line of sight to the fiend, the creature can repeat the saving throw. On a success, the effect ends.

Psychic Blades (3/day). The fiend deals an extra 17 (5d6) damage when it hits a target with a weapon attack.

ACTIONS

Claw (Fiend Form Only). *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 7 (1d6 + 4) slashing damage.

Charm. One humanoid the fiend can see within 30 feet of it must succeed on a DC 17 Wisdom saving throw or be magically charmed for 1 day. The charmed target obeys the fiend's verbal or telepathic commands. If the target suffers any harm or receives a suicidal command, it can repeat the saving throw, ending the effect on a success. If the target successfully saves against the effect, or if the effect on it ends, the target is immune to this fiend's Charm for the next 24 hours. The fiend can have only one target charmed at a time. If it charms another, the effect on the previous target ends.

Draining Kiss. The fiend kisses a creature charmed by it or a willing creature. The target must make a DC 16 Constitution saving throw against this magic, taking 32 (5d10 + 5) psychic damage on a failed save, or half as much damage on a successful one. The target's hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Etherealness. The fiend magically enters the Ethereal Plane from the Material Plane, or vice versa.

Challenge 30 (155,000 XP)

Legendary Resistance (3/Day). If the tarrasque fails a saving throw, it can choose to succeed instead.

Magic Resistance. The tarrasque has advantage on saving throws against spells and other magical effects.

Reflective Carapace. Any time the tarrasque is targeted by a *magic missile* spell, a line spell, or a spell that requires a ranged attack roll, roll a d6. On a 1 to 5, the tarrasque is unaffected. On a 6, the tarrasque is unaffected, and the effect is reflected back at the caster as though it originated from the tarrasque, turning the caster into the target.

Siege Monster. The tarrasque deals double damage to objects and structures.

ACTIONS

Multiattack. The tarrasque can use its Frightful Presence. It then makes five attacks: one with its bite, two with its claws, one with its horns, and one with its tail. It can use its Swallow instead of its bite.

Bite. Melee Weapon Attack: +19 to hit, reach 10 ft., one target.
Hit: 36 (4d12 + 10) piercing damage. If the target is a creature, it is grappled (escape DC 20). Until this grapple ends, the target is restrained, and the tarrasque can't bite another target.

Claw. Melee Weapon Attack: +19 to hit, reach 15 ft., one target.
Hit: 28 (4d8 + 10) slashing damage.

Horns. Melee Weapon Attack: +19 to hit, reach 10 ft., one target.
Hit: 28 (4d8 + 10) piercing damage. If the attack roll succeeds by 5 or more, the target must make a DC 20 Constitution saving throw or be stunned until the end of its next turn.

Tail. Melee Weapon Attack: +19 to hit, reach 10 ft., one target.
Hit: 28 (4d8 + 10) bludgeoning damage. If the target is a creature, it must succeed on a DC 20 Strength saving throw or be knocked prone. If a creature fails its saving throw by 5 or more, it is also pushed up to 60 feet away from the tarrasque. If a pushed target strikes a solid surface, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was pushed. If the target is pushed at another creature, that creature must succeed on a DC 20 Dexterity saving throw or take the same damage and be knocked prone.

Disintegration Breath (Recharge 6). The tarrasque exhales devastating force energy in a 240-foot line that is 10 feet wide. Each creature in that line must make a DC 20 Dexterity saving throw, taking 75 (10d6 + 40) force damage on a failed save, or half as

much on a successful one. If this damage reduces the target to 0 hit points, it is disintegrated. A disintegrated creature and everything it is wearing and carrying, except magic items, are reduced to a pile of fine gray dust. The creature can be restored to life only by means of a true resurrection or a wish spell.

Earthquake Stomp (Recharge 6). Each creature on the ground within 60 feet of the tarrasque must succeed on a DC 20 Strength saving throw. If a target is within 30 feet of the tarrasque, it has disadvantage on its saving throw. On a failed save, the target takes 54 (8d10 + 10) bludgeoning damage and is pushed up to 20 feet and knocked prone, or half as much damage and isn't pushed and knocked prone on a successful one.

