You can affect a node whose class is equal to one-half your caster level or less.

For any caster except you, a *node lock* adds +15 to each Spellcraft DC associated with the use of the node's standard powers.

In addition, the node cannot be detected by a *locate node* spell.

A successful *dispel magic* breaks a *node lock*.

Special: You must have the Node Spellcasting feat to cast this spell.

CONJURATION

ARROWSPLIT

Conjuration (Creation)

Level: Assassin 3, ranger 3, justice of weald and woe 3

Components: V, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, causing it to split in mid-flight into $1d4+1$ identical masterwork arrows or bolts.

All the missiles strike the same target, and you must make a separate attack roll for each missile.

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

The projectile is destroyed even if it misses its target.

Material Component: Masterwork arrow or bolt.

BEDEVIL

Conjuration (Summoning) [Evil]

Level: Blackguard 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 round

Range: See text

Duration: 1 day/level (D)

Saving Throw: No

Spell Resistance: Yes

You summon a mischievous spirit and send it to bedevil your enemy.

The spirit seeks out its assigned victim wherever she might be, as long as she is on the same plane as you when you cast the spell.

It then proceeds to irritate and annoy her through a variety of manifestations.

The victim of a *bedevil* spell finds herself constantly seeing movement out of the corner of her eye.

Her sleep is frequently interrupted by bed shaking and blanket shifting and the sounds of voices that fade upon waking.

When spellcasting, she suffers a variety of minor irritations that threaten to disrupt her spells, and she constantly feels haunted and watched.

The result of this bedevilment is that she takes a -1 penalty on all ability checks, skill checks, and Will saving throws and has a 5% chance of arcane spell failure (which stacks with any spell failure chance from armor worn).

Detect evil cast upon the subject of this spell reveals the presence of the bedeviling spirit, while *protection from evil* keeps the spirit from adversely affecting the victim.

A *dispel evil* spell destroys the mischievous spirit, but *remove curse* or similar magic has no effect on it.

Material Components: A tiny iron statuette of a devil or imp, plus either a drop of the intended victim's blood or one personal article belonging to the intended victim.

NODE DOOR

Conjuration (Teleportation)

Level: Druid 3, sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: Varies; see text

Target: You and touched objects or other touched willing creatures

Duration: Instantaneous

Saving Throw: None and Will negates (object)

Spell Resistance: No and Yes (object)

You instantly transfer yourself from your current node to any other node of the same type that you have visited.

You always arrive at the exact spot desired—whether by simply visualizing the area or by describing your destination (for example, “the Shadow Weave node in the garden at the Temple of Old Night”).

After using this spell, you can't take any other actions until your next turn.

If you arrive in a node that is already partially occupied by a newly added object, you arrive in the closest clear space in that node.

If the node is completely filled or has been destroyed by any means, you bounce to the next closest node of the same type (determined randomly or by the DM).

Each such “bounce” deals 2d6 points of damage to you and any who accompany you.

You can bring along objects as long as their weight doesn't exceed your maximum load.

You can also bring one additional willing Medium or smaller creature (carrying gear or objects up to its maximum load) or its equivalent per three caster levels; a Large creature counts as two Medium creatures, a Huge creature counts as two Large creatures, and so forth.

All creatures to be transported must be in contact with one another, and at least one of those creatures must be in contact with you.

As with all spells for which the range is personal and the target is you, you need not make a saving throw, nor is spell resistance applicable to you.

Only objects held or in use (attended) by another person receive saving throws and spell resistance.

Special: You must have the Node Spellcasting feat to cast this spell.

NODE GENESIS

Conjuration (Creation)

Level: Sorcerer/wizard 9

Components: V, S, XP

Casting Time: 1 tenday (8 hours/day)

Range: Touch

Effect: One Class 1 node with a 10-ft. radius

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When you cast this spell, the arcane energies reroute local ley lines and telluric currents, precipitating the creation of a Class 1 node (you determine the type when you cast the spell).

The new node is centered on and emanates from a point on the ground you touch.

The rough boundary of the new node can cross any type of terrain or empty space, and can cross different types of materials.

You have some leeway in determining the initial shape of your node's outer boundary—it doesn't have to be a perfect sphere.

The newly generated node retains its Class 1 status for one year.

Thereafter, its diameter increases at rate of 20 feet per year, until it eventually reaches a diameter equal to 20 feet per the caster level you possessed at the time of casting.

When the node's diameter reaches the low end of the range for the next higher class (see Table 5-1 on page 96), its class increases by +1.

For example, a Class 1 node becomes Class 2 when its diameter reaches 40 feet, and Class 3 when its diameter reaches 120 feet.

Nodes you create with this spell are automatically considered *node locked* by you.

They are otherwise just like natural nodes and subject to destruction in the same ways.

XP Cost: 5,000 XP.

Special: You must have the Node Spellcasting feat to cast this spell.

POCKET CAVE

Conjuration (Creation)

Level: Initiate of Gruumsh 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Extradimensional cave, up to two 10-ft. cubes/level (S)

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: No

You conjure up an extradimensional cave that has a single entrance on the plane from which the spell was cast.

You can only cast this spell on a surface made of rock or some form of earth.

The entry point looks like a dark cave entrance that is 4 feet wide and 8 feet high.

Only those you designate can enter the cave, and the portal is shut and made invisible behind you when you enter.

You can open it again from your side at will.

Creatures entering the cave will find themselves in a dark, wet cavern.

The place contains enough oxygen to sustain as many creatures as can fit in the area for the duration of the spell. Edible fungus grows along the walls, and condensation drips down one wall into a pool of fresh, clean water that never seems to run dry.

External conditions such as weather do not affect the pleasant atmosphere of the cave, and nothing except the designated creatures can pass through the portal in either direction.

At the end of the spell's duration, all within the *pocket cave* return to the spot where they entered the cave or else to the nearest open space, if that spot is occupied.

SHADOW TRAP

Conjuration (Summoning) [Shadow]

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Duration: 1 hour/level (D)

Saving Throw: Reflex half

Spell Resistance: Yes

With this spell, you place a magic trap on any object that casts a shadow.

If the object is disturbed in any way that causes its shadow to shift (for instance, if it or a nearby light source is moved), a bound greater shadow (see *Monster Manual* page 221) emerges from the object's shadow to attack the nearest living creature.

The shadow can be turned or destroyed as normal; otherwise, it remains for a number of rounds equal to your caster level.

If the trapped object resides in a place that has no shadows, the trap does not trigger, although the spell remains in effect.

Material Component: A sheet of black cloth large enough to drape over the warded object.

SLIME HURL

Conjuration (Creation)

Level: Initiate of Ghaunadaur 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Three globs of green slime

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You conjure and hurl three roughly spherical globs of dark green slime.

You must succeed on a ranged touch attack to strike a target with a slime glob (roll separately for each glob, using your best ranged attack bonus).

Any creature struck by a glob is coated in a patch of green slime (see *Dungeon Master's Guide* page 76) and begins to experience its effects immediately.

You can hit a creature with multiple globs, each of which must be dealt with separately.

The conjured green slime does not disappear automatically and must be destroyed in the normal way.

DIVINATION

LOCATE NODE

Divination

Level: Cleric 3, druid 2, sorcerer/wizard 2

Components: V, S, F/DF

Casting Time: 1 standard action

Range: 1 mile/level; see text

Area: Circle, centered on you, with a radius of 1 mile/level; see text

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

You sense the direction of any node within range.

You can choose to locate the nearest node, the closest node of a particular type, or a specific node you have visited before; in the latter case, the range is 2 miles/level and the area is a circle, centered on you, with a radius of 2 miles/level.

The spell is blocked by even a thin sheet of lead, and it cannot detect nodes protected by a *node lock* spell.

Arcane or Divine Focus: A pebble found in a node.

ENCHANTMENT

ANATHEMA

Enchantment (Compulsion)

Level: Cleric 9, druid 9

Components: V, S, F, DF

Casting Time: 1 round

Range: Unlimited

Target: One creature of the same faith as the spellcaster

Duration: Permanent

Saving Throw: None

Spell Resistance: No

You can permanently break the divine link between your deity and a lower-level cleric, druid, ranger or paladin of your faith, or upon a common worshiper.

The spell has no effect on spellcasters of a faith other than your own.

You can pronounce an *anathema* upon any character of your faith, no matter where he is, even if on a different plane.

You cannot pronounce an *anathema* against someone who is already dead.

Some deities do not allow an *anathema* to be pronounced against the innocent or against their chosen, while others grant their high-level clerics free use of this most terrible of divine curses.

An individual under *anathema* can no longer cast divine spells or call upon the power of his god to turn or command undead, heal, harm, smite, shape change, or use any other divine power associated with his character class.

An ordinary worshiper placed under *anathema* is not allowed to take advantage of any of the faith's services, such as healing, naming, marrying, or burial of the dead.

Anyone who dies while under *anathema* is barred from entry into his deity's plane just as though he had never declared allegiance to a god.

His soul is condemned to eternally writhe in the Wall of the Faithless.

On a more personal level, the *anathema* spell marks the subject as accursed with regard to others of the faith.

They are not allowed to speak to him, look at him, or even acknowledge his existence.

The common members of the faith are only aware that the subject is under *anathema* if so informed by the church hierarchy; however, clerics, paladins, druids and rangers of the faith can automatically detect an *anathema* effect simply by looking at the subject.

The effect is permanent until lifted, either by the original spellcaster, or by a cleric of the same faith, of a higher level than the caster, who casts an *atonement* spell upon the subject.

The subject of an *anathema* can also remove its effect by changing his divine allegiance (see *Changing Deities*, page 233 of the *FORGOTTEN REALMS Campaign Setting*).

Focus: The subject's name must be inscribed in a book or scroll especially consecrated for this purpose and detailing the crimes (real or imagined) for which the subject is being condemned.

The book is not consumed in the process.

ENRAGE ANIMALS

Enchantment (Compulsion) [Mind-Affecting]

Level: Druid 1, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Animals within 30 ft. of each other

Duration: 1 minute/level

Saving Throw: Will negates; see text

Spell Resistance: Yes

This spell incites and enrages animals, making them hostile and vicious.

Only ordinary animals (those with Intelligence scores of 1 or 2) can be affected by this spell.

The maximum number of Hit Dice of animals you can affect is equal to $2d4 +$ your caster level.

A dire animal or an animal trained only to attack on order is allowed a saving throw; other animals are not.

For example, a ranger could enrage a normal bear or wolf with little trouble, but it's more difficult to drive a trained guard dog into a frenzy so that it attacks its master.

The affected creatures attack the nearest creature, including any other creatures affected by this spell.

LOVE'S LAMENT

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3

Components: V

Casting Time: 1 standard action

Range: 60 ft.

Effect: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

With this spell, you create a cone of music that draws upon the sadness, guilt, and despair of those within its area of effect.

All creatures in the area take a -4 penalty on Listen checks for 1 round.

In addition, those who fail to save against *love's lament* are reminded of all their lost loves and disappointments in life. The music seizes upon these feelings and magnifies them, so that the victims of the spell take 1d6 points of Wisdom damage and are nauseated for 1d4 rounds.

REMORSELESS CHARM

Enchantment (Compulsion) [Evil, Mind-Affecting]

Level: Bard 5, cleric 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Duration: See text

Saving Throw: Will negates

Spell Resistance: Yes

This spell eliminates normal inhibitions and silences the subject's conscience.

Under its effects, a good creature might commit acts of extraordinary evil without any feelings of remorse. For instance, a paladin who strives to never destroy a foe that has surrendered might decide that she's better off meting out justice immediately and killing the enemy. This spell affects the target's norms and expectations; for example, once affected, a good-aligned target might be willing to attack his friends when urged to do so through a *suggestion*.

This would not eliminate his need to atone, according to the tenets and punishments prescribed by his faith or law. The compulsion is permanent until broken by a *break enchantment* spell or similar magic, or until it is removed by the spellcaster.

Material Component: One piece of masterwork artwork of at least 1,000 gp in value.

The artwork must depict acts of debauchery or evil that are titillating and fascinating, not disturbing or revolting.

The spell is cast upon the artwork, which is then revealed to the subject of the spell, triggering its effects.

The enchantment on the artwork lasts for 1 day per spellcaster level, much like a *symbol*, until it is viewed and its magical effect is triggered.

SYMPHONIC NIGHTMARE

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 6

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 day/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

A creature targeted by this spell loses the ability to dream during sleep or rest.

Rather, in place of dreams, the target's slumbering mind is filled with the sounds of a discordant orchestra.

After the victim's first attempt to sleep, he incurs a -2 penalty on all Wisdom-based skill checks.

This penalty persists as long as the *symphonic nightmare* effect maintains its hold on him.

This spell affects all creatures that sleep or enter sleeplike trances; creatures without the need to sleep are effectively immune.

In addition, the creature's sleep is now haunted.

It can no longer gain complete rest from sleeping or resting.

The target does not regain hit points or heal ability damage naturally, nor is it able to prepare spells if doing so requires a full night's rest.

The creature is, however, now immune to the *dream* and *nightmare* spells, as well as to other effects that cause nightmares (such as the night hag's dream haunting ability).

The caster can lift the effect of this curse at will, but it is otherwise difficult to remove a *symphonic nightmare* before its duration expires.

A *remove curse* cast at a higher caster level than the *symphonic nightmare* spell removes it, as does a successful *break enchantment*.

Otherwise, a *wish* or *miracle* is required to lift the curse. **Focus:** A small statue of an opened skull within which is arranged a miniature orchestra.

The quality of this component must be extraordinary, giving it a value of at least 1,000 gp.

EVOCATION

DARKFLAME ARROW

Evocation

Level: Assassin 3, justice of weald and woe 3, ranger 3

Components: V, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous; see text

Saving Throw: None

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, engulfing its head in black fire.

The arrow deals normal damage and wreaths the target in black flame that deals an extra 2d6 points of damage.

The black flames continue to engulf the victim for 2 more rounds, dealing 2d6 points of damage each subsequent round (at the start of your turn), and they cannot be extinguished (although they can be dispelled).

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

Creatures with immunity or resistance to fire take full damage from the black flames.

The projectile is destroyed even if it misses its target.

Material Component: Masterwork arrow or bolt.

MARK OF THE UNFAITHFUL

Evocation

Level: Cleric 7, druid 7

Components: V, S, F

Casting Time: 1 round

Range: Unlimited

Target: One creature

Duration: Permanent

Saving Throw: None

Spell Resistance: Yes

You permanently place a mark upon a character or creature that identifies it as an enemy of the faith.

Anyone of your faith who encounters the bearer of a *mark of the unfaithful*, even if he is disguised, *altered*, or *polymorphed*, feels a natural hostility toward that person and gains a +6 circumstance bonus on Sense Motive checks made against the marked creature.

This hostility might not induce the viewer to attack, but he certainly will not be inclined to trust or believe anything the marked one says.

Clerics, paladins, druids and rangers of the faith can automatically detect the *mark* simply by looking at the subject.

A *mark of the unfaithful* is permanent until dispelled or removed by a cleric of the same faith, of higher level than the caster, who casts an *atonement* spell upon the subject.

Focus: The subject's name must be inscribed in a book or scroll especially consecrated for this purpose and detailing

the crimes (real or imagined) for which the subject is being marked.

SCOURGE OF FORCE

Evocation [Force]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One tendril of force plus one additional tendril per three caster levels (maximum four)

Targets: One or more targets, no two of which can be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

One or more whiplike tendrils of force spring from your hand and lash targets within range.

Make a melee touch attack for each tendril using your highest attack bonus.

If a tendril hits, it deals 1d8 points of force damage plus 1 point of force damage per two caster levels (maximum 1d8+5).

You can lash a target with multiple tendrils.

SLASHING DARKNESS

Evocation

Level: Clr 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A hissing, hurtling ribbon of pure darkness flies from your hand.

A creature struck by this ray of darkness takes 1d8 points of damage per two caster levels (maximum 5d8).

An undead creature instead heals 1d8 points of damage per two caster levels (maximum 5d8).

NECROMANCY

NECROTIC SKULL BOMB

Necromancy

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You imbue a humanoid skull with negative energy and hurl it.

The skull detonates on impact, releasing the negative energy contained within.

All creatures in the spell's area, except for undead, gain 1d4 negative levels (see Energy Drain, page 308 of the *Monster Manual*, for details about negative levels).

Assuming a creature survives the effect of the spell, it regains lost levels after a number of hours equal to your caster level (maximum 15 hours).

Usually, negative levels have a chance of draining a creature's levels, but the negative levels from *nerotic skull bomb* don't last long enough to do so.

An undead creature in the spell's area gains 1d4×5 temporary hit points for 1 hour.

Material Component: A humanoid skull.

RAVAGE

Necromancy [Evil]

Level: Cleric 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft.-radius cylinder, 40 ft. high

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

A terrible column of swirling black energy engulfs creatures and rips at their bodies and souls.

All living creatures within the spell's area take 1d6 points of vile damage per two caster levels (maximum 10d6).

Unlike regular damage, vile damage can only be healed by magic cast within the area of a *consecrate* or *hallow* spell.

SHADOW ARROW

Necromancy

Level: Assassin 4, justice of weald and woe 4, ranger 4

Components: V, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, transforming it into pure black shadow.

Make a ranged touch attack with the missile instead of a normal ranged attack.

Instead of dealing normal damage, a *shadow arrow* deals 1d6 points of Strength damage.

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

The projectile is destroyed even if it misses its target.

Material Component: Masterwork arrow or bolt.

TVASH-PRULL'S BONEFIDDLE

Necromancy

Level: Bard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature that has a skeleton or exoskeleton

Duration: Concentration, up to 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You call up a ghostly fiddle bow in the air above the targeted creature.

This bow immediately descends into the subject's body and begins to saw back and forth against its skeleton.

Although the music produced is eerily beautiful, it causes intense pain and anguish to the victim.

In each round of the duration, the victim takes 1d6 points of sonic damage and has a -20 penalty on all Move Silently checks; the sonic damage is considered to be continuous damage for the purposes of disrupting spellcasting.

As a standard action, you can move the *bonefiddle* to another creature in range, but the new target gains a saving throw to resist the spell.

If a target ever makes its saving throw, the *bonefiddle* vanishes and the spell ends.

The spell's effects continue even if the target moves so you no longer have line of sight or line of effect to it, but you cannot shift the *bonefiddle* to a new target unless you have both line of sight and line of effect to the current target and to the intended target.

Material Component: A miniature silver fiddle worth at least 30 gp.

TRANSMUTATION

AIR BREATHING

Transmutation

Level: Cleric 3, druid 3, sorcerer/wizard 3

Components: S, M/DF

Casting Time: 1 standard action

Range: Touch

Duration: 2 hours/level; see text

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The transmuted creatures can breathe air freely.

Divide the duration evenly among all the creatures you touch.

The spell does not make creatures unable to breathe water.

Air breathing dispels and counters *water breathing*.

Arcane Material Component: A short reed or piece of straw.

BLOODFREEZE ARROW

Transmutation

Level: Assassin 4, ranger 4, justice of weald and woe 4

Components: V, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, transforming its head into blue ice.

In addition to taking normal damage from the missile, the target takes 2d6 points of cold damage and is paralyzed.

A successful Fortitude save negates the paralysis, and the target can make a new save each round (at the start of the caster's turn).

Material Component: Masterwork arrow or bolt.

BLOODSPEAR

Transmutation

Level: Initiate of Gruumsh 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Spear touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell allows you to channel the fury of Gruumsh into the god's favored weapon—a spear.

The weapon's tip begins to drip blood, and the spear acts as if it had the wounding special ability (see *Dungeon Master's Guide* page 226) for the duration of the spell.

The spell is automatically canceled 1 round after the weapon leaves your hand.

You cannot have more than one *bloodspear* in effect at a time.

This spell has no effect on a spear that already has the wounding special ability, and it does not work on artifacts.

BRILLIANT ENERGY ARROW

Transmutation

Level: Assassin 2, ranger 2, justice of weald and woe 2

Components: V, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, transforming its head into brilliant energy that gives off light as a torch (20-foot radius).

A brilliant energy missile ignores nonliving matter.

Armor bonuses to AC (including any enhancement bonuses to that armor) do not count against it because the missile passes through armor.

It deals normal damage and has no effect on constructs, undead, and objects.

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

The projectile is destroyed even if it misses its target.

Material Component: Masterwork arrow or bolt.

CONTROL DARKNESS AND SHADOW

Transmutation [Darkness, Shadow]

Level: Bard 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Shadows in one 5-ft. cube/level

Duration: Concentration + 1 round/level

Saving Throw: None

Spell Resistance: No

You can affect existing shadows, both natural and magical, by causing them to deepen, lighten, or even move.

You can cause one of the following effects at a time, and can switch them once per round as a free action for the duration of the spell.

The chosen effect covers the entire area of the spell; multiple effects may not be applied to different areas. The possible effects are described below.

Deepen Darkness and Shadow: Normal shadows now grant a +4 bonus on Hide checks and provide concealment to creatures within them.

Magical *darkness* now confers total concealment to anyone within its area.

Lighten Darkness and Shadow: Normal shadows are suppressed within the area, making it impossible to hide within them or use abilities such as the shadowdancer's shadow jump ability.

Magical *darkness* no longer provides concealment, and the area can now be illuminated by any light source.

Move Shadow: The affected shadow moves as you direct within the area.

You can create shadow illusions (as those created by a *silent image* spell, but without color), reveal hidden creatures by taking their shadow away, cause shadows to follow you within the area of the spell, or otherwise move the shadow as you see fit.

You cannot move areas of *darkness* in this way.

DOUBLESTRIKE ARROW

Transmutation

Level: Ranger 4, justice of weald and woe 4

Components: V, S, M

Casting Time: 1 swift action

Range: Touch

Target: One arrow or bolt

Duration: 1 round

Saving Throw: None

Spell Resistance: No

This spell is cast upon a single arrow or crossbow bolt, enabling it to strike two targets instead of one.

The character firing the arrow selects the two targets, both of which must be within 30 feet of each other, and makes a separate attack roll against each target (using the same attack bonus).

After striking or missing the first target, the arrow swerves and continues on course to the second target.

A doublestrike missile cannot hit the same target twice, and it is destroyed even if it misses its intended targets.

Material Component: Arrow or bolt.

SERPENT ARROW

Transmutation

Level: Justice of weald and woe 3, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to eight projectiles, all of which must be within 40 ft. of each other at the time of casting; see text

Duration: Up to 10 min./level; see text

Saving Throw: None

Spell Resistance: No

You transform wooden arrows, darts, or twigs into Tiny vipers (see *Monster Manual* page 200).

These missiles remain rigid and harmless until fired or hurled.

They automatically bite any creature they hit, each dealing 1 point of damage plus poison (injury, Fortitude DC 11, initial and secondary damage 1d6 Con).

The missiles remain in snake form for the duration of the spell, fighting the creatures they initially struck using their normal attack bonus.

If a missile misses its target, or the target originally struck moves out of reach, the snake moves to attack the nearest creature other than you.

If a target falls dead and no others are in range, the spell ends even if its duration has not run out.

When the spell expires, the vipers melt away, leaving nothing behind.

Material Components: Up to eight wooden arrows, darts, or straight twigs, plus a scale from any sort of snake.

SPELLSLAYER ARROW

Transmutation

Level: Assassin 2, justice of weald and woe 2, ranger 2

Components: V, S, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell is cast upon a masterwork arrow or bolt, transforming it into a glowing missile that destabilizes other forms of magic.

In addition to dealing normal damage, a *spellslayer arrow* deals an extra 1d4 points of damage for each ongoing spell currently in effect on the target.

For example, an arrow would deal an extra 3d4 points of damage to a creature under the effects of *bull's strength*, *haste*, and *mage armor*.

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

The projectile is destroyed even if it misses its target.

Material Component: Masterwork arrow or bolt.

UNDERSONG

Transmutation

Level: Bard 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

When you cast this spell, a familiar and soothing song wells up in your mind.

The song does not distract you from any task at hand—on the contrary, by humming along to the tune you can focus your mind with ease.

As long as this spell is in effect, you can use any Perform check in place of a Concentration check.

You must decide which skill to use before any check is made.

UNHOLY BEAST

Transmutation [Evil]

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal of up to 1 HD/level

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

When you cast this spell, the subject creature temporarily transforms into a being of evil, serving you for the duration of the spell.

The animal's limbs and face contort, it sprouts tusks and bone spurs through its skin, and its eyes turn completely black.

The animal gains a +2 bonus to Strength, Dexterity, and Constitution, and a +2 bonus to natural armor.

Furthermore, the damage of its natural attacks increases as if it were one size category larger.

An *unholy beast* serves you as if it were under the influence of a *dominate animal* spell.

WHIP OF THORNS

Transmutation

Level: Druid 2

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Effect: 15-foot-long whip covered with sharp thorns

Duration: 1 round/level, or until discharged

Saving Throw: None

Spell Resistance: No

When you cast this spell, a piece of vine grows into a thorn-studded whip capable of savagely ripping your opponent's flesh.

You can wield this whip as if you were proficient, and it follows all the rules for a whip except that it deals 1d8+1 points of lethal damage per strike.

Any time you strike a Large or smaller opponent successfully with the whip, you can release it and entangle the creature.

Doing this ends the spell, but the thorny vine continues to wrap around your enemy until the opponent breaks free with a successful Escape Artist check (DC equal to the save DC of the spell).

On a failed check, the creature takes an additional 1d4 points of damage and remains entangled.

On a successful check that exceeds the DC by 10 or less, the creature takes the additional damage in the process of freeing itself.

A creature can also attempt to burst the vine with a DC 20 Strength check, although it takes 1d4 points of damage whether or not the attempt succeeds.

Material Component: A tiny piece of vine.

WOODWISP ARROW

Transmutation

Level: Assassin 1, druid 1, justice of weald and woe 1, ranger 1

Components: V, S, M

Casting Time: 1 swift action

Range: Touch

Target: One masterwork arrow or bolt

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell is cast upon a masterwork arrow or bolt, enabling the missile to pass through wood as though it was air, negating any cover benefit the target might enjoy because of wooden doors, tables, or stockade walls, or negating the AC modifier of a wooden shield.

The spell doesn't grant the spellcaster the ability to see through wooden obstructions, so unless a *clairvoyance* spell or similar magic is already in effect, the target is treated as having concealment instead of cover.

The arrow or bolt must be fired during the same round the spell is cast, or the magic dissipates and is lost.

The projectile is destroyed even if it misses its target.

CHAMPIONS OF VALOR (3.5)

ABJURATION

DISPEL SILENCE

Abjuration

Level: Initiate of Milil 2

Components: S, DF

Casting Time: 1 immediate action

Target or Area: One *silence* effect

This spell functions like *dispel magic*, except as noted above and that it only works against effects that create an area of *silence* (*silence*, *Khelben's suspended silence*, and so on).

While you have this spell prepared, you gain a +2 competence bonus on Listen checks.

FAVOR OF TYMORA

Abjuration

Level: Initiate of Tymora 2

Components: V, S, F

Casting Time: 1 immediate action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/3 levels

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell creates a glistening aura of golden magical energy around the target creature.

The creature gains a +2 luck bonus to AC.

Focus: A gold piece.

LIONHEART

Abjuration

Level: Initiate of the Holy Realm 2, initiate of Nobanion 2

Casting Time: 1 immediate action

Duration: 1 minute

This spell originated in Nobanion's faith.

It functions like *remove fear* except as noted above.

REND SHADOW WEAVE

Abjuration

Level: Cleric 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 minute

Range: Close (25 ft. plus 5 ft./2 levels)

Effect: One 10-ft.-cube area of the Shadow Weave

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You damage the Shadow Weave, creating an area of dead magic that only affects the Shadow Weave rather than the Weave.

While you have this spell prepared, you get a +2 competence bonus on caster level checks to dispel Shadow Weave effects.

Material Component: A moonstone worth at least 50 gp.

SHARD BLESSING AURA

Abjuration

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

This spell creates an aura of shimmering blue-white light similar to moonlight that fills your space and moves with you.

The aura sheds light equal to a candle.

This aura functions like a *lesser globe of invulnerability*.

If you are a sorcerer and Selûne is your patron, the aura also grants you the benefit of *protection from evil*.

The spell is named for the Shards, planar servants of Selûne drawn from the ranks of her greatest priestesses. Because some shards return to Faerûn to visit their mortal lovers, supernatural bloodlines (usually aasimar, but not always) with ties to Selûne exist in some parts of the world.

Material Component: A moonstone or other polished white stone.

SKIN OF THE STEEL DRAGON

Abjuration

Level: Sorcerer/wizard 5

Components: V, S, M **Casting Time:** 1 immediate action

Range: Personal

Target: You

Duration: 1 round/3 levels

This spell grants you spell resistance equal to 10 + your caster level.

If you are a sorcerer, this spell also grants you a +5 resistance bonus on saving throws against poison.

Some of Mystra's servants are steel dragons, shapeshifting creatures who love living among humanoids.

Some sorcerers claim their magic comes from a long-ago dragon ancestor, one of the first steel dragons to serve Mystra in Faerûn.

Material Component: A piece of steel in the shape of a seven-pointed star or a steel holy symbol of Mystra's faith.

CONJURATION

ANIMATE WITH THE SPIRIT

Conjuration (Summoning) [Good]

Level: Sanctified 4

Components: V, S, DF, sacrifice

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Target: One corpse with HD equal to or less than your caster level

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

By casting this spell, you request your deity to send you the spirit of a good-aligned outsider (of 6 HD or less) of the deity's choice to inhabit a corpse within range, which becomes animated by the spirit.

If you serve no particular deity, the spell is a general plea answered by a creature sharing your philosophical alignment.

If you know an individual creature's name, you can request that individual by speaking the name during the spell (though you might get a different creature anyway).

The Hit Dice of the corpse to be animated (not counting class levels) cannot exceed your caster level.

The possessed body attacks your opponents to the best of its ability.

If you can communicate with the possessing spirit, you can direct it not to attack, to attack particular enemies, or to perform other actions.

While the body is inhabited by the spirit, it is treated as if were still alive but possessed.

It uses the outsider's Intelligence, Wisdom, Charisma, base attack bonus, base save bonuses, alignment, mental abilities, and any class levels it might have.

The body regains the Strength, Dexterity, Constitution, hit points, and innate abilities of the creature the corpse represented when it was alive.

For example, a sahuagin's body breathes water and a troll's body regenerates.

The spirit can't choose to activate the host body's extraordinary or supernatural abilities, and the host body's spells and spell-like abilities do not stay with the body.

The spirit remains within the body until the spell is dismissed, the duration ends, or the host body is slain, at which point it returns to its original body with no ill effects.

Sacrifice Component: 1d3 points of Strength drain.

CELESTIAL FORTRESS

Conjuration (Creation)

Level: Sanctified 4

Components: V, S, DF, sacrifice

This spell functions like *Leomund's secure shelter*, except as noted above and as follows.

The structure is a simple flat-roofed fort rather than a cottage.

It has a sturdy door and a fireplace but no windows; access to the roof is through a ladder and a sturdy hatch.

The fortress resonates with the power of your deity's home plane, and it is protected by *consecrate* and *magic circle against evil*.

The fortress's appearance reflects your deity and deity's realm.

For example, Mystra's forts created by this spell look like high-fantasy castles, those of Mulhorandi deities look native to their land, those of dwarven deities look very dwarflike, and so on.

Sacrifice Component: 1d2 points of Constitution damage.

CREATE LANTERN ARCHON

Conjuration (Creation) [Good, Light]

Level: Sanctified 3

Components: V, S, DF, sacrifice

Casting Time: 1 hour

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One lantern archon

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You sacrifice a small part of your own life force to create a new lantern archon (see page 16 of the *Monster Manual*) in the service of your patron.

The lantern archon is not under your control but is friendly to you.

It willingly performs one nonhazardous task of your choice taking up to 1 hour without requiring any payment.

Alternatively, you can request that it perform a hazardous or longer task, but in this case payment is required—see *lesser planar ally*, page 261 of the *Player's Handbook*, for details on tasks and payment.

Upon completion of the task, the lantern archon is magically transported to your deity's home plane.

Sacrifice Component: 1d2 points of Constitution drain.

GOLDEN DRAGONMAIL

Conjuration (Creation)

Level: Sorcerer/wizard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Effect: One suit of magic armor

Duration: 1 hour/level (D); see text

You create a suit of shining golden full plate around your body.

The armor is etched with a dragonscale pattern, an image of a gold dragon, or Torm's holy symbol (your choice when you cast the spell).

It is treated as +1 *mithral full plate* for all purposes (including arcane spell failure chance), and you are treated as proficient with this armor.

Removing or destroying the armor dismisses the spell.

This spell has no effect if you are already wearing armor.

Torm the True is served by gold and silver dragons, and some of these dragons are the founders of ancient sorcerer bloodlines among the younger races.

If you are a sorcerer, the armor also gives you resistance to fire 10.

Focus: A gold coin and a piece of mithral in the shape of a dragonscale.

RUNIC MARKER

Conjuration (Creation) [Earth]

Level: Cleric 4

Components: V, S, M

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One stone pillar

Duration: Permanent

Saving Throw: See text

Spell Resistance: No

You create a slender stone pillar 2 feet in diameter and 6 feet tall.

It can be square, cylindrical, hexagonal, natural-looking, or any similar shape.

It must be solid and complete (without hollow spaces or secret compartments).

When you create the *runic marker*, you can also have a message of up to twenty-five words inscribed upon it.

The *runic marker* also bears a *glyph of warding* (blast glyph only).

In addition to the normal trigger conditions available for a *glyph of warding*, you can set it to activate if the pillar ever takes damage from a magical effect.

When the *glyph of warding* effect activates, the *runic marker* is destroyed, leaving nothing behind.

Material Component: One vial of holy water.

SILVER DRAGONMAIL

Conjuration (Creation)

Level: Sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Effect: One suit of magic armor

Duration: 1 hour/level (D); see text

You create a shining silver breastplate around your body.

The armor is etched with a dragonscale pattern, an image of a silver dragon, or Torm's holy symbol (your choice when you cast the spell).

It is treated as +1 *mithral breastplate* for all purposes (including arcane spell failure chance), and you are treated as proficient with this armor.

Removing or destroying the armor dismisses the spell.

This spell has no effect if you are already wearing armor.

Torm the True is served by gold and silver dragons, and some of these dragons are the founders of ancient sorcerer bloodlines among the younger races.

If you are a sorcerer, the armor also gives you resistance to cold 5.

Focus: A silver piece and a piece of mithral in the shape of a dragonscale.

DIVINATION

VISION OF PUNISHMENT

Divination [Mind-Affecting]

Level: Sanctified 1

Components: V, DF, sacrifice

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One evil living creature

Duration: 1 round/3 levels

Saving Throw: Will partial

Spell Resistance: Yes

You give the target a vision of what awaits it in the afterlife. Since most evil creatures go to an evil plane where they take the form of a lowly and much-tortured petitioner (barring special arrangements with evil gods or fiends that grant them higher status in the afterlife), this is usually a gut-wrenching vision.

The target is nauseated; if it makes its saving throw, it is instead sickened (see page 301 of the *Dungeon Master's Guide* for definitions of these conditions).

Sacrifice Component: 1d2 points of Strength damage.

EVOCATION

DAWN SHROUD

Evocation [Light]

Level: Cleric 5, druid 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Willing creature touched

Duration: 10 minutes/level (D)

Saving Throw: Will half; see text

Spell Resistance: Yes

You cause the target to glow with the rosy light of the dawn.

In addition to acting as a *daylight* spell, the light is harmful to oozes and undead.

When the spell is cast, and at the beginning of each of your turns thereafter, such creatures take 1d6 points of damage if within the bright light of the spell (out to 60 feet) or 1 point of damage per round if within the shadowy illumination of the spell (more than 60 feet, out to 120 feet).

If the subject is touched by such a creature using a touch attack, or if it hits the subject with a natural weapon or unarmed strike, it takes 1d6 points of damage + 1 point per caster level (maximum 1d6+15), with a Will saving throw for half damage.

If you cast this spell on yourself, you can suppress or restore this light as a free action once each round.

This spell was created by clerics of the church of Lathander, but they do not try to restrict its use to only those of their faith.

DISK OF SOLAR VENGEANCE

Evocation [Fire]

Level: Initiate of Horus-Re 1

Components: V, S, DF

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level or until discharged (D)

This spell creates a disk of sunlike flames behind your head.

The flames give you resistance to cold 5.

In addition, if any creature strikes you with a natural attack, an unarmed strike, or a melee weapon that is not a reach weapon, it takes 1d6 points of fire damage +1 point per

caster level (maximum +5) after dealing its normal damage to you.

This instantly discharges the spell.

If the attacker has spell resistance, it applies to this effect. Creatures wielding reach weapons, such as longspear, trigger this effect but are not subject to this damage if they attack you.

You can also use the spell to attack as if it were a touch spell (a successful hit discharges the spell).

EILISTRAEE'S MOONFIRE

Evocation [Light]

Level: Initiate of Eilistraee 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level or until discharged; see text

Saving Throw: None

Spell Resistance: Yes

You surround your hand or some other part of your body with light resembling moonlight.

You can change the intensity from a faint glow equivalent to a candle to a clear, bright light equivalent to a torch.

It varies in color as you desire, whether blue-white, soft green, white, or silver.

You can use this moonfire as a melee touch attack that deals 2d6 points of cold damage +1 point per caster level (maximum +5).

Whether or not the attack hits, the spell effect is discharged.

You can cause the moonlight to leave your body and move about as a single light similar to *dancing lights*.

Once it leaves your body, the effect's duration is 1 minute per level, and the effect can no longer be used to attack.

HOLY FIRE SHIELD

Evocation [Cold or Fire; Good]

Level: Sanctified 4

Components: V, S, sacrifice

This spell functions like *fire shield*, except half the damage from the spell is fire (or cold) and the remainder is divine energy, similar to a *flame strike* spell.

If you create a warm shield, the flames are a beautiful golden-red.

If you create a chill shield, the flames are a soothing blue-white.

Sacrifice Component: 1d3 points of Strength damage.

LOVE BITE

Evocation [Force]

Level: Initiate of the Holy Realm 1

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous; see text

Saving Throw: None

Spell Resistance: Yes

This spell originated in Sune's faith.

You determine at the time of casting what effect it takes.

Fleeting Kiss: The target feels the sensation of a brief, tender kiss on a visible part of her body or on her mouth if her body is completely covered.

This effect is often used as a signal.

Love Bite: The target takes 1 point of damage.

In either case, if you are holding the charge on a touch spell of 2nd level or lower when you cast *love bite*, this spell also delivers the touch spell to the target as if you had touched it directly (normal saving throws and spell resistance for the touch spell applies, if applicable).

You must make a melee touch attack as normal with a +2 bonus.

This form of the spell always attacks from your direction and cannot flank targets as a creature can.

Using this spell to deliver a held charge is an exception to the normal rule that casting another spell while holding a charge dissipates the held spell.

STARS OF ARVANDOR

Evocation [Force, Good]

Level: Cleric 4, druid 4, ranger 4, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: See text

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

You create one twinkling star per level (maximum ten stars).

These minute starbursts orbit your head like *ioun stones*. As a swift action, you can launch one star at a target you designate within range.

Alternatively, as a standard action, you can launch up to three stars at one or more targets within range.

You can only launch stars once per round.

You must make a ranged touch attack for each star.

Against non-evil targets, each star deals 1d8 points of nonlethal damage; evil targets take 1d8 points of lethal damage instead.

STARS OF MYSTRA

Evocation [Force, Good]

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: See text

Duration: 1 minute/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You create one twinkling star per three levels (maximum five stars).

These minute starbursts orbit your head like *ioun stones*. Beginning on the turn you cast the spell, you can launch one star as a swift action at a target you designate within range.

You must make a ranged touch attack for each star.

Each time an evil creature is hit by a star, it must make a saving throw or lose a prepared spell or spell slot as if the creature had used it to cast a spell.

The level of the lost spell is 4th (or the highest spell level lower than 4th in which the caster has at least one remaining prepared spell or spell slot).

If the target prepares spells, determine the specific lost spell randomly.

If the creature has spellcasting ability from more than one class (such as a 4th-level cleric/4th-level ranger), determine the affected spellcasting class randomly.

The stars have no effect on nonspellcasters.

STARS OF SELÛNE

Evocation [Cold, Force]

Level: Cleric 4

Saving Throw: None

This spell functions like *stars of Mystra*, except as noted above and as follows.

Each star deals 1d8 points of force damage and 1d8 points of cold damage to the target.

STORMVOICE

Evocation [Sonic]

Level: Initiate of Horus-Re 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D) or until discharged

Your voice is amplified greatly.

Subtract 10 from the DC of Listen checks made to hear you talking (even whispering).

You also gain a +2 competence bonus on Intimidate checks. While this spell is active, you can use a swift action to create a 15-foot-long cone-shaped burst of intense sound with a shout.

Every creature in the area takes 1d8 points of sonic damage and must succeed on a Fortitude save to avoid being stunned for 1 round.

Doing this discharges the spell.

Creatures that cannot hear are not stunned but are still damaged.

THUNDERSTROKE

Evocation [Electricity]

Level: Initiate of Anhur 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature or object

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You call down a bolt of electricity, which unerringly strikes the target and deals 1d6 points of electricity damage per caster level (maximum 5d6).

A small rumble of thunder accompanies the bolt, which is as loud as a battle (Listen DC -10 to hear it).

ILLUSION

BENIGN PROJECTION

Illusion (Shadow)

Level: Sanctified 6

Components: V, S, DF, sacrifice

Range: See text

This spell functions like *project image*, except as noted above and as follows.

You can create an image of your entire body or just your face, and you can cause it to shed light as a candle at will. It can only mimic your actions and speech (you cannot direct it to perform other actions).

The image can cast spells only from the schools of abjuration, divination, and conjuration (healing).

Sacrifice Component: 1d2 points of Strength damage.

INVISIBILITY, SWIFT

Illusion (Glamer)

Level: Assassin 2, bard 2, initiate of Baravar Cloakshadow 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions like *invisibility* except as noted above.

TRANSMUTATION

CONVERT WAND

Transmutation

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Wand touched

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

This spell temporarily transforms a magic wand of any type into a healing wand with the same number of charges remaining.

At the end of the spell's duration, the wand's original properties are restored, and any charges that were drained remain so.

The spell level of the wand determines how powerful a healing instrument the wand becomes:

Spell Level	New Wand Type
1st	<i>Wand of cure light wounds</i>
2nd	<i>Wand of cure moderate wounds</i>
3rd	<i>Wand of cure serious wounds</i>
4th	<i>Wand of cure critical wounds</i>

For example, a 10th-level cleric can transform a *wand of lightning bolt* (3rd-level spell) into a *wand of cure serious wounds* for 10 minutes.

FAITH HEALING WAND

Transmutation

Level: Cleric 3

This spell functions like *convert wand* (see page 53), except you always transform the wand into a *wand of faith healing*, no matter what spell the wand normally contains.

FLEETING FORTUNE

Transmutation

Level: Initiate of Tymora 1

Components: V, S, DF

Casting Time: 1 immediate action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round or until discharged

Saving Throw: Yes (harmless)

Spell Resistance: Yes (harmless)

You imbue the subject with a bit of Tymora's luck, granting her a +5 luck bonus on a single skill check of her choice.

Activating the luck bonus requires no action but must be declared before the skill check is rolled.

HORRIBLE TASTE

Transmutation

Level: Druid 1, initiate of the Holy Realm 1, ranger 1

Components: V, S

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: 1 turn/level

Drawing upon the talents of some creatures of the insect world, you change your flesh to make it unpalatable to other creatures.

Any creature that hits you with a bite attack becomes nauseated until the end of your next turn unless it succeeds on a Fortitude save.

Creatures immune to poison are unaffected by this spell.

PORTAL WELL

Transmutation

Level: Bard 2, cleric 2, druid 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Active *portal* touched

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

When you step into a *portal* affected by this spell, you can wait for a short time within an extradimensional space between the *portal's* entrance and exit.

This spell only works on a *portal* you are able to activate; for example, if you are an elf and the target *portal* doesn't work for elves, you can't use this spell on the *portal*.

The extradimensional space created by this spell is similar to that created by a *rope trick* spell but can only hold you and your gear (up to your maximum heavy load).

When the spell ends, you exit the *portal* at either your point of entry or the *portal's* destination.

While within this extradimensional space, you can see the origin and destination locations, though the images are blurry (much like viewing the Material Plane from the Ethereal Plane).

Dispel magic or *gate seal* traps you within the extradimensional space for as long as the *portal* is negated or sealed (as would surrounding both ends with a dead magic area).

Mordenkainen's disjunction or some other effect that destroys a *portal* outright forcibly ejects you from one random end of the *portal* and deals 5d6 points of damage to you.

This spell originated in Shaundakul's church and is hard to find elsewhere.

Arcane Material Component: A silver wire tied in a knot.

SPELLSONG

Transmutation

Level: Initiate of Eilistraee 6

Components: V, S, DF

Casting Time: 1 round

Range: Personal

Target: You

Duration: Instantaneous

When you cast this spell, you immediately prepare one spell of 4th level or lower in this spell's slot.

The spell must be a spell you could normally prepare in that slot (for example, you could not prepare a wizard spell or a domain spell).

The spell works like any spell prepared in the normal manner, including requiring the normal components. Like a bard spell, casting *spellsong* always requires a verbal component, and you cannot use Silent Spell or similar effects to cast the spell without a verbal component.

SPELLSONG, LESSER

Transmutation

Level: Initiate of Eilistraee 3

This spell functions like *spellsong*, except you can use it only to prepare one spell of 1st level or lower in this spell's slot.

SPIDERBIND

Transmutation

Level: Cleric 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One spider or spiderlike creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

An affected creature moves and attacks at a drastically reduced rate, as the *slow* spell.

It can only take a single move action or standard action each turn, but not both (nor can it take fullround actions). Additionally, it takes a -1 penalty on attack rolls, AC, and Reflex saves.

A *slowed* creature moves at half its normal speed (round down to the next 5-foot increment), which affects the creature's jumping distance as normal for decreased speed.

In addition, any attack by the creature that would normally include poison (such as a spider's bite) does not do so, but all other effects associated with that attack apply.

For example, if an aranea subject to *spiderbind* cast a touch spell and then bit a creature, the attack would deal normal bite damage and trigger the touch spell, but the bite would not inject poison.

While you have this spell prepared, you get a +2 circumstance bonus on saving throws against poison.

Clerics of Eilistraee created this spell to help battle the many spiderlike creatures that serve Lolth.

Araneas, bebiliths, chitines, choldriths, driders, ettercaps, myrlochans, phase spiders, retrievers, and yochlols are sufficiently spiderlike to be affected by this spell.

For a more complete list of creatures that qualify as spiderkind, see page 30 of *Underdark*.

CITY OF SPLENDORS WATERDEEP (3.5)

ABJURATION

HALASTER'S TELEPORT CAGE

Abjuration

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 10 minutes

Range: Close (25 feet + 5 ft./2 levels)

Area: One 10-ft. cube per level

Duration: Permanent

Saving Throw: None

Spell Resistance: No

This spell modifies the functioning of all conjuration (teleportation) spells and spell-like abilities, including *dimension door*, *greater teleport*, *refuge*, *teleport*, *teleportation circle*, and *word of recall*, into, out of, and within its area.

If cast in an area adjoining or overlapping another *teleport cage*, the effects of both spells merge to create a single *teleport cage*.

Undermountain, the greatest dungeon of Faerûn, is believed to have been enclosed within the largest *teleport cage* in existence in the Realms by means of this effect.

When cast within a *teleport cage*, such translocation spells simply transport all affected creatures and objects to another random location within the *teleport cage*.

For example, if a wizard casts *teleport* within the confines of Undermountain, the encompassing *teleport cage* would cause him to appear at another random location within the great dungeon.

When a caster outside the area encompassed by a *teleport cage* attempts to teleport into it, this spell redirects their destination to another random location reachable by the spell.

For example, if a 9th-level wizard in Waterdeep attempted to *teleport* into the depths of Undermountain, the *teleport cage* would cause him to appear at another random location within 900 miles of the place where he cast the spell.

Material Component: Diamond dust worth 1,000 gp.

KHELLEN'S DWEOMERDOOM

Abjuration

Level: Sorcerer/wizard 9

Components: V, S, F

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: 1 creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You counterspell an opponent's spell or spell-like ability before it is even cast and without knowing what spell you are countering.

If the target prepares spells, you counterspell the highest level spell currently prepared, eliminating it from the target's list of prepared spells for that day.

If the target casts spells spontaneously (and does not prepare spells), you effectively reduce by one the number of spells per day of the highest level spell slot available.

If the target has spell-like abilities (and does not prepare spells or cast spells spontaneously), it loses one use of the highest-level spell-like ability available.

Otherwise, this spell has no effect.

You must make a successful dispel check (as the spell *dispel magic*, but the maximum caster level on your dispel check is +25 instead of +10) to successfully counter or remove your opponent's prepared spell, spell slot, or use of a spell-like ability.

Focus: A crystal lens worth at least 1,000 gp.

CONJURATION

HALASTER'S FETCH I

Conjuration (Calling)

Level: Sorcerer/wizard

4 As *summon monster* I, except called creatures do not disappear at the end of the spell's duration.

They do, however, become free-willed and outside the control of the caller after the spell expires.

HALASTER'S FETCH II

Conjuration (Calling)

Level: Sorcerer/wizard 5

As *summon monster* II, except called creatures do not disappear at the end of the spell's duration.

However, they become free-willed and outside the control of the caller after the spell expires.

HALASTER'S FETCH III

Conjuration (Calling)

Level: Sorcerer/wizard 6

As *summon monster* III, except called creatures do not disappear at the end of the spell's duration.

However, they become free-willed and outside the control of the caller after the spell expires.

HALASTER'S FETCH IV

Conjuration (Calling)

Level: Sorcerer/wizard 7

As *summon monster* IV, except called creatures do not disappear at the end of the spell's duration.

However, they become free-willed and outside the control of the caller after the spell expires.

HALASTER'S FETCH V

Conjuration (Calling)

Level: Sorcerer/wizard 8

As *summon monster* V, except called creatures do not disappear at the end of the spell's duration.

However, they become free-willed and outside the control of the caller after the spell expires.

HALASTER'S FETCH VI

Conjuration (Calling)

Level: Sorcerer/wizard 9

As *summon monster* VI, except called creatures do not disappear at the end of the spell's duration.

However, they become free-willed and outside the control of the caller after the spell expires.

HALASTER'S IMAGE SWAP

Conjuration (Teleportation)

Level: Bard 4, sorcerer/wizard 4

Components: V

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: You and touched objects weighing up to 50 lb./level

Duration: Instantaneous

Saving Throw: None and Will negates (object)

Spell Resistance: No and Yes (object)

You instantly swap locations with a *projected image*.

You always arrive exactly where your image previously stood, and you leave a *projected image* in your wake.

To anyone incapable of discerning that the *projected image* is an illusion, the *image swap* occurs without visible clue.

To anyone capable of discerning that the *projected image* is an illusion, the *image swap* is effectively identical to a *dimension door*.

This spell has no effect if you do not have a *projected image* in effect.

Unlike normal *teleport* spells, use of *Halaster's image swap* does not count as breaking one's line of sight with a *projected image*.

Material Component: A small replica of you (a doll).

TROBRIAND'S BALEFUL TELEPORT

Conjuration (Teleportation)

Level: Sorcerer/wizard 6

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Saving Throw: Will negates

Spell Resistance: Yes

As *teleport*, except that you send the targeted creature (and only that creature) and carried objects to a designated destination.

You must have some clear idea of the location and layout of the destination.

The clearer your mental image, the more likely the teleportation works. Areas of strong physical or magical energy might make teleportation more hazardous or even impossible. If the destination is “very familiar”, the target gets no saving throw bonus. If the destination is “studied carefully”, the target gets a +2 saving throw bonus. Likewise, if the destination is “seen casually”, “viewed once”, or “false destination”, the target gets a +4, +6, or +8 bonus, respectively.

EVOCATION

BINDING CHAIN OF FATE

Evocation

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Whirling chain of force

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You create a chain of force that whirls into a loop around a single creature of your choice, making a metallic rattling sound as it does so.

The chain creates an oscillating ring surrounding the target at a distance of 5 feet (so all squares adjacent to the target creature are within the chain).

If the creature succeeds on its saving throw, the chain fails to encircle it and dissipates harmlessly.

Otherwise, the chain surrounds the target, with the following effects: The target creature cannot leave the area defined by the chain.

Other creatures can enter or leave the area (although they must succeed on a DC 15 Escape Artist check or a DC 15 Tumble check to slip past the chain).

If the target was in midair (flying, levitating, and so on) when the chain took effect, the chain suspends the target in midair safely as if it had a solid floor on which to stand.

The chain prevents the target from changing form, including lycanthropic form changes, vampiric transformations, or *polymorph* or similar effects.

The chain acts as a *dimensional anchor* upon the target.

The chain deals 2d6 points of force damage per round to the target.

No magic functions within the chain, as if the chain defined the area of an *antimagic field*.

This means that the target cannot use any magic, and no magic from outside the chain affects the creature.

The chain cannot be dispelled, but it is automatically destroyed by *disintegrate*, *Mordenkainen's disjunction*, or a *rod of cancellation*.

Material Component: A tiny silver chain.

HALASTER'S BLACKSPHERE

Evocation [Force]

Level: Sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft.-radius burst and globe

Duration: 2d4 rounds + 1 round/level

Saving Throw: Reflex half; see text

Spell Resistance: Yes

This spell creates a burst of black force.

The force burst causes 1d6 points of force damage per caster level (maximum 20d6) and envelops the affected area in a sphere of force with a radius of 10 feet, trapping creatures within.

A successful Reflex save reduces the damage by half and negates the entrapment effect.

Creatures trapped inside cannot escape except by those methods that can bypass or destroy a *wall of force*.

This spell can be used in lieu of *wall of force* as part of creating a *bead of force*.

Material Components: A small piece of charcoal and a small piece of onyx.

HALASTER'S SHAKING HAND

Evocation

Level: Sorcerer/wizard 6

As *Bigby's interposing hand*, except the hand can also grapple the magic hand created by the following spells: *Bigby's clenched fist*, *Bigby's crushing hand*, *Bigby's forceful hand*, and *Bigby's grasping hand*.

The shaking hand gets one grapple attack per round.

Its grapple bonus against another magic hand is your level + your Intelligence or Charisma modifier (for wizards or sorcerers, respectively), +9 for the hand's Strength score (29), +4 for being Large.

Once grappled, a magic hand can only escape the shaking hand by making an opposed grapple check, unless the duration of the grappled hand exceeds the duration of the *shaking hand*.

In cases where no Strength score is given, assume the magic hand has a Strength score of 17 + twice the level of the spell.

Once a grapple is broken, nothing prevents your *shaking hand* from attempting another grapple attack.

For example, a wizard uses *Halaster's shaking hand* to grapple a sorcerer's *Bigby's forceful hand*, rolls a 10 on a d20, adds +4 for his own Intelligence score (18), adds +9 for the hand's Strength score (29), and adds +4 for the hand's size (Large), for a total of 27.

The sorcerer seeks to break the handshake; he rolls a 14 on a d20, adds +4 for his own Charisma score (18), adds +8 for the hand's Strength score (27), and adds +4 for the hand's size (Large) for a total of 30.

The “handshake” (grapple) lasts for at least 1 more round.

If, however, the sorcerer had rolled a 15 or higher, the handshake would have been broken, at least until the *shaking hand* successfully grappled the *forceful hand* again.

JUMPGOUT

Evocation [Fire]

Level: Sorcerer/wizard 5

Components: V

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Duration: 2 rounds

Area: 5-ft.-radius pillar of flame, up to 30 ft. tall

Saving Throw: Reflex half; see text

Spell Resistance: Yes

You create a vertical pillar of roaring flame.

Creatures caught in the fire take 1d6 points of fire damage per caster level, up to a maximum of 15d6.

On your next turn (the second round of the spell) the pillar vanishes and reappears up to 60 feet away from its original location.

If you maintain concentration on the spell on its second round (a standard action), you can choose the spot where the pillar reappears.

Otherwise, the pillar moves 1d6×10 feet in a random direction.

Creatures caught in the pillar on the second round take 1d6 points of fire damage per 2 caster levels (Reflex half).

The pillar then dies away in a swirl of sparks.

LAERAL'S SILVER LANCE

Evocation [Force]

Level: Sorcerer/wizard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

This spell brings into being a shimmering, silver lancelike column of force, equivalent to a Large lance.

The lance flies toward a single creature you pantomime throwing it at when you cast the spell.

Its attack bonus is equal to your caster level + your Intelligence bonus or your Charisma bonus (for wizards or sorcerers, respectively) with an additional +3 enhancement bonus and a +2 bonus for charging.

It deals 4d6+3 points of force damage, with a threat range of 20 and a critical multiplier of ×3.

In addition, the creature struck must succeed on a Fortitude save or be knocked prone by the impact.

Focus: A miniature platinum lance engraved with arcane runes that costs 250 gp to construct.

PALARANDUSK'S FIRE BREATH

Evocation [Fire]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Area: 10-ft. cone

Duration: One hour or until discharged

Saving Throw: Reflex half

Spell Resistance: Yes

This spell allows you to spit a gout of flame in a 10-foot cone, dealing 1d6 points of fire damage per caster level (maximum 5d6).

Palarandusk's fire breath is considered a breath weapon.

If you expend the spell on the round you cast it, you only use one standard action to cast and breathe.

If you save the spell for later, you must use a standard action to breathe fire.

If unused, the gout of flame dissipates after 1 hour.

One nasty side effect of this spell is terrible heartburn.

STEELSTING

Evocation [Force]

Level: Sorcerer/wizard 4

Components: V

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 5-ft.-radius cylinder, 25 ft. tall

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You create a brief maelstrom of flying darts of force that spin, slice, and rebound within the area.

Each creature within the area is targeted by 1d3+1 melee attacks from these darts (check for each creature separately).

The darts strike with an attack bonus equal to your caster level + your Intelligence or Charisma bonus (for wizards or sorcerers, respectively), dealing 2d6 points of damage per hit.

The name is a misnomer, for the spell creates neither steel nor a true sting.

NECROMANCY

ENSUL'S SOULTHEFT

Necromancy [Evil]

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 full round

Range: Touch

Target: Living, corporeal creature touched

Duration: 1 round/level (D); see text

Saving Throw: Will negates

Spell Resistance: Yes

Crackling black radiance surrounds your left hand.

While the spell lasts, you can make touch attacks to steal the lifeforce of another creature in a manner that heals and renews you, diluting diseases and poisons, and prolonging your life span.

With a successful melee touch attack, you drain 1d4 points of Intelligence from the victim touched.

This is permanent ability drain.

For every point of Intelligence drained, you heal 5 points of damage.

Healing in excess of your normal maximum is retained as temporary hit points that fade after 1 hour.

In addition, you receive an immediate Fortitude save against any diseases or poisons currently ravaging your body when you drain a foe's Intelligence, as long as the disease or poison in question allowed a Fortitude save in the first place.

The DC for this saving throw is the same as the DC of the original effect that poisoned or infected you, and there is no penalty if you fail this new saving throw.

If a victim is reduced to 0 Intelligence as a result of this spell, it dies.

A victim slain in this manner is forever dead and cannot be brought back by *raise dead*, *resurrection*, or similar magic unless used in conjunction with a *miracle* or *wish*.

When you slay a victim in this manner, you do not age for a number of days equal to the number of points of Intelligence drained.

If the victim was a spellcaster, the gain in lifespan is increased by the sum of the spell levels prepared by or available to the victim at the time of death.

If the victim was a psion, the gain in lifespan is increased by a number of days equal to the victim's power point reserve. *Ensul's soultheft* lasts for 1 round per level, during which time you can attempt touch attacks as often as once per round.

Some users of this spell arrange for the victim to be restrained or otherwise helpless, so that they can be easily drained for multiple rounds.

Material Component: A drop of blood taken from a vampire.

LAERAL'S CROWNING TOUCH

Necromancy

Level: Cleric 9, sorcerer/wizard 9

Components: V, S, F, XP

Casting Time: 1 standard action

Range: Touch

Target: One spellcaster

Duration: 1 year and 1 day

Saving Throw: Will negates; see text

Spell Resistance: Yes

You place a curse on the subject.

Mystra's symbol appears drawn in silver on each palm (or on the chest and forehead of beings lacking palms) as a glowing brand equal that sheds light as a candle.

A creature that can cast arcane spells, such as a sorcerer or wizard, takes a -4 penalty on its saving throw.

Any time the target casts a spell, he gains a number of negative levels equal to the level of the spell being cast. (The spell he just cast functions normally at the caster level he possessed before he received the negative levels for casting that spell).

This effect is cumulative and lasts as long as the *crowning touch* lasts.

There is no saving throw to avoid gaining the negative levels, but 24 hours after gaining each negative level, the subject must make a Fortitude saving throw (DC = *crowning touch's* spell save) for each negative level.

If the save succeeds, that negative level is removed.

With each spell use, streaks of silver appear in the hair of the target, until the transgressor's hair is all silver (which happens when the character's level reaches 1st).

The curse bestowed by this spell cannot be dispelled, but it can be removed with a *wish* spell or a successful *break enchantment* spell (caster level check DC 15 + caster level of the *crowning touch*).

After the curse is lifted, all the effects (except permanent level loss) go away.

This spell was developed for use only against beings who misuse the sort of magic Mystra has dominion over.

The Lady of Mysteries does not look kindly on mages who hurl deadly magic at every spellcaster who insults them.

Mystra has been known to shorten the effects on the truly repentant and the undeserving, if they pray to her for forgiveness and obtain an *atonement* spell.

Focus: A prism worth at least 1,000 gp.

XP Cost: 1,000 XP (reduced to 500 XP if cast by a character with Mystra's special blessing, such as one of the Chosen of Mystra or the Magister).

TRANSMUTATION

HALASTER'S LIGHT STEP

Transmutation

Level: Bard 2, sorcerer/wizard 2

As *fly*, except *Halaster's light step* provides a maximum speed of 30 feet (20 feet if the subject wears medium or heavy armor).

Additionally, the subject cannot ascend or descend vertically unless hovering 1 foot or less above terrain that ascends or descends at an angle of less than 45 degrees. The practical impact of this spell is to allow the recipient to walk along reasonably level terrain without leaving tracks and to stride across chasms at will.

It also adds a +15 circumstance bonus on Climb checks, a +10 circumstance bonus on Move Silently checks (which does not stack with the bonus provided by *boots of elvenkind*), and negates any chance of falling.

When this spell is used in combination with *levitate*, the combined effect is equivalent to a slow-speed *fly* spell.

It provides no additional benefit if used in combination with *fly*.

JHANIFER'S DELIQUESCENCE

Transmutation [Cold, Water]

Level: Sorcerer/wizard 4

Components: V, S

As *transmute rock to mud*, except it transforms ice to cold water (about 40° F).

The water remains until a successful *dispel magic* spell or spell with the cold descriptor restores its substance—but not necessarily its form.

The water will freeze again naturally depending on local weather conditions and the depth of the water, normally over the course of several hours or days.

This spell was created by Syluné in her guise as Jhanifer.

TROBRIAND'S CRYSTALBRITTLE

Transmutation

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One nonmagical object up to 1 cu. ft. per level

Duration: Permanent

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell reduces the hardness and hit points of the targeted object to that of glass (hardness 1 and 1 hit point/inch of thickness).

If the object already has a lower hardness score, the spell has no effect.

(As always, if the object is attended, its owner receives a saving throw; unattended nonmagical objects do not receive saving throws).

Material Component: A glass needle worth 100 gp.

TROBRIAND'S GLASSEE

Transmutation

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One nonmagical stone or metal object up to 1 cu. ft. per level

Duration: Permanent

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell gives the target object the transparency of glass.

Material Component: Glass sliver.

CITYSCAPE (3.5)

CONJURATION

LEOMUND'S SPACIOUS CARRIAGE

Conjuration (Creation)

Level: Bard 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: A full-sized carriage and phantom horses

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: No

With a faint shimmering and a rushing breeze, an ornate carriage appears on the street, pulled by four snorting, faintly translucent horses.

You conjure up a carriage capable of seating four passengers comfortably or six in cramped conditions, as well as the horses needed to pull it.

These "horses" are similar to those created by the *phantom steed* spell, though they do not gain any of the special, level-based abilities conferred by that spell.

They respond to your thoughts alone, and they can pull the carriage at a speed of up to 50 feet.

The carriage resists flames as if it were stone.

It is impervious to normal missiles (but not the sort cast by siege engines or giants).

The interior contains lush, cushioned seats.

The side windows can be opened to allow for missile fire or spellcasting.

If the windows are open, everyone inside is considered to have cover.

but they are not impervious to missiles as they would otherwise be.

Material Component: A few splinters of gold-painted oak, several strands of horse hair, and a strip of leather.

SUMMON PEST SWARM

Conjuration (Summoning)

Level: Cleric 4, druid 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Effect: One pest swarm

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

With a cacophony of shrieks and squeals, a horde of flying, running, and crawling pests appears from the shadows and swarms across your foes.

Summon pest swarm creates a horde of small mammals, birds, and vermin that appear throughout the target area, tear into any creature present, then move in a crawling mass at your volition.

The pest swarm (see page 136) stays in one place unless you actively direct it (a move action for you).

If the pest swarm moves beyond the spell's range, it disappears.

It takes actions at the beginning of your turn.

The pest swarm attacks any creature other than you that occupies all or part of its space.

Arcane Material Component: A handful of teeth, claws, and mandibles from urban pests (such as crows, rats, cats, and cockroaches).

DIVINATION

DETECT WEAPONRY

Divination

Level: Bard 1, cleric 1, Ebonmar infiltrator* 1, hexblade 1, paladin 1, sorcerer/wizard 1 * See page 79.

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone-shaped emanation

Duration: Concentration, up to 10 min./level (D)

Saving Throw: None

Spell Resistance: No

With your final utterance, tiny bits of the world around you begin to glow.

The points of light grow in brightness and size, finally taking the general dimensions of swords, axes, and other implements of death.

You can detect the presence of weapons in a cone emanating out from you in whatever direction you face.

A "weapon" is generally defined as any manufactured weapon.

The spell detects improvised weapons such as bottles or pitchforks only if the wielder actively intends to use such an item as a weapon.

The amount of information revealed by this spell depends on how long you search a particular area.

1st Round: Presence or absence of weapons.

2nd Round: Number of weapons in the area.

3rd Round: Specific locations of the weapons and the type of damage they deal (bludgeoning, piercing, or slashing).

This spell does not reveal if weapons are magical, or anything else about them.

Weapons hidden by *secret weapon*, or borne by individuals who are under the effect of a *nondetection* spell, do not register.

Each round, you can turn to detect weapons in a new area.

The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

ILLUSION

SECRET WEAPON

Illusion (Glamer)

Level: Assassin 1, bard 1, blackguard 1, Ebonmar infiltrator* 1, sorcerer/wizard 1 * See page 79.

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 10 min./level (D)

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

At your touch, the weapon seems to disappear from view.

You enable someone to hide a weapon on his person.

The weapon does not become truly invisible so much as easily overlooked.

Secret weapon adds +20 to the Sleight of Hand check to conceal a light weapon, and +10 to the check to conceal a larger weapon (even one normally too large to conceal).

A “weapon” is defined as any manufactured weapon.

With the aid of this spell, you can attempt to hide a weapon even if you do not possess the Sleight of Hand skill.

Additionally, you can hide the presence of a weapon from detection spells, although *true seeing* penetrates the glamer.

Material Component: A thin black cloth.

TRANSMUTATION

FALSE PEACEBOND

Transmutation

Level: Assassin 1, blackguard 1, sorcerer/wizard 2

The weapon glows with a faint aura.

For just a moment, your companion shimmers to match, before the light fades.

This spell functions as *peacebond* (see the facing page), except that you can choose a single individual who can draw the weapon freely.

This individual might be yourself, or anyone else present at the time of casting.

Once this individual draws the weapon, the *false peacebond* effect ends; resheathing the weapon does not reactivate the spell.

IMPEDING STONES

Transmutation

Level: Druid 1, ranger 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft.+ 10 ft./level)

Area: Brick, stone, or earthen surface in a 40-ft.-radius spread

Duration: 1 min./level (D)

Saving Throw: Reflex partial; see text

Spell Resistance: No

At your command, the cobblestones of the street shudder and crack, sending your foes staggering about.

Stones, bricks, hard dirt, or any similar surface cracks and shifts in its foundations, rendering footing treacherous and potentially tripping anyone in the area.

Any creature who fails its Reflex save is knocked prone. Those who remain standing can move at only half normal speed.

Each round on your turn, standing creatures must make either a new Reflex save or a Balance check (their choice) to remain upright.

Because the stones continuously shift, any attempt at spellcasting requires a Concentration check (DC 15 + spell level), and any attacks made from within the area take a –2 penalty; this does not stack with the penalty for attacking while prone if the attacker failed his save.

PEACEBOND

Transmutation

Level: Cleric 1, paladin 1, hexblade 1, sorcerer/wizard 1

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One weapon

Duration: 10 min./level (D)

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

The weapon glows faintly, and seems to settle more firmly into its sheathe.

The weapon targeted by this spell remains stuck in its sheath, holder, quiver, or whatever object is used to hold it when not in use.

A “weapon” is defined as any manufactured weapon.

No amount of physical effort can draw it forth before the spell expires or is dispelled.

The precise nature of the holder doesn’t matter; it can be an ornate sheath, or simply a belt through which the weapon has been stuck.

The weapon glows faintly for the duration of the spell.

This spell has no effect on weapons currently held in the hand or otherwise not contained in some sort of holder.

If the bearer of the targeted weapon is attacked, he is immediately entitled to a second save to overcome the effect and draw the weapon.

The bearer can repeat this save in every round that the assault continues.

Material Component: A small strip of cloth or a leather thong.

ZONE OF PEACE

Transmutation

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, F

Casting Time: 1 minute

Area: 10-ft./level emanation

The entire chamber glows with a faint, comforting light.

This spell works as *peacebond*, except that every individual in the area must successfully save, or have all their weapons remain trapped in their sheaths for the duration, or until they leave the area.

You cannot designate any exceptions, including yourself. If subjects are attacked, they are immediately entitled to a second save to overcome the effect.

They can repeat this save in every round that the assault continues.

COMPLETE ADVENTURER

(3.5)

ABJURATION

DAGGERSPELL STANCE

Abjuration

Level: Druid 2, sorcerer/wizard 2

Components: V, F

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

This spell, favored by the Daggerness Guardians (see page 167), improves your ability to defend yourself when wielding a pair of daggers.

The spell, like many of the daggerness techniques, depends on the use of daggers to bring down a foe.

The spell's effect cannot be realized unless you are wielding two daggers, but the spell does not end if you drop, throw, or otherwise lose a hold on one or both of your daggers.

While this spell is in effect, if you make a full attack while holding a dagger in each hand, you gain a +2 insight bonus on attack rolls and damage rolls made with daggers in that round.

The magical energy that permeates your daggers while this spell is active allows you to deflect the magical energy of many spells.

When wielding two daggers and fighting defensively, you gain spell resistance equal to 5 + your caster level.

The spell focuses your concentration so that when you devote all of your attention to defense, you can turn the force of most blows away from your body with your daggers.

When wielding two daggers and using the total defense action, you gain both the spell resistance benefit described above and damage reduction 5/magic.

Focus: A pair of daggers.

EASY TRAIL

Abjuration

Level: Druid 2, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: 40 ft.

Area: 40-ft. radius emanation

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: Yes

You radiate an energy that gently pushes plants aside, allowing easy passage and hiding your trail after you pass. Anyone in the area of the spell (including you) finds the undergrowth held aside while she passes.

This effect essentially provides a trail through any kind of undergrowth, reducing any movement penalties from terrain caused by dense vegetation (see Table 9-5: Terrain and Overland Movement, page 164 of the *Player's Handbook*).

Once the effect of the spell passes, the plants return to their normal shape.

The DC to track anyone who traveled within the area of this spell increases by 5 (the equivalent of hiding the trail). This spell has no effect on plant creatures (that is, they aren't pushed or held aside by its effect).

JOYFUL NOISE

Abjuration

Level: Bard 1

Components: S

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: Concentration; see text

Saving Throw: None

Spell Resistance: No

You create sonic vibrations that negate any magical *silence* effect in the area.

This zone of negation moves with you and lasts as long as you continue to concentrate.

The *silence* is not dispelled but simply held in abeyance; it remains in effect outside the area of the *joyful noise* effect.

Thus, this spell is usually used to move a group out of range of a *silence* effect.

CONJURATION

HEALTHFUL REST

Conjuration (Healing)

Level: Bard 1, druid 1

Components: V, S

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 feet apart

Duration: 24 hours

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Healthful rest doubles the subjects' natural healing rate.

Each affected creature regains twice the hit points it otherwise would have regained during that day, depending on its activity level (see page 76 of the *Player's Handbook*).

DIVINATION

ARROW MIND

Divination

Level: Ranger 1, sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You sharpen your senses and focus your mind on the use of a bow.

While this spell is in effect and you are wielding a longbow, shortbow, greatbow*, composite greatbow*, composite shortbow, or composite longbow, you threaten all squares

within your normal melee reach (5 feet if Small or Medium, 10 feet if Large) with your bow, allowing you to make attacks of opportunity with arrows shot from the bow. In addition, you do not provoke attacks of opportunity when you shoot a bow while you are in another creature's threatened square.

Material Component: A flint arrowhead.

* See *Complete Warrior*.

BALANCING LORECALL

Divination

Level: Druid 2, ranger 2, sorcerer/wizard 2

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You intuit the precise spot and stance necessary to stand on areas of even the most unstable footing.

You gain a +4 insight bonus on Balance checks.

If you have sufficient ranks in the Balance skill, you can even balance on an otherwise impossible surface with a DC 20 Balance check.

If you have 5 or more ranks in Balance, you can balance on vertical surfaces; the normal modifier for a sloped or angled surface no longer applies to you, though other DC modifiers (such as for a slippery surface) do apply.

If you balance on a vertical surface, you can move up or down as if you were climbing.

However, you are not actually climbing, so you can make attacks normally, retain your Dexterity bonus to Armor Class, and generally follow the rules of the Balance skill rather than the Climb skill.

If you have 10 or more ranks in Balance, you can balance on liquids, semisolid surfaces such as mud or snow, or similar surfaces that normally couldn't support your weight.

For each consecutive round that you begin balanced on a particular surface of this sort, the DC of your Balance check increases by 5.

As with all uses of the Balance skill, you move at half speed unless you decide to use the accelerated movement option (thereby increasing the DC of the Balance check by 5).

For more information on the Balance skill, see page 67 of the *Player's Handbook*.

Arcane Material Component: A thin, three-inch-long wooden dowel.

BLOODHOUND

Divination

Level: Ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 24 hours (D)

If you fail a Survival check to track a creature while this spell functions, you can immediately attempt another roll against the same DC to reestablish the trail.

If the reroll fails, you must search for the trail for 30 minutes (if outdoors) or 5 minutes (if indoors) before trying again.

CRITICAL STRIKE

Divination

Level: Assassin 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

While this spell is in effect, your melee attacks are more likely to strike a foe's vital areas.

Whenever you make a melee attack against a flanked foe or against a foe denied its Dexterity bonus, you deal an extra 1d6 points of damage, your weapon's threat range is doubled (as if under the effect of *keen edge*), and you gain a +4 insight bonus on rolls made to confirm critical hits.

The increased threat range granted by this spell doesn't stack with any other effect that increases your weapon's threat range.

Creatures immune to sneak attacks are immune to the extra damage dealt by your attacks.

DIVINE INSIGHT

Divination

Level: Cleric 2, paladin 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level or until discharged (D)

When you cast this spell, you invoke the power of your deity to guide your actions.

Once during the spell's duration, you can choose to use its effect.

This spell grants you an insight bonus equal to 5 + your caster level (maximum bonus of +15) on any single skill check.

Activating the effect requires an immediate action.

You must choose to use *divine insight* before you make the check you want to modify.

Once used, the spell ends.

You can't have more than one *divine insight* effect active on you at the same time.

GOLEM STRIKE

Divination

Level: Sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

While this spell is in effect, you have a special connection to the arcane forces that animate constructs.

For 1 round, you can deliver sneak attacks against constructs as if they were not immune to sneak attacks.

To attack a construct in this manner, you must still meet the other requirements for making a sneak attack.

This spell applies only to sneak attack damage.

It gives you no ability to affect constructs with critical hits, nor does it confer any special ability to overcome the damage reduction or other defenses of constructs.

GRAVE STRIKE

Divination [Good]

Level: Cleric 1, paladin 1

Components: V, DF

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

While this spell is in effect, you have a special connection to the forces of light and positive energy.

For 1 round, you can deliver sneak attacks against undead as if they were not immune to sneak attacks.

To attack an undead creature in this manner, you must still meet the other requirements for making a sneak attack.

This spell applies only to sneak attack damage.

It gives you no ability to affect undead with critical hits, nor does it confer any special ability to overcome the damage reduction or other defenses of undead creatures.

GUIDED SHOT

Divination

Level: Ranger 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You use magical energy to briefly focus your mind and body on making a perfect shot.

While this spell is in effect, your ranged attacks do not take a penalty due to distance.

In addition, while this spell is in effect, your ranged attacks ignore the AC bonus granted to targets by anything less than total cover.

This spell does not provide any ability to exceed the maximum range of the weapon with which you are attacking, nor does it confer any ability to attack targets protected by total cover.

HEALING LORECALL

Divination

Level: Cleric 2, druid 2, ranger 1

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

You tap into your healing acumen to make your curative spells more potent.

A caster with 5 or more ranks in Heal can, when casting a conjuration (healing) spell, choose to remove any one of the following conditions affecting the target of the spell, in addition to the spell's normal effects: dazed, dazzled, or fatigued.

A caster with 10 or more ranks in Heal can choose from the following conditions in addition to those above: exhausted, nauseated, or sickened.

Also, when determining the amount of damage healed by your conjuration (healing) spells, you can substitute your total ranks in Heal for your caster level.

The normal caster level limit for individual spells still applies; thus, a 3rd-level cleric with 6 ranks in Heal when under the effect of *healing lorecall* cures 1d8+5 points of damage with a *cure light wounds* spell.

Material Component: A small mint leaf.

HINDSIGHT

Divination

Level: Bard 6, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 hour

Range: Personal

Area: 60-ft. radius, centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You can see and hear into the past, getting a look at events that happened previously at your current location.

The level of detail you see and hear by means of this spell depends on the span of time you wish to observe; concentrating on a span of days renders a more detailed perspective than, say, a span of centuries.

You can view only one span of time per casting, chosen from the following options.

Days: You sense the events of the past, stretching back one day per caster level.

You gain detailed knowledge of the people, conversations, and events that transpired.

Weeks: You gain a summary of the events of the past, stretching back one week per caster level.

Exact wording and details are lost, but you know all the participants and the highlights of the conversations and events that took place.

Years: You gain a general idea of the events of the past, stretching back one year per caster level.

You notice only noteworthy events such as deaths, battles, scenes of great emotion, important discoveries, and significant happenings.

Centuries: You gain a general idea of the events of the past, stretching back one century plus an additional century for every four caster levels beyond 1st.

For instance, a 16th-level caster would gain insight into the events of four centuries in the past, and a 17th-level caster would see back across five centuries.

You notice only the most remarkable of events: coronations, deaths of important personages, major battles, and other truly historic happenings.

Material Component: An hourglass-shaped diamond worth at least 1,000 gp.

INSIGHTFUL FEINT

Divination

Level: Assassin 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You gain temporary insight into the way your opponent moves and reacts.

You gain a +10 insight bonus on the next single Bluff check (if it is made before the start of your next turn) that you

make to feint in combat (see Bluff, page 68 of the *Player's Handbook*).

INSTANT LOCKSMITH

Divination

Level: Assassin 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You can make one Disable Device check or one Open Lock check in this round as a free action.

You gain a +2 insight bonus on the check.

INSTANT SEARCH

Divination

Level: Assassin 1, ranger 1, sorcerer/wizard 1

Components: V, S Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You can make one Search check in this round as a free action.

You gain a +2 insight bonus on the check.

LISTENING COIN

Divination (Scrying)

Level: Bard 4

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Effect: Magical sensor

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: No

You can turn two ordinary coins into magic listening devices—one a sensor and the other a receiver.

After casting the spell, you simply give the sensor coin away, either surreptitiously or overtly.

By holding the receiver coin up to your ear, you can hear whatever transpires near the sensor as if you were there (much like a *clairaudience* effect).

If the sensor coin is in a pocket, pouch, or sack, the DC of the Listen check increases by 5.

The coins continue to function no matter how far apart they are, although they fall silent if they're on different planes.

Focus: The pair of coins.

LISTENING LORECALL

Divination

Level: Druid 2, ranger 2, sorcerer/wizard 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level

You gain the ability to precisely and instantaneously identify and locate the origins of even the most minute sounds you detect.

You gain a +4 insight bonus on Listen checks.

In addition, if you have 5 or more ranks in Listen, you gain blindsense out to 30 feet.

If you have 10 or more ranks in Listen, you gain blindsight out to 30 feet instead.

A *silence* spell or effect negates blindsense or blindsight granted by a *listening lorecall* spell.

MASTER'S TOUCH

Divination

Level: Bard 1, sorcerer/wizard 1

Components: V, F

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 minute/level (D)

Master's touch is a spell often found in the repertoire of adventurers who specialize in casting arcane spells.

You gain proficiency with a single weapon or shield you hold in your hands when the spell is cast.

The lack of a somatic component means the spell can be cast in the middle of a fight while you keep ready whatever items stand between you and danger.

Proficiency is granted for only a single, specific item, although multiple castings allow for multiple proficiencies.

For example, if you hold a short sword and a rapier, with a buckler strapped to your off hand, you could cast the spell three times, once for each weapon and once for the shield. This spell does not grant proficiency for a kind or category of item (such as short swords) but only for the one specific item held in your hand at the time the spell is cast (*this* short sword).

Should you set that item down or otherwise lose your grip on it, the proficiency does not transfer to a different item of the same kind you might pick up.

However, if you recover the original item before the spell's effect runs out, you are still proficient with that specific weapon or shield for the duration.

Focus: The item in whose use you wish to be proficient.

SNIPER'S SHOT

Divination

Level: Assassin 1, ranger 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

When you cast this spell, you extend and sharpen your perceptions for one devastating ranged attack.

Your next single ranged attack (if it is made before the start of your next turn) can be a sneak attack regardless of the distance between you and your target.

This spell doesn't grant you the ability to make a sneak attack if you don't already have that ability.

SPEECHLINK

Divination

Level: Bard 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: You and one creature touched

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You and a willing target can communicate verbally no matter how much distance you put between yourselves on the same plane.

Either participant can end the spell at any time.

Speechlink allows each to hear the other's vocalizations, whatever their volume.

It does not transfer other sounds from either participant's location.

This spell works on any creatures, including animals, but does not convey any special language comprehension abilities.

TACTICAL PRECISION

Divination [Mind-Affecting]

Level: Bard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

When you cast this spell, you grant your allies greater insight into one another's actions, allowing them to better coordinate their attacks.

If two affected allies flank the same creature, each gains a +2 insight bonus on attack rolls made against the flanked creature.

This bonus is in addition to the normal +2 bonus on attack rolls granted to flanking creatures.

In addition, if an affected ally successfully deals damage against an opponent that is flanked by another affected ally, she deals an extra 1d6 points of damage.

Creatures immune to sneak attacks are immune to this extra damage.

Material Component: A toy soldier.

VINE STRIKE

Divination

Level: Druid 1, ranger 1

Components: V, DF

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

While this spell is in effect, you have a special connection to the forces of nature that allows you to deliver sneak attacks on plant creatures as if they were not immune to sneak attacks.

To attack a plant creature in this manner, you must still meet the other requirements for making a sneak attack.

This spell applies only to sneak attack damage.

It gives you no ability to affect plant creatures with critical hits, nor does it confer any special ability to overcome the damage reduction or other defenses of plant creatures.

ENCHANTMENT

DIRGE OF DISCORD

Enchantment (Compulsion) [Evil, Mind-Affecting]

Level: Bard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 20-ft.-radius spread

Duration: Concentration + 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You create an unholy, cacophonous dirge that fills the subjects' minds with the screams of the dying, the wailing of the damned, and the howling of the mad.

Affected creatures take a -4 penalty on attack rolls and Concentration checks, a -4 penalty to Dexterity, and a 50% reduction in their speed (to a minimum of 5 feet).

Material Component: A pinch of ashes from a destrachan.

DISTRACT ASSAILANT

Enchantment (Compulsion) [Mind-Affecting]

Level: Assassin 1, sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

The subject of this spell is distracted, flinching at blows that seem to come from the shadows.

A creature affected by this spell is flat-footed until the beginning of its next turn.

Material Component: The dried wing of a fly.

FOCUSING CHANT

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute (D)

You can use *focusing chant* to block out distractions and hone your attention.

You gain a +1 circumstance bonus on attack rolls, skill checks, and ability checks for the duration of the spell.

You need not concentrate on *focusing chant*, but you must continue to mutter the syllables of the chant to maintain the spell.

Therefore, you cannot speak, use bardic music effects, or cast spells with verbal components while a *focusing chant* spell is in effect.

Dismissing *focusing chant* is an immediate action.

HARMONIC CHORUS

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration, up to 1 round/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

Harmonic chorus lets you improve the spellcasting ability of another spellcaster.

For the duration of the spell, the subject gains a +2 morale bonus to caster level and a +2 morale bonus on save DCs for all spells she casts.

Focus: A tuning fork.

HERALD'S CALL

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Bard 1

Components: V, S

Casting Time: 1 swift action

Range: 20 ft.

Area: 20-ft.-radius burst centered on you

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

You produce a crowd-stopping shout that holds an air of authority others find difficult to ignore.

Any creature with 5 Hit Dice or less is *slowed* for 1 round.

Creatures beyond the radius of the burst might hear the shout, but they are not *slowed*.

INSIDIOUS RHYTHM

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 2

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You play a catchy, silly little tune that gets stuck in the mind of the subject unless she succeeds on a Will save. The endlessly recycling melody makes it difficult for the subject to cast spells or perform any other action that requires mental focus.

The subject takes a -4 penalty on all Intelligence-based skill checks and Concentration checks.

Whenever the target attempts to cast, concentrate on, or direct a spell, she must succeed on a Concentration check (DC equal to *insidious rhythm's* save DC + spell's level) or fail at the attempt.

INSPIRATIONAL BOOST

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Bard 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Targets: You

Duration: 1 round or special; see text

When you play your instrument, sing your song, recite your epic poem, or speak your words of encouragement, you fill your allies with greater confidence than normal.

While this spell is in effect, the morale bonus granted by your inspire courage bardic music increases by 1.

The effect lasts until your inspire courage effect ends.

If you don't begin to use your inspire courage ability before the beginning of your next turn, the spell's effect ends.

MINDLESS RAGE

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 2, sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You fill the subject with so great a rage that it can do nothing but focus on engaging you in personal physical combat.

The target must be able to see you when you cast this spell. If the subject later loses line of sight to you, the spell immediately ends.

(A subject can't voluntarily break line of sight with you, such as by closing its eyes, to end this spell prematurely).

If the subject threatens you, it must make a full attack against you using its melee weapons or natural melee attacks.

If the subject doesn't threaten you, it must move at up to twice its speed, ending its movement as close to you as possible.

If it moves close enough with a single move to threaten you, it may stop and make a melee attack against you as normal.

While under the effect of a *mindless rage* spell, the subject can make use of all normal melee combat skills, abilities, and feats—either offensive or defensive.

However, the subject can't make ranged attacks, cast spells, or activate magic items that require a command word, a spell trigger, or spell completion to function.

The subject can't make any attack against a creature other than you.

The subject of this spell, though overcome with rage, is by no means rendered idiotic or suicidal.

For example, an affected creature will not charge off a cliff in an attempt to reach you.

An interesting side effect of *mindless rage* occurs when the spell affects any character or creature with the rage ability (such as a barbarian).

In these cases, the *mindless rage* spell automatically activates the character's rage ability (and counts as one of the character's uses of rage for that day).

Focus: A scarlet handkerchief or similar piece of cloth, waved in the target's direction while you vocalize the verbal component.

TRAIN ANIMAL

Enchantment (Charm) [Mind-Affecting]

Level: Druid 2, ranger 2

Components: V, S, DF

Casting Time: 10 minutes

Range: Touch

Target: Animal touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You temporarily boost the number of tricks that an animal knows.

While this spell is in effect, the affected animal gains a number of additional tricks equal to half your caster level (maximum five).

For more information on tricks and trained animals, see the descriptions of the Handle Animal skill, page 100 of this book, and pages 74–75 of the *Player's Handbook*.

This spell does not modify an animal's attitude toward you, nor does it guarantee that an animal will cooperate when instructed to perform the newly learned tricks.

WAR CRY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Bard 4

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: See text

You attack with a cry that bolsters your own courage as well as intimidating your enemies.

As a result of this spell, you gain a +2 morale bonus on attack rolls and damage rolls, or a +4 morale bonus on attack rolls and damage rolls made as part of a charge.

If you deal damage with a melee attack, your foe must succeed on a Will save or become panicked for 1 round (spell resistance applies to this effect).

An opponent who makes a successful saving throw against this effect cannot be affected again by the same casting of *war cry*.

EVOCATION

CACOPHONIC SHIELD

Evocation [Sonic]

Level: Bard 6, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 1 minute/level (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes

You create a barrier of sonic energy at a distance of 10 feet from yourself.

Creatures on either side of the barrier hear it as a loud but harmless buzzing.

Nonmagical sound (including sound produced by a thunderstone) does not cross the barrier.

Supernatural or spell-based sounds or sonic effects penetrate the barrier only if the caster or originator of the effect succeeds on a caster level check (DC 11 + your caster level).

A creature that crosses the barrier takes 1d6 points of sonic damage +1 point per caster level (maximum +20) and must make a Fortitude save or be deafened for 1 minute.

The sonic vibrations create a 20% miss chance for any missiles crossing the barrier in either direction.

The barrier moves with you, but you cannot force another creature to pass through it (for example, by moving adjacent to an enemy).

If you force a creature to pass through, the barrier has no effect on that creature.

DISSONANT CHORD

Evocation [Sonic]

Level: Bard 3

Components: V, S

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius burst centered on you

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

You emit a terrible, piercing note.

Creatures (other than you) in the affected area take 1d8 points of sonic damage per two caster levels (maximum 5d8).

FOEBANE

Evocation

Level: Ranger 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 round/level (D)

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

This spell imbues one of your weapons with great killing power against a single favored enemy type.

Against creatures of that type, the weapon acts as a +5 magic weapon and deals an extra 2d6 points of damage.

Furthermore, while you wield the weapon, you gain a +4 resistance bonus on saving throws against effects created by creatures of that type.

The spell is automatically canceled 1 round after the weapon leaves your hand for any reason.

You cannot have more than one *foebane weapon* active at a time.

If this spell is cast on a magic weapon, the powers of the spell supersede any that the weapon normally has, rendering the normal enhancement bonus and powers of the weapon inoperative for the duration of the spell.

This spell is not cumulative with any other spell that might modify the weapon in any way.

This spell does not work on artifacts.

HYMN OF PRAISE

Evocation [Good, Sonic]

Level: Bard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: A sphere-shaped emanation with a radius equal to the range, centered on you

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You can strike up a rousing, inspirational song that temporarily boosts by 2 the effective caster level of each good-aligned divine spellcaster within range.

This increase does not grant access to additional spells, but it does improve all spell effects that are dependent on caster level.

In addition, *hymn of praise* mimics the effect of a *hallow* spell with respect to turning or rebuking undead.

Within the spell's area, each good-aligned divine spellcaster gains a +4 sacred bonus on Charisma checks to turn undead, and each evil-aligned divine spellcaster takes a -4 sacred penalty on Charisma checks to rebuke undead.

INFERNAL THRENODY

Evocation [Evil, Sonic]

Level: Bard 3

Components: V, S

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: A sphere-shaped emanation with a radius equal to the range, centered on you

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You can strike up a pulsing, powerful rhythm that temporarily boosts by 2 the effective caster level of each evil-aligned divine spellcaster within range.

This increase does not grant access to additional spells, but it does improve all spell effects that are dependent on caster level.

In addition, *infernal threnody* mimics the effect of an *unhallow* spell with respect to turning or rebuking undead.

Within the spell's area, each evil-aligned divine spellcaster gains a +4 profane bonus on Charisma checks to rebuke undead, and each good-aligned divine spellcaster takes a -4 profane penalty on Charisma checks to turn undead.

NATURE'S FAVOR

Evocation

Level: Druid 2, ranger 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Animal touched

Duration: 1 minute

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

By calling on the power of nature, you grant the subject animal a +1 luck bonus on attack and damage rolls for every

three caster levels you possess, to a maximum bonus of +5 at 15th level.

ILLUSION

BLADEWEAVE

Illusion [Pattern]

Level: Bard 2, sorcerer/wizard 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: See text

A *bladeweave* spell imbues your melee attacks with a fascinating pattern or rhythm that entrances your opponent.

Any round that you attack with a melee weapon, you can make a single additional touch attack with that weapon at your normal attack bonus as a free action.

This attack deals no damage.

Instead, anyone successfully touched by the weapon must succeed on a Will save or be dazed for 1 round.

Spell resistance applies to this effect.

INVISIBILITY, SWIFT

Illusion (Glamer)

Level: Assassin 2, bard 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions like *invisibility* (see page 245 of the *Player's Handbook*), except as noted above.

SHADOW FORM

Illusion (Shadow)

Level: Assassin 4, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You call forth the power of shadow, enveloping yourself in a clinging, concealing shroud of darkness.

While this spell is in effect, you gain a number of benefits.

The shadows wrapping your form grant you a +4 competence bonus on Escape Artist, Hide, and Move Silently checks.

Your shadowy form also provides you with concealment.

This shadowy concealment is not negated by a *see invisibility* spell, but a *true seeing* spell counteracts the effect.

Standing within the radius of a *daylight* spell or in bright natural sunlight temporarily suppresses the concealment effect.

In addition, if you have 5 ranks in Escape Artist, you can attempt to slip through a solid object or barrier up to 5 feet thick with a DC 20 Escape Artist check, though doing this

ends the spell as soon as the attempt is completed (regardless of success).

If you have 10 ranks in Escape Artist, you can attempt to pass through an object or barrier up to 10 feet thick.

If you have 15 ranks in Escape Artist, you can attempt to pass through a barrier composed of magical force (or similar magical obstacles).

Material Component: A small piece of black cloth taken from a funeral shroud.

SPECTRAL WEAPON

Illusion (Shadow)

Level: Assassin 3, bard 4, sorcerer/wizard 3

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Saving Throw: Will partial; see text

Spell Resistance: Yes; see text

Using material from the Plane of Shadow, you can fashion a quasi-real weapon of any type with which you are proficient.

This *spectral weapon* appears in your hand and behaves as a normal weapon of its type, with two exceptions.

First, you resolve attacks with your *spectral weapon* as melee touch attacks instead of melee attacks.

Second, any foe you hit is entitled to a Will save to recognize the weapon's shadowy nature.

If the save is successful, that opponent takes only one-fifth normal damage from the weapon on that attack and all subsequent attacks, and is only 20% likely to suffer any special effects of your attacks (such as a death attack delivered with the weapon).

You can maintain only one *spectral weapon* at a time, and only you can wield it.

The weapon dissipates when you let go of it or when the spell's duration expires, whichever comes first.

NECROMANCY

WAIL OF DOOM

Necromancy [Fear, Mind-Affecting, Sonic]

Level: Bard 5

Components: V

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst

Duration: Instantaneous and 1 round/level or 1 round; see text

Saving Throw: Will partial; see text

Spell Resistance: Yes

Anyone caught in the area of this spell suffers excruciating pain and becomes demoralized.

Each creature takes 1d4 points of damage per caster level (up to a maximum of 15d4) and becomes panicked for 1 round per caster level.

A successful Will save halves the damage, reduces the panicked effect to shaken, and reduces the duration of the shaken effect to 1 round.

WRACKING TOUCH

Necromancy

Level: Druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

Your touch causes horrible agony in a creature's vital area.

You lay your hand upon a creature and deal 1d6 points of damage +1 point per caster level (maximum +10).

In addition, if you have the sneak attack ability, you also deal sneak attack damage to the affected creature unless the creature is immune to extra damage from critical hits.

The creature still takes the spell damage even if it does not take the sneak attack damage.

Unlike a normal use of sneak attack, your target need not be flanked or denied its Dexterity bonus to take sneak attack damage from this spell.

TRANSMUTATION

ABSORB WEAPON

Transmutation

Level: Assassin 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Effect: One touched weapon not in another creature's possession

Duration: 1 hour/level (D)

Saving Throw: Will negates (object); see text

Spell Resistance: Yes (object)

You can harmlessly absorb a weapon you are touching (even a poisoned one) into your arm, so long as it is not in another creature's possession.

The weapon must be a light weapon for you at the time you cast the spell.

The absorbed weapon cannot be felt under the skin and doesn't restrict your range of motion in any way.

An absorbed weapon cannot be detected with even a careful search, although a *detect magic* spell reveals the presence of a magical aura.

The only evidence of its presence is a faint blotch on your skin shaped vaguely like the weapon.

When you touch the spot (an action equivalent to drawing a weapon), or when the spell duration expires, the weapon appears in your hand and the spell ends.

If you attack with the weapon in the same round that you retrieve it from its hiding place, you can attempt a Bluff check to feint in combat as a free action, and you gain a +4 bonus on the Bluff check.

An intelligent magic weapon gets a saving throw against this spell, but other weapons do not.

ACCELERATED MOVEMENT

Transmutation

Level: Bard 1, ranger 1, sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

While this spell is in effect, you can move at your normal speed when using Balance, Climb, or Move Silently without taking any penalty on your check.

This spell does not affect the penalty for using these skills while running or charging.

Material Component: A dead cockroach.

ALLEGRO

Transmutation

Level: Bard 3

Components: V, S, M

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius burst, centered on you

Duration: 1 minute/level (D)

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This spell makes you and your companions extraordinarily fleet of foot.

Each creature within the spell's area gains a 30-foot enhancement bonus to its land speed, up to a maximum of double the creature's land speed.

Affected creatures retain these effects for the duration of the spell, even if they leave the original area.

Material Component: A tailfeather from a bird of prey.

ARROW STORM

Transmutation

Level: Ranger 4

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You can cast this spell only at the beginning of your turn, before you take any other actions.

After casting *arrow storm*, you can use a full-round action to make one ranged attack with a bow with which you are proficient against every foe within a distance equal to the weapon's range increment.

You can attack a maximum number of individual targets equal to your character level.

If you choose not to spend a full-round action in this fashion after casting the spell, the spell has no effect.

BLADE STORM

Transmutation

Level: Ranger 3

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You can cast this spell only at the beginning of your turn, before you take any other actions.

After casting *blade storm*, you can take a full-round action to make one attack with each melee weapon you are currently wielding against every foe within reach.

If you wield two weapons, or a double weapon, you can attack each foe once with each weapon or end, using the normal rules for two-weapon fighting.

So, a ranger wielding a longsword and a short sword could attack each opponent he can reach with both weapons.

You can attack a maximum number of individual targets equal to your character level.

If you choose not to spend a full-round action in this fashion after casting the spell, the spell has no effect.

BRANCH TO BRANCH

Transmutation

Level: Druid 2, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You gain a +10 competence bonus on Climb checks made in trees.

As long as you remain at least 10 feet above the ground, you can brachiate (swing via branches and vines) in medium or dense forest, but not in sparse forest.

When you brachiate, you gain a 10-foot enhancement bonus to your land speed and ignore the hampered movement penalties for undergrowth and other terrain features.

You can charge while brachiating, but you can't run.

Naturally, some local conditions such as areas of sparse forest, clearings, wide rivers, or other breaks in the forest canopy might force you to return to the ground.

CLOAK OF THE SEA

Transmutation

Level: Druid 5, sorcerer/wizard 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject retains his or her form but takes on a blue-green watery appearance.

While underwater, the subject functions as if affected by *blur*, *freedom of movement*, and *water breathing* and doesn't take nonlethal damage from water pressure or hypothermia for the duration of the spell.

When out of the water (or even partially out), the subject gains none of these advantages except *water breathing*.

The subject can leave and reenter water without ending the spell.

DISTORT SPEECH

Transmutation [Sonic]

Level: Bard 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You distort a creature's vocalizations.

The voice of the subject becomes warped and nearly incomprehensible.

For the duration of this spell, the subject has a 50% chance to miscast spells that have verbal components, and any time the subject speaks (including the use of magic items activated by command words), there is a 50% chance that the utterance is completely incomprehensible and therefore ineffective.

EASY CLIMB

Transmutation

Level: Ranger 2

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Vertical path 10 ft. wide and 20 ft. tall/level

Duration: 10 minutes/level (D)

Saving Throw: None (object)

Spell Resistance: Yes (object)

You create a path of handholds and footholds up the surface of a cliff face, tree trunk, wall, or other vertical obstacle. This effect changes the surface to the equivalent of a very rough wall (DC 10 to climb).

EMBRACE THE WILD

Transmutation

Level: Druid 2, ranger 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

This spell allows you to adopt the nature and some of the abilities of a particular animal.

Upon casting the spell, you can choose any animal whose Hit Dice are equal to or less than your caster level.

You retain your own form, but you gain the natural and extraordinary senses of the creature you choose, including blindsense, blindsight, darkvision, low-light vision, and scent, as applicable.

You can also choose to replace either or both of your Listen and Spot check modifiers with those of the animal chosen. For example, a 3rd-level druid casting this spell might choose to adopt the nature of a wolverine to gain low-light vision, scent, and Listen and Spot check modifiers of +6. Alternatively, she could select the eagle and gain low-light vision, Listen +2, and Spot +14.

If the druid's Listen check modifier were better than +2, she could retain her own Listen check modifier while gaining the eagle's Spot check modifier.

ENTANGLING STAFF

Transmutation

Level: Druid 3, sorcerer/wizard 4

Components: V, F

Casting Time: 1 swift action

Range: Touch

Target: Quarterstaff touched

Duration: 1 round/level (D)

Saving Throw: Yes (harmless, object)

Spell Resistance: Yes (harmless)

You cause your quarterstaff to extrude writhing vines that allow you to easily grab and entrap foes.

Each time you successfully strike a foe with the staff (a normal melee attack), you deal normal damage and can attempt to start a grapple as a free action without provoking attacks of opportunity (see Starting a Grapple, page 156 of the *Player's Handbook*).

This grapple attempt does not require a separate touch attack.

You gain a +8 bonus on grapple checks you cause by striking a foe with the *entangling staff*.

You can attempt to grapple creatures up to one size category larger than you.

If your grapple check succeeds, your quarterstaff's vines constrict your foe, dealing 2d6 points of damage (you can choose to deal nonlethal damage instead of normal damage if you wish).

You then have two choices: *Release:* You release your opponent from the grapple.

Some vines remain clinging to your foe, leaving it entangled for the duration of the spell.

You can attack different enemies in later rounds with the *entangling staff*, potentially grappling and constricting or entangling them.

Maintain: You maintain your hold.

In subsequent rounds, you deal constriction damage with a successful grapple check.

You can then choose to release or maintain the hold again.

Focus: A quarterstaff.

EXACTING SHOT

Transmutation

Level: Ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Ranged weapon touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

This transmutation makes a ranged weapon strike true against your favored enemies.

All rolls made to confirm critical hits by the weapon against favored enemies automatically succeed, so every threat is a critical hit.

The affected weapon also ignores any miss chance due to concealment whenever you fire at a favored enemy (unless the target has total concealment, in which case the normal miss chance applies).

If the ranged weapon or the projectile fired has any magical effect or property related to critical hits, this spell has no effect on it.

EXPEDITIOUS RETREAT, SWIFT

Transmutation

Level: Bard 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions like *expeditious retreat* (see page 228 of the *Player's Handbook*), except as noted above.

FLY, SWIFT

Transmutation

Level: Bard 2, druid 3, sorcerer/wizard 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round This spell functions like *fly* (see page 232 of the *Player's Handbook*), except as noted above.

FORESTFOLD

Transmutation

Level: Druid 4, ranger 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You change your coloring and attune your footfalls to one specific kind of terrain (aquatic, desert, plains, forest, hills, mountains, marsh, or underground).

While you are in terrain of that kind, you gain a +20 competence bonus on Hide and Move Silently checks.

You retain these bonuses even if you leave the designated terrain and return within the duration of the spell.

HASTE, SWIFT

Transmutation

Level: Ranger 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions as *haste* (see page 239 of the *Player's Handbook*), except as noted above.

HAWKEYE

Transmutation

Level: Druid 1, ranger 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

This spell gives you the ability to see accurately at long distances.

Your range increment for ranged weapons increases by 50%, and you gain a +5 competence bonus on Spot checks.

IMPROVISATION

Transmutation

Level: Bard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

You gain access to a floating "pool" of luck, which manifests as bonus points you can use as desired to improve your odds of success at various tasks.

This bonus pool consists of 2 points per caster level, which you can spend as you like to improve attack rolls, skill checks, and ability checks, although no single check can receive a bonus greater than one-half your caster level.

You must declare any bonus point usage before the appropriate roll is made.

Used points disappear from the pool, and any points remaining when the spell ends are wasted.

These points count as luck bonuses for purposes of stacking.

For example, a 14th-level bard pauses while chasing a pickpocket to cast *improvisation*.

At any time during the next 14 rounds, he could use the points to provide him a +7 luck bonus on a Spot check, a +7 luck bonus on a Climb check, and a +7 luck bonus on two of his attacks.

Material Component: A pair of dice.

IRON SILENCE

Transmutation

Level: Assassin 2, bard 2, cleric 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: One suit of armor touched per three levels

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

While this spell is in effect, the armor check penalty from the affected suit or suits of armor does not apply on Hide and Move Silently checks.

Only wearers proficient in the armor's use get this benefit when wearing the affected armor.

The armor check penalty still applies to other skill checks as normal.

NIGHTSTALKER'S TRANSFORMATION

Transmutation

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

You become a stealthy and dangerous combatant.

Your mind-set changes so that you relish stealth, deception, and surprise attacks over magical assaults.

You gain a +4 enhancement bonus to Dexterity, a +3 luck bonus to Armor Class, a +5 luck bonus on Reflex saving throws, a +5 competence bonus on Spot, Listen, Hide, and

Move Silently checks, and proficiency with all simple weapons plus the hand crossbow, rapier, sap, shortbow, and short sword.

You also gain the Weapon Finesse feat and the evasion ability (see page 50 of the *Player's Handbook*).

You deal an extra 3d6 points of damage whenever you attack an opponent that you flank or an opponent denied its Dexterity bonus to Armor Class.

This extra damage works like the rogue's sneak attack ability.

You lose your spellcasting ability for the duration of the spell, including your ability to use spell activation or spell completion magic items, just as if the spells were no longer on your class list.

Material Component: A *potion of cat's grace*, which you drink (and whose effects are subsumed by the spell effects).

PROTÉGÉ

Transmutation

Level: Bard 6

Components: V, S

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You briefly grant bardic abilities to a creature of your choice.

The subject of the spell can then function as a bard of one-half your current bard level with respect to bardic music and bardic knowledge.

However, *protégé* imparts no spellcasting ability and does not grant access to spells not normally available to the subject.

For Perform checks and bardic music prerequisites, the creature uses its own ranks in Perform or one-half of your ranks (modified by its own Charisma modifier), whichever is better.

SNIPER'S EYE

Transmutation

Level: Assassin 4

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

This spell magically enhances your senses, making you deadly with ranged weapons.

When you cast *sniper's eye*, you gain the following benefits.

- +10 competence bonus on Spot checks.
- Darkvision out to 60 feet.
- The ability to make a ranged sneak attack at a range of up to 60 feet, rather than 30 feet.
- The ability to make a death attack with a ranged weapon rather than just with a melee weapon.

The target must be within 60 feet.

This spell doesn't grant you the ability to make a sneak attack or death attack if you don't already have that ability.

Sniper's eye attunes you completely to the vantage point you had when you cast the spell.

You understand the nuances of the breeze and every angle and shadow—from that spot.

If you move even 5 feet from the place where you cast the spell, you lose the benefits of *sniper's eye* until you return to that spot.

Focus: A magnifying glass lens.

SONIC WEAPON

Transmutation [Sonic]

Level: Bard 2, sorcerer/wizard 2

Components: V

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 minute/level (D)

This spell temporarily sheathes a weapon in sonic energy. While the spell is in effect, the affected weapon deals an extra 1d6 points of sonic damage with each successful attack.

The sonic energy does not harm the weapon's wielder. Bows, crossbows, and slings that are affected by this spell bestow the sonic energy upon their ammunition.

WRAITHSTRIKE

Transmutation

Level: Assassin 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

When you cast this spell, your melee weapons or natural weapons become ghostly and nearly transparent for a brief time.

While this spell is in effect, your melee attacks are resolved as melee touch attacks rather than normal melee attacks.

COMPLETE ARCANE (3.5)

ABJURATION

ABSORPTION

Abjuration

Level: Sorcerer/wizard 9, wu jen 9

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: Until expended or 10 min./level

Spells and spell-like effects that target you are absorbed, their energy stored to power spells of your own.

Absorption absorbs only ranged spells that have you as a target.

Touch spells, effect spells, and area spells that affect you cannot be absorbed.

Once the spell is cast, you can absorb 1d4+6 spell levels (rolled secretly by the DM).

The level of each spell you absorb is subtracted from the total.

If a spell is only partially absorbed (because its level exceeds the number of levels remaining to be absorbed), divide the number of spell levels left unabsorbed by the original spell level.

For spells that deal damage, use the result to determine what fraction of the damage you take.

For spells that create effects, use the result as a percentage chance to be affected.

For example, you have three spell levels of *absorption* remaining and are struck by *dominate person* (cast as a 5th-level spell).

Absorption absorbs three levels of the spell, resulting in a 40% chance (2/5) that you will be affected normally.

If affected, any saving throw the spell allows you still applies.

Likewise, if you're struck by *disintegrate* (cast as a 6th-level spell) with four levels of *absorption* remaining, two levels of the spell remain, and you take only 33% (2/6) of the damage you would normally take from the spell.

You can use captured spell energy to cast any spell you know or have prepared, but spells so cast don't disappear from your list of prepared spells or count against the number of spells you can normally cast per day (so you so must keep a running total of spell levels absorbed and used).

The levels of spell energy you have stored must be equal to or greater than the level of the spell you want to cast, and you must have at hand (and expend) any material components required for the spell.

AIMING AT THE TARGET

Abjuration

Level: Sorcerer/wizard 5, wu jen 5

Components: S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: Concentration, up to 20 minutes; see text
When you cast this spell as a swift action (see page 86), you increase your ability to concentrate on a spell you have already cast.

This spell is one of only a few spells (*finding the center* being another) that you can cast while maintaining concentration on another spell.

Aiming at the target gives you a +10 circumstance bonus on Concentration checks you make to maintain concentration on the other spell, and its effect lasts as long as you concentrate on the other spell (to a maximum of 20 minutes).

ANTICIPATE TELEPORTATION

Abjuration

Level: Sorcerer/wizard 4

Components: V, S, F

Casting Time: 1 round

Range: One willing creature touched

Area: 5-ft./level radius emanation from touched creature

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

The subject of the spell is surrounded with an invisible aura that anticipates and delays the teleportation of any creature into the spell's area.

Any teleportation spell or effect (including all spells with the teleportation descriptor) can be anticipated, making the spell's recipient instantly aware of the exact location where the teleporting creature will arrive (subject to the restrictions below), the creature's size, and how many other creatures (and their sizes) are arriving with the teleporting creature.

The spell also delays the arrival of the teleporting creature by 1 round (so that it arrives on its initiative count immediately before its next turn), generally giving the recipient of the spell and anyone else made aware of the information 1 round to act or ready actions.

The teleporting creature does not perceive this delay. Since a teleporting creature doesn't necessarily arrive at the precise location it intends, the spell also functions against a creature that arrives in range even though its intended destination was elsewhere.

For a creature that intends to teleport into range but inadvertently arrives outside the spell's area, the spell gives the recipient awareness that a creature has attempted to teleport into range and delays the creature as normal, but doesn't give any awareness as to the actual location of its imminent arrival.

The spell has no effect on creatures attempting to teleport away from the spell's area, though if their destination is within the area, the spell will affect their reentry as normal.

Focus: A tiny hourglass of platinum and crystal costing 500 gp, which must be carried or worn by the spell's recipient while the spell is in effect.

ANTICIPATE TELEPORTATION, GREATER

Abjuration

Level: Sorcerer/wizard 8

Casting Time: 10 minutes

Duration: 24 hours

As *anticipate teleportation*, except that *greater anticipate teleportation* identifies the type of the arriving creature (and any companions accompanying it) and creates a delay of 3 rounds, providing the recipient with even more warning and preparation time.

Focus: A tiny hourglass of platinum and crystal filled with diamond dust, costing 1,000 gp.

The hourglass must be carried or worn by the spell's recipient while the spell is in effect.

DUELWARD

Abjuration

Level: Sorcerer/wizard 5

Components: V, S, M Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until discharged (D)

You mantle yourself in a powerful magical field that facilitates your defense against enemy spells.

While a *duelward* is in effect, counterspelling is an immediate action for you, allowing you to counterspell even when it is not your turn without having previously readied an action.

You also gain a +4 competence bonus on Spellcraft checks made to identify spells being cast. The first time you successfully counterspell while the spell is in effect (whether you counterspell as an immediate action or not), *duelward* is discharged.
Material Component: A miniature silk glove.

ELEMENTAL WARD

Abjuration

Level: Wu jen 4 (all)

Components: V, S, M

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft.-radius emanation, centered on you

Duration: 1 minute

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to drive off elementals of a specific type by uttering a fearsome cry.

When you cast the spell, any elemental within the spell's area must leave the area unless it makes a successful Will save.

If you try to force the barrier against an elemental that has failed its saving throw, the spell fails.

Material Component: A small quantity of the element opposed to the type being warded against—fire for water elementals, earth for air elementals, air for earth elementals, or water for fire elementals.

ENERGY IMMUNITY

Abjuration

Level: Cleric 6, druid 6, sorcerer/wizard 7, wu jen 7

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 24 hours

Saving Throw: None

Spell Resistance: Yes (harmless)

This abjuration grants a creature and its equipment complete protection against damage from one of the five energy types—acid, cold, electricity, fire, or sonic.

Energy immunity absorbs only damage, so the recipient could still suffer side effects such as drowning in acid, being deafened by a sonic attack, or becoming immobilized in ice.

Note: *Energy immunity* overlaps *protection from energy* and *resist energy*.

So long as *energy immunity* is in effect, the other spells absorb no damage.

FINDING THE CENTER

Abjuration

Level: Wu jen 8

Duration: 10 minutes (D)

As *aiming at the target* (see page 96), except that you no longer need to maintain conscious concentration on the spell you cast before casting this one.

Your unconscious mind maintains the required concentration, allowing you to take other actions

(including movement, attacks, and even casting more spells) as normal.

Short of dying, only mind-affecting spells and conditions (such as *feblemind* and *confusion*) can affect your concentration on the other spell, though you might be convinced to willingly dismiss *finding the center* (and the previous spell with it) under the effect of a *charm* or *suggestion*.

OTILUKE'S DISPELLING SCREEN

Abjuration

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Energy wall whose area is up to one 10-ft. square/level, or a sphere or hemisphere with a radius of up to 1 ft./level

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

You create an opaque, immobile, shimmering screen of violet energy.

Any spell effect operating on a creature or unattended object that passes through the screen is affected as by a targeted *dispel magic* at your caster level.

Attended items that pass through are not affected by the screen, which is the only way the screen differs from a normal targeted casting of *dispel magic*—attended items are essentially not targeted by the screen.

Make a caster level check (1d20 + 1 per caster level, maximum +10) to dispel spell effects (DC 11 + caster level) or suppress an unattended object's magical properties for 1d4 rounds (DC equal to the item's caster level).

Spell effects not operating on objects or unattended creatures cannot pass through the screen.

A *disintegrate* or successful *dispel magic* removes *Otiluke's dispelling screen*, while an *antimagic field* suppresses it.

Material Component: A sheet of fine lead crystal.

OTILUKE'S GREATER DISPELLING SCREEN

Abjuration

Level: Sorcerer/wizard 7

As *Otiluke's dispelling screen*, except that the maximum caster level bonus on the dispel check is +20.

PROTECTION FROM CHARM

Abjuration

Level: Wu jen 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The recipient of this spell gains a resistance bonus of +1 per three caster levels (maximum +5) on any Will save against charm or compulsion spells or effects.

Material Component: Hair or some other small part of the body of a creature with an innate charm or dominate ability (such as a succubus or a vampire).

REAVING DISPEL

Abjuration

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target or Area: One spellcaster, creature, or object; or a 20-ft.-radius burst

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: No

Reaving dispel functions like *dispel magic*, except that the maximum caster level on your dispel check is +25 instead of +10, and (as with *greater dispel magic*) you have a chance to dispel any effect that *remove curse* can remove, even if *dispel magic* can't dispel that effect.

When casting a targeted dispel or counterspell, you can choose to reave each spell you successfully dispel, stealing its power and effect for yourself.

When making a targeted dispel, make a Spellcraft check (DC 25 + spell level) to identify the target spell or each ongoing spell currently in effect on the target creature or object.

Each spell you dispel with a targeted dispel can be reaved if you so desire, and the spell's effects are redirected to you, continuing as if cast on you by the original caster with no interruption to or extension of duration.

Once you reave the spell, you identify it if you haven't done so already (see below).

If the subject was the caster and the spell is dismissible, you can dismiss it as if you had cast it yourself.

Likewise, if the subject was the caster and the spell requires concentration, you must concentrate to maintain the spell's effect as if you had cast it yourself.

You can still attempt to reave a spell you didn't identify with your Spellcraft check, but doing so can be risky if you don't know the specifics of the spell's effect.

For example, if you fail to identify an ongoing spell effect on an enemy character and choose to reave anyway, you might find yourself under the influence of the *dominate person* effect that character was suffering from.

Any spell resistance you might have has no effect against harmful spells you might inadvertently reave, but you get the same chance to save against those spell effects as the original target.

If you choose to reave a spell you have successfully counterspelled with *reaving dispel*, you seize control of the spell after the enemy caster completes it, and you can redirect the spell to whichever targets or area you wish (including the original caster, if appropriate).

Again, you must make a Spellcraft check (DC 25 + spell level) to identify the spell you intend to reave, but you are free to choose to redirect a spell whose effects, range, and area you don't know.

Note, though, that if its correct casting conditions aren't met (because you guess at an improper target or range, for example), the spell fails.

Reaving dispel can be used to cast an area dispel with the increased maximum caster level, but any magical effects so dispelled cannot be reaved.

RECIPROCAL GYRE

Abjuration

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature or object

Duration: Instantaneous

Saving Throw: Will half, then Fortitude negates; see text

Spell Resistance: No

You manipulate the magical aura of a creature or object, creating a damaging feedback reaction of arcane power. The target takes 1d6 points of damage per spell level of each functioning spell or spell-like ability currently affecting it (maximum 25d6).

For example, a creature who is *hasted* (3rd level), *flying* (3rd level), and protected by a *stoneskin* spell (4th-level wizard version) takes 10d6 points of damage (Will save for half).

In addition, any creature that fails its save must then succeed on a Fortitude save or be dazed for 1d6 rounds. Only spells specifically targeted on the creature in question can be used to create the backlash of a *reciprocal gyre*, so spells that affect an area (such as *invisibility sphere* and *solid fog*) can't be used to deal reciprocal damage to creatures within their area.

Likewise, persistent or continuous effects from magic items can't be used to deal reciprocal damage, but targeted spell effects can be—for example, the magic of a *cloak of resistance* can't be used by *reciprocal gyre*, but a spell cast by a *wand of invisibility* could be.

Material Component: A tiny closed loop of copper wire.

REFUSAL

Abjuration

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Two 10-ft. squares/level (S)

Duration: 1 hour/level

Saving Throw: Will negates; see text

Spell Resistance: Yes

You create a special ward that prevents unauthorized spellcasters or creatures with spell-like abilities from entering an area.

Any creature that has spells prepared, spell slots available for casting without preparation, or innate spell-like abilities must succeed on a Will save or be halted by an invisible barrier that prevents passage.

The DC of the Will save increases by a number equal to the spell level of the highest-level spell the creature has prepared or is capable of casting (so that a 10th-level sorcerer who hasn't yet exhausted his 5th-level spell slots for the day adds +5 to the save DC).

You can choose to designate a password or special condition (such as character race, alignment, possession of a token, or any other observable or detectable

characteristic) by which spellcasting characters and creatures can enter the *refusal*-warded area. Creatures that have no spellcasting capability or spell-like abilities (including spellcasters who have exhausted their spell slots, and creatures with spell trigger or spell completion magic items) can pass through the barrier with no difficulty.

Spellcasters and creatures that have spell-like abilities and that are already within the area you protect when you create the ward are not compelled to leave or restricted in their movement within it (and spells and spell-like abilities can pass through the barrier in either direction with no difficulty).

However, if such creatures leave the area, they must succeed on saving throws as described above to return. Creatures attempting to use any teleportation spell or effect to enter the warded area make the normal saving throw. They are shunted harmlessly to the nearest safe space outside the warded area if they fail.

Material Component: A pinch of dust from a wizard's tomb.

RESIST ENERGY, MASS

Abjuration

Level: Cleric 3, druid 3, sorcerer/wizard 4, wu jen 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

Duration: 10 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

As *resist energy*, except that it affects all targeted creatures.

SIGN OF SEALING

Abjuration

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One door, chest, or portal up to 30 sq. ft./level in size

Duration: Permanent

Saving Throw: Reflex half; see text

Spell Resistance: No

You seal a door, chest, or similar closure with a prominent magical sigil that bars entry and prevents opening.

A door or object protected by this spell can be opened only by breaking (add 10 to the normal break DC) or by the use of *knock* or *dispel magic*.

If the door or object is forced open by any means (magical or physical), the *sign of sealing* deals 1d4 points of damage per caster level (maximum 10d4) in a 30-foot radius (Reflex half).

A *knock* spell doesn't negate or automatically bypass a *sign of sealing*, but will suppress the sign for 10 minutes on a successful caster level check (DC 11 + the caster level of the sign's creator).

A *sign of sealing* is a magical trap that can be disarmed with a successful DC 28 Disable Device check.

You can pass your own sign safely, and it remains set behind you.

Material Component: A crushed emerald worth 100 gp.

SIGN OF SEALING, GREATER

Abjuration

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 10 minutes

This spell functions like *sign of sealing*, except that it can also be used to seal an open space (such as a corridor or an archway), creating a magical barrier of force that repels any creature attempting to pass.

In addition, doors and objects protected by a *greater sign of sealing* are strengthened, increasing their hardness by 10 and gaining 5 hit points per caster level.

Any object protected by the sign is treated as a magic item for the purpose of making saving throws and gains a +4 resistance bonus on all saves.

If its seal is broken, a *greater sign of sealing* deals 1d6 points of damage per caster level (maximum 20d6) in a 40-foot radius (Reflex half).

A *greater sign of sealing* cannot be passed with a *knock* spell, but it can be dispelled (DC 15 + the caster level of the sign's creator).

It can be disarmed with a successful DC 31 Disable Device check.

Material Component: A crushed emerald worth at least 500 gp.

CONJURATION

ARC OF LIGHTNING

Conjuration (Creation) [Electricity]

Level: Druid 4, sorcerer/wizard 5, warmage 5, wu jen 5

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: A line between two creatures

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

You create natural conductivity between two creatures, and a bolt of electricity arcs between them.

This bolt deals 1d6 points of electricity damage per caster level (maximum 15d6) to both creatures and to anything in the line between them.

Both creatures must be in range, and you must be able to target them (as if this spell had them as its targets).

Draw the line from any corner in one creature's space to any corner in the other's space.

Arcane Material Component: Two small iron rods.

BANDS OF STEEL

Conjuration (Creation)

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 round/level

Saving Throw: Reflex partial

Spell Resistance: No

You conjure a number of shining metallic bands out of thin air, encircling a Medium or smaller creature.

The victim must succeed on a Reflex save or be immobilized (helpless).

If the saving throw succeeds, the victim is only partially trapped by the bands (treat as entangled).

A creature immobilized by the bands can attempt escape as a full-round action, either by bursting free (Strength DC 18) or wriggling out (Escape Artist DC 18).

An entangled creature can use a full-round action to break or disentangle itself with a DC 13 Strength check or a DC 13 Escape Artist check.

Large or larger creatures are too big to be captured or impeded by the bands.

Material Component: Three small silver hoops, interlocked.

BLADES OF FIRE

Conjuration (Creation) [Fire]

Level: Ranger 2, sorcerer/wizard 2, warmage 2

Components: V

Casting Time: 1 swift action

Range: Touch

Targets: Up to two melee weapons you are wielding

Duration: 1 round

Saving Throw: None

Spell Resistance: No

Flames sheathe your melee weapons, harming neither you nor the weapons but possibly burning your opponents.

Your melee weapons each deal an extra 1d6 points of fire damage.

This damage stacks with any energy damage your weapons already deal.

BLAST OF FLAME

Conjuration (Creation) [Fire]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S, M

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

Flames fill the area, dealing 1d6 points of fire damage per caster level (maximum 10d6) to any creature in the area that fails its saving throw.

Material Component: A bit of wick soaked in oil.

BODY OUTSIDE BODY

Conjuration (Creation)

Level: Wu jen 7

Components: V, S, M

Casting Time: 1 standard action

Range: 10 ft.

Effect: One duplicate/5 levels

Duration: 1 minute

Saving Throw: None

Spell Resistance: No

This spell creates one or more indistinguishable duplicates of you, all of which share your ability scores, personality, class levels, skills, feats, and memories.

They carry the same arms, armor, and equipment as you do (but only have mundane versions of any magic gear), and they cannot cast spells or use any spell completion or spell trigger items.

They are friendly toward each other and your companions and will follow any order you give them (even actions that you wouldn't normally do yourself, such as charging a dragon or jumping off a cliff).

The duplicates you create each have one-quarter of your hit point total at the time of casting and take damage as normal in combat.

If a duplicate is slain, it disappears and you take 10 points of damage.

At the end of the spell's duration, all remaining duplicates (and any equipment created with them) disappear without dealing damage to you.

Material Component: A few of your hairs, fingernail parings, or flakes of skin.

CLOUD CHARIOT

Conjuration (Creation) [Water]

Level: Wu jen 8 (water)

Components: V, S, M

Casting Time: 1 standard action

Range: Personal and touch

Target: You and other touched willing creatures

Duration: 10 minutes (D)

When the spell is cast, you and any willing creatures you touch lift into the air on a magic chariot formed of cloud, then fly away in the direction you desire.

You can bring one Medium or smaller creature (carrying gear and objects up to its maximum load) per four caster levels.

A Large creature counts as two Medium creatures, a Huge creature counts as two Large creatures, and so forth.

A *cloud chariot* flies at 10 miles per minute, so that you can cover a distance of 100 miles over the spell's full duration.

You and your passengers feel none of the effects of this swift movement, though, and the ride is perfectly steady and calm in even the worst weather.

When the spell is dismissed, the cloud settles gently to the ground and dissipates.

Should the spell duration expire while a *cloud chariot* is still aloft, the magic fails slowly, with cloud and riders floating downward 60 feet per round for 1d6 rounds.

If the cloud reaches the ground in that amount of time, it lands safely.

If not, it falls the rest of the distance, and all creatures riding in it take falling damage.

A *cloud chariot* descends slowly if the spell is dispelled, but not if it is negated by an *antimagic field*.

Material Component: A small ball of cotton.

CORPSE CANDLE

Conjuration (Creation)

Level: Sorcerer/wizard 3, wu jen 3

Components: S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ghostly hand and candle

Duration: 1 min./level (D); see text

Saving Throw: None

Spell Resistance: No

A ghostly hand bearing a lit candle appears at the spot you choose, shedding light in a 5-foot radius and moving as you desire—forward or back, up or down, straight or around corners at up to 50 feet per round (no concentration required).

The hand and candle are incorporeal and can pass through objects, making them a useful tool for simulating hauntings.

As well, a *corpse candle* illuminates hidden, ethereal, and invisible beings and items, all of which become faintly visible as wispy outlines.

Ethereal creatures remain unreachable from the Material Plane (except with force effects), but invisible creatures have only concealment (20% miss chance) and lose their bonus on attack rolls from invisibility when they are within 5 feet of the candle.

The ghostly radiance also makes immaterial creatures and items slightly material, so that incorporeal creatures within 5 feet of a *corpse candle* have only a 30% chance to avoid damage from corporeal creatures (though all other benefits of being incorporeal are retained).

The hand is Diminutive, has 1 hit point per caster level, and has AC 14 + a deflection bonus equal to your Charisma modifier.

It makes saves as you do but is immune to spells that don't cause damage.

The spell effect ends if the hand is destroyed, and the hand winks out if the distance between you and it exceeds the spell's range.

Material Component: A piece of a corpse untreated by any kind of preservative.

FREEZING FOG

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Fog spreads in 20-ft. radius, 20 ft. high

Duration: 1 min./level

Saving Throw: None

Spell Resistance: No

A bank of freezing mist billows out from the point you designate, obscuring all sight (including darkvision) beyond 5 feet.

Creatures in the first 5 feet of the mist have concealment, while creatures farther inside have total concealment. Each round on your turn, the frigid mist deals 1d6 points of cold damage to each creature and object within it.

The *freezing fog* is so thick that any creature attempting to move through it progresses at a maximum speed of 5 feet (regardless of its normal speed) and takes a -2 penalty on all melee attack rolls and damage rolls and a -6 penalty on ranged weapon attack rolls (but not ranged spell attack rolls).

A creature or object that falls into the fog from above is slowed, so that each 10 feet of mist it passes through effectively reduces overall falling distance by 10 feet.

Freezing fog also coats all solid surfaces in its area with a slick, icy rime, and on your turn each round, each creature in the area of the fog must make a successful Reflex save or fall.

A creature that manages to stand must make a DC 10 Balance check in order to move, falling if it fails its save by 5 or more.

Creatures in a *freezing fog* can't take a 5-foot step.

A severe wind (31+ mph) disperses the cloud in 1 round.

The spell does not function underwater.

HAIL OF STONE

Conjuration (Creation) [Earth]

Level: Wu jen 1 (earth), warmage 1

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (5-ft. radius, 40 ft. high)

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You create a rain of stones that deals 1d4 points of damage per caster level (maximum 5d4) to creatures and objects within the area.

Material Component: A piece of jade worth 5 gp.

ICE KNIFE

Conjuration (Creation) [Cold]

Level: Assassin 2, wu jen 2 (water), warmage 2

Components: S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Effect: One icy missile

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

A magical shard of ice blasts from your hand and speeds to its target.

You must succeed on a normal ranged attack to hit (with a +2 bonus on the attack roll for every two caster levels).

If it hits, an *ice knife* deals 2d8 points of cold damage plus 2 points of Dexterity damage (no Dexterity damage on a successful Fortitude save).

Creatures that have immunity to cold damage also take no Dexterity damage automatically.

A knife that misses creates a shower of ice crystals in a 10-foot-radius burst (see Missing with a Thrown Weapon, page 158 of the *Player's Handbook*, to determine where the shard hits).

The icy burst deals 1d8 points of cold damage to all creatures within the area of the effect (Reflex half).

Material Component: A drop of water or piece of ice.

LEOMUND'S HIDDEN LODGE

Conjuration (Creation)

Level: Bard 5, sorcerer/wizard 5

Components: V, S, F; see text

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 20-ft.-square structure

Duration: 24 hours

Saving Throw: None

Spell Resistance: No

As *Leomund's secure shelter* (see page 247 of the *Player's Handbook*), except that the hidden lodge is perfectly camouflaged to blend in with whatever terrain or surroundings are appropriate.

It might appear as a house-sized boulder in a rocky or mountainous area, as a sand dune in the desert, as a densely tangled thicket, a grassy knoll, or even a mighty tree.

The hidden lodge also obscures all telltale signs of habitation, including any smoke, light, or sound coming from within.

At any distance of more than 30 feet, the lodge is indistinguishable from natural terrain.

Any creature approaching within 30 feet is entitled to a DC 30 Survival check to spot the hidden lodge as an artificial dwelling and not a natural part of the landscape.

Focus: The focus of an *alarm* spell (silver wire and a tiny bell), if this benefit is to be included in the hidden lodge (see the *Leomund's secure shelter* description for more information).

MAGE ARMOR, GREATER

Conjuration (Creation) [Force]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: No

This spell functions like *mage armor*, except that its tangible field of force provides a +6 armor bonus to Armor Class.

Material Component: A tiny platinum shield worth 25 gp.

ORB OF ACID

Conjuration (Creation) [Acid]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of acid

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

An orb of acid about 3 inches across shoots from your palm at its target, dealing 1d6 points of acid damage per caster level (maximum 15d6).

You must succeed on a ranged touch attack to hit your target.

A creature struck by the orb takes damage and becomes sickened by the acid's noxious fumes for 1 round.

A successful Fortitude save negates the sickened effect but does not reduce the damage.

ORB OF ACID, LESSER

Conjuration (Creation) [Acid]

Level: Sorcerer/wizard 1, warmage 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of acid

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

An orb of acid about 2 inches across shoots from your palm at its target, dealing 1d8 points of acid damage.

You must succeed on a ranged touch attack to hit your target.

For every two caster levels beyond 1st, your orb deals an additional 1d8 points of damage: 2d8 at 3rd level, 3d8 at 5th level, 4d8 at 7th level, and the maximum of 5d8 at 9th level or higher.

ORB OF COLD

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of cold

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

This spell functions like *orb of acid*, except that it deals cold damage.

In addition, a creature struck by an *orb of cold* must make a Fortitude save or be blinded for 1 round instead of being sickened.

ORB OF COLD, LESSER

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 1, warmage 1

Effect: One orb of cold

This spell functions like *lesser orb of acid*, except that it deals cold damage.

ORB OF ELECTRICITY

Conjuration (Creation) [Electricity]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of electricity

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

This spell functions like *orb of acid*, except that it deals electricity damage.

In addition, a creature wearing metal armor struck by an *orb of electricity* must make a Fortitude save or be entangled for 1 round instead of being sickened.

ORB OF ELECTRICITY, LESSER

Conjuration (Creation) [Electricity]

Level: Sorcerer/wizard 1, warmage 1

Effect: One orb of electricity

This spell functions like *lesser orb of acid*, except that it deals electricity damage.

ORB OF FIRE

Conjuration (Creation) [Fire]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of fire

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

This spell functions like *orb of acid*, except that it deals fire damage.

In addition, a creature struck by an *orb of fire* must make a Fortitude save or be dazed for 1 round instead of being sickened.

ORB OF FIRE, LESSER

Conjuration (Creation) [Fire]

Level: Sorcerer/wizard 1, warmage 1

Effect: One orb of fire

This spell functions like *lesser orb of acid*, except it deals fire damage.

ORB OF FORCE

Conjuration (Creation) [Force]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One orb of force

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a globe of force 3 inches across, which streaks from your palm toward your target.

You must succeed on a ranged touch attack to hit the target. The orb deals a total of 1d6 points of damage per caster level (maximum 10d6).

ORB OF SOUND

Conjuration (Creation) [Sonic]

Level: Sorcerer/wizard 4, warmage 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of sonic energy

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

This spell functions like *orb of acid*, except that it deals 1d4 points of sonic damage per level (maximum 15d4).

In addition, a creature struck by an *orb of sound* must make a Fortitude save or be deafened for 1 round instead of being sickened.

ORB OF SOUND, LESSER

Conjuration (Creation) [Sonic]

Level: Sorcerer/wizard 1, warmage 1

Effect: One orb of sonic energy

This spell functions like *lesser orb of acid*, except it deals 1d6 points of sonic damage, plus an additional 1d6 points of damage per two caster levels beyond 1st: 2d6 at 3rd level, 3d6 at 5th level, 4d6 at 7th level, and the maximum of 5d6 at 9th level or higher.

REANIMATION

Conjuration (Healing)

Level: Wu jen 7

Components: V, S, M, F

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 1 day/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You restore a semblance of life to a deceased creature, putting the reanimated subject in a state of half life but not fully binding the soul back into the body.

Creatures that have been dead no more than one day per caster level can be reanimated so long as their souls are free and willing to return (see *Bringing Back the Dead*, page 171 of the *Player's Handbook*).

The reanimated creature has 1 hit point and can take only a single move action each round (and so is unable to attack, use spells, or activate magic items).

Its speech (if it could speak while alive) is slow and slurred, and the creature's memory is cloudy, making it difficult for the subject to remember even the basic details of its past life.

If left unwatched, the creature is prone to wander off randomly.

It can gain temporary hit points but cannot increase its 1 hit point by means of a Constitution increase or any other method (though if it is wounded, healing can bring the creature back to 1 hit point again).

The creature can be killed again (and reanimated again if possible), and can be restored to full life by any spell that would restore a fully dead creature to life (such as *raise dead*).

As with *gentle repose*, time spent reanimated does not count against the time limit on raising the creature from the dead, and the reanimated body does not decay.

A reanimated creature is not undead, and it cannot be turned, harmed by positive energy or holy water, or healed by negative energy.

A *greater restoration* spell fully restores the creature's memory but does not improve its physical state.

Material Component: A white shawl and incense.

Focus: A golden amulet shaped like a phoenix.

RING OF BLADES

Conjuration (Creation)

Level: Cleric 3, warmage 3

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

This spell conjures a horizontal ring of swirling metal blades around you.

The ring extends 5 feet from you, into all squares adjacent to your space, and it moves with you as you move. Each round on your turn, starting when you cast the spell, the blades deal 1d6 points of damage +1 point per caster level (maximum +10) to all creatures in the affected area. The blades conjured by a lawful-aligned cleric are cold iron, those conjured by a chaotic-aligned cleric are silver, and those conjured by a cleric who is neither lawful nor chaotic are steel.

Material Component: A small dagger.

SERVANT HORDE

Conjuration (Creation)

Level: Sorcerer/wizard 5, wu jen 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Invisible, mindless, shapeless servants

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

This spell creates a number of *unseen servants* (see page 297 of the *Player's Handbook*), up to a maximum of 2d6 +1 servant per level (maximum +15).

Material Component: A small stick crossbar to which many lengths of knotted thread are attached.

SPHERE OF ULTIMATE DESTRUCTION

Conjuration (Creation)

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 2-ft.-radius sphere

Duration: 1 round/level (D)

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

You conjure a featureless black sphere of nothingness that disintegrates virtually anything it touches.

The sphere flies up to 30 feet per round, and you must make a ranged touch attack against the single creature or object you wish to target.

The sphere stops moving during the round when it attacks, and you must actively direct it to a new target as a move action.

When struck by the sphere, a target takes 2d6 points of damage per caster level (maximum 40d6).

Any creature reduced to 0 or fewer hit points by this spell is disintegrated, leaving behind only a trace of fine dust (though its equipment is unaffected).

When used against an object, the sphere disintegrates as much as one 10-foot cube of nonliving matter.

A creature or object that makes a successful Fortitude save is partially affected, taking only 5d6 points of damage.

If this damage reduces the creature or object to 0 or fewer hit points, it is disintegrated.

The effects of the sphere count as a *disintegrate* spell for the purpose of destroying a *wall of force* or any other spell or effect specifically affected by *disintegrate*.

If the sphere exceeds the spell's range, it winks out.

Material Component: A pinch of dust from a disintegrated creature.

SPIRIT BINDING

Conjuration (Calling) [see text for *lesser spirit binding*]

Level: Wu jen 6

Targets: Up to 16 HD worth of spirits, no two of which can be more than 30 ft. apart when they appear

As *lesser spirit binding*, except you can attempt to call and trap one or more spirit creatures of the same type whose Hit Dice total no more than 16.

If you call multiple spirits, each gets its own saving throw, makes independent attempts to escape, and must be individually persuaded to aid you.

SPIRIT BINDING, GREATER

Conjuration (Calling) [see text for *lesser spirit binding*]

Level: Wu jen 8

Targets: Up to 24 HD worth of spirits, no two of which can be more than 30 ft. apart when they appear

As *lesser spirit binding*, except you can attempt to call and trap one or more spirit creatures of the same type whose Hit Dice total no more than 24.

If you call multiple spirits, each gets its own saving throw, makes independent attempts to escape, and must be individually persuaded to aid you.

SPIRIT BINDING, LESSER

Conjuration (Calling) [see text]

Level: Wu jen 4

Components: V, S

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels); see text

Target: One spirit of up to 8 HD

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

This spell functions as *lesser planar binding* (see page 262 of the *Player's Handbook*), except that it allows you to call and trap a single spirit creature of up to 8 Hit Dice.

When you use a calling spell to call an air, chaotic, earth, evil, fire, good, lawful, or water creature, it becomes a spell of that type.

SUMMON ELEMENTAL MONOLITH

Conjuration (Summoning) [see text]

Level: Cleric 9, druid 9, sorcerer/wizard 9, wu jen 9

Components: V, S, M/DF

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Effect: One summoned elemental monolith

Duration: Concentration, up to 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You conjure a tremendously powerful creature known as an elemental monolith (see page 156).

It appears at the spot you designate and acts immediately on your turn, attacking your opponents to the best of its ability.

If you speak the elemental monolith's language and are close enough to communicate with it, you can direct it not to attack, to attack particular enemies, or to perform other actions.

The monolith can't be summoned into an environment hostile to it in any way (for example, you couldn't summon a fire monolith underwater or an earth monolith high in mid-air).

When you use a summoning spell to summon an air, earth, fire, or water creature, it becomes a spell of that type.

Arcane Material Component: A gem worth 100 gp—aquamarine for air, tourmaline for earth, garnet for fire, or pearl for water.

VITRIOLIC SPHERE

Conjuration (Creation) [Acid]

Level: Sorcerer/wizard 5, wu jen 5

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 10-ft.-radius burst

Duration: Instantaneous; see text

Saving Throw: Reflex negates and Reflex half; see text

Spell Resistance: No

You conjure a sizzling emerald sphere that drenches all within the area with a potent acid.

Affected creatures take 1d4 points of acid damage per caster level (maximum 15d4) and must succeed on a Reflex save or risk taking damage in the following 2 rounds (6d4 points of damage in the second round and 3d4 points of damage in the third round).

Both rounds of continuing damage are subject to Reflex saves for half damage; if an affected creature succeeds on its second Reflex save, it takes no acid damage in the third round.

Material Component: A tiny glass vial filled with aqua regia.

WALL OF BONES

Conjuration (Creation)

Level: Wu jen 4

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Effect: Wall whose area is up to one 10-ft. square/level

Duration: 10 minutes

Saving Throw: None

Spell Resistance: No

This spell causes a wall of bones to erupt from the earth. The wall can be whatever shape you desire as long as its base is solidly on the ground, but it cannot be conjured so that it occupies the same space as a creature or another object.

Though solid, the wall has many small openings and gaps, and creatures on either side have cover and concealment against attacks from the opposite side.

A *wall of bones* can be passed through as a full-round action, but its sharp spikes and edges deal 1d8 points of damage to any Small or Medium creature that attempts to do so.

Small creatures can slip and wriggle through the wall at will, but a Medium creature must make a successful DC 20 Escape Artist check.

Failure means that a creature takes damage as normal and becomes stuck in the wall.

It must make another move attempt the following round to either pass through the wall or pull back from it (taking damage from the movement either way).

Tiny or smaller creatures can slip freely through the wall at half speed, and Large or larger creatures cannot pass through it but might be able to break through (see below) or climb over, taking no damage.

Any creature trapped in the wall can choose to remain motionless until the spell expires to avoid taking any more damage.

The wall is 6 inches thick per caster level.

Each 5-foot square has 10 hit points per 6 inches of thickness, but the wall takes only half damage from slashing or piercing weapons.

A creature can make a Strength check (DC 15 + 2 per caster level, maximum + 10) to break through the wall with a single attack.

The wall is composed of bones of many different types of creatures, fused at bizarre angles, but it cannot be animated by an *animate dead* spell nor communicated with via *speak with dead*.

Material Component: A withered tree branch taken from a cemetery.

DIVINATION

ASSAY RESISTANCE

Divination

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level

This spell enables you to divine the exact nature and vulnerabilities of a single creature's magical defenses, giving you a +10 bonus on caster level checks to overcome its spell resistance.

Assay resistance is effective only against one specific creature per casting, and you must be able to see the creature when you cast the spell.

COMMUNE WITH GREATER SPIRIT

Divination

Level: Wu jen 7

Components: V, S, M, XP

Target: One spirit

As *commune with lesser spirit*, except this spell can contact any spirit creature regardless of Hit Dice, and you can ask one question per caster level.

Material Component: Incense and a small offering worth 25 gp.

XP Cost: 100 XP.

COMMUNE WITH LESSER SPIRIT

Divination

Level: Wu jen 3

Components: V, S, M

Casting Time: 10 minutes

Range: 10 ft.

Target: One lesser spirit

Duration: 1 min./level

Saving Throw: Will negates; see text

Spell Resistance: No

You contact any local spirit creature with 4 or fewer Hit Dice and can ask it up to one question per two caster levels. You must know the identity of the spirit, and you must be within 10 feet of the spirit's location.

The spirit's knowledge is limited to matters within its immediate area (so that the spirit of a great tree in a village cannot answer questions about events outside the village, for example), and you must ask questions that could typically have one-word answers.

"Unclear" is a legitimate answer, because spirits are not necessarily omniscient, but in cases where a one-word answer would be misleading or contrary to the spirit's interests, the DM can respond with a short phrase (five words or less) instead.

If the spirit has been subject to *commune with lesser spirit* (or *commune with greater spirit*) within the past week, this spell fails.

As well, if the spirit's alignment is different from yours, it gets a Will save to resist the spell.

Unasked questions are wasted if the spell's duration expires.

Material Component: Incense and a small offering worth 10 gp.

DISCERN SHAPECHANGER

Divination

Level: Sorcerer/wizard 3, wu jen 3

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 round/level

By taking a standard action to concentrate, you can see the true form of creatures within 60 feet.

Each round, you can examine one creature you can see to determine whether it is polymorphed, disguised, or transmuted, and what its true form is.

If you look at a shapechanger in its true form, you immediately sense its shapechanging ability, but you can't determine what other forms it might be capable of assuming.

For the purpose of this spell, a shapechanger is any creature with the shapechanger type or a supernatural or extraordinary ability that allows it to assume an alternate form.

A wizard who knows *alter self* is not a shapechanger (since a spell is not a supernatural or extraordinary ability), but a barghest is (since it has the supernatural ability to assume alternate forms, even though its type is outsider).

Material Component: A balm of honey and lotus flower, smeared on your eyelids.

UNLUCK

Divination

Level: Bard 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

When you cast this spell, you negatively influence the randomness of fortune for the target.

Whenever the affected creature undertakes an action involving random chance (specifically, whenever any die roll is made for the creature, including attack rolls, damage rolls, and saving throws), two separate rolls are made and the worse result applied.

A creature carrying a *stone of good luck* is immune to the effect of *unluck*, but the stone's effects do not function for the duration of the spell if the creature fails its save.

Material Component: A piece of a broken mirror.

ENCHANTMENT

PROGRAMMED AMNESIA

Enchantment (Compulsion) [Mind-affecting]

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Permanent

Saving Throw: Will negates

Spell Resistance: Yes

You can selectively destroy, alter, or implant memories in the target creature as you see fit.

Casting the spell gives you access to all of the subject's thoughts and memories, allowing you to implement as many of the following specific effects as you like.

Memory Erasure: Any or all memories possessed by the subject can be erased, including knowledge of specific events, people, or places.

Memory Implant: You can create false memories in the subject's mind as you see fit.

Memories of being friends with a hated enemy, events that didn't really take place, or betrayals by people the subject regards as friends could all be implanted.

Negative Levels: You can bestow a number of negative levels equal to 1/2 the subject's character level or less.

This effect represents erasure of class knowledge and training.

These negative levels never become permanent level loss, but they cannot be removed by spells such as *restoration*, remaining in effect as long as the subject is under the effect of this spell.

Persona Rebuilding: By erasing the subject's previous personality and implanting a false set of memories, you can build a new persona for the creature, altering its alignment, beliefs, values, and personality traits.

Some class abilities are affected by alignment changes.

Programmed Trigger: You can program the subject to delay the onset of any of the above effects until a specific event takes place, such as the receipt of a coded message, capture by enemies, or arrival at some destination.

Similarly, you could specify some or all of the alterations you create in a subject to be removed by a specific event.

The nature of *programmed amnesia* is such that a subject given new memories (whether willing or not) might be given cause to suspect that those memories are false, based on how complete your programming is.

For example, a paladin subject to a persona rebuilding that changes her alignment to neutral loses her paladin abilities. Unless you impart a specific believable memory of why she changed alignment, the character will perceive this unexplained gap in her memory and might take steps (such as seeking a magical cure for her “amnesia”) that could negate the spell’s effect (see below).

Generally, your subject must be either willing to undergo the spell or restrained in some way so that it cannot leave or interfere with the casting.

Programmed amnesia is normally permanent unless you care to specify events that will end the effect.

Its effect can also be removed by a *greater restoration* or *wish* spell.

Material Component: A set of small crystal lenses set in gold loops worth 500 gp.

SECRET SIGNS

Enchantment [Mind-Affecting]

Level: Wu jen 1

Components: F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One intelligent creature

Duration: 1 round

Saving Throw: None

Spell Resistance: Yes (harmless)

Using nonverbal means, you can communicate a simple message to one other intelligent creature within range.

By simply waving a hand, placing a scroll on a table, raising an eyebrow, or making any other sign, the spell allows the target to understand any complete thought of twenty-five words or less, so long as you and the target could normally communicate.

You can’t send a verbal message if you don’t speak the target’s language, but can transmit a simple emotional appeal (such as “help” or “danger”) that the recipient knows is from you.

You can use this spell even if you are bound and gagged, so long as the focus is on your person.

Focus: A small glass cone.

TRANSFIX

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer/wizard 6, wu jen 6

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: One or more humanoids within a 10-ft.-radius emanation

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell causes any Medium or smaller humanoids within the area of the spell to become paralyzed.

When casting the spell, you must specify a condition that will end it (“Wait here until the dragon arrives”), even if that condition can never feasibly be met (“Stay here until the sun shines at night”).

Subjects in the area that fail their saves immediately become aware of the condition, but they cannot communicate it due to their paralyzed state (although

someone could use a spell such as *detect thoughts* to ascertain the condition).

For every hour the creatures are transfixed before the condition is met, they are allowed another saving throw to break free of the spell’s effect.

So long as the spell operates, any Medium or smaller humanoid that enters its area must make a successful saving throw or become transfixed with the same exit conditions (they too become aware of the exit conditions on becoming transfixed).

Likewise, any creatures removed from the area are freed from the spell’s effects.

Material Component: A drop of pine resin.

EVOCATION

BLISTERING RADIANCE

Evocation [Fire, Light]

Level: Cleric 5, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 50-ft.-radius spread

Duration: 1 round/level

Saving Throw: None and Fortitude partial; see text

Spell Resistance: Yes

A blazing ball of light is hurled toward the point you designate, erupting into a brilliant hovering sphere.

All sighted creatures in the area are dazzled (no save), and the heat from the *blistering radiance* deals 2d6 points of fire damage to all creatures and objects in the area each round on your turn (Fortitude save for half).

Like *fireball*, *blistering radiance* erupts if it strikes any material body or solid barrier before attaining the prescribed range, and you must make a successful ranged touch attack to send the sphere through a narrow opening or passage.

Blistering radiance counters or dispels any darkness spell of equal or lower level.

Material Component: A bit of tinder and a small lens.

CREEPING DARKNESS

Evocation [Darkness]

Level: Wu jen 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Cloud spreads in a 20-ft.-radius, 20 ft. high (S)

Duration: 3 rounds/level

Saving Throw: None

Spell Resistance: No

This spell creates an amorphous cloud of inky blackness that you can shape and move as desired.

While you concentrate on it, the darkness can move up to 20 feet per round, either floating through air or seeping through the smallest cracks.

The cloud stops all light and sound, so creatures within it (or creatures whose sensory organs and vocal apparatus are within it) are treated as being deafened and blinded (including creatures with darkvision), in addition to being unable to speak or cast spells with verbal components.

As well, creatures entirely within the cloud have total concealment.

A moderate wind (11+ mph) disperses the cloud in 5 rounds; a strong wind (21+ mph) disperses it in 2 rounds. *Material Component:* A whisker from a black cat and a tiny bottle of smoke captured on a moonless night.

DEFENESTRATING SPHERE

Evocation [Air]

Level: Sorcerer/wizard 4

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 2-ft.-radius sphere

Duration: 1 round/level (D)

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

A cloudy gray sphere of whirling air and howling wind flies to attack your enemies and hurl them to the sky.

As a move action, you can make the sphere travel up to 30 feet per round and strike the creature or object you indicate as a ranged touch attack.

Any creature struck by the sphere takes 3d6 points of damage from the force of its winds.

In addition, Medium or smaller creatures must succeed on a Fortitude save or be knocked prone.

Creatures that fall prone must then succeed on a second Fortitude save or be swept up by the sphere and driven 1d8×10 feet into the air, dropping 1d6 squares from their original position in a random direction and taking falling damage as normal.

If some obstacle prevents the target creature from reaching its expelled height, it takes 1d6 points of damage for every 10 feet of movement it was unable to complete, so that a creature hurled 50 feet up in a room with a 20-foot ceiling would take 3d6 points of damage from the impact, then take 2d6 points of damage when it falls back to the ground. The sphere can affect a maximum of one creature or object per round, and winks out if it exceeds the spell's range.

Focus: A gray pearl worth at least 100 gp.

EARTHBOLT

Evocation [Earth]

Level: Wu jen 3 (earth)

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Line up to close range (25 ft. + 5 ft./2 levels)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

With a shout, you strike the ground at your feet and create a bolt of seismic force that causes earth, rock, and sand to fly into the air, striking creatures along its path.

Any creatures caught in the spell's area take 1d6 points of damage per caster level (maximum 10d6).

This spell functions only if you are standing on dirt, clay, sand, or stone (including stone floors), not on wooden floors or other surfaces.

ELEMENTAL BURST

Evocation

Level: Wu jen 1 (all)

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half or Reflex negates; see text

Spell Resistance: Yes

When you cast this spell, you designate a target composed of one of the five wu jen elements—earth, fire, metal, water, and wood.

The target then releases magical energy in a sudden, explosive burst, as follows: *Wood, Metal, or Earth:* The target throws off sharp slivers and fragments; creatures within the burst take 1d8 points of damage (Reflex save for half damage).

Fire: The target shoots out glowing sparks that deal 1d8 points of fire damage to creatures within the burst (Reflex save for half damage).

Water: Water pushes out in a fierce wave, knocking creatures within the area prone unless they make successful Reflex saves.

Creatures get a +4 bonus on their saving throws for each size category they are larger than Medium, or a -4 penalty for each size category smaller than Medium.

Exceptionally stable creatures, such as dwarves or creatures with four legs, get an additional +4 bonus.

The spell does not noticeably affect the structure or form of the target object.

EMERALD FLAME FIST

Evocation [Fire]

Level: Sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: Creatures or objects touched

Duration: 1 round/level; see text

Saving Throw: See text

Spell Resistance: Yes

One of your hands bursts into an aura of brilliant emerald flame, shedding light equal to that of a torch.

You take no damage or penalties from the flames, but on a melee touch attack, an *emerald flame fist* deals 3d6 points of fire damage +1 point per caster level (maximum +20).

The creature you touch must then succeed on a Fortitude save or be engulfed by the fiercely hot aura of flame.

Each round on your turn, a creature engulfed in the flaming aura takes 3d6 points of fire damage +1 point per caster level (maximum +20) until the spell ends (Fortitude save each round for half).

You can use your flaming touch attack repeatedly until one of your targets is engulfed, at which point the flame leaves your hand.

You can use this spell to attack an object.

Nonmagical, unattended objects are automatically engulfed in green flame and take 3d6 points of fire damage +1 point per caster level each round.

FIERY EYES

Evocation [Fire]

Level: Wu jen 1 (fire)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute

Saving Throw: Reflex special; see text

This spell causes your eyes to glow with an unnatural fire whose color you determine (from dull red to brilliant yellow), projecting beams of bright light that clearly illuminate a 5-foot-square area to a range of 5 feet.

By fixing your sight on one spot within 60 feet as a full-round action, you can cause combustible materials to burst into flames, and though you cannot target living creatures with this effect, creatures carrying or wearing items you ignite take 1d6 points of fire damage and must make a DC 15 Reflex save or catch on fire themselves.

FIRE BREATH

Evocation [Fire]

Level: Wu jen 5 (fire)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

As a standard action, you can breathe a gout of flame once per round for the duration of the spell.

You make a ranged touch attack with the flame (to a maximum range of 15 feet), dealing 1d8 points of fire damage per two caster levels (maximum 10d8) on a successful hit.

Fire breath ignites combustibles and damages objects in the area, and it can melt metals with low melting points (such as lead, gold, copper, silver, and bronze).

The spell does not function underwater.

FIRE SHIELD, MASS

Evocation [Fire or Cold]

Level: Sorcerer/wizard 5, warmage 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One or more allied creatures, no two of which can be more than 30 ft. apart

Duration: 1 round/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless) This spell functions like *fire shield* (see page 230 of the *Player's Handbook*), except as noted above.

FIRE SHURIKEN

Evocation [Fire]

Level: Assassin 2, wu jen 2 (fire)

Components: V, S, M

Casting Time: 1 standard action

Range: 0 ft.

Effect: One magical shuriken/3 levels

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell creates shuriken formed of magic fire that you can throw as a normal ranged attack at any target within range.

You are automatically considered proficient with the *fire shuriken*, which have a range increment of 10 feet, threaten a critical hit on a roll of 19–20, and deal 3d6 points of fire damage each on a successful hit (though you and your possessions take no damage as the shuriken are thrown). Any additional damage dealt by the *fire shuriken* (including Strength and sneak attack bonuses) is also fire damage.

The shuriken disappear when they hit, so they cannot set fire to combustibles or damage objects.

You can create one fire shuriken per three caster levels, up to a maximum of six at 18th level.

Material Component: A shuriken coated with pine sap and sulfur.

FIREBURST

Evocation [Fire]

Level: Sorcerer/wizard 2, warmage 2

Components: V, S, M

Casting Time: 1 standard action

Range: 5 ft.

Effect: Burst of fire extending 5 ft. from you

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Fireburst causes a powerful explosion of flame to burst from you, damaging anyone within 5 feet of you.

All creatures and objects within that area, except for you and any creatures or objects that share your space, take 1d8 points of fire damage per caster level (maximum 5d8).

Material Component: A bit of sulfur.

FIREBURST, GREATER

Evocation [Fire]

Level: Sorcerer/wizard 5, warmage 5

Effect: Burst of fire extending 10 ft. from you

This spell functions like *fireburst*, except that it affects creatures within 10 feet of you and deals a maximum of 15d8 points of damage to each one.

FORCE WHIP

Evocation [Sonic, Mind-Affecting]

Level: Bard 2, wu jen 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Effect: A whip of force

Duration: 1 round/level

Saving Throw: Will negates; see text

Spell Resistance: No

This spell creates a whip of magical force that you wield as if you had proficiency with it.

Simply cracking a *force whip* keeps normal animals (but not magical beasts or vermin) at bay unless they succeed on a Will save.

Affected animals stay at least 30 feet away from you for the duration of the spell, as space permits.

On a successful ranged attack with the whip, any normal animal you strike must succeed on a Will save or become frightened.

Against other creature types, you can use a *force whip* in combat as if it were a normal whip.

Material Component: A small silk whip.

ICE BLAST

Evocation [Cold]

Level: Wu jen 2 (water)

Components: S, M

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst

Duration: Instantaneous; see text

Saving Throw: Fortitude negates

Spell Resistance: Yes

When you cast this spell, you spit forth a cloud of icy crystals that extends outward in a cone.

Creatures in the area are covered with a thin layer of ice that deals 1d6 points of damage per two caster levels (maximum 10d6).

In addition, creatures are affected by a temporary frostbite condition, making them fatigued for 1 minute.

A successful Fortitude save negates both the damage and the frostbite effect.

Material Component: A mouthful of water.

INTERNAL FIRE

Evocation [Fire]

Level: Wu jen 9 (fire)

Components: V, S, F

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Targets: Up to 1 HD/level of creatures, no two of which can be more than 20 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

This spell creates a deadly raging heat in the internal organs of the targets, causing them to burst into flame from within.

Targets that fail a Fortitude save die instantly.

Those who save successfully take 6d6 points of fire damage +1 point per caster level (maximum +20) instead.

Focus: An iron brazier filled with red-hot charcoal.

LIGHTNING BLADE

Evocation [Electricity]

Level: Wu jen 2

Components: V, S

Casting Time: 1 standard action

Target: Willing creature touched; see text

Effect: Swordlike blade; see text

Duration: 1 minute or until discharged

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, a sword blade of crackling electrical energy appears in the hand of the willing creature you touch.

A *lightning blade* is the size of a normal longsword but virtually weightless, and it is treated as a martial weapon for the purpose of determining whether the wielder is proficient with it.

The wielder can use the blade to deal electricity damage with a melee touch attack, or to fire a 30-foot line of lightning as a ranged touch attack.

During the spell's duration, the blade can deal up to 1d6 points of electricity damage per caster level (maximum 10d6).

For each attack roll, the blade's wielder decides how many dice of damage the blade will deal on a successful hit, up to the maximum damage potential remaining in the spell.

On a successful attack, the blade deals the specified damage to the target.

If the attack misses, the damage is lost.

The wielder's Strength modifier does not apply to any damage done with a *lightning blade*.

The spell does not function underwater.

MELT

Evocation

Level: Wu jen 1 (fire)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One 5-ft. cube of ice or 10-ft. cube of snow/level, or one cold creature/level

Duration: Instantaneous

Saving Throw: None or Fortitude half; see text

Spell Resistance: See text

This spell allows you to melt ice and snow, or to deal damage to cold creatures.

The spell melts normal ice and snow automatically (no saving throw or spell resistance allowed); melted ice creates an equivalent volume of water that flows and spreads according to its location.

Melted snow creates a volume of water equal to one-tenth its original volume (so that a 10th-level wu jen melting ten 10-foot cubes of snow would create a single 10-foot-cube volume of water in its place).

In both cases, depending on the local temperature, melted ice or snow might begin to freeze again once the water stops flowing, possibly creating a movement hazard.

Against cold creatures, the spell deals 2 points of damage per caster level (maximum 10 points), or half damage on a successful Fortitude save.

Against magically created ice or snow (like that generated by *wall of ice*), the spell deals the same damage (possibly smashing or breaching the ice) but does not melt it.

Cold creatures apply spell resistance, if any.

Material Component: A few crystals of rock salt and a pinch of soot.

PRISMATIC RAY

Evocation

Level: Sorcerer/wizard 5, warmage 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

A single beam of brilliantly colored light shoots from your outstretched hand.

On a successful ranged touch attack, creatures with 6 Hit Dice or fewer are blinded for 2d4 rounds by the *prismatic ray* in addition to suffering a randomly determined effect (see the accompanying table).

PRISMATIC RAY

1d6	Color of Beam	Effect
1	Red	20 points fire damage (Reflex half)
2	Orange	40 points acid damage (Reflex half)
3	Yellow	80 points electricity damage (Reflex half)
4	Green	Poison (Kills; Fortitude partial, take 1d6 Con damage instead)
5	Blue	Turned to stone (Fortitude negates)
6	Indigo	Insane, as <i>insanity</i> spell (Will negates)

RESONATING BOLT

Evocation [Sonic]

Level: Bard 4, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft. line

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You unleash a tremendous bolt of sonic energy from your open hand, dealing 1d4 points of sonic damage per caster level (maximum 10d4) to each creature within its area.

In addition, a *resonating bolt* deals full damage to objects and can easily shatter or break interposing barriers.

If the bolt destroys a barrier, it can continue beyond it if its range permits; otherwise, it stops.

STEAM BREATH

Evocation [Fire]

Level: Wu jen 3 (water)

Components: V, S, M

Casting Time: 1 round

Range: 30 ft.

Area: Cone

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You expel a powerful breath of superheated steam that extends outward as a cone of scalding mist.

Creatures within the cone take 1d6 points of fire damage per caster level (maximum 10d6).

The steam clouds dissipate instantly after the damage is dealt.

Material Component: A glowing piece of charcoal doused with water.

SWORD OF DECEPTION

Evocation

Level: Sorcerer/wizard 5, wu jen 5

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Pale green blade of force

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

You cause a blade of pale green force to appear and strike the opponent you designate, starting with one attack in the round when the spell is cast and continuing each round thereafter.

Though it makes regular melee attacks, the sword strikes as a spell, not a weapon (and so can strike incorporeal creatures).

A *sword of deception* always strikes from your direction, and so it can't be used to flank along with your regular attack, but it could flank along with your allies.

The blade attacks with a base attack bonus equal to your caster level, dealing 1d4 points of damage per hit and threatening a critical hit on a roll of 19–20.

In addition, each successful hit provides a –1 penalty on the target's next saving throw roll (–2 on a successful critical hit).

This penalty is cumulative (to a maximum of –5 on a single creature) and lasts until the creature is forced to make a saving throw in a dangerous situation or receives the benefit of a *remove curse* spell.

Each round, a *sword of deception* continues to attack the previous round's target unless you use a standard action to switch it to a new target within range.

On any round when the weapon switches targets, it gets one attack as a standard action (as it does in the round when the spell is cast).

The weapon can make multiple attack rolls against a single target with a full attack action if its base attack bonus permits.

A *sword of deception* cannot be attacked or damaged (though it can be dispelled as any other spell).

If an attacked creature has spell resistance, make a caster level check the first time the sword attacks.

If successful, the sword can attack that creature with normal effect for the duration of the spell.

If not, the *sword of deception* is dispelled.

If it goes beyond the spell range or out of your sight, the *sword of deception* returns to you and hovers.

Focus: A miniature replica of a sword and a set of loaded dice.

ILLUSION

APPARITION

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Wu jen 2

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell causes the subject's face to take on a horrible and terrifying appearance.

You can create nearly any combination of hideous features—blue skin, parrot face, elephantine nose, rotting tusks, or worse—but you cannot duplicate the appearance of any specific creature or person.

Any creature (excluding you and your allies) that views the recipient and fails its save becomes shaken.

Material Component: A miniature palette dotted with paints of assorted colors.

CHAMELEON

Illusion (Glamer)

Level: Druid 2, wu jen 2

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell alters the coloration of the recipient's body and clothing so as to blend in with the surrounding background, granting the creature a +10 circumstance bonus on any Hide checks.

In areas where the background changes gradually (such as stepping from forest to green field), the coloration shifts quickly enough to grant the bonus while moving at up to one-half normal speed.

When the background changes abruptly (from forest to stone wall, for example), the creature loses the circumstance bonus for 1 round while the coloration change takes effect.

Material Component: The shed skin of a small lizard.

ILLUSORY PIT

Illusion (Figment)

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft. cube/level

Duration: Concentration + 1 round/level

Saving Throw: Will partial; see text

Spell Resistance: Yes

You create an illusory pit, and each creature entering or within the area is forced to make a Will save or believe the floor on which it stands has become a bottomless chasm.

On a successful save, creatures suffer a mild case of vertigo and are stunned for 1 round, but those that fail their saves fall prone and are unable to take any action except clawing desperately at the floor in the hopes of stopping their apparent fall.

An attack on an affected creature frees it from the effect of the illusion but leaves it stunned for 1 round.

Likewise, when the spell ends, creatures that believed they were falling are stunned for 1 round.

Flying creatures passing over an *illusory pit* that succeed on a Will save are unaffected by the spell, but those that fail are stunned for 1 round.

PHANTASMAL ASSAILANTS

Illusion (Phantasm) [Fear, Mind-affecting]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Will disbelief (if interacted with), then Fortitude half; see text

Spell Resistance: Yes

You create phantasmal images of nightmare creatures in the target's mind, visible only as shadowy shapes to you and unseen by all others.

If the target succeeds on an initial Will save, it recognizes that the images are not real, and the spell fails.

If not, the phantasms strike the target, dealing 4 points of Wisdom damage and 4 points of Dexterity damage (2 points each on a successful Fortitude save).

If the subject of a *phantasmal assailant* succeeds in disbelieving and is wearing a *helm of telepathy*, the spell can be turned back upon you with the same effect.

SHADOW BINDING

Illusion (Shadow)

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft.-radius burst

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You cause a multitude of ribbonlike shadows to instantaneously explode outward from the target point. Creatures in the area that fail a Will save are dazed for 1 round and are subsequently entangled.

Breaking free of the *shadow binding* requires a DC 20 Strength check or Escape Artist check, taken as a full-round action.

Material Component: A few links of iron chain.

SUPERIOR INVISIBILITY

Illusion (Glamer)

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 10 minutes

Range: Personal or touch

Target: You or a creature or object weighing no more than 100 lb./level

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: No

This powerful glamor functions like *invisibility*, except that it masks image, scent, and sound alike, concealing the subject from all senses except touch and taste.

As with *greater invisibility*, this spell doesn't end if the subject attacks.

While invisible, the subject exudes no scent and radiates a silence that absorbs all sound and vibration in a 5-foot radius, preventing detection by tremorsense and similar abilities, as well as preventing speech and the casting of spells with somatic components (though the subject remains able to detect scents and can hear as normal).

Superior invisibility renders the recipient immune to detection by *see invisibility*, *faerie fire*, *glitterdust*, *invisibility purge*, *dust of appearance*, and the blindsense ability, though creatures under the effect of the spell can be detected by *true seeing* or the blindsight ability.

Certain mundane conditions (such as leaving footprints) can also render a subject detectable.

WALL OF GLOOM

Illusion (Shadow) [Darkness, Fear, Mind-Affecting]

Level: Sorcerer/wizard 2, wu jen 2

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Semiopaque sheet of darkness up to 40 ft. long, or a ring of darkness with a radius of up to 15 ft.; either form 20 ft. high

Duration: Concentration + 1 round/level

Saving Throw: Will negates; see text

Spell Resistance: Yes

You create a barrier of ominous shadow that obscures vision and deters passage.

Creatures in squares adjacent to the wall have concealment against attacks from the other side, while creatures more than 1 square away have total concealment.

Although the wall is not substantial, a creature with 6 or fewer Hit Dice must succeed on a Will save or be halted at its edge, ending its move action (though a creature can move away from the wall or attempt to move through again if it has a second move action available).

A creature can attempt to pass the wall any number of times, but each previous failure imposes a cumulative -1 penalty on its Will save.

Wall of gloom counters or dispels any *light* spell of equal or lower level.

Material Component: A bit of fleece from a black sheep.

NECROMANCY

ARROW OF BONE

Necromancy [Death]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Target: One projectile or thrown weapon touched

Duration: 8 hours or until discharged

Saving Throw: Fortitude partial

Spell Resistance: Yes

You scribe runes of dire power on a single missile or thrown weapon (usually an arrow, bolt, dart, javelin, or spear), changing the weapon into a sinister missile of cold, enhanced bone.

When thrown or fired at a creature as a normal ranged attack, the weapon gains a +4 enhancement bonus on attack rolls and damage rolls.

In addition, any living creature struck by an *arrow of bone* must succeed on a Fortitude save or be instantly slain.

A creature that makes its save instead takes 3d6 points of damage +1 point per caster level (maximum +15).

Regardless of whether the attack hits, the magic of the *arrow of bone* is discharged by the attack, and the missile is destroyed.

Material Component: A tiny sliver of bone and a vial of blood mixed with powdered precious gems worth 50 gp, used to paint the runes on the projectile.

BACKBITER

Necromancy

Level: Sorcerer/wizard 1, wu jen 1 (wood)

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One weapon

Duration: 1 round/level or until discharged

Saving Throw: Will negates; see text

Spell Resistance: Yes (object)

You cast this spell on any wooden-hafted two-handed weapon (such as a greataxe or heavy flail) or any wooden-hafted reach weapon (such as a longspear or glaive).

The next time that weapon is used to make a melee attack, its shaft twists around so that the weapon strikes the wielder instead, with the attack roll applied against the attacker's own AC.

The wielder gets no warning or knowledge of the spell's effect on his weapon, and though he makes the attack, the self-dealt damage can't be consciously reduced (though damage reduction applies) or changed to nonlethal damage. Once the weapon attacks its wielder (whether successfully or not), the spell is discharged.

The spell can target a weapon of any size as long as its wielder normally uses it as a two-handed weapon or a reach weapon.

For example, a Small longspear wielded by a halfling could be the target of the spell, but not the same Small longspear wielded by a human; in the human's hands, the weapon is too small to twist around and strike its wielder.

Magic weapons targeted by this spell receive a Will save.

An item in a creature's possession uses its own Will save bonus or its wielder's bonus, whichever is higher.

Focus: A dagger.

BLACKFIRE

Necromancy [Evil]

Level: Sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Fortitude negates and Reflex negates; see text

Spell Resistance: Yes

A ray of necromantic black energy springs from your hand, and on a successful ranged touch attack, a living target is engulfed in chill black flames that feed on the fuel of their victim's life force.

A creature engulfed in *blackfire* must make a successful Fortitude save each round that the spell is in effect or take 1d4 points of Constitution damage and become nauseated.

A creature that makes its save takes no damage for that round and is sickened instead.

In addition to its effects on the target, *blackfire* can spread rapidly, and any living creature adjacent to a creature engulfed in *blackfire* must succeed on a Reflex save or become engulfed itself.

Any creature whose Constitution is reduced to 0 or lower by the spell is reduced to a pile of black ash, and can be returned to life only by *true resurrection* or *wish*, the caster of which must succeed on a DC 30 caster level check to restore the victim to life.

If a creature succeeds on its Fortitude save in 3 consecutive rounds, the *blackfire* affecting it gutters out.

The black flames cannot otherwise be extinguished by normal means (such as immersion in water or smothering), but an *antimagic field*, a successful *dispel magic*, a *remove curse*, or a *break enchantment* spell snuffs it out.

As well, a creature protected by *death ward* has immunity to *blackfire*'s effects.

Material Component: A pinch of dust from a vampire destroyed by sunlight.

BURNING BLOOD

Necromancy

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature; see text

Duration: 1 round/level (D)

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

You taint a living creature's blood with a hot, corrosive infusion, dealing 1d8 points of acid damage and 1d8 points of fire damage per round.

The subject can attempt a Fortitude save each round to negate the damage, but a successful save does not prevent damage in future rounds.

Searing pain limits the subject to a single move action in any round when it fails its Fortitude save.

Burning blood does not affect creatures of the construct, elemental, ooze, plant, or undead types.

Material Component: A drop of blood and a pinch of saltpeter.

GHOST LIGHT

Necromancy [Fear, Mind-Affecting]

Level: Wu jen 1

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One Medium or smaller ghostly light

Duration: Concentration

Saving Throw: Will negates

Spell Resistance: Yes

You create a ghostly green radiance anywhere within range that shines with the brightness of a torch and is imbued with unearthly power, causing creatures within 30 feet to become shaken unless they succeed on a Will save.

The light can be shaped to any Medium or smaller form, and can move at a speed of 30 feet as long as you maintain concentration on the spell (so that you can shape the effect into a human form and make it seem to walk or fly, for example).

The shape of a *ghost light* can be changed at any time during the spell's duration as a free action.

Material Component: A bit of phosphorus.

HEART OF STONE

Necromancy

Level: Sorcerer/wizard 8

Components: V, S, F, XP

Casting Time: 1 hour

Range: Personal

Target: You

Duration: 1 year

You exchange your own living heart for a finely crafted heart of perfect, unblemished stone, altering the very nature of your body.

Your living heart can then be stored or hidden anywhere you like, where it continues to beat for the duration of the spell.

While under the effect of *heart of stone*, you gain damage reduction 5/- and resistance to energy 5 against cold, fire, and electricity, but are subject to the following disadvantages.

First, your rate of natural healing slows to only 1 hit point per day (regardless of character level or whether you rest). Second, any attempt to heal you with conjuration (healing) spells, or spell-like and supernatural abilities that mimic the effects of such spells, requires a caster level check (DC 10 + your caster level) to succeed.

Finally, your own living heart is vulnerable to attack; if it is damaged or destroyed, you are instantly slain.

Heart of stone can be dispelled, in which case your own living heart instantly returns to its proper place while the stone heart is transported to the place where you left your own heart.

Your heart and the stone heart likewise switch places if you enter an *antimagic field* (temporarily negating the spell's effects), but the spell resumes when you leave it.

Stone to flesh can also end the spell, though you get a Fortitude saving throw to resist.

Focus: A carved stone heart of exceptional quality (jade, obsidian, or gold-veined marble) worth 5,000 gp.

XP Cost: 1,000 XP.

HEART RIPPER

Necromancy

Level: Assassin 4, wu jen 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One or more creatures, no two of which can be more than 30 ft. apart; see text

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

With a sweep of your hand, invisible bolts of force slam into your targets, instantly slaying each target by driving its heart from its body unless it succeeds on a Fortitude save.

Heart ripper affects a number of creatures with Hit Dice totaling your caster level, none of which can have more than 4 HD.

Creatures with the fewest Hit Dice are affected first, with creatures of equal Hit Dice affected according to which is closest to the spell's point of origin.

Extra Hit Dice not sufficient to affect remaining creatures are wasted.

Creatures that don't depend on their hearts for survival (such as undead and constructs) and creatures with no anatomy (such as oozes) are unaffected by the spell.

KISS OF THE TOAD

Necromancy

Level: Wu jen 2

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: Instantaneous; see text

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

Your touch becomes toxic, poisoning a creature you hit with a successful melee touch attack.

The poison deals 1d6 points of Constitution damage immediately and another 1d6 points of Constitution damage 1 minute later.

Each instance of damage can be negated with a successful Fortitude save.

Focus: A tattoo of a toad on your skin.

PAIN

Necromancy

Level: Wu jen 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: Up to 1 HD/level of creatures, no two of which can be more than 20 ft. apart

Duration: 1 minute

Saving Throw: Fortitude partial

Spell Resistance: Yes

The target creatures are struck by wracking pains and agony, giving them a -4 penalty on attack rolls, skill checks, and ability checks.

A successful Fortitude save lessens this penalty to -2.

Material Component: A live leech.

SPIRIT SELF

Necromancy

Level: Wu jen 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute (D)

You can send your spirit outside yourself in an incorporeal form while maintaining some semblance of life within your physical body.

Your spirit is treated as an incorporeal creature for the purposes of determining movement, special qualities, and weaknesses, and has a speed of 90 feet but cannot move more than 200 feet from your body.

In your spirit form, a spellcaster using *commune with lesser spirit* or *commune with greater spirit* can contact you, and you can cast spells that have only verbal components.

You cannot attack physically or otherwise affect the physical world, and you can return your spirit to your body on your turn as a standard action.

While you function in your spirit form, your body assumes a half-awake state, able to take only one move action per round, losing its Dexterity bonus to Armor Class (if any), and granting its foes a +2 bonus on attack rolls against it. Within 5 feet of your body, you can command it to take simple actions such as walking, talking (in a slow, slurred fashion), or eating.

Damage taken by either your spirit or your body is subtracted from your hit point total, and if you are reduced to 0 or fewer hit points, you die.

Likewise, you die if your body moves more than 200 feet from your spirit form and you cannot follow (while under the effects of a *spirit needle*, for example), or if you are otherwise prevented from returning to your body when the spell ends.

Material Component: A small prayer wheel.

SPIRITWALL

Necromancy [Fear, Mind-Affecting]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Effect: Swirling wall whose area is up to one 10-ft.

square/level, or a sphere or hemisphere with a radius of up to 1 ft./level

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell creates an immobile, swirling mass of greenish-white forms resembling tortured spirits.

One side of the wall, selected by you, emits a low groaning that causes creatures within 60 feet of that side to make a Will save or flee in panic for 1d4 rounds.

Any living creature that merely touches the wall takes 1d10 points of damage as its life force is disrupted.

A living creature passing through the wall takes 1d10 points of damage, as above, and must make a successful Fortitude save or gain one negative level.

The barrier is semimaterial and opaque, providing cover and total concealment against physical attacks, and it blocks magical effects (including spells, spell-like abilities, and supernatural abilities).

Material Component: A clear cut gemstone.

SWORD OF DARKNESS

Necromancy [Evil]

Level: Sorcerer/wizard 7, wu jen 7

Components: V, S, M

Effect: Black blade of negative energy

This spell functions as *sword of deception*, except you cause a black blade of pure negative energy to appear and attack opponents at a distance, as directed by you.

A *sword of darkness* bestows one negative level on each successful hit against a living creature, threatens a critical hit on a roll of 19–20, and bestows an additional negative level on a critical hit.

Negative levels usually have a chance of permanently draining the subject's levels, but the negative levels from *sword of darkness* don't last long enough to do so.

However, if the subject gains at least as many negative levels as it has Hit Dice, it dies.

If the sword strikes an undead creature, it grants that creature 5 temporary hit points per two caster levels (maximum 25 temporary hit points) that last for up to 1 hour.

Material Component: A katana, bastard sword, or longsword, which is shattered against a stone while casting the spell.

WITHERING PALM

Necromancy

Level: Cleric 7, wu jen 7

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your successful melee touch attack deals 1 point of Strength damage and 1 point of Constitution damage per two caster levels to the target (maximum of 15 points each). If you score a critical hit, the subject takes ability drain instead.

TRANSMUTATION

ACCURACY

Transmutation

Level: Warmage 1, wu jen 1

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Targets: One thrown weapon/level touched or one projectile weapon touched

Duration: 10 min./level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

When you cast this spell, you enhance one or more thrown weapons or one projectile weapon to improve its chance of hitting distant targets.

For the duration of the spell, the range increment for the affected weapon or weapons is doubled.

Material Component: Ink used to scribe a mystical character on each weapon affected by the spell.

ANIMATE FIRE

Transmutation [Fire]

Level: Druid 2, wu jen 2 (fire)

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to a 5-ft. cube of fire

As *animate wood*, but you can animate a fire no larger than the maximum volume.

Animated fire has the fire subtype and the burn special attack of a fire elemental, dealing bludgeoning damage plus fire damage on a successful slam attack and possibly setting opponents on fire (save DC 12; see page 98 of the *Monster Manual*).

Fire animated by this spell has hardness 0.

Material Component: A handful of charcoal, sulfur, and soda ash.

ANIMATE WATER

Transmutation [Water]

Level: Druid 1, wu jen 1 (water)

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to a 5-ft. cube of water

As *animate wood*, but you can animate a quantity of water up to the maximum volume.

Water animated by this spell has hardness 0, but has double the normal hit points that an animated object of the same size would have.

Material Component: A vial of pure spring water mixed with cinnabar oil.

ANIMATE WOOD

Transmutation

Level: Druid 1, wu jen 1 (wood)

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: One Small or smaller wooden object

Duration: Concentration, up to 1 round/level (D)

Saving Throw: None

Spell Resistance: No

This spell imbues a Small or smaller wooden object with mobility and a semblance of life, then causes it to immediately attack whomever or whatever you initially designate.

Statistics for the animated wood are as for a Small animated object and can be found on page 13 of the *Monster Manual*.

Wooden objects animated by this spell have hardness 5.

The spell cannot animate objects carried or worn by a creature.

Material Component: A mixture of powdered cinnabar and ground peach pit.

BLINK, GREATER

Transmutation

Level: Bard 5, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

This spell functions like *blink*, except you have control over the timing of your “blinking” back and forth between the Ethereal Plane and the Material Plane.

You can also ready an action to *blink* away from any physical or magical attack, with the attack missing automatically unless it also affects ethereal targets (as a force effect does).

While *blinking*, you have no chance of interfering with your own attacks or your own spells.

When moving through solid objects, you do not risk materializing inside one unless you actually end your movement there, in which case you materialize and are shunted off to the nearest open space, taking 1d6 points of damage per 5 feet traveled in this manner.

BRILLIANT BLADE

Transmutation

Level: Cleric 8, sorcerer/wizard 6

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One melee or thrown weapon, or fifty projectiles (all of which must be in contact with each other at the time of casting)

Duration: 1 min./level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You transform a single melee weapon, thrown weapon, or group of projectiles into a weapon of brilliant energy.

A brilliant energy weapon sheds light as a torch (20-foot radius) and ignore nonliving matter.

Armor bonuses to AC (including any enhancement bonuses to that armor) do not count against it because the weapon passes through armor.

(Dexterity, deflection, dodge, natural armor, and other such bonuses still apply).

A brilliant energy weapon cannot harm undead, constructs, or objects.

If this spell is cast on arrows or crossbow bolts, the effect on a particular projectile ends after one use, whether or not the missile strikes its intended target.

Treat shuriken as arrows, rather than as thrown weapons, for the purpose of this spell.

COBRA'S BREATH

Transmutation

Level: Wu jen 1 (water)

Components: S, M

Casting Time: 1 standard action

Range: 10 ft.

Target: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: No

Your saliva changes into a virulent poison that you then spray forth in a 10-foot cone.

Creatures within the cone must make a Fortitude save or take 1d3 points of Constitution damage.

