

MIDNIGHT PHAETON'S HORN (+3 WEAPON)

CCC-ODFC02-03 Night's Bright Dawning

The weapon retains the glittering, pearlescent sheen and spiraling pattern of the unicorn's horn. Additionally, it glows with bright light for 20 feet and dim light for 20 feet, controlled by speaking portions of the unicorn's name. Any good aligned creatures in the bright light feel slightly more at ease (no mechanical effect), as if caressed by the first rays of moonlight on a dark night.

Weapon (any melee piercing), very rare

Please refer to the Dungeon Master's Guide for a full description of this item