Frightful Presence. Each creature of the tarrasque's choice within 120 feet of it and aware of it must succeed on a DC 17 Wisdom saving throw or become frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, with disadvantage if the tarrasque is within line of sight, ending the effect on itself on a success. If a creature's saving throw is successful or the effect ends for it, the creature is immune to the tarrasque's Frightful Presence for the next 24 hours.

Swallow. The tarrasque makes one bite attack against a Large or smaller creature it is grappling. If the attack hits, the target takes the bite's damage, the target is swallowed, and the grapple ends. While swallowed, the creature is blinded and restrained, it has total cover against attacks and other effects outside the tarrasque, and it takes 56 (16d6) acid damage at the start of each of the tarrasque's turns.

If the tarrasque takes 60 damage or more on a single turn from a creature inside it, the tarrasque must succeed on a DC 20 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the tarrasque. If the tarrasque dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 30 feet of movement, exiting prone.

LEGENDARY ACTIONS

The tarrasque can take three legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The tarrasque regains spent legendary actions at the start of its turn.

Attack. The tarrasque makes one claw attack or tail attack.

Move. The tarrasque moves up to half its speed.

Chomp (Costs 2 Actions). The tarrasque makes one bite attack or uses its Swallow.

An animated dead tree acts as an ally of the treant. The dead tree remains animate for 1 day or until it dies; until the treant dies or is more than 120 feet from the tree; or until the treant takes a bonus action to turn it back into an inanimate dead tree.

TROLLS

CAVE TROLL

Cave trolls are larger, more feral versions of the common troll and have adapted to living in the Underdark or underground caves. The corpse of a cave troll that dies from exposure to sunlight turns to stone.

SCRAG

Scraggs are slightly smaller trolls that have evolved to aquatic life. Their hands have become webbed and thinner and are now used more for swimming than rending targets. Their skin has become scallier and tougher, and their mouths have turned into giant maws aimed at catching and swallowing prey while swimming. While their diet now consists mostly of fish and aquatic reptiles, they still prefer and relish humanoid flesh, especially human and elven flesh. When they spot a boat with people in it, they immediately surround and board it in the hopes of getting at least one bite before their kin tears and shreds the victims apart until nothing is left.

UMBER HULKS

HORRID UMBER HULK

When an umber hulk grows to a huge size, it becomes a truly horrid umber hulk. It is far stronger and more savage with its attacks than the typical umber hulk, and can burst forth from the ground to knock unsuspecting victims prone.

A single horrid umber hulk once decimated a whole dwarven mine and left no one alive.

Confusing Gaze. When a creature starts its turn within 30 feet of the umber hulk and is able to see the umber hulk's eyes, the umber hulk can magically force it to make a DC 16 Charisma saving throw, unless the umber hulk is incapacitated.

On a failed save, the creature can't take reactions until the start of its next turn and rolls a d10 to determine what it does during that turn. On a 1 to 4, the creature does nothing. On a 5 to 7, the creature takes no action but uses all its movement to move in a random direction. On a 8 to 10, the creature makes one melee attack against a random creature, or it does nothing if no creature is within reach.

Unless surprised, a creature can avert its eyes to avoid the saving throw at the start of its turn. If the creature does so, it can't see the umber hulk until the start of its next turn, when it can avert its eyes again. If the creature looks at the umber hulk in the meantime, it must immediately make the save.

Each creature within 15 feet of the umber hulk must succeed on a DC 19 Strength saving throw, taking 24 (5d6 + 7) bludgeoning damage and is knocked prone on a failed save, or half as much damage and isn't knocked prone on a successful one.

TIGER UMBER HULK

This is a slightly smaller and leaner species of umber hulk that has green and purple striped carapace. What it lacks in muscle it more than makes up for its rapaciousness and quickness. It also has glands along its abdomen that can spray a foul, highly acidic gas that can stun and nauseate its victims.

Challenge 6 (2,300 XP)

Confusing Gaze. When a creature starts its turn within 30 feet of the umber hulk and is able to see the umber hulk's eyes, the umber hulk can magically force it to make a DC 15 Charisma saving throw, unless the umber hulk is incapacitated.