The poison does not affect you, nor does it produce any secondary effects or remain potent once sprayed.

Material Component: A cobra's fang.

DANCING BLADE

Transmutation

Level: Wu jen 4 (metal)

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One sword

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

When you cast this spell, you cause the target sword to hover and attack on its own, aiding a character you designate.

The sword must be either unattended (in which case you choose which creature it will fight for, so long as both creature and weapon are within range) or in the possession of a willing ally who benefits from the spell.

A *dancing blade* attacks using the initiative modifier and base attack bonus of the creature it fights for, though it gains no other attack or damage modifiers the creature might have (including those from Strength) and takes a -4 penalty on its attack rolls if the creature it fights for doesn't have proficiency with a weapon of its kind.

The sword moves with the creature it fights for (and so can take the full attack action if that creature does), staying within 5 feet at all times and dropping to the ground if that creature is reduced to 0 or fewer hit points.

Controlling the sword requires no concentration, and the designated creature can fight with another weapon at the same time.

A *dancing blade* prevents two opponents from flanking the creature it fights for (though that creature can be flanked by additional opponents).

Material Component: A tiny stick puppet.

DARKVISION, MASS

Transmutation

Level: Sorcerer/wizard 4

Components: V, S, M

Range: 10 ft.

Targets: The caster and all allies in a 10-ft.-radius burst, centered on the caster

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

As *darkvision* (see page 216 of the *Player's Handbook*), except that all target creatures receive the spell's benefits.

Unlike with *darkvision*, recipients of this spell cannot have the ability made permanent with a *permanency* spell.

Material Component: A dried carrot or three small agates.

DECAPITATING SCARF

Transmutation

Level: Wu jen 7 (metal)

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: No

When you cast this spell, you flick a silk scarf at one creature within range, magically propelling it toward the target.

The scarf assumes an ironlike hardness on the way, and then wraps around the creature's neck.

You must have line of sight to the target and hit with a normal ranged attack.

If you hit, the target must make a Fortitude saving throw; failure indicates that the scarf has decapitated the victim.

A target creature that makes its save takes 1d4 points of damage per caster level (maximum 20d4) before freeing itself from the *decapitating scarf*.

Constructs and most undead (except vampires) are not immediately killed by decapitation, and take only 6d4 points of damage whether they make their save or not. Oozes, aberrations, and other creatures without a head are immune to the spell's effects.

Focus: The silk scarf.

EARTHEN GRASP

Transmutation [Earth]

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Animated earthen arm

Duration: 2 rounds/level

Saving Throw: None

Spell Resistance: Yes

You bring forth from the ground an arm made of dense, compacted earth or soil that can grapple your foes.

You can cause the arm to rise out of only earth, mud, grass, or sand, and the spell fails if you attempt to cast it in an area with the wrong materials (including stone).

Treated the arm as a Medium creature, with a base attack bonus equal to your caster level and a Strength score of 14 +2 per three caster levels (16 at 3rd level, 18 at 6th level, and so on).

The arm doesn't move from the square it appears in, but can make one grapple attempt per round against any creature in its square or any adjacent square, provoking attacks of opportunity as normal.

If the arm can target multiple creatures, the caster chooses one.

If the caster is unable to choose a target, the arm attacks a random creature within reach (possibly including the caster's allies).

Each round that it successfully pins a target, the hand deals 1d6 points of lethal damage (plus its Strength modifier).

The earthen arm has AC 15, hardness 4, and 3 hit points per caster level.

If reduced to 0 or fewer hit points, it crumbles to dust.

Material Component: A miniature hand sculpted from clay.

ENTANGLING SCARF

Transmutation

Level: Wu jen 2 (metal)

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

When you cast this spell, you flick a silk scarf at one creature within range, magically propelling it toward the target.

The scarf assumes an ironlike hardness on its way and then wraps around the target creature.

You must have line of sight to the target and hit with a ranged touch attack.

If you hit, the target must make a successful Reflex save or become entangled.

Focus: The silk scarf.

FIENDFORM

Transmutation [Evil]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

This spell functions like *alter self*, except that you can take the form of any fiendish creature, demon, or devil that can be summoned by a *summon monster* I, II, III, or IV spell, regardless of size.

You can assume only one form with each use of the spell, but you gain all that form's extraordinary, spell-like, and supernatural abilities, and your type changes to outsider. Spells and effects that harm or ward evil outsiders affect you, and any effect that would normally banish an outsider to its home plane instead ends the spell and leaves you staggered for 1 round per caster level.

Material Component: A bone from any fiendish creature, half-fiendish creature, demon, or devil.

FIRE WINGS

Transmutation [Fire]

Level: Wu jen 3 (fire)

Components: V, S, M, F

Casting Time: 1 round

Range: Personal

Target: You

Duration: 10 min./level

This spell transforms your arms into wings of brilliant fire (resembling those of a phoenix), which do not damage you or any items you carry.

Since your arms are transformed, you cannot hold items in your hands or cast spells with somatic components while using *fire wings*, but rings, bracers, and other items worn on your arms meld into the new form and continue to function normally.

The wings allow you to fly at a speed of 60 feet (good) while carrying no more than a light load.

You can ascend at half speed and descend at double speed, and you can charge (but not run) while flying.

You can make unarmed attacks with *fire wings* but are not considered proficient with them, taking a -4 penalty on your attack rolls.

A successful unarmed strike deals 2d6 points of fire damage in addition to your normal unarmed attack damage (treated as lethal damage while the spell is in effect).

The wings are extinguished (and the spell ends) if subjected to a *quench* spell, immersed in water for 1 round, or exposed to winds of hurricane force or greater.

If the spell expires while you are aloft, you fall normally.

Material Component: The feather of a bird, which you must burn when you cast the spell.

Focus: A golden amulet shaped like a phoenix.

FIST OF STONE

Transmutation [Earth]

Level: Sorcerer/wizard 1, warmage 1

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute

You transform one of your hands into a mighty fist of living stone, gaining a +6 enhancement bonus to Strength for purposes of attacks, grapple checks, or breaking and crushing items.

In addition, you gain the ability to make one natural slam attack as a standard action, dealing 1d6 points of damage plus your new Strength bonus (or 1-1/2 times your Strength bonus if you make no other attacks that round). You can make the slam attack as a natural secondary attack with the normal -5 penalty (or -2 penalty if you have the Multiattack feat; see page 304 of the *Monster Manual*) as part of a full attack action.

However, you cannot gain more than one slam attack per round with this spell due to a high base attack bonus (+6 or higher).

Your fist undergoes no change in size or form, remaining as flexible and responsive as it would normally be while under the spell's effect.

Material Component: A pebble inscribed with a stylized fist design.

FLENSING

Transmutation [Evil]

Level: Sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One corporeal creature; see text

Duration: Up to 4 rounds; see text

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

When you cast this spell, you literally strip the flesh from a corporeal creature's body, inflicting incredible pain and psychological trauma.

Each round, the target takes 2d6 points of damage, 1d6 points of Charisma damage, and 1d6 points of Constitution damage.

A successful Fortitude save negates the ability damage, reduces the hit point damage by half, and ends the spell.

In each round when the target creature is affected, it gets a new save.

Flensing has no effect on creatures in gaseous form.

Material Component: An onion.

FLY, MASS

Transmutation

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

As *fly* (see page 232 of the *Player's Handbook*), except this spell confers the power of flight upon all targeted creatures. Each recipient of the spell must remain within 30 feet of at least one other recipient, or the spell ends for the creature that is separated from the others.

If only two individuals are affected, the spell ends for both if the distance between them exceeds 30 feet.

GHOSTFORM

Transmutation

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

You assume a visible, incorporeal form like that of a manifesting ghost.

You have no physical body while in this state.

You can be harmed only by other incorporeal creatures, magic weapons or creatures that strike as magic weapons, and spells, spell-like abilities, or supernatural abilities.

You are immune to all nonmagical attack forms.

Even when hit by spells or magic weapons, you have a 50% chance to ignore any damage from a corporeal source (except for positive energy, negative energy, force effects such as *magic missile*, or attacks made with ghost touch weapons).

Nondamaging spell effects affect you normally unless they require corporeal targets to function (such as *implosion*) or they create a corporeal effect that incorporeal creatures would normally be unaffected by (such as a *web* or *wall of stone* spell).

As an incorporeal creature, you have no natural armor bonus but have a deflection bonus equal to your Charisma bonus (always at least +1, even if your Charisma score does not normally provide a bonus).

You can enter or pass through solid objects while in *ghostform*, but you must remain adjacent to the object's exterior, and so cannot pass entirely through an object whose space is larger than your own.

You can sense the presence of creatures or objects within a square adjacent to your current location, but enemies have total concealment (50% miss chance) from you while you are inside an object.

In order to see farther from the object you are in and attack normally, you must emerge.

While inside an object, you have total cover, but when you attack a creature outside the object you have cover only, so a creature outside with a readied action could strike at you as you attack.

You cannot pass through a force effect.

While under the effect of *ghostform*, your attacks pass through (ignore) natural armor, armor, and shields, although deflection bonuses and force effects (such as *mage armor*) work normally against you.

Your nonmagical attacks have no effect on corporeal targets, and any attack you make with a magic weapon against a corporeal target has a 50% miss chance, except for attacks you make with a ghost touch weapon, while are made normally (no miss chance).

Spells you cast while in *ghostform* affect corporeal targets normally, including spells that require you to make an attack roll (such as rays or melee touch spells).

You can pass through and operate in water as easily as you do in air.

You cannot fall or take falling damage.

You cannot make trip or grapple attacks, nor can you be tripped or grappled.

In fact, you cannot take any physical action that would move or manipulate an opponent or its equipment, nor are you subject to such actions.

You have no weight while in *ghostform* and do not set off traps that are triggered by weight.

You move silently and cannot be heard with Listen checks if you don't wish to be while in *ghostform*.

You have no Strength score while incorporeal, so your Dexterity modifier applies to both your melee attacks and ranged attacks.

Nonvisual senses, such as scent and blindsight, are either ineffective or only partly effective with regard to you.

You have an innate sense of direction and can move at full speed even when you cannot see.

GIANT SIZE

Transmutation

Level: Wu jen 7

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute

GIANT SIZE							
Caster Level	Size	Str	Dex	Con	Nat. AC	AC/Atk Mod	Space/Reach
1st–15th	Huge (20 ft.)	+16	-2	+4	+3	-2	15 ft./15 ft.
16th–18th	Gargantuan (40 ft.)	+24	-2	+8	+7	-4	20 ft./20 ft.
19th or higher	Colossal (72 ft.)	+32	-2	+12	+12	-8	30 ft./30 ft.

When you cast this spell, you grow to Huge, Gargantuan, or Colossal size, depending on your caster level.

Your Strength, Dexterity, Constitution, natural armor, size modifier to Armor Class and attack rolls, and space and reach all change as shown on the accompanying table.

(You need not assume the largest size you are capable of; you can choose to grow only to a smaller size if you wish).

All your equipment changes size with you, allowing you to use weapons or magic items effectively in your giant form.

See Table 2–2: Increasing Weapon Damage by Size, page 28 of the *Dungeon Master's Guide*, to determine the damage dealt by any weapons carried when you cast *giant size*.

Material Component: The scale of a dragon or hairs from the head of a giant.

IRON SCARF

Transmutation

Level: Wu jen 1 (metal)

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When you cast this spell, you flick a silk scarf at one creature within range, magically propelling it toward the target.

The scarf assumes an ironlike hardness on the way.

You must have line of sight to the target and hit with a normal ranged attack with the scarf.

If you hit, the target takes 1d8 points of damage +1 point per caster level (maximum +5).

Focus: The silk scarf.

LOW-LIGHT VISION

Transmutation

Level: Assassin 1, ranger 1, sorcerer/wizard 1

Components: V, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The target creature gains low-light vision: the ability to see twice as far as a human in starlight, moonlight, torchlight, and similar conditions of poor illumination.

The target retains the ability to distinguish color and detail under these conditions.

Arcane Material Component: A small candle.

MAGNETISM

Transmutation

Level: Wu jen 3 (metal)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: No

A shimmering magnetic ray springs from your hand and pulls iron or steel objects to your grasp.

Once per round on a successful ranged touch attack, the magnetic ray can draw an object toward you with an effective Strength score of 30 (and so can target items weighing up to 8,000 pounds).

Any unattended and unsecured item flies directly and safely to your hand (or to the edge of your space if too large to be wielded), but drawing an item toward you that another creature is holding (such as a weapon) requires a successful disarm attempt (see page 155 of the *Player's Handbook*).

You use the ray's Strength modifier (+10) in place of your own, and such attempts do not provoke attacks of

opportunity, even if you use *magnetism* against a creature in an adjacent square, although casting the spell might still provoke attacks of opportunity.

If you succeed on the disarm attempt, the weapon flies from your opponent's hand to your own.

If you target an item that is attended but not held, such as a weapon at someone's belt, the creature bearing the item gets a Reflex save to hang onto it, dropping whatever else is in one hand at the time unless it has a free hand.

On a failed save, the item flies from the creature's hand to your own.

Otherwise, make a disarm attempt as above.

If an item is secured in some way, you can make a Strength check (using the ray's +10 bonus) to break or burst whatever holds it.

Material Component: A piece of lodestone.

METAL SKIN

Transmutation

Level: Wu jen 5 (metal)

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, the recipient's skin toughens and gleams as if metallic, and it gains a natural armor bonus of +8.

The target becomes somewhat slow and stiff, taking a -2 penalty to Dexterity.

Material Component: A small piece of rhinoceros hide.

MINUTE FORM

Transmutation

Level: Wu jen 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute

When you cast this spell, you shrink to Tiny, Diminutive, or Fine size, depending on your caster level).

Your Strength, Dexterity, Constitution, size modifier to Armor Class and attack rolls, and space and reach all change as shown on the accompanying table.

(You need not assume the smallest size you are capable of; you can choose to shrink only to a larger size if you wish). None of your ability scores can be reduced below 1 by this spell.

All your equipment changes size with you, allowing you to use weapons or magic items effectively in your smaller form.

See Table 2-3: Decreasing Weapon Damage by Size, page 28 of the *Dungeon Master's Guide*, to determine the damage dealt by any weapons carried when you cast *minute form*.

Material Component: A flea.

MINUTE FORM

Caster Level	Size	Str	Dex	Con	AC/Atk Mod	Space/Reach
15th-16th	Tiny (18 in.)	-8	+4	-2	+2	2-1/2 ft./0 ft.
17th-18th	Diminutive (9 in.)	-10	+6	-2	+4	1 ft./0 ft.
19th or higher	Fine (3 in.)	-10	+8	-2	+8	1/2 ft./0 ft.

POISON NEEDLES

Transmutation

Level: Wu jen 4 (metal)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None and Fortitude negates; see text

Spell Resistance: Yes

A needle flicked from your fingers multiplies into a hail of needles that drip poison, striking a single target.

If you hit with a normal ranged attack, the target takes 1d4 points of damage per caster level (maximum 5d4) and experiences an effect of your choice from the following.

- The target takes 1d8 points of Constitution damage immediately and another 1d8 points of Constitution damage 1 minute later.

Each instance of damage can be negated with a separate Fortitude save.

- The target is paralyzed for 2d6 minutes.

A successful Fortitude save negates the effect.

- The target takes 1d10 points of Dexterity damage immediately and another 1d10 points of Dexterity damage 1 minute later.

Each instance of damage can be negated with a separate Fortitude save.

Material Component: A long metal needle.

RAIN OF NEEDLES

Transmutation

Level: Wu jen 2 (metal)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Up to one creature/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A needle flicked from your fingers multiplies into a hail of needles, raining down on all the targets you select.

You make a normal ranged attack against each target separately, and the needles deal 1d4 points of damage per caster level (maximum 5d4) divided up among the targets. Thus, a 4th-level wu jen can target a single creature with 4d4 points of damage, or two creatures with 2d4 points of damage each, and so forth.

Material Component: A long metal needle.

REPAIR CRITICAL DAMAGE

Transmutation

Level: Sorcerer/wizard 4

As *repair light damage*, except you repair 4d8 points of damage +1 point per caster level (maximum +20).

REPAIR LIGHT DAMAGE

Transmutation

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Construct touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When laying your hand upon a construct that has at least 1 hit point remaining, you transmute its structure to repair the damage it has taken.

The spell repairs 1d8 points of damage +1 point per caster level (maximum +5).

REPAIR MINOR DAMAGE

Transmutation

Level: Sorcerer/wizard 0

As *repair light damage*, except you repair 1 point of damage to a construct.

REPAIR MODERATE DAMAGE

Transmutation

Level: Sorcerer/wizard 2

As *repair light damage*, except you repair 2d8 points of damage +1 point per caster level (maximum +10) to a construct.

REPAIR SERIOUS DAMAGE

Transmutation

Level: Sorcerer/wizard 3 As *repair light damage*, except you repair 3d8 points of damage +1 point per caster level (maximum +15) to a construct.

SCALES OF THE LIZARD

Transmutation

Level: Wu jen 1

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute

When you cast this spell, your skin toughens and shimmers as if covered with scales.

You gain a +2 enhancement bonus to your natural armor bonus, increasing to +3 at 6th level, +4 at 9th level, and +5 at 12th level or higher.

The enhancement bonus provided by *scales of the lizard* stacks with your own natural armor bonus (if any), but not with other enhancement bonuses to natural armor.

A creature without natural armor has an effective natural armor bonus of +0, much as a character wearing only normal clothing has an armor bonus of +0.

Focus: A tattoo of a lizard on your skin.

SMOKE LADDER

Transmutation

Level: Wu jen 1 (fire)

Components: V, S, F

Casting Time: 1 round

Range: Touch

Effect: A ladder of smoke

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

You create a misty ladder up to 10 feet long per caster level, shaped from the smoke given off by a fire as you cast the spell.

A *smoke ladder* weighs virtually nothing and can be easily handled at any length.

Always steady and rigid, the ladder needs no support or object to lean against, but can simply be placed in the desired position and climbed.

By casting the spell again on an existing *smoke ladder* before it dissipates, you can reset its duration.

Focus: A large fire of green wood.

SNAKE DARTS

Transmutation

Level: Wu jen 4

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: One or two creatures

Duration: Instantaneous; see text

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

When you cast this spell, your snake tattoos (the spell's focus) transform into real poisonous snakes that fly from you to the target or targets you select, striking like darts. The snakes always hit, dealing 3d6 points of damage each. The poison each snake carries deals 1d6 points of Constitution damage immediately and another 1d6 points of Constitution damage 1 minute later.

Each instance of ability damage can be negated by a successful Fortitude save.

After striking the targets, the living snakes fly back to you and must be swallowed before you can cast the spell again. Swallowing the snakes is a standard action that causes you no harm and does not provoke attacks of opportunity.

Once they are swallowed, the tattoos reappear immediately on your arms.

Focus: Two snake tattoos on your skin, usually one coiled around each forearm.

SPIRIT NEEDLE

Transmutation

Level: Wu jen 6 (metal)

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One spirit creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

A needle flicked from your fingers magically penetrates a spirit creature's aura.

If you hit with a normal ranged attack, the spirit loses the protective benefits of being incorporeal and is held in place

(losing any Dexterity bonus to Armor Class and giving attackers a +4 bonus on attack rolls against it). Though the spirit cannot move for the duration of the spell, it can still take standard and full-round actions (including attacks).

A pinned spirit is unable to use any supernatural or spell-like ability that would transport it from its current location (such as *dimension door* or *teleport*) or alter its substance or state (such as *gaseous form* or *ethereal jaunt*).

The spirit cannot remove the needle that pins it in place, but another creature can do so as a standard action.

Focus: A long metal needle.

STONY GRASP

Transmutation [Earth]

Level: Sorcerer/wizard 3

Effect: Animated stone arm

Duration: 1 round/level

As *earthen grasp* (see page 104), except the stony arm can appear from any natural surface, including unworked rock, earth, mud, grass, or sand.

The stone arm has AC 18, hardness 8, and 4 hit points per caster level.

Material Component: A miniature hand sculpted from stone.

SUMMONING WIND

Transmutation

Level: Wu jen 5

Components: V, S

Casting Time: 10 minutes

Range: 10 miles/level

Targets: Up to 10 creatures/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You send a message or sound on the wind to a number of specific creatures that you identify while casting the spell. You need not directly know the recipients, but you must be able to distinguish them by their location, position, or some feature other than race or character class.

For example, you could send a *summoning wind* to the soldiers of your palace guard or to the governors of all the provinces in the empire, provided you know that such characters exist.

You can prepare the spell to bear a message of up to twenty-five words, cause the spell to deliver any other normal sounds for 1 round, or merely have a *summoning wind* seem to be a mysterious stirring of the air.

The wind travels to each recipient provided that it can find a way from you to their locations (the wind can travel around virtually any obstacle, but can't pass through closed portals or windows, regardless of whether they're airtight). You choose its speed (from as slow as 1 mile per hour to as fast as 1 mile per 10 minutes), but the *summoning wind* is as gentle and unnoticed as a zephyr until it reaches the recipients, where it delivers its whisper-quiet message and dissipates.

As with *magic mouth*, a *summoning wind* cannot speak verbal components, use command words, or activate magical effects.

SWIM

Transmutation [Water]

Level: Druid 2, sorcerer/wizard 2, wu jen 2 (water)

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell gives the recipient a swim speed like any aquatic creature (though not the ability to breathe water or hold one's breath beyond normal limits).

So long as the creature isn't carrying more than a light load, it can swim at its normal speed without making Swim checks.

It also gains a +8 competence bonus on any Swim checks to perform special actions or avoid hazards, though it still takes the normal penalty for weight carried (-1 per 5 pounds).

The recipient can choose to take 10 on swim checks, even if rushed or threatened, and can use the run action while swimming if it swims in a straight line.

If the creature is carrying more than a light load, it must make Swim checks to move (taking the normal penalty for weight carried), but all other benefits and bonuses of the spell still apply.

Material Component: A goldfish scale.

TERRA COTTA LION

Transmutation

Level: Wu jen 5 (earth)

As *terra cotta warrior*, but the spell animates a statuette of a foo lion (a celestial dire lion) into a Huge animated object (Huge construct, 90 hp, AC 13, hardness 6, speed 30 ft., attack slam +9, damage 2d6+7).

As with *terra cotta warrior*, the lion has none of the animated object attack forms given in the *Monster Manual*.

Focus: A terra cotta statue of a foo lion, up to 1 foot tall and costing 10 gp.

TERRA COTTA WARRIOR

Transmutation

Level: Wu jen 3 (earth)

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: One statuette touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell turns an innocuous statuette of decoration and devotion into a full-sized warrior, ready to fight your foes. The statuette becomes a Medium animated object (Medium construct, 35 hp, AC 14, hardness 6, speed 40 ft., attack slam +2, damage 1d6+1) that attacks a specified target on your turn as directed by you.

You can change the designated target as a move action (as if directing an active spell).

The statuette can be reused if the terra cotta warrior remains intact at the end of the spell, but if the warrior is

reduced to 0 or fewer hit points, it crumbles to powder and the statuette is lost.

See page 13 of the *Monster Manual* for full information on animated objects, but the *terra cotta warrior* has none of the given attack forms.

Focus: A terra cotta statue of a warrior, up to 6 inches tall and costing 1 gp.

THORNSKIN

Transmutation

Level: Druid 3, wu jen 3 (wood)

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Your skin sprouts thorns when this spell is cast, increasing the damage you deal with an unarmed strike and making you difficult to grab.

As well as dealing lethal damage on an unarmed strike (if you don't already do so), you deal an extra 1d6 points of piercing damage (so that a human under the effect of *thornskin* would deal 1d3 points of bludgeoning damage plus 1d6 points of piercing damage with an unarmed strike).

In addition, any creature that hits you with a natural weapon or unarmed strike (including all successful grapple checks) takes 5 points of piercing damage.

Material Component: A thorn.

TRANSMUTE ROCK TO LAVA

Transmutation [Earth, Fire]

Level: Druid 9, sorcerer/wizard 9, wu jen 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: One 10-ft. cube

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: No

You transform natural, uncut, or unworked rock of any sort into an equal volume of red-hot molten lava.

All creatures in the spell's area who make a successful Reflex save take 2d6 points of fire damage provided they can physically escape the area on their next turn.

Creatures that fail their save, or those unable to escape the area, take 20d6 points of fire damage for each round they remain in the area.

Creatures in the lava have their speed reduced to 5 feet and take a -2 penalty on attack rolls and to Armor Class.

Even after leaving the area of the spell, creatures that were exposed to the lava take half damage (either 1d6 or 10d6) for an additional 1d3 rounds.

If *transmute rock to lava* is cast upon the ceiling of a cavern or tunnel, the lava falls to the floor and spreads out in a 15-foot-radius pool at a depth of approximately 1-1/2 feet.

The rain of lava deals 2d6 points of fire damage and 1d6 points of bludgeoning damage to anyone caught directly beneath (Reflex half).

In addition, creatures take 2d6 points of fire damage each round when they are caught in the area of the pool, then 1d6 points of fire damage for 1d3 rounds after they escape.

While constructions of worked stone can't be targeted with this spell, casting it on unworked stone below or adjacent to such structures does 10d6 points of fire damage per round to any part of the structure in contact with the lava. Wooden structures in contact with lava instantly burst into flame.

The lava cools naturally from its surface toward its center, and it no longer deals fire damage after 2d6 hours as it slowly reverts to stone.

Though a 15-foot-radius pool can take as long as two days to completely cool, the core of a 10-foot cube of lava might remain molten for a month or more.

Magical or enchanted stone is not affected by the spell.

WATER TO POISON

Transmutation

Level: Wu jen 4 (water)

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: One ounce of water/level

Duration: Instantaneous

Saving Throw: None; see text

Spell Resistance: No

This spell transforms a volume of water into an equal volume of colorless, tasteless, ingested poison with a save DC equal to the spell's DC.

When ingested, the poison deals 1 point of Constitution damage followed by 1d8 points of Constitution damage 1 minute later.

A successful Will save can negate each instance of damage.

A single swallow (1 ounce) of poison is enough to affect a single creature; drinking more does not increase the effect.

Material Component: The fang of a poisonous snake and a bloodstone worth at least 50 gp.

WHIRLING BLADE

Transmutation

Level: Bard 2, sorcerer/wizard 2, warmage 2

Components: V, S, F

Casting Time: 1 standard action

Range: 60 ft.

Effect: 60-ft. line

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

As you cast this spell, you hurl a single slashing weapon at your foes, magically striking at all enemies along a line to the extent of the spell's range.

You make a normal melee attack, just as if you attacked with the weapon in melee, against each foe in the weapon's path, but you can choose to substitute your Intelligence or Charisma modifier (as appropriate for your spellcasting class) for your Strength modifier on the weapon's attack rolls and damage rolls.

Even if your base attack bonus would normally give you multiple attack rolls, a *whirling blade* gets only one attack (at your best attack bonus) against each target.

The weapon deals damage just as if you had swung it in melee, including any bonuses you might have from ability scores or feats.

No matter how many targets your weapon hits or misses, it instantly and unerringly returns to your hand after attempting the last of its attacks.

Focus: A slashing melee weapon that the caster hurls.

WOOD ROT

Transmutation

Level: Druid 5, wu jen 5 (wood)

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: One nonmagical wooden object or a volume of wood; or one plant creature

Duration: Instantaneous or 1 round/level; see text

Saving Throw: None

Spell Resistance: No

When you cast this spell, an insidious rot immediately taints any wooden object or plant creature you touch.

Any unattended nonmagical wooden item smaller than 6 feet in diameter, or a 3-foot-radius volume of a larger wooden object (such as a wooden door), is instantly destroyed by *wood rot*.

In combat, you can use the spell to attempt to sunder any wooden or wooden-hafted weapon; the weapon or its wooden portion is destroyed on a successful melee touch attack.

Attempting to sunder a weapon generally provokes attacks of opportunity, and *wood rot* has no effect on wooden or wooden-hafted weapons that strike you, even if you hold the charge.

Against wooden shields or armor, you also make a melee touch attack.

Targets too large to be destroyed outright take a -1d6 penalty to their bonus to Armor Class on a successful hit and are rendered unusable if the penalty exceeds the bonus. Any attack against a wooden object discharges the spell, and wooden magic items are immune to the effect of *wood rot*.

Against plant creatures, *wood rot* deals 3d6 points of damage +1 point per caster level (maximum +15) on a successful attack.

Against plant creatures only, the spell lasts for 1 round per level, and you can make one melee touch attack per round.

Once it is used to make an attack against a plant creature, *wood rot* cannot be used to attack or destroy wooden items.

Material Component: A live termite.

UNIVERSAL

ENHANCE FAMILIAR

Universal

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Familiar touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You infuse your familiar with vigor, granting it a +2 competence bonus on saves, attack rolls, and melee damage rolls, as well as a +2 dodge bonus to Armor Class.

FAMILIAR POCKET

Universal

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: One container or garment with a pocket touched

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: No

When you cast this spell, a garment or container becomes a safe haven for a Tiny or smaller familiar.

The spell turns the target item or pocket into a comfortable extradimensional space (about 1 cubic foot).

The familiar can fit inside the space without creating any noticeable bulge in the item.

Whenever the familiar is touching you, you can whisk it inside the space as a free action by speaking a command word chosen by you when the spell is cast.

If the familiar can speak, it can command itself inside.

As a free action, you can call the familiar forth or it can leave the space on its own.

Once inside, the familiar has total cover (+4 AC) and concealment (20% miss chance), and as a free action, you or the familiar can further seal the space to make it airtight and waterproof.

The air supply inside the sealed space lasts for 1 hour, but with the pocket unsealed, the familiar can remain inside indefinitely.

The familiar cannot attack or cast spells from within the space, but can use supernatural or spell-like abilities as normal (provided they don't require line of sight, which the pocket blocks).

The spell ends if the *familiar pocket* is placed within or taken into another extradimensional space (such as a *portable hole*).

If your familiar is within the pocket when the spell duration expires or if the spell ends abnormally (as above), it appears in your space unharmed.

Material Component: A tiny golden needle and a strip of fine cloth given a half twist and fastened at the ends.

FORTIFY FAMILIAR

Universal

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Familiar touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (Harmless)

This spell makes your familiar tougher, granting it 2d8 temporary hit points and a +2 enhancement bonus to its natural armor.

It also has a 25% chance to avoid extra damage from sneak attacks or critical hits (though such attacks still deal normal damage if successful).

Temporary hit points gained in this fashion last for up to 1 hour.

IMBUE FAMILIAR WITH SPELL ABILITY

Universal

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Familiar touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell allows you to transfer a number of your spells and the ability to cast them into your familiar.

Spontaneous spellcasters, such as sorcerers, can imbue a familiar with any spells they know how to cast.

Arcanists who prepare spells, such as wizards, can imbue a familiar with any spell they have currently prepared.

In either case, you can imbue one spell per three caster levels, with a maximum spell level of one-third your caster level, rounded down (maximum 5th level).

Multiple castings of *imbue familiar with spell ability* have no effect on these limits.

SPECIFIC DEITIES AND SPELLS

Many of the spells described in this chapter have varying effects based on the deity the target or caster worships. Treat these spells in a manner similar to the way you adjudicate *Player's Handbook* spells such as *spiritual weapon*. If the caster or target does not worship one of the deities noted in the spell description, choose

ABJURATION

ALIGNED AURA

Abjuration

Level: Blackguard 4, cleric 4, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: 20 ft. or 60 ft.

Area: 20-ft.-radius emanation or 60-ft.-radius burst, centered on you

Duration: 1 round/level or until discharged

Saving Throw: Fortitude partial

Spell Resistance: Yes

A rush of divine energy flows through your holy symbol, infusing your body with the essence of the divine ethos.

When you cast this spell, choose one non-neutral aspect of your own alignment—chaos, evil, good, or law.

(If you are neutral, you can select whichever alignment you wish each time you cast this spell).

You are immediately surrounded in a 20-foot aura of invisible energy associated with the chosen alignment component.

Anyone in that area who shares that alignment component gains a bonus, and anyone with the opposed alignment component must make a Fortitude save or take a penalty. The values of these modifiers and the features to which they apply are given on the following table.

The transferred spell's variable characteristics (range, duration, area, and so on) function according to your level. Once you cast *imbue familiar with spell ability* on your familiar, both the spell slot from which you cast the spell and the spell slots of the transferred spells remain unavailable for the preparation or casting of new spells until the familiar uses the transferred spells or *imbue familiar with spell ability* expires.

The spell can be dispelled; if this spell fails, the spells transferred are lost as if the familiar had cast them.

In an *antimagic field*, the familiar loses the ability to cast the imbued spells, but regains it again if it leaves the field (so long as the spell's duration hasn't expired).

If any transferred spell requires a focus or material component, you must have it on your person when the spells are cast (components are consumed as normal without requiring you to bring them to hand).

Any XP costs from a transferred spell are deducted from your total when the familiar casts the spell.

COMPLETE CHAMPION (3.5)

the closest possible match to the deity's alignment as you can, allowing for customization based on the creature's alignment as well.

Whenever possible, these spell descriptions include even more deities than the *Player's Handbook* covers (including some monster deities) to assist you in such approximations.

These modifiers end when the affected creature leaves the spell's area.

Alignment	Bonus	Penalty
Chaos	+1 on attack rolls	-1 on saving throws
Evil	+1 on damage rolls	-1 to Armor Class
Good	+1 on saving throws	-1 on attack rolls
Law	+1 to Armor Class	-1 on damage rolls

At any point before the duration expires, you can choose to unleash the spell's remaining power in a 60-foot burst that deals 1d4 points of damage per round of duration remaining (maximum 15d4) to each creature of the opposed alignment in the area.

Each affected creature can attempt a Fortitude save for half damage.

The burst also heals 1 point of damage per round of duration remaining (maximum 15 points) for each creature of the same alignment in the area.

Once this option is invoked, the spell ends immediately.

BENEDICTION

Abjuration

Level: Cleric 2, paladin 2

Components: V, S, DF

Casting Time: 1 full round

Range: Touch

Target: Creature touched

Duration: 10 minutes/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You grant your comrade the luck of the gods.

With this spell, you can grant another creature a +2 luck bonus on all saving throws.

If the subject is also under another effect that grants saving throw bonuses, the effects stack.

In addition, at any point before the duration expires, the subject can choose to reroll a single attack roll, saving throw, skill check, or ability check after seeing the result of the initial roll, but before finding out whether it succeeds or fails.

The higher of the two rolls applies.

Once this option is exercised, the spell ends immediately.

Unlike most touch spells, *benediction* cannot be used on yourself.

Its effects are for the benefit of others only.

BODY WARD

Abjuration

Level: Cleric 2, druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level or until expended

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Your comrade's body grows denser and stronger beneath your touch.

You grant the subject a limited resistance to ability damage.

You choose one of the three physical ability scores—Strength, Dexterity, or Constitution—when you cast the spell.

Body ward absorbs the next 5 points of damage dealt to that ability score, regardless of its source.

If, for instance, an ally you had warded against Strength damage were subsequently poisoned for 6 points of Strength damage, she would take only 1 point.

The spell lasts until its duration expires, or until the 5 points of protection are used up, whichever comes first.

When cast multiple times upon the same subject, *body ward* has a synergistic effect.

If you use it to affect two physical abilities simultaneously, it wards each against 8 points of damage.

If you use it to affect all three physical abilities at once, it wards each against 10 points of damage.

To achieve this synergy, the multiple castings must occur in subsequent rounds.

The benefits from multiple castings of *body ward* that protect the same ability score do not stack.

BOLSTER AURA

Abjuration

Level: Cleric 3, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature or object touched

Duration: 10 minutes/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

The divine aura that surrounds you begins to swell, sending off waves of faux power into the ether.

By casting *bolster aura*, you make the aura of the target creature or object stronger, possibly causing other creatures to assume that the target is more powerful than it actually is.

For every two caster levels you possess, the target of a *bolster aura* spell appears to have 1 Hit Die more than it actually does.

If the target has no aura, then *bolster aura* has no effect.

DAMPEN MAGIC

Abjuration

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level or until discharged (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You can sense the fibers of magic around you.

Reaching out, you pull them tight about your subject, creating an invisible cocoon of mystical forces.

This spell surrounds the subject with a mystical field that dampens the effects of magic.

While it is in effect, the enhancement bonus of any magic weapon used against the subject is lowered by 1.

For instance, a +4 longsword would have only a +3 enhancement bonus on attack rolls and damage rolls when wielded against the subject.

However, even if a weapon's enhancement bonus is reduced below +1, its masterwork bonus still applies.

Similarly, every spell, spell-like ability, or supernatural ability that affects the subject—whether it is specifically targeted on the subject or merely includes the subject in its area—takes a –1 penalty to caster level and save DC.

The subject of the spell can choose, as a move action, to lower this field to receive the full effects of beneficial spells, but doing so might leave him vulnerable until his next turn, since raising the effect again also requires a move action.

Ongoing magical effects already in place on the subject when *dampen magic* is cast (such as *bull's strength* or the enhancement bonuses of its own equipment) are unaffected, but any item the subject picks up and any spell he receives after *dampen magic* is in effect are affected as normal.

For every six caster levels above 7th that you possess, the spell reduces incoming effects by one additional point. Thus, if your caster level is 13th–18th, the reduction to the enhancement bonus of weapons and the caster levels and save DCs of spells used against the subject is 2, and if your caster level is 19th or higher, the reduction is 3.

At any time when *dampen magic* has 5 or more rounds of duration left, the subject can render itself utterly immune to most magic for a brief period.

The effect produced is an *antimagic field* (PH 200), which surrounds the subject to a radius of 5 feet.

Divide the remaining rounds of duration by 5 and round down; the result is the number of rounds the antimagic effect lasts.

Once that time expires, the spell ends, and once the antimagic field has been invoked, the original spell effect cannot be reinstated.

DIVINE RETRIBUTION

Abjuration

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level or until discharged

Saving Throw: Will partial

Spell Resistance: Yes

You feel your deity's hand hovering over you, ready to smite anyone who harms you.

For the duration of this spell, any creature that attacks you—whether with a physical attack, a spell, or by other means—is struck by a retributive effect immediately after you're affected.

The retribution deals 1d6 points of damage per caster level you possess (maximum 15d6) and 1d4 points of ability damage.

The precise nature of the damage and ability damage are depend upon your deity, as given in the table below, but the damage is always one-half energy and one-half divine power.

A successful Will save halves the hit point damage and negates the ability damage.

Once the retributive effect takes place, the spell ends.

Deity	Energy	Ability Damaged
Bahamut	Cold	Dexterity
Boccob	Electricity	Intelligence
Corellon Larethian	Acid	Wisdom
Ehlonna	Cold	Strength
Erythnul	Fire	Constitution
Fharlanghn	Acid	Constitution
Garl Glittergold	Sonic	Wisdom
Gruumsh	Fire	Strength
Heironeous	Electricity	Dexterity
Hextor	Fire	Strength
Kord	Acid	Strength
Kurtulmak	Fire	Intelligence
Lolth	Electricity	Charisma
Moradin	Sonic	Dexterity
Nerull	Cold	Charisma
Obad-Hai	Electricity	Dexterity
Olidammara	Fire	Dexterity
Pelor	Fire	Wisdom
St. Cuthbert	Sonic	Constitution
Tiamat	Fire	Wisdom
Vecna	Cold	Intelligence
Wee Jas	Cold	Strength
Yondalla	Acid	Strength

If you do not worship a deity, choose one whose alignment is within one step of your own.

You must make this choice when you cast this spell for the first time and cannot subsequently change it, unless your alignment changes in such a way that your previous choice is no longer applicable.

You can have only one *divine retribution* spell in effect at any time.

LIGHT OF COURAGE

Abjuration [Good]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 swift action

Range: Touch

Target: Holy symbol touched

Duration: 1 round/level, or until discharged

Saving Throw: Will half

Spell Resistance: No

Your holy symbol is wreathed in a wrathful, iridescent glow that causes undead creatures to wither before its celestial light.

You temporarily infuse your holy symbol with divine power.

If you make a turning check before the duration expires, each undead creature that you target takes 1d8 points of damage per two caster levels you possess (maximum 10d8) in addition to effects of the turning (if any).

The turning check need not succeed to trigger this effect.

LIGHT OF FAITH

Abjuration [Good]

Level: Cleric 2

Components: V, S, DF

Casting Time: 1 swift action

Range: Touch

Target: Holy symbol touched

Duration: 1 round/level, or until discharged

Saving Throw: None

Spell Resistance: No

A warm, comforting glow surrounds your holy symbol, renewing your faith and causing the wicked monsters before you to recoil in fear.

This spell grants you a sacred (if you are good or neutral) or profane (if you are evil) bonus equal to one-half your divine caster level (maximum +5) on your next turning check.

LIGHT OF PURITY

Abjuration [Good]

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 swift action

Range: Touch

Target: Holy symbol touched

Duration: 1 round/level, or until discharged

Saving Throw: None

Spell Resistance: No

Your holy symbol gleams with a bright, white light that seems to cleanse the air around you of the foul stench emanating from your undead enemies.

When you cast this spell on your holy symbol, your turning damage increases by 1d6 per four divine caster levels you possess (maximum +5d6) on your next successful turning check.

LIGHT OF WISDOM

Abjuration [Good]

Level: Cleric 3

Components: V, S, DF

Casting Time: 1 swift action

Range: Touch

Target: Holy symbol touched

Duration: 1 round/level, or until discharged

Saving Throw: None

Spell Resistance: No

A cool, blue radiance pours forth from your extended holy symbol, increasing your power against the foul scourge of the undead.

When you cast *light of wisdom* upon your holy symbol, your effective turning level increases by 1 per three caster levels. These bonus levels apply only for the purpose of determining the most powerful undead that your turning check can affect and whether or not the undead you turn are destroyed outright.

The increase has no bearing on the amount of turning damage you deal with a successful turn attempt.

MORAL FACADE

Abjuration

Level: Bard 3, cleric 4, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature or object

Duration: 24 hours

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

With an uttered incantation and a motion of your hand, you surround your target with a haze that prevents others from discerning its true nature.

By casting this spell, you cloak the target in an effect that gives a false alignment reading to all divination spells.

At the time of casting, you must designate the alignment that you wish the spell to reveal.

SOUL WARD

Abjuration

Level: Cleric 2, druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Your comrade's thoughts and feelings meld with yours, each bolstering the other, through the touch of your hand.

This spell functions like *body ward* (page 117), except that you choose one of the three mental abilities—Intelligence, Wisdom, or Charisma—rather than a physical ability to be affected.

SUBDUE AURA

Abjuration

Level: Cleric 3, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature or object touched

Duration: 10 minutes/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

The normally formidable aura that marks you as a servant of a higher power recedes, leaving few traces of your allegiance visible to creatures that can see such marks.

This spell masks the target's aura, making it appear less powerful than it really is.

For every two caster levels, the target of a *subdue aura* spell appears to have 1 fewer Hit Die than it really does.

If the target has no aura, the spell has no effect.

CONJURATION

CONDUIT OF LIFE

Conjuration (Healing)

Level: Cleric 2, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level or until discharged

A small kernel of positive energy grows within your heart, warming your whole body.

The next time you use a class feature or racial ability to channel positive energy (such as turn undead or lay on hands), you also heal a number of points of damage to yourself equal to 2d10+1/caster level (maximum 10).

If you are already subject to an ongoing healing effect (such as *vigor*, or if you receive a *cure* spell while *conduit of life* is still in effect, this spell instead heals a number of points of damage equal to 3d8+1/caster level and it is discharged.

DARTS OF LIFE

Conjuration (Healing)

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One or more creatures per round

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: Yes

Small orbs of light circle your head.

With a gesture, you cause one to spin off and strike your friend, healing him of damage.

You create ten gently pulsing darts of pale blue light that orbit your head like *ioun* stones.

As a free action, you can launch one dart per round at an ally you designate within range.

Alternatively, as a standard action, you can launch up to three darts per round at one or more designated allies within range.

As a full-round action, you can launch all remaining orbs at one or more allies within range.

Each dart heals 1d8 points of damage the target has taken, as though it were a *cure* spell.

Since undead are powered by negative energy, this spell damages them instead of curing their wounds.

An undead creature can apply spell resistance to this effect, and you must make a successful ranged touch attack for each dart you attempt to launch against such a creature.

DOOR OF DECAY

Conjuration (Teleportation)

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: See text

Target: You

Duration: Instantaneous

You feel yourself pulled forward, into the undead creature you have touched.

Your flesh and soul grow cold, and after an instant of maddening emptiness, you reappear elsewhere.

You can use the Negative Energy Plane as a conduit in the same fashion that most teleportation magic uses the Astral Plane.

Upon casting this spell, you can literally step into an undead creature and emerge from another designated undead creature up to 100 miles away per caster level.

If you do not know the precise location of the destination undead, you can select the undead creature you control nearest your desired exit point.

Both undead creatures must be your size category or larger and either willing or under your control.

(Mindless undead are considered willing only if you control them).

If you worship Wee Jas, Vecna, or another deity associated with both death and magic, you gain a +4 bonus to your caster level for the purpose of determining the maximum distance you can travel.

You can bring along objects as long as their weight doesn't exceed your maximum load, but you cannot bring other creatures with you.

Special: A dread necromancer can learn this spell through the advanced learning class feature, even though it is not a necromancy spell.

HEALING CIRCLE

Conjuration (Healing)

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level or until discharged

A circle of warm comfort emanates from you, enveloping those who enter in positive energy.

By casting this spell, you create an aura of healing energy upon which your allies can draw to mend their own wounds.

The spell has five charges when cast.

Once per round as a standard action, a single allied creature within 30 feet can drain one charge from the *healing circle*.

The first charge so drained functions as a *cure critical wounds* spell, the second as a *cure serious wounds* spell, the third as a *cure moderate wounds* spell, and the fourth as a *cure light wounds* spell, and the final charge heals only 5 points of damage.

A creature must be conscious to draw a charge from the healing circle.

The spell effect delivered by each charge functions as if you had personally cast the associated spell.

Thus, the first charge heals 4d8 points of damage +1 point per caster level (maximum +20), and so on.

PHANTOM CHARGE

Conjuration (Teleportation)

Level: Blackguard 4, paladin 4

Components: V, S

Casting Time: 1 swift action

Range: Personal and touch

Target: You and your special mount or fiendish companion

Duration: Instantaneous

You and your mount utter a fierce call as one.

The beating of its hooves grows almost deafening, and the world around you begins to shimmer.

If you cast this spell while mounted on your special mount or mount-sized fiendish companion, you tap into the energies normally released only when you summon or dismiss that creature, creating a short-range teleportation effect.

Between a single pair of steps, you and your mount can teleport directly forward once, moving up to 5 feet per two caster levels.

Many paladins use this spell to attack over rough terrain that would normally prevent a charge.

Because this spell can be cast while your mount is moving, the creature can move part of its speed both before and after the spell takes effect.

If you cast this spell in conjunction with *master cavalier* (page 124) and *war-mount* (page 129), the three spells have a synergistic effect.

See the *master cavalier* spell description for details.

REJUVENATING LIGHT

Conjuration (Healing) [Light]

Level: Cleric 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Object touched

Duration: 1 minute/level (D)

Saving Throw: None or Fortitude negates; see text

Spell Resistance: No or yes; see text

A soft, comforting glow emanates from the object you've touched, filling the entire area with light and warmth.

Though seemingly gentle, the light pierces the shadows like the rays of the sun.

The object touched sheds light as a *daylight* spell (PH 216).

In addition, every living creature within the area of bright light (a 60-foot radius) gains fast healing 1.

This effect ends for a given creature if it moves out of the area of light but resumes should it reenter.

Any undead creature within the area of light takes 1d6 points of positive energy damage per round.

An undead creature that is particularly vulnerable to sunlight (such as a vampire) instead takes 2d6 points of damage per round.

A successful Fortitude save negates this damage, but the affected creature must repeat the save every round, whether it succeeds or fails.

If the undead creature has spell resistance, the spell must overcome it to deal damage.

Rejuvenating light counters and dispels any darkness spell of equal or lower level.

SEED OF LIFE

Conjuration (Healing)

Level: Cleric 4, druid 5, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 10 rounds + 1 round/level (maximum 30 rounds) or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The energy of life flows through you, warming your hand—and indeed your very soul.

But instead of swiftly infusing that life into others to heal their wounds, you feed it slowly and gradually into your ally.

You implant a tiny seed of positive energy into the subject's soul.

This *seed of life* grants the subject fast healing 2 for the duration of the spell, in much the same way as *vigor*.

At any point before the duration expires, the subject can exhaust the remaining positive energy in a sudden burst of healing as a standard action.

When this option is exercised, roll a number of d4s equal to one-half the spell's remaining duration, rounded down (for example, 5d4 if the spell has 11 rounds remaining).

The result is the number of hit points of damage instantly healed.

Using this option ends the spell immediately.

SUMMON HOLY SYMBOL

Conjuration (Summoning)

Level: Cleric 0, paladin 1

Components: V, S

Casting Time: 1 standard action

Range: 0 ft.

Effect: Small wooden holy symbol

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You whisper a prayer to your deity, and his symbol appears in your hand.

You conjure a small holy symbol, which you can then use to turn undead, or as a divine focus for spells, or for any other purpose that you would normally use one.

The conjured holy symbol is made of wood and is neither magical nor particularly valuable.

TOUCH OF RESTORATION

Conjuration (Healing)

Level: Paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute

When you pray for the power to restore that which your friend has lost, a beam of sun breaks through the clouds and bathes your hands in golden light.

Casting *touch of restoration* lets you use your lay on hands ability to cure ability damage.

While this spell is active, you can cure 1 point of ability damage per caster level by laying on hands, and you can split these points among different creatures if desired.

For every point of ability damage you cure in this manner, you must subtract 1 from your effective level when determining how many hit points of damage you can heal with your standard lay on hands ability for the remainder of the day.

DIVINATION

FOREST EYES

Divination (Scrying)

Level: Druid 3

Components: V, S, DF

Casting Time: 1 minute

Range: Unlimited

Target: Two plants of the same type, one of which must be in physical contact with you

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

The moment your hand contacts the rough wood, your vision swims, blurs, and resolves into a different image.

Upon casting this spell, you can touch a normal, Medium or larger plant or tree and designate another of the same kind.

You immediately see the surroundings of the destination plant, regardless of the distance separating the two.

You see the area as though you were standing in the exact spot where the destination plant stands.

You cannot move your field of vision from that spot, but you can rotate it in all directions to observe the area around the destination plant.

Unlike other scrying spells, *forest eyes* does not allow magically or supernaturally enhanced senses to work through it.

If the chosen locale is magically dark, you see nothing.

If it is naturally dark, you can see in a 10-foot radius around the plant at the center of the spell's effect.

Both plants must be alive to allow use of this spell.

You can either select a particular destination plant that is already familiar to you, or designate a direction and distance and let *forest eyes* find the appropriate type of plant nearest to the desired location.

LORE OF THE GODS

Divination

Level: Cleric 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level or until discharged

Your mind opens to the secrets of the cosmos and briefly touches the omniscience of the gods.

You gain a +5 insight bonus on all Knowledge checks.

At any point before the duration expires, you can make a check with a Knowledge skill in which you have no ranks, or retry a Knowledge check you have previously failed. The +5 insight bonus still applies in both of those cases, but utilizing this option reduces the spell's remaining duration to 1 minute/level.

If you worship a deity who grants access to the Knowledge domain, the bonus is +10 rather than +5—even if you did not choose that domain.

SPIRITUAL ADVISOR

Divination

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

When you chant the final words of your incantation, a soft, comforting voice seems to whisper in your ear, "What knowledge may I impart to you?"

Spiritual advisor allows you to consult with a spirit, an angel, or some other divine aspect of your deity.

This advisor manifests as a barely shimmering orb that floats above one of your shoulders.

When it speaks, only you can hear its counsel.

As long as the *spiritual advisor* is present, it helps you recall bits of trivia, history, or other knowledge.

This knowledge can be as general or specific as is required, and the information gained grants you a +4 insight bonus on all Knowledge checks while the spell is in effect.

You can even attempt checks with Knowledge skills in which you have no skill ranks or retry a Knowledge check you failed before casting the spell.

ENCHANTMENT

BEWILDERING MISCHANCE

Enchantment (Compulsion) [Mind-Affecting]

Level: Adept 5, cleric 5, shugenja 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Your deity's laughter rains down on your suddenly clumsy foe.

Bewildering mischance causes extreme bad luck to befall the target.

For the duration of the spell, the subject must roll each saving throw, attack roll, and skill check twice, keeping the lower of the two rolls.

CONFOUND

Enchantment (Compulsion) [Mind-Affecting]

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Short (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Your opponent's eyes try to follow your gestures while you cast, and they fail to refocus when you finish.

You render the target unable to follow your movements effectively.

The subject takes a –2 penalty on attack rolls made against you, and you gain a +2 circumstance bonus on attack rolls made against it.

If you worship a deity that provides access to the Trickery domain—even if you did not choose that domain—these modifiers rise to –3 and +3, respectively.

Furthermore, the subject cannot make attacks of opportunity against you.

If you successfully cast this spell on the same subject in each of 2 consecutive rounds, these beneficial effects extend to your allies as well.

IMPEDE

Enchantment (Compulsion) [Mind-Affecting]

Level: Cleric 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One humanoid creature

Duration: 1 round/level (D)

Saving Throw: Will partial

Spell Resistance: Yes

Your will clamps down on the subject's mind, making the slightest movement a strenuous effort.

This spell locks the subject in place.

An affected creature is capable of taking actions, such as attacking or casting spells, but it cannot step from its current square (or squares, if it occupies more than one).

The subject also takes a –1 penalty on melee attack rolls and a –2 penalty on Reflex saves while so rooted.

If the subject succeeds on the initial Will save, it suffers no ill effects and the spell ends immediately.

If it fails the initial save, it can attempt a new Will save every round thereafter.

Once the subject succeeds on one of these secondary saves, it can move, but its base speed is reduced by 10 feet (to a minimum of 5 feet) for the duration of the spell.

If the subject has multiple modes of movement, each is reduced accordingly.

If the subject is already under an effect that curtails its ability to move (such as *slow* or *hold person*), it also takes a –4 penalty to Dexterity for the duration of this spell, even if the other effect ends before this one does.

INTERFAITH BLESSING

Enchantment (Compulsion) [Mind-Affecting]

Level: Adept 2, cleric 2, druid 2, shugenja 2

Components: V, S, DF

Casting Time: 1 round

Range: 20 ft. Area: 20-ft.-radius burst centered on you

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You feel your deity speaking through you to other gods, filling the space around you with diverse divine energies that strengthen your ally.

When you cast *interfaith blessing*, every creature within range is individually blessed by its own deity for the duration of the spell.

The specific blessing gained depends on the particular deity worshipped, as given on the table below.

A subject that venerates more than one deity must roll randomly to determine which blessing is received.

Deity	Blessing
Bahamut, St. Cuthbert, or Yondalla	+1 on attack rolls and saves
Boccob, Corellon Larethian, Vecna, or Wee Jas	+1 on attack rolls and skill checks
Ehlonna, Obad-Hai, or the general worship of nature	+1 on attack rolls and to AC
Erythnul, Gruumsh, or Lolth	+2 on damage rolls
Fharlanghn, Moradin, or Pelor	+2 to AC
Garl Glittergold, Olidammara, or no deity	Roll 1d8 to determine blessing; a result of 6 is player's choice
Heironeous, Hextor, or Nerull	+2 on attack rolls
Kord, Kurtulmak, or Tiamat	+1 on attack rolls and damage rolls

MARK OF SIN

Enchantment [Mind-Affecting]

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 full round

Range: Touch

Target: Creature touched

Duration: 1 round/level or permanent; see text

Saving Throw: Will partial

Spell Resistance: Yes

You bring forth the subject's inner sins and crimes, causing them to manifest in its appearance and aura.

Your successful touch attack leaves a mystical mark upon the subject.

After a number of rounds equal to your divine caster level, the subject is entitled to a Will save.

Success ends the spell at that point, but failure renders the *mark of sin* permanent.

Though the mark is invisible, all living creatures can sense its presence and are repulsed by it.

Thus, they begin their initial interactions with the subject one step nearer to a hostile attitude than they normally would, unless they already know the subject personally.

Furthermore, the subject takes a -10 circumstance penalty on all Diplomacy checks designed to change the attitudes of others.

(See Diplomacy, PH 71).

In addition, the subject takes a -4 penalty to a specific ability score based on your deity, as given in the table for the *divine retribution* spell (page 119).

This penalty cannot be removed in any way as long as the *mark of sin* remains, if you do not worship a deity, you must choose one whose alignment is within one step of your own when you cast this spell for the first time.

This choice is for the purpose of this effect only, and you cannot subsequently change it unless your] alignment

shifts in such a way that your previous choice is no longer applicable.

A *mark of sin* cannot be dispelled, but it can be removed with a *break enchantment*, *limited wish*, *miracle*, *remove curse*, or *wish* spell.

Remove curse works only if its caster level is equal to or higher than that of the *mark of sin*.

TURN ANATHEMA

Enchantment (Compulsion) [Mind Affecting and Chaotic, Evil, Good, or Lawful]

Level: Blackguard 2, cleric 2, paladin 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level

When you clutch your holy symbol, it pulses briefly with divine power, then grows oddly cold beneath your fingers.

Choose one non-neutral aspect of your own alignment—chaotic, evil, good, or lawful.

If you are neutral, you must choose an alignment component for this spell when you first cast it, and this choice cannot be altered for subsequent castings unless your alignment has changed in such a way as to make that choice unsuitable.

The spell takes on the descriptor of the selected alignment component.

Upon casting this spell, you can use one of your daily turn or rebuke attempts to turn creatures with the opposing alignment subtype as though they were undead.

For instance, if you cast *turn anathema* as a good spell, you could attempt to turn creatures of the evil subtype, such as demons.

You could not, however, turn a red dragon, because although it is an evil creature, it lacks the evil subtype.

This spell allows only turning, not rebuking or destroying, even if you normally rebuke rather than turn.

You can use as many of your daily turn/rebuke attempts as you wish in this way for the duration of the spell.

EVOCATION

SPIRITUAL GUARDIAN

Evocation [Force]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 standard action

Range: 5 ft.

Effect: A phantasmal knight

Duration: 1 minute/level or 1 round/level; see text

Saving Throw: None

Spell Resistance: No

The sound of hoofbeats begins in the distance and draws swiftly nearer.

As though leaping down from an invisible charger, a translucent knight, clad head to toe in heavy plate, appears by your side.

The holy symbol of your deity is emblazoned across his tabard and shield.

By casting this spell, you create a translucent knight made of force.

It remains within 5 feet of you at all times, constantly matching your speed and mode of travel—even if you are mounted or magically accelerated.

Any time you are attacked, it moves to parry the attack with its shield or longsword, granting you a +6 deflection bonus to Armor Class.

As a standard action in any round, you can command the knight to make a single attack against any creature within 5 feet.

It strikes with its longsword, using your base attack bonus and applying your Wisdom modifier to the roll.

The attack deals 1d8 points of force damage +1 extra point per three caster levels (maximum +10).

At any point before the spell expires, you can turn the knight loose and order it to fight on its own.

It then moves at a speed of 60 feet to attack any foe you designate.

It continues to use your base attack bonus and your Wisdom modifier for its attack rolls, and it can make as many attacks per round as your base attack bonus allows. You need not concentrate on the knight as long as it is fighting a specific opponent, but commanding it to change foes requires a move action.

If its opponent falls, the knight waits for your direction.

Once you have turned the knight loose, you lose the deflection bonus to Armor Class that it provided, and you cannot regain it.

Furthermore, the remaining duration of the spell converts from minutes per level to rounds per level on a one-to-one basis.

WEIGHT OF SIN

Evocation [Chaotic, Evil, Good, or Lawful]

Level: Cleric 6

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous, then 1 round/level or permanent; see text

Saving Throw: Fortitude partial, then Will partial; see text

Spell Resistance: Yes

You use the raw power of your deity to reach into your target's soul and pull forth its sins, leaving their horror exposed for all to see.

You affect the target differently based on how its alignment compares to your own.

If the target's alignment is the same as yours, *weight of sin* has no effect.

If the target's alignment differs from yours but contains no directly opposing components (for example, the target is neutral good and you are lawful neutral), the spell deals 1

Opposed Alignments (Yours/Target's)	Minor Effect	Moderate Effect	Major Effect
Chaotic/lawful	-1 on saving throws	Confusion, as the spell	Baleful polymorph, as the spell
Evil/good	-1 to Armor Class	Crushing despair, as the spell	Weakened, as symbol of weakness
Good/evil	-1 on attack rolls	Exhausted, as ray of exhaustion	Blinded, as power word blind
Lawful/chaotic	-1 on damage rolls	Slow, as the spell	Flesh to stone, as the spell
Chaotic evil/lawful good	—	Confusion, as the spell	Weakened, as symbol of weakness
Chaotic good/lawful evil	—	Exhausted, as ray of exhaustion	Baleful polymorph, as the spell
Lawful evil/chaotic good	—	Crushing despair, as the spell	Flesh to stone, as the spell
Lawful good/chaotic evil	—	Slow, as the spell	Blinded, as power word blind

point of damage per caster level (maximum 15) and has no secondary effect.

If the target's alignment has one aspect opposed to yours (such as law/chaos), but not both, the spell deals 1d4 points of damage per caster level (maximum 15d4), and the subject suffers a minor secondary effect (see the table above).

If the target's alignment is diametrically opposed to yours (such as lawful good/chaotic evil), the spell deals 1d6 points of damage per caster level (maximum 15d6), and the subject suffers a moderate secondary effect (see the table below).

If you cast this spell on the same target in 2 consecutive rounds, any secondary effect the spell has increases by one "step" in severity.

That is, if the spell caused a minor effect on the first casting, it now causes a moderate effect, and if it caused a moderate effect, it now causes a major effect.

Minor and moderate effects end in 1 round per caster level, but major effects are permanent until dispelled.

In all cases, the subject is entitled to a Fortitude save for half damage, and then a Will save to negate the secondary effect, if any.

The target is entitled to this Will save even if the spell duplicated by the secondary effect normally does not permit one.

ILLUSION

BEWILDERING SUBSTITUTION

Illusion (Phantasm) [Mind-Affecting]

Level: Adept 2, cleric 2, shugenja 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You channel the mockery of the trickster deities to sow dissension among your opponents.

By casting this spell, you cause the subject to believe that one ally and one enemy have traded places.

The ally physically closest to the subject now seems to have the appearance, voice, clothing, and gear of its nearest enemy, and that enemy looks and sounds exactly like the subject's nearest ally.

Both the ally and the enemy must be within the spell's range, and the effect ends immediately if either moves out of its range from you.

The illusion affects only the subject.

BEWILDERING VISIONS

Illusion (Phantasm) [Mind-Affecting]

Level: Adept 2, cleric 2, shugenja 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You channel mischievous divine energy to envelop your foe in sickened disorientation.

This spell makes the world appear to be tossing and rippling in a nauseating manner.

The subject is sickened for the duration of the spell and must make a Fortitude save or be nauseated.

This saving through must be repeated each round.

NECROMANCY

BLEED

Necromancy

Level: Blackguard 4, cleric 5, druid 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your touch thins the blood of your target, causing it to spill with unnatural ease.

For the duration of the spell, the subject bleeds profusely through any open wound.

Each new hit from a piercing or slashing weapon or effect that deals damage to the subject also deals 1 point of Constitution damage.

This ability damage is not multiplied on a critical hit.

Because this spell thins the subject's blood, repeated uses cause additional difficulty.

In addition to the extra damage, a target subjected to a second use of this spell before the first has expired also takes a -4 penalty on Fortitude saves against disease, poison, or the sickened and nauseated conditions.

Creatures with no discernible anatomy (such as plants and oozes) and those immune to critical hits (such as undead and constructs) are immune to this spell.

EXECRATION

Necromancy

Level: Blackguard 2, cleric 2

Components: V, S, DF

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 10 minutes/level or until discharged

Saving Throw: Will negates

Spell Resistance: Yes

You channel the wrath of your deity through a simple touch, inflicting misfortune on your foe.

With a touch, you impose a -2 penalty on all of another creature's saving throws.

If the subject is also under another effect that imposes saving throw penalties, the effects stack.

At any point before the spell's duration expires, you can force the subject to reroll a single attack roll, saving throw, skill check, or ability check as an immediate action.

You can require this action either before or after the subject rolls, but you must have line of sight to the subject at the time.

The lower of the two rolls applies.

Once this option is exercised, the spell ends immediately.

RAVENOUS DARKNESS

Necromancy [Darkness]

Level: Cleric 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Object touched

Duration: 1 minute/level (D)

Saving Throw: None or Fortitude negates; see text

Spell Resistance: No or yes; see text

Tendrils of shadow leap from the object you've touched, then swiftly form into an all-encompassing wave.

The spreading night seems to blot out both light and life.

The object touched sheds darkness as a deeper darkness spell (PH 217).

In addition, every living creature within the area of the resulting darkness (a 60-foot radius) takes 1d6 points of negative energy damage per round.

Any creature under the influence of an ongoing negative energy effect (such as negative levels or necromantic-based ability damage) instead takes 2d6 points of damage per round.

This effect ends for a given creature if it moves out of the area of darkness but resumes should it reenter.

A successful Fortitude save negates the damage, but the affected creature must repeat the save every round, whether it succeeds or fails.

If a creature has spell resistance, the spell must overcome it to deal damage.

Any undead creature within the darkness instead gains fast healing 1.

Ravenous darkness counters and dispels any light spell of equal or lower level.

TRANSMUTATION

DEIFIC BASTION

Transmutation

Level: Blackguard 3, cleric 3, paladin 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Shield or heavy armor touched

Duration: 1 round/level

Saving Throw: Fortitude negates (harmless, object)

Spell Resistance: Yes (harmless, object)

Calling upon your patron for protection, you imbue your defenses with an unnatural resilience.

You must either be holding a shield or wearing heavy armor to cast this spell.

The shield or armor gains a +1 enhancement bonus plus an additional special ability that depends on your deity, as given on the table below.

This enhancement bonus is defensive only; it does not cause a shield to function as a magic weapon if it is used to make a shield bash.

The enhancement bonus of the armor or shield is +2 if your caster level is 9th–11th, +3 if it's 12th–14th level, +4 if it's 15th–16th, and +5 if it's 18th or higher.

Deity	Added Ability
Bahamut	Cold resistance 5
Boccob	Spell resistance 13
Corellon Larethian	Arrow deflection
Ehlonna	Cold resistance 5
Erythnul	Damage reduction 2/magic
Fharlanghn	50% fortification (half of critical hits are negated)
Garl Glittergold	Spell resistance 13
Gruumsh	Arrow deflection
Heironeous	Electricity resistance 5
Hextor	Damage reduction 2/magic
Kord	Damage reduction 2/magic
Kurtulmak	Shadow and silent moves
Lolth	50% fortification (half of critical hits are negated)
Moradin	Arrow deflection
Nerull	50% fortification (half of critical hits are negated)
Obad-Hai	Shadow and silent moves
Olidammara	Shadow and silent moves
Pelor	Fire resistance 5
St. Cuthbert	Damage reduction 2/magic
Tiamat	Fire resistance 5
Vecna	Cold resistance 5
Wee Jas	Spell resistance 13
Yondalla	Shadow and silent moves

DIVINE PRESENCE

Transmutation

Level: Blackguard 2, cleric 2, druid 2, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

Your back straightens, your eyes flash, and your aura pulses with divine might.

You channel a tiny spark of the divine, granting yourself nearly inhuman presence.

You gain a +5 sacred (if your deity is good or neutral) or profane (if your deity is evil) bonus on Intimidate checks made against anyone who does not worship your deity.

When making such checks against individuals who have one alignment component opposed to yours (chaos/law or good/evil), this bonus becomes +10.

When making such checks against someone whose alignment is diametrically opposed to yours, the bonus becomes +15.

FOOTSTEPS OF THE DIVINE

Transmutation

Level: Cleric 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body twists and reshapes itself, allowing you brief freedom from the confines of a wholly humanoid shape.

Upon casting this spell, you briefly acquire a new movement mode and speed, as given on the table below.

Unlike most deity-variable spells, *footsteps of the divine* does not limit you to the option offered by your own deity; you are free to choose any option presented on the table.

If you choose an option offered by a deity other than your own, however, the spell duration is halved.

You can choose only one option per casting.

Deity	Movement Mode	Speed
Bahamut	Fly	60 ft. (poor)
Boccob	Fly	40 ft. (perfect)
Corellon Larethian	—	+40 ft.
Ehlonna	Climb	30 ft.
Erythnul	—	+40 ft.
Fharlanghn	—	+50 ft.
Garl Glittergold	Burrow	20 ft.
Gruumsh	Burrow	20 ft.
Heironeous	—	+40 ft.
Hextor	—	+40 ft.
Kord	Climb	30 ft.
Kurtulmak	Burrow	20 ft.
Lolth	Climb	30 ft.
Moradin	Burrow	20 ft.
Nerull	Fly	50 ft. (average)
Obad-Hai	—	+40 ft.
Olidammara	Climb	30 ft.
Pelor	Fly	50 ft. (average)
St. Cuthbert	—	+40 ft.
Tiamat	Fly	60 ft. (poor)
Vecna	Fly	40 ft. (perfect)
Wee Jas	Burrow	20 ft.
Yondalla	Climb	30 ft.

Your assumption of a new movement mode, if any, imposes certain physical changes on you.

For instance, if *footsteps of the divine* grants you flight, you grow wings; if it grants you a burrow speed, you grow heavy digging claws; and so forth.

A “—” entry indicates that you gain no new movement type, but your base speed increases by the amount indicated.

At any point before the duration expires, you can choose to employ a burst of truly inhuman speed.

Doing so adds an additional +10 feet to your speed per round remaining in the spell's duration.

However, this effect lasts for only a single round, after which the spell ends.

FOREST CHILD

Transmutation

Level: Druid 8

Components: V, S, M, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One wooden duplicate

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

The tree trunk bulges, then spits forth a humanoid form made of wood.

Its features shift, creaking and cracking, until they resemble your own.

You draw forth a humanoid figure from the wood of a tree that is at least one size category larger than yourself.

The figure is your size and clearly made of wood, but it resembles you sufficiently that anyone who knows you can recognize your features in its face.

The figure can emerge from the tree you touch, or from any tree of the same type within the spell's range.

Thereafter, if you and the *forest child* separate by more than the maximum range of the spell, or if you lose line of effect to it, it vanishes instantly and the spell ends.

A *forest child* mimics your actions, including speech, unless you direct it to act differently as a move action.

You can see through its eyes and hear through its ears as if you were standing in its location, and you can switch from using its senses to using your own, or back again, as a free action anytime during your turn.

While you are using its senses, your own body is considered blinded and deafened.

If you desire, any spell you cast whose range is touch or greater can originate from the *forest child* instead of from you.

It cannot, however, cast any spells on itself.

Spells cast through the *forest child* function normally in all respects except for the point of origin.

A *forest child* has a number of hit points equal to your character level.

If you use it to attack physically, you take a –4 penalty on attack rolls, and it deals damage equal to your unarmed damage.

As a standard action, you can change places with your duplicate.

(Although the spell itself is a transmutation, this usage is a conjuration [teleportation] effect).

Making use of this option reduces the remaining duration of the spell by 5 rounds.

If you have fewer than 5 rounds of duration left, you cannot invoke this ability.

If you cast this spell along with both *forest eyes* and *forest voice* (see below), the duration of *forest child* doubles, and its range quadruples.

Material Component: A small hardwood replica of yourself, which costs 10 gp to create.

FOREST VOICE

Transmutation (Language-Dependent)

Level: Druid 3

Components: V, S, DF

Casting Time: 1 minute

Range: Unlimited

Target: Two plants of the same kind, one of which must be in physical contact with you

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

You touch the leaves and speak, and your comrade answers you through the plant.

Upon casting this spell, you can touch a normal, Medium or larger plant or tree and designate another of the same kind.

You can then carry on a conversation with anyone who is within 10 feet of the destination plant.

Your conversation is as clear as it would be if you stood within 10 feet of one another.

The plants cannot, however, transmit magical sonic effects. Both plants must be alive to allow use of this spell.

You can either select a particular destination plant that is already familiar to you, or designate direction and distance and let the *forest voice* find the appropriate type of plant nearest to the desired location.

ICONIC MANIFESTATION

Transmutation [Chaotic, Evil, Good, or Lawful]

Level: Druid 4

Components: V, S, DF

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 10 minutes/level, then 1 minute/level (D); see text

Your mind opens to an awareness of a new, spiritual world beyond the natural realm.

Its energies flow into you even as the spirits of the beasts and the trees always have.

The descriptor of this spell matches the non-neutral component of your own alignment.

For instance, if you are lawful neutral, you cast *iconic manifestation* as a lawful spell.

If you are neutral, you cannot cast it at all.

Once you cast the spell, you have up to 10 minutes per caster level to invoke its power before it is spent.

At any point during this period, you can choose to spend one daily use of your wild shape ability to take on aspects of your non-neutral alignment.

You temporarily acquire the celestial template (MM 31) if you are good, the fiendish template (MM 107) if you are evil, the anarchic template (*Manual of the Planes* 198) if you are chaotic, or the axiomatic template (*Manual of the Planes* 197) if you are lawful.

(If your campaign does not use *Manual of the Planes*, you can approximate the axiomatic template by using the celestial template, and substituting lawful for good and chaotic for evil.

You can approximate the anarchic template by using the fiendish template and making the same substitution).

Once invoked, this transformation lasts 1 minute per caster level.

You can still use your wild shape ability to take on other forms without negating this spell.

Note: Adding a template “on the fly” can dramatically slow game-play.

If you anticipate using this spell, write down the relevant adjustments—both to your normal form and to any animal, plant, or elemental forms you regularly assume—before play begins.

MASTER CAVALIER

Transmutation

Level: Blackguard 2, cleric 2, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

When you utter the final words of this spell, your muscles and equilibrium shift dramatically, making you feel more at home in the saddle than you do on your own feet.

Upon casting this spell, you gain a +10 bonus on all Ride checks.

If you have *special mount* or similar class ability, your bonus on Ride checks increases to +20 while you are mounted on your special mount.

If you cast *master cavalier* along with *phantom charge* (see below) and *war-mount* (page 129), the three spells have a synergistic effect.

By shunting a tiny amount of its physical form into the plane from which it normally comes, your mount gains the ability to walk on liquids or even on empty air.

This adjustment grants it a fly speed equal to its normal land-based movement rate, with average maneuverability.

This effect lasts until either *master cavalier* or *war-mount* expires.

METAL FANG

Transmutation

Level: Druid 2, ranger 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject's natural weapons take on a gleaming, metallic sheen.

You temporarily transform one of the subject's natural weapons into either cold iron or silvered, thereby allowing it to bypass the appropriate form of damage reduction.

The affected natural weapon also counts as magical for the purpose of overcoming damage reduction, though it gains no enhancement bonuses on attack or damage rolls.

You can cast the spell twice on the same weapon to make it function as both cold iron and silvered.

PROFANE ITEM

Transmutation [Evil]

Level: Cleric 4, blackguard 4

Components: V, S, DF

Casting Time: 1 full round

Range: Touch

Target: Object touched

Duration: Permanent until discharged

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

Negative forces flow through your hands and into the object you hold, filling it with a darkly glowing power that gleams for a moment, then subsides.

You imbue a touched object with latent negative energy.

If the item thereafter touches or is touched by an animal or plant of any alignment, or by an outsider or shapechanger of good alignment, the negative energy discharges with a loud snap, dealing 1d4 points of negative energy damage per caster level (maximum 10d4) to that creature.

If the creature discharging the item is an animal or plant, it must save against fear or flee in terror (or cower, if it cannot move) for 1d4 minutes.

On a successful save, the creature is merely shaken for the same length of time.

If the creature discharging the item is a shapechanger, an image of its natural form or most common alternate form appears for 1d4 rounds, superimposed over its body, revealing its true nature to all witnesses.

Profane item counters and dispels *sacred item* (see below).

SACRED ITEM

Transmutation [Good]

Level: Cleric 4, paladin 4

Components: V, S, DF

Casting Time: 1 full round

Range: Touch

Target: Object touched

Duration: Permanent until discharged

Saving Throw: Will negates

Spell Resistance: Yes (object)

Protective forces flow through your hands into the object you hold, suffusing it with a golden glow that shines for a moment, then subsides.

You imbue a touched object with latent positive energy.

If the item thereafter touches or is touched by an undead creature of any alignment, or by an outsider or shapechanger of evil alignment (other than yourself), the positive energy discharges with a flash of light, dealing 1d4 points of positive energy damage per caster level (maximum 10d4) to that creature.

If the creature discharging the item is undead, it must save against fear or flee in terror (or cower, if it cannot move) for 1d4 minutes.

On a successful save, the creature is merely shaken for the same length of time.

If the creature discharging the item is a shapechanger, an image of its natural form or most common alternate form appears for 1d4 rounds, superimposed over its body, revealing its true nature to all witnesses.

Sacred item counters and dispels profane item (see above).

SUBSTITUTE DOMAIN

Transmutation

Level: Cleric 2

Components: V, S, DF

Casting Time: 10 minutes

Range: Personal

Target: You

Duration: 1 day/level (D)

The power of your deity courses through you, re-placing what you once knew with different ideas and abilities.

Upon casting *substitute domain*, you can swap one of your current domains for another that your deity offers.

You gain the granted power of the new domain, as well as access to any of its spells that you can cast—though you must still prepare the spells normally.

While *substitute domain* is in effect, you lose the granted powers and spells of the domain to which you have given up access.

For example, Saera, a cleric of Pelor, normally has access to the Strength and Sun domains.

She casts *substitute domain*.

on herself and chooses to swap the Strength domain for another of the domains that Pelor normally grants—namely Healing.

While she can now access the spells and granted power of the Healing domain, Saera cannot tap the abilities and spells normally associated with the Strength domain.

SURGE OF FORTUNE

Transmutation

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until discharged

The power of your deity flows through you, guiding your movements and honing your instincts.

Upon casting this spell, you gain a +2 luck bonus on attack rolls and damage rolls, saving throws, skill checks, ability checks, and spell penetration checks, as well as to Armor Class.

At any point before the spell expires, you can channel some of its remaining power into a single instant of perfect fortune as an immediate action.

The result of the next attack roll, saving throw, skill check, ability check, or spell penetration check you attempt is treated as a natural 20, as long as it occurs within 1 round of the time you invoked this power.

(If you use it for an attack roll, you must still roll to confirm the critical hit normally).

Using this option instantly ends the spell.

WAR-MOUNT

Transmutation

Level: Blackguard 3, paladin 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Special mount or fiendish companion touched

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

At your touch, your mount's flanks ripple, and its eyes blaze with newfound energy.

You render the natural attacks of your mount or fiendish companion magical with a touch.

The creature gains a +2 enhancement bonus on attack rolls and damage rolls with its natural weapons for the duration of the spell.

They are treated as both magic and good-aligned (paladin) or evil-aligned (blackguard) weapons for the purpose of overcoming damage reduction.

If you cast this spell in conjunction with *master cavalier* (page 124) and *phantom charge* (page 125), the three spells have a synergistic effect.

See the *master cavalier* spell description for details.

WOODEN BLIGHT

Transmutation

Level: Druid 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 round/level (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes

The spirit of the trees manifests within your foe, slowing and transforming its body.

You transform the subject's body into wood from the inside out.

Each round, the subject must make a new saving throw or take 1d4 points of Dexterity damage.

Success halves the Dexterity damage from that round and ends the spell.

A subject whose Dexterity is reduced to 0 or lower by this spell transforms, along with its gear, into a mindless, inert, wooden statue.

A creature in this state is not actually dead, but it does not register as alive either when viewed with spells such as *deathwatch*.

If the target already has Dexterity damage or a penalty to Dexterity, *wooden blight* is even more debilitating.

Each round in which the subject takes Dexterity damage from this spell, its base movement rate is reduced by 5 feet for every point of Dexterity damage it takes (minimum speed 5 feet).

Creatures of the plant type are immune to this spell.

Material Component: A sliver of wood from a living tree.

COMPLETE DIVINE (3.5)

ABJURATION

BLESSING OF BAHAMUT

Abjuration [Good]

Level: Paladin 3

Components: V, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Your skin takes on a platinum sheen that protects you from the weapons of your enemies.

You gain damage reduction of 10/magic for the spell's duration.

Material Component: A canary feather, which is flung into the air.

DANCE OF THE UNICORN

Abjuration

Level: Druid 5, Purification 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level (D)

You surround yourself with a purifying, swirling mist with a radius of 5 feet per caster level that washes the air clean of smoke dust, and poisons.

Nonmagical contaminants, including inhaled poisons, are automatically negated within the cloud.

Magical effects, including *acid fog*, *cloudkill*, and green dragon breath, are negated only if your level is greater than the offending spell's caster level (or the dragon's HD).

If your level is lower than the caster level, the *dance of the unicorn* grants everyone within the mist a +4 bonus on their saving throws against the effect.

The cloud of mist leaves everything within its area damp.

RESURGENCE

Abjuration

Level: Blackguard 1, cleric 1, paladin 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

By laying hands on a creature and saying a brief prayer, you can convince a higher power to grant a second chance to one of your allies.

The target of *resurgence* can make a second attempt to save against an ongoing spell, spell-like ability, or supernatural ability, such as *dominate person*, a chaos beast's corporeal instability, or the sickening effect (but not the damage) from *unholy blight*.

If the target of *resurgence* is subject to more than one ongoing magic effect, the target chooses one of them to retry the save against.

If the subject succeeds at the saving throw on the second attempt, the effect ends immediately.

Resurgence never restores hit points or ability score damage, but it does eliminate any conditions such as shaken, fatigued, or nauseated that were caused by the spell, spell-like ability, or supernatural ability.

If a spell, spell-like ability, or supernatural ability doesn't allow a save (such as *power word stun*), then *resurgence* won't help the subject recover.

RESURGENCE, MASS

Abjuration

Level: Blackguard 3, cleric 4, paladin 3

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

This spell functions like *resurgence*, except that it affects multiple creatures.

The spell grants a second save attempt against a single spell or ability chosen by the caster.

If three of your allies have been mind blasted by mind flayers and two others have been turned into toads by *baleful polymorph* spells, you must choose either the mind blast (granting three new save attempts) or the *baleful polymorphs* (granting two new save attempts).

SACRED HAVEN

Abjuration [Good]

Level: Paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You shield one creature in a nimbus of holy energy.

The creature gains a +2 sacred bonus to Armor Class.

In addition, while protected by this spell, the creature does not lose its Dexterity bonus to Armor Class when flat-footed.

For the duration of the spell, you gain awareness of the creature's health as with the *status* spell, and you need not be able to touch the affected creature to heal it with your lay on hands ability.

Use of the lay on hands ability still requires a standard action, but it can be done at any range.

SPELL RESISTANCE, MASS

Abjuration

Level: Cleric 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Up to one creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level; see text

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Each targeted creature gains spell resistance equal to 12 + caster level.

Divide the duration evenly among all the creatures you target.

In order to affect a creature who has spell resistance with a spell, a spellcaster must roll the creature's spell resistance or higher on 1d20 + caster level.

A creature with spell resistance may, as a standard action, voluntarily lower it in order to accept a spell.

STORM TOWER

Abjuration

Level: Druid 7

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Area: 100-ft. tall, 20-ft.-radius spread

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

You form a tower of dark, swirling storm clouds that negates many forms of magic.

The *storm tower* absorbs any electricity damage inflicted to those within it.

Magic missiles cannot be cast into, out of, or within the *storm tower*.

The *storm tower* is composed of 60 mph winds (making ranged attacks impossible within the tower), though it has no effect on the movement of creatures within it.

However, only Gargantuan or Colossal creatures can pass through the outer edge of the storm tower; all creatures of lesser size must stop any movement at the edge.

Anyone within the *storm tower* has one-half concealment relative to those outside the tower.

The howling winds of the storm tower also apply a –10 penalty on all Listen checks within 50 feet of it (including all those inside).

UNBINDING

Abjuration

Level: Liberation 9, sorcerer/wizard 9

Components: V, S, M, DF

Casting Time: 1 full round

Range: 180 ft.

Area: 180-ft.-radius burst, centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When you cast an *unbinding* spell, a burst of force erupts from your body and magically destroys any spells that contain, constrain, or seal, with the exceptions noted below.

The *unbinding* negates *charm* and *hold* spells of all types, *arcane locks* and similar closures, spells that create physical or magical barriers (*wall of stone*, *wall of force*), *guards and wards*, *temporal stasis*, and *slow* spells, among others.

The effect of a *statue* spell is ended.

A *magic jar* is shattered—forever destroyed—and the life force within snuffed out.

In addition, any spell that holds magical effects, including other spells, immediately releases them at a range of 0 feet (including *magic mouth*, *imbue with spell ability*, and so on).

Protective spells such as *protection from evil*, *shield*, *globe of invulnerability*, and similar spells are not affected by an *unbinding*.

Petrified creatures are neither revealed nor restored.

Individuals bound to service are not freed (including creatures such as familiars, invisible stalkers, genies, and elementals).

An *antimagic field* is not affected, nor does the effect of *unbinding* penetrate one.

A *magic circle against evil* (or another alignment) that currently holds a creature imprisoned is dispelled.

Curses and *geas/quest* spells are negated only if the caster is of a level equal to or greater than that of the original caster. All these effects occur without regard to the caster's wishes. Spell effects on the person of the caster or being carried or worn by the caster remain undisturbed, but any others within the burst are effective, including those of allies. The opening of locks or other closures triggers any alarms or traps attached to them.

Any released creature may or may not be friendly to the caster.

Material Components: A lodestone and a pinch of saltpeter.

ZEAL

Abjuration

Level: Blackguard 2, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You invoke a divine shield to protect you as you close with a chosen opponent.

Choose a foe as you cast this spell.

You gain a +4 deflection bonus to your AC against all attacks of opportunity from opponents other than the chosen foe.

Also, you can move through enemies as if they were allies for the duration of this spell, as long as you finish your movement closer to your chosen foe than when you began it.

CONJURATION

BEGET BOGUN

Conjuration (Creation)

Level: Druid 1

Components: V, S, M, XP

Casting Time: 1 standard action

Range: Touch

Effect: Tiny construct

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Beget bogun allows you to infuse living magic into a small mannequin that you have created from vegetable matter.

This is the final spell in the process of creating a bogun.

See the bogun's description for further details.

Material Component: The mannequin from which the bogun is created.

XP Cost: 25 XP.

☛ Bogun

Tiny Construct

Hit Dice: 2d10 (11 hp)

Initiative: +3

Speed: 20 ft. (4 squares), fly 50 ft. (good)

Armor Class: 15 (+2 size, +3 Dex), touch 15, flat-footed 12

Base Attack/Grapple: +1/–5

Attack: Nettles +1 melee (1d4–2 plus poison)

Full Attack: Nettles +1 melee (1d4–2 plus poison)

Space/Reach: 2-1/2 ft./0 ft.

Special Attack: Poison

Special Quality: Construct traits
Saves: Fort +0, Ref +3, Will +1
Abilities: Str 7, Dex 16, Con —, Int 8, Wis 13, Cha 10
Skills: Hide +10, Move Silently +9
Feat: Stealthy
Environment: Any (typically forest)
Organization: Solitary
Challenge Rating: 1
Treasure: None
Alignment: Any neutral (always the same as the creator)
Advancement: 3–6 HD (Tiny)
Level Adjustment: —

A bogun is a small nature servant created by a druid. Like a homunculus, it is an extension of its creator, sharing the same alignment and link to nature.

A bogun does not fight particularly well, but it can perform any simple action, such as attacking, carrying a message, or opening a door or window.

For the most part, a bogun simply carries out its creator's instructions.

Because it is self-aware and somewhat willful, however, its behavior is not entirely predictable.

On rare occasions (5% of the time), the bogun may refuse to perform a particular task.

In that case, the creator must make a Diplomacy check (DC 11) to convince the creature to cooperate.

Success means the bogun performs the task as requested; failure indicates that it either does exactly the opposite or refuses to do anything at all for 24 hours (DM's option as to which).

A bogun cannot speak, but the process of creating one links it telepathically with its creator.

It knows what its creator knows and can convey to him or her everything it sees and hears, up to a range of 500 yards. A bogun never travels beyond this range willingly, though it can be removed forcibly.

In that case, it does everything in its power to regain contact with its creator.

An attack that destroys a bogun also deals its creator 2d10 points of damage.

If the creator is slain, the bogun also dies, and its body collapses into a heap of rotting vegetation.

A bogun looks like a vaguely humanoid mound of compost. The creator determines its precise features, but the typical bogun stands about 18 inches tall and has a wingspan of about 2 feet.

Its skin is covered with nettles and branches.

Combat: A bogun attacks by brushing against opponents with harsh nettles that deliver an irritating poison.

Poison (Ex): Nettles, Fort save (DC 11); initial and secondary damage 1d6 temporary Dex.

The creator of a bogun is immune to its poison.

Construct Traits: A bogun has immunity to poison, sleep effects, paralysis, stunning, disease, death effects, necromancy effects, mind-affecting effects (charms, compulsions, phantasms, patterns, and morale effects), and any effect that requires a Fortitude save unless it also works on objects or is harmless.

It is not subject to critical hits, subdual damage, ability damage, ability drain, fatigue, exhaustion, or energy drain.

Cannot heal damage, but can be repaired.

Darkvision 60 ft. and low-light vision.

Construction: Unlike a homunculus, a bogun is created from natural materials available in any forest.

Thus, there is no gold piece cost for its creation.

All materials used become permanent parts of the bogun. The creator must be at least 7th level and possess the Craft Wondrous Item feat to make a bogun.

Before casting any spells, a physical form must be woven out of living (or once-living) vegetable matter to hold the magical energy.

A bit of the creator's own body, such as a few strands of hair or a drop of blood, must also be incorporated into this crude mannequin.

The creator may assemble the body personally or hire someone else to do it.

Creating the mannequin requires a Craft (basketweaving or weaving) check (DC 12).

Once the body is finished, the creator must animate it through an extended magical ritual that requires a week to complete.

The creator must labor for at least 8 hours each day in complete solitude in a forest grove; any interruption from another sentient creature undoes the magic.

If the creator is personally weaving the creature's body, that process and the ritual can be performed together.

When not actively working on the ritual, the creator must rest and can perform no other activities except eating, sleeping, or talking.

Missing even one day causes the process to fail.

At that point, the ritual must be started anew, though the previously crafted body and the grove can be reused.

On the final day of the ritual, the creator must personally cast *control plants*, *wood shape*, and *beget bogun*.

These spells can come from outside sources, such as scrolls, rather than being prepared, if the creator prefers.

BOTTLE OF SMOKE

Conjuration (Creation)

Level: Druid 4, ranger 3

Components: V, S, F

Casting Time: 10 minutes

Range: Touch

Effect: One smoky, horselike creature

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You use a fire source to create a plume of smoke that you capture in a special bottle you're holding.

If the bottle is thereafter opened before the spell duration expires, the smoke emerges to form a vaguely horselike creature made of wisps of smoke.

It makes no sound, and anything that touches it simply passes through it.

To mount this smoke horse, the would-be rider must make a successful Ride check (DC 10) while holding the bottle in one hand.

Anyone attempting to mount without the bottle simply passes through the horse's form.

Letting go of the bottle after mounting causes the rider to fall through the horse's smoky form; he or she cannot thereafter remount without the intact bottle in hand.

If the bottle is broken, the spell ends immediately and the rider (if mounted) falls to the ground.

The smoke horse has a speed of 20 feet per caster level, to a maximum of 240 feet.

It can send smoke billowing out behind it at the rider's behest, leaving behind a bank of smoke 5 feet wide and 20 feet high as it moves.

A wind that is at least severe (31+ mph), or magical wind of any kind, disperses the horse (and any smoke it has produced) instantly.

Otherwise, the bank of smoke lasts 10 minutes, starting on the turn it was laid down.

Starting or stopping the smoke trail is a free action.

The mount and the smoke trail it produces give one-half concealment (20% miss chance) to anyone behind them.

The mount is immune to all damage and other attacks because material objects and spells simply pass through it. It cannot attack.

The rider can return the smoke horse to the bottle, and thus pause the spell, at any time by simply uncorking it (a move-equivalent action) and stoppering it again (another move-equivalent action) in the next round after the horse is inside.

If the bottle is reopened later, the spell reactivates with its remaining duration intact.

Regardless of how much duration remains unused, the spell ceases functioning 24 hours after it is cast.

If dispelled at any time while the bottle is corked, the spell ends.

Focus: An ornate, corked bottle worth at least 50 gp.

COMETFALL

Conjuration (Creation)

Level: Cleric 6, druid 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 400-pound ball of rock and ice

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

You conjure a bright, glowing comet, which appears in midair above your enemies, then strikes the ground with tremendous force.

The comet appears 5 feet per caster level above the ground or at the ceiling, whichever is lower.

The comet immediately falls, dealing 2d6 points of damage per 10 feet fallen to everything in the 10-foot-square area directly below it.

The force of the comet can also knock creatures prone.

Creatures who failed their Reflex save are subject to a trip attempt.

The comet has a +11 bonus (+7 for effective Strength of 25 and +4 for being Large) on the trip check.

The comet breaks apart on impact, filling the 10-foot-square area with dense rubble (as described on page 90 of the *Dungeon Master's Guide*).

DEIFIC VENGEANCE

Conjuration (Summoning)

Level: Cleric 2, Purification 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will half

Spell Resistance: Yes

When you cast this spell, you call out to a deity, listing the crimes of your target and urging the deity to punish the miscreant.

(The target's alignment is irrelevant to the success of the spell).

The divine power of the angry deity imposes this punishment in the form of a sharp, spiritual blow to the target.

This attack hits automatically and deals 1d6 points of damage per two caster levels (maximum 5d6), or 1d6 points per caster level (maximum 10d6) if the target is undead.

A successful Will saving throw reduces the damage by half.

GOLDEN BARDING

Conjuration (Creation) [Force]

Level: Blackguard 1, paladin 1

Components: V, DF

Casting Time: 1 standard action

Range: Touch

Target: Special mount touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You conjure forth a glowing, golden suit of barding for your special mount.

The golden barding you create has no armor check penalty and has no effect on your mount's speed.

The exact nature of the barding depends on your caster level.

2nd–3rd: Scale mail barding (+4 armor bonus).

4th–5th: Chainmail barding (+5 armor bonus).

6th–7th: Splint mail barding (+6 armor bonus).

8th–9th: Half-plate barding (+7 armor bonus).

10th+: Full plate barding (+8 armor bonus).

Because *golden barding* is made of force, incorporeal creatures can't bypass it the way they do normal armor.

MAELSTROM

Conjuration (Creation)

Level: Ocean 8

Components: V, S, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: A whirlpool 120 ft. wide and 60 ft. deep

Duration: 1 round/level

Saving Throw: Reflex negates (and see text)

Spell Resistance: No

Maelstrom causes a deadly vortex to form in water.

A body of water at least 120 feet wide and 60 feet deep must be present, or the spell is wasted.

Waterborne creatures or objects within 50 feet of the vortex (below and on all sides) must make successful Reflex saves or be sucked in.

Trained swimmers can attempt Swim checks instead if their skill modifier is higher than their Reflex save bonus.

Waterborne vessels avoid being sucked in if their operators make Profession (sailor) checks against the same DC as the spell's saving throw.

These creatures and objects take 3d8 points of damage upon being sucked in.

Once inside, creatures and objects take 3d8 points of bludgeoning damage each round.

They remain trapped for 2d4 rounds.

Subjects of Large or smaller size are ejected from the bottom of the vortex.

Larger subjects are ejected from the top.

OBEDIENT AVALANCHE

Conjuration (Creation) [Cold]

Level: Cold 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 20-ft.-radius avalanche of snow, centered anywhere within range; see text

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: No

You summon an avalanche of snow out of a rift in midair, burying your foes and sending them to a frosty death.

The *obedient avalanche* affects creatures differently, depending on where they are in relation to the avalanche.

Within 20 feet of the Center Point: Creatures take 1d8 points of damage per two caster levels (maximum 10d8) and an additional 1d6 points of cold damage per two caster levels. Creatures who fail their saves are also buried (as described in *Avalanches*, page 90 of the *Dungeon Master's Guide*).

All squares within 20 feet of the center point are covered in heavy snow (see page 94 of the *Dungeon Master's Guide*), which persists as long as ordinary snow would.

Between 20 feet and 40 feet of the Center Point: Creatures take half as much damage from the impact of the avalanche as the creatures nearer the center point took (Reflex save negates).

Creatures who fail their saves must also resist the force of the snow moving past them as if they were being bull rushed.

The snow has a +13 bonus (+5 for effective Strength of 20 and +8 for effectively being Huge) on the bull rush check, and it pushes characters away from the center point of the spell.

All squares in the 20-foot to 40-foot ring are covered in light snow, which persists as long as ordinary snow would.

Terrain and Structures: The avalanche uproots small trees and other vegetation automatically, and it leaves a trail of light rubble (as described on page 91 of the *Dungeon Master's Guide*) even after the snow melts.

Structures struck by an *obedient avalanche* take 1d6×10 points of damage.

The *obedient avalanche* extinguishes all flames, whether normal or magical, it touches.

OTYUGH SWARM

Conjuration (Creation)

Level: Pestilence 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Three or more ottyughs, no two of which are more than 30 ft. apart

Duration: Seven days or seven months (D); see text

Saving Throw: None

Spell Resistance: No

Otyugh swarm creates otyughs from a large collection of refuse and filth, such as a sewer or cesspool.

You can choose to create 3d4 ordinary otyughs or 1d3+1 Huge otyughs with 15 HD (see page 296 of the *Monster Manual*).

The otyughs willingly aid you in combat or battle, perform a specific mission, or serve as bodyguards.

They remain with you for seven days unless you dismiss them.

If the otyughs are created only for guard duty, the duration of the spell is seven months.

In this case, the otyughs can only be ordered to guard a specific site or location.

Otyughs summoned to guard duty cannot move outside the spell's range.

You must create the otyughs in an area containing at least 6,000 pounds of sewage, refuse, or offal.

After you cast the spell, otyughs not summoned for guard duty may leave the area of offal at your command.

PAVILION OF GRANDEUR

Conjuration (Creation)

Level: Creation 9

Components: V, S, DF

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Extradimensional pavilion, up to five 10-ft. cubes/level (S), plus feast for 12 creatures/level

Duration: 1 day/level (D) plus 12 hours; see text

Saving Throw: None

Spell Resistance: No

You conjure up a grand pavilion-sized tent that has a single entrance on the plane from which the spell was cast.

The entry point looks like a faint shimmering in the air that is 10 feet wide by 15 feet high.

Only those you designate may enter the pavilion, and the entrance is shut and made invisible behind you when you enter.

You may open it again from your own side at will.

Once observers have passed beyond the entrance, they are in a spacious tent decorated in the colors of your faith.

The lighting can vary between darkness and daylight, and the temperature between 40 and 90 degrees Fahrenheit, at your discretion when casting the spell.

The pavilion is sumptuously furnished, including a full meal for a dozen people per caster level.

Anyone who spends one full hour dining here gains benefits identical to those of a *heroes' feast*.

While in the pavilion, creatures heal naturally at double the normal rate (not including fast healing or regeneration).

PHANTOM BEAR

Conjuration (Summoning)

Level: Druid 9

Components: V, S, DF

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: One summoned phantom bear

Duration: Concentration up to 1 round/level

Saving Throw: None

Spell Resistance: No

As *phantom wolf*, except you instead conjure an incorporeal bear with a fearsome roar.

☛ **Phantom Bear:** Huge magical beast (incorporeal); HD 14d10+48; hp 113; Init +9; Spd fly 60 ft. (good); AC 25, touch 25, flat-footed 16; Base Atk +14; Grp —; Atk +23 melee touch (2d6 plus 3d6 cold, claw); Full Atk +23 melee touch (2d6 plus 3d6 cold, 2 claws) and +21 melee (2d8 plus 3d6 cold, bite); SA fearsome roar; SQ darkvision 60 ft., incorporeal traits; AL N; SV Fort +13, Ref +17, Will +7; Str —, Dex 29, Con 20, Int 11, Wis 17, Cha 28.

Skills and Feats: Listen +20, Spot +20; Dodge, Combat Reflexes, Mobility, Multiattack, Weapon Focus (bite).

Fearsome Roar: A phantom bear can loose a fearsome roar every 1d4 rounds.

All creatures except the caster of the *phantom bear* spell within 120 feet must succeed on a DC 26 Will save or be frightened for 3d6 rounds.

Those who are within 30 feet when they fail their saves are panicked instead of frightened.

Incorporeal Traits: A phantom bear is harmed only by other incorporeal creatures, magic weapons, spells, spell-like abilities, and supernatural abilities.

It has a 50% chance to ignore any damage from a corporeal source, except for force effects or attacks made with ghost touch weapons.

It can pass through solid objects, but not force effects, at will.

Its attacks ignore natural armor, armor, and shields, but deflection bonuses and force effects work normally against them.

An incorporeal creature always moves silently and cannot be heard with Listen checks if it doesn't wish to be.

PHANTOM STAG

Conjuration (Creation)

Level: Druid 5

Components: V, S

Casting Time: 1 standard action

Range: 0 ft.

Effect: One quasi-real, staglike creature

Duration: 1 hour/level (D)

Saving Throw: None; see text

Spell Resistance: No

You conjure a Large, corporeal staglike creature that bears you or a person you designate into combat or overland at great speed.

A phantom stag has a black body and head with sharp, silvery antlers, and smoke-colored, insubstantial hooves that make no sound.

It has no saddle, bridle, or bit, but it is exceptionally alert to the nudges and balance changes of its rider.

The phantom stag has an AC of 20 (–1 size, +6 natural armor, +5 Dex) and 40 hit points +5 hit points per caster level.

It attacks with its antlers at a +10 bonus, dealing 1d8+9 points of damage (doubled on a successful charge).

It can also trample Medium or smaller foes, who must succeed on a Reflex save or take 1d6+9 points of damage as the stag moves through their space.

A phantom stag has a speed of 20 feet per caster level, to a maximum of 300 feet.

It can bear its rider's weight plus up to 10 pounds per caster level.

It ignores terrain elements such as undergrowth, rubble, or mud that would slow its movement.

Phantom stags gain certain powers according to caster level.

A mount's abilities include those of mounts of lower caster levels.

Thus, a mount created by a 16th-level caster has the 12th and 14th caster level abilities as well.

12th Level: The phantom stag can use *air walk* at will (as the spell, no action required to activate this ability) for up to 1 round at a time, after which it falls to the ground.

The phantom stag gains a +2 deflection bonus to AC.

14th Level: The phantom stag can fly at its speed (average maneuverability).

The phantom stag gains a +4 deflection bonus to AC.

16th Level: The phantom stag's antlers have the wounding and ghost touch weapon qualities.

The phantom stag gains a +6 deflection bonus to AC.

18th Level: The phantom stag can use *etherealness* on behalf of its rider (as the spell, caster level 18th).

The phantom stag gains a +8 deflection bonus to AC.

PHANTOM WOLF

Conjuration (Summoning)

Level: Druid 8

Components: V, S, DF

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: One summoned phantom wolf

Duration: Concentration up to 1 round/level

Saving Throw: None

Spell Resistance: No

You conjure forth an incorporeal white wolf with abnormally large, frosty jaws.

This phantom wolf follows your mental commands, acting on your behalf as long as it remains within range and you continue to concentrate on it.

The phantom wolf appears where you designate and acts as you direct on your turn.

You don't need to maintain line of effect once the spell is cast, but the spell ends if the phantom wolf is ever outside the spell's range.

☛ **Phantom Wolf:** Large magical beast (incorporeal); HD 12d10+48; hp 113; Init +9; Spd fly 60 ft. (good); AC 25, touch 25, flat-footed 16; Base Atk +12; Grp—; Atk +21 melee touch (2d6 plus 3d6 cold, bite); Full Atk +22 melee touch (2d6 plus 3d6 cold, bite); SA frightful presence; SQ darkvision 60 ft., incorporeal traits; AL N; SV Fort +12, Ref +17, Will +7; Str —, Dex 29, Con 18, Int 11, Wis 17, Cha 26. *Skills and Feats:* Listen +20, Spot +20; Alertness, Dodge, Combat Reflexes, Mobility, Weapon Focus (bite).

Frightful Presence: Creatures of less than 12 HD within 30 feet of an attacking phantom wolf must succeed on a DC 24 Will save or be frightened for 3d6 rounds.

An opponent that succeeds on the saving throw is immune to that same phantom wolf's frightful presence for 24 hours.

Incorporeal Traits: A phantom wolf is harmed only by other incorporeal creatures, magic weapons, spells, spell-like abilities, and supernatural abilities.

It has a 50% chance to ignore any damage from a corporeal source, except for force effects or attacks made with ghost touch weapons.

It can pass through solid objects, but not force effects, at will.

Its attacks ignore natural armor, armor, and shields, but deflection bonuses and force effects work normally against them.

An incorporeal creature always moves silently and cannot be heard with Listen checks if it doesn't wish to be.

PLAGUE OF RATS

Conjuration (Summoning)

Level: Pestilence 5

Components: V, S, DF

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: Swarm of dire rats in a 20-ft. spread

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes; see text

A swarm of dire rats viciously attacks all other creatures within a 20-foot spread, inflicting damage and spreading filth fever (see page 292 of the *Dungeon Master's Guide*).

A creature in the swarm that takes no action other than fighting off the rats takes 1d4 points of damage on its turn and makes a Fortitude saving throw against DC 15 + your Intelligence bonus to avoid contracting filth fever.

A creature in the swarm who takes any other action, including leaving the swarm, takes 1d4 points of damage per caster level, and must save at a –4 penalty to avoid contracting the disease.

Spellcasting or concentrating on spells within the swarm is impossible.

The rats' attacks are nonmagical, so being incorporeal, damage reduction, and other defenses can protect a creature from damage.

The disease effect is magical and spreads by touch.

Any corporeal creature in the swarm that is subject to disease may contract it.

The swarm cannot be fought effectively with weapons, but fire and damaging area effects can force it to disperse.

The swarm disperses when it has taken a total of 8 points of damage per caster level from these attacks.

A *stinking cloud* spell and similar area spells disperse a swarm immediately.

As a move-equivalent action, you can direct the swarm to move up to 40 feet per round.

POISON VINES

Conjuration (Creation)

Level: Druid 7

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

As *vine mine*, but the vines you create are poisonous (contact, 1d6 Dex/2d6 Dex).

A successful Fortitude save is required only upon the first entry into the spell's area (and again 1 minute later); creatures don't have to save each time they enter (or each round they remain within).

You are immune to the poison of the vines you create, and you can select a number of other targets equal to your level to share this immunity.

QUILL BLAST

Conjuration (Creation)

Level: Druid 5

Components: V, S, M

Casting Time: 1 standard action

Range: 20 ft.

Area: 20-ft.-radius spread, centered on you

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: Yes

Needle-sharp quills emerge from your skin as you cast this spell, then fly outward in every direction when you complete the spell.

Creatures within the spread of a *quill blast* are hit by one or more quills, depending on their size:

Creature Size	Number of Quills
Tiny or smaller	1
Small	1d4
Medium	2d6
Large	3d6
Huge or larger	4d6

Creatures who make their saves are struck by half as many quills; Tiny or smaller creatures avoid the quills completely. Each quill inflicts 1d6 points of piercing damage and lodges itself in the flesh of any living creature it hits.

Lodged quills impose a –1 penalty on attacks, saves, and checks per quill.

A quill can be removed safely as a standard action with a DC 20 Heal check.

Otherwise, removing a quill deals an extra 1d6 points of damage.

Material Component: Porcupine quill.

RECITATION

Conjuration (Creation)

Level: Cleric 4, Purification 3

Components: V, S, DF

Casting Time: 1 standard action

Range: 60 ft.

Area: All allies and foes within a 60-ft.-radius burst centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

By reciting a sacred passage or declaration, you invoke your deity's blessing upon yourself and your allies while causing confusion and weakness among your enemies.

The spell affects all allies and foes within the spell's area at the moment you cast it.

Your allies gain a +2 luck bonus on attack rolls and saving throws, or a +3 luck bonus if they worship the same patron deity as you.

Enemies suffer a –2 luck penalty on attack rolls and saving throws.

After casting the spell, you are free to take further actions during the spell's duration as you see fit.

Divine Focus: In addition to your holy symbol, this spell requires a sacred text as a divine focus.

REJUVENATION COCOON

Conjuration (Healing)

Level: Druid 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Willing creature touched

Duration: 2 rounds

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With this spell, you create a temporary cocoon of energy around a creature you touch that provides healing and a measure of protection.

When you cast the spell, the cocoon forms around the target.

The glowing, yellow-green cocoon is made of force, but it is somewhat flexible and responds to pressure from the inside of the cocoon.

The cocoon initially forms a few inches from the target, but deforms enough to allow the target to reach into a backpack, cast a spell with a somatic component, draw a weapon, or perform similar actions.

The target can't move from the space it is in while cocooned, however.

Nor can it leave the *rejuvenation cocoon* early without using teleportation magic or dealing enough damage to destroy the cocoon.

The cocoon has hardness 10 and 10 hit points per caster level.

If it is destroyed, the spell ends.

One round after the cocoon forms, it heals the target of 10 points of damage per caster level and purges the target of poison and disease.

At the end of the second round, the *rejuvenation cocoon* dissipates and the target emerges, able to move and act freely.

Material Component: Cocoon from a butterfly.

RENEWAL PACT

Conjuration (Healing)

Level: Cleric 7, Pact 7

Components: V, S, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until triggered

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell creates a pact between the target and a deity that uses divine energy to wipe away any of a host of conditions that may afflict the target.

Once this spell is cast, the pact remains dormant until the target is subjected to one or more of the following adverse conditions: ability damage, blinded, *confused*, dazed, dizzled, deafened, diseased, exhausted, fatigued, *feble-minded*, insanity, nauseated, sickened, stunned, or poisoned.

One round after the target is affected by a condition that triggers the *renewal pact*, the target receives a *heal* spell (caster level equal to the caster of the *renewal pact*).

A creature can be subject to only one *renewal pact* at a time.

Casting *renewal pact* on a target who already has an untriggered *renewal pact* voids the earlier pact.

XP Cost: 500 XP.

REVENANCE

Conjuration (Healing)

Level: Blackguard 4, cleric 4, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Dead ally touched

Duration: 1 min./level

Saving Throw: None; see text

Spell Resistance: Yes (harmless)

You touch a recently slain ally and temporarily restore her to life so she may continue to fight.

The target can have been dead for up to 1 round/caster level.

She functions as if a *raise dead* spell had been cast upon her, except that she does not lose a level and has half of her full normal hit points.

She is alive (not undead) for the duration of the spell and can be healed normally, but dies as soon as the spell ends. While the subject is under this spell, she is not affected by *resurrection* or *raise dead*.

The target gains a +1 morale bonus on attacks, damage, saves, and checks against the creature that killed her.

SLIME WAVE

Conjuration (Summoning)

Level: Cleric 7, druid 7

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 15-ft.-radius spread

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

You create a wave of green slime that begins at the range you choose and violently spreads to the limit of the area.

The wave splashes and splatters as it passes; some slime clings to any wall or ceiling.

Green slime devours flesh and organic materials on contact, and even dissolves metal.

Each creature is covered with one patch of green slime for every 5 feet of its face.

A patch of green slime deals 1d6 points of temporary Constitution damage per round while it devours flesh.

Against wood or metal, green slime deals 2d6 points of damage per round, ignoring metal's hardness but not that of wood.

It does not harm stone.

On the first round of contact, the slime can be scraped off a creature (most likely destroying the scraping device), but after that it must be frozen, burned, or cut away (applying damage to the victim as well).

Extreme cold or heat, sunlight, or a *remove disease* spell destroys the green slime.

Unlike normal green slime, the slime created by this spell gradually evaporates, disappearing by the end of the duration.

Material Component: A few drops of stagnant pond water.

SPIRITUAL CHARIOT

Conjuration (Creation)

Level: Blackguard 4, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One special mount

Duration: 1 hour/level

When this spell is cast, a ghostly chariot forms behind the paladin's special mount.

The chariot is large and ornate, and it is made of transparent, faintly glowing energy.

Usually the holy symbol of the paladin's deity is emblazoned on the sides of the chariot.

The mount is correctly harnessed to the chariot.

The chariot can hold 1 Medium creature or two Small creatures plus the driver (usually the paladin).

Although the chariot seems large and sturdy, it and its occupants have no weight for the purpose of the mount's load, so the horse can travel at full speed.

If the chariot is ever unhitched from the special mount, it disappears.

The driver of the spiritual chariot gains a +4 sacred bonus on her Handle Animal checks.

The chariot is made of magical force and is immune to damage.

It interacts with other spells just like a *wall of force*.

Those in the chariot have cover based on their size and the position of their attackers.

In most situations, Medium creatures inside the chariot gain cover (+4 bonus to AC, +2 bonus on Reflex saving throws).

STORM OF ELEMENTAL FURY

Conjuration (Summoning)

Level: Druid 8

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: 40-ft.-radius storm cloud, 200 feet above the ground

Duration: Concentration (maximum 4 rounds) (D)

Saving Throw: See text

Spell Resistance: Yes

This spell creates a black storm cloud that hovers over your enemies, striking them with a terrifying combination of effects from the Elemental Planes.

When created, the *storm of elemental fury* buffets the area immediately below it with a whirling windstorm that functions as described on pages 94–95 of the *Dungeon Master's Guide*.

Ranged attacks within the area of the storm are impossible, and Small or smaller creatures must succeed on a Fortitude save or be blown away.

Medium creatures must make their Fortitude save or be knocked prone, and Large or larger creatures must succeed on a Fortitude save to move that round.

Flying creatures that fail their saves are instead blown in a random direction, traveling 1d6×5 feet of Large or larger, 1d6×10 feet if Medium, and 2d6×10 feet if Small or smaller. Spells cast within the area are disrupted unless the caster succeeds on a Concentration check against a DC equal to

the *storm of elemental fury's* save DC + the level of the spell the caster is trying to cast.

If you do not maintain concentration on the spell after casting it, the spell ends.

If you continue to concentrate, the spell generates additional effects in each following round, as noted below. Each effect occurs during your turn.

As a move action (taken in addition to the standard action required to maintain concentration), you can move the storm cloud up to 40 feet in any direction.

2nd round: Chunks of rock fall from the sky, dealing 5d6 points of bludgeoning damage (no save).

3rd round: A deluge of rain extinguishes unprotected flames and perhaps protected ones as well (50% chance). The torrential downpour reduces visibility to 5 feet and cuts movement speed in half.

4th round: Flame pelts the area underneath the storm cloud, dealing 1d6 points of fire damage per caster level (Reflex half).

TRUE CREATION

Conjuration (Creation)

Level: Creation 8

Components: V, S, M, XP

Casting Time: 10 minutes

Range: 0 ft.

Effect: Unattended, nonmagical object of nonliving matter, up to 1 cu. ft./level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a nonmagical, unattended object of any sort of matter.

Items created are permanent and cannot be negated by dispelling magics or negating powers.

For all intents and purposes, these items are completely real.

The volume of the item created cannot exceed 1 cubic foot per caster level.

You must succeed on an appropriate skill check to make a complex item, such as a Craft (bowmaking) check to make straight arrow shafts or a Craft (gemcutting) check to make a cut and polished gem.

Unlike the items brought into being by the lower-level spells *minor creation* and *major creation* (see the *Player's Handbook* for those spell descriptions), objects created by the casting of *true creation* can be used as material components.

Material Component: A small piece of matter of the same type of item you plan to create—a sliver of wood to create arrow shafts, a tiny piece of the appropriate stone to create a polished gem, and so forth.

XP Cost: The item's gold piece value in XP, or a minimum of 1 XP, whichever is more (see the *Player's Handbook* for item costs).

VIGOR

Conjuration (Healing)

Level: Cleric 3, druid 3

Duration: 10 rounds + 1 round/level (max 25 rounds)

This spell is the same as *lesser vigor*, except that it grants fast healing at the rate of 2 hit points per round.

VIGOR, GREATER

Conjuration (Healing)

Level: Cleric 5, druid 5

Duration: 10 rounds + 1 round/level (max 35 rounds)

This spell is the same as *lesser vigor*, except that it grants fast healing at the rate of 4 hit points per round.

VIGOR, LESSER

Conjuration (Healing)

Level: Cleric 1, druid 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 10 rounds + 1 round/level (max 15 rounds)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a touch of your hand, you boost the subject's life energy, granting him or her the fast healing ability for the duration of the spell.

The subject heals 1 hit point per round of such damage until the spell ends and is automatically stabilized if he or she begins dying from hit point loss during that time.

Lesser vigor does not restore hit points lost from starvation, thirst, or suffocation, nor does it allow a creature to regrow or attach lost body parts.

The effects of multiple *vigor* spells do not stack; only the highest-level effect applies.

Applying a second *vigor* spell of equal level extends the first spell's duration by the full duration of the second spell.

VIGOR, MASS LESSER

Conjuration (Healing)

Level: Cleric 3, druid 3

Components: V, S

Casting Time: 1 standard action

Range: 20 ft.

Target: One creature/two levels, no two of which can be more than 30 ft. apart

Duration: 10 rounds + 1 round/level (max 25 rounds)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You invoke healing energy over a group of creatures, granting each the fast healing ability for the duration of the spell.

Each subject heals 1 hit point per round of such damage until the spell ends and is automatically stabilized if he or she begins dying from hit point loss during that time.

Mass lesser vigor does not restore hit points lost from starvation, thirst, or suffocation, nor does it allow a creature to regrow or attach lost body parts.

The effects of multiple *vigor* spells do not stack; only the highest-level effect applies.

Applying a second *vigor* spell of equal level extends the first spell's duration by the full duration of the second spell.

VIGOROUS CIRCLE

Conjuration (Healing)

Level: Cleric 6, druid 6

Duration: 10 rounds + 1 round/level (max 40 rounds)

This spell is the same as *mass lesser vigor*, except that it grants fast healing at the rate of 3 hit points per round.

WATERSPOUT

Conjuration (Creation)

Level: Ocean 7

Components: V, S, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: A cylinder 10 ft. wide and 80 ft. tall

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

Waterspout causes water to rise up into a whirling, cylindrical column.

A body of water at least 10 feet wide and 20 feet deep must be present, or the spell is wasted.

If the waterspout encounters insufficient depth after it has formed, it collapses.

The waterspout moves at a speed of 30 feet and must remain over water.

You can concentrate on controlling the waterspout's every movement or specify a simple program, such as move straight ahead, zigzag, circle, or the like.

Directing the waterspout's movement or changing its programmed movement is a standard action for you. The waterspout always moves during your turn in the initiative order.

If the waterspout exceeds the spell's range, it collapses and the spell ends.

The waterspout batters creatures and objects it touches, and it often sucks them up.

Any creature or object that comes in contact with the waterspout must succeed on a Reflex save or take 3d8 points of damage.

Medium or smaller creatures who fail their save are sucked into the spout and held suspended in its powerful currents, taking 2d6 points of damage each round with no save allowed.

Trapped creatures remain inside for 1d3 rounds before the waterspout ejects them out the top of the spout, and they fall back to the surface (taking falling damage) 1d8×5 feet from the base of the waterspout.

Waterborne creatures or objects within 10 feet of the spout (below and on all sides) also must make successful Reflex saves or be sucked into the spout if they are Medium or smaller.

Anything sucked into the spout takes 3d8 points of damage and is then trapped for 1d3 rounds as explained above.

Only the smallest canoes, kayaks, or coracles can be sucked into the spout.

The occupant of any such craft may make a Profession (sailor) check instead of a Reflex save (his choice) to avoid being sucked up.

WOOD WOSE

Conjuration (Creation)

Level: Druid 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One nature servant

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

A *wood wose* is a translucent, green nature spirit that you can command to perform simple natural tasks.

It can build a campfire, gather herbs, feed an animal companion, catch a fish, or perform any other simple task that doesn't involve knowledge of technology.

It cannot, for example, open a latched chest, since it doesn't know how a latch works.

The wose can perform only one activity at a time, but it repeats the same activity if told to do so.

Thus, if you commanded it to gather leaves, it would continue to do so while you turned your attention elsewhere, as long as you remained within range.

The wose has an effective Strength score of 2, so it can lift 20 pounds or drag 100 pounds.

It can trigger traps, but the 20 pounds of force it can exert is not enough to activate most pressure plates.

Its speed is 15 feet in any direction, even up.

A *wood wose* cannot attack in any way; it is never allowed an attack roll or a saving throw.

It cannot be killed, but it dissipates if it takes 6 points of damage from area attacks.

If you attempt to send the wose beyond the spell's range (measured from your current position), it ceases to exist.

DIVINATION

BLESSED AIM

Divination

Level: Blackguard 2, cleric 3, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Effect: 60-ft. spread, centered on you

Duration: Concentration

Saving Throw: Will negates (harmless)

Spell Resistance: No

This spell grants a +2 morale bonus on all ranged attacks for your allies within the spread.

BRAIN SPIDER

Divination [Mind-Affecting]

Level: Cleric 8, Mind 7

Components: V, S, M, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Targets: Up to eight living creatures within range

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to eavesdrop as a standard action on the thoughts of up to eight other creatures at once, hearing as desired:

- The ceaseless chaos representing images of surface thoughts
- Individual trains of thought in whatever order you desire
- Information from all minds about one particular topic, thing, or being, one nugget of information per caster level

• A study of the thoughts and memories of one creature of the group in detail Once per round, if you do not perform a detailed study of one creature's mind, you can attempt (as a standard action) to implant a *suggestion* in the mind of any one of the affected creatures.

The creature can make another Will saving throw to resist the *suggestion*, using the save DC of the *brain spider*.

(Creatures with special resistance to enchantment spells can use this resistance to keep from being affected by the *suggestion*).

Success on this saving throw does not negate the other effects of the *brain spider* for that creature.

You can affect all intelligent beings of your choice within range (up to the limit of eight), beginning with known or named beings.

Language is not a barrier, and you need not personally know the beings—you can choose, for instance, "the nearest eight guards who must be in that chamber there". The spell cannot reach those who make a successful Will save.

Material Component: A spider of any size or type. It may be dead, but must still have all eight legs.

CHAIN OF EYES

Divination

Level: Cleric 3, druid 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

You can use a creature's vision instead of your own.

While this spell gives you no control over the creature, each time it comes into physical contact with another living being, you can choose to transfer your sensor to the new creature.

In this way, your sensor can infiltrate a closely guarded area.

During your turn in a round, you can use a free action to switch from seeing through the current creature's eyes to seeing normally or back again.

DETECT FAVORED ENEMY

Divination

Level: Ranger 3

Components: V, S, DF

Casting Time: 1 standard action

Range: 60 ft.

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 10 min./level (D)

Saving Throw: None

Spell Resistance: No

You can sense the presence of a favored enemy.

The amount of information revealed depends on how long you study a particular area.

1st Round: Presence or absence of a favored enemy in the area.

2nd Round: Types of favored enemies in the area and the number of each type.

3rd Round: The location and HD of each individual present.
Note: Each round you can turn to detect things in a new area.

The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks detection.

DREAM SIGHT

Divination

Level: Dream 6

Components: S, DF

Casting Time: 1 full round

Range: See text

Target: You

Duration: 1 min./level (D)

You fall into a deep sleep while your spirit leaves your body in incorporeal form and travels to distant locations.

Your spirit can move 100 feet per round, and can see and hear anything you could if you were in the same location.

The spirit can be blocked by any spell that wards incorporeal creatures, and it can be detected and attacked in the same way as incorporeal creatures can.

Your spirit can do nothing but move and observe—it cannot speak, attack, cast spells, or perform any other action.

At the end of the spell, your spirit instantaneously returns to your body and you wake up.

If your body is disturbed while your spirit is wandering, the spell ends immediately.

IMPLACABLE PURSUER

Divination

Level: Blackguard 4, ranger 4

Components: V, S

Casting Time: 1 minute

Range: Long (400 ft. + 40 ft./level); see text

Target: One creature

Duration: 1 hour/level (D)

Saving Throw: Will negates; see text

Spell Resistance: Yes

With this spell, you become an unerring tracker, instantly aware of your quarry's location whenever it's on the move.

The *implacable pursuer* spell gives you the direction and distance to the target creature whenever it finishes a turn more than 10 feet away from where it started.

The difficulty of the save against *implacable pursuer* depends on your relationship to the subject.

You apply your favored enemy bonus (if any) to the DC of the Will save the target attempts.

Once you successfully target a creature with *implacable pursuer*, you'll know its location as long as it's moving, no matter where it goes on the same plane.

Even if it leaves the plane, *implacable pursuer* tells you what plane the target creature went to.

The spell then provides no further information until you and the subject creature are on the same plane, in which case *implacable pursuer* resumes functioning normally.

MARK OF THE HUNTER

Divination

Level: Ranger 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature, which must be a favored enemy of the caster

Duration: 10 min./level

Saving Throw: Will negates

Spell Resistance: Yes

By pointing your figure at a favored enemy of yours, you mark it with a glowing rune that only you can see.

Your favored enemy bonuses against a foe with a *mark of the hunter* are +4 higher than they would otherwise be.

Furthermore, the rune limns your enemy, making him easier for you to attack.

The subject of a *mark of the hunter* gains no bonus to Armor Class against your attacks from any cover less than total cover, nor does it gain a miss chance against your attacks from any concealment less than total concealment.

Other effects that grant a miss chance (such as incorporeality) work normally.

Material Component: A bit of skin or bone from the relevant favored enemy type.

OMEN OF PERIL

Divination

Level: Cleric 1, druid 1

Components: V, F

Casting Time: 1 full round

Range: Personal

Target: You

Duration: Instantaneous

A brief supplication gives you (and only you) a vision that hints at how dangerous the immediate future is likely to be.

Based on an assessment of the caster's immediate surroundings and likely path of travel, the caster receives one of three visions: safety, peril, or great danger.

The base chance for receiving an accurate reply is 70% + 1% per caster level, to a maximum of 90%; the DM makes the roll secretly.

If the *omen of peril* is successful, you get one of three visions, which lasts just a second or two:

- **Safety.** The caster isn't in any immediate danger. If he continues on his present course (or remains where he is if he's been stationary for some time before casting the spell), he'll face no significant monsters, traps, or other challenges for the next hour or so.
- **Peril.** The caster will face challenges typical of an adventure: challenging but not overwhelming monsters, dangerous traps, and other hazards for the next hour or so.
- **Great danger.** The caster's very life is at grave risk. He will likely face powerful NPCs or deadly traps in the next hour.

If the roll fails, you get one of the other two results, determined randomly by the DM, and you don't necessarily know that you failed because the DM rolls secretly.

Choosing which vision is "correct" takes some educated guesswork on the part of the DM, who should assess the party's likely courses of action and what dangers they're likely to face.

The exact form that an *omen of peril* takes depends on whether the caster worships a specific deity, venerates nature as a druid, or simply upholds abstract principles.

A druid might see a white dove for safety, a dark cloud obscuring the sun for peril, and a forest fire for great danger.

A cleric of Fharlanghn might get a vision of a straight road for safety, a crossroads for peril, and a washed-out bridge for great danger.

Unlike the more powerful *augury*, an *omen of peril* doesn't respond to a specific question.

It only indicates the level of danger likely for the next hour, not what form the danger will take.

Focus: A set of marked sticks, bones, or similar tokens of at least 25 gp value.

PROBE THOUGHTS

Divination [Mind-Affecting]

Level: Mind 6, sorcerer/wizard 6

Components: V, S

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

All the subject's memories and knowledge are accessible to you, ranging from memories deep below the surface to those still easily called to mind.

You can learn the answer to one question per round, to the best of the subject's knowledge.

You can also probe a sleeping subject, though the subject may make a Will save against the DC of the *probe thoughts* spell to wake after each question.

Subjects who do not wish to be probed can attempt to move beyond the power's range, unless somehow hindered.

You pose the questions telepathically, and the answers to those questions are imparted directly to your mind.

You and the subject do not need to speak the same language, though less intelligent creatures may yield up only appropriate visual images in answer to your questions.

TELEPATHIC BOND, LESSER

Divination [Mind-Affecting]

Level: Cleric 3, Mind 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Targets: You and one willing creature within 30 ft.

Duration: 10 min./level

Saving Throw: None

Spell Resistance: No

You forge a telepathic bond with another creature with an Intelligence score of 6 or higher.

The bond can be established only with a willing subject.

You can communicate telepathically through the bond regardless of language.

No special power or influence is established as a result of the bond.

Once the bond is formed, it works over any distance (although not from one plane to another).

WEATHER EYE

Divination

Level: Cleric 4, druid 3
Components: V, S, M, DF
Casting Time: 1 hour
Range: 1 mile radius + 1 mile/level
Area: 1 mile radius + 1 mile/level, centered on you
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
You may accurately predict the natural weather up to one week into the future.
If unnatural forces currently affect the weather, then *weather eye* reveals as much information as a *detect magic* spell.
Material Component: Incense.
Divine Focus: A scrying device of some kind (bowl, mirror, crystal ball, and so forth).

ENCHANTMENT

BOLTS OF BEDEVILMENT

Enchantment [Mind-Affecting]
Level: Madness 5
Components: V, S
Casting Time: 1 standard action
Range: Medium (100 ft. + 10 ft./level)
Effect: Ray
Duration: 1 round/level
Saving Throw: Will negates
Spell Resistance: Yes
This spell grants you the ability to make one ray attack per round.
The ray dazes one living creature, clouding its mind so that it takes no action for 1d3 rounds.
The creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

MADDENING SCREAM

Enchantment (Compulsion) [Mind-Affecting]
Level: Madness 8
Components: V
Casting Time: 1 standard action
Range: Touch
Target: Living creature touched
Duration: 1d4+1 rounds
Saving Throw: None
Spell Resistance: Yes
The subject cannot keep himself from screaming, gibbering, and leaping about as though completely mad.
This spell makes it impossible for the victim to do anything other than race about caterwauling.
The spell gives the subject a -4 penalty to Armor Class, makes Reflex saving throws impossible except on a roll of 20, and makes it impossible to use a shield.

MONSTROUS THRALL

Enchantment (Compulsion) [Mind-Affecting]
Level: Domination 9
Components: V, S, XP
Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)
Target: One creature
Duration: Instantaneous
Saving Throw: Will negates
Spell Resistance: Yes
As *true domination*, except the subject can be any creature and is permanently dominated if it fails its initial Will save. A subject ordered to take an action against its nature receives a saving throw with a -4 penalty to resist taking that particular action.
If the save succeeds, the subject still remains your thrall despite its minor mutiny.
Once a subject makes a successful saving throw to resist a specific order, it makes all future saving throws to resist taking that specific action without a penalty.
XP Cost: 500 XP per Hit Die or level of the subject.

RIGHTEOUS WRATH OF THE FAITHFUL

Enchantment (Compulsion) [Mind-Affecting]
Level: Cleric 7
Components: V, S, DF
Casting Time: 1 standard action
Range: 30 ft.
Targets: All allies within 30 ft.-radius burst centered on you
Duration: 1 round/level
Saving Throw: None
Spell Resistance: Yes
When you cast this spell, you fire your allies and companions with a divine madness or fury that greatly enhances their combat ability.
Allies who are fighting on your side are affected as if they had received an *aid* spell, gaining a +1 morale bonus on attack rolls and saving throws against fear effects, plus 1d8 temporary hit points for the duration of the spell.
Allies who worship the same deity as you are infused with the *righteous wrath*.
They gain one additional melee attack each round, at their highest attack bonus, and a +2 morale bonus on attack and damage rolls and saving throws.
They gain an additional 1d8 temporary hit points (for a total of 2d8) and a +3 morale bonus on saving throws against mind-affecting spells or effects.
When the spell duration expires, any allies who were affected by the full *righteous wrath* are fatigued (-2 to Strength, -2 to Dexterity, can't charge or run) for 10 minutes.

TOUCH OF MADNESS

Enchantment [Mind-Affecting]
Level: Madness 2
Components: V, S
Casting Time: 1 standard action
Range: Touch
Target: Creature touched
Duration: 1 round/level
Saving Throw: Will negates
Spell Resistance: Yes
You may daze one living creature by making a successful touch attack.

If the target creature does not make a successful Will save, its mind is clouded and it takes no action for 1 round per caster level.

A dazed creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

TRUE DOMINATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Domination 8

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One humanoid of Medium size or smaller

Duration: 1 day/level

Saving Throw: Will negates

Spell Resistance: Yes

You can control the actions of any humanoid that is Medium or smaller.

You establish a telepathic link with the subject's mind. If a common language is shared, you can generally force the subject to perform as you desire, within the limits of his abilities.

If no common language is shared, you can communicate only basic commands, such as "Come here", "Go there", "Fight", and "Stand still".

You know what the subject is experiencing, but you do not receive direct sensory input from him.

Subjects have a chance of resisting this control (Will save to avoid the effects when the spell is cast).

Those affected by the spell and then forced to take actions against their nature receive a new saving throw with a penalty of -4.

Obviously self-destructive orders may be carried out, unless the subject can make a saving throw with the -4 penalty.

Once control is established, the range at which it can be exercised is unlimited, as long as you and the subject are on the same plane.

You need not see the subject to control it.

Protection from evil or a similar spell can prevent you from exercising control or using the telepathic link while the subject is so warded, but it does not prevent the establishment of domination or dispel it.

WAVE OF GRIEF

Enchantment [Evil, Mind-Affecting]

Level: Bard 2, blackguard 2, cleric 2

Components: S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

All within the cone when the spell is cast are overcome with sorrow and grief.

They suffer a -3 morale penalty on all attack rolls, saving throws, ability checks, and skill checks.

Material Component: Three tears.

EVOCATION

ANGER OF THE NOONDAY SUN

Evocation [Light]

Level: Druid 6

Components: V, S

Casting Time: 1 standard action

Range: 10 feet

Area: All sighted creatures within a 10-ft.-radius burst centered on you

Duration: Instantaneous

Saving Throw: Reflex negates

Spell Resistance: Yes

This spell unleashes a blinding flash of sunlight originating with you and expanding outward.

Any creature within the area of the spell that can see you must make a saving throw or be temporarily blinded.

The blindness lasts for 1 minute per caster level.

An undead creature caught within the spell area takes 1d6 points of damage per two caster levels (maximum 10d6), or half damage if a Reflex save is successful.

In addition, the beam results in the destruction of any undead creature specifically harmed by bright light (such as a vampire) if it fails its save.

The ultraviolet light generated by the spell deals damage to fungi, mold, oozes, and slimes just as if they were undead creatures.

BANE BOW

Evocation

Level: Ranger 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Ranged weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell allows you to channel divine power into any ranged weapon you choose.

The weapon gains a +5 enhancement bonus on attack and damage rolls, plus the bane quality (+7 enhancement bonus on attack and damage rolls, plus an additional 2d6 points of damage) against foes of a type you specify.

You must choose one of your favored enemy categories as the type that your *bane bow* is effective against.

The spell is automatically canceled 1 round after the weapon leaves your hand.

You cannot have more than one *bane bow* at a time.

If this spell is cast on a magic weapon, the powers of the spell supersede any that the weapon normally has, rendering the normal enhancement bonus and powers of the weapon inoperative for the duration of the spell.

This spell is not cumulative with other spells that modify weapons in some way.

This spell does not work on artifacts.

Note: A masterwork weapon's bonus on attack rolls does not stack with a magic enhancement bonus on attacks.

Ammunition fired from a *bane bow* loses its magic qualities (taking those of the *bane bow* instead), but it retains its

material qualities for the purpose of overcoming damage reduction.

For example, a *bane bow* can still shoot silver arrows that bypass the damage reduction of lycanthropes.

BINDING WINDS

Evocation

Level: Druid 5, Weather 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Concentration

Saving Throw: Reflex negates

Spell Resistance: Yes

You create a flurry of air to encircle and hold your target. The *binding winds* do not move.

Instead, they become a physical barrier surrounding the subject.

The subject may act normally, but she cannot move from her current location.

The winds carry her voice away, so she can speak but cannot be heard, and she cannot hear anything but the roar of the winds.

Furthermore, no sonic or language-dependent spells or effects may be cast into or out of the binding winds (though spells cast by the caster upon himself function normally).

Ranged attacks made into or out of the *binding winds* suffer a -2 penalty.

Binding winds hold flying creatures in mid-air.

BLAST OF FORCE

Evocation [Force]

Level: Force 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You direct an invisible blast of force at a chosen target.

The blast is a ranged touch attack that deals 1d6 points of damage per two caster levels (maximum 5d6).

In addition, a successful hit forces the target to make a Fortitude save or be knocked down (size and stability modifiers apply to the saving throw as if the spell were a bull rush).

BOLT OF GLORY

Evocation [Good]

Level: Glory 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

By casting this spell, you project a bolt of energy from the Positive Energy Plane against one creature.

You must make a successful ranged touch attack to strike your target.

A creature struck takes varying damage, depending on its nature or its home plane of existence and your level:

Creature's Origin/Nature	Maximum Damage	Value
Material Plane, Elemental Plane, neutral outsider	1d6/2 levels	7d6
Negative Energy Plane, evil outsider, undead creature	1d6/level	15d6
Positive Energy Plane, good outsider	—	—

CASTIGATE

Evocation [Sonic]

Level: Cleric 4

Components: V

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft. radius emanation

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

This spell allows you to verbally rebuke foes.

By shouting your deity's teachings about other alignments, you inflict pain on those who hear, and those in the area need not understand your divine words to be affected.

This spell has no effect on creatures that cannot hear.

Otherwise, you deafen foes of the same alignment for 1d4 rounds (save for half).

Foes within one alignment step of your alignment (lawful, neutral, chaotic; good or evil) take 1 point of damage per caster level (maximum 10).

Foes whose alignment is more than one step different from yours take 1d4 points of damage per caster level (maximum 10d4).

A Fortitude saving throw is allowed for half damage from this spell.

CLOUDBURST

Evocation (Water)

Level: Druid 2

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Area: 100-ft.-radius emanation

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

You cause clouds to gather and a heavy rain to fall.

The rain reduces visibility ranges by half, resulting in a -4 penalty on Spot and Search checks.

It automatically extinguishes unprotected flames, and has a 50% chance of extinguishing protected flames.

Ranged weapon attacks and Listen checks suffer a -4 penalty.

This spell does not function indoors, underground, underwater, or in desert climates.

After the spell end, the water created evaporates over the next 10 minutes.

The water created with this spell does not slake thirst or provide any nourishment to plants.

CROWN OF GLORY

Evocation

Level: Glory 8

Components: V, S, M, DF

Casting Time: 1 full round

Range: 120 ft.

Area: 120-ft.-radius emanation, centered on you

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

You are imbued with an aura of celestial authority, inspiring awe in all lesser creatures that behold your terrible perfection and righteousness.

You gain a +4 enhancement bonus to your Charisma score for the duration of the spell.

All creatures with fewer than 8 HD or levels cease whatever they are doing and are compelled to pay attention to you.

Any such creature that wants to take hostile action against you must make a successful Will save to do so.

Any creature that does not make this saving throw the first time it attempts a hostile action is *enthralled* for the duration of the spell (as the *enthrall* spell), as long as it is in the spell's area, nor will it try to leave the area on its own. Creatures with 8 HD or more may pay attention to you, but are not affected by this spell.

When you speak, all listeners telepathically understand you, even if they do not understand your language.

While the spell lasts, you can make up to three suggestions to creatures of less than 8 HD in range, as if using the *mass suggestion* spell (Will save negates); creatures with 8 HD or more aren't affected by this power.

Only creatures within range at the time a *suggestion* is given are subject to it.

Material Component: An opal worth at least 200 gp.

DIVINE SACRIFICE

Evocation

Level: Blackguard 1, paladin 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You can sacrifice life force to increase the damage you deal. Once each round, as a free action, you can sacrifice up to 10 of your hit points (doing this does not trigger an attack of opportunity).

For every 2 hit points you sacrifice, on your next successful attack you deal +1d6 damage, to a maximum of +5d6 on that attack.

Your ability to deal this additional damage ends when you successfully attack or when the spell duration ends.

You can make as many sacrifices as the spell duration allows.

Sacrificed hit points count as normal damage.

For example, an 8th-level paladin can cast this spell with a duration of 4 rounds.

If she sacrifices 10 hit points a round and hits in every round, she can spend up to 40 hit points and deal up to +5d6 points of additional damage all 4 rounds.

DRAGON BREATH

Evocation [Good or Evil]

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You gain the ability to breathe a gout of energy that mimics a dragon's breath as a standard action.

Once you've used the breath attack, you must wait 1d4 rounds before doing so again.

When you cast *dragon breath*, you choose one true dragon whose breath you're emulating.

If you choose a chromatic dragon, then *dragon breath* gains the evil descriptor.

If you choose a metallic dragon, then *dragon breath* gains the good descriptor.

Dragon	Breath	Saving Throw
Black	30-ft. line of acid, 1d8/2 caster levels (maximum 10d8)	Reflex half
Blue	30-ft. line of electricity, 1d8/2 caster levels (maximum 10d8)	Reflex half
Green	15-ft. cone of acid, 1d8/2 caster levels (maximum 10d8)	Reflex half
Red	15-ft. cone of fire, 1d8/2 caster levels (maximum 10d8)	Reflex half
White	15-ft. cone of cold, 1d8/2 caster levels (maximum 10d8)	Reflex half
Brass	15-ft. cone of <i>sleep</i> ; lasts 1d6 rounds	Will negates
Bronze	30-ft. line of electricity; 1d8/2 caster levels (maximum 10d8)	Reflex half
Copper	15-ft. cone of <i>slow</i> ; lasts 1d6 rounds	Will negates
Gold	15-ft. cone of fire, 1d8/2 caster levels (maximum 10d8)	Reflex half
Silver	15-ft. cone of paralysis; lasts 1d6 rounds	Fort negates

ENERGY VORTEX

Evocation [Acid, Cold, Fire, Electricity, or Sonic]

Level: Cleric 4, druid 4

Components: V, S

Casting Time: 1 standard action

Range: 20 ft.

Area: All creatures within a 20-ft.-radius burst centered on you

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

When you cast *energy vortex*, you choose one of five energy types: acid, cold, fire, electricity, or sonic.

A blast of that energy type bursts in all directions from you, dealing 1d8 points of damage +1 point per caster level (maximum +20) to nearby creatures other than you.

If you are willing to take the damage yourself, you deal twice as much damage. You don't get a Reflex save, but spell resistance applies, as do any resistances and immunities you have to the energy type.

ENVELOPING COCOON

Evocation

Level: Druid 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Cocoon of force around one Large or smaller creature

Duration: 1 round/level (D)

Saving Throw: Reflex negates

Spell Resistance: Yes

A cocoon of shimmering blue-green energy encloses a creature of size Large or smaller, containing it for the spell's duration or until it's destroyed.

The cocoon has hardness 10 and 10 hit points per caster level.

The *enveloping cocoon* prevents the creature trapped inside from moving or casting spells with somatic components. The cocoon is too confining to permit effective attacks with anything larger than a natural or light weapon (and the creature inside can attack only the cocoon in any event).

The caster of an *enveloping cocoon* can attach a second spell to the cocoon by casting it at the cocoon.

When the *enveloping cocoon* spell ends or is dismissed, the attached spell automatically affects the creature inside, with no save allowed (although spell resistance, if any, still applies).

If the cocoon is destroyed before it is dismissed or the spell duration ends, the attached spell is wasted.

Any of the following spells can be attached to an *enveloping cocoon*: *baleful polymorph*, *blight*, *contagion*, *dominate animal*, *flame strike*, *infestation of maggots*, *languor*, *miasma*, *phantasmal disorientation*, *poison* (the target fails the initial save but gets to attempt the second save).

Material Component: A live caterpillar.

FIRES OF PURITY

Evocation [Fire]

Level: Druid 6, Purification 6, sorcerer/wizard 6,

Components: V, S, DF

Casting Time: 1 standard action

Target: Creature touched

Duration: 1 round/level

Saving Throw: Reflex negates (harmless); see text

Spell Resistance: Yes (harmless); see text

The creature you touch bursts into magical flames that do not harm the target, but are quite capable of harming anyone else who comes into contact with them.

With a successful melee attack, the subject deals an extra 1d6 points of fire damage +1 point per caster level (maximum +15).

If the defender has spell resistance, it applies to this effect. Creatures hitting the subject are susceptible to the same damage unless they attack with weapons that have exceptional reach, such as longspears.

Any creature taking fire damage from *fires of purity* must succeed on a Reflex save or catch fire.

Creatures on fire burn for 1d4 rounds and take 1d6 points of fire damage each round, unless they succeed on Reflex saves (at the spell's DC) in subsequent rounds or douse themselves in water (see *Catching on Fire*, page 303 of the *Dungeon Master's Guide*).

The target takes only half damage from fire-based attacks. If such an attack allows a Reflex save for half damage, the target takes no damage on a successful save.

FLAME OF FAITH

Evocation

Level: Cleric 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Nonmagical weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You can temporarily turn any single normal or masterwork melee weapon into a magical, flaming one.

For the duration of the spell, the weapon acts as a +1 *flaming burst weapon* that deals an additional +1d6 points of fire damage.

On a critical hit, the weapon deals +1d10 points of bonus fire damage if the weapon's critical multiplier is ×2, +2d10 points if the weapon's multiplier is ×3, and +3d10 points if the multiplier is ×4.

This spell effect does not stack with a weapon's enhancement bonus or with a *flaming* or *flaming burst* weapon bonus.

Material Focus: A lump of phosphorus, touched to the target weapon.

MIASMA

Evocation

Level: Druid 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 3 rounds/level

Saving Throw: See text

Spell Resistance: Yes

By filling the subject's mouth and throat with unbreathable gas, you prevent him from doing much more than coughing and spitting.

The subject can hold his breath for 2 rounds per point of Constitution but must make a Constitution check (DC 10 +1 per previous success) each round thereafter to continue doing so.

Failure on any such check (or voluntary resumption of breathing) causes the subject to fall unconscious (0 hp).

On the next round, the subject drops to -1 hit points and is dying; on the third round, he suffocates (see *Suffocation*, page 304 of the *Dungeon Master's Guide*).

MURDEROUS MIST

Evocation

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Cloud that spreads in 30-ft. radius, 20 ft. high

Duration: 1 round/level

Saving Throw: Reflex half; see text

Spell Resistance: Yes

You create a cloud of scalding hot steam that moves in a straight line, away from you, at a speed of 10 feet per round. Anyone within the cloud takes 2d6 points of damage and is permanently blinded.

If a creature within the area makes a successful Reflex saving throw, it takes only half damage and is not blinded. Any creature within the cloud has one-quarter concealment.

Winds do not affect the cloud's direction or speed.

However, a moderate wind (11+ mph) disperses the cloud in 4 rounds, and a strong wind (21+) disperses it in 1 round.

NATURE'S AVATAR

Evocation

Level: Druid 9

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Animal touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You infuse the subject with the spirit of nature.

The affected creature gains a +10 morale bonus on attack and damage rolls and 1d8 temporary hit points per caster level, plus the effects of haste.

NATURE'S FAVOR

Evocation

Level: Druid 3, ranger 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Animal touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

By calling on the power of nature, you grant the target animal a +1 luck bonus on attack and damage rolls for every 2 caster levels you possess.

NIMBUS OF LIGHT

Evocation [Light]

Level: Cleric 1, Purification 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level or until discharged (D)

A glittering corona of sunlight surrounds your body at a few inches distance—until you release it as a focused blast of divine energy.

The *nimbus of light* glows like a lantern, shedding bright light in a 30-foot radius (and dim light for an additional 30 feet) from you.

As a move action, you can coalesce the energy from the *nimbus of light* around your outstretched arm, and then as a standard action fling it toward a foe within 30 feet.

As a ranged touch attack, the *nimbus of light* deals 1d8 points of damage +1 point per round that's elapsed since you cast the spell (max of 1d8 + caster level damage).

Attacking with the *nimbus of light* ends the spell, whether the energy hits its target or not.

SANDBLAST

Evocation

Level: Druid 1

Components: V, S, DF

Casting Time: 1 standard action

Range: 10 ft.

Area: Semicircular burst of sand 10 ft. long, centered on your hands

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You fire a hail of hot sand from your fingers, dealing 1d6 points of nonlethal damage to creatures in the arc.

Any creature that fails its Reflex save is also stunned for 1 round.

STALWART PACT

Evocation

Level: Cleric 5, Pact 5

Components: V, S, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until triggered, then 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell allows the target to enter a binding agreement with a deity that provides a measure of protection when the need is dire.

Once this spell is cast, the pact remains dormant until the target is reduced to half or less of her full normal hit points.

The target immediately gains 5 temporary hit points per caster level, damage reduction of 5/magic, and a +4 luck bonus on saving throws.

The hit points, damage reduction, and saving throw bonus evaporate when the spell ends.

XP Cost: 250 XP.

TIDAL SURGE

Evocation [Water]

Level: Druid 6, Ocean 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: One or more creatures in a 20-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

When you cast this spell, you create a huge wave of water that slams into one or more targets within range. If there is no large, natural source of water (a river, lake, or ocean) within the spell range, you can affect only one target. If such a source of water exists within the range of the spell, the spell creates a burst centered on a location you designate. In either case, the water deals 1d8 points of damage per two caster levels (maximum 7d8) to the target or to creatures within the area. In addition, all affected creatures suffer a bull rush attack, forcing them to make opposed Strength checks against the wave of water. The water has an effective Strength of 16 and is considered Medium size (or Strength 20 and Large if cast near a source of water). You designate the direction the wave pushes when you cast the spell; creatures who lose the opposed Strength check are pushed back 5 feet, plus an additional 5 feet for every 5 points by which the wave beats their Strength checks, in that direction. It is possible for a wave arising from a body of water to push characters into the water. The wave puts out torches, campfires, exposed lanterns, and other open flames if they are carried by the target or located within the area and they are Large size or smaller. If the wave hits a magical fire, those flames are targeted by a *dispel magic* effect as if you had cast the spell.

WHIRLWIND, GREATER

Evocation [Air]

Level: Druid 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 20-ft.-radius tornado, up to 5 ft./caster level tall, centered anywhere within range

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

This spell creates a tornado that wreaks destruction as you direct, flinging your foes into the air and destroying nearby structures.

The *greater whirlwind* affects creatures differently, depending on their size and where they are in relation to the twister.

Near the Tornado: Large or smaller creatures who start their turn within 60 feet of the center of the *greater whirlwind* must succeed on a Fortitude save or be dragged 1d4×10 feet toward the center of the twister, taking 1d4 points of nonlethal damage per 10 feet dragged.

Huge creatures within 40 feet of the twister must succeed on a Fortitude save or be knocked prone.

Gargantuan and Colossal creatures within 40 feet of the twister must succeed on a Fortitude save before moving away from the twister.

Flying creatures of size Huge or smaller that fail their Fortitude saves are sucked to the center of the twister, taking 2d6 points of damage from the battering and buffeting.

Gargantuan flying creatures must succeed on a Fortitude save or be pulled 1d6×10 feet toward the center of the twister.

Colossal flyers must likewise make Fortitude saves or be pulled 1d6×5 feet toward the twister's center.

Inside the Tornado: Creatures who start their turn inside the tornado take 6d6 points of damage for each of the 1d10 rounds they remain inside it (roll separately for each creature).

Creatures inside the tornado can't do much; attacks, spellcasting, and movement are impossible within an *greater whirlwind*.

When the *greater whirlwind* expels a creature, it reappears 4d6×5 feet away from the twister's center in a random direction, and 4d6×5 feet off the ground (immediately falling if it can't fly).

Terrain and Structures: The tornado uproots trees and other vegetation automatically, and it leaves a trail of dense rubble (as described on page 90 of the *Dungeon Master's Guide*) wherever it goes.

Structures within a *greater whirlwind* take 2d6×10 points of damage per round.

In a round or two, that is sufficient to destroy any building made of materials less sturdy than reinforced masonry.

No ranged attacks can pass through the twister.

The *greater whirlwind* extinguishes all flames it touches.

Listen checks are impossible within a *greater whirlwind*.

The *greater whirlwind* remains stationary unless you direct it elsewhere as a move action.

It moves up to 60 feet per round.

ZEALOT PACT

Evocation

Level: Cleric 6, Pact 6

Components: V, S, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until triggered, then 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell creates a binding agreement between a deity and the target that grants the target a measure of divine power to crush the deity's enemies.

Once this spell is cast, the pact remains dormant until the target successfully hits a foe whose alignment is exactly opposite that of the deity.

The target's subsequent melee attacks gain a +4 bonus, deal double damage, and automatically confirm critical hits for the spell's duration.

Furthermore, the target's melee attacks have alignment descriptors that match the deity with whom you've made the pact.

The target is compelled to attack foes of opposite alignment every round if able to do so.

The target knows which creatures within 60 feet are of opposite alignment (as if the relevant detect spells had been cast).

If you create a *zealot pact* with a completely neutral deity such as Obad-Hai, choose one alignment from the following list that triggers the *zealot pact*: lawful good, lawful evil, chaotic evil, or chaotic good.

A creature can be subject to only one *zealot pact* at a time.

Casting *zealot pact* on a target who already has an untriggered *zealot pact* voids the earlier pact.
XP Cost: 500 XP.

ILLUSION

DOOMTIDE

Illusion (Pattern)

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 standard action

Range: 80 ft.

Effect: Eight 10-ft. cubes extending from the caster's location

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You fill an area with illusory black, creeping mist that vaguely resembles thousands of slender grasping tentacles. You and one creature you touch are immune to the effects of this spell and can see through it without difficulty. When you cast the spell, you decide if the effect remains stationary or moves away from you at a rate of 10 feet per round.

The mist obscures all sight, including darkvision, beyond 5 feet.

A creature within 5 feet has one-half concealment (attacks suffer a 20% miss chance).

Creatures farther away have total concealment (50% miss chance, and the attacker can't use sight to locate the target).

A moderate wind (11+ mph) disperses the *doomtide* in 4 rounds; a strong wind (21+ mph) disperses the mist in 1 round.

Furthermore, creatures within its area must make Will saves or be dazed for as long as they remain in the cloud. The spell does not function underwater.

PHANTASMAL DECOY

Illusion (Phantasm) [Mind-Affecting]

Level: Ranger 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: Yes

You create a phantasmal image of the subject's most hated enemy by sifting through the subconscious mind of the subject.

Only you and the spell's subject can see the phantasmal creature, and the phantasm seems blurry and indistinct to you.

A creature of Int 3 or lower automatically chases after a *phantasmal decoy*, and more intelligent creatures are likely to do as well unless such action would be obviously foolish.

As a move action, you can move the phantasmal decoy up to 60 feet in any direction.

Because it's not real, the phantasmal decoy isn't affected by terrain that slows movement (although you can slow its progress voluntarily if you like to help maintain the façade of realism).

The target gets a Will save if she successfully attacks the phantasmal decoy or moves adjacent to it.

PHANTASMAL DISORIENTATION

Illusion (Phantasm) [Mind-Affecting]

Level: Druid 6

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 10 min./level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You create ever-shifting phantasmal terrain and landmarks that confuse the subject when it tries to move.

The very ground seems to shift and twist beneath the subject's feet, and the landscape seems to move of its own accord.

The subject finds it nearly impossible to walk in a straight line.

Each round the subject of a *phantasmal disorientation* wants to move, he must attempt a DC 20 Survival check to discern the true landmarks from the phantasmal ones.

If he succeeds, he moves normally.

If he fails, he instead moves in a direction 90 degrees to either side (equal chance of going left or right).

Because of the *phantasmal disorientation*, the subject doesn't realize he's headed in the wrong direction until he meaningfully interacts with his environment (by making

an attack or manipulating an object such as a door, for example) or the round ends.

If the subject discovers he's moved in the wrong direction before the round is over, he can make a new Survival check to try to move in the right direction, but he won't know whether the second check failed until he interacts with the environment again or the round ends.

A *phantasmal disorientation* spell affects only movement.

Creatures subject to it can still fight, cast spells, and otherwise act normally.

SHADOW LANDSCAPE

Illusion (Shadow)

Level: Druid 9

Components: V, S, DF

Casting Time: 1 hour

Range: Long (400 ft. + 40 ft./level)

Area: One-mile radius spread, centered on a point in space

Duration: 1 day/level (D)

Saving Throw: Reflex partial; see text

Spell Resistance: Yes

By infusing the nearby landscape with power stolen from the Plane of Shadow, you make the surrounding terrain a more savage, dangerous place.

The spell's exact effects vary with the terrain upon which it is cast.

Desert: *Shadow landscape* transforms a desert into a place where no one goes willingly.

The average temperature increases by 30 degrees, or decreases by 30 degrees if the desert is actually a tundra (see *Cold Dangers* and *Heat Dangers*, pages 302–303 of the *Dungeon Master's Guide*).

Sandstorms (or snowstorms if in a tundra) blow through a *shadow landscape* desert on an hourly basis.

Forest: Forests augmented with a *shadow landscape* spell become frightening places where a canopy of rotting leaves blocks the sun and all the trees are strangely twisted.

Spaces with light undergrowth have heavy undergrowth instead, and spaces covered with heavy undergrowth grasp at passersby as if an *entangle* spell had been cast on them (Reflex partial at the *shadow landscape's* DC).

Hill: Even gentle hills become more treacherous under the effects of a *shadow landscape* spell.

Light undergrowth becomes heavy undergrowth in hill terrain under the effects of *shadow landscape*, and slopes seem steeper than their elevation would indicate.

It takes two squares to move uphill on a gradual slope, and four squares to move uphill on a steep slope.

Cliffs have frequent overhangs and are made of crumbling rock, requiring a DC 25 Climb check to ascend or descend.

Marsh: Marshes seem swamplier and more forbidding.

Half the undergrowth spaces in the marsh become quicksand (described on page 88 of the *Dungeon Master's Guide*).

Mountain: The mountains become places of jagged peaks, slippery slopes, and howling winds.

Cliffs and chasms require a DC 25 Climb check to scale.

Creatures who fail Climb checks or make loud noises have a 10% chance of starting an avalanche (described on page 90 of the *Dungeon Master's Guide*).

Altitude effects are one category worse: areas lower than 5,000 feet are treated as the 5,000- to 15,000-foot category,

and anything above 5,000 feet is treated as being above 15,000 feet.

Plain: Only natural grasslands change as a result of *shadow landscape*, but they become wide-open spaces with stands of thick bushes where thunderstorms and tornados are frequent.

Half the spaces with undergrowth (light or heavy) grasp at passersby as if an *entangle* spell had been cast on them (Reflex partial at the *shadow landscape's* DC).

Underground: Ordinary dungeons aren't affected by *shadow landscape*, but naturally occurring caverns are.

Natural stone floors take 4 squares of movement per space to enter.

Stalagmites cover 10% of the available floor space.

In addition to the terrain-specific effects, the *shadow landscape* spell worsens the weather within the spell's area.

When rolling random weather on Table 3–23 in the *Dungeon Master's Guide* (or a similar table specific to the local area), roll twice and take the higher result.

In plains terrain, roll three times and take the highest result.

Don't roll random weather underground.

You don't suffer the terrain-specific effects (entangling terrain, hindrances to movement, altitude effects, higher Climb DCs, and so on) of a *shadow landscape* you've created.

When you cast *shadow landscape*, you can designate one creature per four caster levels as a designated traveler.

Creatures so designated don't suffer the terrain-specific effects of the *shadow landscape* spell, but they're still subject to the bad weather.

You can also designate one or more animals, plants, or magical beasts native to the spell's area as shadow guardians of the landscape.

You can designate 1 HD of creature per caster level, split up however you like.

For example, a 20th-level druid could designate two treants (7 HD each) and a dire wolf (6 HD) as shadow guardians.

As long as the designated guardians remain within the spell's area, they have a friendly attitude toward you and the travelers you've designated, and also gain the following special qualities: resistance to cold 10, darkvision 60 ft.; damage reduction 5/magic, evasion, and low-light vision.

If the creature already has one or more of these special qualities, use the better value.

NECROMANCY

CONTAGIOUS TOUCH

Necromancy

Level: Druid 6

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Upon casting this spell, you must choose one disease from this list: blinding sickness, cackle fever, filth fever, mindfire, red ache, the shakes, or slimy doom (see Disease, page 292 of the *Dungeon Master's Guide*, for descriptions).

Any living creature you hit with a melee touch attack during the spell's duration is affected as though by the

contagion spell, immediately contracting the disease you have selected unless it makes a successful Fortitude save. You cannot infect more than one creature per round.

CURSE OF LYCANTHROPY

Necromancy

Level: Pestilence 6

Components: V, S, M, DF

Casting Time: 1 standard action

Range: Touch

Target: Humanoid touched

Duration: Permanent; see text

Saving Throw: Fortitude negates

Spell Resistance: Yes

You can cause temporary lycanthropy in a humanoid you touch.

A humanoid who fails the saving throw contracts lycanthropy, and the condition manifests with the next full moon.

Unlike other forms of lycanthropy, the effect of this spell can be broken by *remove curse* or *break enchantment*.

You can induce any type of common lycanthropy (and evil clerics frequently experiment with new kinds).

As a rule, the lycanthrope's animal form can be any predator between the size of a small dog and a large bear.

The source of the material component determines the victim's animal form.

(More information on lycanthropes can be found in Appendix 3 of the *Monster Manual*).

Material Component: A pint of animal blood.

DEATH PACT

Necromancy [Evil]

Level: Cleric 8, Pact 8

Components: V, S, M, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until triggered

Saving Throw: None

Spell Resistance: No

This spell allows the target to enter into a binding agreement with your deity that brings the target back to life if she is slain.

When this spell is cast, the target's Constitution is permanently lowered by 2 points.

In exchange for this, if she ever dies, several spells are brought into effect.

First, she is teleported to a safe location designated by you at the time of casting as if with a *word of recall* spell.

Second, the target is brought back from the dead with a *raise dead* spell with the standard loss of a level.

Finally, the target is healed with a *heal* spell.

She does not regain the 2 Constitution points when returned to life.

If a *raise dead* spell could not return the target to life (for example, if she was disintegrated or died of old age), the *death pact* cannot restore her to life.

If the spell is dispelled before the target dies, she does not regain her 2 lost Constitution points.

Material Component: A diamond worth at least 500 gp.

XP cost: 250 XP.

DECOMPOSITION

Necromancy

Level: Druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: 50 ft.

Area: All enemies within a 50-ft.-radius emanation centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

Whenever an enemy within the area takes normal (not subdual) damage, that wound festers for an additional 1 point of damage per round thereafter for the duration of the spell.

A successful Heal check (DC 15) or the application of any cure spell or other healing magic (*heal*, *healing circle*, and so on) stops the festering.

Only one wound festers at a time; additional wounds suffered while the first is still festering are not subject to this effect.

Once festering has been stopped, however, any new wound suffered while the subject is within the area (before the spell expires) begins the process anew.

For example, a subject who takes 6 points of damage from an attack while within the area of a *decomposition* spell takes 1 point of damage from festering the next round, and another 1 point on the round after that.

On the following round, that subject receives 4 points of healing from a *cure light wounds* spell, so the festering stops and the subject takes no festering damage that round.

The next round, the subject remains within the emanation and takes another 3 points of damage in battle.

The festering begins again, inflicting 1 point of festering damage on the next round.

INFESTATION OF MAGGOTS

Necromancy

Level: Druid 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: One round/2 levels

Saving Throw: Fortitude negates

Spell Resistance: Yes

With a successful melee touch attack, you infest a creature with maggotlike creatures.

They deal 1d4 points of temporary Constitution damage each round.

The subject makes a new Fortitude save each round to negate the damage of that round and end the effect.

The infestation can be removed with a *cure disease* or *heal* spell.

Material Component: A handful of dead, dried flies.

LAST BREATH

Necromancy

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Dead creature touched

Duration: Instantaneous

Saving Throw: None; see text

Spell Resistance: Yes (harmless)

With this spell, you can return a dead creature to 0 hit points, provided it died within the last round.

You take 1d4 points of damage per Hit Die of the creature affected, and your spell resistance cannot overcome this damage.

The subject's soul must be free and willing to return (see *Bringing Back the Dead*, page 171 of the *Player's Handbook*). If the subject's soul is not willing to return, the spell does not work; therefore, a subject who wants to return receives no saving throw.

Last breath cures enough damage to bring the subject's current hit points to 0.

Any ability scores damaged to 0 or below are raised to 1.

Normal poison and normal disease are cured, but magical diseases and curses are not undone.

The spell closes mortal wounds and repairs lethal damage of most kinds, but missing body parts are still missing when the creature returns to life.

None of the dead creature's equipment or possessions are affected in any way by this spell.

Coming back from the dead is an ordeal.

The subject loses one level when it returns to life, just as if it had lost a level to an energy-draining creature.

This level loss cannot be repaired by any spell.

A subject who was previously 1st level loses 1 point of Constitution instead.

A character who died with spells prepared has a 50% chance of losing any given spell upon being raised, in addition to losing spells for losing a level.

A spellcasting creature that doesn't prepare spells (such as a sorcerer) has a 50% chance of losing any given unused spell slot as if it had been used to cast a spell, in addition to losing spell slots for losing a level.

Last breath has no effect on a creature that has been dead for more than 1 round.

A creature that died from a death effect can't be raised by this spell, nor can constructs, elementals, outsiders, and undead creatures.

Last breath cannot bring back a creature who has died of old age.

NATUREWATCH

Necromancy

Level: Druid 0, ranger 1

Components: S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Quarter circle emanating from you to the extreme of the range

Duration: 10 min./level

Saving Throw: None

Spell Resistance: No

This spell is identical to *deathwatch*, but only functions on animals and plants.

In addition, it also allows you to determine a variety of other mundane information about the animals and plants (whether or not the plants are dehydrated, the animals are malnourished, and so forth).

SCOURGE

Necromancy

Level: Pestilence 7

Components: V, S, F, DF

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Target: One living creature/level, no two of which can be more than 50 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

This nasty spell causes a major disease and weakness in those who fail their saving throws.

Afflicted creatures are immediately stricken with a sickening scourge that quickly spreads to cover their entire bodies.

The subject suffers excruciatingly painful and highly debilitating blackened boils, magenta blotches, violet lesions, seeping abscesses, and malignant cysts.

The disease deals 1d3 points of temporary Strength and Dexterity damage per day, unless the creature makes a successful Fortitude save on a particular day.

As with mummy rot, successful saves do not allow the creature to recover.

The symptoms persist until the creature finds some magical means to cure the disease (such as *remove disease*, *heal*, or *restoration*).

Focus: A black whip or riding crop, which is cracked in the direction of the intended victims during the casting of the spell.

WRACK

Necromancy [Evil]

Level: Cleric 3, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One humanoid

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

A humanoid subject of the spellcaster's choosing is wracked with such pain that he doubles over and collapses.

His face and hands blister and drip fluid, and the eyes cloud with blood, rendering him blind.

For the duration of the spell, the subject is considered helpless and cannot take actions.

Even when the spell ends, the subject is still visibly shaken and suffers a -2 penalty on attack rolls, saves, and checks for 3d10 minutes.

The subject's sight returns at the end of the spell's duration.

TRANSMUTATION

AWAKEN, MASS

Transmutation

Level: Druid 8

Components: V, S, F, XP

Casting Time: 24 hours

Range: Medium (100 ft. + 10 ft./level)

Target: One animal or tree/three levels, no two of which may be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

You awaken one or more trees or animals to humanlike sentience.

All *awakened* creatures must be of the same kind.

To succeed, you must make a successful Will save (DC 10 + the HD of the highest-HD target, or the HD of the highest target tree has once *awakened*, whichever is greater).

Failure indicates that the spell fails for all targets.

The *awakened* animal or tree is friendly toward you.

You have no special empathy or connection with it, but it serves you in specific tasks or endeavors if you communicate your desires to it.

An *awakened* tree has characteristics as if it were an animated object (see the *Monster Manual*), except that its Intelligence, Wisdom, and Charisma scores are all 3d6.

Awakened plants gain the ability to move their limbs, roots, vines, creepers, and so forth, and they have senses similar to a human's.

An *awakened* animal has 3d6 Intelligence, a +1d3 bonus to Charisma, and +2 HD.

An *awakened* tree or animal can speak one language that you know, plus one additional language that you know per point of Intelligence bonus (if any).

XP Cost: 250 XP per creature awakened.

BEAST CLAWS

Transmutation

Level: Cleric 4, druid 3

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Beast claws changes your hands and fingers, giving you long, curving claws and heavy knuckles.

These claws act as slashing melee weapons, inflicting 1d6 damage plus any magical or normal bonuses such as from Strength, with a threat range of 19–20.

Attacks with your transformed hands do not provoke an attack of opportunity.

The claws do not hinder your manual dexterity or spellcasting.

Material Component: The claw of a bird of prey, such as an eagle or falcon.

BESTOW CURSE, GREATER

Transmutation

Level: Bard 6, cleric 7, sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Permanent

Saving Throw: Will negates

Spell Resistance: Yes

The spellcaster places a curse on the creature touched, choosing one of the three following effects:

- One ability score is reduced to 1, or two ability scores suffer –6 penalties (minimum 1).
- –8 penalty on attack rolls, saving throws, ability checks, and skill checks.
- Each turn, the subject has a 25% chance to act normally; otherwise, he takes no action.

You may also invent your own curse, but it should be no more powerful than those listed above, and the Dungeon Master (DM) has final say on the curse's effect.

The *greater curse* cannot be dispelled, nor can it be removed with a *break enchantment*, *limited wish*, or *remove curse* spell.

A *miracle* or *wish* spell removes the *greater curse*, but each *greater curse* also must have a single means of removing it with some deed that the spellcaster designates.

The deed must be something that the subject can accomplish within one year (assuming he undertakes it immediately).

For example, the deed might be “slay the dragon under Castle Bluecraft”, or “climb the tallest mountain in the world”.

The cursed victim can have help accomplishing the task, and in some cases another character can lift the curse (see the Curses section of Chapter 2 for curse guidelines).

BLINK, IMPROVED

Transmutation

Level: Bard 5, Celerity 8, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

Like the 3rd-level arcane spell blink, you flicker back and forth between the Material and Ethereal planes.

However, you are capable of controlling the timing of you blinks and therefore make better use of them.

Blinking by means of this spell has several effects: Physical attacks against you have a 50% miss chance, and the Blind-Fight feat doesn't help the attacker.

If the attack is capable of striking invisible or incorporeal creatures, the miss chance is only 20%.

An attacker who can both see and strike ethereal creatures takes no penalty.

You have no chance of interfering with your own attacks. Individually targeted spells have a 50% chance to fail against you while blinking, unless your attacker can target invisible, ethereal creatures.

You have no chance of interfering with your own spells.

You take only half damage from area attacks (or full damage from those that extend onto the Ethereal Plane).

While blinking, you strike as an invisible creature (+2 bonus on attack rolls), denying your target any Dexterity bonus to AC.

You take only half damage from falling, since you are subject to gravity only while you are on the Material Plane.

You can ready an action to blink away from a specific enemy attack, physical or magical.

If you do so, the attack misses automatically unless it can also affect ethereal targets.

You move at three-quarters speed, since movement on the Ethereal Plane is at half speed and you spend about half your time there and half your time material.

While blinking, you can step through (but not see through) solid objects.

You do not risk materializing inside a solid object unless you actually end your move inside one, in which case you materialize and are shunted off to the nearest open space. You take 1d6 points of damage per 5 feet traveled in this manner.

Since you spend about half your time on the Ethereal Plane, you can see and even attack ethereal creatures.

You interact with ethereal creatures in roughly the same way you interact with material ones (their attacks have a 50% miss chance against you, and so on).

BODY OF THE SUN

Transmutation [Fire]

Level: Druid 2, sorcerer/wizard 2

Components: V, S, DF

Casting Time: 1 standard action

Range: 5 ft.

Area: 5-ft.-radius emanation centered on you

Duration: 1 round/level

By drawing on the power of the sun, you cause your body to emanate fire.

This fire extends 5 feet in all directions from your body, illuminating the area and inflicting 1d4+1 points of fire damage (Reflex save for half) to any creature it touches except you.

BRAMBLES

Transmutation

Level: Cleric 2, druid 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Wooden weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Small magical thorns or spikes protrude from the surface of a wooden weapon, such as a club, greatclub, nunchaku, or quarterstaff.

For the duration of the spell, the weapon deals both piercing and bludgeoning damage.

It gains a +1 enhancement bonus on its attacks and deals an additional +1 point of damage per caster level (maximum +10).

This spell works only on melee weapons with wooden striking surfaces.

For instance, it does not work on a bow, an arrow, or a metal mace.

Material Component: A small thorn.

BRIAR WEB

Transmutation

Level: Cleric 3, druid 2, ranger 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Plants in a 20-ft.-radius spread

Duration: 1 minute/level

Saving Throw: Reflex negates; see text

Spell Resistance: No

This spell causes grasses, weeds, bushes, and even trees to grow thorns and then wrap and twist around creatures in or entering the area.

Creatures that make their save against this spell are unaffected other than having to move at half speed within the area of affect.

If a creature fails its initial saving throw, it has three options: stay perfectly still, attempt to break free from the thorns, or continue to act normally.

A creature that fails its save but stands perfectly still is entangled (-2 attack, -4 Dexterity), but experiences no other effect and takes no damage.

Anyone entangled in this way loses the entangled condition if they leave the area of the spell.

Each round in which a creature remains in the area, it may spend a full-round action extricating themselves from the thorns.

Doing so allows for a new saving throw.

If successful, the creature is unaffected by the thorns except it may only move at half speed in the area of the spell.

Successfully breaking free in this way is the only thing a character can do that does not cause thorn damage to the character.

A failed attempt to break free deals the normal 2d6 thorn piercing damage.

Those that attempt actions (such as attack, cast a spell with a somatic component, or move) take 2d6 points of piercing damage from the thorns.

A creature that tries to cast a spell must also make a Concentration check (DC 15 + spell level + damage taken) or lose the spell.

The plants provide cover.

A creature 5 feet away has cover.

Creatures separated by 20 or more feet of *briar webs* have total cover.

BRILLIANT AURA

Transmutation

Level: Druid 7

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: 1 person per 2 levels, all of whom must be within 30 ft. of each other

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You limn your allies in a glowing nimbus, transforming their attacks into brilliant energy.

Each person affected by this aura gives off light as a torch (20-foot radius).

Their weapon attacks (melee or ranged) function as if their weapons were brilliant energy weapons: they ignore nonliving matter, and armor and enhancement AC bonuses do not count against them.

The attacks cannot harm undead, constructs, or objects.

In addition, all attacks gain an enhancement bonus on damage equal to one-half the caster's level (maximum +10).

CAMOUFLAGE

Transmutation

Level: Druid 1, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 min./level

You change the coloring of your skin and clothing to match the environment around you.

Throughout the duration of the spell, your coloration changes instantly to match the background of any new environment you enter, with no effort on your part.

This effect grants you a +10 circumstance bonus on Hide checks.

CAMOUFLAGE, MASS

Transmutation

Level: Druid 4, ranger 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: Any number of creatures, no two of which can be more than 60 ft. apart

Duration: 10 min./level

As *camouflage*, except the effect is mobile with the group.

The spell is broken for any individual who moves more than 60 feet from the nearest member of the group.

(If only two individuals are affected, the one moving away from the other one loses its camouflage.)

If both are moving away from each other, they both become visible when the distance between them exceeds 60 feet).

CLOUDWALKERS

Transmutation

Level: Druid 7, Weather 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

Duration: 1 hour/level (D)

Saving Throw: Reflex negates (harmless)

Spell Resistance: Yes (harmless)

You create gaseous pads of cloudstuff on the subject's feet, allowing them to walk on the clouds.

These pads allow each subject to move straight up or down at a speed of up to 30 feet or laterally with a fly speed of 60 feet (perfect maneuverability), as desired.

(Lateral movement is possible only for a subject who is already at least 90 feet off the ground.)

To touch the earth again, a subject must use a standard action to shake off the cloudstuff, which ends the spell for that creature.

You may dismiss the spell, but only for all subjects at once—an act that can have significant consequences for subjects already in the air.

CREEPING COLD

Transmutation [Cold]

Level: Druid 2

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 3 rounds

Saving Throw: Fortitude half

Spell Resistance: Yes

You turn the subject's sweat to ice, creating blisters as the ice forms on and inside the skin.

The spell deals 1d6 cumulative points of cold damage per round it is in effect (that is, 1d6 on the 1st round, 2d6 on the second, and 3d6 on the third).

Only one save is allowed against the spell; if successful, it halves the damage each round.

Focus: A small glass or pottery vessel worth at least 25 gp filled with ice, snow, or water.

CREEPING COLD, GREATER

Transmutation [Cold]

Level: Druid 7

Duration: See text

This spell is the same as *creeping cold*, but it adds a fourth round to the duration, during which it deals 4d6 points of damage.

If the caster is at least 15th level, the spell adds a fifth round at 5d6 points of damage.

If the caster is at least 20th level, the spell adds a sixth round at 6d6 points of damage.

CRUMBLE

Transmutation

Level: Druid 6

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One structure or construct

Duration: Instantaneous

Saving Throw: Fortitude partial (object)

Spell Resistance: Yes (object)

You bring the forces of erosion to bear on a fabricated structure such as a stone bridge, a wooden building, an iron wall, a construct, or any other object not formed by nature itself.

The erosion inflicts 1d6 points of damage per caster level to the object (hardness does not apply) to a maximum of 15d6.

This spell does not affect living creatures.

It does, however, affect constructs.

The maximum size of the object affected depends on your level.

If you cast this spell on an object of greater size than you can affect, the spell fails.

Level	Size of Object Affected
Up to 15	Huge
16–18	Gargantuan
19–20	Colossal

CURSE OF ILL FORTUNE

Transmutation

Level: Blackguard 2, cleric 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

You place a temporary curse upon the subject, giving her a –3 penalty on attack rolls, saving throws, ability checks, and skill checks.

Curse of ill fortune is negated by any spell that removes a *bestow curse* spell.

DIVINE AGILITY

Transmutation

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: No

Calling on the divine power of your patron, you imbue a living creature with agility and skill in combat.

You confer the base Reflex save bonus of a rogue of your total character level, a +4 enhancement bonus to Dexterity, and the Spring Attack feat on the target for the duration of the spell.

FIRE WINGS

Transmutation [Fire]

Level: Druid 3

Components: V, S, M, F

Casting Time: 1 full round

Range: Personal

Target: You

Duration: 1 min./level

This spell transforms your arms into wings of brilliant fire. The flame does not damage you or any items you carry.

Because your arms are transformed, you cannot hold items in your hands or cast spells that require somatic components while using *fire wings*, but rings, bracers, and other items worn on your arms when you cast the spell still function normally.

The wings allow you to fly at a speed of 60 feet (or 40 feet if you wear medium or heavy armor), with good maneuverability.

You can charge but not run while flying, and you cannot carry more than a light load aloft.

Using a *fire wings* spell requires only as much concentration as walking, so you can take other actions normally.

If the spell duration expires while you are aloft, you descend at a rate of 60 feet per round for 1d6 rounds, then fall the rest of the distance if you haven't already landed.

Because dispelling a spell effectively ends it, the subject also descends in this way if the *fire wings* spell is dispelled, but not if it is negated by an *antimagick field*.

You can make unarmed attacks with the *fire wings*, but you are not considered proficient with them and thus suffer a –4 penalty on your attack rolls.

A successful unarmed strike deals 2d6 points of fire damage in addition to your normal unarmed attack damage.

The wings can be extinguished (and the spell canceled) by a *quench* spell, immersion in water, or a wind of hurricane or greater force.

Material Component: the feather of a bird, which you must burn when you cast the spell.

Focus: A golden amulet shaped like a phoenix.

FORESTFOLD

Transmutation

Level: Druid 4, ranger 3

This spell grants you a +20 competence bonus on Hide and Move Silently checks.

The spell ends if you move more than 10 feet from where you stood when you cast the spell.

It is otherwise the same as *camouflage*.

HAWKEYE

Transmutation

Level: Druid 1, ranger 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 min./level

This spell gives you the ability to see accurately at long distances.

Your range increment for projectile weapons increases by 50%, and you gain a +5 competence bonus on all Spot checks.

LANGUOR

Transmutation

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell causes creatures it hits to become weak and slow. A subject who fails a Will save is *slowed* as the spell and suffers a cumulative enhancement penalty to Strength equal to 1d6–1 per two caster levels (minimum additional penalty of 0, maximum of –10) each round.

If the subject's Strength drops below 1, it is helpless.

The spell's *slow* effect counters and is countered by *haste*.

However, the Strength penalty is not countered by *haste*.

POISON THORNS

Transmutation

Level: Druid 5

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

Black, glistening thorns emerge from your skin, causing you no damage but endangering those who attack you in melee.

Any creature grappling with you or striking you with handheld weapons or natural weapons takes 1d6 + your Strength bonus in piercing damage from the thorns that protect you.

Weapons with exceptional reach, such as longspears, do not endanger their users in this way.

You can't use the thorns yourself to attack; they're effective only when someone attacks you.

Furthermore, a scratch from the thorns is sufficient to deliver a dose of poison to your attacker.

Any creature grappling you is exposed to the poison each round at the start of your turn.

The poison from the thorns deals 1d4 points of temporary Strength damage immediately and another 1d4 points of temporary Strength damage 1 minute later.

Each instance of damage can be negated by a successful Fortitude save (DC 10 + 1/2 your caster level + your Wisdom modifier).

Material Component: A dried black rose.

SCENT

Transmutation

Level: Druid 2, ranger 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: None

Spell Resistance: Yes (harmless)

You give the target an enhanced sense of smell, equivalent to the scent ability of some monsters.

This ability allows the creature to detect approaching enemies, sniff out hidden foes, and track by sense of smell. Creatures with the scent ability can identify familiar odors just as humans do familiar sights.

The creature can detect opponents within 30 feet by sense of smell.

If the opponent is upwind, the range increases to 60 feet; if downwind, it drops to 15 feet.

Strong scents, such as smoke or rotting garbage, can be detected at twice the ranges noted above.

Overpowering scents, such as skunk musk or troglodyte stench, can be detected at triple normal range.

When a creature detects a scent, the exact location is not revealed—only its presence somewhere within range.

The creature can take a partial action to note the direction of the scent.

If it moves within 5 feet of the source, the creature can pinpoint that source.

A creature with the scent ability can follow tracks by smell, making a Wisdom check to find or follow a track.

The typical DC for a fresh trail is 10 (no matter what kind of surface holds the scent).

This DC increases or decreases depending on the strength of the quarry's odor, the number of creatures, and the age of the trail.

For each hour that the trail is cold, the DC increases by 2.

The ability otherwise follows the rules for the Track feat. Creatures tracking by scent ignore the effects of surface conditions and poor visibility.

Arcane material Components: A sprinkle of mustard and pepper, and a drop of sweat.

SPIKES

Transmutation

Level: Cleric 3, druid 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Wooden weapon touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

As *brambles*, except that the affected weapon gains a +2 enhancement bonus on its attacks, and its threat range is doubled.

STANDING WAVE

Transmutation

Level: Druid 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Waves under a creature or object within range

Duration: 10 min./level

Saving Throw: Reflex negates

Spell Resistance: Yes

You command the waters to lift a creature or object and propel it forward.

An object so lifted may contain creatures or other objects.

What the wave can lift depends on your caster level.

Caster Level	Size of Creature or Object
5th	Up to Medium
7th	Large
9th	Huge
11th	Gargantuan
13th	Colossal

Standing wave moves the lifted creature or object in a straight line at a speed of 60 feet over water.

The spell dissipates when the wave contacts land, lowering its burden harmlessly to shore.

STORMRAGE

Transmutation [Electricity]

Level: Cleric 8, druid 8

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level (D)

You harness the powers of wind and storm to move, protect yourself, and attack.

You gain the benefits of a *fly* spell, and are protected from each direction as if surrounded by a *wind wall* spell.

You are completely unaffected by natural or magical wind (such as a hurricane or *gust of wind* spell), easily able to hold

your position and completely uninhibited by other adverse effects of extreme wind (such as having to make Concentration checks because of strong winds).

Finally, you can discharge bolts of electricity from your eyes.

Your caster level is the total number of d6 that you can create with this spell (maximum 20d6).

You may use them all at once or divide the dice over several rounds.

For example, a 16th-level caster can fire an 8d6 bolt on one round and another 8d6 bolt on the next, fire sixteen bolts over 16 or more rounds (each doing 1d6 electricity damage), or make one large bolt that deals 16d6.

Each bolt affects only one creature.

Launching a bolt is a standard action that does not provoke an attack of opportunity, has a range of 100 feet, and requires a ranged touch attack (you gain a +3 attack bonus if the opponent is wearing metal armor, made out of metal, or carrying a lot of metal).

SUBVERT PLANAR ESSENCE

Transmutation

Level: Cleric 5, sorcerer/wizard 6

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius emanation centered on a point in space

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

Outsiders within the emanation of a *subvert planar essence* spell find their connection disrupted with the planar forces that created them.

Outsiders who fail their saves have their damage reduction and spell resistance each reduced by 10 points.

For example, a barbed devil subject to *subvert planar essence* would have no damage reduction and SR 13, while a pit fiend would have damage reduction of 5/good and silver and SR 22.

Outsiders attempt Fortitude saves and check SR when they first enter the spell's area.

If they make their save or the spell fails to overcome their SR, they're thereafter unaffected by that casting of *subvert planar essence* and can enter and exit the spell area without making further saves.

Outsiders who fail their saves or whose SR is overcome by the spell are affected as long as they remain within the spell area, and they are automatically affected if they leave and reenter the spell area.

Material Component: A rough statuette carved from adamantine ore (100 gp).

TORTOISE SHELL

Transmutation

Level: Druid 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Area/Effect/Target: Living creature touched

Duration: 10 min./level

Saving Throw: None

Spell Resistance: Yes (harmless)

Tortoise shell grants the armor plating of a tortoise across a creature's torso and a tough, leathery skin elsewhere.

The effect grants a +6 enhancement bonus to the creature's existing natural Armor Class.

This enhancement bonus increases by 1 for every three caster levels above 11th, to a maximum of +9 at 20th level.

The enhancement bonus provided by *tortoise shell* stacks with the target's natural armor bonus, but not with other enhancement bonuses to natural armor.

A creature without natural armor has an effective natural armor bonus of +0, much as a character wearing only normal clothing has an armor bonus of +0.

Tortoise shell slows a creature's movement as if it were wearing heavy armor.

An elf subject to *tortoise shell*, for example, would have a speed of 20 feet and would run at 60 feet per round.

The spell affects only a creature's speed; *tortoise shell* doesn't have an armor check penalty or arcane spell failure chance.

TRAVELER'S MOUNT

Transmutation

Level: Blackguard 1, druid 1, paladin 1, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Touch Area/Effect/Target: Animal or magical beast touched

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell makes a mount better able to handle the rigors of overland travel, at the expense of its will to fight.

The touched animal or magical beast gets a +10 feet enhancement bonus to its speed, and it can hustle without taking damage or becoming fatigued as long as the spell is in effect).

However, the mount no longer attacks in combat.

The steed willingly bears its rider into battle; it just can't use its own natural weapons for the duration of the spell.

UNYIELDING ROOTS

Transmutation

Level: Druid 9

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch Area/Effect/Target: Willing creature touched

Duration: 1 min./level (D)

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

The creature you touch grows thick tree roots that anchor him to the ground and provide him with life-sustaining healing.

(If the creature you touch isn't touching the ground, the *unyielding roots* spell has no effect).

For the duration of the spell, the touched creature can't move from his current space, nor can he be moved from his space by bull rushes, overruns, magic such as *Bigby's forceful hand*, or any effect short of a massive earthquake.

Such attempts simply fail.

If an overrun attempt is made against a creature with *unyielding roots*, the rooted creature must block rather than avoid the overrun.

The rooted creature automatically wins the Strength check to stop the overrun and can make a Strength check (opposed by the overrunning creature's Strength or Dexterity check) to knock the overrunning creature prone. The roots draw life energy from the ground that feed the touched creature, healing up to 30 points of damage per round, neutralizing poisons automatically, and wiping away negative levels (as the *restoration* spell).

The touched creature gets a +4 bonus on Fortitude and Will saves as long as the roots remain, but a -4 penalty on Reflex saves.

VISAGE OF THE DEITY

Transmutation [Evil, Good]

Level: Cleric 6

As *lesser visage of the deity*, but you take on all the qualities of a celestial or fiendish creature (see the *Monster Manual* for complete details):

- You take on a shining, metallic appearance (for good clerics) or a more fearsome appearance (for evil clerics).
- You gain the ability to smite evil (for good clerics) or good (for evil clerics) once a day.

Add your Charisma modifier to your attack roll and your character level to your damage roll against a foe of that alignment.

- You gain darkvision to a range of 60 ft.
- You gain acid, cold, and electricity resistance 20 (for good clerics) or cold and fire resistance 20 (for evil clerics).
- You gain damage reduction 10/magic.
- You gain spell resistance 20.

Your creature type does not change (you do not become an outsider).

VISAGE OF THE DEITY, GREATER

Transmutation [Evil, Good]

Level: Cleric 9

As *lesser visage of the deity*, except that you take on the qualities of a half-celestial or half-fiend (see the *Monster Manual* for complete details).

You do not gain the spell-like abilities of these creatures. Your creature type changes to outsider for the duration of the spell.

Unlike other outsiders, you can be brought back from the dead if you are killed in this form.

Good clerics undergo the following transformations:

- You grow feathered wings that allow you to fly at twice your normal speed (good maneuverability).
- You gain +1 natural armor.
- You gain low-light vision.
- You gain resistance 10 to acid, cold, and electricity.
- You gain immunity to disease.
- You gain a +4 racial bonus on saving throws against poison.
- You gain damage reduction 10/magic.
- You gain spell resistance 25.
- You gain the following bonuses to your ability scores: +4 Str, +2 Dex, +4 Con, +2 Int, +4 Wis, +4 Cha.

Evil clerics undergo the following transformations:

- You grow batlike wings that allow you to fly at your normal speed (average maneuverability).
- You gain +1 natural armor.
- You gain bite and claw attacks.

If you are size Medium or larger, your bite deals 1d6 points of damage and each claw attack deals 1d4 points of damage.

If you are Small, your bite deals 1d3 points of damage and each claw attack deals 1d3 points of damage.

- You gain darkvision out to a range of 60 feet.
- You gain immunity to poison.
- You gain resistance 10 to acid, cold, electricity, and fire.
- You gain damage reduction 10/magic.
- You gain spell resistance 25.
- You gain the following bonuses to your ability scores: +4 Str, +4 Dex, +2 Con, +4 Int, +2 Cha.

VISAGE OF THE DEITY, LESSER

Transmutation [Evil, Good]

Level: Blackguard 4, cleric 3, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

When you cast this spell, your body changes into a form more like your deity's (in a very limited fashion, of course).

You gain a +4 enhancement bonus to your Charisma score.

You also gain resistance 10 to two or three energy types: acid, cold, and electricity if you are good; cold and fire if you are evil.

WEAPON OF THE DEITY

Transmutation

Level: Blackguard 4, cleric 4, paladin 4

Components: V, DF

Casting Time: 1 standard action

Range: 0 ft.

Target: One weapon you hold

Duration: 1 round/level

You must be using your deity's favored weapon to cast this spell.

You may use the weapon as if you had proficiency with it even if you normally do not.

The weapon gains a +1 enhancement bonus on attack and damage rolls and an additional special ability (see the list below).

A double weapon gains this enhancement bonus and special ability for only one of its two heads, as chosen by the caster.

When you reach 9th caster level, the enhancement bonus of the weapon increases to +2.

At 12th level, the bonus rises to +3, at 15th level it is +4, and at 18th level it is +5.

The list below includes deities from the core pantheon only, along with the five alignment components.

If a cleric worshipping a different deity casts this spell, the DM should assign an appropriate special property of the same power level as those listed here.

FAVORED WEAPONS

Deity	Weapon
Bahamut	+1 frost heavy pick
Boccob	+1 spell storing quarterstaff
Corellon Larethian	+1 keen longsword
Ehlonna	+1 frost longsword
Erythnul	+1 mighty cleaving morningstar
Fharlanghn	+1 defending quarterstaff
Garl Glittergold	+1 throwing battleaxe
Gruumsh	+1 returning shortspear
Heironeous	+1 shock longsword
Hextor	+1 mighty cleaving heavy flail
Kord	+1 mighty cleaving greatsword
Kurtulmak	+1 shock shortspear
Lolth	+1 keen whip
Moradin	+1 throwing warhammer
Nerull	+1 keen scythe
Obad-Hai	+1 defending quarterstaff
Olidammara	+1 keen rapier
Pelor	+1 flaming heavy mace
St. Cuthbert	+1 mighty cleaving heavy mace
Vecna	+1 frost dagger
Wee Jas	dagger of venom
Tiamat	+1 flaming heavy pick
Yondalla	+1 defending short sword

Alignment	Weapon
Good	+1 frost warhammer
Evil	+1 mighty cleaving light flail
Neutral	+1 defending heavy mace
Law	+1 flaming longsword
Chaos	+1 shock battleaxe

WINGED MOUNT

Transmutation

Level: Blackguard 4, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Your touched mount

Duration: 10 min./level

This spell causes your mount to sprout giant, feathery white wings.

This grants the mount a fly speed of 60 ft., with a maneuverability of good.

The mount is slowed as normal for weight carried, barding worn, and environmental factors.

COMPLETE MAGE (3.5)

ABJURATION

ARCANE TURMOIL

Abjuration

Level: Hexblade 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None or Will partial; see text

Spell Resistance: Yes

As you make the final spell gesture, the look in your rival's eyes gives evidence enough of the chaos rampaging through his mind. You affect the subject of the spell as if by the targeted variant of dispel magic.

Additionally, if the subject is a spellcaster who fails a Will save, she loses one randomly determined prepared spell or spell slot from her highest level of available spells remaining.

This spell or spell slot is lost as if it had been cast or used for the day.

Material Component: A broken eggshell.

ATTENTIVE ALARM

Abjuration

Level: Sorcerer/wizard 2

Your mind seems to expand as a mystical sixth sense begins observing the target area.

This spell functions like *alarm*, except that you immediately know the type and number of creatures that triggered the spell.

This effect applies only to creatures that cross the boundary during the round in which the spell is triggered; creatures that come afterward are not automatically detected.

CACOPHONOUS ALARM

Abjuration

Level: Bard 2

Your magic causes the surrounding region to vibrate briefly with a deep rumble.

This spell functions like *alarm*, although you can only set it to produce an audible result, not a mental one.

Furthermore, an effect equivalent to a *sound burst* spell affects the first creature to violate the warded area (only this creature is affected, not a 10-foot-radius spread).

ENERGY ABSORPTION

Abjuration

Level: Sorcerer/wizard 7, wu jen 7

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level or until expended

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Your skin warms, and your chest fills with a rush of cool air.

The sensation fades as you touch your subject, transferring a spark of all the energies of magic.

The subject gains resistance 10 against all five energy types: acid, cold, electricity, fire, and sonic.

As an immediate action, the subject can cause the spell to absorb the power of a single energy-based attack.

The subject gains immunity to any energy types used in that attack (but only for that attack), and also heals a number of points of damage equal to 1/2 the damage the effect would normally have caused.

For instance, if a red dragon breathes fire on the subject for 87 points of damage, he could decide as an immediate action to absorb the effect, thus healing 43 points of damage instead of taking any damage.

Hit points in excess of the subject's normal maximum are lost.

Taking advantage of this function ends the duration of the spell.

KARMIC AURA

Abjuration

Level: Hexblade 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: 20 ft.

Area: 20-ft.-radius emanation, centered on you

Duration: 1 round/level

Saving Throw: Will partial

Spell Resistance: Yes

You feel the currents of fate flow through you, tugging on the strings of chance.

While this spell is in effect, any creature within range that deals damage to you with an attack, spell, or other effect becomes fatigued for 3 rounds.

A successful Will save indicates that the attacker is unaffected and immune to the spell's effect until the start of your next turn, but must save again if he damages you after that point.

An attacker already fatigued suffers no additional effect from this spell.

Karmic aura, *karmic backlash*, and *karmic retribution* interact in an unusual fashion.

If you have more than one of these spells active at once, the subject must save against each spell in descending order of spell level.

If he fails any of these saves, he is automatically fails any save against any lower-level spell of the set that you have active.

(Spell resistance still applies to each effect separately).

For example, suppose you have all three spells active when a foe strikes you.

He first attempts to save against *karmic retribution*.

If that save fails, he is treated as if he had failed his saving throws against all three spells.

If the first save succeeds, but the save against *karmic backlash* fails, he is treated as if he had failed his saves against both that spell and *karmic aura*. Only if he succeeds on both of the first two saves is he entitled to a save against *karmic aura*.

KARMIC RETRIBUTION

Abjuration

Level: Hexblade 4, sorcerer/wizard 6

By manipulating fate itself, you ensure that any who attack you suffer greatly for their insolence.

This spell functions like *karmic aura*, except that any creature that damages you and fails its Will save becomes stunned for 1 round.

KARMICK BACKLASH

Abjuration

Level: Hexblade 2, sorcerer/wizard 3

Your magic influences the flow of fate, doing harm to all who would dare attack you.

This spell functions like *karmic aura*, except that any creature that damages you and fails its Will save becomes exhausted for 2 rounds.

MYSTERIOUS REDIRECTION

Abjuration

Level: Sorcerer/wizard 8, wu jen 8

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 5 rounds or until expended

Your foe's attacks mysteriously veer toward other targets.

This spell creates a field around you that deflects physical blows.

The field affects melee and ranged attacks made with natural or manufactured weapons, but not spells or magical attacks unless they are delivered with a physical touch attack.

Anyone who aims a melee or ranged attack against you must make a Will save to overcome the spell's effect.

If the save fails, all attacks that individual makes against you while the spell lasts have a 50% chance to be deflected to another target instead.

Spell resistance applies to this effect.

If a melee attack is deflected, the new target must be a creature both adjacent to you and within your attacker's melee reach.

If a ranged attack is deflected, the new target must be both adjacent to you and within your attacker's range.

If more than one target is available, determine which creature is attacked randomly.

Any combat modifiers (such as cover) apply to the attack. A creature that has total cover against the attacker can't be selected as a target, nor can the attacker.

If no eligible target exists, the attack misses.

As an immediate action while the spell lasts, you can choose to redirect a deflected attack back at the attacker.

You can wait to make this decision until after you know an attack has been deflected, but you must do so before you know which creature is the target of the deflected attack.

Using this ability ends the spell's duration.

OTILUKE'S IMPRESSING FIELD

Abjuration

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 full round

Range: 20 ft.

Area: 20-ft.-radius emanation, centered on you

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

Your skin tingles as you radiate a field of powerful magic.

When you cast this spell, designate either a school of magic or a subtype of magic (such as evil spells or fire spells).

Spells of that type are suppressed within the area of your spell.

Anyone attempting to cast such a spell in (or into) the area must succeed on a caster level check against a DC of 11 + your caster level.

(Abilities and feats that improve the ability to defeat spell resistance, such as Spell Penetration, apply here as well).

Anyone attempting to activate an item that produces a spell or effect of that type must make a similar roll, using the item's caster level for the level check.

Constant items or precast effects make this check when first exposed to your *suppressing field*.

If they succeed, they remain unaffected for the duration.

If they fail, they are suppressed for the duration, resuming function (if their duration has not expired) when they leave the area.

PRISMATIC AURA

Abjuration

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until discharged (D)

You are surrounded in a flashing aura of multiple colors.

The *prismatic aura* spell obscures your image, offering you concealment.

In addition, any creature that hits you with a nonreach melee weapon is subject to a random prismatic effect.

Roll 1d8 and consult the table under *prismatic spray* (PH 264); reroll any result of 8, since a *prismatic aura* can't generate two effects at once.

Each time an effect is expended, that color disappears from the *aura* (reroll if it comes up again on the table).

Thus a *prismatic aura* can affect a maximum of seven attackers before it disappears, and the spell ends.

An attacker is entitled to any applicable saves, and spell resistance applies to this effect.

REPELLING SHIELD

Abjuration [Force]

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You create a shield of force that can push your attackers away from you.

This spell functions like the *shield* spell, except that any adjacent creature that makes a melee attack against you is also pushed 5 feet away from you after the attack is resolved.

A successful Reflex save negates this effect, and spell resistance applies.

You can choose the direction of the creature's movement, as long as it ends up farther away from you than it began. You can't push a creature into a space that it couldn't legally occupy (such as a wall).

If no legal space exists to push the creature, it is unaffected.

TENACIOUS DISPELLING

Abjuration

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target or Area: One creature or object, or 20-ft.-radius burst

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

A wave of your hand sweeps away some of the magical effects on your target, but a surge of energy within you wants another try.

This spell functions as a targeted *dispel magic*.

If you cast *tenacious dispelling* again before the end of your next turn, the second casting can function either as a targeted or area *dispel magic*, and you gain a +2 bonus on dispel checks made as part of the spell.

CONJURATION

CAUSTIC MIRE

Conjuration (Creation)

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A foul sludge seeps out of the ground, coating the area before you. You cover the ground in an acidic slime, roughly the consistency of thick mud.

The sludge is sticky; entering any square affected by *caustic mire* costs 2 squares of movement.

In addition, each square entered deals 1d6 points of acid damage to the creature moving.

A creature who stands in the area without moving from its space takes 1d6 points of damage per round at the end of its turn.

The fumes rising out of *caustic mire* are flammable.

Any effect that deals fire damage within an area of *caustic mire* deals an extra 1 point of damage per die (minimum +1 damage).

CAUSTIC SMOKE

Conjuration (Creation)

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Acidic fog spreads in a 20-ft. radius, 20 ft. high

Duration: 5 rounds

Saving Throw: Fortitude partial

Spell Resistance: No

Green-tinged smoke billows from the earth, obscuring sight and burning all it touches.

You create a bank of smoke, similar in effect to a *fog cloud*.

In addition to obscuring sight, the cloud deals 1d6 points of acid damage per round to all creatures within.

Furthermore, its acrid fumes burn the eyes, imposing a -5 penalty on all attack rolls and Search and Spot checks unless a creature succeeds on a Fortitude save (repeated each round the creature is within the cloud).

These penalties last as long as the subject remains within the cloud, plus an additional 2 rounds thereafter.

If a creature within the cloud takes acid damage from any other effect, it must succeed on a Fortitude save (using this spell's save DC) or be blinded for 1 round.

CHOKING COBWEBS

Conjuration (Creation)

Level: Sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Dusty webs in a 10-ft.-radius spread

Duration: 1 minute/level (D)

Saving Throw: Fortitude partial

Spell Resistance: No

You fill an area with thin, dust-laden choking strands.

This spell covers an area in layers of clinging filaments that resemble old, dusty cobwebs.

Unlike a *web* spell, the strands of a *choking cobwebs* spell need not be anchored to two or more solid and diametrically opposed points, though they can be.

Unsupported cobwebs flutter in the air as through held up by a rising current.

The cobwebs block sight beyond 5 feet.

A creature within 5 feet has concealment.

Creatures farther away have total concealment.

Entering a square of cobwebs costs 2 squares of movement. A living creature that enters *choking cobwebs* falls into a fit of horrific coughing, making it sickened for as long as it remains in the area and for 1 round after it leaves.

A successful Fortitude save negates the sickened effect, but the save must be repeated each round the creature enters or remains within the area.

If two or more *choking cobwebs* spells overlap the same area, the overlapping area of the two spells becomes a nearly impenetrable barrier of stands.

In addition to the effects described above, any creature within the overlapping area has cover against adjacent creatures, and total cover against creatures more than 5 feet away.

Entering a square of overlapping cobwebs costs 4 squares of movement, and a living creature within this area is

nauseated rather than sickened (Fortitude negates) and also takes 1d4 points of Constitution damage in each round that it is nauseated.

CLIMBING TREE

Conjuration (Creation)

Level: Druid 1, ranger 1, wu jen 1 (wood)

Components: V, S, DF

Casting Time: 1 full round

Range: 0 ft.

Effect: A thin but sturdy tree

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

At your call, a tree snakes up from the earth, in seconds growing as tall as trees that have lived for years.

You cause a 1-foot-diameter tree to grow in the center of any adjacent square.

The tree can grow as high as 10 feet per caster level (to a maximum of 50 feet).

The branches are evenly spaced and perfect for climbing; ascending the tree requires a successful DC 5 Climb check. The tree can grow only in soft terrain, such as dirt, soil, or sand.

The tree has hardness 5 and 120 hit points; if cut down, it vanishes instantly.

It can't be animated by any means, such as with *animate plants*, nor can it serve as the basis for any plant-related spell such as *tree stride*.

Treat the tree as a slender pillar (DMG 64) for terrain purposes.

DEADLY LAHAR

Conjuration [Earth, Fire]

Level: Druid 8, sorcerer/wizard 8, wu jen 8 (earth and fire)

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped spread

Duration: Instantaneous

Saving Throw: Reflex partial

Spell Resistance: No

A rushing torrent of liquid rock bursts from the ground, washing over your foes.

You create a liquid landslide of molten-hot volcanic material.

All creatures in the area of the spell take 10d6 points of fire damage.

Additionally, those creatures are coated in a thick layer of the viscous substance, slowing them (as the *slow* spell) for the next 3 rounds and dealing an additional 5d6 points of fire damage per round.

A successful Reflex save reduces the initial damage by half and prevents the *slow* effect and the additional damage.

DIMENSION JUMPER

Conjuration (Teleportation)

Level: Bard 5, sorcerer/wizard 5

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You and objects touched

Duration: 1 round/level

You whisk yourself from place to place with a word.

For the duration of this spell, you gain the ability to teleport yourself up to 30 feet once per round as a move action.

You can bring along held or carried objects, as long as their weight doesn't exceed your maximum load.

You can't transport other creatures except for a familiar.

You must be able to see your destination; if you attempt to teleport into a solid object, the action is wasted but the spell remains in effect.

If you don't end your teleport on a solid surface, you fall immediately.

DIMENSION JUMPER, GREATER

Conjuration (Teleportation)

Level: Sorcerer/Wizard 9

You whisk yourself from place to place with but a thought.

This spell functions like *dimension jumper*, except that you teleport as a swift action rather than as a move action, and the range of your teleport extends to 60 feet.

FAMILIAR REFUGE

Conjuration (Teleportation)

Level: Sorcerer/wizard 6

Components: V

Casting Time: 1 swift action

Range: Unlimited

Target: You or your familiar

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You feel the bond between yourself and your familiar strengthen, and then the animal stands before you.

You instantly transport yourself to your familiar, or your familiar to you, as *greater teleport*.

You can't bring any other living creatures with you.

FIRE AND BRIMSTONE

Conjuration (Creation) [Fire]

Level: Sorcerer/wizard 5, wu jen 5 (fire)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

With a shout, you cause your foes to erupt in a foul, acrid-smelling burst of yellow fire.

The subject ignites in a burst of sulfuric fire that deals 1d6 points of damage per caster level (maximum 15d6) and causes the subject to be sickened for 5 rounds.

A successful Fortitude save halves the damage and negates the sickening.

Material Component: A pinch of brimstone.

GENIUS LOCI

Conjuration (Creation) [see text]

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 hour

Range: 0 ft.

Target: One building, location, or discernible geographic area, up to a maximum area of one 10-ft. cube/caster level

Duration: Permanent

Saving Throw: None

Spell Resistance: No

At your final word, the air around you hums and the region glows with a sudden flash of light.

It fades swiftly, but you can now feel a presence, as though the environment itself watched you.

With this spell, you grant the particular building or location a permanent “guardian spirit”.

You must task the spirit with a specific purpose, and that purpose must in some manner involve protecting the building or region to which it is attached.

The task can be very general (“Slay any creature who attempts to enter!”) or far more specific (“Kill any goblin who tries to take the red sword down off the wall”).

The task can't be so specific as to mention the names of individual creatures, or to require unseen knowledge such as alignments or allegiances.

Finally, it must be simple enough to clearly convey in one or two sentences.

If the triggering event occurs, the *genius loci* manifests exactly where you cast the spell, taking the form of an elder elemental (choose air, earth, fire, or water when you cast the spell).

It immediately attempts to carry out the designated task. Once the spell is complete, you have no special control over the spirit's actions, and if you trigger the manifestation, it attacks you just as it would anyone else.

The manifested spirit behaves in all ways as a normal elemental of its kind, within the parameters of the task assigned.

If the spirit's manifested form is slain, it is not destroyed and the spell is not broken.

However, it can't manifest for 24 hours after being destroyed.

The only way to permanently break a *genius loci* spell is with a *miracle*, *Mordenkainen's disjunction*, or *wish*, or else to permanently defeat the guardian spirit's purpose.

If, for instance, the spirit was commanded to prevent a particular item from being destroyed, the destruction of that item renders its existence moot.

When not actively involved in protecting its territory or following its task, the spirit shows no sign of its existence. When it manifests, the creature appears to come out of nowhere.

Anyone viewing the building or area with *detect magic* sees an overwhelming aura of conjuration; *true seeing* reveals the spirit wandering its territory, appearing as a vague, hazy silhouette of the creature it manifests as.

Genius loci becomes a spell of the same type as the elemental manifestation specified (air, earth, fire, or water).

Material Component: A paste made up of silver, mithral, and holy water, worth a total of 3,000 gp.

GREAT WORM OF THE EARTH

Conjuration (Creation) [Earth]

Level: Druid 7, wu jen 7 (earth)

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: A great wormlike maw

Duration: 1 round/level or until escaped

Saving Throw: Reflex partial

Spell Resistance: No

With a fearsome roar, an enormous wormlike mouth bursts from the earth beneath your opponent's feet, attempting to swallow him whole.

You conjure a great wormlike maw from the ground beneath the feet of another creature, which immediately bites and tries to swallow that creature.

A successful Reflex save means the creature takes only 4d6 points of damage and the spell ends.

If the creature fails its save, it takes 8d6 points of damage and becomes “swallowed” by the mouth, dragged beneath the ground.

A creature so trapped can't act except to try to escape and takes an additional 2d6 points of acid damage each round on your turn as the worm “digests” it.

Each round on its turn, a creature trapped within the worm can take a full-round action to attempt a new Reflex save to escape.

If successful, the creature appears prone in its original space and the spell ends.

An ally in or adjacent to the creature's original space can use the aid another action to help unearth it; a successful DC 10 Strength check grants a +2 bonus on the creature's next Reflex save to escape.

You can place this spell's effect only on a horizontal area of dirt or stone at least 10 feet thick.

Any creature more than 5 feet off the ground can't be affected by this spell.

INCENDIARY SLIME

Conjuration (Creation)

Level: Sorcerer/wizard 2

A slick, greasy liquid seeps from the targeted object, thoroughly coating it.

This spell functions like grease (PH 237), but the liquid is also highly flammable.

If any fire damage is dealt within the area of the spell (or to the subject of the spell), the spell's area (or subject) bursts into flame.

This effect deals 4d6 points of damage to anyone in the area (or holding the subject), but also ends the spell's duration. A successful Reflex save halves this damage.

MORDENKAINEN'S TRUSTED BLOODHOUND

Conjuration (Creation)

Level: Assassin 4, sorcerer/wizard 6

Effect: Phantom bloodhound

You conjure a phantom hound, that can track and bring down your prey.

This spell functions like *Mordenkainen's faithful hound*, except that the phantom bloodhound created can also track a creature as if it had the Track feat.

Its Survival modifier is equal to your caster level for this purpose, but it can't use the Survival skill for any other tasks.

A *trusted bloodhound* has a land speed equal to yours, and can move at full speed without taking a penalty on Survival checks to track.

A *trusted bloodhound* can't attack, provide a flank, or have any other effect on combat.

However, as a standard action, you can instruct a *trusted bloodhound* to serve as a watchdog; in this role it functions identically to *Mordenkainen's faithful hound*, except that its attack bonus equals your caster level.

You can command a *trusted bloodhound* to resume its tracking again as a standard action.

RAIN OF SPINES

Conjuration (Creation) [Earth]

Level: Wu jen 4 (metal)

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (5-ft. radius, 20 ft. high)

Duration: Instantaneous

Saving Throw: Reflex partial

Spell Resistance: No

With a shout, you call down a rain of spines upon your foes, piercing their flesh and pinning them to the floor.

You cause a veritable storm of small, piercing metallic projectiles to rain from the air.

This spell deals 6d6 points of damage to each creature in the area.

In addition, each creature in the area is knocked prone and immobilized by spines pinning it to the floor.

A successful Reflex save halves the damage and negates the secondary effect.

A creature immobilized by spines is considered entangled and can't move from its space for 1 round per caster level; a DC 20 grapple check or Escape Artist check allows it to break free and end the secondary effect.

RESINOUS TAR

Conjuration (Creation)

Level: Bard 1, sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area or Target: One object or 10-ft. square

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

A sticky layer of black liquid coats your target.

The *resinous tar* spell makes a solid surface sticky.

Movement costs across the area are doubled.

Any prone creature in the area must succeed on a DC 10 Strength check to stand up.

The spell can also be used to create a sticky coating on an item.

Items not in use or in a creature's possession are always affected by this spell.

An object wielded or held by a creature receives a Reflex saving throw to avoid the effect.

A creature holding an affected item must use a full-round action to let go of the item, drop it, put it away, pick it up from the ground, or ready it for use.

A creature wielding an affected item gains a +5 circumstance bonus on opposed checks to avoid being disarmed.

A creature wearing armor or clothing affected by this spell takes a -5 penalty on Escape Artist checks and on grapple checks made to resist or escape a grapple or to escape a pin. *Resinous tar* counters and dispels *grease* (and vice versa).

Material Component: A drop of honey, molasses, or pine resin.

STEAL SUMMONING

Conjuration (Summoning)

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 immediate action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One summoned creature

Duration: Concentration (up to 1 round/level) + 1 round

Saving Throw: None

Spell Resistance: No

With an act of will and the utterance of arcane syllables, you steal the nascent connection being formed between summoner and minion.

You steal control of a creature as it is being summoned.

If you succeed on a caster level check (DC 11 + the caster level of the summoned), you gain control over the target creature as if you had summoned it.

You must cast this spell immediately after the spell or spell-like ability that summoned the target resolves, before the creature takes even a single action.

If this spell's duration expires before the spell that summoned the creature ends, the target returns to its original master's control at that time.

If the original master is no longer available to control it, it becomes free-willed until its original master returns.

STORM OF NEEDLES

Conjuration (Creation)

Level: Wu jen 4 (metal)

Components: V, S, M

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

You flick a needle out in front of you.

Instantly, the area is filled with a burst of thousands of tiny needles, which vanish almost as swiftly as they appear.

Creatures in the cone take 1d4 points of damage per caster level (maximum 15d4).

Material Component: A 1-inch-long metal needle.

SUMMON COMPONENT

Conjuration (Summoning)

Level: Bard 1, sorcerer/wizard 1

Components: S

Casting Time: 1 swift action

Range: 0 ft.

Effect: Noncostly material component for a single spell

Duration: 1 round

Saving Throw: None

Spell Resistance: No

You cup your hand and the object you desire appears in your palm.

You conjure the material component or components for a single spell that you can cast.

No component you summon can be worth more than a single gold piece, and it can't be a magic item.

Summoned components disappear when the spell duration expires, if they were not consumed in casting the spell.

SUMMON WEAPON

Conjuration (Summoning)

Level: Assassin 2, bard 2

Components: V, S

Casting Time: 1 swift action

Range: 0 ft.

Effect: Nonmagical light weapon

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A weapon appears in your hand, ready for use.

You conjure a nonmagical light weapon sized for you.

The weapon is normal in every respect.

It can't be made of any unusual metal, nor is it masterwork.

TACTICAL TELEPORTATION

Conjuration (Teleportation)

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One willing creature/3 levels

Duration: Instantaneous

Saving Throw: None and Will negates (object)

Spell Resistance: No and Yes (object)

You instantly analyze the field of battle, visualizing lines of power connecting you and your allies to tactically viable positions.

With a shout, you cause those lines to pull taut.

This spell instantly teleports a number of willing creatures a short distance with no chance for mishap, as *greater teleport*.

Effectively, *tactical teleportation* lets you reposition a number of allies (including yourself, if you choose) around the battlefield.

Each creature to be affected must be within range of you, and no creature can be transported farther away from your original position than the range allows.

You must have line of sight to all the intended destinations when you cast the spell.

Each subject can bring along held or carried objects as long as their weight doesn't exceed the subject's maximum load.

Only objects held or in use (attended) by another individual receive saving throws and spell resistance.

If any subject would appear in a space occupied by another creature or a solid object, that subject is unaffected by the spell, but the rest of the effect resolves normally.

TOWERING THUNDERHEAD

Conjuration (Creation) [Air]

Level: Druid 9, sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: Cylinder (40-ft. radius, 60 ft. high)

Duration: 3 rounds (D)

Saving Throw: None

Spell Resistance: No

A cylinder of roiling clouds appears, shot through with punishing winds and sheets of lightning.

This spell creates an enormous mass of dark clouds that provide concealment as *fog cloud*.

Powerful and contrary currents of wind inside the cylinder have the effect of a *wind wall* spell.

Movement within the cylinder is hampered; entering an affected square costs 2 squares of movement.

You can see and move normally within your own *towering thunderhead* spell (though your ranged attacks are hindered as much as anyone else's).

Any sonic or electricity spell of 7th level or lower cast by a creature within a *towering thunderhead* is automatically empowered (as if affected by the Empower Spell feat, but with no adjustment to the spell's level or casting time).

Spells already affected by Empower Spell don't gain this benefit.

TOXIC TONGUE

Conjuration (Creation)

Level: Assassin 3

Components: V, S

Casting Time: 1 standard

Range: Personal

Target: You

Duration: 1 minute/level

A sickly black fluid dribbles from the corner of your mouth.

You gain the ability to create a virulent poison in your mouth.

You can then either spit the poison at a foe or apply it to a weapon.

In either case, a Fortitude save negates each instance of damage, as normal for poison.

Spitting the poison at a foe requires a standard action and a successful ranged touch attack; the range is 30 feet.

In this form, the poison deals 1d3 points of Constitution damage as its initial and secondary damage.

Applying the poison to a weapon requires a swift action (and requires you to touch the weapon).

This form of the poison deals 1d6 points of Constitution damage as its initial and secondary damage.

You can apply the poison either to a manufactured or natural weapon, including your own bite attack (if you have one).

The poison remains on your weapon until you make a successful attack or until the spell's duration ends, whichever comes first.

Each dose of poison you create reduces the remaining duration of the spell by 1 minute.

The poison has no effect if ingested.

DIVINATION

ALLIED FOOTSTEPS

Divination

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: Willing living creature touched

Duration: 1 day/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a touch, you feel the bond between you and your companion grow stronger.

The subject of the spell knows the direction and approximate (within 10%) distance he must travel to reach you, enabling him to find you under almost any circumstances.

He might not know the best route, however, since the spell does not account for obstacles.

The spell works at any distance and continues even if you die.

If you travel to a different plane, or if either you or the target enters an *antimagic field* or similar area, the spell is temporarily suppressed.

COMBINED TALENT

Divination

Level: Bard 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 level)

Targets: Two willing creatures no more than 30 ft. apart

Duration: 10 minutes (D) or until expended

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

For an instant, both your companions' eyes go wide as they sense the mental link that now exists between them.

You allow one of the subjects to make use of the skill ranks of the other subject, in place of her own, up to a value equal to your caster level (maximum 10 ranks).

You must decide which skill is affected when you cast the spell, and the spell lasts for long enough to attempt a single use of that skill, up to a maximum of 10 minutes.

The beneficiary of the spell uses the other subject's skill ranks in place of her own but applies her own ability, racial, and other modifiers.

The second subject does not lose access to his skill ranks while under the effect of this spell.

CRITICAL STRIKE

Divination

Level: Assassin 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: One attack

As you complete this spell, you sense the blood rushing through your target's veins.

This spell guides your next attack to your foe's vital spots. Your next single attack roll (if it is made before the end of the next round) ignores any miss chance due to concealment.

(In the case of a foe that has total concealment, you must still attack the correct square).

This even allows you to deliver a sneak attack against a foe that has concealment.

DEATHSIGHT

Divination

Level: Assassin 4

Components: S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: One attack

The vital spots on your foe seem to call out to you, guiding your weapon of their own accord.

You gain temporary, intuitive insight into the actions and physiology of your foes.

Your next attack (if it is made before the end of your next turn) is considered a death attack, without the need for the standard 3 rounds of observation.

All other rules for a death attack, such as determining success and damage dealt, apply as normal.

If you don't have the ability to deliver a death attack, this spell has no effect.

ELEMENTAL EYE

Divination

Level: Wu jen 3

Components: V, S, F

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Target: One object weighing up to 1 pound (see Focus, below)

Duration: See text (D)

Saving Throw: None

Spell Resistance: No

You close your eyes, and instantly the area around the chosen object comes into focus.

You enspell a small object to serve as a magic sensor, much like that created by *clairaudience/clairvoyance*.

Once you have touched the object and cast the spell, you have up to 1 hour/level to activate the magic, thus enabling you to plant the object in a location and then move to a different spot to spy on that location.

Once you have activated the magic—that is, once you begin actually using the magic sensor to see—the spell lasts for 1 minute/level, or until you choose to end it.

This spell otherwise functions as *clairvoyance*.

If the object is moved, your sight moves with it, but the spell ends if the stone passes out of range.

Focus: Depending on your chosen element, you must use one of the following as a focus: a stone (earth), a lump of charcoal (fire), a piece of metal (metal), a puddle of water (water), or a chunk of wood (wood).

In each case, the object must weigh between 1/2 and 1 pound.

The focus is also the target of the spell.

ENDURING SCRUTINY

Divination

Level: Assassin 3, bard 3, paladin 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 day/level

Saving Throw: None

Spell Resistance: Yes

You sense a sudden, empathic connection with the subject, as though you were constantly a mere step or two behind.

You designate a particular action when casting this spell.

If the subject engages in or commits that particular action during the spell's duration, you are instantly alerted of that fact, regardless of the distance between you and the subject (and even if the subject is on another plane).

For instance, you could command the spell to alert you if the subject casts a spell or kills someone.

You do not necessarily know the precise details of when or how the subject committed the designated action; you only know, instantly, that he did so.

GUIDED PATH

Divination

Level: Bard 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level

With a sudden flash of insight, you know exactly where to turn and which streets to travel.

This spell imparts to you the most direct route to a type of location within 1 mile.

In this instance, a location is defined as a particular sort of building or establishment.

For example, you could learn the route to the nearest tavern, temple, or blacksmith's workshop.

You can't obtain directions to a specific location, such as the shop of Rufus the blacksmith.

Additionally, the location's purpose must be publicly known.

If the thieves guild secretly operates out of a warehouse, you can't obtain directions to the "headquarters of the thieves guild", because that is not publicly available information.

MAGIC SAVANT

Divination

Level: Bard 2

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level

Your hands and mind warm as the flow of mystical energy strengthens within you.

You align your own energy with that of the magic items around you.

You gain a +4 insight bonus on Use Magic Device checks.

If you have 10 or more ranks in Use Magic Device, you can take 10 on Use Magic Device checks, even if the situation wouldn't normally allow you to do so.

NEAR HORIZON

Divination

Level: Assassin 2, ranger 2

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 3 rounds

The horizon seems to lurch nearer to you as your eyes attain superhuman acuity.

You gain a mystical insight into targets most people can barely see.

For the duration of the spell, you take no range penalties when using ranged weapons, though they are still limited to their normal maximum distance.

SPELLCASTER'S BANE

Divination

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level

The air around you seems to glow as the currents of magic running through the world become visible to your eyes.

You gain a +2 insight bonus on dispel checks and caster level checks made to counterspell.

If you have 5 or more ranks in Spellcraft, you also automatically recognize any spell being cast, as though you had succeeded on a Spellcraft check.

You must have line of sight to the caster, but distance is otherwise not a factor.

If you have 15 or more ranks in Spellcraft, you not only recognize any spell being cast, but you also know the caster level of any spell being cast.

Again, you must have line of sight to the caster for this effect to function.

TRUE CASTING

Divination

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: One spell

You focus your magic deep in your soul until it becomes a torrent that must be unleashed.

Your next single spell (if it is cast before the end of the next round) gains a +10 insight bonus on any caster level check made to overcome spell resistance.

VIGILANT SLUMBER

Divination

Level: Assassin 1, bard 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 full round

Range: Personal

Target: You

Duration: 12 hours or until awakened

Even as you prepare for sleep, you feel a strange alertness in the back of your mind.

You set a specific condition under which you automatically wake up.

This condition might be anything from “If any Tiny or larger creature comes within 10 feet of me” to “When the moon is at its zenith”.

The condition must be something that you would normally be able to observe if you were awake.

Thus, you can't set the spell to wake you when something happens elsewhere, or when an *invisible* foe sneaks into your campsite.

You awaken fully alert and ready for action.

VITAL STRIKE

Divination

Level: Assassin 3

Components: S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: One attack

You suddenly see two versions of your target, one a split second ahead of the other, allowing you to target the holes in his defenses. You gain temporary, intuitive insight into the actions of your foes.

Your next single attack roll (if it is made before the end of the next round) is considered a sneak attack, even if your foe is neither flat-footed nor flanked.

This spell does not allow you to sneak attack creatures normally immune to such attacks, nor does it allow you to make use of other abilities—such as certain feats—that deal ability damage, or otherwise grant you extra benefits, when you make a sneak attack.

ENCHANTMENT

BOTHERSOME BABBLE

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 2, hexblade 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 3 rounds

Saving Throw: Will negates

Spell Resistance: Yes

A sudden confused look appears on your target's face as the words coining from his mouth become nonsense.

The subject can't make himself understood through verbal communication.

No matter how hard he tries, he can't speak a language, but only utters nonsense sounds.

His ability to write is unimpeded.

To cast a spell with a verbal component, the subject must succeed on a Concentration check; the DC equals this spell's save DC + level of the spell to be cast.

If you cast *bothersome babble* on a creature currently affected by a previous casting of the spell, the second spell has a different effect.

As long as both spells' durations last, the subject's speech is physically painful to it.

In any round in which the creature speaks, it takes 1d8 points of damage.

Treat this as continuous damage for the purpose of making Concentration checks to cast spells.

When the first duration ends, this secondary effect is replaced by the normal effect of the spell.

CATERWAUL

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Bard 2

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst

Duration: 1 round

Saving Throw: Will partial

Spell Resistance: Yes

You loose an earsplitting shriek that induces revulsion.

You draw upon your primal emotions to emit a stomach-churning wail.

Creatures in the area become nauseated for 1 round; those that make successful Will saves become sickened for 1 round instead.

ENDLESS SLUMBER

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 5, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Permanent

Saving Throw: Will negates

Spell Resistance: Yes

As you utter the final syllable, your foe's eyes roll up in her head. She falls, snoring softly even as she hits the ground.

You put a single subject into a magically induced slumber that lasts indefinitely.

Normal stimuli, such as shouting or prodding, are insufficient to wake the subject, but any damage dealt to the subject causes her to rouse immediately.

The subject can attempt a new save every 24 hours to awaken early.

The subject does not need to eat or drink during this time.

Material Component: A pinch of black sand.

IMMEDIATE ASSISTANCE

Enchantment (Compulsion)

Level: Bard 1

Components: V

Casting Time: 1 immediate action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One willing creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

As you speak the arcane words, you feel the laws of reality bending around your companion, undoing his failure.

You grant the subject the chance to reroll a skill check.

You must cast this spell after the skill check has been rolled, but before success or failure has been determined. The subject makes the new check immediately and must abide by the results of the second roll. The subject can't take 10 or 20 on this reroll.

MELF'S SLUMBER ARROWS

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: 1 arrow/3 levels

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

A single arrow gleams like a star in the night, promising a deathlike slumber to its target.

At any time during this spell's duration, you can use a swift action to imbue an arrow that you hold with the power of slumber.

Any creature of 15 HD or less that is dealt damage by this arrow before the end of your turn falls asleep for 1 hour.

A successful Will save means the target becomes fatigued for 1 hour instead.

Any arrow that doesn't deal damage to a target before your turn ends loses its magic (but can be imbued again on your next turn).

You can imbue one arrow for every three caster levels you have (maximum five arrows).

Material Component: A few poppy seeds.

OTTO'S IMPERATIVE AMBULATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/3 levels

Saving Throw: Will negates

Spell Resistance: Yes

With seemingly no regard for his safety, your target begins moving around the battlefield.

For the duration of the spell, the subject must begin each of its turns by taking a move action to move at least 10 feet (provoking attacks of opportunity as normal).

The subject has full control over where it moves, as long as it ends up at least 10 feet from where it started.

If it is incapable of moving at least 10 feet with a move action—due to terrain or other obstacles—it is dazed for 1 round instead.

TORRENT OF TEARS

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 2, sorcerer/wizard 2, wu jen 2 (water)

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 5 rounds

Saving Throw: Will negates

Spell Resistance: Yes

Tears pour from the subject's eyes, and his body is wracked with sobs.

You force the subject to cry by drawing forth the water of his tears.

For the duration of the spell, the subject is sickened and blinded; a successful Will save negates the effect.

Material Component: A single tear.

VECNA MALEVOLENT WHISPER

Enchantment (Compulsion) [Death, Mind-Affecting]

Level: Sorcerer/wizard 4

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature that has 10 hit points or fewer

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You whisper a horrific word of power that rends the soul of your subject.

A weaker (and perhaps older) variant of the *power word* spells, this horrible malediction was supposedly created by the Whispered One himself, long before his ascension to godhood.

The subject of the spell is reduced to –9 hit points (no roll to check for becoming stable is necessary).

EVOCATION

BATTLECRY

Evocation [Mind-Affecting, Sonic]

Level: Bard 4

Components: V, S

Casting Time: 1 swift action

Range: 60 ft.

Targets: You and all allies within 60 ft.

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Your bold shout bolsters the resolve of your allies.

When you cast *battlecry*, you and your allies gain a burst of confidence and combat prowess.

The next single attack made by any affected creature gains a +5 morale bonus on the damage roll, provided the attack is made before the end of your next turn.

This bonus applies only to a single attack.

In addition, any ally who is currently under a charm, compulsion, or fear effect can attempt a new save against that effect with a +2 morale bonus.

Battlecry also extends by 3 rounds the duration of inspire courage, inspire greatness, or inspire heroics bardic music effects currently affecting any ally.

If an ally is under the effect of more than one of these, all durations are extended.

BIGBY'S SLAPPING HAND

Evocation [Force]

Level: Sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One Tiny hand

Duration: Instantaneous

Saving Throw: None; see text

Spell Resistance: Yes

You complete the spell and blow into the leather glove.

Immediately a blue-white, translucent hand appears next to the enemy and smacks it across the side of the head—not enough to hurt it, but hard enough to give others nearby a chance to attack.

This spell distracts the subject, causing it to immediately provoke attacks of opportunity from creatures threatening its space.

The spell allows no saving throw, but a slapped creature can negate the effect with a DC 20 Concentration check.

Focus: A leather glove.

CHANNELED SOUND BLAST

Evocation (Sonic)

Level: Bard 5, sorcerer/wizard 5

Components: V, S

Casting Time: See text

Range: See text

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

You channel energy into the shimmering waves of sound spell, causing them to tremble and quake with power.

When you have poured enough energy into the spell, you send a thunderous blast into your foes.

This spell creates a cone of sonic energy that blasts your enemies.

The spell's strength depends on the amount of time you spend channeling energy into it.

If you cast *channeled sound burst* as a swift action, it deals 1d4 points of sonic damage per two levels in a 15-foot cone.

If you cast the spell as a standard action, it deals 1d6 points of sonic damage per level in a 30-foot cone.

If you cast *channeled sound burst* as a full-round action, it deals 1d8 points of sonic damage per level in a 30-foot cone.

If you spend 2 full rounds casting this spell, it deals 1d10 points of sonic damage per level in a 60-foot-radius spread and permanently deafens all creatures in the area that fail Fortitude saves.

Regardless of how long you spend casting this spell, it can't deal more than 10 dice of damage.

When you begin casting this spell, you decide when you are finished casting it after the appropriate time has passed.

You do not need to declare ahead of time how long you want to spend casting the spell.

COAT OF ARMS

Evocation [Force]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: 0 ft.

Effect: A ring of blades swirling around you

Duration: 1 minute/level (D) or until expended

Saving Throw: None

Spell Resistance: No or Yes; see text

A ring of flashing blades, composed entirely of glowing blue force, spins around you in a whirling dance of death.

You surround yourself with a ring of spinning force blades.

This spell creates one blade per three caster levels, up to a maximum of six blades at 18th level.

You gain a shield bonus to AC equal to the number of blades that circle you.

This bonus applies against incorporeal touch attacks, since it is a force effect.

Every round, as a move action, you can direct one of the blades to break off and strike any target within 30 feet.

The blade strikes unerringly, requiring no attack roll, and deals 2d6 points of damage (even to incorporeal creatures) before disappearing.

Spell resistance applies against this effect.

Launching a blade in this fashion reduces your shield bonus accordingly.

Any creature that grapples you is automatically struck by all the blades that still encircle you, which deal damage as normal but then disappear as though you had voluntarily launched them.

DAWN BURST

Evocation [Light]

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft.-radius burst

Duration: 1 round/level (D)

Saving Throw: Reflex partial

Spell Resistance: Yes

A globe of brilliant radiance erupts silently, as though the light of dawn had arisen.

All creatures in the area glow with light equivalent to a torch for the duration of the spell, making hiding difficult and even revealing the location of invisible creatures.

(Invisible creatures are still considered to have concealment).

In addition, undead and creatures within the area that have light sensitivity or light blindness take 1d6 points of damage, +1 point of damage per caster level (maximum +5).

A successful Reflex save halves this damage.

DEADLY SUNSTROKE

Evocation [Light]

Level: Sorcerer/wizard 9, wu jen 9 (fire)

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Targets: One creature/level, no two of which are more than 60 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

Beams of desiccating heat lance into your foes, scorching their flesh and draining their vitality.

This spell creates waves of overwhelming heat that deal 1d6 points of fire damage per caster level, maximum 25d6.

Undead and plants take +50% damage.

Any living creature damaged by this spell becomes fatigued.

A successful Fortitude save halves the damage and negates the fatigue.

If you cast this spell in any locale where the temperature exceeds 90 degrees Fahrenheit, the spell instead deals 1d8 points of fire damage per caster level (maximum 25d8) and makes living creatures exhausted.

A successful Fortitude save halves the damage and negates the exhaustion.

DEAFENING BLAST

Evocation [Sonic]

Level: Bard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

A deafening blast of sound, louder than thunder and more piercing than the shrieks of the damned, erupts where you point.

All creatures in the area are permanently deafened.

A successful Fortitude save reduces the duration of the deafness to 1 round.

If a subject is already under the effect of *painful echoes* (page 112) when attacked by *deafening blast*, the two spells interact to create a greater effect.

In addition to being deafened on a failed save, the subject is stunned for 1 round.

GHOST LANTERN

Evocation [Light]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Object touched

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

The object begins to glow with a phosphorescent white light.

Your companions' faces are illuminated, but they cast no shadows on the surrounding walls.

Ghost lantern causes an object to glow like a torch, shedding bright illumination in a 20-foot radius (and shadowy illumination for an additional 20 feet) from the point you touch.

Unlike normal light spells, this light is only visible to you and a number of specifically designated creatures equal to one per three caster levels (maximum five).

These creatures must be within 10 feet of you when you cast the spell but can later move as far apart as they want. No others can see the *ghost lantern*; it has no effect on them, and they are affected by other ambient light conditions as normal.

Effectively, this spell allows you and your chosen companions to see in the dark.

Material Component: A bit of phosphorescent fungus.

INCENDIARY SURGE

Evocation [Fire]

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

No sooner has the blast of fire burst forth from your hands than you feel it building within you again.

This spell deals 1d6 points of fire damage per caster level (maximum 10d6) to all creatures in the area.

If you cast *incendiary surge* again before the end of your next turn, the second casting deals 1d8 points of damage per caster level (maximum 10d8), and you gain a +2 bonus on any caster level checks made to overcome spell resistance with that casting of the spell.

JET OF STEAM

Evocation [Water]

Level: Sorcerer/wizard 1, wu jen 1 (water)

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Area: 30-ft. line

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Your hand is suddenly covered in warm condensation as a jet of burning steam bursts from your finger.

You release a powerful jet of superheated steam that deals 1d4 points of fire damage per caster level (maximum 5d4) to each creature within its area.

The jet begins at your fingertips.

The jet of steam deals no damage to objects in its path, nor can it set fire to combustibles.

LASH OF FORCE

Evocation [Force]

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: 10 ft. or 30 ft.; see text

Effect or Area: One whip or 30-ft. line

Duration: 1 round/level or until exhausted

Saving Throw: None or Reflex partial

Spell Resistance: Yes

The air around you begins to thrash and churn with invisible forces.

This spell brings into being an invisible, whiplike tendril of force.

As an immediate action, you can command the lash to strike any creature within 10 feet of you.

The lash strikes automatically and deals 5d6 points of damage.

You must be able to see the target to be struck, but the lash otherwise ignores concealment.

As a force effect, it can even strike incorporeal or ethereal creatures.

At any point during the spell's duration, you can use a standard action to unleash a single 30-foot line of force that deals 15d6 points of damage and knocks prone any creatures in its area.

A successful Reflex save halves the damage and prevents the creature from being knocked prone.

This effect instantly ends the spell's duration.

LINGERING FLAMES

Evocation [Fire]

Level: Sorcerer/wizard 6, wu jen 6 (fire)

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: 3 rounds

Saving Throw: Reflex half

Spell Resistance: Yes

A burst of flame erupts before you, raising the temperature of the area to scorching levels.

This spell functions like *fireball*, except that the area remains filled with fire for the spell's entire duration.

Any creature within or entering the area takes 1d6 points of fire damage per caster level (maximum 15d6); a successful Reflex save halves this damage.

Material Component: A pinch of sulfur and a length of copper wire.

LUMINOUS SWARM

Evocation [Force]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 5 rounds

Saving Throw: Reflex partial

Spell Resistance: Yes

A swarm of shimmering motes streams from your fingers and engulfs your target.

You create a swarm of faintly luminous motes of pure force that engulf one creature, obscuring its vision.

If the target relies on sight, all its attacks have a 20% miss chance while the motes last.

The motes also deal 1d6 points of damage each round.

The target can attempt a Reflex save each round to avoid the damage.

If a subject under the effects of *luminous swarm* is targeted by *fever dream* (page 104), the two spells interact to create a greater effect.

See the *fever dream* spell for details.

PAINFUL ECHOES

Evocation [Sonic]

Level: Bard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature/4 levels, no two of which are more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

Your shout seems to echo into eternity, causing your foes to twitch and writhe as the reverberations pummel them internally.

You set up painful vibrations within your subjects.

Each round, the spell deals 1d4 points of sonic damage and sickens each subject for 1 round.

A successful Fortitude save negates the damage and the sickening effect for that round, but the subject must continue to save every round until the duration expires. Creatures that are immune to extra damage from critical hits are immune to the sickening effect.

If a subject under the effect of *painful echoes* is affected by *deafening blast* (see page 101) or *resonating agony* (see page 115), the two spells interact to create a greater effect.

See the *deafening blast* and *resonating agony* spells for details.

PRISMATIC BOW

Evocation

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: 0 ft.

Effect: A longbow made up of swirling, prismatic colors

Duration: 1 minute/level or until discharged

Saving Throw: See text

Spell Resistance: Yes

A glittering, flashing longbow, containing every hue of the rainbow, appears in your hands.

A *prismatic bow* functions as a +1 longbow; in addition, once per round you can choose to imbue an arrow shot from it with one of the seven colors of the bow, chosen from the list of colors created by *prismatic spray* (PH 264).

In addition to its normal effect, the arrow has the same effect as the corresponding beam from *prismatic spray* (including blindness for 2d4 rounds if the target has 8 HD or fewer).

Saves and spell resistance apply to this effect as normal for *prismatic spray*.

Once you fire an arrow, the corresponding color disappears from the bow, and you can't select that color again during this particular casting of the spell.

When the duration ends or when you have used the effects of all seven colors, the bow vanishes.

You are automatically considered proficient with a *prismatic bow*.

No one else can use your *prismatic bow*, though you need not carry it at all times (you can stow it, drop it, or even hand it to another character to hold).

If you cast this spell a second time while a previous version is still in effect, the first *prismatic bows* duration ends.

PRISMATIC DELUGE

Evocation

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (40-ft. radius, 80-ft. high)

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

In a blinding shower of light, you call an enormous, painfully bright rainbow from the heavens.

This spell produces a column of colors resembling the end of a rainbow.

Every creature in the area is affected as though by the *prismatic spray* spell (PH 264): blinded for 2d4 rounds if 8 HD or fewer, and you roll 1d8 on the *prismatic spray* table to see what color affects which target.

RESONATING AGONY

Evocation [Sonic]

Level: Bard 6

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

At your touch, a dull rumble courses through the body of your foe, shaking apart his mind and body from within.

You make a touch attack to set up agonizing vibrations within the body of the target.

If you hit, the target is nauseated for the duration of the spell.

Each round on its turn it can attempt a Fortitude save to lessen this effect to sickened for that round.

A subject under the effect of *painful echoes* (page 112) takes 1 point of Constitution damage each time it fails a Fortitude save against *resonating agony*.

RESONATING THUNDER

Evocation [Sonic]

Level: Bard 4, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: 5 rounds (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes

Waves of sound crash continuously upon the ears of those in the area.

You fill the area with discordant crashes of sonic energy that deal 4d6 points of sonic damage per round to creatures within the area.

Furthermore, any creature within or entering the area becomes deafened as long as it remains within and for 1 round thereafter.

A successful Fortitude save halves the damage and negates the deafened effect.

The clamorous sound in the area also interferes with all sonic spells and effects.

Any such spell or effect has only a 50% chance to affect a creature within the area of *resounding thunder*.

STORM OF FIRE AND ICE

Evocation [Cold, Fire]

Level: Druid 6, sorcerer/wizard 6, wu jen 6 (fire and water)

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: Cylinder (20-ft. radius, 40 ft. high)

Duration: 1 round

Saving Throw: Reflex half

Spell Resistance: Yes

You bring forth a swirling vortex of smoking lava intermixed with chunks of steaming ice.

A shower of lava globs and hailstones rains down for 1 round, dealing 6d6 points of cold damage and 6d6 points of fire damage to everything in the area.

The cylinder provides concealment similar to *fog cloud* and also applies a -4 penalty on Listen checks made within the area.

Movement costs within the area of the spell are doubled.

At the end of the duration, the lava and ice disappear, leaving no lingering effects (other than the damage dealt).

ILLUSION

DECEPTIVE FACADE

Illusion (Glamer)

Level: Bard 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: Creature or object (up to 1 cu. ft./level) touched

Duration: 10 minutes/level (D)

Saving Throw: Will negates (harmless, object) or Will disbelief (if interacted with, everyone else)

Spell Resistance: Yes (harmless)

After an instant to lock the appropriate image in your mind, your touch brings it to life, spreading a new image across the canvas of reality.

Deceptive facade allows you to alter the appearance of another being or object.

When cast on another creature, it functions as *disguise self*, except that it can affect a target other than yourself.

When cast on an inanimate object or a structure, the spell allows you to alter the object's visible characteristics.

You might change its color, make it appear to be made of a different material or substance, increase or decrease its apparent size by up to 10 percent, or modify other cosmetic details.

Deceptive facade does not alter any other sensory properties of the target.

A creature that interacts with the glamer can make a Will save to recognize the illusion, just as with *disguise self*.

DOUBLESPEAK

Illusion (Glamer)

Level: Bard 2

Components: S, M

Casting Time: 1 standard action

Range: Touch

Targets: You plus one creature touched/4 levels

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless, target) or Will disbelief (if interacted with, everyone else)

Spell Resistance: Yes (harmless)

You understand your companions clearly enough, but judging by the expressions of those around you, nobody else knows what is actually being said.

The subjects of the spell can speak about anything they like, but to everyone else, they sound like they are holding a mundane conversation about the weather, the taste of the food, local politics, and similarly banal topics.

The illusion also modifies facial expressions and mouth movements to match the illusory words spoken.

Anyone who spends at least 1 full round studying the conversation is allowed a Will save to disbelieve the illusion.

Subjects of the spell know the gist of what the illusory voices talked about during the duration—that is, they know the topics covered—but not the precise phrases or details.

Material Component: The tongue of a snake.

FALSE LIE

Illusion (Glamer)

Level: Bard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

Your subject takes on a shifty, dishonest demeanor.

False lie causes the subject to appear dishonest and deceptive.

Sense Motive checks made against the subject take a –10 penalty, and any failure convinces the observer that the subject is lying, even if she is not.

Anyone who casts a spell that reveals lies (such as *discern lie*) can attempt a caster level check (DC 11 + your caster level); if this fails, the spell registers the individual as lying even when she is not.

Material Component: A serpent's tongue.

FEVER DREAM

Illusion (Phantasm) [Mind-Affecting]

Level: Bard 5, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 5 rounds (D) + 1 round

Saving Throw: Will disbelief (if interacted with), then Fortitude partial

Spell Resistance: Yes

Your subject breaks out in a cold sweat as a burning fever sinks into its mind.

A creature subjected to this spell feels a spiking fever accompanied by vertigo and a phantasmagoric confusion of the senses.

The target first gets a Will save to recognize the dream as unreal.

If that save fails, the creature becomes exhausted while the spell lasts.

A successful Fortitude save lessens the condition to fatigued.

Regardless of the outcome of the Fortitude save, the subject has difficulty focusing its mind on spellcasting.

Each time it attempts to cast, concentrate on, or direct a spell, it must first succeed on a Concentration check (DC equal to this spell's save DC + the level of the spell being used).

When this spell ends (whether because its duration ends, you dismiss it, or it is dispelled), the subject is *confused* for 1 round afterward.

If the subject of *fever dream* is already under the effect of a *luminous swarm* spell (see page 110), the Will save DC of this spell (as well as the DC for Concentration checks required by this spell) increases by 2.

If the subject of *fever dream* is already under the effect of a *prickling torment* spell (see page 113), the Fortitude save DC of this spell increases by 2.

HOOD OF THE COBRA

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Hexblade 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/3 levels; see text

Saving Throw: Will disbelief, then Fortitude negates

Spell Resistance: Yes

In the mind of your victim, the hood of a king cobra spreads from your head, neck, and back, your eyes become those of a great serpent, and dripping fangs sprout from your jaws.

The subject perceives that you have grown serpentine features, including a cobra's hood, a snake's slitted eyes, and venomous fangs.

A successful Will save allows him to recognize the illusion as unreal, which ends the spell's effect.

However, if the Will save fails, the subject is shaken for as long as he can see you.

Closing his eyes negates this effect but also effectively blinds him.

In addition, if you make a successful melee touch attack (a standard action) against the target while the spell's duration lasts, he believes that he has been bitten by a venomous serpent and takes 1d6 points of Constitution damage (Fortitude negates).

Unlike normal poison, this attack has no secondary damage, though you can continue to "bite" the subject each round.

Immunity or resistance to poison applies normally against this effect, even though it isn't real poison (the subject and his body both believe it to be real).

INTERMINABLE ECHO

Illusion (Phantasm) [Mind-Affecting, Sonic]

Level: Bard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 5 rounds

Saving Throw: Will partial

Spell Resistance: Yes

The deep tolling of a bell echoes within the mind of your foe.

You fill the target's mind with a barrage of illusory sound. The subject takes a -10 penalty on Listen checks and 2d6 points of sonic damage each round. A successful Will save reduces the duration to 1 round.

LINGERING CHORUS

Illusion (Figment)

Level: Bard 4

Components: V, S

Casting Time: 1 swift action

Range: 0 ft.

Effect: A chorus of phantasmal voices

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A chorus of glorious voices takes up your song.

This spell continues any one bardic music effect you are currently maintaining or on which you are concentrating. It functions only on bardic music effects that can be maintained for longer than 1 round.

This allows you to cast spells, make use of a second bardic music ability, or otherwise concentrate on other matters. You can cast *lingering chorus* even while maintaining a bardic music effect.

If you cast a second *lingering chorus* while the first is still in effect, the duration of the first spell ends.

MASK OF THE IDEAL

Illusion (Glamer)

Level: Bard 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

Your voice and features become more refined and pleasing.

Mask of the ideal shifts everything toward an ideal form.

Any creature that perceives you in any fashion beholds something that it finds aesthetically pleasing.

You gain a +4 competence bonus on Bluff and Diplomacy checks, as well as on Disguise checks made to disguise yourself (but not others).

You also gain a +4 competence bonus on any Charisma check you make to influence a creature that you have enchanted (such as with *charm person*) or conjured (such as with *planar binding*).

NIGHTMARE TERRAIN

Illusion (Shadow)

Level: Assassin 3, bard 3, hexblade 3, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Five 10-ft. cubes + one 10-ft. cube/level (S)

Duration: 1 round/level

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: No

You cloak your surroundings with phantasmagoric figures, creating a horrific dreamscape.

You make any terrain look, sound, and smell like something out of a nightmare.

Writhing vegetation, disembodied limbs, animated corpses, and smoking pits cover every surface.

Miasmatic vapors fill the air, along with various foul stench.

The nightmare terrain you create is mostly illusory, but the obstacles are partially real.

Creatures within, entering, or viewing the area are entitled to Will saves to discern the illusion.

Creatures that fail their saves become entangled.

Regardless of the outcome of the save, creatures within 5 feet have concealment, while those 10 feet or farther away have total concealment.

Furthermore, as long as you are within the area of this spell, you can attempt Hide checks even while being observed. (Other creatures don't gain this benefit).

PALL OF TWILIGHT

Illusion (Pattern) [Darkness, Mind-Affecting]

Level: Assassin 3, sorcerer/wizard 3

Components: S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 20-ft.-radius spread

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

A creeping pall of darkness covers the area like running ink, muting sound and color alike.

This spell reduces illumination in the area to shadowy; these shadows are mental as well as physical.

All creatures in the area take a -10 penalty on Listen, Search, Sense Motive, and Spot checks.

A successful Will save negates these penalties, but not the effect of the darkness.

PHANTASMAL STRANGLER

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Hexblade 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100ft. + 10 ft./level)

Target: One living creature

Duration: 5 rounds

Saving Throw: Will disbelief

Spell Resistance: Yes

You delve into your subject's mind and call forth a clinging, choking horror that drapes itself over him like a vile net.

You fashion a nightmare creature from the subject's mind. Only the subject can sense the assailant, which exists only in the subject's mind.

When you cast the spell, the subject gets an immediate Will save to recognize the attacker as unreal, which ends the spell.

If that save fails, the subject is treated as if it were grappling the *phantasmal strangler*.

Each round on your turn, a *phantasmal strangler* deals 2d6 points of damage to the subject.

If the subject is reduced to -1 or fewer hit points, the spell ends.

Each round on the subject's turn, it can attempt any of the actions normally allowed to a grappling character.

Treat a *phantasmal strangler's* grapple modifier as equal to that of the subject (including modifiers for Strength, size, and all other factors).

A *phantasmal strangler* can't be damaged, nor can it be pinned.

If the subject escapes from the *phantasmal strangler's* grasp, the spell ends.

RETRIBUTIVE IMAGE

Illusion (Pattern) [Mind-Affecting]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Effect: Visual image that can extend as far as four 10-ft. cubes + one 10-ft. cube/level (S)

Duration: Concentration + 3 rounds

Saving Throw: Will disbelief (if interacted with), then Will partial

Spell Resistance: Yes

As though drawn straight from your imagination, the image you envision springs into existence.

You create an image or scene, which can incorporate not only sight but sound, smell, and thermal effects.

This effect functions in all respects like *major image*, except that the illusion is a pattern rather than a figment, and thus has a mind-affecting element to it.

Anyone who successfully disbelieves the illusion endures a mental backlash that deals 1d6 points of damage +1 point of damage per caster level (maximum +15) and is dazed for 1 round.

A successful Will save halves the damage and negates the dazed effect.

UNSEEN STRIKE

Illusion (Glamer)

Level: Assassin 4, hexblade 4

Components: V, S

Casting Time: 1 full round

Range: Personal

Target: You

Duration: 1 hour/level (D)

You strike your foe, then immediately fade from sight.

This spell has no immediate effect upon you.

However, the next time you deliver a successful melee attack, you instantly turn invisible (as the *invisibility* spell).

If you do not make a successful melee attack within 1 hour per level of casting the spell, the effect ends.

NECROMANCY

BLACKROT

Necromancy

Level: Druid 2, wu jen 2 (wood)

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One plant creature or one wooden weapon touched

Duration: 1 round/level

Saving Throw: Fortitude partial or Fortitude negates

Spell Resistance: Yes

The plant-matter creaks and writhes beneath your hand as you generate a malignant rot at its center.

This spell allows you to deliver a single touch that either damages a plant creature over a number of rounds or renders a wooden weapon poisonous.

When used as a touch attack against a plant creature, the spell deals 1d8 points of damage per round.

A successful Fortitude save reduces the duration to 1 round.

Alternatively, you can touch a weapon with a wooden striking surface (such as a club or quarterstaff).

Any creature damaged by the weapon is sickened for 1 round unless it succeeds on a Fortitude save.

Treat this as a poison effect for creatures immune or resistant to such effects.

BLOODLETTING

Necromancy

Level: Assassin 1, hexblade 1

Components: S

Casting Time: 1 swift action

Range: Touch

Target: One light weapon you hold

Duration: See text

Saving Throw: None

Spell Resistance: Yes; see text

With a simple flourish you turn a small weapon into a deadly implement.

You imbue a light weapon you hold in your hand with the power to wound grievously.

The next time that weapon deals damage to a living creature, the wound continues to bleed, dealing an extra 1d6 points of damage each round for the remainder of the spell's duration.

A successful DC 15 Heal check or at least 1 point of magical healing stops this additional damage.

A creature that is struck by the weapon but takes no damage from the initial attack (such as because of damage reduction) doesn't trigger the spell's effect.

Check to overcome a target's spell resistance when you first strike the creature.

If the check fails, the spell has no effect and is discharged, but the weapon still deals damage normally.

The spell lasts for 3 rounds.

If you don't deal damage to a living creature during the 3 rounds after casting the spell, it ends with no effect.

The bleeding effect begins in the round when the creature is struck by the ensorcelled weapon and lasts until the spell ends (if struck on the first round after casting, the subject bleeds for 3 rounds; if struck in the second round after casting, the subject bleeds for 2 rounds, and so on).

The spell ends immediately if the weapon leaves your hand.

CHANNELED LIFETHEFT

Necromancy

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: See text

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You channel negative energy into the dark mote in your hand, causing it to leap and dart about in your grasp.

When you have poured enough energy into the spell, you release the mote to drain the life of your enemy.

This spell uses negative energy to drain the vitality from a single foe.

The spell's strength depends on the amount of time you spend channeling energy into it.

If you cast *channeled lifetheft* as a swift action, it renders a single target fatigued, and you gain 5 temporary hit points.

If you cast the spell as a standard action, it renders the target fatigued and deals 5d4 points of damage, and you gain temporary hit points equal to 5 + the damage dealt.

If you cast *channeled lifetheft* as a full-round action, it renders the target exhausted and deals 5d4 points of damage, and you gain temporary hit points equal to 10 + the damage dealt.

If you spend 2 full rounds casting this spell, it renders the target exhausted and deals 5d8 points of damage, and you gain temporary hit points equal to 10 + the damage dealt. Temporary hit points granted by this spell last for up to 1 hour.

When you begin casting this spell, you decide when you are finished casting it after the appropriate time has passed. You do not need to declare ahead of time how long you want to spend casting the spell.

CRYPTWARDEN'S GRASP

Necromancy [Evil]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your hand shrivels like the limb of a corpse as dark energy flows through your veins.

You bestow on your target a horrible disease effectively identical to mummy rot.

The incubation period is instantaneous, and the initial save for the spell is calculated normally; all subsequent daily saves to avoid damage are DC 20.

Mummy rot deals 1d6 points of Constitution damage and 1d6 points of Charisma damage immediately, and a similar amount per day thereafter; a victim reduced to 0 Constitution shrivels away into sand and dust.

Furthermore, any character attempting to cast any healing spell on a creature afflicted with mummy rot must succeed on a DC 20 caster level check, or the spell has no effect.

Unlike normal diseases, mummy rot can't be overcome through natural methods or successful saves.

To eliminate mummy rot, the curse must first be broken with *break enchantment*, *remove curse*, or a similar effect (requiring a DC 20 caster level check).

If this is done, a caster level check is no longer necessary to cast healing spells on the victim, and mummy rot can be magically cured like any disease.

DEATH'S CALL

Necromancy [Sonic]

Level: Hexblade 1, sorcerer/wizard 1

Components: V

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius burst, centered on you

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You release a scream that chills the air with deathly energy.

All living creatures within the area (other than you) take 1 point of damage per caster level (maximum 5) and become fatigued.

A successful Fortitude save negates the fatigue.

Any swarm in the area of *death's call* instead takes 1d4 points of damage per caster level (maximum 5d4) and becomes fatigued (Fortitude save negates fatigue).

This supersedes the normal +50% damage dealt to a swarm by an area spell.

ESCALATING ENFEEBLEMENT

Necromancy

Level: Sorcerer/wizard 2

This spell functions like *ray of enfeeblement*, except that if you cast it on a target that is already fatigued or exhausted, or one currently affected by a penalty, damage, or drain to its Strength, Dexterity, or Constitution score, it instead applies a penalty to Strength equal to 1d10 +1 per two caster levels (maximum 1d10+5).

This penalty doesn't stack with the penalty from *ray of enfeeblement*.

FINGER OF AGONY

Necromancy

Level: Hexblade 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 3 rounds

Saving Throw: Fortitude partial

Spell Resistance: Yes

As you crook your finger, your enemy feels his vitals rupture within him.

You magically disrupt the subject's internal organs, causing it great pain.

Each round on your turn, the subject takes 3d6 points of damage and becomes nauseated for 1 round.

A successful Fortitude save halves the damage and lessens the nauseated condition to sickened.

HORRID SICKNESS

Necromancy

Level: Hexblade 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature/3 levels, no two of which are more than 30 ft. apart

Duration: 1 round/level (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes

Your victim's eyes water and her flesh pales as a wave of sickness washes over her.

Waves of pain and sickness wrack the subjects, rendering them nauseated.

A successful Fortitude save negates this effect.

If a subject fails the initial Fortitude save, she can attempt a Fortitude save as a move action each round on her turn; success indicates that she is instead sickened for the duration of the spell.

NECROTIC CURSE

Necromancy [Evil]

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Area: 20-ft.-radius emanation

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes

You feel a wave of cold pass through you as it seeps into the land, the air, and even the souls of those nearby.

You imbue the area with negative energy so powerful it transforms positive energy into its opposite.

Anyone in the area who casts a healing spell must succeed on a caster level check (DC 11 + your caster level); if the check fails, the healing spell deals damage to each of its subjects equal to the caster's caster level instead of its normal effect.

Living creatures that rest in this area do not regain hit points or lost ability score points.

Undead in the area heal damage at the rate of 1 point per Hit Die every 24 hours.

In addition to the normal means of ending a spell's duration, this effect can be ended by a *remove curse* (or similar spell) cast within its area for that purpose.

Material Component: Grave dust.

PRICKLING TORMENT

Necromancy

Level: Druid 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 5 rounds

Saving Throw: Fortitude negates

Spell Resistance: Yes

Angry red boils spread across the skin of your enemy.

This spell causes the subject's skin to erupt in a blistering rash accompanied by a maddening itch.

An affected creature is sickened while the spell lasts.

In addition, if the creature takes any actions on its turn other than free, swift, or immediate actions, it takes 1d8 points of damage at the end of its turn.

While affected by this spell, a creature takes a -2 penalty on saves to resist the distraction effect of any creature of the swarm subtype (in addition to the save penalty from the spell's sickening effect).

If a subject under the effect of *prickling torment* is targeted by *fever dream* (see page 104), the two spells interact to create a greater effect.

See the *fever dream* spell for details.

REAVING AURA

Necromancy [Evil]

Level: Assassin 1, cleric 1, hexblade 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

The air around you turns black as it floods with negative energy. This spell deals 1 point of damage to every creature in the area that has 0 or fewer hit points.

Stable creatures that were at -1 to -8 hit points become dying, while creatures at -9 hit points die immediately.

This spell has no effect on creatures that have 0 or more hit points.

RETRIBUTIVE ENERVATION

Necromancy

Level: Sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until expended

The world around you takes on a dim and muted tone as you are encased in a tight-fitting sheath of crackling negative energy.

This spell bestows a negative level upon any non-undead creature that makes a successful melee attack against you (regardless of whether the attack deals damage).

There is no save, but spell resistance applies.

Retributive enervation can bestow a number of negative levels equal to 1/2 your caster level (maximum 10).

Once this limit is reached, the spell ends, even if the duration has not yet expired.

Assuming a creature that gains negative levels survives, it regains lost levels after a number of hours equal to your caster level (maximum 20 hours).

Usually, negative levels have a chance of permanently draining the victim's levels, but the negative levels from *retributive enervation* don't last long enough to do so.

An undead creature that makes a successful melee attack against you while this spell is active gains 5 temporary hit points that last for up to 1 hour.

SEED OF UNDEATH

Necromancy

Level: Cleric 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 full round

Range: Touch

Target: Living humanoid or animal touched

Duration: 1 day/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

The subject's face briefly takes on a gaunt, pale look and a death's-head rictus before returning to normal.

You plant a kernel of negative energy in a subject, which is held in check by the positive energy inherent to the subject's own life force.

Seed of undeath does not, in and of itself, harm the subject. Should the subject die before the spell expires, however, it rises as a zombie 1 round later (as per the *animate dead* spell), as long as a sufficient corpse remains.

Any undead created in this manner are automatically under your control.

At any given time, you can have a number of HD worth of undead animated through *seed of undeath* equal to your own HD, and they count against the maximum number of HD worth of undead you can control at any time (as described under *animate dead*).

Material Component: A black onyx gem worth 25 gp per HD of the subject.

SEED OF UNDEATH, GREATER

Necromancy

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M

Range: Close (25 ft. + 5 ft./2 levels)

Area: 40-ft.-radius emanation

Every creature in the area briefly takes on a corpse-like appearance, then returns to normal.

This spell functions like *seed of undeath*, except it applies to any humanoid or animal that dies in the area while the spell is in effect.

Corpses of creatures that died before you cast the spell, or that died outside the area and were then carried within, are unaffected.

Material Component: A black onyx worth at least 5,000 gp.

TOUCH OF THE GRAVEBORN

Necromancy

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: Creature or creatures touched (up to one/3 levels)

Duration: Instantaneous

Saving Throw: Fortitude partial or Will negates

Spell Resistance: Yes

Your hand grows numb and pulses with a deep and sickly radiance, the chill of the grave emanating from it.

Your melee touch attacks channel negative energy that disrupts the life force of living creatures, dealing 10d6 points of damage.

You can use this melee touch attack up to one time per three levels.

Any target that has one or more negative levels also takes 1d6 points of Strength drain; a successful Fortitude save negates this secondary effect.

An undead creature you touch takes no damage or Strength drain, but it must make a successful Will save or be controlled by you (as if you had cast *control undead*) for 1 round per level.

You can't control more than one undead creature in this fashion (a second use frees the first controlled undead), and

any undead with HD of more than twice your caster level is unaffected.

TOUCH OF VECNA

Necromancy [Evil, Fear]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round and permanent

Saving Throw: Fortitude partial

Spell Resistance: Yes

Your hand grows cold and darkens with the pulse of negative energy.

Your touch bestows negative energy on the target, dealing 1d8 points of damage +1 point per caster level (maximum +10) and rendering it shaken for 1 round.

(Creatures immune to fear aren't shaken but are still subject to the spell's other effects).

Additionally, the target is permanently paralyzed if it fails a Fortitude save.

Creatures paralyzed in this fashion appear dead, though a DC 20 Spot check or a DC 15 Heal check reveals that they still live.

Dispel magic doesn't help a creature paralyzed by this spell, though *remove paralysis* or any effect that can remove a curse can free the victim.

TOUCH OF YEARS

Necromancy

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 day/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

With a touch, your foe becomes visibly enfeebled, as if a sudden weight of years had dropped onto his shoulders.

Your touch deals 3 points of drain to the subject's Strength, Dexterity, and Constitution scores; a successful Fortitude save negates this effect and prevents any further harm.

If the subject fails its initial saving throw, it takes another 3 points of drain to its Strength, Dexterity, and Constitution scores each day thereafter as long as the spell lasts.

A successful Fortitude save negates this drain, but doesn't end the spell's duration.

The ability drain from this spell can be eliminated as normal, but doing this doesn't end the spell's duration.

If you cast this spell on a creature while another casting of *touch of years* is already in effect on it, the second spell doesn't deal ability drain.

Instead, a failed initial Fortitude save renders the creature permanently deafened and blinded.

These conditions can be removed by normal means (such as *remove blindness/deafness*), but doing this has no effect on the ability drain.

This spell can't be dispelled, but any effect that would remove a curse allows the spellcaster a caster level check (DC 11 + your caster level) to end the spell's duration.

This doesn't restore any ability score points already lost.

TRANSMUTATION

ADAMANTINE WINGS

Transmutation

Level: Sorcerer/wizard 7, wu jen 7 (metal)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

You feel an instant of searing pain from your back, which swiftly fades into a sensation of ultimate freedom.

You sprout a pair of dull gleaming wings made of overlapping feathers of dark metal.

You grow a pair of adamantine wings.

The wings grant you a fly speed of 60 feet (or 40 feet if you wear medium or heavy armor or carry a medium or heavy load), with good maneuverability.

If you are not flying, you can use a standard action to make one wing attack or a full attack action to make two such attacks (as if they were natural weapons).

Each wing deals 2d6 points of slashing damage (plus your Strength modifier), and threatens a critical hit on a 19–20.

The wings are considered both magic and adamantine for the purpose of overcoming damage reduction or penetrating hardness.

Wing strikes are not additional attacks; they replace any other attack or full attack action.

As a swift action, you can choose to launch the adamantine feathers as a burst of razor-sharp blades.

This attack takes the form of a 60-foot cone-shaped burst.

All creatures within the cone take 10d6 points of damage (Reflex half; spell resistance applies).

Since this is a spell effect, damage reduction does not affect the damage dealt by the cone.

This action immediately ends the spell's duration.

ANIMATE WEAPON

Transmutation

Level: Assassin 2, hexblade 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: Concentration + 1 round

Saving Throw: Will negates (object)

Spell Resistance: Yes

Your weapon leaps from your hands, suddenly capable of fighting on its own.

A weapon affected by this spell gains the ability to move and attack on its own and functions in most ways like an animated object of its size (MM 13).

Treat a light weapon as an object two size categories smaller than its wielder, a one-handed weapon as one size category smaller than its wielder, and a two-handed weapon as an object of the same size as its wielder.

However, the weapon deals its normal damage, not the damage noted for an animated object of its size, and it gains

a bonus on attack rolls equal to the ability modifier used to set your spell save DCs.

Diminutive or smaller objects are unaffected by the spell.

An *animated weapon* attacks the nearest enemy to the best of its ability.

You can use a move action to direct it to a different target, but if at the end of your turn you are more than 30 feet from the weapon, the spell ends.

A weapon held or carried by another creature can't be affected by this spell.

The weapon doesn't gain the benefit of any of your class features, feats, or other special abilities that would improve its combat ability.

If the weapon has an enhancement bonus or other special properties, these apply as normal.

For example, an animated +1 *flaming longsword* gains a +1 enhancement bonus on attack rolls and damage rolls and deals an extra 1d6 points of fire damage on a successful hit.

ARBOREAL TRANSFORMATION

Transmutation

Level: Wu jen 9 (wood)

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 day/level and permanent; see text

Saving Throw: Fortitude partial

Spell Resistance: Yes

Your subject's skin splits open, revealing wood and bark.

Leaves sprout from his limbs even as he starts to grow.

You transform the subject of the spell into a Huge oak tree.

For a number of days equal to your caster level, that oak tree animates as a treant (though it can't animate trees) and serves as you command.

You can either command it to follow you, or you can leave it somewhere with a triggering phrase as described in the *liveoak* spell (PH 248).

When the spell's duration expires, the subject becomes in all respects a normal tree, taking root where it stands if capable.

A creature that succeeds on its saving throw is instead *slowed* (as the spell) as his body fights off the transformation from within.

When the spell's duration expires, the subject returns to normal.

ASPECT OF THE ICY HUNTER

Transmutation (Polymorph)

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Thick ivory fur grows from your skin and your back hunches over until you stand on four paws.

Cold, blue eyes stare out of your now-canine face.

You take the form of a winter wolf (MM 256).

You gain 20 temporary hit points, which disappear at the end of the spell's duration.

See the Polymorph Subschool sidebar on page 91 for more details.

BOILING BLOOD

Transmutation [Fire]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 round + 1 round/3 levels

Saving Throw: Fortitude partial

Spell Resistance: Yes

Your target's skin begins to redden as his blood starts to boil within his veins.

The subject of the spell suffers as his blood heats up, taking 2d6 points of fire damage.

For every three caster levels, the spell lasts an additional round (up to a maximum of 7 rounds at 18th level), dealing another 2d6 points of damage each round.

A successful Fortitude save reduces the duration of the spell to 1 round.

If you cast *boiling blood* on the same subject before the first casting has expired, the second spell has a different effect.

In any round in which the subject takes damage from the spell, he is also sickened.

This extra effect lasts for as long as the duration of both spells continues, after which only the normal effect occurs for the rest of the duration of the latter spell.

Creatures immune to extra damage from critical hits are immune to this spell, as are creatures that lack blood or similar internal fluids.

CATSFEEET

Transmutation

Level: Assassin 1, bard 1, hexblade 1

Components: V

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: Instantaneous

As you complete this spell, you feel as lithe and quick as a cat.

When you cast this spell, you can immediately reroll a Balance, Climb, Jump, or Move Silently check that you have just rolled.

This second roll gains a +5 insight bonus.

You must abide by the second result, even if it is worse than the first.

CRYSTALLINE MEMORIES

Transmutation (Mind-Affecting)

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 swift action

Range: 60 ft.

Target: One living creature with Intelligence 3 or higher

Duration: See text

Saving Throw: Will negates

Spell Resistance: Yes

With a hideous cracking noise, a shard of crystal bursts through your subject's skull, flying into your waiting hand.

After casting this spell, you must study the target for 3 consecutive rounds, concentrating each round on the effect.

This is treated as concentrating on a spell (PH 176), and if you are interrupted, the spell is lost.

Once the study is complete, the target's current surface thoughts (as *detect thoughts*) congeal into a solid shard of crystal.

This crystal then erupts from the target's head (dealing 2d8 points of damage and 2 points of Intelligence damage) and flies to your hand.

Once you have the crystal, you (and only you) can use a full-round action to look into it and view the memories it contains.

The crystal remains for 24 hours or until the memories have been viewed once.

DISCORDANT MALEDICTION

Transmutation [Sonic]

Level: Bard 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: 1 creature

Duration: 24 hours

Saving Throw: Will negates

Spell Resistance: Yes

Your target's voice rends the air around her, shredding her from within.

Each time the subject casts a spell with a verbal component, she deals 2d6 points of sonic damage to all creatures within 10 feet of her (including herself).

She must then succeed on a Concentration check (DC 15 + damage dealt + spell level) to avoid losing the spell.

DREADED FORM OF THE EYE TYRANT

Transmutation (Polymorph)

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body withers away to dust, leaving only a floating head, which quickly grows oversized and misshapen.

Your eyes fuse together as a single orb in your forehead, and ten writhing eyestalks sprout from your skull.

You take the form of a beholder (MM 26).

You gain 30 temporary hit points, which disappear at the end of the spell's duration.

You can use only one eye ray each round, and each of your ten eye rays can be used only once during the spell's duration.

For example, once you use your *disintegrate* eye ray, you can't use that eye ray again during this casting of the spell. See the Polymorph Subschool sidebar on page 91 for more details.

FLAYING TENDRILS

Transmutation [Evil]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

A quartet of hideous, writhing tentacles sprouts from your face.

You grow four tentacles from your face, similar to those of a mind flayer.

For the duration of the spell, you can attack with one tentacle as a standard action, or all four as a full-round action.

Each tentacle deals 1d4 points of damage, plus your Strength modifier.

When using the tentacles, you are treated as though you have the Improved Grapple feat.

You can latch a tentacle onto a foe's head with a successful grapple check, and if you begin your turn with one tentacle successfully attached, you can attach the remaining three with a single check, though doing this still requires a full-round action.

Your foe can escape with a single grapple check or Escape Artist check, but you gain a +2 bonus for each tentacle that is attached at the beginning of your foe's turn.

If you begin your turn with all four tentacles attached, you can attempt to remove your foe's brain, killing him instantly.

The victim is entitled to a fortitude save to avoid this fate, though success indicates only that he evaded extraction; he is still grappled and must attempt to escape normally.

You cannot use these tentacles to grapple foes more than one size category larger or smaller than you.

Extracting the brain does nothing to constructs, elementals, oozes, plants, or undead, and is not instantly fatal to creatures with multiple heads.

FORM OF THE THREEFOLD BEAST

Transmutation (Polymorph)

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your arms and legs become powerfully muscled and grow sharp claws as your body hunches over on all fours.

Two additional monstrous heads sprout from your shoulders, and two batlike wings stretch out to the sky.

You take the form of a chimera (MM 34); choose the color of your dragon head from the options noted in the monster description when you cast the spell.

You gain 30 temporary hit points, which disappear at the end of the spell's duration.

See the Polymorph Subschool sidebar on page 91 for more details.

HEART OF AIR

Transmutation [Air]

Level: Druid 2, sorcerer/wizard 2, wu jen 2 (air)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

You feel light as a feather, as if the slightest breeze might knock you about.

This spell converts part of your body into elemental air, freeing you somewhat from the bonds of gravity.

You gain a +10 enhancement bonus on Jump checks, and if you have a fly speed, that speed gains a +10-foot enhancement bonus.

Furthermore, while this spell is active, you can activate a *feather fall* effect (as the spell) on yourself as an immediate action.

This benefit lasts for 1 round per level, at the end of which time the spell's entire effect ends.

If *heart of air* is active on you at the same time as *heart of earth*, *heart of fire*, or *heart of water*, you gain light fortification.

If all four of these spells are active on you at the same time, you become immune to extra damage from critical hits and sneak attacks.

HEART OF EARTH

Transmutation [Earth]

Level: Druid 4, sorcerer/wizard 4, wu jen 4 (earth)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

You feel your flesh strengthen with the power of stone.

This spell converts part of your body into elemental earth, which toughens you considerably.

You gain a +8 bonus on checks to resist a bull rush, overrun, or trip attack.

You also gain temporary hit points equal to twice your caster level (up to 30 hp).

Furthermore, while this spell is active, you can activate a *stoneskin* effect (as the spell) on yourself as a swift action.

This benefit lasts for 1 round per level (or until the *stoneskin's* total protection is consumed), at the end of which time the spell's entire effect ends.

If *heart of earth* is active on you at the same time as *heart of air*, *heart of fire*, or *heart of water*, you gain light fortification.

If all four of these spells are active on you at the same time, you become immune to extra damage from critical hits and sneak attacks.

HEART OF FIRE

Transmutation [Fire]

Level: Druid 5, sorcerer/wizard 5, wu jen 5 (fire)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

You feel a sudden flame burning within you.

This spell converts part of your body into elemental fire, which speeds your step and toughens your flesh.

You gain a +10-foot enhancement bonus to your land speed and resistance to fire 20.

Furthermore, while this spell is active, you can activate a *fire shield* effect (as the spell; fire-based protection only) on yourself as a swift action.

This benefit lasts for 1 round per level, at the end of which time the spell's entire effect ends.

If *heart of fire* is active on you at the same time as *heart of air*, *heart of earth*, or *heart of water*, you gain light fortification.

If all four of these spells are active on you at the same time, you become immune to extra damage from critical hits and sneak attacks.

HEART OF WATER

Transmutation [Water]

Level: Druid 3, sorcerer/wizard 3, wu jen 3 (water)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

The crashing of waves echoes in your ears.

This spell converts part of your body into elemental water, which makes you better able to navigate aquatic environments and slip through confined spaces.

You gain a swim speed equal to your land speed, which grants you certain benefits (including a +8 racial bonus on Swim checks; see MM 311).

You also gain the ability to breathe water (as if under the effect of a *water breathing* spell).

Finally, you gain a +5 enhancement bonus on Escape Artist checks.

Furthermore, while this spell is active, you can activate a *freedom of movement* effect (as the spell) on yourself as a swift action.

This benefit lasts for 1 round per level, at the end of which time the spell's entire effect ends.

If *heart of water* is active on you at the same time as *heart of air*, *heart of earth*, or *heart of fire*, you gain light fortification.

If all four of these spells are active on you at the same time, you become immune to extra damage from critical hits and sneak attacks.

LIGHTING LEAP

Transmutation [Electricity]

Level: Sorcerer/wizard 5

Components: V

Casting Time: 1 standard action

Range: Personal and 60 ft.

Target/Area: You/10-to-60-ft. line

Duration: Instantaneous

Saving Throw: None and Reflex half

Spell Resistance: No and Yes

With a sudden flash, you find yourself standing on the other side of the battle, leaving a smoking trail behind you.

You transform yourself into a line of lightning, similar to that created by the *lightning bolt* spell.

This line can be of any length from 10 feet to 60 feet, measured in 5-foot increments.

You reappear in any square adjacent to the last square entered by the line, along with any gear worn or carried (up to a maximum of your heavy load limit).

You can't bring along other creatures except for your familiar.

The line deals 1d6 points of electricity damage per caster level (maximum 15d6) to anything in its area.

A successful Reflex save halves this damage, and spell resistance applies.

REBIRTH OF IRON

Transmutation

Level: Sorcerer/wizard 4, wu jen 3 (metal)

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: One former metallic item, destroyed by rust

Duration: Instantaneous

Saving Throw: Fortitude negates (harmless, object)

Spell Resistance: Yes (harmless, object)

Ecks of rust melt together and lose their ruddy hue.

The metal creaks as it re-forms and straightens itself.

You instantly restore a single metal object that has been damaged or destroyed by rust.

This works even if the object has been reduced to powder, such as by the *rusting grasp* spell.

Even if the object is partly missing, such as one partially consumed by a rust monster, the spell functions as long as at least 1/4 of the object remains.

This spell does not restore the magical properties of any magic item or construct destroyed by rust.

A slain or destroyed metallic creature such as an iron golem is restored in physical form, but it remains "dead", having lost all magical qualities.

RUSTED BLADE

Transmutation

Level: Assassin 3, druid 3, sorcerer/wizard 4, wu jen 4 (metal)

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One weapon touched

Duration: 1 round/level (D)

Saving Throw: Will negates (object, harmless) and Fortitude negates

Spell Resistance: Yes (object, harmless)

Your touch corrupts the substance beneath your fingers.

Where once it gleamed, it now grows dull and pitted.

You cause a rustlike patina to temporarily cover the target weapon.

(Despite its name, the spell can affect any kind of weapon regardless of material).

For the duration of the spell, any living creature damaged by the weapon must succeed on a Fortitude save or contract filth fever (DMG 292).

Use the spell's normal save DC for the initial saving throw, but use filth fever's normal DC 12 for later saves.

Multiple applications of the disease do not stack, but even a creature that succeeds on one or more saves must continue to save each time it takes damage from the weapon.

Despite the change in appearance, this spell has no ill effect on the target weapon.

SHAPE OF THE HELLSPAWNED STALKER

Transmutation (Polymorph)

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Rust-red fur sprouts from your skin, and your back hunches over until you stand on four clawed feet.

Tendrils of black smoke curl from your fanged mouth.

You take the form of a hell hound (MM 151).

You gain 10 temporary hit points, which disappear at the end of the spell's duration.

See the Polymorph Subschool sidebar on page 91 for more details.

SMOKY CONFINEMENT

Transmutation

Level: Sorcerer/wizard 6

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

At your touch, your foe dissipates into a thick smoke, which flows smoothly into the receptacle you have prepared.

You transform the subject into smoke or gas, which is then stored inside the focus.

The subject remains trapped within the focus, unaware and ageless.

If the focus is ever broken or opened, the victim resumes his normal form in the same space as the focus.

Focus: A tiny receptacle, such as a bottle or vase, of crystal or a similar material worth at least 100 gp.

The receptacle must be able to be sealed.

TRANSCEND MORTALITY

Transmutation

Level: Wu jen 9

Components: V, S

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: 1 round/level (D)

You feel your body surge with mystic power that rivals that of the gods themselves.

Transcend mortality was created as a last-ditch effort, a spell to use when all other options have failed.

For the duration of the spell, you are all but indestructible.

You gain the following benefits:

- Damage reduction 30/epic.
- Spell resistance equal to 21 + your caster level.
- Acid, cold, electricity, fire, and sonic resistance 50.
- Immunity to ability damage, disease, energy drain, poison, and death effects.
- +10 enhancement bonus on all saving throws.
- You do not need to eat, drink, or breathe.

Although this spell makes you effectively unkillable for the duration, that comes at a horrific price.

You gain these benefits by using up all your remaining life force.

When the spell ends, you are instantly slain and reduced to a pile of dust (as *disintegrate*).

This effect allows no save and can't be prevented by any means, though you can be *resurrected* normally afterward.

UNICORN BLOOD

Transmutation (Good)

Level: Druid 5, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D) or until expended

The power and purity of the unicorn surge through your veins.

While this spell lasts, you gain immunity to poison and to compulsion and charm spells or effects.

Once while the spell lasts, you can use a swift action to bestow temporary hit points equal to your caster level (maximum 15) to another willing creature you touch.

This ends the duration of *unicorn blood* on you, though the temporary hit points last for the remainder of the original duration of the spell.

You can't use this ability on yourself.

If you are under the effect of this spell and the *unicorn horn* spell at the same time, you instead bestow temporary hit points equal to twice your caster level (maximum 30).

UNICORN HEART

Transmutation (Good)

Level: Druid 7, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D) or until expended

Your heart beats with the power of the unicorn.

This spell gives you a land speed of 60 feet.

You gain a +4 enhancement bonus on Strength-, Dexterity-, and Constitution-based ability checks and skill checks.

Once while the spell lasts you can instantly transport yourself, all objects that you carry (up to your maximum load), and one other creature you touch up to 360 feet as a swift action.

The creature you transport does not count against your weight limit, but it too can't carry more than its maximum load.

A familiar, special mount, or animal companion does not count against your weight limit or the single creature you can transport.

You are free to act after transporting, assuming you have not used your actions for the round prior to transporting.

Except as noted here, this effect works like a *dimension door* spell.

Transporting in this fashion ends the spell's duration.

If you are under the effect of this spell and the *unicorn blood* spell at the same time, this spell also creates a *magic circle against evil* effect, which is centered on you.

If you are under the effect of this spell and the *unicorn horn* spell at the same time, you can use the horn to smite evil, dealing an extra 1 point of damage per level (maximum +20).

You can smite evil only once per casting of *unicorn horn*.

If you are under the effect of this spell, *unicorn blood*, and *unicorn horn* at the same time, you gain damage reduction 5/evil.

UNICORN HORN

Transmutation (Good)

Level: Druid 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Effect: One horn that sprouts from your forehead

Duration: 1 minute/level (D) or until expended

A horn like a unicorn's sprouts from your forehead.

When you complete this spell, you grow a single horn about as long as your forearm from your forehead.

As a standard action, you can use this horn to make a single gore attack as a natural weapon.

A hit from the horn deals 1d8 points of piercing damage (if you are Medium) plus 1-1/2 times your Strength bonus.

The horn overcomes damage reduction as if it were a magic weapon.

Alternatively, you can use the horn in a charge attack.

In this case, you deal double damage when you hit, or triple damage on a critical hit.

As a swift action while the spell lasts, you can invoke the power of good.

Doing this gives the horn a +3 enhancement bonus on attack rolls and damage rolls, allows it to overcome damage reduction as if it were good-aligned, and makes it deal an extra 3d6 points of damage against any evil-aligned creature of the following types: fey, giant, magical beast, or outsider. This effect lasts for 1 round, after which the spell's duration ends.

If this spell is in effect when you cast *unicorn blood* or *unicorn heart*, the combined magic has an enhanced effect. See those spells for details.

UNYIELDING FORM OF INEVITABLE DEATH

Transmutation (Polymorph)

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your flesh turns into solid onyx, and your muscled fists crackle with the unbridled power of thunder and lightning.

You take the form of a marut (MM 159), including the full plate armor normally worn by such a creature.

You gain 50 temporary hit points, which disappear at the end of the spell's duration.

You can use each of the marut's at-will spell-like abilities (such as *dimension door*) once per casting of the spell, but you don't gain access to any of the marut's 1/day or 1/week spell-like abilities (such as *chain lightning* or *earthquake*).

See the Polymorph Subschool sidebar on page 91 for more details.

UNIVERSAL

ARCANE FUSION

Universal

Level: Sorcerer 5

Components: V, S; see text

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: Instantaneous

You weave two spells together in your mind and release them in a single burst of magic.

When you cast this spell, choose any 1st-level sorcerer spell you know and any 4th-level or lower sorcerer spell you know.

Neither spell chosen can have a casting time longer than 1 standard action.

Both spells take effect in the order you choose, as if you had cast them one after the other using only one standard action, but you don't expend any additional spell slots to cast those spells.

Effectively, you cast two other spells using this spell's 5th-level spell slot.

Each of the chosen spells has its normal effect, including range, target, area, duration, saving throw, and spell resistance as appropriate to the spell's level.

If either spell requires a material component, focus, XP cost, or other special cost, these must be used or paid as part of the casting of *arcane fusion*.

ARCANE FUSION, GREATER

Universal

Level: Sorcerer 8

You weave two powerful spells together in your mind and release them in a single intertwined display of magical prowess.

This spell works like *arcane fusion*, except that you choose any 4th-level or lower sorcerer spell that you know and any 7th-level or lower sorcerer spell that you know to cast together.

RARY'S ARCANE CONVERSION

Universal

Level: Wizard 6

Components: V, S

Casting Time: 1 full round

Range: Personal

Target: You

Duration: Instantaneous

You feel slightly dizzy as the power of your spell rewrites the knowledge within your mind.

Rary's *arcane conversion* allows you to exchange a prepared wizard spell for another spell of equal or lower level.

For instance, upon casting this spell, you could choose to lose a prepared *fly* spell and have *fireball* prepared in its place.

The replacement spell must be one already scribed in your spellbook.

The new spell is now prepared and ready to cast as normal, just as though you had prepared it when you last studied your spells.

COMPLETE SCOUNDREL

(3.5)

ABJURATION

DISOBEDIENCE

Abjuration

Level: Bard 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes

A ghostly great helm that only you can see appears around your companion's head, warding her mind against control.

You shield your subject against mind-controlling spells and abilities.

Disobedience blocks any attempt to exercise mental control over the subject creature, including charm and compulsion effects that grant ongoing control over the subject, such as *dominate person* or a vampire's *dominate* ability.

The protection does not prevent such effects from targeting a subject affected by *disobedience*, but it suppresses the effect for the duration of this spell.

If *disobedience* ends before the effect granting mental control does, the would-be controller becomes able to mentally command the targeted creature.

In addition to protecting the subject, *disobedience* sends false information to the creature that is attempting to gain control of the subject.

The would-be controller must succeed on a Will save or believe that its spell or ability has taken effect and that the target is now under its control.

The spell's subject becomes aware of commands issued by that creature and can choose to act however she pleases, disregarding the would-be controller's orders or going along with them in a pretense of obedience.

Material Component: A scrap of tin.

HARMONIC VOID

Abjuration

Level: Bard 5

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft.-radius spherical emanation, centered on you

Duration: Concentration, up to 1 round/level

Saving Throw: None

Spell Resistance: No

Jarring, discordant noises fill the area, making it difficult for others to concentrate.

You create a zone of disruptive arcane harmonies that interfere with spells that have verbal components.

Casters within the area find their spells' spoken words warped, twisted, and blurred, disrupting their efforts.

Any creature (other than you) that attempts to cast a spell with a verbal component in this area must succeed on a Concentration check (DC 20 + the spell's level).

On a failure, the spell fails to function and the caster expends the spell or spell slot as normal.

Harmonic void has no effect on supernatural abilities, magic items, and other magical effects.

It affects only spells with verbal components.

OPPORTUNE DODGE

Abjuration

Level: Bard 2

Components: V, S

Casting Time: 1 swift action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Uttering a rapid series of words and reaching out your hand, you surround your comrade with a thin, blurry haze.

Any time the subject of this spell might provoke attacks of opportunity, he can choose to activate this spell's effect (this does not require an action).

Upon doing so, he contorts or moves so swiftly as to deny one opponent one attack of opportunity.

Because the opponent never makes its attack of opportunity, its total number of attacks of opportunity per round is not reduced.

Once the subject negates an attack of opportunity in this way, the spell ends.

It is possible for the subject to provoke an attack of opportunity, activate this spell's effect to cancel it, and then provoke and be susceptible to another attack of opportunity in the same round.

The subject does not have to activate the spell's effect to negate the first attack of opportunity he provokes but can save the effect until he chooses to use it or the duration ends.

SPELL THEFT

Abjuration

Level: Bard 4, hexblade 4, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Winding your magical grip around the dweomers that augment your opponent, you rip them away and feel their energy rise around you.

You attempt to steal an opponent's beneficial spell effects for yourself.

Upon casting this spell, you instantly discern all spells currently affecting the target (including their effects).

For each spell so discerned, you can make a dispel check (1d20 + your caster level, maximum +15) against a DC of 11 + the spell's caster level.

If the check succeeds, you gain the effect of the spell for the remainder of its duration, as if it had been cast on you

instead of the original target, and the opponent loses that effect.

Only spells capable of being dispelled can be affected by *spell theft*.

In addition, if you are not a legal target of the spell to be stolen, your dispel check automatically fails.

For example, if you cast *spell theft* on a dire bear affected by *bull's strength* and *animal growth*, you could steal only the effect of the first spell unless you were also of the animal type.

CONJURATION

BLOCKADE

Conjuration (Creation)

Level: Druid 1, ranger 1, sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 swift action

Range: 0 ft.

Effect: 5-ft. cube of wood

Duration: 3 rounds

Saving Throw: No

Spell Resistance: None

You drop a tiny wooden block before you.

It rapidly begins growing and hits the ground with a heavy thud, now a perfect 5-foot cube of dense wood.

You call a cube of solid wood, 5 feet on a side, into being. The cube must be created upon solid ground in an empty square.

If no solid surface exists that is large enough for the cube to fit on, or if no adjacent square is empty, the spell fails.

The cube weighs 2,000 pounds.

It has a hardness of 5 and 600 hit points, and it completely fills one 5-foot square.

Multiple cubes can be stacked.

If it is pushed into water, the cube floats.

Material Component: A block of wood, less than 3 inches on a side.

CREATE FETCH

Conjuration (Creation)

Level: Assassin 3, bard 3, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: A duplicate of yourself

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

Plucking out one of your own hairs, you make a beckoning motion.

A double of you appears nearby.

You create a fetch, a perfect replica of your form at the time you cast this spell.

Little more than an animated reproduction, a fetch is mindless but capable of performing simple tasks or imitating you.

The creation is the same size as you and occupies space just as a living creature does.

You have a mental connection with your fetch and can give it new orders as a standard action.

The fetch duplicates your form in every way but texture. You must make a Disguise check when you cast the spell to determine how good the likeness is; this result is opposed by observers' Spot checks as normal.

Anyone touching the fetch finds it rubbery and soft, and in so doing immediately realizes its magical nature.

The fetch's body includes useless versions of all the equipment you possess: A weapon wielded by the fetch is too flimsy to deal damage, and tools it carries are fragile and imprecise.

Items created with a fetch are part of its form and dissipate if separated from it.

At your order, the fetch can retrieve things for you, open unstuck doors, hold chairs, and the like, as well as perform menial tasks such as cleaning and mending.

The fetch can't perform any task that requires a skill check with a DC higher than 10 or that requires a skill that can't be used untrained.

It can perform only one activity at a time, but it repeats the same activity tirelessly if ordered to do so as long as you remain within the spell's range.

You can have the fetch imitate you, such as by sitting at a desk and pretending to write, lying in bed and breathing deeply, or skulking with a weapon drawn.

It can even imitate tasks it can't actually perform, though it automatically fails any attempt at such performance—for instance, even though a fetch can pretend to decipher an ancient text, it can't actually do it.

The fetch weighs roughly the same as you do, so it can trigger any traps you would if you were to pass through the same space, setting off tripwires, pressure plates, some magical forms of detection, and similar devices.

Its land speed is normal for a creature of your kind (for example, 30 feet for a human or 20 feet for a halfling).

Even if you normally have other modes of movement available (such as a fly or swim speed), the fetch can't use those.

The fetch automatically fails any saving throw required of it.

If you attempt to send it beyond the spell's range (measured from your current position), it ceases to exist.

The fetch has an effective Strength score of 6, so it can lift 60 pounds or drag 300 pounds.

Its Dexterity is 10, so it has an AC of 10 (plus size modifier).

It gains no AC benefit from any equipment or effect on you when the spell is cast (such as armor you wear, since the armor created for it is part of its form), though it can then wear real armor or other items to increase its Armor Class. It has no Constitution score and 10 hit points; if reduced to 0 hit points, it is destroyed.

It can't be healed, nor can it benefit from temporary hit points.

The fetch has no Intelligence, Wisdom, or Charisma score.

You can command it to make noise, but it can't communicate in any way, nor can it understand instructions other than the simple orders you give it telepathically.

The fetch cannot attack in any way; it is never allowed an attack roll.

Even if armed, it doesn't threaten an area around it and thus can't flank an enemy, nor can it use the aid another action to improve your Armor Class or attack rolls.

The fetch has the same alignment aura as you do.

Detect thoughts does not register its existence (since it has no Intelligence), but *detect magic* reveals it as a magical effect.
Material Component: One of your own hairs.

EVACUATION RUNE

Conjuration (Teleportation)

Level: Bard 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Effect: One invisible rune

Duration: 24 hours

Saving Throw: None (harmless)

Spell Resistance: No (harmless)

As you finish scribing this bloody rune, the mark flares for an instant and then vanishes.

Even though the rune has disappeared, you feel as though you can step back to it simply by willing it.

You create a magical mark that you can teleport to at a moment's notice.

Upon casting this spell and touching a surface or inanimate object, you create an invisible rune like that created by the spell *arcane mark* (PH 201).

At any point during the spell's duration you can teleport (as the *greater teleport* spell) back to the mark as a swift action. This ends the spell's duration.

After teleporting in this way, you can't take any other actions until your next turn.

The mark created by this spell can be detected in the same ways that an invisible *arcane mark* can be.

You are not alerted if the mark is dispelled or the object upon which it is inscribed is destroyed.

Any attempt to teleport back to a dispelled or destroyed mark still requires a swift action but fails.

If you created the *evacuation rune* upon a portable object, that object can be moved by another creature.

You have no knowledge of whether your mark has been moved or where, and upon teleporting to its location, you are subject to any adverse conditions.

If the mark has been moved to another plane, any attempt to teleport to it fails.

If the object inscribed with the *evacuation rune* is moved somewhere too small for you to appear or is otherwise covered by a solid body, you take 1d6 points of damage and are shunted to a random open space on a suitable surface within 100 feet of the intended location.

If there is no free space within 100 feet, you take an additional 2d6 points of damage and are shunted to a free space within 1,000 feet.

If there is no free space within 1,000 feet, you take an additional 4d6 points of damage, and the teleport attempt simply fails.

Material Component: The blood of an owl, hawk, or eagle.

GRASPING WALL

Conjuration (Creation)

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Hands sprout from a wall in an area of up to four 5-ft. squares (S)

Duration: Concentration (max. 1 round/level) + 3 rounds

Saving Throw: Reflex negates

Spell Resistance: No

Hundreds of disembodied hands burst from the wall, forming a sea of clutching, probing appendages.

You cause hands to sprout from a wall within range.

This spell simply adds grasping hands to an existing wall rather than creating a wall of a substance.

All opponents adjacent to the wall are entangled unless they succeed on Reflex saves.

An opponent must repeat this save each round it remains adjacent to the wall.

Allied creatures are not entangled, and in fact can use the hands to gain a +10 competence bonus on Climb checks to scale the wall.

If the spell ends while you are climbing, you immediately fall but can make a normal Climb check to catch yourself (PH 69).

Any objects on a wall affected by the spell are unharmed; doors, windows, and other apertures in the wall can be opened or closed as normal.

Material Component: A handful of fingernails.

WALL OF VERMIN

Conjuration (Creation)

Level: Druid 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Wall of pests whose area is up to four 5-ft. squares (S)

Duration: Concentration + 1 round/level

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

Exuding the stench of festering carrion, waves upon waves of buzzing, clambering, clicking bugs roil up from beneath the earth.

You cause a thick but porous wall, alive with hungry bugs, to buzz and scuttle into existence.

It provides concealment in both directions, imposing a 20% miss chance on any attacks passing through it.

You cannot conjure the wall so that it occupies the same space as a creature.

Any living creature passing through the wall is subjected to hundreds of tiny bites.

It takes 2d6 points of damage and must succeed on a Fortitude save or be nauseated for 1 round.

Any creature becoming nauseated while moving through the wall can complete its move action, but cannot take a standard action in that round.

The *wall of vermin* is immune to weapon damage, though it can be affected by area spells and effects (such as *burning hands* or *cone of cold*).

It has 20 hit points and automatically fails any save.

Disintegrate has no effect on a *wall of vermin*, since it is not a single physical object, though any wind of 50 mph or greater breaks it up for 1 round.

Despite its appearance, a *wall of vermin* is not made up of natural creatures, and thus is unaffected by spells that affect animals or vermin.

DIVINATION

HEALER'S VISION

Divination

Level: Assassin 1, cleric 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

Every thrumming vein, every strained muscle, and every pulsing organ of those nearby becomes visible to your eyes, showing you exactly where to place a healing hand... or a deadly strike.

You gain a macabre change to your vision that seemingly peels away skin and sinew to reveal the flesh beneath.

You gain a +5 insight bonus on Heal checks, and any *cure* spell you cast on a living creature heals 1 extra point of damage per level of the spell.

You also gain a +2 bonus on attack rolls and damage rolls when making a precision-based attack (such as a sneak attack or a sudden strike) against a living creature, since you are able to pick out your target's most vital points. (This effect makes the spell popular among less benevolent casters).

Healer's vision does not grant you the ability to make a precision-based attack if you don't already have that ability, nor does it allow you to make such attacks against creatures normally unaffected by them.

This spell does not reveal the true forms of creatures affected by illusions or other magical disguises, so it grants no benefit to Heal checks or attacks against such creatures.

SCRY LOCATION

Divination (Scrying)

Level: Bard 5, cleric 7, druid 7, sorcerer/wizard 6

Components: V, S, M/DF, F

Casting Time: 1 hour

Range: See text

Effect: Magical sensor

Duration: 1 minute/level

Saving Throw: No

Spell Resistance: No

At the culmination of this long ritual, you gaze into your scrying focus and stretch out your sight.

The mists within the reflective surface dissipate, and suddenly you can see and hear a familiar place.

You can see and hear what occurs at a location, which can be at any distance on the same plane where you are located. You must make a successful caster level check (1d20 + your caster level) to scry a specific location.

The difficulty of this check depends on how familiar you are with that location and what sort of physical connection (if any) you have to that place.

Furthermore, the difficulty to scry the desired locale increases if the location is extremely far removed, indoors or underground, or on another plane.

The DC of this check is 20 + any modifiers related to your knowledge of the area, your connection to it, and the location's distance, as set out in the following table.

If you fail this check, the scrying attempt simply fails.

If the caster level check succeeds, you create an invisible magical sensor in any location you desire.

Through this sensor you can both see and hear, your vantage and range of vision being the same as if you were actually at that place, allowing you to make Spot and Listen checks as normal.

You can rotate the sensor as you wish, seeing in any direction you desire.

Once the spell is cast, however, you cannot change the position of the sensor.

As with all divination (scrying) spells, the sensor has your full visual acuity, including any magical effects.

In addition, the following spells have a 5% chance per caster level of operating through the sensor: *detect chaos*, *detect evil*, *detect good*, *detect law*, *detect magic*, and *message*.

If the caster level check fails, you can't attempt to scry on any place within 1 mile of that location until 24 hours have passed.

Arcane Material Component: The eye of a mole, a badger, or a xorn, plus nitric acid, copper, and zinc.

Wizard, Sorcerer, or Bard Focus: A mirror of finely wrought and highly polished silver costing not less than 1,000 gp. The mirror must be at least 2 feet by 4 feet.

Cleric Focus: A holy water font costing not less than 100 gp.

Druid Focus: A natural pool of water.

Knowledge	Caster Level Check DC Modifier
-----------	-----------------------------------

None ¹	+10
Secondhand (you have heard of the location)	+5
Firsthand (you have been to the location)	+0
Familiar (you have been to the location often)	-5

¹ You must have some sort of connection to a location you have no knowledge of.

Location	Caster Level Check DC Modifier
----------	-----------------------------------

Per 1,000 miles away	+2
Indoors or underground	+2
On another plane	+10

Connection	Caster Level Check DC Modifier
------------	-----------------------------------

Likeness or picture	-2
An object that has been in the location for a week or more ²	-4
A plant, mineral, or other object taken from the area ²	-10

² The object must have been in the location within the past year.

SPYMASTER'S COIN

Divination (Scrying)

Level: Bard 2, sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Effect: Magical sensor

Duration: 1 hour/level or until triggered, then 1 round/level

Saving Throw: None

Spell Resistance: No

You slide your finger over a coin, imbuing it with a tiny fraction of your own senses.

You imbue a Fine object (such as a coin, stone, or other innocuous item) with a dormant magical scrying sensor.

Anyone attempting to detect its magical aura must succeed on a caster level check (DC 15 + your caster level).

At any one time during the spell's duration, as a standard action you can concentrate upon the object, enabling you to

hear or see (your choice) as if you were in the object's location.

This effect otherwise functions as if you had cast *clairaudience/clairvoyance* in the object's area.

You have no control over the object's movement and gain no special senses.

Spymaster's coin functions only on the plane of existence you are currently occupying.

You must continue to concentrate to see or hear through the *spymaster's coin*.

If you stop concentrating, the spell's effect ends.

Once activated, the scrying effect of the spell lasts for a maximum number of rounds equal to your caster level.

Focus: One object of Fine size.

EVOCATION

ASSASSIN'S DARKNESS

Evocation (Darkness)

Level: Assassin 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 40-ft.-radius spherical emanation

Duration: 1 minute/level (D)

Saving Throw: No

Spell Resistance: No

Covering your eyes and spitting a harsh whisper, you conjure a globe of absolute blackness before you.

As you step forward, your sight alone pierces the darkness, showing you your disoriented victims within.

You call a globe of absolute darkness into being, which only you can see through.

All other creatures within or who enter this spell's area are blinded while they remain in the area.

Even creatures that have darkvision cannot see through this magical obscurement, although creatures capable of seeing in magical darkness (such as devils) are not affected by it.

While you are outside the sphere, you can see nothing within, and every creature within has total concealment.

Upon entering the spell's area, however, you can see as if the area were illuminated by bright light and can interact with those within as normal, even though they cannot see you.

FATAL FLAME

Evocation (Fire)

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature with 1 or more HD

Duration: 1 minute/level

Saving Throw: Will negates, Reflex half; see text

Spell Resistance: Yes

A single spark of flame leaps from your finger into the target's body, waiting silently for its death.

You place a tiny quantity of pure elemental fire within a creature, which interacts with the energy released by its death to create a small explosion.

When the target creature is killed, its body explodes in a burst of flame, dealing fire damage to each adjacent creature equal to twice the target's HD or twice your caster level, whichever is less (maximum 20 points). Treat creatures with less than 1 HD as having 1/2 HD for the purpose of this spell's effect (so the spell deals 1 point of fire damage when triggered). A successful Reflex save halves this damage. *Fatal flame* has no ill effect on the target's body before its death. The target receives a Will save to negate the spell's effect. **Material Component:** A splinter of charred bone.

ILLUSION

MANIFESTATION OF THE DEITY

Illusion (Pattern) [Fear, Mind-Affecting]

Level: Cleric 2

Components: V, S, DF

Casting Time: 1 swift action

Range: Personal

Effect: An image of the deity you worship

Duration: 1 round/3 levels (D)

Saving Throw: Will negates

Spell Resistance: No

As you invoke the name of your deity, a towering, spectral image of the god appears above you, turning its wrath upon your foes.

You summon a looming illusion of the deity you worship, overlaid on your form.

The divine manifestation appears ghostly and fearsome, with its favored weapon drawn, and makes threatening overtures (roaring, spouting scripture, making dreadful threats, and the like).

The image is transparent enough that you receive no concealment.

Any enemy who can see the effect becomes shaken for 1 round.

A successful Will save negates the effect, and that creature can no longer be affected by this casting of the spell.

No creature can be affected more than once by the same casting of *manifestation of the deity*.

TRANSMUTATION

ANIMATE INSTRUMENT

Transmutation

Level: Bard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Instrument touched

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

As you finish intoning this chant, your instrument leaves your hands and floats before you, continuing your song.

You imbue your musical instrument with the ability to play at your command.

This instrument can play a tune on your behalf even while you are busy with other actions.

As long as this spell is in effect, you can cause the instrument to begin playing as a swift action, effectively mimicking and continuing your performance. The instrument uses your Perform modifier for the purpose of bardic music checks.

Once the animated instrument picks up the performance, you do not have to concentrate to maintain its effect. Thus, you can continue a performance or bardic music effect that relies on the use of a musical instrument and also cast spells, activate magic items by spell completion or command words, or even use another bardic music ability. You can animate any nonmagical musical instrument, such as a piano, fiddle, or harp.

If the instrument must be carried or held while played, it floats in the air in the square in which you cast the spell. The animated instrument cannot move.

It continues to play until the spell expires or the instrument is damaged.

An animated instrument's AC is 10 + any relevant size modifiers; most handheld instruments are Tiny.

Material Component: One working musical instrument.

AQUATIC ESCAPE

Transmutation (Polymorph)

Level: Druid 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your arms and legs fuse with your body as bright silvery scales cover your skin.

You take the form of a Diminutive fish.

Use the statistics for the toad (MM 282) except for the following changes: Add the aquatic subtype, replace the land speed with a swim speed of 30 feet, remove the amphibious special quality, and replace the toad's skills with Listen +4, Spot +4, and Swim +13.

A fish adds its Dexterity modifier, not its Strength modifier, to Swim checks, and gains a +8 racial bonus on Swim checks due to its swim speed.

See the polymorph subschool description on page 91 for more details.

As its name suggests, this spell's most common use is to make a quick getaway in a watery environment, but it also allows a clever druid to overcome a flooded corridor or similar obstacle.

ARMOR LOCK

Transmutation

Level: Bard 1, hexblade 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature wearing armor

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

The plates and joints of your opponent's armor become as rigid as stone, encumbering his movement.

You cause the target's armor to swell and stiffen, slowing the wearer's movement and trapping him within.

The target's land speed is reduced to 10 feet. If the target has a burrow, climb, or swim speed, these are also reduced to 10 feet.

The target also loses any Dexterity bonus to AC for the duration of the spell.

While affected by this spell, the target cannot remove his armor; its joints are too tight and restrictive to escape from. This spell has no effect on unarmored opponents, creatures with only natural armor or an AC bonus from items other than armor, or those using only shields.

CATAPULT

Transmutation

Level: Bard 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One held object, weighing up to 5 lb.

Duration: Instantaneous

Saving Throw: No

Spell Resistance: None

Focusing on the object in your grasp, you abruptly jerk your head in the direction you desire, sending the item flying.

You propel a single object out of your hand at fantastic speed.

This object can be a weapon designed for throwing, a weapon not meant to be thrown, or another nonliving object.

Make a normal ranged attack roll with the affected object, but do not add any ability score modifier to the attack or damage roll.

Instead, you gain a competence bonus on the damage roll equal to one-third of your caster level (maximum +5).

The range increment for the hurled object is 30 feet, regardless of its normal range increment (if any).

If you use *catapult* to fling an object not meant to be used as a thrown weapon, you take the normal -4 nonproficiency penalty on the attack roll.

An item that isn't a weapon deals 1d6 points of base damage if it weighs at least 1 pound.

The item *catapult* is to affect must be in your hands when you cast the spell.

If you cast the spell with nothing in your hands to fling, the magic automatically fails.

You cannot propel living creatures with *catapult*, regardless of their size.

ENLARGE WEAPON

Transmutation

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One touched melee weapon

Duration: 1 round/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

With a shriek of warping wood and scraping metal, your weapon grows, becoming far more intimidating.

A melee weapon you hold enlarges by one size category (Small weapons become Medium, Medium weapons become Large, and so on).

As its size increases, the damage the weapon deals increases as well (PH 114).

When your weapon is affected by this spell, you do not take a penalty for wielding an inappropriately sized weapon.

If you drop the enlarged weapon, are disarmed, or hand the weapon to another creature, the spell ends.

This spell does not grant you the ability to wield any other inappropriately sized weapon without penalty, only the one on which this spell is cast.

This spell has no effect on a weapon that is already increased in size by some other effect (such as being held by a creature affected by *enlarge person*).

LUCKY STREAK

Transmutation

Level: Bard 1, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

A tinkling laugh and a momentary shine surround your ally, leaving him with an aura of confidence and a sly smile.

You improve the luck of the subject creature.

For the duration of the spell, any reroll the subject makes using a luck feat gains a +2 luck bonus.

MAGE BURR

Transmutation

Level: Bard 1, hexblade 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature wearing armor or using a shield

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

Sharp ridges, split leather, and cracking patches of rust spread over your enemy's armor like an angry, irritating disease.

Jagged edges and rough surfaces break forth all over the target creature's armor and shield.

These protrusions deal no damage and are little more than an uncomfortable annoyance.

Arcane spellcasters, however, find the effect most distracting, incurring double the normal arcane spell failure chance for armor and shields.

In addition, any creature affected by this spell takes a -5 penalty on Concentration checks.

The check penalty does not worsen if an affected creature is both wearing armor and using a shield.

For example, a wizard wearing chainmail and carrying a light steel shield would normally have a 35% chance of arcane spell failure.

That wizard, if targeted by this spell, would incur a 70% chance of arcane spell failure, as well as taking a -5 penalty on Concentration checks.

This spell has no effect on unarmored opponents or on creatures with only natural armor or an AC bonus from items other than armor.

MIMICRY

Transmutation

Level: Assassin 1, bard 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

You feel a brief tingle in your throat.

When you open your mouth, your voice is no longer your own.

You can perfectly mimic familiar sounds, voices, and accents.

These sounds can be any that you've heard before, and must be within the range of noises your voice is capable of creating.

For example, a normal human voice could recreate the roar of a lion—being roughly equivalent to a scream—or approximate the sound of shattering glass.

It could not reproduce the rumble of a collapsing building or a high-pitched noise audible only to bats.

This spell does not allow you to speak languages you can't normally speak.

You can duplicate a specific individual's voice by making a Bluff check; a listener familiar with the voice being imitated must succeed on an opposed Sense Motive check to discern that the voice is not genuine.

SIPHON

Transmutation

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 minute

Range: Touch

Target: One touched wand or staff

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You leach the power of the wand you hold, causing a ghostly stream of blue mist to rise from the item and enter your body.

Slowly, you feel your magical energies being renewed.

You drain the charges from a wand or staff you hold to replace spells you have already cast.

As long as the wand or staff has at least 5 charges left, you can expend 5 of those charges to replace a cast spell.

The spell replaced must be of a level equal to or lower than the highest-level spell the staff or wand holds.

If you prepare arcane spells, you can regain any one spell of the affected level that you have already cast that day; if you cast spells spontaneously, you can regain a spell slot of the appropriate level.

For example, a wizard who has cast her only *fly* spell for the day (a 3rd-level spell) can drain 5 charges from her *wand of fireball* (another 3rd-level spell) to regain *fly* or any lower-level spell she has cast.

If the wand or staff holds enough charges, one casting of this spell can replace multiple spells at once.

For example, a sorcerer who has expended three of his 5th-level spell slots can drain 15 charges from his *staff of frost* to regain all three spell slots.

Siphon has no effect on wands or staffs that do not hold enough charges to replenish the desired number of spells.

SMOKE STAIRS

Transmutation [Air]

Level: Assassin 2, druid 2

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

You step into intangible smoke and ascend as nimbly as if it were a flight of steps.

You gain the ability to run up columns of smoke as if they were normal stairs.

Casting this spell successfully requires smoke from a natural fire large enough to fill a 5-foot square, such as a normal campfire, bonfire, or any significant amount of burning debris (torch flames or creatures made of fire or smoke do not suffice).

After casting this spell, you can move into the column of smoke produced by such fires and can ascend vertically into a square filled with smoke.

To your eyes the smoke coalesces into ghostly steps, though other observers see nothing different.

When stepping into the column you are considered to be in the smoke above the flame and take no damage from the fire.

Every 5 feet of upward movement costs 2 squares of movement.

For example, an assassin with a speed of 30 feet casts *smoke stairs* on himself, then moves 10 feet across the ground to a smoking fire and ascends 10 feet vertically in a single move action.

If anything dissipates the column of smoke while you are moving though it using this spell, you lose your footing and fall.

Examples include a *gust of wind* spell and an air elemental's whirlwind form.

If the fire creating the smoke is extinguished, the *smoke stairs* effect lingers for 1 round before dispersing.

Material Component: A handful of dried leaves.

SPORE FIELD

Transmutation

Level: Druid 1, ranger 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft.-radius spread

Duration: 1 minute/level

Saving Throw: Fortitude partial; see text

Spell Resistance: No

The ground at which you point erupts with countless puffball mushrooms.

You cause the ground to become thick with spore-ridden fungus.

The area affected by this spell becomes difficult terrain.

Entering a square of difficult terrain costs 2 squares of movement, and creatures cannot charge or run through such squares (PH 148).

The uneven surface created by this spell also increases the DCs of Balance and Tumble checks by 5 and the DC of Move Silently checks by 2.

In addition, any creature that enters a square affected by this spell bursts several mushrooms, causing their choking spores to fill the air.

The spores render the creature sickened for 1 round (Fortitude negates).

Treat the spore cloud as an inhaled poison for the purpose of bonuses on the save or immunity to poison.

Entering more than one affected square during a turn doesn't force multiple saves.

You can cast *spore field* on any type of ground or flooring, regardless of the material that comprises it.

WAND MODULATION

Transmutation

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 swift action

Range: Touch

Target: One touched wand

Duration: 1 minute/level (D)

Saving Throw: Yes (harmless, object)

Spell Resistance: Yes (harmless, object)

Manipulating the very magic that infuses your wand, you alter that energy, opening the magic item to a new power of your choosing.

By casting *wand modulation* on the target wand you hold, you temporarily alter it to cast a different spell.

After casting this spell, the next spell you cast upon the target wand affects the remaining charges, allowing the wand to discharge that spell instead of the one it was created to cast.

The spell cast after *wand modulation* must be of a lower level than the spell the wand normally casts.

Replacement spells cast from the affected wand are cast at the minimum caster level.

Each use of an affected wand now expends 2 charges from the wand instead of the usual single charge.

If the wand holds insufficient charges to invoke the new spell, it cannot be activated.

You can't use *wand modulation* to change a wand's spell to one with a costly material component or focus or with an XP component, even if the original spell has a similar component or focus.

For example, a 5th-level wizard facing an angry fire elemental wishes to cast *magic missile* (a 1st-level spell) from his *wand of scorching ray* (a 2nd-level spell), which happens to have a caster level of 5th.

He casts *wand modulation* and in the following round casts *magic missile*.

The wand can now cast *magic missile* as a 1st-level caster (the minimum caster level), but each use expends 2 charges.

The wizard can now use the wand to cast *magic missile* for 5 minutes, after which it reverts back to a normal *wand of scorching ray*.

WINGED WATCHER

Transmutation (Polymorph)

Level: Druid 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body hunches and shrinks as dusky feathers sprout from your skin.

Your arms become wings and your toes sharpen into talons.

You take the form of an owl (MM 277) or raven (MM 278), as chosen when you cast the spell.

Even though your Intelligence changes to 2, you retain your normal ability to understand your surroundings (unlike a normal animal).

See the polymorph subschool description on page 91 for more details.

As its name suggests, this spell's most common use is for unobtrusive observation, but it also allows a druid to overcome obstacles that hinder overland travel.

COMPLETE WARRIOR (3.5)

ABJURATION

CLOAK OF BRAVERY

Abjuration [Mind-Affecting]

Level: Clr 3, Courage 3, Pal 2

Components: V, S

Casting Time: 1 action

Range: 60 ft.

Area: 60-ft.-radius emanation centered on you

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

All allies within the emanation (including you) gain a morale bonus on saves against fear effects equal to your caster level (to a maximum of +10 at 10th level).

CLOAK OF BRAVERY, GREATER

Abjuration [Mind-Affecting]

Level: Courage 9

Range: 1 mile; see text

Area: 1-mile-radius emanation centered on you

Duration: 1 hour/level

As *cloak of bravery*, except all allies within the emanation (including you) are immune to fear effects and gain a +2 morale bonus on attack rolls.

Allies who don't have line of sight to you are unaffected.

EVOCATION

LION'S ROAR

Evocation [Sonic]

Level: Courage 8

Components: V, S, DF

Casting Time: 1 action

Range: 120 ft.

Area: 120-ft.-radius burst centered on you

Duration: Instantaneous or 1 minute/level

Saving Throw: Fortitude partial or Will negates (harmless); see text

Spell Resistance: Yes or Yes (harmless); see text

You emit a titanic roar that deals 1d8 points of sonic damage per two caster levels to all enemies within the spell's area and stuns them for 1 round.

A successful Fortitude save halves the damage and negates the stunning effect.

In addition, all allies within the spell's area gain a +1 morale bonus on attack rolls and saves against fear effects, plus temporary hit points equal to 1d8 + caster level (to a maximum of 1d8+20 temporary hit points at caster level 20th).

ILLUSION

HOUND OF DOOM

Illusion (Shadow)

Level: Hexblade 3

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Shadowy hound

Duration: 1 minute/level (D) or until destroyed

Saving Throw: None

Spell Resistance: No

You shape the essence of the Plane of Shadow to create a powerful doglike companion that serves you loyally for the duration of the spell.

The *hound of doom* has the statistics of a dire wolf (see page 65 of the *Monster Manual*) with the following adjustments:

It gains a deflection bonus to Armor Class equal to your Charisma bonus, its hit points when created are equal to your full normal hit points, and it uses your base attack bonus instead of its own (adding its +7 bonus from Strength and -1 penalty from size as normal).

You can command a *hound of doom* as a move action just as if it were fully trained to perform all the tricks listed in the Handle Animal skill (see page 74 of the *Player's Handbook*).

If a *hound of doom*'s hit points are reduced to 0, it is destroyed.

A *hound of doom* is treated as a magical beast for the purpose of spells and effects, but it can also be dispelled.

You can only have one *hound of doom* in existence at a time.

If you cast a second *hound of doom* spell while the first is still active, the first hound is instantly dispelled.

PHANTOM THREAT

Illusion (Phantasm) [Mind-Affecting]

Level: Brd 1, Hexblade 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You create the sensation in the subject's mind that he is threatened by more foes than he actually faces.

Though the subject doesn't actually perceive any additional enemies (and thus doesn't waste any attacks on the phantasm), a creature affected by this spell is considered flanked, even if not threatened by other creatures.

No amount of convincing by others can help the victim of this spell avoid its effect—only a successful saving throw against the spell when initially cast can help the target.

NECROMANCY

CURSED BLADE

Necromancy

Level: Assassin 4, Hexblade 4

Components: V

Casting Time: 1 action

Range: Touch

Target: One melee weapon

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

A weapon affected by this spell deals wounds that can't be healed in the usual fashion.

Any damage dealt by the weapon (not including damage from special weapon properties such as flaming, holy, wounding, and so on) cannot be cured by any means until the damaged individual has received a *remove curse* spell (or some other effect that neutralizes a curse).

If a creature is slain by a weapon that is under the effect of this spell, it can't be raised from the dead unless a *remove curse* spell (or similar effect) is cast on the body or a *true resurrection* spell is used.

TRANSMUTATION

AUGMENT FAMILIAR

Transmutation

Level: Sor/Wiz 2, Hexblade 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Your familiar

Duration: Concentration + 1 round/level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This spell grants your familiar a +4 enhancement bonus to Strength, Dexterity and Constitution, damage reduction 5/magic, and a +2 resistance bonus on saving throws.

VALIANT FURY

Transmutation

Level: Courage 5

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The affected creature gains a +4 morale bonus to Strength and Constitution and a +2 morale bonus on Will saves.

In addition, when making a full attack, the affected creature may make one additional attack with any weapon he is holding.

The attack is made using the creature's full base attack bonus, plus any modifiers appropriate to the situation. (This effect is not cumulative with similar effects, such as that provided by the *haste* spell, nor does it actually grant an extra action, so you can't use it to cast a second spell or otherwise take an extra action in the round).

DEFENDERS OF THE FAITH (3.0)

ABJURATION

BURIAL BLESSING

Abjuration [Good]

Level: Clr 1

Components: V, S, M, XP

Casting Time: 10 minutes

Range: Touch

Area: Corpse touched

Duration: Permanent

Saving Throw: Will negates (see text)

Spell Resistance: Yes

By means of this spell, the cleric wards a corpse from evil influences and effects.

Unless the corpse is desecrated or the blessing is countered, the corpse cannot be magically animated or rise as an undead minion (a ghoul or vampire, for example).

Also, anyone trying to disturb the body is struck by a sudden fear and must make a Will save or flee the location for 1 minute per caster level.

If the protected corpse is subsequently brought back to life, the *burial blessing* ends.

Material Component: The caster's holy symbol and a vial of holy or unholy water, according to alignment, which is sprinkled on the corpse.

XP Cost: 100 XP.

DIVINE FLAME

Abjuration

Level: Clr 2

Components: V, S

Casting Time: 1 action

Range: 15 ft.

Area: 15-ft-radius emanation, centered on you

Duration: 1 round/level

Saving Throw: Fortitude half

Spell Resistance: Yes

Divine flame creates an immobile ward against cold creatures, such as frost giants.

Cold creatures entering or staying in the area take 1d4 points of damage per caster level, to a maximum of 5d4 (Fortitude save for half).

This damage continues every round the creature remains in the area, and the Fortitude save is allowed each round.

DIVINE ZEPHYR

Abjuration

Level: Clr 2

Components: V, S

Casting Time: 1 action

Range: 15 ft.

Area: 15-ft-radius emanation, centered on you

Duration: 1 round/level

Saving Throw: Fortitude half

Spell Resistance: Yes

Divine zephyr creates an immobile ward against fire creatures, such as fire giants.

Fire creatures entering or staying in the area take 1d4 points of damage per caster level, to a maximum of 5d4 (Fortitude save for half).

This damage continues every round the creature remains in the area, and the Fortitude save is allowed each round.

UNBINDING

Abjuration

Level: Exorcism 9, Wiz/Sor 9

Components: V, S, M, DF

Casting Time: 1 round

Range: 180 ft.

Area: 180-ft.-radius burst, centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When you cast an *unbinding* spell, a burst of force erupts from your body and magically destroys any spells that contain, constrain, or seal, with the exceptions noted below. The *unbinding* negates *charm* and *hold* spells of all types, *arcane locks* and similar closures, spells that create physical or magical barriers (*wall of stone*, *wall of force*), *guards and wards*, *temporal stasis*, and *slow* spells, among others. The effect of a *statue* spell is ended.

A *magic jar* is shattered—forever destroyed—and the life force within snuffed out.

In addition, any spell that holds magical effects, including other spells, immediately releases them at a range of 0 feet (including *magic mouth*, *imbue with spell ability*, and so on). Protective spells such as *protection from evil*, *shield*, *globe of invulnerability*, and similar spells are not affected by an *unbinding*.

Petrified creatures are neither revealed nor restored. Individuals bound to service are not freed (including creatures such as familiars, invisible stalkers, genies, and elementals).

An *antimagic field* is not affected, nor will the effect of *unbinding* penetrate one.

A *magic circle against evil* (or another alignment) that currently holds a creature imprisoned is dispelled. Curses and *geas/quest* spells are negated only if the caster is of a level equal to or greater than that of the original caster. All these effects occur without regard to the caster's wishes. Spell effects on the person of the caster or being carried or worn by the caster remain undisturbed, but any others within the burst are effective, including those of allies. The opening of locks or other closures triggers any alarms or traps attached to them.

Any released creature may or may not be friendly to the caster.

Material Components: A lodestone and a pinch of saltpeter.

ZEAL

Abjuration

Level: Pal 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You invoke a divine shield to protect you as you close with a chosen opponent.

Choose a foe as you cast this spell.

You gain a +4 deflection bonus to your AC against all attacks of opportunity from opponents other than the chosen foe.

Also, you can move through enemies as if they were allies for the duration of this spell, as long as you finish your movement closer to your chosen foe than when you began it.

CONJURATION

GENESIS

Conjuration (Creation)

Level: Creation 9

Components: V, S, M, XP

Casting Time: 1 week (8 hours/day)

Range: 180 ft.

Effect: A demiplane in the Ethereal Plane centered on your location

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create an immobile, finite plane with limited access—a demiplane.

Demiplanes created by this power are very small, very minor planes.

You can cast this spell only on the Ethereal Plane.

When you cast it, a local density fluctuation precipitates the creation of a demiplane.

At first, the demiplane grows at a rate of a 1-foot radius per day to the initial maximum radius of 180 feet as the fledgling plane rapidly draws substance from surrounding ethereal vapors and protomatter.

You determine the environment in the demiplane when you first cast *genesis*, reflecting most any desire you can visualize.

You determine factors such as atmosphere, water, temperature, and the shape of the general terrain.

However, the spell does not create life (such as vegetation), nor can it create construction (such as buildings, roads, wells, dungeons, and so forth).

If you want these benefits, you must add them in some other fashion.

Once the basic demiplane reaches its maximum size, you can continue to cast this spell to enlarge your demiplane, adding another 360-foot-diameter bubble to it each time.

XP Cost: 5,000 XP.

HARRIER

Conjuration (Creation)

Level: Clr 4, Drd 3

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level or until target dies

Saving Throw: None

Spell Resistance: No

Harrier creates an incorporeal magical bird of prey the size of a dire bat (roughly 5 feet long with a 10-foot wingspan). This bird operates independently of the caster for the duration of the spell.

When you invoke *harrier*, choose a target.

The bird then attacks the target for the duration of the spell, or until the target dies.

☛ **Harrier:** CR 3; Large magical beast; HD 4d10; hp 22; Init +5; Spd 20 ft., fly 50 ft. (good); AC 19 (touch 14, flat-footed 9); Atk +9 melee (1d8, energy); Face/Reach 10 ft. by 5 ft./5 ft.; SA Touch attack; SQ Incorporeal; AL N; SV Fort +4, Ref +9, Will +3; Str —, Dex 20, Con —, Int 2, Wis 14, Cha 6.

Skills and Feats: Listen +7, Spot +7; Weapon Finesse (energy).

Touch Attack (Su): The harrier's attack is a touch attack for the purpose of determining the AC of its target.

Incorporeal: Can be harmed only by other incorporeal creatures, +1 or better magic weapons, or magic, with a 50% chance to ignore any damage from a corporeal source.

Can pass through solid objects at will, and own attacks pass through armor.

Always moves silently.

OTYUGH SWARM

Conjuration (Creation)

Level: Pestilence 9

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Three or more otyughs, no two of which are more than 30 ft. apart

Duration: Seven days or seven months (D) (see text)

Saving Throw: None

Spell Resistance: No

Otyugh *swarm* creates otyughs from a large collection of refuse and filth, such as a sewer or cesspool.

You can choose to create 3d4 ordinary otyughs or 1d3+1 Huge otyughs with 15 HD (see page 14 of the *Monster Manual*).

The otyughs willingly aid you in combat or battle, perform a specific mission, or serve as bodyguards.

They remain with you for seven days unless you dismiss them.

If the otyughs are created only for guard duty, the duration of the spell is seven months.

In this case, the otyughs can only be ordered to guard a specific site or location.

Otyughs summoned to guard duty cannot move outside the spell's range.

You must create the otyughs in an area containing at least 6,000 pounds of sewage, refuse, or offal.

After you cast the spell, otyughs not summoned for guard duty may leave the area of effect at your command.

PLAGUE OF RATS

Conjuration (Summoning)

Level: Pestilence 5

Components: V, S, DF

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: Swarm of dire rats in a 20-ft. spread

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes (see text)

A swarm of dire rats viciously attacks all other creatures within a 20-foot spread, inflicting damage and spreading filth fever (see page 74 of the *DUNGEON MASTER'S Guide*).

A creature in the swarm that takes no action other than fighting off the rats takes 1d4 points of damage on its turn and makes a Fortitude saving throw against DC 15 + your Intelligence bonus to avoid contracting filth fever.

A creature in the swarm who takes any other action, including leaving the swarm, takes 1d4 points of damage per caster level, and must save at a -4 penalty to avoid contracting the disease.

Spellcasting or concentrating on spells within the swarm is impossible.

The rats' attacks are nonmagical, so being incorporeal, damage reduction, and other defenses can protect a creature from damage.

The disease effect is magical and spread by touch.

Any corporeal creature in the swarm that is subject to disease may contract it.

The swarm cannot be fought effectively with weapons, but fire and damaging area effects can force it to disperse.

The swarm disperses when it has taken a total of 8 points of damage per caster level from these attacks.

A *stinking cloud* spell and similar area or effect spells disperse a swarm immediately.

As a move-equivalent action, you can direct the swarm to move up to 40 feet per round.

RECITATION

Conjuration (Creation)

Level: Clr 4

Components: V, S, DF

Casting Time: 1 action

Range: 60 ft.

Area: All allies and foes within a 60-ft.-radius burst centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

By reciting a sacred passage or declaration, you invoke your deity's blessing upon *yourself* and your allies while causing confusion and weakness among your enemies.

The spell affects all allies and foes within the spell's area at the moment you cast it.

Your allies gain a +2 luck bonus on attack rolls and saving throws, or a +3 luck bonus if they worship the same patron deity as you.

Enemies suffer a -2 luck penalty on attack rolls and saving throws.

After casting the spell, you are free to take further actions during the spell's duration as you see fit.

Divine Focus: In addition to your holy symbol, this spell requires a sacred text as a divine focus.

SLIME WAVE

Conjuration (Summoning)

Level: Clr 7, Drd 7

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 15-ft.-radius spread

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

You create a wave of green slime that begins at the range you choose and violently spreads to the limit of the area. The wave splashes and splatters as it passes; some slime clings to any wall or ceiling.

Green slime devours flesh and organic materials on contact, and even dissolves metal.

Each creature is covered with one patch of green slime for every 5 feet of its face.

A patch of green slime deals 1d6 points of temporary Constitution damage per round while it devours flesh.

Against wood or metal, green slime deals 2d6 points of damage per round, ignoring metal's hardness but not that of wood.

It does not harm stone.

On the first round of contact, the slime can be scraped off a creature (most likely destroying the scraping device), but after that it must be frozen, burned, or cut away (applying damage to the victim as well).

Extreme cold or heat, sunlight, or a *remove disease* spell destroys the green slime.

Unlike normal green slime, the slime created by this spell gradually evaporates, disappearing by the end of the duration.

Material Component: A few drops of stagnant pond water.

TRUE CREATION

Conjuration (Creation)

Level: Creation 8

Components: V, S, M, XP

Casting Time: 10 minutes

Range: 0 ft.

Effect: Unattended, nonmagical object of nonliving matter, up to 1 cu. ft./level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a nonmagical, unattended object of any sort of matter.

Items created are permanent and cannot be negated by dispelling magics or negating powers.

For all intents and purposes, these items are completely real.

The volume of the item created cannot exceed 1 cubic foot per caster level.

You must succeed at an appropriate skill check to make a complex item, such as a Craft (bowmaking) check to make

straight arrow shafts or a Craft (gemcutting) check to make a cut and polished gem.

Unlike the items brought into being by the lower-level spells *minor creation* and *major creation* (see the *Player's Handbook* for those spell descriptions), objects created by the casting of *true creation* can be used as material components.

Material Component: A small piece of matter of the same type of item you plan to create—a sliver of wood to create arrow shafts, a tiny piece of the appropriate stone to create a polished gem, and so forth.

XP Cost: The item's gold piece value in XP, or a minimum of 1 XP, whichever is more (see the *Player's Handbook* for item costs).

DIVINATION

BLESSED AIM

Divination

Level: Clr 3, Pal 2

Components: V, S

Casting Time: 1 action

Range: 60 ft.

Effect: 60-ft. spread, centered on you

Duration: Concentration

Saving Throw: Will negates (harmless)

Spell Resistance: No

This spell grants a +2 morale bonus on all ranged attacks for your allies within the spread.

BRAIN SPIDER

Divination [Mind-Affecting]

Level: Clr 8, Mind 7

Components: V, S, M, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Targets: Up to eight living creatures within range

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to eavesdrop as a standard action on the thoughts of up to eight other creatures at once, hearing as desired:

- The ceaseless chaos of surface thoughts of images
- Individual trains of thought in whatever order you desire
- Information from all minds about one particular topic, thing, or being, one nugget of information per caster level
- A study of the thoughts and memories of one creature of the group in detail Once per round, if you do not perform a detailed study of one creature's mind, you can attempt (as a standard action) to implant a *suggestion* in the mind of any one of the affected creatures.

The creature can make another Will saving throw to resist the *suggestion*, using the save DC of the *brain spider*.

(Creatures with special resistance to enchantment spells can use this resistance to keep from being affected by the *suggestion*).

Success at this saving throw does not negate the other effects of the *brain spider* for that creature.

You can affect all intelligent beings of your choice within range (up to the limit of eight), beginning with known or named beings.

Language is not a barrier, and you need not personally know the beings—you can choose, for instance, "the nearest eight guards who must be in that chamber there". The spell cannot reach those who make a successful Will save.

Material Component: A spider of any size or type. It may be dead, but must still have all eight legs.

CHAIN OF EYES

Divination

Level: Clr 3, Drd 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

You can use a creature's vision instead of your own.

While this spell gives you no control over the creature, each time it comes into physical contact with another living being, you can choose to transfer your sensor to the new creature.

In this way, your sensor can infiltrate a closely guarded area.

During your turn in a round, you can use a free action to switch from seeing through the current creature's eyes to seeing normally or back again.

LESSER TELEPATHIC BOND

Divination [Mind-Affecting]

Level: Clr 3, Mind 3

Components: V, S

Casting Time: 1 action

Range: 30 ft.

Targets: You and one willing creature within 30 ft.

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

You forge a telepathic bond with another creature with an Intelligence score of 6 or higher.

The bond can be established only with a willing subject.

You can communicate telepathically through the bond regardless of language.

No special power or influence is established as a result of the bond.

Once the bond is formed, it works over any distance (although not from one plane to another).

PROBE THOUGHTS

Divination [Mind-Affecting]

Level: Mind 6, Wiz/Sor 6

Components: V, S

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration

Saving Throw: Fortitude negates (and see text)

Spell Resistance: Yes

All the subject's memories and knowledge are accessible to you, ranging from memories deep below the surface to those still easily called to mind.

You can learn the answer to one question per round, to the best of the subject's knowledge.

You can also probe a sleeping subject, though the subject may make a Will save against the DC of the *probe thoughts* spell to wake after each question.

Subjects who do not wish to be probed can attempt to move beyond the power's range, unless somehow hindered.

You pose the questions telepathically, and the answers to those questions are imparted directly to your mind.

You and the target do not need to speak the same language, though less intelligent creatures may yield up only appropriate visual images in answer to your questions.

SWEET WATER

Divination

Level: Clr 3, Drd 2

Components: V, S, M

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Effect: A well shaft, 10 ft. diameter, up to 100 ft. deep.

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell locates a source of fresh water within 100 feet of the surface.

If a water source is in range, it excavates a well shaft down to that water.

Otherwise, the spell fails.

Material Component: A shovel or spade.

WEATHER EYE

Divination

Level: Clr 4, Drd 3

Components: V, S, M, DF

Casting Time: 1 hour

Range: 1 mile radius + 1 mile/level

Area: 1 mile radius + 1 mile/level, centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You may accurately predict the natural weather up to one week into the future.

If unnatural forces currently affect the weather, then *weather eye* reveals as much information as a *detect magic* spell.

Material Component: Incense.

Divine Focus: A scrying device of some kind (bowl, mirror, crystal ball, and so forth).

ENCHANTMENT

BOLTS OF BEDEVILMENT

Enchantment [Mind-Affecting]

Level: Madness 5

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell grants you the ability to make one ray attack per round.

The ray dazes one living creature, clouding its mind so that it takes no action for 1d3 rounds.

The creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

CHAIN OF CHAOS

Enchantment (Compulsion) [Mind-Affecting]

Level: Clr 8

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living, intelligent creature touched

Duration: 1 day/5 caster levels from the day touched (see text)

Saving Throw: Will negates

Spell Resistance: Yes

This powerful instrument of chaos spreads madness by touch.

The caster infects the first victim by making a successful melee touch attack.

A subject who fails a Will save is afflicted with *insanity* (a continuous *confusion* effect).

This condition is permanent until countered, and the madness can be passed to anyone the victim touches.

Anyone who makes the initial saving throw is immune to that casting of the *chain of chaos* spell.

Each person the subject touches during the spell's duration (including by successful melee attack) must make a Will save at the spell's DC or suffer the *insanity* effect.

Each additional victim in turn can pass the madness on for a period of one day per five caster levels after being infected.

The spell affects a maximum of five persons per caster level. Individual victims can be restored by any means effective against *insanity*, for example, *greater restoration*, *limited wish*, *miracle*, or *wish*.

Anyone restored cannot be affected again by that casting of the *chain of chaos* spell.

DM Note: When dealing with the effect of this spell on a large nonadventuring population over a period of time, it is not necessary to track each individual affected by this spell. Instead, just decide if individuals encountered are mad and whether they are infectious based on your judgement of the progress of the chain madness.

MADDENING SCREAM

Enchantment (Compulsion) [Mind-Affecting]

Level: Madness 8

Components: V

Casting Time: One action

Range: Touch

Target: Living creature touched

Duration: 1d4+1 rounds

Saving Throw: None

Spell Resistance: Yes

The subject cannot keep himself from screaming, gibbering, and leaping about as though completely mad. This spell makes it impossible for the victim to do anything other than race about caterwauling, worsens the Armor Class of the subject by -4, makes Reflex saving throws impossible except on a roll of 20, and makes it impossible to use a shield.

MONSTROUS THRALL

Enchantment (Compulsion) [Mind-Affecting]

Level: Domination 9

Components: V, S, XP

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

As *true domination*, except the subject can be any creature and is permanently dominated if it fails its initial Will saving throw.

A subject ordered to take an action against its nature receives a saving throw with a -4 penalty to resist taking that particular action.

If the save succeeds, the subject still remains your thrall despite its minor mutiny.

Once a subject of thrall makes a successful saving throw to resist a specific order, it makes all future saving throws to resist taking that specific action without a penalty.

XP Cost: 500 XP per Hit Die or level of the subject.

RAGE

Enchantment (Compulsion) [Mind-Affecting]

Level: Madness 3

Components: V, S

Casting Time: One action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You can put a creature into a screaming blood frenzy.

In this rage, the creature gains +4 to Strength, +4 to Constitution, and a +2 morale bonus on Will saves.

Unlike a barbarian rage, no penalty to AC is suffered, and no fatigue period comes after the rage is over.

RIGHTEOUS WRATH OF THE FAITHFUL

Enchantment (Compulsion) [Mind-Affecting]

Level: Clr 7

Components: V, S, DF

Casting Time: 1 action

Range: 30 ft.

Targets: All allies within 30 ft.-radius burst centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, you fire your allies and companions with a divine madness or fury that greatly enhances their combat ability.

Allies who are fighting on your side are affected as if they had received an *aid* spell, gaining a +1 morale bonus on attack rolls and saving throws against fear effects, plus 1d8 temporary hit points for the duration of the spell.

Allies who worship the same deity as you are infused with the *righteous wrath*.

They gain one additional melee attack each round, at their highest attack bonus, and a +2 morale bonus on attack and damage rolls and saving throws.

They gain an additional 1d8 temporary hit points (for a total of 2d8) and a +3 morale bonus on saving throws against mind-affecting spells or effects.

When the spell duration expires, any allies who were affected by the full *righteous wrath* are fatigued (-2 to Strength, -2 to Dexterity, can't charge or run) for 10 minutes.

TOUCH OF MADNESS

Enchantment [Mind-Affecting]

Level: Madness 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You may daze one living creature by making a successful touch attack.

If the target creature does not make a successful Will save, its mind is clouded and it takes no action for 1 round per caster level.

The dazed creature is not stunned (so attackers get no special advantage against it), but can't move, cast spells, use mental abilities, and so on.

TRUE DOMINATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Domination 8

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One humanoid of Medium-size or smaller

Duration: 1 day/level

Saving Throw: Will negates

Spell Resistance: Yes

You can control the actions of any humanoid that is Medium-size or smaller.

You establish a telepathic link with the subject's mind.

If a common language is shared, you can generally force the subject to perform as you desire, within the limits of his abilities.

If no common language is shared, you can communicate only basic commands, such as "Come here", "Go there", "Fight", and "Stand still".

You know what the subject is experiencing, but you do not receive direct sensory input from him.

Subjects have a chance of resisting this control (Will save to avoid the effects when the spell is cast).

Those affected by the spell and then forced to take actions against their nature receive a new saving throw with a penalty of -4.

Obviously self-destructive orders may be carried out, unless the subject can make a saving throw with the -4 penalty.

Once control is established, the range at which it can be exercised is unlimited, as long as you and the subject are on the same plane.

You need not see the subject to control it.

Protection from evil or a similar spell can prevent you from exercising control or using the telepathic link while the subject is so warded, but it does not prevent the establishment of domination or dispel it.

EVOCATION

BOLT OF GLORY

Evocation [Good]

Level: Glory 6

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

By casting this spell, you project a bolt of energy from the Positive Energy Plane against one creature.

You must make a successful ranged touch attack to strike your target.

A creature struck suffers varying damage, depending on its nature or its home plane of existence and your level:

Creature's Origin/Nature	Damage	Maximum Value
Material Plane, Elemental Plane, neutral outsider	1d6/2 levels	7d6
Negative Energy Plane, evil outsider, undead creature	1d6/level	15d6
Positive Energy Plane, good outsider	—	—

CASTIGATE

Evocation [Sonic]

Level: Clr 4

Components: V

Casting Time: 1 action

Range: 10 ft.

Area: 10-ft. radius emanation

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

This spell allows you to verbally rebuke foes.

By shouting your deity's teachings about other alignments, you inflict pain on those who hear, and those in the area need not understand your divine words to be affected.

This spell has no effect on creatures that cannot hear.

Otherwise, you deafen foes of the same alignment for 1d4 rounds (save for half).

Foes within one alignment step of your alignment (lawful, neutral, chaotic; good or evil) take 1 point of damage per caster level (maximum 10).

Foes whose alignment is more than one step different from yours take 1d4 points of damage per caster level (maximum 10d4).

A saving throw is allowed for half damage from this spell.

CROWN OF GLORY

Evocation

Level: Glory 8

Components: V, S, M, DF

Casting Time: 1 full round

Range: 120 ft.

Area: 120-ft.-radius emanation, centered on you

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You are imbued with an aura of celestial authority, inspiring awe in all lesser creatures that behold your terrible perfection and righteousness.

You gain a +4 enhancement bonus to your Charisma score for the duration of the spell.

All creatures with fewer than 8 HD or levels cease whatever they are doing and are compelled to pay attention to you.

Any such creature that wants to take hostile action against you must make a successful Will save to do so.

Any creature that does not make this saving throw the first time it attempts a hostile action is *enthralled* for the duration of the spell (as the *enthrall* spell), as long as it is in the spell's area, nor will it try to leave the area on its own.

Creatures with 8 HD or more may pay attention to you, but are not affected by this spell.

When you speak, all listeners telepathically understand you, even if they do not understand your language.

While the spell lasts, you can make up to three suggestions to creatures of less than 8 HD in range, as if using the *mass suggestion* spell (Will save negates); creatures with 8 HD or more aren't affected by this power.

Only creatures within range at the time a *suggestion* is given are subject to it.

Material Component: An opal worth at least 200 gp.

DIVINE SACRIFICE

Evocation

Level: Pal 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You can sacrifice life force to increase the damage you deal. Once each round, as a free action, you can sacrifice up to 10 of your hit points (doing this does not trigger an attack of opportunity).

For every 2 hit points you sacrifice, on your next successful attack you deal +1d6 damage, to a maximum of +5d6 on that attack.

Your ability to deal this additional damage ends when you successfully attack or when the spell duration ends.

You can make as many sacrifices as the spell duration allows.

Sacrificed hit points count as normal damage.

For example, an 8th-level paladin can cast this spell with a duration of 4 rounds.

If she sacrifices 10 hit points a round and hits in every round, she can spend up to 40 hit points and deal up to +20d6 points of additional damage.

DIVINE STORM

Evocation

Level: Clr 4

Components: V, S, DF

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Whirling disk of weapons, up to 30-ft. radius

Duration: Concentration

Saving Throw: Reflex negates (see text)

Spell Resistance: Yes

You create a spinning disk of weapons, of the type favored by your deity.

These weapons whirl around a central point, creating an immobile circular barrier.

Any creature passing through the *divine storm* takes 1d6 points of damage, plus an additional 2 points per caster level (maximum +20).

You choose the plane of rotation of the weapons: horizontal, vertical, or slanted.

Creatures within the *divine storm* when it is invoked can dodge out of the way and take no damage if they make a successful Reflex save.

Once the *divine storm* is in place, any creature entering or passing through the disk automatically takes damage.

A *divine storm* serves as one-half cover (+4 AC) for anyone beyond it.

Divine Focus: A tiny replica of the deity's weapon on a silver chain.

FLAME OF FAITH

Evocation

Level: Clr 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Nonmagical weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You can temporarily turn any single normal or masterwork melee weapon into a magical, flaming one.

For the duration of the spell, the weapon acts as a +1 *flaming burst weapon* that deals an additional +1d6 points of fire damage.

On a critical hit, the weapon deals +1d10 points of bonus fire damage if the weapon's critical multiplier is $\times 2$, +2d10 points if the weapon's multiplier is $\times 3$, and +3d10 points if the multiplier is $\times 4$.

This spell effect does not stack with a weapon's enhancement bonus or with a *flaming* or *flaming burst* weapon bonus.

Material Focus: A lump of phosphorus, touched to the target weapon.

KNIFE SPRAY

Evocation

Level: Clr 2

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You cause moisture in the air to sparkle, coalesce, then spray away from your fingertips, driving into all creatures in the cone of effect.

Each creature in the area takes 1d6 points of damage, plus 1 additional point per caster level to a maximum of +5.

A Reflex save is allowed for half damage.

SWORD STREAM

Evocation

Level: Clr 3

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 5 ft. wide out to limit of range

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Sword stream causes moisture in the air to sparkle, coalesce, then shoot away from your fingertips in a high-pressure stream.

Each creature in the effect takes 1d8 points of damage, plus 1 additional point per caster level to a maximum of +10.

ILLUSION

BEASTMASK

Illusion (Glamer)

Level: Beastmaster 2, Drd 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 5 minutes + 1 minute/level

Saving Throw: Will disbelief

Spell Resistance: Yes

This spell disguises the target so that an animal or beast will believe the creature is a natural or dire animal.

For example, an individual cloaked by this glamer as a wolf might move through a wolf pack unhindered.

You must set the animal form at the time of casting.

If the form you choose is more than one size larger or two sizes smaller than the target's size, the spell fails.

Your illusion deceives the senses of animals and beasts:

sight, hearing, smell, and touch.

The spell does not allow communication with animals or beasts, nor is the subject granted any of the animal form's characteristics.

NECROMANCY

BLIGHT

Necromancy

Level: Clr 5, Drd 4

Components: V, S, DF

Casting Time: 1 action

Range: See text

Effect: See text

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

This spell has two versions.

To cast either version, you must touch a plant and breathe on it.

Blight Area: When the spell is cast on a single normal plant, all normal plants in a 100-foot spread wither and die. Flowers wilt, leaves fall to the ground, and foliage withers. The spell has no effect on the soil, so new growth can replace the dead plants.

This effect allows no saving throw.

Blight Plant Creature: When cast on a single mobile or intelligent plant, such as a shambling mound or a treant, this spell deals 1d6 points of damage per level of the caster, to a maximum of 15d6.

The plant receives a Fortitude save for half damage.

CURSE OF LYCANTHROPY

Necromancy

Level: Pestilence 6

Components: V, S, M, DF

Casting Time: 1 action

Range: Touch

Target: Humanoid touched

Duration: Permanent (see text)

Saving Throw: Fortitude negates

Spell Resistance: Yes

You can cause temporary lycanthropy in a humanoid you touch.

A humanoid who fails the saving throw contracts lycanthropy, and the condition manifests with the next full moon.

Unlike other forms of lycanthropy, the effect of this spell can be broken by *remove curse* or *break enchantment*.

You can induce any type of common lycanthropy (and evil clerics frequently experiment with new kinds).

As a rule, the lycanthrope's animal form can be any predator between the size of a small dog and a large bear.

The source of the material component determines the victim's animal form.

(More information on lycanthropes can be found in Appendix 3 of the *Monster Manual*).

Material Component: A pint of animal blood.

SCOURGE

Necromancy

Level: Pestilence 7

Components: V, S, F, DF

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Target: One living creature/level, no two of which can be more than 50 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

This nasty spell causes a major disease and weakness in those who fail their saving throws.

Afflicted creatures are immediately stricken with a sickening scourge that quickly spreads to cover their entire bodies.

The blackened boils, magenta blotches, violet lesions, seeping abscesses, and malignant cysts are excruciatingly painful and highly debilitating.

The disease deals 1d3 points of temporary Strength and Dexterity damage per day, unless the creature makes a successful Fortitude save on a particular day.

As with mummy rot, successful saves do not allow the creature to recover.

The symptoms persist until the creature finds some magical means to cure the disease (such as *remove disease*, *heal*, or *restoration*).

Focus: A black whip or riding crop, which is cracked in the direction of the intended victims during the casting of the spell.

TRANSMUTATION

ASPECT OF THE DEITY

Transmutation [Good, Evil]

Level: Mysticism 6

As *lesser aspect of the deity*, but you take on all the qualities of a celestial or fiendish creature (see the *Monster Manual* for complete details):

- You take on a shining, metallic appearance (for good clerics) or a more fearsome appearance (for evil).
- You gain the ability to smite evil or good once a day. Add your Charisma bonus to your attack roll and your character level to your damage roll against a foe of that alignment.
- You gain darkvision to a range of 60 ft.
- You gain acid, cold, and electricity resistance 20 (for good clerics) or cold and fire resistance 20 (for evil clerics).
- You gain damage reduction 10/+3.
- You gain spell resistance 25.

Your creature type does not change (you do not become an outsider).

BEAR'S HEART

Transmutation

Level: Beastmaster 4, Clr 5, Drd 4

Components: V, S

Casting Time: 1 action

Range: 20 ft.

Target: Living allies within 20 ft.

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: No

You turn your living allies (one per caster level) into fierce warriors, but exhaust them in the process.

Allies gain a +4 enhancement bonus to Strength, and also +1d4 temporary hit points per caster level.

When the spell ends, any remaining temporary hit points from its effect are lost, and each ally takes 1 point of subdual damage per level of the caster.

BEAST CLAWS

Transmutation

Level: Clr 4, Drd 3

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Beast claws changes your hands and fingers, giving you long, curving claws and heavy knuckles.

These claws act as slashing melee weapons (damage 1d6 plus any magical or normal bonuses such as from Strength, threat range 19–20).

You can attack with your transformed hands and not provoke an attack of opportunity.

The claws do not hinder your manual dexterity or spellcasting.

Material Component: The claw of a bird of prey, such as an eagle or falcon.

BRAMBLES

Transmutation

Level: Clr 2, Drd 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Wooden weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Small magical thorns or spikes protrude from the surface of a wooden weapon, such as a club, greatclub, nunchaku, or quarterstaff.

For the duration of the spell, the weapon deals both piercing and bludgeoning damage.

It gains a +1 enhancement bonus on its attacks and deals an additional +1 point of damage per caster level (maximum +10).

This spell works only on melee weapons with wooden striking surfaces.

For instance, it does not work on a bow, an arrow, or a metal mace.

Material Component: A small thorn.

BRIAR WEB

Transmutation

Level: Clr 3, Drd 2, Rgr 2

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Plants in a 40-ft.-radius spread

Duration: 1 minute/level

Saving Throw: See text

Spell Resistance: No

This spell causes grasses, weeds, bushes, and even trees to grow thorns and then wrap, twist, and entwine about creatures in the area or those who enter the area, holding them fast.

Creatures that stand still are entangled, but experience no other effect and take no damage.

Those that attempt actions (attack, cast a spell with a somatic component, move, and the like) take thorn damage of 1d4 points, plus 1 additional point per caster level, and must make a successful Reflex save or be entangled.

A character who tries to cast a spell must also make a Concentration check (DC 15 + spell level + damage taken) or lose the spell.

A creature that fails the Reflex save is entangled, can't move, and suffers a –2 penalty on attack rolls and a –4 penalty to effective Dexterity.

An entangled creature can try to break free and move at half normal speed by using a full-round action to make a Strength check or Escape Artist check (DC 20).

A nonentangled creature can move through the area at half speed, taking damage as described above.

Each round nonentangled creatures remain in the area, the plants attempt to entangle them.

The plants provide one-quarter cover for every 5 feet of substance between a creature in the area and an opponent—one-half for 10 feet of briar web, three-quarters for 15 feet, and total cover for 20 feet or more.

Note: The DM may alter the effects of the spell somewhat, based on the nature of the available plants.

CURSE OF THE BRUTE

Transmutation

Level: Clr 3, Pal 2

Components: V, S

Casting Time: 1 action

Range: Touch

Targets: Creature touched

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You can grant an enhancement bonus up to +1 per caster level to one physical ability of the creature touched (Strength, Constitution, or Dexterity).

However, this temporarily suppresses both the creature's Intelligence and Charisma, each by the amount of the enhancement bonus.

If this lowers any ability below 3, the spell fails.

Thus, a 5th-level cleric might cast *curse of the brute* on a barbarian to increase the barbarian's Strength by 4 points. Doing this increases the barbarian's Strength by 4 points but lowers his Intelligence by 4 points and his Charisma by 4 points.

If the barbarian's original Intelligence or Charisma was 6 or lower, the spell would fail without effect.

DIVINE AGILITY

Transmutation

Level: Clr 5

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: No

Calling on the divine power of your patron, you imbue a living creature with agility and skill in combat. You confer the base Reflex save bonus of a rogue of your total character level, an enhancement bonus to Dexterity sufficient to raise the target creature's Dexterity score to 18 (if it is not already 18 or higher), and the Spring Attack feat on the target creature for the duration of the spell.

GREATER ASPECT OF THE DEITY

Transmutation [Good, Evil]

Level: Mysticism 9

As *lesser aspect of the deity*, except that you take on the qualities of a half-celestial or half-fiend (see Appendix 3 of the *Monster Manual* for complete details).

You do not gain the spell-like abilities of these creatures. Your creature type changes to outsider for the duration of the spell.

Unlike other outsiders, you can be brought back from the dead if you are killed in this form.

Good clerics undergo the following transformations:

- You grow feathered wings that allow you to fly at twice your normal speed (good maneuverability).
- You gain +1 natural armor.
- You gain low-light vision.
- You gain immunity to acid, cold, disease, and electricity.
- You gain a +4 racial bonus on your saving throws against poison.
- You gain the following bonuses to your ability scores: +4 Str, +2 Dex, +4 Con, +2 Int, +4 Wis, +4 Cha.

Evil clerics undergo the following transformations:

- You grow batlike wings that allow you to fly at your normal speed (average maneuverability).
 - You gain +1 natural armor.
 - You gain bite and claw attacks.
- If you are Medium-size or larger, your bite deals 1d6 points of damage and each claw attack deals 1d4 points of damage. If you are Small, your bite deals 1d3 points of damage and each claw attack deals 1d3 points of damage.
- You gain darkvision with a range of 60 feet.
 - You gain immunity to poison.
 - You gain acid, cold, electricity, and fire resistance 20.
 - You gain the following bonuses to your ability scores: +4 Str, +4 Dex, +2 Con, +4 Int, +4 Wis, +2 Cha.

LESSER ASPECT OF THE DEITY

Transmutation [Good, Evil]

Level: Mysticism 3, Pal 4

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

When you cast this spell, your body changes into a form more like your deity's (in a very limited fashion, of course). You gain an enhancement bonus (1d4+1 points) to your Charisma score.

You also gain resistance 10 to two or three energy types: acid, cold, and electricity if you are good, cold and fire if you are evil.

SPIKES

Transmutation

Level: Clr 3, Drd 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Wooden weapon touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

As *brambles*, except that the affected weapon gains a +2 enhancement bonus on its attacks, and its threat range is doubled.

UNFAILING ENDURANCE

Transmutation

Level: Clr 4

Components: V, S

Casting Time: 1 full round

Range: Touch

Targets: One living creature/level

Duration: 1 day/level

Saving Throw: None

Spell Resistance: Yes

You can render living creatures virtually immune to fatigue or exhaustion.

You must touch each creature to be affected as you cast the spell.

The benefits include:

Endurance: This feat confers a +4 bonus on any check made for performing a physical action that extends over a period of time (running, swimming, holding breath, and so on).

Morale Bonus: Subjects gain an additional +4 morale bonus that stacks with the bonus from the Endurance feat.

This bonus also applies to saving throws against spells and magical effects that cause weakness, fatigue, exhaustion, or enfeeblement.

Extended Activity: Affected creatures may engage in up to 12 hours of hard labor or forced marching without suffering from fatigue or continue up to 16 hours and become fatigued instead of exhausted (see *Forced March*, page 143 of the *Player's Handbook*, and *Exhausted and Fatigued*, page 84 of the *DUNGEON MASTER'S Guide*).

WEAPON OF THE DEITY

Transmutation

Level: Clr 4, Mysticism 4, Pal 4

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: Your weapon

Duration: 1 round/level

You must be using your deity's favored weapon to cast this spell.

You may use the weapon as if you had proficiency with it even if you normally do not.

The weapon gains a +1 enhancement bonus on attack and damage rolls and an additional special ability (see the list below).

A double weapon gains this enhancement bonus and special ability for only one of its two heads, as chosen by the caster.

When you reach 9th caster level, the enhancement bonus of the weapon increases to +2.

At 12th level, the bonus rises to +3, at 15th level it is +4, and at 18th level it is +5.

WEAPON OF THE DEITY LIST

Annam (giants): <i>improved unarmed attack, defending</i>
Blibdoolpoolp (kuo-toa): <i>shock pincer staff</i>
Boccob: <i>spell storing quarterstaff</i>
Callarduran Smoothhands (svirfneblin): <i>defending battleaxe</i>
Corelion Larethian (elves): <i>keen longsword</i>
Deep Sashelas (aquatic elves): <i>trident of fish command</i>
Diirinka (derro): <i>spell storing dagger of venom</i>
Eadro (locathahs, merfolk): <i>frost shortspear</i>
Ehlonna: <i>frost longsword</i>
Erythnul: <i>mighty cleaving morningstar</i>
Fharlanghn: <i>defending quarterstaff</i>
Garl Glittergold (gnomes): <i>throwing battleaxe</i>
Grolantor (hill giants, ettins, ogres): <i>mighty cleaving club</i>
Gruumsh (orcs): <i>returning shortspear</i>
Heironeous: <i>shock longsword</i>
Hextor: <i>mighty cleaving heavy flail</i>
Hiatea (giants, especially females): <i>distance shortspear</i>
Hruggek (bugbears): <i>mighty cleaving morningstar</i>
Iallanis (good giants): <i>improved unarmed attack, defending</i>
luz: <i>mighty cleaving greatsword</i>
Kaelthiere (evil fire creatures): <i>flaming shortspear</i>
Kord: <i>mighty cleaving greatsword</i>
Kurtulmak (kobolds): <i>shock halfspear</i>
Laduguer (duergar): <i>defending warhammer</i>
Laogzed (troglodytes): <i>mighty cleaving javelin</i>
Loth (driders, drow): <i>keen whip</i>
Maglubiyet (goblins, hobgoblins): <i>mighty cleaving battleaxe</i>
Memnor (evil cloud giants): <i>mighty cleaving morningstar</i>
Merrshaulk (yuan-ti): <i>longsword of venom (as dagger)</i>
Moradin (dwarves): <i>throwing warhammer</i>
Nerull: <i>keen scythe</i>
Obad-Hai: <i>defending quarterstaff</i>
Olidammara: <i>keen rapier</i>
Panzurriel (evil sea creatures): <i>shock quarterstaff</i>
Pelor: <i>flaming heavy mace</i>
Sekolah (sahuagin): <i>trident of fish command</i>
Semuanya (lizardfolk): <i>mighty cleaving greatclub</i>
Sixin (xill): <i>frost short sword</i>
Skerrit (centaurs): <i>flaming shortspear</i>
Skoraeus Stonebones (stone giants): <i>mighty cleaving warhammer</i>
St. Cuthbert: <i>mighty cleaving heavy mace</i>
Strommaus (storm and cloud giants): <i>shock warhammer</i>
Surtr (fire giants): <i>flaming greatsword</i>
Thrym (frost giants): <i>frost greataxe</i>
Vaparak (ogres): <i>mighty cleaving greatclub</i>
Vecna: <i>frost dagger</i>
Wet Jas: <i>dagger of venom</i>
Yondalla (halflings): <i>defending short sword</i>
Good: <i>frost warhammer</i>
Evil: <i>mighty cleaving light flail</i>
Neutral: <i>defending heavy mace</i>
Law: <i>flaming longsword</i>
Chaos: <i>shock battleaxe</i>

DEITIES AND DEMIGODS (3.0)

ABJURATION

ARMOR OF DARKNESS

Abjuration [Darkness]

Level: Darkness 4

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The spell envelops the warded creature in a shroud of flickering shadows.

The shroud can, if the caster desires, conceal the wearer's features.

In any case, it grants the recipient a +3 deflection bonus to Armor Class plus an additional +1 for every four caster levels (maximum bonus +8).

The subject can see through the armor as if it did not exist and is also afforded darkvision with a range of 60 feet.

Finally, the subject gains a +2 bonus on saving throws against any holy, good, or light spells or effects.

Undead creatures that are subjects of *armor of darkness* also gain +4 turn resistance.

SURELIFE

Abjuration

Level: Repose 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute/2 levels

This spell allows you to protect yourself against some condition—such as being immersed in boiling oil or being buried under an avalanche—that would ordinarily cause certain death.

You can only protect yourself against a natural occurrence or condition, not against a spell or the action of a creature (such as the breath of a dragon or the swords of a group of bandits).

You must specify the condition against which you wish to protect yourself, and the spell is effective only against that condition.

Should you be subjected to that condition during the duration of the spell, you feel no discomfort and take no damage from the condition.

However, the spell does not protect any items carried on your person.

At the end of the spell's duration, the condition has full normal effects on you if you are still subjected to it.

Material Component: An ointment of peach syrup and cinnamon.

CONJURATION

GENESIS

Conjuration (Creation)

Level: Creation 9

Components: V, S, M, XP

Casting Time: 1 week (8 hours/day)

Range: 180 ft.

Effect: A demiplane on the Ethereal Plane centered on your location

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create an immobile, finite plane with limited access—a demiplane.

Demiplanes created by this power are very small, minor planes.

You can cast this spell only on the Ethereal Plane.

When you cast it, a local density fluctuation precipitates the creation of a demiplane.

At first, the demiplane grows at a rate of a 1-foot-radius per day to an initial maximum radius of 180 feet as the fledgling plane draws substance from surrounding ethereal vapors and protomatter or astral ectoplasm.

You determine the environment in the demiplane when you first cast *genesis*, reflecting most any desire you can visualize.

You determine factors such as atmosphere, water, temperature, and the shape of the general terrain.

However, the spell cannot create life (such as vegetation), nor can it create construction (such as buildings, roads, wells, dungeons, and so forth).

If you want these benefits, you must add them in some other fashion.

Once the basic demiplane reaches its maximum size, you can continue to cast this spell to enlarge your demiplane if you are inside the boundaries of the demiplane.

In such a case, the radius of the demiplane increases by 60 feet for each subsequent casting.

If you cast the spell again while you are outside an existing demiplane, the casting creates a separate bubble that does not touch or overlap any previously created demiplane.

XP Cost: 5,000 XP.

(Note: This version of the *genesis* spell supersedes the *genesis* spell description previously published in *Defenders of the Faith*).

TRUE CREATION

Conjuration (Creation)

Level: Creation 8

Components: V, S, M, XP

Casting Time: 10 minutes

Range: 0 ft.

Effect: Unattended, nonmagical object of nonliving matter, up to 1 cu. ft./level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a nonmagical, unattended object of any sort of matter.

Items created are permanent and cannot be negated by dispelling magics or negating powers.

For all intents and purposes, these items are completely real.

The volume of the item created cannot exceed 1 cubic foot per caster level.

You must succeed at an appropriate skill check to make a complex item, such as a Craft (bowmaking) check to make straight arrow shafts or a Craft (gemcutting) check to make a cut and polished gem.

Unlike the items brought into being by the lower-level spells *minor creation* and *major creation*, objects created by the casting of *true creation* can be used as material components.

Material Component: A small piece of matter of the same type of item you plan to create—a sliver of wood to create arrow shafts, a tiny piece of the appropriate stone to create a polished gem, and so forth.

XP Cost: The item's gold piece value in XP, or a minimum of 1 XP, whichever is more (see the *Player's Handbook* for item costs).

ENCHANTMENT

BOLTS OF BEDEVILMENT

Enchantment [Mind-Affecting]

Level: Madness 5

Components: V, S

Casting Time: One action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell grants you the ability to make one ray attack per round.

The ray dazes one living creature, clouding its mind so that it takes no action for 1d3 rounds.

The creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

MADDENING SCREAM

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 8, Madness 8

Components: V

Casting Time: One action

Range: Touch

Target: Living creature touched

Duration: 1d4+1 rounds

Saving Throw: None

Spell Resistance: Yes

The subject cannot keep himself from screaming, gibbering, and leaping about as though completely mad. This spell makes it impossible for the victim to do anything other than race about caterwauling.

The effect worsens the Armor Class of the creature by 4, makes Reflex saving throws impossible except on a roll of 20, and makes it impossible to use a shield.

RAGE

Enchantment

Level: Madness 3

Components: V, S

Casting Time: One action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You can put a creature into a screaming blood frenzy.

In this rage, the creature gains +4 to Strength, +4 to Constitution, and a +2 morale bonus on Will saves.

(Unlike a barbarian rage, no penalty to AC is suffered, and no fatigue period occurs after the rage is over).

TOUCH OF MADNESS

Enchantment [Mind-Affecting]

Level: Madness 2

Components: V, S

Casting Time: One action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You may daze one living creature by making a successful touch attack.

If the target creature does not make a successful Will save, its mind is clouded and it takes no action for 1 round per caster level.

The dazed subject is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

EVOCATION

BLACKLIGHT

Evocation [Darkness]

Level: Darkness 3, Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: A 20-ft.-radius emanation centered on a creature, object, or point in space

Duration: 1 round/level (D)

Saving Throw: Will negates or none (object)

Spell Resistance: Yes or no (object)

You create an area of total darkness.

The darkness is impenetrable to normal vision and darkvision, but you can see normally within the blacklit area.

Creatures outside the spell's area, even you, cannot see through it.

You can cast the spell on a point in space, but the effect is stationary unless you cast it on a mobile object.

You can cast the spell on a creature, and the effect then radiates from the creature and moves as it moves.

Unattended objects and points in space do not get saving throws or benefit from spell resistance.

Blacklight counters or dispels any light spell of equal or lower level, such as *daylight*.

The 3rd-level cleric spell *daylight* counters or dispels *blacklight*.

Material Component: A piece of coal and the dried eyeball of any creature.

BOLT OF GLORY

Evocation [Good]

Level: Glory 6

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

By casting this spell, you project a bolt of energy from the Positive Energy Plane against one creature.

You must succeed at a ranged touch attack to strike your target.

A creature struck suffers varying damage, depending on its nature and home plane of existence:

Creature's Origin/Nature	Maximum Damage	Value
Material Plane, Elemental Plane, neutral outsider	1d6/2 levels	7d6
Negative Energy Plane, evil outsider, undead creature	1d6/level	15d6
Positive Energy Plane, good outsider	—	—

CROWN OF GLORY

Evocation

Level: Glory 8

Components: V, S, M, DF

Casting Time: 1 full round

Range: Personal

Area: 120-ft.-radius emanation centered on you

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You are imbued with an aura of celestial authority, inspiring awe in all lesser creatures that behold your terrible perfection and righteousness.

You gain a +4 enhancement bonus to your Charisma score for the duration of the spell.

All creatures with fewer than 8 HD or levels cease whatever they are doing and are compelled to pay attention to you.

Any such creature that wants to take hostile action against you must make a successful Will save to do so.

Any creature that does not make this saving throw the first time it attempts a hostile action is *enthralled* for the duration of the spell (as the *enthrall* spell), as long as it is in the spell's area, nor will it try to leave the area on its own.

Creatures with 8 HD or more may pay attention to you, but are not affected by this spell.

When you speak, all listeners telepathically understand you, even if they do not understand your language.

While the spell lasts, you can make up to three suggestions to creatures of fewer than 8 HD in range, as if using the

mass suggestion spell (Will save negates); creatures with 8 HD or more aren't affected by this power. Only creatures within range at the time a *suggestion* is given are subject to it.
Material Component: An opal worth at least 200 gp.

NECROMANCY

UNDEATH TO DEATH

Necromancy

Level: Sor/Wiz 6, Clr 6, Repose 6

Components: V, S, M, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Several undead creatures within a 50-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Undeath to death snuffs out the animating forces of undead creatures, killing them instantly.

The spell slays 1d4 HD worth of undead creatures per caster level (maximum 20d4).