On a failed save, the creature can't take reactions until the start of its next turn and rolls a d8 to determine what it does during that turn. On a 1 to 4, the creature does nothing. On a 5 to 6, the creature takes no action but uses all its movement to move in a random direction. On a 7 to 8, the creature makes one melee attack against a random creature, or it does nothing if no creature is within reach.

Unless surprised, a creature can avert its eyes to avoid the saving throw at the start of its turn. If the creature does so, it can't see the umber hulk until the start of its next turn, when it can avert its eyes again. If the creature looks at the umber hulk in the meantime, it must immediately make the save.

Pounce. If the umber hulk moves at least 30 feet straight toward a creature and then hits it with a claw attack on the same turn, that target must succeed on a DC 15 Strength saving throw or be knocked prone. If the target is prone, the umber hulk can make one bite attack against it as a bonus action.

Tunneler. The umber hulk can burrow through solid rock at half its burrowing speed and leaves a 5-foot-wide, 10-foot-high tunnel in its wake.

ACTIONS

Multiattack. The umber hulk makes three attacks: two with its claws and one with its mandibles. If both claw attacks hit the same creature, the target takes an extra 9 (2d8) slashing damage.

Claw. Melee Weapon Attack: +7 to hit, reach 5 ft., one target.
Hit: 8 (1d8 + 4) slashing damage.

Mandibles. Melee Weapon Attack: +7 to hit, reach 5 ft., one target.
Hit: 13 (2d8 + 4) slashing damage.

Stink Spray (Recharge 5-6). The umber hulk emits nauseating acid in a 30-foot cone. Each creature in that area must succeed on a DC 14 Constitution saving throw. On a failed save, the target takes 27 (6d8) acid damage and is poisoned until the end of its next turn. A poisoned target spends its turn retching and reeling. Creatures that don't need to breathe are immune to poison automatically succeed on this saving throw. On a successful save, the target takes half as much damage and isn't poisoned.

UNICORN

DREAD UNICORN

The dread unicorn, also known as the black unicorn, is a unicorn infused with the fiendish essence of Bane. They are often used as steeds by baneliches, powerful blackguards and clerics of Bane, and death knights.

Challenge 5 (1,800 XP)

Charge. If the unicorn moves at least 20 feet straight toward a target and then hits it with a horn attack on the same turn, the target takes an extra 9 (2d8) piercing damage. If the target is a creature, it must succeed on a DC 15 Strength saving throw or be knocked prone.

Innate Spellcasting. The unicorn's innate spellcasting ability is Charisma (spell save DC 14). The unicorn can innately cast the following spells, requiring no components:

At will: detect evil and good, druidcraft, pass without trace
1/day each: dispel evil and good, entangle, ray of enfeeblement

Magical Resistance. The unicorn has advantage on saving throws against spells and other magical effects.

Magical Weapons. The unicorn's weapon attacks are magical.

ACTIONS

Multiattack. The unicorn makes two attacks: one with its hooves and one with its horn.

Hooves. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target.
Hit: 11 (2d6 + 4) bludgeoning damage.

Horn. *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target.

Hit: 8 (1d8 + 4) piercing damage.

Horn of Death (2/Day). *Melee Weapon Attack:* +7 to hit, reach 5 ft., one target. *Hit:* 8 (1d8 + 4) piercing damage and the target must succeed on a DC 14 Constitution. On a failed save, the target takes 24 (7d6) necrotic damage, or half as much damage on a successful save. The damage can't reduce the target's hit points below 1. If the target fails the saving throw, its hit point maximum is reduced for 1 hour by an amount equal to the necrotic damage it took. Any effect that removes a disease allows a creature's hit point maximum to return to normal before that time passes.

Teleport (1/Day). The unicorn magically teleports itself and up to three willing creatures it can see within 5 feet of it, along with any equipment they are wearing or carrying, to a location the unicorn is familiar with, up to 1 mile away.

LEGENDARY ACTIONS

The unicorn can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The unicorn regains spent legendary actions at the start of its turn.

Hooves. The unicorn makes one attack with its hooves.