Creatures with the fewest HD are affected first; among creatures with equal HD, those closest to the point of origin of the burst are affected first.

Material Component: The powder of a crushed diamond worth at least 500 gp.

TRANSMUTATION

HARDENING

Transmutation

Level: Sor/Wiz 6, Artifice 7

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One item of a volume no greater than 10 cu. ft./level (see text)

Duration: Permanent

Saving Throw: None

Spell Resistance: Yes (object)

This spell increases the hardness of materials (see Table 8-12: Substance Hardness and Hit Points in the *Player's Handbook*).

Paper becomes harder to tear, glass becomes harder to break, wood becomes more resilient, and so on.

For every two caster levels, increase by 1 the hardness of the material targeted by the spell.

This hardness increase improves only the material's resistance to damage.

Nothing else is modified by the improvement.

For example, a longsword (treat steel as iron, base hardness 10) affected by a *hardening* spell cast by a 12th-level caster would have a new hardness of 16 for purposes of ignoring damage caused by someone using the Sunder feat.

The sword's hit points, attack and damage modifiers, and other characteristics are not affected.

The *hardening* spell does not in any way affect resistance to other forms of transformation.

Ice still melts, paper and wood still burn, rock still becomes transmutable to mud with the proper spell, and so on. This spell affects up to 10 cubic feet per level of the spellcaster.

If cast upon a metal or mineral, the volume is reduced to 1 cubic foot per level.

DRACONOMICON (3.5)

ABJURATION

ANTIDRAGON AURA

Abjuration

Level: Clr 4, Sor/Wiz 4

Components: V, S, M, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: 1 creature/two levels, no two of which can be more than 30 ft. apart

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

All targets gain a +2 luck bonus to Armor Class and on saving throws against the attacks, spells, and special attacks (extraordinary, supernatural, and spell-like) of dragons.

This bonus increases by +1 for every four caster levels above 7th (to +3 at 11th, +4 at 15th, and a maximum of +5 at 19th).

Material Component: A chunk of platinum worth at least 25 gp (slightly less than 1 ounce).

ANTIMAGIC RAY

Abjuration

Level: Sor/Wiz 7

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature or object

Duration: 1 round/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

An invisible ray projects from your fingers.

You must succeed on a ranged touch attack with the ray to strike a target.

The target, if struck, functions as if it were inside an *antimagic field*.

If this spell is used against a creature, the target can't cast spells or can't use supernatural or spell-like abilities, nor do such abilities have any effect on the creature.

However, the creature can still use spell completion items (such as scrolls) or spell trigger items (such as wands), even though it can't cast the spells required.

If this spell is used against an object, that object's magical powers are suppressed—including any spells previously cast and currently in effect on the item, as well as any spells or magical effects targeted on the object during the *antimagic ray's* duration.

Remember that an object struck by the ray only receives a saving throw if it is attended or if it is a magic item.

An unattended item, even if currently under the effect of a spell (such as a torch with *continual flame* cast upon it), receives no save.

The spell doesn't affect any objects other than the target itself, even if those objects are worn, carried by, or in contact with the target.

For instance, if a creature is the target, its equipment remains unaffected.

Material Component: A pinch of iron filings mixed with ruby dust worth 100 gp.

AURA OF EVASION

Abjuration

Level: Clr 5, Sor/Wiz 6

Components: V, S, M, DF

Casting Time: 1 standard action

Area: 10-ft.-radius emanation centered on you

Duration: 1 minute/level

Saving Throw: No

Spell Resistance: No

You and all creatures within 10 feet of you gain evasion, but only against breath weapons.

(If a breath weapon would normally allow a Reflex saving throw for half damage, a creature within an *aura of evasion* that successfully saves takes no damage instead).

The effect of this spell doesn't stack with any existing evasion or improved evasion abilities.

Material Component: Powdered emerald worth 500 gp.

CLOAK OF BRAVERY

Abjuration [Mind-Affecting]

Level: Clr 3, Pal 2

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft.-radius emanation centered on you

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

All allies within the area (including you) gain a morale bonus on saving throws against fear effects equal to your caster level (max +10).

CONTINGENT ENERGY RESISTANCE

Abjuration

Level: Clr 4, Drd 4, Sor/Wiz 5

Components: V, S, M

Casting Time: 1 minute

Range: Personal

Target: You

Duration: 1 hour/level (D)

This spell functions similarly to *contingency*, but with a more limited scope.

While *contingent energy resistance* is in effect, if you are dealt damage associated with one of the five types of energy (acid, cold, electricity, fire, or sonic), the spell automatically grants you resistance 10 against that type of energy for the remainder of the spell's duration (just as if you were under the effect of a *resist energy* spell of the appropriate type).

Once the energy type protected against by a particular casting of this spell is determined, it can't be changed.

You can't have more than one *contingent energy resistance* in effect on yourself at the same time—if you cast the spell a second time while an earlier casting is still in effect, the earlier spell automatically expires.

The energy resistance granted by this spell does not stack with similar benefits against the same energy type (such as from the *resist energy* spell).

However, it is possible to be simultaneously under the effect of *resist energy* (fire) and *contingent energy resistance* (electricity), or any other two such spells that protect against different types of energy.

Material Component: A pearl worth at least 100 gp.

DISPELLING BREATH

Abjuration

Level: Sor/Wiz 4

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

Your breath weapon acts as a targeted *dispel magic*, possibly dispelling magical effects affecting creatures caught in its area.

The modification applies only to the breath produced as part of the casting.

For each creature or object that fails its saving throw against your breath weapon and that is the target of one or more spells, you make a dispel check against each ongoing spell currently in effect on the object or creature.

A dispel check is 1d20 + 1 per caster level (maximum +15) against a DC of 11 + the spell's caster level.

A creature's magic items are not affected, and creatures and objects that rolled successful saving throws against your breath weapon are likewise not affected.

If a creature that is the effect of an ongoing spell (such as a monster summoned by *monster summoning*), is in the area and fails its saving throw against your breath weapon, you can also make a dispel check to end the spell that conjured the creature (returning it whence it came).

For each ongoing area or effect spell centered within the area of your breath weapon, you make a dispel check to dispel the spell.

You may choose to automatically succeed on dispel checks against any spell that you have cast.

ENERGY IMMUNITY

Abjuration

Level: Clr 6, Drd 6, Sor/Wiz 7

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 24 hours

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

This abjuration grants a creature complete protection against damage from whichever one of five energy types you select: acid, cold, electricity, fire, or sonic.

The spell protects the recipient's equipment as well.

Energy immunity absorbs only damage.

The recipient could still suffer unfortunate side effects, such as drowning in acid (since drowning results from a lack of oxygen), being deafened by a sonic attack, or becoming encased in ice.

The effect of this spell does not stack with similar effects, such as *resist energy* and *protection from energy*, that protect against the same energy type.

If a character is warded with *energy immunity (fire)* and is also receiving resistance to fire from one or more of the other spells, the *energy immunity* makes the other spells irrelevant.

However, it is possible to be simultaneously under the effect of *energy immunity (fire)* and *resist energy (electricity)*, or any other two such spells that protect against different types of energy.

HIDE FROM DRAGONS

Abjuration

Level: Asn 4, Brd 5, Sor/Wiz 7, Hoardstealer 4 (see class description, page 130)

Components: S, M

Casting Time: 1 standard action

Range: Touch

Targets: One creature touched/two levels

Duration: 10 minutes/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

Dragons cannot see, hear, or smell the warded creatures, even with blindsense.

They act as though the warded creatures are not there.

Warded creatures could stand before the hungriest of red dragons and not be molested or even noticed.

If a warded character touches or attacks a dragon, even with a spell, the spell ends for all recipients.

Material Component: A dragon scale.

SCINTILLATING SCALES

Abjuration

Level: Sor/Wiz 2

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Your hide glistens and shimmers with a protective magical aura, granting you a deflection bonus to your Armor Class equal to your Constitution modifier.

Your natural armor bonus decreases by an amount equal to your Constitution modifier $\times 1/2$.

SHIELD OF WARDING

Abjuration

Level: Clr 3, Pal 2

Components: V

Casting Time: 1 standard action

Range: Touch

Target: One shield or buckler

Duration: 1 minute/level

Saving Throw: Will negates (object, harmless)

Spell Resistance: No

The touched shield or buckler grants its wielder a +1 sacred bonus on Reflex saves, +1 per five caster levels (maximum +5 at 20th level).

The bonus only applies when the shield is worn or carried normally (but not, for instance, if it is slung over the shoulder).

CONJURATION

DRAGON ALLY

Conjuration (Summoning)

Level: Dragon 7, Sor/Wiz 7

Effect: Up to two summoned dragons, totaling no more than 18 HD, no two of which can be more than 30 ft. apart when they appear

As *lesser dragon ally*, except you may summon a single dragon of up to 18 HD or two dragons of the same kind whose HD total no more than 18.

The dragons agree to help you and request your return payment together.

XP Cost: 250 XP.

DRAGON ALLY, GREATER

Conjuration (Summoning)

Level: Sor/Wiz 9

Effect: Up to three summoned dragons, totaling no more than 27 HD, no two of which can be more than 30 ft. apart when they appear

As *lesser dragon ally*, except you may summon a single dragon of up to 27 HD or up to three dragons of the same kind whose HD total no more than 27.

The dragons agree to help you and request your return payment together.

XP Cost: 500 XP.

DRAGON ALLY, LESSER

Conjuration (Summoning)

Level: Sor/Wiz 5

Components: V, XP

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned dragon of up to 9 HD

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell summons a dragon.

You may ask the dragon to perform one task in exchange for a payment from you.

Tasks might range from the simple (fly us across the chasm, help us fight a battle) to the complex (spy on our enemies, protect us on our foray into the dungeon).

You must be able to communicate with the dragon to bargain for its services.

The summoned dragon requires payment for its services, which takes the form of coins, gems, or other precious objects the dragon can add to its hoard.

This payment must be made before the dragon agrees to perform any services.

The bargaining takes at least 1 round, so any actions by the creature begin in the round after it arrives.

Tasks requiring up to 1 minute per caster level require a payment of 100 gp per HD of the summoned dragon. For a task requiring up to 1 hour per caster level, the creature requires a payment of 500 gp per HD. Long-term tasks (those requiring up to 1 day per caster level) require a payment of 1,000 gp per HD. Especially hazardous tasks require a greater gift, up to twice the given amount.

A dragon never accepts less than the indicated amount, even for a nonhazardous task.

At the end of its task, or when the duration bargained for elapses, the creature returns to the place it was summoned from (after reporting back to you, if appropriate and possible).

XP Cost: 100 XP.

Special: Sorcerers cast this spell at +1 caster level.

PHANTASMAL THIEF

Conjuration (Creation)

Level: Greed 8, Sor/Wiz 8

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One object

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

An invisible force, not unlike an *unseen servant*, comes into being where the caster wishes.

On the caster's turn, this force steals objects from others as she inaudibly directs it to (a free action).

A *phantasmal thief* can only steal from creatures.

It cannot break into locked chests or steal unattended objects.

A *phantasmal thief* has a Hide modifier of +20 (useful against those who can see invisible creatures) and a Move Silently modifier of +20.

If a *phantasmal thief* goes undetected, it can steal any object a creature possesses but is not holding or wearing.

Even objects in a *bag of holding* can be stolen.

It can only steal objects, bring objects to the caster, or put them back where they came from.

It can take no other actions.

A *phantasmal thief* needs 1 round to steal an object and another round to bring it to the caster.

A *phantasmal thief* can only hold one object at a time, and the object becomes invisible in its grasp.

The thief cannot take an item if it is detected by the creature it's trying to steal from (with a Listen or Spot check).

However, the thief can repeat the attempt in the next round.

It cannot be harmed in any way, although it can be dispelled.

A *phantasmal thief* can steal an object from a creature's hand by making a successful disarm attempt.

It does this as if it had the Improved Disarm feat and a +20 Strength modifier.

If a *phantasmal thief* is used in this way, it disappears after it brings the stolen object to the caster.

Material Component: A spool of green thread.

DIVINATION

FIND THE GAP

Divination

Level: Asn 3, Pal 3, Rgr 3

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You gain the ability to perceive weak points in your opponent's armor.

Once per round, one of your melee or ranged attacks may disregard the target's armor, shield, and natural armor bonuses (including any enhancement bonuses) to Armor Class.

Other AC bonuses, such as dodge bonuses, deflection bonuses, and luck bonuses, still apply.

ENCHANTMENT

ENTICE GIFT

Enchantment [Mind-Affecting]

Level: Greed 2, Sor/Wiz 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

You enchant a creature so that it feels suddenly compelled to give you what it is holding when you cast this spell.

On the creature's next action, it moves as close to you as it can get in a single round and offers you the object as a standard action.

This spell allows you to act out of turn and accept the "gift" if the creature reaches you to hand you the object (assuming you have a free hand and can accept it).

The subject defends itself normally and acts as it wishes on subsequent rounds, including attempting to get the object back if desired.

If the subject is prevented from doing as the spell compels, the spell is wasted.

For example, if the subject is paralyzed and cannot move or drop the item, nothing happens.

HISS OF SLEEP

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 7

Components: V

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: No

Hissing and whispering softly, you lull the targets into a comatose slumber.

Sleeping creatures are helpless. Slapping or wounding awakens affected creatures, but normal noise does not. Awakening a creature is a standard action (an application of the aid another action). *Hiss of sleep* has no effect on creatures that can see you, creatures that have already rolled saving throws against your frightful presence, or unconscious creatures.

MADDENING WHISPERS

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 8

Components: V

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Hissing and whispering softly, you stir feelings of confusion and madness in the targets' minds. You can choose to inflict one of the following conditions upon any creatures that fail their saving throws.

Hysteria: The subjects fall into fits of uncontrollable laughing or crying (equal chance for either).

Hysterical creatures are unable to attack, cast spells, concentrate on spells, or do anything else requiring attention.

The only action such a character can take is a single move action per turn.

Panic: The subjects become panicked.

If cornered, a panicked creature cowers.

Violent Hallucinations: The subjects perceive any nearby creatures as dangerous enemies, attacking the nearest ones and fighting until the subjects are slain or until no more creatures are in sight.

Stupor: The subjects curl up on the floor and remain oblivious to events around them.

Characters in a stupor are effectively stunned and prone.

Maddening whispers has no effect upon creatures that can see you, creatures that have already rolled saving throws against your frightful presence, or unconscious creatures.

MESMERIZING GLARE

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 2

Components: S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One living creature/level, no two of which may be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Directing your gaze toward the target creatures, you cause them to stop and stare blankly at you, mesmerized.

Creatures that fail their saving throws gaze at your eyes, heedless of all else.

Affected creatures are dazed.

Any potential threat (such as an armed opponent moving behind the mesmerized creature) allows the creature a new saving throw.

Any obvious threat, such as casting a spell, drawing a sword, or aiming an arrow, automatically breaks the effect, as does shaking or slapping the creature.

A mesmerized creature's ally may shake it free of the spell as a standard action.

MISER'S ENVY

Enchantment (Compulsion) [Mind-Affecting]

Level: Brd 2, Sor/Wiz 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature and one object (see text)

Duration: 1 round/level

Saving Throw: Will negates and None (object)

Spell Resistance: Yes and No (object)

When you cast this spell, you designate a target creature and a target object, both of which must be within the spell's range.

If the target creature fails its saving throw, it becomes consumed by a powerful desire for the object.

For the duration of the spell, the creature seeks to obtain the object (going so far as to attack anyone holding or wearing it).

Once the creature gains possession of the object, it protects the item greedily, attacking anyone who approaches within 30 feet or who otherwise appears to be trying to take the object away.

Dragons, due to their greedy nature, take a -4 penalty on their saving throws against this spell.

MONSTROUS THRALL

Enchantment (Compulsion) [Mind-Affecting]

Level: Domination 9

Components: V, S, XP

Duration: Permanent

As *dominate monster* (see page 224 of the *Player's Handbook*), except the subject is permanently dominated if it fails its initial Will save.

A subject ordered to take an action against its nature receives a Will save with a -4 penalty to resist taking that particular action.

If the save succeeds, the subject still remains your thrall despite its minor mutiny.

Once a subject makes a successful saving throw to resist a specific order, it makes all future saving throws to resist taking that specific action without a penalty.

XP Cost: 500 XP per Hit Die or level of the subject.

SUPPRESS BREATH WEAPON

Enchantment (Compulsion) [Mind-Affecting]

Level: Brd 3, Sor/Wiz 3

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

The target of this spell cannot choose to use its breath weapon unless “forced” to do so by an enchantment (compulsion) spell of higher level, such as *lesser geas*.

TRUE DOMINATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Domination 8

As *dominate person* (see page 224 of the *Player's Handbook*), except that subjects forced to take actions against their nature receive a new saving throw with a –4 penalty.

EVOCATION

BOLT OF GLORY

Evocation [Good]

Level: Glory 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You project a bolt of positive energy at a single creature. You must make a successful ranged touch attack to strike your target.

The bolt deals 1d6 points of damage per two caster levels (maximum 7d6).

Against undead, evil outsiders, and creatures native to the Negative Energy Plane, the bolt instead deals 1d6 points of damage per caster level (maximum 15d6).

The bolt deals no damage to good outsiders or creatures native to the Positive Energy Plane.

CROWN OF GLORY

Evocation

Level: Glory 8

Components: V, S, M, DF

Casting Time: 1 standard action

Range: 120 ft.

Area: 120-ft.-radius emanation, centered on you

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You are imbued with an aura of celestial authority, inspiring awe in all lesser creatures that behold your terrible perfection and righteousness.

You gain a +4 enhancement bonus to Charisma for the duration of the spell.

All creatures in the spell's area with fewer than 8 Hit Dice or levels cease whatever they are doing and are compelled to pay attention to you.

Any such creature that wants to take hostile action against you must succeed on a Will save to do so.

Any creature that fails this save the first time it attempts a hostile action is enthralled for the duration of the spell (as the *enthral* spell) as long as it is in the spell's area, and it will not try to leave the area on its own.

Creatures with 8 or more Hit Dice are not affected by this spell.

When you speak, all listeners telepathically understand you, even if they do not understand your language. While the spell lasts, you can make up to three suggestions to creatures of fewer than 8 HD in range, as if using the *mass suggestion* spell (Will negates); creatures with 8 HD or more are not affected by this power.

Material Component: An opal worth at least 200 gp.

WINGBIND

Evocation [Force]

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: Reflex negates

Spell Resistance: Yes

A web of force surrounds the target, entangling it like a net. If the target fails its saving throw, it is entangled.

Perhaps most important, the creature cannot use wings to fly—hence the common name of this spell.

A creature flying with wings falls immediately if it is entangled by *wingbind*.

An entangled creature can escape with a successful Escape Artist check against a DC equal to the saving throw DC of the spell.

Like a *wall of force*, the web of force is impervious to most attacks: It is immune to damage of all kinds, cannot be burst with a Strength check, and is unaffected by most spells, including *dispel magic*.

Also like *wall of force*, the web is immediately destroyed by *disintegrate*, a *rod of cancellation*, a *sphere of annihilation*, or *Mordenkainen's disjunction*.

NECROMANCY

AURA OF TERROR

Necromancy [Fear, Mind-Affecting]

Level: Sor/Wiz 6

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

You become surrounded by an aura of fear.

Whenever you charge or attack, you inspire fear in all creatures within 30 feet that have fewer Hit Dice than your caster level.

Each potentially affected opponent must succeed on a Will save or become shaken—a condition that lasts until the opponent is out of range.

A successful save leaves that opponent immune to your frightful presence for 24 hours.

If you cast this spell when you already have the frightful presence ability or a fear aura, the existing ability becomes more effective in the following ways:

- The radius of the area affected by the ability increases by 10 feet.

- The Will saving throw to resist the fear effect has a DC equal to your normal frightful presence DC or this spell's save DC, whichever is higher.
- Creatures that would normally be shaken by your fear aura are frightened instead, and creatures that would normally be frightened are panicked.

DEATH DRAGON

Necromancy [Evil, Fear, Mind-Affecting]

Level: Clr 7

Components: V, S, DF

Casting Time: 1 round

Range: Personal

Effect: Dragon-shaped armor of energy and bones

Duration: 1 round/level (D)

You summon unholy power to gird yourself in a dragon-shaped cocoon of bones and negative energy.

The cocoon gives you a +4 enhancement bonus to your natural armor and a +4 deflection bonus to Armor Class, plus 1 temporary hit point per caster level (maximum 20). You are treated as armed when you make unarmed attacks, and you deal damage as if your limbs were short swords of an appropriate size.

You can use your off hand to attack, incurring the standard two-weapon fighting penalties (see page 160 of the *Player's Handbook*).

The *death dragon* prevents you from casting spells with somatic, material, or focus (but not divine focus) components, but does not otherwise hinder your actions or movement.

As a standard action, you may project a cone of *fear* or make a melee touch attack to use *inflict critical wounds* on the creature touched.

These effects are otherwise identical to the spells of the same names.

ENERVATING BREATH

Necromancy

Level: Sor/Wiz 8

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

You can modify your breath weapon so that it is laced with negative energy.

In addition to the normal energy damage your breath weapon deals, creatures that fail their saving throws against the breath weapon gain 2d4 negative levels.

The modification applies only to the breath produced as part of the casting.

If the subject gains at least as many negative levels as it has Hit Dice, it dies.

Each negative level gives a creature the following penalties: -1 penalty on attack rolls, saving throws, skill checks, ability checks, and effective level (for determining the power, duration, DC, and other details of spells or special abilities).

Additionally, a spellcaster loses one spell or spell slot from her highest available level.

Negative levels stack.

Assuming the subjects survive, they regain lost levels after a number of hours equal to your caster level.

Ordinarily, negative levels have a chance of permanently draining the subject's level, but the negative levels from *enervating breath* don't last long enough to do so.

If an undead creature is caught within the breath weapon, it gains 2d4×5 temporary hit points before taking damage from the breath weapon.

If not immediately lost, these temporary hit points last for 1 hour.

IMPERIOUS GLARE

Necromancy [Fear, Mind-Affecting]

Level: Sor/Wiz 6

Components: S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One living creature/level, no two of which may be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Will negates (see text)

Spell Resistance: Yes

Directing your gaze toward the target creatures, you instill terror and awe in their hearts.

The targets must make successful Will saves or cower.

The saving throw DC to resist this effect is either the normal save DC for the spell or the save DC for your natural frightful presence ability, whichever is higher. You cannot cast this spell if you do not have a frightful presence ability, either natural or magically bestowed.

REBUKING BREATH

Necromancy

Level: Sor/Wiz 4

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

You imbue your breath weapon with negative energy that rebukes undead in its area.

Undead within the area of your breath weapon that fail their saving throws against it are rebuked, and cower as if in awe for 10 rounds.

The modification applies only to the breath produced as part of the casting.

TRANSMUTATION

ANIMATE BREATH

Transmutation

Level: Sor/Wiz 7

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You imbue the energy of your breath weapon with coherence, mobility, and a semblance of life.

The animated breath then attacks whomever or whatever you designate.

The spell works only on breath weapons that deal energy (acid, cold, electricity, fire, or sonic) damage.

The animated breath has the following characteristics.

Type: Construct.

Subtype: The same as yours, or the energy type of your breath weapon if you do not have a subtype.

Size: One size smaller than you.

Hit Dice: Equal to the number of dice of damage your breath weapon deals.

The Hit Dice are 10-sided.

Constructs also receive bonus hit points based on size:

Diminutive, Tiny: —

Small: 10

Medium: 20

Large: 30

Huge: 40

Gargantuan: 60

Colossal: 80

Speed: Varies by breath type:

Acid: 20 ft., swim 90 ft.

Cold: 30 ft.

Electricity: Fly 100 ft. (perfect)

Fire: 50 ft.

Sonic: Fly 100 ft. (perfect)

AC: The animated breath's natural armor bonus varies by size:

Diminutive or Tiny: +2

Small or Medium: +3

Large: +4

Huge: +8

Gargantuan: +10

If your breath weapon uses force energy, this bonus is an armor bonus composed of force (like that granted by *mage armor*) rather than a natural armor bonus.

Attacks: The animated breath makes slam attacks according to its Hit Dice.

Damage: Each successful hit deals bludgeoning damage (varies by size of the animated breath; see below) plus energy damage equal to one die of the same size as your breath weapon damage.

Diminutive: 1d2

Tiny: 1d3

Small: 1d4

Medium: 1d6

Large: 1d8

Huge: 2d6

Gargantuan: 2d8

For example, a Colossal red dragon's animated breath is Gargantuan in size, so it deals 2d8 points of bludgeoning damage on a successful hit—plus 1d10 points of fire damage, because d10 is the size of die used to determine a red dragon's breath weapon damage.

Special Qualities: Creatures that hit the animated breath with natural weapons or unarmed attacks take energy damage as though hit by the breath's attack.

Construct Traits: The animated breath is immune to mindaffecting effects, and to poison, magic sleep effects, paralysis, stunning, disease, death effects, necromantic effects, and any effect that requires a Fortitude save unless it also works on objects.

The breath is not subject to critical hits, nonlethal damage, ability damage, ability drain, energy drain, or death from massive damage.

Saves: The animated breath has no good saves.

All of its save bonuses are 1/3 of its Hit Dice plus the appropriate ability modifier.

Abilities: The animated breath has no Constitution or Intelligence score.

Its Wisdom and Charisma scores are both 1.

Its Strength and Dexterity vary by size:

Diminutive: Str 6, Dex 16

Tiny: Str 8, Dex 14

Small: Str 10, Dex 12

Medium: Str 12, Dex 10

Large: Str 16, Dex 10

Huge: Str 20, Dex 8

Gargantuan: Str 24, Dex 6

Alignment: Always neutral.

An old brass dragon's animated breath has the following statistics:

Large construct (fire); HD 8d10+30; hp 74; Init +0; Spd 50 ft.; AC 13, touch 9, flat-footed 13; Atk +9/+4 (1d8+1d6 fire, slam); SQ burn, construct traits; AL N; SV Fort +2, Ref +2, Will -3; Str 16, Dex 10, Con —, Int —, Wis 1, Cha 1.

An old red dragon's animated breath has the following statistics:

Huge construct (fire); HD 16d10+40; hp 128; Init -1; Spd 50 ft.; AC 15, touch 9, flat-footed 15; Atk +15/+10/+5 (2d6+1d10 fire, slam); SQ burn, construct traits; AL N; SV Fort +5, Ref +4, Will +0; Str 20, Dex 8, Con —, Int —, Wis 1, Cha 1.

Casting the spell requires a standard action, which includes using your breath weapon.

When you use your breath weapon, it immediately takes animate form and attacks.

It does not form as a cone or a line, and does not deal damage when it is used to cast this spell.

BLINDING BREATH

Transmutation [Light]

Level: Sor/Wiz 3

As *breath flare*, except that targets that fail their saving throws against your breath weapon are permanently blinded, rather than dazzled.

BREATH FLARE

Transmutation [Light]

Level: Sor/Wiz 1

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

If your breath weapon uses fire or electricity, it is suffused with bright light.

In addition to taking the normal fire or electricity damage, creatures that fail their saving throws against the breath weapon are dazzled for 1 minute per caster level.

Sightless creatures are not affected by *breath flare*.

The modification applies only to the breath produced as part of casting.

BREATH WEAPON ADMIXTURE

Transmutation (see text)

Level: Sor/Wiz 8

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

Choose one type of energy other than that normally associated with your breath weapon: acid, cold, electricity, or fire.

You can modify your breath weapon to add an equal amount of the energy you choose.

For example, a wyrm red dragon whose breath weapon normally deals 22d10 points of fire damage could use this spell to produce a cone dealing 22d10 points of fire damage plus 22d10 points of acid damage.

Even opposed types of energy, such as fire and cold, can be combined using this spell.

The modification applies only to the breath produced as part of the casting.

When you use this spell to produce acid, cold, electricity, or fire energy, it is a spell of that type.

For example, *breath weapon admixture* is an acid spell when you cast it to add acid damage to your breath weapon.

BREATH WEAPON SUBSTITUTION

Transmutation (see text)

Level: Sor/Wiz 4

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

Choose one type of energy other than that normally associated with your breath weapon: acid, cold, electricity, or fire.

You can modify your breath weapon to use the selected energy type instead of its normal energy type.

For example, a mature adult red dragon whose breath weapon normally deals 14d10 points of fire damage could use this spell to produce a cone dealing 14d10 points of acid damage instead.

The modification applies only to the breath produced as part of the casting.

When you use this spell to produce acid, cold, electricity, or fire energy, it is a spell of that type.

For example, *breath weapon substitution* is an acid spell when you cast it to change your breath weapon to deal acid damage.

BURNING BLOOD

Transmutation [see text]

Level: Sor/Wiz 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level

Your blood becomes suffused with the same energy type that powers your breath weapon.

(You must have a breath weapon that deals acid, cold, electricity, or fire damage to cast this spell).

Whenever you take damage from a natural or manufactured weapon, a spurt of blood erupts in a 5-foot-radius burst from the wound, dealing energy damage to creatures in its area.

The energy-charged blood deals a number of points of damage equal to your caster level.

When you use this spell to produce acid, cold, electricity, or fire energy, it is a spell of that type.

For example, *burning blood* is an acid spell when you cast it to suffuse your blood with acid.

CHEAT

Transmutation [Evil]

Level: Brd 1, Greed 1, Sor/Wiz 1

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level or until used

Saving Throw: None

Spell Resistance: No

At one point during the duration of this spell, you can attempt to alter the outcome of a game of chance.

This spell can only affect nonmagical games, such as those using cards or dice.

It cannot affect a game involving magic, nor a magic item involved in a game of chance (such as a *deck of many things*).

Whenever a roll is made to determine the outcome of the game, a character under the effect of this spell may demand a reroll and take the better of the two rolls.

For example, Darkon is playing a game that he has a 1 in 4 chance of winning.

The DM secretly rolls 1d4 and tells the player that Darkon lost.

Because Darkon is under the effect of a *cheat* spell, the player can have the DM reroll.

The spell alters probability, so there is no subterfuge that another character could notice (except for the casting of the spell itself).

Focus: A pair of dice made from human bones.

DEAFENING BREATH

Transmutation [Sonic]

Level: Sor/Wiz 9

As *breath weapon admixture*, but you add sonic energy to your breath weapon.

In addition to dealing extra damage, you permanently deafen creatures that fail their saving throws against your breath.

This spell has no effect within an area of magical silence, such as that created by the *silence* spell.

DRACONIC MIGHT

Transmutation

Level: Pal 4, Sor/Wiz 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 minute/level (D)

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

The subject of the spell gains a +5 enhancement bonus to Strength, Constitution, and Charisma.

It also gains a +4 enhancement bonus to natural armor.

Finally, it has immunity to magic sleep and paralysis effects.

Special: Sorcerers cast this spell at +1 caster level.

DRACONIC POLYMORPH

Transmutation

Level: Sor/Wiz 5

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

As *polymorph*, except as follows: The assumed form can have no more Hit Dice than you have, to a maximum of 20 Hit Dice.

Your Strength and Constitution in the new form are above the average for the race or species into which you transform; your Strength is the average for the creature +8, and your Constitution is the average for the creature +2.

DRAGON BREATH

Transmutation

Level: Sor/Wiz 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You gain a breath weapon resembling that of a dragon.

When you cast this spell, you choose both the shape and energy type of the breath weapon, from the following options: line (acid, electricity, or fire) or cone (acid, cold, or fire).

A line is 5 feet high, 5 feet wide, and 60 feet long, while a cone is 30 feet long, 30 feet high, and 30 feet wide.

Once you make the selection of shape and energy type, it is fixed for the duration of the spell.

Using your breath weapon is a standard action.

The breath weapon deals 3d6 points of damage of the chosen energy type, plus an additional 1d6 points of damage for every two levels above 5th (to a maximum of 10d6 at 19th level).

Targets in the area may attempt a Reflex save for half damage.

You can use this breath weapon up to three times during the spell's duration (plus one additional use per two levels above 5th).

After using this breath weapon, you can't use it again for 1d4+1 rounds.

(Using this breath weapon has no effect on your ability to use other breath weapons you might have, and vice versa). You can't have more than one *dragon breath* spell active at the same time.

Even though using your breath weapon poses no danger to you, you don't gain any resistance or immunity to the energy type of the weapon.

Special: Sorcerers cast this spell at +1 caster level.

DRAGONSIGHT

Transmutation

Level: Brd 5, Sor/Wiz 5

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You gain the visual acuity of a dragon, including low-light vision, darkvision, and blindsense.

You can see four times as well as a normal human in lowlight conditions and twice as well in normal light.

(See the Dragon Sight sidebar, page 17).

Your darkvision has a range of 10 feet per caster level.

Your blindsense has a range of 5 feet per caster level.

You do not need to make Spot or Listen checks to notice creatures within range of your blindsense.

None of these effects stack with any low-light vision, darkvision, or blindsense you may already have.

Focus: A dragon's eye.

DRAGONSKIN

Transmutation

Level: Sor/Wiz 3

Components: S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level

Your skin toughens and becomes scaly like that of a chromatic dragon, of a color that you select.

You gain an enhancement bonus to your natural armor equal to +3, +1 per two levels above 5th (to a maximum of +5 at 9th level), as well as energy resistance equal to twice your caster level (maximum of 20 at 10th level) against the type of energy appropriate to the color you select: acid (black or green), cold (white), electricity (blue), or fire (red).

Material Component: A dragon's scale.

Special: Sorcerers cast this spell at +1 caster level.

EARTHBIND

Transmutation

Level: Drd 2, Sor/Wiz 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature

Duration: 1 minute/level (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes

You hamper the subject creature's ability to fly (whether through natural or magical means) for the duration of the spell.

If the target fails its saving throw, its fly speed (if any) becomes 0 feet.

An airborne creature subjected to this spell falls to the ground as if under the effect of a *feather fall* spell.

Even if a new effect would grant the creature the ability to fly, that effect is suppressed for the duration of the *earthbind* spell.

If the target makes a successful Fortitude save, its fly speed (including any new effect granted during the spell's duration) is reduced by 10 feet per caster level (maximum reduction 100 feet at 10th level).

This reduction can't bring the creature's fly speed down to less than 10 feet.

Earthbind has no effect on other forms of movement, or even on effects that might grant airborne movement without granting a fly speed (such as jumping or *levitate* or *air walk* spells).

ETHEREAL BREATH

Transmutation

Level: Sor/Wiz 5

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

You can modify your breath weapon to manifest on the Ethereal Plane instead of on the Material Plane.

(You must be on the Material Plane, or on another plane with a coexistent Ethereal Plane, for this spell to function).

Your breath weapon affects ethereal creatures as if they were material, and does not affect material creatures in its area.

The modification applies only to the breath produced as part of the casting.

FELL THE GREATEST FOE

Transmutation

Level: Asn 3, Clr 4, Pal 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Large or larger creature touched

Duration: 1 round/level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains the ability to deal greater damage against Large or larger creatures.

For every size category of an opponent bigger than Medium, the subject deals an extra 1d6 points of damage on any successful melee attack (+1d6 against a Large creature, +2d6 against Huge, +3d6 against Gargantuan, or +4d6 against Colossal).

Material Component: A dragon's claw or a giant's fingernail.

FLIGHT OF THE DRAGON

Transmutation

Level: Sor/Wiz 5

Components: V, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D)

A pair of powerful draconic wings sprouts from your shoulders, granting you a fly speed of 100 feet (average).

You can't carry aloft more than a light load.

When flying long distances, you can fly at 15 miles per hour (or 24 miles per hour at a hustle).

In a day of normal flight, you can cover 120 miles.

Material Component: A dragon's wing-claw.

Special: Sorcerers cast this spell at +1 caster level.

LOWER SPELL RESISTANCE

Transmutation

Level: Clr 4, Sor/Wiz 4

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 minute/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: No

This spell reduces the subject's spell resistance by 1 per caster level (maximum reduction 15).

This reduction can't lower a target's spell resistance below 0.

The target of the spell takes a penalty on its saving throw equal to your caster level.

MAGIC FANG, SUPERIOR

Transmutation

Level: Drd 5, Sor/Wiz 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Superior magic fang gives every natural weapon you possess an enhancement bonus on attack and damage rolls equal to +1 per four caster levels (maximum +5 at 20th level).

RAZORFANGS

Transmutation

Level: Sor/Wiz 2

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Choose one of your natural weapons that deals slashing or piercing damage (your bite or a single claw).

That natural weapon's threat range doubles (in most cases, becoming 19–20).

This spell does not stack with any other effects that increase a weapon's threat range.

This spell's name derives from a marked preference among dragons for improving their bite attack with this spell, but it works equally well on a claw attack.

SCALE WEAKENING

Transmutation

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: Yes

A dull gray ray projects from your hand.

You must succeed on a ranged touch attack to strike a target.

The target's natural armor bonus is reduced by 4 points, +1 point per two caster levels above 3rd (maximum reduction 10 points at 15th level).

This spell can't reduce a creature's natural armor bonus to less than 0, nor does it have any effect on an enhancement bonus to natural armor (such as that granted by the *barkskin* spell).

Material Component: A shed snakeskin.

SHARPTOOTH

Transmutation

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Choose one of your natural weapons (your bite, a single claw, a wing, a crush, a tail slap, or a tail sweep).

For the duration of the spell, that natural weapon deals damage as though you were one size larger than your actual size.

You cannot gain additional attack forms (such as a tail slap) by using this spell; you can only improve attacks you already possess.

This spell does not stack with itself.

This spell's name derives from a marked preference among dragons for improving their bite attacks with this spell, but it works equally well on claw, wing, tail, and crush attacks.

STUNNING BREATH

Transmutation

Level: Sor/Wiz 4

Components: S, B

Casting Time: 1 standard action

Range: Personal

Target: Your breath weapon

Duration: Instantaneous

You imbue your damaging breath weapon with concussive force that can stun those caught in its area.

Creatures that take damage from the breath weapon must make successful Fortitude saves (DC equal to your breath weapon save DC) or be stunned for 1 round.

The modification applies only to the breath produced as part of the casting.

STUNNING BREATH, GREATER

Transmutation

Level: Sor/Wiz 7

As *stunning breath*, but creatures that fail their Fortitude saves are stunned for 2d4 rounds.

VOICE OF THE DRAGON

Transmutation

Level: Brd 4, Dragon 4, Sor/Wiz 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You gain a +10 enhancement bonus on your Bluff, Diplomacy, and Intimidate checks.

You also gain the ability to speak and understand (but not read) Draconic.

At any time before the spell's duration expires, you can use a standard action to target a creature with a *suggestion* effect, which functions identically to the spell of that name (including range, duration, and other effects).

Doing this causes the *voice of the dragon* spell to end, though the *suggestion* itself lasts for the normal duration thereafter.

Special: Sorcerers cast this spell at +1 caster level.

VULNERABILITY

Transmutation

Level: Asn 4, Clr 5, Sor/Wiz 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell lowers the subject's damage reduction by 5 points (to a minimum of 5).

For instance, if you successfully cast *vulnerability* on a dragon with damage reduction 10/magic, its damage reduction becomes 5/magic.

For every four caster levels beyond 11th, the subject's damage reduction lowers by an additional 5 points: 10 at 15th and 15 at 19th.

WINGS OF AIR

Transmutation

Level: Sor/Wiz 2

Components: V

Casting Time: 1 standard action

Range: Touch

Target: Winged creature touched

Duration: 1 minute/level

Saving Throw: None (harmless)

Spell Resistance: No (harmless)

The creature you touch becomes more agile in the air, able to make quicker turns, and more maneuverable when flying.

The target must be capable of flight using wings.

The creature's maneuverability improves by one step—from clumsy to poor, poor to average, average to good, or good to perfect.

A single creature cannot benefit from multiple applications of this spell at one time.

WINGS OF AIR, GREATER

Transmutation

Level: Sor/Wiz 5

As *wings of air*, but the creature's maneuverability improves by two steps—from clumsy to average, poor to good, or average to perfect.

DRAGON MAGIC (3.5)

ABJURATION

JUSTICE OF THE WYRM KING

Abjuration [Force]

Level: Sorcerer/wizard 7

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 5 rounds

Spines of brilliant yellow light burst outward from your body, giving the impression that you are covered in glowing spikes.

You create a field of arcane force around your body that deals retaliatory damage to your attackers.

While this spell is active, any creature striking you with a nonreach melee weapon takes 4d6 points of damage.

As part of the casting of this spell, if you are a sorcerer you can sacrifice one additional sorcerer spell slot of up to 9th level; this increases the damage dealt by 2 points for every level of the sacrificed slot.

For example, if you use a 7th-level spell slot to cast *justice of the wyrm king* and sacrifice a 5th-level spell slot to augment it, you deal 4d6+10 points of damage to your attackers.

KISS OF DRACONIC DEFIANCE

Abjuration

Level: Sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: 40 ft.

Area: 40-ft.-radius emanation centered on you

Duration: Concentration + 1 round or until expended

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes; see text

A ring of radiant energy spirals out from your body, shattering the magical energies of others.

This spell projects magical interference from your body, making it more difficult for others to cast spells within its area.

Any enemy attempting to cast a spell within the area of a *kiss of draconic defiance* must succeed on a Fortitude saving throw; failure means the spell is lost (as if cast) but has no effect.

Any creature that successfully saves against this spell is immune to its effect for 24 hours thereafter.

Check spell resistance the first time a creature attempts to cast a spell within the area.

Furthermore, while this spell is active, you can automatically counter a single spell of 5th level or lower (as

per the counterspell action) as an immediate action, as long as the caster is within the area of the *kiss of draconic defiance*. Doing so immediately ends the duration of this spell. You do not expend any of your own spell slots to counter the other spell and need not make a Spellcraft check to identify it (though you can choose to do so to ensure that it's not higher than 5th level).

CONJURATION

CALL OF THE TWILIGHT DEFENDER

Conjuration (Summoning)

Level: Druid 6, sorcerer/wizard 6

Components: V

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One twilight guardian

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

The very ground erupts in a shower of stone and dirt, accompanied by a thunderclap.

Standing in the center of the damaged ground is a creature of stone, wood, and plant parts resembling the regal form of a guardian dragon.

This spell summons one twilight guardian (see page 121) to fight for you.

The spell functions like a *summon nature's ally* spell, but with one exception.

At any time, a summoned twilight guardian can sacrifice itself by simply touching you (a standard action); the twilight guardian is immediately destroyed, and you gain a number of hit points equal to 1/2 the twilight guardian's remaining hit points before its sacrifice.

Special: A character who learns this spell gains a +1 competence bonus on Knowledge (nature) checks.

UNDYING VIGOR OF THE DRAGONLORDS

Conjuration (Healing)

Level: Sorcerer 5

Components: V

Casting Time: 1 full round

Range: Personal

Target: You

Duration: Instantaneous

A golden ray of light erupts from the ground beneath you, bathing you in a column of healing illumination that dances with yellow flecks.

This spell converts arcane spell energy into pure draconic life energy, guiding it to repair damage to your body.

You immediately heal 5d6 points of damage.

As part of the casting of this spell, you can sacrifice one sorcerer spell slot of up to 9th level; doing this increases the healing by 1d6 points per level of the sacrificed slot.

For example, a 10th-level sorcerer who spent two 5th-level spell slots (one to cast the spell and another to enhance it) would heal 10d6 points of damage.

This spell does not channel positive energy as divine healing spells do, so it functions the same for undead spellcasters as it does for living casters.

Special: If you are of the dragonblood subtype (see page 4), this spell heals an extra 1 point of damage per die rolled.

DIVINATION

DETECT DRAGONBLOOD

Divination

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped emanation

Duration: Concentration, up to 10 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell functions like *detect evil*, except that you detect the auras of creatures of the dragon type or the dragonblood subtype (see page 4).

The amount of information revealed depends on how long you study a particular area or subject.

1st Round: Presence or absence of dragonblooded creatures.

2nd Round: Number of dragonblooded in the area, and the power of the most potent aura.

3rd Round: The power and location of each aura.

If an aura is outside your line of sight, you learn its direction but not its exact location.

If an aura is within your line of sight, you can make a Knowledge (arcana) check (DC 10 + target's HD) to determine whether the aura is of the dragon type or the dragonblood subtype.

Aura Power: The power of a dragonblooded creature's aura depends on its Hit Dice and the strength of its connection to dragons; see the accompanying table.

If a creature's aura falls into more than one category, the spell indicates the stronger of the two.

DETECT DRAGONBLOOD

Creature	Aura Power ^a			
	Faint	Moderate	Strong	Overwhelming
Dragonblood subtype (HD)	10 or lower	11–25	26–50	51 or higher
Dragon type (HD)	2 or lower	3–8	9–20	21 or higher

EYES OF THE ORACLE

Divination

Level: Cleric 6, sorcerer/wizard 6, wu jen 6 (all)

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until expended

Vague, translucent shadows of your body's form move just out of sync with your own motions, a visible sign that you exist in two places in time.

You can see into the future, slightly anticipating your opponents' next moves.

You gain a +2 insight bonus to Armor Class and a +2 insight bonus on Reflex saves.

Additionally, at the end of your turn, you can ready a single standard action regardless of the number of actions taken this turn.

Thus, you can move at your movement rate, make a single attack, and then at the end of your turn ready an action to cast a single spell with a casting time of one standard action. This behaves as a readied action in all other ways, including the change in your initiative.

If you take the readied action, the spell's effect ends immediately.

Special: If you are of the dragonblood subtype (see page 4), your bonus to Armor Class and on Reflex saves improves to +3.

DUAL-SCHOOL

BURST OF GLACIAL WRATH

Evocation/Transmutation [Cold]

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: 30 feet

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

A quick buildup of icy blue energy centered on your hand rapidly becomes an enormous bubble of frost that washes out over the landscape, freezing all in its path.

You create a burst of icy energy that flash-freezes any creatures within the spell's area.

The spell deals 1d6 points of cold damage per caster level (maximum 25d6 points).

Any living creature reduced to –1 or fewer hit points is not killed, but instead turned to solid ice (similar to *flesh to stone*, but with ice instead of stone).

Effectively, the spell can't reduce a creature's hit points below –9.

A successful Fortitude save halves the damage.

A creature turned to solid ice by this spell gains hardness 10 as well as immunity to cold and electricity.

However, it also gains vulnerability to fire, and any frozen creature reduced to –10 or fewer hit points by fire damage immediately melts (and dies).

Once this occurs, the creature can be brought back to life only with a *miracle*, *true resurrection*, or *wish* spell.

Special: A character who learns this spell gains resistance to cold 5, which stacks with any other resistance to cold he already possesses.

FEROCITY OF SANGUINE RAGE

Transmutation/Divination

Level: Assassin 4, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level or until expended

Blood seems to pour from your eyes as an irregular red glow whirls around you chaotically.

This spell imbues you with a supernatural ferocity, giving you an edge in melee combat.

You gain a morale bonus on your melee damage rolls (with weapons or natural attacks) equal to 1/2 your caster level.

This has no impact on your ability to cast spells or perform other actions.

Furthermore, while this spell is active, you can activate a true strike effect (as the spell) on yourself as a standard action.

This effect lasts for the normal duration of the true strike spell (a single attack), after which the entire spell's duration ends.

Special: if you are of the dragonblood subtype (see page 4), you cast this spell at +1 caster level.

FIRESTRIDE EXHALATION

Conjuration (Teleportation)/Evocation [Fire]

Level: Sorcerer/wizard 4, wu jen 4 (fire)

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.; see text

Area: Cone-shaped burst; see text

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

With a word and a gesture, you fill your lungs with swirling, burning energy.

Then, with a mighty exhalation, you flood the space before you with a powerful cone of fire.

As the last wisps of energy leave your lips, your body becomes part of the breath weapon, allowing you to flow through space and reform your body anywhere within the breath's area.

You breathe forth a cone of fire that deals 8d6 points of fire damage.

A successful Reflex save halves this damage, and spell resistance applies.

When you cast this spell, you have the option of becoming part of the breath weapon and teleporting instantly to any unoccupied space within the breath weapons area.

Your entire body need not fit within the breath's area, as long as your new space shares at least 1 square with the breath weapon's area.

You bring along any gear worn or carried (up to your maximum load).

You can't bring along other creatures except for your familiar.

You must make this decision when casting the spell, before any other effects of the breath weapon are resolved (such as saves, spell resistance, and so forth).

You aren't damaged by the spell's effect when you appear within its area.

LORD OF THE SKY

Evocation/Transmutation [Electricity]

Level: Shugenja 5 (air), sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

A swirling cloud of black mist surrounds you, shot through with bolts of lightning and covering you in powerful magic.

By casting this spell, you become more formidable in aerial combat, allowing you to deal with airborne enemies more easily.

You can fly at a speed of 40 feet with good maneuverability (or 30 feet if you wear medium or heavy armor, or carry a medium or heavy load).

If you already have a fly speed of 40 feet or greater, your fly speed improves by 10 feet, and your maneuverability improves to good (unless it's already better than that).

While airborne, you can use a swift action each round to fire a bolt of magical lightning as a ranged touch attack against any other airborne target within 60 feet.

This attack deals 1 point of electricity damage per caster level (maximum 20 points) and reduces the target's fly speed to 1/2 normal for the duration of the spell.

This speed reduction doesn't stack, so attacking the same target multiple times yields no extra reduction in fly speed (but continues to deal damage).

Furthermore, while this spell is active, you can activate one lightning bolt (as the spell) as a standard action.

Doing so ends the duration of *lord of the sky*, and if you do not have a natural fly speed, you drift to the ground as per the fly spell.

Special: If you are of the dragonblood subtype (see page 4), this spell grants you a fly speed of 60 feet (or 40 if encumbered as described above).

Dragonblooded casters who already have a fly speed of 60 feet or greater instead gain a +10-foot improvement to their fly speed.

PASSAGE OF THE SHIFTING SANDS

Transmutation/Evocation [Air]

Level: Druid 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D) or until expended

You entire body sparkles as color fades from your form.

A stiff breeze picks up as you collapse into thousands of particles of sand, sent flying on the warm wind.

You and all your belongings become a flying cloud of sand, swirling and formless yet retaining your consciousness.

You lose your normal shape and become a sand cloud,

taking up the same space you do in your normal form.

You can fly at a speed of 40 feet (perfect maneuverability),

but you lose any other movement rates you had in your normal form.

Treat this otherwise as *gaseous form* (PH 234).

If you end your movement in the same space as another creature, that creature is blinded for 1 round (Fortitude negates).

Spell resistance does not apply against this effect.

Furthermore, while this spell is active, you can activate a gust of wind effect (as the spell) as a swift action.

Doing so ends the duration of *passage of the shifting sands*.

Special: A blue dragon capable of casting 6th-level sorcerer spells can cast this spell as a swift action.

ROT OF AGES

Conjuration (Creation)/Necromancy

Level: Druid 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action; see text

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 2 rounds

Saving Throw: Fortitude partial

Spell Resistance: No

A cloud of rotting plant and animal matter swirls up from the ground around your target, encompassing it in a whirlwind of decay.

This spell encompasses your target in a cloud of rotting debris.

The target is sickened for 2 rounds.

Furthermore, all other creatures are treated as having concealment against the target.

A successful Fortitude save negates the sickness, but not the concealment.

Nonliving creatures are unaffected by the sickness effect.

A living creature already under the effect of *rot of ages* that fails a save against a second casting of the spell is nauseated (rather than sickened) for as long as both effects last (and then sickened for the remainder of the second spell's duration).

Special: A black dragon capable of casting 3rd-level sorcerer spells can cast this spell as a swift action.

VISION OF THE OMNISCIENT EYE

Divination/Evocation [Light]

Level: Bard 3, cleric 3, druid 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

Your eyes briefly flash with brilliant light, opening your mind to encompass every object nearby.

You gain great vision, allowing you to see everything in the surrounding area clearly.

You gain a +10 insight bonus on Spot checks and immunity to being dazzled or blinded (if you are already dazzled or blinded, you can see normally for the duration of the spell). Additionally, if you cast this while under the effect of *see invisibility*, *true seeing*, or any other spell that allows you to see invisible creatures, you can activate a *faerie fire* effect (as the spell) on any invisible creature or object within 60 feet as a swift action.

Doing this ends the duration of *vision of the omniscient eye*; the *faerie fire* effect lasts for 1 minute.

Special: A character who learns this spell gains a +1 competence bonus on Spot checks.

WINGBLAST

Evocation [Air]/Transmutation

Level: Druid 3, shugenja 3 (air), sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: See text

Effect: See text

Duration: 1 round/level (D) or until expended; see text

Saving Throw: None or Fortitude negates; see text

Spell Resistance: No or Yes; see text

Hazy wings of mist form at your sides, bearing you aloft.

At your command, the wings transform into a great blast of wind or a cloud of fog.

When you cast this spell, large wings of mist—resembling those of a dragon of your choice—form on your back.

You can fly at a speed equal to your base land speed

(maximum 60 feet) with good maneuverability.

You can fly if carrying a medium or heavy load or wearing medium or heavy armor.

As a swift action, you can choose to transform the wings into one of the two effects given below.

In either case, doing this immediately ends the spell's duration (if you are flying when this occurs, you fall).

- A 60-foot-long line-shaped gust of severe wind (as the *gust of wind* spell; a Fortitude save negates the effect and spell resistance applies).

- A 20-foot-radius cloud of fog centered on you (as the *obscuring mist* spell; no save or spell resistance applies). The cloud created lasts for 1 minute.

ENCHANTMENT

ADORATION OF THE FRIGHTFUL

Enchantment (Charm) [Mind-Affecting]

Level: Bard 3, cleric 3, hexblade 2, sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft. radius emanation, centered on you

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

A thunderous rumble echoes from within you, washing over cowed creatures and forcing them to show you respect.

Upon casting this spell, you radiate a magical aura that causes fearful creatures to shy away from harming you.

While this spell is in effect, any creature within the spell's area that is shaken, frightened, or panicked has its attitude toward you shifted to friendly (see *Influencing NPC Attitudes*, PH 72).

This effect ends for a given creature if the fear effect is removed, or if you or an ally attacks the creature or otherwise takes any hostile act toward it.

Special: A character who learns this spell gains a +1 competence bonus on Diplomacy checks.

MIND OF THE LABYRINTH

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level or until expended

As you close your eyes to mere slits, a black miasma of energy floats around your head.

sucking in light and the stray minds of others.

You twist your mind to become a magical labyrinth, bewildering unsuspecting spellcasters.

If an enemy casts a mind-affecting spell or ability that targets you, the enemy becomes *confused* for 1 round, disoriented by the mazelike confines of your consciousness.

(This *confusion* occurs whether or not the spell successfully affects you).

A successful Will save (DC 18 + your Int modifier) negates this effect and renders that foe immune to this casting of the spell.

Furthermore, while *mind of the labyrinth* is active, you can use an immediate action to activate a *dominate person* effect (as the spell, except that the duration is 1 hour) on one humanoid who casts a mind-affecting spell on you.

Doing so ends the duration of *mind of the labyrinth*, though the *dominate person* effect lasts for 1 hour thereafter.

Special: A character who learns this spell gains a +1 competence bonus on Bluff checks.

TRANCE OF THE VERDANT DOMAIN

Enchantment (Compulsion) [Mind-Affecting]

Level: Hexblade 3, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

A halo of green-gold light surrounds you, and then snakes outward into the mind of a nearby foe.

You project an instantaneous surge of mental energy that overwhelms a weak-minded foe.

The target stops and stares blankly, *fascinated* for 3 rounds.

In addition, any creature under the effect of this spell takes a -2 penalty on saves against mind-affecting effects you create.

Special: A green dragon capable of casting 6th-level sorcerer spells can cast this spell as a swift action.

DRAGONEYE RUNE

Universal

Level: Sorcerer/wizard 2, wu jen 2 (all)

Components: V, S

Casting Time: 1 standard action

Range: Touch

Effect: One personal rune or mark, all of which must fit within 1 sq. ft.

Duration: Permanent

Saving Throw: None

Spell Resistance: No

A brightly glowing sigil appears briefly, burning as though branded into the surface before fading to invisibility.

This spell allows you to brand a special *arcane mark* onto an object or creature, denoting that it is under your watchful eye.

The mark inscribed is unique to your casting of this spell; no two casters create the same mark.

It otherwise functions just as *arcane mark*, with two exceptions.

First, you can treat the marked object or creature as familiar for the purpose of any divination (scrying) spell.

Second, three times per day you can (as a swift action) detect the direction and distance of the marked object or creature from you.

If the creature is dead or on another plane, you gain no knowledge from this function.

Special: If you are of the dragonblood subtype (see page 4), any object or creature with a *dragoneye rune* gains a +2 bonus on saves against divination (scrying) spells or effects cast by other dragonblooded creatures.

EVOCATION

GLORIOUS MASTER OF THE ELEMENTS

Evocation [Acid, Cold, Electricity, Fire]

Level: Sorcerer/wizard 7

Components: None

Casting Time: 1 standard action

Range: 60 ft.

Target: One creature

Duration: 5 rounds

Saving Throw: None

Spell Resistance: Yes

A surge of arcane energy explodes from your fingertips, sending white, red, and yellow jolts lancing outward.

This spell allows you to channel the awesome energy of the primal elements.

For the duration of the spell, you can, as a standard action, make a ranged touch attack against any target within 60 feet.

If successful, you deal 1d6 points of energy damage per two caster levels (maximum 10d6).

Before making the attack, select the energy type from among acid, cold, electricity, and fire.

Additionally, each time you successfully make an attack on a target using this spell, you gain a cumulative +2 bonus on the damage roll for each subsequent attack on the same target.

This bonus is cumulative only for the duration of the spell and applies only to damage dealt by this spell.

Special: If you are of the dragonblood subtype (see page 4), your ranged touch attacks from this spell instead deal 1d8 points of damage per two caster levels (maximum 10d8).

HAZE OF SMOLDERING STONE

Evocation [Fire]

Level: Druid 7, sorcerer/wizard 6, wu jen 6 (fire)

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Glowing embers swirl around your body, then fly outward to pummel nearby foes with searing volcanic rock.

This spell projects hundreds of tiny, burning volcanic rocks outward from your body, dealing 4d6 points of bludgeoning damage and 8d6 points of fire damage.

If you cast *haze of smoldering stone* again before the end of your next turn, the second casting deals 5d6 points of bludgeoning damage and 10d6 points of fire damage.

Special: A character who learns this spell gains resistance to fire 3, which stacks with any other resistance to fire he already possesses.

WREATH OF FLAMES

Evocation [Fire]

Level: Druid 3, sorcerer/wizard 3, wu jen 3 (fire)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

A burst of white-hot fire springs into existence around you, swirling and twisting dangerously.

This spell surrounds you with white-hot flames.

At the end of each of your turns, any enemy adjacent to you or sharing your space takes 1d6 points of fire damage.

Your melee attacks deal an extra 1d6 points of fire damage.

Special: A red dragon capable of casting 5th-level sorcerer spells can cast this spell as a swift action.

NECROMANCY

CURSE OF THE ELEMENTAL LORDS

Necromancy

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 swift action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature/4 levels

Duration: 24 hours

Saving Throw: Will negates

Spell Resistance: Yes

Ghostly images of elemental beasts fly from your outstretched arm, striking foes and placing a shadowy curse upon them.

This spell places a curse on the targets, making them more susceptible to your magical attacks.

When you cast this spell, select acid, cold, electricity, or fire; any creature affected by the spell takes an extra 1d6 points of damage from any of your spells that deal damage of that energy type.

The extra damage isn't added to other effects, such as a weapon's *flaming* special ability, nor does it apply to damage dealt by other characters.

As part of the casting of this spell, you can sacrifice one additional sorcerer spell slot of up to 9th level; doing this increases the extra damage from the spell by 1 point per level of the sacrificed slot.

For example, if you spend a 4th-level spell slot to cast *curse of the elemental lords* and a 6th-level spell slot to augment it, the resulting curse adds 1d6+6 points of damage to the damage taken by targets of your spells of the chosen energy type.

Curse of the elemental lords can't be dispelled, but it can be removed by any effect that would remove a curse.

Special: If you are of the dragonblood subtype (see page 4), the extra damage from this spell also applies to your breath weapon (assuming that it deals the appropriate type of damage).

TRANSMUTATION

ASPECT OF THE CHROMATIC DRAGON

Transmutation (Polymorph) [Evil]

Level: Sorcerer 8

Components: V, S, Evil

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body becomes powerfully muscled as multicolored scales cover your flesh.

Four draconic heads sprout from your shoulders.

You take the form of an aspect of Tiamat (see page 110).

You gain 100 temporary hit points, which disappear at the end of the spell's duration.

For details, see The Polymorph Subschool on page 60.

Evil: Only evil-aligned characters can cast this spell.

ASPECT OF THE PLATINUM DRAGON

Transmutation (Polymorph) [Good]

Level: Sorcerer 7

Components: V, S, Good

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body expands in size while growing a sheen of platinum scales and mighty claws and teeth.

A pair of great wings sprouts from your back.

You take the form of an aspect of Bahamut (see page 108).

You gain 110 temporary hit points, which disappear at the end of the spell's duration.

For details, see The Polymorph Subschool on page 60.

(if you don't have access to *Draconomicon*, replace the aspect's Tempest Breath feat with Great Cleave).

Good: Only good-aligned characters can cast this spell.

CHANNEL THE DRAGON

Transmutation

Level: Wu jen 7 (all)

Components: V, S

Casting Time: 1 full round

Range: Personal

Target: You

Duration: 1 round/level

You feel the mighty force of elemental wyrms flood your spirit and reinforce your body.

Your flesh hardens, and your eyes gleam.

Few creatures represent both the mystic and the elemental more than dragons.

You tap into the spiritual might of these magnificent creatures to gain a breath weapon and a defensive ability based on your favored element (and the dragon variety channeled by the spell).

See the table below for details.

The breath weapon takes the form of a 15-foot cone-shaped burst.

Using the breath weapon requires a standard action, and each time you breathe, you must wait 1d4 rounds before breathing again.

Spell resistance does not apply against the breath weapon's effect.

Element (Dragon)	Breath Weapon	Defensive Ability
Earth (copper)	Slow, 1d6 rounds (Will negates)	DR 5/adamantine
Fire (red)	7d6 fire (Ref half)	Resistance to fire 30
Metal (silver)	Paralysis, 1 round (Will negates)	DR 5/adamantine
Water (white)	7d6 cold (Ref half)	Resistance to cold 30
Wood (green)	7d6 acid (Ref half)	Resistance to acid 30

DRAGONSHAPE, LEAST

Transmutation (Polymorph)

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your body shrinks to the size of a housecat, as red-brown scales replace your normal skin and your fingers turn into sharp claws. A sinuous barbed tail grows from the base of your spine, and two leathery wings burst from your back.

You take the form of a Tiny pseudodragon (MM 210).

For details, see The Polymorph Subschool on page 60.

DRAGONSHAPE, LESSER

Transmutation (Polymorph)

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

You feel a fire burning deep within you.

Crimson scales quickly grow over your body, a pair of great wings sprouts from your shoulders, and the scent of sulfur fills the air as you transform into a dragon.

You take the form of a Large young red dragon (see below).

You gain 60 temporary hit points, which disappear at the end of the spell's duration.

For details, see The Polymorph Subschool on page 60.

YOUNG RED DRAGON CR 7

FORM OF THE DESERT HUNTER

Transmutation (Polymorph);

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Brass scales grow from your flesh as a thick mane surrounds your face.

Your arms and legs become powerfully muscled and grow sharp claws as your body hunches over to become quadrupedal and a small pair of batlike wings sprouts from your shoulder blades.

You take the form of a dragonne (MM 89).

You gain 30 temporary hit points, which disappear at the end of the spell's duration.

For details, see The Polymorph Subschool on page 60.

HOARD GULLET

Transmutation

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level

You move your hands to your throat, chanting in low murmurs as you trace an imaginary line from your lower jaw down to your abdomen.

You gain a magical second stomach, which can be used to transport objects securely.

You can safely swallow and transport any object you could normally swallow (including items at least three size categories smaller than you).

The capacity of your *hoard gullet* is 100 pounds and/or 10 cubic feet per caster level (up to a maximum of 1,000 pounds and 100 cubic feet).

You can't remove individual items from your *hoard gullet*, but as a full-round action, you can expel its entire contents into your square.

It otherwise functions as a *bag of holding* (DMG 248).

At the end of the spell's duration, anything still in your second stomach is immediately and instantly brought up, falling to the ground next to you.

You can't have more than one *hoard gullet* active at one time; casting this spell before its duration ends the duration of the previous casting.

For example, if a 7th-level sorcerer with 2 hours left on his *hoard gullet* casts the spell again, the spell's duration resets to 7 hours.

Dragons often use this spell to transport their treasure hoards safely, but it is equally useful to those who would loot such hoards.

MAGIC OF THE DRAGONHEART

Transmutation

Level: Sorcerer 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level

You speak your own name as you clench your fists at your side.

An aura of bright energy forms around you, coalescing into the shape of a translucent dragon above your head.

This spell grants you a variety of benefits related to your draconic feats.

If you have no draconic feats, this spell has no effect.

While this spell is active, you are considered to have two more draconic feats than normal for the purpose of determining the benefit of your draconic feats.

For example, if you have the Draconic Heritage feat (see page 17), you would gain a +2 bonus to the specified saves for the duration of this spell, over and above the bonus already granted by that feat.

In addition, for the purpose of determining the benefit of a draconic feat, treat *magic of the dragonheart* as if its spell level equaled 1/2 your caster level.

For example, an 8th-level sorcerer that has the Draconic Flight feat (*Complete Arcane* 77) would gain a fly speed of 40 feet after casting this spell, as if it were a 4th-level spell.

Finally, you gain a competence bonus equal to 1/2 your caster level (maximum +10) on skill checks made with the class skill granted by your Draconic Heritage feat (if you have the feat).

MARK OF THE ENLIGHTENED SOUL

Transmutation [Good]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 3 rounds or until ended

Your hands glow softly, as if illuminated from within by a bright light.

This spell adds a touch of good to your magic, granting you special potency against your evil-aligned enemies.

Your spells gain the good descriptor.

Any spell you cast of 3rd level or lower deals +50% damage to evil-aligned creatures.

As part of the casting of this spell, you can sacrifice one sorcerer spell slot of 5th to 9th level; doing this increases the maximum level of spells affected by *mark of the enlightened soul* to the level of the sacrificed slot minus 1.

For example, if you spend a 4th-level spell slot to cast the spell and a 7th-level spell slot to augment it, you would deal extra damage to evil-aligned creatures with spells of 6th level or lower.

Special: A good-aligned caster of the dragonblood subtype can choose to end this spell's duration by activating *protection from evil* (as the spell, but targeting itself) as a swift action.

This effect lasts for the normal duration of *protection from evil*.

PATH OF FROST

Transmutation [Cold]

Level: Druid 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action; see text

Range: 30 ft.

Area: One 5-foot square per level (maximum 5), beginning adjacent to your space (S)

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

A pathway of solid ice races along the ground from your feet, creating a frozen strip that gives off wisps of moisture.

This spell creates a pathway or area of slippery ice on the ground.

Entering an affected square costs 2 squares of movement; a creature can avoid this hindrance by succeeding on a DC 10 Balance check.

If the creature fails the save by 5 or more, it not only spends 2 squares of movement to enter the affected square, but it also falls prone in that square.

In addition, any creature that starts its turn in an affected square or that enters an affected square takes 1 point of cold damage.

If a creature enters more than one affected square on its turn, it takes damage for each square.

This spell can be cast only on solid ground and has no effect when cast on the surface of water or other liquids.

If you cast *path of frost* again before the duration of the first spell ends, any squares within the area of both castings deal 2 points of cold damage.

More than two overlapping areas don't stack.

Special: A white dragon capable of casting 3rd-level sorcerer spells can cast this spell as a swift action.

PRIMAL HUNTER

Transmutation

Level: Druid 2, ranger 1, sorcerer 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 24 hours

Your muscles ripple with the memory of ancestral strength, tensing for quick action.

This spell causes your body to recall the strength of your forebears, hearkening back to a time when your ancestors constantly struggled for survival.

You gain a +5 competence bonus on Climb, Jump, and Swim checks.

If *primal hunter* is active on you at the same time as *primal instinct*, *primal senses*, or *primal speed*, you gain uncanny dodge (as the barbarian class feature).

If all four of these spells are active on you at the same time, you gain improved uncanny dodge (as the barbarian class feature; your barbarian level for the purpose of being flanked equals your caster level).

Special: If you are of the dragonblood subtype (see page 4), you can cast this spell as a swift action.

PRIMAL INSTINCT

Transmutation

Level: Druid 3, ranger 2, sorcerer 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 24 hours

Rings of blue-white energy travel from your feet to your head and back again, vanishing after encircling you in their glow.

This spell calls upon the raw natural forces within you to grant the basic instincts possessed by your ancestors.

You gain a +5 competence bonus on initiative and Survival checks.

If *primal instinct* is active on you at the same time as *primal hunter*, *primal senses*, or *primal speed*, you gain uncanny dodge (as the barbarian class feature).

If all four of these spells are active on you at the same time, you gain improved uncanny dodge (as the barbarian class feature; your barbarian level for the purpose of being flanked equals your caster level).

Special: If you are of the dragonblood subtype (see page 4), you also gain a +5 competence bonus on any one kind of Knowledge check, chosen when you cast *primal instinct*, and you are treated as trained in that skill.

PRIMAL SENSES

Transmutation

Level: Druid 4, ranger 3, sorcerer 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 24 hours

Translucent, catlike eyes appear over your own, flaring brightly for a moment before fading to invisibility.

This spell calls upon the primal forces of creation to grant you the senses of your primitive ancestors.

You gain low-light vision and a +5 competence bonus on Listen and Spot checks.

If *primal senses* is active on you at the same time as *primal hunter*, *primal instinct*, or *primal speed*, you gain uncanny dodge (as the barbarian class feature).

If all four of these spells are active on you at the same time, you gain improved uncanny dodge (as the barbarian class feature; your barbarian level for the purpose of being flanked equals your caster level).

Special: If you are of the dragonblood subtype (see page 4), you also gain blindsense out to 10 feet.

PRIMAL SPEED

Transmutation

Level: Druid 6, ranger 4, sorcerer 6

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 24 hours

A shower of sparks, flies off your shoulders, cascading to the ground and clinging to your arms and legs.

This spell draws upon the natural reflexes of hunters and prey, giving you the ability to react to danger as more primitive beings might.

You gain a +5 resistance bonus on Reflex saves and a +10-foot enhancement bonus to all your speeds.

If *primal speed* is active on you at the same time as *primal hunter*, *primal instinct*, or *primal senses*, you gain uncanny dodge (as the barbarian class feature).

If all four of these spells are active on you at the same time, you gain improved uncanny dodge (as the barbarian class feature; your barbarian level for the purpose of being flanked equals your caster level).

Special: If you are of the dragonblood subtype (see page 4), you can cast this spell as an immediate action.

SOUL OF ANARCHY

Transmutation [Chaotic]

Level: Bard 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour

A wreath of crackling energy encircles your body, twisting madly around you before sinking into your skin in an unsettling fashion.

This spell infuses your body with energy drawn from the primal forces of chaos.

You gain a +5 competence bonus on Escape Artist checks, as well on grapple checks to resist or escape a grapple.

Your natural weapons are treated as chaotic-aligned for the purpose of overcoming damage reduction.

Regardless of your normal alignment, you are considered chaotic-aligned for the purpose of effects that rely on alignment (such as *protection from chaos* or *chaos hammer*).

If *soul of anarchy* and *soul of light* are active on you at the same time, you gain damage reduction 3/evil or lawful.

If *soul of anarchy* and *soul of shadow* are active on you at the same time, you gain damage reduction 3/good or lawful.

Soul of anarchy counters and dispels *soul of order*, and vice versa.

Special: A chaotic-aligned dragon capable of casting 4th-level sorcerer spells can cast this spell as a swift action.

SOUL OF LIGHT

Transmutation [Good]

Level: Cleric 3.

paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour

Bright, clear light sprouts from your body, quickly flaring before fading to a faint white pulse.

This spell infuses your body with energy drawn from the Positive Energy Plane, making it easier to repair injuries.

Whenever you cast or are the target of a conjuration (healing) spell, you can choose for the spell to heal a number of extra points of damage equal to twice the spell's level.

If such a spell heals at least 10 points of damage, it also removes the fatigued condition from the target (or reduces exhaustion to fatigue).

If *soul of light* and *soul of anarchy* are active on you at the same time, you gain damage reduction 3/evil or lawful.

If *soul of light* and *soul of order* are active on you at the same time, you gain damage reduction 3/chaotic or evil.

Soul of light counters and dispels *soul of shadow*, and vice versa.

Special: A good-aligned dragon capable of casting 5th-level sorcerer spells can cast this spell as a swift action.

SOUL OF ORDER

Transmutation [Lawful]

Level: Paladin 1, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour

A shimmering field of silver energy flows up your body from your feet to your head, giving your skin a metallic sheen.

This spell infuses your body with energy drawn from the primal forces of law.

You gain a +2 morale bonus on Will saves made to resist enchantment effects.

Your natural weapons are treated as lawful-aligned for the purpose of overcoming damage reduction.

Regardless of your normal alignment, you are considered lawful-aligned for the purpose of effects that rely on alignment (such as *protection from law* or *order's wrath*).

If *soul of order* and *soul of light* are active on you at the same time, you gain damage reduction 3/chaotic or evil.

If *soul of order* and *soul of shadow* are active on you at the same time, you gain damage reduction 3/chaotic or good.

Soul of order counters and dispels *soul of anarchy*, and vice versa.

Special: A lawful-aligned dragon capable of casting 4th-level sorcerer spells can cast this spell as a swift action.

SOUL OF SHADOW

Transmutation [Evil]

Level: Blackguard 2, cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour

Flecks of darkness whirl in your eyes, and your shadow seems to grow and writhe, echoing darkness within you.

This spell infuses your body with energy drawn from the Negative Energy Plane.

Whenever you cast or are the target of an *inflict* spell, you can choose for the spell to deal a number of extra points of damage equal to twice the spell's level.

(Only undead casters typically choose for such spells to "deal" extra damage to them.)

If you cast such a spell that deals at least 10 points of damage to any one target, it also removes the fatigued condition from you (or reduces exhaustion to fatigue).

If *soul of shadow* and *soul of anarchy* are active on you at the same time, you gain damage reduction 3/good or lawful.

If *soul of shadow* and *soul of order* are active on you at the same time, you gain damage reduction 3/chaotic or good.

Soul of shadow counters and dispels *soul of light*, and vice versa.

Special: An evil-aligned dragon capable of casting 5th-level sorcerer spells can cast this spell as a swift action.

TOUCH OF THE BLACKENED SOUL

Transmutation [Evil]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 3 rounds or until ended

Inky black energy flows across your body, dripping to the ground and hissing with corruption everywhere it lands.

This spell adds a taint of evil to your magic, granting you special potency against your good-aligned enemies.

Your spells gain the evil descriptor.

Any spell you cast of 3rd level or lower deals +50% damage to good-aligned creatures.

As part of the casting of this spell, if you are a sorcerer you can sacrifice one sorcerer spell slot of 5th to 9th level; doing this increases the maximum level of spells affected by *touch of the blackened soul* to the level of the sacrificed slot minus 1. For example, if you spend a 4th-level slot to cast the spell and a 5th-level spell slot to augment it, you would deal extra damage to good-aligned creatures with spells of 4th level or lower.

Special: An evil-aligned caster of the dragonblood subtype can choose to end this spell's duration by activating *protection from good* (as the spell, but targeting itself) as a swift action.

This effect lasts for the normal duration of *protection from good*.

UNIVERSAL

ARCANE SPELLSURGE

Universal

Level: Sorcerer/wizard 7, wu jen 7 (all)

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Green and yellow sparks fly off your body as a light breeze picks up, lifting loose debris and swirling around with a faint howl.

This spell speeds the flow of magic through you, hastening your spellcasting ability.

Casting times for arcane spells are reduced as follows:

Normal Casting Time	New Casting Time
1 standard action	1 swift action
1 full round	1 standard action
2–10 rounds	1 round less than normal

Arcane spellsurge has no effect on any spell with a casting time of greater than 1 minute or a casting time not listed on the table.

You can't choose to ignore this effect; that is, you can't opt to cast a spell using its normal casting time.

Thus, if all your spells normally have casting times of 1 standard action, they take 1 swift action instead, and because you can't take more than one swift action in a round, you won't be able to cast multiple spells per round while under the effect of *arcane spellsurge*.

(If you have available spells with casting times of 1 full round, you are still able to cast more than one of those spells per round).

However, a sorcerer or other spontaneous arcane caster could cast a metamagic spell (as a standard action) and a normal spell (as a swift action) in the same round.

This spell doesn't stack with any other effect that reduces a spell's casting time.

Special: If you are of the dragonblood subtype (see page 4), you can cast this spell as a swift action.

DRAGONS OF FAERÛN (3.5)

ABJURATION

ABATE DRACORAGE

Abjuration

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One dragon

Duration: 1 day/level; see text

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

As you speak the ancient words, the torrent of rage begins to drain from the eyes of the dragon before you.

This spell helps calm the effects, of the Dracorage.

It instantaneously restores 5 points of Wisdom damage resulting from the Dracorage (but not other sources) and returns the dragon's negative attitude toward nondragons one step closer in the positive direction (from unfriendly to indifferent, for example).

In addition, the spell also protects the dragon from having to make another save against the Dracorage for a number of days equal to the caster's level (maximum 20 days).

This spell counters or dispels *aggravate Dracorage*.

Origin: The *abate Dracorage* spell was rediscovered by the song dragon, Karasendrieth the Dragon Bard, while carrying out research at the Ilmatari Monastery of the Yellow Rose.

ANTIDRAGON AURA, GREATER

Abjuration

Level: Cleric 8

Components: V, S, F

Casting Time: 1 standard action

Range: 20 ft.

Targets: One creature/level in a 20-ft.-radius burst centered on you

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes (harmless)

A phosphorescent green aura bursts from you, causing an area 20 feet around you to glow brightly.

This spell creates a phosphorescent aura of protection around the subjects.

This abjuration has four effects, as follows:

First, each warded creature gains a +4 deflection bonus to AC and a +4 resistance bonus on saves.

This benefit applies against all attacks, not just against attacks by dragons and dragonblood creatures.

Second, each warded creature gains spell resistance 25 against spells cast by dragons and dragonblood creatures.

Third, the abjuration blocks possession and mental influence, in the same manner as *protection from evil*. Fourth, if a dragon or dragonblood creature succeeds on a melee attack against a warded creature, the offending attacker takes 1d6 points of Strength damage (Fortitude save negates).

Focus: A tiny reliquary containing some sacred relic, such as a shard from the sword of a famous dragon slayer. The reliquary must be worth at least 500 gp.

Special: Members of the dragonslayer prestige class cast this spell at +1 caster level.

GAZE SCREEN

Abjuration

Level: Cleric 2, druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: 1 living creature

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cup your hands as if to catch the light and then bend them outward, causing the air in front of the recipient's eyes to take on a shimmering, reflective quality.

This spell creates a mirrorlike area around the recipient's eyes.

This effect moves with the recipient and does not affect his vision.

If the recipient is subjected to a gaze attack while the spell lasts, there is a 50% chance that he does not need to attempt a saving throw against the attack (just as if the recipient had averted his eyes).

The foe with the gaze attack does not have concealment from the recipient (see Gaze Attacks, DMG 294).

The recipient gets no additional protection from averting his eyes while the spell lasts, though he can shut his eyes and entirely avoid the gaze.

CONJURATION

ICY CLAW

Conjuration (Summoning)

Level: Sorcerer/wizard 8

Components: V, S, F

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: 5-ft. claw

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You conjure a wraithlike, faintly glowing cloud of white vapor that coalesces into a disembodied dragon's claw made of ice.

This spell creates a Medium four-taloned claw about 5 feet long.

The *icy claw* has a fly speed of 60 feet (perfect maneuverability), hit points equal to your full normal total, saving throw bonuses equal to your own, and AC 25 (+10 Dex, +5 natural).

It has damage reduction 15/magic and bludgeoning and is immune to cold, poison, critical hits, and magical effects that don't deal damage.

It takes half again as much damage (+50%) from fire.

An *icy claw* never provokes attacks of opportunity.

It cannot push through a *wall of force* or enter an *antimagic field*, but it is affected by *prismatic wall* or *prismatic sphere*.

A *disintegrate* spell or a successful *dispel magic* destroys it.

An *icy claw* attacks an opponent of your choice once per round, and its attack bonus equals your level + your Intelligence or Charisma modifier (for a wizard or sorcerer, respectively) +10 for the claw's Strength score (31).

An *icy claw* deals 1d6+15 points of damage plus 3d6 points of cold damage.

If it successfully damages a Medium or smaller foe, it attempts to start a grapple as a free action without provoking an attack of opportunity, with a grapple check bonus equal to your caster level +10.

On a successful grapple check, an *icy claw* deals normal damage (see above).

The claw ignores effects intended to mask or conceal the selected target, including darkness, invisibility, displacement, hiding in plain sight, and the like.

Directing an *icy claw* to a new target is a free action.

Arcane Focus: A white dragon's talon.

DIVINATION

GEM TRACER

Divination

Level: Sorcerer/wizard 7

Components: V, S, F

Casting Time: 1 round

Range: Touch

Target: One object

Duration: Permanent

Saving Throw: Will negates

Spell Resistance: No

You rub the gem over the target, causing an image of the target to gradually materialize in the depths of the gem.

As you complete the arcane gestures of the spell, the image becomes perfectly clear and then vanishes, leaving no trace of the spell on either the gem or the target.

Powerful true dragons of all varieties commonly employ this spell.

When the spell is cast, you create a permanent link between the focus and an object.

Anyone who holds the focus can sense the target of the spell as the spell *locate object*, but with unlimited distance, as a standard action.

In addition, anyone who holds the focus can scry the bearer of the object, as the *scrying* spell, as a standard action.

The bearer of the object is entitled to a Will save, but is treated as if familiar to you and as if you possessed a lock of his hair.

Focus: A gem worth at least 100 gp.

Origin: According to draconic legend, *gem tracer* was created by the first dragon whose hoard was plundered.

REVELATION

Divination

Level: Cleric 3, druid 5, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius burst

Duration: 1 round

Saving Throw: None

Spell Resistance: No

A burst of purple light reveals all that is hidden.

Revelation creates an area in which all things appear as they actually are.

The burst reveals objects in the same way as a *true seeing* spell, though it lasts for only 1 round.

Unlike with *true seeing*, all creatures in visual range can see the effect of the spell.

The spell does not dispel any magical effects—it only temporarily reveals them.

Should a creature pass through the burst during its duration, any hidden elements on it are revealed, though they are again hidden as soon as the creature steps out of the area.

Material Component: A clump of dandelion fluff and herbs worth 50 gp.

ENCHANTMENT

AGGRAVATE DRACORAGE

Enchantment (Compulsion) [Mind-Affecting]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One dragon

Duration: 1 round/level

Saving Throw: Will negates; see text

Spell Resistance: No

The ancient words are no sooner spoken than you behold the twinkling fire within the dragon's eyes flare into a conflagration.

This spell fuels the Dracorage for a short period.

It causes the target to instantly and fully succumb to the Dracorage, shifting the target's attitude toward nondragons to hostile and instilling in the dragon a bloodthirsty desire to murder and wreak havoc.

This usually causes the dragon (even a good metallic dragon) to immediately attack all nondragons nearby.

Because *aggravate Dracorage* manipulates the existing *Dracorage mythal*, the Will save against the spell is 4 higher than normal and has a DC of 18 + the appropriate ability modifier.

(Nevertheless, many casters of the spell will use subterfuge to trick the target dragon into allowing the spell to be cast freely upon it, thereby avoiding the dragon's high Will save bonus).

As with the *Dracorage mythal* itself, this spell ignores a dragon's spell resistance.

Aggravate Dracorage functions only during the period of the Dracorage and has no effect on dragons at other times.

This spell counters or dispels *abate Dracorage*.

Origin: As part of his research to control the *Dracorage mythal*, Sammaster (the once-human lich) crafted *aggravate Dracorage* and shared it with his most loyal minions.

COMPEL BREATH

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3, sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

Though the creature struggles to contain itself, its breath weapon bursts forth explosively.

The target of the spell is compelled to use its breath weapon as soon as it is capable.

For instance, if a dragon must wait 1d4 rounds, and it rolls a 2, it must use its breath weapon after 2 rounds.

The creature is capable of taking normal actions whenever its breath weapon is not available, though it cannot use any feats or spells that delay this result.

Special: Sorcerers cast this spell at +1 level.

CONE OF EUPHORIA

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3, druid 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: 20 ft.

Area: 20-ft. cone

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You dazzle your targets by breathing a beautiful cone of sparkling motes.

As a standard action, you can breathe a cone of sparkling motes that causes euphoria.

All those within the area must make a successful Will save or become dazed for 1d6 rounds.

You must wait 1d4 rounds between each use.

Material Component: A pinch of sparkling gem dust worth 10 gp.

DRAGONCALL

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer 6

Components: V

Casting Time: 10 min.

Range: 1 mile/level

Target: One creature

Duration: 1 day/level

Saving Throw: Will negates; see text

Spell Resistance: Yes

Your call for service immediately compels a nearby creature to hurry to your aid.

This spell allows you to send out a call to the nearest intelligent creature.

That creature receives one saving throw each day.

If it fails, it must come to your location using the most expedient means available.

The creature will not brave unnecessary harm, but it will disregard minor hazards (a snowstorm or traveling through bandit territory) to reach its destination.

If the creature makes a successful save, it is free to act normally that day, but it must continue to make a new save each day for the duration of the spell.

Once the creature arrives in your location, its reaction is improved by one step, but it is in no other way bound to you.

Special: Only dragons can cast this spell.

PACIFICATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 4, cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration, up to 1 min./level

Saving Throw: None

Spell Resistance: Yes

You calm your target by exhaling a peaceful breeze.

This spell allows you to exhale a calming breeze, soothing one creature of your choice.

The creature is affected as if by a *calm emotions* spell for as long as you concentrate, up to a maximum of 1 minute per caster level.

You cannot affect creatures with more Hit Dice than you have caster levels.

Special Material: If you blow dust of blue spinel (worth at least 50 gp) in the breeze when you cast the spell, its duration increases to 2 minutes per level.

EVOCATION

CHROMATIC RAY

Evocation [Evil]

Level: Blackguard 4, cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Target: One good dragon or dragonblood creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes (object)

You fire a brilliant ray of white, black, green, blue, and red at the dragon.

This spell calls upon the might of evil dragonkind to suppress the powers of a good dragon or dragonblood creature.

You must make a ranged touch attack to hit the target.

If the attack is successful, the dragon must make a successful Will save or become unable to use all its racial supernatural and spell-like abilities.

This does not include the spells a dragon casts from its sorcerer spell progression.

Special: If you receive your divine spells from Mask or Tiamat, you receive a +1 profane bonus on the ranged touch attack.

DRAGON BLIGHT

Evocation

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius burst

Duration: Instantaneous/1d4 rounds; see text

Saving Throw: Fortitude partial

Spell Resistance: Yes

A phosphorescent green cloud erupts in the air, causing the dragons within to shudder in revulsion.

This spell calls upon the power of ancient wyrm-slayers to inflict grievous harm on dragons.

The power takes the form of a phosphorescent cloud, causing great pain to dragons and dragonblood creatures within.

The cloud deals 1d8 points of damage per two caster levels (maximum 5d8) to creature with the dragonblood subtype and 1d6 points per caster level (maximum 10d6) to creatures with the dragon type.

Both kinds of creatures are also stunned for 1d4 rounds.

A successful Fortitude save halves the damage and negates the stun effect.

Special Component: By including the claw of a deep dragon (50–75 gp) of Large size or larger, the caster can increase the DC of the spell by 2.

The claw is expended in the casting.

LIGHT OF XYMOR

Evocation [Good]

Level: Cleric 5, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Duration: 2 rounds/level

Saving Throw: Will partial; see text

Spell Resistance: Yes

The object begins to glow brightly, imbued with the light of the Platinum Lord.

The touched object radiates light with all the same properties of a *daylight* spell.

The light from this spell also has a number of additional qualities.

First, the radiance imbued by this spell is considered natural daylight for the purposes of creatures harmed by that type of light.

Second, an evil dragon or dragonblood creature cannot enter the area of full daylight unless it makes a successful Will save (though it can enter the area of shadowy illumination outside this).

If it makes the saving throw, it can enter the area, but each round that it remains in the area of daylight, it takes 2d6 points of damage and is dazed.

A successful Will save halves the damage and negates the dazed effect.

Third, *light of Xymor* counters and dispels *shadow of the dark queen*, and it also counters and dispels any.

darkness spell of equal or lower level, such as *darkness*.

Special: Divine spellcasters who derive their power from Xymor (Bahamut) cast this spell at +1 caster level.

PEBBLE WIND

Evocation [Air]

Level: Sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 20-ft.-radius spread

Duration: 1 round

Saving Throw: See text

Spell Resistance: No; see text

At your verbal command, the air nearby whirls and rises, carrying loose dirt and small objects into the air to pelt your foes.

This spell functions as *gust of wind* (PH 238), except as noted herein.

Instead of a path of wind, you create a whirling mass of air. The whirlwind carries sand, dirt, and other small objects (nothing heavier than a chicken egg) into the air, creating an opaque cloud of debris.

Creatures must succeed on Fortitude saves as described in the *gust of wind* spell to avoid being checked or moved by the spell.

Creatures blown over or moved by the wind are pushed in a random direction.

The flying debris causes 1d4 points of bludgeoning damage per caster level (maximum 10d4); this damage is subject to damage reduction, and creatures are allowed a Reflex save for half damage.

If the debris is primarily composed of soft or very small objects, such as loose soil, the spell deals 1d4 points of damage per two caster levels (maximum 5d4).

The spell deals damage to objects within the spread, though hardness will usually negate this damage.

PLATINUM RAY

Evocation [Good]

Level: Cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Target: One evil dragon or dragonblood creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes (object)

With a gesture and a word, you fire a brilliant platinum ray at your target.

This spell calls upon the might of good dragonkind to suppress the powers of an evil dragon or dragonblood creature.

You must make a ranged touch attack to hit the target. If the attack is successful, the dragon must make a successful Will save or become unable to use all racial supernatural and spell-like abilities.

This does not include the spells a dragon casts from its sorcerer spell progression.

Special: If you receive your divine spells from Xymor (Bahamut), you receive a +1 sacred bonus on the ranged touch attack.

SCATTERGLOOM

Evocation [Darkness] Level Sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 100-ft.-radius burst

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: No

When you speak the triggering phrase, six puffs of shadow burst forth from your location, flying out to cover the six areas you target in your mind.

You create four cylinders of magical darkness within the area, which randomly and rapidly move around at ground level, giving concealment to nearby creatures.

The cylinders of shadow (called "glooms") occupy space as Medium creatures (a 5-foot square), are 10 feet tall, and cannot leave the area of the spell.

A creature fully engulfed by one or more of these glooms has concealment.

This concealment applies to attacks made against. or by creatures in these glooms.

The glooms are under your limited control.

While the spell is in effect, you can use a free action on your turn to direct a controlled gloom to attach itself to and envelop a particular target and follow it.

The target can attempt a Will saving throw to avoid being enveloped.

Success indicates the gloom dissipates; failure means the target is surrounded by magical darkness.

Once it is attached to a target, a gloom stays with that target until the spell's duration expires.

Origin: This spell was created centuries ago by a steel dragon who eschewed human contact and masqueraded as a cruel necromancer who dwelt in an isolated tower.

SHADOW OF THE DARK QUEEN

Evocation [Evil]

Level: Blackguard 4, cleric 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One touched object

Duration: 2 rounds/level

Saving Throw: Will partial; see text

Spell Resistance: Yes

The object begins to darken, imbued with the malice of the Dark Lady.

The touched object radiates darkness with all the properties of a

deeper darkness spell, except that evil dragons and dragonblood creatures can see normally.

The darkness from this spell also has a number of additional qualities:

First, the darkened area acts as a *desecrate* spell.

Second, a good dragon or dragonblood creature cannot enter the area of darkness unless it makes a Will save.

If it makes the saving throw, it can enter the area, but each round that it remains in the area of darkness, it takes 2d6 points of damage and is dazed.

A successful Will save halves the damage and negates the daze effect.

Third, *shadow of the Dark Queen* counters and dispels *light of Xymor*, and it also counters and dispels any light spell of equal or lower level, including *daylight* and *light*.

Special: Divine spellcasters who derive their power from Tiamat cast this spell at +1 caster level.

STEELSTING

Evocation [Force]

Level: Sorcerer/wizard 4

Components: V

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./levels)

Area: Cylinder 10 ft. wide, 25 ft. long

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Tiny pinpricks tingle over your entire body as if a swarm of needles is trying to emerge from beneath your flesh.

As you complete the incantation, daggerlike shards of force burst forth from your skin.

You create a brief maelstrom of daggerlike, flying darts of force that spin, slice, and rebound within the area.

All within the area take 1d6 points of force damage per caster level (maximum 10d6).

The name is a misnomer, since the spell creates neither steel nor a true sting.

Origin: This spell was created decades ago by Rythtalies of Amn, who patterned it after the *blade barrier* spell employed by a cleric of Bhaal.

He then taught it to Jalanvaloss.

NECROMANCY

SPECTRAL DRAGON

Necromancy

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One spectral dragon

Duration: Concentration, up to 1 round/level

Saving Throw: See text

Spell Resistance: Yes

You summon a draconic mass made entirely of shadow.

You create a Large dragon-shaped mass of shadows that attacks under your control.

Each round, you can move the *spectral dragon* up to 60 feet and attempt a bite attack against a single creature.

The attack bonus of the dragon is your caster level + your key ability modifier.

If the dragon hits with its bite, the target takes 1d6 points of Strength damage and gains one negative level.

After 24 hours, the victim is entitled to a Fortitude save to avoid losing the level permanently.

The mass itself is not dangerous to the touch, and creatures can pass through it without suffering harm.

A *spectral dragon* cannot be attacked or harmed by physical attacks, but *dispel magic*, *disintegrate*, a *sphere of annihilation*, or a *rod of cancellation* affects it.

Its AC against touch attacks is 9 (10 minus size bonus for a Large creature).

It can pass through solid objects, though it has no ability to see through them.

If an attacked creature has spell resistance, make a caster level check (1d20 + caster level) against that spell resistance the first time the *spectral dragon* strikes it.

If the attack is successfully resisted, the spell is dispelled.

If not, the dragon has its full normal effect on that creature for the duration of the spell.

An undead creature struck by the dragon's bite receives 1d4×3 temporary hit points that last for up to 1 hour.

Special: Shadow creatures (such as shadows, shadow dragons, and shadar-kai) and creatures descended from shadow (such as half-shadow dragons and shadovar) cast this spell at +1 caster level and deal an extra 1 point of Strength damage with each attack.

This bonus is also granted to creatures that derive their power from the Shadow Weave.

TRANSMUTATION

BLUNT NATURAL WEAPONS

Transmutation

Level: Assassin 3, bard 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

The target's bite, claws, and other natural weapons appear to grow smaller and weaker.

This spell weakens the natural weapons of the target creature.

All the damage dice of the target's natural weapons are decreased by 1 step for every five levels of the caster.

You cannot reduce the target's natural weapon damage to less than 1d2 points of damage.

Special: Dragonblood creatures cast this spell at +1 caster level.

DIMINISH BREATH WEAPON

Transmutation

Level: Bard 4, sorcerer/wizard 4

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 10 min./level

Saving Throw: Will negates

Spell Resistance: Yes

The creature looks confused as it exhales a much smaller breath weapon than expected.

The targeted creature's breath weapon loses 1 die of damage per caster level.

This spell cannot reduce the target's breath weapon to less than 1 die of damage.

Special: If you sprinkle ashes of an object damaged or destroyed by the breath weapon of the type of dragon being targeted (worth at least 100 gp), the caster level of the spell increases by two.

DRAGONBLOOD AFFINITY

Transmutation

Level: Bard 3, sorcerer 3 Components; V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)
Targets: One living dragon or dragonblood creature/level, no two of which are more than 30 ft. apart
Duration: 1 min./level
Saving Throw: Will negates (harmless)
Spell Resistance: Yes (harmless)
You feel the draconic blood stirring within you, strengthening your nearby kin.
This spell summons the strength of your dragon heritage to empower other draconic creatures, instilling them with a powerful sense of pride.
Each affected dragon or dragonblood creature gains a +2 bonus on saving throws, caster level checks, attack rolls, ability checks, skill checks, and weapon damage rolls.
Special: Only dragons and dragonblood creatures can cast this spell.

DRAGONBLOOD SPELL-PACT

Transmutation
Level: Sorcerer 5
Components: V, S, M, XP
Casting Time: 10 min.
Range: Touch
Targets: You and one willing creature touched
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
Magic swirls around you and your ally, sparkling with the intensity of secret knowledge.
This spell allows two willing dragonblood creatures to trade known spells.
The two creatures agree upon a spell to swap.
These spells must be of the same level, though not of the same school.
This effect does not grant the creatures the ability to learn more spells.
When a spell is traded, it is no longer in the repertoire of the trader.
Each participant must expend XP equal to 100 times the minimum caster level necessary to cast the spell.
For instance, Darsikh (an 11th-level half-bronze dragon sorcerer) casts this spell to trade with Arethnektihimon (an old brass dragon who casts as an 11th-level sorcerer). They agree that Darsikh will give Arethnektihimon *hallucinatory terrain* in return for *shadow conjuration*.
When the trade is decided and the spell cast, each expends 800 XP (100 × 8, since 8 is the minimum caster level necessary for sorcerers to cast 4th-level spells).
The old spells are no longer in the repertoire of the casters, and are replaced by the spells they have newly chosen.
Material Component: Blood; each participant must take 1d4 points of damage when they cut themselves in a blood ceremony to seal their trade.
XP Cost: 100 × the minimum caster level necessary to cast the traded spells.
Both participants expend this amount.
Special: Only dragons and dragonblood creatures can cast this spell.

THREESTEEL

Transmutation
Level: Sorcerer/wizard 3

Components: V
Casting Time: 1 standard action
Range: Touch
Target: One weapon of up to Large size in your possession
Duration: Instantaneous
Saving Throw: Fortitude negates (object)
Spell Resistance: No
You touch a weapon, causing it to shimmer briefly and then coalesce into three distinct duplicate images, each one gradually assuming physical form.
Once they become solid, the three weapons shoot forward at your targets.
This spell allows you to split a target weapon of up to Large size (such as a greatsword, shortspear, and so on) into three exact duplicates.
These duplicates immediately launch themselves at a target or targets of your choice within close range.
You can direct one or more of the weapons at the same target or split them up among three different targets.
Make a ranged attack roll for each weapon (using your ranged attack bonus or the ranged attack bonus of a fighter of your caster level, whichever is higher) as if you were proficient with the weapon in the normal manner.
(For example, if used on a greatsword, you would make a ranged attack roll as if you were proficient with the greatsword, without the normal penalty for using an improvised throwing weapon).
The weapon gains a +1 enhancement bonus on attack rolls and damage rolls if it does not have an enhancement bonus already.
Each duplicate that hits deals damage as if you had struck the target with the weapon in melee (including any special effects such as bane, smite evil, critical hits, sneak attack, Weapon Focus, and so on).
Your Strength bonus does not apply, since the force of the weapon comes from the spell, not your own Strength.
A duplicate does not get a flanking bonus or help a combatant get one.
Casting the spell destroys the targeted weapon to create the duplicates, and the duplicates are destroyed whether or not they hit.
Because of this, the spell is rarely used on magic weapons. It cannot be cast on artifacts, natural weapons, weapons animated with *animate objects* or similar spells, or weaponlike magical creations (such as *Mordenkainen's sword*).
Origin: This spell was created by Delgarth of Sumbarin, a long-forgotten minor realm along the banks of the River Dessarin.
Delgarth was a powerful barbarian who concealed his limited prowess as a sorcerer so he could use it as an unexpected advantage during the frequent assassination attempts launched by his estranged kinfolk.

DROW OF THE UNDERDARK (3.5)

ABJURATION

MAGICAL BACKLASH

Abjuration

Level: Bard 2, hexblade 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

With a word and a gesture, the target flares with crackling, violet-colored energy.

Magical backlash causes any spells affecting the target to resonate painfully.

For each spell currently in effect on the target (not counting *magical backlash* itself), *magical backlash* deals 2 points of damage per level of that spell.

For example, a creature targeted by *magical backlash* that is under the effects of *bull's strength*, *blur*, and *mage armor* spells would take 4 points of damage for *bull's strength*, 4 for *blur*, and 2 more for *mage armor* for a total of 10 points of damage.

CONJURATION

ENGULFING TERROR

Conjuration (Creation)

Level: Druid 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One gelatinous cube

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

The air wavers and shimmers, finally coalescing into a large cube of glistening ooze.

Engulfing terror creates a gelatinous cube (MM 201) in a space you designate.

The space must be large enough to accommodate the creature.

If not, the spell automatically fails.

Upon appearing, the cube acts on your turn, attacking the nearest living creature each round.

You have no control over it and cannot direct it.

The gelatinous cube remains until it is destroyed or has no remaining targets to attack, at which point it moves away in a random direction.

DIVINATION

COMBAT READINESS

Divination

Level: Assassin 1, bard 1, sorcerer/wizard 1

Components: V

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The target's eyes widen, and shine briefly with a white light.

The touched creature gains a +1 insight bonus on initiative checks for every three caster levels you have (minimum +1, maximum +6).

In addition, if the target is flanked, its opponents gain no bonus on attack rolls (but still gain any other benefits derived from flanking, such as extra sneak attack damage).

EVOCATION

SHADOW SHROUD

Evocation [Darkness]

Level: Cleric 2, sorcerer/wizard 2

Components: V

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: 1 round/level (D)

A thin membrane of darkness coats your body.

This spell negates any penalties or other harmful effects imposed by your light blindness or light vulnerability.

You also gain a +5 competence bonus on Hide checks made in areas of shadow or darkness.

As with any darkness spell, the effect is suppressed if you enter the area of a light spell of 3rd level or higher.

ILLUSION

SHADOW DOUBLE

Illusion (Shadow)

Level: Assassin 1, hexblade 2, sorcerer/wizard 2

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One shadowy duplicate

Duration: 1 round/level

Saving Throw: Will disbelief

Spell Resistance: No

You complete the incantation and nearby shadows gather together, assuming your approximate size and shape.

You create a shadowy duplicate of yourself at a place you indicate within range.

The *shadow double* attacks any adjacent target (regardless of the weapon it appears to wield), as you desire, starting in the round when you cast the spell.

It attacks on your turn once each round, striking with an attack bonus equal to your base attack bonus + the modifier for your spell save DCs.

Each hit deals 1 point of Strength damage to the target. The first time a target is hit, it can attempt a Will save to disbelieve the effect; this negates the damage and renders it immune to further attacks by the *shadow double*.

The *shadow double* occupies a space identical to yours.

It is not incorporeal, and thus can't share a space with another creature or object.

It can provide a flanking bonus against any creature that hasn't yet saved successfully against it.

The *shadow double* can strike incorporeal creatures, but not ethereal creatures.

Each round after the first, you can use a standard action to direct the *shadow double* to attack any other target.

To attack this new target, the *shadow double* can move to any new legal space within 30 feet (it moves by instantaneous teleportation).

If it is not commanded to switch targets, it continues to attack the same target.

A *shadow double* can be attacked.

It has an Armor Class equal to 10 + your size modifier + a deflection bonus equal to the modifier for your spell save DCs, and has one-fifth of your full normal hit points.

If the *shadow double* is reduced to 0 hit points, or if you create a second *shadow double* when the first still exists, the spell ends.

TRANSMUTATION

ARMORED VERMIN

Transmutation

Level: Cleric 4, druid 4

Components: V, S, DF; Drow

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to three vermin, no two of which are more than 30 ft. apart

Duration: 1 round/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The vermin you select pause for a moment as their exoskeletons take on a metallic sheen.

You cause the exoskeletons of up to three vermin to harden to the strength of steel.

The spell increases the vermin's natural armor bonus by 2.

This bonus increases by 1 for every three caster levels above 7th, to a maximum of +6 at caster level 19th.

The enhancement bonus provided by armored vermin stacks with the target's natural armor bonus, but not with other enhancement bonuses to natural armor.

A vermin with no natural armor has an effective natural armor bonus of +0.

BEBILITH BLESSING

Transmutation [Chaos, Evil]

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

A halo of blue fire flares around the target's head, which transforms into the head of an arachnid.

As the light fades, two oversized claws explode from the target's torso, snapping and clawing at the air.

You infuse a target with the essence of a bebilith (MM 42), causing it to gain the mandibles and claws of this demon.

The target gains two primary claw attacks (in addition to its normal claw attacks, if any) and a secondary bite attack (replacing its normal bite attack).

The claws deal 1d6 points of damage, and the bite deals 1d8 points (assuming Medium size).

If it is wielding a weapon, the target can attack with either a single claw or a bite as a secondary attack.

The target can sunder objects with its claw attacks as if it had the Improved Sunder feat.

The target's bite attack carries a poison (injury; Fort save equal to the spell's save DC; 1d6 Con/2d6 Con).

The target of this spell is also treated as an outsider of the evil subtype in addition to its normal type and subtypes.

DOMINATE VERMIN

Transmutation

Level: Cleric 3, druid 3

Components: V, S, DF; Drow

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One vermin

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

The creature's eyes change color to match your own.

It trembles for a moment as it adjusts to your psychic presence.

You invest your psyche into a single vermin creature, granting it your Intelligence.

While it is so affected, you can direct it with simple commands such as "Attack", "Run", and "Fetch".

Since you are in absolute control of the creature, it even follows suicidal commands.

You can continue to direct the vermin as long as it remains within range.

You need not see it to control it.

Changing your instructions or giving a new command is the equivalent of redirecting a spell, so it is a move action.

If the vermin is slain, your mind is forced out of the creature violently.

The experience deals 1d4 points of Wisdom damage to you.

DRIDERSHAPE

Transmutation (Polymorph)

Level: Sorcerer/wizard 5

Components: V, S; Drow

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your lower extremities transform, sprouting arachnid legs, as a large, pulsing thorax swells from your back.

You take on the form and abilities of a drider (MM 89).

You gain 20 temporary hit points, which disappear at the end of the spell's duration.
You don't gain the drider's spellcasting ability, but you retain your own.
(Spellcasting is subject to the drider's ability scores; for instance, you can't cast wizard spells above 5th level, since your new Intelligence is only 15).
Any held objects remain held in the new form (other gear melds into the new form as normal).
See page 59 for details of the polymorph subschool.

SNUFF THE LIGHT

Transmutation

Level: Assassin 1, bard 1, sorcerer/wizard 1

Components: S

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One nonmagical light source

Duration: Instantaneous or 1 round/level

Saving Throw: None

Spell Resistance: No

With a gesture, the light goes out.

Snuff the light extinguishes a single non-magical light source, such as a candle, torch, or lantern.

Against alchemical light sources, such as sunrods, you suppress the light for 1 round per caster level.

SPIDER FORM

Transmutation (Polymorph)

Level: Sorcerer/wizard 3

Your body bloats and writhes until eight massive spider legs burst through your flesh.

As the transformation finishes, your skin hardens into a dark exoskeleton.

As lesser spider form, except you take on the form and abilities of a Large fiendish monstrous spider (MM 289).

You are treated as having the spider's Hit Dice 4.

for the purpose of adjudicating the special abilities gained from the fiendish template.

SPIDER FORM, GREATER

Transmutation (Polymorph)

Level: Sorcerer/wizard 5

Your body inflates grotesquely as eight enormous spider legs burst through your flesh.

As the transformation finishes, your skin hardens into a dark exoskeleton.

As lesser spider form, except you take on the form and abilities of a Huge fiendish monstrous spider (MM 289).

You are treated as having the spider's Hit Dice (8) for the purpose of adjudicating the special abilities gained from the fiendish template.

SPIDER FORM, LESSER

Transmutation (Polymorph)

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round/level (D)

Your arms and legs wither away as eight spindly spider legs burst through your flesh.

As the transformation finishes, your skin hardens into a dark exoskeleton.

You take on the form and abilities of a Medium fiendish monstrous spider (MM 289).

You are treated as having the spider's Hit Dice (2) for the purpose of adjudicating the special abilities gained from the fiendish template.

You gain 5 temporary hit points, which disappear at the end of the spell's duration.

See page 59 for details of the polymorph subschool.

YOCHLOL BLESSING

Transmutation [Chaotic, Evil]

Level: Cleric 4

Components: V, S, DF; Drow

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

A husky female chuckle accompanies the violet light that limns the target, illuminating the eight writhing tentacles that ooze from its body.

You infuse a target with the vile power of a yochlol, one of the demonic handmaidens of Lolth, causing its body to erupt with eight tendrils.

As a full-round action, the target can make eight primary tentacle attacks (using its normal reach), each dealing 1d4 points of damage.

These attacks can't be combined with any other weapon or natural weapon attacks.

In addition, the target gains a deflection bonus to AC equal to its Charisma bonus (minimum +1, maximum +5) and resistance 10 to acid and electricity.

The target of this spell is also treated as an outsider of the evil and shapechanger subtypes (in addition to its normal type and subtypes).

ENEMIES AND ALLIES (3.0)

NECROMANCY

NEGATIVE ENERGY WAVE*

Necromancy

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: 50 ft.

Effect: 50-ft.-radius burst, centered on you

Duration: Instantaneous (see text)

Saving Throw: Will negates (see text)

Spell Resistance: Yes

You release a silent burst of negative energy from your body.

You can affect up to 1d6 hit dice worth of undead creatures per level (maximum 15d6).

Those closest to you are affected first; among equidistant undead creatures, weaker ones are affected first. The spell has one of two effects, which you select when you cast it.

Rebuked: The undead creatures cower as if in awe. (Treat them as stunned).

The effect lasts 10 rounds.

Bolstered: Undead creatures gain turn resistance of 1d4 plus your Charisma modifier (minimum +1).

The effect lasts 10 rounds.

* First appeared in *Tome and Blood*.

EPIC LEVEL HANDBOOK (3.0)

CONJURATION

GENESIS

Conjuration (Creation)

Level: Sor/Wiz 9, Creation 9

Components: V, S, M, XP

Casting Time: 1 week (8 hours/day)

Range: 180 ft. (see text)

Effect: A demiplane coterminous with the Ethereal Plane, centered on your location

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a finite plane with limited access: a demiplane. Demiplanes created by this power are very small, very minor planes.

You can only cast this spell while you are on the Ethereal Plane.

When you cast the spell, a local density fluctuation precipitates the creation of a demiplane.

At first, the fledgling plane grows at a rate of 1 foot in radius per day to an initial maximum radius of 180 feet as it rapidly draws substance from surrounding ethereal vapors and protomatter.

You determine the environment within the demiplane when you first cast *genesis*, reflecting most any desire you can visualize.

You determine factors such as atmosphere, water, temperature, and the general shape of the terrain.

This spell cannot create life (including vegetation), nor can it create construction (such as buildings, roads, wells, dungeons, and so forth).

You must add these things in some other fashion if you desire.

Once the basic demiplane reaches its maximum size, you can continue to cast this spell to enlarge your demiplane, adding another 180 feet of radius to your demiplane each time.

Material Component: A crystalline sphere; XP Cost: 5,000 XP.

EXEMPLARS OF EVIL (3.5)

ABJURATION

FRIENDLY FIRE

Abjuration

Level: Druid 4, sorcerer/wizard 4

Components: V

Casting Time: 1 immediate action or 1 full round; see text

Range: Personal

Target: You

Duration: Instantaneous or 1 round/level; see text

With an arcane word, you create a shimmering field of golden light around your body that pulses and wavers before vanishing.

Whenever you are the target of a ranged attack or a ranged touch attack, you can cast this spell to deflect the attack toward another target within 30 feet.

Use the same attack roll.

If the redirected attack hits the new target, resolve it as normal.

Otherwise, the attack fails.

If you extend the casting time to 1 full round, the duration changes from instantaneous to 1 round per caster level.

CONJURATION

RING OF FIRE

Conjuration (Creation) [Fire]

Level: Druid 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Effect: 10-ft.-radius area of lava; see text

Duration: 1 round/2 levels

Saving Throw: Reflex partial

Spell Resistance: No

You utter deep, rumbling tones as you make arcane gestures over the basalt disc, causing it to glow white hot and evaporate in your hand.

When you finish, the ground tears open and hot lava wells up from the depths of the earth.

You create an area of lava.

All creatures in the area that make successful Reflex saves take 1d6 points of fire damage plus 1 point per caster level. Creatures that fail their saves take 1d6 points of damage per caster level, to a maximum of 20d6 points.

Creatures that take at least 1 point of damage from *ring of fire* take an extra 1d6 points of fire damage each round for 3 rounds.

Each round after the first, the area of lava expands by 10 feet, becoming a 20-foot-radius ring on the second round, a 30-foot-radius ring on the third round, and so on.

As the *ring of fire* spreads, all creatures in its area must make new saving throws as described above.

When the spell's duration expires, the lava cools rapidly.

All creatures in the area at that time are held fast and cannot move until they make a successful Strength check or Escape Artist check against the spell's DC.

Breaking free of the lava is a full-round action.
Material Component: A disc of basalt (5 gp).

ILLUSION

ALIBI

Illusion (Phantasm) [Mind-Affecting]

Level: Assassin 1, bard 1, sorcerer/wizard 1

Components: V

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Will disbelief

Spell Resistance: Yes

Your target's expression changes as he suddenly recalls seeing you before.

You implant a memory of your presence in a target's mind. The creature recalls speaking with you or interacting with you sometime within the last 24 hours.

The phantasm is completely believable and the target's mind adapts to the mental intrusion, filling in any gaps in logic.

PHANTASMAL INJURY

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Bard 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 round/level (D)

Saving Throw: Will disbelief

Spell Resistance: Yes

You cast out your senses to fill your foe's mind, causing him to believe that he has suffered a mortal wound.

You create the sensation in the target's mind that he has been disabled (reduced to 0 hit points), restricting him to a single move action or standard action each turn.

If the target takes a standard action (or any kind of strenuous action), he takes 1 point of damage from *phantasmal injury*.

The target remains conscious unless the damage would actually reduce his hit points below 0.

This damage is real and remains after the spell's duration has expired.

PHANTASMAL WASTING

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Bard 4, druid 4, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One living creature touched

Duration: 1 round/level (D)

Saving Throw: Will disbelief

Spell Resistance: Yes

Your touch infects your foe's senses, leading him to believe that he has grown feeble and ancient.

With a touch, you cause a target to believe that he has lost his vitality and vigor.

For the duration of the spell, the target takes a –6 penalty to Strength, Dexterity, and Constitution.

NECROMANCY

INFALLIBLE SERVANT

Necromancy [Evil]

Level: Cleric 3, druid 4, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Target: Creature touched

Duration: 1 hour/level (D)

Saving Throw: Will negates; see text

Spell Resistance: No

You rub dung onto your minion's brow, intoning dark words to bind his life to your cause.

With a touch, you give a target a powerful motivation to avoid failure.

If the target is captured by nonevil creatures or is slain, his body dissolves into foul sludge.

The target is utterly destroyed and cannot be affected by any spell or effect that restores life (such as *true resurrection*) or a semblance of life (such as *animate dead*) short of *miracle* or *wish*.

When the target dissolves, all creatures within 30 feet must succeed on a Fortitude save against the spell's DC or become nauseated for 1d4 rounds.

Material Component: Dung from an evil creature.

STIFFEN

Necromancy

Level: Bard 3, cleric 3, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/level (D)

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

As you touch your foe, blue spiderwebs appear on his skin, slowing him down and gradually paralyzing him.

Upon touching a target, you set in motion a devastating effect that gradually deadens his nerves.

On the first round, the target takes a –4 penalty to his Dexterity score, and all his movement rates are reduced by 5 feet.

If the target can fly, his maneuverability is reduced by one step.

On the following round, the target can make a new Fortitude save to halt the spell's progress.

If the save fails, the penalty to Dexterity worsens to –8, his movement rates are reduced another 5 feet, and his maneuverability is reduced by another 2 steps.

This deterioration continues each round until the target succeeds on his save, at which point his condition no longer worsens, or until the target's Dexterity drops to 0.

Targets whose movement rates drop to 0 feet cannot move, and targets whose maneuverability drops below clumsy cannot fly.
All penalties vanish when the spell's duration expires.

WILLING SACRIFICE

Necromancy [Evil]

Level: Cleric 3, sorcerer/wizard 3

Components: V

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You utter a blasphemous phrase, and an ally erupts in pale gray flames.

When the fire sputters out, you feel the power of corruption coursing through your veins.

You deal 1d10 points of damage to a single evil creature within range that is a willing target.

As a result, you gain a profane bonus equal to half the number of points of damage dealt.

As a free action, you can use the bonus on attack rolls, damage rolls, saving throws, ability checks, or skill checks. You can use as much or as little of the bonus as you wish, but you must declare the use before the results of the die roll are known.

At the end of the spell's duration, any unused bonus points are lost.

The effects of multiple *willing sacrifice* spells are not cumulative; you can benefit from only one spell at a time.

TRANSMUTATION

ALLIANCE UNDONE

Transmutation

Level: Cleric 4, hexblade 2, sorcerer/wizard 4

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft./level radius

Duration: 1 minute

Saving Throw: None

Spell Resistance: No

You chant words of discord and unrest while making a breaking motion with your hands.

Those around you fall quiet as suspicion and distrust take root in their hearts.

Alliance undone suppresses the benefits gained from alliances, including, but not limited to, the effects of ceremony feats, teamwork benefits, companion spirits, and affiliations.

Material Component: A severed cord.

TOUCH OF CHAOS

Transmutation [Chaos, Evil]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/2 levels

Saving Throw: Fortitude negates

Spell Resistance: Yes

With a hand dripping with pale violet slime, you touch your foe, causing him to collapse into a pile of shifting tissue.

Your touch causes a creature to undergo a terrifying transformation.

A target that fails its save collapses into a spongy mass of flesh and sinew and takes 1 point of Wisdom drain.

Each round, as a free action, the target can attempt a new Fortitude save to regain its form.

If the save fails, the target remains transformed and takes another 1 point of Wisdom drain.

A target afflicted with *touch of chaos* cannot use possessions or cast spells.

It takes a -4 penalty to Dexterity, its land speed drops to 10 feet, and it loses all other modes of movement.

The target can lash out with tentacles that burst from its flesh, but it attacks the closest creature, whether friend or foe.

The attack is made at a -4 penalty and has a 50% miss chance.

If a tentacle hits the creature, it deals damage based on the afflicted target's size (Small, 1d3 points; Medium, 1d4 points; and Large, 1d6 points).

Material Component: Slime from a chaos beast.

TREACHEROUS WEAPON

Transmutation

Level: Bard 1, hexblade 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 immediate action; see text

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

You make a gesture accompanied by a sharp arcane command, and your foe's weapon gives off a momentary shower of sparks.

You can cast this spell on any creature wielding a manufactured weapon.

If the target fails its saving throw, the weapon takes a -1 penalty on attack rolls and damage rolls.

For every two caster levels beyond 1st, the penalty worsens by 1.

Thus, at 3rd level, the weapon takes a -2 penalty; at 5th level, a -3 penalty; at 7th level, a -4 penalty; and at 9th level or higher, a maximum -5 penalty.

When this spell is cast on a creature wielding a magic weapon, subtract the weapon's enhancement bonus from the penalty.

For example, a 1st-level caster would reduce a +1 *longsword* to a +0 *longsword*.

If you extend the spell's casting time to 1 standard action, the enhancement penalties double.

EXPANDED PSIONICS HANDBOOK (3.5)

ABJURATION

PSYCHIC TURMOIL

Abjuration

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 40-ft.-radius emanation centered on a point in space

Duration: 1 round/level

Saving Throw: Will partial; see text

Spell Resistance: Yes

With this spell, you create an invisible field that leeches away the power points of psionic characters standing within the emanation.

Nonpsionic characters are unaffected.

When the spell is cast and at the beginning of each of your subsequent turns, psionic creatures within the area of the *psychic turmoil* lose 1 power point per manifester level they have.

Characters who succeed on a Will save when they first come into contact with the emanation lose only half as many power points (round down) each round.

Characters get only one save attempt against any particular *psychic turmoil* effect, even if they leave the spell's area and later return.

Material Component: Five playing cards, which are torn in half when the spell is cast.

PSYCHIC TURMOIL, GREATER

Abjuration

Level: Cleric 7, sorcerer/wizard 7

Duration: 1 round/level

As *psychic turmoil*, except you gain 1 temporary hit point for each power point the spell takes from a psionic creature.

The temporary hit points last for 1 hour.

DIVINATION

BRAIN SPIDER

Divination [Mind-Affecting]

Level: Cleric 8, Mind 7

Components: V, S, M, DF

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Targets: Up to eight living creatures

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to eavesdrop as a standard action on the thoughts of up to eight other creatures at once, hearing as desired:

- Individual trains of thought in whatever order you desire.

- Information from all minds about one particular topic, thing, or being, one nugget of information per caster level.
- A study of the thoughts and memories of one creature of the group in detail.

Once per round, if you do not perform a detailed study of one creature's mind, you can attempt (as a standard action) to implant a *suggestion* in the mind of any one of the affected creatures.

The creature can make another Will saving throw to resist the *suggestion*, using the save DC of the *brain spider* spell. (Creatures with special resistance to enchantment spells can use this resistance to keep from being affected by the *suggestion*).

Success on this saving throw does not negate the other effects of the *brain spider* spell for that creature.

You can affect all intelligent beings of your choice within range (up to the limit of eight), beginning with known or named beings.

Language is not a barrier, and you need not personally know the beings—you can choose, for instance, "the nearest eight guards who must be in that chamber there". The spell cannot reach those who make a successful Will save.

Material Component: A spider of any size or kind. It can be dead, but must still have all eight legs.

PROBE THOUGHTS

Divination [Mind-Affecting]

Level: Mind 6, Wiz/Sor 6

Components: V, S

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

All the subject's memories and knowledge are accessible to you, ranging from memories deep below the surface to those still easily called to mind.

You can learn the answer to one question per round, to the best of the subject's knowledge.

You can also probe a sleeping subject, though the subject may make a Will save against the DC of the *probe thoughts* spell to wake after each question.

Subjects who do not wish to be probed can attempt to move beyond the power's range, unless somehow hindered.

You pose the questions telepathically, and the answers to those questions are imparted directly to your mind.

You and the target do not need to speak the same language, though less intelligent creatures may yield up only appropriate visual images in answer to your questions.

TELEPATHIC BOND, LESSER

Divination [Mind-Affecting]

Level: Cleric 3, Mind 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Targets: You and one willing creature within 30 ft.

Duration: 10 min./level

Saving Throw: None

Spell Resistance: No

You forge a telepathic bond with another creature with an Intelligence score of 6 or higher. The bond can be established only with a willing subject. You can communicate telepathically through the bond regardless of language. No special power or influence is established as a result of the bond. Once the bond is formed, it works over any distance (although not from one plane to another).

EVOCATION

DWEOMER OF TRANSFERENCE

Evocation

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One willing psionic creature

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With this spell, you form a radiating corona around the head of a psionic ally, then convert some of your spells into psionic power points.

When you finish casting *dweomer of transference*, a red-orange glow surrounds the psionic creature's head.

For the duration of the spell, any spells cast at the subject don't have their usual effect, instead converting themselves harmlessly into psionic energy that the subject can use as energy for psionic powers.

You can cast any spell you like at the subject, even area spells, effect spells, and spells for whom the subject would ordinarily not be a legitimate target.

The spells don't do anything other than provide the subject with power points, but you must still cast them normally, obeying the component and range requirements listed in the description of each spell.

For each spell you cast into the *dweomer of transference*, the psionic creature gets temporary power points, according to the following table.

The transference isn't perfectly efficient; for instance, if you cast a 7th-level spell at a psionic creature, it receives insufficient psionic power points to manifest a 7th-level power.

Spell Level	Power Points Acquired	Spell Level	Power Points Acquired
0	0	5th	8
1st	1	6th	10
2nd	2	7th	12
3rd	4	8th	14
4th	6	9th	16

The temporary power points acquired through a *dweomer of transference* dissipate after 1 hour if they haven't already been spent.

GLOSSOLALIA

Evocation [Sonic, Mind-Affecting]

Level: Bard 2

Components: V

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

You utter shrieks of nonsense and gibberish that thinking creatures find distracting and confusing.

The spell affects only creatures with Intelligence scores of 3 or higher.

Any such creatures within the spell's area must succeed on Fortitude saves or be stunned for 1 round (if they have Intelligence scores of 20 or higher), dazed for 1 round (if they have Intelligence scores between 10 and 19), or shaken for 1 round (if they have Intelligence scores between 3 and 9).

In addition, a creature within the spell's area loses any psionic focus it might have had and takes a -4 penalty on Concentration checks for 1 round.

These effects happen whether or not the creature succeeded on its save.

TRANSMUTATION

MENTAL PINNACLE

Transmutation

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

For a brief time, you achieve the mental dominance of a powerful psion, able to lash out at enemies using only the power of your mind.

You revel in your new mental powers to the point that you disdain using spells, even in the form of effects from magic items.

You gain a +4 enhancement bonus to Intelligence and Wisdom, 3 power points per caster level, and access to the following powers.

- Mind Thrust: Deal 1d10 damage.
- Ego Whip: Deal 1d4 Cha damage and daze for 1 round.
- Psionic Blast: Stun creatures in 30-ft. cone for 1 round.
- Id Insinuation: Swift tendrils of thought disrupt and confuse your target.
- Psychic Crush: Brutally crush subject's mental essence, reducing subject to -1 hit points.

You manifest the powers as a psion of your caster level does, creating displays as described in each power's description.

You lose your spellcasting ability, including your ability to use spell activation or spell completion magic items, just as if those spells were no longer on your class list.

For the duration of this spell, you use magic items and psionic items as if you were a psion with only the five powers given above on your class list.

Any unspent power points dissipate when the spell ends.

Material Component: A *potion of fox's cunning*, which you drink (its effect is overridden by the effect of this spell).

FAITHS AND PANTHEONS (3.0)

ABJURATION

SURELIFE

Abjuration

Level: Repose 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute/2 levels

This spell allows you to protect yourself against some condition—such as being immersed in boiling oil or being buried under an avalanche—that would ordinarily cause certain death.

You can only protect yourself against a natural occurrence or condition, not against a spell or the action of a creature (such as the breath of a dragon or the swords of a group of bandits).

You must specify the condition against which you wish to protect yourself, and the spell is effective only against that condition.

Should you be subjected to that condition during the duration of the spell, you feel no discomfort and take no damage from the condition.

However, the spell does not protect any items carried on your person.

At the end of the spell's duration, the condition has full normal effects on you if you are still subjected to it.

Material Component: An ointment of peach syrup and cinnabar.

NECROMANCY

UNDEATH TO DEATH

Necromancy

Level: Clr 6, Repose 6, Sor/Wiz 6

Components: V, S, M, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Several undead creatures within a 50-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Undeath to death snuffs out the life forces of undead creatures, killing them instantly.

The spell slays 1d4 HD worth of undead creatures per caster level (maximum 20d4).

Creatures with the fewest HD are affected first; among creatures with equal HD, those who are closest to the point of origin of the burst are affected first.

Material Component: The powder of a crushed diamond worth at least 500 gp.

FIENDISH CODEX 1 (3.5)

ABJURATION

EXORCISM

Abjuration

Level: Cleric 1, paladin 1

Components: V, S, M, DF

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

Saving Throw: Will negates; see text

You force your will against that of the possessing fiend, trying with all the strength of your faith to drive it from the body of the unfortunate creature before you.

After casting this spell, you can spend a use of your turn or rebuke undead ability (as a standard action) in an attempt to drive a possessing fiend from its host.

The host creature or object must be within range of your turn or rebuke attempt.

However, you do not make a turning check when you cast the spell.

The possessing fiend must instead succeed on a Will save or be driven from the host and shunted into the nearest available open space in its incorporeal form.

(See the rules for possession on page 21).

This use of turn or rebuke undead has no effect on undead within range of the ability.

A fiend driven from its host cannot attempt to possess that same host for 24 hours.

Material Component: A vial of holy or unholy water.

SHUN THE DARK CHAOS

Abjuration

Level: Cleric 8, sorcerer/wizard 8

Components: V, S, XP

Casting Time: 1 standard action

Range: Touch

Target: Willing creature touched

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You remove a vestige of the creature's Abyssal heritage, making it seem less fiendish.

You strip the taint of the Abyss from the creature touched. If the subject possesses any Abyssal heritor feats, one of them is immediately removed and replaced by any other feat for which the subject qualifies (except an Abyssal heritor feat).

The subject chooses both the feat lost and its replacement. If the lost Abyssal heritor feat was a prerequisite for other feats or prestige classes, the recipient loses access to those feats or prestige class abilities until it once again meets all the prerequisites.

The subject can regain its original Abyssal heritor feat (and lose the replacement feat) by means of *embrace the dark chaos, miracle, or wish*.

XP Cost: 250 XP.

CONJURATION

ABYSSAL RIFT

Conjuration (Calling) [Evil]

Level: Entropy 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Effect: 10-ft.-wide, 60-ft.-deep rift, up to 5 ft. long per caster level

Duration: 3 rounds

Saving Throw: Reflex negates; see text

Spell Resistance: Yes

The ground trembles as you cast this spell.

Suddenly, a yawning rift filled with black fire splits the ground, threatening to devour all.

This spell creates a rectangular rift in the ground.

You designate where the rift opens, but it must be in a straight line on relatively level ground.

Throughout the spell's duration, any conjuration spells with the evil descriptor that are cast within 60 feet of the rift function at caster level +2.

You cannot make the rift open beneath a fixed structure such as a tower, castle wall, or Daern's instant fortress.

However, you can make it open underneath a wagon, tent, or similarly mobile object or lightweight structure.

Untended objects wholly or partly in squares occupied by the rift fall in, taking 6d6 points of damage from the fall.

Any creature standing wholly or partly in the area where the rift opens must succeed on a Reflex saving throw or fall into it as well, taking a like amount of damage.

A successful save indicates that the creature avoids falling in by moving to the nearest safe square(s).

Anything that falls into the rift is scorched by black fire that deals 6d6 points of fire damage per round and 6d6 points of divine energy damage per round.

Energy resistance or immunity does not protect against the divine energy damage.

On the second and third rounds of the spell's duration, black fire continues to fill the rift.

In addition, the rift sprouts black fiery tentacles that reach out to all creatures within 60 feet of the rift's edge.

Such creatures are entitled to a Reflex save each round to avoid the fiery tendrils; a creature that fails its save is lashed for 3d6 points of fire damage and 3d6 points of divine energy damage.

At the end of the spell's duration, the rift closes.

Anything still trapped inside the rift when it closes plane shifts (as the spell) to a random layer of the Abyss.

All that remains of the rift is a permanent scar on the ground where it formed.

Material Component: A miniature adamantite and gem-studded pickaxe worth at least 1,000 gp.

SLIME WAVE

Conjuration (Summoning)

Level: Cleric 7, druid 7, Ooze 7

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 15-ft.-radius spread

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

You summon forth a column of green slime that quickly flattens out over a circular area 30 feet in diameter.

You create a wave of green slime that begins at the location you choose (within range) and violently spreads to the limit of the area.

The wave splashes and splatters as it moves, clinging to the walls and ceilings of enclosed areas as well as the floor.

In addition, one patch of green slime adheres to each creature in the area for every 5 feet of its face.

Green slime devours flesh and organic materials on contact and even dissolves metal.

A patch of green slime deals 1d6 points of Constitution damage per round that it is in contact with flesh.

Against wood or metal, green slime deals 2d6 points of damage per round, ignoring the hardness of metal but not that of wood.

It does not harm stone.

On the first round of contact, the slime can be scraped off a creature (most likely destroying the scraping device), but after that it must be frozen, burned, or cut away—processes that damage the victim as well as the slime.

Extreme cold or heat, sunlight, or a *remove disease* spell destroys the green slime.

Unlike normal green slime, the slime created by this spell evaporates at the end of the spell's duration.

Material Component: A few drops of stagnant pond water.

DIVINATION

DEMONCALL

Divination [Evil]

Level: Blackguard 2, Demonic 2

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: Instantaneous

Your eyes roll back into your head as you call to Dagon for his unique insight.

Suddenly you become aware of some fragment of forbidden lore previously lost to you.

You tap into the forbidden knowledge of demons, gaining a +10 profane bonus on any one skill check involving Knowledge (arcana), Knowledge (the planes), or Knowledge (religion).

The check must be made immediately, in the same turn as you cast the spell.

FIENDISH CLARITY

Divination [Evil]

Level: Cleric 7, Demonic 7, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level

You manifest the acute senses of a powerful fiend.

You gain darkvision out to 60 feet and can see in magical darkness as if it were normal darkness. In addition, you can see invisible creatures and objects as if affected by a *see invisibility* spell, and you can use *detect good* at will.

ENCHANTMENT

BECKONING CALL

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 2, Temptation 2

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Concentration plus 3 rounds

Saving Throw: Will negates

Spell Resistance: Yes

With a word and a gesture, you draw the targeted creature toward you.

The subject becomes overwhelmed with the desire to be near you.

It remains aware of its surroundings and breathes normally, but it must take any actions it can to reach a square adjacent to you if it is not already by your side.

The subject must take at least one move action each round and can activate spells or use abilities only if doing so brings it physically closer to your position.

It avoids obvious danger where it can, but if given no other choice, it takes the least dangerous route to reach your side. If prevented from reaching you, the subject can do nothing but stand motionless and watch you in despair.

Each round at the end of its turn, regardless of whether it reaches you or not, the subject can attempt a new saving throw to end the effect.

Once the subject reaches a square adjacent to your space, it stands motionless and can take no actions.

If you move, it moves to follow you.

The subject is considered flat-footed against you, but if you take any obvious hostile actions against it, the spell ends at the start of its next turn.

Thus, you could use this spell to lure a creature to your side and gain a round's worth of sneak attacks against it before it came to its senses.

MORALITY UNDONE

Enchantment [Evil, Mind-Affecting]

Level: Bard 5, cleric 5, Corruption 4

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One non-evil living creature

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

With a cruel utterance and a complex set of hand signs, you cause great evil to swell within the targeted creature, overwhelming and confusing its sense of morality like a magnet touching a compass.

You temporarily turn one creature evil.

The chaotic/neutral/lawful component of the subject's alignment remains unchanged.

The subject retains whatever outlook, allegiances, and relationships it had before, as long as they do not conflict with its new alignment.

Otherwise, it acts with its new selfish, bloodthirsty, and cruel outlook in all matters.

For example, a wizard affected by this spell might not immediately turn on her fighter companion, particularly in the middle of a combat when they're fighting on the same side.

But she might allow her friend to be hurt or killed if he is carrying a valuable item that she could recover later, or she might use spells to control or deceive him in order to get what she wants.

She might even decide to betray or attack her friend at a later time if significant potential gain is involved.

An atonement spell restores the subject's original alignment, but a remove curse spell has no effect.

Arcane Material Component: A powdered or splintered holy symbol.

ILLUSION

VISION OF ENTROPY

Illusion (Phantasm) [Fear, Mind-Affecting]

Level: Bard 2, Entropy 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates; see text

Spell Resistance: Yes

With a whisper and wave of your hand, you invite the targeted creature to behold the seething chaos of the infinite void surrounding the Abyss.

Each round, the subject must make a successful Will save or be overwhelmed with madness and awe at the sight of the images of the Abyss forming in its mind.

The subject becomes shaken on the first failure, frightened on the second, panicked on the third, and unconscious on the fourth.

A creature that faints from the effect of this spell remains unconscious for 1 hour or until revived.

Any successful saving throw merely spares the subject the effect of the next failure for that round; any already existing condition persists until the next failure changes it or until the spell ends.

NECROMANCY

EXTRACT GIFT

Necromancy [Chaotic]

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M, XP

Casting Time: 1 hour

Range: Close (25 ft. + 5 ft./2 levels)

Target: One demon and one willing creature

Duration: Permanent

Saving Throw: Will negates; see text

Spell Resistance: Yes

You painstakingly create two magic circles.

In one stands a demon, and in the other stands your willing subject.

After an hour-long ritual incantation, you pull a roiling black cloud of demonic essence out of the demon and channel it into the willing recipient.

You transfer a portion of a demon's essence into a willing creature, enhancing one of its ability scores or skills.

The demon must be either allied and willing or captured and constrained (as if by a *planar binding* spell).

An unwilling demon can make a Will save to negate the effects of the spell.

Both the recipient and the donor demon must remain within specially prepared circles inscribed on the floor for the entire casting time.

These circles are similar to summoning circles and can be integrated into a summoning circle without impacting the function of either spell, but neither the demon nor the recipient need be summoned specifically into the circle for this spell's circle—each needs only to stand within it during the casting.

The benefit granted by this spell can be applied to one of the recipient's ability scores (as an enhancement bonus) or to one of his skills (as a competence bonus), as you designate.

Once this decision is made, it cannot be changed, and the effect cannot be dispelled except by a caster of higher level than you were when you cast the spell.

If you wish, you can increase the save DC for this spell by allowing the demon power over the target.

The specific concessions you can make to the demon and the corresponding increases to the save DC are given below.

+1 Increase: The donor demon can track the recipient's location and condition, effectively gaining the effect of a constant *status* spell on it.

+3 Increase: The demon can see through the recipient's eyes and hear through its ears.

+5 Increase: The demon can telepathically communicate with the recipient as if by *Rary's telepathic bond*.

+7 Increase: The demon can use *demand* on the recipient once per day as a spell-like ability (caster level equals your caster level at the time you cast *extract gift*).

The effects of the concessions are cumulative, but the save DC increases do not stack.

Thus, allowing the demon to track the recipient, use its senses, and communicate with it telepathically would increase the save DC by 5.

Increasing the save DC in this manner is an evil act, since it grants the demon more than the usual opportunity to work its evil.

Thus, using this option adds the evil descriptor to the spell. **Ability Bonus:** The recipient gains an enhancement bonus to one ability score of your choice.

The value of this bonus depends on your caster level and the abilities of the donor demon, as given below.

The maximum value of the bonus you can grant is one-fourth of your caster level (rounded down).

Thus, you could grant the recipient up to a +2 enhancement bonus at 9th level, or up to a +5 bonus at 20th level.

You can always choose to grant a bonus lower than your maximum.

The donor demon's ability modifier for the corresponding score must be at least twice that of the granted bonus.

Thus, to grant a +2 bonus to Dexterity, you must extract essence from a demon with a Dexterity score of at least 18 (such as a marilith).

To grant a +5 bonus to Charisma, you need a demon with a Charisma score of at least 30 (such as a lilitu).

Skill Bonus: The recipient gains a competence bonus on checks made with one skill of your choice.

The value of this bonus depends on your caster level and the abilities of the donor demon, as given below.

The maximum value of the bonus you can grant is one-half your caster level (rounded down).

Thus, you could grant the recipient up to a +4 enhancement bonus at 9th level, or up to a +10 bonus at 20th level.

You can always choose to grant a bonus lower than your maximum.

The donor demon's ranks in the selected skill must be at least twice the granted bonus.

Thus, to grant a +5 bonus on Disable Device checks, you must extract essence from a demon with at least 10 ranks in Disable Device (such as a babau).

To grant a +10 bonus on Bluff checks, you need a demon with at least 20 ranks in Bluff (such as a balor).

Material Component: The circles in which the donor and recipient stand during the casting must be inscribed with expensive paints made from powdered diamonds, cold iron, blood, and various rare and exotic pigments.

Each circle must also be decorated with five flawless sapphires, which serve as conduits between the donor demon and the recipient.

The total cost of these pigments and gems depends on the nature and magnitude of the bonus to be imparted.

For an ability bonus, the cost equals the bonus squared times 1,000 gp (1,000 gp for +1, 4,000 gp for +2, 9,000 gp for +3, 16,000 gp for +4, and 25,000 gp for +5).

For a skill bonus, the cost equals the bonus squared times 100 gp (100 gp for +1, 400 gp for +2, 900 gp for +3, 1,600 gp for +4, 2,500 gp for +5, 3,600 gp for +6, 4,900 gp for +7, 6,400 gp for +8, 8,100 gp for +9, and 10,000 gp for +10).

XP Cost: You must spend XP equal to 1/25 the required cost of the material components when you cast this spell.

POX

Necromancy [Evil]

Level: Corruption 6, druid 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Up to one living creature/level, no two of which can be more than 10 ft. apart.

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You shout, "A pox on you!" With a mere gesture, lesions erupt on the flesh of your enemies, and their pallor turns a sickly yellow.

Each affected creature takes 1d4 points of Constitution drain.

SOUL LINK

Necromancy [Mind-Affecting]

Level: Bard 6, sorcerer/wizard 7, Temptation 7

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

You draw forth a scrap of parchment and speak the name written on it in blood.

The parchment turns to dust as you touch the targeted creature with you other hand, creating a potent link between the two of you.

You can use a *soul link* to monitor the subject's condition and location, as though it were affected by a *status* spell. You and the subject can also communicate telepathically as long as you are both on the same plane.

By concentrating, you can also use *screaming* upon the subject, which is permitted no saving throw to resist.

In addition, the subject takes a -4 penalty on any saving throw made to resist a mind-affecting spell or ability you use against it.

At the time the spell is cast, you can choose to take a -2 penalty to one of your ability scores in order to grant the subject a +2 enhancement bonus to that same ability score. If you use this option, the subject chooses the ability score affected for both of you and takes a -4 penalty on its saving throw to resist the effects of this spell.

You can have only one *soul link* in effect at a time.

If you cast this spell a second time, the *soul link* already active ends immediately, regardless of the outcome of the second casting.

Material Component: A piece of parchment with the target's name (or detailed physical description) written upon it in your own blood.

TRANSMUTATION

ABYSSAL FRENZY

Transmutation [Evil]

Level: Cleric 8, Fury 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal, humanoid, magical beast, or monstrous humanoid

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You speak a dark epithet while brandishing your holy symbol. Suddenly, the creature you targeted transforms into a demonic version of its true self.

You cause the subject creature to deform.

The transformation is shocking to behold—the creature's skin sprouts thick fur or jagged scales, horns grow from its head and body, its hands twist into talons, and so forth.

This transformation bestows the following advantages and disadvantages on the subject for the duration of the spell:

- Base land speed increases by 30 feet.
- +3 enhancement bonus to natural armor.
- The subject gains two claw attacks if it did not already have them.

If it did not previously have claws, the base damage for its new claw attacks depends on its size, as given on the following table.

If it already had claw attacks, the base damage increases by one die type, as if the creature had become one size category larger.

Target Size Base Claw Damage

Fine 1d2

Diminutive 1d3

Tiny 1d4

Small 1d6

Medium 1d8

Large 2d6

Huge 2d8

Gargantuan 4d6

Colossal 2d8

• **Rend (Ex):** If the subject hits a target with both claw attacks in a single round, it can rend the flesh, dealing damage equal to the twice its claw damage, modified by double its Strength modifier.

• The subject gains darkvision out to 60 feet, or its existing darkvision extends by 60 feet.

• +2 profane bonus to Strength and Constitution.

• -2 penalty to Dexterity.

The subject cannot communicate, cast spells, use spell-like abilities, activate magic items, or use weapons other than its natural ones while under the effects of this spell.

ABYSSAL FRENZY, MASS

Transmutation [Evil]

Level: Fury 9

Targets: One animal, humanoid, magical beast, or monstrous humanoid/level, all of which must be within 30 ft. of each other

This spell has the same effects as *abyssal frenzy*, except as indicated above.

BEFOUL

Transmutation [Evil]

Level: Cleric 8, Corruption 8, Ooze 8

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Area: Water in a volume of 100 ft./level by 100 ft./level by 10 ft./level (S)

Duration: Permanent; see text

Saving Throw: None; see text

Spell Resistance: No

You wave a hand over a body of water, and it instantly takes on the color, odor, and consistency of a filth-ridden cesspool.

The caster makes water (or other liquid) foul and mildly poisonous.

A creature that drinks the affected water must succeed on a Fortitude saving throw or take 1d4 points of Constitution damage.

Any creature with 2 or more Hit Dice that swims or immerses itself halfway or more in the water must attempt

a saving throw as if drinking it; a creature with fewer than 2 HD dies immediately if immersed to such a degree. If the spell can affect only part of a larger body of water, the befouled water mixes with the pure water. If the entire body of water is no more than four times the size of the affected area, all the water is befouled 24 hours later, but the damage from drinking or swimming in it is only 1d2 points of Constitution damage. If the body of water is more than four times but less than twenty times the affected area, all the water tastes foul after 24 hours but has no damaging effect. If the entire body is larger than twenty times the affected area, the fouled water mixes with the clean water and loses all effect after 24 hours.

Material Component: A dead fish and a drop of poison.

DEMON WINGS

Transmutation [Evil]

Level: Blackguard 3, Demonic 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You raise your arms dramatically, whisper the name "Pazuzu" twice, and watch as demonic wings sprout from your back.

Wings sprout from your back, allowing you to fly at your normal land speed with average maneuverability.

You can carry weight while flying according to your normal carrying capacity, and greater burdens affect your fly speed as they would your land speed.

DEMONFLESH

Transmutation [Evil]

Level: Blackguard 1, Demonic 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

Your flesh becomes thick and leathery like a demon's.

This spell grants you a +1 enhancement bonus to your natural armor for every five caster levels you possess (minimum +1, maximum +4).

A creature without natural armor has an effective natural armor bonus of +0.

DESPOIL

Transmutation [Evil]

Level: Cleric 9, Corruption 9

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Area: 100 ft./level-radius spread

Duration: Instantaneous

Saving Throw: Fortitude partial (plants) or Fortitude negates (other living creatures)

Spell Resistance: Yes

The rotting plant matter melts away in your hand as a wave of sickly green energy washes over the ground, withering plants and weakening all creatures and objects in its wake.

You blight and corrupt a vast area of land.

Any plant creature in the area that has more than 1 Hit Die must succeed on a Fortitude saving throw or die.

Even with a successful save, it takes 5d6 points of damage. Less hardy plants simply shrivel and die, and the ground cannot support such plant life ever again.

Every other living creature in the area (other than you) must succeed on a Fortitude saving throw or take 1d4 points of Strength damage.

Every unattended object in the area, including structural features such as walls and doors, grows brittle and loses half its hardness (rounded down, to a minimum of 1), then takes 1d6 points of damage, which automatically bypass any remaining hardness.

Only a *wish* or *miracle* spell will enable normal plants to grow in the area ravaged by a *despoil* spell.

Damaged objects can be repaired with *mending* spells.

Material Component: The fresh or preserved corpse of a living creature.

EMBRACE THE DARK CHAOS

Transmutation [Chaotic]

Level: Cleric 8, sorcerer/wizard 8

Components: V, S, XP

Casting Time: 1 standard action

Range: Touch

Target: Willing living creature touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You infuse the creature touched with raw chaos channeled from the Abyss.

Somehow it looks more fiendish than before.

The subject immediately gains one Abyssal heritor feat for which it qualifies, chosen by you at the time of casting.

If the subject does not qualify for the designated feat, the spell fails.

This Abyssal heritor feat replaces one feat of the subject's choice that it already possesses.

The replaced feat need not have been an Abyssal heritor feat.

If the lost feat was a prerequisite for other feats or prestige classes, the subject loses access to those feats or prestige class abilities until it once again meets all the prerequisites.

Once the subject has the Abyssal heritor feat, only a *miracle*, *shun the dark chaos*, or *wish* spell can reverse the change.

XP Cost: 250 XP.

INNER BEAUTY

Transmutation

Level: Bard 4

Components: V, S, F

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Target: One creature

Duration: 10 minutes/level

Saving Throw: Will negates; see below

Spell Resistance: Yes

You change the subject's physical appearance to reflect its personality and morality, revealing its true beauty or exposing its revolting ugliness.

Although this spell is particularly effective for rooting out demons that have used magic to assume pleasing forms, it also works well for augmenting good-aligned creatures. If the subject is evil, its body and visage twist and deform, taking on a hideous, bestial appearance.

In addition, the subject takes a -4 penalty to Dexterity and Charisma (minimum 0) for the duration of the spell. Furthermore, on the round that this transformation occurs, every creature within a 15-foot radius of the subject that can see it must succeed on a Fortitude save or become nauseated for 1d4 rounds by this sudden revelation of wickedness.

If the subject is good, its body and visage grow lovelier and more elegant, taking on an appearance of rapturous beauty and grace.

In addition, the subject gains a +4 sacred bonus to Dexterity and Charisma for the duration of the spell.

Furthermore, in the round when this transformation occurs, every creature within a 15-foot radius of the subject that can see it must succeed on a Fortitude save or be stunned for 1 round by this sudden revelation of virtue. If the targeted creature is neither good nor evil, the spell has no effect.

Focus: A handheld mirror worth at least 500 gp.

OOZEPUPPET

Transmutation

Level: Ooze 5, sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One ooze

Duration: 1 hour/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You point a crooked finger at the ooze, and it shivers with what could easily be mistaken for anticipation.

You telekinetically take control of the targeted ooze if it fails its saving throw.

Once control is established, you must have line of sight to the ooze to manipulate it, but distance is not otherwise a factor unless you and the ooze are on different planes (at which point the spell ends).

Thus, you can manipulate the ooze while scrying upon it, for example.

You can force the ooze to move, attack, and otherwise perform as you desire, within the limits of its abilities.

Controlling an ooze's actions for an entire round is a move action for you.

When not directed to move, attack, or undertake any actions by you, the ooze is held immobile by telekinetic forces.

Although most oozes have no minds, they still instinctively resist this telekinetic control.

Thus, if forced to take a self-destructive action, the ooze gains a new Fortitude saving throw to negate the effect of the spell.

FIENDISH CODEX 2 (3.5)

ABJURATION

RIGHTEOUS EXILE

Abjuration [Good]

Level: Cleric 9

Components: V

Casting Time: 1 full-round action

Range: 20 ft.

Area: 20-ft.-radius burst, centered on you

Duration: Instantaneous

Saving Throw: Will partial

Spell Resistance: Yes

With a word, your body gives off an explosion of divine energy, scorching the flesh of those creatures despised by good beings.

All evil creatures in the area take 20d6 points of damage.

In addition, evil outsiders that fail a Will saving throw (DC equal to spell's save DC - creature's HD + your caster level) are instantly transported back to their home planes.

CONJURATION

BIND TO HELL

Conjuration (Teleportation) [Evil]

Level: Cleric 5

Components: V, S

Casting Time: 1 hour

Range: Touch

Target: One weapon

Duration: 1 day/level

Saving Throw: None

Spell Resistance: No

The targeted weapon shudders and momentarily emits a moaning chorus, like that of damned souls.

This spell places an infernal blessing on the touched weapon for the specified duration.

Upon casting the spell, you must name or describe a specific creature.

If that creature is subsequently reduced to -10 or fewer hit points by a blow from the target weapon before the spell's duration expires, its soul is whisked immediately to the Hall of the Vanquished in Stygia, where it remains forever, or until rescued.

A weapon can gain the effect of only one *bind to Hell* spell at a time.

The soul manifests as a frozen version of its mortal self. With the utterance of a trigger word chosen by you upon casting, it can be temporarily imbued with motion and the use of its faculties.

A subsequent utterance of the trigger word freezes the soul again.

While the soul is in the Hall of the Vanquished, life-restoring spells and effects, such as *raise dead*, *reincarnation*, and *resurrection*, cannot be used to revive the creature.

If the soul form of a nonoutsider is removed from the hall, it transmigrates immediately to its proper afterlife, after which life-restoring effects again become possible.

Special: Only divine casters who worship Levistus can cast this spell.

It has no effect for any other caster.

ENCHANTMENT

DENOUNCE

Enchantment [Mind-Affecting]

Level: Cleric 2, paladin 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One outsider

Duration: 1 min./level (D); see text

Saving Throw: Will negates; see text

Spell Resistance: Yes

You point your finger and pronounce judgment.

You instill feelings of shame and guilt in a target outsider, imposing a -4 insight penalty on its attack rolls, saves, and checks.

Each round on its turn, the subject can attempt a new saving throw to end the effect.

(This is a full-round action that does not provoke attacks of opportunity).

Outsiders with the good subtype are immune to *denounce*.

EVOCATION

HELLFIRE STORM

Evocation [Evil]

Level: Diabolic 7

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread This spell functions like *hellfire*, except it deals 1d8 points of damage per caster level (maximum 10d8) to creatures in the affected area.

HELLFIRE

Evocation [Evil]

Level: Diabolic 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft.-radius spread

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Calling upon the raw energies of Baator, you cause hellish fires to fill an area you designate.

You create a small explosion of brimstone and fire.

The spell deals 1d8 points of damage per two caster levels (maximum 5d8) to creatures in the affected area.

The damage is not fire damage, and is not subject to being reduced by resistance to fire-based attacks, such as that granted by *protection from energy (fire)*, *fire shield (chill shield)*, and similar magic.

NECROMANCY

WRACK

Necromancy [Evil]

Level: Cleric 4, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One humanoid

Duration: 1 round/level + 3d10 minutes; see text

Saving Throw: Fortitude negates

Spell Resistance: Yes

With the final word of the spell, your chosen foe is wracked with such pain that it doubles over and collapses.

Its face and hands blister and drip fluid, and its eyes cloud with blood, rendering it blind.

Your touch causes your target to experience excruciating pain.

For the duration of the spell, the subject falls prone and is blinded and helpless.

Even when the spell ends, the subject is still shaken for 3d10 minutes.

TRANSMUTATION

DEVIL'S EGO

Transmutation [Evil]

Level: Diabolic 3

Components: V, S

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 min./level

You intone profane words of prayer and run your fingers across your face.

As they pass, your features soften, becoming attractive and appealing.

You feel a powerful confidence building inside you.

You gain a +4 profane bonus to Charisma, adding the usual benefits to Charisma-based skill checks and other uses of the Charisma modifier.

If you have levels in a noncleric spellcasting class that relies on Charisma, this spell does not grant additional bonus spells, though it could increase the save DCs for spells you cast from that class.

In addition, for the duration of this spell, your type changes to outsider, making you immune to spells and effects that specifically target humanoids, such as *charm person* and *hold person*.

DEVIL'S EYE

Transmutation

Level: Blackguard 2, cleric 3, Diabolic 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level (D)

With a few words and a gesture, the darkness melts away, and you can see with perfect clarity.

You gain the visual acuity of a devil.
You can see in darkness and magical darkness out to 30 feet.

INVESTITURE OF THE AMNIZU

Transmutation [Evil, Investiture]

Level: Blackguard 3, cleric 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a flash of red light and a sound like the screams of a thousand suffering souls, you invest the target with infernal energy, drawing power from an amnizu to power the spell.

You infuse a target with the intellect-sapping power and slippery mind of an amnizu.

While under the effect of this spell, the target can, each round as a standard action, make a single melee touch attack.

A touched creature takes 1d4 points of Intelligence damage.

The subject of this spell can use this touch attack once per two caster levels.

The subject of this spell also becomes immune to any effect that would damage, drain, or otherwise reduce its own Intelligence score.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the amnizu*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE BARBED DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 4, cleric 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With brisk arcane gestures that glow with a fiery red light, you imbue a target with the might of a barbed devil, causing long thorns to sprout all over its body.

You cause the target of this spell to grow a number of long barbs similar to those found on a barbed devil.

While under the effect of the spell, the target does not provoke attacks of opportunity when initiating a grapple. If the subject already has improved grab or the Improved Grapple feat, it instead gains a +4 profane bonus on grapple checks.

Whenever the subject successfully makes a grapple check to grab a foe, pin a foe, or deal damage, it impales its foe on its barbs, dealing extra damage based on its size.

Size	Damage
Tiny or smaller	1d8
Small	2d8
Medium	3d8
Large	4d8
Huge	5d8
Gargantuan	6d8
Colossal	7d8

The subject also gains resistance to fire 10.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the barbed devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE BEARDED DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 2, cleric 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a rush of sinister green light, you invest the target with infernal energy, drawing power from a bearded devil to fuel the spell.

You cause the target to grow a long, ropy mass of callused tissue from its chin that vaguely resembles a beard.

This beard flails about as though it were alive.

If the subject successfully hits an adjacent opponent with at least one melee attack in a round, it also automatically hits with its beard, dealing an extra 2d8 points of damage.

The subject also gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the bearded devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the target of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE CHAIN DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 2, cleric 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a rush of red light and the faint clanking of many chains, you invest the target with the power of a chain devil.

While under the effect of this spell, the target is infused with the magical energies and malignant will of a chain devil.

While the spell is in effect, the subject's reach increases by 5 feet, and the subject's maximum number of attacks of opportunity made each round increases by one.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the chain devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE ERINYES

Transmutation [Evil, Investiture]

Level: Blackguard 3, cleric 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

With the sound of flapping wings, you grant the target the power of an erinyes.

The target gains the sinister allure of an erinyes.

While the spell is in effect, the subject can beckon a creature it can see clearly, forcing it to approach unless the creature succeeds on a Will save against the spell's save DC.

On a failed save, the creature can do nothing on its next action except to attempt to move closer to the subject of *investiture of the erinyes*.

The beckoned creature will not take obviously suicidal actions, such as walking off the edge of a cliff.

However, it will move normally through squares threatened by other creatures.

This is a mind-affecting compulsion effect.

Once the beckoned creature enters an adjacent square, or if it was already in an adjacent square, it takes no further action that round.

The subject of this spell can use this effect once per three caster levels.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the erinyes*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE HARVESTER DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 3, cleric 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

A deep chuckle sounds as you complete the incantation, and motes of violet light surround the target, imbuing it with infernal energy drawn from a harvester devil.

The target of this spell deals horrific, lingering wounds with its melee attacks.

If it successfully strikes an opponent with a melee attack, it causes an infernal wound that deals an extra 1d6 points of damage each round until the creature dies, or until the struck creature is the recipient of a DC 20 Heal check, a cure spell, or a heal spell.

A creature can be affected by the lingering damage of only one such infernal wound at a time.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the harvester devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE HELLFIRE ENGINE

Transmutation [Evil, Investiture]

Level: Cleric 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

Upon the casting of this spell, the target's flesh transforms, assuming a dull metallic hue.

Its eyes erupt with unholy flame, and when it opens its mouth, you see the fires of Hell roiling within.

A creature affected by *investiture of the hellfire engine* gains all the benefits described under the *iron body* spell (PH 245), except that its flesh transforms into living cold iron.

Its unarmed natural attacks count as cold iron for the purpose of overcoming damage reduction.

In addition, the subject can breathe a 30-foot cone of hellfire that deals 8d10 points damage.

This damage is not fire damage, and is not subject to being reduced by resistance to fire-based attacks, such as that granted by *protection from energy (fire)*, *fire shield (chill shield)*, and similar magic.

All creatures in the area are entitled to a Reflex save against the spell's DC for half damage.

The subject must wait 1d4 rounds between each use of this breath weapon.

The subject also gains resistance to fire 20.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the chain devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE HORNED DEVIL

Transmutation [Evil, Investiture]

Level: Cleric 8, sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

With a flash of red light, you invest the target with infernal energy, drawing power from a horned devil to fuel the spell.

This spell infuses a creature with the terrible essence of a horned devil.

Whenever the subject successfully strikes another living creature with the first melee attack that it makes in a round, the struck creature must succeed on a Will save against the spell's DC or be stunned for 1 round.

In addition, the subject gains resistance to fire 10.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the horned devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE ICE DEVIL

Transmutation [Evil, Investiture]

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

Malevolent blue light suffuses the target as the temperature nearby drops ominously.

You infuse a creature with the savage brutality and cold cunning of an ice devil.

While under the effect of this spell, whenever the subject hits a living creature with a melee attack, that creature must succeed on a Will save against the spell's DC or be *slowed* for 3 rounds.

The subject also deals an extra 1d6 points of cold damage with each successful melee attack that it makes with a weapon or natural weapon.

In addition, the subject gains resistance to cold and fire 10.

The resistance to fire stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the ice devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE MALEBRANCHE

Transmutation [Evil, Investiture]

Level: Blackguard 4, cleric 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

A fearsome roar splits the air when you conclude the arcane words that invest the target with hellish power drawn from a malebranche.

You infuse a creature with the raw power of the mighty malebranche, causing it to grow twisted horns of blackened bone from of its brow.

While under the effect of this spell, the subject deals extra damage whenever it successfully hits with a charge attack, depending on its size.

Size	Damage
Tiny or smaller	—
Small	1d6
Medium	2d6
Large	3d6
Huge	4d6
Gargantuan	6d6
Colossal	8d6

In addition, the subject gains resistance to fire 10.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the malebranche*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE NARZUGON

Transmutation [Evil, Investiture]

Level: Blackguard 4, cleric 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

A moan precedes the transformation that results when you imbue the target with the baleful power of a narzugon.

You bind the dread essence of a narzugon to a target creature, filling it with the misery and horror that defines the devil's existence.

The subject of this spell can use a baleful gaze as a standard action.

The gaze affects a single creature within 20 feet.

That creature must succeed on a Will save against the spell's save DC or be immobilized for 1 round as if affected by a *hold monster* spell.

Baatezu are immune to this gaze attack.

Once a creature has successfully resisted this effect, it cannot be affected by this gaze from the same creature for 24 hours.

The subject also gains resistance to fire 10.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the narzugon*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE ORTHON

Transmutation [Evil, Investiture]

Level: Blackguard 4, cleric 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

A dull humming noise sounds briefly, and the air crackles with the terrible power of an orthon.

While under the effect of this spell, a creature is infused with the disruptive power of an orthon.

As an immediate action, the subject of this spell can erect a 20-foot-radius field that disrupts teleportation spells or effects.

All creatures in the area are prevented from using any spell, spell-like ability, or supernatural ability that provides such movement, as if they were in the area of a *dimensional lock* spell.

Each use of this field lasts 1 round.

In addition, the subject of the spell gains the benefit of a sonic shield for as long as the spell remains in effect.

This shield functions like the *fire shield* spell, except that it deals sonic damage instead of cold or fire, and the subject takes half damage from acid-based attacks.

If exposed to an acid attack that allows a Reflex save for half damage, the subject takes no damage on a successful save.

The subject gains resistance to fire 10.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the orthon*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE PIT FIEND

Transmutation [Evil, Investiture]

Level: Cleric 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless); see text

Spell Resistance: Yes (harmless)

The air shatters with a shriek of sorrow, and a flash of flame briefly limns the target of this spell as she receives a portion of the might of a pit fiend.

You infuse a creature with the terrifying power of a pit fiend.

The spell causes the subject's mouth to expand to accommodate new dripping fangs.

To add to this devilish effect, a pair of red leathery wings tears free from the flesh of the subject's back, granting it a fly speed of 60 feet with average maneuverability.

The subject of the spell gains these benefits regardless of his aspect choice (see below).

The power granted to the subject by *investiture of the pit fiend* can manifest in one of three ways.

At the beginning of each round, the invested creature chooses which aspect of the spell will be in place.

Aspect of Tyranny: The invested creature's hands lengthen to horrific claws, and the creature gains powerful melee attacks.

While the aspect of tyranny is in effect, the invested creature can attack with both its claws and wings.

Each attack deals base damage of 2d6 points.

The claws are treated as primary melee attacks with a natural weapon, and the wing attacks are treated as secondary attacks with a natural weapon.

When making attacks with these claws and wings, the invested creature has a base attack bonus equal to its character level (or Hit Dice, if the invested creature has a level adjustment).

When taking a full attack action and using only the natural weapons granted by the aspect of tyranny, the secondary attacks are made with only a -2 penalty rather than the normal -5.

Because these are natural attacks, the invested creature cannot make multiple attacks because of a high base attack bonus.

Aspect of Pestilence: When the invested creature chooses to manifest the aspect of pestilence, it can, as a standard action, release a cloud of disease-ridden air.

Creatures within 10 feet of the subject when it generates this effect must succeed on a Fortitude saving throw against the spell's DC or take 2 points of Strength damage.

Aspect of Terror: When the invested creature chooses to manifest the aspect of terror, it can, as a standard action, release a powerful wave of fear.

Creatures within 10 feet of the subject when it generates this effect must succeed on a Will saving throw against the spell's DC or become frightened for 2 rounds.

This wave of fear is a mind-affecting fear effect.

The subject gains immunity to poison and resistance to fire 20.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the pit fiend*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE SPINED DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 1, cleric 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The air stinks of sulfur and brimstone as you use the essence of a spinagon to imbue a creature with the power of Baator.

You cause a creature to suddenly bristle with spines.

The subject can snap its body forward to unleash a volley of up to three spines as a standard action (make a separate attack roll for each spine).

The spines each deal 1d6 points of damage plus the subject's Strength modifier.

This attack has a range of 60 feet with no range increment.

The spines can be directed against different targets if desired, but all targets must be within 30 feet of one another.

The subject can launch up to fifteen spines per casting of this spell.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the spined devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

INVESTITURE OF THE STEEL DEVIL

Transmutation [Evil, Investiture]

Level: Blackguard 3, cleric 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With the sound of low chanting, you invest the target with the power of a steel devil.

While under the effect of this spell, the target is infused with the magical energy and deadly skill of a steel devil.

While the spell is in effect, the target gains a +3 profane bonus on attack rolls and to Armor Class.

This bonus increases by 1 for every adjacent creature that is also under the effect of an *investiture of the steel devil* spell.

In addition, the subject gains resistance to fire 5.

This resistance stacks with the resistance granted by other evil investiture spells (but not with multiple castings of *investiture of the steel devil*).

While this spell is in effect, magic weapons with the evil outsider bane special ability have full effect against the subject of the investiture.

After the spell's duration expires (or if it is dispelled or ended through some other means), the subject is fatigued for 1 minute.

Material Component: A fist-sized chunk of brimstone.

FORGOTTEN REALMS CAMPAIGN SETTING (3.0)

ABJURATION

ARMOR OF DARKNESS

Abjuration [Darkness]

Level: Darkness 4

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The spell envelops the warded creature in a shroud of flickering shadows.

The shroud can, if the caster desires, conceal the wearer's features.

In any case, it grants the subject a +3 deflection bonus to Armor Class plus an additional +1 for every four caster levels (maximum bonus +8).

The subject can see through the armor as if it did not exist and is also afforded darkvision with a range of 60 feet.

Finally, the subject gains a +2 saving throw bonus against any holy, good, or light spells or effects.

Undead creatures that are subjects of *armor of darkness* also gain +4 turn resistance.

CLOAK OF DARK POWER

Abjuration

Level: Drow 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Cloak of dark power creates a dusky haze around the subject. The haze does not interfere with vision, but the subject and anything she wears or carries is protected from the effects of full sunlight, even under the open, daytime sky of the surface world.

A drow subject suffers no blindness or bright light combat penalties while under the effects of a *cloak of dark power*.

The subject also gains a +4 resistance bonus on saves against light or darkness spells or effects.

GATE SEAL

Abjuration

Level: Brd 6, Clr 6, Drd 6, Sor/Wiz 6

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One gate or portal

Duration: Permanent

Saving Throw: None

Spell Resistance: No

You permanently seal a gate or portal.

Gate seal prevents any activation of the gate or portal, though the seal may be negated by a successful *dispel magic* cast upon the spell.

A *knock* spell does not function on the *gate seal*, but a *chime of opening* dispels the spell.

Material Component: A silver bar worth 50 gp.

LESSER IRONGUARD

Abjuration

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You or a creature you touch becomes immune to nonmagical metal.

Metal items (including metal weapons) simply pass through you, and you can walk through metal barriers such as iron bars.

Magic metal affects you normally, as do spells, spell-like abilities, and supernatural effects.

Attacks delivered by metal items (such as poison on a dagger) affect you normally.

If the spell expires while metal is inside you, the metal object is shunted out of your body (or you away from the metal, if it is an immovable object such as a set of iron bars). You and the object each take 1d6 points of damage as a result (ignoring the object's hardness for determining damage to it).

Because you pass through metal, you may ignore armor bonuses from metal armor on opponents you attack with unarmed attacks.

Material Component: A tiny shield of wood, glass, or crystal.

CONJURATION

CREATE MAGIC TATTOO

Conjuration (Creation)

Level: Sor/Wiz 2

Components: V, S, M, F

Casting Time: 10 minutes

Range: Touch

Target or Area: Creature touched

Duration: 1 day

Saving Throw: None

Spell Resistance: Yes (harmless)

Create magic tattoo creates a single magic tattoo.

The caster determines the exact type of tattoo, though the selection of possible tattoos is limited by caster level.

The caster of *create magic tattoo* must have a modicum of artistic talent to sketch the desired tattoo—at least one rank of Craft (drawing), Craft (painting), Craft (calligraphy), or a similar Craft skill.

Inscribing a magic tattoo requires a Craft check.

The DC varies with the kind of tattoo, as noted below.

A caster of 3rd to 6th level can inscribe the following tattoos (DC 10):

- +2 resistance bonus on one type of saving throw (Fortitude, Reflex, or Will).
- +1 luck bonus on attack rolls.
- +1 deflection bonus to AC.

A caster of 7th to 12th levels can inscribe the lower-level tattoos, plus the following (DC 15):

- +2 resistance bonus on all saving throws.
 - +2 competence bonus on attack rolls.
 - The ability to recall one cast 0-level, 1st-level, or 2nd-level spell (just as though the subject were using a *pearl of power*).
- The caster chooses the spell level.

A caster of 13th level or higher can inscribe all of the above tattoos plus the following (DC 20):

- Spell resistance of 10 + 1 per six caster levels.
- +2 enhancement bonus to any one ability score.
- +1 level of casting ability.

This increases the subject's effective level, but not the total number of spells.

An 11th-level caster raised in casting ability in this manner casts spells as a 12th-level caster in terms of range, area,

effect, and so on, but this tattoo does not provide any extra spells.

A single creature can have only three magic tattoos at a time.

Once a creature has three magic tattoos operating, any additional magic tattoos fail.

A successful *erase* spell removes a single magic tattoo.

A successful *dispel magic* spell can remove multiple magic tattoos if targeted on the creature bearing the tattoos (see the *dispel magic* spell in the *Player's Handbook*).

Material Components: Tattoo inks in appropriate colors.

Focus: Tattoo needles.

GEMBOMB

Conjuration (Creation) [Force]

Level: Gnome 2, Trade 2

Components: V, S, M

Casting Time: 1 action/bomb

Range: Touch

Targets: Up to 5 touched gems worth at least 1 gp each

Duration: 10 minutes/level or until used

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You turn up to five gems into bombs you (and only you) can lob at enemies.

You must hold the gems in your hand when casting the spell.

Together, the bombs are capable of dealing 1d8 points of force damage per two caster levels (maximum of 5d8), divided up among the gems as you wish.

A 10th-level cleric could create one 5d8 bomb, a 3d8 and 2d8 bomb, five 1d8 bombs, or any combination of five dice of damage and up to five gems.

You can toss the bombs up to 100 feet with a range increment of 20 feet.

A ranged touch attack roll is required to strike the intended target.

A creature struck can attempt a Reflex save for half damage.

Tossing a *gembomb* counts as an attack for you, so you usually cannot toss one during the turn that you cast the spell.

You can only toss one bomb at a time, but you can toss more than one each round if you have multiple attacks.

Material Components: Up to five gems worth at least 1 gp each

MAELSTROM

Conjuration (Creation)

Level: Ocean 8

Components: V, S, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: A whirlpool 120 ft. wide and 60 ft. deep

Duration: 1 round/level

Saving Throw: Reflex negates (and see text)

Spell Resistance: No

Maelstrom causes a deadly vortex to form in water.

A body of water at least 120 feet wide and 60 feet deep must be present, or the spell is wasted.

Waterborne creatures or objects within 50 feet of the vortex (below and on all sides) must make successful Reflex saves or be sucked in.

Trained swimmers can attempt Swim checks instead if their skill modifier is higher than their Reflex save bonus. Waterborne vessels avoid being sucked in if their operators make Profession (sailor) checks against the same DC as the spell's saving throw.

These creatures take 3d8 points of damage upon being sucked in.

Once inside, creatures and objects take 3d8 points of battering damage each round.

They remain trapped for 2d4 rounds.

Subjects of Large or smaller size are ejected from the bottom of the vortex.

Larger subjects are ejected from the top.

WATERSPOUT

Conjuration (Creation)

Level: Ocean 7

Components: V, S, DF

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: A cylinder 10 ft. wide and 80 ft. tall

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: No

Waterspout causes water to rise up into a whirling, cylindrical column.

A body of water at least 10 feet wide and 20 feet deep must be present, or the spell is wasted.

If the waterspout encounters insufficient depth after it has formed, it collapses.

The waterspout moves at a speed of 30 feet and must remain over water.

You can concentrate on controlling the waterspout's every movement or specify a simple program, such as move straight ahead, zigzag, circle, or the like.

Directing the waterspout's movement or changing its programmed movement is a standard action for you.

The waterspout always moves during your turn in the initiative order.

If the waterspout exceeds the spell's range, it collapses and the spell ends.

The waterspout batters creatures and objects it touches, and it often sucks them up.

Any creature or object that comes in contact with the waterspout must succeed at a Reflex save or take 3d8 points of damage.

Medium-size or smaller creatures who fail their save are sucked into the spout and held suspended in its powerful currents, taking 2d6 points of damage each round with no save allowed.

Trapped creatures remain inside for 1d3 rounds before the waterspout ejects them out the top of the spout, and they fall back to the surface (taking falling damage) 1d8×5 feet from the base of the waterspout.

Waterborne creatures or objects within 10 feet of the spout (below and on all sides) also must make successful Reflex saves or be sucked into the spout if they are Medium-size or smaller.

Anything sucked into the spout takes 3d8 points of damage and is then trapped for 1d3 rounds as explained above.

Only the smallest canoes, kayaks, or coracles can be sucked into the spout.

The occupant of any such craft may make a Profession (sailor) check instead of a Reflex save (his choice) to avoid being sucked up.

DIVINATION

ANALYZE PORTAL

Divination

Level: Brd 3, Portal 2, Sor/Wiz 3

Components: V, S, M/DF

Casting Time: 1 minute

Range: 60 ft.

Area: A quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

You can tell if an area contains a magic *portal*.

If you study an area for 1 round, you know the sizes and locations of any *portals* in the area.

Once you find a *portal*, you can study it.

(If you find more than one *portal*, you can only study one at a time).

Each round you study a *portal*, you can discover one property of the *portal*, in this order: any key or command word needed to activate the *portal*, any special circumstances governing the *portal's* use (such as specific times when the *portal* can be activated), whether the *portal* is one-way or two-way, any of the usual properties listed in the Building a Portal section earlier in this chapter, and finally, a glimpse of the area where the *portal* leads.

You can look at the area where the *portal* leads for 1 round.

Analyze portal does not allow other divination spells to extend through the *portal*.

For example, you cannot also use *detect magic* or *detect evil* to study the area where the *portal* leads while viewing the area with *analyze portal*.

For each property, you make a caster level check (1d20 + caster level) against DC 17.

If fail, you can try again the next round.

Analyze portal has only a limited ability to reveal unusual properties of *portals*, as follows:

- **Random Portals:** The spell reveals only that the *portal* is random, and whether it can be activated now.

It does not reveal when the *portal* starts or stops functioning.

- **Variable Portals:** The spell reveals only that the *portal* is variable.

If the caster studies the *portal's* destination, the spell reveals only the destination to which the *portal* is currently set.

- **Creature Only Portals:** The spell reveals this property.

If the caster studies the *portal's* destination, the spell reveals where the *portal* sends creatures.

If it is the type of *portal* that sends creatures one place and their equipment another place, the spell does not reveal where the equipment goes.

- **Malfunctioning Portals:** The spell reveals only that the *portal* is malfunctioning, not what sort of malfunction the *portal* produces.

Arcane Material Components: A crystal lens and a small mirror.

EVOCATION

AGANAZZAR'S SCORCHER

Evocation [Fire]

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 5-ft.-wide path to close range (25 ft. + 5 ft./2 levels)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

A jet of roaring flame bursts from your outstretched hand, scorching any creature in a 5-foot-wide path to the edge of the spell's range.

Aganazzar's scorcher deals 1d8 points of damage per two caster levels, to a maximum of 5d8 points of damage.

Focus: A red dragon's scale.

BLACKLIGHT

Evocation [Darkness]

Level: Darkness 3, Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: A 20-ft.-radius emanation centered on a creature, object, or point in space

Duration: 1 round/level (D)

Saving Throw: Will negates or none (object)

Spell Resistance: Yes or no (object)

You create an area of total darkness.

The darkness is impenetrable to normal vision and darkvision, but you can see normally within the blacklit area.

Creatures outside the spell's area, even you, cannot see through it.

You can cast the spell on a point in space, but the effect is stationary unless you cast it on a mobile object.

You can cast the spell on a creature, and the effect then radiates from the creature and moves as it moves.

Unattended objects and points in space do not get saving throws or benefit from spell resistance.

Blacklight counters or dispels any light spell of equal or lower level, such as *daylight*.

The 3rd-level cleric Spell *daylight* counters or dispels *blacklight*.

Material Component: A piece of coal and the dried eyeball of any creature.

DARKBOLT

Evocation [Darkness]

Level: Darkness 5

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: One ray/2 caster levels (maximum seven)

Duration: Instantaneous (see text)

Saving Throw: Will partial

Spell Resistance: Yes

You unleash beams of darkness from your open palm.

You must succeed at a ranged touch attack to strike your target.

You can hurl one *darkbolt* for every two caster levels you have (maximum seven bolts).

You can hurl all the bolts at once, or you can hurl one bolt per round as a free action, starting on the round when you cast the spell.

You do not have to hurl a bolt every round, but if you don't hurl the bolt you were entitled to that round, it is lost.

If you hurl all the bolts at once, all your targets must be within 60 feet of each other.

A *darkbolt* deals 2d8 points of damage to a living creature, and the creature is dazed for 1 round unless it makes a Will save (a creature struck by multiple bolts during the same round is dazed for a maximum of 1 round, no matter how many times it fails its save).

Undead take no damage, but are dazed if they fail their saves.

ELMINSTER'S EVASION

Evocation

Level: Sor/Wiz 9

Components: V, S, M, F, XP

Casting Time: At least 10 minutes (see text)

Range: Personal

Target: You

Duration: Until discharged

This powerful variant of the *contingency* spell automatically transfers you and everything you carry or touch (except for other creatures or objects that weigh more than 50 pounds) to a locale you name.

When casting *Elminster's evasion*, you must specify the locale and detail up to six specific conditions that trigger the spell.

When any of these situations occurs, your body, mind, and soul are whisked away to the location.

The location can be any place you have visited, even on another plane.

Also when casting the spell, you cast *teleport without error* and one or two other spells that are to take effect when you arrive at your destination.

The 10-minute casting time is the minimum total for all castings.

If the companion spells have combined casting times longer than 10 minutes, use the combined casting times instead.

The *teleport without error* spell whisks you through the Astral Plane to your destination, so anything that prevents astral travel also foils *Elminster's evasion*.

The spells to be brought into effect by the *evasion* must be ones that affect your person (*feather fall*, *levitate*, *fly*, *teleport*, and so on) and be of a spell level no higher than one-third of your caster level (maximum 6th level).

The conditions you specify to bring the spell into effect must be clear, although they can be general (see the *contingency* spell, in Chapter 11 of the *Player's Handbook*).

The spell pulls together your mind, body, and soul if they have been separated.

For example, if your soul is trapped in a *magic jar* when the *evasion* is triggered, your soul returns to your body.

(This breaks the *magic jar* spell).

If your body or soul has been magically trapped (for example with a *binding*, *imprisonment*, or *trap the soul* spell),

you must succeed at a caster level check (DC 11 + the caster level of the person who cast the trapping spell).

If you succeed, the trapping spell is broken and the *evasion* works.

If you fail, the *evasion* fails.

If you're dead when you arrive at your destination, your soul immediately departs just as though you died at your destination.

Material Components: Those of the companion spells, plus quicksilver; an eyelash of an ogre mage, ki-rin, or similar spell-using creature; and some of your own blood, freshly drawn.

Drawing the blood deals 1d4 points of temporary Constitution damage.

Focus: A statuette of you carved from ivory and decorated with gems (worth at least 1,500 gp).

You must carry the focus for the *evasion* to function.

XP Cost: 5,000 XP.

FLASHBURST

Evocation [Fire]

Level: Hth 3, Sor/Wiz 3

Components: V, S, M/DF

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: A 20-ft.-radius burst

Duration: Instantaneous (see text)

Saving Throw: Will partial

Spell Resistance: Yes

Flashburst creates a blinding, dazzling flash of light.

Sighted creatures within the area are automatically dazzled for 1 round (–1 penalty on attack rolls), and possibly blinded for 2d8 rounds (Will negates).

Creatures outside the area, but within 120 feet of the burst, can be blinded if they have line of sight to the burst (Will negates).

The spell does not dazzle creatures outside the burst area.

In addition to the obvious effects, a blinded character suffers a 50% miss chance in combat (all opponents have full concealment), loses any Dexterity bonus to AC, grants a +2 bonus on attackers' attack rolls (they are effectively invisible), moves at half speed, and suffers a –4 penalty on most Strength- and Dexterity-based skill checks.

Arcane Material Component: A pinch of sulfur or phosphorus.

FLENSING

Evocation

Level: Sor/Wiz 8

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One corporeal creature

Duration: Up to 4 rounds (see text)

Saving Throw: Fortitude partial (see text)

Spell Resistance: Yes

You literally strip the flesh from a corporeal creature's body.

Each round, the target suffers pain and psychological trauma that literally undermines the spirit.

The assault deals 2d6 points of damage and 1d6 points of temporary Charisma and Constitution damage.

A Fortitude save negates the temporary Charisma and Constitution damage and reduces the normal damage by half.

The target can make a saving throw each round to reduce the damage in that round.

Flensing has no effect on creatures in gaseous form or on incorporeal creatures.

Material Component: An onion.

GREAT SHOUT

Evocation [Sonic]

Level: Brd 6, Sor/Wiz 8

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: See text

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes (object)

You emit a thunderous, devastating yell.

The primary area affected is 5 feet high and 5 feet wide, extending out from you to the limit of the spell's range.

Stone, crystal, and metal objects in the area take 20d6 points of damage.

Creatures holding vulnerable objects can attempt Reflex saves to negate the damage.

Objects that survive the spell's primary effect are not subject to the secondary effect.

The spell's secondary effect is a cone of sound.

Creatures within the cone take 10d6 points of damage, and are stunned for 1 round and deafened for 4d6 rounds.

A successful Fortitude save negates the stunning and halves both the damage and the duration of the deafness.

Any brittle or crystalline object or crystalline creature takes 1d6 points of damage per caster level (maximum 20d6).

Creatures holding fragile objects can negate damage to them with successful Reflex saves.

The *great shout* spell cannot penetrate the spell *silence*.

Focus: A small metal or ivory horn.

MOON BLADE

Evocation

Level: Hth 3, Moon 3

Components: V, S, M/DF

Casting Time: 1 action

Range: 0 ft.

Effect: A swordlike beam

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

A 3-foot-long, blazing beam of moonlight springs forth from your hand.

Anyone who can cast *moon blade* can wield the beam with proficiency.

However, if you are proficient with any type of sword, you can wield the beam as if it were any type of sword and thus gain the benefits of any special sword skill you might have, such as Weapon Focus.

Attacks with the *moon blade* are melee touch attacks.

Its strike saps vitality or life force, causing no visible wounds but dealing 1d8 points of damage plus 1 point per

two caster levels (to a maximum of +15) to any type of creature except undead.

Undead are visibly wounded by a *moon blade*.

Their substance boils away from its touch, and they take 2d8 points of damage plus 1 point per caster level (to a maximum of +30) per blow.

The blade is immaterial, and your Strength modifier does not apply to the damage.

A successful *moon blade* strike temporarily scrambles magic.

On the target's next turn after a hit from a *moon blade*, the creature must make a Concentration check to use any spell or spell-like ability.

The DC is 10 + points of damage dealt + spell level.

(An opponent hit by a *moon blade* while casting a spell must make the usual Concentration check to avoid ruining the spell in addition to the check on its next turn).

The *moon blade* spell has no connection with the magic items known as *moonblades* borne and made by some elves.

Arcane Material Component: A small candy made with wintergreen oil.

MOON PATH

Evocation [Force]

Level: Hth 5, Moon 5

Components: V, S, M/DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: A variable-width, glowing white stair or bridge of translucent force up to 15 ft./level long (see text)

Duration: 1 minute/level (D)

Saving Throw: None (see text)

Spell Resistance: No

Moon path allows you to create a stair or bridge from one spot to another.

The effect is a railless ribbon of glowing white translucent force like a glass strip.

The strip can be from 3 to 20 feet wide as you decide.

(You can vary the width over the ribbon's length if you want).

It sticks to its endpoints unshakably, even if these endpoints are in midair.

At the time of casting, you designate up to one creature per caster level to receive extra protection while standing on or moving along the *moon path*.

Protected creatures gain the benefits of a *sanctuary*.

This works exactly like the 1st-level spell *sanctuary* except that the save DC is 15 + your Wisdom modifier, and any subject of the spell who attacks breaks the *sanctuary* effect for all subjects.

Protected creatures also stick to the top of the *moon path* as though they have received *spider climb* spells.

A creature loses both benefits immediately when it leaves the path.

Unlike a *wall of force*, a *moon path* can be dispelled.

It is otherwise similar to a *wall of force* in that it needs no supports and it is immune to damage of all kinds.

A *disintegrate* blasts a hole 10 feet square, leaving the rest of the path intact.

(If the *moon path* is 10 feet wide or less, this merely creates a 10-foot gap).

A hit from a *rod of cancellation*, a *sphere of annihilation*, or *Mordenkainen's disjunction* destroys a *moon path*.

Spells and breath weapons cannot pass through a *moon path*, although *dimension door*, *teleport*, and similar effects can bypass the barrier.

It blocks ethereal creatures as well as material creatures.

Gaze attacks cannot operate through the *moon path*.

A *moon path* must be straight, continuous, and unbroken when formed.

If its surface is broken by any object or creature, the spell fails.

The bridge version of the spell must be created flat.

The stair version cannot rise or descend any more sharply than 45 degrees.

Arcane Material Component: A white handkerchief.

MOONBEAM

Evocation [Light]

Level: Hth 2, Moon 2

Components: V, S, M/DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: 1 minute/level (D)

Saving Throw: None or Will negates (see text)

Spell Resistance: No

A cone of pale moonlight springs from your hand.

On your turn each round, you can change the direction the cone points.

Light from a moonbeam does not adversely affect creatures that are sensitive to light, but lycanthropes in humanoid form caught in the cone must make Will saves to avoid involuntarily assuming their animal forms.

Lycanthropes in animal form can change out of it on their next turn (spending a round in animal form).

However, if they are still in the area of the spell, they must succeed at a Will save to do so.

Once a lycanthrope successfully saves against *moonbeam*, it is not affected by any more of your *moonbeam* spells for 24 hours.

Moonbeam penetrates any darkness spell of equal or lower level, but does not counter or dispel it.

Darkness spells of higher level block a *moonbeam*.

Arcane Material Component: A pinch of white powder.

MOONFIRE

Evocation [Light]

Level: Moon 9

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous (see text)

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

A cone of fiery white moonlight springs from your hand.

Living creatures in the area feel an unnatural chill and take 1d8 points of damage per two caster levels, to a maximum of 10d8.

Undead and shapechangers take double damage.

This application of the spell allows a Reflex save for half damage.

All magical auras within the cone glow with a faint blue light for 1 round per caster level.

Disguised, shapechanged, or polymorphed creatures and objects in the spell's area at the time the spell is cast must make Will saves or immediately return to their normal forms.

Even if the save succeeds, they remain covered in ghostly white outlines that show their true forms for 1 round per caster level.

The entire area covered by the cone glows silver white for 1 round per caster level.

This radiance is as bright as the light of a full moon and negates electricity for 1 round per caster level unless the creature generating it makes a caster level check against a DC equal to the caster's level.

If an electricity effect is generated outside the glowing cone, the cone blocks the electricity effect if the caster level check fails.

If an electricity effect is generated inside the glowing cone, the cone completely negates the electricity effect if the caster level check fails.

SNILLOC'S SNOWBALL SWARM

Evocation [Cold]

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: 10-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

A flurry of magic snowballs erupts from a point you select. The swarm of snowballs deals 2d6 points of cold damage to creatures and objects within the burst.

For every two caster levels beyond 3rd, the snowballs deal an extra die of damage, to a maximum of 5d6 at 9th level or higher.

Material Component: A piece of ice or a small white rock chip.

THUNDERLANCE

Evocation [Force]

Level: Sor/Wiz 4

Components: V, S, M

Casting Time: 1 action

Range: 0 ft.

Effect: A spearlike beam

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

A faint, gray, shimmering force in the general shape of a staff or spear springs from your hand.

You can freely make the force retract or grow to any size from 1 foot to 20 feet, but it always remains a straight lance of force.

This gives you natural reach of 20 feet.

You can use the *thunderlance* to make powerful melee attacks.

The *thunderlance* strikes as a Huge longspear, dealing a base 2d6 points of damage (crit $\times 3$).

You only need one hand to wield the *thunderlance*, and you suffer no nonproficiency penalties if you do not have Martial Weapon Proficiency (longspear).

The *thunderlance* strikes with a Strength score equal to 12 + your caster level (maximum +15) which replaces your own Strength score when you make attack and damage rolls with the spell.

If you successfully strike a target protected by any force effect of 3rd level or lower, such as a *shield* or *mage armor* spell, the *thunderlance* may dispel the force effect in addition to damaging the target.

Make a dispel check against the caster who created the effect.

If you succeed, the effect is dispelled.

The *thunderlance* remains whether you succeed or fail at this check.

You can choose to attack objects or to use the Strength score of the *thunderlance* for Strength scores involving breaking or damaging items.

Material Component: A small metal spear.

ILLUSION

CLAWS OF DARKNESS

Illusion (Shadow)

Level: Sor/Wiz 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level (D)

Saving Throw: Fortitude partial

Spell Resistance: Yes (see text)

You draw material from the Plane of Shadow to cause your hands and forearms to elongate and change shape into featureless claws of inky blackness.

Starting on your next action, you may use the claws to make unarmed attacks as if they were natural weapons.

(You attack with one claw and can use the other claw for an off-hand attack.)

If you have multiple attacks you use them normally when attacking with the claws.

Attacks with the claws are melee touch attacks.

Each claw deals 1d4 points of cold damage.

If you grapple an opponent, you deal claw damage with each successful grapple check, and the grappled target is under the effect of a *slow* spell for as long as you maintain the grapple unless the opponent makes a Fortitude save.

You can extend the claws up to 6 feet, which gives you natural reach of 10 feet, or retract them as a free action.

When the spell is in effect, you may not cast spells with anything other than verbal components, nor may you carry items with your hands.

Any magic items worn on your hands are temporarily absorbed and cease functioning while the spell is active.

FANTASTIC MACHINE

Illusion (Shadow)

Level: Craft 6, Gnome 6

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: A 10-ft. machine

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

Fantastic machine creates an illusory, many-armed, noisy mechanical construct of impressively massive appearance. You can command the machine to perform any simple, physical task that you can describe in 25 words or less.

You can order the machine to perform the same task over and over, but you can't change the task.

You must specify the task when you cast the spell.

The machine always acts on your turn in the initiative order.

(It can act during the turn you cast the spell.)

The machine functions as a Large (tall) animated object (see the *Monster Manual*).

It trundles over the ground at a speed of 40 feet.

It can swim or fly at a speed of 10 feet (clumsy maneuverability).

It has 22 hit points, an Armor Class of 14 (-1 size, +5 natural), and a hardness of 10.

Its saving throw modifiers are Fortitude +1, Reflex +1, Will -4.

A light load for the machine is up to 230 pounds, a heavy load is 231-460 pounds, and a heavy load is 461-700 pounds.

The machine can fly or swim only when lightly loaded.

The machine can lift a weight of up to 1,400 pounds to a height of 15 feet.

It can push or drag 3,500 pounds.

It can excavate 7,000 pounds of loose rock each minute (which is sufficient to clear a 5-by-5-by-5-foot space in 3 rounds).

It can excavate sand or loose soil at twice that rate.

The machine has an attack bonus of +5 and can make one slam attack each round that deals 1d8+4 points of damage.

It deals triple slam damage (3d8+12) against stone or metal.

The machine can hurl Small rocks (if any are at hand) with an attack bonus of +3.

Its range increment is 150 feet, and it can throw a rock up to 10 range increments.

A thrown rock deals 2d6+4 points of damage.

GREATER FANTASTIC MACHINE

Illusion (Shadow)

Level: Craft 9

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: A 10-ft. machine

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

Greater fantastic machine creates an illusory, manyarmed, noisy mechanical construct of impressively massive appearance.

You can concentrate on controlling the machine's every action or specify a simple program, such as collect all the logs in an area and stack them in a neat pile, plow a field, drive piles, or the like.

The machine can perform only fairly simple physical tasks.

Directing the machine's actions or changing its programmed movement is a standard action for you.

The machine always acts on your turn in the initiative order.

(It can act during the turn you cast the spell).

Except where noted below, the machine functions as a Large (tall) animated object (see the *Monster Manual*) constructed from adamantine.

It trundles over the ground at a speed of 60 feet.

It can swim or fly at a speed of 20 feet (poor maneuverability).

It has 16 HD, 88 hit points, an Armor Class of 20 (–1 size, +11 natural), and a hardness of 20.

Its saving throw modifiers are Fortitude +5, Reflex +5, and Will +0.

The machine has a Strength score of 22.

A light load for the machine is up to 520 pounds, a medium load is 521 to 1,040 pounds, and a heavy load is 1,041 to 1,560 pounds.

The machine can fly or swim only when lightly loaded.

The machine can lift a weight of up to 3,120 pounds to a height of 15 feet.

It can push or drag 7,800 pounds.

It can excavate 20,000 pounds of loose rock each minute (which is sufficient to clear a 5-by-5-by-5-foot space in 1 round).

It can excavate sand or loose soil at twice that rate.

The machine makes slam attacks with an attack bonus of +17/+12 for 1d8+9 points of damage.

It deals triple slam damage (3d8+27) against stone or metal.

The machine can hurl Small rocks (if any are at hand) with an attack bonus of +12/+7.

Its range increment is 150 feet, and it can throw a rock up to 10 range increments.

A thrown rock deals 2d6+9 points of damage.

SHADOW MASK

Illusion (Shadow)

Level: Hrp 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You cause a mask of shadows to form around your face.

It does not impede your vision, cannot be physically removed, completely hides your features, and protects you against certain attacks.

You receive a +4 bonus on saving throws against light or darkness spells and any spells that rely on bright light for damaging effects, such as the *flare* spell or the fireworks effect of *pyrotechnics*.

You also gain a 50% chance each round to avoid having to make a saving throw against gaze attacks, just as if you averted your eyes.

If you avert your eyes while using *shadow mask*, you get to check twice to see if you avoid having to make the saving throw.

When the spell's duration ends, the *shadow mask* fades over the course of 1d4 rounds (rather than immediately), giving you time to keep your face hidden via other means.

A successful *dispel magic* cast against a *shadow mask* effectively ends the spell and causes the same slow fading.

Material Component: A mask of black cloth.

SHADOW SPRAY

Illusion (Shadow)

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 5-foot radius burst

Duration: 1 round/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

You cause a multitude of ribbonlike shadows to instantaneously explode outward from the target point. Creatures in the area take 2 points of temporary Strength damage, are dazed for 1 round, and suffer a –2 morale penalty on saving throws against *fear* spells and effects. The *fear* penalty ends when the *shadow spray* spell does, but the temporary Strength damage is instantaneous.
Material Component: A handful of black ribbons.

NECROMANCY

GRIMWALD'S GRAYMANTLE

Necromancy

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: One creature

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You imbue a skull or bone with a pale gray radiance and then hurl (or touch) the skull or bone to hit a target creature.

You can attack with the skull on the round you cast the spell, but otherwise it is a standard action.

If the skull or bone hits the target, the gray radiance is transferred from the skull to the creature, covering it entirely.

For the duration of the spell, the creature cannot regain hit points or ability score points by any means.

Nor can the creature remove negative levels.

Natural regeneration (such as that of trolls) is stopped, as are the effects of a *ring of regeneration*, *potion of healing*, or *staff of curing*.

Spells that return lost hit points (*cure light wounds*, *heal*) do not work on that individual.

Other necromantic spells function normally, including those that cure other afflictions (*disease*, *blindness*).

Those that remove hit points (*cause light wounds*) are unaffected by the spell.

The subject can improve his current hit points by boosting his Constitution score and can receive temporary hit points (from an *aid* spell, for example).

Upon the expiration of the spell, automatic healing abilities and items such as a *ring of regeneration* or a troll's regeneration ability begin to function again.

Material Component: The skull or bone used.

TRANSMUTATION

ANYSPELL

Transmutation

Level: Spell 3

Components: V, S, DF (and possibly M, F, and XP)

Casting Time: 15 minutes

Range: Personal

Target: You

Duration: Instantaneous

Anyspell allows you to read and prepare any arcane spell of up to 2nd level.

You must have an arcane magical writing (a scroll or spellbook) on hand to cast *anyspell*.

During the spell's 15-minute casting time, you can scan the spells available and choose one to read and prepare.

Once you choose and prepare an arcane spell, you retain it in your mind.

The prepared spell occupies your 3rd-level domain spell slot.

If you read the spell from a spellbook, the book is unharmed, but reading a spell from a scroll erases the spell from the scroll.

When you cast the arcane spell, it works just as though cast by a wizard of your cleric level except that your Wisdom score sets the save DC (if applicable).

You must have a Wisdom score of at least 10 + the arcane spell's level to prepare and cast it.

Your holy symbol substitutes for any noncostly material component.

If the spell has a costly material component (one to which a gold piece value is assigned), you must provide it.

If the spell has another focus, you must provide the focus.

If the spell has an XP component, you must pay the experience point cost.

EAGLE'S SPLENDOR

Transmutation

Level: Brd 2, Hrp 2, Sor/Wiz 2, Trade 3

Components: V, S, M/DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The transmuted creature becomes more poised, articulate, and personally forceful.

The spell grants an enhancement bonus to Charisma of 1d4+1 points, adding the usual benefits to Charisma-based skills.

Sorcerers and bards who receive *eagle's splendor* do not gain extra spells, but the save DCs for their spells increase.

Arcane Material Component: A few feathers or a pinch of dung from an eagle.

FIRE STRIDE

Transmutation [Teleportation]

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level or until expended (see text)
You gain the ability to step into fires and move from fire to fire.

The fires you enter and move between must be at least as big around as you are.

Fire elementals and other fire creatures are not "fires" for purposes of *fire stride*, nor are sources of great heat such as pools of lava.

Once in a fire, you can transport yourself to any other sufficiently large fire within long range (400 ft. + 40 ft./level), and you instantly know the locations of all suitable fires within range.

Each transport counts as a full move action.

With each casting of the spell, you can transport yourself one time per caster level.

If a fire's location doesn't offer enough space for you (for example, a fire contained inside a furnace too small to hold you or a fire already occupied by a big cauldron), it is not a viable destination and you don't sense its location.

If a fire rests on a surface that can't support you, it is still a viable destination and you suffer the appropriate consequences if you transport yourself to it.

For example, if you transport yourself into a fire burning in a pit full of oil, you fall into the oil when you arrive there.

The spell provides no protection against fire, so it is advisable to obtain such protection before using the spell.

GREATER ANYSPELL

Transmutation

Level: Spell 6

Components: V, S, DF (and possibly M, F, and XP)

Casting Time: 15 minutes

Range: Personal

Target: You

Duration: Instantaneous

As *anyspell*, except you can read and prepare any arcane spell of up to 5th level, and the prepared spell occupies your 6th-level domain spell slot.

MAW OF STONE

Transmutation

Level: Cavern 7

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One cave mouth or natural chamber up to 15 ft. high and wide

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You cause a single natural opening or natural chamber to become animated.

The opening or chamber cannot move, but it can attack.

You can order it to attack any creature, or a specific type of creature.

You also can order it to attack under a specific circumstance, such as when creatures try to leave or when they touch something.

An animated opening can only attack creatures that try to move through it.

An animated chamber can attack every creature inside.

Only one *maw of stone* can be in effect on a particular opening or chamber at a time.

The animated opening or chamber has a Strength score of 30 and an attack bonus equal to your level + your Wisdom modifier + 7 for its Strength.

If it has any single dimension (height, length, or width) of 8 feet or more, it has a -1 size penalty on attack rolls for being Large.

An animated opening can make one grapple attack each round against a creature passing through.

If it succeeds with its grab attempt, it makes a grapple check and deals 2d6+10 points of normal damage with a successful hold.

A Large opening gains a +4 special size modifier and deals 2d8+10 points of damage.

An animated chamber works the same way, except that it can make a separate attack against every creature inside. The animated stone has an Armor Class of 15, or 14 if Large (-1 size), and a hardness of 8.

An opening has 40 hit points (60 if Large).

A chamber has 60 hit points (90 if Large).

SCATTERSPRAY

Transmutation

Level: Hrp 1, Hth 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Six or more Diminutive or Fine objects, all within 1 ft. of each other, whose total weight does not exceed 25 lb.

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: No

You can point to a collection of little, unsecured items and cause them to fly off in all directions simultaneously.

The spray of items makes a burst with a 10-foot radius.

If the items are fairly hard or sharp (such as stones, sling bullets, coins, or the like), creatures in the burst take 1d8 points of damage.

A successful Reflex save negates this damage.

Eggs, fruit, and other soft objects can be used, but the damage then dealt is subdual damage.

SPIDER CURSE

Transmutation [Mind-Affecting]

Level: Spider 6

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: 1 humanoid of Medium-size or smaller

Duration: 1 day/level

Saving Throw: Will negates

Spell Resistance: Yes

You turn a humanoid into a driderlike creature that obeys your mental commands.

The transmuted subject gains a spider's body with a humanoid head, arms, and torso, just like a drider.

The subject has a drider's speed, natural armor, bite attack, and poison (but see below).

The subject gains a +4 bonus to its Strength, Dexterity, and Constitution scores.

The subject retains its Intelligence, Wisdom, and Charisma scores, level and class, hit points (despite any change in Constitution score), alignment, base attack bonus, and base saves.

(New Strength, Dexterity, and Constitution scores may affect final Armor Class, attack, and save bonuses).

The subject's equipment remains and continues to function as long as it fits a drider's body shape.

Otherwise it is subsumed into the new form and ceases to function for the duration of the spell.

Retained items include anything worn on the upper body (head, neck, shoulders, hands, arms, and waist).

Nonfunctioning items include anything worn on the legs, feet, or the whole body (armor, robes, vestments, and boots).

The subject's bite delivers a poison with a Fortitude save DC of 16 + your Wisdom bonus.

Initial and secondary damage is 1d6 points of temporary Strength damage.

Your control over the subject is like that provided by a *dominate person* spell.

(You telepathically control the creature so long as it remains within range).

Although *spider curse* is similar to *polymorph other*, it does not heal damage or cause disorientation.

SPIDER SHAPES

Transmutation

Level: Spider 9

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One willing creature/level, all within 30 ft. of each other

Duration: 1 hour/level (D)

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

As *polymorph other*, except you polymorph up to one willing creature per level into a monstrous spider of any size from Tiny to Huge as you decide (see Appendix 2 in the *Monster Manual*).

All the creatures you transmute must become spiders of the same size.

The spell has no effect on unwilling creatures.

Subjects remain in the spider form until the spell expires or you dismiss the spell for all subjects.

In addition, an individual subject may choose to resume her normal form as a full-round action.

Doing so ends the spell for her and her alone.

Parts separated from the resulting spiders do not revert to their original forms, so the resulting spiders have poisonous bites.

Creatures polymorphed by *spider shapes* don't suffer the disorientation penalty that those transformed by *polymorph other* often do.

Subjects of *spider shapes* regain hit points as though they had rested for a day.

SPIDERFORM

Transmutation

Level: Drow 5

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Targets: You

Duration: 1 hour/level (D)

You can polymorph into a drider or Tiny, Small, Medium-size, or Large monstrous spider (see the *Monster Manual*). You regain lost hit points as if you rested for a day on the initial transformation.

The spell lasts until you decide to resume your normal shape.

You acquire the physical and natural abilities of the creature you polymorph into, including natural size, Strength, Dexterity, and Constitution scores, armor, attack routines, and movement capabilities.

Unlike *polymorph self*, you acquire the poisonous bite and web-spinning ability of whichever spider form you choose. You do not suffer any disorientation.

You retain your Intelligence, Wisdom, and Charisma scores, level and class, hit points (despite any change in Constitution score), alignment, base attack bonus, and base saves.

(New Strength, Dexterity, and Constitution scores may affect final attack and save bonuses).

You can cast spells and use magic items if you choose drider form, but no other spider form is capable of spellcasting or manipulating devices.

If you choose drider form, your equipment remains and continues to function as long as it fits a drider's body shape. Retained items include anything worn on the upper body (head, neck, shoulders, hands, arms, and waist).

Otherwise your equipment is subsumed into the new form and ceases to function for the duration of the spell.

STONE SPIDERS

Transmutation

Level: Spider 7

Components: V, S, DF

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Targets: 1d3 pebbles or 1d3 vermin, no two of which can be more than 30 ft. apart

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You transform 1d3 pebbles into stone constructs that resemble monstrous spiders.

The constructs can be any size from Tiny to Huge as you decide, but all the constructs you create must be the same size.

The constructs have the same statistics as monstrous spiders (see Appendix 2 in the *Monster Manual*) of the appropriate size, except as follows: Their natural armor increases by +6.

They have damage reduction 30/+2.

Their poison has a Fortitude save DC of 17 + your Wisdom modifier.

Initial and secondary damage is 1d3 points of temporary Strength damage.

If the constructs can hear your commands, you can direct them not to attack, to attack particular enemies, or to perform other actions.

Otherwise, they simply attack your enemies to the best of their abilities.

Alternatively, you can cast *stone spiders* on 1d3 vermin of any type or size.

The affected vermin gain the benefits of a *stoneskin* spell (damage reduction 10/+5) for 1 round per caster level.

FROSTBURN (3.5)

ABJURATION

ANTICOLD SPHERE

Abjuration

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: Yes

You bring into being a mobile, spherical energy field that protects against cold.

All creatures within the area of the spell are granted immunity to cold.

In addition, the sphere prevents the entrance of any creature with the cold subtype.

The effect hedges out such creatures in the area when it is cast.

This spell may be used only defensively, not aggressively.

Forcing an abjuration barrier against creatures that the spell keeps at bay collapses the barrier (see Abjuration, page 172 of the *Player's Handbook*).

DISPEL COLD

Abjuration [Fire]

Level: Cleric 5

This spell functions like *dispel evil* (see page 222 of the *Player's Handbook*), except that you are surrounded by constant, blue-white cold energy, and the spell affects cold creatures and spells rather than evil ones.

DISPEL FIRE

Abjuration [Cold]

Level: Cleric 5

This spell functions like *dispel evil* (see page 222 of the *Player's Handbook*), except that you are surrounded by constant red, orange, and yellow flames, and the spell affects fire creatures and spells rather than evil ones.

GLACIAL GLOBE OF INVULNERABILITY

Abjuration [Cold]

Level: Cleric 4, sorcerer/wizard 3

Components: V, S, M/DF

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius spherical emanation, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A frosty sphere of cold energy surrounds you and excludes all spells and spell-like abilities with the fire descriptor of 3rd level or lower.

This spell functions like *globe of invulnerability*, except that it affects only fire spells.

In addition, the frosty opaqueness of the globe grants concealment (20% miss chance) to those within the area against attacks from outside.

Likewise, targets outside the globe gain concealment against attacks from those within the spell's area.

Arcane Material Component: A tiny sphere of ice that shatters at the expiration of the spell.

GLACIAL WARD

Abjuration [Cold]

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

A faint, shimmering reddish energy encases the subject's body, granting spell resistance 18 against fire spells and spell-like abilities.

In addition, any creature using a fire-based supernatural ability on the subject (such as a breath weapon) must succeed on a DC 18 level check (1d20 + level or HD) to affect a creature warded by this spell.

Material Component: A pinch of sulfur.

GLACIAL WARD, GREATER

Abjuration [Cold]

Level: Sorcerer/wizard 7

Components: V, S, M, Coldfire

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius spherical emanation, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A 10-foot-radius globe of swirling coldfire surrounds you, granting you and anyone inside the globe spell resistance 25 against all fire spells and spell-like effects.

In addition, any creature using a fire-based supernatural ability on a target inside the globe (such as a breath weapon) must also make a caster level check to affect the target.

The globe does not offer protection against natural heat and fire, including immersion in lava.

Material Component: A pinch of sulfur.

Coldfire Component: One ounce of coldfire.

ICE SHIELD

Abjuration

Level: Druid 5, sorcerer/wizard 4

Components: V, S, M, Coldfire

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The warded creature gains resistance to blows, cuts, stabs, and slashes.

The subject gains damage reduction 15/—.

The spell prevents a total of 10 points of damage per caster level (maximum 150 points).

While protected by the spell, the creature also has vulnerability to fire and takes half again as much (+50%) damage as normal from the effect, regardless of whether a saving throw is allowed, or if the save is a success or failure. The duration increases to 10 minutes per level when in a frostfell environment.

Material Component: A pinch of sleet.

Coldfire Component: Five ounces of coldfire.

ICICLE

Abjuration [Cold]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One 10-ft. square section of ceiling or doorframe

Duration: Until discharged (D)

Saving Throw: See text

Spell Resistance: Yes

You create icicles on a ceiling, doorway, or similar overhang.

The icicles fall when a creature walks beneath them, dealing 4d6 points of piercing damage.

Anyone directly under the area takes this damage with no saving throw.

Others within 5 feet of the icicles take half damage, or none if they succeed on a Reflex saving throw.

The caster and any characters you choose can walk under the icicles or through the doorway without triggering the ice attack.

Likewise, you can remove the icicles whenever desired.

Others can remove them with a successful *dispel magic* or 10 points of fire damage.

However, an unsuccessful attempt to dispel or melt the icicles automatically triggers the attack.

CONJURATION

ARCTIC HAZE

Conjuration (Creation) [Cold]

Level: Druid 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Fog spreads in a 30-ft. radius, 20 ft. high

Duration: 10 min./level

Saving Throw: Fortitude half

Spell Resistance: No

A bank of fog composed entirely of tiny, razor-sharp ice shards billows out from the targeted point.

The fog obscures all sight, including darkvision, beyond 5 feet.

A creature 5 feet away has concealment (20% miss chance). Creatures farther away have total concealment (50% miss chance, and the attacker can't use sight to locate the target). In addition, the sharp ice particles tear the skin of those moving through the area, causing 4 points of damage per round, half of which is cold damage.

A strong wind (21+ mph) disperses the fog in 4 rounds; a severe wind (31+ mph) disperses the fog in 1 round. Dispersing the fog in this manner, however, causes damage to those within its area as the icy shards whip past. A strong wind causes 4 points of damage per round (half cold); a severe wind causes 8 points of damage (half cold).

COLUMN OF ICE

Conjuration (Creation) [Cold]

Level: Druid 3, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One column of ice, 10-ft. radius and 5 ft./level in height

Duration: Permanent

Saving Throw: Reflex negates

Spell Resistance: No

A column of ice rises from the ground, lifting any object or creature (including you) standing in the area into the air. Creatures making a Reflex saving throw can choose to avoid the column.

Moving or fighting atop the ice column requires a DC 10 Balance check.

Those who fail fall prone and must immediately succeed on a DC 12 Reflex saving throw or slip off the column, taking commensurate falling damage.

Creatures atop the column as it rises may be smashed against the ceiling or other overhead obstructions, which deals 4d6 points of damage.

Magical Ice Column: 10 feet thick; hardness 16; hp 160; break DC 90; Climb DC 30.

Arcane Material Component: A 2-inch rod of ice.

COMETSTRIKE

Conjuration (Creation) [Cold]

Level: Druid 9

Components: V, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: Three different creatures or objects

Duration: 3 rounds

Saving Throw: Reflex partial

Spell Resistance: No

This spell may only be cast in an outdoor area; it fails if cast indoors or underground.

When you cast this spell, you cause three frozen comets to strike down upon any three different creatures or objects in range.

You must make a ranged touch attack to hit each target. Each target struck takes 3d6 points of bludgeoning damage and 1d4 points of cold damage per level (maximum 10d4), and is stunned for one round.

A successful Reflex save negates the bludgeoning damage and the stunning effects, but not the cold damage. Each round the spell persists, another three frozen comets rain down upon the original three targets; as a standard action you can select new targets for one, two, or all three comets.

CONJURE ICE BEAST I

Conjuration (Creation) [Cold]

Level: Cleric 1, druid 1, ranger 1

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One conjured ice creature

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

This spell creates a creature constructed from magical ice. It appears where you designate and acts immediately, on your turn.

It attacks your opponents to the best of its ability.

If you can communicate with the creature, you can direct it not to attack, to attack particular enemies, or to perform other actions.

The spell conjures one of the creatures from the 1st-level list of either the *summon monster* table or the *summon nature's ally* table (pages 287–288 of the *Player's Handbook*).

The conjured creature cannot have the fire subtype.

You choose which kind of creature to conjure, and you can change that choice each time you cast the spell.

The conjured creature is a construct made of magical ice, gaining the ice beast template (see page 138).

In all other ways, *conjure ice beast* I functions like *summon monster* I.

CONJURE ICE BEAST II

Conjuration (Creation) [Cold]

Level: Cleric 2, druid 2, ranger 2

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart

This spell functions like *conjure ice beast* I, except that you can conjure one creature from the 2nd-level list or two creatures of the same kind from the 1st-level list.

CONJURE ICE BEAST III

Conjuration (Creation) [Cold]

Level: Cleric 3, druid 3, ranger 3

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart

This spell functions like *conjure ice beast* I, except that you can conjure one creature from the 3rd-level list, two creatures of the same kind from the 2nd-level list, or four creatures of the same kind from the 1st-level list.

CONJURE ICE BEAST IV

Conjuration (Creation) [Cold]

Level: Cleric 4, druid 4, ranger 4

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart

This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 4th-level list, two creatures of the same kind from the 3rd-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE BEAST V

Conjuration (Creation) [Cold]

Level: Cleric 5, druid 5

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 5th-level list, two creatures of the same kind from the 4th-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE BEAST VI

Conjuration (Creation) [Cold]

Level: Cleric 6, druid 6

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 6th-level list, two creatures of the same kind from the 5th-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE BEAST VII

Conjuration (Creation) [Cold]

Level: Cleric 7, druid 7

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 7th-level list, two creatures of the same kind from the 6th-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE BEAST VIII

Conjuration (Creation) [Cold]

Level: Cleric 8, druid 8

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 8th-level list, two creatures of the same kind from the 7th-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE BEAST IX

Conjuration (Creation) [Cold]

Level: Cleric 9, druid 9

Effect: One or more conjured ice creatures, no two of which can be more than 30 ft. apart This spell functions like *conjure ice beast I*, except that you can conjure one creature from the 9th-level list, two creatures of the same kind from the 8th-level list, or four creatures of the same kind from a lower-level list.

CONJURE ICE OBJECT

Conjuration (Creation) [Cold]

Level: Cleric 2, druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Effect: One object of up to 5 lb./level

Duration: 1 min./level

Saving Throw: None (harmless)

Spell Resistance: No

You conjure into being a block of transparent ice in the shape of any object you have seen at least once before, up to the weight limit (to a maximum of 50 pounds at 10th level). Any object with moving parts does not function (for example, a crossbow). You must succeed on an appropriate Craft check to make a complex item.

DEATH HAIL

Conjuration (Creation) [Cold, Death]

Level: Druid 6, Winter 6

Components: V, S, DF

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (40-ft radius, 20 ft. high)

Duration: 1 round/level

Saving Throw: Fortitude half

Spell Resistance: No You call into being an intense storm of death hail in the area you designate.

Creatures in the area must succeed on a Fortitude save or take 1d2 points of Strength and Constitution damage.

FROSTBITE

Conjuration (Creation) [Cold]

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature/2 levels, no two of which can be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

You chill the air and create a layer of frost on the skin of target creatures.

The targets are entitled to a Fortitude save; those who fail take 6d6 points of cold damage and 2d6 points of Dexterity damage.

Creatures dropping to 0 Dexterity are frozen in a layer of ice, shivering and unable to attack, move, or defend.

FROSTFELL SLIDE

Conjuration (Teleportation) [Cold]

Level: Druid 4, ranger 4

Components: V, S, DF, Frostfell

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level or until expended; see text

You gain the ability to instantly teleport from one area of slush, snow, or ice to any other area of slush, snow, or ice up to the distance indicated on the table below.

Transport distance is based upon the substance touched at the point of departure, not at the point of arrival.

You may wait to travel in this manner up to the duration of the spell, holding the charge, but immediately upon arriving at the destination point, the spell ends.

Type of Area	Transport Distance
Slush	1,000 feet
Snow	2,000 feet
Ice	3,000 feet

GLACIER

Conjuration (Creation) [Cold]

Level: Druid 8

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels); see text

Effect: One 20-ft. cube/2 levels

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

When you cast this spell, you bring into existence 20-foot cubes of animated glacial ice (one per two caster levels, to a maximum of ten glaciers at 20th level), which need not appear adjacent to one another, but must be placed on a horizontal surface.

Glaciers placed in the air or on nonhorizontal surfaces do not appear, but are deducted from the number of glaciers the caster may conjure.

The glaciers remain stationary unless commanded, attacking any creatures within 5 feet with a +15 slam attack that deals 2d8+4 points of damage, plus 3d6 points of cold damage.

As a standard action, you may command any number of glaciers to move at a speed of 10 feet.

You cannot command any glacier to move more than 100 feet away from you, and if you move more than 100 feet from any glacier, that glacier remains stationary, attacking any creatures in its area (but it can be commanded again if you move within 100 feet).

A glacier has 20 hit points per caster level and a hardness of 0.

Creatures can hit the glacier automatically.

Fire, including a *fireball* spell and red dragon breath, can melt a glacier, and it deals full damage to the ice (instead of the normal half damage taken by objects).

Suddenly melting a glacier creates a great cloud of steamy fog that lasts for 10 minutes.

GLAZE LOCK

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Lock touched

Duration: 10 min./level; see text

Saving Throw: None

Spell Resistance: No

You jam a locking mechanism with ice, raising its Open Lock DC by 10 and the lock's hardness by 5.

Fire attacks against the lock deal double damage.

In cold or lower temperature bands, this spell lasts 1 hour per level.

ICE CASTLE

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 7

Components: V, S, F

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Effect: Fortress of ice and snow

Duration: 24 hours

Saving Throw: No

Spell Resistance: No

You create a huge castle of ice and snow, fully formed with walls, towers, gates, and battlements and magical wards. The castle includes a single main gate and a sally port, a drawbridge, a 30-foot diameter central tower made of blue ice (see page 80), and one additional tower per 6 levels of the caster.

The size of the castle is determined by the location of the towers, which enclose an open courtyard.

The maximum perimeter of the structure is 20 feet per caster level.

In addition, you can place any or all of the following three magical effects in the castle.

1. *Icicle* spells in two areas (typically in the gatehouse and in the central tower).

Saving Throw: See text.

Spell Resistance: No.

2. *Ice slick* spells triggered an intruder steps on the tower stairs.

Saving Throw: See text.

Spell Resistance: No.

3. *Obscuring snow* in any corridors or rooms, obscuring all sight, including darkvision, beyond 5 feet.

A creature within 5 feet has concealment (attacks have a 20% miss chance).

Creatures farther away have total concealment (50% miss chance, and the attacker cannot use sight to locate the target).

Saving Throw: None.

Spell Resistance: No.

The castle can be created around living creatures, and in this case it rises up from the earth and snow around them.

It cannot be "dropped" onto creatures as an offensive spell.

The caster may choose to be lifted onto the roof of the central tower by centering the spell on himself.

If the castle is summoned on relatively level ground, a moat of icy water 20 feet wide surrounds the castle.

If summoned on sharply sloping ground, an icy crevasse 20 feet wide and 50 feet deep surrounds the castle.

The castle melts slowly whenever the temperature rises above freezing; an ice castle takes 1d6 points of damage each round in a place with temperatures above freezing.

When struck by fire spells, the castle is damaged normally.

The castle has 200 hit points per 5-foot section and a hardness of 0.

The central tower is made of blue ice which has 300 hit points per 5-foot section and a hardness of 10. Creatures can hit the castle automatically.

Fire, including a *fireball* spell and red dragon breath, can melt the ice castle, and it deals full damage to the structure (instead of the normal half damage taken by objects).

Suddenly melting an ice castle creates a great cloud of steamy fog that lasts for 10 minutes.

Arcane Focus: A piece of blue ice carved to resemble the desired castle worth 2,000 gp.

ICE DARTS

Conjuration (Creation) [Cold]

Level: Bard 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One or more ice darts

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

A sharp, transparent icicle shoots from your fingertip.

You may fire one dart, plus one additional dart for every two levels beyond 3rd (to a maximum of five darts at 11th level).

Each dart requires a ranged touch attack to hit and deals 2d4 points of damage, half of which is cold damage.

ICE SHIP

Conjuration [Creation]

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Creates ship of ice

Duration: 1 hour/level (D)

You create a ship made of ice.

The vessel can take one of two forms, depending on your needs at the time.

The form is chosen when the spell is cast and cannot be changed.

Ice Runner: This tiny, narrow ship appears with a set of stone runners that carry the ship at speeds of up to 80 mph over any level ice, such as a lake, river, or ocean pack ice.

It can carry one Medium creature per caster level, and it cannot move against the prevailing winds (though it can move at right angles to the wind).

Large creatures cannot fit on an ice runner.

This form has 40 hit points and a hardness of 3.

Ice Galleon: This sailing vessel can move against the wind at a steady pace of 5 mph, or with the wind at 10 mph.

It carries three Medium creatures per caster level, or one Large creature per level.

This form has 60 hit points and a hardness of 5.

If the ship is created in an area of temperature above freezing, it immediately begins to melt, taking 1d12 points of damage per hour.

Both forms begin to melt or crack slowly during the last hour of the spell regardless of temperature, and disappear into puddles or splinters of ice at the end of the spell's duration.

Material Component: A small glass model of a ship worth at least 200 gp.

ICE SLICK

Conjuration (Creation) [Cold]

Level: Cleric 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One 20-ft. square

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

An *ice slick* spell covers a solid surface with a layer of slippery ice.

Any creature entering the area or caught in it when the spell is cast must make a successful Balance check or slip, skid, and fall.

Those that succeed on the skill check can move at half speed across the surface, or can skate or glide normally. However, those that remain in the area must each make a new skill check every round to avoid falling and be able to move.

The DM should adjust skill checks by circumstance.

For example, a creature charging down a hill that is suddenly iced has little chance to avoid the effect, but its ability to exit the affected area is almost assured (whether it wants to or not).

ICE WEB

Conjuration (Creation) [Cold]

Level: Sorcerer/wizard 4

Components: V, S, Coldfire

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Webs of coldfire in a 20-ft.-radius spread

Duration: 10 min./level (D)

Saving Throw: Reflex negates; see text

Spell Resistance: No

Ice web creates a many-layered mass of strong, frigid strands of pure coldfire.

These masses must be anchored to two or more solid and diametrically opposed points—floor and ceiling, opposite walls, or the like—or else the *ice web* collapses upon itself and disappears.

Creatures caught within the *ice web* become entangled in the strands.

Attacking a creature in an *ice web* won't cause you to become entangled.

Any creature moving into or through the spell's area takes 1d6 points of frostburn damage per round.

In addition, anyone in the effect's area when the spell is cast must make a Reflex save.

If this save succeeds, the creature is entangled, but not prevented from moving, though moving is more difficult than normal (see below).

If the save fails, the creature is entangled and can't move from its space, but can break loose by spending 1 round and making a DC 20 Strength check or a DC 25 Escape Artist check.

Once loose (either by making the initial Reflex save or a later Strength check or Escape Artist check), a creature remains entangled, but may move through the *ice web* very slowly.

Each round devoted to moving allows the creature to make a new Strength check or Escape Artist check. The creature moves 5 feet for each full 5 points by which the check result exceeds 10. If you have at least 5 feet of *ice web* between you and an opponent, it provides cover. If you have at least 20 feet of *ice web* between you, it provides total cover. The strands of an *ice web* are immune to damage from cold. Any fire—a torch, burning oil, a flaming sword, and so forth—can melt 5 square feet of coldfire strands in 1 round. *Ice web* can be made permanent with a *permanency* spell. A permanent ice web that is damaged (but not destroyed) regrows in 10 minutes. Creatures with the cold subtype may pass unimpeded and unharmed through an *ice web*.
Coldfire Component: Two ounces of coldfire.

OBEDIENT AVALANCHE

Conjuration (Creation) [Cold]

Level: Cold 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 20-ft.-radius avalanche of snow, centered anywhere within range; see text

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: No

You summon an avalanche of snow out of a rift in midair, burying your foes and sending them to a frosty death. The *obedient avalanche* affects creatures differently, depending on where they are in relation to the avalanche.
Within 20 Feet of the Center Point: Creatures take 1d8 points of damage per two caster levels (maximum 10d8) and an additional 1d6 points of cold damage per two caster levels. Creatures who fail their saves are also buried (as described in *Avalanches*, page 90 of the *Dungeon Master's Guide*). All squares within 20 feet of the center point are covered in heavy snow (see page 94 of the *Dungeon Master's Guide*), which persists as long as ordinary snow would.
Between 20 Feet and 40 Feet of the Center Point: Creatures take half as much damage from the impact of the avalanche as the creatures nearer the center point took (Reflex save negates). Creatures who fail their saves must also resist the force of the snow moving past them as if they were being bull rushed. The snow has a +13 bonus (+5 for effective Strength of 20 and +8 for effectively being Huge) on the bull rush check, and it pushes characters away from the center point of the spell. All squares in the 20-foot to 40-foot ring are covered in light snow, which persists as long as ordinary snow would.
Terrain and Structures: The avalanche uproots small trees and other vegetation automatically, and it leaves a trail of light rubble (as described on page 91 of the *Dungeon Master's Guide*) even after the snow melts. Structures struck by an *obedient avalanche* take 1d610 points of damage. The *obedient avalanche* extinguishes all flames, whether normal or magical, it touches.

OBSCURING SNOW

Conjuration (Creation) [Air, Cold]

Level: Cleric 2, druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Effect: Cloud spreads in 30-ft.-radius from you, 30 ft. high

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

A swirling snow vapor arises around you, and follows you from that point on. The snow obscures all sight, including darkvision, beyond 5 feet. A creature 5 feet away has concealment (attacks have a 20% miss chance). Creatures farther away have total concealment (50% miss chance, and the attacker cannot use sight to locate the target). A strong wind (21+ mph) disperses the snow in 4 rounds. A very strong wind (31+ mph) disperses the snow in 1 round. A *fireball*, *flame strike*, or similar spell burns away the snow in the explosive or fiery spell's area. A *wall of fire* burns away the snow in the area into which it deals damage. This spell does not function underwater. Creatures with *snowsight* are immune to the effects of this spell.

RAISE ICE FOREST

Conjuration (Creation) [Cold]

Level: Druid 7

Components: V, S, DF, Frostfell

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 20-ft. square of snow/level

Duration: Permanent

Saving Throw: None

Spell Resistance: No

Immediately after casting this spell, ice trees erupt from frostfell regions within the spell's area.

The ice trees resemble any type of tree designated by the caster (deciduous, evergreen, oak, or others).

Trees have 5-foot-diameter trunks and rise to a height of 15 feet.

Three trees appear in each 20-foot-square frostfell region in the area.

Ice Tree: 5 feet thick; hardness 8; hp 80; break DC 45; Climb DC 20.

SNOW WAVE

Conjuration [Cold]

Level: Druid 6

Components: V, S

Casting Time: 1 round

Range: 30 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude half and Reflex negates; see text

Spell Resistance: No

You create a wave of snow that knocks creatures in its path prone and deals 4d6 points of crushing damage plus 1d6 points of cold damage to targets caught in the cone.

Any creature making a Fortitude saving throw takes only half the cold damage from a *snow wave*; however, it still takes the full crushing damage.

In addition, anyone in the area must make a Reflex save or be knocked prone.

SUMMON GIANTS

Conjuration (Summoning)

Level: Cleric 8, Winter 8

Components: V, S, F/DF

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One or more summoned creatures

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You summon one or more giants that attack your enemies. They appear where you designate and act immediately, on your turn.

The giants attack your opponents to the best of their ability.

If you speak Giant, you can direct the giants not to attack, to attack particular enemies, or to perform other actions.

Summoned giants act normally on the last round of the spell and disappear at the end of their turn.

Choose a giant kind from the table below.

Type	Number	Align
Hill giants, fiendish	3	CE
Stone giants, celestial or fiendish	2	N
Frost giant, fiendish	1	CE
Fire giant, fiendish	1	LE

Focus: A lock of hair from a giant of the desired kind.

WHITEOUT

Conjuration (Creation) [Cold]

Level: Druid 7

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Effect: Cloud centered on target spreads 120 ft. and is 20 ft. high

Duration: 1 hour/level

Saving Throw: None (see text)

Spell Resistance: No

A swirling snow and a strong wind arise around you or a creature you designate, and follows you or the creature from that point on.

Characters in whiteout conditions take a -2 penalty to AC, lose any Dexterity bonus to AC, move at half speed, and take a -4 penalty on Dexterity-based skill checks, as well as Search, Spot, and any other checks that rely on vision.

The character also gains total concealment (50% miss chance).

These effects end when the character leaves the area of whiteout.

Whiteout conditions stack with wind and snowfall.

Visibility is 5 feet.

In addition, any creature trying to move within the effects of this spell must make a Survival check (DC 10 + caster level) every move action or wander lost inside the *whiteout*. A creature that fails can't leave the area, but can move around within it.

Groups of creatures roped or otherwise physically held together can use the lead creature's Survival check and stay together.

A new check can be made once per minute.

ZONE OF GLACIAL COLD

Conjuration [Cold]

Level: Druid 2, ranger 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 20-ft. radius

Duration: 1 round/level

Saving Throw: Fortitude half

Spell Resistance: No

You create a zone of icy cold within the spell's area, dealing 1d6 points of cold damage per round.

Arcane Material Component: A snowball.

DIVINATION

DETECT FIRE

Divination [Cold]

Level: Cleric 1

This spell functions like *detect evil* (see page 218 of the *Player's Handbook*), except that it detects heat energy from normal fire, fire spells, fire magic items, clerics of fire deities, and all living beings other than those with the cold subtype.

You are vulnerable to an overwhelming heat aura if you have the cold subtype.

Living beings without the fire subtype are detected with a heat aura strength of faint only, regardless of level or Hit Dice.

ENCHANTMENT

FREEZING GLANCE

Enchantment [Cold]

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level; see text

Saving Throw: Will negates

Spell Resistance: Yes

Your eyes become wintry tombs that destroy the spark of life in those who you meet your stare.

Each round you may target a single living creature.

It must make a Will saving throw or be frozen in place.

Frozen creatures cannot move, attack, cast spells, or defend themselves; they are considered immobile, losing shield and Dexterity bonuses to Armor Class and taking a further -4 penalty to Armor Class.

Frozen creatures are entitled to an additional saving throw if attacked, but this provides no immunity to the gaze.

A creature that has been immobilizing with a *freezing glance*, then restored to motion after an attack, can still be the target of the same *freezing glance* in a later round.

Though the gaze attack ends rather quickly, frozen creatures remain immobile for 1 minute per level.

In some cases, this can cause serious damage through exposure to the elements.

SNOWSONG

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 6

Components: V

Casting Time: 1 standard action

Range: 30 ft.

Area: 30-ft. radius centered on you

Duration: 10 min./level

Saving Throw: Will negates

Spell Resistance: Yes

Snowsong fills the area with a soft snowfall that melts and evaporates on contact with anything solid.

When you cast the spell, you must designate all creatures in the area as either allies or enemies.

While the snow falls, allies in the area hear a soft, lilting song that bolsters their spirits and confidence.

At the same time, as the snow strikes their bodies, it melts and washes away scars, wounds, and filth.

Allies under the effect of the snow gain a +4 morale bonus to Charisma and attack rolls, and a +4 insight bonus to Armor Class.

In addition, the snow imparts fast healing 1 and resistance to cold 15 to all affected allies.

All melee attacks made by allies in the *snowsong* deal an additional 1d6 points of cold damage.

Enemies in the area of a *snowsong* have a much different experience.

To them, the snow is bitterly cold and leaves scabs and angry welts when it lands their skin.

They perceive the music as a discordant jangle of crashes, scrapes, and howls.

As long as they remain in the area, they suffer a 20% chance of spell failure (for both divine and arcane spells) when casting any spells with a verbal component.

Enemies can resist the effects of a *snowsong* with a successful Will saving throw.

These benefits remain in place as long as the spell persists and as long as the target remains in the spell's area.

If a creature leaves the spell's area, all effects end for that creature until it returns to the *snowsong*'s area.

EVOCATION

BOREAL WIND

Evocation [Cold]

Level: Bard 5, cleric 5, druid 4, sorcerer/wizard 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Effect: Gust of wind (20 ft. wide, 20 ft. high) emanating out from you to the extreme of the range

Duration: 1 round + 1 round/2 levels

Saving Throw: Fortitude negates

Spell Resistance: Yes

You create a strong blast of arctic air that originates from your fingertips and moves in the direction you are facing.

As a stronger form of *gust of wind*, this boreal wind automatically extinguishes candles, torches, and similar protected or unprotected flames, including lanterns.

Large fires (such as bonfires, a blacksmith's coals, or even a house fire) have a 50% chance to be extinguished by the *boreal wind*.

Forest or grassland fires are too large to be extinguished by this spell.

All creatures caught in the area take 1d4 points of cold damage per caster level (maximum 15d4).

A successful Fortitude saving throw negates the gust's effects.

Those that fail the save are pushed away from the caster a distance of 3 feet per caster level.

Creatures that remain in the area past the first round must make an additional saving throw each round.

A *boreal wind* can do anything a sudden blast of wind would be expected to do.

It can create a stinging spray of sand or dust, overturn tents and blow down small huts, scuttle a small boat, and blow gases or vapors to the edge of the range. The wind can change direction if you actively direct it (a move action for you); otherwise, it merely blows in the same direction.

CALL AVALANCHE

Evocation [Cold]

Level: Druid 5

Components: V, S

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 10 ft.-radius/level spread

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: No

This spell may only be cast outside.

Immediately upon completion of the spell, an avalanche of ice and snow falls out of the sky, dealing 8d6 points of

BURIED IN SNOW

Three spells in *Frostburn* have the potential to bury creatures in snow: *call avalanche*, *iceberg*, and *ice rift*.

A buried creature can free itself with a DC 25 Strength check, or can be dug out by other creatures. In 1 minute, using only its hands, a creature can clear ice and debris equal to five times its heavy load limit (see Table 9–1: Carrying Capacity, page 162 of

crushing damage and potentially burying Large or smaller creatures within the area.

Creatures making their Reflex saving throws take half damage and are not buried.

Those that fail their saves are buried and take an additional 1d6 points of nonlethal damage per minute while still buried.

If such a creature falls unconscious while buried, it must make a DC 15 Constitution check.

If that check fails, it takes 1d6 points of lethal damage each minute thereafter until freed or dead.

The ice and snow remains until melted by natural or unnatural means.

A rapid melting of the ice and snow could cause a flash flood (see *Freezing and Thawing*, page 10).

A 9th-level caster buries Large or smaller creatures.

At 12th level, the maximum size of a creature increases to Huge.

At 15th, Gargantuan creatures are also buried, and at 18th level, a creature of up to Colossal size is buried by the snow.

the *Player's Handbook*). The amount of tightly packed snow that fills a 5-foot-by-5-foot area weighs 500 pounds. Armed with an appropriate tool, such as a pick, crowbar, or shovel, a digger can clear loose ice and debris twice as quickly as by hand.

The snow avalanche extinguishes all flames, whether normal or magical, it touches.

CRACK ICE

Evocation [Force]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area or Target: 10-ft.-radius/level spread; or one ice creature

Duration: Instantaneous

Saving Throw: Fortitude half (see text)

Spell Resistance: Yes (creature only)

You create a sudden explosive burst that shatters ice bridges, breaks up river ice, opens frozen ponds, or damages an icy creature.

The ice broken covers a 10-foot radius per caster level, and a 1-foot depth per level.

Ice thicker than the spell's depth is cracked and weakened, but not broken all the way through.

Weakened ice is treated as one category thinner than it really is (see Table 1–2, page 11).

Creatures dropped from a bridge, through lake or river ice, or off a glacier or iceberg take normal falling and cold water damage.

Creatures on a glacier will have a crevasse open under them equal to the depth of the spell.

Targeted against an ice creature of any weight (such as an ice golem, winterspawn, or entombed), *crack ice* deals 1d6 points of damage per caster level (maximum 10d6), with a Fortitude save for half damage.

Material Component: A hammer carved from salt crystal (50 gp).

DEFILE SNOW AND ICE

Evocation [Cold, Evil]

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 10 ft./level radius spread

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes

You imbue an area of ice or fallen snow with negative energy, granting all undead within the area a +4 profane bonus against turning attempts.

In addition, all cold creatures gain spell resistance 15 against fire effects.

ENTOMB

Evocation [Cold]

Level: Druid 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: One creature/level, no two of which can be more than 30 ft. apart

Duration: Instantaneous and 1 round/level; see text

Saving Throw: Fortitude negates

Spell Resistance: Yes

An *entomb* spell traps living creatures in a block of ice, suffocating them.

The spell entraps the targets with a thick layer of ice from head to toe.

Those that make a successful Fortitude saving throw can shake off the ice immediately, though they still take 6d6 points of cold damage.

If the creature fails its saving throw, it is held within the ice and immediately begins to suffocate per the drowning rules (see page 304 of the *Dungeon Master's Guide*).

In addition, the creature takes 2d12 points of cold damage and 1 point of Constitution damage per round from contact with the ice.

Other than attempting to escape, creatures entombed can perform actions that only require mental or verbal activity. Escaping from the ice block requires a DC 20 Strength check or the application of 20 points of fire damage.

Material Component: A clear gemstone with a minimum value of 500 gp.

ICE RIFT

Evocation [Cold]

Level: Cleric 6, druid 6, sorcerer/wizard 6

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 40-ft.-radius spread (S)

Duration: 1 round

Saving Throw: See text

Spell Resistance: No

When you cast *ice rift*, an intense but highly localized tremor rips through the ice.

The shock knocks creatures down, collapses structures, opens cracks in the ice, and more.

The effect lasts for 1 round, during which time creatures on the ice can't move or attack.

A spellcaster on the ice must make a Concentration check (DC 20 + spell level) or lose any spell he or she tries to cast.

The ice rift affects all terrain, vegetation, structures, and creatures in the area.

The specific effect of an *ice rift* spell depends on the nature of the terrain where it is cast.

Ice or Snow Cave, Cavern, or Tunnel: The spell collapses the roof, dealing 8d6 points of bludgeoning damage to any creature caught under the cave-in (Reflex DC 15 half) and burying that creature in snow.

An *ice rift* cast on the roof of a very large ice or snow cavern could also endanger those outside the actual area but below the falling debris.

Edge of a Glacier: *Ice rift* causes a glacier's edge to crumble, creating a landslide that travels horizontally as far as it fell vertically.

An *ice rift* cast at the top of a 100-foot glacier would sweep debris 100 feet outward from the base of the glacier.

Any creature in the path takes 8d6 points of bludgeoning damage (Reflex DC 15 half) and is pinned beneath rubble (see below).

Open Glacier: Each creature standing in the area must make a DC 15 Reflex save or fall down.

Fissures open in the ice, and every creature on the ice has a 25% chance to fall into one (Reflex DC 20 to avoid a fissure).

At the end of the spell, all fissures grind shut, killing any creatures still trapped within.

Frozen Water: Fissures open in the ice, and every creature on the ice has a 25% chance to fall into the freezing water (Reflex DC 20 to avoid a fissure).

Characters who fall into a fissure are immediately subject to hypothermia and take 2d6 points of cold damage from the frigid water.

At the end of the spell, all rents in the ice grind shut, sealing any creatures in the icy water beneath (for additional rules on characters in cold water, see Hypothermia, page 10).

Arcane Material Component: A bit of earth and a pinch of snow.

ICEBERG

Evocation [Cold]

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 60-foot radius

Duration: Instantaneous

Saving Throw: None or Reflex half; see text

Spell Resistance: Yes

Iceberg is a brutal and direct spell.

When cast, the spell creates a single large block of ice that drops from the sky onto a spot you select.

The iceberg then shatters if it encounters a solid surface.

Elephant-sized blocks of ice scatter in all directions, affecting nearby creatures based on how far they are from the center of the area.

Within 20 Feet of the Center Point: Any creature or object directly beneath the iceberg takes 20d6 points of crushing damage (no save) and is buried in snow (see page 90).

Between 20 Feet and 40 Feet of the Center Point: Creatures and objects in the middle section of the area also take 20d6 points of crushing damage, but are entitled to a Reflex save for half damage.

They are buried in snow (see page 90).

Between 40 Feet and 60 Feet of the Center Point: Creatures in the outermost section may be struck by flying debris for 10d6 points of damage.

They are entitled to a Reflex save for half damage, and are not buried regardless of whether the saving throw is successful or not.

LEOMUND'S TINY IGLOO

Evocation [Cold]

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: 5 ft.

Effect: 5-ft.-radius sphere, with 1-in.-thick wall/level centered on your location

Duration: 2 hours/level (D)

Saving Throw: None

Spell Resistance: No

You create a small domed snow house with a single entrance passage.

Up to one Large or three Medium or twelve Small creatures can fit into the igloo with you; they can freely pass into and out of the hut without harming it.

The temperature inside the igloo is magically warm, at exactly 50° F, and the walls do not melt.

The igloo has two features that help arctic survival: a sleeping platform and a lamp.

The snow sleeping platform takes advantage of the warm air trapped below the low roof, generated by body heat and a stone lamp.

The magical smokeless lamp provides heat for comfort and for cooking.

The igloo also provides protection against the elements, such as wind, snow, and hail.

The igloo withstands any wind of less than hurricane force, but a hurricane (75+ mph wind speed) or greater force destroys it.

The loose-packed snow of the igloo has a hardness of 0, and 3 hp per inch of thickness.

Material Component: A small dollop of seal fat or caribou fat.

NUMBING SPHERE

Evocation [Cold]

Level: Druid 2, sorcerer/wizard 2

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 5-ft.-diameter sphere

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: Yes

A sphere of intense cold energy rolls in whichever direction you point and damages those it strikes.

It moves 30 feet per round.

As part of this movement, it can ascend or jump up to 30 feet to strike a target.

If it enters a space with a creature, it stops moving for the round and deals 1d6 points of cold damage as well as 1d4 points of Dexterity damage to that creature, though a successful Reflex save negates both the cold damage and Dexterity damage.

A *numbing sphere* rolls over barriers less than 4 feet tall, such as furniture and low walls.

It instantly freezes water it encounters in 5-foot-cube sections, creating chunks of ice in large bodies of water.

The sphere moves as long as you actively direct it (a move action for you); otherwise, it merely remains at rest.

The sphere can be destroyed by attacks directed against it.

It has 10 hit points and damage reduction 5/–.

The surface of the sphere has a spongy, yielding consistency and so does not cause damage except by extreme cold.

It cannot push aside unwilling creatures or batter down large obstacles.

A *numbing sphere* winks out if it exceeds the spell's range.

Arcane Material Component: A bit of sponge and a drop of water.

WALL OF COLDFIRE

Evocation [Cold]

Level: Druid 5, sorcerer/wizard 4

Components: V, S, Coldfire

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Opaque sheet of coldfire up to 20 ft. long/level or a ring of coldfire with a radius of up to 5 ft. per two levels; either form 20 ft. high

Duration: Concentration + 1 round/level

Saving Throw: None

Spell Resistance: Yes

An immobile, opaque curtain of frosty coldfire springs into existence.

One side of the wall, selected by you, sends forth waves of cold, dealing 2d4 points of cold damage to creatures within 10 feet and 1d4 points of cold damage to those past 10 feet but within 20 feet.

The wall deals this damage when it appears and on your turn each round to all creatures in the area.

In addition, the wall deals 2d6 points of frostburn damage +1 point of frostburn damage per caster level (maximum +20) to any creature passing through it.

If you evoke the wall so that it appears where creatures are, each creature takes damage as if passing through the wall.

The opaqueness of the coldfire grants concealment (20% miss chance) against attacks made from the opposite side of the wall.

If any 5-foot length of wall takes 20 points of fire damage or more in 1 round, that length goes out.

(Do not divide fire damage by 4, as for normal objects).

Wall of coldfire can be made permanent with a *permanency* spell.

A permanent *wall of coldfire* that is extinguished by fire damage becomes inactive for 10 minutes, then reforms at normal strength.

Coldfire Component: Three ounces of coldfire.

WINTER'S EMBRACE

Evocation [Cold]

Level: Cleric 4, druid 3, Winter 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One creature

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

Winter's embrace covers the victim with sheets of ice and lumps of snow.

If the subject succeeds on its Fortitude save, the ice and snow instantly slough from its body, causing a mere 1d4 points of cold damage and ending the effect.

If the subject fails its saving throw, the ice and snow cling tenaciously to its body and cause 1d8 points of cold damage each round.

On the subject's action each round, it can attempt a new Fortitude saving throw to avoid taking damage that round.

If a creature takes damage twice from a single casting of *winter's embrace*, it becomes fatigued.

The fourth time a creature takes damage from the same spell, it becomes exhausted.

ILLUSION

ICE ASSASSIN

Illusion (Shadow)

Level: Sorcerer/wizard 9

Components: V, S, M, XP

Casting Time: 8 hours

Range: Touch

Effect: One duplicate creature

Duration: Instantaneous

Saving Throw: None; see text

Spell Resistance: No

The *ice assassin* spell is in many ways an improved version of *simulacrum*.

Developed by powerful frost mages who have more than their fair share of enemies to fight, an ice assassin is an effective way to destroy an enemy without putting yourself at risk.

An *ice assassin* spell creates a living, breathing creature that is a near-perfect duplicate of an existing creature.

The duplicate is formed entirely out of ice, but once the spell is in effect, it appears as an exact duplicate to all but its source, who always sees the ice assassin as an animated ice statue of himself.

The ice assassin possesses all the skills, abilities, and memories possessed by the original, but its personality is warped and twisted by an all-consuming need to slay the original.

It also constantly uses *locate creature* on its duplicate at a caster level equal to your own.

If its quarry is outside the range of this effect, the ice assassin must rely on its own cleverness or advice from you to track the original.

The ice assassin has the cold subtype.

Creatures familiar with the original might detect the ruse with a successful Spot check.

You must make a Disguise check (gaining a +10 circumstance bonus from the power of the spell) when you cast the spell to determine how good the likeness is.

The ice assassin is under your absolute command.

You possess a telepathic link to the ice assassin, and when you concentrate, you receive a clear image of the area surrounding the ice assassin as if you were scrying it.

Further, you can have any spell you cast on yourself affect the ice assassin as well; this includes spells with a target of "You" only.

These benefits persist as long as you and the ice assassin remain within a mile of each other.

If the ice assassin travels beyond this range, it continues to function and seek out its nemesis, but you have no direct control over it.

An ice assassin has no ability to become more powerful; it cannot increase its level or abilities.

Damage caused to the ice assassin can be repaired only via a complex process requiring 1 day, 100 gp per hit point, and a fully equipped laboratory.

If the ice assassin is reduced to 0 hit points by any damage except for fire damage, it explodes into a burst of icy shrapnel in a 20-foot radius that causes 1d6 points of cold damage for every two caster levels you possess; a successful Reflex saving throw halves the damage.

An ice assassin slain by fire damage simply melts into a pool of water.

Material Component: This spell is cast over the ice statue of the creature to be duplicated.

Some portion of the creature to be duplicated (hair, nail, and so on) must be placed inside the ice statue as it is constructed.

In addition, the spell requires powdered diamond worth 20,000 gp.

XP Cost: 5,000.

NECROMANCY

BLOOD SNOW

Necromancy [Cold]

Level: Cleric 2, druid 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft. square of snow/level

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You must cast this spell on a snow field.

You corrupt an area of fallen snow, imbuing it with negative energy.

Each round, a creature in contact with blood snow must succeed on a Fortitude save or take 1d2 points of Constitution drain.

In addition, anyone failing a saving throw is nauseated for the duration of the spell.

BONE CHILL

Necromancy

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: No

A ray of burning cold erupts from your fingertips.

Corporeal undead struck by the ray are covered in a layer of ice, rendering the subject immobile as if *held*.

Each round on its turn, the subject may attempt a new saving throw to break free of the ice.

(This is a full-round action that does not provoke attacks of opportunity).

Material Component: A small piece of bone and a 1-inch cube of ice.

EASE OF BREATH

Necromancy [Cold]

Level: Cleric 1, druid 1, ranger 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You grant the target the ability to survive in thin air, conferring a +20 inherent bonus on Fortitude saves to resist altitude sickness as well as saving throws to resist becoming fatigued due to altitude or thin air.

FROSTBURN

Necromancy [Cold]

Level: Cleric 4

This spell functions like *lesser frostburn*, except that it deals 3d12 points of frostburn damage +1 point per caster level (maximum +20).

FROSTBURN, LESSER

Necromancy [Cold]

Level: Cleric 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

When laying your hand upon a creature, you channel cold energy that deals 1d12 points of frostburn damage +1 point per caster level (maximum +5).

When cast upon a cold subtype creature, this spell heals a like amount of damage, rather than harming it.

FROSTBURN, MASS

Necromancy [Cold]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature/level, no two of which can be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

Cold energy spreads out in all directions from the point of origin, dealing 3d12 points of frostburn damage +1 point per caster level (maximum +20) to nearby enemies.

Like other *frostburn* spells, *mass frostburn* cures cold subtype creatures in its area rather than damaging them.

GELID BLOOD

Necromancy [Cold]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

Cold energy surges through the target's body, congealing the blood in the creature's extremities.

This effect causes a -4 penalty on attacks, Armor Class, and all Strength- and Dexterity-related checks, and anyone casting a spell with a somatic component has a 50% chance of spell failure for the duration of the spell.

If the target makes its Fortitude save, the creature only takes a -2 penalty on attacks, Armor Class, and all Strength- and Dexterity-related checks and has only a 25% chance of spell failure for spells with a somatic component.

Material Component: A pinch of flour.

HEARTFREEZE

Necromancy [Cold]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You encase the heart of the target creature in a block of ice. The target becomes immediately exhausted and dies in 1d3+2 rounds.

The subject is entitled to a Fortitude saving throw to survive the attack.

If the target succeeds on the save, it instead takes 5d8 points of cold damage and is not exhausted.

(The target might die from damage even if it succeeds on the saving throw).

A character attempting to save the victim of a *heartfreeze* spell must use a healing spell or effect on the victim as well as succeed on a DC 26 caster level check, otherwise the victim will succumb to the *heartfreeze* and die.

A creature immune to critical hits and sneak attacks is unaffected by *heartfreeze*.

Material Component: A strip of dried humanoid sinew.

HEAT LEECH

Necromancy [Cold]

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

You plant a tiny sphere of intense cold in the body of a living creature.

On each round on your turn (including the round during which you cast the spell), the target must succeed on a Fortitude saving throw or take 1d8 points of cold damage.

Material Component: A leech and a pinch of snow.

HIBERNATE

Necromancy

Level: Cleric 5, druid 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: One living creature

Duration: 1 week/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You put a creature into a state of suspended animation, slowing its life functions to almost imperceptible levels and allowing a creature to survive for weeks without food or water.

This suspension of life functions automatically stabilizes a dying creature, and it can save starving or dehydrated creatures from death.

Creatures affected by a *hibernate* spell have a slower metabolism, healing wounds at a rate of just 1 hit point per level per week.

If the target is unwilling, it is entitled a Will saving throw. A successful saving throw negates the effect of the spell; a failure allows the target an additional saving throw whenever it takes damage, when it is splashed with water or other liquids, or when 24 hours pass, whichever comes first.

MINDFROST

Necromancy [Cold]

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

This spell freezes the mental pathways of living creatures, dealing 5d6 points of cold damage and 1d4 points of Intelligence damage.

Material Component: A small stone covered in frost.

SHIVERING TOUCH

Necromancy [Cold]

Level: Cleric 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

On a successful melee touch attack, you instantly suck the heat from the target's body, rendering it numb.

The target takes 3d6 points of Dexterity damage.

Creatures with the cold subtype are immune to the effects of *shivering touch*.

SHIVERING TOUCH, LESSER

Necromancy [Cold]

Level: Cleric 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

Your successful melee touch attack delivers a bitter chill to the target, causing it to shiver uncontrollably for the duration of the spell.

Shivering characters take 1d6 points of Dexterity damage.

Creatures with the cold subtype are immune to the effects of *lesser shivering touch*.

THIN AIR

Necromancy [Cold]

Level: Cleric 2, druid 2, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 30-ft.-radius emanation

Duration: 1 min./level

Saving Throw: Fortitude negates

Spell Resistance: No

This spell thins the oxygen in the area, causing creatures caught therein to suffer the effects of extreme altitude sickness.

Subjects failing their saves take 1 point of damage to all ability scores because of altitude sickness (see page 90 of the *Dungeon Masters Guide*).

Characters acclimated to high altitude receive a +4 competence bonus on their saving throws.

Creatures that do not breathe are immune to the effects of the spell.

WAVES OF COLD

Necromancy [Cold]

Level: Sorcerer/wizard 6

Components: V, S, Coldfire

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Waves of frigid energy render all creatures with the fire subtype in the spell's area shaken for the duration of the spell.

Any creature with the cold subtype caught in the area of this spell loses its immunity to cold for the duration of the spell.

Whether or not a creature makes its saving throw, it becomes immune to further castings of this spell for 24 hours.

Coldfire Component: Two ounces of coldfire.

TRANSMUTATION

ALGID ENHANCEMENT

Transmutation [Cold]

Level: Cleric 6

Components: V, S, Coldfire

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One cold creature/level

Duration: 24 hours

Saving Throw: None

Spell Resistance: No

You energize cold creatures with a surge of coldfire.

Creatures with the cold subtype affected by this spell gain a +1 deflection bonus to AC, +1d8 temporary hit points, a +1 enhancement bonus on attack rolls, and a +2 bonus on saving throws against fire effects.

Each of these enhancements increases by +1 for every three caster levels.

So a 12th-level caster grants a +5 deflection bonus to AC, an extra 1d8+4 temporary hit points, a +5 enhancement bonus

on attack rolls, and a +6 resistance bonus on saving throws against fire effects.

This spell has no effect on creatures not of the cold subtype.

Coldfire Component: One ounce of coldfire.

ANIMATE SNOW

Transmutation [Cold]

Level: Druid 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Up to a 20-ft. cube of snow

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You imbue a mass of fallen snow with mobility and a semblance of life.

The snow to be animated may be natural or magically created.

Snow animated by this spell is treated as an animated object.

You can animate four Large animated objects, two Huge animated objects, or one Gargantuan animated object.

For details, see the Animated Object entry, page 13 of the *Monster Manual*.

The animated snow can assume any basic shape you wish, and it attacks as directed by your vocal commands.

Animated snow objects possess the Blind and Trample special attacks as detailed in the *Monster Manual* entry for animated objects.

In addition, they have the cold subtype, and do an additional 1d6 points of cold damage on a successful hit.

Animated snow objects take 1d6 points of damage each round if they exist in a place with temperatures above freezing.

Material Component: Meltwater from a glacier.

AURA OF COLD, GREATER

Transmutation [Cold]

Level: Cleric 7, druid 7

Range: 10 ft.

Area: 10-ft.-radius spherical emanation, centered on you

This spell functions exactly like *lesser aura of cold*, except it deals 2d6 points of cold damage to all creatures within 10 feet.

AURA OF COLD, LESSER

Transmutation [Cold]

Level: Cleric 3, druid 3, paladin 4, ranger 4

Components: V, S, DF

Casting Time: 1 standard action

Range: 5 ft.

Area: 5-ft.-radius spherical emanation, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

You are covered in a thin layer of white frost and frigid cold emanates from your body, dealing 1d6 points of cold damage at the start of your round to each creature within 5 feet.

BINDING SNOW

Transmutation [Cold]

Level: Cleric 3, druid 3, paladin 3, ranger 3

Components: V, S, DF, Frostfell

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: One 10-ft. square/level

Duration: 1 hour/level (D)

Saving Throw: Reflex negates

Spell Resistance: Yes

This spell must be cast on a snow field.

That snow field instantly freezes, impeding movement through the area.

A creature caught within the area can move only at half its normal speed.

By making a DC 20 Strength check or a DC 25 Escape Artist check, the creature can move at its normal speed for that round.

A creature that succeeds on a Reflex save is not impeded.

BLIZZARD

Transmutation [Cold]

Level: Druid 5, Winter 5

Components: V, S

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 100 ft.-radius/level spread

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: No

Immediately upon completion of this spell, the temperature drops to below freezing and a powerful blizzard erupts in the area.

Visibility is reduced to zero, making Spot, Search, and Listen checks and all ranged attacks impossible.

Unprotected flames are automatically extinguished and protected flames have a 75% chance of being doused.

Creatures unprotected from the cold must make a Fortitude save or take 1d6 points of nonlethal cold damage.

One foot of new snow falls each round.

Movement within the area is impeded, depending on the creature's size and depth of snow (for movement in a snow field, see page 12).

BRUMAL STIFFENING

Transmutation [Cold]

Level: Cleric 2, druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One weapon

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: Yes

The targeted weapon becomes brittle, reducing its hardness by 5 for the duration of the spell, thereby increasing the effectiveness of sunder attempts against the weapon.

In addition, rolling a 1 on an attack with the targeted weapon causes it to take damage equivalent to the amount it would have dealt on a successful hit.

CONTROL SNOW AND ICE

Transmutation

Level: Cleric 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: Ice and snow in a volume of 10 ft./level by 10 ft./level by 2 ft./level (S)

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

Depending on the version you choose, the *control snow and ice* spell raises or lowers ice or snow.

Lower Snow and Ice: This causes snow and ice to sink away to a minimum depth of 1 inch.

The depth can be lowered by up to 2 feet per caster level.

The snow and ice is lowered within a squarish depression whose sides are up to 10 feet long per caster level.

In extremely large and deep snow and ice fields, such as a glacier, the spell creates a crevasse that sweeps creatures downward (without dealing damage), rendering them unable to leave by normal movement for the duration of the spell.

They can climb out of a crevasse, as normal with a DC 18 Climb check.

When cast on ice elementals and other ice-based creatures, this spell acts as a *slow* spell.

The spell has no effect on other creatures.

Raise Snow and Ice: This causes snow and ice to rise in height, just as the *lower snow and ice* version causes it to lower.

Creatures and objects on top of the snow or ice are raised along with the top level of snow.

For either version, the character may reduce one horizontal dimension by half and double the other horizontal dimension.

CONTROL TEMPERATURE

Transmutation [Cold, Fire]

Level: Druid 3, sorcerer/wizard 3

Components: V, S, M/DF

Casting Time: 1 round

Range: 20 ft./level

Area: 20 cu. ft./level emanation, centered on you

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You imbue an area with cold or fire energy, reducing or raising the temperature by one temperature band per five caster levels.

Effects of the new temperature on creatures and the environment are incurred immediately (see *Cold Dangers*, page 8 of this book, and *Heat Dangers*, page 303 of the *Dungeon Master's Guide*).

Arcane Material Component: A drop of mercury.

CRUNCHY SNOW

Transmutation [Cold]

Level: Druid 1, ranger 1

Components: V, S, Frostfell

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: One 20-ft.-by-20-ft. square of snow/level

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

An area of fallen snow designated by you becomes hard and crumbly, generating a loud crunch when stepped upon.

Creatures take a -20 penalty on Move Silently checks when traveling through crunchy snow.

EVERGREEN

Transmutation [Fire]

Level: Druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft. radius

Duration: 1 hour/level and instantaneous; see text

Saving Throw: None

Spell Resistance: No

You imbue a 10-foot-radius area of plant life with magical heat, instantly healing 1d8 points of damage +1 point per caster level (maximum +10), and granting immunity to cold for the duration of the spell.

Evergreen affects natural plants as well as creatures with the plant subtype.

FIMBULWINTER

Transmutation [Cold]

Level: Cleric 9, druid 8, sorcerer/wizard 8, Winter 9

Components: V, S, XP

Casting Time: 10 minutes (see text)

Range: 1 mile/level

Area: 1 mile/level radius, centered on you

Duration: 4d12 weeks

Saving Throw: None

Spell Resistance: No

You change the weather to a state of permanent winter, or strengthen winter conditions already present.

It takes 10 minutes to cast the spell and an additional 10 minutes for the effects to manifest themselves.

The current, natural weather conditions are determined by the DM.

You then choose what wintry conditions you want to manifest; the strength of the winter depends on the existing climate and season of the area.

Season	Possible Weather
Spring	Frequent snowfall, nightly frost
Summer	Light snow, hailstorms, cold rain, cloudy
Autumn	Frequent snowfall, frost
Winter	Frigid cold, blizzard, and constant snowfall

Daily wind and snowfall during a *fimbulwinter* are determined using the table below.

Add +8 to the roll when cast during winter, +4 in spring or autumn, -2 in summer, +2 for a cold climate, -2 for temperate climate, and -6 for hot climate.

Roll separately for wind and snow.

The snow and wind shown are the maximum possible for the day; at your option, there can be less wind or snow.

FIMBULWINTER d20 Roll	Amount of Snowfall	Amount of Wind
0 or less	1d12 inches of snowfall melt	Weak (0-10 mph)
1-5	No new snow	Weak (0-10 mph)
6-10	1d4-1 inches snow	Moderate (11+ mph)
11-15	1d8 inches snow or 1 inch hail	Moderate (11+ mph)
16-20	1d12 inches snow	Strong (21+ mph)
21-25	2d12+4 inches snow	Strong (21+ mph)
26+	1d6+1 feet of snow	Very strong (31+ mph)

You control the general tendencies of the weather, such as the direction and intensity of the wind.

When you select a certain weather condition to occur, the weather assumes that condition 10 minutes later (changing gradually, not abruptly).

The weather continues as you left it for the duration, or until you use a standard action to designate a new kind of weather (which fully manifests itself 10 minutes later).

XP Cost: 100 XP.

FLASH-FREEZE

Transmutation [Earth, Cold]

Level: Druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft. square/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

All earth, stone, and water in the spell's area is drained of heat.

Earth, mud, and stone become everfrost and water freezes.

You affect a 10-foot-square area to a depth of 1 foot.

Magical, enchanted, dressed, or worked stone cannot be affected.

Earth, stone, or water creatures are not affected.

This spell can be used to create small icebergs in large bodies of water.

These icebergs float, but are extremely slippery and unstable, requiring a DC 15 Balance check per round to stay on the iceberg.

Icebergs may be propelled through the water by the current, paddling, or other means.

FLESH TO ICE

Transmutation

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

The subject, along with all its carried gear, turns into a mindless, inert ice sculpture.

If the sculpture resulting from this spell is broken, melted, or damaged, the subject (if ever returned to its original state) has similar damage or deformities.

The creature is not dead, but it does not seem to be alive either when viewed with spells such as *deathwatch*.

Only creatures made of flesh are affected by this spell.

Material Component: Water and a drop of blood.

FLOAT

Transmutation

Level: Sorcerer/wizard 1

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Target: One Large or smaller creature or object

Duration: 1 min./level

Saving Throw: Fortitude negates

Spell Resistance: Yes

The target gains buoyancy and can float on water for the duration of the spell.

It cannot swim below the surface of the water.

Creatures that must breathe water can still do so, but cannot swim under the surface.

If the target is underwater at the time this spell is cast, it rises toward the surface at a speed of 30 feet.

Material Component: An ice cube dropped into water.

FORTIFY COLD CREATURES

Transmutation [Cold]

Level: Cleric 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Creatures with the cold subtype gain a +1 sacred bonus on all attack rolls and on saving throws against fire effects.

FREEZE ARMOR

Transmutation [Cold]

Level: Cleric 4, druid 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Metal equipment of one creature/level

Duration: 1 round/level

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

Freeze armor locks suits of metal armor and equipment into a layer of ice and extreme cold, immobilizing and damaging the armor's wearers.

Unattended, nonmagical metal gets no saving throw.

Enchanted metal is allowed a saving throw against the spell.

An item in a creature's possession uses the creature's saving throw (unless its own is higher).

A creature wearing metal armor that fails its save is frozen in place.

The spell locks the armor's joints and seams in inches of solid ice.

The frozen creature takes the damage listed below.

In addition, it suffers a -6 penalty on attack rolls, a -8 penalty to effective Dexterity, and can't move.

A frozen character who attempts to cast a spell must make a Concentration check (DC 15 + level of spell being cast) or lose the spell.

A creature wearing metal armor that makes its save takes half the damage listed below.

A creature not wearing metal armor that fails its save takes the damage listed below if its armor is affected or if it is holding, touching, wearing, or carrying metal weighing one-fifth of its weight.

The creature takes minimum damage (1, 2, 3, or 4 points; see the table) each round if it is not wearing metal armor or the metal that it is carrying weighs less than one-fifth of the creature's weight.

A creature not wearing or carrying metal less than one-fifth of its weight that makes its save is entirely unaffected by *freeze armor*.

FREEZE ARMOR DAMAGE

Round	Temperature	Cold Damage
1	Cold	1d6 points
2	Icy	2d6 points
3-5	Freezing	3d6 points
6+	Lethal	4d6 points

Any heat intense enough to damage the creature negates cold damage from the spell (and vice versa) on a point-for-point basis.

For example, if the damage from a *freeze armor* spell indicates 5 points of cold damage and the creature plunges through a wall of fire in the same round and takes 8 points of fire damage, it winds up taking no cold damage and only 3 points of fire damage.

FROST WEAPON

Transmutation

Level: Cleric 2, druid 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Area: Weapon touched

Duration: 1 round/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: No

You imbue a weapon with icy cold, granting it a power similar to the frost special ability.

A frost weapon deals an extra 1d6 points of cold damage on a successful hit.

If cast on a bow, crossbow, or sling, the spell bestows the cold energy upon the weapon's ammunition.

This ability stacks with the frost special ability, but not with itself.

Material Component: A drop of water.

FROSTFELL

Transmutation [Cold]

Level: Druid 8, sorcerer/wizard 9

Components: V, S, M/DF

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft. cube/level

Duration: 1 hour/level

Saving Throw: Fortitude partial; see text

Spell Resistance: See text

The area you designate becomes a frigid and icy environment, immediately dropping the temperature by 3 temperature bands.

For example, if the temperature is moderate, it drops to extreme cold (see page 9).

If the new temperature is below the cold band, all water is turned to ice and all earth and stone becomes everfrost to a depth of 10 feet per caster level.

Air within the area freezes, resulting in a heavy snowstorm lasting for the duration of the spell.

Snow accumulates only if the ground temperature is below the moderate band.

Living creatures caught within the area when the spell is cast instantly turn to ice (as per the *flesh to ice* spell).

If a creature successfully saves, *frostfell* deals 1d6 points of frostburn damage per caster level (maximum 20d6).

Creatures entering the area after the spell has been cast do not take this damage; however, all creatures in the area are subject to the normal effects of cold, snow, and ice for the duration of the spell.

Objects in the area, including those held by creatures, are instantly covered in a thin layer of frost, making them slippery.

When a creature uses a frosted item (a weapon, lockpicks, a potion, and so on), it must succeed on a DC 10 Dexterity check or it drops the item before it can be used.

Cold spells cast within the area gain a +1 caster level.

Multiple *frostfells* may be cast in the same area to increase the effects (dropping the temperature by an additional 3 bands).

The temperature band cannot be dropped below unearthly cold, no matter how many times *frostfell* has been cast.

Arcane Material Component: A pinch of dust and a few drops of water.

HIBERNAL HEALING

Transmutation [Cold]

Level: Cleric 5, druid 4

Components: V, S, Frostfell

Casting Time: 1 round

Range: Personal

Target: You

Duration: Instantaneous

Saving Throw: Fortitude half (harmless)

Spell Resistance: Yes (harmless)

You absorb slush, snow, and ice, channeling the cold energy stored within to cure 10 points of damage per caster level, to a maximum of 150 points at 15th level.

The spell melts all slush, snow, and ice within 10 feet of the caster.

ICE SHAPE

Transmutation [Cold]

Level: Cleric 3, druid 3, sorcerer/wizard 5

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Area: Ice touched, up to 10 cu. ft. + 1 cu. ft./level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You can form an existing piece of ice into any shape that suits your purpose.

For example, you can make an ice weapon, a special trapdoor, or a crude idol.

Ice shape also permits you to reshape an ice door to make an exit where one didn't exist or to seal a door shut.

While it's possible to make crude coffers, doors, and so forth with *ice shape*, fine detail isn't possible.

There is a 30% chance that any shape including moving parts simply doesn't work.

Arcane Material Component: Slush, which must be spread into roughly the desired shape of the ice object and then touched to the ice while the verbal component is uttered.

ICE SKATE

Transmutation

Level: Druid 1, ranger 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level (D)

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You allow a creature to skate across any icy surface, either level or inclined, increasing its base land speed by 60 feet. (This adjustment is treated as an enhancement bonus).

No Balance checks are required for this movement (even during combat on ice) unless the recipient attempts exceptional maneuvers, such as jumping a crevasse or gliding up a frozen waterfall, or takes damage—even then, the recipient gains a +4 enhancement bonus on its Balance check.

ICE TO FLESH

Transmutation

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One frozen creature or a cylinder of ice from 1 ft. to 3 ft. in diameter and up to 10 ft. long

Duration: Instantaneous

Saving Throw: Fortitude negates (object); see text

Spell Resistance: Yes

This spell restores a frozen creature to its normal state, restoring life and goods.

The creature must make a DC 15 Fortitude save to survive the process.

Any frozen creature, regardless of size, can be restored.

The spell also can convert a mass of ice into a fleshy substance.

Such flesh is inert and lacking a vital life force unless a life force or magical energy is available.

(For example, an ordinary ice sculpture would become a corpse).

You can affect an object that fits within a cylinder from 1 foot to 3 feet in diameter and up to 10 feet long or a cylinder of up to those dimensions in a larger mass of ice.

Material Component: A cube of ice and a drop of blood.

IVORY FLESH

Transmutation

Level: Bard 1, druid 1, ranger 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject's flesh and all his equipment turn white, granting him a +5 circumstance bonus on Hide checks in heavy snow or ice areas.

In any nonwhite-hued area (including ebony ice), *ivory flesh* instead incurs a -5 penalty on Hide checks.

MANTLE OF THE ICY SOUL

Transmutation

Level: Cleric 6, druid 5

Components: V, S, M, XP

Casting Time: 1 standard action

Range: Touch

Area: Creature touched

Duration: Instantaneous

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Mantle of the icy soul permanently adds the cold subtype to the targeted creature.

The skin, hair, and scales of the creature subtly change color to take on an icy blue tint, and its breath does not frost in cold temperatures.

The recipient of a *mantle of the icy soul* gains immunity to cold, but has vulnerability to fire, which means that it takes half again as much damage (+50%) as normal from fire regardless of whether a saving throw is allowed, or if it is a success or a failure.

There is no change to the creature's Challenge Rating or effective character level.

The effects of this spell can be removed by a *limited wish* or *wish*.

Material Component: A handful of ice or snow that must be pressed to the target's body.

XP Cost: 2,000.

MELD INTO ICE

Transmutation

Level: Cleric 3, druid 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 min./level

Meld into ice enables you to meld your body and possessions into a single block of ice.

The ice must be large enough to accommodate your body in all three dimensions.

When the casting is complete, you and not more than 100 pounds of nonliving gear merge with the ice.

If either condition is violated, the spell fails and is wasted.

While in the ice, you remain in contact, however tenuous, with the face of the ice through which you melded.

You remain aware of the passage of time and can cast spells on yourself while hiding in the ice.

Nothing that goes on outside the ice can be seen, but you can still hear what happens around you.

Minor physical damage to the ice does not harm you, but its partial destruction (to the extent that you no longer fit within it) expels you and deals you 5d6 points of damage.

The ice's complete destruction (by damage or thawing) expels you and slays you instantly unless you make a DC 18 Fortitude save.

Any time before the duration expires, you can step out of the ice through the surface that you entered.

If the spell's duration expires or the effect is dispelled before you voluntarily exit the stone, you are violently expelled and take 5d6 points of damage.

The following spells harm you if cast upon the ice that you are occupying: *Ice to flesh* expels you and deals you 5d6 points of damage.

Ice shape deals you 3d6 points of damage but does not expel you.

Thaw expels you and then slays you instantly unless you make a DC 18 Fortitude save, in which case you are merely expelled.

Finally, *pass through ice* expels you without damage.

MOVE SNOW AND ICE

Transmutation [Cold, Ice]

Level: Druid 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: See text

Range: Long (400 ft. + 40 ft./level)

Area: Snow or ice in an area up to 750 ft. square and up to 10 ft. deep (S)

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell moves snow and ice.

The area to be affected determines the casting time.

For every 150-foot square (up to 10 feet deep), casting takes 10 minutes.

The maximum area, 750 feet by 750 feet, takes 4 hours and 10 minutes to move.

This spell does not violently break the surface of snow or ice.

Instead, it creates wavelike crests and troughs, with glacierlike fluidity until the desired result is achieved. Trees, structures, rock formations, and such are mostly unaffected except for changes in elevation and relative topography.

The spell cannot be used for tunneling and is generally too slow to trap or bury creatures.

Its primary use is for digging or adjusting terrain contours before a battle.

This spell has no effect on ice creatures.

Material Component: A mixture of snow and ice in a small bag, and an iron blade.

PASS THROUGH ICE

Transmutation

Level: Cleric 5, druid 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level (D)

Saving Throw: Yes (harmless)

Spell Resistance: Yes (harmless)

The transmuted creature is able to pass through ice or snow as easily as water, but not through stone or frozen mud.

The creature moves at a speed of 15 feet and can rise or sink into ice at a rate of 5 feet per round.

When a *pass through ice* spell ends, the affected creature is ejected out to the nearest ice surface.

If someone dispels *pass through ice* or you dismiss it while a creature is still in the ice, the creatures may be trapped in the ice unless they can reach the nearest surface within a single round of movement.

Creatures trapped act as if caught in an *entomb* spell.

SNOW WALK

Transmutation

Level: Druid 2, ranger 2, Winter 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Targets: One creature/level touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subjects can walk on top of snow rather than through it, avoiding the usual movement penalties and leaving neither footprints nor scent.

Tracking the subject is impossible by nonmagical means, and the gliding along the surface of the snow adds 10 feet to the target creature's land speed.

(This adjustment is treated as an enhancement bonus).

SNOWDRIFT

Transmutation

Level: Druid 1, sorcerer/wizard 1

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Target: Snow touched, up to 10 cu. ft. + 1 cu. ft./level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You can form existing snow into any shape that suits your purpose.

For example, you can make a snowbank for concealment, sculpt a snow statue or idol, open a tunnel in deep snow, or simply cover a set of tracks.

Snowdrift also permits you to raise snowy barriers around a door or house to prevent vision in or out, or to clog a chimney with snow.

Snow cannot be made into weapons with this spell, and *snowdrift* does not affect solid ice in any form.

Arcane Material Component: A pinch of white flour.

SNOWSIGHT

Transmutation

Level: Druid 1, ranger 1, Winter 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (harmless)

The subject gains the ability to see to the normal limits of its vision even in whiteout conditions, and ignores all penalties due to snow glare and snow blindness.

Snowsight is no better than normal vision.

During daylight, this usually means the subject can see to the horizon; at night, vision is restricted to ambient light or darkvision as appropriate for the subject creature.

Snowsight does not grant creatures the ability to see in darkness.

SUPPRESS FLAME

Transmutation [Cold]

Level: Sorcerer/wizard 6

Components: V, S, Coldfire

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft. cube/level (S)

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You imbue an area with a combination of cold and negative energies that suppresses flame.

Illumination emitted by fire (torches, continual flame, and so on) is reduced by half.

For example, a hooded lantern within the area of a *suppress flame* spell clearly illuminates a 15-foot radius (instead of a 30-foot radius) and provides shadowy illumination in a 30-foot radius (instead of a 60-foot radius).

In addition, all damage caused by fire, including all fire spells and spell-like effects, is reduced to 1 point per die.

So, a *fireball* cast by a 10th-level wizard would deal 10 points of fire damage to those who fail their Reflex save or 5 points of fire damage to those who make their Reflex save, rather than 10d6 points of fire damage or half that amount, respectively, outside the confines of a *suppress flame* spell.

A caster can make a caster level check (DC 10 + the *suppress flame*'s caster level) to cause normal amounts of damage from fire spells.

A new caster level check must be made for each spell cast.

Coldfire Component: Ten ounces of coldfire.

THAW

Transmutation [Earth, Fire]

Level: Druid 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 10-ft. cube/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

All everfrost, slush, snow, mud, and ice in the spell's area are filled with heat.

Ice and snow become slush, slush becomes everfrost, and everfrost becomes bog (see page 88 of the *Dungeon Master's Guide*, for information on bogs).

GHOSTWALK (3.0)

ABJURATION

ANTI-ECTOPLASM SHELL

Abjuration [Ectomancy]

Level: Sor/Wiz 6

Components: V, S

As *antilife shell*, except that it affects only ectoplasm, whether inert or part of an ectoplasmic creature.

DELAY MANIFESTATION

Abjuration [Ectomancy]

Level: Clr 2, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One living creature

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

You prevent the subject creature from manifesting as a ghost for the duration of the spell.

If the subject dies, it appears on the Ethereal Plane as normal, but cannot enter the Material Plane while the spell is in effect.

This spell works only on an ethereal ghost or a living creature with a physical body; it cannot be cast upon the body of someone who is already dead, because this spell affects a creature's soul and a dead body has no soul to affect.

DISPEL POSSESSION

Abjuration [Ectomancy]

Level: Brd 4, Clr 5, Sor/Wiz 5

Components: V, S, M/DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You force a being that is possessing a creature out of its host body.

The possessor acts as if it had left its host voluntarily (a ghost appears next to the host, a person using *magic jar* returns to its receptacle if in range or dies if it is not, and so on).

Alternatively, this spell may be used as a form of *dispel magic* to dispel a *charm*, *dominate*, or similar effect on a target.
Material Component: powered silver worth 1 gp.

ETHEREAL ALARM

Abjuration

Level: Brd 2, Rgr 2, Sor/Wiz 2

As *alarm*, but detecting only ethereal creatures that enter the warded area.

The spell does not give you the ability to see the ethereal creatures once the alarm is triggered.

GHOST LOCK

Abjuration [Ectomancy]

Level: Clr 2, Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One willing nonhumanoid

Duration: 1 hour/level or until discharged

Saving Throw: None

Spell Resistance: No

If the nonhumanoid subject creature dies while this spell is in effect, the creature's soul does not immediately enter the realm of the dead, and it can instead attempt to enter the Material Plane as a ghost, just as if it were a type of creature (humanoid) normally capable of such.

Once the creature becomes a ghost, it can remain so until the spell duration expires, at which time it immediately passes through the Veil of Souls to the True Afterlife.

The creature may willingly do this before the duration expires.

GLYPH OF TURNING

Abjuration

Level: Clr 3

As *glyph of warding*, except that instead of a spell effect or a blast of energy, the spell unleashes a burst of positive or negative energy, depending on whether you channel positive or negative energy.

When you cast this spell, it uses one of your turning attempts for the day.

If you have a feat or special ability that alters your turning check (such as Empower Turning), you may apply that modifier to the turning or rebuking stored in the glyph.

When the glyph is triggered, the turning or rebuking attempt functions as if you were making the turning roll.

A successful turning or rebuking attempt causes the undead to flee the glyph.

If the result is that the undead are commanded, they guard the area of the glyph for 24 hours and then are released from the effects of the command.

The commanded undead do not serve you.

PROTECTION FROM POSSESSION

Abjuration

Level: Brd 1, Bone Collector 1, Clr 1, Ghost 1, Pal 1, Sor/Wiz 1

Components: V, S, M/DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

This spell wards a creature against mental control and possession attempts.

The spell blocks any attempt to possess the warded creature (as by a *magic jar* attack or certain ghost feats) or to exercise mental control over the creature (as by a vampire's supernatural domination ability, which works similarly to *dominate person*).

The protection does not prevent a vampire's domination itself, but it prevents the vampire from mentally commanding the protected creature.

If the *protection from possession* effect ends before the domination effect does, the vampire would then be able to mentally command the controlled creature.

Likewise, the spell keeps out a possessing life force, but does not expel one if it is in place before the spell is cast.

Arcane Material Component: A bit of powdered silver, which is used to mark the forehead of the target creature.

REPEL ECTOPLASM

Abjuration [Ectomancy]

Level: Ghost 7, Sor/Wiz 6

As *repel wood*, but affecting only ectoplasm, whether inert or part of an ectoplasmic creature.

Large manifestations of ectoplasm (such as a *wall of ectoplasm* spell) are not considered "fixed firmly" for the purpose of this spell and are pushed back by the waves of energy.

SONG OF THE CALLING

Abjuration [Ectomancy]

Level: Brd 3

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One ghost

Duration: Instantaneous

Saving Throw: Will negates; see text

Spell Resistance: Yes

You force a ghost to succumb to the Calling and depart immediately for the True Afterlife.

Each level in the eidolon class the target ghost has gives it a -1 penalty on its saving throw against this spell.

SURELIFE

Abjuration

Level: Repose 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute/level

This spell allows you to protect yourself against some condition, such as being immersed in boiling oil or being buried under an avalanche, that would ordinarily cause certain death.

You can protect yourself against only a natural occurrence or condition, not against a spell or the action of a creature (such as the breath of a dragon or the swords of a group of bandits).

You must specify the condition against which you wish to protect yourself, and the spell is effective against only that condition.

Should you be subjected to that condition during the duration of the spell, you feel no discomfort and take no damage from the condition.

However, the spell does not protect any items carried on your person.

At the end of the spell's duration, the condition has full normal effects on you if you are still subjected to it.

Material Components: An ointment of peach syrup and cinnabar.

This spell first appeared in *Oriental Adventures*.

CONJURATION

CREATE ECTOPLASM

Conjuration (Creation) [Ectomancy]

Level: Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Touch

Effect: 1 lb. of raw ectoplasm/level

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

You create raw ectoplasm.

The ectoplasm forms from your hands, eyes, or mouth, and may be pale gray, light blue, light green, or pale yellow.

You may create sticky or slippery ectoplasm.

The ectoplasm does not vanish until the spell duration has expired, but if the spell is dispelled and the ectoplasm has been in existence for more than 10 minutes, it vanishes instantly.

ECTOPLASMIC WEB

Conjuration (Creation) [Ectomancy]

Level: Sor/Wiz 3

Components: V, S, M

As *web*, except as noted below and that the strands are made of ectoplasm and therefore affect incorporeal creatures.

Material Component: A bit of spider web and splinters from a sphere made of resin.

FETID BREATH

Conjuration (Creation)

Level: Sor/Wiz 1

Components: V, S, M

Casting Time: 1 action

Range: 10 ft.

Area: Cone

Duration: 1 round (see text)

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

This spell functions like *stinking cloud*, except as noted above and as follows.

You exhale a 10-foot cone of stinking gas.

Though the cone persists for only 1 round, creatures who succumb to its effects are still nauseated for 1d4+1 rounds after leaving the area of the cone.

A creature that has a special saving throw bonus against poison may apply that to its saving throw against this spell. Creatures immune to poison are unaffected by *fetid breath*.

Legends maintain that this spell was created either by the yuan-ti or by an arcane worshipper of Khostren.

Material Component: A clove of garlic or an onion, which you must eat.

HAIL OF ECTOPLASM

Conjuration (Creation) [Ectomancy]

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 10-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

An explosion of spheres of hardened ectoplasm occurs from a point you designate.

The spheres deal 1d6 points of bludgeoning damage per two caster levels (maximum 5d6) to creatures within the effect.

The ectoplasm decays into nothingness after the spell takes effect.

Material Component: A handful of resin marbles.

RAISE GHOST

Conjuration (Healing) [Ectomancy]

Level: Clr 4

As *raise dead*, except that this spell can bring back only a ghost who has been killed.

It does not restore life to a dead body, but instead brings back a slain ghost as a ghost.

The spell requires some of the ghost's original ectoplasm (some of the ghost's ectoplasm that has been preserved with magic or alchemy is sufficient).

Alternatively, you may cast it on a dead creature's body to bring it back as a ghost.

The creature's soul is aware that it will return as a ghost instead of a living creature and can refuse to accept the spell if it does not want this to happen.

This form of the spell works only on creatures that can become ghosts.

As with other forms of this magic, if cast within the Manifest Ward, a raised ghost does not lose a level or a Constitution point when brought back from the dead.

SUMMON UNDEAD I

Conjuration (Summoning) [Evil; see text]

Level: Sor/Wiz 1

Components: V, S, F

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

As *summon monster I*, except that you summon an undead creature.

The spell conjures one of the creatures from the 1st-level list on the Summon Undead table below.

You choose which creature to summon, and you can change that choice each time you cast the spell.

Summoned undead do not count toward your total Hit Dice of undead you can control with *animate dead* or negative energy.

When you use a summoning spell to summon an air, chaotic, earth, evil, fire, good, lawful, or water creature, it is a spell of that type.

Summoning undead is always evil.

Focus: A tiny bag, a small (not lit) candle, and a carved bone from any humanoid.

This spell first appeared in *Magic of Faerûn*.

SUMMON UNDEAD II

Conjuration (Summoning) [Evil; see text]

Level: Sor/Wiz 2

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead I*, except that you can summon one undead from the 2nd-level list or 1d3 undead of the same type from the 1st-level list.

SUMMON UNDEAD III

Conjuration (Summoning) [Evil; see text]

Level: Sor/Wiz 3

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead I*, except that you can summon one undead from the 3rd-level list, 1d3 undead of the same type from the 2nd-level list, or 1d4+1 undead of the same type from the 1st-level list.

SUMMON UNDEAD IV

Conjuration (Summoning) [Evil; see text]

Level: Sor/Wiz 4

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead I*, except that you can summon one undead from the 4th-level list, 1d3 undead of the same type from the 3rd-level list, or 1d4+1 undead of the same type from a lower-level list.

SUMMON UNDEAD V

Conjuration (Summoning) [Evil; see text]

Level: Sor/Wiz 5

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead I*, except that you can summon one undead from the 5th-level list, 1d3 undead of the same type from the 4th-level list, or 1d4+1 undead of the same type from a lower-level list.

SUMMON UNDEAD

1st Level

Medium skeleton
Small zombie

2nd Level

Medium zombie
Large skeleton

3rd Level

Large zombie
Ghoul
Huge skeleton

4th Level

Allip
Bonesinger (using the sample 3rd-level bard as the base creature)
Ghast
Huge zombie

5th Level

Dread ram
Mummy
Necroplasm
Shadow
Spectral steed
Wight
Vampire spawn

WALL OF ECTOPLASM

Conjuration (Creation) [Ectomancy]

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Anchored plane of ectoplasm, up to one 10-ft. square/level, or hemisphere of ectoplasm with a radius of up to 3 ft. + 1 ft./level

Duration: 1 minute/level

Saving Throw: See text

Spell Resistance: Yes

This spell creates an anchored plane of ectoplasm or a hemisphere of ectoplasm, depending upon the version selected.

A wall of ectoplasm cannot form in an area occupied by physical objects or creatures.

Its surface must be smooth and unbroken when created.

The ectoplasm is semisolid (not raw)—about the consistency of packed snow—and retains its shape rather than collapsing into a formless mass.

Because ectoplasm is a *ghost touch* material, it is an impenetrable barrier to incorporeal creatures (although they may attack the wall or go around it).

The ectoplasm is opaque and blocks line of effect.

Ectoplasm Plane: A sheet of ectoplasm appears.

The wall is 1 inch thick per caster level and covers up to a 10-foot-square per caster level (so a 6th-level wizard could create a wall of ectoplasm 30 feet long and 20 feet high, a wall 60 feet long and 10 feet high, and so on).

The plane can be oriented in any fashion as long as it is anchored.

A vertical wall need be anchored only on the floor, while a horizontal or slanting wall must be anchored on two opposite sides.

The wall is primarily defensive in nature and is used to stop pursuers from following you and the like.

Each 10-foot square of wall has hardness 0 and 2 hit points per inch of thickness.

Creatures can hit the wall without making an attack roll.

A section of wall whose hit points drop to 0 is breached.

A creature can break through the wall with a Strength check (DC 12 + caster level).

Hemisphere: The wall takes the form of a hemisphere whose maximum radius is 3 feet +1 foot per caster level.

Thus, a 7th-level caster can create a hemisphere 10 feet in radius.

It is as hard to break through as the ectoplasm plane variation.

You can create the hemisphere so that it traps one or more creatures, though these creatures get a Reflex saving throw to avoid being trapped.

Material Component: A cube of resin and a drop of oil.

DIVINATION

DETECT GHOST

Divination [Ectomancy]

Level: Brd 0, Clr 0, Drd 0, Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: 60 ft.

Area: Quarter-circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

You detect ghosts.

The amount of information revealed depends on how long you study a particular area or subject.

1st Round: Presence or absence of ghosts.

2nd Round: Number of different ghosts.

3rd Round: The location of each ghost.

I SMELL YOUR FEAR

Divination

Level: Rgr 4

Duration: 1 hour/level

As *locate creature*, except as noted above and below.

Material Component: A sample of the target's flesh, blood, hair, ectoplasm, or some other physical part.

ENCHANTMENT

BOTTOMLESS HATE

Enchantment (Compulsion) [Mind-Affecting]

Level: Rgr 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You fill yourself with a terrible hatred against your favored enemies.

Against them you gain a +1 morale bonus on attack and damage rolls for every three caster levels.

This spell is suppressed by spells such as *calm emotions*.

CHARM PERSON OR GHOST

Enchantment (Charm) [Ectomancy, Mind-Affecting]

Level: Brd 2, Sor/Wiz 2

As *charm person*, except that it also affects ghosts.

DOMINATE PERSON OR GHOST

Enchantment (Compulsion) [Ectomancy, Mind-Affecting]

Level: Brd 5, Sor/Wiz 6

As *dominate person*, except that it also affects ghosts.

HARMONY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: Variable (see below)

When you play your instrument, sing your song, recite your epic poem, or speak your words of encouragement, you fill your allies with greater confidence than normal. When under the effect of this spell, you grant a +4 morale bonus on saving throws against *charm* and *fear* effects and a +2 morale bonus on attack and weapon damage rolls when you use your inspire courage ability.

The effect lasts as long as the effect of your inspire courage ability lasts.

If you don't begin to inspire courage within 1 minute of casting this spell, the effects of *harmony* end.

This spell first appeared in *Magic of Faerûn*.

HOLD PERSON OR GHOST

Enchantment (Compulsion) [Ectomancy, Mind-Affecting]

Level: Brd 3, Clr 3, Ghost 2, Sor/Wiz 4

As *hold person*, except that it also affects ghosts.

NIGHTMARE LULLABY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 2

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Target: One creature

Duration: Concentration + 2 rounds

Saving Throw: Will negates

Spell Resistance: Yes

You put your target into a surreal, sleepwalking state.

The target must make a Will saving throw or become *confused*, thinking she has entered a nightmare. This spell first appeared in *Magic of Faerûn*.

PERSUADE TO MANIFEST

Enchantment (Compulsion) [Ectomancy, Mind-Affecting]

Level: Brd 2, Sor/Wiz 3

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: Dead creature touched

Duration: Instantaneous

Saving Throw: Yes (harmless)

Spell Resistance: Yes (harmless)

This spell sends a powerful signal to the soul of a creature that has died and not yet manifested on the Material Plane or passed on to the True Afterlife.

The soul immediately appears on the Ethereal Plane and can immediately make a Wisdom check with a +10 morale bonus to manifest on the Material Plane.

If that check is failed, the ghost may make Wisdom checks normally every minute to manifest.

WAR CRY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Will negates; see text

Spell Resistance: Yes; see text

You attack with a war cry that bolsters your own courage as well as intimidating your enemies.

As a result of this spell, you gain a +2 morale bonus on attack rolls and weapon damage rolls or a +4 morale bonus on attack rolls and weapon damage rolls made as part of a charge attack.

Any opponent you attack in melee must make a Will save or become panicked.

Once a target makes a successful saving throw against this effect, it cannot be affected by your war cry for one day.

This spell first appeared in *Magic of Faerûn*.

EVOCATION

BONERATTLE

Evocation [Sonic]

Level: Brd 1, Bone Collector 1, Sor/Wiz 1

Components: V, S, M/DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature with bones

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

This spell creates a deep resonating vibration that damages bone.

It does not affect creatures that do not have true bones (such as elementals, incorporeal creatures, most golems, oozes, plants, or purely ectoplasmic creatures) or that are under the effect of spells that alter their bones (such as *stone bones*, or a *polymorph* spell to turn into a boneless creature), but does affect creatures with exoskeletons instead of humanlike bones (such as vermin).

The spell deals 1d4 points of damage per caster level (maximum 5d4).

Arcane Material Component: A tiny bell carved from a bone.

CANDLELIGHT

Evocation [Light]

Level: Brd 0, Clr 0, Drd 0, Sor/Wiz 0

Components: V, M/DF

Casting Time: 1 action

Range: Touch

Target: Object touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You cause an object to glow like a candle, shedding light in a 5-foot radius from the point you touch.

The effect is immobile, but it can be cast on a movable object if desired.

The light produced by this cantrip is not strong enough to counter or dispel any magical darkness.

Invented by the elves for use in nighttime ceremonies, *candlelight* has made its way into common usage.

It is particularly useful to novices and apprentices who need to spend long hours in study.

Arcane Material Component: A tiny candle.

INCORPOREAL DISHARMONICS

Evocation [Ectomancy, Sonic]

Level: Brd 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One incorporeal creature and see text

Duration: Instantaneous

Saving Throw: Will half

Spell Resistance: Yes

You create a wave of sonic energy that is harmful to incorporeal creatures.

The target creature cannot avoid the damage with its incorporeal miss chance and takes 1d6 points of sonic damage per two caster levels.

All creatures in adjacent squares take 1 point of sonic damage from the residual effects of the energy wave.

Focus: A silver tuning fork.

IRRESISTIBLE FORCE

Evocation

Level: Pal 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Charging yourself with divine energy, you become the epitome of force in motion.
You are protected by *freedom of movement*.
You may charge as long as you move at least 5 feet.
You may pass through enemy squares as if they were occupied by allies.
You gain a +10 bonus on bull rush attempts.
You gain a +10 bonus on checks made to avoid being tripped.
If you are pinned, you can still move 5 feet as part of your turn, as long as you are strong enough to move the person pinning you.
When moving in combat, you act as if you had the Mobility feat.

UNMOVABLE OBJECT

Evocation

Level: Pal 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Charging yourself with divine energy, you bond yourself to the ground beneath your feet and become the epitome of stability.

The spell ends instantly if you move from your current position and does not work unless you are in contact with the ground.

You gain a +2 bonus to Strength, a +4 bonus to Constitution, a +2 resistance bonus on saving throws, and a +4 dodge bonus to AC.

You gain a +10 bonus to resist a bull rush (this bonus does not include the +4 bonus for being “exceptionally stable”, but exceptionally stable creatures do get that bonus in addition to the bonus from this spell).

You gain a +10 bonus to resist all trip attacks (but not to your attempts to trip someone in return).

You gain a +10 resistance bonus on any roll made to resist an effect that would cause you to move from your current location.

For example, while you are not immune to enchantment effects, you gain a +10 resistance bonus on saving throws (or Charisma checks, in the case of effects such as *charm person*) to resist commands that would cause you to leave your current position.

If the ground you stand on disappears or cannot support your weight (such as with *disintegrate* or *transmute rock to mud*), this spell ends and the existing conditions affect you normally.

ILLUSION

DISGUISE UNDEAD

Illusion (Glamer)

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: One corporeal undead

Duration: 10 minutes/level

Saving Throw: None (harmless)

You make one undead—including clothing, armor, weapons, and equipment—look different.

You can make it seem 1 foot shorter or taller, thin, fat, or in between.

You cannot change the creature's body type.

For example, a wight could look human, humanoid, or like any other generally human-shaped bipedal creature.

Otherwise, the extent of the apparent change is up to you. You could add or obscure a minor feature, such as a mole or a beard, or make it look like an entirely different creature.

The spell does not provide the abilities or mannerisms of the chosen form.

It does not alter the perceived tactile (touch) or audible (sound) properties of the undead or its equipment.

A battleaxe made to look like a dagger still functions as a battleaxe.

Note: Creatures get Will saves to recognize the glamer as an illusion if they interact with it (such as by touching the undead and having that not match what they see, in the case of this spell).

Focus: A cocoon of a death's head moth.

This spell first appeared in *Magic of Faerûn*.

PLEASANT VISAGE

Illusion (Glamer) [Ectomancy]

Level: Brd 1, Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One ghost

Duration: 24 hours

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You disguise the wounds of a ghost who has a disturbing, repulsive, or gruesome appearance, making it appear completely normal (although still a ghost).

The spell does not change the ghost's features or disguise it in any way; it conceals the manner of the ghost's death so that it can walk about in polite society.

NECROMANCY

BLACK LUNGS

Necromancy

Level: Clr 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 hour/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You cause the target to succumb to an infection and corruption of the lungs.

An affected creature's speed is reduced by half, it loses any Dexterity bonus to Armor Class, and it takes a –2 penalty on attack rolls.

Remove disease may end the effects of this spell early.

This spell was created by the clerics of Khostren.

DEATH ARMOR

Necromancy

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes; see text

You are surrounded by a crackling black aura that injures creatures that contact it.

Any creature striking you with its body or a handheld weapon takes 1d4 points of damage +1 point per two caster levels (maximum +10).

If the creature has spell resistance, it applies to the damage.

Note that weapons with exceptional reach, such as longswords, do not endanger their users in this way.

Material Component: A paste made of exotic herbs, ground bones, and onyx worth 50 gp, which is applied to your body when the spell is cast.

This spell first appeared in *Magic of Faerûn*.

DEATH LOCK

Necromancy [Ectomancy]

Level: Clr 3, Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

If the subject creature dies while the spell is in effect, its soul immediately passes on to the True Afterlife and cannot form a ghost.

The subject can still be raised from the dead or even brought back as a ghost by magic (such as with the *raise ghost* spell); this spell only prevents a newly slain creature from forming a ghost of its own volition.

DISRUPT ECTOPLASM

Necromancy [Ectomancy]

Level: Clr 0, Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You direct a ray of energy that damages ectoplasm.

You must make a ranged touch attack roll to hit, and if the ray hits a ghost or object made of ectoplasm, it deals 1d6 points of damage to it.

This damage bypasses the hardness of ectoplasmic objects and the damage reduction of ectoplasmic creatures.

ECTOPLASMIC DECAY

Necromancy [Ectomancy]

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

You create a barely visible spread of energy that is harmful to ectoplasm but harmless to everything else.

All ectoplasmic creatures and objects in the area take 1d6 points of damage per caster level.

Material Component: A flat, sharpened disk made of resin.

GENERAL OF UNDEATH

Necromancy

Level: Clr 8

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 day/level

You increase the number of Hit Dice of undead that you can control.

Add your caster level \times 10 to your Hit Dice limit for controlling undead.

When the duration expires, you lose control of the extra undead as if you had voluntarily relinquished control of them.

This spell first appeared in *Magic of Faerûn*.

GHOST COMPANION

Necromancy [Ectomancy]

Level: Drd 2, Pal 2, Rgr 2, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One willing animal, beast, or magical beast

Duration: 1 day/level

Saving Throw: None

Spell Resistance: No

The touched creature dies painlessly.

Instead of passing immediately beyond the Veil of Souls, the creature's soul remains on the Ethereal Plane and attempts to enter the Material Plane as a ghost.

Normally, this is used by ghost characters with a special nonhumanoid companion (such as a mage's familiar, a druid or ranger's animal companion, or a paladin's special mount) to allow the companion to travel with them in ghost form.

When the spell expires, the ghost creature dies the true death and its soul passes beyond the Veil of Souls.

It can be raised or resurrected before the spell duration expires, of course.

GHOST VENOM

Necromancy [Ectomancy]

Level: Drd 3, Rgr 3

As *poison*, except the poison affects only ghosts and other ectoplasmic creatures.

LEECH GHOST SKILL

Necromancy [Ectomancy]

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 10 minutes

Range: Touch (see text)

Target: Ghost touched

Duration: 1 day/level

Saving Throw: Will negates

Spell Resistance: Yes

You bind the ectoplasmic form of the target ghost onto another creature (hereafter called the “bearer”).

The ghost clings to the bearer’s back or chest in the form of a tattoo for the duration of the spell.

Leech ghost skill binds only the ghost, not any of its equipment.

While this ghostly tattoo is in place, the bearer may use the ghost’s skill ranks instead of his own as desired, regardless of the nature of the skill.

For example, a bearer wearing a ghost rogue/wizard tattoo could use the ghost’s ranks in Climb, Hide, Knowledge, Spellcraft, or any of the ghost’s other skills (including class-exclusive skills that the bearer does not possess) if they exceed his own.

He still uses his own ability modifiers for making skill checks.

The bearer does not have access to any of the ghost’s other abilities or to any knowledge that is not related to skills (such as bardic knowledge, class abilities, ghost powers, memories, racial bonuses, and so on), nor does he gain the ability to speak or understand any languages that the ghost knows.

The ghost cannot be attacked or harmed while bound to the target.

The ghost remains completely aware of its surroundings, though it cannot speak or use any abilities (including mental communication).

When the spell ends, the ghost is immediately freed and appears in an area adjacent to the bearer.

If the bearer is killed by any means (even *disintegrate* or some other effect that destroys his body), the ghost is immediately freed and appears in the bearer’s square.

When it appears, the ghost has all the abilities it had at the time of the binding (such as prepared spells or available spell slots, uses of turn undead, and so on).

This spell was invented by members of the Piran Sedestadel at the behest of the Yisa-khardomas, who sought a way to punish criminal ghosts and still let them contribute to life in the city.

Material Component: A silver needle and a vial of acid, together worth 100 gp.

PAINLESS DEATH

Necromancy

Level: Clr 1

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: One willing living creature touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

The touched creature dies painlessly and instantly.

PROPER STATE

Necromancy [Ectomancy]

Level: Clr 4, Ghost 4

Components: V, S, DF

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One willing incorporeal undead

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You transform a willing incorporeal undead creature into a ghost.

If its previous class and level are unknown, it becomes a ghost of the same race as you, with warrior levels equal to its undead Hit Dice.

If the undead’s previous race, class, and level were known (such as if the undead were a former ally that became the spawn of a shadow), it becomes a ghost of its former self. In any case, the creature’s character level is no greater than the Hit Dice it had as an undead.

For example, a 5th-level dwarf fighter that became a shadow’s spawn and was turned into a ghost with this spell would now be a 2nd-level fighter.

Levels lost in this manner are handled as if the character had lost levels from an undead’s energy drain attack.

A creature redeemed with this spell retains the alignment it had as an undead creature, although it is not strongly attached to that alignment and can change it over time or with the aid of an *atonement* spell.

Because only humanoids can become ghosts, this spell works only on incorporeal undead that are vaguely humanoid.

For example, it cannot convert a spectral steed (a horselike undead), a nightwing nightshade (a batlike creature), a nightwalker nightshade (a giantlike creature), or a nightcrawler (a wormlike creature) into a ghost.

SHROUD OF UNDEATH

Necromancy

Level: Bone Collector 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You shroud yourself with invisible negative energy so that nonintelligent undead perceive you as a fellow undead creature, ignoring you.

Your appearance does not change, and while intelligent undead do not immediately recognize you as alive, they are likely to question whether you are actually undead.

If used in conjunction with a disguise or illusion to appear undead, this spell gives you a +5 bonus on your Disguise check.

If you attack an undead creature while this spell is in effect, the spell immediately ends.

When you are using this spell, *inflict* spells heal you and *cure* spells hurt you.

You are treated as if you were undead for the purposes of all spells and effects that specifically affect undead.

A successful turning (or rebuking) attempt against you (treating you as an undead of your Hit Dice) requires you to make a Will saving throw (DC 10 + cleric's Cha modifier) or be panicked (or cowering) for 10 rounds.

A successful turning attempt against you that would destroy (or command) an undead of your Hit Dice requires you to make a Will save (DC 15 + cleric's Cha modifier) or be stunned (or charmed as by *charm monster*) for 10 rounds.

Material Component: Dust or bone fragments from any destroyed undead creature.

This spell first appeared in *Magic of Faerûn*.

UNDEAD TORCH

Necromancy

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One corporeal undead

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause a corporeal undead to give off cold blue energy that disrupts the life force of living creatures, but has no effect on objects or undead.

The target creature deals an extra 2d4 points of damage with its melee attacks.

If an attacked creature has spell resistance, the resistance is checked the first time the subject of this spell attacks the creature.

If it succeeds, the creature is unaffected by that casting of *undead torch*.

If the subject of this spell is destroyed, the *undead torch* continues to burn at the location of its destruction until the duration of the spell expires, and creatures that pass through that area take damage.

If the subject of this spell assumes a noncorporeal state (such as a vampire's gaseous form), the spell disperses harmlessly.

Material Component: A living or dead firefly or glowworm.

This spell first appeared in *Magic of Faerûn*.

UNDEATH TO DEATH

Necromancy

Level: Clr 6, Ghost 6, Repose 6, Sor/Wiz 6

Components: V, S, M, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Several undead creatures within a 50-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Undeath to death snuffs out the life forces of undead creatures, killing them instantly.

The spell slays 1d4 HD worth of undead creatures per caster level (maximum 20d4).

Creatures with the fewest HD are affected first; among creatures with equal HD, those who are closest to the point of origin of the burst are affected first.

Material Component: The powder of a crushed diamond worth at least 500 gp.

This spell first appeared in *Magic of Faerûn*.

TRANSMUTATION

BLESSING OF THE SNAKE MOTHER

Transmutation [Evil]

Level: Clr 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Living humanoid touched

Duration: 10 minutes/level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This spell causes the target to assume some of the qualities of the yuan-ti tainted one template, which provides several benefits.

First, the target gains the Alertness feat.

Second, the target's Constitution score increases by 2.

Third, the target becomes completely immune to snake venom and yuan-ti poison.

The target assumes a more feral and snakelike appearance (slitted pupils, elongated teeth, and so on) and is considered a yuan-ti for the purposes of all spells and effects (such as being subject to a ranger's favored enemy bonus against yuan-ti, not being able to form a ghost if slain, and so on).

This spell was created by the yuan-ti to temporarily bolster their ranks with followers in a short period of time.

Most other clerics would never consider casting this spell.

The spell is normally used on willing victims, since it grants the caster no control over the target.

Material Component: A few drops of the mixture that yuan-ti use to create tainted ones, which the target of the spell must swallow.

CAMOUFLAGE

Transmutation

Level: Drd 1, Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

You change your coloring to match the environment surrounding you.

This change grants you a +10 competence bonus on your Hide checks.

This spell first appeared in *Magic of Faerûn*.

CONTINGENT SPELL LOCK

Transmutation [Ectomancy]

Level: Brd 6, Clr 6, Ghost 5, Sor/Wiz 6

Components: V, S, DF

Casting Time: 10 minutes

Range: Personal

Target: You

Duration: Instantaneous

You transfer some of your currently prepared spells or available spell slots to a hidden part of your soul so that, if you die, when you appear on the Ethereal Plane, you have those spells or spell slots available for use (normally, dying

and appearing on the Ethereal Plane causes you to lose all prepared spells and unused spell slots). You can transfer one spell per spell level that you can cast into this hidden part of your soul. Once you transfer the spells or spell slots in this manner, you cannot access them in any way—it is as if you had used those spell slots. The next time you choose to ready or prepare spells, you may leave those transferred spells or slots in place, or you may recover them along with your other spells or spell slots (which means they would not be available if you died). The transferred spells or spell slots may be used by your ghost in the normal manner, requiring the appropriate components and so on. If you are raised from the dead, the transferred spells become inaccessible again (although you can choose to recover them the next time you ready or prepare spells, as described above).

DEMONIC BLOOD INFUSION

Transmutation [Chaotic, Evil]

Level: Clr 6, Sor/Wiz 6

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Willing creature touched

Duration: 1 hour/level

Saving Throw: None (see text)

Spell Resistance: Yes

You grant the subject infernal power by transforming its blood into the blood of a demon.

The subject gains the fiendish template and the chaotic and evil subtypes, and it becomes chaotic evil if it is not already. The creature counts as an outsider for the purpose of spells and effects that affect only certain creature types.

However, any effect that banishes, binds, or sends away outsiders does not function against the subject; instead, it simply causes *demonic blood infusion* to end immediately. When the spell ends, all its effects terminate immediately, and the target is nauseated for 1d4 rounds.

Repeated use of this spell tends to corrupt the target and force it to become chaotic evil if it was not already.

Each time *demonic blood infusion* is cast upon a creature it must attempt a Will saving throw.

Failure means the subject becomes chaotic if it was not already.

If the subject is chaotic but nonevil, failure causes it to become evil.

Each time the spell is used against the same creature, the DC for this saving throw increases by 1.

Demonic blood infusion was invented by the followers of Orcus, who use it to boost the power of their church's mortal servants.

Material Component: A vial of demon's blood worth 100 gp.

DOOR TO GREAT EVIL

Transmutation [Teleportation]

Level: Pal 4

Components: V, DF

Casting Time: 1 action

Range: Personal or touch

Target: You or willing paladin touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell functions like *teleport*, except as noted above and as follows.

When you cast this spell, you select one of two variants. *Send Yourself:* You teleport yourself, your gear, and your special mount (if any).

You do not designate a destination; you are automatically transported to the nearest location on the same plane where your talents as a holy soldier are needed.

There is always at least one evil creature (or one creature committing an evil act) at this location.

Fighting this creature or creatures is always an appropriate action—you are not required to parley, and killing such creatures is always justified according to the rules of your faith.

The encounter level is less than or equal to your character level minus 2; thus, if you are a 14th-level paladin, you face an encounter of EL 12 or below.

If you are of a race that has a level adjustment (such as a dark elf), use your effective character level instead of your actual character level for the purpose of determining the encounter level for this spell.

Door to great evil guarantees safe arrival for you (on solid ground, not within a raging fire or underwater, no chance of a mishap, and so on), but it does not provide you with a way to return.

You do, however, have a vague awareness of the distance traveled and know the direction you must go to return to the location where the spell was cast.

Send Another: This version of the spell functions as above, except that instead of teleporting yourself, you send another willing paladin with her gear and special mount (if any) in your place.

The challenge to the paladin is based on her character level, not yours.

All other factors in the spell description above that refer to "you" instead refer to the target paladin in this version.

This spell is a favorite of paladins of Aluvan and Draconish, and of Durann to a lesser extent.

Once per year, many of them go on "door crusades", in which senior paladins cast this spell on several paladins in a row, sending them to purge evil from many spots beneath the city of Manifest.

FORCED INCORPOREALITY

Transmutation [Ectomancy]

Level: Clr 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One ghost or naturally incorporeal undead

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

The target ghost is enveloped in an orange haze that forces it to be incorporeal for the duration of the spell.

Forced incorporeality counters and dispels *forced manifestation*.

FORCED MANIFESTATION

Transmutation [Ectomancy]

Level: Clr 3, Bone Collector 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One ghost or naturally incorporeal undead

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

The target creature is enveloped in a violet haze that forces it to manifest fully for the duration of the spell.

Forced manifestation counters and dispels *forced incorporeality*.

GHOST BANE WEAPON

Transmutation

Level: Clr 4, Sor/Wiz 4

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Weapon touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You give a weapon the *ghost bane* property in addition to any other properties it has.

Against ghosts, your weapon's enhancement bonus (if any) is 2 higher than normal and it deals an extra 2d6 points of damage.

The spell has no effect if cast upon a weapon that already has the *ghost bane* property.

At caster level 9th and higher, the weapon gains a +1 enhancement bonus if it is not already a magic weapon.

Alternatively, you can affect up to 50 arrows, bolts, or bullets.

The projectiles must be of the same type, and they have to be together, such as in the same quiver.

Projectiles (but not thrown weapons) lose their *ghost bane* property when fired.

Any weapon affected by this spell glows with witchlight (see the Witchlight feat).

GHOST TOUCH ARMOR

Transmutation [Ectomancy]

Level: Bone Collector 2, Clr 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Armor of creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject's armor gains the *ghost touch* property.

Material Component: A shield made of resin.

HUNTER'S MERCY

Transmutation

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round

This transmutation makes a bow strike true.

Your first hit with a bow (not including crossbows) in the next round automatically threatens a critical hit.

If you don't hit in the round immediately following the casting of this spell, the effect is wasted.

This spell first appeared in *Magic of Faerûn*.

IRON BONES

Transmutation

Level: Clr 4, Sor/Wiz 4

As *stone bones*, except the target creature's skeleton changes to iron.

The creature gains a +5 natural armor bonus to AC.

Focus: A miniature skull made out of iron or steel.

This spell first appeared in *Magic of Faerûn*.

MASS CAMOUFLAGE

Transmutation

Level: Drd 4, Rgr 4

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: Any number of creatures, no two of which can be more than 60 ft. apart

Duration: 10 minutes/level

As *camouflage*, except the effect is mobile with the group.

The spell is broken for any individual who moves more than 60 feet from the nearest member of the group.

(If only two individuals are affected, the one moving away from the other one loses its camouflage.)

If both are moving away from each other, they both become visible when the distance between them exceeds 60 feet).

This spell first appeared in *Magic of Faerûn*.

PRESERVE ECTOPLASM

Transmutation [Ectomancy]

Level: Sor/Wiz 0

Components: V, S, M

Casting Time: 1 action

Range: 10 ft.

Target: 1 cu. ft./level of ectoplasm

Duration: Instantaneous

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

As *purify food and drink*, but affecting only ectoplasm.

Material Component: A small loop of gold wire.

SHEREM TRANSFORMATION

Transmutation

Level: Sor/Wiz 6

Components: V, S, M, F

Casting Time: 1 hour

Range: Touch

Target: One unborn human (see text)

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You enhance the abilities of an unborn human child, giving the child exceptional sorcerous ability (if female) or exceptional clarity of mind (if male).

Upon reaching adulthood, the child may select the Kihu-Sherem Guardian or Sherem-Lar Sorcery feats.

While the spell affects an unborn child, it is targeted at the pregnant mother, who may resist the spell with a Will saving throw.

If the mother is bearing multiple children, the spell randomly affects one of the unborn (in these cases, the spell is usually cast multiple times in order to affect all of them).

If the mother is from an unbroken line of sherem-lar sorcerers at least ten generations long, a female child born of this spell may choose the Sherezem-Lar Sorcery feat.

This spell is normally used on only Bazareene nobles, and most nobles consider it a crime to use the spell on anyone but a noble.

Conversely, most people outside of Bazareene consider magically altering an unborn child to be a repugnant act and would never allow it.

Focus: A flawless emerald worth at least 1,000 gp.

Material Components: Blood from a Bazareene sorcerer of at least 6th level, an iron ring that has touched lava, and three golden spheres worth 50 gp each.

SPITTLE SPRAY

Transmutation

Level: Clr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You can spit out to close range (25 ft. + 5 ft./2 levels).

If you have a poison bite attack, this spell allows you to spit your poison out to this range.

You make a ranged touch attack to hit your foe, and if you succeed, the target must make a saving throw against your poison as if it had been bitten.

This spell is normally used by the yuan-ti and has no significant effect if used with normal spittle.

STONE BONES

Transmutation

Level: Clr 2, Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Corporeal undead creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause the skeleton of the target to become thicker and as strong as stone.

This gives the target a +3 natural armor bonus to AC.

The spell has no effect on creatures that have no skeleton but works normally on creatures that have exoskeletons (such as insects).

Another version of the spell is rumored to exist that works on living creatures, but causes wracking pains because of the radical alteration of its skeleton.

This version has fallen out of use because few creatures willingly subject themselves to it (although it might be used by sadistic followers of Orcus).

Focus: A miniature skull carved of granite.

This spell first appeared in *Magic of Faerûn*.

UNDEAD BANE WEAPON

Transmutation

Level: Clr 4, Ghost 3, Pal 3

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Weapon touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You give a weapon the undead bane property in addition to any other properties it has.

Against undead, your weapon's enhancement bonus (if any) is 2 higher than normal and it deals an extra 2d6 points of damage.

The spell has no effect if cast upon a weapon that already has the undead bane property.

At caster level 9th (paladin level 18th) and higher, the weapon gains a +1 enhancement bonus if it is not already a magic weapon.

Alternatively, you can affect up to 50 arrows, bolts, or bullets.

The projectiles must be of the same type, and they have to be together, such as in the same quiver.

Projectiles (but not thrown weapons) lose their undead bane property after they have been fired.

The weapon is considered blessed, which means it has special effects on certain creatures.

Any weapon affected by this spell glows with a serene gray radiance that sheds as much light as a candle.

This spell originally appeared in *Magic of Faerûn*.

WEAPON OF THE DEITY

Transmutation

Level: Blk 4, Clr 4, Pal 4

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: Your weapon

Duration: 1 round/level

You must be using your deity's favored weapon to cast this spell.

You may use the weapon as if you had proficiency with it, even if you normally do not.

The weapon gains a +1 enhancement bonus on attack and damage rolls and an additional special ability (see the list below).

A double weapon gains this enhancement bonus and special ability for only one of its two heads, as chosen by you.

If your weapon already has enhancement bonuses and special abilities for both of its heads, this effect of the spell does not function unless the weapon's normal enhancement bonus is lower than the bonus granted by this spell.

When you reach 9th caster level, the enhancement bonus of the weapon increases to +2.
At 12th level, the bonus rises to +3, at 15th level it is +4, and at 18th level it is +5.
A variant of this spell first appeared in *Defenders of the Faith*.

WEAPON OF THE DEITY

Deity	Weapon and Special Ability
Aluvan	defending short sword
Chaniud	screaming longsword
Dracanish	mighty cleaving scimitar
Durann	flaming warhammer
Eanius	merciful quarterstaff
Galaedros	frost quarterstaff
Khostren	venomous spiked gauntlet
Nessek	flaming dagger
Orcus	torturous heavy mace
Phaant	venomous greataxe
Soggelos	frost trident
Tephaneron	keen battleaxe
Uhanam	mighty cleaving light flail
Wyst	defending shortspear

HEROES OF BATTLE (3.5)

ABJURATION

AERIAL ALARM

Abjuration

Level: Ranger 2, sorcerer/wizard 2

Components: V, S, F/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 100-ft.-radius cylinder, 500 ft. high

Duration: 2 hours/level (D)

Saving Throw: None

Spell Resistance: No

As *alarm* (see *Player's Handbook* page 197), except the area is a cylinder that extends 500 feet into the air and the alarm only sounds when a flying creature of Medium or larger size enters or touches the warded area.

Arcane Focus: A silver bell and an eagle's feather.

CONJURATION

ACID RAIN

Conjuration (Creation) [Acid]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 20-ft. radius cylinder, 40 ft. high

Duration: 1 full round and 1 round/level; see text

Saving Throw: None

Spell Resistance: No

You create a downpour of acid that douses the area for 1 full round, dealing 7d6 points of acid damage to every creature in the area.

The ground within the area becomes muddy and/or slick from the downpour, and remains in that condition for a number of rounds equal to the caster's class level. Movement in the area is halved, though a creature can move at normal speed by making a DC 10 Balance check. Failure on the check means it cannot move in that round, and failure by 5 or more results in the creature falling prone.

Material Component: A flask of acid (cost 10 gp).

BOILING OIL

Conjuration (Creation) [Fire]

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft.-radius cylinder, 40 ft. high

Duration: 1 round and 1 round/three levels; see text

Saving Throw: Reflex half

Spell Resistance: No

A torrent of boiling oil rains down in the area you specify. Creatures in the area take 4d6 points of scalding (fire) damage from the oil.

Creatures that fail their initial saving throw take an additional 2d6 points of damage in each subsequent round of the spell's duration (up to a maximum of 6 rounds at 18th level).

The oil created by this spell is not itself flammable.

HURLING STONE

Conjuration [Creation]

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: 60-ft. line

Duration: Instantaneous

Saving Throw: Reflex negates

Spell Resistance: No

This spell creates a 50-pound stone that speeds away from the caster in a straight line, dealing 6d6 points of damage to each creature in its path.

In addition, any Medium or smaller creatures in its path are knocked prone.

LEOMUND'S BILLET

Conjuration (Creation)

Level: Bard 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./level)

Effect: 20-ft.-by-80-ft. structure

Duration: 2 hours/level

Saving Throw: None

Spell Resistance: No

This spell creates a simple building similar to a *Leomund's secure shelter* (see *Player's Handbook* page 247) that can be used to house up to forty troops.

The *billet* has a latched door at each end and two shuttered windows on each long side.

These doors and windows can be barred from the inside, but the *billet* does not provide any magical protection. The *billet* contains forty bunks (stacked two high), two trestle tables with ten stools each, and two fireplaces with raging fires already burning and enough wood to last for one night. Twenty loaves of bread are stacked on each table, and a pot of hot gruel hangs on a hook over each fire. **Material Components:** A rectangular chip of stone, crushed lime, iron filings, several splinters of wood, a pinch of flour, a sprinkling of water, and a sliver of dried beef.

DIVINATION

BATTLEMAGIC PERCEPTION

Divination

Level: Cleric 3, sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 min./level (D)

You gain a perception of the forces of magic and can sense when magic is being manipulated by a spellcaster.

You gain a +5 competence bonus on Spellcraft checks made to identify a spell as it is being cast.

If you have at least 5 ranks in Spellcraft, you are also able to sense the use of any spell or spell-like ability within 100 feet, so long as you have line of effect to the caster.

With a Spellcraft check (DC 15 + spell level) you can even ascertain the spell being cast.

This determination happens quickly enough that you can attempt to counter the spell as a free action.

Counterspell attempts are otherwise handled normally, and you can counter the spell even if you do not have line of sight to the spellcaster.

If you counter a spell in this manner, the *battlemagic perception* spell ends immediately.

STATUS, GREATER

Divination

Level: Cleric 5, healer 6

Components: V, S

Casting Time: 1 minute

Range: Medium (100 ft. + 10 ft./level)

Targets: Ten living creatures per caster level

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell is identical to *status* (see *Player's Handbook* page 284), except as noted above.

ENCHANTMENT

CRISIS OF CONFIDENCE

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 3, hexblade 2

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You strip away the target's leadership qualities, leaving the creature virtually incapable of commanding troops.

The target may not add its Charisma bonus (if any) to rally checks.

The target's commander rating (if any) is reduced to 0, and it loses any commander aura(s) it possesses.

The target can add its commander rating (if any) as a bonus on its Will save.

See Chapter 4 for more details on rally checks, commander ratings, and commander auras.

DRUMS OF WAR

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 4

Components: V, S, F/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Duration: Concentration plus 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

When a bard casts *drums of war* and plays her instrument, the spell transforms that music into an ominous cadence of drumbeats that fills enemies with doubt.

All enemies within range of the spell take a –2 penalty on their attack rolls and saving throws as long as the *drums of war* continue and for an additional 1 round per level afterward.

Deaf enemies and enemies under the effect of a *silence* spell are unaffected by this spell.

Focus: A masterwork musical instrument, which must be played.

EVOCATION

BATTLEFIELD ILLUMINATION

Evocation [Light]

Level: Cleric 4, druid 4, paladin 4

Components: V, S

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 80-ft.-radius cylinder, 40 ft. high

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

When you cast *battlefield illumination*, a soft light illuminates the area.

This effect improves the illumination in the area by one category (from darkness to shadowy, or from shadowy to bright light).

It does not stack with other magical light effects.

Unlike other spells with the light descriptor, *battlefield illumination* counters and dispels *early twilight* (see page 126) but does not affect other darkness spells.

BLAZE OF LIGHT

Evocation [Light]

Level: Druid 2, paladin 1

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

A cone of bright light shines forth from just above the caster's head.

All creatures within the cone that fail a Fortitude saving throw are dazzled for 1 minute.

Sightless creatures are not affected by *blaze of light*.

A light spell (one with the light descriptor) counters and dispels a darkness spell (one with the darkness descriptor) of an equal or lower level.

CONSECRATE BATTLEFIELD

Evocation [Good]

Level: Cleric 6

Components: V, S, M, DF

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Area: 100-ft.-radius emanation

Duration: 1 day/level

This spell blesses a large area with positive energy.

This effect functions as the *consecrate* spell (see *Player's Handbook* page 212), except as noted here.

Any creature slain within the area of this spell cannot be turned into an undead creature for the duration of the spell, even if it is removed from the area.

Consecrate battlefield counters and dispels *desecrate* and *desecrate battlefield*.

Material Components: A vial of holy water and 1 pound of platinum dust (500 gp).

DESECRATE BATTLEFIELD

Evocation [Evil]

Level: Cleric 6

Components: V, S, M, DF

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Area: 100-ft.-radius emanation

Duration: 1 day/level

This spell imbues a large area with negative energy.

This functions as the *desecrate* spell (see *Player's Handbook* page 218), except as noted here.

Desecrate battlefield counters and dispels *consecrate* and *consecrate battlefield*.

Material Components: A vial of unholy water and 1 pound of platinum dust (500 gp).

EARLY TWILIGHT

Evocation [Darkness]

Level: Cleric 4, hexblade 4, sorcerer/wizard 4

Components: V, M/DF

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 80-ft.-radius cylinder, 40 ft. high

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

Early twilight suppresses light in its area, even casting a shadow over daylight.

This effect reduces the illumination in the area by one category (from bright light to shadowy, or from shadowy to darkness).

It does not stack with other magical darkness effects.

Unlike other spells with the darkness descriptor, *early twilight* counters and dispels *battlefield illumination* (see page 125) but not other light spells.

Arcane Material Component: A black veil.

MOLTEN STRIKE

Evocation [Fire]

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 5-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex negates

Spell Resistance: Yes

You launch a ball of molten rock that detonates, showering nearby creatures with red-hot stone and flames.

The explosion deals 2d6 points of fire damage to every creature within the area.

In addition, any creature that fails its Reflex save catches fire (see page 304 of the *Dungeon Master's Guide*) and takes an additional 1d6 points of fire damage each round until it douses the fire by succeeding on a DC 15 Reflex save.

Material Component: A stone marble.

SHRIEKING BLAST

Evocation [Sonic]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 40-ft.-radius burst

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

A *shrieking blast* is a deafening explosion of sonic power.

Any creature in the area is permanently deafened and takes 8d6 points of sonic damage.

A successful save reduces the deafness to 1 round and reduces the damage by half.

Material Component: A small steel ball.

SPIRITUAL CAVALRY

Evocation [Force]

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Two or more magical horsemen of force

Duration: Instantaneous

Saving Throw: None and Fortitude negates; see text

Spell Resistance: Yes

As *spiritual charger* (see below), except that you create one horseman for every four caster levels, up to a maximum of five horsemen at 20th level.

No more than one horseman can attack any single target.

In addition to taking damage, any Large or smaller creature struck by one of your *spiritual cavalry* must succeed on a Fortitude save or be knocked prone and trampled by the rider, taking an additional 1d8 points of force damage.

SPIRITUAL CHARGER

Evocation [Force]

Level: Cleric 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Magic horseman of force

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A lance-wielding rider of pure force, bearing the symbol of your deity, springs into being and immediately makes one attack against a target you designate within range.

The rider's attack bonus is equal to your base attack bonus plus your Wisdom modifier.

If the rider appears in a location at least 10 feet distant from its target, the spiritual charger gains an additional +2 bonus on the attack roll because it is able to make a charge before attacking.

A *spiritual charger* deals 2d8 points of force damage, +1 point per three caster levels (up to a maximum of 2d8+5 at 15th level).

A *spiritual charger* threatens a critical hit on a natural 20 and deals triple damage on a successful critical hit.

NECROMANCY

ANIMATE LEGION

Necromancy [Evil]

Level: Cleric 4, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One or more corpses, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You use negative energy to temporarily animate one or more corpses.

You can create undead skeletons or zombies with this spell, but you can't create more Hit Dice of undead than twice your caster level.

The *Monster Manual* has game statistics for skeletons (page 226) and zombies (page 266).

The undead created are mindless and are not initially under your command.

Unless otherwise influenced (by way of a rebuke attempt or the *control undead* spell from the *Player's Handbook*, for instance), the undead created will attack the nearest living creatures.

See *animate dead*, page 199 of the *Player's Handbook*, for information on what is required to create a skeleton or zombie from a corpse.

Material Component: A black onyx gem worth at least 100 gp.

TRANSMUTATION

ANIMATE SIEGE WEAPON

Transmutation

Level: Cleric 7

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One siege weapon of up to Gargantuan size

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You imbue a siege weapon, such as a ballista or a battering ram, with mobility and the semblance of life.

(See the Size column on Table 4–1, page 67, to determine which siege weapons can be affected by this spell.)

The siege weapon attacks whomever or whatever you initially designate, continuing to do so as long as the spell lasts.

You can give it a new command as a free action as long as you are within range, and you can even command it to allow itself to be operated normally (in which case it gains none of the benefits of this spell).

The siege weapon can operate itself as if it were crewed by a normal complement of operators.

It automatically succeeds on any checks required to operate it.

It uses your caster level as its attack bonus when acting as a siege weapon.

BATTLEFIELD FORTIFICATION

Transmutation [Earth]

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Area: See text

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You shift earth to create a shallow trench or a berm, as described on page 35.

The trench or berm created is a straight line up to 5 feet long per two caster levels.

A berm created by this spell is 2 squares wide.

This spell has no effect when cast in an area of stone such as an unworked cavern floor, a flagstone floor, or a cobblestone street.

RESOUNDING VOICE

Transmutation [Sonic]

Level: Bard 2, cleric 2

Components: S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

The subject becomes supernaturally loud, and his voice carries over long distances.

A creature speaking or singing with the aid of *resounding voice* can be heard clearly up to 100 feet away per caster level.

Creatures within an area of magical *silence* cannot hear the subject, and a subject within a *silence* effect cannot be heard at all.

Resounding voice counters and dispels *silence* and is also countered and dispelled by *silence*.

TRIP VINE

Transmutation

Level: Druid 2, ranger 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: One 10-ft. square/level (S)

Duration: 1 hour/level

Saving Throw: Reflex negates; see text

Spell Resistance: No

Trip vine causes plants within the area to grow together to form a tangle.

Any creature entering an affected square must succeed on a Reflex save or fall prone.

Any creature charging into an affected square takes a -2 penalty on its saving throw.

If this spell is cast on an area of undergrowth (see page 87 of the *Dungeon Master's Guide*), saves against the spell take a -2 penalty.

HEROES OF HORROR (3.5)

ABJURATION

RESIST TAINT

Abjuration

Level: Cleric 3, druid 3, paladin 3, ranger 3, sorcerer/wizard 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes

This spell grants a +4 resistance bonus on saving throws made to resist acquiring taint.

CONJURATION

DREAM WALK

Conjuration (Teleportation)

Level: Oneiromancy 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched, or up to eight willing creatures joining hands

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You move yourself or some other creature into a dreamscape.

You must either be able to see the dreamer whose dreams you wish to enter or be within 30 feet of her.

This spell otherwise functions exactly as *plane shift*.

SUMMON UNDEAD I

Conjuration (Summoning) [Evil]

Level: Blackguard 1, cleric 1, dread necromancer 1, sorcerer/wizard 1

Components: V, S, F/DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell functions like *summon monster I* (see page 285 of the *Player's Handbook*), except that you summon an undead creature.

Summon undead I conjures one of the creatures from the 1st-level list in the Summon Undead table at right.

You choose which creature to summon, and you can change that choice each time you cast the spell.

Summoned undead do not count toward the total Hit Dice of undead that you can control with *animate dead*, *plague of undead*, or other command undead abilities.

No undead creature you summon can have more Hit Dice than your caster level +1.

Focus: A tiny bag, a small candle (not lit), and a carved bone from any humanoid.

Note: The descriptions of the *summon undead* spells presented here supersede earlier published descriptions.

SUMMON UNDEAD II

Conjuration (Summoning) [Evil]

Level: Blackguard 2, cleric 2, dread necromancer 2, sorcerer/wizard 2

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 2nd-level list or two undead of the same kind from the 1st-level list.

SUMMON UNDEAD III

Conjuration (Summoning) [Evil]

Level: Blackguard 3, cleric 3, dread necromancer 3, sorcerer/wizard 3

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 3rd-level list, two

undead of the same kind from the 2nd-level list, or four undead of the same kind from the 1st-level list.

SUMMON UNDEAD IV

Conjuration (Summoning) [Evil]

Level: Blackguard 4, cleric 4, dread necromancer 4, sorcerer/wizard 4

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 4th-level list, two undead of the same kind from the 3rd-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD V

Conjuration (Summoning) [Evil]

Level: Cleric 5, dread necromancer 5, sorcerer/wizard 5

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 5th-level list, two undead of the same kind from the 4th-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD

1st Level

Human warrior skeleton

Kobold zombie

2nd Level

Owlbear skeleton

Bugbear zombie

3rd Level

Ghoul

Troll skeleton

Ogre zombie

4th Level

Allip

Ghast

Wyvern zombie

5th Level

Mummy

Shadow

Vampire spawn

Wight

VILE DEATH

Conjuration (Calling) [Evil]

Level: Cleric 9, dread necromancer 7, sorcerer/wizard 9

Components: V, S, M, XP

Casting Time: 1 hour

Range: Touch

Target: One corporeal undead creature

Duration: Permanent (D)

Saving Throw: None

Spell Resistance: Yes

You summon the spirit of a fiend from the depths of Hell or the Abyss and bind it into the body of a corporeal undead creature.

Binding the fiend applies the fiendish template (see page 108 of the *Monster Manual*) to the undead creature.

The resulting creature is independent of you and can act on its own.

Its initial attitude toward you is indifferent.

Material Component: A bit of brimstone and a bloodstone worth at least 500 gp.

XP Cost: 100 XP.

DIVINATION

DETECT TAIN

Divination

Level: Cleric 1

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped emanation

Duration: Concentration, up to 10 min./level (D)

Saving Throw: None

Spell Resistance: No

You can sense the presence of taint in nearby objects and creatures.

The amount of information revealed depends on how long you study a particular area or subject: *1st Round:* Presence or absence of taint within the area.

2nd Round: Number of tainted creatures in the area and the strength of the strongest tainted aura present.

If you are free of taint, if the strongest tainted aura is overwhelming (see below), and if the strength of the tainted aura is at least twice your character level, you are nauseated for 1 round and the spell ends.

3rd Round: The strength and location of each tainted aura.

If a tainted aura is outside your line of sight, you discern its direction but not its exact location.

Aura Strength: The strength of a tainted aura depends on the corruption or depravity score (whichever is higher) of the creature you are detecting, or the amount of taint bestowed by an object, location, or creature without a taint score.

Taint Score	Taint Bestowed	Aura Strength
1	0*	Faint
2–6	1	Moderate
7–14	1d2 or 1d3	Strong
15+	1d4 or more	Overwhelming

*An object or location that is tainted in some way but does not bestow taint generally has a faint aura strength.

If an aura falls into more than one strength category, you learn about the stronger of the two.

Length Aura Lingers: How long the aura lingers depends on its original strength:

Original Strength	Duration of Lingering Aura
Faint	1d6 minutes
Moderate	1d6×10 minutes
Strong	1d6 hours
Overwhelming	1d6 days

Each round, you can turn to detect things in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

DREAM SIGHT

Divination

Level: Dream 6, oneiromancy 7

Components: S, DF

Casting Time: 1 full round

Range: See text

Target: You

Duration: 1 min/level (D)

You fall into a deep sleep while your spirit leaves your body in incorporeal form and travels to distant locations.

Your spirit can move 100 feet per round and can see and hear anything you could if you were in the same location.

The spirit can be blocked by any spell that wards incorporeal creatures, and it can be detected and attacked in the same way as incorporeal creatures can.

Your spirit can do nothing but move and observe—it cannot speak, attack, cast spells, or perform any other action.

At the end of the spell, your spirit instantaneously returns to your body and you wake up.

If your body is disturbed while your spirit is wandering, the spell ends immediately.

ENCHANTMENT

CALL FORTH THE BEAST

Enchantment (Compulsion) [Evil, Mind-Affecting]

Level: Corrupt 5

Components: V, S, F, Corrupt

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One humanoid of Hit Dice equal to caster level +4 or less

Duration: Permanent until discharged, then 1 hour/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

The target of this spell experiences no immediate effect. The next time she falls asleep, however, she immediately reawakens with a chaotic evil alignment and a bloodthirsty, temperamental, and even psychotic disposition.

The subject has no particular goals during this time except to shed blood and slaughter anyone who aggravates or irritates her; even the most innocent action might result in violence.

When the spell expires, the subject passes out momentarily, and reawakens with no memory of anything she might have done while under the effect of the spell. So far as she can tell, she simply fell asleep hours earlier, and she has no idea what has happened since then. She has gained no rest, cannot prepare arcane spells, and might be fatigued (if appropriate).

Focus: The tongue of an executed murderer.

Corruption Cost: 1d4 points of Constitution damage.

CLOAK OF HATE

Enchantment [Mind-Affecting]

Level: Bard 5, cleric 6, sorcerer/wizard 6, Spite 6

Components: V, S, M, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 day/level

Saving Throw: Will negates

Spell Resistance: Yes

Living beings view the subject of this spell with instinctive hostility.

All NPC reactions begin one category worse than they otherwise would (see page 72 of the *Player's Handbook*), and any Diplomacy checks to moderate those reactions take a –10 circumstance penalty.

Furthermore, people view the target in the worst possible light.

If, for example, a community is hunting for an unknown murderer, they will assume that the subject of the spell is guilty of the crime.

Player characters and NPCs who know the subject well, such as old friends or loved ones, are unaffected.

Material Component: One ounce of bile.

DREAMING PUPPET

Enchantment (Compulsion) [Mind-Affecting]

Level: Oneiromancy 5

Components: V, S

Casting Time: 1 minute

Range: Unlimited

Target: One sentient, living creature of caster's HD +4 or lower

Duration: 1 min./level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You take control of the physical body of a sleeping creature. At the beginning of the spell, you must name the subject or identify him by some title that leaves no doubt as to his identity.

You then enter a trance and appear in the subject's dream. So long as you remain in his dream, you see the world through the eyes of his physical form, and you control his body as per the spell *dominate monster* (see page 224 of the *Player's Handbook*).

The subject is aware of you in his dream, and can identify you if he knows you personally.

Once the spell ends, or if the subject shakes off the effect due to a new save granted by instructions contrary to his moral code (this new save gains a +2 bonus; see *dominate person*), he remembers what he has done while under the effects of *dreaming puppet*.

These memories are dreamlike and not entirely clear, but the subject recalls the gist of all that happened.

If the recipient is awake when the spell begins, you can choose to wake up (ending the spell) or remain in the trance.

You can remain in the trance until the recipient goes to sleep (assuming the spell's duration lasts that long), then enter the recipient's dream and dominate him as normal. If you are disturbed and awakened during the trance, the spell ends.

Creatures who don't sleep (such as elves, but not half-elves), don't dream, or are otherwise immune to mind-affecting spells and abilities are immune to this spell.

You are unaware of your own surroundings or of the activities around you while in the trance.

You are defenseless both physically and mentally (you always fail any saving throw) while in the trance.

Dreaming puppet carries an element of risk for you as well as for the subject.

If the target exceeds the required Will save by 10 or more, or rolls a natural 20, not only are you barred from controlling him but your soul becomes lost in the dreamscape, unable to easily return to your own body.

In order to return to your body, you must either find your way through the realm of dreams (and possibly other planes as well), cast a planar traveling spell, or be rescued.

FAMILIAL GEAS

Enchantment (Compulsion) [Language-Dependent, Mind-Affecting]

Level: Bard 6, cleric 8, sorcerer/wizard 8

Components: V

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Until discharged

Saving Throw: None or Will negates; see text

Spell Resistance: Yes

This spell is a far more potent version of *geas*.

The duration of the *geas* is unlimited; it lasts until the subject(s) either discharge the obligation or the effect is dispelled.

The initial subject of the spell gains no save, as per a standard *geas* (see page 234 of the *Player's Handbook*).

If the target dies before completing the obligation, the *geas* transfers to his closest adult relative.

This new subject is entitled to a save; if she succeeds, the *geas* is broken and the spell ends.

If not, she labors under the *geas* until she either completes the obligation, succeeds in dispelling the *geas*, or dies and potentially passes the *geas* to her closest adult relative.

Each new subject has an instinctive understanding of the nature of the obligation.

A *familial geas* can be broken only by a successful save on the part of the next successor, *remove curse* (if cast by someone two caster levels higher than the *familial geas*), *miracle*, or *wish*.

RESTFUL SLUMBER

Enchantment [Mind-Affecting]

Level: Oneiromancy 1

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

You allow another creature to gain a full night's sleep, uninterrupted by nightmares.

If you attempt to cancel the nightmares imposed by an outside source, such as a curse or another spellcaster, you must make a caster level check (1d20 + caster level) against a DC of 11 + the caster level of the nightmares' source.

ILLUSION

MANIFEST DESIRE

Illusion [Mind-Affecting]

Level: Oneiromancy 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration + 3 rounds

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: Yes

The target's greatest desire appears before her in illusory form for all to see.

Interaction with the image allows a Will save to disbelieve. Many casters use this spell simply to learn the subject's greatest desire, not caring whether the illusion deceives the subject.

MANIFEST NIGHTMARE

Illusion [Fear, Mind-Affecting]

Level: Oneiromancy 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration + 3 rounds

Saving Throw: Will partial or disbelief (if interacted with)

Spell Resistance: Yes

The target's greatest fear appears before him in illusory form for all to see.

So long as the nightmare remains manifest and in the subject's proximity, he must make a Will save every round or become panicked.

Success on this save indicates that the subject is only shaken that round.

This save is repeated every round for the spell's duration, until and unless the subject makes a successful save to disbelieve the illusion.

In order to disbelieve the illusion, the subject must first force himself to interact with it, to determine that it might be false.

Many casters use this spell simply to learn the nature of the subject's greatest fear, not caring whether the illusion actually causes the subject to panic.

NECROMANCY

CHAIN OF SORROW

Necromancy [Evil]

Level: Corrupt 7

Components: V, S, F, Corrupt

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature to start, possibly more; see text

Duration: See below

Saving Throw: Will half, and see text

Spell Resistance: Yes

The target of this spell takes 2d10 points of Charisma drain (Will half).

If he makes his saving throw, the spell has no further effect. If he fails, however, the chain continues.

The next time he touches a friend, loved one, or ally, that individual takes the same damage: 2d10 points of Charisma drain, or half with a successful save.

If this second victim fails the save, she then becomes the host for the spell, and the effect continues with the first friend or ally that she touches.

This effect continues until the chain is broken by a successful save or until it has affected a number of people equal to the spell's caster level.

Focus: The umbilical cord of a stillborn child.

Corruption Cost: 2d4 points of Charisma damage.

HARM, GREATER

Necromancy

Level: Cleric 7, dread necromancer 7

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

As *harm* (see page 239 of the *Player's Handbook*), except as noted above and in that this spell deals 1d12 points of damage per caster level, to a maximum of 20d12 at 20th level.

HARM, MASS

Necromancy

Level: Dread necromancer 9

Range: 20 ft.

Area: 20-ft.-radius burst centered on caster

Targets: All creatures except the caster in the area. As *greater harm*, except as noted above.

IMPRISON SOUL

Necromancy [Evil]

Level: Cleric 9, dread necromancer 9, Spite 9

Components: V, S, M, F

Casting Time: 1 standard action; see text

Range: Touch

Target: Creature touched

Duration: Permanent; see text

Saving Throw: Will negates

Spell Resistance: Yes

By casting *imprison soul*, you place the subject's soul in a receptacle, such as a gem, ring, or some other miniscule object, leaving her body lifeless.

While trapped, the subject takes 1d4 points of Constitution damage per day until dead or freed.

The rituals to prepare the receptacle require three days.

Destroying or opening the receptacle ends the spell, releasing the soul.

To cast the spell, you must know the name of the target. The receptacle must be within spell range and you must know where it is.

Material Component: A portion of the target's body (a fingernail, a strand of hair, or some other small part).

Focus: A Tiny or smaller object to be the receptacle for the subject's soul.

Note: This updated version of this spell supersedes earlier published descriptions.

MANTLE OF PURE SPITE

Necromancy

Level: Spite 8

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

By means of this spell, you wrap yourself in a pulsating nimbus of netherlight—the mystical aggregate of all your unresolved frustration and rage.

Anyone foolish enough to attack you while this nimbus is in effect is in for a most unpleasant surprise.

Each time you are the target of an attack, you gain increasingly greater power over your attacker.

First, this spell generates a cumulative +1 bonus to all attack rolls and to damage against that foe each and every time it strikes you, up to a maximum bonus equal to your level.

Second, you gain the ability to overcome any damage reduction your opponent might have, as though you possessed the necessary alignment or weapon materials.

Last but not least, you gain a cumulative damage reduction of your own, equal to 1/- each time your opponent strikes you, up to a maximum benefit of DR 15/-.

If you are fighting multiple opponents, you must keep track of how many times each one has struck you in order to determine the benefits this spell grants you against each. A *mantle of pure spite* provides its benefits even at range, so a wizard launching harmful spells at you from what she thinks is a safe distance will still kindle the *mantle of pure spite's* nimbus and experience its spiteful reprisals.
Material Component: A smidgen of your spit.

OATH OF BLOOD

Necromancy

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M, DF

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: See below

Saving Throw: None

Spell Resistance: Yes

Oath of blood functions only when cast on a creature that has recently been subject to a *geas* or similar spell.

It extends the reach of the *geas* beyond death.

If the individual subject to the *geas* dies before completing the task, *oath of blood* animates him as an undead creature in order that he might continue his quest.

The nature of the undead creature is determined by the caster level of this spell, as per *create undead* (see page 215 of the *Player's Handbook*).

Once the task is complete or the original *geas* (or similar spell) expires, the magic animating the subject ends and he returns to death.

Material Component: Grave dirt mixed with powdered onyx worth at least 40 gp per HD of the target.

PACT OF RETURN

Necromancy

Level: Cleric 7, Spite 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level

This spell allows you to establish the conditions whereby you will be brought back to life upon your death.

When you cast *pact of return*, you must state either a specific creature or a set of specific circumstances that you expect will be responsible for your death at some point within the spell's duration.

If you name a creature, that creature does not have to deal the deathblow to trigger the release of the spell, but it must play an active part in your demise.

If you name a set of circumstances, those circumstances must be reasonably specific or the spell will fail, leaving you well and truly dead.

An acceptable set of circumstances would be, "I expect energy draining to play a pivotal role in my demise", whereas an unacceptable set would be, "I expect to die from loss of hit points".

The DM decides whether the terms are acceptable.

Whether the subject of your demise is a specific person or a specific source, you must die (that is, reach -10 hit points or lower) for the spell to take effect.

If you do, and the circumstances of your demise are similar enough to those described when you cast the spell (DM's discretion), you are instantly resurrected (see page 272 of the *Player's Handbook*) with no level loss.

You can have more than one *pact of return* active at the same time, each one to be triggered by a different foe or set of circumstances, but you must keep track of the total time that has elapsed for each.

A *pact of return* that has not yet taken effect is still a magical effect (and a powerful necromantic one, at that), which can be dispelled by one who detects its presence.

PLAGUE OF UNDEAD

Necromancy [Evil]

Level: Cleric 9, dread necromancer 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One or more corpses within range

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell unleashes great necromantic power, raising a host of undead creatures.

Plague of undead turns the bones or bodies of dead creatures within the spell's range into undead skeletons or zombies with maximum hit points for their Hit Dice.

The undead remain animated until destroyed.

(A destroyed skeleton or zombie can't be animated again).

Regardless of the specific numbers or kinds of undead created with this spell, a single casting of *plague of undead* can't create more HD of undead than four times your caster level.

The undead you create remain under your control indefinitely and follow your spoken commands.

However, no matter how many times you use this spell or *animate dead* (see page 198 of the *Player's Handbook*), you can only control 4 HD worth of undead creatures per caster level; creatures you animate with either spell count against this limit.

If you exceed this number, newly created creatures fall under your control and any excess undead from previous castings of this spell or *animate dead* become uncontrolled.

Anytime this limit causes you to release some of the undead you control through this spell or *animate dead*, you choose which undead are released.

The bones and bodies required for this spell follow the same restrictions as *animate dead*.

All the material to be animated by this spell must be within range when the spell is cast.

Material Component: A black sapphire worth 100 gp or several black sapphires with total value of 100 gp.

PRONOUNCEMENT OF FATE

Necromancy

Level: Cleric 4, Spite 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates or Will partial; see text

Spell Resistance: Special

To invoke this spell, you speak the name of an offense that your target has committed.

Then you speak the inevitable doom that will fall upon her as a result of her transgression.

(The target need neither understand nor even hear this pronouncement).

An affected target takes a -4 penalty on attack rolls, damage rolls, saving throws, and checks for the duration of the spell.

If the offense you named was committed against you personally (although not necessarily against you alone), the target also has a 50% chance of losing all actions on her turn for the duration of the spell.

The spell's power can be more difficult to resist, depending on who suffered from the offense specified by the casting. If you were personally affected by the offense (in the DM's judgment), then the target can only hope to reduce the deleterious effects of the spell by half on a successful Will save.

You receive a +4 bonus on your caster level check to overcome the spell resistance of any creature whose crime affected you personally.

A successful save in these circumstances results in the target taking a -2 penalty on attack rolls, damage rolls, saving throws, and checks.

In addition, she has a 25% chance to lose all her actions for the duration of the spell.

Any target whose offense did not affect you personally gets her full spell resistance, and a successful Will save negates the effects of the *pronouncement of fate*.

RIGOR MORTIS

Necromancy

Level: Cleric 2, death deliver 2

Components: S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1d6+2 rounds

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell allows you to wrap a single target in death's embrace, making him both feel and appear dead for the duration of the spell.

You must be able to touch the target, and the target must have a Wisdom score, but otherwise the spell can affect any creature, including intelligent undead.

You must succeed on a melee touch attack to affect unwilling targets, and those who fail their saving throws immediately fall to the ground as though dead.

All vital functions (if any) are suspended; subjects of this spell do not breathe, pump blood, or otherwise indicate in any way that they still live.

Any physical harm done to someone in this state immediately grants another saving throw to awaken from the artificial torpor.

Material Component: A pinch of ash from a cremated body of any kind.

TRANSMUTATION**BESTOW WOUND**

Transmutation

Level: Dread necromancer 1, sorcerer/wizard 1, Spite 1

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

If wounded, you can cast this spell and touch a living creature.

The target takes damage equal to your wounds at the rate of 1 point of damage per your caster level, or the amount needed to bring you up to your maximum hit points, whichever is less.

At the same time, you heal that much damage, as if a *cure* spell had been cast on you.

Material Component: A small eye agate worth at least 10 gp.

FIRE IN THE BLOOD

Transmutation

Level: Cleric 5, Spite 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

This unsettling spell enables you to make deadly weapons of your own arteries and veins.

Once the spell is cast, your blood takes on a mystical potency that makes it more corrosive than the strongest acid to anyone who draws it from you.

From then on, until the spell's duration has elapsed, anyone who deals slashing or piercing melee damage on you is sprayed with your blood in retribution.

The blood deals a cumulative 1d6 points of damage per attack upon your attacker, with no save or spell resistance applicable, up to a maximum of 5d6.

Thus, the first time a foe hits you with a slashing or piercing weapon, he instantly takes 1d6 points of damage from the sanguinary backlash.

The second time that same foe strikes you, he takes 2d6 points of damage.

As soon as any single foe has taken 5d6 points of damage in a single spray from your corrosive blood, the spell ends.

Opponents striking you with magical attacks that do not manifest in a slashing or piercing manner, or those striking you with only bludgeoning weapons, do not trigger the retributive blood spray.

The arc and direction of the blood spray is magical in nature, and the spray does not splatter adjacent squares or parties, no matter how close together they might be.

Each spray strikes only the one responsible for the wound.

Material Component: A drop of your own blood.

MASTER'S LAMENT

Transmutation [Evil]

Level: Corrupt 6

Components: V, S, Corrupt

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One humanoid creature with a familiar or other empathically linked animal companion

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell strengthens the bond between master and familiar.

For the duration of the spell, any damage or magical effect (*charm*, *energy drain*, etc.) taken by the master is also taken by the familiar, and vice versa.

If the effect allows a save, both master and familiar roll their saves separately.

This spell can be cast on either the master or the familiar.

Corruption Cost: 1d6 points of Charisma damage.

LIBRIS MORTIS (3.5)

ABJURATION

ECTOPLASMIC ARMOR

Abjuration

Level: Sorcerer/wizard 1

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level (D)

You gain a +5 armor bonus to AC, with an additional +1 to the bonus for every four caster levels you have (maximum +9 bonus at 16th level).

This armor bonus applies only against incorporeal touch attacks.

All other attacks ignore the armor bonus from *ectoplasmic armor*.

ECTOPLASMIC FEEDBACK

Abjuration

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level (D)

A sheath of energy that reacts to incorporeal touch attacks protects you.

Any creature that hits you with an incorporeal touch attack takes 1d6 points of force damage +1 point per caster level (maximum +10).

If the attacker has spell resistance, it applies to this effect.

GHOST TRAP

Abjuration

Level: Cleric 6, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level (D)

You are surrounded by a field of energy that negates incorporeality.

The radius of the field is 5 feet per caster level.

All incorporeal creatures in this field become corporeal.

Creatures cannot turn ethereal while in this area, and

ethereal creatures cannot become nonethereal while in this field.

PROTECTION FROM NEGATIVE ENERGY

Abjuration

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The warded creature gains partial protection against negative energy effects.

Subtract 10 from the hit point damage dealt by any negative energy effect (such as *inflict* spells) that affects the warded creature.

Negative energy effects that don't directly deal hit point damage (such as *energy drain*) affect the target normally.

PROTECTION FROM POSITIVE ENERGY

Abjuration

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Undead creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The warded creature gains partial protection against positive energy effects.

Subtract 10 from the hit point damage dealt by any positive energy effect (such as *cure* spells) that affects the warded creature.

Positive energy effects that wouldn't deal hit point damage to the target (such as turning attempts) affect the target normally.

SHELTERED VITALITY

Abjuration

Level: Cleric 3, druid 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains immunity to fatigue, exhaustion, and ability damage or drain (regardless of the source).

CONJURATION

BLOODSTAR

Conjuration (Creation)

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: A bloodstar

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You create a magical construct called a bloodstar that shoots from your hand and hovers in the air anywhere within the limit of your range (each round, you can move the bloodstar anywhere within range with a standard action spent concentrating on the new position).

The bloodstar pulses with ruby light (providing illumination in a 20-foot radius).

It has hardness 10 and 20 hit points.

Any creature you initially designate within 10 feet of the bloodstar that takes damage from any source must make a saving throw.

On a failed save, the victim takes 1 point of Constitution damage.

Each time a victim or victims are damaged, a new save is allowed.

The blood appears to stream from the wound to the pulsing bloodstar.

Material Component: A ruby worth at least 30 gp.

EYES OF THE KING

Conjuration (Summoning)

Level: Hunger 6

Components: V, S, M

Casting Time: 1 minute

Range: Unlimited

Effect: Magical sensor

Duration: Concentration + 5 rounds, up to 1 min./level (D)

Saving Throw: None

Spell Resistance: No

You summon four fiendish dire bats blazing with ghoul-green light.

Similar information-gathering servitors always accompany Doresain, the King of the Ghouls.

The bats, called eyes of the king, send you visual information.

You can summon the *eyes of the king* at any point you can see, but they can then travel outside your line of sight without hindrance.

Even while outside your line of sight, they follow your mental directions on where to explore.

The *eyes of the king* travel together, never separating by more than 40 feet.

Eyes of the king travel at 40 feet per round (400 feet per minute) if viewing an area ahead as a human would (primarily looking at the floor) or 10 feet per round (100

feet per minute) if examining the ceiling and walls as well as the floor ahead.

They use their own senses to view their surroundings, including blindsense, which you also benefit from.

The *eyes of the king* can travel in any direction as long as the spell lasts.

You must concentrate to use *eyes of the king*.

If you do not concentrate, the bats move to attack the closest active creature.

Once concentration lapses, the spell ends 5 rounds later.

Material Component: A bit of bat fur.

RESTORATION, MASS

Conjuration (Healing)

Level: Cleric 8

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

This spell functions like *restoration* (see page 272 of *Player's Handbook*), except as listed above.

Material Component: Diamond dust worth 100 gp that is tossed into the air.

SUMMON UNDEAD I

Conjuration (Summoning) [Evil]

Level: Blackguard 1, cleric 1, sorcerer/wizard 1

Components: V, S, F/DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell functions like *summon monster I*, except that you summon an undead creature.

Summon undead I conjures one of the creatures from the 1st-level list on the Summon Undead table.

You choose which creature to summon, and you can change that choice each time you cast the spell.

Summoned undead do not count toward the total Hit Dice of undead that you can control with *animate dead* or the other command undead abilities.

Focus: A tiny bag, a small (not lit) candle, and a carved bone from any humanoid.

SUMMON UNDEAD II

Conjuration (Summoning) [Evil]

Level: Blackguard 2, cleric 2, sorcerer/wizard 2

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 2nd-level list or two undead of the same kind from the 1st-level list.

SUMMON UNDEAD III

Conjuration (Summoning) [Evil]

Level: Blackguard 3, cleric 3, sorcerer/wizard 3

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 3rd-level list, two undead of the same kind from the 2nd-level list, or four undead of the same kind from the 1st-level list.

SUMMON UNDEAD IV

Conjuration (Summoning) [Evil]

Level: Blackguard 4, cleric 4, sorcerer/wizard 4

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 4th-level list, two undead of the same kind from the 3rd-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD V

Conjuration (Summoning) [Evil]

Level: Cleric 5, sorcerer/wizard 5

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 5th-level list, two undead of the same kind from the 4th-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD

1st Level	4th Level
Skeleton, Medium	Allip Ghast
Zombie, Small	Zombie, Huge
2nd Level	5th Level
Skeleton, Large	Mummy Shadow
Zombie, Medium	Vampire spawn Wight
3rd Level	
Ghoul	
Skeleton, Huge	
Zombie, Large	

EVOCATION

BLADE OF PAIN AND FEAR

Evocation

Level: Assassin 2, blackguard 1, cleric 2, Deathbound 2, sorcerer/wizard 2

Components: V, S, DF

Casting Time: 1 standard action

Range: 0 ft.

Effect: Swordlike column of gnashing teeth

Duration: 1 min./level (D)

Saving Throw: Will partial

Spell Resistance: Yes

A 3-foot-long column of disembodied gnashing teeth springs forth from your hand, screaming and chanting with unholy vigor.

You make melee touch attacks with this *blade of pain and fear*.

The blade deals 1d6 points of damage +1 point per two caster levels (maximum +10).

Your Strength modifier does not apply to the damage.

A creature that you successfully deal damage to must also make a saving throw or become frightened.

NECROMANCY

AVASCULAR MASS

Necromancy [Death, Evil]

Level: Deathbound 8, sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: See text

Saving Throw: Fortitude partial and Reflex negates; see text

Spell Resistance: Yes

You shoot a ray of necromantic energy from your outstretched hand, causing any living creature struck by the ray to violently purge blood vessels through its skin. You must succeed on a ranged touch attack to touch the subject.

If the touch attack is successful, the subject loses half its hit points (rounded down) and is stunned for 1 round.

On a successful Fortitude saving throw, the subject is not stunned.

The purged blood vessels are magically animate, creating a many-layered mass of magically strong, adhesive tissue that trap those caught in them.

The avascular mass instantaneously erupts from the target, and must be anchored on last least two opposed points—such as floor and ceiling or opposite walls—or else the mass collapses and has no effect.

Creatures caught within a 20-foot-radius avascular mass become entangled.

The original target of the spell is automatically entangled.

An entangled creature takes a –2 penalty on attack rolls, a –4 penalty to effective Dexterity, and can't move.

An entangled character who attempts to cast a spell must make a Concentration check or lose the spell.

Because the avascular mass is magically animate, and gradually tightens on those it holds, the Concentration check DC is 30.

Anyone within 20 feet of the primary target when the spell is cast must make a Reflex save.

If this save succeeds, the creature is not stuck in the avascular mass and is free to act, though moving may be a problem (see below).

If the save fails, the creature is stuck.

A stuck creature can break loose by spending 1 round and succeeding on a DC 25 Strength check or a DC 30 Escape Artist check.

Once loose (either from making the initial Reflex save or a later Strength check or Escape Artist check), a creature may progress through the writhing blood vessels very slowly. Each round devoted to moving allows the creature to make a new Strength check or Escape Artist check.

The creature moves 5 feet for each full 5 points by which the check result exceeds 10.

If you have at least 5 feet of avascular mass between you and an opponent, it provides cover.

If you have at least 20 feet of avascular mass between you, it provides total cover.

When the secondary duration elapses, the blood vessel mass becomes only so much limp, decaying tissue.

AVASCULATE

Necromancy [Death, Evil]

Level: Deathbound 7, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You shoot a ray of necromantic energy from your outstretched hand, causing any living creature struck by the ray to violently purge blood or other vital fluids through its skin.

You must succeed on a ranged touch attack to affect the subject.

If successful, the subject is reduced to half of its current hit points (rounded down) and stunned for 1 round.

On a successful Fortitude saving throw, the subject is not stunned.

AWAKEN UNDEAD

Necromancy [Evil]

Level: Deathbound 6, sorcerer/wizard 7

Components: M, S, V, XP

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: All mindless undead within a circle 25 ft. in radius + 5 ft./2 levels

Duration: Permanent (D)

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

This spell grants intelligence to mindless undead such as skeletons and zombies.

Undead with Intelligence scores are unaffected.

Mindless undead within the radius gain Intelligence $4+1d6$.

Undead cannot gain more intelligence than typical of their original kind.

A skeletal dog simply has Intelligence 2, while a skeletal orc makes the die roll but can't have more than Intelligence 8.

Undead do not regain any skills or feats they had in life.

Undead regain the armor and weapon proficiencies they had in life (assume the undead were formerly warriors unless your DM specifies otherwise) and will don armor and take up weapons while obeying your commands.

A zombie fighter can wear any armor and wield any simple or martial weapon, while a zombie warhorse can wear any armor.

Undead also regain any extraordinary abilities they had in life, such as poison or scent.

Awakened undead gain a +2 profane bonus on their Will saving throws to resist *control undead*.

Awakened undead also gain +2 turn resistance (or retain their own turn resistance, if any, and if it is better than +2).

Material Component: A humanoid fingerbone.

XP Cost: 200 XP.

BITE OF THE KING

Necromancy

Level: Hunger 8

Components: V

Casting Time: 1 standard action

Range: Touch

Target: Living creature whose size does not exceed caster's

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

On your successful melee touch attack, a target that fails its saving throw is subject to being swallowed whole.

To the observer, it appears as if your maw suddenly opens many times its normal size, after which the victim is engulfed.

Your maw immediately returns to its natural size.

Of the victim, there is no visible sign—the swallowed subject exists in a temporary “stomach” dimension.

The swallowed victim takes $2d8+12$ points of bludgeoning damage plus 12 points of acid damage per round while in the stomach dimension.

A swallowed creature can cut its way out by using a light slashing or piercing weapon to deal 35 points of damage to the stomach dimension (AC 21).

A creature that successfully exits appears to cut its way free from thin air, appearing in a space adjacent to the caster.

Each time you cast this spell, you create a separate temporary stomach dimension.

CHILL OF THE GRAVE

Necromancy

Level: Deathbound 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A pale ray erupts from your pointing finger.

You must succeed on a ranged touch attack with the ray to affect a target.

The target takes 1d10 points of cold damage.

This damage increases to 2d10 at caster level 4, 3d10 at caster level 7th, and 4d10 at caster level 10th.

CLUTCH OF ORCUS

Necromancy [Evil]

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One humanoid

Duration: Concentration

Saving Throw: Fortitude negates

Spell Resistance: Yes

Magical force grips the subject's heart (or similar vital organ) and begins crushing it.

The victim reacts as if having a heart attack (it is paralyzed) and takes 1d3 points of damage per round.

Concentration is required to maintain the spell each round. A conscious victim gains a new saving throw each round to end the spell.

If the victim dies as a result of this spell, its smoking heart appears in the caster's hand.

CONSUMPTIVE FIELD

Necromancy [Death, Evil]

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Area: 30-ft.-radius spherical emanation, centered on you

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You draw forth the ebbing life force of all nearby badly wounded creatures and use it to fuel your own power. Upon casting this spell, you radiate a consumptive death field.

All creatures in the area with fewer than 0 hit points that fail their saving throws die, and you gain 1d8 temporary hit points per death caused by this spell and +2 Strength until the spell's duration expires.

Additionally, your effective caster level goes up by 1 per death caused by this spell, to a maximum of 1/2 your original caster level, improving spell effects that are dependent on caster level.

(This increase in effective caster level does not grant you access to more spells).

Creatures that fall to -1 hit points or lower in the area after the spell is cast are likewise subject to its effect.

No creature can be affected by this spell more than once per casting, regardless of the number of times that the area of the spell passes over them.

CONSUMPTIVE FIELD, GREATER

Necromancy [Death, Evil]

Level: Cleric 7

This spell functions like *consumptive field*, except that the field affects all creatures in the area with 9 hit points or fewer that fail their saving throw die, and creatures that fall to 9 hit points or lower in the area after the spell is cast are likewise subject to its effect.

DEATH WARD, MASS

Necromancy

Level: Cleric 8, druid 9

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

This spell functions like *death ward* (see page 217 of the *Player's Handbook*), except as noted above.

ENERGY EBB

Necromancy [Evil]

Level: Cleric 7, sorcerer/wizard 7

Duration: 1 round/level

Saving Throw: Fortitude negates; see text

This spell functions like *enervation* (see page 226 of *Player's Handbook*), except the creature struck gains negative levels over an extended period.

You point your finger and utter the incantation, releasing a black needle of crackling negative energy that suppresses the life force of any living creature it strikes.

You must make a ranged touch attack to hit.

If the attack succeeds, the subject initially gains one negative level, then continues to gain another negative level each round thereafter as her life force slowly bleeds away.

The drain can only be stopped by a successful Heal check (DC 23) or the application of a *heal*, *restoration* or *greater restoration* spell.

If the black needle strikes an undead creature, that creature gains 4d4×5 temporary hit points that last for up to 1 hour.

FIELD OF GHOULS

Necromancy [Death, Evil]

Level: Hunger 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Targets: 30-ft.-radius spherical emanation, centered on you

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You transform the ebbing life force of all nearby badly wounded creatures and use it to create ghouls.

Upon casting this spell, you radiate a necroconsumptive death field.

All creatures in the area with fewer than 0 hit points that fail their saving throws die, and immediately rise as ghouls under your control.

The ghouls follow you, or can remain where formed and attack any creature (or just a specific kind of creature) the ghoul notices.

The ghouls remain until they are destroyed.

The ghouls that you create remain under your control indefinitely.

No matter how many ghouls you generate with this spell, however, you can control only 2 HD worth of undead creatures per caster level (this includes undead from all sources under your control).

If you exceed this number, all the newly created creatures fall under your control, and any excess undead from previous castings become uncontrolled (you choose which creatures are released).

If you are a cleric, any undead you might command by virtue of your power to command or rebuke undead do not count toward the limit.

Creatures that fall to -1 hit points or fewer in the area after the spell is cast are likewise subject to its effect. No creature can be affected by this spell more than once per round, regardless of the number of times that the area of the spell passes over them.

GHOUL GAUNTLET

Necromancy [Death, Evil]

Level: Hunger 5, sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your touch gradually transforms a living victim into a ravening, flesh-eating ghoul.

The transformation process begins at the limb or extremity (usually the hand or arm) touched.

The victim takes 3d6 points of damage per round while the body slowly dies as it is transformed into a ghoul's cold, undying flesh.

When the victim reaches 0 hit points, she becomes a ghoul, body and mind.

If the victim fails her initial saving throw, *cure disease*, *dispel magic*, *heal*, *limited wish*, *miracle*, *Mordenkainen's disjunction*, *remove curse*, *wish*, or *greater restoration* negates the gradual change.

Healing spells may temporarily prolong the process by increasing the victim's hit points, but the transformation continues unabated.

The ghoul that you create remains under your control indefinitely.

No matter how many ghouls you generate with this spell, however, you can control only 2 HD worth of undead creatures per caster level (this includes undead from all sources under your control).

If you exceed this number, all the newly created creatures fall under your control, and any excess undead from previous castings become uncontrolled (you choose which creatures are released).

If you are a cleric, any undead you might command by virtue of your power to command or rebuke undead do not count toward the limit.

GHOUL GESTURE

Necromancy

Level: Hunger 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

A green ray stabs from your pointing finger.

You must succeed on a ranged touch attack with the ray to affect a target.

A subject that is successfully targeted must make a Fortitude save or be paralyzed for the duration of the spell.

A subject of the ray that succeeds on its Fortitude save is instead sickened.

A *neutralize poison* spell removes the effect from a sickened creature, and creatures immune to poison are unaffected by the stench.

Material Component: A small scrap of cloth taken from clothing worn by a ghoul, or a pinch of earth from a ghoul's lair.

GHOUL GLYPH

Necromancy

Level: Hunger 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Effect: One ghoul glyph that must fit within a 1-ft. square

Duration: Permanent until discharged

Saving Throw: Fortitude partial

Spell Resistance: Yes

You inscribe a glyph that paralyzes any living creature of Large or smaller size that enters, passes, or opens the warded area.

You can scribe the glyph to be visible as faintly glowing lines, or invisible.

You can inscribe a *ghoul glyph* on a portable object, but if the object is moved more than 5 feet, the glyph fades.

Conditions for triggering a *ghoul glyph* are stringent.

It takes effect on any creature except yourself that moves to or within 2 feet of it.