Shadow Shield (Costs 2 Actions). The unicorn creates a wavering, shadowy shield around itself or another creature it can see within 60 feet of it. Until the end of the unicorn's next turn, any creature has disadvantage on attack rolls against the target. An attacker is immune to this effect if it doesn't rely on sight, as with blindsight, or can see through illusions, as with truesight.

Disrupt Life (Costs 3 Actions). Each living creature within 10 feet of the unicorn must make a DC 14 Constitution saving throw against this magic, taking 17 (5d6) necrotic damage on a failed save, or half as much damage on a successful one.

Challenge 19 (22,000 XP)

Cunning Action. The vampire can take the Dash, Disengage, or Hide action as a bonus action on each of its turns.

Shapechanger. If the vampire isn't in sunlight or running water, it can use its action to polymorph in to a Tiny bat or a Medium cloud of mist, or back in to its true form.

While in bat form, the vampire can't speak, its walking speed is 5 feet, and it has a flying speed of 30 feet. Its statistics, other than its size and speed, are unchanged. Anything it is wearing transforms with it, but nothing it is carrying does. It reverts to its true form if it dies.

While in mist form, the vampire can't take any actions, speak, or manipulate objects. It is weightless, has a flying speed of 20 feet, can hover, and can enter a hostile creature's space and stop there. In addition, if air can pass through a space, the mist can do so without squeezing, and it can't pass through water. It has advantage on Strength, Dexterity, and Constitution saving throws, and it is immune to all nonmagical damage, except the damage it takes from sunlight.

Legendary Resistance (3/Day). If the vampire fails a saving throw, it can choose to succeed instead.

Misty Escape. When it drops to 0 hit points outside its resting place, the vampire transforms into a cloud of mist (as in the Shapechanger trait) instead of falling unconscious, provided that it isn't in sunlight or running water. If it can't transform, it is destroyed.

While it has 0 hit points in mist form, it can't revert to its vampire form, and it must reach its resting place within 2 hours or be destroyed. Once in its resting place, it reverts to its vampire form. It is then paralyzed until it regains at least 1 hit point. After spending 1 hour in its resting place with 0 hit points, it regains 1 hit point.

Regeneration. The vampire regains 20 hit points at the start of its turn if it has at least 1 hit point and isn't in sunlight or running water. If the vampire takes radiant damage or damage from holy water, this trait doesn't function at the start of the vampire's next turn.

Smite (1/Turn). As a bonus action, when the vampire hits a creature with a weapon attack, it can expend a 1st level spell slot to deal 2d8 necrotic damage to the target. If the vampire expends a spell slot of 2nd level or higher, the extra necrotic damage increases by 1d8 for each level above 1st (maximum 5d8).

Spellcasting. The vampire is a 19th-level spell caster. Its spellcasting ability is Charisma (spell save DC 18). It has the following paladin spells prepared:

1st level (4 slots): *command*, *compelled duel*, *searing smite*

2nd level (3 slots): *hold person*, *magic weapon*

3rd level (3 slots): *dispel magic*, *elemental weapon*

4th level (3 slots): *banishment*, *staggering smite*

5th level (2 slots): *destructive wave (necrotic)*

Spider Climb. The vampire can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

Vampire Weaknesses. The vampire has the following flaws:

Forbiddance. The vampire can't enter a residence without an invitation from one of the occupants.

Harmed by Running Water. The vampire takes 20 acid damage if it ends its turn in running water.

Stake to the Heart. If a piercing weapon made of wood is driven into the vampire's heart while the vampire is incapacitated in its resting place, the vampire is paralyzed until the stake is removed.

Sunlight Hypersensitivity. The vampire takes 20 radiant damage when it starts its turn in sunlight. While in sunlight, it has disadvantage on attack rolls and ability checks.

ACTIONS

Multiattack (Vampire Form Only). The vampire makes three attacks, only one of which can be a bite attack. It can use its Charm in place of one of attack.

Warhammer (Vampire Form Only). *Melee Weapon Attack:* +11 to hit, reach 5 ft., one creature. *Hit:* 10 (1d10 + 5) bludgeoning damage plus 4 (1d8) necrotic damage. If the attack roll succeeds by 5 or more, the target must make a DC 19 Constitution saving throw or be stunned until the end of its next turn.