It affects invisible creatures normally but is not triggered by those that travel past it ethereally.

Only a single *ghoul glyph* can be inscribed in a 5-foot square.

Ghoul glyphs cannot be affected or bypassed by such means as physical or magical probing, though they can be dispelled.

Mislead and *nondetection* can fool a *ghoul glyph*.

Read magic allows identification of a *ghoul glyph* with a successful DC 13 Spellcraft check, if the glyph is noticed before it is activated.

A rogue (only) can use the Search skill to find a *ghoul glyph* and Disable Device to thwart it.

The DC in each case is 27.

When a glyph is activated, the subject is paralyzed for 1d6+2 rounds.

Additionally, if the subject fails his Fortitude save, the paralyzed subject exudes a carrion stench that causes retching and nausea in a 10-foot radius.

Those in the radius must make a Fortitude save or take a -2 penalty on all attack rolls, weapon damage rolls, saving throws, skill checks, and ability checks until the spell ends.

Material Component: You trace the glyph with earth from a ghoul's lair.

GHOUL LIGHT

Necromancy

Level: Hunger 1

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Object touched

Effect: Magical, heatless green flame

Duration: 10 min./level

Saving Throw: None

Spell Resistance: No

A sickly green flame, equivalent in brightness to a torch, springs forth from an object that you touch.

The effect looks like a regular flame, except for its green hue, but it creates no heat and doesn't use oxygen.

Ghoul light can be covered and hidden, but not smothered or quenched.

All undead within 30 feet of a source of *ghoul light* gain +1 turn resistance.

Multiple *ghoul light* sources do not stack.

Darkness spells of 2nd level or lower can counter *ghoul light*.

Material Component: A bit of rendered fat.

HAUNT SHIFT

Necromancy

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: Undead creatures within a 40-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Haunt shift translates corporeal and incorporeal undead into haunting presences (see page 6).

The spell converts 1d4 HD worth of undead creatures per caster level (maximum 20d4).

Undead creatures with the fewest HD are affected first; among creatures with equal HD, those that are closest to the burst's point of origin are affected first.

No creature of 9 or more HD can be affected, and Hit Dice that are not sufficient to affect a creature are wasted.

Material Component: A pinch of powdered skull.

INCORPOREAL ENHANCEMENT

Necromancy [Evil]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One incorporeal undead/level

Duration: 24 hours

Saving Throw: None

Spell Resistance: No

The undead affected by this spell gain a +1 deflection bonus to Armor Class, +1d8 bonus hit points, a +1 enhancement bonus on attack rolls, and a +2 bonus to turn resistance.

Each of these enhancements doubles for every five caster levels, so that a 20th-level caster grants undead +4 to AC, +4d8 bonus hit points, +4 on attack rolls and +8 to turn resistance.

INCORPOREAL NOVA

Necromancy [Death]

Level: Cleric 5, sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Incorporeal or gaseous creatures within a 50-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

A nova of dissolution dissipates the immaterial bodies of incorporeal and gaseous creatures, destroying them instantly.

The spell destroys 1d4 HD worth of creatures per caster level (maximum 20d4).

Usually, creatures such as shadows, wraiths, spectres, ghosts, and similar creatures are destroyed, though vampires and living creatures in gaseous form are also affected, as well as other incorporeal creatures.

Creatures with the fewest HD are affected first; among creatures with equal HD, those that are closest to the point of origin of the burst are affected first.

No creature with 9 or more HD is affected, and HD that are not sufficient to affect a creature are wasted.

KISS OF THE VAMPIRE

Necromancy

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

You draw upon the powers of unlife to give yourself abilities similar to those of a vampire.

You become gaunt and pale with feral, red eyes, and you gain the following supernatural abilities.

- *enervation* (as a melee touch attack)
- *vampiric touch* (as a melee touch attack)
- *charm person*
- *gaseous form* (self only)
- damage reduction 10/magic

While you are using this spell, *inflict* spells heal you and *cure* spells hurt you.

You are treated as if you were undead for the purpose of all spells and effects.

A successful turn (or rebuke) attempt against an undead of your Hit Dice requires you to make a Will saving throw (DC 10 + cleric's Cha modifier) or be panicked (or cowering) for 10 rounds.

A turn attempt that would destroy (or command) undead of your Hit Dice requires you to make a Will save (DC 15 + cleric's Cha modifier) or be stunned (or *charmed* as by *charm monster*) for 10 rounds.

Any charm effect you create with this spell ends when the spell ends, but all other effects remain until their normal duration expires.

Material Component: A black onyx worth at least 50 gp that has been carved with the image of a fang-mouthed face.

NECROTIC AWARENESS

Necromancy

Level: Cleric 1, sorcerer/wizard 1

Components: V, S, F

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped emanation

Duration: Concentration, up to 1 min./level (D)

Saving Throw: None

Spell Resistance: No

You can sense the presence of creatures who bear a necrotic cyst (see spell of the same name).

The amount of information revealed depends on how long you remain within range of a creature that triggers your cyst awareness:

1st Round: Presence or absence of creatures with necrotic cysts.

2nd Round: Number of creatures bearing necrotic cysts in the area.

3rd Round: The location of each creature bearing a necrotic cyst.

If a cyst-bearer is outside your line of sight, then you discern its direction but not its exact location.

Focus: Caster must possess a mother cyst (see page 28).

NECROTIC BLOAT

Necromancy [Evil]

Level: Cleric 3, sorcerer/wizard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: Living creature with necrotic cyst

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You cause the cyst of a subject already harboring a necrotic cyst (see spell of the same name) to pulse and swell.

This agitation of the necrotic cyst tears living tissue and expands the size of the cyst, dealing massive internal damage to the subject.

The subject takes 1d6 points of damage per level (maximum 10d6), and half the damage is considered vile damage (introduced in *Book of Vile Darkness*) because the cyst expands to envelop the newly necrotized tissue.

The cyst is reduced to its original size when the vile damage is healed.

Vile damage can only be healed by magic cast within the area of a *consecrate* or *hallow* spell (or an area naturally consecrated or hallowed).

Points of vile damage represent such an evil violation to a character's body or soul that only in a holy place, with holy magic, can the damage be repaired.

Focus: Caster must possess a mother cyst (see page 28).

NECROTIC BURST

Necromancy [Evil]

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: Living creature with necrotic cyst

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: No

You cause the cyst of a subject already harboring a necrotic cyst (see spell of the same name) to explosively enlarge itself at the expense of the subject's body tissue.

If the subject succeeds on her saving throw, she takes 1d6 points of damage per level (maximum 15d6), and half the damage is considered vile damage (see *necrotic bloat*).

The subject's cyst-derived saving throw penalty against effects from the school of necromancy applies.

If the subject fails her saving throw, the cyst expands beyond control, killing the subject.

On the round following the subject's death, the cyst exits the flesh of the slain subject as a free-willed undead called a skulking cyst (see page 120).

The skulking cyst is formed from the naked organs of the subject (usually the intestines, but also including a mass of blood vessels, the odd bone or two, and sometimes even half the lolling head).

Focus: Caster must possess a mother cyst (see page 28).

NECROTIC CYST

Necromancy [Evil]

Level: Cleric 2, sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

The subject develops an internal spherical sac that contains fluid or semisolid necrotic flesh.

The internal cyst is noticeable as a slight bulge on the subject's arm, abdomen, or face (wherever you chose to touch the target) or it is buried deeply enough in the flesh of your target that it is not immediately obvious—the subject may not realize what was implanted within her.

From now on, undead foes and necromantic magic are particularly debilitating to the subject—the cyst enables a sympathetic response between free-roaming external undead and itself.

Whenever the victim is subject to a spell or effect from the school of necromancy, she makes saving throws to resist at a -2 penalty.

Whenever the subject is dealt damage by the natural weapon of an undead (claw, bite, or other attack form), she takes an additional 1d6 points of damage.

Victims who possess necrotic cysts may elect to have some well-meaning surgeon remove them surgically.

The procedure is a bloody, painful process that incapacitates the subject for 1 hour on a successful DC 20 Heal check, and kills the subject with an unsuccessful Heal check.

The procedure takes 1 hour, and the surgeon can't take 20 on the check.

Protection from evil or a similar spell prevents the necrotic cyst from forming.

Once a necrotic cyst is implanted, spells that manipulate the cyst and its bearer are no longer thwarted by *protection from evil*.

Focus: Caster must possess a mother cyst (see page 28).

NECROTIC DOMINATION

Necromancy [Evil]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S, F

Target: Living creature with necrotic cyst
This spell functions like *dominate person* (see page 224 of the *Player's Handbook*), except you can dominate any humanoid that harbors a necrotic cyst.
Focus: Caster must possess a mother cyst (see page 28).

NECROTIC EMPOWERMENT

Necromancy [Evil]
Level: Cleric 8, sorcerer/wizard 8
Components: V, S, F
Casting Time: 1 standard action
Range: Personal
Target: You

Duration: 1 round/level
You call upon the mother cyst that your body hosts, drawing from it strength, vigor, speed, and vicious certainty.
While the spell is in effect, you gain a +8 enhancement bonus to Dexterity, Intelligence, and Wisdom, a +8 natural armor bonus to Armor Class as your skin briefly crusts and hardens, a +5 competence bonus on Fortitude saves, and 100 temporary hit points.
While the empowerment lasts, you are unable to cast any other mother cyst feat-enabled spell.
Focus: Caster must possess a mother cyst (see page 28).

NECROTIC ERUPTION

Necromancy [Evil]
Level: Cleric 6, sorcerer/wizard 6
Components: V, S, F
Casting Time: 1 standard action
Range: Medium (100 ft. + 10 ft./level)
Target: Living creature with necrotic cyst and all creatures in 20 ft. radius spread
Duration: Instantaneous
Saving Throw: Fortitude partial
Spell Resistance: No

You cause the cyst of a subject already harboring a necrotic cyst (see spell of the same name) to explosively enlarge itself at the expense of the subject's body tissue, harming both the subject (and nearby creatures if the subject fails his save).
If the subject succeeds on his saving throw, he takes 1d6 points of damage per level (maximum 15d6), and half the damage is considered vile damage (see *necrotic bloat*).
The subject's cyst-derived saving throw penalty against effects from the school of necromancy applies.
If the subject fails his saving throw, the cyst expands beyond control, killing the subject.
All creatures within 20 feet of the subject take 1d6 points of damage per level (maximum 15d6; Reflex half), and half the damage taken is considered vile damage.
All creatures in range that take this secondary damage are also exposed to the effect of the base *necrotic cyst* spell.
On the round following the subject's death, the cyst exits the flesh of the slain subject as a free-willed undead called a skulking cyst (see page 120).
Focus: Caster must possess a mother cyst (see page 28).

NECROTIC SCRYING

Necromancy [Evil]

Level: Cleric 2, sorcerer/wizard 2
Components: V, S, F
Casting Time: 1 standard action
Range: Unlimited
Effect: Cyst-bearer serves as magical sensor
Duration: 1 min./level (D)
Saving Throw: None
Spell Resistance: No

You can concentrate upon a specific individual who you believe to bear a necrotic cyst (see spell of the same name), and hear or see (your choice) almost as if you were there. Distance is not a factor, but the spell fails if the individual no longer bears the cyst or if the cyst bearer is no longer on the plane of existence you are currently occupying.
If the chosen locale is magically dark, you see nothing. If it is naturally pitch black, you can see in a 10-foot radius around the center of the spell's effect.
Lead sheeting or magical protection (such as *antimagic field*, *mind blank*, or *nondetection*) blocks the spell, and you sense that the spell is so blocked.
You may cast the following spells through *necrotic scrying*: *comprehend languages*, *magic mouth*, *message*, *read magic*, *tongues*, and *darkvision*.
Focus: Caster must possess a mother cyst (see page 28).

NECROTIC TERMINATION

Necromancy [Evil]
Level: Cleric 9, sorcerer/wizard 9
Components: V, S, F, XP
Casting Time: 1 standard action
Range: Medium (100 ft. + 10 ft./level)
Target: Living creature with necrotic cyst
Duration: Instantaneous
Saving Throw: Fortitude partial
Spell Resistance: No

You cause the cyst of a subject already harboring a necrotic cyst (see spell of the same name) to physically and spiritually enlarge itself at the expense of the subject's body and soul.
If the subject succeeds on her saving throw, she takes 1d6 points of damage per level (maximum 25d6), and half the damage is considered vile damage (see *necrotic bloat*).
The subject's cyst-derived saving throw penalty against effects from the school of necromancy applies.
If the subject fails her saving throw, the cyst expands beyond control, killing the subject and digesting her soul. *Raise dead*, *resurrection*, *true resurrection*, *wish*, and *miracle* cannot return life to the subject once her soul is digested—she is gone forever.
On the round following the subject's death, the cyst exits the flesh of the slain subject as a free-willed undead called a skulking cyst (see page 120).
Focus: Caster must possess a mother cyst (see page 28).
XP Cost: 1,000 XP.

NECROTIC TUMOR

Necromancy [Evil]
Level: Cleric 7, sorcerer/wizard 7
Components: V, S, F
Casting Time: 1 standard action
Range: Medium (100 ft. + 10 ft./level)
Target: Living creature with necrotic cyst

Duration: One day/level or permanent

Saving Throw: Fortitude partial

Spell Resistance: No

You cause the cyst of a subject already harboring a necrotic cyst (see spell of the same name) to envelop a portion of the victim's brain.

If the subject succeeds on his saving throw (the subject's cyst-derived saving throw penalty against effects from the school of necromancy applies), you may still influence him by suggesting a course of activity (limited to a sentence or two).

The instruction must be worded in such a manner as to make the activity sound reasonable.

Asking the creature to stab itself, throw itself onto a spear, immolate itself, or do some other obviously harmful act automatically negates the instruction.

The instructed course of activity can continue for the entire duration.

If the instructed activity can be completed in a shorter time, the instruction ends when the subject finishes what he was asked to do.

You can instead specify conditions that trigger a special activity during the duration.

If the condition is not met before the spell expires, the activity is not performed.

If the subject fails his saving throw, the cyst envelops a larger portion of the subject's higher brain, and you gain complete control of the actions of the subject permanently. You do not know what the subject is experiencing and share no special link with him.

If a common language is shared, you can force the subject to perform as you desire, within the limits of his abilities.

If no common language is shared, you can communicate only basic commands, such as "Come here", "Go there", "Fight", and "Stand still".

A subject may resist this control, but the presence of his necrotic tumor on his brain stem ensures their loyalty. *Protection from evil* or a similar spell does not protect the subject from following your commands—the tumor is already inside him.

Focus: Caster must possess a mother cyst (see page 28).

NIGHT'S CARESS

Necromancy [Evil]

Level: Sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

A touch from your hand, which sheds darkness like the blackest night, disrupts the life force of a living creature. Your touch deals 1d6 points of damage per caster level (max 15d6), and 1d6+2 points of Constitution damage. (A successful Fortitude saving throw negates the Constitution damage).

The spell has a special effect on an undead creature.

An undead touched by you takes no damage or Constitution loss, but it must make a successful Will saving throw or flee as if panicked for 1d4 rounds +1 round per caster level.

PLAGUE OF UNDEAD

Necromancy [Evil]

Level: Cleric 9, sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One or more corpses within range

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell unleashes great necromantic power, raising a host of undead creatures.

This spell turns the bones or bodies of dead creatures within the spell's range into undead skeletons or zombies that follow your spoken commands.

The undead remain animated until destroyed (a destroyed skeleton or zombie can't be animated again).

Regardless of the specific numbers or kinds of undead created with this spell, you can't create more HD of undead with this spell than four times your caster level with a single casting of *plague of undead*.

The undead you create remain under your control indefinitely.

No matter how many times you use this spell or *animate dead*, however, you can only control 4 HD worth of undead creatures per caster level.

The limit imposed by this spell and the *animate dead* spell are the same, meaning that creatures you animate with either spell count against this limit.

If you exceed this number, all the newly created creatures fall under your control and any excess undead from previous castings of this spell or *animate dead* become uncontrolled.

Any time that this causes you to release only part of the undead that you control through this spell or *animate dead*, you choose which undead are released until the total HD of undead you control is equal to four times your caster level. The bones and bodies required for this spell follow the same restrictions as *animate dead* (see page 199 of the *Player's Handbook*).

All of the bones and bodies to be animated by this spell must be within range when the spell is cast.

Material Component: A black sapphire worth 100 gp or several black sapphires with total value of 100 gp.

REVIVE UNDEAD

Necromancy [Evil]

Level: Deathbound 5, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Target: Destroyed undead creature touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes (harmless)

Your restore animation to an undead creature destroyed by hit point loss (even zombies and skeletons that can't normally be reanimated once destroyed).

You can revive a destroyed undead that has been inactive for up to one day per caster level.

In addition, the subject's animating spirit must be free and willing to return.

If the subject's animating spirit is not willing to return, the spell does not work; therefore, subjects that want to revive receive no saving throw.

Revive undead heals hit point damage up to a total of 1 hit point per Hit Die to an undead.

The body of the undead to be revived must be whole. Otherwise, missing parts are still missing when the creature is reanimated.

None of the dead creature's equipment or possessions are affected in any way by this spell.

An undead that has been turned to dust by a turning effect can't be revived by this spell (because only dust remains of the undead).

The subject of the spell loses one level or HD (if it doesn't have a character class level, it loses a HD) when it is revived.

This level loss cannot be repaired by any spell.

If the subject is 1st level, it loses 2 points of Charisma instead.

An undead that was destroyed with spells prepared has a 50% chance of losing any given spell upon being revived, in addition to losing spells for losing a level.

A spellcasting undead that doesn't prepare spells (such as a sorcerer) has a 50% chance of losing any given unused spell slot as if it had been used to cast a spell, in addition to losing spell slots for losing a level.

Material Component: A black pearl worth at least 500 gp.

SPARK OF LIFE

Necromancy

Level: Cleric 7, druid 8

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: Undead creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

A touch from your hand limns an undead creature in a faint yellow glow, making it vulnerable to many of the dangers that can harm living creatures.

For the duration of the spell, the undead creature is subject to extra damage from critical hits (and thus sneak attacks), nonlethal damage, ability drain, energy drain, fatigue, exhaustion, and damage to its physical ability scores (though it still lacks a Constitution score and thus can't take Constitution damage) as if it were alive.

It loses its immunity to effects that require a Fortitude save, as well as its invulnerability to poison, sleep effects, paralysis, stunning, disease, and death effects.

However, an undead affected by this spell gains a bonus on its Fortitude saves equal to its Charisma bonus (if any).

(The bonus doesn't apply to Fortitude saves against effects that also affect objects).

It must breathe, eat, and sleep just like a normal creature (though the last two aren't likely to come into play thanks to the spell's short duration).

While it is under the effect of this spell, both negative energy (such as *inflict* spells) and positive energy (such as *cure* spells) heal damage to the undead creature, rather than damaging it.

An undead creature affected by this spell retains all other traits.

SPAWN SCREEN

Necromancy

Level: Cleric 2, sorcerer/wizard 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject does not rise as undead spawn should she perish from an undead's attack form that normally would turn her into a spawn (such as from ghoul fever).

This spell doesn't prevent the subject from perishing or provide anything other than insurance that the subject's body and spirit cannot be hijacked by an acquisitive undead creature.

The protection applies if the duration is still effect when the subject first dies; the spell need not linger in its effect over the period immediately prior to a spawn's rise.

This spell cannot be cast on the body of a subject already killed by a spawn-creating undead.

SPECTRAL TOUCH

Necromancy

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Touch

Targets: Creature or creatures touched (up to one/level)

Duration: 1 round/level (D); see text

Saving Throw: Fortitude negates

Spell Resistance: Yes

A touch from your hand, which crackles with black energy, weakens the life force of living creatures.

Each touch channels negative energy that bestows one negative level on the target and grants you 5 temporary hit points.

Both the negative level and the temporary hit points last for up to 1 hour.

A target's successful Fortitude save negates the negative level and prevents you from gaining the temporary hit points.

You can use this melee touch attack once per round for a number of rounds equal to your level.

Any charges of the spell not used by the time the duration expires are lost.

An undead creature you touch instead gains 5 temporary hit points and you lose a like amount (no save).

Temporary hit points gained in this way last for up to 1 hour.

VEIL OF UNDEATH

Necromancy [Evil]

Level: Cleric 8, sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 10 min./level

You gain many of the traits common to undead creatures.

While the spell lasts, you have immunity to mind-affecting spells and abilities, poison, sleep, paralysis, stunning, disease, death, extra damage from critical hits, nonlethal damage, death from massive damage, ability drain, energy drain, fatigue, exhaustion, damage to physical ability scores, and any effect requiring a Fortitude save unless it is harmless or affects objects.

You need not breathe, eat, or sleep.

For the duration of the spell, your Con becomes —.

You lose any bonus hit points gained from having a Con bonus (this can't reduce hit points to fewer than 1 per HD).

If your Con modifier is normally a penalty, you don't gain any hit points by casting this spell.

Like an undead creature, you are damaged by *cure* spells and healed by *inflict* spells.

You don't actually gain the undead type by casting this spell.

Material Component: A black sapphire worth 1,000 gp.

WITHER LIMB

Necromancy [Evil]

Level: Deathbound 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Limbs of one humanoid

Duration: Permanent

Saving Throw: Fortitude negates

Spell Resistance: Yes

The caster chooses to wither either the arms or the legs of a humanoid.

Withered legs force a subject to fall prone while at the same time reducing the subject's land speed to 5 feet.

Withered arms make it impossible for the subject to use objects or cast spells with somatic components.

A withered limb can be restored by a successful *dispel magic* cast by a spellcaster of a level higher than the level of the *wither limb* caster.

TRANSMUTATION

FANGS OF THE VAMPIRE KING

Transmutation [Evil]

Level: Assassin 3, blackguard 3, Deathbound 3

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

You grow vampirelike fangs that allow you to make bite attacks with an attack bonus of +10 plus your Strength modifier.

Your bite attack deals 1d6 points of damage and 1 point of Constitution damage.

If you make a full attack with other weapons, you can also make a bite attack as a secondary attack (-5 to hit).

GHOST TOUCH ARMOR

Transmutation

Level: Cleric 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Armor of creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject's armor gains the *ghost touch* property.

Material Component: A tiny shield made of resin.

GHOST TOUCH WEAPON

Transmutation

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One weapon or fifty projectiles (all of which must be in contact with each other at the time of casting)

Duration: 10 min./level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

Ghost touch weapon makes a weapon magically capable of dealing damage normally to incorporeal creatures, regardless of its enhancement bonus.

(An incorporeal creature's 50% chance to avoid damage does not apply to attacks made with weapons under the effect of this spell).

A ranged weapon affected by this spell does not bestow the ability on its ammunition.

The weapon can be picked up and moved by an incorporeal creature at any time.

A manifesting ghost can wield the weapon against corporeal foes.

Essentially, a weapon under the effect of this spell counts as either corporeal or incorporeal at any given time, whichever is more beneficial to the wielder.

GHOSTFORM

Transmutation

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

You assume a visible, incorporeal form like that of a manifesting ghost.

You have no physical body while in this state.

You can be harmed only by other incorporeal creatures, magic weapons or creatures that strike as magic weapons, and spells, spell-like abilities, or supernatural abilities.

You are immune to all nonmagical attack forms.

Even when hit by spells or magic weapons, you have a 50% chance to ignore any damage from a corporeal source (except for positive energy, negative energy, force effects such as *magic missile*, or attacks made with *ghost touch* weapons).

Nondamaging spell effects affect you normally unless they require corporeal targets to function (such as *implosion*) or they create a corporeal effect that incorporeal creatures would normally be unaffected by (such as a *web* or *wall of stone* spell).

As an incorporeal creature, you have no natural armor bonus but have a deflection bonus equal to your Charisma bonus (always at least +1, even if your Charisma score does not normally provide a bonus).

You can enter or pass through solid objects while in *ghostform*, but you must remain adjacent to the object's exterior, and so cannot pass entirely through an object whose space is larger than your own.

You can sense the presence of creatures or objects within a square adjacent to your current location, but enemies have total concealment (50% miss chance) from you while you are inside an object.

In order to see farther from the object you are in and attack normally, you must emerge.

While inside an object, you have total cover, but when you attack a creature outside the object you have cover only, so a creature outside with a readied action could strike at you as you attack.

You cannot pass through a force effect.

While under the effect of *ghostform*, your attacks pass through (ignore) natural armor, armor, and shields, although deflection bonuses and force effects (such as *mage armor*) work normally against you.

Your nonmagical attacks have no effect on corporeal targets, and any attack you make with a magic weapon against a corporeal target has a 50% miss chance, except for attacks you make with a ghost touch weapon, while are made normally (no miss chance).

Spells you cast while in *ghostform* affect corporeal targets normally, including spells that require you to make an attack roll (such as rays or melee touch spells).

You can pass through and operate in water as easily as you do in air.

You cannot fall or take falling damage.

You cannot make trip or grapple attacks, nor can you be tripped or grappled.

In fact, you cannot take any physical action that would move or manipulate an opponent or its equipment, nor are you subject to such actions.

You have no weight while in *ghostform* and do not set off traps that are triggered by weight.

You move silently and cannot be heard with Listen checks if you don't wish to be while in *ghostform*.

You have no Strength score while incorporeal, so your Dexterity modifier applies to both your melee attacks and ranged attacks.

Nonvisual senses, such as scent and blindsight, are either ineffective or only partly effective with regard to you.

You have an innate sense of direction and can move at full speed even when you cannot see.

UNDEAD BANE WEAPON

Transmutation

Level: Cleric 4, paladin 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You give a weapon the undead bane special ability in addition to any other properties it has.

Against undead, your weapon's enhancement bonus (if any) is 2 higher than normal and it deals an extra 2d6 points of damage against undead.

The spell has no effect if cast upon a weapon that already has the undead bane special ability.

At caster level 9th (paladin level 18th) and above, the weapon gains a +1 enhancement bonus if it is not already a magic weapon.

Alternatively, you can affect up to fifty arrows, bolts, or bullets.

The projectiles must be of the same kind, and they have to be together, such as in the same quiver.

Projectiles (but not thrown weapons) lose their transmutation when fired.

The weapon is considered good-aligned for the purpose of overcoming damage reduction.

Any weapon affected by this spell glows with a serene gray radiance that sheds as much light as a candle.

LORDS OF DARKNESS (3.0)

ABJURATION

GREATER SHADOW TENTACLE

Abjuration (Shadow)

Level: Sor/Wiz 5

Components: S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One shadow

Duration: 1 round/level or concentration

Saving Throw: None

Spell Resistance: No

As *lesser shadow tentacle*, except the spell creates a shadow tentacle that extends up to 10 feet per caster level (maximum 100 feet) from its anchoring point.

The tentacle created by this spell has 40 hit points, AC 18, and can be burst with a Strength check (DC 25).

A character can also free himself from the tentacle with an Escape Artist check (DC 22).

LESSER SHADOW TENTACLE

Abjuration (Shadow)

Level: Sor/Wiz 3

Components: S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One shadow

Duration: Concentration (1 round/level max)

Saving Throw: None

Spell Resistance: No

You can animate any nearby shadow into a ropelike tentacle.

The target shadow transforms into a thick, ropy tentacle.

One end of the shadow tentacle remains rooted to the location where it fell on the floor, wall, ceiling, et cetera, while the opposite end can attack and curl about a target.

The animated shadow tentacle extends 5 feet per level of the caster (up to 50 feet) from its anchoring point.

The caster directs the shadow tendril, indicating a target for it to attack.

The tentacle makes a melee touch attack using the caster's attack bonus.

The tentacle does not inflict damage, but can be used to entangle an opponent.

A successful melee touch attack means that the tentacle has entangled its victim.

The shadow tentacle is anchored, so it can hold its victim motionless if the caster desires; otherwise, the entangled victim can move at half speed up to the length of the animated tentacle.

The shadow tentacle has 20 hit points, AC 15, and can be burst with a Strength check (DC 23).

A character can also free himself from the tentacle with an Escape Artist check (DC 20).

Changing targets is a standard action.

When the caster changes targets, the tentacle releases its current victim and immediately attacks the new target.

The tentacle is not affected by bright light, sunlight, or light spells.

NIGHT'S MANTLE

Abjuration

Level: Clr 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: Creature touched

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You imbue a creature with an invisible shield that protects it from all effects of sunlight.

If cast on a vampire or other creature that is normally harmed or destroyed by exposure to sunlight, the spell allows that creature to function in sunlight without hindrance.

The spell does not overcome any aversion the target creature may have for sunlight, however.

Night's mantle is not countered or dispelled by any light spell of equal or lower level (such as the 3rd-level cleric spell *daylight*).

It can be countered or dispelled by a light spell of greater level (such as the 8th-level cleric spell *sunburst*, which both counters *night's mantle* and inflicts its normal damage).

Material Component: Powdered ruby (value no less than 1,000 gp).

EVOCATION

COMBUST

Evocation [Fire]

Level: Sor/Wiz 2 (Red Wizard)

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Touched creature or combustible object that weighs no more than 25 lb./level

Duration: Instantaneous (see text)

Saving Throw: Reflex partial

Spell Resistance: Yes

This spell makes a combustible object or a creature's combustible equipment burst into flame, even if damp.

If the target is a creature, the initial eruption of flame causes 2d6 points of fire damage +1 point per caster level (maximum +10) with no saving throw.

The creature must make a Reflex save (DC 15) or catch on fire.

(See Catching on Fire in Chapter 3 of the *DUNGEON MASTER's Guide*).

If the target is a combustible, unattended object, the initial eruption of flame inflicts fire damage on the object as noted above.

The object catches fire and takes 1d6 points of fire damage each round until consumed or someone puts out the fire.

Anyone touching the object during the initial eruption of flame takes the same fire damage the object does.

A Reflex save reduces damage by half.

If a creature touching the object fails the Reflex save, it must make another Reflex save (DC 15) to avoid catching fire.

This spell originally appeared in *Magic of Faerûn*.

Material Component: A drop of oil and a piece of flint.

DARKFIRE

Evocation [Fire]

Level: Clr 3 (drow pantheon)

Components: V, S

Casting Time: 1 action

Range: 0 ft.

Effect: Flame in your palm

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

Dark flames appear in your hand.

You can hurl them or use them to touch enemies.

The flames appear in your open hand and harm neither you nor your equipment.

They emit no light but produce the same amount of heat as an actual fire.

You can strike opponents with a melee touch attack, dealing fire damage equal to 1d4 +1 points per two caster levels (maximum +10).

Alternatively, you can hurl the flames up to 120 feet as a thrown weapon.

When doing so, you attack with a ranged touch attack (with no range penalty) and deal the same damage as with the melee attack.

No sooner do you hurl the flames than a new set appears in your hand.

The *darkfire* is completely invisible to normal vision but can be seen with darkvision as easily as a normal flame can be seen in darkness (this means that *darkfire* can be used as a signal or beacon for creatures with darkvision).

The spell does not function underwater.

This spell originally appeared in *Magic of Faerûn*.

MYSTIC LASH

Evocation [Electricity, Evil]

Level: Clr 3 (Bane)

Components: V, S, DF

Casting Time: 1 action

Range: 0 ft.

Effect: Electric whip

Duration: 1 round/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

You create a long whip of ghostly red energy that emanates from your hand and never harms you.

You wield this weapon as if it were an actual whip and you were proficient in it.

Attacks with the *mystic lash* are ranged touch attacks.

The *lash* deals 1d8 points of electrical damage +1 point per two caster levels (maximum +5).

Since the *lash* is immaterial, your Strength modifier does not apply to the damage.

A creature hit with the *lash* must make a Fortitude saving throw or be stunned for 1 round.

If the *lash* hits its target, you may release it from your hand so that it continues to attack that target automatically, leaving your hand free.

The *lash* attacks on your turn using your base attack value, although it can only attack once per round on its own.

If the *lash's* target falls unconscious, dies, or is destroyed, the *lash* returns to you on its next action.

If you do not grasp the *lash* on the round it returns, it dissipates, but otherwise you can use the *lash* on another creature and begin the cycle again.

This spell originally appeared in *Magic of Faerûn*.

PHANTOM PLOW

Evocation [Earth]

Level: Clr 3, Drd 3

Components: V, S, M

Casting Time: 1 action

Range: See text

Area: See text

Duration: Permanent

Saving Throw: See text

Spell Resistance: No

You turn aside raw earth in a furrow in a straight line, extending from your feet to a distance of 20 feet per caster level.

The furrow measures 1 foot deep by 6 inches wide.

The furrow ceases if it connects with a wall, large boulder, or other solid object greater than its own width.

Medium-size and smaller creatures standing directly in the furrow's path must make a Balance check against the caster's save DC to retain their footing; otherwise they fall prone to the ground.

Creatures burrowing or buried in the earth along the furrow's line suffer 4d4 points of damage.

Netherese clerics utilized this spell to turn earth at a fast rate in preparation for planting crops.

Its use enabled them to plant large tracts of land quickly and efficiently.

Material Component: A handful of dried corn.

SHADOW CANOPY

Evocation [Darkness]

Level: Sor/Wiz 6

Components: V, S, M

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Effect: Dome 25 ft. high, diameter 100 ft. + 50 ft./level

Duration: 1 hour/level

Saving Throw: Will negates or none (object)

Spell Resistance: Yes or no (object)

You create a dome of shadow.

The outer surface of the dome is impenetrable to normal vision and darkvision, granting 100% concealment to creatures and objects within the spell's area.

A creature under the effect of *blacklight* cannot see through the dome.

The interior of the dome casts a deep shadow on everything within, reducing the range of normal vision to 5 feet; creatures with darkvision can see normally within the dome.

Light, including sunlight, cannot penetrate the dome.

Creatures that would normally be adversely affected by sunlight, such as shades and vampires, are able to function normally within the dome.

You cannot cast the spell on a point in space or on a mobile object.

All Shadovar expeditions assigned to recover items from old Netherese locations include at least one arcanist able to cast this protective spell.

Shadow canopy counters or dispels any light spell of equal or lower level.

Light spells of equal level have no effect on *shadow canopy*, but light spells of higher level counter or dispel *shadow canopy*.

Material Component: A handful of coal dust and the dried eyeball of any diurnal creature.

ILLUSION

SKULL OF SECRETS

Illusion (Shadow)

Level: Clr 4 (Cyric)

Components: V, S

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Intangible skull

Duration: Permanent until discharged

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You create an intangible image of a floating skull that trails black flames.

The skull and its flames are obviously an illusion and cause no damage, nor can they be damaged by attacks.

The skull flies at speed 40 feet (perfect) but cannot move more than 20 feet from its point of origin.

The skull floats about aimlessly but threateningly within its available range.

You set two triggering conditions for the skull.

The first activates a message as if the skull were a *magic mouth*.

The second causes the skull to spit a tongue of flame 5 feet wide and 10 feet long that deals 1d8 points of damage per two caster levels (maximum 5d8) to the creature that triggered it and any others in the area.

Those affected can make Reflex saving throws for half damage.

The triggering conditions can be the same for both effects, which would cause the skull to spit flame and speak its message at the same time.

Once both triggering conditions have been met, the skull disappears.

The skull can only do each effect one time, so if it has already spoken its message it does not speak it again if the message trigger occurs a second time.

This spell originally appeared in *Magic of Faerûn*.

TRIPLE MASK

Illusion (Shadow)

Level: Clr 7 (Cytic)

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Three shadow duplicates

Duration: 1 round/level (D)

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: No

You create three shadow duplicates of yourself; they look, sound, and smell like you but are intangible.

You can switch your perceptions between any of the shadows and your own body as a free action on your turn.

When you use the perceptions of a shadow, it mimics your actions (including speech) unless you concentrate on making it act differently.

Any shadows you are not controlling remain inert.

If you desire, any spell you cast whose range is touch or greater can originate from the controlled shadow instead of from you.

(The shadows are quasi-real, just real enough to cast spells that you originate).

A shadow can cast spells on itself only if those spells affect shadows.

The shadows act similar to the servant conjured by an *unseen servant* spell.

They are mindless, so while they can perform simple tasks such as opening doors, they cannot perform complex tasks such as puzzle solving.

A controlled shadow can also be programmed to move in a particular direction or to a location you know.

It moves at your speed and continues to move in this manner until it reaches its destination or you shift your perceptions to it and program it to go somewhere else.

If you use *dimension door*, *teleport*, *plane shift*, or a similar spell that removes you from the same plane as the shadows, even momentarily, the spell ends.

Normally this spell is used to give you several false bodies to use at once, with one as a safe haven for casting spells (similar to *project image*) and the other two acting as distractions.

NECROMANCY

DEVASTATE UNDEAD

Necromancy

Level: Sor/Wiz 8

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Undead creatures, no two of which can be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell was created by the lich Larloch to power himself at the expense of his own undead minions.

The target undead creatures must succeed at Fortitude saving throws or be destroyed, just as if hit by a *disruption* weapon.

Creatures that are not undead, and undead with Hit Dice greater than the caster's caster level, are unaffected by this spell.

If an undead creature is destroyed by this spell, a portion of the negative energy that gave it unlife flows back to the caster.

This negative energy deals (if the caster is living) or cures (if the caster is undead) 5 hit points of damage per hit die of the destroyed undead.

Focus: A *disruption* weapon of any kind.

DREAD BLAST

Necromancy

Level: Clr 4 (Cytic)

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous (see text)

Saving Throw: Will half (see text)

Spell Resistance: Yes

You fire a black ray of negative energy at a single target.

You must succeed at a ranged touch attack to strike your target.

A creature struck by this ray takes 3d8 points of damage +1 point per caster level (up to +20).

The spell has no effect on constructs or inanimate objects.

Since undead are powered by negative energy, this spell cures them of a like amount of damage, rather than harming them.

HANDFANG

Necromancy [Evil]

Level: Clr 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Reflex half (see below)

Spell Resistance: No

You create a fanged, biting mouth in the palm of your hand.

When you lay your hand upon a creature, the mouth deals 1d8 points of damage.

If the target makes a successful Reflex save, he takes only half damage.

If the target fails his Reflex save, you may start a grapple as a free action without provoking an attack of opportunity.

If you establish a hold, the fanged mouth sinks its teeth into the target's flesh and continues to bite for an additional 1d6 points of damage each round until the hold is broken or the spell ends.

MORTAL WOUND

Necromancy

Level: Clr 4 (Bhaal, Cyric)

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous (see text)

Saving Throw: Will half (see text)

Spell Resistance: Yes

You fire a black ray of negative energy at a single target. You must succeed at a ranged touch attack to strike your target.

A creature struck by this ray takes 3d8 points of damage +1 point per caster level (up to +20).

The spell has no effect on constructs or inanimate objects. Since undead are powered negative energy, this spell cures them of a like amount of damage, rather than harming them.

STASIS CLONE

Necromancy

Level: Sor/Wiz 9

As *clone*, except that if the original individual is still alive, the cloned body falls immediately into stasis and does not rot.

If the original individual later dies, the soul transfers to the *stasis clone*, which leaves stasis and immediately begins to function as per the normal *clone* spell.

If multiple *stasis clones* exist for the same original creature when it is slain, the soul goes into the most recently created *stasis clone*.

TRANSMUTATION

BATTLETIDE

Transmutation

Level: Clr 5 (Xvim/Bane)

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Caster and up to one creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: No and Will negates

Spell Resistance: Yes

The caster steals energy from others, slowing them and speeding him or her.

Targets other than the caster suffer a -2 circumstance penalty on saving throws, attack rolls, and damage rolls.

As long as at least 1 enemy is affected by the spell, the caster gets one extra partial action each round.

If all the affected enemies free themselves from the spell (by death, entering an *antimagic field*, receiving a successful *dispel magic*, and so on), the spell ends.

This spell originally appeared in *Magic of Faerûn*.

SKULL EYES

Transmutation [see text]

Level: Clr 5 (Cyric)

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: You

Duration: 1 round/3 levels (see text)

Saving Throw: See text

Spell Resistance: Yes

As *eyebite*, except that you can only choose one of the following possible gaze attacks:

Charm: Equivalent to the *charm monster* spell, except that the saving throw is based on spell level 5th.

Confusion: As the *confusion* spell, except affecting only one target.

When you cast this spell, your eyes turn black with skull-shaped irises.

SKULL EYES

Transmutation [see text]

Level: Clr 5 (Cyric)

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: You

Duration: 1 round/3 levels (see text)

Saving Throw: See text

Spell Resistance: Yes

As *eyebite*, except that you can choose only one of the following possible gaze attacks:

Charm: Equivalent to the *charm monster* spell, except that the saving throw is based on spell level 5.

Confusion: As the *confusion* spell, except affecting only one target.

When you cast this spell, your eyes turn black with skull-shaped irises.

STONE WALK

Transmutation [Teleportation]

Level: Clr 6 (Bane)

Components: V, S, M (see text)

Casting Time: 10 minutes

Range: Touch

Target: Stone touched

Duration: Permanent until discharged

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You magically link one location to another so that you or another may speak a command word at one end and be teleported to the other end.

Before you cast the spell you must prepare the ends of the link, both of which must be areas of stone 5 feet square.

This preparation takes 1 hour, and functions for repeated castings of the spell as long as the stones are not damaged.

When the spell is cast, the stones become attuned to a command word you designate.

Any creature that speaks the command word while standing upon one of the stones is teleported without error to the other end instantaneously.

The stones function once for every four caster levels, and can carry 50 pounds per caster level each time.

Creatures that exceed the weight limitation are not transported and count as one of the uses of the spell.

Material Component: The preparation of each of the ends of the link requires a paste made from rubies and amber worth 2,500 gp.

Casting the spell requires a 2,500 gp diamond.

Activating one of the linked stones once the spell is cast does not require any material component.

This spell originally appeared in *Magic of Faerûn*.

LORDS OF MADNESS (3.5)

ABJURATION

ELDER GLYPH OF WARDING

Abjuration

Level: Cleric 9

This spell functions like *glyph of warding*, except that an *elder blast glyph* deals 1d8 points of damage per caster level (maximum of 30d8), and an *elder spell glyph* can store a spell of 9th level or lower.

Material Component: You trace the *elder glyph* with incense, which first must be sprinkled with powdered diamond worth at least 1,000 gp.

CONJURATION

UTTERDARK

Conjuration (Creation) [Evil]

Level: Sorcerer/wizard 9, Vile Darkness 8

Components: V, S, M/DF

Casting Time: 3 rounds

Range: Close (25 ft. + 5 ft./2 levels)

Area: 100-ft./level radius spread

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

Utterdark spreads outward from you, creating an area of cold, cloying magical darkness.

This darkness is similar to that created by the *deeper darkness* spell, but it cannot be dispelled by magical light (although a *light* spell or similar effect of equal or higher level can temporarily suppress the *utterdark* where their areas overlap, restoring normal illumination to the affected area for as long as the *light* spell or effect lasts).

Furthermore, evil-aligned creatures can see in this darkness as if it were simply a dimly lighted area.

Arcane Material Component: A black stick, 6 inches long, with humanoid blood smeared upon it.

DIVINATION

BRAIN SPIDER

Divination [Mind-Affecting]

Level: Cleric 8, Mind 7

Components: V, S, M, DF

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Targets: Up to eight living creatures within range

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to eavesdrop as a standard action on the thoughts of up to eight other creatures at once, hearing as desired:

- The ceaseless chaos representing images of surface thoughts.
- Individual trains of thought in whatever order you desire.
- Information from all minds about one particular topic, thing, or being, one nugget of information per caster level.
- A study of the thoughts and memories of one creature of the group in detail.

Once per round, if you do not perform a detailed study of one creature's mind, you can attempt (as a standard action) to implant a *suggestion* in the mind of any one of the affected creatures.

The creature can make another Will saving throw to resist the *suggestion*, using the save DC of the *brain spider*.

(Creatures with special resistance to enchantment spells can use this resistance to keep from being affected by the *suggestion*).

Success on this saving throw does not negate the other effects of the *brain spider* for that creature.

You can affect all intelligent beings of your choice within range (up to the limit of eight), beginning with known or named beings.

Language is not a barrier, and you need not personally know the beings—you can choose, for instance, “the nearest eight guards who must be in that chamber there”. The spell cannot reach those who make a successful Will save.

Material Component: A spider of any size or kind.

It can be dead, but it must still have all eight legs.

DETECT ABERRATION

Divination

Level: Cleric 2, druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: 60 ft.

Area: Quarter circle emanating from the character to the extreme of the range

Duration: Concentration, up to 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

You can detect the presence of all aberrations in the area.

The amount of information revealed depends on how long you study a particular area or subject: *1st Round:* Presence or absence of aberrant life.

2nd Round: Number of different aberrant auras and the strength of the strongest aura.

If you detect overwhelming aberrant power with this spell, and the Hit Dice or level of the aura's source is at least twice your character level, you are stunned for 1 round and the spell ends.

3rd Round: The strength and location of each aura.

Aura Power: An aberrant aura's power depends on the type of creature you're detecting and its Hit Dice; see the accompanying table.

If an aura falls into more than one power category, the spell indicates the stronger of the two.

A humanoid with the Aberration Blood feat detects as Faint even if it has more than 3 Hit Dice.

Hit Dice	Strength
1–3 or lower	Faint
4–7	Moderate
8–13	Strong
14 or higher	Overwhelming

Length Aura Lingers: How long the aura lingers depends on its original strength:

Aura Strength	Duration
Faint	1d6 minutes
Moderate	1d6 × 10 minutes
Strong	1d6 hours
Overwhelming	1d6 days

Each round, the character can turn to detect aberrant auras in a new area.

The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

PROBE THOUGHTS

Divination [Mind-Affecting]

Level: Mind 6, sorcerer/wizard 6

Components: V, S

Casting Time: 1 minute

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Concentration

Saving Throw: Will negates; see text

Spell Resistance: Yes

All the subject's memories and knowledge are accessible to you, ranging from memories deep below the surface to those still easily called to mind.

You can learn the answer to one question per round, to the best of the subject's knowledge.

You can also probe a sleeping subject, though the subject can make a Will save against the DC of the *probe thoughts* spell to wake after each question.

Subjects who do not wish to be probed can attempt to move beyond the power's range, unless somehow hindered.

You pose the questions telepathically, and the answers to those questions are imparted directly to your mind.

You and the target do not need to speak the same language, although less intelligent creatures might yield up only appropriate visual images in answer to your questions.

ENCHANTMENT

BOLTS OF BEDEVILMENT

Enchantment [Mind-Affecting]

Level: Madness 5

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell grants you the ability to make one ray attack per round.

The ray dazes one living creature, clouding its mind so that it takes no action for 1d3 rounds.

The creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

MADDENING SCREAM

Enchantment (Compulsion) [Mind-Affecting]

Level: Madness 8

Components: V

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1d4+1 rounds

Saving Throw: None

Spell Resistance: Yes

The subject cannot keep himself from screaming, gibbering, and leaping about as though completely mad.

This spell makes it impossible for the victim to do anything other than race about caterwauling.

The spell gives the subject a –4 penalty to Armor Class, makes Reflex saving throws impossible except on a roll of 20, and makes it impossible to use a shield.

MORALITY UNDONE

Enchantment [Evil, Mind-Affecting]

Level: Bard 5, cleric 5, Corruption 4

Components: V, S, M/DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One nonevil creature

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

The caster turns one creature evil.

The chaotic/neutral/lawful component of the subject's alignment is unchanged.

The subject retains whatever outlook, allegiances, and relationships it had before, as long as they do not conflict with the new alignment.

Otherwise, it acts with its new selfish, bloodthirsty, and cruel outlook on all things.

For example, a wizard might not immediately turn on her fighter companion for no apparent reason, particularly in the middle of a combat when they're fighting on the same side.

But she might allow her friend to be hurt or killed if her friend is carrying something valuable she could recover later, or she might use spells to control or deceive her friend to get what she wants.

She might even eventually decide to betray or attack her friend if there is some potential gain involved.

Arcane Material Component: A powdered holy symbol.

TOUCH OF MADNESS

Enchantment [Mind-Affecting]

Level: Madness 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You can daze one living creature by making a successful touch attack.

If the target creature does not make a successful Will save, its mind is clouded and it takes no action for 1 round per caster level.

A dazed creature is not stunned (so attackers get no special advantage against it), but it can't move, cast spells, use mental abilities, and so on.

EVOCATION

BLAST OF FORCE

Evocation [Force]

Level: Force 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

You direct an invisible blast of force at a chosen target.

The blast is a ranged touch attack that deals 1d6 points of damage per two caster levels (maximum 5d6).

In addition, a successful hit forces the target to make a Fortitude save or be knocked down (size and stability modifiers apply to the saving throw as if the spell were a bull rush).

DAMNING DARKNESS

Evocation [Darkness, Evil]

Level: Cleric 4, sorcerer/wizard 4, Vile Darkness 4

Components: V, M/DF

Casting Time: 1 action

Range: Touch

Target: Object touched

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: See below

This spell is similar to *darkness*, except that those within the area of darkness also take unholy damage.

Creatures of good alignment take 2d6 points of damage per round in the darkness, and creatures neither good nor evil take 1d6 points of damage.

As with the *darkness* spell, the area of the darkness is a 20-foot radius, and the object that serves as the spell's target can be shrouded to block the darkness (and thus the damaging effect).

Damning darkness counters or dispels any light spell of equal or lower level.

Spell resistance applies to the damage dealt by this spell but not to the darkness area.

Arcane Material Component: A dollop of pitch with a tiny needle hidden inside it.

DARKBOLT

Evocation [Darkness, Evil]

Level: Cleric 2, sorcerer/wizard 2, Vile Darkness 2

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

The caster makes a ranged touch attack against a foe, launching a bolt of cold darkness from his left hand.

The bolt deals 1d8 points of damage per two caster levels (maximum 5d8).

Half the damage is cold, and the other has no specific type.

When struck, the foe must also succeed on a Fortitude save or be stunned for 1 round, overwhelmed by the evil charge of the *darkbolt*.

INVOKE MAGIC

Evocation

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You cause a flicker of magic to momentarily exist in a place where magic cannot normally function, such as within the area of an *antimagic field*, a dead magic area, or a null-magic plane.

This allows you the ability to cast a single spell of 4th level or lower, which then ends the spell's effect.

Casting *invoke magic* is a swift action, like casting a quickened spell.

You can perform only one swift action each round.

Normally, you cast *invoke magic* and then immediately follow it by casting another spell as a standard action.

Material Component: A diamond worth at least 1,000 gp.

INVOKE THE CERULEAN SIGN

Evocation

Level: Bard 3, cleric 3, druid 2, paladin 3, ranger 2, sorcerer/wizard 3

Components: S

Casting Time: 1 standard action

Range: 30 ft.

Area: Multiple aberrations whose combined total Hit Dice do not exceed twice caster level in a spread emanating from the character to the extreme of the range

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: No

The *cerulean sign* is an ancient symbol said to embody the purity of the natural world, and as such it is anathema to aberrations.

While druids and rangers are the classes most often known to cast this ancient spell, its magic is nearly universal and can be mastered by all spellcasting classes.

When you cast this spell, you trace the *cerulean sign* in the air with a hand, leaving a glowing blue rune in the air for a brief moment before it flashes and fills the area of effect with a pulse of cerulean light.

Any aberration within the area must make a Fortitude saving throw or suffer the following ill effects.

Closer aberrations are affected first.

Aberration Hit Dice	Effect
Up to caster level +10	None
Up to caster level +5	Sickened
Up to caster level	Nauseated
Up to caster level -5	Dazed
Up to caster level -10	Stunned

Each effect lasts for 1 round.

None: The aberration suffers no ill effect, even if it fails the saving throw.

Sickened: The aberration takes a -2 penalty on attack rolls, saving throws, skill checks, and ability checks for 1 round.

Nauseated: The aberration cannot attack, cast spells, concentrate on spells, or do anything but take a single move action for 1 round.

Dazed: The aberration can take no actions, but has no penalty to its Armor Class, for 1 round.

Stunned: The aberration drops everything held, can't take actions, takes a -2 penalty to AC, and loses its Dexterity bonus to AC (if any) for 1 round.

Once a creature recovers from an effect, it moves up one level on the table.

Thus, a creature that is stunned by this spell is dazed the round after that, nauseated the round after that, sickened the round after that, and then recovers fully the next round.

NATURE'S PURITY

Evocation

Level: Druid 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One or more rays

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A shimmering green beam of light springs forth from your outstretched hand.

You can direct this ray at any target in range.

If you hit the target, the ray deals 1d6 points of force damage.

Against undead and constructs, the ray deals 2d8 points of force damage.

Against aberrations, the ray deals 5d6 points of force damage and threatens a critical hit on a roll of 19–20.

An aberration slain by this damage is immediately transformed into pungent-smelling inert plant matter.

You can generate one additional ray for every four levels above 5th (to a maximum of four rays at 17th level).

The rays can be fired at the same or different targets, but all rays must be aimed at targets within 30 feet of each other and fired simultaneously.

NECROMANCY

POX

Necromancy [Evil]

Level: Corruption 6, druid 6

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Up to one living creature/level, no two of which can be more than 10 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

The affected creatures take 1d4 points of Constitution drain.

Their skin breaks out in lesions and takes on a pale yellow pallor.

TRANSMUTATION

ARMS OF PLENTY

Transmutation

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: One creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Two clawed arms grow out of the subject's body.

The arms are roughly humanoid, but are either scaly or furred and end in sharp talons.

The spell transforms any clothing or armor worn by the creature to accommodate these additional arms; when the duration ends the creature's clothing and armor return to normal.

The arms grant the subject two primary claw attacks.

A hit from one of the claws deals slashing damage equal to 1d6 points (1d4 if Small) plus the creature's Strength modifier.

The claws cannot be used to wield weapons or manipulate objects.

Since the claws are primary attacks, you can attack with them in addition to making your weapon attacks without penalty.

The claws count as magic weapons for the purpose of overcoming damage reduction.

If both claw attacks hit the same target, the arms can rend the target for extra damage equal to 2d6 points plus 1-1/2 times the subject's Strength modifier.

Multiple castings of *arms of plenty* on a creature do not stack; the duration simply resets.

Material Component: A xill's claw.

BEFOUL

Transmutation [Evil]

Level: Cleric 8, Corruption 8

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Area: Water in a volume of 100 ft./level by 100 ft./level by 10 ft./level (S)

Duration: Permanent; see text

Saving Throw: None; see text

Spell Resistance: No

The caster makes water (or other liquid) foul and mildly poisonous.

All creatures with 1 Hit Die or less that are in the water at the time of the casting die immediately.

Anyone drinking this water must succeed on a Fortitude saving throw or take 1d4 points of Constitution damage.

Any creature with 2 or more Hit Dice immersed in this water must make a saving throw as if drinking it.

If the caster affects only part of a larger body of water, the befouled water mixes with the pure water.

If the entire body of water is no more than four times the size of the affected area, all the water in the body of water is befouled 24 hours later, but the damage from drinking or swimming in the water is only 1d2 points of Constitution damage.

If the body of water is more than four times the affected area but less than twenty times the affected area, after 24 hours all of the water tastes foul but has no damaging effect.

If the entire body is larger than twenty times the affected area, fouled water mixes with the clean water and loses all effect after 24 hours.

Material Components: A dead fish and a drop of poison.

DESPOIL

Transmutation [Evil]

Level: Cleric 9, Corruption 9

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Area: 100 ft./level radius

Duration: Instantaneous

Saving Throw: Fortitude partial (plants) or Fortitude negates (other living creatures)

Spell Resistance: Yes

The caster blights and corrupts a vast area of land.

Plants with 1 Hit Die or less shrivel and die, and the ground cannot support such plant life ever again.

Plants with more than 1 Hit Die must succeed on a Fortitude saving throw or die.

Even those successful on their saves take 5d6 points of damage.

All living creatures in the area other than plants (and the caster) must succeed on a Fortitude saving throw or take 1d4 points of Strength damage.

Unattended objects, including structural features such as walls and doors, grow brittle and lose 1 point of hardness (to a minimum of 0), then take 1d6 points of damage (this damage bypasses any remaining hardness).

Only the effects of multiple *wish* or *miracle* spells can undo the lasting effect of this spell.

Material Component: Corpse of a freshly dead or preserved living creature.

PERMEABLE FORM

Transmutation

Level: Sorcerer/wizard 3

Components: V

Casting Time: 1 immediate action

Range: Personal

Target: You

Duration: 1 round

By altering the essential nature of the matter composing your body, you make yourself incorporeal for a brief time. While incorporeal, you can be harmed only by other incorporeal creatures, magic weapons, and spells, spell-like abilities, or supernatural abilities.

Even when hit by spells or magic weapons, you have a 50% chance to ignore damage from a corporeal source (except for positive energy, negative energy, force effects, or attacks made with ghost touch weapons).

You can enter or pass through solid objects as described under the incorporeal subtype on page 310 of the *Monster Manual*.

Tsochar spellcasters sometimes use this spell to quickly exit an inhabited creature without causing damage to the victim.

You cannot attack while in this state, but you can perform other actions as your incorporeal nature allows.

Casting this spell is an immediate action.

You can cast it even when it's not your turn.

You can only take one swift, immediate, or quickened action per turn.

UNDULANT INNARDS

Transmutation

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell causes a powerful transformation in the target creature.

Outwardly, the target doesn't appear any different.

On the inside, the creature's internal organs constantly seethe and slither about, and actively avoid being struck at by weapons.

For the duration of the spell, the target is immune to extra damage from critical hits and sneak attacks.

Additionally, the target takes minimum possible damage from falls and gains a +4 enhancement bonus on all saving throws against poison, disease, and paralysis.

WHISPERCAST

Transmutation

Level: Sorcerer/wizard 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

The next spell you cast can be cast as a purely mental action, provided that it is of 5th level or lower and that you can whisper.

It requires no somatic or material components, unless the spell normally requires a focus or an expensive material component (any component worth more than 1 gp).

If the spell does require a focus or an expensive component, you can still *whispercast* it as long as you have the focus or expensive component on your person—the magic of *whispercast* causes the focus to be used or the expensive component to be consumed normally, without you having to handle or manipulate it.

If you do not cast a second spell while *whispercast* is in effect, you gain no benefit from casting *whispercast*.

Casting this spell is a swift action.

It does not require a move action or standard action, but you can take only one swift, immediate, or quickened action per turn.

Tsochari spellcasters use this spell to permit spellcasting while they inhabit other creatures.

It is also useful for grappled spellcasters.

LOST EMPIRES OF FAERÛN (3.5)

ABJURATION

AURA OF THE SUN

Abjuration [Light]

Level: Cleric 4, paladin 4

Components: V, S, DF

Casting Time: 1 standard action

Range: 10 ft.

Area: 10-ft.-radius emanation centered on you

Duration: 1 round/level (D)

Saving Throw: No

Spell Resistance: None

By casting *aura of the sun*, you fill the area around you with warm, glowing light that eliminates natural shadows and hampers magical darkness.

Any creature attempting to cast a spell from the shadow subschool or a spell with the darkness descriptor within an *aura of the sun* must succeed on a caster level check (DC 11 + your caster level), or the spell fails.

Areas of magical darkness originating from 3rd-level or lower spells and effects are temporarily suppressed when overlapping with an *aura of the sun*.

Creatures that take penalties in bright light also take them while within an *aura of the sun*, and an undead creature takes 1d6 points of positive energy damage at the end of its turn every round that it spends within the spell's area.

Furthermore, any creature attempting to hide within the *aura* takes a -4 penalty on Hide checks.

This effect is centered on you and moves with you.

Anyone who enters the *aura* immediately becomes subject to its effect, but creatures that leave are no longer affected.

BACKBLAST

Abjuration [Fire]

Level: Sorcerer/wizard 3

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: Until expended or 10 minutes/level (D)

Though this spell was originally created by the phaerimms, it has since been stolen by spellcasters of other races and can now be found in grimoires across Faerûn.

Backblast protects you in the same manner as the *spell turning* spell, except that it turns only spells with the fire descriptor that are targeted on you.

Effect and area spells are unaffected, as is any spell with a range of touch.

The DM secretly rolls 1d4+2 to determine the total number of spell levels that can be turned.

Backblast otherwise follows the rules for the *spell turning* spell.

In addition to the above, *backblast* grants you fire resistance 10.

This effect persists until the end of the round in which the *spell turning* effect ends.

NEZRAM'S AMETHYST AURA

Abjuration

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You surround the subject with a brilliant violet glow that grants temporary immunity to poisons and diseases.

Nezram's amethyst aura absorbs all poisons and diseases that target the subject for the duration of the spell, regardless of how they are delivered.

Any weapon or natural attack normally used to deliver a poison or disease (such as a mummy's touch or a snake's bite) still deals the normal amount of hit point damage, but the poison or disease is blocked.

This spell does not reverse or prevent the effects of poison and disease in a subject already affected by one or both at the time of casting.

Arcane Material Component: A pinch of amethyst dust.

NEZRAM'S EMERALD ENERGY SHIELD

Abjuration

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You coat the subject with protective energy of an emerald green hue.

This *energy shield* does not affect the subject's movement, senses, or ability to cast spells.

While surrounded by this energy, the subject is immune to any natural or magical effect that causes deafness and to all language-dependent, mind-affecting spells and effects.

The subject also gains sonic resistance 10 and a +4 bonus on saves against all spells and effects with the sonic descriptor to which it has not already been rendered immune.

Arcane Material Component: A pinch of powdered emerald.

NEZRAM'S SAPPHIRE SCREEN OF SHIELDING

Abjuration [Force]

Level: Sorcerer/wizard 5

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

You create a levitating, square screen of fluid blue force approximately 5 feet on a side and 1 inch thick.

This screen responds immediately to spells and physical attacks that target you, moving with you and flowing freely around your body to protect you from specific attacks.

In addition to providing the effect of a *shield* spell, *Nezram's sapphire screen of shielding* also gives you damage reduction 10/magic.

Arcane Focus: A sapphire worth at least 250 gp.

SRINSHEE'S SPELL SHIFT

Abjuration

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level (D)

This potent spell opens your senses to the Weave, allowing you to perceive its very fabric as clearly as you might see the trees in a forest while standing in the heart of it.

When a spell is cast, you can visually observe its effects on the Weave.

Thanks to this heightened understanding, you can use the counterspell action to do much more than merely counter another caster's spell.

Srinshee's spell shift grants you a +4 insight bonus on Spellcraft checks made to identify spells for counterspelling.

Furthermore, instead of simply negating the effect of a spell you successfully counter, you can choose from among the following options as long as *Srinshee's spell shift* lasts.

Aid: You can boost the effectiveness of an ally's spell by applying any one metamagic feat from the following list: Empower Spell, Enlarge Spell, Extend Spell, Maximize Spell, or Widen Spell.

To use this option, you must expend a spell slot (or sacrifice a prepared spell) whose spell level equals or exceeds that of the ally's spell with the desired metamagic feat applied.

For example, empowering an ally's *fireball* would require you to expend a 5th-level or higher spell slot.

Manipulate: You can seize control of the spell's range, area, or targets, as appropriate, and reshape these factors as you choose.

For example, you could cause an enemy wizard's *fireball* to explode at his feet, or you could cause his *haste* spell to target your allies within the area he has specified.

Only one property of the spell, chosen from among those that the caster can normally designate, can be manipulated in this manner.

For example, you could not choose the targets of a *sleep* spell because the targets affected are determined by the spell itself, not the caster.

Backlash: You counter the spell as normal, but your opponent must succeed on a Fortitude save or be stunned for 1d6 rounds.

STORM SHIELD

Abjuration

Level: Cleric 3, druid 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: 30-ft.-radius emanation

Duration: 1 minute/level or until discharged (D)

Saving Throw: See text

Spell Resistance: See text

This spell creates a small, glowing sphere of amber light at a point you designate.

Any effect that deals electricity damage (such as a *lightning bolt* or a blue dragon's breath weapon) that passes within 30 feet of the *storm shield* is attracted to it and strikes the shield instead of its intended target.

In the case of area spells such as *lightning bolt*, this redirection occurs if any portion of the spell's area is within 30 feet of the *storm shield*.

In such a case, the entire effect is drawn to the *storm shield*, and all creatures or objects that otherwise would have been in the spell's area remain unharmed.

The *storm shield* takes full damage (no saving throw) from any effect drawn into it.

The shield can absorb up to 20 points of electricity damage per caster level before dissipating.

Any remaining damage is applied to all creatures within 10 feet of the *storm shield's* position (Reflex half; spell resistance applies).

For example, suppose a *storm shield* cast by a 5th-level cleric has already absorbed 78 points of electricity damage when it is struck by a *lightning bolt* that deals 45 points of damage. The first 22 points of damage is enough to destroy the *storm shield*, so every creature within 10 feet of it takes 23 points of electricity damage (or 11 with a successful save).

Material Component: A small chip of amber.

TYCHE'S TOUCH

Abjuration

Level: Cleric 2

Components: S, DF

Casting Time: 1 standard action

Range: Touch

Target: One living creature

Duration: 24 hours or until discharged

Saving Throw: Will negates

Spell Resistance: Yes

This spell confers either a protection or a curse (your choice at the time of casting) upon a single living creature. The effects of the two options are as follows.

Protection: The subject gains a +4 sacred bonus on the first saving throw made after the spell is cast, a +3 sacred bonus

on the second saving throw, a +2 sacred bonus on the third, and a +1 sacred bonus on the fourth.

Curse: The subject takes a -4 penalty on the first saving throw made after the spell is cast, a -3 penalty on the second saving throw, a -2 penalty on the third, and a -1 penalty on the fourth.

Tyche's touch lasts for 24 hours or until its power is exhausted (after the fourth saving throw).

Only one *Tyche's touch* spell can affect a given creature at one time.

Tyche's touch spells automatically counter and dispel each other if cast on the same creature, regardless of how many saving throws the first casting of the spell has already affected.

In recent years, both Beshaba and Tymora have been known to grant *Tyche's touch*.

CONJURATION

MAILED MIGHT OF THE MAGELORDS

Conjuration (Creation) [Force]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You create a translucent, protective field of force (+8 armor bonus) around the subject.

In addition, the subject becomes immune to 2nd-level or lower spells with the force descriptor and gains damage reduction 5/magic.

Unlike mundane armor, the force armor created by *mailed might of the magelords* has no armor check penalty or arcane spell failure chance, and it mandates no speed reduction. Furthermore, since the armor is made of force, incorporeal creatures can't bypass it the way they do normal armor.

Arcane Material Component: A miniature adamantine shield worth at least 250 gp.

SHALANTHA'S DELICATE DISK

Conjuration (Creation)

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Effect: One disk

Duration: Permanent until discharged (D)

Saving Throw: See text

Spell Resistance: See text

This spell conjures a small disk, about 1 foot in diameter and 1 inch thick, made of a material that resembles rose-tinted eggshell.

Once you summon a disk, a single spell of up to 5th level can be cast into it, either by you or by another spellcaster. If no spell is cast into the disk within 10 minutes of its creation, it vanishes into nothingness and the spell is wasted.

The disk stores an imbued spell indefinitely until it is shattered (a standard action requiring only 1 point of damage or a DC 5 Strength check).

At that point, the spell immediately takes effect as if it had just been cast by the spellcaster who first placed it in the disk.

Touch-range spells and spells that have specific targets (such as *cause critical wounds* or *expeditious retreat*) are targeted upon the creature or object that shattered the disk, while area and effect spells are triggered as though the broken disk were the spell's point of origin.

For example, a stored *fireball* would detonate in a 20-foot-radius sphere centered on the disk, whereas a *flame blade* would appear in the hand of the creature that shattered the disk.

If the spell stored in the disk does not have a valid target (such as a disk imbued with *cause critical wounds* that is broken by a falling rock), the spell simply fails to manifest and is wasted.

Material Component: A golden egg worth 200 gp.

SUN SCEPTER

Conjuration (Creation) [Lawful, Light]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 standard action

Range: 0 ft.

Effect: Scepter of light

Duration: 1 round/level [D]

Saving Throw: None

Spell Resistance: No

You conjure a radiant, macelike scepter of solid light, approximately 3 feet long and 1 inch in diameter, with a dazzling, spherical ball measuring 5 inches in diameter at one end.

The *sun scepter* functions as a physical weapon that deals 2d6 points of bludgeoning damage and has the axiomatic, disruption, and flaming burst special abilities.

You can strike with it as a melee touch attack.

The *sun scepter* lasts only as long as you hold it in your hand; it instantly fades away if you drop it or hand it off to an ally.

DIVINATION

KNOW BLOODLINE

Divination

Level: Cleric 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Mulhorandi priests have used this spell for millennia to select humans of the purest Mulan bloodlines to follow the path of the glorious servant.

When you cast this spell, you learn the basic ancestry of the subject creature.

The information revealed includes the subject's type, race, subrace, and all subtypes the creature possesses.

EVOCATION

BLOODBRIARS

Evocation

Level: Druid 4, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: 1 creature

Duration: 1 minute/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

This spell, commonly used by the *armathors* of Myth Drannor in the apprehension of criminals, snares the target in a tangle of invisible, razor-sharp briars of mystical energy.

The affected creature suffers no ill effects as long as it does not attempt to move, attack, cast a spell with material or somatic components, or perform any other action that requires movement.

During any round in which the target moves in any fashion, however, it takes 1d8 points of damage (no save). Damage from the spell disrupts spellcasting; a subject that attempts to cast a spell with a material or somatic component must make a Concentration check (DC 10 + spell level + damage dealt) or lose the spell.

Material Component: A drop of blood.

CRUSHING SPHERE

Evocation [Force]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 1-ft.-diameter/level sphere, centered around a creature

Duration: 1 round/level (D)

Saving Throw: Reflex negates

Spell Resistance: Yes

This spell functions like *Otiluke's resilient sphere*, except that the sphere painfully constricts the target, hampering her movements and breathing.

The target is entangled and takes 3d6 points of nonlethal damage per round as the *sphere* contracts.

If the target is rendered unconscious, any remaining damage from the *crushing sphere* is lethal damage.

Material Component: An eggshell, which is crushed as the spell is cast.

RAY OF RESURGENCE

Evocation

Level: Cleric 1, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

A glowing beam of rejuvenating yellow light springs from your fingers, unerringly striking your target.

A *ray of resurgence* has the following three effects on the target.

- Restores up to 1 point per caster level (maximum 5 points) of Strength damage.

- Negates any Strength penalties affecting the target, to a total of 1d6 +1 per caster level (maximum 1d6+5).

- Makes an exhausted target fatigued, or removes the fatigued condition from a target affected by it.

SANDBLAST

Evocation [Earth]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

A violent burst of sand and howling wind streams forth from your hand, extending outward in a cone.

Every creature and object within the cone takes 6d8 points of damage and is subjected to winds of hurricane force that blow directly away from you.

These winds blow away Medium or smaller creatures, knock down Large creatures, and check Huge or larger creatures.

(See Table 3–24: Wind Effects, page 95 of the *Dungeon Master's Guide*).

Any creature that succeeds on a Fortitude save takes half damage from the sandblast and ignores the wind effect.

Material Component: A handful of sand from the heart of a desert.

THESKYN'S HEARTY HEAVE

Evocation [Force]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: 10 ft.

Targets: One creature/three levels

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

Created by a court mage serving the Stag King of Athalantar, this spell provides you with a bit of breathing room when you are threatened by swarming foes.

When you cast the spell, you project a blast of concentric force that pushes away creatures surrounding you.

Each creature is affected as if it had been subjected to a bull rush maneuver by a foe of Large size with a Strength score equal to 20 + your caster level (maximum 25), and the attacker had moved with the target (though you need not move at all).

Movement caused by this spell provokes attacks of opportunity, just as the movement resulting from a normal bull rush would.

Creatures grappling you are not affected by this spell.

TOOTHED TENTACLE

Evocation

Level: Sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Effect: 30-ft.-long tentacle extending from your hand

Duration: Concentration, to a maximum of 1 round/level

This spell creates a shadowy tentacle of energy that extends 30 feet from your hand, splitting off into three smaller tentacles about 10 feet from its end.

Each of these smaller tentacles ends in a fanged, slavering maw.

All three of these mouths can be directed to attack as a full-round action, or one of them can attack as a standard action. You can direct the mouths to attack separate targets as long as all targets are within 10 feet of each other.

Each mouth strikes with an attack bonus equal to your caster level plus the modifier for the ability score that controls your spellcasting, and each deals 2d6 points of damage on a successful hit.

Because the mouths are tangible, they can be destroyed. Each has an AC of 15 and hit points equal to 10 + your caster level.

If a mouth is destroyed, it fades away into nothingness, but the other mouths remain.

If all the mouths are destroyed, the spell's duration ends. The main tentacle cannot be attacked.

Material Component: Three hairs and a tooth.

NECROMANCY

EBON RAY OF DOOM

Necromancy

Level: Assassin 3, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 level)

Effect: Ray

Duration: 1 round/level

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

You fire a ray of black energy that drastically slows down the rate at which the subject can recover hit points.

Any creature attempting to restore hit points to the subject by means of any sort of healing magic must succeed on a caster level check (DC 15 + your caster level), or the healing effect fails.

A subject with fast healing or a regeneration ability must make a Fortitude save at the beginning of its turn each round.

Failure indicates that the ability does not function in that round.

TRANSMUTATION

CLEARSTONE

Transmutation [Earth]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Stone or stone object touched, up to 1 cu. ft./level

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

You cause a rock or section of stone to become transparent. This spell affects naturally occurring stone, ore, gemstones in the rough, and even worked stone such as a statue or tunnel wall, but not worked metals, cut gems, or fabricated stone materials such as brick or concrete.

Visibility through the affected stone is perfectly clear and limited only by the available light or by objects and creatures embedded in the stone (such as a creature using *meld into stone*).

Clearstone grants line of sight, but not line of effect, through the affected stone.

This spell does not change a stone's hardness or other qualities in any way.

Clearstone can be made permanent using *permanency* (minimum caster level 11th, 1,500 XP).

Arcane Material Component: A small, flat piece of glass.

GHOST PIPES

Transmutation

Level: Bard 1

Components: V, F

Casting Time: 1 standard action

Range: Touch

Target: One musical instrument

Duration: 1 minute/level (D)

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

By means of this spell, you can cause one musical instrument you touch to float a few feet above the ground and play itself.

The instrument must be intact and in playable condition (no missing strings, clogged mouthpieces, or other impediments to proper use).

The instrument plays any tune you desire as though a skilled musician were playing it, regardless of whether you can play the instrument in question.

If used in conjunction with your bardic music ability, the *ghost pipes* grant a +2 competence bonus on your Perform check.

Focus: The instrument to be played.

NAR FIENDBOND

Transmutation

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M/DF, XP

Casting Time: 1 hour

Range: Touch

Target: One humanoid with Int 4 or higher

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You turn the subject into a half-fiend by imbuing it with the essence of the infernal planes.

The subject can have no more character levels than you do, and it must either be willing to undergo the transformation or be restrained in some manner.

Upon completion of the spell, the subject can attempt a Will save to avoid gaining the half-fiend template (see page 147 of the *Monster Manual*).

In addition, the subject's type changes to outsider, and the moral component of its alignment changes to evil. For the purpose of this spell, treat the half-fiend template as an acquired template rather than an inherited one. The newly created half-fiend also gains a +4 level adjustment, raising the XP required for it to achieve its next character level.

For example, a 5th-level sorcerer who becomes a half-fiend by means of this spell becomes a 9th-level character who needs 45,000 XP to gain his sixth class level.

You cannot cast *Nar fiendbond* on yourself.

Arcane Material Component: Precious gems with a total value equal to the XP cost of the spell.

XP Cost: 500 XP per character level of the half-fiend created.

SAKKRATAR'S TRIPLE STRIKE

Transmutation

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature/level, no two of which may be more than 30 ft. apart

Duration: 1 round

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This spell, created by a coronal of Cormanthyr from days long past, imbues a number of targets with devastating speed in battle.

Each subject of *Sakkratar's triple strike* can take two extra attacks when making a full attack action, provided that it attacks with a melee weapon it is holding.

These extra attacks are made using the subject's full base attack bonus, plus any modifiers appropriate to the situation.

In addition, each affected creature's melee weapon bursts into pure white flame, gaining the keen and flaming burst special abilities for the duration of the spell.

This effect is not cumulative with similar effects, such as a *haste* spell or a weapon of speed, nor does it grant an extra action.

Material Component: A three-faceted prism.

MAGIC OF FAERÛN (3.0)

ABJURATION

ANTIMAGIC AURA

Abjuration

Level: Sor/Wiz 7

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

An invisible barrier surrounds a single creature and its equipment.

The target creature is impervious to most magical effects including spells, spell-like abilities, and supernatural abilities.

Likewise, it prevents the functioning of any magic items or spells within its confines, thus preventing the target from casting spells or using spell-like abilities or magic items for the duration.

An *antimagic aura* suppresses any spell or magical effect used on or by, or cast onto, the target, but does not dispel it. A *charmed* creature, for example, is not *charmed* while affected by the aura, but the spell resumes functioning when *antimagic aura* ends.

Time spent within an *antimagic aura* counts against the suppressed spell's duration.

Material Component: A pinch of powdered iron or iron filings.

AURA AGAINST FLAME

Abjuration

Level: Clr 2 (Eldath)

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

You create an aura of blue mist that protects you against fire, absorbing the first 12 points of fire damage as an *endure elements* spell.

In addition to the *endure elements (fire)* effect, the spell can be used to snuff out fires.

Any nonmagical flame that the aura contacts is immediately extinguished if the flame's maximum damage is 12 or fewer points per round.

This means that torches, small fires, and hurled alchemist's fire are snuffed out and cause no damage if used against you or if you touch them.

You may use a standard action to touch an existing magical fire (such as a *flaming sphere* or a *wall of fire*) and attempt to dispel it as if using a *dispel magic* spell against it.

If you succeed, the magical fire and the aura both vanish. If you fail, both remain.

You may use a ready action to use the aura as a *dispel magic* to counterspell a magical fire attack against you.

If successful, the spell is counterspelled and the aura disappears.

If you fail the dispel check or the attack is not a fire attack, nothing happens and the aura remains.

AZUTH'S SPELL SHIELD

Abjuration

Level: Clr 7 (Azuth)

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Up to one creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level (see text)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Each targeted creature gains spell resistance equal to 12 + caster level.

Divide the duration evenly among all the creatures you target.

In order to affect a creature who has spell resistance with a spell, a spellcaster must roll the creature's spell resistance or higher on 1d20 + caster level.

A creature with spell resistance may voluntarily lower it in order to accept a spell.

DIMENSIONAL LOCK

Abjuration

Level: Clr 8, Sor/Wiz 8

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 15-ft.-radius emanation centered on a point in space

Duration: 1 day/level

Saving Throw: None

Spell Resistance: Yes

You create a field that completely blocks bodily extradimensional travel.

Forms of movement barred include *astral projection*, *blink*, *dimension door*, *ethereal jaunt*, *ethereality*, *gate*, *maze*, *phasing*, *plane shift*, *shadow walk*, *teleport*, and similar spell-like or psionic abilities.

The *dimensional lock* does not interfere with the movement of creatures already in ethereal or astral form when the spell is cast, nor does it block extradimensional perception or attack forms such as a basilisk's gaze.

Dimensional lock does not prevent summoned creatures from disappearing at the end of the summoning spell.

Once the spell is in place, however, extradimensional travel into or out of the affected area is not possible.

DISQUIETUDE

Abjuration [Sonic]

Level: Brd 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

Your song or poem instills a feeling of paranoia in your target.

The affected target restricts her movement to avoid any physical contact, even with allies.

If she is attacked in melee and can't flee, she uses the full defense option.

EASY TRAIL

Abjuration

Level: Drd 2, Hrp 2, Rgr 2

Components: V, S

Casting Time: 1 action

Range: Personal

Effect: 30-ft. cone trailing behind you

Duration: 1 hour/level (D)

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

You radiate an energy that gently pushes plants aside, allowing easy passage and hiding your trail after you pass. Anyone in the area of the spell (including the caster) finds the undergrowth held aside while they pass.

This essentially provides a "trail" through any terrain (see Table 9–5: Terrain and Overland Movement, page 143 of the *Player's Handbook*).

Once the effect of the spell passes, the plants return to their normal shape.

The DC to track anyone who traveled within the area of this spell is increased by +5 (the equivalent of hiding the trail).

This spell has no effect on plant creatures (that is, they aren't pushed or held aside).

ELMINSTER'S EFFULGENT EPURATION

Abjuration

Level: Sor/Wiz 9

Components: V, S

Casting Time: 1 action

Range: 60 ft.

Effect: One glowing sphere/level

Duration: Until expended or 10 minutes/level

Saving Throw: None

Spell Resistance: No

You create multiple floating silvery spheres, each 6 inches in diameter.

These spheres appear in a spiral above your head or around your body and follow you up to 60 feet per round.

The spheres intercept incoming hostile magic, negating spells or spell-like abilities that would affect you or that have an effect that extends into your space.

One sphere is expended for each spell level of the effect negated, so a *slay living* spell (Clr 5) would expend five spheres.

In the case of area effect spells, it negates the whole spell. If not enough spheres exist to negate an incoming effect, the spheres remain and the effect works as normal.

You may move one or more spheres up to 60 feet as a standard action.

If not sent to another area, the spheres default to following you.

If you exceed their range, they remain behind and function normally at that location.

The spheres have no physical substance, do not provide cover or concealment, and conform to narrow spaces up to 6 inches in diameter without altering their ability to function.

They cannot pass through solid objects or force effects.

They cannot be harmed by physical or magical attacks except those that dispel or negate magic entirely (such as *dispel magic*, *antimagic field*, and so on).

FORCEWARD

Abjuration

Level: Clr 3 (Helm), Pal 3

Components: V, S, DF

Casting Time: 1 full round

Range: 10 ft.

Area: 10-ft.-radius emanation centered on you

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You create an unmoving, transparent sphere of force centered on your location.

The sphere illuminates its interior and everything within 5 feet of its edge.

You and your allies may enter the sphere at will.

Any other creature that tries to enter the sphere must make a Will saving throw, otherwise it cannot pass into the area defined by the sphere.

A creature may leave the area freely, although it must make a Will save to enter again, even if the creature is you or one of your allies.

Creatures within the area when the spell is cast are not forced out.

The *forceward* does not prevent spells or objects from entering the *forceward*, so it is possible for two creatures on opposite sides of the *forceward*'s edge to fight without penalties (although creatures using unarmed attacks or natural weapons still have to make Will saves every round for their attacks to have a chance of entering the *forceward*).

GLORY OF THE MARTYR

Abjuration

Level: Pal 4 (Ilmater)

Components: V, S, F, DF

Targets: One creature/level

As *shield other*, except as noted above.

All creatures are linked to you so you suffer half of their damage.

If you die while this spell is in effect, the spell ends in a burst of positive energy that heals 1d8 hit points for each creature linked to you.

GREATER IRONGUARD

Abjuration

Level: Sor/Wiz 7

Components: V, S, M, F

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You or a creature you touch is immune to nonmagical metal and magic metal with less than a +3 enhancement bonus.

Metal items pass through you, and you can walk through metal barriers such as iron bars.

Spells, spell-like abilities, and supernatural effects affect you normally.

If the spell expires while metal is inside you, the object is shunted out of your body (or you away from the metal, if it is an immovable object such as a set of iron bars).

You and the object each take 1d6 points of damage as a result (ignoring the object's hardness for determining damage to it).

Because you pass through metal, you may ignore armor bonuses from metal armor on opponents you attack with unarmed attacks.

Material Component: A tiny shield of wood, glass, or crystal.

Focus: A small nugget of adamantite worth 100 gp.

HAND OF TORM

Abjuration [see text]

Level: Clr 4 (Torm), Pal 4

Components: V, S, DF

Casting Time: 1 minute

Range: 10 ft.

Area: 10-ft.-radius emanation centered on you

Duration: 1 hour/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You create an immobile zone of warding that is permeable to those of your religion but repels all others.

The warded area has a shimmering visible border, above which is a ghostly image of a giant hand (the appearance of the hand depends upon your patron, so Torm's clerics have a shining metal gauntlet, while those of Bane have a black clawed metal gauntlet and those of Malar have a great beast's claw).

Creatures that have the same patron as you, or are wearing a holy symbol of your patron, can enter and move within the warded area unhindered.

Other creatures that try to enter or move within the area must make Fortitude saves or be stunned for 1 round.

If a creature's only action is to try to move completely out of the area, the ward does not hinder it.

Clerics and paladins of deities other than Torm name this spell after their own deity—*hand of Ilmater*, for example.

This spell has the alignment components of your patron, so if your patron is Torm, this is a lawful and good spell.

HOLY STAR

Abjuration

Level: Clr 7 (Mystra)

Components: V, S

Casting Time: 1 action

Range: Personal

Effect: Protective star of energy

Duration: 1 round/level (D)

You create a glowing mote of energy that stays near your shoulder, providing light equal to a candle.

It has three functions, and you can designate which function to activate as a free action on your turn.

Spell Turning: The *holy star* can turn four to seven (1d4+3) spell levels as the *spell turning* spell.

Any spell levels turned are gone for the remainder of the spell (the *holy star* does not recover these spent levels every time you choose this function).

If all spell levels are expended, this function no longer works but the other functions do.

Cover: The *holy star* gives you a +10 cover bonus to AC without affecting your actions.

Fire Bolt: The *holy star* lashes out with a beam of energy as a ranged touch attack against a creature up to 90 feet away, dealing fire damage equal to 1d4 points +1 point per two caster levels (maximum +10).

IRONGUTS

Abjuration

Level: Sor/Wiz 1

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

You make a creature more able to fight the effects of poison.

The target gains a +4 circumstance bonus on Fortitude saves against all kinds of poisons, whether injury, contact, ingestion, or inhalation is the source of the poison.

Material Component: A vial containing the diluted poison of four different creatures.

LAND WOMB

Abjuration

Level: Drd 4, Hth 4, Rgr 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: You and one other creature/level

Duration: 10 minutes/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You descend into a protective bubble in the earth below where you were standing.

Spectators around you see you descend into the ground as if the earth opened up and swallowed you.

You cannot enter the *land womb* through stone or rock, only through tillable soil.

The *land womb* holds you secure 10 feet below the surface.

Anyone in a *land womb* cannot be perceived by divination spells of 4th level or lower.

You may bring one additional creature per caster level with you into the *land womb*.

All creatures to be brought into the *land womb* must be touching each other (for instance, in a ring of hands).

You can breathe in the *land womb*, though the tightness of the space constricts you enough that you cannot cast spells with somatic components.

You can, however, speak to anyone who accompanied you.

You can no longer hear or see anything on the surface via nonmagical means.

You can end the spell at will, but those who are with you cannot.

At the end of the spell's duration, all within the *land womb* return to the spot where they stood before the spell took effect.

LOYAL VASSAL

Abjuration [Lawful]

Level: Pal 3 (Siamorphe)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Up to 1 willing creature/3 levels touched

Duration: 10 minutes/level (see text)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You protect the target against mind-affecting effects, giving all affected creatures a +3 sacred bonus on saving throws against such attacks.

The spell also prevents them from being magically compelled to harm you or anyone else affected by this spell.

Any attempt to make a subject do so (whether the originating effect occurred before or after this spell was cast) counts as a suicidal order, triggering appropriate responses and possibly ending the controlling spell.

If a subject willingly attempts to harm you, the spell is broken for that creature immediately.

The subjects gain the benefits of a *bless* spell as long as you are in sight of them.

MAW OF CHAOS

Abjuration [Chaotic]

Level: Sor/Wiz 9

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 15-ft.-radius emanation

Duration: 1 round/level

Saving Throw: Will half (see text)

Spell Resistance: Yes (see text)

You create a yawning area of roiling purple-red energy resembling a great mouth.

This field of energy has the following effects on anything that touches or enters it:

First, all creatures except you take 1 point of force damage per caster level.

Spell resistance applies to the damage (but not the other effects of the spell).

Those affected by the spell make a Will saving throw every round.

A successful saving throw halves the damage that round.

Second, the chaotic energy makes it difficult to concentrate.

Any activity that requires concentration (such as casting a spell or using a spell-like ability) requires a Concentration check (DC 25 + spell level) to succeed.

Creatures with the chaotic subtype take no damage from this spell, although its other effects affect them normally.

Material Component: A jawbone with teeth.

REVERSE ARROWS

Abjuration

Level: Sor/Wiz 3

Components: V, S, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level or until discharged

As *protection from arrows*, except that if any missile that strikes you has all its damage negated by your damage reduction (10/+1), the missile is turned back upon its target.

The attacker's attack roll is used to determine if the reversed ranged weapon strikes the attacker, but the damage is rerolled.

If the attacker is also protected by a *reverse arrows* spell, it is possible that the ranged weapon would bounce between them each round until one of the spells is discharged from accumulated damage.

The damage reduction increases with the caster level to 10/+2 at 10th, 10/+3 at 15th, and 10/+5 at 20th.

Once the spell has prevented a total of 10 points of damage per caster level (maximum 100 points), it is discharged.

Focus: A piece of shell from a tortoise, and a ball of tree sap.

ROSEMANTLE

Abjuration

Level: Clr 1 (Lathander)

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause the target to glow with a soft, faint, rosy radiance equal to candlelight.

This glow protects the target against effects that work by directly causing pain (such as *Nybor's gentle reminder*), nausea, and fear effects by granting a +1 sacred bonus per caster level (up to +10) on saving throws against those spells and effects.

The target also becomes temporarily immune to poison (as the *delay poison* spell).

This spell only suppresses these effects, not negates them, so the effects resume when this spell expires.

SAFE CLEARING

Abjuration

Level: Rgr 3

Components: V, S

Casting Time: 1 full round

Range: Touch

Area: 30-ft. radius spread

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes (object)

You make an area safe from attacks.

This spell functions much like the *sanctuary* spell.

Anyone attempting to strike or otherwise directly attack anyone within the *safe clearing*, or anyone attempting to enter the area, must make a Will save.

Success means the creature may act normally and is not affected by this casting of the spell.

Failure means it can't attack anyone in the area or even enter the area for the duration of the spell.

Those not attempting to attack the subject remain unaffected.

This spell does not prevent creatures in the warded area from being attacked or affected by area effect spells.

Those in the *safe clearing* (even those unaffected by the spell) cannot attack without breaking the spell, but may use nonattack spells or otherwise act.

Once the spell is cast, the area protected by *safe clearing* is immobile.

SPELL ENGINE

Abjuration

Level: Sor/Wiz 8

Components: V, S, M, XP

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 5-ft.-radius magical wheel

Duration: See text

Saving Throw: None

Spell Resistance: Yes (see text)

You create a disk of magical energy 10 feet in diameter and 2 feet thick.

The disk is incorporeal and invisible when first created.

Whenever a spell is cast or a spell-like ability is used within the 10-foot diameter of the *spell engine*, it activates, absorbs the magical energy, and begins to glow and spin, providing light as a torch.

The *spell engine* similarly absorbs most spell effects targeted at it.

It absorbs all these effects as if it were a *rod of absorption* with an unlimited capacity.

Over time (1 hour per spell level absorbed) the engine slows to a stop and becomes dim and translucent, but it remains capable of absorbing magical energy indefinitely.

If an activated *spell engine* comes in contact with any permanent (noncharged or single-use) magic item, it destroys the item and explodes for 1d6 points of force damage per caster level (maximum 20d6) to all creatures in range, destroying itself in the process.

Magic already in place when the *spell engine* is created (such as a *glyph of warding*) or carried into its area (such as an *invisibility* spell on a creature) are not absorbed unless they are somehow directed against the *spell engine* (such as an *antimagic field* pressed against it).

A *spell engine* absorbs any *dispel magic* spell directed at it.

A *detect magic* spell cast outside the *spell engine's* range detects it normally.

A *disintegrate* spell causes the *spell engine* to explode as if it had contacted a magic item.

Preparing spells within the light provided by a *spell engine* takes only half as long as normal.

Material Components: A disk of polished bone, one of your tears, and a silver wheel worth 1,000 gp.

XP Cost: 250 XP.

SPELL SHIELD

Abjuration

Level: Clr 2 (Mystra)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains a +3 resistance bonus on saving throws against spells and spell-like abilities (but not against supernatural and extraordinary abilities).

SPELLMANTLE

Abjuration

Level: Clr 6 (Mystra)

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You protect the subject with a magical aura that protects it against one specified spell for every four levels you have. The spells must be of 4th level or lower and not spells delivered by a touch attack.

When the subject of the *spellmantle* is the target of or within the area of one of the spells it protects against, the mantle absorbs the spell's energy completely.

The subject can then direct this energy to one of two purposes:

Healing: The target immediately receives a *cure* spell of the level of the spell that was absorbed.

The *cure* spell functions as if you had cast it upon the target. If the target is unconscious the spell automatically converts to a *cure* spell without her choice.

Receive Spell: The energy can immediately trigger a spell upon the target.

You designate the spell when you cast the *spellmantle*, and it must be a spell of 4th level or lower that you have prepared at the time of casting.

This does not cause you to lose the prepared spell.

If the level of the incoming spell is lower than that of your designated spell, the target cannot activate this affect.

Your designated spell functions as if you had cast it upon the target.

The duration of this triggered spell can outlast the *spellmantle* itself.

For example, you can designate *lightning bolt* as one of the spells the *spellmantle* absorbs and choose *magic circle against evil* to be the spell the subject receives, so every time she is in the area of a *lightning bolt* (or any of the other spells that you designate for this spell), she is immediately protected by *magic circle against evil*.

The *spellmantle* can absorb 1d4 spell levels +1 per four levels (maximum 1d4+5), after which it dissipates.

If the *spellmantle* lacks sufficient capacity to absorb a spell, the *spellmantle* has no effect.

STORM TOWER

Abjuration

Level: Drd 7

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Area: 100-ft.-tall, 20-ft.-radius spread

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

You form a tower of dark, swirling storm clouds that negates many forms of magic.

The *storm tower* absorbs any electricity damage dealt to those within it.

Magic missiles cannot be cast into, out of, or within the *storm tower*.

The *storm tower* is treated as 60 mph winds (making ranged attacks impossible within the tower), though it has no effect on the movement of creatures within it.

However, only Gargantuan or Colossal creatures can pass through the outer edge of the storm tower; all creatures of lesser size are checked at the edge.

Anyone within the *storm tower* has one-half concealment relative to those outside the tower.

The howling winds of the storm tower also apply a -10 penalty on all Listen checks within 50 feet of it (including all those inside).

STRATEGIC CHARGE

Abjuration

Level: Blk 1, Pal 1 (Red Knight)

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You gain the benefits of the Mobility feat, even if you do not meet the prerequisites.

You do not have to be charging to gain this benefit.

SUREFOOT

Abjuration

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

Your steps are sure and true, even on the narrowest ledges.

You gain a +10 competence bonus on Balance checks.

TORTOISE SHELL

Abjuration

Level: Drd 3

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Creates a 5-ft.-diameter mystic shell

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

You create a large hemispherical tortoise shell measuring 5 feet in diameter.

It has 100 hit points, hardness 10, and can float if turned on its back.

You can move it as if it weighed only 10 pounds.

To anyone else, it weighs 500 pounds.

It stands vertically on its own, providing up to nine-tenths cover from half the battlefield, or you can pull it down over yourself like a shelter.

You can change the shell's orientation as a standard action that doesn't incur an attack of opportunity.

Up to four Small creatures, two Medium-size creatures, or one Large creature can fit under (or in) the shell.

Focus: A whole turtle shell.

TRANSCRIBE SYMBOL

Abjuration

Level: Sor/Wiz 8

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Magical symbol touched

Duration: Until discharged or 10 minutes

Saving Throw: See text

Spell Resistance: See text

You place a protective magic upon your hand that allows you to touch an untriggered magic symbol such as a *glyph of warding* or a *symbol*.

The touched *symbol* is removed from its location and held as magical potential on your hand, like a touch spell.

To pick up the spell, you must make a caster level check (DC 20 + spell level).

Failure indicates the *glyph* or *symbol* has been triggered.

If successfully transferred, you can place the *symbol* on a surface (not a creature) appropriate to the stored spell as a standard action.

The transferred *symbol* works normally thereafter and retains all its original triggering conditions (although its current location may make its triggers difficult or impossible to achieve).

You can maintain the *symbol* in its potential state as long as you concentrate.

If your concentration lapses while the *symbol* is stored as potential, it immediately triggers upon you (and only you), even if you normally wouldn't meet the trigger conditions. Saving throw and spell resistance rolls are as for the original *symbol*.

The only safe way to rid yourself of the stored spell is to place it on a suitable surface.

Focus: A piece of slate that has been scoured bare and smooth on one side.

UNDEATH'S ETERNAL FOE

Abjuration [Good]

Level: Clr 9 (Lathander)

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature/5 levels

Duration: 1 round/level

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

You grant one or more creatures special abilities that allow them to effectively destroy undead.

All subjects receive *negative energy protection*, except that their roll to resist a negative energy attack has a +10 sacred bonus.

The subjects are also immune to special attacks by undead that involve ability damage, ability drain, disease or poison. Subjects can make melee and ranged attacks against ethereal or incorporeal undead as if they were using *ghost touch* weapons.

They also gain a +4 deflection bonus to AC against attacks by undead.

WALL OF CHAOS

Abjuration [Chaotic]

Level: Clr 4, Sor/Wiz 4 As *wall of good*, except that it is similar to *magic circle against law* instead of *magic circle against evil*.

WALL OF EVIL

Abjuration [Chaotic]

Level: Clr 4, Sor/Wiz 4

As *wall of good*, except that it is similar to *magic circle against good* instead of *magic circle against evil*.

WALL OF GOOD

Abjuration [Good]

Level: Clr 4, Sor/Wiz 4

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Wall whose area is up to one 10-ft. square/level or a sphere or hemisphere with a radius of up to 5 ft./2 caster levels

Spell Resistance: Yes (see text)

As *magic circle against evil* (see page 223 of the *Player's Handbook*), except as noted above and that the barrier is immobile and can be linear or spherical.

One side of the wall, selected by you, is the "hostile side". The wall only provides protection against evil attacks and blocks the movement of summoned or conjured evil creatures that cross from the hostile side to the nonhostile side.

Evil creatures that attack you from the nonhostile side of the wall do so without penalties, and evil summoned or conjured creatures can safely cross from the nonhostile side of the wall to the hostile side.

The *wall of good* must be continuous and unbroken when formed.

If it is cast so that an object or creature breaks its surface, the spell fails.

WALL OF LAW

Abjuration [Chaotic]

Level: Clr 4, Sor/Wiz 4

As *wall of good*, except that it is similar to *magic circle against chaos* instead of *magic circle against evil*.

WOUNDING WHISPERS

Abjuration [Sonic]

Level: Brd 3

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level (D)

Saving Throw: None

You surround yourself with whispers that injure any creature that comes into contact with you.

Any creature striking you with its body or handheld weapons suffers 1d6 points of sonic damage +1 point per caster level.

If a creature has spell resistance, it applies to this damage.

Weapons with exceptional reach, such as longswords, do not endanger their users in this way.

You cannot use this spell to deal damage to another target (for instance, with an unarmed attack or by forcing the whispers against a target). Only if another creature touches you does the spell deal damage.

CONJURATION

ACID SPLASH

Conjuration (Creation) [Acid]

Level: Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One missile of acid

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You fire a small orb of acid at the target.

You must succeed at a ranged touch attack to hit your target.

If you miss, there is no splash effect.

The spell deals 1d3 points of acid damage.

BLACK BLADE OF DISASTER

Conjuration (Creation)

Level: Sor/Wiz 9

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Sword-shaped planar rift

Duration: Concentration, up to 1 round/level

Saving Throw: None

Spell Resistance: Yes

You create a black blade-shaped planar rift about 3 feet long.

The blade strikes at any creature within its range, as you desire, starting on the round you cast the spell.

The blade makes a melee touch attack against its designated target once each round.

Its attack bonus is your base attack bonus plus your Intelligence bonus or your Charisma bonus (for wizards and sorcerers, respectively).

Anything hit by the blade takes 2d12 points of damage (bypassing the hardness of objects).

The blade threatens a critical hit on an 18–20 and is considered a +5 weapon for the purpose of bypassing damage reduction.

On a successful critical hit, the target suffers the effects of a *disintegrate* spell in addition to the normal damage from the blade.

It can pass through any magical barrier equal to or less than its spell level, but cannot penetrate dead magic areas or an *antimagic field*.

It can harm ethereal and incorporeal creatures as if it were a force effect.

The blade always strikes from your direction.

It does not get a flanking bonus or help a combatant get one.

If the blade exceeds its range or goes out of your line of sight, the spell ends.

You may direct the blade to attack another target as a standard action.

A *gate* spell can be used to counterspell a *black blade of disaster*.

A *dimensional anchor* spell cast at the blade dispels it automatically.

The blade cannot be harmed by physical attacks, but *dispel magic*, a *sphere of annihilation*, or a *rod of cancellation* can affect it.

Its touch attack AC is 13.

BOMBARDMENT

Conjuration (Creation)

Level: Drd 8

Components: V, S, F

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: 15-ft.-radius burst centered on spot

Duration: Instantaneous

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You cause a rain of rocks to fall from the sky, burying your opponents.

The spell deals 1d8 points of damage per caster level (maximum 10d8) and buries any target who fails his save.

Buried subjects suffocate (see Suffocation, page 88 of the *DUNGEON MASTER'S Guide*) until they climb from under the rocks (this is a full-round action).

A buried creature has nine-tenths cover and concealment.

Focus: A quartz crystal embedded in rock.

COCOON

Conjuration (Creation)

Level: Drd 8

Components: V, S, M, XP

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You cause silkworm threads to encase your target in a cocoon.

While in the cocoon, the subject is paralyzed.

Gradually, the cocoon leeches energy from the subject until he dies, at which point the cocoon grants powers to its holder.

Once per day, the subject receives one negative level.

If these levels become permanent, the cocoon “stores” the lost energy in its silk threads (up to 10 levels).

The cocoon has 100 hp and hardness 10.

Hacking it off the subject eventually breaks the subject free.

If the cocoon is not allowed to complete its draining of the subject, it becomes useless and conveys no benefits.

However, when the victim is reduced to zero levels, he dies and the cocoon falls off, shrinking to the size of a walnut.

You may then carry the cocoon and draw energy from it.

If carried, the shrunken cocoon grants you a +4 enhancement bonus to the victim's highest ability score (for instance, if the victim's highest ability score was

Wisdom, you would gain a +4 enhancement bonus to your Wisdom).

In the case of a tie, you may select which bonus you get.

If the victim had any ranks in a Knowledge skill, you gain an enhancement bonus on that skill check equal to the number of ranks possessed by the victim.

If the victim was a spellcaster, you gain one free spell slot of the highest spell level the victim could cast (even if those spells were of a different class or type than your own).

The cocoon grants these special powers for one day per level drained from the victim.

If the victim is restored to life before this duration ends, the cocoon immediately loses all powers.

Material Component: A silkworm cocoon.

XP Cost: 1,000 XP.

CORROSIVE GRASP

Conjuration (Creation) [Acid]

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Touch

Targets: Creature or creatures touched (up to one/level)

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

Your hand becomes coated with a thick layer of acid that does not harm you or your equipment.

A melee touch attack with this hand causes 1d6+1 points of acid damage.

You may use this melee touch attack up to one time/level.

If you grapple an opponent, you can deal this damage in addition to other damage you deal while grappling.

CRAWLING DARKNESS

Conjuration (Creation)

Level: Clr 5 (Shar)

Components: V, S, DF

Casting Time: 1 full round

Range: Personal

Target: Creature touched

Duration: 1 minute/level (D)

You bring into being a shroud of dark, writhing tentacles around your body.

The tentacles do not interfere with your movement or spellcasting, but they provide you one-half concealment (20% miss chance) and totally hide your features.

You get a +4 competence bonus on all grapple checks, Climb checks, and Escape Artist checks.

The *crawling darkness* automatically protects you with *feather fall* if you ever fall more than 3 feet and allows you to *water walk* at will.

CREATE CROSSROADS AND BACKROAD

Conjuration (Creation)

Level: Drd 7

Components: V, S, DF, XP

Casting Time: One day

Range: Touch

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You form two crossroads and a backroad that links them. The crossroads are vertical, rectangular areas of up to 50 square feet each.

You must have personally visited the end crossroads location in order to create the backroad.

The spell summons a crossroads guardian and establishes a crossroads at each end.

The crossroads guardians always start with a Helpful attitude toward their creator.

The procedure requires your complete dedication and attention for a full day, preparing and nurturing the site, typically naturalizing it and removing signs of civilization.

XP Cost: 3,500 XP.

DROWN

Conjuration (Creation)

Level: Drd 6

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You create water in the lungs of the subject, which begins to drown.

The subject immediately falls unconscious, dropping to 0 hp.

In the following round, it drops to -1 hit points and is dying.

In the following round, it dies.

(For details, see The Drowning Rule, page 85 of the *DUNGEON MASTER's Guide*).

Coughing and other attempts by the victim to physically expel the water are useless.

However, any time before death it can be stabilized with a Heal check (DC 15).

Undead, constructs, creatures who do not need to breathe, and creatures who can breathe water are unaffected by this spell.

FAITH HEALING

Conjuration (Healing)

Level: Blk 1, Clr 1, Pal 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Will half (harmless)

Spell Resistance: Yes (harmless)

When laying your hand upon a living creature, you channel positive energy that cures 8 points of damage +1 point per caster level (up to +5).

The spell only works on a creature with the same patron as you.

A target with no patron or a different patron than you is unaffected by the spell, even if the target would normally be harmed by positive energy.

FIRE SPIDERS

Conjuration (Summoning) [Fire]

Level: Sor/Wiz 6

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 240 fiery spiders that cover a 20-ft.-radius spread

Duration: 1 round/level

Saving Throw: Reflex half

Spell Resistance: Yes

You call forth a swarm of 240 fire elementals the size of common spiders.

The fire spiders each have 1/4 d8 HD (1 hp), speed 10 ft., climb 10 ft., and AC 18 (+8 size).

They distribute themselves evenly within the initial area of the spell (six creatures per 5-foot square), and after the first round they move as a swarm, seeking creatures and objects to attack and ignite.

The attacks by the fire spiders in a 5-foot-square area can be treated as an area attack by the group, inflicting fire damage equal to the number of spiders in that square (a Reflex saving throw halves the damage).

Unlike with a *creeping doom* spell, the fire spiders do not die after inflicting damage, and only disappear if they are slain, the spell duration expires, or they are somehow banished to their home plane.

Fire spiders can ignite flammable objects if they rest on one for 2 or more rounds.

As fire elementals, the fire spiders are immune to fire and are thwarted by barriers that block neutral outsiders.

Water or other nonflammable liquid (including acid) kills them, a flask destroying 2d4 fire spiders in a targeted 5-foot square and causing 1 point of splash damage to adjacent squares (killing one spider in each adjacent square).

If some of the creatures die, the swarm condenses, growing smaller in area, maintaining the density of six creatures per 5-foot area.

Thousands of years ago, the drow used this spell to set on fire a large portion of what is now the Border Forest, separating it further from the forest of Cormanthor.

Material Component: A handful of rubies or ruby dust worth at least 500 gp.

FORTUNATE FATE

Conjuration (Healing)

Level: Clr 7 (Tymora)

Components: V, S

Casting Time: 1 minute

Range: Touch

Target: Creature touched

Duration: 10 minutes/level or until discharged

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

You surround the subject with an aura that immediately heals her if she suffers an attack that would kill her (reduce her hit points to -10 or below).

When this event occurs, the *fortunate fate* spell intervenes by immediately triggering a *heal* spell upon the target.

If the attack is one that causes harm in a way that a *heal* spell can repair (disease, hit point damage, temporary ability damage, or poison), the target does not actually die, saved by the *heal*.

If the attack is one that *heal* cannot countermand (such as ability drain, old age, negative levels, *disintegration*, ability drain, or death effects), the *fortunate fate* spell cannot prevent her death.

If this spell is cast upon an undead creature, it uses a *harm* spell instead of *heal*.

IGEDRAZAAR'S MIASMA

Conjuration (Creation)

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 15-ft.-radius burst

Duration: 1 round

Saving Throw: Fortitude negates

Spell Resistance: Yes

You conjure a cloud of foul-looking gray fog.

The toxic fog deals 1d4 points of subdual damage/level (maximum 5d4).

Holding one's breath doesn't help.

Focus: Three polished gray stones.

MESTIL'S ACID BREATH

Conjuration (Creation) [Acid]

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You breathe forth a cone of acidic droplets.

The cone inflicts 1d6 points of acid damage per caster level (maximum 10d6).

Material Component: A handful of fire ants (alive or dead).

MESTIL'S ACID SHEATH

Conjuration (Creation) [Acid]

Level: Sor/Wiz 5

Components: V, S, M, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level (D)

You enclose yourself in a fluid sheath of acid that does not harm you.

You can breathe normally and cast spells while the *acid sheath* is present.

Any creature striking you with its body deals normal damage, but at the same time the attacker takes 1d6 points +2 points per caster level of acid damage.

Weapons with exceptional reach, such as longspears, do not endanger their users in this way.

The acid sheath does not protect you against other attack forms, such as fire.

Any creature you are riding automatically takes damage every round as if you were touching it with a *corrosive grasp*.

The mount tries to remove the source of pain, requiring a Ride check (DC 30) each round for you to remain mounted.

You may make melee touch attacks as if you were using a *corrosive grasp* spell.

A creature that swallows you does not take damage from this spell if its stomach inflicts acid damage.

Material Component: A handful of fire ants (alive or dead).

Focus: A glass sculpture of a humanoid.

MONSTROUS REGENERATION

Conjuration (Healing)

Level: Clr 5

Components: V, S

Range: Touch

Target: Living creature touched

Duration: 1 round/2 levels

Saving Throw: Will half (harmless)

Spell Resistance: Yes (harmless)

You give the target the regeneration ability that some monsters possess.

Attacks against the creature except fire and acid inflict subdual damage instead of lethal damage.

It heals subdual damage at a rate of 4 points per round.

A regenerating creature that has been rendered unconscious through subdual damage can be killed with a coup de grace.

The attack has to inflict fire or acid damage.

Attack forms that don't inflict hit point damage (for example, most poisons and disintegration) ignore regeneration.

Regeneration also does not restore hit points lost from starvation, thirst, or suffocation.

A regenerating creature can regrow lost portions of its body (although the spell duration is usually not long enough to allow this except for very small portions such as fingers) and can reattach severed limbs as a move-equivalent action. Severed parts that are not reattached wither and die normally.

When the spell ends, all the creature's subdual damage is converted to normal damage.

POISON VINES

Conjuration (Creation)

Level: Drd 7

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes As *vine mine*, but the vines you create are poisonous (contact, 1d6 Dex/2d6 Dex).

A successful Fortitude save is required only upon the first entry into the area of effect (and again 1 minute later); creatures don't have to save each time they enter (or each round they remain within).

You are immune to the poison of the vines you create, and you can select a number of other targets equal to your level to share this immunity.

REMEDY MODERATE WOUNDS

Conjuration (Healing)

Level: Clr 3, Drd 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 10 rounds +1 round/2 levels

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

When laying your hand upon a living creature, you boost its life energy to grant it the fast healing ability.

The target heals 2 hit points per round until the duration expires.

This spell does not restore hit points lost from starvation, thirst, or suffocation, and it does not allow a creature to regrow or attach lost body parts.

The effect of the spell automatically stabilizes a dying character.

The effects of multiple *remedy* spells do not stack; only the highest-level effect applies.

Applying a second *remedy* spell of equal level extends the spell's duration.

REVENANCE

Conjuration (Healing)

Level: Brd 5, Clr 4 (Jergal), Pal 4

Components: V, S, M, DF

Casting Time: 1 full round

Range: Touch

Target: Dead ally touched

Duration: 1 minute/level

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

You touch a recently slain ally and temporarily restore the character to life so he may continue to fight.

The target can have been dead for up to 1 round/caster level.

He functions as if a *raise dead* spell had been cast upon him, except that she does not lose a level and has half of his normal hit points.

He is alive (not undead) for the duration of the spell and can be healed normally, but dies as soon as the spell ends. While the subject is under this spell, he is not affected by *resurrection* or *raise dead*.

The target gains a +1 morale bonus on attacks, damage, saves, and checks against the creature that killed him.

Material Component: 500 gp of diamond dust sprinkled over the body.

SEEK ETERNAL REST

Conjuration (Healing)

Level: Pal 4 (Jergal)

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

You improve your ability to turn undead.

Your paladin level is treated as two levels higher for the purpose of turning or destroying undead.

SPECTRAL STAG

Conjuration (Creation)

Level: Clr 2 (Malar)

Components: V, S, DF

Casting Time: 1 action

Range: 0 ft.

Effect: One quasi-real staglike creature

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: Yes

You conjure a quasi-real, staglike creature.

The creature can either be directed to attack a target or simply carry you on its back.

When you cast the spell, you decide if you want the stag to appear next to you or form underneath you so you may ride it immediately.

The stag has a speed of 60 feet and can act as soon as it appears.

It moves as you direct.

Controlling the stag is a free action.

The stag can ride in the air as if it were firm land, as a *phantom steed* spell cast by a 12th-level caster.

It can bear its rider's weight plus up to 10 pounds per caster level.

The mount has an Armor Class of 18 (–1 size, +4 natural armor, +5 Dex) and 7 hit points +1 hit point per caster level. If it loses all its hit points, the *spectral stag* disappears.

If directed to attack a creature, the stag charges its target and initiates a bull rush.

The stag is Large and has Strength 18 for this purpose.

The stag cannot be attacked or damaged, but if you are riding it when it attempts a bull rush, the defender may use her attack of opportunity against you instead of against the stag.

If the bull rush fails, the stag (and you, if riding it) moves 5 feet straight back to where it was before it moved into the target's space.

If the bull rush succeeds, the stag moves the defender the maximum distance possible.

The defender also must make a Fortitude saving throw or be stunned for 1 round.

When the spell ends, the stag vanishes.

If you were riding the stag, you land safely on the ground.

STONEHOLD

Conjuration (Creation) [Earth]

Level: Drd 6

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: One 10-ft. square/level

Duration: 1 day/level

Saving Throw: See below

Spell Resistance: Yes (object)

This spell conjures thick, stony arms that spring forth from a rock or stone formation whenever anyone passes near it. Each 10-foot square in the spell's area contains one stone arm.

The arms attempt to grapple any creature that enters their area.

Each arm has a Strength of 20 and a base attack bonus of +1/caster level (plus Strength bonus).

The arms are Medium-size.

Once an arm has grappled a target, it automatically inflicts 1d6+5 points of damage per round.

An arm maintains its grapple until the subject escapes, even holding a victim long after death.

Each arm has 1 hp/caster level, AC 18, and hardness 8, and saves as the caster.

Before they attack, the arms remain beneath the surface of the stone.

They may be discovered (but not disarmed) as a magic trap.

SUMMON UNDEAD I

Conjuration (Summoning) [see text]

Level: Sor/Wiz 1

Components: V, S, F

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

As *summon monster* I, except that you summon an undead creature.

The spell conjures one of the creatures from the 1st-level list on the *Summon Undead* table below.

You choose which creature to summon, and you can change that choice each time you cast the spell.

Summoned undead do not count toward your total Hit Dice of undead you can control with *animate dead* or clerical negative energy.

When you use a summoning spell to summon an air, chaotic, earth, evil, fire, good, lawful, or water creature, it is a spell of that type.

Focus: A tiny bag, a small (not lit) candle, and a carved bone from any humanoid.

SUMMON UNDEAD II

Conjuration (Summoning)

Level: Sor/Wiz 2

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead* I, except that you can summon one undead from the 2nd-level list or 1d3 undead of the same type from the 1st-level list.

SUMMON UNDEAD III

Conjuration (Summoning)

Level: Sor/Wiz 3

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead* I, except that you can summon one undead from the 3rd-level list, 1d3 undead of the same type from the 2nd-level list, or 1d4+1 undead of the same type from the 1st-level list.

SUMMON UNDEAD IV

Conjuration (Summoning)

Level: Sor/Wiz 4

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead* I, except that you can summon one undead from the 4th-level list, 1d3 undead of the same type from the 3rd-level list, or 1d4+1 undead of the same type from a lower-level list.

SUMMON UNDEAD V

Conjuration (Summoning)

Level: Sor/Wiz 5

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

As *summon undead I*, except that you can summon one undead from the 5th-level list, 1d3 undead of the same type from the 4th-level list, or 1d4+1 undead of the same type from a lower-level list.

SUMMON UNDEAD

1st Level

Medium-size skeleton

Small zombie

2nd Level

Medium-size zombie

Large skeleton

3rd Level

Large zombie

Ghoul

Huge skeleton

4th Level

Allip

Ghast

Huge zombie

5th Level

Mummy

Shadow

Wight

Vampire spawn

VINE MINE

Conjuration (Creation)

Level: Drd 5

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Spread of 10-ft. radius/level

Duration: 10 minutes/level

Saving Throw: See text

Spell Resistance: Yes

You create and direct the rapid growth of vines, creating a variety of effects.

When you cast the spell, choose one of the following effects:

- *entangle* (as the spell)
- climbing aid (treat as knotted ropes)
- bind helpless targets (DC 25 to escape)
- hamper movement (as heavy undergrowth)
- camouflage (add +4 competence bonus on Hide checks)

As a standard action, you may redirect the vines' growth (thus changing the effect).

Material Component: A crown of ivy leaves.

VIPERGOUT

Conjuration (Summoning) [see text]

Level: Sor/Wiz 7

Components: V, S, M

Casting Time: 1 action

Range: Personal

Effect: 1d4+3 summoned creatures

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

This spell summons 1d4+3 fiendish (CE) or celestial (CG) Medium-size vipers (snakes), which leap forth from your mouth to attack your enemies.

Starting on the round you complete the spell, you may spit forth vipers until you reach the number summoned by the spell.

You may spit three vipers as a standard action or one viper as a move-equivalent action.

Spat vipers land at your feet and act on your turn just as creatures summoned by a *summon monster* spell.

Until you have brought forth all the snakes summoned by the spell, you cannot speak, cast spells with verbal components, or activate items that require speech.

The snakes are not actually present in your mouth, and do not interfere with your breathing.

At the end of the spell, all the vipers disappear, and any not brought forth are lost.

When you use a summoning spell to summon an evil or good creature, it is a spell of that type.

Material Component: A snakeskin.

VIPERS

➤ **Fiendish Viper:** CR 1; Medium-size outsider; HD 2d8; hp 9; Init +3; Spd 20 ft., climb 20 ft., swim 20 ft.; AC 16 (touch 13, flat-footed 13); Atk ++ melee (1d4+1 and poison, bite); SA Poison, smite good; SQ Scent, darkvision 60 ft., cold and fire resistance 5, SR 4; SV Fort +3, Ref +6, Will +1; Str 8, Dex 17, Con 11, Int 3, Wis 12, Cha 2.

Skills and Feats: Balance +11, Climb +11, Hide +12, Listen +9, Spot +9; Weapon Finesse (bite).

Poison (Ex): Bite, Fort save DC 11; 1d6 Con/1d6 Con.

Smite Good (Su): Once per day the fiendish viper can deal +2 damage against a good foe.

➤ **Celestial Viper:** CR 1; Medium-size outsider; HD 2d8; hp 9; Init +3; Spd 20 ft., climb 20 ft., swim 20 ft.; AC 16 (touch 13, flat-footed 13); Atk +4 melee (1d4+1 and poison, bite); SA Poison, smite evil; SQ Scent, darkvision 60 ft., acid, cold, and electricity resistance 5, SR 4; SV Fort +3, Ref +6, Will +1; Str 8, Dex 17, Con 11, Int 3, Wis 12, Cha 2.

Skills and Feats: Balance +11, Climb +11, Hide +12, Listen +9, Spot +9; Weapon Finesse (bite).

Poison (Ex): Injury, Fort save DC 11; 1d6 Con/1d6 Con.

Smite Evil (Su): Once per day the celestial viper can deal +2 damage against an evil foe.

ZAJIMARN'S AVALANCHE

Conjuration (Creation) [Cold]

Level: Sor/Wiz 9

Components: V, S

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: One 10-ft. square/level (S)

Duration: Instantaneous

Saving Throw: Reflex partial

Spell Resistance: Yes

You conjure a sweeping wave of ice, snow, and slush that washes away everything in its path.

Everything in the initial area of the spell takes 1d4 points of cold damage per caster level (maximum 25d4).

Creatures on foot and objects in the initial area must make Reflex saves or be carried along by the wave for 5 feet per caster level.

The forced movement does not harm the targets except to leave them prone.

Dead-end corridors and similar obstacles prevent the avalanche from moving creatures any farther.

The avalanche counts as a water attack for the purpose of extinguishing normal fires.

DIVINATION

CIRCLE DANCE

Divination

Level: Brd 2, Clr 3, Drd 3

Components: V, S

Casting Time: 1 minute

Range: Personal

Duration: Instantaneous

You divine the relative direction and condition of another individual.

During the casting of the spell, you think of your target as you do a spinning dance around the compass.

You must have firsthand knowledge of your target for the spell to function.

If the target is alive and on the same plane as you, the spell leaves you facing in the direction of your target.

You also get an impression of the target's physical and emotional conditions (unharmed, wounded, unconscious, dying, and so on).

If the target is on a different plane or dead, you feel nothing.

DETECT CROSSROADS

Divination

Level: Brd 0, Drd 0

Components: V, S

Casting Time: 1 action

Range: 60 ft. or 1 mile (see text)

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration up to 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You can see fey crossroads within 60 feet, if your visibility isn't blocked.

A crossroads appears to you as a blue-hued, x-shaped shadow upon the ground.

You recognize the crossroads for what it is, and won't be fooled by a false or illusory one.

Detect crossroads gives you no information on where the backroad leads.

If the nearest crossroads is less than a mile away, but blocked visually from you either by distance or barriers, you can still sense its general direction.

Each round, you can turn to detect in a new direction.

See the previous chapter for more on crossroads.

ECHO SKULL

Divination

Level: Drd 5

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Animal skull touched

Duration: 1 hour/level (D)

Saving Throw: None

Spell Resistance: Yes (object)

You can see, hear, and speak through a specific dried animal skull at any distance.

As long as you and the skull remain on the same plane, you can see and hear as if you were standing where it is, and during your turn you can switch your perception from its location to your own or back again as a free action.

If you desire, any spell you cast whose range is greater than touch (and which does not require a material component or focus) can originate from the skull instead of from you.

If the skull is destroyed, the spell ends.

Casting a spell through the skull costs 10 XP per spell level.

Focus: A dried animal skull.

GHOSTHARP

Divination

Level: Brd 0

Components: V, S

Casting Time: 1 minute

Range: Touch

Target: Any object

Duration: 5 minutes/level (D)

You prepare an object that records and replays a song previously played or sung in its vicinity.

When cast, the spell searches a radius of 50 feet for the lingering notes of a tune played there within the last day.

It records these notes and reverberations.

If multiple songs have been played at that spot, *ghostharp* recalls the song most recently played, starting with the beginning of the piece recalled.

At your verbal command, "Play", the *ghostharp* replays the music.

The tune repeats until you command it to stop, or until the spell's duration comes to an end.

The *ghostharp* does not record conversations.

Its imperfect replay can't reproduce bardic music or other magical effects, nor can it cast spells.

KNOW GREATEST ENEMY

Divination

Level: Blk 3, Pal 3 (Savras)

Components: V, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 round/level

Saving Throw: None (see text)

Spell Resistance: Yes

This spell evaluates the creatures in the area and determines the relative power level of each.

Creatures are evaluated as follows:

CR	Strength
4 or less	Weak
5–10	Moderate
11–15	Strong
16+	Overwhelming

Among creatures within the same category, you know which is the most powerful, but not why.

For example, among a group of ogres (CR 2), you would know one of them (an ogre with 2 levels of barbarian, CR 4) was the most powerful, but not know if it was because the ogre had class levels, because of a template (such as half-fiendish), or for other reasons.

Any spell of 3rd level or higher that prevents scrying attempts on a creature (such as *nondetection*) or area (such as *false vision*) thwarts this spell's ability to evaluate that creature or creatures within that area.

KNOW PROTECTIONS

Divination

Level: Brd 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You learn many of the unusual defenses the target creature has.

The spell tells you the creature's damage reduction, spell resistance, and any resistances or immunity to energy attacks.

For example, if cast upon a vampire, you learn that it has damage reduction 15/+1, and cold and electricity resistance 20; you do not learn about its fast healing or turn resistance. If cast upon a pit fiend, you learn that it has damage reduction 25/+2, spell resistance 28, is immune to fire, and has acid and cold resistance 20; it does not tell you any of its other defenses, such as fast healing or immunity to poison.

KNOW VULNERABILITIES

Divination

Level: Brd 4, Clr 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You learn any vulnerabilities and resistances the target creature has.

Vulnerabilities include anything that causes the creature more than the normal amount of damage (such as a creature with the cold subtype taking double damage from fire or a crystalline creature's vulnerability to the *shatter* spell).

Resistances include any effects that reduce or negate damage the creature takes and immunities to particular attacks.

The spell identifies resistances and vulnerabilities granted by spell effects.

For example, if cast upon an iron golem, you learn that it has all the construct defenses, damage reduction 50/+3, is *slowed* instead of damaged by electricity, is healed instead of damaged by fire, and is vulnerable to rust attacks.

If cast upon a balor, you learn that it has damage reduction 30/+3, spell resistance 28, is immune to poison and electricity, has acid, cold, and fire resistance 20, and does not have any particular vulnerabilities.

LIVING PRINTS

Divination

Level: Hrp 3, Rgr 3

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 hour/level

You perceive tracks as if they had just been made.

You must notice the prints normally with a successful Search or Wilderness Lore check, but this spell eliminates any penalties to your tracking due to the passage of time or any rainfall since the making of the trail.

This spell has no effect on tracks more than thirty days old.

SHARE HUSK

Divination

Level: Drd 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Animal touched

Duration: Concentration

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

You sense through an animal's senses, seeing through its eyes, smelling through its nose, and hearing through its ears.

You use the animal's Listen and Spot skill modifiers instead of your own.

This spell gives you no special ability to understand what you sense.
You can switch your perceptions between the animal and your own on your turn as a free action.
You and the animal must be on the same plane for the spell to function.
Material Component: An edible treat that would appeal to the animal (vegetable or meat).

SPEECHLINK

Divination
Level: Brd 4
Components: V, S
Casting Time: 1 action
Range: Touch
Targets: You and one creature touched
Duration: 10 minutes/level (D)
Saving Throw: None
Spell Resistance: No

You and a willing target can communicate no matter how much distance you put between yourselves on the same plane.
Either participant may end the spell at any time.
Speechlink allows each listener to hear only the other's vocalizations, though they may be of any volume.
It does not transfer sounds from the other participant's location.
This spell works on any creature, including animals, but does not convey any special language comprehension abilities.

UNDERSTAND DEVICE

Divination
Level: Clr 3 (Gond)
Components: V, S
Casting Time: 1 action
Range: Close (25 ft. + 5 ft./2 levels)
Target: You
Duration: 1 minute/level
You gain an intuitive insight into the weaknesses and flaws of mechanical objects.
You can make untrained Disable Device checks as if you had a half rank in that skill.
If you already have the Disable Device skill, this spell gives you a +4 competence bonus on Disable Device checks.

VISION OF GLORY

Divination
Level: Clr 1, Pal 1
Components: V, S, DF
Casting Time: 1 action
Range: Touch
Target: Creature touched
Duration: 1 minute or until discharged
Saving Throw: None
Spell Resistance: Yes
You give the subject creature a brief vision of a divine entity giving it support and inspiring it to continue.
The creature gets a +1 morale bonus on a single saving throw.

It must choose to use the bonus before making the roll to which it applies.

WIELDSKILL

Divination
Level: Clr 1 (Gond)
Components: V, S
Casting Time: 1 action
Range: Touch
Target: Creature touched
Duration: 1 minute/level
Saving Throw: None
Spell Resistance: Yes
This spell imbues the subject with a touch of divine guidance.
The subject gains a +10 competence bonus on a skill check of your choice.
If the target has no ranks in the skill, she functions as if she had a half rank in the skill, and therefore is considered trained in the skill (although this half rank adds nothing to her rolls with that skill).
Alternatively, the target gains proficiency with a single weapon (simple, martial, or exotic) or type of armor (light, medium, heavy, or shield) as if she had the appropriate feat.

ENCHANTMENT

CELEBRATION

Enchantment (Compulsion) [Mind-Affecting, Sonic]
Level: Brd 4
Components: V, S
Casting Time: 1 action
Range: Close (25 ft. + 5 ft./2 levels)
Area: 15-ft.-radius burst
Duration: Instantaneous
Saving Throw: Will negates
Spell Resistance: Yes
You cause any creatures in the area to feel increasingly more intoxicated the longer you perform a drinking song. You must perform for at least 1 full round to produce the first effects of the *celebration* spell.
After that, each full round you perform increases the subject's intoxication, as described in the table below. A subject does not need to remain within the area, but those entering the area after the casting of the spell are not affected.
Your targets receive only one saving throw at the onset of the spell.
The effects last for the duration of your performance. If you stop performing, the effects do not worsen and fade after 1 round per caster level.

Round	Effect
1	None
2	-2 enhancement penalty to Dex, Int, and Wis
3	Nauseated
4	Helpless

HARMONY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: Variable (see below)

When you play your instrument, sing your song, recite your epic poem, or speak your words of encouragement, you fill your allies with greater confidence than normal. When under the effect of this spell, you grant a +4 morale bonus on saving throws against charm and fear effects and a +2 morale bonus on attack and damage rolls when you use your inspire courage bardic ability.

The effect lasts as long as the effect of your inspire courage lasts.

If you don't begin to inspire courage within 1 minute of casting this spell, the effects of *harmony* end.

HAUNTING TUNE

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 3

Components: V, S

Casting Time: 1 full round

Range: Medium (100 ft. + 10 ft./level)

Area: 1 target/level

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

Your song or poem causes a deep depression in intelligent creatures.

Any creature with Intelligence 10 or higher is shaken (-2 morale penalty on attack rolls, damage rolls, and saving throws).

HERALD'S CALL

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 1, Hrp 1

Components: V, S

Casting Time: 1 action

Range: 30 ft.

Area: 30-ft.-radius burst centered on you

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

You produce a crowd-stopping shout that holds an air of authority others find difficult to ignore.

The spell affects only those creatures that have 5 HD or less.

Anyone affected is dazed for 1 round.

Creatures beyond the radius of the burst may hear the shout, but don't become dazed.

NIGHTMARE LULLABY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 2

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Targets: One creature

Duration: Concentration + 2 rounds

Saving Throw: Will negates

Spell Resistance: Yes

You put your target into a surreal, sleepwalking state.

The target must make a Will saving throw or become *confused*, thinking she has entered a nightmare.

NYBOR'S GENTLE REMINDER

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 1 (Red Wizard)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 2 rounds

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell was quite popular with slave overseers and those wishing to make their servants work a little faster.

The Red Wizards now employ it mainly as a combat spell.

The subject receives a sharp, agonizing pain, which makes him dazed (no actions, but can defend against attacks normally) for 1 round.

The subject suffers a -1 penalty on attacks, saving throws, and most checks while the spell lasts; however, the subject also receives a +2 circumstance bonus to Strength.

Focus: A stick at least 1 foot long.

NYBOR'S MILD ADMONISHMENT

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 3 (Red Wizard)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

This improvement on *Nybor's gentle reminder* causes intense pain in the subject.

The subject is dazed for 1d4 rounds and suffers a -2 penalty on attacks, saving throws, and most checks while the spell

lasts; however, the subject also receives a +2 circumstance bonus to Strength.

Focus: A pointed stick at least 1 foot long.

NYBOR'S STERN REPROOF

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 7 (Red Wizard)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes

This spell causes stabbing pains even greater than those of *Nybor's gentle reminder* and *Nybor's mild admonishment*. The target creature must make a Fortitude save or die instantly.

A surviving creature receives a Will save to avoid further effects.

Subjects failing the Will save are dazed for 1d4 rounds and suffer a -2 penalty on attacks, saving throws, and most checks while the spell lasts; however, the subject also receives a +2 circumstance bonus to Strength.

Focus: A pointed metal rod at least 1 foot long.

NYBOR'S WRATHFUL CASTIGATION

Enchantment (Compulsion) [Mind-Affecting]

Level: Sor/Wiz 8 (Red Wizard)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes

Nybor's wrathful castigation is an even more potent version of *Nybor's stern reproof*.

It causes wracking pain and violent convulsions.

The target creature must make a Fortitude save or die instantly.

A surviving creature receives a Will save to avoid further effects.

Subjects failing the Will save are dazed and suffer a -4 penalty on saving throws for the duration of the spell.

Focus: A whip.

PUPPETEER

Enchantment (Compulsion)

Level: Brd 3

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You force your subject to mimic your actions.

Your subject matches your motions exactly, though she suffers a -4 penalty to Dexterity and Strength.

She looks awkward, and her actions aren't as effective as if she were actually doing them herself.

You can make the subject commit a suicidal act, but she receives another Will save to break the spell.

If successful, she collapses, helpless in a comatose state, for 1d4 rounds.

Controlling the subject requires concentration.

If your concentration is ever interrupted, you may resume control of the subject as a free action on your turn.

Anyone observing the subject of this spell can determine that the subject's actions are being controlled with a Sense Motive check (DC 15, or DC 10 if the controlling bard is also visible).

This spell doesn't grant the subject extraordinary, supernatural, spell-like abilities, or spellcasting abilities, even if you have and use such abilities during the spell's duration.

WAR CRY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Brd 4

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Will negates (see text)

Spell Resistance: Yes (see text)

You attack with a war cry that bolsters your own courage as well as intimidating your enemies.

As a result of this spell, you gain a +2 morale bonus on attacks and damage, or a +4 morale bonus on attacks and damage made as part of a charge attack.

Any opponent you attack in melee must make a Will save or become panicked.

Once the target makes a successful saving throw against this effect, it cannot be affected by your *war cry* for one day.

EVOCATION

ACID STORM

Evocation [Acid]

Level: Sor/Wiz 6

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (20-ft. radius, 20 ft. high)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You cause acid to rain downward.

The acid deals 1d6 points of acid damage per caster level (maximum 15d6).

Focus: A flask of acid.

BALL LIGHTNING

Evocation [Electricity]

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: One or more balls of lightning, up to 1/level

Duration: 1 round/level

Saving Throw: Reflex half

Spell Resistance: Yes

You create several balls of lightning that shed light as candles and move under your control.

Your caster level is the total number of dice of damage (d6) that you can deal with this spell (maximum 15d6), divided however you see fit among the ball lightning.

For example, a 9th-level caster could create nine balls of lightning (each dealing 1d6 points of electrical damage), or three balls of lightning (two dealing 2d6 and one dealing 5d6), and so on.

You may direct any number of lightning balls to strike one target at a time.

Each affects only one target and is not destroyed when it does so.

Targets get a Reflex save against each ball that strikes them. You must have line of sight and line of effect to direct the balls.

Directing the balls is a free action on the round the spell is cast and a standard action on any other round.

The lightning balls can move up to 100 feet per round.

A ball dissipates if the distance between you and it exceeds the spell's range.

Material Component: A handful of copper and iron pellets.

BATTERING RAM

Evocation [Force]

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One object or creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You create a ramlike force that can strike with considerable power.

Similar to a *ring of the ram*, the force can target a creature or an object.

The force deals 1d6 hit points of damage to the target.

If the target is a creature, this attack initiates a bull rush.

(The force is considered a Large creature with Strength 25 for this purpose).

If the target is a movable object such as a door, the caster can make a Strength check (using the Strength of the *battering ram*) to attempt to open the door.

Focus: A piece of carved ram's horn.

BINDING WINDS

Evocation

Level: Drd 5

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Concentration

Saving Throw: Reflex negates

Spell Resistance: Yes

You create a flurry of air to encircle and hold your target.

The *binding winds* do not move.

They become a physical barrier surrounding the subject. The target may act normally, except that she cannot move from her current location.

The winds carry her voice away, so she can speak but will not be heard, and she cannot hear anything but the roar of the winds.

Furthermore, no sonic or language-dependent spells or effects may be cast into or out of the binding winds (though spells cast by the caster upon himself function normally). Ranged attacks made into or out of the *binding winds* suffer a -2 penalty.

Binding winds hold flying creatures in midair.

CACOPHONIC SHIELD

Evocation [Sonic]

Level: Brd 6, Sor/Wiz 6

Components: V, S

Casting Time: 1 action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 1 minute/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

You create an immobile barrier of sonic energy at a distance of 10 feet from yourself.

Creatures on either side of the barrier hear it as a loud but harmless buzzing.

Nonmagical sound (including sound produced by a thunderstone) does not cross the barrier.

If a sonic effect impinges upon the barrier, you get to make a caster level check (1d20 + caster level) against the DC of the effect to prevent it from affecting anyone inside the barrier.

A creature that crosses the barrier takes 1d6 points of sonic damage plus 1 point per caster level (maximum +20) and must make a Fortitude save or be deafened for 1 minute.

The sonic vibrations provide a 20% miss chance for any missiles crossing the barrier in either direction.

CLOUD OF BEWILDERMENT

Evocation

Level: Brd 2, Sor/Wiz 2

Components: V, S

Casting Time: 1 action

Range: 10 ft.

Area: Cone

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You breathe out an invisible cloud of noxious air.

Anyone in the area is stunned and blinded for 1d6 rounds.

A moderate wind (11+ mph) disperses the cloud in 4 rounds; a strong wind (21+ mph) disperses the fog in 1 round.

CLOUDBURST

Evocation (Water)

Level: Drd 2

Components: V, S

Casting Time: 1 round

Range: Long (400 ft. + 40 ft./level)

Area: 100-ft.-radius emanation

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You cause clouds to gather and a heavy rain to fall.

The rain reduces visibility ranges by half, resulting in a -4 penalty on Spot and Search checks.

It automatically extinguishes unprotected flames, and has a 50% chance of extinguishing protected flames.

Ranged weapon attacks and Listen checks are at a -4 penalty.

This spell does not function indoors, underground, underwater, or in desert climates.

After the spell ends, the water created evaporates over the next 10 minutes.

The water created with this spell does not slake thirst or provide any nourishment to plants.

COMBUST

Evocation [Fire]

Level: Sor/Wiz 2 (Red Wizard)

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Touched creature or combustible object that weighs no more than 25 lb./level

Duration: Instantaneous (see text)

Saving Throw: Reflex partial

Spell Resistance: Yes

This spell makes a combustible object or a creature's combustible equipment burst into flame, even if damp.

If the target is a creature, the initial eruption of flame causes 2d6 points of fire damage +1 point per caster level (maximum +10) with no saving throw.

Further, the creature must make a Reflex save (DC 15) or catch fire.

(For details, see *Catching on Fire*, page 86 of the *DUNGEON MASTER's Guide*).

If the target is a combustible, unattended object, the initial eruption of flame inflicts fire damage on the object as noted above.

The object catches fire and takes 1d6 points of fire damage each round until consumed or someone puts out the fire.

Anyone touching the object during the initial eruption of flame takes the same fire damage the object does.

A Reflex save reduces damage by half.

If a creature touching the object fails the Reflex save, it must make another Reflex save (DC 15) to avoid catching fire.

Material Component: A drop of oil and a piece of flint.

DARKFIRE

Evocation [Fire]

Level: Clr 3 (drow pantheon)

Components: V, S

Casting Time: 1 action

Range: 0 ft.

Effect: Flame in your palm

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

Dark flames appear in your hand.

You can hurl them or use them to touch enemies.

The flames appear in your open hand and harm neither you nor your equipment.

They emit no light but produce the same amount of heat as an actual fire.

You can strike opponents with a melee touch attack, dealing fire damage equal to 1d4+1 points per two caster levels (maximum +10).

Alternatively, you can hurl the flames up to 120 feet as a thrown weapon.

When doing so, you attack with a ranged touch attack (with no range penalty) and deal the same damage as with the melee attack.

No sooner do you hurl the flames than a new set appears in your hand.

The *darkfire* is invisible to normal vision but can be seen with darkvision as easily as a normal flame can be seen in darkness (this means that *darkfire* can be used as a signal or beacon for creatures with darkvision).

The spell does not function underwater.

DIRGE

Evocation [Sonic]

Level: Brd 6

Components: V, S

Casting Time: 1 full round

Range: 50 ft.

Area: All enemies within a 50-ft.-radius burst centered on you

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your song draws the energies of death and destruction down on your enemies.

Each round, any enemy in the area suffers 2 points of temporary Strength and Dexterity damage.

A successful saving throw only negates that round's affect; a new saving throw is required each round to avoid that round's damage.

ELECTRIC JOLT

Evocation [Electricity]

Level: Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature or object

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You release a small stroke of electrical energy.

You must make a ranged touch attack to deal damage to a target.

The spell deals 1d3 points of electricity damage.

EXPLOSIVE CASCADE

Evocation [Fire]

Level: Sor/Wiz 4

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One 5-ft.-square/level, all of which must be connected in one continuous path (S)

Effect: 1-ft.-radius sphere

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You cause a bright ball of flame to bound and skip across the battlefield, damaging targets within its area.

The area is the path of the flame, and it deals 1d6 hit points of fire damage per caster level (maximum 10d6) to all creatures and objects within its area.

The flame lights up the area as if it were a torch.

Small sparks and decaying flames remain in the area for 1 round, shedding light as candles but dealing no damage.

If the damage from the flame destroys an interposing barrier, the flame can move beyond the barrier if it has not reached its maximum area.

Material Component: Bat guano, sulfur, and copper packed into a metal tube with one closed end.

FIREBRAND

Evocation [Fire]

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: One 5-ft.-radius burst/level (S)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You create up to one mass of flame per level to explode upon the battlefield.

Each mass of flame is treated as a 5-foot-radius burst and deals 1d6 points of fire damage/level (maximum 15d6) to all creatures within the area.

The bursts do not need to be contiguous, and may be distributed within range as you see fit.

Burst effects that overlap do not inflict additional damage.

Material Component: A flask of alchemist's fire.

FLAME DAGGER

Evocation [Fire]

Level: Hth 2, Sor/Wiz 2 (Red Wizard)

Components: V, S, M

Casting Time: 1 action

Range: 0 ft.

Effect: A daggerlike beam

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

A 1-foot-long, blazing beam of red-hot fire springs forth from your hand.

You wield this bladelike beam as if it were a dagger.

Attacks with the *flame dagger* are melee touch attacks, and the blade deals 1d4 points of fire damage plus 1 point per caster level (to a maximum of +10).

Because the blade is immaterial, your Strength modifier does not apply to the damage.

The flame dagger can ignite combustible materials such as parchment, straw, dry sticks, cloth, and so on.

This spell does not function underwater.

Material Component: A candle, not necessarily lit.

FORCE LADDER

Evocation [Force]

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One ladder of force up to 60 ft. long

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: No

You create a transparent ladder made of force.

The ladder is two feet wide and anywhere from 10 to 60 feet long, with rungs spaced 1 foot apart.

The ladder functions as a normal ladder.

Because it is a force object, it can block or be used as a weapon against incorporeal or ethereal creatures (although they normally can move through the walls or floor to go around the ladder if used as a barricade, and only creatures capable of wielding a 10-foot-long or larger weapon could use the ladder offensively against such a creature).

The ladder weighs 1 pound and can support 100 pounds of weight per caster level.

It can be destroyed by anything that destroys a *wall of force*.

Focus: A miniature silver ladder.

FORCEWAVE

Evocation [Force]

Level: Sor/Wiz 1

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Wave of force affecting one creature

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You cause a wave of visible force resembling a crashing ocean wave to appear and immediately impact a single target.

If the target fails its saving throw, it takes 1d4+1 hit points of damage and must make an opposed Strength check to avoid a bull rush.

The wave of force has Strength 18, is Medium-size, and is considered charging for the purpose of this check, and always moves the target the maximum distance possible. If the wave of force fails the opposed Strength check, the target is not moved.

If the target makes its saving throw, it takes 1 hit point of damage and avoids the bull rush attempt.

Focus: A small piece of string and a drop of water.

GEDLEE'S ELECTRIC LOOP

Evocation [Electricity]

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 5-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You create a small stroke of lightning that cycles through all creatures in the area.

The spell deals 1d6 points of electricity damage per two caster levels (maximum 5d6).

Those who fail their Reflex saves must succeed at a Will save or be stunned for 1 round.

Material Component: A loop of copper wire and a magnet.

GREAT THUNDERCLAP

Evocation [Sonic]

Level: Sor/Wiz 7

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 5-ft./level-radius spread

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: No

You create a loud noise equivalent to a peal of thunder and its accompanying shock wave.

The spell has three effects.

First, all creatures in the area must make Will saves to avoid being stunned for 1 round.

Second, the creatures must make Fortitude saves or be deafened for 1 minute.

Third, they must make Reflex saves or fall prone.

Focus: An iron bell.

HAND OF DIVINITY

Evocation [see text]

Level: Blk 2, Clr 2, Pal 2

Components: V, S, DF

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless) (see text)

Spell Resistance: Yes

You give the subject a protective aura of divine energy that allows her a bonus on all saving throws.

If your patron is nonevil, this is a +2 sacred bonus and the spell is a good spell.

If your patron is evil, this is a +2 profane bonus and the spell is an evil spell.

This spell only works on a creature with the same patron as you or the same alignment as your patron.

If cast on a target that does not meet these criteria, there is no effect.

HANDFIRE

Evocation [Light]

Level: Clr 1 (Selûne), Drd 1, Hrp 1, Hth 1, Rgr 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You surround your hand with winking motes of light resembling a cluster of constantly renewed sparks.

The lights are any color you choose, but cannot be changed once the spell is cast.

The *handfire* provides illumination equal to a candle but provides no heat, nor can it ignite objects.

The *handfire* can be used as a melee touch attack up to one time per level.

If a living creature is struck, it deals 1d4 points of damage +1 point/level (maximum +5).

Against undead, the *handfire* deals 1d6 points of damage +1 point/level (maximum +5).

It has no effect on targets that are neither living nor undead (such as constructs).

HORIZIKAUL'S BOOM

Evocation [Sonic]

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will partial

Spell Resistance: Yes

You blast the target with loud and high-pitched sounds.

Horizikaul's boom strikes unerringly, even if the target is in melee or has anything less than total cover or concealment.

The target takes 1d4 points of sonic damage per two caster levels (minimum 1d4, maximum 5d4) and must make a Will save or be deafened for 1d4 rounds.

This spell has no effect if cast into the area of a *silence* spell.

HORIZIKAUL'S COUGH

Evocation [Sonic]

Level: Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature or object

Duration: Instantaneous

Saving Throw: Will partial

Spell Resistance: Yes

You create a brief but loud noise adjacent to the target.

Horizikaul's cough strikes unerringly, even if the target is in melee or has anything less than total cover or concealment.

The target takes 1 point of sonic damage and must succeed at a Will saving throw or be deafened for 1 round.

This spell has no effect if cast into the area of a *silence* spell.

HORIZIKAUL'S VERSATILE VIBRATION

Evocation [Sonic]

Level: Sor/Wiz 5

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Concentration, up to 1 round/level

Saving Throw: Reflex half

Spell Resistance: Yes

You create a cone of powerful sound that can be used to attack or move objects or creatures.

If used to attack, the cone inflicts 1 point of sonic damage per two levels each round a creature is within the area; a successful Reflex save reduces this damage by half. If used to move objects or creatures, it functions as the sustained force version of *telekinesis*, although you can only move objects away from you. Targets within the effect of a *silence* spell cannot be moved. The spell's sound is a sustained hum as loud as a battle. *Focus*: A hollow cone of brass and gold worth 50 gp.

ICE DAGGER

Evocation [Cold]

Level: Sor/Wiz 1

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Dagger of ice

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You create a dagger-shaped piece of ice that launches itself at a target within range as a grenadelike weapon.

The ice dagger deals 1d4 points of cold damage to the target per caster level (maximum 5d4), and the target may make a Reflex save for half damage.

Creatures within 5 feet of the target take 1 point of cold damage.

Material Component: A few drops of water made from melted ice.

MACE OF ODO

Evocation [Force]

Level: Clr 3 (Helm)

Components: V, S, DF

Casting Time: 1 full round

Range: 0 ft.

Effect: Mace of force

Duration: 1 round/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

You create a glowing mace of force that appears in your hand.

When used against a creature, you must make a melee touch attack against the target.

If it hits, the *mace of Odo* deals 1d6 points of force damage per caster level (maximum 10d6).

Undead creatures take an additional +1 point of damage per caster level (maximum +10).

A creature struck by the mace must make a Fortitude save or be paralyzed for 1 round.

While you are holding the mace, if you are targeted with a spell, you may choose to have the mace absorb that spell.

The mace occupies your hand but (unlike holding the charge for a touch spell) does not disappear if you cast another spell.

When the mace strikes a creature, is used to absorb a spell, or is removed from your grasp, it vanishes.

The point in space where it vanished from glows as a *light* spell for the remainder of the duration.

MEMORY ROT

Evocation

Level: Drd 5

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You create a cloud of spores that infests the brain of the subject creature, gradually destroying the creature's mind. The spores permanently drain 1d6 points of Intelligence immediately.

Each round thereafter, the spores gradually eat away at the subject's brain, permanently draining 1 additional point of Intelligence.

The subject may roll a Fortitude save each round to combat the effects of the spores.

A successful save ends the spores' advance and halts any further loss of Intelligence.

MURDEROUS MIST

Evocation

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Cloud that spreads in 30-ft. radius, 20 ft. high

Duration: 1 round/level

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You create a cloud of scalding hot steam that moves in a straight line, away from you, at a speed of 10 feet.

Anyone within the cloud suffers 2d6 points of damage and is permanently blinded.

If a creature within the area makes a successful Reflex saving throw, it takes only half damage and is not blinded.

Creatures remaining within the cloud suffer 1d6 points of damage in each subsequent round of exposure.

Creatures may attempt saving throws each round they are within the cloud to avoid its effects.

Any creature within the cloud has one-quarter concealment.

Winds do not affect the cloud's direction or speed.

However, a moderate wind (11+ mph) disperses the cloud in 4 rounds, and a strong wind (21+) disperses it in 1 round.

MYSTIC LASH

Evocation [Electricity, Evil]

Level: Clr 3 (Bane)

Components: V, S, DF

Casting Time: 1 action

Range: 0 ft.

Effect: Electric whip

Duration: 1 round/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

You create a long whip of ghostly red energy that emanates from your hand and never harms you.

You wield this weapon as if it were an actual whip and you were proficient with it.

Attacks with the *mystic lash* are ranged touch attacks.

The lash deals 1d8 points of electrical damage +1 point per two caster levels (maximum +5).

Since the lash is immaterial, your Strength modifier does not apply to the damage.

A creature hit with the lash must make a Fortitude saving throw or be stunned for 1 round.

If the lash hits its target, you may release it from your hand so that it continues to attack that target automatically, leaving your hand free.

The lash attacks using your base attack value, although it can only attack once per round on its own.

If the lash's target falls unconscious, dies, or is destroyed, the lash returns to you on its next action.

If you do not grasp the lash on the round it returns, it dissipates, but otherwise you can use the lash on another creature and begin the cycle again.

PRISMATIC EYE

Evocation

Level: Sor/Wiz 6

Components: V, S, F

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Effect: Magical eye

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: Yes

You create a visible orb that can fire various ray effects.

The eye can be moved up to your speed as a move-equivalent action but cannot go beyond the spell's range.

Starting on the round it appears, you can command the eye to fire a ray as a free action once per round.

The ray is a ranged touch attack with a +6 attack bonus and a range of 50 feet.

If struck, the target suffers the effect of one of the beams of a *prismatic spray* spell (roll randomly, rerolling 8s).

Once a particular color ray has been used, it is no longer available to the eye.

Once all seven rays are used, the eye remains and can be moved by you but has no other abilities.

The eye is AC 18 (+8 size) and has 9 hit points.

It saves as you.

Focus: A polished rainbow-hued abalone shell.

SCINTILLATING SPHERE

Evocation [Electricity]

Level: Sor/Wiz 3 (Halruaa)

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

As *fireball*, except as noted above and that the spell deals electricity damage.

Material Components: A glass marble and a pinch of iron oxide.

SHATTERFLOOR

Evocation [Sonic]

Level: Sor/Wiz 3

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 15-ft.-radius spread

Duration: Instantaneous

Saving Throw: Will half

Spell Resistance: Yes

You create a loud, thrumming vibration that builds to a painful crescendo before fading.

Creatures and objects in the area take 1d4 points of sonic damage per caster level (maximum 10d4), and can make a Will saving throw for half damage.

If the floor of the area is made of stone, wood, ice, or material any softer than those, the floor is pulverized to a depth of 6 inches, resulting in an area of soft dust, wood fragments, or loose crushed ice, as appropriate.

Any creature moving across this surface is reduced to half speed.

Focus: A miniature hammer and bell.

SHELGARN'S PERSISTENT BLADE

Evocation [Force]

Level: Sor/Wiz 1

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One small blade

Duration: 1 round/2 levels

Saving Throw: None

Spell Resistance: Yes

You bring into being a tiny blade of force.

The blade flies at a speed of 40 feet and attacks any target within its range, as you desire, starting the round that you cast the spell.

The blade attacks on your turn once each round, striking with an attack bonus equal to half your Charisma or Intelligence modifier (for sorcerers and wizards, respectively) and dealing damage as a dagger (including the threat range and critical multiplier).

If an ally also attacks the creature, the blade moves on your turn to flank the target.

As a force effect, it can strike ethereal and incorporeal creatures.

The blade is AC 14 (+2 size, +2 Dex) and has 1 hit point.

Each round after the first, you can use a standard action to switch the blade to a new target; otherwise it continues to attack the same target.

If an attacked creature has spell resistance, the resistance is checked the first time *Shelgarn's persistent blade* strikes.

If the blade is successfully resisted, the spell is dispelled.

If not, the blade has its normal full effect on that creature for the duration of the spell.

Focus: A silvered dagger.

STEELDANCE

Evocation

Level: Sor/Wiz 3

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Two daggers

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You cause two daggers in your possession to grow to the size and shape of longswords, which then attack creatures you specify.

The blades have AC 14 (+1 size, +1 Dex, +2 natural), hardness 10, and 5 hit points.

They fly at speed 30 feet (good maneuverability), deal 1d8 points of slashing damage, and score a threat of a critical on a natural 19 or 20.

They are otherwise treated as Medium-size animated objects (as if animated by an *animate objects* spell).

You can cast spells such as *magic weapon* on the daggers before or after the *steeldance* spell takes effect.

Focus: Two daggers.

STONE SHATTER

Evocation [Sonic]

Level: Brd 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./level)

Area: One stone object or creature

Duration: Instantaneous

Saving Throw: Will negates (object) or Fortitude half (see text)

Spell Resistance: Yes (object) or Yes

You aim a single note of perfect pitch toward a stone object or creature, causing it to shatter.

The target object cannot weigh more than 2 pounds per caster level.

Anyone within 5 feet of an exploding object suffers 1 point of damage per caster level (maximum 15 points).

No saving throw applies to this effect.

Targeted against a stone creature (of any weight), *stone shatter* deals 1d6 points of damage per caster level (maximum 15d6), with a Fortitude save for half damage.

TIRUMAEI'S ENERGY SPHERES

Evocation [Acid, Cold, Electricity, Fire, Sonic]

Level: Sor/Wiz 4

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Five floating spheres

Duration: 1 round/level

Saving Throw: Reflex half (see text)

Spell Resistance: Yes (see text)

You create a circle of five colored spheres that orbit your head at a distance of 1 foot.

These spheres provide as much light as a *dancing lights* spell and can be used offensively or defensively.

Each sphere corresponds to one of the five types of energy (acid, cold, electricity, fire, sonic).

On your turn you can direct one or more spheres to strike a creature or creatures in range, no two of which may be more than 30 feet apart.

Each sphere inflicts 1d4 points of energy damage per four caster levels (max 4d4 each) to a single creature, so an 8th-level caster's sphere inflicts 2d4 points of energy damage. The target may make a Reflex save for half damage against each sphere.

If you are attacked with an effect that causes energy damage, and the sphere of that type of energy is still present, you can have that sphere absorb some of that energy damage, destroying the sphere.

The sphere absorbs damage that round equal to the amount of damage it would deal if used to attack, so an 8th-level caster's fire sphere absorbs 2d4 points of fire damage.

This overlaps (does not stack) with the protection granted by *endure elements*, *resist elements*, and *protection from elements*.

Material Component: Five glass marbles.

WIND AT BACK

Evocation

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: Two creatures/level, no two of which can be more than 50 ft. apart

Duration: 1 day

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell doubles the overland speed of all targets, assuming they are all traveling together in the same direction, including pack animals and mounts.

This spell does not affect nonliving material.

The spell does not affect tactical speed.

WIND TUNNEL

Evocation

Level: Drd 5

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One target/level

Duration: 1 round/level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You call on the wind to assist your allies' accuracy.

This *wind tunnel* improves the accuracy of ranged weapons, granting each target a +10 competence bonus on ranged attacks.

Further, it doubles the range increment of these weapons.

ZAJIMARN'S FIELD OF ICY RAZORS

Evocation [Cold]

Level: Sor/Wiz 8

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: One 10-ft. square/level

Duration: 1 minute/level

Saving Throw: Reflex partial

Spell Resistance: Yes

Razor-sharp ice crystals fill the area.

Creatures standing in the area at the time the spell is cast take 2d4 points of damage plus 1d6 points of cold damage +1 point/level.

Any creature moving on foot into or through the spell's area takes this damage for each 5 feet of movement through the razored area.

Any creature that sustains normal damage from this spell must also succeed at a Reflex save or suffer injuries to its feet and legs that slow its speed by one-third.

This speed penalty lasts for 24 hours or until the injured creature receives a *cure* spell (which also restores lost hit points).

Another character can remove the penalty by taking 10 minutes to dress the injuries and succeeding at a Heal check against the spell's save DC.

Each 5-foot square section has effectively 20 hit points. Even when all the ice has been destroyed, frigid air remains in the area and deals 1d6 points of cold damage +1 point/level to creatures that pass through it.

Focus: A silver shuriken worth 50 gp that looks like a snowflake.

ZAJIMARN'S ICE CLAW PRISON

Evocation [Cold]

Level: Sor/Wiz 7

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: 10-ft. ice claw

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

Similar to *Bigby's grasping hand*, this spell creates a Medium-size reptilian claw made of ice.

The ice claw gets one grappling attack per round.

Its attack bonus to make contact is your level + your Intelligence or Charisma modifier (for wizards and sorcerers, respectively), +7 for the claw's Strength score (24).

Its grapple check is this same figure.

When the claw succeeds at a grapple, it inflicts normal grapple damage (1d3 points plus its Strength modifier). You can direct it to damage or pin its target on your turn as a free action.

On any round that the claw is grappling a target, it deals 1d8 points of cold damage in addition to any other damage it causes.

The claw can attack on the round it appears.

Directing it to change targets is a standard action.

It always attacks from your direction and does not get a flanking bonus or help a combatant get one.

The claw has as many hit points as you do when undamaged and is AC 20 (+10 natural).

It takes damage as a normal creature, but most magical effects that do not deal damage do not affect it.

The claw cannot push through a *wall of force* or enter an *antimagic field*.

It suffers the full effects of a *prismatic wall* or *prismatic sphere*.

The claw makes saving throws as if it were you.

Disintegrate or a successful *dispel magic* destroys it.

It is immune to cold but takes double damage from fire.

Focus: A white leather glove and a piece of clear rock crystal.

ILLUSION

DARK WAY

Illusion (Shadow)

Level: Clr 3 (Mask)

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One bridge of force 2 ft. wide, 1 in. thick, and up to 20 ft./level long

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

You create a ribbonlike, weightless, unbreakable bridge.

The *dark way* must be anchored at both ends to solid objects, but otherwise can be at any angle.

Like a *wall of force*, it must be continuous and unbroken when formed.

It is typically used to cross a chasm or a hazardous space.

Creatures can move on the *dark way* without penalty, since it is no more slippery than a typical dungeon floor.

You (but not anyone else) gain a +5 competence bonus on all Balance checks while made on the *dark way*.

The *dark way* can support a maximum of 200 pounds per caster level.

Creatures that cause the total weight on the *dark way* to exceed this limit sink through it as if it weren't there.

You never sink through the *dark way* unless your own weight exceeds the spell's maximum capacity.

DECOY IMAGE

Illusion (Figment)

Level: Rgr 3

Components: V, S

Casting Time: 1 full round

Range: Long (400 ft. + 40 ft./level)

Effect: Figment that mimics you and all allies within 50 ft. of you

Duration: 10 minutes/level (D)

In order to flush ambushes, you project a duplicate image of yourself and your companions.

This spell creates an illusion complete with visual, sound, smell, texture, and temperature.

It mimics exactly what you and any of your allies within 50 feet of you do.

If the terrain differs significantly between that of the illusion and that of the characters, or if any character takes an action the illusion can't duplicate (for instance, climbing a tree if none are present for the illusory duplicate to mimic), onlookers automatically receive a saving throw.

In addition, anyone who moves out of the spell's effect disappears from the illusion.

DISGUISE UNDEAD

Illusion (Glamer)

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: One corporeal undead

Duration: 10 minutes/level

Saving Throw: None (harmless)

You make one undead—including clothing, armor, weapons, and equipment—look different.

You can make it seem 1 foot shorter or taller, thin, fat, or in between.

You cannot change the creature's body type.

For example, a wight could look human, humanoid, or like any other generally human-shaped bipedal creature.

Otherwise, the extent of the apparent change is up to you.

You could add or obscure a minor feature, such as a mole or a beard, or make it look like an entirely different creature.

The spell does not provide the abilities or mannerisms of the chosen form.

It does not alter the perceived tactile (touch) or audible (sound) properties of the undead or its equipment.

A battleaxe made to look like a dagger still functions as a battleaxe.

Note: Creatures get Will saves to recognize the glamor as an illusion if they interact with it (such as by touching the undead and having that sensory input not match what they see, in the case of this spell).

Focus: A cocoon of a death's head moth.

DOOMTIDE

Illusion (Pattern)

Level: Clr 4 (Beshaba)

Components: V, S, DF

Casting Time: 1 action

Range: 80 ft.

Effect: Eight 10-ft. cubes extending from the caster's location

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You fill an area with illusory black, creeping mist that vaguely resembles thousands of slender grasping tentacles. You and one creature you touch are immune to the effect of this spell and can see through it without difficulty.

When you cast the spell, you decide if the effect remains stationary or moves away from you at a rate of 10 feet per round.

The mist obscures all sight, including darkvision, beyond 5 feet.

A creature within 5 feet has one-half concealment (attacks suffer a 20% miss chance).

Creatures farther away have total concealment (50% miss chance, and the attacker can't use sight to locate the target).

A moderate wind (11+ mph) disperses the *doomtide* in 4 rounds; a strong wind (21+ mph) disperses the mist in 1 round.

Furthermore, creatures within its area must make Will saves or be dazed for as long as they remain in the cloud.

The spell does not function underwater.

KHELBEN'S SUSPENDED SILENCE

Illusion (Glamer)

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: One object

Duration: Permanent or until discharged; 6 rounds (see text)

Saving Throw: None (object)

Spell Resistance: No (object)

You imbue the touched object with a magical effect.

When you touch the object and give the command word you designate, the object becomes the target of a *silence* spell.

The effect of the *silence* spell moves with the object and lasts exactly 6 rounds.

Material Component: A feather and a handful of gem dust worth 50 gp.

NET OF SHADOWS

Illusion (Shadow) [Darkness]

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level, no two of which can be more than 25 ft. apart

Duration: 3 rounds

Saving Throw: Will negates

Spell Resistance: Yes

You cause ordinary shadows to fly toward the creatures in the area, forming dark nets that cover and enfold the target or targets.

The net does not hamper movement, but a creature enfolded in a net cannot see beyond 5 feet, even with darkvision.

The folds of a net hide the creature within it, giving the creature nine-tenths concealment (attacks suffer a 40% miss chance).

The net also hampers the enfolded subject's own attacks, granting nine-tenths concealment to creatures within 5 feet and total concealment to creatures more than 5 feet away.

SHADOW HAND

Illusion (Shadow)

Level: Sor/Wiz 5

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 5-ft. hand

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

You create a floating Medium-size hand out of shadow material.

The shadow hand is an opaque gray color, 5 feet long, and that wide with its fingers outstretched.

It can give cover as a *Bigby's interposing hand* spell (providing only one-half cover), carry materials as *Tenser's floating disk*, strike opponents, or point or gesture as a normal hand does. The hand is AC 18 (+6 natural, +2 deflection) and has half as many hit points as you have when undamaged.

It can be damaged just as *Bigby's interposing hand* can, and makes all saving throws as if it were you.

Changing the hand's task or target is a standard action, and it can move anywhere in range.

If not given any commands, the hand follows you at your speed, maintaining the same distance from you.

The spell ends if the hand ever exceeds its range. If it is carrying items and commanded to do something else, the hand drops whatever it is holding in order to complete its task (you can order the hand to rid itself of items gently as a standard action).

Unlike *Tenser's floating disk*, it does not have to follow you at a fixed distance—you may direct where the hand goes. If commanded to attack, the hand makes a slam attack at your base attack bonus (+4 for its 18 Strength), dealing 1d6+4 points of damage, attacking from your direction. It cannot perform any special combat actions such as bull rush, grapple, or trip.

SHADOW WELL

Illusion (Shadow)

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You cause the target's shadow to become a temporary gateway to a pocket realm within the Plane of Shadow. The target must make a Will save or be pulled into the gateway; inside the pocket realm he sees a deserted, gloomy duplicate of the real world, while shadowy phantasms stalk and taunt him without causing actual harm.

When the duration ends, the victim returns to the real world and suffers a secondary fear effect.

The victim is frightened for 1d4 rounds and must flee.

On leaving the pocket realm, the subject reappears in the spot it had been in when the *shadow well* spell was cast. If this spot is filled with a solid object, the subject appears nearby.

Spells and abilities that move a creature within a plane, such as *teleport* and *dimension door*, do not help a creature escape a *shadow well* spell, although a *plane shift* spell allows it to exit to whatever plane is designated in that spell as normal (but the target is still frightened upon leaving).

SILENT PORTAL

Illusion (Glamer)

Level: Asn 1, Sor/Wiz 0

Components: S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Any single portal

Duration: 1 hour/level (D)

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

This simple cantrip negates the sound of opening and closing a single portal (door, window, gate, drawer, chest lid, and so on).

Even the squeakiest door opens without a sound when under the effect of this spell.

Silent portal covers only normal means of opening and closing the targeted portal.

Breaking a window or kicking a door in still makes noise, but opening a door that is falling off its hinges does not (since this is the normal way a door would open).

Portals composed of magical energy are not affected by this spell.

In the case of magic or even intelligent portals, spell resistance and a Will save (DC 10 + caster's ability score modifier + other modifiers as appropriate) apply.

SKULL OF SECRETS

Illusion (Shadow)

Level: Clr 4 (Cyric)

Components: V, S

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Intangible skull

Duration: Permanent until discharged

Saving Throw: Reflex half (see text)

Spell Resistance: Yes

You create an intangible image of a floating skull that trails black flames.

The skull and its flames are obviously an illusion and cause no damage, nor can the skull be damaged by attacks.

The skull flies at speed 40 feet (Perfect) but cannot move more than 20 feet from its point of origin.

The skull floats about aimlessly but threateningly within its available range.

You set two triggering conditions for the skull.

The first activates a message as if the skull were a *magic mouth*.

The second causes the skull to spit a tongue of flame 5 feet wide and 10 feet long that deals 1d8 points of damage per two caster levels (maximum 5d8) to the creature that triggered it.

Those affected can make Reflex saving throws for half damage.

The triggering conditions can be the same for both effects, which would cause the skull to spit flame and speak its message at the same time.

Once both triggering conditions have been met, the skull disappears.

The skull can only do each effect one time, so if it has already spoken its message, it does not speak it again if the message trigger occurs a second time.

TOWERING OAK

Illusion (Glamer)

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 3 rounds/level

You draw on the oak's strength to improve your ability to intimidate your enemies.

You gain a competence bonus of +10 on your Intimidate checks.

NECROMANCY

DEATH ARMOR

Necromancy

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

You are surrounded with a crackling black aura that injures creatures that contact it.

Any creature striking you with its body or handheld weapons takes 1d4 hit points of damage +1 point per 2 caster levels (maximum +5).

If the creature has spell resistance, it applies to the damage. Weapons with exceptional reach, such as longspears, do not endanger their users in this way.

Material Component: A paste made of exotic herbs, ground bones, and onyx worth 50 gp, which is applied to your body when the spell is cast.

DEATH DRAGON

Necromancy [Evil, Fear, Mind-Affecting]

Level: Clr 7

Components: V, S, DF

Casting Time: 1 full round

Range: Personal

Effect: Dragon of energy and bones

Duration: 1 round/level (D)

You summon unholy power to gird yourself in a dragon-shaped cocoon of bones and negative energy.

The cocoon gives you a +4 natural armor bonus and a +4 deflection bonus to Armor Class, plus 1 temporary hit point per caster level (maximum +20).

You are treated as armed when you make unarmed attacks, and deal damage as if your limbs were short swords.

You can use your off hand to attack, incurring the standard two-weapon fighting penalties (see Table 8–2, page 125 of the *Player's Handbook*).

The *death dragon* prevents you from casting spells with somatic, material, or focus (but not divine focus) components, but does not otherwise hinder your actions or movement.

As a standard action, you may project a cone of *fear* or make a melee touch attack to use *inflict critical wounds* on the creature touched.

DEATH PACT

Necromancy [Evil]

Level: Clr 8 (Velsharoon)

Components: V, S, M, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until triggered

Saving Throw: None

Spell Resistance: No

This spell allows the target to enter a binding agreement with your deity that brings the target back to life if she is slain.

When this spell is cast, the target's Constitution is permanently lowered by 2 points.

In exchange for this, if she ever dies, several spells are brought into effect.

First, she is teleported to a safe location designated by you at the time of casting as if with a *word of recall* spell.

Second, the target is brought back from the dead with a *raise dead* spell with the standard loss of a level.

Finally, the target is healed with a *heal* spell.

She does not regain the 2 Constitution points when returned to life.

If a *raise dead* spell could not return the target to life (for example, if she was disintegrated or died of old age), the *death pact* cannot restore her to life.

If the spell is dispelled before the target dies, she does not regain her 2 lost Constitution points.

Material Component: A diamond worth at least 500 gp.

XP Cost: 250 XP.

FAVOR OF ILMATER

Necromancy

Level: Clr 4 (Ilmater), Pal 4

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: Willing creature

Duration: 1 minute/level or instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell has two possible effects:

Divine Fortitude: The target becomes immune to subdual damage, charm effects, compulsions, and attacks that function by causing pain, and is immune to effects that would cause her to be dazed, exhausted, fatigued, nauseated, staggered, or stunned.

The target remains conscious at –1 to –9 hit points and can take a partial action each round when in that state.

If any of these effects are present on the target when this spell is cast, they are suspended for the duration (causing the target to wake if unconscious).

This variant of the spell lasts 1 minute/level.

When the spell ends, any effects suspended by the spell that would otherwise still be in effect (such as fatigue, which normally requires 8 hours of rest to abate) return.

Effects with durations that expired during the duration of this spell do not resume when this spell ends.

Pact of Martyrdom: You and the target exchange hit point totals.

This variant of the spell only works if you have more hit points than the target when the spell is cast.

If the target was unconscious and dying, you become unconscious and dying.

If the target was unconscious but stabilized, you become unconscious but stabilized.

The spell only transfers actual hit points, not temporary hit points.

Clerics and paladins who don't worship Ilmater name this spell after their own deity—*favor of Torm*, for example.

GENERAL OF UNDEATH

Necromancy

Level: Clr 8 (Velsharoon)

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 day/level

You increase the number of Hit Dice of undead that you can control.

Add 10 times your caster level to your Hit Dice limit for controlling undead.

When the duration expires, you lose control of the extra undead as if you had voluntarily relinquished control of them.

HEALING STING

Necromancy

Level: Drd 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: You and one living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

You inflict 1d6 points of damage +1 point/level damage to a living creature and gain an equal amount of hit points.

The *healing sting* cannot give you more hit points than your normal total.

Excess hit points are lost.

Material Component: Five dried wasp bodies.

HEALING TOUCH

Necromancy

Level: Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Will half (see text)

Spell Resistance: Yes (harmless)

You transfer some of your life essence to another creature, healing it.

You may heal up to 1d6 points per two caster levels (maximum 10d6), and must decide how many dice to roll when you cast the spell.

You take damage equal to the amount your target was healed.

This spell cannot heal a target of more than your current hit points +10, which is enough to kill you.

INFESTATION OF MAGGOTS

Necromancy

Level: Drd 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/2 levels

Saving Throw: Fortitude negates

Spell Resistance: Yes

With a successful melee touch attack, you infest a target with maggotlike creatures.

They deal 1d4 points of temporary Constitution damage each round.

The subject makes a new Fortitude save each round.

The spell ends if the target succeeds at its saving throw. The infestation can be removed with a *cure disease* or *heal* spell.

Material Component: A handful of dead, dried flies.

IRON BONES

Level: Sor/Wiz 4, Clr 4 As *stone bones*, except the target creature's skeleton changes to iron.

The creature gains a +5 natural armor bonus to AC.

Focus: A miniature skull made out of iron or steel.

KISS OF THE VAMPIRE

Necromancy

Level: Sor/Wiz 5

Components: V, S, M

Range: Personal

Target: You

Duration: 1 round/level

You draw upon the powers of unlife to give yourself abilities similar to those of a vampire.

You become gaunt and pale with feral red eyes, and you gain the following supernatural abilities:

- *enervation* (as a melee touch attack)
- *vampiric touch* (as a melee touch attack)
- *charm person*
- *gaseous form* (self only)
- damage reduction 10/+1

When using this spell, *inflict* spells heal you and *cure* spells hurt you.

You are treated as if you were undead for the purpose of all spells and effects.

A successful turn (or rebuke) attempt against an undead of your Hit Dice requires you to make a Will saving throw (DC 10 + cleric's Charisma modifier) or be panicked (or cowering) for 10 rounds.

A turn attempt that would destroy (or command) undead of your Hit Dice requires you to make a Will save (DC 15 + cleric's Charisma modifier) or be stunned (or *charmed* as with *charm monster*) for 10 rounds.

Any *charm* effect you create with this spell ends when the spell ends, but all other effects remain until their normal duration expires.

Material Component: A black onyx worth at least 50 gp that has been carved with the image of a fang-mouthed face.

LIFE BOLT

Necromancy

Level: Sor/Wiz 2

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: One ray/2 levels

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You draw forth some of your own life force to create a beam of positive energy that harms undead.

You must make a ranged touch attack to hit, and if it hits an undead creature, it deals 2d4 points of damage to it. Creating the beam deals you 1 hit point of damage.

For every two levels of experience past 1st, you can create an additional ray, up to a maximum of five rays at 9th level.

If you shoot multiple rays, you can have them strike a single creature or several creatures. You must designate targets before you roll spell resistance or damage. All rays must be aimed at enemies that are all within 30 feet of each other.

NATUREWATCH

Necromancy

Level: Drd 0, Hth 0, Rgr 1

Components: S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Quarter circle emanating from you to the extreme of the range

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

This is identical with *deathwatch*, but only functions on animals and plants.

In addition, it also allows you to determine a variety of other mundane information about the animals and plants (are the plants underwatered, are the animals malnourished, and so forth).

REVEILLE

Necromancy [Language-Dependent, Sonic]

Level: Brd 3

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: One recently dead creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You cause a recently dead creature (within three days of its death) to reveal information about events that led up to its death.

The corpse speaks tersely in its native language, using no more than a dozen words or so in a round.

In the first round, it describes the last thing it saw.

In the second, it describes its dying wish.

In the third, it describes the wounding that killed it.

In the fourth, it tells who killed it.

In the fifth, it tells why it believes it was killed.

In the sixth and all rounds following, it answers one question to the best of its ability (as *speak with dead*).

The corpse has no more knowledge than it had when alive, nor does it retain any memory of events that occurred after its death.

All restrictions placed on the use of *speak with dead* (differing alignments allow a saving throw, no repeat uses of this spell or *speak with dead* within seven days, intact body required, and undead creatures are immune) apply to this spell as well.

SHROUD OF UNDEATH

Necromancy

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level (D)

You shroud yourself with invisible negative energy so that nonintelligent undead perceive you as a fellow undead creature, ignoring you.

Your appearance does not change, and while intelligent undead do not immediately recognize you as alive, they are likely to question whether you are actually undead.

If used in conjunction with a disguise or an illusion to appear undead, this spell gives you a +5 bonus on your Disguise check.

If you attack an undead creature while this spell is in effect, the spell immediately ends.

When using this spell, *inflict* spells heal you and *cure* spells hurt you.

You are treated as if you were undead for the purpose of all spells and effects.

A successful turn (or rebuke) attempt against an undead of your Hit Dice requires you to make a Will saving throw (DC 10 + cleric's Charisma modifier) or be panicked (or cowering) for 10 rounds.

A turn attempt that would destroy (or command) undead of your Hit Dice requires you to make a Will save (DC 15 + cleric's Charisma modifier) or be stunned (or *charmed* as with *charm monster*) for 10 rounds.

Material Component: Dust or bone fragments from any destroyed undead creature.

SKELETAL GUARD

Necromancy

Level: Sor/Wiz 8

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: One or more finger bones

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You create a number of loyal skeletons from finger bones. All skeletons are Medium-size with the normal *Monster Manual* statistics for their kind, except their effective Hit Dice as far as turning is concerned is equal to your class level.

These skeletons count toward the number of Hit Dice of undead you can have in your control.

You can create one skeleton per caster level.

Unlike the *animate dead* spell, these skeletons try to remain within 60 feet of you.

If you exceed this range, they become inert until you return.

Material Components: One finger bone and one onyx gem worth 50 gp per skeleton to be created.

If the finger bones come from a Medium-size creature, the skeleton that forms from that finger bone is that type of creature.

SPIDER POISON

Necromancy

Level: Asn 3, Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: Instantaneous (see text)

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

Similar to the divine spell *poison*, you inflict a paralyzing poison upon the subject by making a successful melee touch attack.

The poison deals 1d6 points of temporary Strength damage immediately and another 1d6 points of temporary Strength damage 1 minute later.

Each instance of damage can be negated by a Fortitude save (DC 10 + one-half caster level + caster's Intelligence or Charisma modifier, for wizards and sorcerers, respectively).

Material Component: A poisonous spider, alive or dead.

SPIRIT WORM

Necromancy

Level: Sor/Wiz 1

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 round/level (see text)

Saving Throw: Fortitude partial

Spell Resistance: Yes

You create a lingering decay in the spirit and body of the target.

If the target fails its saving throw, it takes 1 point of temporary Constitution damage each round while the spell lasts (maximum 5 points of Constitution).

If it makes its save, it does not lose any Constitution but takes 1d2 points of damage each round while the spell lasts (maximum 5d2).

The damage remains after the spell ends.

Material Component: A piece of fire-blackened ivory or bone carved in the shape of a segmented worm.

UNDEAD LIEUTENANT

Necromancy

Level: Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One undead

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You empower the subject undead with the authority of command over other undead in your control.

The targeted undead must have an Intelligence of 5 or higher.

Other undead under your control obey the subject undead as if it were you.

You may give orders to the undead normally, superseding the orders of the subject of this spell.

UNDEAD TORCH

Necromancy

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One corporeal undead

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause a corporeal undead to give off cold blue energy that disrupts the life force of living creatures but has no effect on objects or undead.

The target creature does an additional 2d4 points of damage with its melee attacks.

If an attacked creature has spell resistance, the resistance is checked the first time the creature attacks it.

If it succeeds, the creature is unaffected by that casting of the *undead torch*.

If the undead creature is destroyed, the *undead torch* continues to burn at the location of its destruction until the duration ends, and creatures that come in contact with the remains take damage.

If the undead creature assumes an incorporeal state (such as a vampire assuming *gaseous form*), the spell disperses harmlessly.

Material Component: A living or dead firefly or glowworm.

UNDEATH AFTER DEATH

Necromancy [Evil]

Level: Clr 7 (Bane)

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until discharged

Saving Throw: None (see text)

Spell Resistance: No

You tear off a piece of a creature's life force, corrupt it with negative energy and the power of undeath, then bind it to its body to allow a blasphemous transformation should the creature later die.

The subject of this spell loses 2 points of Constitution.

When the subject dies, the corrupted life force begins a slow change in its body, causing it to animate as a crypt spawn at the next sunset (see the crypt spawn template in Chapter 7).

If its remains are destroyed, the *undeath after death* spell cannot bring it back as an undead.

If the spell is dispelled before the subject dies, it does not regain its 2 lost Constitution points.

Material Components: A piece of obsidian shaped like a heart, which is placed on the subject's chest, and a black onyx gem worth at least 50 gp per HD of the subject creature at the time the spell is cast, which is placed in the subject's mouth.

UNDEATH TO DEATH

Necromancy

Level: Sor/Wiz 6, Clr 6

Components: V, S, M/DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Several undead creatures within a 50-ft.-radius burst

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Undeath to death snuffs out the animating forces of undead creatures, killing them instantly.

The spell slays 1d4 HD worth of undead creatures per caster level (maximum 20d4).

Creatures with the fewest HD are affected first; among creatures with equal HD, those closest to the point of origin of the burst are affected first.

Material Component: The powder of a crushed diamond worth at least 500 gp.

TRANSMUTATION

ALAMANTHER'S RETURN

Transmutation [see text]

Level: Sor/Wiz 9

Components: V, S, M, XP

Casting Time: 1 full round (see text)

Range: See text

Effect: One spell or spell-like ability

Duration: See text

Saving Throw: See text

Spell Resistance: See text

You duplicate the effect of any one spell or spell-like ability you have seen.

This spell can only duplicate spells and spell-like abilities of 8th level or lower.

This duplication functions like the ability of a *wish* spell to duplicate another spell, except that it is not limited by type of spell (divine or arcane) or by what school the effect is from.

A duplicated spell or spell-like ability functions as if you had the appropriate spell prepared and were casting it yourself.

If the casting time of the spell is greater than 1 full round,

add 1 full round to the casting time of *Alamanther's return*.

If the spell or ability has an XP cost, you must pay that XP cost in addition to the XP cost of this spell.

If the spell has a costly material component, you must provide that component or pay an additional XP cost equal to the gp value of that component divided by 5.

Alamanther of Aglarond, a former consort of the Simbul, created this spell.

He was eventually destroyed in one of his frequent battles against the Red Wizards of Thay.

Material Component: A silver mirror worth 50 gp.

XP Cost: 1,000 XP or more.

AMANUENSIS

Transmutation

Level: Clr 3 (Deneir), Sor/Wiz 3

Components: V, S, M (see text)

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Object or objects with writing

Duration: 10 minutes/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You cause writing from one source (such as a book) to be copied into a book, paper, or parchment.

This spell copies 250 words per minute and creates a perfect duplicate of the original.

The spell only copies nonmagical text, not illustrations or magical writings (such as spell scrolls or a *sepia snake sigil*).

If the target contains normal and magical writing (such as a letter with *explosive runes*), only the normal text is copied, leaving blank space in the copied text where the magical writing would be expected.

Likewise, if the target contains text and illustration, only the text is copied.

The spell triggers (but does not copy) writing-based magic traps in the material being copied.

Blank paper, parchment, or a book must be provided for the spell to write upon.

If the target has multiple pages, the spell automatically turns to the next blank page whenever necessary.

If more pages in the target exist than blank pages are available, the spell copies the original until it runs out of blank pages.

At any time during the spell's duration you may redirect the magic to copy from another target, copy onto a different blank source, or resume a duplication that was interrupted by a shortfall of blank pages.

If this spell is used to copy a spell from a spellbook, you must provide the necessary costly materials as if you were copying it by hand (see *Arcane Magical Writings*, page 155 of the *Player's Handbook*).

The spell does not translate the copied writing.

If you do not understand the original, you have no additional ability to understand the copy.

Material Component: Materials necessary for copying spells from a spellbook (if appropriate).

AMPLIFY

Transmutation [Sonic]

Level: Brd 1

Components: V, S

Casting Time: 1 minute/level

Range: Long (400 ft. + 40 ft./level)

Area: 15-ft.-radius emanation centered on a creature, object, or point in space

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes or No (object)

You cause an amplification of all sounds within the spell's area.

This decreases the DC to hear those sounds by 20.

Those creatures within the spell's area do not notice the increased amplification.

Thus, anyone whose voice is amplified remains unaware of the increase in volume.

AURA OF GLORY

Transmutation

Level: Pal 2

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level (see text)

You channel divine power into yourself, enhancing your physical presence and augmenting your magical abilities.

For the duration of the spell, you gain a +2 sacred bonus on all Bluff, Diplomacy, Handle Animal, Intimidate, and Charisma checks to alter an NPC's attitude or turn undead. Your *aura of glory* provides an additional +2 sacred bonus on allied saves against fear.

When the spell is cast, a number of allies equal to your paladin level are healed 1 hit point as if by a *cure minor wounds* spell.

These allies must be within 10 feet of you at the time.

Your mount counts as an ally.

AURA OF VITALITY

Transmutation

Level: Drd 7

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature per 3 levels, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

All targets receive a +4 enhancement bonus to Strength, Dexterity, and Constitution scores.

AZUTH'S EXALTED TRIAD

Transmutation

Level: Clr 6

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: Instantaneous

You alter one of your prepared spells so that you can cast it multiple times before it is expended.

The prepared spell must be of 3rd level or lower, and once the *exalted triad* is cast, you may cast the altered spell two additional times (a total of three times) before it is expended.

The altered spell functions normally and requires components or XP for each use as if you were casting three separate spells.

If you later choose to prepare a different spell in that spell slot, any extra castings provided by the *exalted triad* are lost. You cannot cast *exalted triad* more than once upon a prepared spell.

This spell was created by the clerics of Azuth.

BACKLASH

Transmutation

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: Permanent or until discharged

Saving Throw: Will negates

Spell Resistance: Yes

You bestow upon the target an unusual curse: The first spell the target casts that meets the triggering conditions

rebounds on the cursed creature exactly as if affected by *spell turning*.

The *backlash* is triggered by three situations:

- The target casts an attack spell on another creature, which makes its saving throw.

- The target casts an attack spell upon a creature that is immune to that spell.

- The target casts an attack spell that is interrupted or ruined (including a failed attempt to cast defensively).

In all three cases, the triggering spell must be a spell that could be affected by *spell turning*.

If the *backlash* is triggered, the curse immediately takes its full effect upon the target of the *backlash*.

The target does not get a saving throw against the spell, nor does *spell turning* apply, but does get spell resistance.

Once triggered, the *backlash* spell ends.

A creature can be under the effects of multiple *backlash* spells at once, but only one can be triggered at a time.

The *backlash* has no effect on magic items or spell-like or supernatural abilities used by the target.

A *backlash* can be removed by any spell that negates a *bestow curse* spell.

For purposes of this spell, an "attack spell" includes any spell targeting a foe or whose area or effect includes a foe.

(Exactly who is a foe depends on the caster's perceptions).

A spell directed at an unattended object does not constitute an attack spell.

BALAGARN'S IRON HORN

Transmutation [Sonic]

Level: Brd 1, Sor/Wiz 2

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: Yes

You create a deep, resonant vibration that can shake creatures off their feet as if they were being tripped.

Make a single Strength check as if your Strength were 20.

Creatures in the area make individual opposed Dexterity or Strength checks against your roll.

Those who fail are tripped and fall prone.

Those who succeed are unaffected, but cannot make a trip attack against you in response to this spell.

Unlike a regular trip attack, you may trip any creature touching the ground, regardless of size.

You cannot use the Improved Trip feat to immediately make a melee attack against a creature you have tripped with this spell.

BATTLETIDE

Transmutation

Level: Clr 5 (Xvim/Bane)

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: You and up to one creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: No and Will negates

Spell Resistance: Yes

You steal energy from others.

Targets other than you suffer a –2 circumstance penalty on saves, attack rolls, and damage rolls.

As long as at least one enemy is affected by the spell, you get one extra partial action each round.

If all the affected enemies free themselves from the spell (by death, entering an *antimagic field*, receiving a successful *dispel magic*, and so on), the spell ends.

BLACKSTAFF

Transmutation

Level: Sor/Wiz 8

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Staff or quarterstaff touched

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes

Created by the renowned archmage Khelben Arunsun and shared only with those whom he trusts implicitly, *blackstaff* has three principal effects:

First, the spell gives the affected staff or quarterstaff a +4 enhancement bonus on attack and damage rolls.

Second, any creature or object struck by a successful melee attack or melee touch attack with the *blackstaff* is subject to a *dispel magic* effect.

This effect works exactly like a targeted *dispel magic* cast by the creator of the *blackstaff*.

Third, any spellcaster struck by a successful melee or melee touch attack with the *blackstaff* loses one prepared spell (or one unused spell slot, for spellcasters who do not prepare spells) of the highest spell level available.

A successful Will save negates the spell loss, but not any damage or dispel effects caused by a strike of the *blackstaff*. *Blackstaff* may be cast upon any nonmagical quarterstaff or on a magic staff in the caster's possession.

If cast on a magic staff, the wielder of the staff must decide as a free action on his turn each round whether he will use the staff's normal abilities or the effects of the *blackstaff* spell.

Nothing prevents the caster from giving a staff or quarterstaff under the effect of *blackstaff* to another character to wield after casting the spell.

Focus: A nonmagical quarterstaff or a magic staff.

BLADE THIRST

Transmutation

Level: Rgr 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One slashing weapon

Duration: 1 round/level

Saving Throw: None (object)

Spell Resistance: Yes (object)

You grant a slashing weapon a +3 enhancement bonus.

The weapon takes on a blue, fiery glow, shedding illumination as if it were a torch.

BLINDING SPITTLE

Transmutation

Level: Drd 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One missile of spit

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

Using a ranged touch attack (with a –4 penalty), you spit caustic saliva into your target's eyes.

The spittle blinds your target until he can wash his eyes with water or other rinsing fluid.

This spell has no effect on creatures without eyes or that don't depend on eyes for vision.

BLINDSIGHT

Transmutation

Level: Clr 4, Drd 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell grants the Blindsight feat.

The target creature gains sensitivity to vibrations, so that it maneuvers and fights as well as a sighted creature.

The target creature's senses extend to a 30-foot radius, and the creature need not make Spot or Listen checks to notice creatures within this range.

Invisibility and darkness are irrelevant, though the creature can't discern ethereal beings.

(For details, see Blindsight, page 73 of the *DUNGEON MASTER's Guide*).

BLOOD FRENZY

Transmutation

Level: Drd 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You enter a rage similar to, but less effective than, that of a barbarian.

Your rage gives you a +2 bonus to Strength and Constitution and a +1 morale bonus on Will saves.

You suffer a –1 penalty to AC.

The additional Constitution increases your hit points by 1 point/level, but these hit points go away when the spell ends.

Otherwise, the effect is identical with barbarian rage (see page 25 of the *Player's Handbook*).

You cannot use skills that require concentration or patience, and once the spell ends, you're fatigued for the duration of that encounter.

BODY BLADES

Transmutation

Level: Clr 2 (Loviatar)

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level

You sprout daggerlike spikes from all surfaces of your body and clothing.

The spikes appear metallic but are not actually metal, and never harm you or interfere with your movement or actions.

They allow you to deal 1d6 points of piercing damage (crit $\times 2$) with a successful grapple attack.

The spikes count as a martial weapon, and the spell grants proficiency with them.

You can also make a regular melee attack (or off-hand attack) with the spikes, and they count as a light weapon in this case.

You inflict lethal damage when grappling.

If a creature grapples you, the spikes deal 2 points of damage to your attacker.

You get a +4 bonus on Escape Artist checks to escape from a net, rope, grappler, or spell that entangles.

BRANCH TO BRANCH

Transmutation

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level

You gain a +10 competence bonus on Climb checks made in trees.

You can brachiate (swing via branches and vines) at your normal speed.

BRILLIANT AURA

Transmutation

Level: Drd 7

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One person per 2 levels, all of whom must be within 30 ft. of each other

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You limn your allies in a glowing nimbus, transforming their attacks into brilliant energy.

All persons affected by this aura give off light as a torch (20-foot radius).

Their weapon attacks (melee or ranged) function as if their weapons were brilliant energy weapons: They ignore nonliving matter and armor, and enhancement AC bonuses do not count against them.

The attacks cannot harm undead, constructs, or objects.

In addition, all attacks gain an enhancement bonus on damage equal to one-half the caster's level (maximum +10).

CAMOUFLAGE

Transmutation

Level: Drd 1, Hrp 1, Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

You change your coloring to match the environment surrounding you.

The spell grants you a +10 competence bonus on your Hide checks.

CAST IN STONE

Transmutation

Level: Drd 9

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Personal

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

Anyone meeting your gaze is permanently turned into a mindless, inert statue (as *flesh to stone*).

You may free the victim of your own *cast in stone* at any time by speaking a command word you establish during the casting.

Note: Each round, a gaze attack automatically works against one creature within range that is looking at (attacking or interacting with) the gazing creature.

Creatures can avert their eyes, which grants them a 50% chance to avoid the gaze but in turn grants the gazer one-half concealment (20% miss chance) relative to them.

Creatures can close their eyes or turn away entirely; doing so prevents the gaze from affecting them but grants the gazer total concealment (50% miss chance) relative to them.

CLAWS OF THE BEAST

Transmutation

Level: Drd 1, Rgr 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Your fingers sprout claws.

Your hands become weapons that do 1d6 points of damage.

If your normal unarmed damage is greater than 1d6, the damage does not change.

You are considered armed while this spell is in effect.

CRUMBLE

Transmutation

Level: Drd 6

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One structure or construct

Duration: Instantaneous

Saving Throw: Fortitude partial (object)

Spell Resistance: Yes (object)

You bring the forces of erosion to bear on a fabricated structure such as a stone bridge, a wooden building, an iron wall, a construct, or any other object not formed by nature itself.

This inflicts 1d6 points of damage per caster level to the object (hardness does not apply), to a maximum of 15d6.

This spell does not affect living creatures.

It does, however, affect constructs.

The maximum size of the object affected depends on your level.

If you cast this spell on an object of greater size than you can affect, the spell fails.

Level	Size of Object Affected
Up to 15	Huge
16–18	Gargantuan
19–20	Colossal

CURSE OF ILL FORTUNE

Transmutation

Level: Clr 2 (Beshaba)

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You place a temporary curse upon the target, giving her a –3 enhancement penalty on attack rolls, saving throws, ability checks, and skill checks.

Curse of ill fortune is removed by any spell that removes a *bestow curse* spell.

DARSSON'S POTION

Transmutation

Level: Sor/Wiz 4

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: Flask of water touched

Duration: 1 hour/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You transform the water in a flask so that it is capable of storing a spell in the manner of a potion.

On your next turn, you or another spellcaster can cast a spell into the water, transforming the water into a potion of the appropriate type.

Only spells suitable for making potions can be used this way.

The person casting the spell to be stored must spend XP as if a potion were being created with the Brew Potion feat.

DEAFENING CLANG

Transmutation [Sonic]

Level: Pal 1 (Gaerdal Ironhand)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Weapon touched

Duration: 1 round/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You empower the touched weapon with magic that causes it to emit a loud clang when it is struck against a hard surface, such as a floor, wall, or creature.

The item can create this noise once per round.

The clang has the effect of a thunderstone (see page 114 of the *Player's Handbook*) except that the caster and the weapon user are unaffected by the sound and the deafness lasts 1 minute.

If an attack with the weapon misses the target but was enough to make a touch attack, the weapon strikes the creature with sufficient force to activate the *deafening clang*.

DHULARK'S GLASSTRIKE

Transmutation

Level: Sor/Wiz 6

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Range: 60 ft.

Target: One creature or 4 cubic ft. of material

Duration: 1 hour/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You transform the target into glass.

You can cast either of these two versions: *Glass Creature:* As *flesh to stone*, but the target becomes glass.

Glass Object: An object of up to 4 cubic feet in volume is affected.

Part of a larger object (such as a floor or wall) can be transformed by this spell.

Neither version of the spell affects magic items (magic items carried by a transformed creature remain intact).

When the duration ends, the target returns to its original materials.

If the target was broken or damaged while in glass form, its normal form has similar damage.

Focus: A piece of glass from a mirror.

DISTORT SPEECH

Transmutation

Level: Brd 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You distort a creature's vocalizations.

The voice of the affected target becomes warped and incomprehensible.

The subject loses the ability to cast spells with verbal components for the duration of the spell.

EARTHFAST

Transmutation

Level: Drd 2

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: One stone structure or rock formation, up to 25 cu. ft./level

Duration: 10 minutes/level (D)

Saving Throw: Fortitude negates (harmless, object)

Spell Resistance: Yes (object)

You reinforce a rock formation or stone structure.

The *earthfast* spell doubles the structure's hit points and hardness.

The spell collapses if you move beyond the range of the spell.

This does not function on constructs.

EASY CLIMB

Transmutation

Level: Rgr 3

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Vertical path 10 ft. wide and 20 ft. tall/level

Duration: 10 minutes/level (D)

Saving Throw: None (object)

Spell Resistance: Yes (object)

You create a path of handholds and footholds up the surface of a cliff-face, tree trunk, wall, or other vertical obstacle.

This changes the surface to the equivalent of a very rough wall (DC 10 to climb).

ENERGY TRANSFORMATION FIELD

Transmutation

Level: Sor/Wiz 6

Components: V, S, M, XP

Casting Time: 4 rounds

Range: Close (25 ft. + 5 ft./2 levels)

Area: 40-ft.-radius spread

Duration: Permanent

Saving Throw: None

Spell Resistance: Yes

You create a lingering zone of transformative magic that absorbs magic energy from magic items or spellcasting in order to power another spell tied to that location.

For example, you could have an *energy transformation field* tied to a *summon monster* V spell that would summon a monster when the field had absorbed enough magic.

The field absorbs the magic of spells cast, spell-like or supernatural abilities activated, and magic items used within its dimensions.

Each source of magic provides spell levels of energy to the field equal to the spell level of the effect used.

Supernatural abilities that emulate spells provide energy equal to the spell level of the effect.

Supernatural abilities that do not emulate spells provide energy equal to the HD of the creature using the ability.

For example, a cast *fireball* spell or a charge from a *wand of fireballs* would add three spell levels to the field's store, a *potion of cure light wounds* would add one, and a *wish* from a *ring of three wishes* would add nine.

Effects that don't have a clearly defined spell level (such as the effects of most rods) use the prerequisite caster level needed to create that item (so an *immovable rod* would provide 2 spell levels every time it was activated because of its *levitate* prerequisite).

Effects that are absorbed give no indication as to where the magic went; they simply vanish.

The field only absorbs magic actually used within its area.

Ongoing magical effects that enter the area, including spells cast from outside the area into the field or continually functioning items such as a +1 *mace*, are often visibly reduced, but do not have their actual effects hindered.

For example, a *continual flame* would dim slightly, but its overall magic would not be affected.

An *energy transformation field* has a single spell linked to it. When the field has absorbed spell levels equal to the spell level of its linked spell, it automatically casts that spell at a point within the field as designated by you at the time of the casting of the field.

This expends those absorbed spell levels (although unused levels remain until they are used or expire).

The cast spell functions as if cast by you in terms of duration and all level-based spell effects.

Absorbed spell levels fade at a rate of one per day if not used.

The field automatically triggers its linked spell if it has enough stored spell levels and the duration of its previous casting has expired.

If a linked spell requires concentration to maintain, the field expends one spell level for every hour of concentration (the field's concentration is only interrupted by its complete destruction).

Spells that require a target will target the living creature nearest to the *energy transformation field*.

Typical spells linked to an *energy transformation field* are *blindness/deafness*, *fireball*, *suggestion*, *summon monster*, and *wall of force*.

Spells that have a costly material component or an XP cost cannot be linked to a field, but those with a costly focus can be if the focus object is present within the field (typically sealed into a wall or in a secret compartment).

Halaster of Undermountain reputedly links *false vision* spells to thwart those who would spy on his master dungeon.

Only *Mordenkainen's disjunction*, *limited wish*, *wish*, or similar spells can destroy the *energy transformation field*.

Spells of lower level such as *dispel magic* and *greater dispelling* are absorbed by it, and an *antimagic field* prevents it from absorbing magical energy within the field but does not otherwise hamper this spell.

If two or more field spells share an overlapping area, each field has an equal chance of absorbing a spell effect in that area.

Material Component: Three drops of your blood, an eye from any humanoid, and 5,000 gp worth of powdered diamond.
XP Cost: 250 XP.

FIENDFORM

Transmutation [Evil]

Level: Sor/Wiz 6 (Red Wizard)

Components: V, M

Duration: 1 minute/level

As *polymorph self* (see *polymorph self*, page 239 of the *Player's Handbook*), except as noted above and as follows.

You may take the form of any fiendish creature, demon, or devil that can be summoned by *summon monster I–VI*.

You cannot assume multiple forms with each use of the spell, but you gain all the creature's extraordinary, spell-like, and supernatural abilities.

Your type changes to outsider, and spells and effects that harm or ward evil outsiders affect you.

A spell that would banish you to your home plane ends this spell and leaves you staggered for 1 round per caster level, but does not send you to another plane.

Material Component: A bone from any fiendish creature, half-fiendish creature, demon, or devil.

G'ELSEWHERE CHANT

Transmutation [Sonic, Teleportation]

Level: Brd 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One creature or object

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You teleport a target to a random, safe location up to 100 feet distant and visible to you.

To randomly determine the subject's destination, roll 1d8 to determine the direction, then roll 1d10 times 10 to determine the distance from the subject's previous location. Roll direction and distance again if this new destination is outside your line of sight, within a solid object, or more than 5 feet above ground.

If your target is being held (whether an object held by a character or a character being grappled by a creature), the holding or grappling creature also receives a Will saving throw to resist.

GEMJUMP

Transmutation [Teleportation]

Level: Sor/Wiz 7

Components: V, S, F

Casting Time: 1 full round

Range: Unlimited (see text)

Target: You and objects and willing creatures totaling up to 50 lb./level (see text)

Duration: Until triggered

Saving Throw: None/Will negates (harmless, object)

Spell Resistance: No/Yes (harmless, object)

This spell teleports you to the location of a specially prepared gem.

You initially cast *gemjump* upon a rogue stone (see the next chapter), which you must touch.

At any time after you prepare the stone you can utter a command word, and instantly teleport to the location of the gem, provided you and the stone are on the same plane.

The teleport is always on target (as though you are using a *teleport without error* spell).

If the area containing the gem is too small for you, you appear in the nearest sufficiently large space.

You can transport, in addition to yourself, objects and creatures weighing up to 50 pounds per caster level. Thus, a 15th-level wizard could transport his person and objects or creatures weighing an additional 750 pounds. Exceeding this limit causes the spell to fail.

An unwilling creature can't be teleported by *gemjump*.

Likewise, a creature's Will save (or spell resistance) prevents items in its possession from being teleported.

Unattended, nonmagical objects receive no saving throw.

You can only have one *gemjump* spell cast on a particular rogue stone at a time, but any number of other wizards can use the same stone you're using.

Focus: A rogue stone.

GHORUS TOTH'S METAL MELT

Transmutation [Fire]

Level: Sor/Wiz 4

Components: V, S, M

Range: Close (25 ft. + 5 ft./2 levels)

Target: Metal object weighing up to 5 lb./level

Duration: 1 round

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You alter the physical properties of a metal object so that it runs like water.

The melted metal does not change temperature but flows as a liquid for 1 round and then returns to its normal solid state, usually in a form resembling a puddle.

If the object is a magic item, this renders it broken and nonfunctional, although a character with the appropriate item creation feat can repair it.

Material Component: A drop of mercury in a vial.

GREATER MAGE HAND

Transmutation

Level: Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One object or creature weighing up to 10 pounds per caster level

Duration: Concentration

Saving Throw: Will negates

Spell Resistance: Yes

You point your finger at a target and can lift it and move it at will from a distance.

As a move-equivalent action, you can move the target up to 20 feet in any direction, though the spell ends if the distance between you and the object ever exceeds the spell's range.

A creature can negate the effect against itself or against an object it possesses with a successful Will save or with spell resistance.

The target can be moved vertically, horizontally, or both. It cannot be moved beyond your range.

An object can be telekinetically manipulated as if with one hand.

For example, a lever or rope can be pulled, a key can be turned, an object rotated, and so on, if the force required is within the weight limitation.

You might even be able to untie simple knots, though delicate activities such as these require Intelligence checks (DC set by the DM).

GUTSNAKE

Transmutation

Level: Sor/Wiz 4

Components: V, S, F

Casting Time: 1 action

Range: Personal

Effect: One magical snakelike tentacle

Duration: 1 round/level (D)

You sprout a 15-foot-long tentacle from your stomach that can attack enemies.

The tentacle has no eyes but ends in a pair of snapping reptilian jaws.

The tentacle is equivalent to a giant constrictor snake except that it is completely obedient to you and moves as you command it.

Attacks against the tentacle cause you no discomfort and do not disrupt your spellcasting.

If “killed”, the tentacle disappears without causing harm to you.

The tentacle does not interfere with spellcasting in any way.

As a free action on your turn, you may have the tentacle attack (as a giant constrictor), and if it successfully hits, it can constrict.

Each round the *gutsnake* is constricting a target, you may not move more than 5 feet away from the target, unless you are strong enough to drag it with you.

This is the only way in which the tentacle restricts movement.

While the snake is present, you may use its Balance and Climb skill modifiers instead of your own.

Focus: A fang from any reptile.

HARDENING

Transmutation

Level: Sor/Wiz 6

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One item of a volume no greater than 10 cu. ft./level (see text)

Duration: Permanent

Saving Throw: None

Spell Resistance: Yes (object)

This spell increases the hardness of materials (see Table 8–12: Substance Hardness and Hit Points, page 136 of the *Player's Handbook*).

Paper becomes harder to tear, glass becomes harder to break, wood becomes more resilient, and so on.

For every two caster levels, add 1 point of hardness to the material targeted by the spell.

This hardness increase improves only the material's resistance to damage.

Nothing else is modified by the improvement.

For example, a longsword (treat steel as iron, base hardness 10) affected by a *hardening* spell cast by a 12th-level caster would have a new hardness of 16 for purposes of ignoring damage caused by someone using the Sunder feat.

The sword's hit points, attack and damage modifiers, and other factors are not affected.

The *hardening* spell does not in any way affect resistance to other forms of transformation.

Ice still melts, paper and wood still burn, rock still becomes transmutable to mud with the proper spell, and so on.

This spell affects up to 10 cubic feet/level of the spellcaster.

If cast upon a metal or mineral, the spell's volume is reduced to 1 cubic foot/level.

HUNTER'S MERCY

Transmutation

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: See text

This transmutation makes a bow strike true.

Your next attack with the bow (if it is made before the end of the next round) hits and automatically threatens a critical hit.

If you don't hit in the round following the casting of this spell, the effect is wasted.

INFERNO

Transmutation [Fire]

Level: Drd 5

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

You cause one creature to burst into flames.

The subject's clothing, items, hair and flesh burn with ferocity.

The fire deals 2d6 points of damage per round until the spell ends or the subject manages to extinguish the flames.

Flammable, nonmagical items carried by the target automatically fail their saves to resist this damage.

Against creatures lacking flammable flesh, hair, clothing, and items, the spell has no effect.

After the first round, the target can take a full-round action to attempt to extinguish the flames before taking additional damage.

It takes a successful Reflex saving throw (DC 15) to extinguish the flames.

Rolling on the ground allows the character a +2 bonus.

Leaping into a lake or magically extinguishing the flames automatically smothers the flames.

Material Component: A gob of beeswax.

JAWS OF THE WOLF

Transmutation

Level: Drd 4

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One or more created wolves

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You turn small wooden carvings into wolves (one for every two caster levels) that appear between you and your opponents.

The wolves act on their own but obey your mental commands.

The wolves are normal in all respects except that they have spell resistance 13 and the special ability of frightful presence (see the *Monster Manual*).

At the end of the spell, the wolves become carvings again.

Focus: One carving of a wolf for each that you create.

KAUPAER'S SKITTISH NERVES

Transmutation

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: None (harmless)

Spell Resistance: Yes

You enhance the target's reactions in combat, granting him a +5 bonus on initiative checks.

LAERAL'S CUTTING HAND

Transmutation

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: Your hand

Duration: 1 round/level (D)

You alter the structure of your hand so that it becomes as hard and sharp as a blade.

Your hand gains a +2 enhancement bonus on attack and damage when making unarmed attacks, and you inflict normal damage instead of subdual damage.

You are considered armed with this hand.

You cannot use that hand to cast spells, but can otherwise use the hand normally.

Your hand's enhancement bonus does not apply to melee touch attacks.

LAUNCH BOLT

Transmutation

Level: Sor/Wiz 0

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One crossbow bolt in your possession

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You cast this spell on a crossbow bolt, causing it to fly at a target of your choice as if you had fired it from a light crossbow.

Any properties of the bolt (such as magical abilities, masterwork quality, and so on) or feats you possess (such as Point Blank Shot, Weapon Focus [light crossbow], and so on) apply.

LAUNCH ITEM

Transmutation

Level: Sor/Wiz 1

Components: S

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Target: One Fine item in your possession, weighing up to 10 lb.

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You cause a Fine item in your possession to fly at great speed to a target or location you specify.

The spell protects the item from any damage caused by this launching (for example, an egg would not crack from being hurled by the spell, a flask of alchemist's fire would not break from the sudden acceleration) but does not protect it from damage caused by striking the target.

This spell is normally used to launch dangerous items (flasks of acid, thunderstones, and so on) farther than you could normally throw them.

Even strange magical effects (such as the glowing bead from a *delayed blast fireball* spell) can be safely launched by this spell.

LOW-LIGHT VISION

Transmutation

Level: Asn 1, Hrp 1, Hth 1, Rgr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You give the subject creature low-light vision, the ability to see twice as far as a human in starlight, moonlight, torchlight, and similar conditions of poor illumination. The subject retains the ability to distinguish color and detail under these conditions.

Arcane Material Component: A small candle.

LUTZAEN'S FREQUENT JAUNT

Transmutation [Teleportation]

Level: Sor/Wiz 5

Range: Close (25 ft. + 5 ft./2 levels)

Duration: 1 round/2 levels

As *dimension door*, except as noted above and that you can transfer yourself once per round as a move-equivalent action that does not provoke an attack of opportunity.

MASS CAMOUFLAGE

Transmutation

Level: Drd 4, Hrp 4, Rgr 4

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: Any number of creatures, no two of which can be more than 60 ft. apart

Duration: 10 minutes/level

As *camouflage*, except the effect is mobile with the group.

The spell is broken for any individual who moves more than 60 feet from the nearest other member of the group.

If only two individuals are affected, the one moving away from the other one loses its camouflage.

If both are moving away from each other, they both become visible when the distance between them exceeds 60 feet.

MASS TELEPORT

Transmutation [Teleportation]

Level: Sor/Wiz 7

Components: V, S

Casting Time: 1 full round

Target: Touched objects or touched willing creatures weighing up to 100 lb./level

As *teleport* (see page 264 of the *Player's Handbook*), except as noted above.

You do not have to teleport yourself when you cast a *mass teleport* spell.

MASTER AIR

Transmutation

Level: Drd 2

Components: V, S, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You sprout a pair of insubstantial feathery or batlike (your choice) wings.

You can fly at a speed of 90 feet (60 feet if you're wearing medium or heavy armor).

You can ascend at half speed and descend at double speed.

You have a maneuverability of Good.

Using *master air* requires as much concentration as walking, so you can attack or cast spells normally.

You can charge but not run, and you cannot carry aloft more weight than your maximum load (see *Carrying Capacity*, page 141 of the *Player's Handbook*), plus any armor you wear.

Should the spell duration expire while you are still aloft, the magic fails slowly.

You drop 60 feet per round for 1d6 rounds.

If you reach the ground in that amount of time, you land safely.

If not, you fall the rest of the distance, taking falling damage of 1d6 per 10 feet of fall.

Since dispelling a spell effectively ends it, you also fall in this way if the *master air* spell is dispelled.

Focus: A wing feather from any bird or the wing bone of any bat.

MASTER EARTH

Transmutation

Level: Drd 7

Components: V, S, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: Instantaneous

You travel straight through the earth itself to a destination you choose.

The movement is instantaneous and has no distance limitations (though the location must be on the same world).

You need only think of where you want to go.

If you don't think of an exact location, the earth carries you to the periphery of the general area you imagine.

For example, if you want to go to the Shining Plains but you can't remember any specific landmarks, the earth brings you back on the surface at the nearest edge of the Shining Plains.

The earth never leaves you stranded inside it.

It always puts you back on the surface even if it cannot deliver you to your chosen destination.

It takes you as far as it can.

Underground, creature-built structures don't hinder you as long as you can move around them.

This spell only functions on the Material Plane.

Focus: The fossil of any animal.

MINOR DISGUISE

Transmutation

Level: Brd 0

Components: V, S

Casting Time: 1 action

Range: Personal

Duration: 1 hour

You use magic to make minor, cosmetic changes in your appearance.

The spell does not change the actual structure of either your features or body.

It can add color to hair, paint wrinkles on your face, give you a scar, or darken your teeth.

This spell gives you a +2 competence bonus on a single Disguise check made during its duration, and the bonus ends at the end of the spell's duration if not already used.

This bonus does not stack with the bonus from either *alter self* or *change self*.

NATURE'S BALANCE

Transmutation

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You lend some of your ability score points to your target.

You suffer a penalty of 1d4+1 points to any single ability score of your choice, and your target gains an equal enhancement bonus to the same ability score. (You don't get a saving throw to avoid the loss). If you cast this spell a second time within 1 hour, you suffer 2d10 points of damage.

ONE WITH THE LAND

Transmutation

Level: Drd 2, Hth 2, Rgr 2

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 hour/level

You forge a strong link with nature that gives you greater insight into your environment.

You gain a +2 competence bonus on Animal Empathy, Move Silently, Search, Hide, Intuit Direction, Wilderness Lore, and Handle Animal checks.

OWL'S INSIGHT

Transmutation

Level: Drd 5

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You invest your target with a taste of the ancient wisdom inherent in nature.

The target gains an enhancement bonus to his Wisdom score equal to half your level.

QUILLFIRE

Transmutation

Level: Drd 3

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round

Your hand sprouts poisonous quills that you can use in melee or as a ranged attack.

The quills inflict 1d8 points of damage +1 point/2 levels (maximum +5).

They may be thrown as a group using a single ranged attack roll (range increment 10 feet).

The quills are poisonous (injury DC 18, 1d6 Str/1d6 Str).

RAM'S MIGHT

Transmutation

Level: Drd 0, Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level

You add extra power to your unarmed attacks.

Your hands harden until they are similar to a ram's horn in texture and hardness.

Your unarmed attacks inflict normal (not subdual) damage.

You are considered armed.

The hardness has no other effect; you can cast spells and manipulate objects normally.

RIGHTEOUS FURY

Transmutation

Level: Pal 3

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Summoning the power of your deity, you charge yourself with positive energy.

This gives you 1d4 temporary hit points per caster level (maximum 10d4), a +2 natural armor bonus, a +2 enhancement bonus to Strength, a +2 enhancement bonus to Dexterity, and a +2 sacred bonus on Fortitude saves. Any undead creature striking you with its body deals you normal damage, but at the same time the attacker takes 1 point of damage from the positive energy, as if from a *cure minor wounds* spell.

SCENT

Transmutation

Level: Drd 2, Rgr 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You give the target an enhanced sense of smell, equivalent to the scent ability of some monsters.

This ability allows the creature to detect approaching enemies, sniff out hidden foes, and track by sense of smell. Creatures with the scent ability can identify familiar odors just as humans do familiar sights.

The creature can detect opponents within 30 feet by sense of smell.

If the opponent is upwind, the range increases to 60 feet; if downwind, it drops to 15 feet.

Strong scents, such as smoke or rotting garbage, can be detected at twice the ranges noted above.

Overpowering scents, such as skunk musk or troglodyte stench, can be detected at triple normal range.

When a creature detects a scent, the exact location is not revealed—only its presence somewhere within range.

The creature can take a partial action to note the direction of the scent.

If it moves within 5 feet of the source, the creature can pinpoint that source.

A creature with the scent ability can follow tracks by smell, making a Wisdom check to find or follow a track.

The typical DC for a fresh trail is 10 (no matter what kind of surface holds the scent).

This DC increases or decreases depending on the strength of the quarry's odor, the number of creatures, and the age of the trail.

For each hour that the trail is cold, the DC increases by 2.

The ability otherwise follows the rules for the Track feat.

Creatures tracking by scent ignore the effects of surface conditions and poor visibility.

Arcane Material Components: A sprinkle of mustard and pepper, and a drop of sweat.

SILVERBEARD

Transmutation

Level: Pal 1 (Clangeddin Silverbeard)

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level

Your beard grows and turns to pure and magically hardened silver, increasing the armor bonus of your armor by +2.

An outfit of regular clothing counts as armor that grants an AC bonus for the purpose of this spell.

If you do not have a beard, you grow one for the duration of this spell (even if you are a creature that cannot normally grow a beard, such as an elf or a female human).

You get a +2 circumstance bonus on Diplomacy checks against dwarves.

Repeated uses of this spell eventually result in your beard turning a natural silver color (if you cannot normally grow a beard, this secondary effect does not occur).

SIMBUL'S SKELETAL DELIQUESCENCE

Transmutation

Level: Sor/Wiz 8

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 day/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

You turn the bones and hard tissue of the subject to mush, making him a strange sort of ooze-like creature.

He immediately collapses into a heap, lacking the ability to maintain his previous shape.

His Dexterity becomes 1, his speed becomes Swim 10 ft., and he loses the ability to attack, speak, carry objects, or cast spells with somatic components.

He can still use spell-like and supernatural abilities.

He cannot be flanked and is immune to critical hits.

His equipment is not affected.

This spell is normally used as a punishment or to disable opponents without killing them.

SIMBUL'S SPELL MATRIX

Transmutation

Level: Sor/Wiz 5

Components: V, S, F

Casting Time: 1 action

Range: Personal

Target: Up to four of your spells

Duration: 10 minutes/level (D)

You prepare a magical matrix that allows you to store up to four spells of up to 3rd level that you can cast individually as free actions.

You cast *Simbul's spell matrix*, and each round thereafter cast one of the spells to be stored in the matrix (the matrix closes after the fourth round and no more spells can be added, even if it is not full).

Only spells that can be altered by the Quicken Spell feat can be placed in the matrix.

Each spell placed in the matrix deals 1d6 points of damage to you, and this damage cannot be healed by any means while the matrix exists.

While the matrix spell is active, you can cast any of the spells stored in it once as a free action.

This counts as casting a quickened spell, so you cannot activate a matrix spell and cast a nonmatrix quickened spell in the same round.

Once a spell is cast from the matrix, it is gone.

Any spell in the matrix is treated as a prepared spell for dealing with effects that affect prepared spells.

A *dispel magic* spell that successfully dispels the matrix dispels all the spells in the matrix.

An *antimagic field* suspends the matrix but does not cause the first spell to fire (the matrix becomes active again when you are out of the *antimagic field*).

If you die, all spells in the matrix dissipate harmlessly.

Focus: A piece of amber with a minimum value of 500 gp.

SIMBUL'S SPELL SEQUENCER

Transmutation

Level: Sor/Wiz 7

As *Simbul's spell matrix*, except that spells of up to 5th level may be placed in the matrix.

In addition, you may decide to link two or more of the matrixed spells into a spell sequence.

Spells to be linked into a sequence must be of 2nd level or lower.

You may discharge all the spells linked into a single sequence with a free action, just as if you were casting one spell out of the *Simbul's spell matrix*.

Focus: A sapphire with a minimum value of 1,000 gp.

SIMBUL'S SPELL TRIGGER

Transmutation

Level: Sor/Wiz 9

As *Simbul's spell sequencer*, except that the spells to be held in the matrix may be as high as 7th level, and you may create a spell sequence of spells of 4th level or less.

In addition, you may designate one spell or one spell sequence held in the matrix to come into effect under a condition you dictate when casting *Simbul's spell trigger*.

This function works much like a *contingency* spell.

The spell (or sequence of spells) to be brought into effect by the triggering condition must be of a type that affect your person, such as *feather fall* or *levitate*.

The conditions needed to bring the matrix spells into effect must be clear, although they can be general.

In all cases, *Simbul's spell trigger* immediately brings into effect the designated spell (or sequence of spells), which are

“cast” instantaneously when the prescribed circumstances occur.

You cannot choose to have the spell or spells not come into effect when the triggering event occurs.

Focus: A diamond with a minimum value of 1,500 gp.

SIMBUL'S SYNOSTODWEOMER

Transmutation

Level: Sor/Wiz 7

Components: V, S

Casting Time: 1 full round

Range: Personal

Target: One of your spells

Duration: 1 round

Saving Throw: None

Spell Resistance: Yes

You channel the spell energy from a spell you know into healing magic.

After you cast this spell, on your next turn you cast another spell, which is converted to positive energy.

On the round you cast the second spell, you may touch yourself or another creature, curing 1d6 hit points of damage for every spell level of the spell you cast.

If the spell you cast was prepared with a metamagic feat, you use the level of the spell slot the spell occupied.

SMELL OF FEAR

Transmutation

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You bestow your target with an aroma that attracts predators.

The smell triples the chance of encountering wandering monsters in the area.

Attracted creatures won't necessarily attack the target to the exclusion of others; they're just attracted to the area.

SNAKEBITE

Transmutation

Level: Drd 3, Rgr 4

Components: V, S

Casting Time: 1 action

Range: Personal

Area: You

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

One of your arms turns into a venomous snake with a fanged, biting mouth.

The bite does 1d3 points of damage and carries a toxic venom (1d6 Con/1d6 Con).

Each instance of damage can be negated by a Fortitude save (DC 10 + one-half caster level + caster's Wisdom modifier).

If the victim fails either save, he must also make a Will save (DC as normal for spell) or be paralyzed for 1d4 rounds.

You can't hold a weapon with your transformed hand, but your other hand can be used to wield weapons or cast spells with somatic components.

Attacking with the transformed hand and a weapon incurs the standard two-weapon fighting penalties (see Table 8-2: Two-Weapon Fighting Penalties, page 125 of the *Player's Handbook*).

You can only be under the effect of one *snakebite* spell at any given time.

SONGBIRD

Transmutation

Level: Brd 0

Components: V, S

Casting Time: 1 full round

Range: Personal

Duration: Performance +1 hour or until discharged (see text)

You acquire an even greater Charisma when you perform. Anyone who hears or views your performance becomes favorably inclined toward you.

This spell grants you a +1 competence bonus on your next Charisma check to influence an NPC's attitude (for details, see NPC Attitudes, page 149 of the *DUNGEON MASTER'S Guide*) or Charisma-based skill check against any one person who saw the performance.

This effect lasts for the duration of the performance and up to 1 hour immediately following.

You must begin the performance within 1 hour of casting the spell for it to have any effect.

SPEED SWIM

Transmutation

Level: Drd 1, Rgr 1, Sor/Wiz 1

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 minute/level (D)

Saving Throw: Yes (harmless)

Spell Resistance: Yes (harmless)

You give the subject creature the ability to swim at speed 30 feet (ignoring the effects of armor and encumbrance) without having to make Swim checks.

He gets a +8 racial bonus on any Swim check to perform some special action or avoid a hazard.

He can always choose to take 10, even if rushed or threatened when swimming.

He can use the run action while swimming, provided he swims in a straight line.

Focus: A miniature wooden paddle.

SPELL ENHANCER

Transmutation

Level: Sor/Wiz 4

Components: V

Casting Time: See text

Range: Personal

Effect: One of your spells

Duration: 1 round

This spell enhances the next spell you cast, making it more difficult for targets to resist.

Casting *spell enhancer* is a free action, allowing you to cast the spell to be enhanced in the same round as this spell. The saving throw DC of the enhanced spell is increased by +2.

SPELL PHYLACTERY

Transmutation

Level: Clr 5 (Mystra)

Components: V, S, DF

Casting Time: 10 minutes

Range: Touch

Target: Scroll touched

Duration: Permanent until triggered

Saving Throw: None (object)

Spell Resistance: Yes (object)

You create a set of triggering conditions for the targeted scroll so that if these conditions are met, the spell on the scroll is cast upon you as if you were spending a standard action to cast the scroll yourself.

If the scroll contains a spell that is not on your spell list, it is not cast when the triggering condition occurs and the magic of the *spell phylactery* dissipates.

Any limitations involved in your reading the scroll normally (such as a minimum ability score or requiring a caster level check) still apply, and if they are not met, the *spell phylactery* magic dissipates.

The conditions needed to bring the spell into effect must be clear, although they can be general.

For example, a *spell phylactery* with a scroll of *water breathing* might prescribe that any time you are plunged into or otherwise engulfed in water or similar liquid, the *water breathing* scroll instantly comes into effect.

If complicated or convoluted conditions are prescribed, the *spell phylactery* may fail when called on.

The scroll is activated based solely on the stated conditions, regardless of whether you want it to.

The scroll prepared with this spell must be bound to your arm or forehead (usually rolled tightly or placed in a small box for this purpose) and counts as a bracer or headband in terms of space limitations for magic items.

The spell on the scroll must be of a spell level no higher than one-third your caster level (rounded down, maximum 5th level).

The spell on the scroll must be one that affects your person, and the triggering conditions must be clear as defined in the *contingency* spell.

If another person wears the *spell phylactery*, the magic of this spell ends.

You may remove and rewear the *spell phylactery* without penalty, but if 24 hours pass without your wearing it, the magic of the *spell phylactery* ends.

The termination of this spell does not harm the spell on the scroll.

STALKING BRAND

Transmutation

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 day/level

Saving Throw: None

Spell Resistance: Yes

Your touch marks your target with a tiny symbol visible only to you and to *detect magic*.

The brand appears as you envision it, approximately an inch in diameter.

You can still see the brand, even if the subject uses magical means to change or hide her appearance.

Even spells such as *change self*, *polymorph self*, and *invisibility* do not hide the brand.

To your eyes, the mark glows a light green.

STONE BONES

Transmutation

Level: Sor/Wiz 2, Clr 2

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Corporeal undead creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause the skeleton of the target corporeal undead to become thicker and as strong as stone.

This gives the target a +3 natural armor bonus to AC.

It has no effect if the creature has no skeleton (such as an undead plant or octopus) but works normally on creatures that have exoskeletons (such as insects).

Another version of this spell is rumored to exist that works on living creatures, but causes wracking pains because of the radical alteration of its skeleton.

The other version has fallen out of use because few creatures willingly subject themselves to it (except perhaps worshipers of Loviatar).

Arcane Focus: A miniature skull carved of granite.

STONE WALK

Transmutation [Teleportation]

Level: Clr 6 (Bane)

Components: V, S, M (see text)

Casting Time: 10 minutes

Range: Touch

Target: Stone touched

Duration: Permanent until discharged

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You magically link one location to another so that you or another may speak a command word at one end and be teleported to the other end.

Before you cast the spell, you must prepare the ends of the link, both of which must be areas of stone 5 feet square.

This preparation takes 1 hour, and functions for repeated castings of the spell as long as the stones are not damaged.

When the spell is cast, the stones become attuned to a command word you designate.

Any creature that speaks the command word while standing upon one of the stones is teleported without error to the other end instantaneously.

The stones function once for every four caster levels, and can carry 50 pounds per caster level each time.

Creatures that exceed the weight limitation are not transported and count as one of the uses of the spell.
Material Component: The preparation of each of the ends of the link requires a paste made from rubies and amber worth 2,500 gp.
Casting the spell requires a 2,500 gp diamond.
Activating one of the linked stones once the spell is cast does not require any material components.

STORMRAGE

Transmutation [Electricity]

Level: Clr 8 (Talos)

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You harness the powers of wind and storm to move, protect yourself, and attack.

You gain the benefits of a *fly* spell and are protected from each direction as if surrounded by a *wind wall* spell.

You are completely unaffected by natural or magical wind (such as a hurricane or a *gust of wind* spell), easily able to hold your position and completely unaffected by other adverse effects of extreme wind (such as having to make Concentration checks because of strong winds).

Finally, you can discharge bolts of electricity from your eyes.

Your caster level is the total number of d6 worth of bolts that you can create with this spell (maximum 20d6).

You may use them all at once or divide the dice over several rounds.

For example, a 16th-level caster can fire an 8d6 bolt on one round and another 8d6 bolt on the next, fire sixteen bolts over 16 or more rounds (each doing 1d6 electricity damage), or make one large bolt that deals 16d6.

Each bolt affects only one creature.

Any bolt, regardless of its damage, has a range of 100 feet.

Launching a bolt is a standard action that does not provoke an attack of opportunity and requires a ranged touch attack (you gain a +3 attack bonus if the opponent is wearing metal armor, made out of metal, or carrying a lot of metal).

STRENGTH OF STONE

Transmutation

Level: Pal 2 (Moradin)

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 hour/level You become stronger.

The spell grants an enhancement bonus to Strength of 1d4+1 points, adding the usual benefits to melee attack rolls, melee damage rolls, and other uses of the Strength modifier.

The spell ends instantly if you ever lose contact with the ground.

This means you cannot jump, tumble, charge, run, or move more than your speed in a round (because these acts cause both of your feet to leave the ground) without breaking the spell.

A natural stone wall or ceiling counts as the ground for the purpose of this spell (so you could climb a cavern wall and not lose the spell).

SUPPRESS GLYPH

Transmutation

Level: Clr 6 (Deneir)

Components: V, S

Casting Time: 1 action

Range: 100 ft.

Area: 100-ft.-radius emanation centered on you.

Duration: 1 minute/level

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You gain an enhanced awareness of magical writing within range.

Magical writing such as a *glyph of warding*, *explosive runes*, *sepia snake sigil*, or *symbol* is covered by a blue nimbus of light (which sheds light equal to a candle).

This reveals the location of the writing but prevents it from being triggered.

You and other creatures could read a book warded by *explosive runes*, or open a drawer guarded by a *glyph of warding*, or pass through a doorway protected by a *symbol* without effect.

This spell covers and negates any active or triggered magical writing (such as a quickly scribed *symbol of fear* or a triggered symbol of death), although creatures that have already succumbed to the effects of the writing are unaffected.

Once this spell ends, all magical writing in the area can be triggered normally, and active or triggered writings resume their function if they have any duration left.

TRANSLOCATION TRICK

Transmutation

Level: Sor/Wiz 6

Components: V

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: You and one other creature

Duration: 10 minutes/level

Saving Throw: Will negates (see text)

Spell Resistance: Yes

You and the other creature switch locations (as if simultaneously using *dimension door* spells) and exchange appearances (as if using *alter self* spells to appear as each other).

Your target may resist this spell with a saving throw (the spell automatically affects you).

If you or your subject exceeds the capacity of the *dimension door* spell or if you and your subject have bodies that are so different that the *alter self* spell could not disguise you as your subject, this spell fails.

Magic that penetrates disguises (such as *true seeing*) reveals the identities of you and your subject.

Otherwise, you are considered to be disguised as the other creature and vice versa for the duration of the spell.

Actions by you or your subject (such as speaking inappropriately or attacking "allies") can force Disguise checks or alert people nearby that something is wrong.

You get a +10 bonus on Disguise checks to impersonate the subject.

When the spell ends, you and the creature revert to your true appearances in your current locations.

You do not switch locations again.

UNDEAD BANE WEAPON

Transmutation

Level: Pal 3 (Kelemvor)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Weapon touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You give a weapon the *undead bane* property in addition to any other properties it has.

Against undead, your weapon's enhancement bonus (if any) is +2 higher than normal and it deals +2d6 points of bonus damage against undead.

The spell has no effect if cast upon a weapon that already has the *undead bane* property.

At caster level 9 (paladin level 18) and above, the weapon gains a +1 enhancement bonus if it is not already a magic weapon.

Alternatively, you can affect up to fifty arrows, bolts, or bullets.

The projectiles must be of the same type, and they have to be together, such as in the same quiver.

Projectiles (but not thrown weapons) lose their transmutation after they have been fired.

The weapon is considered blessed, which means it has special effects on certain creatures.

Any weapon affected by this spell glows with a serene gray radiance that sheds as much light as a candle.

WARNING SHOUT

Transmutation [Sonic]

Level: Pal 1 (Arvoreen)

Components: V

Casting Time: 1 action

Range: See text

Area: See text

Duration: 1 round (see text)

Saving Throw: None

Spell Resistance: No

You speak up to five words, which are magically amplified to be heard by all hearing creatures within half a mile. All within the area hear the words as loud as you spoke them.

The spell does not harm people who hear it and cannot transmit magical effects (such as a harpy's song, sonic spells, or charm effects), although a creature already affected by a magical effect (such as a *suggestion*) could respond to a nonmagical trigger word deployed by a *warning shout*.

Anyone sleeping naturally (as opposed to magically induced sleep, such as from a *sleep* spell) within the area is woken by the *warning shout*.

WEAPON OF IMPACT

Transmutation

Level: Brd 3, Clr 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One weapon or fifty blunt projectiles, all of which must be in contact with one another at the time of casting

Duration: 10 minutes/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

This spell makes a blunt weapon have greater impact, improving its ability to deal telling blows.

This transmutation doubles the threat range of the blunt weapon.

A normal threat range of 20 becomes 19–20.

A threat range of 19–20 becomes 17–20.

The spell has no effect on piercing or slashing weapons, and it does not stack with itself.

If cast on sling bullets or other blunt projectiles, the *weapon of impact* effect on a particular projectile ends after one use, whether or not the missile strikes its intended target.

WEAPON OF THE DEITY

Transmutation

Level: Blk 4, Clr 4, Pal 4

Components: V, DF

Casting Time: 1 action

Range: Personal

Target: Your weapon

Duration: 1 round/level

You must be using your deity's favored weapon to cast this spell.

You may use the weapon as if you had proficiency with it even if you normally do not.

The weapon gains a +1 enhancement bonus on attack and damage rolls, and an additional special ability (see the list below).

A double weapon gains this enhancement bonus and special ability for only one of its two heads, as chosen by the caster.

If your deity's weapon is "unarmed strike", your hand is treated as if under the effects of a *magic fang* (or *greater magic fang*, as appropriate) spell, that hand is considered armed, the special ability functions normally, and you can touch creatures without invoking the special ability if you desire.

When your caster level reaches 9th, the enhancement bonus of the weapon increases to +2.

At 12th level, the bonus rises to +3, at 15th level it is +4, and at 18th level it is +5.

Weapon of the Deity List

Abbathor: +1 returning dagger
Aerdrie Faenya: +1 shock quarterstaff
Akadi: +1 screaming* heavy flail
Angharradh: +1 spell storing longspear
Anhur: +1 defending falchion
Arvoreen: +1 defending short sword
Auril: +1 frost battleaxe
Azuth: +1 spell storing quarterstaff

Baervan Wildwanderer: +1 shock halfspear
Bahgtru: +1 keen spiked gauntlet
Bane: +1 shock morningstar
Baravar Cloakshadow: +1 ghost touch dagger
Berronar Truesilver: +1 mighty cleaving heavy mace
Beshaba: +1 keen scourge
Brandobaris: +1 returning dagger
Callarduran Smoothhands: +1 defending battleaxe
Chauntea: +1 keen scythe
Clangeddin Silverbeard: +1 throwing battleaxe
Corellon Larethian: +1 keen longsword
Cyrlic: +1 flaming longsword
Cyrrollalee: +1 mighty cleaving quarterstaff
Deep Duerra: +1 screaming* battleaxe
Deep Sashelas: +1 frost trident
Deneir: +1 spell storing dagger
Dugmaren Brightmantle: +1 keen short sword
Dumathoin: +1 mighty cleaving maul
Eilistraee: +1 flaming bastard sword
Eldath: +1 mighty cleaving light mace
Erevan Ilesere: +1 keen short sword
Fenmarel Mestarine: +1 throwing dagger
Finder Wyvernspur: +1 screaming* bastard sword
Flandal Steelskin: +1 flaming warhammer
Gaerdal Ironhand: +1 screaming* warhammer
Garagos: +1 keen longsword
Gargauth: +1 returning dagger
Garl Glittergold: +1 keen battleaxe
Geb: +1 mighty cleaving quarterstaff
Ghaunadaur: +1 corrosive* warhammer
Gond: +1 shock warhammer
Gorm Gulthyn: +1 flaming dwarven waraxe
Grumbar: +1 mighty cleaving warhammer
Gruumsh: +1 returning shortspear or longspear
Gwaeron Windstrom: +1 flaming greatsword
Haela Brightaxe: +1 flaming greatsword
Hanali Celanil: +1 defending dagger
Hathor: +1 keen short sword
Helm: +1 defending bastard sword
Hoar: +1 shock javelin
Horus-Re: +1 flaming khopesh
Ilmater: +1 shock unarmed strike
Ilneval: +1 keen longsword
Isis: +1 spell storing punch dagger
Istishia: +1 shock warhammer
Jergal: +1 ghost touch scythe
Kelemvor: +1 keen bastard sword
Kiaransalee: +1 corrosive* dagger
Kossuth: +1 flaming spiked chain
Labelas Enoreth: +1 frost quarterstaff
Laduguer: +1 defending warhammer
Lathander: +1 flaming light mace
Lliira: Three +1 returning shuriken
Lolth: +1 keen dagger

Loviatar: +1 shock scourge
 Lurue: +1 keen shortspear
 Luthic: +1 ghost touch claw bracer
 Malar: +1 keen claw bracer
 Marthammor Duin: +1 shock heavy mace
 Mask: +1 frost longsword
 Miellikki: +1 frost scimitar
 Milil: +1 keen rapier
 Moradin: +1 mighty cleaving warhammer
 Mystra: Three +1 returning chakram
 Nephthys: +1 defending whip
 Nobanion: +1 screaming* heavy pick
 Oghma: +1 mighty cleaving longsword
 Osiris: +1 ghost touch light flail
 Red Knight: +1 screaming* longsword
 Rillifane Rallathil: +1 mighty cleaving quarterstaff
 Savras: +1 defending dagger
 Sebek: +1 keen longspear, shortspear, or halfspear
 Segojan Earthcaller: +1 mighty cleaving club
 Sehanine Moonbow: +1 ghost touch quarterstaff
 Selune: +1 shock heavy mace
 Selvetarm: +1 corrosive* heavy mace
 Set: +1 venomous* longspear, shortspear, or halfspear
 Shar: +1 returning chakram
 Sharess: +1 keen claw bracer
 Shargaas: +1 defending short sword
 Sharindlar: +1 shock whip
 Shaundakul: +1 warning* greatsword
 Sheela Peryroyl: +1 screaming* quarterstaff
 Shevarash: +1 keen longbow
 Shiallia: +1 mighty cleaving quarterstaff
 Siamorphe: +1 flaming light mace
 Silvanus: +1 shock maul
 Solonor Thelandira: +1 distance longbow
 Sune: +1 flaming whip
 Talona: +1 venomous* unarmed strike
 Talos: +1 shock shortspear
 Tempus: +1 mighty cleaving battleaxe
 Thard Harr: +1 keen claw bracer
 Thoth: +1 spell storing quarterstaff
 Tiamat: +1 keen heavy pick
 Torm: +1 screaming* greatsword
 Tymora: Three +1 returning shuriken
 Tyr: +1 keen longsword
 Ubtao: +1 keen heavy pick
 Ulutiu: +1 frost longspear
 Umberlee: +1 shock trident
 Urdlen: +1 keen claw bracer
 Urogalan: +1 mighty cleaving dire flail
 Uthgar: +1 keen battleaxe
 Valkur: +1 spell storing cutlass
 Velsharoon: +1 frost spiked gauntlet
 Vergadain: +1 keen longsword
 Vhaeraun: +1 shock short sword

Waukeen: +1 flaming nunchaku
 Yondalla: +1 defending short sword
 Yurtrus: +1 shock unarmed strike

*New weapon special ability detailed in Chapter 6.

UNIVERSAL

SYMBOL

Universal [see text]

Level: Clr 8, Sor/Wiz 8

Components: V, S, M/DF (or V, S, M for carefully engraved)

This spell allows you to scribe any one of several potent runes.

Two new symbols are described below; the others appear in the *symbol* spell description in the *Player's Handbook*.

Death Symbol of Bane: This type of *symbol* was created by the worshipers of Bane and lost until that dark deity was reborn in 1372 DR.

A *death symbol of Bane* is always carefully engraved and never quickly scribed.

It is triggered as you designate, within the guidelines of the *symbol* spell.

However, a person wearing a holy *symbol of Bane* never triggers the spell.

A *death symbol of Bane* functions exactly like a *symbol of death*, except that any creatures within 60 feet of the *death symbol of Bane* that survive must make two more Fortitude saves, the first to avoid taking 1d12 points of cold damage and the second to avoid the effects of a *doom* spell.

This version of the *symbol* spell has the death and evil descriptors.

Material Component: A paste made from the *symbol* spell's material components and the blood of intelligent sacrificed creatures (minimum 3 Intelligence) whose Hit Dice total at least 30 that have been killed within the past year.

Once a creature's blood is used for this spell, that same creature's blood cannot be used in the material component for another *death symbol of Bane*.

Symbol of Spell Loss: This is another variant of the *symbol* spell.

When triggered, the *symbol of spell loss* begins to attack the minds of spellcasters within 60 feet.

Each caster must attempt a Will saving throw every round he or she is in this area.

Failure means that the highest-level spell prepared by the spellcaster (or highest-level spell slot, if the character casts spells like a sorcerer or bard) is lost.

The *symbol* remains until it has erased 30 levels of spells.

The *symbol* attacks creatures with spell-like abilities as if they had spells.

It has no effect on creatures without spells or spell-like abilities.

This version of the *symbol* spell is a mind-affecting spell.

MAGIC OF INCARNUM

(3.5)

ABJURATION

ESSENTIA LOCK

Abjuration

Level: Cleric 4, Incarnum 4, sorcerer/wizard 4

Components: V, S, F/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

When you cast *essentia lock*, you freeze the subject's current allocation of *essentia* in place.

The target is unable to shift *essentia* to or from any soulmelds, feats, or other *essentia* receptacles he might possess, and must maintain his current allocation of *essentia* for the duration of the spell.

Creatures without *essentia* are unaffected by this spell.

Arcane Focus: A tiny padlock made of silver (10 gp).

PROTECTION FROM INCARNUM

Abjuration

Level: Blackguard 1, cleric 1, paladin 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: One creature

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: No; see text

You ward a creature from attacks by soulmelds and incarnum creatures.

The spell forms a barrier at a distance of 1 foot around the warded creature.

The barrier is normally invisible, but it flashes electric blue when struck by an incarnum creature's natural weapon attack or an effect generated by a soulmeld.

While protected, the subject gains a +2 deflection bonus to Armor Class and a +2 resistance bonus on saves.

Both of these bonuses apply only against natural weapon attacks made by incarnum creatures or effects created by soulmelds.

A side effect of this spell is that it prevents the subject from gaining *essentia*, even if such an effect would be considered beneficial.

Such effects automatically fail if targeted on the protected subject.

SOULBANNED ZONE

Abjuration

Level: Sorcerer/wizard 8

Components: V, S

Casting Time: 1 standard action

Range: Touch

Area: 40-ft. radius emanating from the touched point

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You create an immobile area within which no incarnum can be used.

All soulmelds are suppressed within the *soulbanned zone*. *Essentia* cannot be invested or reallocated by any creature within the area; currently invested *essentia* has no effect inside the zone.

Incarnum creatures are not otherwise affected by the *soulbanned zone* (they can enter normally).

Only creatures entirely within the *soulbanned zone* are affected.

Should a creature be larger than the area enclosed by the *soulbanned zone* (or only partially within it), it can use its *essentia* incarnum-based abilities normally.

SOULMELD DISJUNCTION

Abjuration

Level: Incarnum 9, sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: All soulmelds shaped on one creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

This spell rips apart the soulmelds shaped on a particular creature, unshaping them in a burst of scattered incarnum. Make a caster level check (1d20 + caster level, maximum +25) against each of the soulmelds shaped on the chosen creature (against a DC of 11 + meldshaper level), starting with the soulmeld with the highest *essentia* investment (break ties randomly).

Add +4 to the DC if the soulmeld is bound to a chakra.

Essentia invested in unshaped soulmelds returns to its owner's *essentia* pool.

SUPPRESS MAGIC

Abjuration

Level: Cleric 2, hexblade 2, sorcerer/wizard 2

Components: V, S (E)

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One object or soulmeld

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

You attempt to suppress the functioning of a single magic item or soulmeld.

If you succeed on a caster level check against the item or soulmeld (against a DC of 11 + meldshaper level), the item or soulmeld loses all magical properties for the duration of the spell.

This is identical to the effect of a *dispel magic* spell targeted on an object, except for duration and your ability to invest *essentia* to improve your caster level check.

This spell has no effect on ongoing spell effects, even if those effects are on items (such as *greater magic weapon*).

Essentia: Every point of essentia invested in this spell grants you a +2 insight bonus on your caster level check to suppress the item. If the spell fails to affect the item, the invested essentia immediately returns to your pool.

UNSHAPE SOULMELD

Abjuration

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You unshape (destroy) one soulmeld currently shaped on the target creature.

You can choose a specific soulmeld if you wish; otherwise, the soulmeld affected is chosen randomly from all those currently shaped on the target.

To succeed in unshaping the soulmeld, you must make a caster level check (1d20 + your caster level, maximum +15) against a DC of 11 + the meldshaper level of the soulmeld (add +4 to the DC if the soulmeld is bound to a chakra).

If the unshaped soulmeld was bound to one of the target's chakras, the target takes damage equal to 3d6 points plus 1 additional point per caster level (maximum 3d6+15).

Essentia invested in an unshaped soulmeld returns to the target's essentia pool.

If the target creature has no soulmelds shaped, this spell has no effect.

CONJURATION

CONJURE GREATER MIDNIGHT CONSTRUCT

Conjuration (Creation) [Incarnum]

Level: Sorcerer/wizard 8

As *conjure lesser midnight construct*, except as noted above and as follows.

You conjure a greater midnight construct instead of a lesser midnight construct.

Essentia: In addition to the options listed for *conjure lesser midnight construct* and *conjure midnight construct*, you gain two new options for modifying your midnight construct by investing essentia:

- **Teleportation:** Bestow the ability to teleport as a move action, with a range of 20 feet per point of essentia invested (40 feet for 2 points of essentia, 60 feet for 3 points, and so on).

- **Soulburning Aura:** Bestow a damaging aura of dark soul-energy.

The aura deals 1 point of Strength damage per point of essentia invested (Will negates, DC 10 + 1/2 construct's HD + essentia invested) to all creatures adjacent to the construct at the end of the construct's turn.

CONJURE LESSER MIDNIGHT CONSTRUCT

Conjuration (Creation) [Incarnum]

Level: Sorcerer/wizard 4

Components: V, S, M (E)

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One conjured midnight construct

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You create a single lesser midnight construct (see page 184).

The creature appears where you designate and acts immediately, on your turn.

It attacks your opponents to the best of its ability.

As a free action, you can mentally direct it not to attack, to attack particular enemies, or to perform other actions.

The midnight construct acts normally on the last round of the spell's duration and dissipates at the end of its turn.

Midnight constructs are not summoned; they are created on the plane you inhabit, using incarnum you coalesce.

Thus, they are not subject to effects that hedge out or otherwise affect outsiders or summoned creatures.

Essentia: You can invest essentia in a midnight construct when you create it to gain one or more of the following modifications to the construct.

Every point of essentia can be invested in any one modification.

- **Combat Power:** +1 enhancement bonus on attack rolls and damage rolls per point of essentia invested.

- **Damage Reduction:** Increase the construct's DR by 2 points per point of essentia invested.

- **Land Speed Increase:** Increase the construct's land speed by 10 feet per point of essentia invested.

Material Component: A bead of dark glass.

CONJURE MIDNIGHT CONSTRUCT

Conjuration (Creation) [Incarnum]

Level: Sorcerer/wizard 6

As *conjure lesser midnight construct*, except as noted above and as follows.

You conjure a midnight construct instead of a lesser midnight construct.

Essentia: In addition to the options listed for *conjure lesser midnight construct*, you gain two new options for modifying your midnight construct by investing essentia:

- **Fly Speed:** Bestow a fly speed of 20 feet per point of essentia invested (40 feet for 2 points of essentia, 60 feet for 3 points, and so on).

- **Deadly Aura:** Bestow a damaging aura.

The aura deals 1d6 points of damage per point of essentia invested (Fort half, DC 10 + 1/2 construct's HD + essentia invested) to all creatures adjacent to the construct at the end of the construct's turn.

INCARNUM BLADESTORM

Conjuration (Creation) [Incarnum]

Level: Incarnum 7, sorcerer/wizard 7

Components: V, S, M (E)

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (20 ft. radius, 40 ft. high)

Duration: 1 round/level

Saving Throw: Will half

Spell Resistance: No

This spell creates a whirling storm of jagged incarnum blades that inflict psychic damage on all within their area. This storm of incarnum blades deals 1d6 points of Wisdom damage to all living creatures within the area (Will half). This damage is dealt each round at the end of your turn (as well as to any creature who enters the storm). You can move the *incarnum bladestorm* up to 10 feet as a move action.

Essentia: For every point of essentia you invest, the incarnum blades deal 1 additional point of Wisdom damage.

Material Component: A handful of needles.

INCARNUM WEAPON

Conjuration (Creation) [Incarnum]

Level: Cleric 5, Incarnum 5

Components: V, S (E)

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Large weapon of incarnum

Duration: 1 round/level (D)

Saving Throw: Will partial

Spell Resistance: No

An oversized weapon made of pure incarnum springs into existence and attacks opponents at a distance, as you direct it, dealing 2d6 points of damage per hit.

In addition, any living creature struck by the *incarnum weapon* takes 1 point of Wisdom drain (a successful Will save negates the Wisdom drain).

The weapon takes a form based on your alignment: battleaxe (chaotic), flail (evil), warhammer (good), or longsword (law).

Casters can choose any weapon whose alignment is not opposed to theirs (neutral casters can choose any of the four weapons).

Regardless of the weapon's form, it threatens a critical only on a 20 and deals double damage on a critical hit.

The *incarnum weapon* strikes the opponent you designate, starting with one attack in the round the spell is cast and continuing each round thereafter on your turn.

It uses your base attack bonus (possibly allowing it multiple attacks per round in subsequent rounds) plus your Wisdom modifier as its attack bonus.

It strikes as a spell, not as a weapon; for example, it can damage creatures that have damage reduction.

The weapon always strikes from your direction.

It does not get a flanking bonus or help a combatant get one.

Your feats or combat actions do not affect the weapon.

If the weapon goes beyond the spell range, if it goes out of your sight, or if you are not directing it, it returns to you and hovers.

Each round after the first, you can use a move action to redirect the weapon to a new target.

If you do not, the weapon continues to attack the previous round's target.

On any round that the weapon switches targets, it gets one attack.

Subsequent rounds of attacking that target allow the weapon to make multiple attacks if your base attack bonus would allow it to.

An *incarnum weapon* cannot be harmed by physical attacks, but it can be affected by any effect that would affect a spell or a soulmeld.

An *incarnum weapon's* Armor Class against touch attacks is 11 (10 + size bonus for Small object).

Essentia: Every point of essentia you invest in the *incarnum weapon* adds a +1 insight bonus on the weapon's attack rolls and damage rolls and expands the weapon's critical threat range by 1.

For example, an *incarnum weapon* spell with 2 points of essentia invested would have a +2 insight bonus on attack rolls and damage rolls and would have a critical threat range of 18–20.

WALL OF INCARNUM

Conjuration (Creation) [Incarnum]

Level: Incarnum 3, sorcerer/wizard 3

Components: V, S, M (E)

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Incarnum wall whose area is up to one 5-ft. square/level

Duration: 1 minute/level (D)

Saving Throw: Will partial; see text

Spell Resistance: No

You cause a flat, vertical, opaque barrier of incarnum to spring into being.

The wall cannot be conjured so that it occupies the same space as a creature or another object, but it can be adjacent to such.

It must always be a flat plane, although you can shape its edges to fit the available space.

The *wall of incarnum* must be anchored to a surface, but this can be a floor, a ceiling, or even a wall.

The *wall of incarnum* can't be moved once it is created.

A *wall of incarnum* is 1 inch thick.

It can be dispelled, but it cannot be damaged or broken, and spells cannot pass through it.

Ethereal creatures can pass through it, but any other creature (including the caster) attempting to pass through a *wall* must succeed on a Will save or be blocked by the barrier.

Regardless of the save's result, the *wall of incarnum* deals 1d4 points of essentia damage (or Wisdom damage if the creature has no essentia) to the creature.

Essentia: Every point of essentia invested in the *wall of incarnum* increases the damage dealt on a failed Will save by 1 point.

Material Component: A tiny, shield-shaped piece of blue quartz.

DIVINATION

ADEPT SPIRIT

Divination [Incarnum]

Level: Cleric 2, sorcerer/wizard 3

Components: V, S, DF (E)

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You bestow the soul of a great ancient spellcaster on the creature touched, giving him great skill with magic. As an immediate action, the target creature can activate the *adept spirit*.

While active, the spirit's wisdom and learning provide the recipient of the spell with a +1 insight bonus to caster level and a +2 insight bonus on Will saves, Concentration checks, Intelligence checks, and Intelligence-based skill checks.

The *adept spirit* remains active for 1 minute, and then its power is expended and the spell ends.

No creature can be the target of more than one *adept spirit* spell simultaneously.

If a second is cast before the first has been discharged, the second spell dissipates to no effect.

Essentia: For every point of essentia you invest in this spell, the bonus on Will saves, Concentration checks, Intelligence checks, and Intelligence-based skill checks provided by the spirit improves by 1.

(The bonus to caster level is not improved by essentia investment).

ADEPT SPIRIT, MASS

Divination [Incarnum]

Level: Cleric 6, sorcerer/wizard 7

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

As *adept spirit*, except as noted above.

Each target must activate his own *adept spirit* separately.

ANIMAL SPIRIT

Divination [Incarnum]

Level: Druid 2, ranger 2

Components: V, S (E)

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You bestow a small portion of the soul-energy of the animal kingdom on the creature touched, granting him some of an animal's sensory capabilities.

As an immediate action, the target creature can activate the *animal spirit*.

While active, the spirit's keen senses provide the recipient of the spell with low-light vision and scent, as well as a +2

insight bonus on Wisdom checks and Wisdom-based skill checks.

The *animal spirit* remains active for 1 minute, and then its power is expended and the spell ends.

No creature can be the target of more than one *animal spirit* spell simultaneously.

If a second is cast before the first has been discharged, the second spell dissipates to no effect.

Essentia: For every point of essentia you invest in this spell, the bonus on Wisdom checks and Wisdom-based skill checks provided by the spirit improves by 2.

ANIMAL SPIRIT, MASS

Divination [Incarnum]

Level: Druid 6

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

As *animal spirit*, except as noted above.

Each target must activate his own *animal spirit* separately.

DETECT INCARNUM

Divination

Level: Bard 1, blackguard 1, cleric 1, Incarnum 1, paladin 1, sorcerer/wizard 1

Components: V, S, DF

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped emanation

Duration: Concentration, up to 10 min./level

Saving Throw: None

Spell Resistance: No

You can sense the presence of incarnum.

The amount of information revealed depends on how long you study a particular area or subject.

1st Round: Presence or absence of incarnum (including creatures with the incarnum subtype, soulmelds, or magic items invested with essentia).

2nd Round: Number of incarnum auras (soulmelds, creatures with the incarnum subtype, and so on) in the area and the power of the most potent aura present (see the table).

3rd Round: The power and location of each aura.

If an aura is outside your line of sight, you can discern its direction but not its exact location.

The power of an incarnum aura depends on the type of creature or object that you're detecting and its Hit Dice or caster level, as shown on the table.

If an aura falls into more than one strength category, the spell indicates the stronger of the two.

DETECT INCARNUM

Creature or object	Faint	Aura Power		Overwhelming
		Moderate	Strong	
Creature with incarnum subtype (HD)	10 or lower	11–25	26–50	51 or higher
Creature with essentia (essentia pool)	2 or less	3–10	11–30	31 or higher
Shaped soulmeld (meldshaper level)	5th or lower	6th–11th	12th–20th	21st or higher
Essentia-invested object (caster level)	5th or lower	6th–11th	12th–20th	21st or higher

GUARDIAN SPIRIT

Divination [Incarnum]

Level: Cleric 3, ranger 3, sorcerer/wizard 4

Components: V, S, DF (E)

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You bestow a prescient unborn soul on the creature touched, giving him an uncanny ability to anticipate danger.

As an immediate action, the target creature can activate the *guardian spirit*.

While active, the spirit's prescience provides the recipient of the spell with a +2 insight bonus on Armor Class, Reflex saving throws, Dexterity checks (including initiative checks), and Dexterity-based skill checks.

The *guardian spirit* remains active for 1 minute, and then its power is expended and the spell ends.

No creature can be the target of more than one *guardian spirit* spell simultaneously.

If a second is cast before the first has been discharged, the second spell dissipates to no effect.

Essentia: For every point of essentia you invest in this spell, the bonus provided by the spirit improves by 1.

GUARDIAN SPIRIT, MASS

Divination [Incarnum]

Level: Cleric 7, sorcerer/wizard 8

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

As *guardian spirit*, except as noted above.

Each target must activate his own *guardian spirit* separately.

VALIANT SPIRIT

Divination [Incarnum]

Level: Bard 4, cleric 4, paladin 4

Components: V, S, DF (E)

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level or until discharged

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You bestow the soul of a great ancient hero on the creature touched, giving him great skill in battle.

As an immediate action, he can activate the *valiant spirit*.

While active, the spirit's courage provides the recipient of the spell with a +2 morale bonus on attack rolls, damage rolls, Fortitude saves, Strength checks, and Strength-based skill checks.

The *valiant spirit* remains active for 1 minute, and then its power is expended and the spell ends.

No creature can be the target of more than one *valiant spirit* spell simultaneously.

If a second is cast before the first has been discharged, the second spell dissipates to no effect.

Essentia: For every point of essentia you invest in this spell, the bonus provided by the spirit improves by 1.

VALIANT SPIRIT, MASS

Divination [Incarnum]

Level: Cleric 8

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

As *valiant spirit*, except as noted above.

Each target must activate his own *valiant spirit* separately.

EVOCATION

INCARNUM ARC

Evocation [Incarnum]

Level: Sorcerer/wizard 2

Components: V, S, M (E)

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Line from you to a point you designate within range

Duration: 1 round/level (D)

Saving Throw: Reflex negates

Spell Resistance: Yes

When you cast this spell, you create a drifting "lightning rod" of incarnum that appears at the point you designate within range.

Instantly, an arc of soul energy forms between you and the incarnum rod, creating a line.

At the end of your turn, any living creature in that line takes 1d6 points of damage (Reflex negates).

In subsequent rounds, incarnum arcs again between you and the rod at the end of your turn.

You can move the rod up to 20 feet by an act of will as a move action, or you can leave it in place and move yourself if you wish to change the path of the arc.

If the distance between you and the rod at the end of your turn is beyond the spell's range, no arc occurs but the spell remains active.

Essentia: Every point of essentia invested in this spell increases the damage dealt by 1d6 points (2d6 points for 1 point of essentia, 3d6 points for 2 points of essentia, and so on).

Material Component: A small brass rod.

SOULMELD BLESSING

Evocation [Incarnum]

Level: Cleric 2

Components: V, DF

Casting Time: 1 swift action

Range: 20 ft.

Targets: Up to one creature/level in a 20-ft. radius burst centered on you

Duration: Instantaneous

Saving Throw: None (harmless)

Spell Resistance: Yes (harmless)

When you cast *soulmeld blessing*, you provide each affected creature with a surfeit of essentia.

Affected creatures can immediately reallocate their essentia pool as if they had taken a swift action to do so (even though it isn't their turn and no action is required).

Essentia that cannot be reallocated with a swift action (for example, essentia invested in an incarnum feat) cannot be redistributed.

NECROMANCY

CHANNEL THE MISHTAI

Necromancy [Incarnum]

Level: Sorcerer/wizard 2

Components: V, S (E)

Casting Time: 1 round

Range: Touch

Target: One living creature

Duration: 1 minute

Saving Throw: Will negates

Spell Resistance: Yes

You invite the soul-energy of a long-departed mishtai (see the rilkan and skarn race descriptions in Chapter 1) to share a living body.

The would-be host must have an Intelligence, Wisdom, and Charisma of at least 5.

The mishtai that you channel is drawn from one particular era of the millennia of ancient mishtai history, and it possesses a particular station in the highly ordered mishtai society.

The mishtai helps or hinders but does not control the subject.

Roll 1d6 and consult the table below to determine the nature of the mishtai that shares the subject's body and its effects upon him (if the subject is a skarn or rilkan, roll 1d10 instead).

Essentia: Every point of essentia invested in this spell extends the duration by 1 minute.

Roll Mishtai Spirit (Time Period): Effect

- 1 Inbred moron of the late decadent period (Segorn Period): Take -2 penalty on all skill checks; subject must succeed on a Will save (using the spell's normal save DC) or be dazed for 1 round.
- 2 Hearty mishtai serf of the early period just after the discovery of incarnum (Tal Period): Gain +2 insight bonus on Str- and Con-based ability and skill checks; lose ability to read and write.
- 3 Mishtai noblewoman of the Golden Age of Mishtai (Sudarn Period): Gain +2 insight bonus on Cha-based ability and skill checks; take -2 penalty on Fortitude saves.
- 4 Sage of Ur-Mishtai from the postcollapse remnants of mishtai society (Geryn Period): Gain +2 insight bonus on Int-based ability and skill checks; take -1 penalty on attack rolls.
- 5 Royal scout of the Landwalker's League (Sudarn Period): Gain +2 insight bonus on Dex- and Wis-based ability and skill checks; take -2 penalty on Will saves.
- 6 Bonded wizard of the Perfect Circle guild (Sudarn Period): Gain +1 insight bonus to arcane caster level; lose 1 hit point per Hit Die.
- 7 Sarkros, mishtai knight of the Defenders of Ril (Tal Period): Gain +1 insight bonus on melee attack rolls and damage rolls; proficiency with all martial weapons.
- 8 "The Pillow Spider," famed female rogue (Sudarn Period): Gain +4 insight bonus on Hide and Move Silently checks; sneak attack +1d6.
- 9 Dallyster Harkedde, Curator of the Incarnate Fane (Segorn Period): Gain 1 point of essentia.
- 10 Mentriphiste Carre, "The Argent Paladin," Champion of the Mishtai and Martyr of the Frozen Pyre (Sudarn Period): Gain +2 insight bonus on attack rolls and damage rolls against evil creatures; immunity to fear effects.

CHANNEL THE MISHTAI, GREATER

Necromancy [Incarnum]

Level: Sorcerer/wizard 6

Duration: 1 hour

Range: Touch

As *channel the mishtai*, except as noted above and as follows. Instead of rolling randomly, you can choose which mishtai spirit to channel with this spell.

If the subject is a rilkan or skarn, you can choose any of the ten spirits; otherwise, you can choose only one of the first six listed.

You cannot attempt to channel the same spirit more than once per week.

Essentia: Every point of essentia invested in this spell extends the duration by 1 hour.

DIVEST ESSENTIA

Necromancy

Level: Assassin 2, hexblade 2, sorcerer/wizard 2

Components: V

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

By delivering a jolt of magical energy to your target, you scramble his personal essence, causing all essentia he has currently invested (with some exceptions; see below) to return to his essentia pool as if the target had set his essentia investment to 0.

This doesn't prevent the target from reinvesting essentia normally on his next turn, but it might make him vulnerable in the meantime.

Essentia invested in an incarnum feat or other receptacle that can't be reallocated by the target as a swift action can't be affected by this spell.

REND ESSENTIA

Necromancy [Evil, Incarnum]

Level: Assassin 3, hexblade 3, sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

When you cast this spell, you consume a small portion of your enemy's soul to strengthen your own personal essence and become stronger.

You deal 1d4 points of Charisma damage plus 1 additional point for every three caster levels, to a maximum of 1d4+5 points at caster level 15th.

If the target has an essentia pool, he instead loses essentia equal to the Charisma damage that would be dealt (if the damage is larger than the target's essentia pool, any leftover points of damage are dealt as Charisma damage).

This spell can't reduce a target's Charisma below 1.

You gain 1 point of temporary essentia for every point of essentia or Charisma damage you deal to the subject.

This temporary essentia remains in your pool for 1 minute, after which it dissipates.

While you have it, you can use your temporary essentia just like normal essentia.

Material Component: A black pearl worth at least 100 gp.

SOUL BLIGHT

Necromancy

Level: Assassin 2, hexblade 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous

Saving Throw: Will half

Spell Resistance: Yes

You rip away some of the target's personal essence, temporarily damaging the target's essentia pool.

You deal 1d4 points of essentia damage plus 1 additional point for every three caster levels, to a maximum of 1d4+3 points at caster level 9th.

Creatures that do not have essentia pools suffer no ill effects from this spell.

Material Component: A tiny crystal vial.

SOUL BOON

Necromancy [Incarnum]

Level: Cleric 3, Incarnum 2, sorcerer/wizard 2

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Target: One living creature

Duration: 1 minute

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

When you cast this spell, you invoke the power of souls unborn to reinforce the recipient's essentia pool.

The creature touched gains 1 point of temporary essentia for every three caster levels, to a maximum of 5 points of essentia at caster level 15th.

These temporary essentia points can be used just like normal essentia points for as long as *soul boon* lasts.

Material Component: An empty insect cocoon.

SOULBLEED

Necromancy [Evil, Incarnum]

Level: Assassin 4, blackguard 4

Components: V

Casting Time: 1 swift action

Range: Touch

Target: One melee weapon

Duration: 1 round/3 levels

Saving Throw: None (object) or Fortitude negates; see text

Spell Resistance: No (object) or yes; see text

You invest your weapon with the power to bleed away part of the victim's essentia.

Each time you hit a living creature with a weapon affected by *soulbleed* wounding, that creature loses 1 point of essentia unless it succeeds on a Fortitude save.

You don't gain the essentia; it is simply lost.

Spell resistance applies against this effect.

If any round of the spell's duration goes by in which no living creature is affected by the spell (either because you didn't hit a living creature or because no saving throw was failed), you take 1d6 points of damage from the spell.

No save or spell resistance is allowed to resist this effect.

This spell works only as long as you wield the weapon affected.

Any other wielder gains no benefit from the effect.

UNBIND CHAKRA

Necromancy

Level: Assassin 3, hexblade 3, sorcerer/wizard 4

Components: V, S (E)

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You temporarily sever one or more chakra binds between the target and his soulmelds and/or magic items.

This affects one chakra bind for every four caster levels, to a maximum of three binds at 12th level.

For the spell's duration, the target creature loses all benefits of the severed chakra binds.

The target also takes 1d6 points of damage per chakra bind severed.

At the time of casting, you can choose particular chakra binds to sever (such as arms or soul).

If you do not choose specific chakra binds, the DM randomly determines which chakra binds are affected.

Essentia: Every point of essentia you invest in this spell adds +1d6 to the damage dealt per chakra bind severed.

WRATHFUL DOOM

Necromancy [Evil, Incarnum]

Level: Sorcerer/wizard 6

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: Will partial

Spell Resistance: No

You turn your opponent's essentia against him by beckoning to dark powers that prey on soulstuff.

Each round on your turn, beginning on the round in which you cast this spell, your opponent takes damage equal to the amount of essentia in his essentia pool (up to a maximum value equal to your caster level) and is dazed for 1 round.

A successful Will save halves the damage dealt and negates the daze effect; this save must be repeated each round that the spell lasts.

TRANSMUTATION

INCARNUM APOTHEOSIS

Transmutation [Incarnum]

Level: Incarnum 8

Components: V, S (E)

Casting Time: 1 standard action

Range: Touch

Target: One creature

Duration: 1 round/3 levels

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Your touch suffuses the target with incarnum.

For the duration of this spell, all soulmelds, incarnum feats, and other incarnum receptacles of the target are treated as if the maximum allowable quantity of essentia had been invested in them.

The subject is also immune to any effect that would reduce his essentia pool or unshape his soulmelds.

Essentia: Every point of essentia invested in this spell extends its duration by 1 round.

INCARNUM VIGOR

Transmutation [Incarnum]

Level: Cleric 6, druid 7, Incarnum 6

Components: V, S (E)

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You infuse the target with incarnum laced with positive energy.

He gains fast healing 1.

In addition, any spell he casts that heals hit point damage heals an additional amount to each creature affected by that spell equal to your caster level or twice the healing spell's level, whichever is lower.

For example, a cleric casting *mass cure serious wounds* would add either +14 (twice the level of the *mass cure serious wounds* spell) or the *incarnum vigor's* caster level, whichever is lower, to the healing provided to each target of the spell.

Essentia: Every point of essentia you invest in this spell increases the fast healing granted by 1 point.

OPEN GREATER CHAKRA

Transmutation

Level: Cleric 9, sorcerer/wizard 9

As *open least chakra*, except this allows you to open the subject's arms, brow, crown, feet, hands, shoulders, throat, or waist chakra.

OPEN LEAST CHAKRA

Transmutation

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 24 hours

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You use magical energies to pry open one chakra, allowing a creature to form a chakra bind that it otherwise could not. (The spell has no effect on chakras to which soulmelds or magic items are already bound; in other words, it does not allow you to double bind to a chakra).

You can open a creature's crown, feet, or hands chakra with this spell.

A creature benefiting from this spell can bind a soulmeld or magic item to his opened chakra just as if he had gained the ability to form a chakra bind from a feat or class feature.

OPEN LESSER CHAKRA

Transmutation

Level: Cleric 7, sorcerer/wizard 7

As *open least chakra*, except this allows you to open the subject's arms, brow, crown, feet, hands, or shoulders chakra.

MANUAL OF THE PLANES (3.0)

ABJURATION

AVOID PLANAR EFFECTS

Abjuration

Level: Clr 2, Drd 2, Sor/Wiz 3

Components: V

Casting Time: 1 action

Range: 20 ft.

Targets: One creature/level in a 20-ft.-radius burst centered on you

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You gain a temporary respite from the natural effects of a specific plane.

These effects include extremes in temperature, lack of air, poisonous fumes, emanations of positive or negative energy, or other attributes of the plane itself.

Avoid planar effects provides protection from the 3d10 points of fire damage on a plane with the fire-dominant trait.

Avoid planar effects lets a character breathe water on a water-dominant plane and be immune to suffocation on an earth-dominant plane.

A character protected by *avoid planar effects* can't be blinded by the energy of a major positive-dominant plane and automatically stops gaining temporary hit points when they equal the character's normal hit point total.

Negative-dominant planes don't deal damage or bestow negative levels to characters protected by *avoid planar effects*. In addition, some effects specific to a plane are negated by *avoid planar effects*.

In the D&D cosmology, *avoid planar effects* negates the deafening effect of Pandemonium and the cold damage on the Cania layer of the Nine Hells.

You can add additional protections for a cosmology you create.

If you have an Elemental Plane of Cold, for example, *avoid planar effects* protects against the base cold damage suffered by everyone on the plane.

The effects of gravity traits, alignment traits, and magic traits aren't negated by *avoid planar effects*, nor is the special entrapping trait that some planes have (Elysium and Hades in the D&D cosmology).

The spell does not provide protection against creatures, native or otherwise, nor does it protect against spells, special abilities, or extreme and nonnatural formations within the plane.

This spell allows you to survive on the Elemental Plane of Earth, but it won't protect you if you walk into a pool of magma on that same plane.

ETHER BLAST

Abjuration

Level: Clr 4

Components: V, S, M

Casting Time: 1 action

Range: 25 ft. + 5 ft./2 levels

Area: 25 ft. + 5 ft./2 levels spherical emanation centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Upon casting this spell, you detonate a small ether cyclone on the Ethereal Plane centered on you.

Those on the Material Plane are unaffected by the blast (including you if you cast it from there).

However, all those on the Ethereal Plane within the spell's area are affected as if caught by an ether cyclone.

The cyclone lasts for the duration of the spell, and any who enter the area on the Ethereal Plane are caught by its force-winds and potentially swept away.

If you cast *ether blast* while on the Ethereal Plane, you are affected by the spell as well.

Undead are not affected by this spell, nor are big ethereal objects.

Unattended objects weighing 50 pounds or less are swept away by the Ethereal Plane.

Material Component: The tooth of a creature that uses the Ethereal Plane, such as a blink dog or an ethereal marauder, or the claw of a phase spider.

IMPROVED ALARM

Abjuration

Level: Brd 3, Sor/Wiz 3

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 25-ft.-radius emanation centered on a point in space

Duration: 8 hours/level (D)

Saving Throw: None

Spell Resistance: No

As the *alarm* spell, and in addition the spell works on creatures traveling through the area on coterminous or coexistent planes, such as the Astral Plane, the Ethereal Plane, and the Plane of Shadow.

Focus: A bell made of carved crystal, worth at least 100 gp.

IMPROVED PORTAL ALARM

Abjuration

Level: Brd 4, Sor/Wiz 4

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One interplanar gate

Duration: 8 hours/level (D)

Saving Throw: None

Spell Resistance: No

As the *portal alarm* spell, with the following additions:

- You may designate the alarm set off by the *improved portal alarm* to be mental, audible, or both.

- If a mental alarm is chosen, you receive a mental picture of all creatures that passed through the portal and which direction they passed through.

The mental image provides information as if you were standing 10 feet away from the portal.

- You may enable another creature to receive the mental alarm instead of yourself.

You must touch the creature, which receives a Will saving throw to negate the effect, if applicable.

Focus: A small leather pouch containing three brass bells.

PORTAL ALARM

Abjuration

Level: Brd 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One interplanar portal

Duration: 2 hours/level (D)

Saving Throw: None

Spell Resistance: No

Portal alarm sounds a mental or audible alarm each time a creature of Tiny or larger size passes through the magic portal the spell is cast upon.

You decide at the time of casting whether the *portal alarm* will be mental or audible.

Mental Alarm: A mental alarm alerts you (and only you) as long as you remain within one mile of the warded area and on the same plane.

You notice a mental tremor that would awaken you from a normal sleep but does not otherwise disturb concentration (it would not interfere with spellcasting).

A *silence* spell has no effect on a mental alarm.

Audible Alarm: An audible *portal alarm* produces the sound of a hand bell, buzzer, or other similar repeating sound that can be heard quite clearly up to 60 feet away, and it pierces closed doors and extends onto other planes.

The ringing may be heard faintly up to 180 feet away and lasts for 1 round.

Creatures within the area of a *silence* spell cannot hear the ringing, and if the portal itself is within the area of a *silence* spell, no alarm is sounded.

Ethereal and astral creatures trigger the *portal alarm* if they pass through the portal.

You may set the *portal alarm* with a password, determined at the time of the casting, and this password may be discerned with the *analyze portal* spell.

Those speaking the password before passing through the portal do not set off the alarm.

Material Component: A tiny bell.

POSITIVE ENERGY PROTECTION

Abjuration

Level: Clr 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

The creature warded by this spell gains partial protection from the effects of positive energy, including magical healing and regeneration.

It may be cast upon undead to offer additional protection against the turning abilities of clerics.

The *positive energy protection* spell uses negative energy to offset the effects of positive energy.

Each time the warded creature is struck by a positive energy effect, it rolls 1d20 + caster level against a DC of 11 + the HD of the originator of the effect.

For example, the DC for the level check would be 19 if an 8th-level cleric were trying to turn someone with *positive energy protection*.

If the warded creature succeeds, the positive and negative energies cancel each other with a roiling ball of darkness and a thunderclap.

The spell or effect does not function, and if the source of the positive energy effect was touching the warded creature, the source takes 2d6 points of damage.

If the warded creature fails the level check, then the positive energy effect occurs normally.

This spell may be placed on undead creatures, effectively allowing them a better chance to avoid the effects of a good cleric's turning ability.

First, determine how many creatures would be turned normally.

Those who are potentially turned get level checks to avoid the effect.

This spell offers protection from the blinding effect of the Positive Energy Plane, and warded creatures gain no temporary hit points while there.

SAFETY

Abjuration

Level: Clr 3

Components: V, S

Casting Time: 1 action

Range: Personal or touch

Target: You or creature touched

Duration: 10 minutes/level

Saving Throw: None or Will negates (harmless)

Spell Resistance: No or Yes (harmless)

The recipient of this spell can find the shortest, most direct direction to a place of safety, with safety being defined as a location where the individual is not taking immediate damage from the environment, and immediate damage is not imminent.

It does not provide the means for the subject to move in that direction.

The *safety* spell points out the shortest distance out of a poisonous cloud, or the direction one should dig to reach the surface if entombed in earth.

It does not function against the *maze* spell, for that spell does no physical damage.

Nor does it have knowledge of or provide protection against the creatures that inhabit those safe places.

In the D&D cosmology, *safety* has the following effects on specific planes: *Plane of Shadow*: Shortest route out of darklands.

Elemental Plane of Air: Nearest windproof shelter, shortest route out of smoke bank.

Elemental Plane of Earth: Nearest air pocket or open cavern.

Elemental Plane of Fire: Shortest route out of magma pools or other unusually hot places.

Elemental Plane of Water: Nearest pocket of breathable air; shortest route out of hot spot, ice pocket, or red tide.

Negative Energy Plane: Nearest doldrum area with the minor negative-dominant trait.

Positive Energy Plane: Nearest edge zone with the minor positive-dominant trait.

Limbo: Nearest area of stabilized Limbo.

Pandemonium: Nearest shelter from a windstorm.

Carceri: Shortest route out of a Minethys sandstorm.

Gehenna: Nearest flat ledge, nearest shelter from Mungoth's acidic snow.

Nine Hells: Nearest shelter from fireballs on Avernus, rockslides on Malbolge, or cold on Cania.

Acheron: Nearest shelter from Ocanthus bladestorms.

On planes you create yourself, *safety* may provide other information.

This spell is mostly used in hostile environments such as the Inner Planes to locate the nearest pocket of habitable space.

If *safety* is cast and then followed by a *plane shift* spell, the *plane shift* sends the caster to a place of relative safety on that plane.

The caster is transported to a pocket of air on the Elemental Plane of Water, for example, or a cool spot on the Elemental Plane of Fire.

SEAL PORTAL

Abjuration

Level: Sor/Wiz 6

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One interplanar *gate* or portal

Duration: Permanent (D)

Saving Throw: None

Spell Resistance: No

You may permanently seal an interplanar portal or *gate*.

If cast on a portal, the spell prevents any activation of it, although *seal portal* may be dispelled by a *dispel magic* spell. A *knock* spell does not function on the sealed portal, but a *chime of opening* dispels *seal portal* if *seal portal* was cast by a spellcaster of lower than 15th level.

In addition, the ability of the gatecrasher prestige class to open portals may be able to break through a sealed portal, but if the first attempt fails, the gatecrasher can't try again. Once the portal is opened, *seal portal* does not return and must be cast again.

Material Component: A silver bar worth 50 gp.

ZONE OF RESPITE

Abjuration

Level: Clr 3, Sor/Wiz 4

Components: V, S, M

Casting Time: 2 rounds

Range: Medium (100 ft. + 10 ft./level)

Area: 30 ft. cube/level

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: No

You create a region that is temporarily proof against interplanar intrusion.

This includes spells and abilities that use other planes, including *dimension door*, *teleport*, *plane shift*, and travel through such planes as the Astral Plane, the Ethereal Plane, and the Plane of Shadow.

Summoning and calling spells does not function within the *zone of respite*, but summoned and called creatures outside the *zone of respite* may be sent inside it.

Gate spells and other portals may not be created within the *zone of respite*, but existing portals are unaffected by the spell.

Creatures within coterminous or coexistent planes must retreat to the edges of the *zone of respite* and cannot enter the corresponding area on the coterminous or coexistent plane.
Material Component: A small amount of blood from a gorgon.

CONJURATION

ETHEREAL MOUNT

Conjuration (Creation)

Level: Brd 4, Sor/Wiz 4

Components: V, S

Casting Time: 10 minutes

Range: 0 ft.

Effect: One quasi-real mount, plus one additional mount/2 levels Duration 1 hour/level

Saving Throw: None

Spell Resistance: No

On the Ethereal Plane, you can call into being one or more quasi-real mounts made of the protomatter of the plane. These mounts only accept you and those that you designate as riders.

The mounts may appear as horses or any other commonly ridden mounts, but have a foggy, almost translucent nature, and their colors shift across the spectrum over time.

These mounts have AC 18 (-1 size, +4 natural armor, +5 Dex), and 10 hit points +1 hp per caster level.

They do not fight and have no attacks.

If reduced to 0 hit points, an *ethereal mount* melts into the ethereal fog from which it came.

An ethereal mount has a speed of 240 feet on the Ethereal Plane and can carry its rider's weight plus 10 pounds per level.

You can only cast this spell in the Ethereal Plane, and the ethereal mount never leaves the plane.

(If the Deep Ethereal is used in your cosmology, then the amount of time to reach destinations is halved while on an ethereal mount).

REVIVE OUTSIDER

Conjuration (Healing)

Level: Clr 6

Components: V, S, M, DF

Casting Time: 1 minute

Range: Touch

Targets: Dead outsider touched

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

You restore life to a dead outsider as with the *raise dead* spell.

You may restore to life any creature of the outsider type of up to your level in Hit Dice, and the creature may have been dead for any length of time.

Material Components: A bit of soil, water, or other unworked, natural material from the outsider's native plane, and a diamond worth at least 500 gp.

DIVINATION

ANALYZE PORTAL

Divination

Level: Brd 3, Sor/Wiz 3

Components: V, S, M

Casting Time: 1 minute

Range: 60 ft.

Area: A quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

You can tell whether an area contains a magic portal.

If you study an area for 1 round, you know the sizes and locations of any portals in the area.

Once you find a portal, you can study it.

(If you find more than one portal, you can only study one at a time).

Each round you study a portal, you can discover one property of the portal, in this order:

- Any key or command word needed to activate the portal.
- Any special circumstances governing the portal's use (such as specific times when it can be activated).
- Whether the portal is one-way or two-way.
- Any of the usual properties described in the Magic Portals section of Chapter 2.
- Finally, a glimpse of the area where the portal leads.

You can look at the area where the portal leads for 1 round; the range of the caster's vision is the spell's range.

Analyze portal does not allow other divination spells or spell-like abilities to extend through the portal.

For example, you cannot also use *detect magic* or *detect evil* to study the area where the portal leads while viewing the area with *analyze portal*.

For each property, you make a caster level check (1d20 + caster level) against DC 17.

If fail, you can try again the next round.

Analyze portal has only a limited ability to reveal unusual properties, as follows:

- **Random Portals:** The spell reveals only that the portal is random and whether it can be activated now.

It does not reveal when the portal starts or stops functioning.

- **Variable Portals:** The spell reveals only that the portal is variable.

If the caster studies the portal's destination, the spell reveals only the destination to which the portal is currently set.

- **Creature-Only Portals:** The spell reveals this property. If the caster studies the portal's destination, the spell reveals where the portal sends creatures.

If it is the kind of portal that sends creatures one place and their equipment another place, the spell does not reveal where the equipment goes.

- **Malfunctioning Portals:** The spell reveals only that the portal is malfunctioning, not what sort of malfunction the portal produces.

Material Components: A crystal lens and a small mirror.

ZONE OF REVELATION

Divination

Level: Clr 3, Sor/Wiz 4

Components: V, S, DF/M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 5-ft.-radius/level emanation

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: Yes

All creatures and objects within *zone of revelation's* area are made visible.

This includes invisible creatures as well as those in coexistent planes such as the Ethereal Plane and the Plane of Shadow.

Natives of these planes do not lose any abilities but are made simply made visible.

Zone of revelation suppresses but does not dispel *invisibility*, *etherealness*, or other spells.

Once a formerly invisible object or creature leaves the area, it becomes invisible again.

Arcane Material Component: A handful of dust from the grave clothes of an undead creature.

EVOCATION

CHAMBER

Evocation [Force]

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One ethereal creature

Duration: 1 round/level

Saving Throw: Reflex negates

Spell Resistance: Yes

You may create a translucent prison of pure crystalline force around a target on the Ethereal Plane.

You must be able to see or otherwise target the creature you wish to affect.

The target affected by the chamber cannot move on either the Ethereal Plane or its coterminous planes for the duration of the spell but is otherwise unaffected.

The target cannot move onto another plane while inside the chamber, including returning to the Material Plane. The target within the crystalline prison cannot physically attack or be attacked and is unaffected by most spells and supernatural abilities.

Gaze attacks and sonic spells may function through the walls of the crystalline prison, but the target of those attacks gains a +2 bonus on saving throws.

The target of the *chamber* may attempt to break the crystalline prison by making a Strength check (DC 10 + caster level).

A *disintegrate* spell brings down the *chamber*.

This spell only affects the Ethereal Plane, so it has no effect on planes not coexistent with the Ethereal Plane.

It has no effect on creatures on the Material Plane.

Material Component: A piece of translucent glass.

INTERPLANAR MESSAGE

Evocation [Language-Dependent]

Level: Clr 3

Components: V, S

Casting Time: 1 action

Range: See text

Target: One creature

Duration: 1 round (see text)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell allows you to send a limited message of 25 words or less to the targeted creature, who may be on another plane when the message is received.

The spell is usually used as a safety device to warn a friend that you have fallen into some trap or plane you cannot escape without help.

It can also be used for other purposes, such as signaling that the coast is clear for others to join your planar journey.

Casting the spell takes one action, during which you touch the creature you intend to communicate with.

That creature should be able to understand your language (otherwise, when the magic is activated, the creature knows that you sent the message, but has no idea what the message is).

At any time afterward, you may send a short interplanar message to that creature.

The *interplanar message* pops into the target's mind, awake or asleep, and the target is aware that the message has been delivered.

If the message arrives when the target is asleep, it may appear as a vivid dream that the target remembers upon awakening.

This spell does not obligate nor force the creature you communicate with to act.

The target cannot reply to tell you its plans or intentions.

The message reaches its target through the Astral Plane, so the spell cannot reach planes separate from (not coterminous to or coexistent with) the Astral Plane.

The creature set to receive the *interplanar message* radiates a dim magical aura.

The spell may be cast on an unwilling creature, and in this case a successful Will saving throw negates it.

REALITY MAELSTROM

Evocation

Level: Sor/Wiz 7

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 5-ft.-radius/level emanation, centered on a point in space, and 10-ft.-radius/level burst centered on the same point

Duration: 1 round/level

Saving Throw: Will negates, Reflex negates

Spell Resistance: Yes

You tear a temporary hole in reality itself that sucks all loose material and living creatures into it, sending them to a random plane (see sidebar).

Everything sucked into the *reality maelstrom* goes to the same plane.

Reality maelstrom has a primary and secondary area of effect. The primary area is the hole itself: a sphere with a 5-foot radius per level of the caster.

Within that area, all unattended objects weighing 100 pounds or less are sucked into the *reality maelstrom*, as are all individuals who fail a Will saving throw.

The rip also creates a windstorm of air rushing into the tear. All unattended objects weighing 50 pounds or less within a 10-foot radius per level of the caster are drawn into the primary area of effect of the *reality maelstrom*.

Individuals within the secondary area of effect must make a Reflex saving throw.

Those who fail are sucked into the primary area of effect and must make a Will saving throw to avoid being drawn into the *maelstrom*.

Individuals who make either saving throw may move and attack as normal but must make additional saving throws every round they remain within the primary or secondary areas of effect.

A *reality maelstrom* is a one-way portal, so nothing ever emerges from the hole the spell makes.

Material Component: A golden hoop no less than 1 inch across.

RANDOM PLANAR DESTINATIONS

Spells such as *prismatic spray*, *reality maelstrom*, and items such as *amulet of the planes* and *staff of power* may send an individual to a random plane. The list of available planes varies according to the cosmology you've chosen. An example using the D&D cosmology is presented below.

Transitive Planes such as the Ethereal Plane, the Astral Plane, and the Plane of Shadow should not be considered for such random destinations.

TABLE 3-7: RANDOM PLANAR DESTINATIONS

d%	Plane
01-05	Heroic Domains of Ysgard
06-10	Ever-Changing Chaos of Limbo
11-15	Windswept Depths of Pandemonium
16-20	Infinite Layers of the Abyss
21-25	Tarterian Depths of Carceri
26-30	Gray Waste of Hades
31-35	Bleak Eternity of Gehenna
36-40	Nine Hells of Baator
41-45	Infernal Battlefield of Acheron
46-50	Clockwork Nirvana of Mechanus
51-55	Peaceable Kingdoms of Arcadia
56-60	Seven Mounting Heavens of Celestia
61-65	Twin Paradises of Bytopia
66-70	Blessed Fields of Elysium
71-75	Wilderness of the Beastlands
76-80	Olympian Glades of Arborea
81-89	Concordant Domain of the Outlands
90-91	Elemental Plane of Fire
92-93	Elemental Plane of Earth
94-95	Elemental Plane of Air
96-97	Elemental Plane of Water
98	Positive Energy Plane
99	Negative Energy Plane
00	Demiplane of the DM's choice

The layer and exact location on the particular plane is up to the DM. Transportation to a random plane does not guarantee survival there, and individuals who risk such effects should be aware of the dangers.

If an individual is someplace other than the Material Plane when randomly switching planes, simply replace the plane of origin's entry on the table with the Material Plane. Thus a *staff of power* broken on the Elemental Plane of Fire may send the wielder to the Material Plane if a 91 is rolled.

SHADOWBLAST

Evocation

Level: Clr 4, Drd 4

Components: V, S, M

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell is particularly effective against creatures native to the Plane of Shadow and those that use shadow in spells or spell-like abilities.

It clears the spell's area of any portals or weak spots between the Plane of Shadow and other planes, and it prevents access with shadow-based spells.

It appears as a flash of light in the area of effect.

Natives of the Plane of Shadow caught in a *shadowblast* are stunned for 3d6 minutes if they fail a Fortitude saving throw.

Shadow natives that are also undead or vulnerable to light take an additional 2d10 points of damage if they fail a second Fortitude save.

Creatures that fail either Fortitude save cannot use spell-like or supernatural abilities to open any portal to the Plane of Shadow for 3d6 minutes.

Shadowblast closes all portals, *gates*, and other openings to the Plane of Shadow, and any weak spots are strengthened. Creatures on the other side of a portal are unaffected by *shadowblast*.

Material Component: A handful of grave dirt, squeezed tightly and flung.

ILLUSION

SHADOW CACHE

Illusion (Shadow)

Level: Brd 3, Sor/Wiz 3

Components: V, S

Casting Time: 1 action

Range: Touch

Area: 1 ft.-diameter circle

Duration: 1 minute/level (D)

Saving Throw: No

Spell Resistance: No

You can temporarily stash small items on the Plane of Shadow or permanently dispose of them there.

This spell opens a small portal to the Plane of Shadow that is invisible on the Material Plane and a small disk on the Plane of Shadow.

You can reach into the Plane of Shadow through the portal created by *shadow cache*, but only small, nonliving objects may pass entirely through the hole.

You can recover objects placed in the portal throughout the duration of the spell, or by casting another *shadow cache* later.

The shadow cache remains stationary at the point where you create it.

Items placed in the shadow cache can possibly be picked up by natives of the Plane of Shadow, and in any event are slowly moved by the morphic trait of the plane.

There is a 10% chance per day that objects placed on the Plane of Shadow with *shadow cache* are gone (either moved or taken).

After ten days, the objects are definitely gone.

The spell cannot be cast on the Plane of Shadow itself, but only on planes coexistent with the Plane of Shadow.

SHADOWFADE

Illusion (Shadow)

Level: Sor/Wiz 5

Components: V, S

Casting Time: 1 action

Range: Personal and touch

Targets: You and up to one touched creature/level

Duration: 1 minute/level

Saving Throw: Will negates

Spell Resistance: Yes

You open a portal onto the Plane of Shadow, allowing yourself and creatures you touch to pass into that area. Unlike the *shadow walk* spell, this does not grant you the ability to open another such portal automatically, so the spell is often used as a temporary hiding place or a method of gaining access to the Plane of Shadow.

The portal remains for the duration of the spell, and other creatures may pass through it in either direction if they make a Will save.

The portal is invisible from the Material Plane and looks like a white hole on the Plane of Shadow.

As with the *shadow walk* spell, you must be in a region of heavy shadows to cast *shadowfade*.

The spell may only be cast on a plane coexistent with the Plane of Shadow, and it cannot be cast on the Plane of Shadow itself.

TRANSMUTATION

ATTUNE FORM

Transmutation

Level: Clr 3, Drd 3, Sor/Wiz 4

Components: V, S, M/DF

Casting Time: 1 action

Range: Touch

Target: One or more living creatures touched

Duration: 2 hours/level (see text)

Saving Throw: None

Spell Resistance: No

This spell allows you to attune the affected creatures to the plane you are currently on, negating harmful and negative natural effects of that plane.

Affected creatures gain the protections listed in the *avoid planar effects* spell.

Arcane Material Component: A bit of stone or earth from your home plane.

DREAM TRAVEL

Transmutation

Level: Sor/Wiz 8

Components: V, S

Casting Time: 1 action

Range: Touch

Targets: You plus one additional creature touched per level

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes

You and any creature you touch are drawn along a crystal arc of reverie to the edge of conscious thought and into the Region of Dreams.

You can take more than one creature along with you (subject to your level limit), but all must be touching each other when you cast the spell.

You physically enter the plane of Dream, leaving nothing behind.

In Dream, you move through a menagerie of thoughts, desires, and phantoms created by the minds of dreamers everywhere.

For every minute you move through Dream (which is only a single round on the Material Plane), you can “wake” to find yourself five miles displaced in the waking world. Thus, a character can use this spell to travel rapidly by physically entering where only dreams prowl, moving the desired distance, and stepping back into the waking world. You know where you will come out in the waking world. *Dream travel* can also be used to travel to other planes that contain creatures who dream, but this requires crossing into the Dreamheart, where you are subject to the vagaries of violent dream realities.

Transferring to another plane of existence requires 1d4 hours on Dream (which corresponds to 1d4×6 minutes as time is measured on most other planes).

Any creatures touched by you when *dream travel* is cast also makes the transition to the borders of unconscious thought.

They may opt to follow you, wander into other dreamscapes, or stumble back into the waking world (50% chance for either of the latter results if they are lost or abandoned by you).

Creatures unwilling to accompany you into the Region of Dreams receive a Will saving throw, negating the effect if successful.

Note: Unlike the normal rules for dreaming, items you use, spells you cast, and other consumables are still gone when you return to the waking world after being under the effect of this spell.

Likewise, items you gain and experience you accumulate while under the effect of this spell stay with you.

ELEMENTAL BODY

Transmutation [see text]

Level: Sor/Wiz 7

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You can transform your body into a particular type of elemental substance.

You and your possessions appear to be made of that element, though in the same general shape and size as your normal appearance.

You gain the following abilities when you use *elemental body*:

- You have the benefits of the *attune form* spell with respect to the appropriate element.

If you choose a water body, for example, you can breathe normally on water-dominant planes.

- You are immune to poison, sleep, paralysis, and stunning, and are not subject to critical hits or flanking.

You gain darkvision with a range of 60 feet.

- Your creature type remains unchanged, so you are unaffected by spells that target elementals.

In addition, you gain the following exceptional abilities according to the type of *elemental body* chosen: *Air:* Fly at your normal speed (perfect maneuverability), air mastery (airborne creatures suffer a –1 penalty on attack and damage rolls against you).

Earth: Earth mastery (you gain a +1 attack and damage bonus if both you and your foe touch the ground), push

(you may start a bull rush maneuver without provoking an attack of opportunity), +3 natural armor bonus to AC.

Fire: Fire immunity, burn (those you hit in melee and those who attack you with natural weapons must make a Reflex save or catch fire, with a save DC equal to that of a fire elemental of the same size).

Water: Swim at your normal speed, water mastery (you gain a +1 attack and damage bonus if both you and your opponent touch water), drench (you may use your elemental form to put out nonmagical open flames and dispel magical fire you touch as if casting *dispel magic* at your caster level).

The *elemental body* spell has the descriptor of the element you choose.

So, if you choose a body of fire, *elemental body* is a fire spell.

Material Component: A bit of the element in question from a plane other than the one where the spell is being cast.

MAKE MANIFEST

Transmutation

Level: Clr 4, Sor/Wiz 6

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You can cause one creature on a coterminous or coexistent plane, along with its personal belongings, to suddenly appear on your plane of existence.

For example, the *make manifest* spell allows you to cause a target on the Ethereal Plane to suddenly appear on the Material Plane, and vice versa.

You do not gain the ability to detect creatures on these coterminous planes with this spell.

For the duration of the spell, the target creature retains all its abilities except for those that allow it to enter other planes.

For example, a ghost brought in from the Ethereal Plane would retain its incorporeal nature, but a wizard using *ethereal jaunt* could be attacked normally.

At the end of the spell's duration, the target creature returns to whatever plane it was on before it was targeted by the spell, even if it has moved beyond the range of *make manifest*.

MASS MANIFEST

Transmutation

Level: Clr 6, Sor/Wiz 8

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 25-ft.-radius emanation centered on a point in space

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

All creatures and unattended objects on coterminous and coexistent planes within the area of *mass manifest* are instantly brought onto your plane.

For the duration of the spell, the target creature retains all its abilities except for those that allow it to enter other planes.

At the end of *mass manifest's* duration, objects and creatures return to their plane of origin, even if they have left the spell's area.

Material Component: A handful of copper dust, cast in the air.

MIRROR WALKING

Transmutation

Level: Clr 5, Sor/Wiz 7

Components: V, S, F

Casting Time: 1 full round

Range: Touch

Targets: Creature touched, and see text

Duration: Special

Spell Resistance: Yes

You or the one you touch may pass through any mirror or reflecting surface of sufficient size onto the Plane of Mirrors.

The mirror must be large enough for the creature touched to fit through, as if it were a window or other opening.

The spell lasts until the subject passes through a mirror again, either the same mirror or a related one.

On the Plane of Mirrors, you will find other windows that represent similar mirrors tied together by some strong bond.

Frequently they were all made by the same artisan, but mirrors with particularly strong-willed owners or mirrors made at a particular historic moment may also be tied together.

When on the Plane of Mirrors, you can see through these other mirrors without being seen, allowing you to spy on others.

You can reach through the mirror to grab items that are within easy reach, or even grapple with someone within arm's reach of the mirror.

A grappled individual will be drawn onto the Plane of Mirrors and becomes a new subject of the *mirror walk* spell. For each subject, the *mirror walk* spell ends when a second mirror is passed through.

Other mirrorwalkers aren't affected.

Using the *mirror walk* spell is not without danger.

When you travel to a Plane of Mirrors, you create a mirror-self that will try to slay you and escape through the mirror to take over your life.

Focus: A mirror or other reflective surface of sufficient size to step through.

PORTAL BEACON

Transmutation

Level: Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One interplanar portal

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You may alter a magic portal so it sends out a mental beacon for up to six creatures, including yourself if you choose.

These individuals must be known to you but need not be present at the time of casting.

Once you cast *portal beacon*, these creatures always knows the direction and distance to the targeted portal.

Moving to a plane other than the two connected by the portal ends *portal beacon* for that creature but leaves it intact for others.

You may have any number of *portal beacons* tuned to you without impairing other abilities or actions.

SCRAMBLE PORTAL

Transmutation

Level: Sor/Wiz 4

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One interplanar portal

Duration: 1 round/level

Saving Throw: None (for portal); Will negates (for users)

Spell Resistance: No

You may randomize the destination of one interplanar portal for the duration of the spell.

Anyone who passes through the portal from either side is sent to a random plane instead of the portal's intended destination unless they make a Will save.

All those who fail the save go to the same location on the same plane.

Material Component: A cracked mirror.

XORN MOVEMENT

Transmutation

Level: Sor/Wiz 5

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level or see below

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The target of this spell may move through natural, solid material such as earth and stone such as a xorn, burrowing through the earth but leaving behind no tunnel or sign of passage.

The target cannot move through worked stone, brick, or metal.

A *move earth* spell cast on an area containing a creature using *xorn movement* will fling the target back 30 feet and stun it for 1 round (a successful Fortitude save negates the stunning).

The target of *xorn movement* is able to breathe normally while entombed in earth and natural rock.

The *xorn movement* spell lasts a minimum of 1 round/level. If the target has not emerged into a significant volume of open air (a space large enough to contain the target comfortably) for the entire duration of the spell, *xorn movement* remains in effect until the target does move into such as area.

In this fashion, characters who find themselves deep in the Elemental Plane of Earth can find their way to safety.

Focus: A scale from a xorn's hide.

MASTERS OF THE WILD

(3.0)

ABJURATION

COUNTERMOON

Abjuration

Level: Drd 3

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One lycanthrope

Duration: 12 hours

Saving Throw: Will negates (D)

Spell Resistance: Yes

This spell stops a lycanthrope from changing form, preventing both voluntary shapechanging via the alternate form ability and involuntary shapechanging because of lycanthropy.

The subject retains whatever form he or she had when the spell was cast for the duration; even death does not cause reversion to normal form until the spell ends.

Natural lycanthropes gain a +4 competence bonus on the saving throw against this spell.

Material Component: Hair, scale, or other castoff from the creature to be affected.

DAWN

Abjuration

Level: Drd 0, Rgr 1

Components: V

Casting Time: 1 action

Range: Personal

Target: All creatures within a 15-ft.-radius burst centered on you

Duration: Instantaneous

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes

All sleeping creatures in the area awaken.

Those who are unconscious because of subdual damage wake up and become staggered (see Subdual Damage in Chapter 8 of the *Player's Handbook*).

This spell does not affect dying creatures.

INVULNERABILITY TO ELEMENTS

Abjuration

Level: Drd 9

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: None

Spell Resistance: Yes

As *protection from all elements*, but the target creature becomes immune to damage from acid, cold, electricity, fire, and sonic damage while the spell is in effect.

PROTECTION FROM ALL ELEMENTS

Abjuration

Level: Drd 6

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level or until discharged

Saving Throw: None

Spell Resistance: Yes

The subject becomes invulnerable to acid, cold, electricity, fire, and sonic damage.

The spell absorbs damage the subject would otherwise take from all the above energy types, regardless of whether the source of damage is natural or magical.

This protection also extends to the subject's equipment.

When the spell has absorbed a total of 12 points of damage per caster level dealt by any combination of the above energy types, it is discharged.

Protection from all elements absorbs only damage.

The subject could still suffer unfortunate side effects, such as drowning in acid (since drowning damage comes from lack of oxygen) or becoming encased in ice.

The effects of this spell do not stack with those of *protection from elements*, *endure elements*, or *resist elements*.

If a creature is warded by *protection from all elements* and any of these other spells, *protection from all elements* absorbs damage until it is discharged.

CONJURATION

BEGET BOGUN

Conjuration (Creation)

Level: Drd 1

Components: V, S, M, XP

Casting Time: 1 action

Range: Touch

Effect: Tiny construct

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Beget bogun allows you to infuse living magic into a small mannequin that you have created from vegetable matter.

This is the final spell in the process of creating a bogun. See the bogun's description for further details.

Material Component: The mannequin from which the bogun is created.

XP Cost: 25 XP.

☛BOGUN

Tiny Construct

Hit Dice: 2d10(11 hp)

Initiative: +3

Speed: 20 ft., fly 50 ft. (good) AC: 15 (+3 Dex, +2 size)

Attacks: Nettles +1 melee

Damage: Nettles 1d4-2 and poison

Face/Reach: 2 1/2 ft. by 2 1/2 ft./0 ft.

Special Attacks: Poison

Special Qualities: Construct traits

Saves: Fort +0, Ref +3, Will +1

Abilities: Str 7, Dex 16, Con —, Int 8, Wis 13, Cha 10

Climate/Terrain: Any (typically forest)

Organization: Solitary

Challenge Rating: 1

Treasure: None

Alignment: Any neutral (always the same as the creator)

Advancement: 3–6 HD (Tiny)

A begun is a small nature servant created by a druid.

Like a homunculus, it is an extension of its creator, sharing the same alignment and link to nature.

A begun does not fight particularly well, but it can perform any simple action, such as attacking, carrying a message, or opening a door or window.

For the most part, a begun simply carries out its creator's instructions.

Because it is self-aware and somewhat willful, however, its behavior is not entirely predictable.

On rare occasions (5% of the time), the begun may refuse to perform a particular task.

In that case, the creator must make a Diplomacy check (DC 11) to convince the creature to cooperate.

Success means the begun performs the task as requested; failure indicates that it either does exactly the opposite or refuses to do anything at all for one day (DM's option as to which).

A begun cannot speak, but the process of creating one links it telepathically with its creator.

It knows what its creator knows and can convey to him or her everything it sees and hears, up to a range of 500 yards. A begun never travels beyond this range willingly, though it can be removed forcibly.

In that case, it does everything in its power to regain contact with its creator.

An attack that destroys a begun also deals its creator 2d10 points of damage.

If the creator is slain, the begun also dies, and its body collapses into a heap of rotting vegetation.

A begun looks like a vaguely humanoid mound of compost. The creator determines its precise features, but the typical begun stands about 18 inches tall and has a wingspan of about 2 feet.

Its skin is covered with nettles and branches.

COMBAT

A begun attacks by brushing against opponents with harsh nettles that deliver an irritating poison.

Poison (Ex): Nettles, Fort save (DC 11); initial and secondary damage 1d6 temporary Dex.

The creator of a begun is immune to its poison.

Construct Traits: Immune to mind-influencing effects, poison, disease, and similar effects.

Not subject to critical hits, subdual damage, ability damage, energy drain, or death from massive damage.

Although it is made of vegetable matter, a begun is not a plant and is therefore is not subject to spells that affect only plants.

CONSTRUCTION

Unlike a homunculus, a begun is created from natural materials available in any forest.

Thus, there is no gold piece cost for its creation.

All materials used become permanent parts of the begun. The creator must be at least 7th level and possess the Craft Wondrous Item feat to make a begun.

Before casting any spells, a physical form must be woven out of living (or once-living) vegetable matter to hold the magical energy.

A bit of the creator's own body, such as a few strands of hair or a drop of blood, must also be incorporated into this crude mannequin.

The creator may assemble the body personally or hire someone else to do it.

Creating the mannequin requires a Craft (basketweaving or weaving) check (DC 12).

Once the body is finished, the creator must animate it through an extended magical ritual that requires a week to complete.

The creator must labor for at least 8 hours each day in complete solitude in a forest grove; any interruption from another sentient creature undoes the magic.

If the creator is personally weaving the creature's body, that process and the ritual can be performed together.

When not actively working on the ritual, the creator must rest and can perform no other activities except eating, sleeping, or talking.

Missing even one day causes the process to fail.

At that point, the ritual must be started anew, though the previously crafted body and the grove can be reused.

On the final day of the ritual, the creator must personally cast *control plants*, *wood shape*, and *beget begun*.

These spells can come from outside sources, such as scrolls, rather than being prepared, if the creator prefers.

BOTTLE OF SMOKE

Conjuration (Creation)

Level: Drd 4, Rgr 3

Components: V, S, F

Casting Time: 10 minutes

Range: Touch

Effect: One smoky, horselike creature

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

You use a tire source to create a plume of smoke, which you capture in a special bottle you're holding.

If the bottle is thereafter opened before the spell duration expires, the smoke emerges to form a vaguely horselike creature made of wisps of smoke.

It makes no sound, and anything that touches it simply passes through it.

To mount this smoke horse, the would-be rider must make a successful Ride check (DC 10) while holding the bottle in one hand.

Anyone attempting to mount without the bottle simply passes through the horse's form. Letting go of the bottle after mounting causes the rider to fall through the horse's smoky form; he or she cannot thereafter remount without the intact bottle in hand.

If the bottle is broken, the spell ends immediately and the rider (if mounted) falls to the ground.

The smoke horse has a speed of 20 feet per caster level, to a maximum of 240 feet.

It can send smoke billowing out behind it at the rider's behest, leaving behind a bank of smoke 5 feet wide and 20 feet high as it moves.

A wind that is at least severe (31+ mph, or magical wind of any kind, disperses the horse (and any smoke it has produced) instantly.

Otherwise, the bank of smoke lasts 10 minutes, starting on the turn it was laid down.

Starting or stopping the smoke trail is a free action.

The mount and the smoke trail it produces give one-half concealment (

20% miss chance) to anyone behind them.

The mount is immune to all damage and other attacks because material objects and spells simply pass through it. It cannot attack.

The rider can return the smoke horse to the bottle, and thus pause the spell, at any time by simply uncorking it (a move-equivalent action) and stoppering it again (another move-equivalent action) in the next round after the horse is inside.

If the bottle is reopened later, the spell reactivates with its remaining duration intact.

Regardless of how much duration remains unused, the spell ceases functioning one day after it is cast.

If dispelled at any time while the bottle is corked, the spell ends.

Focus: An ornate, corked bottle worth at Least 50 gp.

GREEN BLOCKADE

Conjuration (Creation)

Level: Drd 2

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 20-ft.-long, 1-ft.-thick wall of vegetation

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

You raise a barrier of plant life before you.

Any creature trying to pass through this blockade must succeed at a Strength check (DC 15) to do so; success ends its movement on the other side of the wall.

Fire burns away the blockade in 1 round, or creatures with appropriate implements can chop through it in 1 minute.

REGENERATE CIRCLE

Conjuration (Healing)

Level: Drd 6

This spell is the same as *regenerate ring*, except that it grants fast healing at the rate of 3 hit points per round.

REGENERATE CRITICAL WOUNDS

Conjuration (Healing)

Level: Clr 6, Drd 5

This spell is the same as *regenerate light wounds*, except that it grants fast healing at the rate of 4 hit points per round.

REGENERATE LIGHT WOUNDS

Conjuration (Healing)

Level: Clr 1, Drd 1

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 10 rounds + 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

With a touch of your hand, you boost the subject's life energy, granting him or her the fast healing ability for the duration of the spell.

This healing applies only to damage sustained during the spell's duration, not to that from previous injuries.

The subject heals 1 hit point per round of such damage until the spell ends and is automatically stabilized if he or she begins dying from hit point loss during that time.

Regenerate light wounds does not restore hit points lost from starvation, thirst, or suffocation, nor does it allow a creature to regrow or attach lost body parts.

The effects of multiple *regenerate* spells do not stack, only the highest-level effect applies.

Applying a second *regenerate* spell of equal level extends the first spell's duration by the full duration of the second spell.

REGENERATE MODERATE WOUNDS

Conjuration (Healing)

Level: Clr 3, Drd 2

This spell is the same as *regenerate light wounds*, except that it grants fast healing at the rate of 2 hit points per round.

REGENERATE RING

Conjuration (Healing)

Level: Drd 3

Components: V, S

Casting Time: 1 action

Range: 20 ft.

Target: One creature/two levels, no two of which can be more than 30 ft. apart

Duration: 10 rounds + 1 round/two levels

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You invoke healing energy over a group of creatures, granting each the fast healing ability for the duration of the spell.

This healing applies only to damage sustained during the spell's duration, not to that from previous injuries.

Each subject heals 1 hit point per round of such damage until the spell ends and is automatically stabilized if he or she begins dying from hit point loss during that time.

Regenerate ring does not restore hit points lost from starvation, thirst, or suffocation, nor does it allow a creature to regrow or attach lost body parts.

The effects of multiple *regenerate* spells do not stack; only the highest-level effect applies.

Applying a second *regenerate* spell of equal level extends the first spell's duration by the full duration of the second spell.

REGENERATE SERIOUS WOUNDS

Conjuration (Healing)

Level: Clr 5, Drd 4

This spell is the same as *regenerate light wounds*, except that it grants fast healing at the rate of 3 hit points per round.

SLIME WAVE

Conjuration (Summoning)

Level: Clr 7, Drd 7

Components: V, S, M

Casting Time: 1 action
Range: Close (25 ft. + 5 ft./2 levels)
Area: 15-ft.-radius spread
Duration: 1 round/level
Saving Throw: Reflex negates
Spell Resistance: No

You create a wave of green slime that begins at the range you choose and violently spreads to the limit of the area. The wave splashes and splatters as it passes; some slime clings to any wall or ceiling. Each creature in the area that fails its Reflex save is covered with one patch of green slime for every 5 feet of its face. Green slime devours flesh and organic materials on contact, and even dissolves metal.

A patch of green slime deals 1d6 points of temporary Constitution damage per round while it devours flesh. Against wood or metal, green slime deals 2d6 points of damage per round, ignoring the hardness of metal but not that of wood.

It does not harm stone.

On the first round of contact, the slime can be scraped off a creature (most likely destroying the scraping device), but after that it must be frozen, burned, or cut away (applying damage to the victim as well).

Extreme cold or heat, sunlight, or a *remove disease* spell destroys the green slime.

Unlike normal green slime, the slime created by this spell gradually evaporates, disappearing by the end of the duration.

Material Component: A few drops of stagnant pond water.

WOOD WOSE

Conjuration (Creation)

Level: Drd 1

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One nature servant

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

A *wood wose* is a translucent, green nature spirit that you can command to perform simple natural tasks.

It can build a campfire, gather herbs, feed an animal companion, catch a fish, or perform any other simple task that doesn't involve knowledge of technology.

It cannot, for example, open a latched chest, since it doesn't know how a latch works.

The wose can perform only one activity at a time, but it repeats the same activity if told to do so.

Thus, if you commanded it to gather leaves, it would continue to do so while you turned your attention elsewhere, as long as you remained within range.

The wose has an effective Strength score of 2, so it can lift 20 pounds or drag 100 pounds.

It can trigger traps, but the 20 pounds of force it can exert is not enough to activate most pressure plates.

Its speed is 15 feet in any direction, even up.

A *wood wose* cannot attack in any way; it is never allowed an attack roll or a saving throw.

It cannot be killed, but it dissipates if it takes 6 points of damage from area attacks.

If you attempt to send the wose beyond the spell's range (measured from your current position), it ceases to exist.

DIVINATION

BLOODHOUND

Divination

Level: Rgr 1

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 hour/level

If you fail a Wilderness Lore check to track a creature while this spell functions, you can immediately attempt another roll against the same DC to establish the trail.

If the reroll fails, you must search for the trail for 30 minutes (if outdoors) or 5 minutes (if indoors) before trying again.

DETECT FAVORED ENEMY

Divination

Level: Rgr 3

Components: V, S, DF

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You can sense the presence of a favored enemy.

The amount of information revealed depends on how long you study a particular area.

1st Round: Presence or absence of a favored enemy in the area.

2nd Round: Types of favored enemies in the area and the number of each type.

3rd Round: The location and HD of each individual present, as though revealed by a power sight effect.

Note: Each round you can turn to detect things in a new area.

The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

POWER SIGHT

Divination

Level:

Drd 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target or Area: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You determine the number of Hit Dice (including those from class levels) a creature currently has.

if the creature has both monster Hit Dice and class levels, *power sight* reveals only the total. You cannot determine what class levels a creature has, and negative levels do not count against its HD. For example, both a 10-HD creature and a 10th-level character with 4 negative levels appear as 10-HD creatures.

SPEAK WITH ANYTHING

Divination

Level: Drd 8

Components: V, S

Casting Time: 10 minutes

Range: Personal

Target: You

Duration: 1 minute/level

This spell grants you the effects of *Speak with Animals*, *Speak with Plants*, and *Tongues*, enabling you to communicate with any living creature, including unintelligent ones such as normal plants.

You can ask questions of and receive answers from any creatures, although the spell doesn't make them any more friendly or cooperative than normal.

You can make yourself understood as far as your voice carries.

You also gain the ability to speak with stone, metal, earth, water, or any other solid or semisolid object or terrain feature as though under the influence of *Stone Tell*.

Any such object or terrain feature can relate to you who or what has touched it, as well as what is covered or concealed behind or under it, providing complete descriptions as requested.

However, an object's perspective, perception, and knowledge may prevent it from providing the details you are looking for (DM's discretion).

This spell does not include a *Speak with Dead* effect, so you cannot access the past memories of dead creatures.

Though you understand every creature and object, you may speak only one language (or rough equivalent) at a time.

ENCHANTMENT

BIG SKY

Enchantment (Compulsion) [Fear, Mind-Affecting]

Level: Drd 5

Components: V, S, DF

Casting Time: 1 action

Range: 30 ft.

Area: You and all allies and enemies within a 30-ft.-radius emanation centered on you

Duration: 1 round/level

Saving Throw: Will negates (see text)

Spell Resistance: Yes

This spell creates the sensation that the sky is filled with invisible nature spirits and sussurating voices.

This effect is a boon to you and your allies and a bane to your enemies.

You gain a +2 morale bonus on attack rolls and a +4 morale bonus on saving throws against fear effects for the duration of the spell, as does each of your allies within the area.

Each of your enemies within the area who fails a Will save behaves as if affected by a *fear* spell.

Each round, every affected enemy gets a new Will save to shake off the effects of this spell.

An enemy who makes a successful save need not make any more saving throws for the duration of the spell.

Creatures immune to fear are immune to both aspects of this spell.

DAZE ANIMAL

Enchantment [Compulsion, Mind-Affecting]

Level: Drd 0

Components: V, S, DF

Casting Time: 1 action

Components: V, S

Range: Close (25 ft. + 5 ft./2 levels)

Target: One Medium-size or smaller animal with less than 5 HD

Duration: 1 round

Saving Throw: Will negates

Spell Resistance: Yes

This enchantment clouds the target animal's mind.

The subject is not stunned, so attackers get no special advantage against it, but it cannot move or attack.

FALSE BRAVADO

Enchantment (Compulsion) [Mind-Affecting]

Level: Drd 3

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One humanoid

Duration: 3 rounds + the subject's Constitution modifier

Saving Throw: Will negates

Spell Resistance: Yes

False bravado causes the subject to grow overconfident, believing that he or she has gained the full effects of a barbarian's rage (Constitution and Strength bonuses as well as improved Will saves).

In fact, however, the affected creature incurs all the penalties of a barbarian's rage but gains none of its advantages.

The subject suffers a -2 penalty to AC and cannot use skills or abilities that require patience and concentration, such as moving silently or casting spells.

At the end of the spell's duration, the creature is fatigued (-2 penalties to Strength and Dexterity, unable to charge or run) for the rest of that encounter.

Focus: A small mirror with a sigil of bravery painted upon it, worth at least 25 gp.

MANDRAGORA

Enchantment (Compulsion) [Mind-Affecting]

Level: Drd 6

Components: V, S, M

Casting Time: 1 action

Range: 15 ft.

Effect: All creatures in a 15-ft. radius

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

With this spell, you can trigger the insightful and baleful magic of a mandrake root.

When you pull it from its dark container, you and all other creatures within 15 feet must make a Will save against its scream.

Those who succeed gain a *true seeing* effect; those who fail behave as though affected by *confusion*.

Both effects last until the spell ends.

Material Component: A mandrake root worth at least 100 gp in a secure container with the same value.

MASS CALM

Enchantment [Compulsion, Mind-Affecting]

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Any number of animals, beasts, and magical beasts with Intelligence 1 or 2, no two of which can be more than 30 ft. apart

Duration: 1 minute/level

Saving Throw: Will negates (see text)

Spell Resistance: Yes

This spell soothes and quiets the subjects, rendering them docile and harmless.

Animals trained to attack or guard, dire animals, legendary animals, beasts, and magical beasts are entitled to saving throws against this effect; normal animals are not.

(A druid could calm a normal bear or wolf with little trouble, but it's more difficult to affect a winter wolf, a bullette, or a trained guard dog).

The subjects remain where they are and do not attack or flee.

They are not helpless, so they defend themselves normally if attacked.

Any threat (fire, a hungry predator, or an imminent attack, for example) breaks the spell on the threatened creatures.

MASS TRANCE

Enchantment [Compulsion, Mind-Affecting]

Level: Drd 5

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Any number of animals, beasts, and magical beasts with Intelligence 1 or 2, no two of which may be more than 30 ft. apart

Duration: Concentration

Saving Throw: Will negates (see text)

Spell Resistance: Yes

Your swaying motions and music (or singing, or chanting) compel the subjects to do nothing but watch you.

Animals trained to attack or guard, dire animals, legendary animals, beasts, and magical beasts are entitled to saving throws; normal animals are not.

An affected creature can be struck (with a +2 bonus on the attack roll, as if it were stunned), but such an action breaks the spell on that creature.

EVOCATION

GREATER CALL LIGHTNING

Evocation [Electricity]

Level: Drd 6

Components: V, S

Casting Time: 10 minutes, +1 action per bolt called

Range: Long (400 ft. + 40 ft./level)

Effect: See text

Duration: 10 minutes/level

Saving Throw: Reflex half

Spell Resistance: Yes

This spell is similar to *call lightning*, except that you may call down bolts every 5 minutes.

To cast *greater call lightning*, you must be in a stormy area—a rain shower, a tornado (including a whirlwind formed by a djinn or air elemental of 7 HD or more), clouds and wind, or even hot and cloudy conditions will do.

While you are in such an area, you can call down one bolt of lightning every 5 minutes.

You need not do so immediately upon casting—other actions, even spellcasting, can be performed at any time during the spell's duration.

However, you must use a standard action to concentrate on the spell when you call each bolt.

Each bolt of lightning flashes down in a vertical stroke, striking any target point you designate that is within range (measured from your position at the time).

It takes the shortest possible unobstructed path between a nearby cloud and the target point.

Any creature within a 10-foot radius of the bolt's path or the point where it strikes is affected.

Each bolt deals 1d10 points of electrical damage per caster level (maximum 15d10).

Greater call lightning is usable only outdoors; it does not function indoors, underground, or underwater.

The spell ends if you leave the stormy area.

MIASMA

Evocation

Level: Drd 4

Components: V; S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One living creature

Duration: 5 rounds/level

Saving Throw: See text

Spell Resistance: Yes

By filling the subject's mouth and throat with unbreathable gas, you prevent him or her from doing much more than coughing and spitting.

The subject can hold his or her breath for 2 rounds per point of Constitution but must make a Constitution check (DC 10 +1 per previous success) each round thereafter to continue doing so.

Failure on any such check (or voluntary resumption of breathing) causes the subject to fall unconscious (0 hp).

On the next round, the subject drops to -1 hit points and is dying; on the third round, he or she suffocates (see Suffocation in Chapter 3 of the DUNGEON MASTER'S Guide).

NATURE'S AVATAR

Evocation

Level: Drd 9

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Animal touched

Duration: 1 minute/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You infuse the subject with the spirit of nature.

The affected creature gains a +10 morale bonus on attack and damage rolls and 1d8 temporary hit points per caster level, plus the effects of *haste*.

NATURE'S FAVOR

Evocation

Level: Drd 3, Rgr 2

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Animal touched

Duration: 5 rounds/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

By calling on the power of nature, you grant the target animal a +1 luck bonus on attack and damage rolls for every two caster levels you possess.

SANDBLAST

Evocation

Level: Drd 1

Components: V, S, DF

Casting Time: 1 action

Range: 10 ft.

Area: Semicircular burst of sand 10 ft. long, centered on your hands

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You fire a hail of hot sand from your fingers, dealing 1d6 points of subdual damage to creatures in the arc.

(See the illustration in the burning hands spell description in the *Player's Handbook* for details of the arc).

Any creature that fails its Reflex save is also stunned for 1 round.

THUNDERSWARM

Evocation [Electricity]

Level: Drd 9

Components: V, S

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: Pattern of lightning spreads similar to a *fireball* (see text)

Duration: Instantaneous

Saving Throw: None or Reflex half (see text)

Spell Resistance: Yes

Like the arcane spell *meteor swarm*, *thunderswarm* evokes blasts similar to those of the spell *fireball*, except that this spell creates balls of lightning.

When you cast it, either four large (2-foot-diameter) spheres or eight small (1-foot-diameter) spheres spring from your outstretched hand and streak in a straight line to the spot you designate.

Each sphere leaves a trail of sparks behind it.

Any creature in the straight-line path of these spheres is struck by each one and takes a total of 16d6 points of electricity damage (no save).

The spheres dissipate after dealing this damage.

If the spheres reach their destination, each bursts like an electrical *fireball* in a spread.

The patterns of their detonation and damage dealt to creatures in the area depend on the size of the spheres, as follows.

(See the *meteor swarm* spell description in the *Player's Handbook* for details on the patterns).

Large Spheres: Each large sphere has a 15-foot-radius spread and deals 4d8 points of electricity damage.

The four spheres explode with their points of origin forming either a large diamond or a large box pattern (your choice) around the spell's central point of origin.

The blasts are 20 feet apart along the sides of the pattern, creating overlapping areas of the spell's effect and exposing the center to all four blasts.

Small Spheres: Each small sphere has a 7 1/2-foot-radius spread and deals 2d6 points of electricity damage.

These spheres explode with their points of origin forming either a box-within-a-diamond pattern or a diamond-within-a-box pattern around the spell's central point of origin.

Each of the pattern's outer sides measures 20 feet long.

All four areas overlap in the center of the pattern, and two or three areas overlap in various peripheral sections.

A creature caught in one of the blasts may attempt a Reflex save for half damage.

Creatures struck by multiple blasts must save against each blast separately.

Any creature that fails a save is stunned for 1d4 rounds in addition to taking full damage.

WATERBALL

Evocation

Level: Drd 4

Components: V, S, M

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

A *waterball* is a spherical burst of water that looks like a blue *fireball*.

As with a *fireball*, you point your finger and determine the range (distance and height) at which the *waterball* is to burst.

A blue, pea-sized bead streaks from the pointing digit and, unless it impacts upon a material body or solid barrier prior to attaining the prescribed range, blossoms into the *waterball* at that point.

(An early impact results in an early detonation).

If you attempt to send the bead through a narrow passage, such as an arrow slit, you must “hit” the opening with a ranged touch attack, or else the bead strikes the barrier and detonates prematurely.

(See the *fireball* spell description in the *Player's Handbook* for details of the blast pattern).

When it detonates, the *waterball* deals 1d6 points of subdual damage per caster level (maximum 10d6).

An affected creature can make a Reflex save for half damage.

Since the damage is subdual rather than energy, it is subject to damage resistance.

Objects take no damage unless they have a hardness of 0, in which case they take full damage.

If the damage caused to an interposing barrier shatters or breaks through it, the *waterball* may continue beyond it if the area permits; otherwise it stops at the barrier just as any other spell effect does.

Material Component: A full waterskin that you burst when casting the spell.

NECROMANCY

BLIGHT

Necromancy

Level: Clr 5, Drd 4

Components: V, S, DF

Casting Time: 1 action

Range: See text

Area or Target: See text

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

This spell has two versions.

To cast either version, you must touch a plant and breathe on it.

Blight Area: When you center this spell on a single normal plant, all normal plants within a 100-foot spread (including the one on which the spell was centered) immediately die. Flowers wilt, leaves fall to the ground, and foliage withers. This spell has no effect on the soil, so new growth can replace the dead plants.

This effect allows no saving throw.

Blight Plant Creature: When targeted on a single mobile or intelligent plant, such as a shambling mound or a treant, this spell deals 1d6 points of damage per caster level, to a maximum of 15d6.

The plant receives a Fortitude save for half damage.

CONTAGIOUS TOUCH

Necromancy

Level: Drd 6

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

Upon casting this spell, you must choose one disease from this list: blinding sickness, cackle fever, filth fever,

mindfire, red ache, the shakes, or slimy doom (see Disease in Chapter 3 of the *DUNGEON MASTER'S Guide* for descriptions).

Any living creature you hit with a melee touch attack during the spell's duration is affected as though by the *contagion* spell, immediately contracting the disease you have selected unless it makes a successful Fortitude save. You cannot infect more than one creature per round.

DECOMPOSITION

Necromancy

Level: Drd 2

Components: V, S, DF

Casting Time: 1 action

Range: 50 ft.

Area: All enemies within a 50-ft.-radius emanation centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

Whenever an enemy within the area suffers normal (not subdual) damage, that wound festers for an additional 1 point of damage per round thereafter for the duration of the spell.

A successful Heal check (DC 15) or the application of any *cure* spell or other healing magic (*heal*, *healing circle*, and so on) stops the festering.

Only one wound festers at a time; additional wounds suffered while the first is still festering are not subject to this effect.

Once festering has been stopped, however, any new wound suffered while the subject is within the area (before the spell expires) begins the process anew.

For example, a subject who takes 6 points of damage from an attack while within the area of a *decomposition* spell suffers 1 point of damage from festering the next round, and another 1 point on the round after that.

On the following round, that subject receives 4 points of healing from a *cure light wounds* spell, so the festering stops and the subject takes no festering damage that round.

The next round, the subject remains within the emanation and takes another 3 points of damage in battle.

The festering begins again, inflicting 1 point of festering damage on the next round.

EPIDEMIC

Necromancy

Level: Drd 9

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

Upon casting this spell, you must choose one disease from this list: blinding sickness, cackle fever, filth fever, mindfire, red ache, the shakes, or slimy doom (see Disease in Chapter 3 of the *DUNGEON MASTER'S Guide* for descriptions).

The touched creature contracts the disease you have selected immediately (no incubation period) unless it makes a successful Fortitude save.

Unlike a creature affected by *contagion*, the subject of an *epidemic* spell becomes a powerful vector for spreading the disease.

As long as the subject is afflicted with the disease, any living creature (except the caster) within 30 feet of him or her must make a Fortitude save or immediately contract the disease, regardless of its usual incubation period or method of transmission.

Anyone infected in this manner also becomes a vector for the disease and can spread it in the same manner.

The save DC drops by 1 each day after the spell is cast, regardless of when any particular creature contracted it.

A creature that makes a successful Fortitude save against this particular *epidemic* cannot contract that disease by any means for one day.

Thereafter, coming within 30 feet of an infected creature requires another save, with the same consequences for failure or success.

You are immune to any infection that originates from your own casting.

KISS OF DEATH

Necromancy

Level: Drd 5

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes (see text)

Your teeth and tongue become coated with a fast-acting, virulent poison.

Each round, you may make a melee touch attack to deliver the poison via a kiss.

The poison deals 1d10 points of temporary Constitution damage immediately and another 1d10 points of temporary Constitution damage 1 minute later.

Each instance of damage can be negated by a Fortitude save (DC 10 + one-half caster level + caster's Wisdom modifier).

If you fail to overcome a creature's spell resistance, both primary and secondary damage are negated, but only for that attack, if you use this attack against that creature again while the spell is in effect, you can try again to overcome its spell resistance.

LAST BREATH

Necromancy

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Dead creature touched

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

With this spell, you can return a dead creature to 0 hit points, provided it died within the last round.

You suffer 1d4 points of damage per Hit Die of the creature affected, and your spell resistance cannot overcome this damage.

The subject's soul must be free and willing to return (see *Bringing Back the Dead* in Chapter 10 of the *Player's Handbook*), if the subject's soul is not willing to return, the spell does not work; therefore, a subject who wants to return receives no saving throw.

Last breath cures enough damage to bring the subject's current hit points to 0.

Any ability scores damaged to 0 or below are raised to 1.

Normal poison and normal disease are cured, but magical diseases and curses are not undone.

The spell closes mortal wounds and repairs lethal damage of most kinds, but missing body parts are still missing when the creature returns to life.

None of the dead creature's equipment or possessions are affected in any way by this spell.

Coming back from the dead is an ordeal.

The subject loses one level when it returns to life, just as if it had lost a level to an energy-draining creature.

This level loss cannot be repaired by any spell.

A subject who was previously 1st level loses 1 point of Constitution instead.

A character who died with spells prepared has a 50% chance of losing any given spell upon being raised, in addition to losing spells for losing a level.

A spellcasting creature that doesn't prepare spells (such as a sorcerer) has a 50% chance of losing any given unused spell slot as if it had been used to cast a spell, in addition to losing spell slots for losing a level.

Last breath has no effect on a creature that has been dead for more than 1 round.

A creature that died from a death effect can't be raised by this spell, nor can constructs, elementals, outsiders, and undead creatures, *last breath* cannot bring back a creature who has died of old age.

SCARECROW

Necromancy [Fear, Mind-Affecting]

Level: Drd 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

The subject becomes shaken, suffering a -2 morale penalty on attack rolls, saves, and checks for the duration of the spell.

TRANSMUTATION

ADRENALINE SURGE

Transmutation

Level: Drd 2, Sor/Wiz 2

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Your summoned creatures within a spherical emanation with a radius equal to the range, centered on you

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Each of your summoned creatures within the area receives a +4 enhancement bonus to Strength.

This effect lasts until the spell ends or the creature leaves the area.

ANIMAL REDUCTION

Transmutation

Level: Drd 2, Rgr 3

Components: V, S

Casting Time: 1 action

Range: Touch

Target: One willing animal of size Small, Medium-size, Large, or Huge

Duration: 1 hour/level

Saving Throw: Will negates

Spell Resistance: Yes

You reduce the target animal's size by one category.

For example, a Large tiger affected by this spell becomes a Medium-size tiger.

This decrease in size allows the animal to fit better into tight spaces, such as the typical dungeon room or subterranean passage.

The size change also has a number of other effects, as given in the *Monster Manual* and summarized below.

If this spell would cause any ability score to drop to 0 or below, that score instead becomes 1 while all other effects apply normally.

Huge to Large: The subject loses 8 points of Strength, 4 points of Constitution, and 3 points of natural armor, while gaining 2 points of Dexterity, a +1 bonus to AC, and a +1 bonus on attack rolls.

Overall, this change results in a -3 penalty on melee attack rolls, a +2 bonus on ranged attack rolls, a -4 penalty on melee damage rolls, a -1 penalty to AC, and -2 hit points per Hit Die.

The subject's face/reach becomes 5 feet by 10 feet/5 feet.

Large to Medium-Size: The subject loses 8 points of Strength, 4 points of Constitution, and 2 points of natural armor, while gaining 2 points of Dexterity, a +1 bonus to AC, and a +1 bonus on attack rolls.

Overall, this change results in a -3 penalty on melee attack rolls, a +2 bonus on ranged attack rolls, a -4 penalty on melee damage rolls, no change to AC, and -2 hit points per Hit Die.

The subject's reach becomes 5 feet by 5 feet/5 feet.

Medium-Size to Small: The subject loses 4 points of Strength and 2 points of Constitution, while gaining 2 points of Dexterity, a +1 bonus to AC, and a +1 bonus on attack rolls.

Overall, this change results in a -1 penalty on melee attack rolls, a +2 bonus on ranged attack rolls, a -2 penalty on melee damage rolls, a +2 bonus to AC, and -1 hit point per Hit Die.

The subject's face/reach becomes 5 feet by 5 feet/5 feet.

Small to Tiny: The subject loses 4 points of Strength while gaining 2 points of Dexterity, a +1 bonus to AC, and a +1 bonus on attack rolls.

Overall, this change results in a -1 penalty on melee attack rolls, a +2 bonus on ranged attack rolls, a -2 penalty on melee damage rolls, a +2 bonus to AC, and no change to hit points.

The subject's face/reach becomes 2 1/2 feet by 2 1/2 feet/0 feet.

ANIMAL TRICK

Transmutation

Level: Drd 0, Rgr 1

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal companion bonded to you by an *animal friendship* effect

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Your animal companion performs a trick of your choosing that it does not already know.

This trick can be any of those listed in the Animal Companions sidebar in Chapter 2 of the *DUNGEON MASTER'S Guide* or in Chapter 2 of this book.

The animal retains no knowledge of the trick after performing it.

BODY OF THE SUN

Transmutation [Fire]

Level: Drd 2, Sor/Wiz 2

Components: V, S, DF

Casting Time: 1 action

Range: 5 ft.

Area: 5-ft.-radius emanation centered on you

Duration: 1 round/level

By drawing on the power of the sun, you cause your body to emanate fire.

This fire extends 5 feet in all directions from your body, illuminating the area and doing 1d4+1 points of fire damage (Reflex save for half) to any creature it touches except you.

BRIAR WEB

Transmutation

Level: Drd 2, Rgr 2

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: Plants in a 40-ft.-radius spread

Duration: 1 minute/level

Saving Throw: See text

Spell Resistance: No

This spell causes grasses, weeds, bushes, and even trees to grow thorns and then wrap, twist, and entwine about creatures in the area, holding them fast.

Creatures that stand still are entangled but experience no other effects and take no damage.

A creature attempting an action (attack, cast a spell with a somatic component, move, or the like) takes thorn damage of 1d4 points +1 additional point per caster level and must make a successful Reflex save or be entangled (-2 penalty

on attack rolls, -4 penalty to effective Dexterity, and unable to move).

Anyone trying to cast a spell within the area must also make a Concentration check (DC 15 + spell level + damage taken) or lose the spell.

An entangled creature can try to break free and move at half normal speed by using a full-round action to make a Strength check or Escape Artist check (DC 20).

A nontangled creature can move through the area at half speed, taking damage as described above.

Each round nontangled creatures remain in the area, the plants attempt to entangle them.

The plants provide one-quarter cover for every 5 feet of substance between a creature in the area and an opponent—one-half for 10 feet of *briar web*, three-quarters for 15 feet, and total cover for 20 feet or more.

The DM may alter the effects of the spell somewhat, based on the nature of the available plants.

CAMOUFLAGE

Transmutation

Level: Drd 1, Rgr 1

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

You change your coloring to match your environment, gaining a +10 competence bonus on Hide checks.

Material Component: Mud painted on your face.

CLOAK OF THE SEA

Transmutation

Level: Drd 5, Sor/Wiz 5

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched that is in contact with water

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject retains his or her form, but appears to be composed of water.

While underwater, the subject functions as if affected by *blur*, *freedom of movement*, and *water breathing* and doesn't suffer subdual damage from water pressure or hypothermia for the duration of the spell.

Outside (or even partially outside) of water, the subject gains none of these advantages except *water breathing*.

He or she may leave and reenter water without ending the spell.

CLOUDWALKERS

Transmutation

Level: Drd 7

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level, no two of which can be more than 30 ft. apart

Duration: 1 hour/level (D)

Saving Throw: Reflex negates (harmless)

Spell Resistance: Yes (harmless)

You create gaseous pads of cloudstuff on the subjects' feet, allowing them to walk on the clouds.

These pads allow each subject to move straight up or down at a speed of up to 30 feet or laterally with a fly speed of 60 feet (perfect), as desired.

(Lateral movement is possible only for a subject who is already at least 90 feet off the ground).

To touch the earth again, a subject must use a standard action to shake off the cloudstuff, which ends the spell for that creature.

You may dismiss the spell, but only for all subjects at once—an act that can have significant consequences for subjects already in the air.

CREEPING COLD

Transmutation [Cold]

Level: Drd 2

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 3 rounds

Saving Throw: Fortitude half

Spell Resistance: Yes

You turn the subject's sweat to ice, creating blisters as the ice forms on and inside the skin.

The spell deals 1d6 cumulative points of cold damage per round it is in effect (that is, 1d6 on the 1st round, 2d6 on the second, and 3d6 on the third).

Only one save is allowed against the spell; if successful, it halves the damage each round.

Focus: A small glass or pottery vessel worth at least 25 gp filled with ice, snow, or water.

DARKSEED

Transmutation

Level: Drd 0

Components: V, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One normal plant or plant creature

Duration: 1 day

Saving Throw: Reflex negates

Spell Resistance: Yes

If the target fails its Reflex save, it takes 1 point of damage when the spell is cast and another every hour while it is in effect.

Hardness is ignored for damage from *darkseed*.

It would take weeks to kill a large tree with successive applications of this spell, but a small plant would die in a matter of hours.

Darkseed does not affect plant creatures with Wisdom and Charisma scores.

DRUID GROVE

Transmutation

Level: Drd 5

Components: V, S

Casting Time: At least 10 minutes (see text)

Range: Close (25 ft. + 5 ft./2 levels)

Target: One or more trees

Duration: 1 day/level or until discharged

Saving Throw: None

Spell Resistance: No

By casting *druid grove*, you reshape a living tree so that it can contain a spell.

Thereafter, you can access this stored spell at any time, as if the tree were a very large, immobile scroll.

In conjunction with *druid grove*, you can cast druid spells totaling no more than one-third of your caster level (rounded down, maximum 6th).

Instead of taking effect, these companion spells are stored in trees within the area.

Each tree can hold only one spell.

Druid grove and the companion spells must all be cast during the same uninterrupted ritual.

The 10-minute casting time noted above is the minimum for the entire ritual, if any of the companion spells take longer than 10 minutes to cast, use the actual total casting time instead.

By touching the tree that contains a companion spell (a standard action), you can activate that spell instantaneously.

You must make any decisions about its effect (such as targeting and direction) upon touching the tree.

You may have only one *druid grove* in effect at a time.

If you cast a second *druid grove* before the first expires or is fully discharged, the first is dispelled.

A tree affected by *druid grove* detects as magical, but the detection process does not harm the tree in any way.

EMBRACE THE WILD

Transmutation

Level: Drd 3, Rgr 3

Components: V, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

This spell allows you to adopt the nature and some abilities of a wild animal.

You retain your own form, but you gain the natural and extraordinary senses of the creature you choose, as well as its skill ranks (though these do not stack with any ranks you already have in the same skills), for the duration of the spell.

Thus, depending on your choice of animal, you could gain blindsight, scent, and ranks in Listen, Spot, or other skills.

Embrace the wild does not grant you the animal's natural attacks, methods of locomotion, feats, or nonsensory extraordinary abilities, such as trample or improved grab.

Focus: Hide, skin, or feathers of the selected animal, or an item or component of its lair.

You must have obtained the focus from the animal yourself.

FEATHERS

Transmutation

Level: Drd 4

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One willing creatures/level

Duration: 1 hour/level (D)

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

This spell functions like *polymorph other*, except that you *polymorph* each subject into a feathered animal of Small size or smaller (your choice of species, but all subjects take the same form).

Any subject may choose to resume his or her normal form (as a full-round action); doing so ends the spell for that individual alone.

Otherwise, all subjects remain in the bird form until the spell expires or you dismiss it, restoring all affected creatures to normal form.

FIRE EYES

Transmutation

Level: Drd 0

Components: V, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Fire eyes grants the subject the ability to see through normal smoke, fire, and fog as if they weren't there.

While the spell functions, other creatures do not gain concealment from these effects with respect to the subject. This spell does not enable a subject to see through magical fog, such as *obscuring mist* and *fog cloud*.

FORESTFOLD

Transmutation

Level: Drd 4, Rgr 3

This spell grants you a +20 competence bonus on Hide and Move Silently checks.

It is otherwise the same as *camouflage*.

GREATER CREEPING COLD

Transmutation [Cold]

Level: Drd 7

Duration: See text

This spell is the same as *creeping cold*, but it adds a fourth round to the duration, during which it deals 4d6 points of damage, if the caster is at least 15th level, it adds a fifth round at 5d6 points of damage.

If the caster is at least 20th level, it adds a sixth round at 6d6 points of damage.

HAWKEYE

Transmutation

Level: Drd 1, Rgr 1

Components: V

Casting Time: 1 action

Range: Personal

Target: You

Duration: 10 minutes/level

This spell gives you the ability to see accurately at long distances.

Your range increment for projectile weapons increases by 50%, and you gain a +5 competence bonus on all Spot checks.

LANGUOR

Transmutation

Level: Drd 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell causes creatures it hits to become weak and slow. A subject who fails a Will save is *slowed* as the spell and suffers a cumulative enhancement penalty to Strength equal to 1d6–1 per two caster levels (minimum additional penalty of 0, maximum of –10) each round.

If the subject's Strength drops below 1, it is helpless.

This spell does not counter *haste* nor it is countered by it, but a *hasted* creature can be brought to normal speed by languor, and a creature affected by languor can be brought to normal speed by *haste*.

LOOKINGGLASS

Transmutation

Level: Drd 9

Components: V, S, DF

Casting Time: 1 hour

Range: Medium (100 ft. + 10 ft./level)

Target: A reflective surface at least as big as a Medium-size creature

Duration: 1 day/level

Saving Throw: See text

Spell Resistance: Yes

When you cast this spell, you create one end of a path between two natural mirrored surfaces, such as pools of water or clear lakes.

If you cast a second *lookingglass* spell on a similar surface before the duration of the first expires, you can look through it as if you were using *clairvoyance*.

Within 1 minute/level of casting the second *lookingglass*, you and up to one other creature/level may step through as if affected by *teleport without error*.

This spell doesn't provide any ability to survive in the location of either *lookingglass*, so if you cast it the first spell on a lake, your allies had better be able to swim.

If the spell duration of the first *lookingglass* spell elapses before you can complete the path with a second casting, the first spell is useless.

MASS AWAKEN

Transmutation

Level: Drd 8

Components: V, S, F, XP

Casting Time: One day

Range: Medium (100 ft. + 10 ft./level)

Target: One animal or tree/tree levels, no two of which may be more than 30 ft. apart

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

You awaken one or more trees or animals to humanlike sentience.

All *awakened* creatures must be of the same kind.

To succeed, you must make a successful Will save (DC 10 + the HD of the highest-HD target, or the HD the highest target tree has once *awakened*, whichever is greater).

Failure indicates that the spell fails for all targets.

The *awakened* animal or tree is friendly toward you.

You have no special empathy or connection with it, but it serves you in specific tasks or endeavors if you communicate your desires to it.

An *awakened* tree has characteristics as if it were an animated object (see the *Monster Manual*), except that its Intelligence, Wisdom, and Charisma scores are all 3d6.

Awakened plants gain the ability to move their limbs, roots, vines, creepers, and so forth, and they have senses similar to a human's.

An *awakened* animal has 3d6 Intelligence, a +1d3 bonus to Charisma, and +2 HD.

An *awakened* tree or animal can speak one language that you know, plus one additional language that you know per point of Intelligence bonus (if any).

XP Cost: 250 XP per creature awakened.

MIGHT OF THE OAK

Transmutation

Level: Drd 2

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell grants the quiet strength of a massive oak tree.

The subject gains a +4 enhancement bonus to Strength and suffers a –2 enhancement penalty to Dexterity.

PERSISTENCE OF THE WAVES

Transmutation

Level: Drd 2

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell bestows the smooth indomitability of waves crashing on a shore.

The subject gains a +4 enhancement bonus to Constitution and suffers a –2 enhancement penalty to Strength.

SPEED OF THE WIND

Transmutation

Level: Drd 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 10 minutes/level

Saving Throw: Will negates

Spell Resistance: Yes

With this spell, you can grant the ephemeral quickness of a sudden breeze.

The subject gains a +4 enhancement bonus to Dexterity and a -2 enhancement penalty to Constitution.

STANDING WAVE

Transmutation

Level: Drd 3

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Waves under a creature or object within range

Duration: 10 minutes/level

Saving Throw: Reflex negates

Spell Resistance: Yes

You command the waters to lift a creature or object and propel it forward.

An object so lifted may contain creatures or other objects. What the wave can lift depends on your caster level.

Caster Level	Size of Creature or Object
5th	Up to Medium-size
7th	Large
9th	Huge
11th	Gargantuan
13th	Colossal

Standing wave moves the lifted creature or object in a straight line at a speed of 60 feet over water.

The spell dissipates when the wave contacts land, lowering its burden harmlessly to shore.

TRUE REINCARNATE

Transmutation

Level: Drd 9

Components: V, S, DF, XP

Casting Time: 10 minutes

Range: Touch

Target: Dead creature touched

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

This spell is the same as *reincarnate*, except that the druid can reincarnate a creature that has been dead up to 10 years per caster level.

True reincarnate can even bring back a subject whose body has been wholly destroyed, provided that you unambiguously identify that creature in some fashion (reciting the deceased's time and place of birth or death is the most common method).

Upon completion of this spell, the subject has a new body, and all physical ills and afflictions are repaired.

Refer to the description and the table for the *reincarnate* spell (in the *Player's Handbook*) to determine the subject's new incarnation.

When rolling to determine the new form, roll twice; the returning creature can select from either of the two forms indicated.

The subject suffers neither loss of level (or Constitution point) nor loss of any prepared spells or spell slots.

You can reincarnate someone killed by a death effect or someone who has been turned into an undead creature and then destroyed, as well as someone killed by hit point loss. XP Cost: 1,000 XP.

MINIATURES HANDBOOK (3.5)

ABJURATION

ANGELSKIN

Abjuration [Good]

Level: Pal 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Lawful good creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains damage reduction 10/evil and silver.

CONVICTION

Abjuration

Level: Clr 1

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell bolsters the mental, physical, and spiritual strength of the creature touched.

The spell grants the subject a +2 morale bonus on all saving throws, with an additional +1 to the bonus for every six caster levels you have (maximum +5 morale bonus at 18th level).

Material Component: A small parchment with a bit of holy text written upon it.

CONVICTION, LEGION'S

Abjuration

Level: Clr 3

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies in a 20-ft.-radius burst

This spell functions like *conviction*, except that it affects multiple allies at a distance.

DEMONHIDE

Abjuration [Evil]

Level: Blk 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Evil creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains damage reduction 10/cold iron and good.

FAVORABLE SACRIFICE

Abjuration

Level: Clr 1

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 hour/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject receives the protection of a divine power commensurate with the value of the expended material component.

Only one of the benefits listed below applies per casting of this spell; they do not stack.

Sacrifice	Benefit
1,000 gp	Damage reduction 10/magic; resistance to acid 10, cold 10, electricity 10, fire 10, sonic 10; spell resistance 10
5,000 gp	Damage reduction 15/magic; resistance to acid 15, cold 15, electricity 15, fire 15, sonic 15; spell resistance 15
25,000 gp	Damage reduction 20/magic; resistance to acid 20, cold 20, electricity 20, fire 20, sonic 20; spell resistance 20

Material Component: Gems worth a total of 1,000 gp, 5,000 gp, or 25,000 gp.

LIONHEART

Abjuration [Mind-Affecting]

Level: Pal 1

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains immunity to fear effects.

RIGHTEOUS AURA

Abjuration [Good, Light]

Level: Pal 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level

You are bathed in an unearthly glow for the duration of the spell (as if a *daylight* spell had been cast on you).

You get a +4 sacred bonus to your Charisma score.

If you die, your body is converted into an explosive blast of energy in a 20-foot-radius burst centered where you fell, dealing 2d6 points of damage per caster level (maximum 20d6) to all nongood creatures in the burst's area.

Good creatures in the area are healed by the same amount, and undead take double this damage.

Spell resistance cannot prevent this damage, but a successful Reflex save reduces it to half.

Your body is disintegrated, so you cannot be raised with a *raise dead* spell.

Spells that do not require an intact body, such as *true resurrection*, can be used to bring you back to life as normal.

SHIELD OF FAITH, LEGION'S

Abjuration

Level: Clr 4

Range: Medium (100 ft. + 10 ft./level)

Targets: Allied creatures in a 20-ft.-radius burst

This spell functions like *shield of faith* (see page 278 of the *Player's Handbook*), except that it affects multiple allies at a distance.

CONJURATION

ACID ORB, LESSER

Conjuration (Creation) [Acid]

Level: Sor/Wiz 1, Wmg 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One orb of acid

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

An orb of acid about 2 inches across shoots from your palm at its target, dealing 1d8 points of acid damage.

You must succeed on a ranged touch attack to hit your target.

For every two caster levels beyond 1st, your orb deals an additional 1d8 points of damage: 2d8 at 3rd level, 3d8 at 5th level, 4d8 at 7th level, and the maximum of 5d8 at 9th level or higher.

ARC OF LIGHTNING

Conjuration (Creation) [Electricity]

Level: Drd 4, Sor/Wiz 5, Wmg 5

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: A line between two creatures

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

You create natural conductivity between two creatures, and a bolt of electricity arcs between them.

This bolt deals 1d6 points of electricity damage per caster level (maximum 15d6) to both creatures and to anything in the line between them.

Both creatures must be in range, and you must be able to target them (as if this spell had them as its targets).

Draw the line from any corner in one creature's space to any corner in the other's space.

Arcane Material Component: Two small iron rods.

BALEFUL TRANSPOSITION

Conjuration (Teleportation)

Level: Sor/Wiz 2

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Two creatures of up to Large size

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Two target creatures, of which you may be one, instantly swap positions.

The creatures must be connected by a solid object, such as the ground, a bridge, or a rope.

Both targets must be within range.

Objects carried by the subject creatures (up to the creatures' maximum loads) go with them, but other creatures do not, even if they are carried.

The movement is instantaneous and does not provoke attacks of opportunity.

If either creature succeeds on its Will save, the spell is negated.

BENIGN TRANSPOSITION

Conjuration (Teleportation)

Level: Sor/Wiz 1

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: Two willing creatures of up to Large size

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Two target creatures, of which you may be one, instantly swap positions.

Both targets must be within range.

Objects carried by the target creatures (up to the creatures' maximum loads) go with them, but other creatures do not, even if they are carried.

The movement is instantaneous and does not provoke attacks of opportunity.

BLADES OF FIRE

Conjuration [Fire]

Level: Rgr 2, Sor/Wiz 2, Wmg 2

Components: V

Casting Time: 1 swift action

Range: Touch

Targets: Up to two melee weapons you are wielding

Duration: 1 round

Saving Throw: None

Spell Resistance: No

Flames sheathe your melee weapons, harming neither you nor the weapons but possibly burning your opponents.

Your melee weapons each deal 1d6 points of extra fire damage.

This damage stacks with any energy damage your weapon already deals.

BLAST OF FLAME

Conjuration (Creation) [Fire]

Level: Sor/Wiz 4, Wmg 4

Components: V, S, M

Casting Time: 1 standard action

Range: 60 ft.

Area: Cone-shaped burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

Flames fill the area, dealing 1d6 points of fire damage per caster level (maximum 10d6) to any creature in the area that fails its saving throw.

Material Component: A bit of wick soaked in oil.

CLOSE WOUNDS

Conjuration (Healing)

Level: Clr 3, Hlr 3

Components: V

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will half (harmless); see text

Spell Resistance: Yes (harmless)

This spell cures 2d4 points of damage.

You can cast this spell with an instant utterance.

You may even cast this spell when it isn't your turn.

If you cast this spell immediately after the subject takes damage, it effectively prevents the damage.

It would keep alive someone who had just dropped to -10 hit points, for example, leaving the character at negative hit points but stable.

Used against an undead creature, *close wounds* deals damage instead of curing the creature (which takes half damage if it makes a Will saving throw).

COLD ORB, LESSER

Conjuration (Creation) [Cold]

Level: Sor/Wiz 1, Wmg 1

Effect: One orb of cold

This spell functions like *lesser acid orb*, except that it deals cold damage.

ELECTRIC ORB, LESSER

Conjuration (Creation) [Electricity]

Level: Sor/Wiz 1, Wmg 1

Effect: One orb of electricity
This spell functions like *lesser acid orb*, except that it deals electricity damage.

FIRE ORB, LESSER

Conjuration (Creation) [Fire]

Level: Sor/Wiz 1, Wmg 1

Effect: One orb of fire
This spell functions like *lesser acid orb*, except that it deals fire damage.

MORDENKAINEN'S BUZZING BEE

Conjuration (Creation)

Level: Sor/Wiz 1

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: A phantom bee

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell causes a small but extremely loud bee to appear. It buzzes around the head of a creature you designate. (The creature must be within range, and you must be touching or be able to see the creature.)

Once you designate a creature, the bee stays with it; you cannot designate another creature).

The bee creates an unnerving noise that disrupts the subject's concentration.

The subject takes a -10 penalty on all Move Silently and Concentration checks.

(Creatures that can't hear don't take the penalty on Concentration checks).

If the subject attempts to cast or maintain a spell, it must make a DC 10 Concentration check even if there are no other distractions.

The bee has a fly speed of 180 feet (perfect).

It remains near the subject in spite of darkness, *invisibility*, polymorphing, cover, concealment, or any other attempt at disguising or hiding.

The bee remains until the spell's duration expires or the subject moves out of range.

The bee can't be attacked, but it can be dispelled.

Material Component: A dab of honey.

PANACEA

Conjuration (Healing)

Level: Clr 4, Drd 5, Hlr 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: Instantaneous

Saving Throw: Will half (harmless); see text

Spell Resistance: Yes (harmless)

This spell channels positive energy into a creature to wipe away afflictions.

It immediately ends any of the following conditions affecting the target: blinded, *confused*, dazed, dazzled, deafened, diseased, exhausted, fatigued, frightened,

nauseated, panicked, paralyzed, shaken, sickened, and stunned.

It negates *sleep* effects and the effect of the *feblemind* spell, and ends any additional effects from poison, as the *neutralize poison* spell.

It also cures 1d8 points of damage + 1 point per caster level (up to +20).

Panacea does not remove ability damage, negative levels, or permanently drained levels.

It does not remove conditions caused by spells of 7th level or higher, or by spells or effects that cannot be dispelled. Used against an undead creature, *panacea* deals damage instead of curing the creature (which takes half damage if it makes a Will saving throw), but it has no other effect.

REVIVIFY

Conjuration (Healing)

Level: Clr 5, Hlr 5

Components: V, S, M

Casting Time: 1 standard action

Range: Touch

Target: Dead creature touched

Duration: Instantaneous

Saving Throw: None; see text

Spell Resistance: Yes (harmless)

Revivify miraculously restores life to a recently deceased creature.

However, the spell must be cast within 1 round of the victim's death.

Before the soul of the deceased has completely left the body, this spell halts its journey while repairing somewhat the damage to the body.

This spell functions like *raise dead*, except that the raised creature receives no level loss, no Constitution loss, and no loss of spells.

The creature is only restored to -1 hit points (but is stable).
Material Component: Diamonds worth at least 1,000 gp.

RING OF BLADES

Conjuration

Level: Clr 3, Wmg 3

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

This spell conjures a ring of swirling metal blades around you.

The ring extends 5 feet from you, into all squares adjacent to your space.

Each round on your turn, starting when you cast the spell, the blades deal 1d6 points of damage + 1 point per caster level (up to a maximum of +10) to all creatures in the affected area.

The blades conjured by a lawful-aligned cleric are cold iron, those conjured by a chaotic-aligned cleric are silver, and those conjured by cleric who is neither lawful nor chaotic are steel.

Material Component: A small dagger.

SONIC ORB, LESSER

Conjuration (Creation) [Fire]

Level: Sor/Wiz 1, Wmg 1

Effect: One orb of sonic energy

This spell functions like *lesser acid orb*, except that it deals from 1d6 to 5d6 points of sonic damage instead of 1d8 to 5d8 points of acid damage.

DIVINATION

GUIDED ARROW

Divination

Level: Rgr 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

Targets of your ranged attacks do not get bonuses to Armor Class because of cover.

You still can't hit creatures with total cover.

ENCHANTMENT

AID, LEGION'S

Enchantment (Compulsion) [Mind-Affecting]

Level: Clr 4

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies in a 20-ft.-radius burst

This spell functions like *aid* (see page 196 of the *Player's Handbook*), except that it affects multiple allies at a distance and each ally gains temporary hit points equal to 1d8 + caster level (to a maximum of 1d8+20 temporary hit points at caster level 20th).

DIVINE PROTECTION

Enchantment (Compulsion) [Mind-Affecting]

Level: Clr 2, Pal 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies in a 20-ft.-radius burst

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Allies gain a +1 morale bonus to their Armor Class and on saving throws.

INCITE

Enchantment (Compulsion) [Mind-Affecting]

Level: Brd 1, Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

This spell incites the subject into acting.

The subject is not allowed to delay or to ready an action.

If the subject is currently delaying, it acts as soon as the spell is cast.

If the subject currently has an action readied, it may act as normal but can't later ready another action while the spell remains in effect.

INHIBIT

Enchantment (Compulsion) [Mind-Affecting]

Level: Brd 1, Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

The caster inhibits his foe from acting.

The subject is forced to delay until the following round, acting immediately before the caster on the caster's initiative count.

SIGN

Enchantment (Compulsion) [Mind-Affecting]

Level: Clr 1

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

You are granted a vision that shows you how your foes will act each round and allows you to respond quickly to them. When you cast this spell, you may set your initiative check result at 20 + your initiative modifier (but only if doing so increases the result).

You know the initiative check results of all your foes while the spell is in effect, and you know which opponent will act first in case of ties.

This spell applies to all foes in your line of sight.

Material Component: A small piece of dried goat intestine or some tea leaves.

EVOCATION

BIGBY'S SLAPPING HAND

Evocation [Force]

Level: Sor/Wiz 2

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One Tiny hand

Duration: Instantaneous

Saving Throw: None (see text)

Spell Resistance: Yes

Bigby's slapping hand causes a magical hand to appear, deliver a slap to one creature, then disappear.

The slap distracts the subject, causing it to immediately provoke attacks of opportunity from creatures threatening its square.

The spell allows no saving throw, but the slapped creature can negate the effect with a successful DC 20 Concentration check.
Focus: A leather glove.

FIRE SHIELD, LEGION'S

Evocation [Fire or Cold]

Level: Sor/Wiz 5, Wmg 5

Components: V, S, M

Range: Medium (100 ft. + 10 ft./level)

Targets: Allied creatures in a 20-ft.-radius burst

This spell functions like *fire shield* (see page 230 of the *Player's Handbook*), except as noted above.

FIREBURST

Evocation [Fire]

Level: Sor/Wiz 2, Wmg 2

Components: V, S, M

Casting Time: 1 standard action

Range: 5 ft.

Effect: Burst of fire extending 5 ft. from you

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Fireburst causes a powerful explosion of flame to burst from you, damaging anyone within 5 feet of you.

All creatures within that area, except for you, take 1d8 points of fire damage per caster level (maximum 5d8).

The burst does not affect you or any creatures or objects in your space.

Material Component: A bit of sulfur.

FIREBURST, GREATER

Evocation [Fire]

Level: Sor/Wiz 5, Wmg 5

Effect: Burst of fire extending 10 ft. from you

This spell functions like *fireburst*, except that it affects creatures within 10 feet of you and deals a maximum of 15d8 points of damage to each one.

GUIDING LIGHT

Evocation [Light]

Level: Clr 1, Sor/Wiz 1

Components: V, S

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Targets: Creatures in a 5-ft.-radius burst

Duration: 1 min./level (D)

Saving Throw: None

Spell Resistance: Yes

Light shines over the affected area, illuminating all targets within it.

The light grants a +1 circumstance bonus on ranged attack rolls against any target in the area.

Spellcasters in battle sometimes use this spell to designate targets for archers.

RIGHTEOUS FURY

Evocation [Good]

Level: Pal 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject's charge attacks deal double damage.

(The subject does not have to be mounted or wielding a lance).

If the subject makes more than one attack on a charge, the double damage applies only to the first attack.

SLASHING DARKNESS

Evocation

Level: Clr 3

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

A hissing, hurtling ribbon of pure darkness flies from your hand.

A creature struck by this ray of darkness takes 1d8 points of damage per two caster levels (maximum 5d8).

An undead creature instead heals 1d8 points of damage per two caster levels (maximum 5d8).

VEIL OF SHADOW

Evocation [Darkness]

Level: Asn 2, Blk 2, Clr 2, Sor/Wiz 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level

Swirling wisps of darkness obscure your form, granting you concealment.

The 20% miss chance is active even if the attacker has darkvision.

This spell effect is suppressed in daylight or in the area of a light spell of 3rd level or higher.

See *invisibility* does not counter the *veil of shadow's* concealment effect, but a *true seeing* spell does.

DROW AND VEIL OF SHADOW

As an optional rule, the DM may decide that some (or all) drow have *veil of shadow* as a racial spell-like ability rather than *darkness*. In fact, some of the statistics given for drow miniatures (see Chapter 4: Stat Cards) take advantage of this optional rule. In some situations, *veil of shadow* is a more interesting ability than *darkness*—especially in miniatures battles, which slow down and are much less fun when *darkness* is in effect.

ILLUSION

INVISIBILITY, SWIFT

Illusion (Glamer)

Level: Asn 2, Brd 2

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions like *invisibility* (see page 245 of the *Player's Handbook*), except as noted above.

NECROMANCY

CURSE OF IMPENDING BLADES

Necromancy

Level: Brd 2, Rgr 2, Sor/Wiz 2

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes

The subject of the spell has a hard time avoiding attacks, sometimes even seeming to stumble into harm's way.

The subject takes a -2 penalty to AC.

The *curse* cannot be dispelled, but it can be removed with a *break enchantment*, *limited wish*, *miracle*, *remove curse*, or *wish* spell.

Arcane Material Component: A nail through a piece of leather.

CURSE OF IMPENDING BLADES, LEGION'S

Necromancy

Level: Brd 3, Rgr 3, Sor/Wiz 3

Range: Medium (100 ft. + 10 ft./level)

Targets: Enemies in a 20-ft.-radius burst

This spell functions like *curse of impending blades*, except that it affects multiple enemies.

CURSE OF PETTY FAILING

Necromancy

Level: Clr 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes

The subject takes a -2 penalty on attack rolls and saving throws.

The *curse* cannot be dispelled, but it can be removed with a *break enchantment*, *limited wish*, *miracle*, *remove curse*, or *wish* spell.

CURSE OF PETTY FAILING, LEGION'S

Necromancy

Level: Clr 5

Range: Medium (100 ft. + 10 ft./level)

Targets: Enemy creatures in a 20-ft.-radius burst

This spell functions like *curse of petty failing*, except that it affects multiple enemies out to medium range.

DELAY DEATH

Necromancy

Level: Clr 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject of this powerful spell is unable to die from hit point damage.

While under the protection of this spell, the normal limit of -9 hit points before a character dies is extended without limit.

A condition or spell that destroys enough of the subject's body so as to not allow *raise dead* to work, such as a *disintegrate* effect, still kills the creature, as does death brought about by ability score damage, level drain, or a death effect.

The spell does not prevent the subject from entering the dying state by dropping to -1 hit points.

It merely prevents death as a result of hit point loss.

If the subject has fewer than -9 hit points when the spell's duration expires, he or she dies instantly.

LIVING UNDEATH

Necromancy

Level: Clr 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This spell imparts a physical transformation upon the subject, not unlike the process that produces a zombie. While the subject does not actually become undead, its vital processes are temporarily bypassed with no seeming ill effect.

The subject becomes not subject to sneak attacks and critical hits, just as undead are.

While the spell is in effect, the subject takes a -4 penalty to its Charisma score (to a minimum of 1).

TRANSMUTATION

ALIGN FANG

Transmutation

Level: Drd 3

Components: V, S, DF

Casting Time: 1 standard action
Range: Touch
Target: Living creature touched
Duration: 1 min./level
Saving Throw: Will negates (harmless)
Spell Resistance: Yes (harmless)

Align fang makes a creature's natural weapons good-, evil-, lawful-, or chaotic-aligned, as you choose. A natural weapon that is aligned can overcome the damage reduction of certain creatures, usually outsiders of the opposite alignment.

This spell has no effect on a natural weapon that is already treated as being aligned, such as the claw or bite attack of most demons.

You can't cast this spell on a manufactured weapon, such as a sword.

When you cast this spell to make a natural weapon good-, evil-, lawful-, or chaotic-aligned, *align weapon* is a good, evil, lawful, or chaotic spell, respectively.

ALIGN FANG, LEGION'S

Transmutation

Level: Drd 5

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies in a 20-ft.-radius burst

This spell functions like *align fang*, except that it affects multiple allies at a distance.

ALIGN WEAPON, LEGION'S

Transmutation [see text for *align weapon*]

Level: Clr 4

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies' weapons in a 20-ft.-radius burst

This spell functions like *align weapon* (see page 197 of the *Player's Handbook*), except that it affects multiple weapons or projectiles at a distance.

BLESS WEAPON, SWIFT

Transmutation

Level: Pal 1

Components: V

Casting Time: 1 swift action

Duration: 1 round

This spell functions like *bless weapon* (see page 205 of the *Player's Handbook*) except as noted above.

EXPEDITIOUS RETREAT, SWIFT

Transmutation

Level: Brd 1

Components: V

Casting Time: 1 swift action

Duration: 1 round

This spell functions like *expeditious retreat* (see page 228 of the *Player's Handbook*), except as noted above.

FLY, SWIFT

Transmutation

Level: Brd 2, Drd 3

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell functions like *fly* (see page 232 of the *Player's Handbook*), except as noted above.

HASTE, SWIFT

Transmutation

Level: Rgr 2

Components: V

Casting Time: 1 swift action

Target: You

Duration: 1 round

This spell functions as *haste* (see page 239 of the *Player's Handbook*), except as noted above.

HOLY SPURS

Transmutation

Level: Pal 2

Components: V

Casting Time: 1 swift action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Your special mount

Duration: 1 round

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell increases your special mount's base land speed by 40 feet.

This adjustment is treated as an enhancement bonus.

LIGHTFOOT

Transmutation

Level: Asn 1, Rgr 1

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

You move with unearthly agility.

You provoke no attacks of opportunity when moving.

LION'S CHARGE

Transmutation

Level: Drd 3, Rgr 4

Components: V

Casting Time: 1 swift action

Range: Personal

Target: You

Duration: 1 round

This spell grants you the pounce special ability (see page 313 of the *Monster Manual*).

QUICK MARCH

Transmutation

Level: Clr 2, Pal 2

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Targets: Allies in a 20-ft.-radius burst

Duration: 1 round

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Quick march increases your allies' base land speed by 30 feet. (This adjustment is considered an enhancement bonus).

There is no effect on other modes of movement, such as burrow, climb, fly, or swim.

As with any effect that increases a creature's speed, this spell affects maximum jumping distance.

REPAIR CRITICAL DAMAGE

Transmutation

Level: Sor/Wiz 4

As *repair light damage*, except *repair critical damage* repairs 4d8 points of damage + 1 point per caster level (up to +20).

REPAIR LIGHT DAMAGE

Transmutation

Level: Sor/Wiz 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Construct touched

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes (harmless)

When laying your hands upon a construct that has at least 1 hit point remaining, you transmute its structure to repair damage it has taken.

The spell repairs 1d8 points of damage + 1 point per caster level (up to +5).

REPAIR MINOR DAMAGE

Transmutation

Level: Sor/Wiz 0

As *repair light damage*, except *repair minor damage* repairs only 1 point of damage.

REPAIR MODERATE DAMAGE

Transmutation

Level: Sor/Wiz 2

As *repair light damage*, except *repair moderate damage* repairs 2d8 points of damage + 1 point per caster level (up to +10).

REPAIR SERIOUS DAMAGE

Transmutation

Level: Sor/Wiz 3

As *repair light damage*, except *repair serious damage* repairs 3d8 points of damage + 1 point per caster level (up to +15).

SLIDE

Transmutation

Level: Sor/Wiz 1

Components: V

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

You slide the subject creature along the ground a distance of 5 feet in any direction.

(If the creature is flying or otherwise not on the ground, it moves parallel to the ground).