Unarmed Strike (Vampire Form Only). *Melee Weapon Attack:* +11 to hit, reach 5 ft., one creature. *Hit:* 9 (1d8 + 5) bludgeoning damage. Instead of dealing damage, the vampire can grapple the target (escape DC 18).

Bite (Bat or Vampire Form Only). *Melee Weapon Attack:* +11 to hit, reach 5 ft., one willing creature, or a creature that is grappled by the vampire, incapacitated, or restrained. *Hit:* 8 (1d6 + 5) piercing damage plus 10 (3d6) necrotic damage. The target's hit point maximum is reduced by an amount equal to the necrotic damage taken, and the vampire regains hit points equal to that amount. The reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0. A humanoid slain in this way and then buried in the ground rises the following night as a vampire spawn under the vampire's control.

Charm. The vampire targets one humanoid it can see within 30 feet of it. If the target can see the vampire, the target must succeed on a DC 18 Wisdom saving throw against this magic or be charmed by the vampire. The charmed target regards the vampire as a trusted friend to be heeded and protected. Although the target isn't under the vampire's control, it takes the vampire's requests or actions in the most favorable way it can, and it is a willing target for the vampire's bite attack.

Each time the vampire or the vampire's companions do anything harmful to the target, it can repeat the saving throw, ending the effect on itself on a success. Otherwise, the effect lasts 24 hours or until the vampire is destroyed, is on a different plane of existence than the target, or takes a bonus action to end the effect.

Children of the Night (1/Day). The vampire magically calls 2d4 swarms of bats or rats, provided that the sun isn't up. While outdoors, the vampire can call 3d6 wolves instead. The called creatures arrive in 1d4 rounds, acting as allies of the vampire and obeying its spoken commands. The beasts remain for 1 hour, until the vampire dies, or until the vampire dismisses them as a bonus action.

LEGENDARY ACTIONS

The vampire can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature's turn. The vampire regains spent legendary actions at the start of its turn.

Move. The vampire moves up to its speed without provoking opportunity attacks.

Attack. The vampire makes one warhammer attack or unarmed strike.

Bite (Costs 2 Actions). The vampire makes one bite attack.

Cast a Spell (Costs 3 Actions). The vampire casts a spell from its list of prepared spells, using a spell slot as normal.

Cunning Action. The vampire can take the Dash, Disengage, or Hide action as a bonus action on each of its turns.

Evasion. If the vampire is subjected to an effect that allows it to make a Dexterity saving throw to take only half damage, the vampire instead takes no damage if it succeeds on the saving throw, and only half damage if it fails.

Sneak Attack (1/Turn). The vampire deals an extra 17 (5d6) damage when it hits a target with a weapon attack and has advantage on the attack roll, or when the target is within 5 feet of an ally of the vampire that isn't incapacitated and the vampire doesn't have disadvantage on the attack roll.

Regeneration. The vampire regains 10 hit points at the start of its turn if it has at least 1 hit point and isn't in sunlight or running water. If the vampire takes radiant damage or damage from holy water, this trait doesn't function at the start of the vampire's next turn.

Bite. Melee Weapon Attack: +7 to hit, reach 5 ft., one willing creature, or a creature that is grappled by the vampire, incapacitated, or restrained. **Hit:** 7 (1d6 + 4) piercing damage plus 7 (2d6) necrotic damage. The curse ends early if the target dies, the wight dies, or it is incapacitated. Until the curse ends, the wight gains the following benefits:

- It deals an extra 3 damage on damage rolls against the cursed target.
- Any attack roll it makes against the cursed target is a critical hit on a roll of 19 or 20 on the d20.
- If the cursed target dies, the wight regains 14 hit points.

Sunlight Sensitivity. While in sunlight, the wight has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

Sunlight Sensitivity. While in sunlight, the wight has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

This reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

A humanoid slain by this attack rises 24 hours later as a zombie under the wight's control, unless the humanoid is restored to life or its body is destroyed. The wight can have no more than twelve zombies under its control at one time.

Magic Resistance. The wight has advantage on saving throws

Innate Spellcasting (Psionics). The wight's innate spellcasting ability is Intelligence (spell save DC 15). It can innately cast the following spells, requiring no components:

At will: *detect thoughts*, *levitate*

1/day each: *dominate monster*, *plane shift (self only)*

Sunlight Sensitivity. While in sunlight, the wight has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

Extract Brain. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one incapacitated humanoid grappled by the wight. *Hit:* 55 (10d10) piercing damage plus 3 (1d6) necrotic damage. If this damage reduces the target to 0 hit points, the wight kills the target by extracting and devouring its brain.

Mind Blast (Recharge 5-6). The wight magically emits psychic energy in a 60-foot cone. Each creature in that area must succeed on a DC 15 Intelligence saving throw or take 21 (4d8 + 3) psychic damage and be stunned for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

DREAD WILL-O-WISP

The dread will-o-wisp is an ancient will-o-wisp that has consumed hundreds of lives over its existence. Consume Life. As a bonus action, the will-o'-wisp can target one creature it can see within 5 feet of it that has 0 hit points and is still alive. The target must succeed on a DC 13 Constitution saving throw against this magic or die. If the target dies, the will-o'-wisp regains 10 (3d6) hit points.

Ephemeral. The will-o'-wisp can't wear or carry anything.

Incorporeal Movement. The will-o'-wisp can move through other creatures and objects as if they were difficult terrain. It takes 5 (1d10) force damage if it ends its turn inside an object.

Variable Illumination. The will-o'-wisp sheds bright light in a 5- to 20-foot radius and dim light for an additional number of feet equal to the chosen radius. The will-o'-wisp can alter the radius as a bonus action.

Whispers of Hope and Despair. A creature that starts its turn within 20 feet of the will-o-wisp must succeed on a DC 13 Wisdom saving throw, unless the will-o-wisp is incapacitated. On a failed save, the target is charmed until the start of its next turn. While charmed by the will-o-wisp, the target, during each of its turns, is unable to do any action except use a Dash action and move up to its speed to a space of the will-o-wisp's choice that the will-o-wisp can see. If the creature cannot reach it, it must move to the nearest possible space to the designated space. A target isn't compelled to move into an obviously deadly hazard, such as a fire or pit, but it might not notice hidden hazards such as quicksand, and it will provoke opportunity attacks to move toward the space designated. Constructs and undead are immune to this effect.

ACTIONS

Multiattack. The will-o-wisp uses its Shock twice.

Shock. Melee Spell Attack: +6 to hit, reach 5 ft., one creature.

Hit: 13 (3d8) lightning damage.

Invisibility. The will-o'-wisp and its light magically become invisible until it attacks or uses its Consume Life, or until its concentration ends (as if concentrating on a spell).

Detect Life. The wraith can magically sense the presence of living creatures up to 120 feet away. It knows the general direction they're in but not their exact locations.

Fear Aura. A creature that starts its turn within 20 feet of the wraith must succeed on a DC 14 Wisdom saving throw, unless the wraith is incapacitated. On a failed save, the creature is frightened for 1 minute. While frightened in this way, a creature must take the Dash action and move away from the wraith by the safest available route

on each of its turns, unless there is nowhere to move, in which case it needn't take the Dash action. If the creature ends its turn in a location where it doesn't have line of sight to the wraith, the creature can repeat the saving throw. On a success, the effect ends. If a creature's saving throw is successful, the creature is immune to the wraith's Fear Aura for the next 24 hours.

Incorporeal Movement. The wraith can move through other creatures and objects as if they were difficult terrain. It takes 5 (1d10) force damage if she ends her turn inside an object.

Sunlight Sensitivity. While in sunlight, the specter has disadvantage on attack rolls, as well as on Wisdom (Perception) checks that rely on sight.

ACTIONS

The target must succeed on a DC 16 Constitution saving throw or its hit point maximum is reduced by an amount equal to the damage taken. This reduction lasts until the creature finishes a long rest. The target dies if this effect reduces its hit point maximum to 0.

Create Specter. The wraith targets a humanoid within 10 feet of it that has been dead for no longer than 1 minute and died violently. The target's spirit rises as a specter in the space of its corpse or in the nearest unoccupied space. The specter is under the wraith's control. The wraith can have no more than seven specters under its control at one time.

DREAD WRAITH LORD

Dread wraith lords come from the restless spirits of once powerful tyrannical kings. ANCIENT WYVERN

Very rarely do wyverns reach an age where they can grow to a huge size. They are often slain by chromatic dragons before they can get any bigger. But when they do survive long enough to reach an ancient age, they make very deadly foes.

XORN

ELDER XORN

The elder xorn is larger and less patient than its brethren. Whereas a normal xorn may attempt to negotiate for treasure, an elder xorn will simply demand for it. It gets easily agitated when its demand is ignored, and may outright attack. Due to its size, it often craves for treasure constantly. It can sniff out and pinpoint the location of treasure, and uncontrollably goes into a savage frenzy when it detects anyone carrying a large amount of treasure.

YUGOLOTH

BAERNOLOTH

This horrid and lanky creature stands 9-foot tall and weighs about 500 pounds. Its gaunt oversized head looks like that of a horse's skull, with thin skin barely covering it. Necrotic ooze drips from its foul maw. Disgusting warts and pus-filled sores riddle its leathery hide. Its gangly limbs end in terrible claws that can rip flesh like knife through butter.

Reclusive Lords. It is said that the baernoloths were the first yugoloths, or were the creators of the yugoloths. Whether that is true or not, the baernoloth all but vanished, leaving the ultroloths in charge. The baernoloths went to the Gray Waste, and now live as reclusive hermits in well-guarded towers. They no longer interact with other yugoloths, except for ultroloths, who pay tribute to them, in return for the baernoloth's wisdom and guidance. Ultroloths may command armies of yugoloths, but it is the baernoloths that secretly provide direction to the ultroloths.

Collector of Secrets. Not unlike arcanoloths, baernoloths collect secret lores and answers to mysteries that they can use for their own ends. They also appear to know more about other fiends; in particular, their strengths and weaknesses that they can exploit. It is often for this reason that ultroloths seek them out.

Fiendish Sadists. If there is one thing that baernoloths love more than acquiring secrets, it is to torture intelligent beings. Even when they are trying to extract information, witnessing intense agony and fear from their victims appears to give them more satisfaction than acquiring the information itself. So much so that they bring back their victims from the brink of death by curing them fully of their wounds, only to repeat the torture once again.

Challenge 1 (200 XP)

Ambusher. The robber fly has advantage on attack rolls against any creature it has surprised.

ACTIONS

Proboscis. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one creature. *Hit:* 8 (1d8 + 4) piercing damage, the robber fly attaches to the target, and the target must make a DC 11 Constitution saving throw or be poisoned for 1 minute. The target is paralyzed while poisoned in this way. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success. While attached, the robber fly doesn't attack. Instead, at the start of each of the robber fly's turns, the target loses 8 (1d8 + 4) hit points due to blood loss. The robber fly can detach itself by spending 5 feet of its movement. It does so after it drains 40 hit points of blood from the target or the target dies. A creature, including the target, can use its action to detach the robber fly.

ACTIONS

Bite. *Melee Weapon Attack:* +6 to hit, reach 5 ft., one target.

Hit: 11 (2d6 + 4) piercing damage plus 7 (2d6) acid damage and the target is grappled (escape DC 14). Until this grapple ends, the target is restrained, and the slug can't bite another target.

Swallow. The slug makes one bite attack against a Medium or smaller target it is grappling. If the attack hits, the target is swallowed, and the grapple ends. A swallowed creature is blinded and restrained, it has total cover against attacks and other effects outside the slug, and it takes 7 (2d6) acid damage at the start of each of the slug's turns.

If the slug takes 20 damage or more on a single turn from a creature inside it, the slug must succeed on a DC 14 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the slug. If the slug dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 5 feet of movement, exiting prone.

Acid Glob Spit. *Ranged Weapon Attack:* +6 to hit, range 60 ft., one target. **Hit:** 18 (4d8) acid damage and if the target is a creature, it must succeed on a DC 14 Strength saving throw or be restrained until the end of its next turn.

If the poison damage reduces the target to 0 hit points, the target is stable but poisoned for 1 hour, even after regaining hit points, and is paralyzed while poisoned in this way.

Shed Hairs (Recharges after a Short or Long Rest). Each creature within 10 feet of the tarantula must make a DC 13 Constitution saving throw. On a failed save, the creature becomes poisoned for 1 minute. A creature spends its action on each of its turns retching and reeling while poisoned in this way. ACTIONS

GREENVISE

The greenvise is a giant carnivorous plant that faintly resembles a venus flytrap, except it has a large maw filled with rows of thorn-like teeth. It is a very patient hunter, planting itself along paths and trails and near similar-looking plants. It waits for prey to approach its vicinity before unleashing its death fog. ACTIONS

Multiattack. The greenvise makes three attacks: one with its bite attack and two with its tendrils.

Bite. *Melee Weapon Attack:* +9 to hit, reach 5 ft., one target. *Hit:* 19 (3d8 + 6) piercing damage. If the target is a Medium or smaller creature, it must succeed on a DC 17 Dexterity saving throw or be swallowed by the greenvise. A swallowed creature is blinded and restrained, it has total cover against attacks and other effects outside the greenvise, and it takes 14 (4d6) acid damage at the start of each of the greenvise's turns.

If the greenvise takes 20 damage or more on a single turn from a creature inside it, the greenvise must succeed on a DC 15 Constitution saving throw at the end of that turn or regurgitate all swallowed creatures, which fall prone in a space within 10 feet of the greenvise. If the greenvise dies, a swallowed creature is no longer restrained by it and can escape from the corpse by using 5 feet of movement, exiting prone.

Tendrils. *Melee Weapon Attack:* +9 to hit, reach 20 ft., one target. *Hit:* 10 (1d8 + 6) bludgeoning damage plus 4 (1d8) piercing damage. If the target is Medium or smaller, it is grappled (escape DC 16), restrained until the grapple ends, and is pulled up to 15 feet toward the greenvise. The greenvise has two tendrils, each of which can grapple one target.

Death Fog (Recharges after a Short or Long Rest). The greenvise emits a greenish, acidic mist that fills 30-foot radius sphere centered on the greenvise that lasts for 1 minute. The fog spreads around corners, and its area is heavily obscured. A creature that starts its turn within 30 feet of the greenvise must succeed on a DC 16 Constitution saving throw. On a failed save, the target takes 7 (2d6) acid damage, can't use reactions, its speed is halved, and it can't make more than one attack on its turn. In addition, the creature can use either an action or a bonus action on its turn, but not both. These effects last until the start of the creature's next turn. On a successful save, the target takes half as much damage and suffers no other effects. The greenvise is immune to the effects of its death fog.

HATORI

The hatori are giant crocodile-like monstrosities that live in loose sandy terrain typically found in deserts and beaches. An uncomfortable cold aura emanates from them, and frost appears on the ground's surface where they tread. They either live alone as hermits in arctic areas or snow-capped mountains, or with tribes of cold-type creatures like yeti and frost giants.

OVER 330 PAGES AND 475 NEW CREATURE STAT BLOCKS!

Monster Manual Expanded is a 330-page source of content that supplements the *Monster Manual*. It provides Dungeon Masters more options and flexibility in designing adventures and dressing up their dungeons with a wider variety of critters and characters that are based on the *Monster Manual*. It also adds over 470 new creatures and variants that give a nostalgic and classic feel that Dungeon Masters experienced with the older editions will enjoy using.

"A fantastic resource for DMs that want to keep players on their toes or want stronger or weaker variants of certain monsters."

- Comicbook.com

"Monster Manual Expanded does a fantastic job of lovingly recreating monsters that were sadly missing from 5e."

- Nerdimmersion

"The variants are more than additional stats for DMs to memorize; they are reference materials that enhance the known lore of beloved creatures, giving more clues to their ecological life histories and/or societal structures."

- Bob World Builder

"The creativity and attention to detail that went into this already makes it must have companion to your MM."

- D&D Character Lab

"It gives you a wealth of options at various levels which just creates more replayability. Very well done! Well worth your money!"

- Allthingslich