You can't slide the subject into a space that is occupied by an ally, an enemy, or a solid object.

(If you attempt to slide the subject into such a space, the spell automatically ends).

You can slide the subject fast enough to clear small gaps in the ground, such as narrow pits.

You cannot slide the subject up or down, but you can slide it over the edge of a cliff or the like.

This movement does not provoke attacks of opportunity.

SLIDE, GREATER

Transmutation

Level: Sor/Wiz 2

Range: Medium (100 ft. + 10 ft./level)

This spell functions like *slide*, except that you can slide the subject creature 20 feet in a straight line.

SNAKE'S SWIFTNES

Transmutation

Level: Drd 1, Sor/Wiz 2

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject may immediately make one melee or ranged attack, even if it has already taken its action for the round. Taking this action doesn't affect the subject's normal place in the initiative order.

This is a single attack and follows the standard rules for attacking.

This spell does not allow the subject to make more than one additional attack in a round.

If the subject has already made an additional attack, due to a prior casting of this spell, from the *haste* spell, or from any other source, this spell fails.

Arcane Material Component: A few scales from a snake.

SNAKE'S SWIFTNES, LEGION'S

Transmutation

Level: Drd 2, Sor/Wiz 3

Range: Medium (100 ft. + 10 ft./level)

Targets: Allied creatures in a 20-ft.-radius burst

This spell functions like *snake's swiftness*, except that it affects multiple allies out to medium range.

TIGER'S TOOTH

Transmutation

Level: Drd 2

Components: V

Casting Time: 1 swift action

Range: Living creature touched

Target: You

Duration: 1 round

This spell functions like *greater magic fang* (see page 250 of the *Player's Handbook*), except as noted above.

UNDENIABLE GRAVITY

Transmutation

Level: Brd 2, Sor/Wiz 2

Components: V, S, M

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Target: One flying creature

Duration: 1 min./level

Saving Throw: Will negates

Spell Resistance: Yes

A flying creature, which can be a creature that can fly by means of the *fly* spell or some similar magical effect, is grounded.

If this spell is cast on a creature currently flying, that creature descends at a speed of 60 feet per round but does not fall (and thus is not subject to falling damage).

The creature can still use its fly speed to move horizontally or down, but not up.

Once it is on the ground, the subject can no longer use its fly speed.

This spell does not affect incorporeal creatures.

Material Component: A wing torn from a fly.

UNDENIABLE GRAVITY, LEGION'S

Transmutation

Level: Brd 4, Sor/Wiz 4

Range: Long (400 ft. + 40 ft./level)

Targets: Creatures in a 20-ft.-radius burst

This spell functions like *undeniable gravity*, except that it affects multiple creatures.

MONSTER MANUAL 2 (3.0)

CONJURATION

BEGET BOGUN

Conjuration (Creation)

Level: Drd 1

Components: V, S, M, XP

Casting Time: 1 action

Range: Touch

Effect: Tiny construct

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

Beget bogun allows you to infuse living magic into a small mannequin that you have created from vegetable matter. This is the final spell in the process of creating a bogun. See the bogun's description, above, for further details.

Material Component: The mannequin from which the bogun is created.

XP Cost: 25 XP.

MONSTER MANUAL 4 (3.5)

CONJURATION

SUMMON CLOCKWORK MENDER SWARM

Conjuration (Summoning) [Lawful]

Level: Cleric 4, sorcerer/wizard 4

Effect: One swarm of clockwork menders

This spell functions like *summon monster I*, except that you summon a single clockwork mender swarm.

The swarm can be directed to attack opponents, to use its swarm repair ability, and even to use its swarm sacrifice ability.

Arcane Focus: A broken metal gear.

MONSTER MANUAL 5 (3.5)

TRANSMUTATION

EARTHBIND

Transmutation

Level: Druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1 minute/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

You intone words of binding and point at your foe.

Yellow strings of magical energy loop about its wings, dragging it to ground.

You hinder the subject's ability to fly (whether through natural or magical means) for the duration of the spell. If the target fails its saving throw, its fly speed (if any) becomes 0 feet.

An airborne creature subjected to this spell falls to the ground as if under the effect of a *feather fall* spell.

Even if a new effect would grant the creature the ability to fly, that effect is suppressed for the duration of the *earthbind* spell.

Earthbind has no effect on other forms of movement, or even on effects that might grant airborne movement without granting a fly speed (such as *jumping* or *levitate* or *air walk* spells).

MONSTERS OF FAERÛN (3.0)

TRANSMUTATION

CREATE CHOSEN ONE

Transmutation

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 hour

Range: Touch

Target: One human

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Only evil wizards can cast this spell, and the Red Wizards of Thay do not teach it to outsiders.

Casting the spell involves a series of magical rituals intended to turn a normal human (of up to 3rd level) into a maddened, murderous creature.

The victim must be bound and helpless for the spell to work.

After the casting time is completed, the victim must make a Will save or be transformed into a chosen one under the control of its creator.

CREATE CRAWLING CLAW

Transmutation [Evil]

Level: Sor/Wiz 3

Components: V, S, M

Casting Time: 1 hour

Range: Close (25 ft. + 5 ft./2 levels)

Target: Severed left hands within a 5-foot-radius circle

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You may create a number of crawling claws up to twice your caster level.

The hands to be transformed must all be within a 5-foot-radius circle.

To begin the spell, you must cast *magic circle against good* around yourself and the claws.

The *magic circle* need not endure throughout the *create crawling claw* spell's 1-hour casting time; simply initiating the spell inside the circle is good enough.

Once created, the crawling claws will be under your direct telepathic command, so long as your instructions are very simple and you are within 100 feet.

If you leave that area, you must give the crawling claws simple standing orders beforehand.

Creating a crawling claw out of someone's hand does not preclude the use of a *resurrection* spell to bring that person back to life.

Stories are told of adventurers who were resurrected and later attacked by their own left hands.

Material Components: Clippings from a ghoul's fingernails, and a ring that someone else lost.

CREATE DARKENBEAST

Transmutation [Evil]

Level: Sor/Wiz 5

Components: V, S, M

Casting Time: 1 hour

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal of no more than 2 HD

Duration: Instantaneous

Saving Throw: None or Will negates

Spell Resistance: Yes

The spellcaster may transform one Small or Medium-size animal with no more than 2 HD into a darkenbeast.

A target with an Intelligence score of 5 or more gets a Will save to negate the effect; targets with Intelligence of 4 or less are automatically affected.

The spell can only be cast in darkness: at night, indoors, or underground.

Its effects last until the darkenbeast is slain or until exposure to sunlight (see above) dispels the transmutation.

The transmutation can also be dispelled by a *dispel magic* spell, although such an attempt would have to overcome the darkenbeast's spell resistance.

A *sunbeam* spell automatically dispels the transmutation without needing to overcome spell resistance.

If you are going to imprint another spell on the darkenbeast, you must cast that spell immediately after the *create darkenbeast* spell is over and pass a Spellcraft check (DC 12 + level of the spell being imprinted).

The imprinted spell has no effect; it merely goes "into" the darkenbeast.

Another spellcaster using *detect magic* for 1 round can determine whether a darkenbeast has a spell imprinted.

After 3 rounds, *detect magic* and a successful Spellcraft check (DC 15 + level of imprinted spell) can identify what spell a darkenbeast has imprinted on it.

A created darkenbeast is under the caster's direct telepathic command.

There is no limit to the number of darkenbeasts a sorcerer or wizard can command, but a spellcaster can only have a number of darkenbeasts with imprinted spells equal to her caster level.

Material Components: Dried wyvern's blood smeared upon the spell's target, and a black pearl worth at least 200 gp.

ORIENTAL ADVENTURES (3.0)

ABJURATION

AIMING AT THE TARGET

Abjuration

Level: Wuj 5

Components: S

Casting Time: See text

Range: Personal

Target: You

Duration: Concentration, up to 20 minutes (D)

When you cast this spell, you increase your ability to concentrate on a spell you have already cast.

This spell is one of only two spells that you can cast while maintaining concentration on another spell (the other being *finding the center*).

This spell gives you a +10 circumstance bonus on Concentration checks you make to maintain concentration on another spell, and lasts as long as your concentration on the other spell.

Casting *aiming at the target* is a free action, like casting a quickened spell, and it counts toward the normal limit of one quickened spell per round.

BACKBITER

Abjuration

Level: Wuj 1 (Wood)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One Large or larger wooden-hafted weapon

Duration: 1 round/level or until discharged

Saving Throw: Will negates

Spell Resistance: Yes (object)

When you cast this spell, you place an enchantment on a Large or larger wooden-hafted weapon (such as a bo, naginata, nunchaku, three-section staff, or similar weapon). The next time that weapon is used to make a melee attack, its shaft twists around so that the weapon strikes the wielder instead.

The weapon's wielder makes a normal attack roll upon himself and deals normal damage if he hits.

He cannot choose to deal subdual damage or otherwise reduce the damage he deals, although any damage reduction he has still applies.

Once the attacker damages himself with the affected weapon, the spell is discharged.

Unattended magic weapons targeted by this spell receive a Will save; if successful, the spell has no effect.

See Attack an Object in the *Player's Handbook* for information concerning object saving throws.

Focus: A dagger.

DANCE OF THE UNICORN

Abjuration

Level: Shu 5 (Water)—Iuchi School

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 minute/level (D)

You surround yourself with a purifying swirling mist with a radius of 5 feet per caster level that washes the air clean of smoke, dust, and poisons.

Nonmagical contaminants, including inhaled poisons, are automatically negated within the cloud.

Magical effects, including *acid fog*, *cloudkill*, and green dragon breath, are negated only if your level is greater than the offending spell's caster level (or the dragon's HD).

If your level is lower than the caster level, the *dance of the unicorn* grants everyone within the mist a +4 bonus on their saving throws against the effect.

The cloud of mist leaves everything within its area damp.

DISPEL TAINT

Abjuration [Good]

Level: Shu 5 (Earth)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Targets: You and a touched evil creature from another plane; or you and an enchantment or evil spell on a touched creature or object

Duration: 1 round/level or until discharged, whichever comes first

Saving Throw: See text

Spell Resistance: See text

Shimmering, white, holy energy surrounds you.

This power has three effects:

1. You gain a +4 deflection bonus to AC against attacks by Shadowlands creatures and creatures with a Taint score.
2. On making a successful melee touch attack against an oni or another outsider or elemental with the Shadowlands subtype, you can choose to drive that creature back to its home plane.

The creature negates the effects with a Will save (SR applies).

This use discharges and ends the spell.

3. With a touch, you can automatically dispel any one spell cast by a Tainted creature or any one maho spell.

Exception: Spells that can't be dispelled by *dispel magic* also can't be dispelled by *dispel Taint*.

Saving throws and spell resistance do not apply to this effect.

This use discharges and ends the spell.

ELEMENTAL WARD

Abjuration

Level: Nature 4, Wuj 4 (All)

Components: V, S, M

Casting Time: 1 action

Range: 60 ft.

Area: 60-ft. emanation, centered on you

Duration: 1 minute

Saving Throw: Will negates

Spell Resistance: Yes

This spell allows you to drive off elementals of a specific type by uttering a fearsome cry.

When you cast the spell, all elementals within the spell's area flee the area unless they make successful Will saving throws.

The spell ends if you try to force the barrier against an elemental that has failed its saving throw.

Material Component: A small quantity of the element opposed to the type being warded against—fire for water elementals, earth for air elementals, air for earth elementals, or water for fire elementals.

FINDING THE CENTER

Abjuration

Level: Wuj 8

Duration: 10 minutes (D)

As *aiming at the target*, except that you no longer need to maintain conscious concentration on the spell you cast before this one.

Your unconscious mind maintains the concentration required for the spell.

You can take other actions, including movement, attacks, and even spellcasting, as normal.

The only way to disrupt your concentration on the other spell while *finding the center* is still in effect is to kill you or hamper your mind in some way (as through *feblemind*, *confusion*, *insanity*, or *dominate person*).

FORCE SHAPECHANGE

Abjuration

Level: Sha 6

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature/level

Duration: 1 round/level

Saving Throw: Will partial

Spell Resistance: Yes

With this spell, you force any shapechanger to revert into its true form.

When you cast the spell, you specify the targets you know or believe to be shapechangers.

Any shapechangers targeted by the spell must attempt Will saving throws.

If they fail their saves, they revert to their true form amid wracking pain, which causes them 3d10 points of damage. If the saving throw is successful, they retain their current form, but still suffer extreme pain, taking half damage.

The shapechanger is locked into its true form for 1 round per caster level, but the spell deals the 3d10 points of damage only when the change first occurs.

For purposes of this spell, a shapechanger is any creature with the shapechanger type or a supernatural or extraordinary ability that allows it to assume an alternate form.

A wu jen who knows *polymorph self* is not a shapechanger (since a spell is not a supernatural or extraordinary ability), but a spirit centipede is (since it has the exceptional ability to assume alternate forms, though its type is outsider).

This spell has no effect on creatures under the effect of *alter self*, *polymorph self*, or other spell effects.

INVISIBILITY TO ENEMIES

Abjuration

Level: Sha 3

Components: V, S, F

Casting Time: 1 round

Target: Creature touched

Duration: 3 rounds/level

As *invisibility to spirits*, but the warded creature is invisible to all creatures who may have hostile intentions against it.

Mindless creatures are not affected by the spell and can see the warded creature normally, since they are incapable of forming hostile intentions.

Animals and other creatures with Intelligence scores lower than 5 are also not affected, since their motivations are based on survival, not on hostile intent.

Focus: A white robe covered with handwritten symbols and verses.

INVISIBILITY TO SPIRITS

Abjuration

Level: Sha 2

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Target: One touched creature/level

Duration: 10 minutes/level (D)

Saving Throw: Will negates

Spell Resistance: Yes (harmless)

If a spirit fails its saving throw, it can't perceive the warded creatures and acts as though the warded creatures are not there.

The warded creatures can move freely among spirits without being noticed, although they are perfectly visible to all other types of creatures.

If a warded creature touches or attacks a spirit (even with a spell), the spell ends for all recipients.

Note: A spirit gets one saving throw against the spell.

It either sees all the warded creatures or none of them.

Material Component: Red ink, with which you write prayers and scriptures on each warded creature.

JADE AURA

Abjuration [Good]

Level: Shu 9 (Earth)—Yogo school

Components: V, S, F

Casting Time: 1 action

Range: 20 ft.

Targets: One creature/level in a 20-ft.-radius burst centered on you

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes (harmless)

A radiance of shimmering jade color surrounds the subjects, protecting them from attacks, granting them resistance to maho and other evil magic, and blinding Tainted and Shadowlands creatures when they strike the subjects.

This abjuration has four effects.

First, the warded creatures gain a +4 deflection bonus to AC and a +4 resistance bonus on saves.

Unlike *protection from Taint*, this benefit applies against all attacks, not just against attacks by Tainted creatures.

Second, the warded creatures gain SR 25 against evil spells and spells cast by maho-tsukai, oni, or other Tainted or Shadowlands creatures.

Third, the abjuration blocks possession and mental influence, just as *protection from Taint* does.

Finally, if a creature with a Taint score or the Shadowlands subtype succeeds at a melee attack against a warded creature, the offending attacker is blinded (Fortitude save negates, as *blindness/deafness*, but against *jade aura's* save DC).

Focus: A tiny statue carved from jade, representing one of the Seven Fortunes.

The statue costs at least 500 gp.

MAGIC CIRCLE AGAINST TAINT

Abjuration [Good]

Level: Shu 3 (Earth)

Area: Emanates 10 ft. from touched creature

Duration: 10 minutes/level

Spell Resistance: No (see text)

As *protection from Taint*, except that it encompasses a much larger area and its duration is longer.

Unlike *protection from Taint*, this spell has a special function that you may choose when casting the spell.

A magic circle can be focused inward rather than outward. In this case, it serves as an immobile, temporary magical prison for a called creature.

The creature cannot cross the circle's boundaries.

(See Calling in the *Player's Handbook* for more information on using this spell in conjunction with calling spells). You must beat a creature's spell resistance in order to keep it at bay (as in the third function of *protection from evil*), but the deflection and resistance bonuses and the protection from mental control apply regardless of enemies' spell resistance.

If a creature too large to fit into the spell's area is the subject of the spell, the spell acts as a normal *protection from Taint* spell for that creature only.

This spell is not cumulative with *protection from Taint* and vice versa.

PROTECTION FROM CHARM

Abjuration

Level: Wuj 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The recipient of this spell gains a +1 resistance bonus for every three caster levels (maximum +5) on any Will saving throw against charm or compulsion effects.

Material Component: A piece of hair or other item from the body of a creature with an innate *charm* or *dominate person* ability, such as a succubus or vampire.

PROTECTION FROM SPIRITS

Abjuration

Level: Sha 2

Components: V, S, F

Casting Time: 1 round

Range: Touch

Area: Emanates 5 ft. from touched creature

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: No (see text)

This spell creates a magical barrier around the subject at a distance of 5 feet.

The barrier moves with the subject and has two major effects.

First, the subject gets a +2 deflection bonus to AC and a +2 resistance bonus on saves against attacks made by spirits.

Second, the barrier prevents spirits from entering the area. This protection ends if the warded creature makes an attack against or tries to force the barrier against a blocked spirit.

Spell resistance can allow a spirit to overcome this protection and enter the circle.

Focus: A ginkgo wand with paper prayer strips attached.

PROTECTION FROM TAINT

Abjuration [Good]

Level: Shu 1 (Earth)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: No (see text)

This spell wards a creature from attacks by Shadowlands creatures and creatures with the Shadowlands Taint, from mental control, and from summoned or conjured creatures. It creates a magical barrier around the subject at a distance of 1 foot.

The barrier moves with the subject and has three major effects:

First, the subject gets a +2 deflection bonus to AC and a +2 resistance bonus on saves.

Both these bonuses apply against attacks made by creatures with the Shadowlands subtype and creatures with a Taint score.

Second, the barrier blocks any attempt to possess the warded creature (as by a *magic jar* attack) or to exercise mental control over the creature (as by a vampire's supernatural domination ability, which works similar to *dominate person*).

The protection does not prevent a vampire's domination itself, but it prevents the vampire from mentally commanding the protected creature.

If the *protection from Taint* effect ends before the domination effect does, the vampire would then be able to mentally command the controlled creature.

Likewise, the barrier keeps out a possessing life force but does not expel one if it is in place before the spell is cast.

This second effect works regardless of alignment.

Third, the spell prevents bodily contact by summoned or conjured creatures (see the *Monster Manual*).

This causes the natural weapon attacks of such creatures to fail and the creatures to recoil if such attacks require touching the warded creature.

Good elementals and outsiders are immune to this effect.

The protection against contact by summoned or conjured creatures ends if the warded creature makes an attack against or tries to force the barrier against the blocked creature.

Spell resistance can allow a creature to overcome this protection and touch the warded creature.

SNAKE BARRIER

Abjuration

Level: Guardian 4, Sha 4

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Invisible barrier whose area is up to one 5-ft. square/level (S)

Duration: 3 rounds/level

Saving Throw: Will negates or Fortitude half (see text)

Spell Resistance: Yes

This spell creates an invisible barrier that prevents reptiles, reptilian creatures, and dragons from crossing it.

Affected creatures are aware of the barrier's presence and purpose, and reptiles that are not overtly hostile avoid the barrier and those protected by it.

Reptilian creatures with hostile intent may try to penetrate the barrier.

Affected creatures with 4 or fewer Hit Dice must make a successful Will saving throw to cross at all.

Any affected creature that crosses the barrier takes 1d4 points of damage per caster level (maximum 10d4), with a

successful Fortitude saving throw reducing the damage by half.

Intelligent reptilian creatures that encounter the barrier usually find it infuriating, and are much less likely to befriend and aid the caster.

Material Component: A shed snakeskin.

SUBSTITUTION

Abjuration

Level: Celestial 3, Fortune 3, Guardian 3, Sha 3

Components: V, S, M, F

Casting Time: 30 minutes

Range: Personal

Target: You

Duration: 1 hour/level or until discharged (D)

This spell creates a mystic connection between you and a specially prepared figure representing your deity or a spirit you revere.

For the duration of the spell, you take only half damage from all wounds and attacks (including those inflicted by special abilities) that deal you hit point damage.

The amount of damage not taken by you is taken by the figure instead.

Forms of harm that do not involve hit points, such as *charm* effects, temporary ability damage, level draining, and *disintegration*, are not affected.

If you suffer a reduction of hit points from a lowered Constitution score, the reduction is not split with the figure because it is not hit point damage.

The spell is discharged when the figure runs out of hit points (i.e. when they reach 0).

When the spell ends, subsequent damage is no longer divided between you and the figure, but damage already split is not reassigned to you.

Material Component: Offerings to a spirit you revere worth 10 gp.

Focus: A figure of a spirit you revere, made of glass, wood, stone, or iron.

The statue's hit points and cost depend on the substance of which it is made.

A glass figure has 10 hit points and costs 25 gp, a wood figure has 25 hit points and costs 250 gp, a stone figure has 50 hit points and costs 375 gp, and an iron figure has 100 hit points and costs 750 gp.

You may use this figure for multiple castings of this spell, but you cannot repair it or restore its lost hit points.

SURELIFE

Abjuration

Level: Fortune 8, Guardian 8, Wuj 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute/2 levels

This spell allows you to protect yourself against some condition—such as being immersed in boiling oil or being buried under an avalanche—that would ordinarily cause certain death.

You can only protect yourself against a natural occurrence or condition, not against a spell or the action of a creature

(such as the breath of a dragon or the swords of a group of bandits).

You must specify the condition against which you wish to protect yourself, and the spell is effective only against that condition.

Should you be subjected to that condition during the duration of the spell, you feel no discomfort and take no damage from the condition.

However, the spell does not protect any items carried on your person.

At the end of the spell's duration, the condition has full normal effects on you if you are still subjected to it.

Material Component: An ointment of peach syrup and cinnabar.

TAINTED AURA

Abjuration [Evil]

Level: Maho 9

Components: V, S, F

Casting Time: 1 action

Range: 20 ft.

Targets: One creature/level in a 20-ft.-radius burst centered on you

Duration: 1 round/level (D)

Saving Throw: See text

Spell Resistance: Yes (harmless)

A malevolent darkness surrounds the subjects, protecting them from attacks, granting them resistance to spells cast by untainted creatures, and infecting such creatures with the Shadowlands Taint when they strike the subjects.

This abjuration has four effects:

First, the warded creatures gain a +4 deflection bonus to AC and a +4 resistance bonus on saves.

Unlike the effect of *protection from good*, this benefit applies against all attacks, not just against attacks by good creatures. Second, the warded creatures gain SR 25 against good spells and spells cast by creatures with neither a Taint score nor the Shadowlands subtype.

Third, the abjuration blocks possession and mental influence, just as *protection from good* does.

Finally, if an untainted creature succeeds at a melee attack against a warded creature, the offending attacker gains a Taint score of 1d3 (Fortitude save negates).

Focus: A fragment of an oni's body, such as a claw, tooth, or bone.

CONJURATION

ANCESTRAL VENGEANCE

Conjuration (Summoning)

Level: Ancestor 2, Sha 2

Components: V, S, DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

When you cast this spell, you call out to an ancestral spirit, listing the crimes of your target and urging your ancestor to punish the miscreant.

(The target's alignment is irrelevant to the success of the spell).

The ancestral spirit imposes this punishment in the form of a sharp blow to the target.

This attack hits automatically and deals 1d6 points of damage per two caster levels (maximum 5d6), or 1d6 points per caster level (maximum 10d6) if the target is undead.

A successful Fortitude saving throw reduces the damage by half.

BODY OUTSIDE BODY

Conjuration (Creation)

Level: Wuj 7

Components: V, S, M

Casting Time: 1 action

Range: 10 ft.

Effect: 1 duplicate/5 levels

Duration: 1 round/2 levels

Saving Throw: None

Spell Resistance: No

This spell creates one or more duplicates of you.

These duplicates share all your ability scores, personality, class levels, skills, feats, and memories.

They carry the same arms, armor, and equipment as you do (but only have mundane versions of your magical gear), and they cannot cast spells.

The duplicates you create have one-quarter of your hit point total at the time of casting.

They are obedient to you and friendly toward one another and your companions.

You may order them to take any actions, even ones that you would normally not take (such as charging the dragon or jumping off a cliff).

They can do anything you can, except cast spells or use spell-completion or spell-trigger items.

They take damage as normal, but if one is slain, it disappears and you instantly take 10 points of damage.

At the end of the spell duration, all the duplicates (and any equipment created with them) disappear without causing damage to you.

The duplicates are completely indistinguishable from you.

Material Component: A few hairs from your head or beard.

GREATER SPIRIT ALLY

Conjuration (Calling) [see text]

Level: Celestial 8, Sha 8

Target: Up to 24 HD worth of spirits, no two of which can be more than 30 ft. apart when they appear

As *lesser spirit ally*, except you may call a single spirit of up to 24 HD or a number of spirits of the same type whose HD total no more than 24.

The spirits agree to help you and request your return favor together.

GREATER SPIRIT BINDING

Conjuration (Calling) [see text]

Level: Wuj 8

Components: V, S

Target: Up to 24 HD worth of spirits, no two of which can be more than 30 ft. apart when they appear

As *lesser spirit binding*, except you may call a single spirit of up to 24 HD or a number of spirits of the same type whose HD total no more than 24.

Each spirit gets a saving throw, makes independent attempts to escape, and must be persuaded to aid you individually.

HAIL OF STONE

Conjuration (Creation)

Level: Stone 2, Wuj 1 (Earth)

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (5-ft. radius, 40 ft. high)

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You create a rain of stones, causing damage to creatures and objects within the area.

Make a ranged attack roll (*not* a touch attack roll) on every creature and relevant object in the area.

A successful hit deals 1d3 points of damage per level (maximum 5d3).

Material Component: A piece of jade worth at least 5 gp.

ICE KNIFE

Conjuration (Creation) [Cold]

Level: Wuj 2 (Water)

Components: V, S, M

Casting Time: 1 action

Range: Long (400 ft. + 40 ft./level)

Effect: One icy missile

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

A magical shard of ice springs from your hand and speeds to its target.

You must succeed at a normal ranged attack to hit.

For every two caster levels, you gain a +2 bonus on the ranged attack roll.

The shard deals 1d8 points of piercing damage, plus 1d8 points of cold damage and 2 points of Dexterity damage.

(Creatures that are immune to cold damage take no Dexterity damage).

A successful Fortitude save reduces the cold damage by half and negates the Dexterity damage.

A miss creates a shower of ice crystals in a 10-foot-radius burst centered where the shard lands (see Grenadelike Weapon Attacks in the Player's Handbook).

The icy burst deals 1d8 points of splash damage.

A creature within the burst area can make a Reflex save to take half damage.

Material Component: A drop of water or piece of ice.

LESSER SPIRIT ALLY

Conjuration (Calling) [see text]

Level: Celestial 4, Sha 4

Components: V, S, DF

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Target: One summoned spirit of up to 8 HD

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

By casting this spell, you request the services of a spirit (of up to 8 HD) that shares your philosophical alignment.

If you know an individual spirit's name, you may request that individual by speaking the name during the casting of the spell (though you might get a different creature anyway).

You may ask the spirit to perform one task for you, and the spirit may request some service in return.

The more demanding your request, the greater return favor the spirit asks for.

This bargaining takes at least 1 round, so any actions by the spirit begin in the round after it arrives.

If you agree to the service, the spirit performs the task you requested, reports back to you afterward (if possible), and returns to its home.

You are honor bound to perform the return favor.

A spirit may accept some form of payment, such as a magic item, in return for its service.

The spirit may keep it or may deliver the item to another shaman somewhere else, where it can help the spirit's cause.

Note: When you use a calling spell that calls an air, chaotic, earth, evil, fire, good, lawful, or water creature, it is a spell of that type.

For example, *lesser spirit ally* is a fire spell when it calls a fire elemental.

LESSER SPIRIT BINDING

Conjuration (Calling) [see text]

Level: Wuj 4

Components: V, S

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels) (see text)

Target: One spirit of up to 8 HD

Duration: Instantaneous

Saving Throw: Will negates

Spell Resistance: Yes

Casting this spell attempts a dangerous act: to lure a spirit to a specifically prepared trap, which must lie within the spell's range.

The called spirit is held in the trap until it agrees to perform one service in return for its freedom.

To create the trap, you must use a *magic circle* spell, focused inward.

The type of spirit to be bound must be known and stated.

If it has a specific, proper, or given name, this must be used in casting the spell.

The target spirit must attempt a Will saving throw.

If the saving throw succeeds, the creature resists the spell.

If the saving throw fails, the spirit is immediately drawn to the trap (spell resistance does not keep the creature from being called).

The spirit can escape from the trap with a successful SR roll, dimensional travel, or a successful Charisma check (DC 15 + 1/2 the caster's level + the caster's Charisma modifier).

It can try each method once per day.

If it breaks loose, it can flee or attack you.

A *dimensional anchor* cast on the spirit prevents its escape via dimensional travel.

You can also employ a calling diagram (see Calling in the *Player's Handbook*) to make the trap more secure.

If the spirit does not break free of the trap, you can keep it bound for as long as you dare.

You can attempt to compel the spirit to perform a service by describing the service and perhaps offering some sort of reward.

You make a Charisma check opposed by the spirit's Charisma check.

The DM then assigns a bonus based on the service and reward, from +0 to +6.

This bonus applies to your Charisma check.

If the spirit wins the opposed check, it refuses service.

You can make new offers, bribes, and the like or offer again the old ones every 24 hours.

You can repeat this until the spirit promises to serve, until it breaks free, or until you decide to get rid of it by means of some other spell.

Impossible demands or unreasonable commands are never agreed to.

If you roll a 1 on the Charisma check, the spirit breaks free of the binding and can escape or attack you.

Once the requested service is completed, the spirit need only so inform you to be instantly sent back whence it came.

The spirit might later seek revenge.

If you assign some open-ended task that the spirit cannot complete though its own actions (such as "Wait here" or "Defend this area against attack"), the spell remains in effect for a maximum of one day per caster level, and the spirit gains an immediate chance to break free.

Note that a clever recipient can subvert some instructions.

When you use a calling spell to call an air, chaotic, earth, evil, fire, good, lawful, or water creature, it is a spell of that type.

For example, *lesser spirit binding* is a water spell when you cast it to call a water elemental.

REANIMATION

Conjuration (Healing)

Level: Sha 4, Wuj 7

Components: V, S, M, F/DF

Casting Time: 1 round

Range: Touch

Target: Creature touched

Duration: 1 day/level

Saving Throw: None (see text)

Spell Resistance: Yes (harmless)

You restore a semblance of life to a deceased creature.

You can animate creatures that have been dead up to one day per caster level.

In addition, the subject's soul must be free and willing to return (see Bringing Back the Dead in the *Player's Handbook*).

If the subject's soul is not willing to return, the spell does not work.

This spell cannot fully bind the soul back into the body, and the reanimated subject is in a state of half-life—neither dead nor fully alive.

The reanimated creature has 1 hit point and can take only a single move-equivalent action each round.

It cannot attack, use spells, or activate magic items.

It can speak (if it could while fully alive), but its speech is slow and slurred.

The creature's memory is cloudy and confused, and it has trouble remembering even the basic details of its past life and friends.

If left unwatched, the creature is prone to wander off randomly with no conception of where it is going or where it has been.

If wounded again, the creature can be healed, but cannot rise above 1 hit point.

It can gain temporary hit points, but cannot increase its hit point total through Constitution increase or any other means.

The creature can be killed again (and reanimated again), and it can be restored to full life through any spell that would restore a fully dead creature to life (such as *raise dead*).

As with *gentle repose*, time spent reanimated does not count against the time limit on raising the creature from the dead. The body does not decay while it is reanimated.

A reanimated creature is not undead, and cannot be turned, harmed by positive energy or holy water, or healed by negative energy.

A *greater restoration* spell fully restores the creature's memory but does not improve its physical state.

Arcane Material Component: A white shawl and incense.

Divine Material Component: A strip of white cloth inscribed with prayers and a stick of incense.

Arcane Focus: A golden amulet shaped like a phoenix.

REBUKE

Conjuration (Creation) [Sonic]

Level: Sha 2

Components: V, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 1d4+1 rounds

Saving Throw: Will negates

Spell Resistance: Yes

With a thunderous rebuke, you stun one creature of your choice within range.

If the target creature fails a Will saving throw, it is stunned for 1d4+1 rounds.

A stunned creature can't act and loses any Dexterity bonus to AC.

Attackers gain a +2 bonus to attack it.

SERVANT HORDE

Conjuration (Creation)

Level: Wuj 5

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 2d6 invisible, mindless, shapeless servants, +1 servant/level (maximum +15)

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

This spell creates a number of invisible, mindless, shapeless forces that perform simple tasks at your command.

They can run and fetch things, open unstuck doors, and hold chairs, as well as clean and mend.

They can also be used for common laboring tasks, provided that you carefully direct them.

They could serve at a banquet, help dig earthworks, row a ship, act as porters, or assist in a farmer's fields.

Each servant can perform only one activity at a time, but it repeats the same activity over and over again if told to do so, thus allowing you to command one servant to clean the floor and then turn your attention elsewhere as long as you remain within range.

Servants can open only normal doors, drawers, lids, and so forth.

They have an effective Strength score of 2 (so they can lift 20 pounds or drag 100 pounds).

They can trigger traps and such, but they can exert only 20 pounds of force, and that is not enough to activate certain pressure plates and other devices.

Their speed is 15 feet.

The servants cannot attack in any way; they are never allowed an attack roll.

They cannot be killed, but they dissipate if they take 6 points of damage from area attacks.

(They get no saves against attacks).

If you attempt to send a servant beyond the spell's range (measured from your current position), that servant ceases to exist.

Material Component: A small stick crossbar to which many lengths of knotted thread are attached.

SPIRIT ALLY

Conjuration (Calling) [see text]

Level: Celestial 6, Sha 6

Targets: Up to 16 HD worth of summoned spirits, no two of which can be more than 30 ft. apart when they appear. As *lesser spirit ally*, except you may call a single spirit of up to 16 HD or a number of spirits of the same type whose HD total no more than 16.

The spirits, as a group, agree to perform one task for you and request one favor in return.

SPIRIT BINDING

Conjuration (Calling) [see text]

Level: Wuj 6

Components: V, S

Targets: Up to 16 HD worth of spirits, no two of which can be more than 30 ft. apart when they appear. As *lesser spirit binding*, except you may call a single spirit of up to 16 HD or a number of spirits of the same type whose HD total no more than 16.

Each spirit gets a save, makes an independent attempt to escape, and must be individually persuaded to aid you.

WALL OF BONES

Conjuration (Creation)

Level: Grave 4, Maho 4, Wuj 4

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Effect: Wall of bones whose area is up to one 10-ft. square/level (S)

Duration: 10 minutes

Saving Throw: None

Spell Resistance: No

This spell causes a wall of bones to erupt from the earth in whatever shape you desire, as long as it is solidly based on the ground.

You cannot conjure the wall so that it occupies the same space as a creature or another object.

The wall is not solid, having many small openings and gaps. Creatures behind the wall have three-quarters cover against attacks from the other side of the wall.

Creatures of Small size or smaller can slip and wriggle through the wall at a rate of 10 feet per round.

Medium-size creatures can move through it with the Escape Artist skill—a successful check (DC 20) allows the creature to move 10 feet.

A creature of any size that moves through the wall in this fashion takes 1d8 points of damage for every 10 feet traveled because of the sharp spikes and edges within the wall.

The wall is 6 inches thick per caster level.

Each 5-foot square has 10 hit points per 6 inches of thickness.

The wall takes only half damage from slashing and piercing weapons.

If a creature tries to break through the wall with a single attack, the DC for the Strength check is 15 +2 per caster level.

The wall is composed of bones of many different types of creatures, fused in bizarre angles.

It cannot be animated by an *animate dead* spell, nor communicated with via *speak with dead*.

Material Component: A withered peach branch taken from a cemetery.

DIVINATION

COMMUNE WITH GREATER SPIRIT

Divination

Level: Celestial 5, Divination 5, Nature 5, Sha 5, Shu 5 (Water)—Kitsu School, Wuj 7

Components: V, S, M, XP

Target: One spirit

As *commune with lesser spirit*, but this spell can contact any spirit creature, whatever its Hit Dice.

You can ask one question per level, but you must ask questions that can be answered by a simple yes or no.

The answers given are correct within the limits of the spirit's knowledge.

"Unclear" is a legitimate answer, because even the greatest spirits are not necessarily omniscient.

In cases where a one-word answer would be misleading or contrary to the spirit's interests, the DM should give a short phrase (five words or less) as an answer instead.

Material Component: Incense and a small offering worth 25 gp.

XP Cost: 100 XP.

COMMUNE WITH LESSER SPIRIT

Divination

Level: Celestial 2, Nature 2, Sha 2, Shu 2 (Water)—Kitsu School, Wuj 3

Components: V, S, M

Casting Time: 10 minutes

Range: 10 ft.

Target: One lesser spirit

Duration: 1 minute/level

Saving Throw: Will negates (see text)

Spell Resistance: No

You contact a local spirit—any spirit creature with 4 or fewer HD.

You must know the identity of the spirit (which you can learn through the *trance* spell), and you must be within 10 feet of the spirit's location.

You may ask up to one question per 2 caster levels.

Unasked questions are wasted if the duration expires.

The spirit's knowledge is limited to matters within its immediate area, so the spirit of a great tree in the village could not answer questions about events outside the village.

Spirits usually answer questions literally and do not volunteer any information.

If the spirit's alignment is different from yours, the spirit gets a Will save to resist the spell.

If the spirit has been subject to *commune with lesser spirit* within the past week, the new spell fails.

Good spirits generally try to be helpful in answering questions, while evil spirits always try to distort the information they give (though they generally give literally truthful answers).

Material Component: Incense and a small offering worth 10 gp.

DETECT CURSE

Divination

Level: Sha 3

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target or Area: One creature, one object, or a 5-ft. cube

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You determine whether a creature, object, or area has been cursed or carries a curse.

You can determine the general nature of the curse with a successful Spellcraft check (DC 20).

In scanning a cursed scroll, you could learn that the curse causes misfortune to the reader, but you could not tell the specific effects.

If you succeed at the Spellcraft check, you receive a +4 bonus to your effective level when casting *remove curse* on the item or person analyzed with this spell.

Note: The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

Material Component: A small gem worth at least 10 gp.

DETECT DISEASE

Divination

Level: Sha 0

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target or Area: One creature, one object, or a 5-ft. cube

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You determine whether a creature, object, or area is infected with disease or carries disease.

You can determine the exact type of disease with a successful Wisdom check (DC 20).

A character with the Heal skill may try a Heal check (DC 20) if the Wisdom check fails, or may try the Heal check prior to the Wisdom check.

Note: The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

DETECT TAINT

Divination

Level: Shu 1 (Water)

Components: V, S, DF

Casting Time: 1 action

Range: 60 ft.

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 10 minutes/level (D)

Saving Throw: None

Spell Resistance: No

You can sense the presence of the Shadowlands Taint.

The amount of information revealed depends on how long you study a particular area or subject: *1st Round:* Presence or absence of the Taint within the area.

2nd Round: Number of Tainted creatures in the area and the strength of the strongest Tainted aura present.

If you are free of Taint, the strongest Tainted aura is "overwhelming" (see below), and the strength of the Tainted aura is at least twice your character level, you are stunned for 1 round and the spell-like ability ends.

While stunned, you can't act, you lose any Dexterity bonus to AC, and attackers gain a +2 bonus on attacks against you.

3rd Round: The strength and location of each Tainted aura. If a Tainted aura is outside your line of sight, you discern its direction but not its exact location.

Aura Strength: The strength of a Tainted aura depends on the Taint score of the creature you are detecting.

(A Shadowlands creature has a Taint score equal to half its Charisma score, +1 for undead and +2 for outsiders, such as Shadowlands oni).

Taint Score	Aura Strength
Lingering	Dim
1	Faint
2-4	Moderate
5-10	Strong
11+	Overwhelming

If an aura falls into more than one strength category, you learn the stronger of the two.

Length Aura Lingers: How long the aura lingers depends on its original strength:

Original Strength	Duration
Faint	1d6 minutes
Moderate	1d6x10 minutes
Strong	1d6 hours
Overwhelming	1d6 days

Each round, you can turn to detect things in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

DISCERN SHAPECHANGER

Divination

Level: Sha 4, Soh 4, Wuj 3

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 round/level

With a standard action spent in concentration, you can see the true form of polymorphed, disguised, or transmuted creatures within 60 feet.

Each round, you can examine one creature you can see and determine whether it is polymorphed, disguised, or transmuted, and what its true form is.

If you look at a shapechanger in its true form, you know that it is a shapechanger, but cannot determine what other forms it might be capable of assuming.

For purposes of this spell, a shapechanger is any creature with the shapechanger type or a supernatural or extraordinary ability that allows it to assume an alternate form.

A wu jen who knows *polymorph self* is not a shapechanger (since a spell is not a supernatural or extraordinary ability), but a spirit centipede is (since it has the exceptional ability to assume alternate forms, though its type is outsider).

Material Component: A balm of honey and lotus flower, smeared on your eyelids.

DREAM SIGHT

Divination

Level: Sha 4

Components: S, M

Casting Time: 1 round

Range: See text

Target: You

Duration: 1 minute/level (D)

You fall into a deep sleep while your spirit leaves your body in incorporeal form and travels to distant locations.

Your spirit can move 100 feet per round, and can see and hear anything you could if you were in the same location.

The spirit can be blocked by any spell that wards incorporeal creatures, and it can be detected and attacked in the same way as incorporeal creatures can.

A shaman can use *commune with lesser spirit* or *commune with greater spirit* (if you are over 4th level) to contact you, you cannot see creatures protected by *invisibility to spirits*, and you are warded by a *protection from spirits* spell.

Your spirit can do nothing but move and observe—it cannot speak, attack, cast spells, or perform any other action.

At the end of the spell, your spirit instantaneously returns to your body and you wake up. If your body is disturbed while your spirit is wandering, the spell ends immediately.
Material Component: A stick of incense worth at least 5 gp.

KNOW MOTIVATION

Divination [Mind-Affecting]

Level: Sha 2

Components: V, S, F

Casting Time: 1 action

Range: 60 ft.

Area: Quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 minute/level (D)

Saving Throw: Will negates (see text)

Spell Resistance: No

You can sense the basic needs, drives, and emotions of creatures within the spell area.

Each round, you can focus your attention on one creature within the area and learn what is currently motivating its actions—for example, hunger, thirst, fear, fatigue, pain, uncertainty, rage, hatred, curiosity, hostility, friendliness, love, and so on.

Focus: A prayer written on a strip of cloth and tied around your forehead.

THAT ART THOU

Divination

Level: Brahmin 3

Components: V

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You extend your senses to become one with all beings and objects within a 30-foot-radius sphere centered on you.

You see and feel everything sensed by every person, creature, and object in that area.

The onrush of sensory information gives you a +20 bonus on your Search, Spot, and Listen checks for the duration of the spell.

In addition, you are never considered flat-footed while the spell duration lasts, and you cannot be flanked unless every other creature within 30 feet of you is also flanked.

TRANCE

Divination

Level: Nature 1, Sha 1

Components: V, S

Casting Time: 1 round

Range: 120 ft.

Area: 120 ft. spread, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You place yourself in a deep trance, during which you cannot move, speak, or take any action.

In the trance, you are highly attuned to the powers and forces in the immediate area.

You can sense certain magical creatures and effects within the spell's area.

Each round you remain in the trance, you feel the presence of any one lesser spirit, greater spirit, curse, permanent magical effect, or haunting within the spell's area.

You can determine the general type of thing contacted (such as natural spirit, evil haunting), but cannot communicate with it in any way or gain any other information about it.

Using this spell does give you enough information to subsequently cast *commune with lesser spirit* or a similar spell to communicate with the spirit you desire to contact.

WARNING

Divination

Level: Guardian 2, Sha 2, Soh 2

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 10 minutes/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell heightens the subject's senses and awareness of danger.

The subject gains a +4 insight bonus on Listen and Spot checks and retains his Dexterity bonus to AC (if any) regardless of being caught flat-footed or struck by an invisible attacker.

(He still loses his Dexterity bonus to AC if immobilized).

ENCHANTMENT

ADVICE

Enchantment (Compulsion) [Mind-Affecting, Language-Dependent]

Level: Sha 5

Components: V

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 hour/level or until completed

Saving Throw: Will negates

Spell Resistance: Yes

You influence the actions of the targeted creature by offering profound and thoughtful advice grounded in your wisdom and experience.

You must word your advice in such a manner as to make it sound reasonable, even if it is not, but you are not limited to a few sentences.

If the target creature fails its saving throw, it does its best to follow your advice, carrying out the suggested course of action to the best of its ability.

If the action would place the creature in great peril or cause its death, the victim can attempt a second saving throw—this time with a +4 circumstance bonus—just before taking the final plunge to its doom.

COMPEL

Enchantment (Compulsion) [Mind-Affecting]

Level: Ancestor 8, Sha 8

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Permanent

Saving Throw: Will negates

Spell Resistance: Yes

You force the subject of the spell to change alignment, specifying the creature's new alignment.

Creatures whose alignments are listed as "always" a specific alignment, and characters who would lose class abilities if they changed to the alignment you specify, gain a +4 bonus on their saving throws against the spell.

Outsiders with an alignment-based type modifier (Chaotic, Evil, Good, or Lawful) are immune to the effects of this spell.

Alteration in alignment is mental as well as moral, and the individual changed by the spell thoroughly enjoys his new outlook.

If the subject's comrades have an alignment outlook that differs significantly from his, he may abandon them or even take actions against them.

This is up to the discretion of the DM; the spell has no effect on determining this, as it is more a matter of conscience.

Another *compel* spell, a *wish*, or a *miracle* is required to reverse the effects of the spell; the subject makes no attempt to return to the former alignment.

In fact, he views the prospect with horror and avoids it in any way possible.

Thus, if a spellcaster were to cast *compel* upon him again, causing him to revert to his former alignment or following a new one, he would again receive a saving throw as outlined above.

MENTAL STRENGTH

Enchantment (Compulsion) [Mind-Affecting]

Level: Sha 3, Soh 3

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You imbue the recipient with magical energy that fortifies her will, granting her a +8 resistance bonus on all Will saves.

Focus: The tail of a white fox.

MENTAL WEAKNESS

Enchantment (Compulsion) [Mind-Affecting]

Level: Maho 3, Sha 3

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

This spell weakens the subject's mental resistance, giving him a -4 penalty on all Will saves.

Focus: The tail of a red fox.

SECRET SIGNS

Enchantment [Mind-Affecting]

Level: Wuji 1

Components: F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One intelligent creature

Duration: 1 round

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell allows you to communicate a simple message to one other intelligent creature within range, using nonverbal means.

You can wave a hand, place a scroll on a table, raise an eyebrow, or make any other sign, and the spell allows the target to understand your message.

You can communicate a complete thought of twenty-five words or less by means of this spell, and the target understands your message despite any barrier of language.

You can use this spell even if you are bound and gagged, so long as the focus item is on your person.

Focus: A small glass cone.

TRANSFIX

Enchantment (Compulsion) [Mind-Affecting]

Level: Wuji 6

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Area: 10-ft. burst

Duration: See text

Saving Throw: Will negates

Spell Resistance: Yes

This spell causes humanoids of Medium-size or smaller within the area to freeze in place, standing helpless as if affected by the *hold person* spell.

When casting the spell, you must specify some condition that must be met to release the victims—"Wait here until I return", or "Stay here for all eternity!" for example.

You may specify any condition, however implausible, but the spell ends as soon as that condition is met.

For every hour the creatures are transfixed, they can attempt another saving throw.

The spell affects an area, not (directly) the creatures in it, so creatures that are removed from the area are freed from the spell's effects, and humanoids of Medium-size or smaller that enter the area must make a successful saving throw or become transfixed.

If all affected creatures are freed from the spell, the spell ends and additional creatures entering the area are not affected.

Material Component: A drop of pine resin.

EVOCATION

BO OF WATER

Evocation [Water]

Level: Shu 2 (Water)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Effect: Bolike beam

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

A 6-foot-long staff formed of water, which you can use with proficiency, springs forth from your hands.

You wield this staff as if it were a quarterstaff.

Attacks with the *bo of water* are regular melee attacks.

The *bo* deals 1d8 points of damage +1 point per two caster levels (maximum +10).

The *bo* is considered a +1 weapon for purposes of overcoming damage reduction.

CASTIGATE

Evocation [Sonic]

Level: Fury 3, Sha 3, Soh 3

Components: V, S, DF

Casting Time: 1 action

Range: 20 ft.

Area: Creatures in a 20-ft. spread centered on you

Duration: Instantaneous

Saving Throw: Fortitude half

Spell Resistance: Yes

By means of this spell, you deliver a blasting rebuke upon your foes.

Creatures within the area are affected based on their alignment in relation to yours.

Creatures whose alignment differs from yours in one component (lawful-neutral-chaotic or good-neutral-evil) take 2d6 points of damage.

Those whose alignment differs from yours in both components (both lawful-neutral-chaotic and good-neutral-evil) take 5d6 points of damage.

Thus, if you are lawful good, you deal 2d6 points of damage to those of lawful neutral, lawful evil, neutral good, or chaotic good alignment, and 5d6 points of damage to those of neutral, chaotic neutral, neutral evil, and chaotic evil alignment.

A successful Fortitude save reduces damage in either case by half.

Creatures of any alignment different from the caster's who fail their saving throws are deafened for 1d4 rounds.

A deafened character, in addition to the obvious effects, automatically fails Listen checks, suffers a -4 penalty on initiative, and has a 20% chance to miscast and lose any spell with a verbal (V) component that he tries to cast.

CIRCLE OF FLAME

Evocation [Fire]

Level: Shu 5 (Fire)

Components: V, S

Casting Time: 1 action

Range: 20 ft.

Area: All creatures within a 20-ft.-radius burst centered on you

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

Fire bursts in all directions from the point of origin, dealing 1d8 points of damage +1 point per caster level (maximum +20) to nearby creatures.

CLOUD OF TAIN

Evocation [Evil]

Level: Maho 4

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius spread

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You call up raw Tainted power to smite your enemies.

The Taint takes the form of a cold, cloying cloud of greasy darkness.

Nezumi, Shinomen nagas, and creatures with the Shadowlands subtype are not harmed by the spell, and creatures with a Taint score are not fully affected.

The spell deals 1d8 points of damage per two caster levels (maximum 5d8) to untainted creatures and sickens them for 1d4 rounds.

A sickened creature suffers a -2 penalty on attack rolls, weapon damage rolls, saves, skill checks, and ability checks.

A successful Fortitude save reduces damage to half and negates the sickening effect.

Sickened creatures must make an additional successful Fortitude save or gain a Taint score of 1d3.

The spell deals only half damage to creatures with Taint scores, and they are not sickened.

They can reduce the damage in half again (down to one-quarter of the roll) with a successful Fortitude save.

Such Tainted creatures automatically increase their Taint score by 1, regardless of their saving throw results.

CREEPING DARKNESS

Evocation [Darkness]

Level: Maho 4, Wuj 4

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Cloud spreads 30 ft. wide and 20 ft. high (S)

Duration: 3 rounds/level

Saving Throw: None

Spell Resistance: No

This spell creates an amorphous cloud of inky blackness.

You can shape and move the cloud as you desire during the duration of the spell if you maintain concentration on it and it remains within the range of the spell.

You can move it up to 20 feet per round.

It can seep through the smallest cracks and float through the air, as you desire.

Creatures whose visual organs are within the cloud cannot see by normal vision or darkvision.

The cloud also engulfs all sound within it, preventing creatures whose vocal organs are within the cloud from speaking or casting spells, and those whose auditory organs are within the cloud from hearing.

A moderate wind (11+ mph) disperses the cloud in 5 rounds; a strong wind (21+ mph) disperses it in 2 rounds.
Material Component: A whisker from an old black cat and a tiny bottle of smoke captured on a moonless night.

EARTHBOLT

Evocation

Level: Wuj 3 (Earth)

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 5-ft. wide path to close range (25 ft. + 5 ft./2 levels)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

With a shout, you strike the ground at your feet and create a bolt of geomantic force.

This bolt travels through the earth, causing the earth, rock, or sand to fly into the air, striking creatures along its path.

A creature caught in the area takes 1d6 points of damage per caster level (maximum 10d6).

This spell functions only if you are standing on dirt, clay, stone, or sand.

It does not function if you are on a wooden floor or other surface.

ELEMENTAL BURST

Evocation

Level: Wuj 1 (All)

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 10-ft. burst

Duration: Instantaneous

Saving Throw: Reflex half or negates (see text)

Spell Resistance: Yes

When you cast this spell, you designate a target point—an item composed of one of the five elements (wood, fire, water, stone, or air).

The item then releases the magical energy within it in a sudden, explosive burst.

The effects of the burst depend on the element that makes up the target item: *Wood, Metal, or Stone:* The item throws off sharp slivers.

Creatures within the burst take 1d8 points of damage (half with a successful Reflex save).

Fire: The fire shoots out glowing sparks, causing 1d4 points of damage (no damage with a successful Reflex save).

This is a fire effect.

Water: Water pushes out in a sharp wave, knocking creatures within the burst prone.

A successful Reflex save allows an affected creature to remain standing.

Creatures add a +4 bonus on their saving throws for each size category they are larger than Medium-size, or a -4 penalty for each size category they are smaller than Medium-size.

Creatures with more than two legs, or otherwise exceptionally stable creatures, get a +4 stability bonus. The spell does not noticeably affect the structure of the target item.

FIERY EYES

Evocation [Fire]

Level: Wuj 1 (Fire)

Components: V, S

Casting Time: 1 action

Range: Personal

Target: You

Duration: 3 rounds/level

This spell causes your eyes to glow with an unnatural fire. You can determine the color of the light, from a reddish glow to brilliant yellow.

Your eyes project beams of bright light to a range of 3 feet, clearly illuminating the area.

By fixing your sight on one spot within 3 feet of your eyes for 3 rounds, you can cause combustible materials, but not other creatures, to burst into flames.

If other creatures carry or wear the affected items, however, these flames cause 1d6 points of damage to the creature immediately and may cause further damage (see *Catching on Fire* in Chapter 3 of the *DUNGEON MASTER's Guide*).

FIRE BREATH

Evocation [Fire]

Level: Flame 5, Shu 5 (Fire), Wuj 5 (Fire)

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level

You gain the ability to breathe a gout of flame as a standard action, once per round for the duration of the spell.

The flame targets one creature within 15 feet of you, and you must succeed at a ranged touch attack to affect the target.

If you succeed, the target takes 1d8 points of fire damage per two caster levels (maximum 10d8).

Combustible objects may be ignited—attended or magic items must make saving throws or burst into flames.

FIRE SHURIKEN

Evocation [Fire]

Level: Wuj 2 (Fire)

Components: V, S, M

Casting Time: 1 action

Range: 50 ft.

Effect: Up to 9 fire shuriken

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

This spell creates shuriken formed of magical fire that you can throw like normal shuriken (they do not burn your hands).

You are automatically considered proficient with the *fire shuriken*.

You create three fire shuriken if you are 1st to 6th level, six if you are 7th to 12th level, and nine if you are 13th level or higher.

You can throw three *fire shuriken* as a standard action, but all three must target the same creature.

If you create more than three shuriken, you can throw the remaining shuriken on subsequent rounds.

They have a range increment of 10 feet.

A single *fire shuriken* deals 1 point of normal damage and an additional 1d4 points of fire damage.

If you score a critical hit, the shuriken damage is doubled and the fire damage increases to 1d8.

Do not apply your Strength modifier to the shuriken damage.

If you are making a sneak attack, add the extra damage only to the damage of the first shuriken you throw in a round.

Material Component: A shuriken coated with pine sap and sulfur.

FIRES OF PURITY

Evocation [Fire]

Level: Shu 6 (Fire)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes (harmless)

The creature you touch bursts into magical flames that do not harm the target, but are quite capable of harming anyone else who comes into contact with them.

The target deals an additional 1d6 points of fire damage with a successful melee attack.

Creatures hitting the target with natural weapons or unarmed attacks take 1d6 points of fire damage, and must succeed at a Reflex save (the same DC as the spell) or catch fire.

The flame burns for 1d4 rounds (see *Catching on Fire* in Chapter 3 of the *DUNGEON MASTER'S Guide*).

A burning creature can take a move-equivalent action to put out the flame.

The target gains fire immunity for the duration of the spell, but takes double damage from cold except on a successful save.

ICE BLAST

Evocation [Cold]

Level: Wuj 2 (Water)

Components: S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

When you cast this spell, you spit forth a cone of icy crystals, engulfing creatures within a cone area.

Affected creatures are covered with a thin layer of ice, taking 1d6 points of subdual damage per two caster levels (maximum of 10d6).

In addition, creatures suffer from a temporary frostbite condition, making them fatigued.

Fatigued creatures cannot run or charge and suffer a –2 effective penalty to Strength and Dexterity.

The frostbite effect lasts 3 rounds.

A successful Fortitude save negates both the subdual damage and the frostbite effect.

Material Component: A mouthful of water.

INTERNAL FIRE

Evocation (Fire)

Level: Flame 9, Wuj 9 (Fire)

Components: V, S, F

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Targets: Creatures with total HD not exceeding your level, no two of which may be more than 20 ft. apart

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

This spell creates a deadly raging heat in the internal organs of the targets, causing them to burst into flame from the inside.

Death occurs instantly.

A successful Fortitude save instead deals 6d6 points of damage, +1 point per caster level.

Focus: An iron brazier filled with red-hot charcoal.

JADE STRIKE

Evocation [Good]

Level: Shu 4 (Earth)

Components: V, S

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Area: 20-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You call up holy jade power to smite your enemies.

Only Tainted creatures, undead, and creatures with the Shadowlands subtype are harmed by the spell; other creatures are unaffected.

The spell deals 1d8 points of damage per two caster levels (maximum 5d8) to undead and creatures with the Shadowlands subtype, and blinds them for 1 round.

A successful Reflex save reduces damage to half and negates the blinding effect.

The spell deals only half damage against creatures with a Taint score (and without the Shadowlands subtype), and they are not blinded.

They can reduce the damage in half again (down to one-quarter of the roll) with a successful Reflex save.

In addition to the obvious effects, a blinded creature suffers a 50% miss chance in combat (all opponents have full concealment), loses any Dexterity bonus to AC, grants a +2 bonus on attackers' attack rolls (they are effectively invisible), moves at half speed, and suffers a –4 penalty on most Strength- and Dexterity-based skills.

LIGHTNING BLADE

Evocation [Electricity]

Level: Wuj 2

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Effect: Swordlike blade

Duration: 1 minute or until discharged

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, a sword blade of crackling electrical energy appears in the hand of the creature you touch (who must be a willing recipient).

It is the size of a normal longsword, but is virtually weightless.

It is treated as a martial weapon for purposes of determining who is proficient with its use.

The wielder can use the blade in two ways—to make a melee touch attack to deliver electrical damage, or to fire a bolt of lightning as a ranged touch attack with an absolute range of 30 feet.

Over the entire duration of the spell, the blade can deliver damage up to 1d6 per caster level (maximum 10d6).

For any given attack, the blade's wielder decides (before making an attack roll) how many dice the blade deals with a successful hit, up to the maximum damage potential remaining in the spell.

If the attack roll is successful, the blade deals the specified damage to the target.

If the attack roll misses, those dice of damage are lost.

Since the blade is immaterial, the wielder's Strength modifier does not apply to the damage, which is all electricity damage.

It can harm any creature that is harmed by electricity. The spell does not function underwater.

MASTER OF THE ROLLING RIVER

Evocation [Water]

Level: River 6, Shu 6 (Water)

Components: V, S, DF

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: One or more creatures in a 20-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: No

When you cast this spell, you create a huge wave of water that slams into one or more targets within range.

If there is no large, natural source of water (a river, lake, or ocean) within the spell range, you can affect only one target.

If such a source of water exists within the range of the spell, the spell creates a burst centered on a location you designate.

In either case, the water deals 1d8 points of damage per two caster levels (maximum 7d8) to the target or to creatures within the area.

In addition, all affected creatures suffer a bull rush attack, forcing them to make opposed Strength checks against the wave of water.

The water has an effective Strength of 16 and is considered Medium-size (or 20 and Large if cast near water).

You designate the direction the wave pushes when you cast the spell; creatures who lose the opposed Strength check

are pushed 5 feet, plus 1 foot for every point by which the wave beats their Strength checks, in that direction.

It is possible for a wave arising from a body of water to push characters into the water.

The wave puts out torches, campfires, exposed lanterns, and other open flames if they are carried by the target or located within the area and they are of Large size or smaller.

Magical fires are targeted by a *dispel magic* effect as if you had cast that spell.

MELT

Evocation

Level: Wuj 1 (Fire)

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: A 5-ft. cube of ice or a 10-ft. cube of snow/level, or one cold creature/level

Duration: 1 minute/level or instantaneous (see text)

Saving Throw: None or Fortitude half (see text)

Spell Resistance: No or yes (see text)

This spell allows you to melt ice and snow or deal damage to cold creatures.

You can melt ice or snow as specified above, with no saving throw or spell resistance applicable.

Targeted cold creatures take 2 points of damage per caster level (maximum 10 points), half with a successful saving throw.

A creature's spell resistance applies.

Material Component: A few crystals of rock salt and a pinch of soot.

STEAM BREATH

Evocation

Level: Wuj 3 (Water)

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Area: Cone

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

This spell allows you to expel a powerful breath of superheated steam, which billows forth from your mouth and fills a cone with scalding clouds of mist.

Creatures within the cone take 1d6 points of fire damage per caster level (maximum 10d6).

The steam clouds dissipate instantly after their damage is done.

Material Component: A glowing piece of charcoal doused with water.

SWORD OF DECEPTION

Evocation

Level: Wuj 5

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Pale green blade of force

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

A blade made of pale green force appears and attacks opponents at a distance, as you direct it.

It strikes the opponent you designate, starting with one attack in the round when the spell is cast and continuing each round thereafter.

It strikes as a spell, not a weapon, so, for example, it can strike incorporeal creatures.

The blade attacks with the base attack bonus of a fighter whose level is equal to your caster level, and it deals 1d4 points of damage per hit.

It threatens a critical hit on a 19–20 and deals double damage with a critical hit.

In addition, each hit on a single creature inflicts a –1 luck penalty on that creature's next saving throw roll (–2 with a critical hit).

Successive hits increase this penalty, to a maximum of –5 on a single creature.

This saving throw penalty lasts until the creature is forced to make a saving throw in a dangerous situation.

Remove curse and similar spells can cancel the penalty.

The weapon always strikes from your direction.

It does not get a flanking bonus or help a combatant get one.

Your feats (such as *Weapon Focus*) or combat actions (such as *charge*) do not affect the weapon.

If the weapon goes beyond the spell range, if it goes out of your sight, or if you are not directing it, the weapon returns to you and hovers.

Each round after the first, you can use a standard action to switch the weapon to a new target.

If you do not, the weapon continues to attack the previous round's target.

On any round that the weapon switches targets, it gets one attack (as it does in the round when the spell is cast).

Subsequent rounds of attacking the same target allow the weapon to make multiple attacks if its base attack bonus would allow it to.

The *sword of deception* cannot be attacked or damaged.

If an attacked creature has spell resistance, the resistance is checked the first time the *sword of deception* strikes it.

If the weapon is successfully resisted, the spell is dispelled.

If not, the weapon has its normal full effect on that creature for the duration of the spell.

Focus: A miniature replica of a sword and a set of loaded dice.

TETSUBO OF EARTH

Evocation [Earth]

Level: Shu 2 (Earth)

Components: V, S, DF

Casting Time: 1 action

Range: Touch

Effect: Tetsubolike beam

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: Yes

A 6-foot-long tetsubo formed of earth springs forth from your hands.

You wield this weapon with proficiency as if it were a greatclub.

Attacks with the *tetsubo of earth* are regular melee attacks.

The tetsubo deals 1d10 points of damage +1 point per two caster levels (maximum +10).

The tetsubo is considered a +1 weapon for purposes of overcoming damage reduction.

WHIP

Evocation

Level: Wuj 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Effect: A whip of force

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: No

This spell creates a whip formed of magical force; the spell also grants you the ability to wield this whip with proficiency.

Simply cracking the whip creates a sonic, mindaffecting effect that keeps normal animals (not beasts, magical beasts, or vermin) at bay unless they succeed at a Will saving throw.

Affected animals stay at least 30 feet away from you for the duration of the spell.

If you succeed at a normal ranged attack with the whip against any normal animal, the target animal must succeed at a Will saving throw or become frightened.

Frightened creatures suffer a –2 morale penalty on attack rolls, weapon damage rolls, and saving throws, and flee from you as well as they can.

If unable to flee, creatures may fight.

You can use the whip in combat against other opponents as if it were a normal whip.

Material Component: A small silk whip.

WORDS OF THE KAMI

Evocation [Sonic]

Level: Shu 7 (Water)

Components: V

Casting Time: 1 action

Range: 30 ft.

Area: Creatures in a 30-ft.-radius spread centered on you

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

To utter the holy words of the kami is to bring forth magic of awesome power.

Creatures with the *Shadowlands* subtype or with a Taint score suffer the following ill effects:

HD	Effect
12 or more	Deafened
Less than 12	Blinded, deafened
Less than 8	Paralyzed, blinded, deafened
Less than 4	Killed, paralyzed, blinded, deafened

The effects are cumulative.

Deafened: The creature is deafened for 1d4 rounds.

A deafened creature, in addition to the obvious effects, automatically fails Listen checks, suffers a –4 penalty on initiative, and has a 20% chance to miscast and lose any spell with a verbal (V) component that it tries to cast.

Blinded: The creature is blinded for 2d4 rounds. In addition to the obvious effects, a blinded creature suffers a 50% miss chance in combat (all opponents have full concealment), loses any Dexterity bonus to AC, grants a +2 bonus on attackers' attack rolls (they are effectively invisible), moves at half speed, and suffers a -4 penalty on most Strength- and Dexterity-based skill checks. Paralyzed: The creature is paralyzed and helpless for 1d10 minutes, unable to move or act in any way. Killed: Living creatures die. Undead creatures are destroyed. Creatures free of Taint and without the Shadowlands subtype, including the spellcaster, are deafened for 1d4 rounds, regardless of their Hit Dice.

YAKAMO'S ANGER

Evocation [Light]
Level: Shu 6 (Fire)
Components: V, S, DF
Casting Time: 1 action
Range: 10 feet
Area: All sighted creatures within a 10-ft.-radius burst centered on you
Duration: Instantaneous
Saving Throw: Reflex negates
Spell Resistance: No
This spell unleashes the anger of the sun deity in a blinding flash originating with you and expanding outward. Any creature within the area of the spell that can see you must make a saving throw or be temporarily blinded. The blindness lasts for 1 minute per caster level. In addition to the obvious effects, a blinded creature suffers a 50% miss chance in combat (all opponents have full concealment), loses any Dexterity bonus to AC, grants a +2 bonus on attackers' attack rolls (they are effectively invisible), moves at half speed, and suffers a -4 penalty on Search checks and most Strength- and Dexterity-based skill checks. Sightless creatures are not affected by *Yakamo's anger*.

YARI OF AIR

Evocation [Air]
Level: Shu 2 (Air)
Components: V, S, DF
Casting Time: 1 action
Range: Touch
Effect: Yarilike beam
Duration: 1 minute/level (D)
Saving Throw: None
Spell Resistance: Yes
A 6-foot-long shaft formed of air springs forth from your hands. You wield this shaft as if it were a yari (shortspear). Attacks with the *yari of air* are regular melee attacks. The yari deals 1d8 points of damage +1 point per two caster levels (maximum +10). The yari is considered a +1 weapon for purposes of overcoming damage reduction.

ILLUSION

APPARITION

Illusion (Phantasm) [Fear, Mind-Affecting]
Level: Maho 2, Wuj 2
Components: V, S, M
Casting Time: 1 round
Range: Touch
Target: Creature touched
Duration: 1 round/level
Saving Throw: Will negates
Spell Resistance: Yes
This spell causes the subject's face to appear horrible and terrifying. You can create nearly any combination of hideous features—blue skin, parrot face, elephantine nose, rotting tusks, or anything else you can imagine. You cannot duplicate the appearance of any known creature, however. Creatures—excluding you and your allies—who view the recipient must make successful Will saving throws or become shaken. Shaken creatures suffer a -2 morale penalty on attack rolls, weapon damage rolls, and saving throws.
Material Component: A miniature palette dotted with paints of assorted colors.

CHAMELEON

Illusion (Glamer)
Level: Wuj 2
Components: V, S, M
Casting Time: 1 round
Range: Touch
Target: Creature touched
Duration: 10 minutes/level
Saving Throw: None
Spell Resistance: Yes (harmless)
This spell alters the coloration of the recipient to match that of the surrounding background. The creature gains a +10 circumstance bonus on its Hide check. When moving through areas where the background changes gradually (such as stepping from the edge of a forest into a green field), the coloration changes immediately. When the background changes abruptly (from forest to gray stone wall), 1 round is required to effect the change in coloration.
Material Component: The shed skin of a small lizard.

KNOW THE SHADOWS

Illusion (Glamer)
Level: Shu 2 (Air)
Components: S, DF
Casting Time: 1 action
Range: Personal
Target: You
Duration: 1 minute/level (D)
You bend surrounding shadows and blend them to yourself, making yourself one with the darkness.

As long as you remain within 10 feet of some kind of shadow (except your own shadow) or within at least moderate darkness, your ability to hide is greatly enhanced. You can hide yourself from view in the open without anything to hide behind, even while being observed, and you gain a +20 circumstance bonus on Hide checks. Unlike *invisibility*, this spell's effects do not end when you attack, though you cannot hide and attack at the same time. You are clearly visible while attacking (and thus do not gain a +2 bonus on your attack for being invisible, nor is your target denied its Dexterity bonus to AC), but you can use a move-equivalent action to hide again after attacking (or hide as part of a move action), and you still gain the +20 circumstance bonus on your Hide check. Your opponent can ready an action to attack you when you come into view to attack.

NECROMANCY

BLOOD OF FIRE

Necromancy

Level: Maho 5, Sha 5

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: Up to four creatures

Duration: Instantaneous

Saving Throw: Reflex negates (see text)

Spell Resistance: Yes

When you cast this spell, you cut a mystic pattern into one palm with a knife and enchant your own blood.

The spell creates one missile of blood per three caster levels (maximum of five missiles).

You can then send these missiles of blood streaking from the upturned palm, which explode on impact.

You can choose a separate target for each missile, but you must make a ranged touch attack for each missile.

A direct hit deals 2d8 points of damage with no saving throw allowed.

Creatures within 5 feet of a creature struck by a missile must make successful Reflex saves or take the same damage.

(Missiles that miss their target do not cause damage to any creature).

Material Component: Your blood.

Cutting the pattern in your palm deals 2 points of damage to you.

GHOST LIGHT

Necromancy [Fear, Mind-Affecting]

Level: Grave 1, Maho 1, Wuj 1

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: One Medium-size or smaller ghostly light

Duration: Concentration

Saving Throw: Will negates

Spell Resistance: Yes

With this spell, you create a ghostly green radiance anywhere within range that shines with the brightness of a torch.

You can use the light to illuminate some object, or you can shape it in any form of Medium-size or smaller.

You can control the movement of the light as long as you maintain concentration on the spell.

Thus, you can shape the light into a human form and make it seem to walk or fly, for example.

You can also change the shape of the light at any time during the spell's duration.

The light is imbued with unearthly power, and causes fear in creatures within 30 feet of its location.

Creatures in this area must make successful Will saving throws or become shaken, suffering a -2 morale penalty on attack rolls, weapon damage rolls, and saving throws.

Material Component: A bit of phosphorus.

HEART RIPPER

Necromancy

Level: Maho 4, Wuj 4

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: 1d4 + 1/level living creatures in a 20-ft. cube

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

With the sweep of a hand, you send invisible bolts of force surging toward the targets.

If a target has fewer than 5 Hit Dice and it fails its saving throw, the unleashed power caves in the creature's chest and drives its heart from the body, instantly killing the creature.

This spell affects creatures with the fewest Hit Dice first and then affects those with the next lowest Hit Dice, and so on, until reaching the maximum given above or until it has targeted all creatures within the 20-foot cube.

Undead, constructs, oozes, and other creatures with no anatomy or no heart are unaffected by the spell, as are all creatures with more than 5 Hit Dice.

KISS OF THE TOAD

Necromancy

Level: Maho 2, Wuj 2

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: Instantaneous (see text)

Saving Throw: Fortitude negates (see text)

Spell Resistance: Yes

Your touch becomes poisonous, inflicting poison upon a creature you touch with a successful melee touch attack.

The poison deals 1d6 points of temporary Constitution damage immediately and another 1d6 points of temporary Constitution damage 1 minute later.

Each instance of damage can be negated by a Fortitude save (DC 10 + 1/2 caster's level + caster's Intelligence modifier).

Focus: A tattoo of a toad on your skin.

PAIN

Necromancy

Level: Maho 4, Wuj 4

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: Creatures with total HD not exceeding your level, no two of which may be more than 20 ft. apart

Duration: 1 round/2 levels

Saving Throw: Fortitude partial

Spell Resistance: Yes

The target creatures are struck by wracking pains and agony.

While the spell lasts, affected creatures suffer a -4 penalty on attack rolls, skill checks, and ability checks.

A successful Fortitude save reduces this penalty to -2.

Material Component: A live leech.

POSSESS ANIMAL

Necromancy

Level: Nature 3, Sha 3

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

By casting this spell, you project your spirit into the body of an animal, forcing the animal to behave as you direct it.

Your own body lies lifeless for the duration of the spell.

The animal must be a normal animal (not a beast, magical beast, vermin, or other monster type) and must have fewer Hit Dice than your level.

The animal's soul remains in its body, but it has no control over that body while your spirit is there.

While in the animal's body, you keep your Intelligence, Wisdom, Charisma, level, class, base attack bonus, base save bonuses, alignment, and mental abilities.

The body retains its Strength, Dexterity, Constitution, hit points, natural abilities, and automatic abilities.

You can't choose to activate the body's extraordinary or supernatural abilities.

For every 2 points of damage taken by the animal body while you are possessing it, you take 1 point of damage as well.

If the animal body is killed while you are possessing it, you must make a Fortitude save (DC 10) or die as well.

If your body is destroyed while your spirit is in the animal's body, you die at the end of the spell's duration.

Material Component: A bowl of incense and a morsel of food appealing to the animal.

POSSESS

Necromancy

Level: Sha 5

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

As *possess animal*, but you can take over the body of any creature.

The possessed creature retains no memory of actions performed during the possession or knowledge of who possessed it.

Material Component: A bowl of incense.

SPIRIT SELF

Necromancy

Level: Wuj 5

Components: V, S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/2 levels (D)

This spell allows you to send your spirit outside your body in an incorporeal form, while maintaining some semblance of life in your physical body.

Your spirit has a speed of 90 feet, but it cannot move more than 200 feet from your body.

Your spirit can be blocked by any spell that wards incorporeal creatures, and it can be detected and attacked in the same way as incorporeal creatures can.

A shaman can use *commune with lesser spirit* or *commune with greater spirit* (if you are higher than 4th level) to contact you, you cannot see creatures protected by *invisibility to spirits*, and you are warded by a *protection from spirits* spell.

Your spirit can cast spells that have only verbal components, but it cannot otherwise attack or affect the physical world.

Your body, meanwhile, assumes a half-awake state.

In your spirit form, you can issue commands to your body as long as you are within 5 feet of it.

It can take only simple actions—walking, talking (in a slow, slurred fashion), or eating.

It is not helpless, but it can only take partial actions.

It loses its Dexterity bonus to AC (if any), and foes gain a +2 bonus on attack rolls against it.

Damage taken by either your spirit or your body is subtracted from your hit point total.

If either your spirit or your body is destroyed, you die.

If your body moves more than 200 feet from you, and your spirit is unable to follow (because of a *protection from spirits* spell or some other reason), you die.

If you are otherwise prevented from returning to your body at the expiration of the spell, you die.

Material Component: A small prayer wheel.

SWORD OF DARKNESS

Necromancy [Evil]

Level: Maho 7, Wuj 7

Components: V, S, M

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Effect: Blade of negative energy

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

A blade made of pure negative energy appears and attacks opponents at a distance, as you direct it.

It strikes the opponent you designate, starting with one attack in the round when the spell is cast and continuing each round thereafter.

It strikes as a spell, not a weapon, so, for example, it can strike incorporeal creatures.

The blade attacks with your base attack bonus and bestows one negative level per hit.

It threatens a critical hit on a 19–20 and bestows two negative levels with a critical hit.

If the subject has at least as many negative levels as HD, he dies.

Each negative level gives a creature the following penalties: –1 competence penalty on attack rolls, saving throws, skill checks, ability checks, and effective level (for determining the power, duration, DC, and other details of spells or special abilities).

Additionally, a spellcaster loses one spell or spell slot from her highest available level.

Negative levels stack.

Assuming the subject survives, he regains lost levels after a number of hours equal to your caster level.

Usually, negative levels have a chance of permanently draining the subject's levels, but the negative levels from the *sword of darkness* don't last long enough to do so.

If the sword strikes an undead creature, it gives that creature 5 temporary hit points per two caster levels (maximum 25 temporary hit points) for 1 hour.

The weapon always strikes from your direction.

It does not get a flanking bonus or help a combatant get one.

Your feats (such as Weapon Focus) or combat actions (such as charge) do not affect the weapon, but your lack of proficiency does not hinder it either.

If the weapon goes beyond the spell range, if it goes out of your sight, or if you are not directing it, the weapon returns to you and hovers.

Each round after the first, you can use a standard action to switch the weapon to a new target.

If you do not, the weapon continues to attack the previous round's target.

On any round that the weapon switches targets, it gets one attack (as it does in the round when the spell is cast).

Subsequent rounds of attacking the same target allow the weapon to make multiple attacks if its base attack bonus would allow it to.

The *sword of darkness* cannot be attacked or damaged.

If an attacked creature has spell resistance, the resistance is checked the first time the *sword of darkness* strikes it.

If the weapon is successfully resisted, the spell is dispelled.

If not, the weapon has its normal full effect on that creature for the duration of the spell.

Material Component: A katana or long sword worth at least 100 gp, which is shattered against a stone while casting the spell.

WHEN TWO BECOME ONE

Necromancy

Level: Shu 3 (Water)—Iuchi School

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 round/level (D)

When you cast this spell, your spirit enters the body of your horse (which you must be riding when you cast the spell) and merges with the horse's own.

Your own body hunkers low on the horse's back and holds on tight for the duration of the spell; it is a part of the body you and your steed share, but not a particularly useful part.

As a joint creature, you and your mount share all your skills, feats, and abilities.

You make all checks, saves, and attack rolls using the better base number (yours or your horse's) and the better ability score modifier.

You retain your own Intelligence, Wisdom, Charisma, memory, personality, level and class, alignment, and extraordinary and supernatural abilities.

You gain your horse's Strength, Dexterity, Constitution, speed, natural armor and weapons, and extraordinary abilities.

Opponents can attack either your body or your mount's. Your body uses the mount's Dexterity bonus to AC, not subject to the maximum Dexterity bonus for your armor type, with your own size modifier, armor bonus, and magical bonuses.

Your mount's body uses its own Dexterity bonus, size modifier, armor bonus, natural armor bonus, and any magical bonuses derived from items on your body other than armor (such as an *amulet of natural armor* or *ring of protection*).

You and your mount share a pool of hit points equal to your combined total hit points.

When an opponent hits either your body or your mount's, the damage is subtracted from this combined pool.

Neither you nor your mount becomes disabled or dying until all these combined hit points are exhausted.

When the spell ends, you divide the hit points remaining in the pool as you choose between you and your mount.

WITHERING PALM

Necromancy

Level: Maho 7, Wuj 7

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

A touch from your hand can cause the target's body to weaken and wither.

With a successful melee touch attack, you deal 1 point of temporary Strength damage and 1 point of temporary Constitution damage per two caster levels to the target.

If you score a critical hit, the damage from the hit is actually permanent ability drain.

TRANSMUTATION

ACCURACY

Transmutation

Level: Wuj 1

Components: V, S, M

Casting Time: 1 round + 1 round/level

Range: Touch

Target: One thrown weapon/level, all of which must be in contact with one another at the time of casting; or a single projectile weapon

Duration: 10 minutes/level

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

When you cast this spell, you enchant one or more thrown weapons or one projectile weapon (bow, crossbow, sling, or the like) to improve the chance of hitting distant targets. For the duration of the spell, the range increment for the affected thrown weapons or single projectile weapon is doubled.

Material Component: Ink, written in a mystical character on each weapon affected by the spell.

ANIMATE FIRE

Transmutation

Level: Flame 3, Wuj 3 (Fire)

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to a 3-ft. cube of fire

Duration: Concentration, up to 1 round/level (D)

As *animate wood*, but you can only animate a Small or smaller quantity of fire.

Animated fire deals fire damage equal to its slam damage (with no Strength penalty), has the burn special attack of a fire elemental (save DC 11), and the fire subtype.

Material Component: A handful of charcoal, sulfur, and soda ash.

ANIMATE WATER

Transmutation

Level: River 2, Wuj 2 (Water)

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to a 5-ft. cube of water

Duration: Concentration, up to 1 round/level (D)

As *animate wood*, but you can only animate a Small or smaller quantity of water.

Material Component: A small vial of pure spring water mixed with cinnabar oil.

ANIMATE WOOD

Transmutation

Level: Wood 1, Wuj 1 (Wood)

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: One Small or smaller wooden object

Duration: Concentration, up to 1 round/level (D)

Saving Throw: None

Spell Resistance: No

You imbue a Small or smaller object made of wood with mobility and a semblance of life.

The animated wood then attacks whomever or whatever you initially designate.

Statistics for animated objects are found in the *Monster Manual*.

The spell cannot animate objects carried or worn by a creature.

Material Component: A mixture of powdered cinnabar and ground peach pit.

ATTRACTION

Transmutation

Level: Sha 1, Soh 1

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 2 rounds/level

Saving Throw: Will negates

Spell Resistance: Yes

When you cast this spell, a mystical aura surrounds the subject creature, drawing attacks to the creature and making successful attacks more effective.

The subject takes an additional +1 point of damage per caster level (max +5) from each melee or ranged attack that deals damage to it.

This spell does not increase damage from spells.

CLOUD CHARIOT

Transmutation

Level: Wuj 8 (Water)

Components: V, S, M

Casting Time: 1 action

Range: Personal and touch

Target: You and one other Medium-size or smaller willing creatures/four levels

Duration: 10 minutes (D)

Saving Throw: None

Spell Resistance: No

This spell allows you to soar on a magic chariot formed of cloud.

When you cast the spell, you and any willing allies you are touching lift into the air on a small cloud and then fly away in whatever direction you desire.

You fly at the incredible speed of 10 miles per minute, so that over the spell's duration you can cover a distance of 100 miles.

You and your passengers feel none of the effects of this swift movement, and the ride is perfectly steady and calm—even in the worst weather.

At the end of the spell, the cloud settles gently to the ground and disappears.

Material Component: A small ball of cotton.

COBRA'S BREATH

Transmutation

Level: Maho 1, Wuj 1 (Water)

Components: S, M

Casting Time: 1 action

Range: Personal

Target: You

Duration: Instantaneous

Your saliva changes into a virulent poison that you then spit forth in a 10-foot cone.

Creatures within the cone must make a successful Fortitude saving throw or take 1d3 points of temporary Constitution damage.

(There is no secondary damage).

The poison does not affect you.

Material Component: A cobra's fang.

CREATE SPRING

Transmutation

Level: Sha 2

Components: V, S, F

Casting Time: 1 round

Range: Touch

Effect: A spring of water

Duration: Permanent

Saving Throw: None

Spell Resistance: No

A spring of water bubbles forth from the natural rock or earth you touch.

The spring cannot arise from creatures, plants, or artificial constructions such as buildings.

The spring puts forth six gallons of water per hour.

The water is fresh, clear (at the source), and cool.

No more than one spring may be created every 100 yards.

Focus: A bamboo cane.

DANCING BLADE

Transmutation

Level: Wuj 4 (Metal)

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One sword

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

When you cast this spell, you cause the target sword to hover and fight in the air, defending the character you designate.

The sword must be either unattended or in the possession of the willing ally who will benefit from the spell.

The sword fights using that character's base attack bonus and its base damage, with no adjustment for Strength or other ability scores.

If the character is not proficient with the sword, the sword suffers a -4 penalty on its attack rolls.

The sword stays within 5 feet of the character you designate, and drops to the ground if that character is dying or dead.

Controlling the sword requires no concentration, and the character can fight with another weapon at the same time.

The *dancing blade* prevents two opponents from receiving a flanking bonus against the character, though additional opponents can still gain a flanking bonus.

Material Component: A tiny stick puppet.

DECAPITATING SCARF

Transmutation

Level: Wuj 7 (Metal)

Saving Throw: Fortitude partial

As *iron scarf*, but if you succeed with your ranged attack roll, the scarf wraps around the target's neck.

The target may then attempt a Fortitude saving throw; failure indicates that you are able to yank the scarf and decapitate the victim.

This spell works only against creatures with heads, and decapitation is only effective against living creatures (except vampires).

Oozes and many aberrations have no heads and are thus immune to this spell.

Constructs and most undead are not harmed by the removal of their heads, so the spell is ineffective against them.

Living creatures that make successful Fortitude saves take 1d4 points of damage per caster level (maximum 20d4) before freeing themselves from the *decapitating scarf*.

ENTANGLING SCARF

Transmutation

Level: Wuj 2 (Metal)

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: One creature

Duration: 2 rounds/level

Saving Throw: Reflex negates

Spell Resistance: No

This spell is similar to *iron scarf*, but you use the scarf to entangle a foe instead of dealing damage.

As with *iron scarf*, you seize a silk scarf and lash it toward one creature within range, and the scarf magically extends to reach the target and wrap around it.

You must have a line of sight to the target.

You make a ranged attack roll on the target.

If you hit, the target must make a successful saving throw or become entangled.

An entangled creature suffers a -2 penalty on attack rolls and a -4 penalty to effective Dexterity.

The entangled creature cannot move.

A creature capable of spellcasting that is bound by this spell must make a Concentration check (DC 15) to cast a spell.

An entangled creature can slip free with an Escape Artist check (DC 20), or the scarf can be burst with a Strength check (DC 26).

Focus: A silk scarf.

FATIGUE

Transmutation

Level: Maho 4, Sha 4, Soh 4

Components: S

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: See text

Saving Throw: Fortitude negates

Spell Resistance: Yes

The subject becomes fatigued, suffering an effective penalty of -2 to Strength and Dexterity.

A fatigued character cannot run or charge and becomes exhausted by doing something that would normally cause fatigue.

If the subject is already fatigued when you cast the spell, it becomes exhausted, moving at half normal speed and suffering an effective penalty of -6 to Strength and Dexterity.

The subject can negate the effects of the spell through normal rest.

The creature must rest for 8 hours to remove the fatigue.

FIRE WINGS

Transmutation [Fire]

Level: Shu 3 (Fire), Wuj 3 (Fire)

Components: V, S, M, F

Casting Time: 1 round

Range: Personal

Target: You

Duration: 10 minutes/level

This spell transforms your arms into wings of brilliant fire, resembling those of a phoenix.

The flame does not damage you or any items you carry.

Since your arms are transformed, you cannot hold items in your hands or cast spells while using the *fire wings*, but rings, bracers, and other items worn on your arms when you cast the spell still function normally.

The wings allow you to fly at a speed of 60 feet, with good maneuverability.

You can charge but not run while flying, and you cannot carry more than a light load aloft.

If the spell duration expires while you are aloft, you fall normally.

You can make unarmed attacks with the *fire wings*, but you are not considered proficient with them and thus suffer a –4 penalty on your attack rolls.

A successful unarmed strike deals 2d6 points of fire damage in addition to your normal unarmed attack damage.

The wings can be extinguished (and the spell canceled) by a *quench* spell, immersion in water, or a wind of hurricane or greater force.

Material Component: The feather of a bird, which you must burn when you cast the spell.

Focus: A golden amulet shaped like a phoenix.

GIANT SIZE

Transmutation

Level: Hero 8, Wuj 7

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute

When you cast this spell, your body assumes truly gigantic proportions.

The spell causes you to grow to Huge or larger size, depending on your caster level.

Your Strength, Dexterity, Constitution, natural armor, and size modifier to AC and attacks all change based on your new size, as shown on the table below.

Caster Level	Size	Str	Dex	Con	Natural Armor	AC/Attack Modifier
15–16	20 ft. (Huge)	+16	–2	+4	+3	–2
17–18	40 ft. (Gargantuan)	+24	–2	+8	+7	–4
19–20	72 ft. (Colossal)	+32	–2	+12	+12	–8

The only equipment that changes size with you is ordinary, mundane clothing, so you may not be able to use weapons or magic items effectively in your giant form.

Material Component: The scale of a dragon or hairs from the head of a giant.

HORSE'S NOSE

Transmutation

Level: Shu 2 (Water)—Iuchi School

Components: V, S, DF

Casting Time: 1 action

Range: Personal

Target: You

Duration: 1 hour/level (D)

You gain the Scent special ability (fully described in Chapter 3 of the *Dungeon Master's Guide*).

You can detect approaching enemies, sniff out hidden foes, and track by sense of smell.

You can detect opponents by sense of smell within 30 feet.

If the opponent is upwind, the range is 60 feet; if it is downwind, the range is only 15 feet.

Strong and overpowering scents increase the range (as noted in the DMG).

You can note a creature's presence; determining the direction of the scent requires a move-equivalent action, and you can pinpoint the creature's location if you move to within 5 feet of it.

You can make a Wisdom check to find or follow a track by scent.

The typical DC for a fresh trail is 10.

Modifiers to the DC are listed in the DMG.

Water ruins the trail.

You can identify familiar odors just like you identify familiar sights.

However, an odor is not necessarily familiar to you if your only previous exposure to it was while you were not under the influence of *horse's nose*.

You only recognize odors that you could detect normally (without the aid of this spell).

IRON SCARF

Transmutation

Level: Metal 1, Wuj 1 (Metal)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

When you cast this spell, you seize a silk scarf and lash it toward one creature within range.

You must have a line of sight to the target.

You make a ranged attack roll on the target as the scarf magically extends and becomes as hard as iron on impact.

If you hit, the target takes 1d8 points of damage +1 per caster level (maximum +5).

Focus: A silk scarf.

MAGNETISM

Transmutation

Level: Metal 3, Wuj 3 (Metal)

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Ray

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: No

This spell allows you to draw iron or steel objects to yourself by projecting a magnetic ray at any object within range.

The magnetic ray draws objects toward you with an effective Strength score of 30.

Each round the spell lasts, you can target one item with a ranged touch attack.

If you hit an item that another creature is holding (such as a weapon), you and the creature holding the item must make opposed rolls, as if you were making a normal disarm attempt.

You add your base attack bonus and the ray's Strength bonus (+10) to your roll.

Your opponent uses a melee attack roll, modified by +4 if she is using a weapon in two hands.

If the weapon is larger or smaller than your size, your opponent gets an additional +/-4 per size category difference.

If you win the opposed roll, the weapon flies from your opponent's hand to your own.

If you hit an attended item, such as a weapon at someone's belt, the creature wearing the item can make a Reflex save to keep hold of the item.

If you hit an unattended item that is not secured or too heavy for the ray to lift, it flies to your hand.

If the item is secured in some way, you can make a Strength check (using the Strength bonus of the ray) to break or burst whatever is securing it.

Material Component: A piece of lodestone.

METAL SKIN

Transmutation

Level: Wuj 5 (Metal)

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: Yes

This spell transforms the skin of the recipient into a gleaming metallic surface.

The recipient's natural armor bonus becomes +8 (unless it was already better than +8), but the creature also becomes somewhat slow and stiff, suffering a -2 penalty to effective Dexterity for the duration of the spell.

Material Component: A small piece of rhinoceros hide.

MINUTE FORM

Transmutation

Level: Wuj 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 minute

When you cast this spell, your body becomes very small.

The spell causes you to shrink to Tiny or smaller size, depending on your caster level.

Your Strength, Dexterity, Constitution, and size modifier to AC and attacks all change based on your new size, as shown on the table below.

Caster Level	Size	Str	Dex	Con	AC/Attack Modifier
15-16	18 in. (Tiny)	-8	+4	-2	+2
17-18	9 in. (Diminutive)	-10	+6	-2	+4
19-20	3 in. (Fine)	-10	+8	-2	+8

None of your ability scores can be reduced below 1 by this spell.

The only equipment that changes size with you is ordinary, mundane clothing, so you may not be able to use weapons or magic items effectively in your minute form.

Material Component: A flea.

POISON NEEDLES

Transmutation

Level: Wuj 4 (Metal)

Target: One creature

Saving Throw: Fortitude negates (see text)

As *rain of needles*, but the needles drip with poison.

You can attack only one target, and you must succeed on a normal ranged attack to harm the target.

If you hit, the target suffers the effect of the poison needles. You can choose one of the following effects:

- 1d8 points of temporary Constitution damage immediately and another 1d8 points of temporary Constitution damage 1 minute later.

Each instance of damage can be negated by a successful Fortitude save (DC 10 + 1/2 caster's level + caster's Intelligence modifier).

- Paralysis for 2d6 minutes, negated by a successful Fortitude save (DC 10 + 1/2 caster's level + caster's Intelligence modifier).

- 1d10 points of temporary Dexterity damage immediately and another 1d10 points of temporary Dexterity damage 1 minute later.

Each instance of damage can be negated by a successful Fortitude save (DC 10 + 1/2 caster's level + caster's Intelligence modifier).

RAIN OF NEEDLES

Transmutation

Level: Wuj 2 (Metal)

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, you hurl a needle in the direction of one target.

The spell multiplies this single needle into a hail of needles that deal damage to the targets you select.

You make a normal ranged attack against each target separately, suffering no penalty for lack of proficiency.

The needles, combined, do 1d4 points of damage per caster level (maximum 5d4), but you can divide this damage up among the targets you select.

Thus, a 4th-level wu jen can target a single creature with an attack that deals 4d4 points of damage if successful, two creatures for 2d4 points of damage each, four creatures for

1d4 points of damage each, or some other division of the damage dice.

Material Component: A long metal needle.

REMOVE FATIGUE

Transmutation

Level: Sha 4, Soh 4

Components: S

Casting Time: 10 minutes

Range: Touch

Target: Up to one living creature touched per two levels

Duration: Instantaneous

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

The creatures you touch gain the benefits of 8 hours of restful sleep.

If a subject was fatigued, the fatigue and its penalties are removed.

If a subject was already well rested, it does not need to rest or sleep during the next 24 hours.

Arcane spellcasters must still rest their minds for 8 hours in order to prepare or ready their spells.

SCALES OF THE LIZARD

Transmutation

Level: Wuj 1

Components: V, S, F

Casting Time: 1 action

Range: Personal

Target: You

Duration: 2 rounds/level

When you cast this spell, your skin toughens and shimmers as if covered with scales.

You gain a +2 natural armor bonus to AC.

This bonus increases to +3 at 3rd level, +4 at 6th level, and +5 at 12th level and up.

Since the AC bonus is a natural armor bonus, it does not stack with any natural armor you may already have.

Focus: A tattoo of a lizard on your skin.

SMOKE LADDER

Transmutation

Level: Wuj 1 (Fire)

Components: V, S, F

Casting Time: 1 round

Range: Touch

Effect: A ladder of smoke, up to 10 ft. long/level

Duration: 1 minute/level (D)

Saving Throw: None

Spell Resistance: No

Using this spell, you can mold and shape ordinary smoke into a misty ladder.

Reaching into the smoke given off by a fire, you cast the spell while shaping the ladder.

The ladder weighs virtually nothing, and you can easily handle a *smoke ladder* of any length.

Furthermore, the ladder is always steady and rigid; it need not be supported or leaned against an object.

You simply place it in the desired position and climb.

You can extend the spell's duration by casting the spell again on the *smoke ladder*.

Focus: A large fire of green wood.

SNAKE DARTS

Transmutation

Level: Wuj 4

Components: V, S, F

Casting Time: 1 action

Range: Medium (100 ft. + 10 ft./level)

Targets: One or two creatures

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

When you cast this spell, your snake tattoos (the spell's focus) transform into real snakes that fly from you to the target or targets you select, striking like darts and injecting poison into the victims.

The snakes always hit, and deal 2d6 points of damage from the impact alone.

The poison deals 1d6 points of temporary Constitution damage immediately and another 1d6 points of temporary Constitution damage 1 minute later.

Each instance of ability damage can be negated by a successful Fortitude save (DC 10 + 1/2 caster's level + caster's Intelligence modifier).

After striking the targets, the snakes fly back to you.

You must swallow the living snakes before you can cast the spell again; doing so is a standard action that causes you no harm.

When you swallow the snakes, the tattoos reappear on your arms.

Focus: Two snake tattoos on your skin, usually one coiled around each forearm.

SPIRIT NEEDLE

Transmutation

Level: Wuj 6 (Metal)

Components: V, S, F

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One spirit creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

When you cast this spell, you hurl a long needle at a spirit creature, making a normal ranged attack against the spirit. The needle can hit incorporeal and even ethereal creatures, though it has no enhancement bonus.

If you hit, the spirit becomes corporeal and is held in place, unable to move for the duration of the spell (though it can still take nonmovement actions, including attacks).

The spirit takes no damage from the needle, but it becomes much more vulnerable to further attacks, losing any Dexterity bonus to AC and giving attackers a +4 bonus on attack rolls, in addition to losing the protective benefits of incorporeality.

The spirit cannot remove the needle that pins it in place, but another creature can remove it by using the aid another action.

A pinned spirit is unable to use any supernatural or spell-like ability to alter its substance (such as *gaseous form*, *ethereal jaunt*, or becoming incorporeal again) or transport itself (including *dimension door* and *teleport*).

Focus: A long metal needle.

SUMMONING WIND

Transmutation

Level: Wuj 5

Components: V, S

Casting Time: 10 minutes

Range: Ten miles/level

Target: Up to ten creatures/level

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You send a message or sound on the wind to a number of specific creatures that you identify while casting the spell. The specific identity of each recipient need not be known, but you must be able to distinguish them by their position or some feature other than race or character class.

For example, you could send the message to the soldiers of your palace guard or to the governors of all the provinces in the empire.

The *summoning wind* travels to each recipient, provided that it can find a way from you to their locations.

(It can't pass through walls, for instance).

The *summoning wind* is as gentle and unnoticed as a zephyr until it reaches the recipients.

It then delivers its whisper-quiet message or other sound and dissipates.

You can prepare the spell to bear a message of up to twenty-five words, cause the spell to deliver other sounds for 1 round, or merely have the *summoning wind* seem to be a faint stirring of the air.

You can likewise cause the *summoning wind* to move as slowly as one mile per hour or as quickly as one mile per 10 minutes.

When the spell reaches its objective, it swirls and remains until the message is delivered.

As with *magic mouth*, *summoning wind* cannot speak verbal components, use command words, or activate magical effects.

This spell is commonly used to rally troops, send warnings, or disseminate proclamations.

SUSTAIN

Transmutation

Level: Sha 4, Soh 4

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: Up to one living creature touched/two levels

Duration: 6 hours/level

Saving Throw: None

Spell Resistance: Yes (harmless)

The recipients of the spell can go without food or water for the duration of the spell, feeling no hunger and suffering no ill effects from the deprivation.

An affected creature can eat or drink normally without difficulty.

When the spell ends, the creatures must resume normal eating and drinking habits, but do not feel any adverse effects from the missed meals.

The size of the creature is not a factor; a tiny lizard and a dragon are both fully nourished by the spell.

If a target of the spell is suffering from hunger and thirst, the spell relieves the creature as if it had eaten one healthy meal for every 6 hours of the spell's duration.

Material Component: A flask of warm sake and a rice cake.

SWIM

Transmutation

Level: Wuj 2 (Water)

Components: V, S, M

Casting Time: 1 round

Range: Medium (100 ft. + 10 ft./level)

Target: One creature

Duration: 3 rounds/level

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell gives the recipient the ability to swim with the ease of a fish, though it does not impart the ability to breathe water.

The creature can swim at its normal (land) speed without making Swim checks, so long as it is not carrying more than a light load.

It gains a +8 competence bonus on any Swim checks to perform some special action or avoid a hazard, though it still suffers the normal penalty for weight carried (-1 per 5 pounds carried).

It can always choose to take 10, even if rushed or threatened when swimming.

The creature can use the run action while swimming, provided it swims in a straight line.

If the creature is carrying more than a light load, it still gains the +8 competence bonus on Swim checks, but it must make Swim checks to move (including the normal penalty for weight carried).

The other benefits of the spell still apply.

Material Component: A goldfish scale.

TERRA COTTA LION

Transmutation

Level: Wuj 5 (Earth)

As *terra cotta warrior*, but the spell animates a statuette of a foo lion (a celestial dire lion) into a Huge animated object. Like a terra cotta warrior, a terra cotta lion has improved speed (30 feet) and a hardness of 6.

It has none of the special attack forms described in the *Monster Manual*.

Focus: A terra cotta statue of a foo lion, up to 1 foot tall and costing 10 gp.

If the terra cotta lion remains intact at the end of the spell, the statuette can be reused.

Otherwise, it must be repaired or replaced.

TERRA COTTA WARRIOR

Transmutation

Level: Wuj 3 (Earth)

Components: V, S, F

Casting Time: 1 action

Range: Touch

Target: One statuette

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Terra cotta statues are popular items of decoration and devotion.
This spell turns an innocuous statuette, no more than 6 inches tall, into a full-sized warrior, ready to fight your foes. The statuette becomes a Medium-size animated object, as described in the *Monster Manual*.
The statuette has a speed of 40 feet and a hardness of 6. It has none of the special attack forms described in the *Monster Manual*.
Focus: A terra cotta statue of a warrior, up to 6 inches tall and costing 1 gp.
If the terra cotta warrior remains intact at the end of the spell, the statuette can be reused.
Otherwise, it must be repaired or replaced.

THORNSKIN

Transmutation
Level: Wuj 3 (Wood)
Components: V, S, M
Casting Time: 1 action
Range: Personal
Target: You
Duration: 1 round/level
When you cast this spell, you become so completely attuned to the element of wood that your skin sprouts thorns all over.
These thorns do not damage you, but they both increase the damage you can deal with an unarmed attack and make you a dangerous person to grab.
When you make a successful unarmed attack, you deal 1d6 points of normal, not subdual, piercing damage.
If you already deal extra damage, because you are a multiclassed monk or for any other reason, your damage increases by one die type: 1d6 to 1d8, 1d8 to 1d10, 1d10 to 1d12, 1d12 to 1d20, 1d20 to 2d12.
If you have another form of natural attack, such as a claw attack, use 1d6 or your claw damage, whichever is better.
A creature that hits you with a natural weapon or unarmed attack, including an attempt to grapple, takes 1d4 points of piercing damage.
Material Component: A thorn.

TOMB OF JADE

Transmutation
Level: Shu 7 (Earth)
Components: V, S, M, DF
Casting Time: 1 round
Range: Touch
Target: Shadowlands creature touched
Duration: Concentration
Saving Throw: Fortitude partial
Spell Resistance: Yes
When you cast this spell, you attempt to draw out the impure substance of a Tainted creature and replace it with your own pure substance.
The spell is draining for you to cast, but it is deadly to creatures that are infected with the Shadowlands Taint. You can only cast this spell on a Shadowlands creature (a creature with the Shadowlands subtype or with a Taint score).
When you touch the creature, it must make a Fortitude saving throw.

If it succeeds, it is unaffected by the spell.
If it fails, its skin turns to jade and it is immobilized, standing helpless.
The creature is aware and breathes normally, but cannot take any physical actions, even speech.
It can, however, execute purely mental actions (such as using a spell-like ability).
The effect is similar to that of *hold person*.
Each round you maintain the spell, the creature must attempt another Fortitude save.
If it fails the save, it takes 1d6 points of permanent Constitution drain.
Each round you maintain the spell, however, you take 1d6 points of subdual damage.
If you fall unconscious, or if the creature succeeds at its Fortitude save, the spell ends.
Material Component: A finger of jade worth at least 50 gp.

VULNERABILITY

Transmutation
Level: Sha 6
Components: V, S
Casting Time: 1 action
Range: Touch
Target: Creature touched
Duration: 1 round/level
Saving Throw: Will negates
Spell Resistance: Yes
This spell lowers the subject's damage reduction value by 5/+1.
Thus, if you successfully cast *vulnerability* on a dragon with damage reduction 15/+2, its damage reduction becomes 10/+1.
For every three caster levels beyond 11th, the damage reduction decreases by an additional 5/+1: 10/+2 at 14th, 15/+3 at 17th, and 20/+4 at 20th.

WATER TO POISON

Transmutation
Level: Maho 4, Wuj 4 (Water)
Components: V, S, M
Casting Time: 1 round
Range: Touch
Target: 1 pint of water/three levels
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
This spell transforms a volume of water into an equal volume of ingested poison.
The saving throw DC of the poison is the same as the spell's DC would be (15 + your Intelligence modifier).
The poison's initial damage is 1 point of temporary Constitution damage, and its secondary damage is 1d8 points of temporary Constitution damage.
A single swallow of poison is enough to cause this effect, but drinking more does not increase the effect.
Material Component: The fang of a poisonous snake.

WEAPON BLESS

Transmutation
Level: Fury 1, Sha 1, Soh 1

Components: V, S, F

Casting Time: 10 minutes

Range: Touch

Target: Weapon touched

Duration: Permanent until discharged

Saving Throw: Will negates (harmless, object)

Spell Resistance: Yes (harmless, object)

You prepare one weapon for combat against a particular foe. While casting the spell, you write the identity of the foe on the weapon, along with spirit invocations to give the weapon power.

Although you do not need to know the exact name of the intended victim, you must still identify the creature specifically.

You cannot, for example, bless a weapon for use against “a kappa”, but you can bless it for use against “the kappa who lives in Ch’i Sheng’s pond”.

The first time the blessed weapon is used against the target creature, its wielder gains a +5 enhancement bonus on the first attack roll and a +5 bonus on damage if the first attack is successful.

After the first attack, or if the weapon is used against another foe before it is used against the target creature, the writings on the blade disappear and the spell effect ends.

Focus: A writing brush and ink.

WOOD ROT

Transmutation

Level: Maho 5, Wuj 5 (Wood)

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: One nonmagical wooden object (or the volume of the object within 3 ft. of the touched point) or one plant creature

Duration: See text

Saving Throw: None

Spell Resistance: No

Any wood item or plant creature you touch becomes instantaneously rotted, decayed, and worthless, effectively destroyed.

If the item is so large that it cannot fit within a 3-foot radius (a large wooden door), a 3-foot-radius volume of the wood is rotten and destroyed.

Wooden magic items are immune to this spell.

You may employ *wood rot* in combat with a successful melee touch attack.

Wood rot used in this way instantaneously destroys 1d6 points of Armor Class gained from wooden armor or shields (up to the maximum amount of protection the armor offered).

Weapons in use by an opponent targeted by the spell are more difficult to grasp.

You must succeed at a melee touch attack against the weapon.

A wooden or wooden-hafted weapon that is hit is destroyed.

Note: Striking at an opponent’s weapon provokes an attack of opportunity.

Also, you must touch the weapon and not the other way around.

Against plant creatures, *wood rot* instantaneously deals 3d6 points of damage +1 per caster level (maximum +15) per successful attack.

The spell lasts for 1 round per level, and you can make one melee touch attack per round.

Material Component: A live termite.

PLANAR HANDBOOK (3.5)

ABJURATION

AVOID PLANAR EFFECTS

Abjuration

Level: Cleric 2, druid 2, sorcerer/wizard 3

Components: V

Casting Time: 1 standard action

Range: 20 ft.

Target: One creature/level in a 20-ft.-radius burst centered on you

Duration: 1 minute/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You gain a temporary respite from the natural effects of a specific plane.

These effects include extremes in temperature, lack of air, poisonous fumes, emanations of positive or negative energy, or other attributes of the plane itself.

Avoid planar effects provides protection from the 3d10 points of fire damage that characters normally take when on a plane with the fire-dominant trait.

Avoid planar effects allows a character to breathe water on a water-dominant plane and ignore the threat of suffocation on an earth-dominant plane.

A character protected by *avoid planar effects* can’t be blinded by the energy of a major positive-dominant plane and automatically stops gaining temporary hit points when they equal the character’s full normal hit point total.

Negative-dominant planes don’t deal damage or bestow negative levels to characters protected by *avoid planar effects*. In addition, some effects specific to a plane are negated by *avoid planar effects*.

In the D&D cosmology, *avoid planar effects* negates the deafening effect of Pandemonium and the cold damage on the Cania layer of the Nine Hells.

The DM can add additional protections for a cosmology he creates.

If the campaign has an Elemental Plane of Cold, for example, *avoid planar effects* protects against the base cold damage dealt to everyone on the plane.

The effects of gravity traits, alignment traits, and magic traits aren’t negated by *avoid planar effects*, nor is the special entrapping trait that some planes (such as Elysium and Hades) have.

The spell does not provide protection against creatures, native or otherwise, nor does it protect against spells, special abilities, or extreme and nonnatural formations within the plane.

This spell allows you to survive on the Elemental Plane of Earth, but it won’t protect you if you walk into a pool of magma on that same plane.

MANTLE OF CHAOS

Abjuration [Chaos]

Level: Cleric 3

Components: V, S, M/DF

Casting Time: 1 standard action

Target: You

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: Yes

Flickering yellow chaotic energy surrounds you.

This power grants you spell resistance 12 + caster level against spells with the lawful descriptor.

MANTLE OF EVIL

Abjuration [Evil]

Level: Blackguard 3, cleric 3

This spell functions like *mantle of chaos*, except that you are surrounded by dark wavering unholy energy, and *mantle of evil* grants spell resistance against spells with the good descriptor.

MANTLE OF GOOD

Abjuration [Good]

Level: Cleric 3, paladin 3

This spell functions like *mantle of chaos*, except that you are surrounded by shimmering white holy energy, and *mantle of good* grants spell resistance against spells with the evil descriptor.

MANTLE OF LAW

Abjuration [Law]

Level: Cleric 3, paladin 3

This spell functions like *mantle of chaos*, except that you are surrounded by constant blue lawful energy, and *mantle of law* grants spell resistance against spells with the chaotic descriptor.

PLANAR BUBBLE

Abjuration

Level: Cleric 7, sorcerer/wizard 7

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Area: 10-ft.-radius emanation from touched creature

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: No; see text

This spell creates an area around the target creature that emulates its native planar environment.

Thus, a character hailing from the Material Plane would have normal gravity, temperature, magic, and so on.

This spell cast on a native of the Plane of Shadow would make the area around her have normal gravity, a mild neutral alignment, enhanced shadow spells, and impeded light spells.

Material Components: A sprinkling of silver dust.

PLANAR TOLERANCE

Abjuration

Level: Cleric 4, druid 4, ranger 4, sorcerer/wizard 3

Duration: 1 hour/level

As *avoid planar effects*, except the effects last longer (as noted above, 1 hour per level instead of 1 minute per level).

PROTECTION FROM NEGATIVE ENERGY

Abjuration

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The warded creature gains partial protection against negative energy effects.

Subtract 10 from the hit point damage dealt by any negative energy effect (such as an *inflict* spell) that affects the warded creature.

Negative energy effects that don't directly deal hit point damage (such as energy drain) affect the target normally.

PROTECTION FROM POSITIVE ENERGY

Abjuration

Level: Cleric 3

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Undead creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The warded creature gains partial protection against positive energy effects.

Subtract 10 from the hit point damage dealt by any positive energy effect (such as a *cure* spell) that affects the warded creature.

Positive energy effects that don't deal hit point damage to the target (such as turning) affect the target normally.

RESIST PLANAR ALIGNMENT

Abjuration

Level: Cleric 1, druid 1, paladin 1, ranger 1, sorcerer/wizard 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This abjuration grants a creature limited protection from a plane's alignment traits.

When the subject visits a plane with an alignment trait, this spell grants it immunity to penalties on its Charisma check that mildly aligned planes impose on visitors of opposed alignments.

The Charisma, Wisdom and Intelligence check penalties associated with strongly aligned planes are halved while this spell's duration lasts.

SEAL PORTAL

Abjuration

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One interplanar gate or portal

Duration: Permanent (D)

Saving Throw: None

Spell Resistance: No

You can permanently seal an interplanar portal or gate.

If cast on a portal, the spell prevents any activation of it, although *seal portal* may be dispelled by a *dispel magic* spell.

A *knock* spell does not function on the sealed portal, but a *chime of opening* dispels *seal portal* if *seal portal* was cast by a spellcaster of lower than 15th level.

In addition, the ability of the gatecrasher prestige class (see *Manual of the Planes*) to open portals may be able to break through a sealed portal, but if the first attempt fails, the gatecrasher can't try again.

Once the portal is opened, *seal portal* does not remain in effect and must be cast again.

Material Component: A silver bar worth 50 gp.

CONJURATION

ABYSSAL ARMY

Conjuration (Summoning) [Chaotic, Evil]

Level: Cleric 9, sorcerer/wizard 9

Components: V, S

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Effect: Two or more summoned creatures, no two of which can be more than 30 ft. apart

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell summons a pack of demons from the Infinite Layers of the Abyss to serve you.

When the spell is complete, 2d4 dretches appear.

Ten minutes later, 1d4 babau demons appear.

Ten minutes after that, one vroock demon appears.

Each creature has maximum hit points per Hit Die.

Once these creatures appear, they serve you for the duration of the spell.

The demons obey you explicitly and never attack you, even if someone else manages to gain control over them.

You do not need to concentrate to maintain control over the demons.

You can dismiss them singly or in groups at any time.

ANARCHIC STORM

Conjuration (Creation) [Chaotic, Water]

Level: Cleric 3

Components: V, S, M/DF

Casting Time: 1 standard action

Area: 20-ft. radius, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A driving rain falls around you.

It falls in a fixed area once created.

The storm reduces hearing and visibility, resulting in a -4 penalty on Listen, Spot, and Search checks.

It also applies a -4 penalty on all ranged attacks made into, out of, or through the storm.

Finally, it automatically extinguishes any unprotected flames and has a 50% chance to extinguish protected flames (such as those of lanterns).

The rain damages lawful creatures, dealing 2d6 points of damage per round (lawful outsiders take double damage).

In addition, each round, a bolt of lightning strikes a randomly selected lawful outsider within the spell's area, dealing 5d6 points of electricity damage.

After the spell's duration expires, the water disappears.

Material Component: A flask of anarchic water (see page 75).

ASTRAL HOSPICE

Conjuration (Teleportation)

Level: Cleric 4, druid 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: See text

Duration: 1 day/level

Saving Throw: None

Spell Resistance: No

This spell opens up a small planar portal from the Astral Plane to a demiplane where natural healing can occur (unlike on the Astral Plane itself).

The firm surface of the demiplane is roughly 50 feet square, and the demiplane extends 50 feet above the surface.

The demiplane's traits (including time, gravity, and magic) match those of the Material Plane, and the demiplane is self-contained; walking to one end returns a character to the point from which he began.

The demiplane has no unusual planar traits.

The only way in or out of the demiplane is through the entrance created by the caster, and only those named or described by the caster upon the casting of the spell may enter.

The portal continues to exist on the Astral Plane only while the hospice demiplane exists.

When the caster leaves the demiplane, the portal seals shut and vanishes.

Anyone still in the hospice demiplane at that time appears on the Astral Plane at the location of the hospice's entrance.

Material Component: A single flawless gemstone of at least 250 gp value.

AXIOMATIC STORM

Conjuration (Creation) [Lawful, Water]

Level: Cleric 3, paladin 4

Components: V, S, M/DF

Casting Time: 1 standard action

Area: 20-ft. radius, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A driving rain falls around you.

It falls in a fixed area once created.

The storm reduces hearing and visibility, resulting in a -4 penalty on Listen, Spot, and Search checks. It also applies a -4 penalty on all ranged attacks made into, out of, or through the storm. Finally, it automatically extinguishes any unprotected flames and has a 50% chance to extinguish protected flames (such as those of lanterns). The rain damages chaotic creatures, dealing 2d6 points of damage per round (chaotic outsiders take double damage). In addition, each round, a gout of acid strikes a randomly selected chaotic outsider within the spell's area, dealing 5d6 points of acid damage. After the spell's duration expires, the water disappears. *Material Component:* A flask of axiomatic water (see page 76).

CALL KOLYARUT

Conjuration (Calling) [Lawful]
Level: Cleric 7, sorcerer/wizard 7
Components: V, S, DF, XP
Casting Time: 10 minutes
Range: Close (25 ft. + 5 ft./2 levels)
Effect: One called kolyarut
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
By casting this spell, you request the aid of a kolyarut inevitable. If you know an individual kolyarut's name, you may request that individual by speaking the name during the spell (though you might get a different creature, anyway). You may ask the kolyarut to perform one duty for you. The task must be in harmony with its lawful objective, and must take no more than seven days to complete. Kolyaruts mete out punishment to those who break bargains and oaths. The inevitable does not ask for any payment for the task. After seven days, or if asked to do something nonlawful, frivolous, or not focused on its lawful objective, the kolyarut will leave.
XP Cost: 250 XP.

CALL MARUT

Conjuration (Calling) [Lawful]
Level: Cleric 9, sorcerer/wizard 9
Components: V, S, DF, XP
Casting Time: 10 minutes
Range: Close (25 ft. + 5 ft./2 levels)
Effect: One called marut
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
By casting this spell, you request the aid of a marut inevitable. If you know an individual marut's name, you may request that individual by speaking the name during the spell (though you might get a different creature, anyway). You may ask the marut to perform one duty for you. The task must be in harmony with its lawful objective, and must take no more than nine days to complete. Maruts confront those, like liches, who would try to deny the grave. The inevitable does not ask for any payment for the task.

After nine days, or if asked to do something nonlawful, frivolous, or not focused on its lawful objective, the marut will leave.
XP Cost: 500 XP.

CALL ZELEKHUT

Conjuration (Calling) [Lawful]
Level: Cleric 5, sorcerer/wizard 5
Components: V, S, DF, XP
Casting Time: 10 minutes
Range: Close (25 ft. + 5 ft./2 levels)
Effect: One called zelekhut
Duration: Instantaneous
Saving Throw: None
Spell Resistance: No
By casting this spell, you request the aid of a zelekhut inevitable. If you know an individual zelekhut's name, you may request that individual by speaking the name during the spell (though you might get a different creature, anyway). You may ask the zelekhut to perform one duty for you. The task must be in harmony with its lawful objective, and must take no more than five days to complete. Zelekhuts hunt down those who would deny justice or seek to flee to escape punishment. The inevitable does not ask for any payment for the task. After five days, or if asked to do something nonlawful, frivolous, or not focused on its lawful objective, the zelekhut will leave.
XP Cost: 100 XP.

FIERCE PRIDE OF THE BEASTLANDS

Conjuration (Summoning) [Chaotic, Good]
Level: Cleric 8, sorcerer/wizard 8
Components: V, S
Casting Time: 10 minutes
Range: Medium (100 ft. + 10 ft./level)
Effect: Two or more summoned creatures, no two of which can be more than 30 ft. apart
Duration: 10 min./level (D)
Saving Throw: None
Spell Resistance: No
This spell summons a pride of celestial lions from the Wilderness of the Beastlands. When the spell is complete, 2d4 celestial lions appear. Ten minutes later, 1d4 celestial dire lions appear. Each creature has maximum hit points per Hit Die. Once these creatures appear, they serve you for the duration of the spell. The creatures obey you explicitly and never attack you, even if someone else manages to gain control over them. You do not need to concentrate to maintain control over the creatures. You can dismiss them singly or in groups at any time.

HEAVENLY HOST

Conjuration (Summoning) [Good, Lawful]
Level: Cleric 9, sorcerer/wizard 9
Components: V, S
Casting Time: 10 minutes
Range: Medium (100 ft. + 10 ft./level)

Effect: Two or more summoned creatures, no two of which can be more than 30 ft. apart

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell summons a host of archons from the Seven Mounting Heavens of Celestia.

When the spell is complete, 2d4 lantern archons appear.

Ten minutes later, 1d4 hound archons appear.

Each creature has maximum hit points per Hit Die.

Once these creatures appear, they serve you for the duration of the spell.

The creatures obey you explicitly and never attack you, even if someone else manages to gain control over them.

You do not need to concentrate to maintain control over the creatures.

You can dismiss them singly or in groups at any time.

HELLISH HORDE

Conjuration (Summoning) [Evil, Lawful]

Level: Cleric 9, sorcerer/wizard 9

Components: V, S

Casting Time: 10 minutes

Range: Medium (100 ft. + 10 ft./level)

Effect: Two or more summoned creatures, no two of which can be more than 30 ft. apart

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell summons a horde of devils from the Nine Hells of Baator to serve you.

When the spell is complete, 2d4 bearded devils appear.

Ten minutes later, 1d4 chain devils appear.

Ten minutes after that, one bone devil appears.

Each creature has maximum hit points per Hit Die.

Once these creatures appear, they serve you for the duration of the spell.

The devils obey you explicitly and never attack you, even if someone else manages to gain control over them.

You do not need to concentrate to maintain control over the devils.

You can dismiss them singly or in groups at any time.

HOLY STORM

Conjuration (Creation) [Good, Water]

Level: Cleric 3, paladin 3

Components: V, S, M/DF

Casting Time: 1 standard action

Area: 20-ft. radius, centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A driving rain falls around you.

It falls in a fixed area once created.

The storm reduces hearing and visibility, resulting in a -4 penalty on Listen, Spot, and Search checks.

It also applies a -4 penalty on all ranged attacks made into, out of, or through the storm.

Finally, it automatically extinguishes any unprotected flames and has a 50% chance to extinguish protected flames (such as those of lanterns).

The rain damages evil creatures, dealing 2d6 points of damage per round (evil outsiders take double damage). In addition, each round, a blast of frost strikes a randomly selected evil outsider within the spell's area, dealing 5d6 points of cold damage.

After the spell's duration expires, the water disappears.

Material Component: A flask of holy water.

HUNTERS OF HADES

Conjuration (Summoning) [Evil]

Level: Cleric 9

Components: V, S

Casting Time: 1 minute

Range: Medium (100 ft. + 10 ft./level)

Effect: Two summoned pack fiends, which can be no more than 30 ft. apart

Duration: 10 min./level (D)

Saving Throw: None

Spell Resistance: No

This spell summons a pair of pack fiends (see page 128) from the Gray Waste of Hades to serve you.

The pack fiends magically understand your spoken commands (regardless of your language).

The pack fiends are treated as trained hunting beasts, so you can command them to track if you so choose.

PLANAR EXCHANGE

Conjuration (Calling) [see text]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 round

Range: 0 ft.

Effect: One called creature

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

When you cast this spell, you call an extraplanar creature (specifically, an avoral guardinal, bone devil, or babau demon, at your option) to your precise location.

At the same instant, you are transported to that creature's home plane, where you exist in stasis for the duration of the spell.

To a casual observer, it appears that you have transformed into the called creature (though an onlooker who makes a DC 25 Spot check notices the slight gap between your disappearance and the creature's appearance).

If the called creature would not fit in the place you occupied when you cast the spell, the spell fails.

You have full control over the creature's actions and can perceive the environment around the called creature as if you were seeing through its eyes, hearing through its ears, and so on.

The creature has full access to all of its abilities, with one exception: It can't summon other creatures.

If the called creature is slain, you take 3d6 points of damage and the spell ends.

While in stasis, you can't take any actions other than to control the called creature or to dismiss the spell, nor can anything on the creature's home plane affect you in any way.

You also can't perceive anything around your body's location.

When you dismiss the spell, or when the creature is slain, you appear in the creature's location, and it is returned to its home plane.

When you use a calling spell that calls a chaotic, evil, good, or lawful creature, it is a spell of that type.

PLANAR EXCHANGE, GREATER

Conjuration (Calling)

Level: Cleric 8

As *planar exchange*, except you trade places with a leonal guardinal, barbed devil, or hezrou demon, at your option. If the called creature is slain, you take 4d6 points of damage and the spell ends.

PLANAR EXCHANGE, LESSER

Conjuration (Calling)

Level: Cleric 4

As *planar exchange*, except that you trade places with a celestial brown bear, celestial griffon, fiendish dire ape, or fiendish tiger, at your option. If the called creature is slain, you take 2d6 points of damage and the spell ends.

PLANE SHIFT, GREATER

Conjuration (Teleportation)

Level: Cleric 7, sorcerer/wizard 8

This spell functions like *plane shift*, except that if you have visited the desired location, the spell takes you to the precise location (rather than 5 to 500 miles distant).

POSITIVE ENERGY AURA

Conjuration (Healing)

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Area: 10-ft.-radius emanation centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

An aura of white positive energy surrounds you. Each round on your turn, every living creature within 10 feet of you gains 2 hit points (creatures can't exceed their full normal hit points from this effect).

Undead creatures instead take 2 points of damage per round.

Characters with immunity to positive energy effects are not affected by this aura.

The *positive energy aura* does not affect you.

PRECIPITATE BREACH

Conjuration (Teleportation)

Level: Sorcerer/wizard 5

Components: V, M

Casting Time: 10 minutes

Range: 0 ft.

Effect: Planar breach; see text

Duration: See text

Saving Throw: None

Spell Resistance: Yes

You meddle with the boundaries between planes, creating instability and, finally, a minor planar breach.

See Planar Breaching, page 151, for details concerning this phenomenon.

You have no control over the breach created.

However, as opposed to a truly random breach (see page 153), when this spell is first cast in any area that doesn't already contain a breach, a minor breach forms automatically.

The breach has the size (10d10-foot radius) and onset time following casting (1d4 rounds) described for a random breach.

Roll on Table 7-1: Random Planar Breaching, page 152, to determine the trait that leaks through from the breaching plane.

The effect is as for a minor breach.

The breach has a standard duration for a minor breach (1d6 days minus 12 hours, minimum 12 hours), after which time it fades away.

If you cast *precipitate breach* into an area that currently hosts a minor breach, you precipitate a severe breach.

Reroll the size, the onset time, and the trait that leaks through from the breaching plane (which could mean that the identity of the breaching plane changes).

The effect is as for a severe breach.

The breach has a standard duration for a severe breach (1d6 days minus 48 hours, minimum 1 hour), after which time it fades away.

This spell has no effect if cast into an area currently hosting a severe or complete breach.

Material Component: Jade dust worth 250 gp sprinkled in the center of the effect.

PRECIPITATE COMPLETE BREACH

Conjuration (Teleportation)

Level: Sorcerer/wizard 9

Components: V, M, XP

Casting Time: 10 minutes

Range: 0 ft.

Effect: Complete planar breach; see text

Duration: See text

Saving Throw: None

Spell Resistance: Yes

As *precipitate breach*, except casting this spell creates a complete breach, as described on page 152.

Material Component: Jade dust worth 1,000 gp sprinkled in the center of the effect.

XP Cost: 1,000 XP.

SUMMON BABAU DEMON

Conjuration (Summoning) [Chaotic, Evil]

Level: Cleric 6

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned babau demon

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons a babau demon from the Infinite Layers of the Abyss.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

SUMMON BEARDED DEVIL

Conjuration (Summoning) [Evil, Lawful]

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned bearded devil

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons a bearded devil from the Nine Hells of Baator.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

SUMMON BRALANI ELADRIN

Conjuration (Summoning) [Chaotic, Good]

Level: Cleric 5

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned bralani eladrin

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons a bralani eladrin from the Olympian Glades of Arborea.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

SUMMON ELEMENTITE SWARM

Conjuration (Summoning) [see text]

Level: Druid 4

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned elementite swarm

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons an elementite swarm (air, earth, fire, or water, at the caster's option) from the appropriate Elemental Plane.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

When you use a summoning spell to summon an air, earth, fire, or water creature, it is a spell of that type.

SUMMON ELYSIAN THRUSH

Conjuration (Summoning) [Good]

Level: Bard 2, cleric 2

Components: V, S, DF

Casting Time: 10 minutes

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One called Elysian thrush

Duration: 8 hours

Saving Throw: None

Spell Resistance: No

This spell summons an Elysian thrush (see page 118), a birdlike creature native to the Blessed Fields of Elysium.

The creature has no significant combat utility, but its song accelerates the natural healing rate of living creatures.

Those within 30 feet who listen to the thrush's song while resting recover at twice the normal natural healing rate.

SUMMON GREATER ELEMENTAL

Conjuration (Summoning) [see text]

Level: Druid 6

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned elemental

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons a greater elemental of your choice (air, earth, fire, or water) from the appropriate Elemental Plane.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

When you use a summoning spell to summon an air, earth, fire, or water creature, it is a spell of that type.

SUMMON HOUND ARCHON

Conjuration (Summoning) [Good, Lawful]

Level: Cleric 4

Components: V, S, DF

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned hound archon

Duration: Concentration (maximum of 1 round/level) plus 1 round

Saving Throw: None

Spell Resistance: No

This spell summons a hound archon from the Seven Mounting Heavens of Celestia.

It appears where you designate and acts immediately, on your turn.

It understands your speech (regardless of your language), and it follows your commands to the best of its ability.

You must concentrate on the spell's effect, but commanding the creature is a free action.

A summoned creature cannot summon or otherwise conjure another creature, nor can it use any teleportation or planar travel abilities.

UNHOLY STORM

Conjuration (Creation) [Evil, Water]

Level: Blackguard 4, cleric 3

Components: V, S, M/DF

Casting Time: 1 standard action

Area: 20-ft. radius centered on you

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: No

A driving rain falls around you.

It falls in a fixed area once created.

The storm reduces hearing and visibility, resulting in a -4 penalty on Listen, Spot, and Search checks.

It also applies a -4 penalty on all ranged attacks made into, out of, or through the storm.

Finally, it automatically extinguishes any unprotected flames and has a 50% chance to extinguish protected flames (such as those of lanterns).

The rain damages good creatures, dealing 2d6 points of damage per round (good outsiders take double damage).

In addition, each round, a blast of fire strikes a randomly selected good outsider within the spell's area, dealing 5d6 points of fire damage.

After the spell's duration expires, the water disappears.

Material Component: A flask of unholy water.

WALL OF GEARS

Conjuration (Creation)

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Wall of moving gears whose area fills one 5-ft. square/2 levels; see text

Duration: 1 min./level

Saving Throw: See text

Spell Resistance: No

This spell taps into the planar energy of Mechanus to create a 6-inch-thick wall of moving iron cogs, wheels, gears, pistons, and assorted mechanical parts.

Each 5-foot square of the wall's surface has hardness 10 and 180 hit points.

Both sides of the wall have hundreds of moving parts that flail out, dealing 1d6 points of bludgeoning damage per two caster levels (maximum 15d6) to all creatures within 10 feet.

A successful Reflex save halves this damage.

Material Component: A small gear.

DIVINATION

ANALYZE PORTAL

Divination

Level: Bard 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 minute

Range: 60 ft.

Area: Cone-shaped emanation from you to the extreme of the range

Duration: Concentration, up to 1 round/level (D)

Saving Throw: See text

Spell Resistance: No

You can tell whether an area contains a portal.

If you study an area for 1 round, you know the sizes and locations of any portals in the area.

Once you find a portal, you can study it.

(If you find more than one portal, you can study only one at a time).

Each round you study a portal, you can discover one property of the portal, in this order:

- Any key or command word needed to activate the portal.
- Any special circumstances governing the portal's use (such as specific times when it can be activated).
- Whether the portal is one-way or two-way.
- A glimpse of the area where the portal leads.

You can look at the area where the portal leads for 1 round; the range of the caster's vision is the spell's range.

Analyze portal does not allow other divination spells or spell-like abilities to extend through the portal.

For example, you cannot also use *detect magic* or *detect evil* to study the area where the portal leads while viewing the area with *analyze portal*.

For each property, you make a caster level check (1d20 + caster level) against DC 17.

If fail, you can try again in the next round.

Analyze portal has only a limited ability to reveal unusual properties, as follows:

• **Random Portals:** The spell reveals only that the portal is random and whether it can be activated now. It does not reveal when the portal starts or stops functioning.

• **Variable Portals:** The spell reveals only that the portal is variable.

If the caster studies the portal's destination, the spell reveals only the destination to which the portal is currently set.

• **Creature-Only Portals:** The spell reveals this property.

If the caster studies the portal's destination, the spell reveals where the portal sends creatures.

If it is the kind of portal that sends creatures to one place and their equipment to another place, the spell does not reveal where the equipment goes.

- **Malfunctioning Portals:** The spell reveals only that the portal is malfunctioning, not what sort of malfunction the portal produces.

Material Components: A crystal lens and a small mirror.

ANALYZE TOUCHSTONE

Divination

Level: Bard 3, cleric 3, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 minute

Range: 60 ft.

Area: A quarter circle emanating from you to the extreme of the range

Duration: Concentration, up to 1 round/level (D)

Saving Throw: See text

Spell Resistance: No You can tell whether an area contains a planar touchstone.

If you study an area for 1 round, you know the location of any touchstone in the area.

Once you find a touchstone, you can study it.

(If you find more than one touchstone—an extremely rare occurrence—you can study only one at a time).

Each round you study a touchstone, you can discover one property of the touchstone, in this order:

- The base ability gained by someone who takes the Planar Touchstone feat related to the site.
- Any conditions that must be met in order to recharge the higher-order ability granted by the site.
- The higher-order ability gained by someone who visits the touchstone and fulfills the recharge condition.
- The number of uses of the higher-order ability that the character gains from visiting the site and fulfilling the recharge condition.

For each of these properties, you make a caster level check (1d20 + caster level) against DC 15.

If you fail, you can try again in the next round.

Material Components: A crystal lens, a drop of ink, and a piece of paper or parchment.

LAY OF THE LAND

Divination

Level: Bard 4, druid 4, ranger 1

Components: V, S, F

Casting Time: 3 rounds

Range: Personal

Target: You

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You instantly gain an overview of the area around you.

Lay of the land gives basic information relevant to major landmarks and well-known places.

It indicates the direction and distance to each from the current location.

The geographic details are inversely proportionate to the distance you're trying to study from your location.

You have a good understanding of the terrain up to 100 miles away, you know general details of large or notable locations or land features up to 500 miles away, and you

know only the direction and distance to major features farther away.

Unlike *find the path*, this spell does not give information on traps, passwords, or impediments to a journey.

LOCATE TOUCHSTONE

Divination

Level: Bard 1, cleric 2, druid 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: See text

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You sense the direction of the nearest planar touchstone and gain a vague sense of its power.

If you have visited the nearest planar touchstone and wish to exclude it from this divination, you instead gain knowledge of the next closest planar touchstone.

This spell allows you to locate planar touchstones located only on the plane on which it is cast.

Special: You must have the Planar Touchstone feat in order to cast this spell.

RARY'S INTERPLANAR TELEPATHIC BOND

Divination

Level: Sorcerer/wizard 6

This spell functions like *Rary's telepathic bond*, except that the communication functions both on the same plane and across planes.

ENCHANTMENT

BEASTLAND FEROCITY

Enchantment (Compulsion) [Mind-Affecting]

Level: Bard 1, druid 1

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You unleash the savage will to survive inherent in every creature.

The subject becomes such a tenacious combatant that it continues to fight without penalty even while disabled or dying.

If the creature is reduced to -10 hit points, it dies normally.

MECHANUS MIND

Enchantment (Compulsion) [Lawful, Mind-Affecting]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

Like entities that inhabit the plane of Mechanus, the subject of *Mechanus mind* temporarily becomes a being of focused order.

The subject gains a +4 bonus on Will saving throws to resist mind-affecting spells.

While in the grip of *Mechanus mind*, the subject also becomes more analytical and less emotional.

The subject gains a +2 bonus on all Intelligence-based checks, but takes a –2 penalty on Charisma-based checks.

EVOCATION

LIGHT OF LUNIA

Evocation [Good, Light]

Level: Cleric 1, sorcerer/wizard 1

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: You and creature(s) touched with ray (up to 2); see text

Duration: 10 min./level (D) or until used up; see text

Saving Throw: None

Spell Resistance: Yes

You begin to glow with the light of fabled Lunia, the first layer of the Seven Mounting Heavens of Celestia.

Silvery radiance emanates from you in a 30-foot radius, and dim light extends for an additional 30 feet.

Beginning one turn after you cast this spell, you can choose to expend some or all of the *light of Lunia* as a ray of light.

You can make a single ranged touch attack that deals 1d6 points of damage with a range of 30 feet.

This dims your silvery radiance to half (15-foot light, with dim light for an additional 15 feet).

You can choose to fire one additional ray with the same characteristics either on the same round (if you can make multiple attacks in a round) or on a subsequent round.

Firing the second ray quenches your radiance, and the spell ends.

LIGHT OF MERCURIA

Evocation [Good, Light]

Level: Cleric 2, sorcerer/wizard 2

Components: V, S

As *light of Lunia*, except that you glow with the golden light of Mercuria, the second layer of the Seven Mounting Heavens of Celestia.

Your light rays deal 1d6 points of damage, or 2d6 points of damage against undead and evil outsiders.

LIGHT OF VENYA

Evocation [Good, Light]

Level: Cleric 3, sorcerer/wizard 3

Components: V, S

As *light of Lunia*, except that you glow with the pearly light of Venya, the third layer of the Seven Mounting Heavens of Celestia.

Your light rays deal 1d6 points of damage, or 3d6 points of damage against undead and evil outsiders.

Alternatively, you can choose for the ray to heal 3d6 points of damage to a living, nonevil creature.

ILLUSION

CLOAK POOL

Illusion (Glamer)

Level: Bard 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One color pool

Duration: One hour/level (D)

Saving Throw: Will negates (harmless, object)

Spell Resistance: No

This spell causes a color pool on the Astral Plane—an irregular patch of color containing a portal to another plane—to seemingly cease to exist.

In truth, it is only hidden from view.

The use of this spell does not hide the area around the pool; it masks only the fact that a pool is present.

See *invisibility* or *true seeing* reveals the presence of the pool, as does *analyze portal*.

DISCOLOR POOL

Illusion (Glamer)

Level: Bard 2, sorcerer/wizard 2

Components: V, S, M

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One color pool

Duration: One hour/level (D)

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: No (harmless)

This spell causes a color pool on the Astral Plane—an irregular patch of color containing a portal to another plane—to appear to be a different color, and thus, to lead to another plane.

True seeing or *analyze portal* reveals the true nature of the pool.

Material Component: Four drops of colored ink.

NECROMANCY

BARGHEST'S FEAST

Necromancy [Evil]

Level: Cleric 6, sorcerer/wizard 7

Components: V, S, M

Casting Time: 1 round

Range: Touch

Target: Corpse touched

Duration: Instantaneous

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

Black flames flicker over a corpse, utterly consuming it.

You destroy the remains of a dead person or creature, preventing any form of raising or resurrection that requires part of the corpse.

There is a 50% chance that a *wish*, *miracle*, or *true resurrection* spell cannot restore to life a victim consumed by a *barghest's feast* spell.

Check once for each destroyed creature.

If the d% roll fails, the creature cannot be brought back to life by mortal magic.

Material Component: A diamond worth 5,000 gp.

BODAK'S GLARE

Necromancy [Death, Evil]

Level: Cleric 8

Components: V, S, DF

Casting Time: 1 round

Range: 30 ft.

Target: One living creature

Duration: Instantaneous

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell allows you to channel the deadly gaze of the bodak.

Upon completion of the spell, you may target a creature within range that can see you.

That creature dies instantly unless it succeeds on a Fortitude save.

The target need not meet your gaze.

If you slay a humanoid creature with this attack, it transforms into a bodak 24 hours later unless it has been resurrected in the meantime.

The bodak is not under your command, but can be controlled as normal with a rebuke undead check.

DEATH THROES

Necromancy [Force]

Level: Cleric 5, sorcerer/wizard 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 hour/level or until you are killed

Saving Throw: None

Spell Resistance: No

Some extraplanar creatures, such as a balor or an eragon, expend the last of their life energy in a burst of power.

You likewise attune your body's life force so that if you are killed, your body is instantaneously destroyed in an explosion of energy that deals 1d8 points of force damage per caster level to everyone in a 30-foot-radius burst.

This explosion entirely destroys your body, preventing any form of raising or resurrection that requires part of the corpse.

A *wish*, *miracle*, or *true resurrection* spell can restore life.

EVIL GLARE

Necromancy [Evil, Fear, Mind-Affecting]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S, DF

Casting Time: 1 standard action

Range: 30 feet

Target: Living creature

Duration: 1 round/level and 1d8 rounds; see text

Saving Throw: Will negates

Spell Resistance: Yes

This spell, inspired by the malevolent gaze of the shadowy nightwalkers, causes your eyes to glow with dark energy.

Immediately upon completion of the spell, you may target a living creature within range with your glare; that creature becomes paralyzed with fear for 1d8 rounds.

You must be able to see the creature, and it must be able to see you (though it need not meet your gaze).

Once per round after that for the duration of the spell, you can target another creature with your glare as a move action.

You can't target the same creature twice with a single casting of the spell, regardless of the success of its saves.

MIASMA OF ENTROPY

Necromancy

Level: Druid 6, sorcerer/wizard 7

Components: V, S

Casting Time: 1 standard action

Range: 30 ft.

Area: Cone-shaped burst, one solid object, or one organic construct

Duration: Instantaneous

Saving Throw: Will negates (object) or Fortitude half; see text

Spell Resistance: Yes (object)

Miasma of entropy causes accelerated decay in all wood, leather, and other natural materials in the spell's area.

It destroys nonmagical objects of wood, leather, paper, and other formerly living organic matter.

All such objects within the area rot into slimy, pulpy masses.

Objects weighing more than 1 pound per caster level are not affected, but all other objects of the appropriate composition are ruined.

Alternatively, you can target *miasma of entropy* against a single solid object of nonliving organic matter that weighs up to 10 pounds per caster level.

When targeted against an animated object made of an organic material, *miasma of entropy* deals 1d6 points of damage per caster level (maximum 20d6), with a Fortitude save for half damage.

NEGATIVE ENERGY AURA

Necromancy

Level: Cleric 4

Components: V, S

Casting Time: 1 standard action

Range: Personal

Area: 10-ft.-radius emanation centered on you

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

An aura of black, crackling negative energy surrounds you. Each round on your turn, every living creature within 10 feet of you loses 2 hit points.

Undead creatures instead gain 2 hit points per round (though they can't exceed their full normal hit points from this effect).

Characters with immunity to negative energy effects are not affected by this aura.

The *negative energy aura* does not affect you.

OPALESCENT GLARE

Necromancy [Death, Good]

Level: Cleric 5, sorcerer/wizard 5

Components: V, S, DF

Casting Time: 1 standard action

Range: 60 feet

Target: 1 living creature

Duration: Instantaneous

Saving Throw: Will partial; see text

Spell Resistance: Yes

Inspired by the deadly gaze of the noble ghaele eladrin, this spell causes your eyes to glow with a pearly light.

If the target is evil and has 5 or fewer Hit Dice, it dies unless it succeeds on a Will save.

Even if the save succeeds, the creature is affected as though by a *fear* spell for 2d10 rounds.

Nonevil creatures and evil creatures with more than 5 Hit Dice are not slain by *opalescent glare*, and they suffer the *fear* effect only if they fail the Will save.

TRANSMUTATION

ANARCHIC WATER

Transmutation [Chaotic]

Level: Cleric 1

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Target: Flask of water touched

Duration: Instantaneous

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

This transmutation imbues a flask (1 pint) of water with the energy of chaos, turning it into anarchic water (see page 75).

Material Component: 5 pounds of powdered iron and silver (worth 25 gp).

ATTUNE FORM

Transmutation

Level: Cleric 3, druid 3, sorcerer/wizard 4

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Target: One or more living creatures touched

Duration: 2 hours/level (see text)

Saving Throw: None

Spell Resistance: No

This spell allows you to attune the affected creatures to the plane you are currently on, negating harmful and negative natural effects of that plane.

Affected creatures gain the protections described in the *avoid planar effects* spell (see below).

Material Component: A bit of stone or earth from your home plane.

AXIOMATIC WATER

Transmutation [Lawful]

Level: Cleric 1, paladin 1

Components: V, S, M

Casting Time: 1 minute

Range: Touch

Target: Flask of water touched

Duration: Instantaneous

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

This transmutation imbues a flask (1 pint) of water with the order of law, turning it into axiomatic water (see page 76).

Material Component: 5 pounds of powdered iron and silver (worth 25 gp).

BABAU SLIME

Transmutation

Level: Druid 3, sorcerer/wizard 3

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Fortitude negates (harmless) and Reflex negates; see text

Spell Resistance: Yes (harmless)

This demon-inspired transmutation causes the subject to secrete a slimy red layer of jelly that coats her skin, armor, and equipment.

While the slime does not harm the subject or her equipment, any other weapon that touches it takes 1d8 points of acid damage from the corrosive goo, and the weapon's hardness does not reduce this damage.

A magic weapon may attempt a Reflex save to avoid taking this damage.

A creature who strikes a slime-protected subject with an unarmed attack, unarmed strike, touch spell, or natural weapon takes this damage as well but can negate the damage with a Reflex save.

Material Component: A drop of babau slime.

BALOR NIMBUS

Transmutation

Level: Cleric 4, sorcerer/wizard 4

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

Like the legendary balor, your body bursts into lurid flames.

The flames do not harm you or any equipment you carry or wear.

However, each round, the flames deal 6d6 points of fire damage to any creature grappling you (or any creature you grapple) on your turn.

Material Component: A pinch of soot.

BELKER CLAWS

Transmutation [Air]

Level: Sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature or creatures touched (up to one/level)

Duration: 1 round per three levels

Saving Throw: Fortitude half

Spell Resistance: Yes

This spell transforms one of your hands into a smoky claw like that of a belker.

With a successful touch attack, you fill a living target's lungs with smoke.

The smoke inside the victim solidifies into miniature claws and begins to rip at the surrounding organs, dealing 3d4 points of damage.

A successful Fortitude save halves the damage dealt.

For every three caster levels, the smoke lasts for another round (to a maximum of 4 rounds at 12th level), dealing another 3d4 points of damage.

You can use this melee touch attack once per round for every three caster levels, up to a maximum of four times at 12th level.

Material Component: A small vial of smoke.

CORPOREAL INSTABILITY

Transmutation

Level: Sorcerer/wizard 4

Components: V, S

Casting Time: 1 action

Range: Touch

Target: Living creature touched

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

Your touch transforms a living creature into a spongy, amorphous mass, its shape melting and writhing uncontrollably.

An affected creature is unable to hold or use any item.

Clothing, armor, rings, and helmets become useless.

Large items worn or carried—armor, backpacks, and even shirts—hamper more than help, reducing the victim's Dexterity score by 4.

Soft or misshapen feet and legs reduce speed to 10 feet or one-quarter normal, whichever is less.

The victim becomes blind and cannot cast spells or use magic items, and searing pain renders it incapable of attacking.

While in this form, the creature has immunity to extra damage from critical hits and sneak attacks due to its amorphous nature.

Each round the victim spends in an amorphous state causes 1 point of Wisdom drain from mental shock.

If the victim's Wisdom score is reduced to 0, it falls unconscious.

A conscious victim can regain its own shape by taking a standard action to attempt a new Fortitude save.

Success ends the spell effect.

DEMON DIRGE

Transmutation

Level: Cleric 4, sorcerer/wizard 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Living creature

Duration: Instantaneous or 1d4 rounds; see text

Saving Throw: Fortitude negates or Fortitude partial; see text

Spell Resistance: Yes and no; see text

The baatezu's answer to Blood War-related demonic magic targeting their race, *demon dirge* deals 3d6 points of damage to any creature that has both the chaotic and evil subtypes (such as a howler or a demon).

A successful Fortitude save negates this damage.

If the target creature also possesses the tanar'ri subtype, the spell has a much more powerful effect.

The target's blood seethes and churns, stunning it for 1d4 rounds and dealing 3d6 points of damage in each of those rounds.

A successful Fortitude save negates the stun effect and reduces the duration to 1 round.

Such creatures' spell resistance does not apply against this effect.

DEVIL BLIGHT

Transmutation

Level: Cleric 3, sorcerer/wizard 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Living creature

Duration: Instantaneous or 1d6 rounds; see text

Saving Throw: None or Will partial; see text

Spell Resistance: Yes and no; see text

This spell was developed by demonic spellcasters ages ago for use against their ancient foes, the devils of Baator.

It deals 2d6 points of damage to creatures that have both the lawful and evil subtypes (such as a barghest or a devil).

No saving throw is allowed against this damage.

If the target creature also possesses the baatezu subtype, the spell has a much more powerful effect.

The target's mind reels, confusing it for 1d6 rounds and dealing 2d6 points of damage in each of those rounds.

A successful Will save negates the confusion effect and reduces the duration to 1 round.

Such creatures' spell resistance does not apply against this effect.

FALSE GRAVITY

Transmutation

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject of this spell can travel on any solid surface as though that surface possessed its own gravity.

For example, the subject could walk or even run up a wall as though the wall were a perfectly level floor.

The subject can switch "down" as often as he likes during the spell's duration, though only once per round, as a free action.

Unattended objects fall, as normal. The subject of *false gravity* can fly by choosing a solid surface and letting himself fall through the air toward it. A character “flying” in this fashion moves at 30 feet per round and can make one turn, in any direction, once per round, by redefining his personal gravity. A character falling in this fashion loses all “downward” momentum when he changes his gravity.
Material Component: A pair of magnets.

FOCUS TOUCHSTONE ENERGY

Transmutation

Level: Cleric 4, druid 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes (harmless)

You can convert an unused usage of your higher-order planar touchstone ability into temporary hit points (see the Planar Touchstone feat, page 41).

By touching a living creature and expending one of your higher-order ability uses, you grant the target 3d6 temporary hit points.

HAMATULA BARBS

Transmutation

Level: Cleric 3, sorcerer/wizard 3

Components: V, S, M/DF

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

This barbed-devil-inspired transmutation causes the subject to grow a covering of sharp barbs from its skin, equipment, or clothing, whichever is appropriate when the spell is cast. Any creature striking the subject with a handheld weapon or a natural weapon takes 1d8 points of slashing and piercing damage from the subject’s barbs.

This damage does not apply to attackers using reach weapons, such as longspears.

The subject itself is not harmed by its own barbs.

Material Component: A thorn.

INFERNAL WOUND

Transmutation [Evil]

Level: Cleric 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

The *infernal wound* spell makes a weapon inflict persistent wounds similar to those made by bearded devils and horned devils.

A creature injured by a weapon with *infernal wound* cast upon it loses 2 additional hit points each round for the remaining duration of the spell.

The continuing hit point loss can be stopped by a Heal check (DC 10 + spell level + caster’s ability modifier), a *cure* spell, or a *heal* spell.

PERINARCH

Transmutation

Level: Druid 4, sorcerer/wizard 4

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Duration: 1 round/level; see text

Saving Throw: None (object) and Reflex negates; see text

Spell Resistance: No

Unless controlled, the Ever-Changing Chaos of Limbo is just what the plane’s name implies: a roiling soup of energy and elements.

Natives learn to control it or to inhabit areas that have enjoyed some measure of control for a long period, but visitors to areas of “raw” limbo must make a DC 16 Wisdom check to gain control over the dangerous roil.

The *perinarch* spell gives the caster automatic control of a radius of raw Limbo (an area not already stabilized or within some other creature’s control) in close range.

Control allows the perinarch (the name sometimes given to those who can cast the *perinarch* spell) to reshape the raw limbo as she desires, adding or subtracting one of the four basic elements once per round as a standard action.

A favorite among travelers from the Material Plane is a chunk of earth surrounded by a small atmosphere of air.

Casting this spell overlaps with the control already (potentially) established by the perinarch with a Wisdom check.

Allies of the caster may give their control over to the *perinarch* caster contiguous with the spell being cast, if they so choose.

Control cannot be wrested away from the caster while the spell is in effect (which is one of the best reasons to cast this spell, even if you have a high Wisdom score).

If the perinarch moves more than 100 feet away from the area that she controlled, the order she imposed fades away.

A perinarch is unable to achieve any works of complexity within an area she controls.

But she can mix two or three elements in a crude fashion; a few examples are provided below.

The perinarch may attempt to seize control of a new area that already contains foes; however, foes can make a Reflex save to get out of the area.

Thick Barrier: A perinarch can “thicken” empty air with dust and rock, creating a zone around herself and her allies that outside creatures must hack or force a way through.

Their speed drops to 5 feet, or 10 feet for Large or larger creatures.

Fiery Barrier: A perinarch can create a thick field of flame that deals 3d10 points of fire damage to any creature attempting to pass through it.

The field also deals 3d10 points of fire damage for each round a creature lingers within it.

Complete Barrier. A perinarch can create a complete barrier of solid stone encircling herself and her allies, preventing access by any other than the most accomplished tunnelers. On the other hand, a perinarch can attempt to trap foes within their own bubble of solid stone.

PERINARCH, PLANAR

Transmutation

Level: Druid 9, sorcerer/wizard 9

As *perinarch*, except that the caster can cast this spell on any highly morphic or divinely morphic plane (most of the Outer Planes are divinely morphic).

However, mortals who change the fabric of a god's domain should think twice, depending on the DM's interpretation of a given god's territorial nature.

SPELL VULNERABILITY

Transmutation

Level: Cleric 4, sorcerer/wizard 3

Components: V, S

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 min./level

Saving Throw: Fortitude negates; see text

Spell Resistance: No

This spell reduces the subject's spell resistance by 1 per caster level (maximum reduction 15).

This reduction can't lower a subject's spell resistance below 0.

The target of the spell takes a penalty on its saving throw equal to your caster level.

TOUCHSTONE LIGHTNING

Transmutation [Electricity]

Level: Druid 4, sorcerer/wizard 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One or more rays of electricity

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You can convert an unused usage of your higher-order planar touchstone ability into a ray of electricity (see the Planar Touchstone feat, page 41).

This ray exhausts one use of your higher-order ability and deals 5d6 points of electricity damage to the target with a successful ranged touch attack.

For every five levels gained above 7th, you may fire one additional ray of electricity (to a maximum of three rays at 17th level).

Each ray exhausts one of your higher-order ability uses.

PLAYER'S GUIDE TO FAERÛN (3.5)

ABJURATION

ELMINSTER'S EFFULGENT EPURATION

Abjuration

Level: Sorcerer/wizard 9

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One magic-absorbing sphere per caster level

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

When you cast this spell, you bring forth one floating, silvery sphere per caster level, each about the size of your head.

These spheres hover around you to provide protection from magical effects.

As a standard action, you may shift the spell's effect (and thus all the spheres) to any other creature within range.

Each of these spheres can absorb and completely negate any spell or spell-like ability, regardless of level, that directly targets the subject.

The spheres do not automatically absorb all spells; the subject may choose whether or not to let them absorb any given spell cast upon it.

(This option allows the creature to benefit from helpful spells).

Area spells and spells that do not actually have a target (such as *Bigby's interposing hand*) cannot be absorbed.

Once a sphere has absorbed a spell or spell-like ability, it simply fades away.

Only spells and spell-like abilities of deific power can overcome the protection provided by *Elminster's effulgent epuration*.

FORCEWARD

Abjuration

Level: Initiate of Helm 3, paladin 3

Components: V, S, DF

Casting Time: 1 full round

Range: 10 ft.

Targets: You and any allies within a 10-ft.-radius emanation centered on you

Duration: 1 min./level

Saving Throw: No; see text

Spell Resistance: Yes

You create an unmoving, transparent sphere of force centered on you.

The interior of the sphere and everything within 5 feet of its edge is illuminated with light equivalent to that of a candle.

You and your allies may enter the sphere at will.

Any other creature that tries to enter must make a Will saving throw to succeed.

Any creature may leave the sphere freely, but a creature that has left must make a successful Will save to enter again, even if it is you or one of your allies.

Creatures within the area of the sphere at the time of casting are not forced out.

While in the area of the *forceward*, you and your allies each gain a +2 sacred bonus on saving throws against effects created by evil creatures.

Creatures within the area that are not your allies gain no benefit.

The *forceward* does not prevent spells or objects from entering the area, so it is possible for two creatures on opposite sides of the sphere's edge to fight without penalties.

A creature using unarmed attacks or natural weapons in this manner, however, must still make a Will save each round, or its attacks cannot pass the *forceward*'s boundary.

GLORY OF THE MARTYR

Abjuration [Good]

Level: Initiate of Ilmater 4

Components: V, S, F, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: One creature/level

Duration: 1 hour/level (D)

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

Like *shield other*, this spell wards the subjects, creating a mystic connection between them and you that transfers some of their wounds to you.

Each subject gains a +1 deflection bonus to AC and a +1 resistance bonus on all saving throws.

In addition, each subject takes only one-half the normal hit point damage from any attack, and you take the remainder. Forms of harm that do not involve hit points, such as *charm* effects, ability damage, level draining, and *disintegration*, are not affected.

If a subject's hit points are reduced because of a lowered Constitution score, that reduction is not split with you because it is not hit point damage.

When the spell ends, any subsequent damage is no longer divided between you and the subjects, but the damage you took for the subjects is not reassigned to them.

If you die while *glory of the martyr* is in effect, the spell ends in a burst of positive energy that restores 1d8 hit points to each subject.

If a subject dies or moves out of range of the spell, that subject's connection to you is severed, but the spell remains in force with respect to other subjects.

If your connection with all subjects is severed, the spell ends.

Focus: A platinum ring worth at least 50 gp worn by you and each subject of the spell.

HOLY STAR

Abjuration

Level: Initiate of Mystra 7

Components: V, S

Casting Time: 1 standard action

Range: Personal

Effect: Protective star of energy

Duration: 1 round/level (D)

You create a glowing mote of energy that stays near your shoulder, providing light equal to that of a candle.

This star has the following three functions, and you can designate which function to activate as a free action on your turn.

Spell Turning: The *holy star* can turn a total of four to seven (1d4+3) spell levels as the *spell turning* spell.

Any turning potential depleted through this use remains so for the duration of the spell; the *holy star* does not return to full capacity every time you choose this function.

If its entire spell turning capacity is expended, this function no longer works, but the others do.

Protection: The *holy star* gives you a +10 circumstance bonus to AC without affecting your actions.

Fire Bolt: The *holy star* lashes out with a beam of energy as a ranged touch attack against a creature up to 90 feet away.

This attack uses your attack bonus and deals fire damage equal to 1d6 points per two caster levels (maximum 10d6).

MOONWEB

Abjuration

Level: Initiate of Selûne 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Effect: 10-ft.-high barrier of force in a 5-ft.-diameter circle or 10-ft.-long line

Duration: 10 min./level

Saving Throw: None

Spell Resistance: Yes

You create an immobile barrier of force that glows as though with moonlight.

You can form the barrier either as a circular shield 5 feet in diameter and 10 feet high around a willing creature, or as a flat, 10-foot-square plane placed either horizontally (across a doorway, for example) or vertically (covering a pit or trap door), as long as it is anchored along at least one edge.

The barrier has an inside and an outside.

From the inside, it is transparent and passable; any creature can move through it.

From the outside, it is opaque and virtually impassable—no creature or attack can pass through from this direction.

Creatures inside the *moonweb* have cover and total concealment against attacks that originate on the outside.

MYSTRA'S MIASMA

Abjuration

Level: Sorcerer/wizard 9

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 5 ft./level)

Area: 30-ft.-radius emanation, +5 ft./level

Duration: 1 round/level

Saving Throw: Will partial; see text

Spell Resistance: No

This potent spell conjures forth a thick, billowing cloud of mist that functions as a *solid fog* spell.

In addition, the mist creates a "sinkhole" in the Weave, greatly reducing the power of spellcasters in that spot.

Each character within the area of *Mystra's miasma* takes a -4 penalty on caster level checks when attempting to cast spells.

A successful Will save made upon first entering the miasma negates this effect.

Creatures who access the Shadow Weave to cast their spells are immune to the caster level check penalty unless you also call upon the Shadow Weave.

In that case, the spell is called *Shar's miasma* and Weave users are immune to the caster level check penalty.

Material Component: A small piece of quilted cloth, which must be soaked in water while the spell is cast.

ROSEMANTLE

Abjuration

Level: Initiate of Lathander 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 round/level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You cause the target to glow with a soft, faint, rosy radiance equal to candlelight.

This glow grants the subject a sacred bonus equal to $+1$ per caster level (maximum $+10$) on saving throws against effects that work by causing pain (such as *Nybor's gentle reminder*), effects that would cause the target to become sickened or nauseated, and fear effects.

RUBY RAY OF REVERSAL

Abjuration

Level: Sorcerer/wizard 7

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One natural or magical hazard; see text

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

From your fingertips springs a thin line of bright red light that can negate any of several magical or mundane hazards.

Each version of this spell can target one of the hazards described below and "correct" it in the manner described.

Unless specifically stated otherwise, this spell affects magical and mundane hazards of the indicated type equally.

For example, a *ruby ray of reversal* can eliminate the webs of a monstrous spider or the effect of a *web* spell.

- Any trap targeted by the ray is sprung.

This version of the spell may have adverse effects on creatures standing within a trap's area.

You must be aware of a trap to cast *ruby ray of reversal* on it.

- The spell unties knots and causes chains, manacles, and similar restraining devices to fall away.

Entangle and similar magical effects are dispelled.

Doors (or chests, drawers, cabinets, and so on) that are locked, barred, or under the effect of an *arcane lock* spell are opened.

- A hole with a radius of up to 1 foot is created in a *wall of force*, *forcecage*, or similar spell or effect.

This function of the spell does not destroy the targeted effect, but creatures trapped by it may be able to wriggle free.

- A creature that has been *polymorphed*, turned to stone, or otherwise transformed from its natural state is returned to its natural form.

- A *magic jar* spell is dispelled if a *ruby ray of reversal* targets the crystal holding the caster's soul.

- Webs, slime, grease, and other substances that would hamper movement are destroyed in an area with a radius of up to 20 feet.

(Treat this effect as a spread, as described on page 175 of the *Player's Handbook*).

Material Component: A ruby worth at least 1,000 gp.

SHIELD OF LATHANDER

Abjuration

Level: Initiate of Lathander 5

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Living creature touched

Duration: 1 round

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The touched creature gains damage reduction 15/– for 1 round.

SHIELD OF LATHANDER, GREATER

Abjuration

Level: Initiate of Lathander 7

This spell functions like *shield of Lathander*, except that the target gains damage reduction 20/–, immunity to negative energy and energy drain, and resistance 10 to acid, cold, electricity, fire, and sonic energy.

SPELL SHIELD

Abjuration

Level: Initiate of Mystra 2

Components: V, S, DF

Casting Time: 1 standard action; see text

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

The subject gains a $+3$ resistance bonus on saving throws against spells and spell-like abilities, but not against supernatural or extraordinary abilities.

At 11th level, you can cast this spell on yourself as a free action.

SPELLMANTLE

Abjuration

Level: Initiate of Mystra 6

Components: V, S

Casting Time: 1 full round

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

You create a magical aura around the subject that protects it against certain spells.

Upon casting, you must designate one spell of 4th level or lower per four caster levels you possess.

These choices cannot be spells delivered by touch attacks.

When the subject of this spell is the target of or within the area of one of the designated spells, the *spellmantle* absorbs the incoming spell's energy completely.

The target can then direct this energy to one of the following two purposes.

Healing: The subject immediately receives a *cure wounds* spell of the same level as the spell that was absorbed.

The *cure* spell functions as if you had cast it upon the target.

If the subject is unconscious, the incoming spell is automatically converted to a *cure* spell.

Receive Spell: The incoming spell's energy can immediately trigger another spell upon the target.

To allow the subject this option, you must designate one spell of 4th level or lower that you have prepared at the time of casting.

This spell must be one that affects the target's person.

Designating one of your spells for this purpose does not cause you to lose the prepared spell, either now or when the effect is triggered.

If the level of the incoming spell is lower than that of your designated spell, the subject cannot activate this effect.

Otherwise, if the subject chooses this option, your designated spell functions as if you had cast it.

The duration of this triggered spell can outlast that of the *spellmantle* itself.

For example, you could designate *lightning bolt* as one of the spells the *spellmantle* absorbs and choose *magic circle against evil* to be the spell the target receives.

In that case, every time the subject is in the area of a *lightning bolt* (or any other spell of 3rd level or higher that you designate), it can choose to be immediately protected by *magic circle against evil*.

The *spellmantle* can absorb from three to nine spell levels (1d4 + 1 per four caster levels) of incoming spells.

If the *spellmantle* lacks sufficient capacity to absorb a spell, the absorption does not occur.

Once it has absorbed its capacity, it dissipates.

SURELIFE

Abjuration

Level: Repose 8

Components: V, S, M

Casting Time: 1 round

Range: Personal

Target: You

Duration: 1 min./level

This spell protects you against some condition—such as being immersed in boiling oil or being buried under an avalanche—that would ordinarily cause certain death.

You can protect yourself only against a natural occurrence or a nonmagical condition, not against a spell or the direct attack of a creature (such as the breath of a dragon or the swords of a group of bandits).

At the time of casting, you must specify the condition against which you wish to protect yourself.

Should you be subjected to that condition during the duration of the spell, you feel no discomfort and take no damage from the condition, though the spell does not protect any items carried on your person.

If you are still subject to the condition at the end of the spell's duration, you suffer its full normal effects.

Material Component: An ointment of peach syrup and cinnabar.

TRANSCRIBE SYMBOL

Abjuration

Level: Rune 8, sorcerer/wizard 8

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: Magic symbol touched

Duration: 10 minutes or until discharged

Saving Throw: None

Spell Resistance: No

You place a protective spell upon your hand that allows you to touch an untriggered magic sigil (such as a *glyph of warding* or a *symbol of death*) without setting it off.

The touched sigil is removed from its location and held as magical potential on your hand, as though it were a touch spell.

To pick up the spell in this manner, you must make a successful caster level check (DC 20 + spell level).

Failure indicates that you have triggered the *glyph* or *symbol*.

If you successfully transfer the sigil to your hand, you can use a standard action to place it on a surface (not a creature) of the sort on which it can normally be scribed.

The transferred sigil works normally thereafter and retains all its original triggering conditions, although its current location might make its triggers difficult or impossible to achieve.

You can maintain the magic sigil on your hand as long as you concentrate.

If your concentration lapses or the spell duration expires while the sigil is thus stored as potential, it immediately triggers upon you (and only you), even if you normally would not meet its trigger conditions.

The effect has the same saving throw and spell resistance aspects as the original spell did.

The only safe way to rid yourself of the stored spell is to place it upon a suitable surface.

Focus: A piece of slate that has been scoured bare and smooth on one side.

UNDEATH'S ETERNAL FOE

Abjuration [Good]

Level: Initiate of Lathander 9

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature/5 levels

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes (harmless)

You grant one or more creatures special abilities that allow them to effectively destroy undead.

Each subject of this spell functions as if affected by *negative energy protection*, except that a +10 sacred bonus applies to its resistance roll against such attacks.

It also gains a +4 deflection bonus to AC against attacks by undead and is immune to special attacks by undead that deal ability damage or ability drain, or afflict the target with disease or poison.

The subject can make melee and ranged attacks against ethereal or incorporeal undead as if they were using *ghost touch* weapons and ignore any damage reduction an undead opponent may have.

CONJURATION

BOMBARDMENT

Conjuration (Creation)

Level: Druid 8

Components: V, S, F

Casting Time: 1 standard action

Range: Long (400 ft. + 40 ft./level)

Area: 15-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex half; see text

Spell Resistance: Yes

You cause a rain of rocks to fall from the sky, burying your opponents.

You designate the spot on which the burst is centered.

Each creature in the area that fails a Reflex saving throw takes 1d8 points of damage per caster level (maximum 20d8) and is buried under rubble (see *Avalanches*, page 90 of the *Dungeon Master's Guide*).

A successful save halves the damage and avoids burial.

Buried subjects are subject to suffocation (see page 304 of the *Dungeon Master's Guide*) until they climb out from under the rocks (a full-round action).

Focus: A quartz crystal embedded in rock.

CREATE MAGIC TATTOO

Conjuration (Creation)

Level: Sorcerer/wizard 2

Components: V, S, M, F

Casting Time: 10 minutes

Range: Touch

Target: Creature touched

Duration: 1 day

Saving Throw: None

Spell Resistance: Yes (harmless)

This spell creates a single magic tattoo.

You determine the exact type of tattoo, though the selection is limited by your caster level, as indicated below.

You must possess a modicum of artistic talent to sketch the desired tattoo—at least 1 rank of Craft (drawing), Craft (painting), Craft (calligraphy), or a similar Craft skill.

Inscribing a magic tattoo requires a successful Craft check. The DC varies with the kind of tattoo, as noted below.

If you are a 3rd- to 6th-level caster, you can inscribe a tattoo that generates any one of the following effects (Craft DC 10).

- +2 resistance bonus on one type of saving throw (Fortitude, Reflex, or Will).
- +1 luck bonus on attack rolls.

- +1 deflection bonus to AC.

At 7th to 12th caster level, you can add the following tattoos to the list that you can inscribe (Craft DC 15):

- +2 resistance bonus on all saving throws.
- +2 competence bonus on attack rolls.

When your caster level reaches 13th, you may add the following to the list of tattoos you can inscribe (Craft DC 20).

- Spell resistance equal to 10 + 1/six caster levels.
- +2 enhancement bonus to any one ability score.
- +1 level of spellcasting ability.

This effect increases the subject's effective level, but not the total number of spells.

For example, an 11th-level caster who receives this tattoo functions as a 12th-level caster for the purpose of determining level-based spell variables (such as range, area, effect, and so on), but he does not receive any extra spells.

A single creature can have only three magic tattoos at a time.

Any attempt to apply more than that automatically fails.

A successful *erase* spell removes a single magic tattoo.

A successful *dispel magic* spell can remove multiple magic tattoos if targeted on the creature bearing them (see the *dispel magic* spell description, page 223 of the *Player's Handbook*).

Material Components: Tattoo inks in appropriate colors costing at least 100 gp.

Focus: Tattoo needles.

MOLD TOUCH

Conjuration (Creation)

Level: Initiate of Nature 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Effect: Patch of brown mold

Duration: Instantaneous

Saving Throw: None

Spell Resistance: No

You cause a 5-foot-diameter patch of brown mold to appear, centered on the point you touch.

You can cause it to appear on a living target by making a successful melee touch attack against that creature.

As described on page 76 of the *Dungeon Master's Guide*, every living creature within 5 feet of the brown mold takes 3d6 points of nonlethal cold damage each round.

Fire brought within 5 feet of the patch instantly doubles its size, and cold damage instantly destroys it.

OBEDIENT AVALANCHE

Conjuration (Creation) [Cold]

Level: Cold 9

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 20-ft.-radius avalanche of snow, centered anywhere within range; see text

Duration: Instantaneous

Saving Throw: Reflex half or Reflex negates; see text

Spell Resistance: No

You summon an avalanche of snow out of a rift in midair, burying your foes and sending them to a frosty death.

The effect of an *obedient avalanche* on a creature depends on where it is in relation to the spell's point of origin, as follows.

Within 20 feet of the Point of Origin: Each creature in this area takes 1d8 points of damage per two caster levels (maximum 10d8), plus an additional 1d6 points of cold damage per two caster levels.

A creature that fails its save is also buried (as described on page 90 of the *Dungeon Master's Guide*).

All squares within 20 feet of the point of origin are covered in heavy snow (see page 94 of the *Dungeon Master's Guide*), which persists as long as ordinary snow would.

Between 20 feet and 40 feet of the Point of Origin: A creature in this area takes half as much damage from the impact of the avalanche as one nearer the point of origin takes (Reflex save negates).

On a failed save, the snow has the additional effect of a bull rush, with a +13 bonus (+5 for an effective Strength of 20 and +8 for an effective size of Huge) on the requisite check. With a successful bull rush, it pushes creatures away from the point of origin of the spell.

All squares in the ring 20 feet to 40 feet from the center point are covered in snow, which persists as long as ordinary snow would.

Terrain and Structures: The avalanche uproots small trees and other vegetation automatically, and it leaves a trail of light rubble (as described on page 91 of the *Dungeon Master's Guide*) even after the snow has melted.

A structure hit by an *obedient avalanche* takes 1d6×10 points of damage.

An *obedient avalanche* extinguishes all flames it touches.

SPECTRAL STAG

Conjuration (Creation)

Level: Initiate of Malar 2

Components: V, S, DF

Casting Time: 1 standard action

Range: 0 ft.

Effect: One quasi-real staglike creature

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: No

You conjure a quasi-real, staglike creature that you can direct to either attack a target or simply carry you on its back.

When you cast the spell, you decide whether you want the stag to appear next to you or form underneath you so that you may ride it immediately.

The stag has a speed of 60 feet and can act as soon as it appears, moving as you direct.

Controlling the stag is a free action.

It can move through the air as if it were on firm land, as a *phantom steed* spell (caster level 12th).

It can bear its rider's weight plus up to 10 pounds of additional weight per caster level.

The stag is a Large creature with an Armor Class of 18 (–1 size, +4 natural armor, +5 Dex) and 7 hit points +1 hit point per caster level.

If it loses all its hit points, the *spectral stag* disappears.

If directed to attack a creature, the stag charges its target and initiates a bull rush.

It has an effective Strength of 18 for this purpose.

The stag cannot be attacked or damaged, but if you are riding it when it attempts a bull rush, the defender may use her attack of opportunity against you instead of the stag.

If the bull rush fails, the stag (and you, if you are riding it) moves 5 feet straight back to where it was before it moved into the target's space.

If the bull rush succeeds, the stag moves the defender the maximum distance possible.

The defender must also make a Fortitude saving throw or be stunned for 1 round.

When the spell ends, the stag vanishes.

If you were riding it at the time, you land safely on the ground.

STONE WALK

Conjuration [Teleportation]

Level: Initiate of Bane 6

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Target: Stone touched

Duration: Permanent until discharged

Saving Throw: Will negates (object)

Spell Resistance: Yes (object)

You magically link one location to another so that you or someone else may speak a command word at one end and be teleported to the other end.

Before casting this spell, you must prepare the ends of the link, both of which must be areas of stone 5 feet square.

This preparation takes 1 hour, and they serve for repeated castings of the spell as long as the stones are not damaged. When you cast *stone walk*, you designate a command word and touch one of the stones.

Both stones then become attuned to the command word you designate.

Thereafter, any creature that speaks the command word while standing upon one of the stones is teleported (as though by *greater teleport*) to the other stone instantaneously.

The stones function once for every four caster levels you possess, and each usage can transport one willing Medium or smaller creature plus one additional willing Medium or smaller creature (each carrying gear or objects up to its maximum load) or its equivalent per three caster levels.

A Large creature counts as two Medium creatures, a Huge creature counts as two Large creatures, and so forth.

All creatures to be transported must be in contact with each other.

Because of the special link between the stones, travel by means of this spell is not impeded by abjurations such as *dimensional lock* or *forbiddance*.

A *gate seal* spell cast upon either stone suppresses the *stone walk* effect.

Material Component: Preparation of each end of the link requires a paste made from rubies and amber worth 2,500 gp.

Casting the spell requires a 2,500-gp diamond.

Activating one of the linked stones once the spell is cast requires no material components.

SUMMON UNDEAD I

Conjuration (Summoning) [Evil]

Level: Blackguard 1, cleric 1, sorcerer/wizard 1

Components: V, S, F

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One summoned creature

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell functions like *summon monster I*, except that you summon an undead creature.

Summon undead I conjures one of the creatures from the 1st-level list on the Summon Undead table below.

You choose which creature to summon, and you can change that choice each time you cast the spell.

Summoned undead do not count toward the total Hit Dice of undead that you can control with *animate dead* or the cleric command undead ability.

Focus: A tiny bag, a small (not lit) candle, and a carved bone from any humanoid.

SUMMON UNDEAD II

Conjuration (Summoning) [Evil]

Level: Blackguard 2, cleric 2, sorcerer/wizard 2

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 2nd-level list or two undead of the same kind from the 1st-level list.

SUMMON UNDEAD III

Conjuration (Summoning) [Evil]

Level: Blackguard 3, cleric 3, sorcerer/wizard 3

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 3rd-level list, two undead of the same kind from the 2nd-level list, or four undead of the same kind from the 1st-level list.

SUMMON UNDEAD IV

Conjuration (Summoning) [Evil]

Level: Blackguard 4, cleric 4, sorcerer/wizard 4

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 4th-level list, two undead of the same kind from the 3rd-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD V

Conjuration (Summoning) [Evil]

Level: Cleric 5, sorcerer/wizard 5

Effect: One or more summoned creatures, no two of which can be more than 30 ft. apart

This spell functions like *summon undead I*, except that you can summon one undead from the 5th-level list, two undead of the same kind from the 4th-level list, or four undead of the same kind from a lower-level list.

SUMMON UNDEAD

TREE HEALING

Conjuration (Healing)

Level: Initiate of nature 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal and touch

Targets: You and one tree

Duration: 1 day (D)

Saving Throw: None

Spell Resistance: No

You enter a normal tree, which must be large enough to accommodate your body in all three dimensions.

You can remain hidden within it for as long as you desire, up to 1 day.

While you remain inside it, the tree nourishes and heals you.

You have no need to breathe or eat, and you regain a number of lost hit points equal to your character level for each hour spent in the tree.

If you remain inside for an entire day, you receive the benefit of a *heal* spell.

The tree also grants you total cover and protects you from extreme heat or cold, rain, sunlight, snow, and all other environmental conditions.

You can hear but not see what occurs outside the tree.

Minor physical damage to the tree does not harm you, but its partial destruction (to the extent that you no longer fit within it) expels you and deals you 5d6 points of damage.

If the tree is totally destroyed (by a forest fire or a *blight* spell, for example), you are expelled from the tree and instantly slain unless you succeed on a DC 18 Fortitude save.

VIPERGOUT

Conjuration (Summoning)

Level: Scalykind 7, sorcerer/wizard 7

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: 1d4+3 summoned creatures

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

This spell summons 1d4+3 fiendish (chaotic evil) or celestial (chaotic good) Medium vipers (snakes), which leap forth from your mouth to attack your enemies.

Starting in the round you complete the spell, you may spit three vipers as a standard action or one viper as a move action.

(Thus, if you move and then cast this spell, you may not spit any vipers until your next turn, but if you cast this spell without moving, you may spit forth one viper as your move action in that round).

Spat vipers land at your feet in an adjacent square of your choice and act on the same round, on your turn, just as creatures summoned by a *summon monster* spell do.

The snakes are not actually present in your mouth, and they do not interfere with your breathing.

However, until you have brought forth all the snakes summoned by the spell, you cannot speak, cast spells with verbal components, or activate items that require speech. When the spell's duration expires, all the vipers disappear, and any not yet brought forth are lost.

When you use a summoning spell to summon an evil or good creature, it is a spell of that type.

Material Component: A snakeskin.

WALL OF SAND

Conjuration (Creation) [Earth]

Level: Cleric 4, druid 5, sorcerer/wizard 4

Components: V, S, M/DF

Range: Medium (100 ft. + 10 ft./level)

Effect: Sand wall whose area is up to one 5-ft. square/level (S)

Duration: Concentration + 1 round/level

Saving Throw: None

Spell Resistance: No

This spell conjures up a viscous, opaque wall of swirling sand.

The spell must be cast so that it rests on a solid surface. Once cast, the wall is immobile.

The sand is sufficiently thick to block ranged attacks, providing normal cover appropriate for its size, but creatures may attempt to force their way through it.

Moving through the *wall of sand* is difficult, requiring a full-round action and a Strength check.

A creature moves 5 feet through the *wall of sand* for every 5 points by which its Strength check result exceeds 15.

Creatures within the *wall of sand* are considered blinded and deafened, and they are unable to speak or breathe.

Thus, they may begin to suffocate if they remain within the wall too long (see page 304 of the *Dungeon Master's Guide*).

Spells with verbal components cannot be cast within the wall, and any other spell requires a successful

Concentration check (DC 20 + spell level).

It is possible to attack a character inside or on the far side of the *wall of sand* with a melee weapon, provided that the following criteria are met.

First, the attacker must have a general idea where the target is within the wall (that is, she must have seen her target enter the wall recently).

Secondly, the target must be no deeper into the wall than the reach of the attacker's weapon (or, in the case of creatures on the far side of the wall, the wall itself must not be deeper than the attacker's reach).

Even then, the target benefits from cover and total concealment.

Any open, unprotected flame thrust into the *wall of sand* is instantly extinguished.

Arcane Material Component: A handful of sand.

DIVINATION

UNDERSTAND DEVICE

Divination

Level: Initiate of Gond 3

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: You

Duration: 1 min./level

You gain an intuitive insight into the weaknesses and flaws of mechanical objects.

You can make untrained Disable Device and Open Lock checks as if you had 1/2 rank in each skill.

You gain an insight bonus equal to your caster level (maximum +15) on Disable Device and Open Lock checks.

WARNING

Divination

Level: Initiate of Helm 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell heightens the subject's senses and awareness of danger.

The subject gains a +4 insight bonus on Listen and Spot checks and gains uncanny dodge for the duration of the spell, retaining its Dexterity bonus to AC (if any) regardless of being caught flat-footed or struck by an invisible attacker.

(The subject still loses its Dexterity bonus to AC if immobilized).

WIELDSKILL

Divination

Level: Initiate of Gond 1

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes

This spell imbues the subject with a touch of divine guidance, granting it a +5 competence bonus on a skill check of your choice.

A subject that has no ranks in the designated skill functions as if it had 1/2 rank in the skill and therefore is considered trained in it, even though this 1/2 rank adds nothing to checks made with that skill.

Alternatively, the subject may gain proficiency with a single weapon (simple, martial, or exotic) or armor (light, medium, heavy, or shield) that you designate, as if it had the appropriate feat.

ENCHANTMENT

HARMONY

Enchantment (Compulsion) [Mind-Affecting, Sonic]

Level: Bard 1

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: Variable; see text

When you play your instrument, sing your song, recite your epic poem, or speak your words of encouragement, you fill your allies with greater confidence than normal.

When you use the inspire courage function of your bardic music ability while this spell is in effect, the morale bonus on saving throws against charm and fear effects increases by 2, and the morale bonus on attack rolls and damage rolls increases by 1.

This effect lasts until your inspire courage effect ends.

If you don't begin to use your inspire courage ability within 1 minute of casting this spell, the *harmony* effect ends.

NYBOR'S GENTLE REMINDER

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One living creature

Duration: 1 round/level

Saving Throw: Fortitude negates

Spell Resistance: Yes

This spell has long been popular with slave overseers and those wishing to make their servants work a little faster. The Red Wizards now employ it primarily as a combat spell.

When the spell is cast, the subject suffers a sharp, agonizing pain that leaves it dazed for 1 round.

In each subsequent round for the duration of the spell, the subject takes a -2 penalty on attacks, saving throws, and checks.

Furthermore, a spellcaster targeted by *Nybor's gentle reminder* is distracted by the pain and must make a successful Concentration check to cast spells while under its effect (see the Concentration skill description, page 69 of the *Player's Handbook*).

Focus: A stick at least 1 foot long.

NYBOR'S MILD ADMONISHMENT

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer/wizard 3

Duration: 1 round/level

This spell functions like *Nybor's gentle reminder*, except that the subject is dazed for 1d4 rounds.

NYBOR'S STERN REPROOF

Enchantment (Compulsion) [Mind-Affecting]

Level: Sorcerer/wizard 7

Duration: 1 round/level

Saving Throw: See text

This spell functions like *Nybor's gentle reminder*, except that the target must make a successful Fortitude save or die instantly.

A creature that survives this effect must immediately make a Will save to avoid further effects.

Failure leaves the subject dazed for 1d4 rounds.

EVOCATION

ACID STORM

Evocation [Acid]

Level: Sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Area: Cylinder (20-ft. radius, 20 ft. high)

Duration: Instantaneous

Saving Throw: Reflex half

Spell Resistance: Yes

You cause acid to rain downward.

The acid deals 1d8 points of acid damage per caster level (maximum 15d8) to each creature in the area.

Material Component: A flask of acid.

BALL LIGHTNING

Evocation [Electricity]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./levels)

Effect: One lightning ball/two levels

Duration: 1 round/level

Saving Throw: Reflex half

Spell Resistance: Yes

You create one 3-foot-diameter ball of concentrated electricity per two caster levels (maximum eight balls).

Each ball sheds light as a candle.

When you create the balls of lightning, you mentally program them to move as you desire, even around corners.

A ball can move up to 100 feet per round and flies with perfect maneuverability.

Upon striking a creature, the ball stops and remains in place for the remainder of the spell's duration.

A ball dissipates if the distance between you and it exceeds the spell's range.

Each ball can "see" as a human would under the ambient lighting conditions (counting the light that the ball itself sheds).

For example, you could program one lightning ball to follow the left wall of a corridor and strike the first creature it "sees", another to follow the right wall and do the same, and the remainder to follow 5 feet behind you in a semicircle.

The first two lightning balls would turn corners to follow the walls, even if doing so took them out of your line of sight, and each would strike the first creature it "saw", which would cancel its program and leave it in its target's square.

Programming the balls is a free action in the round the spell is cast and a move-equivalent action in any other round.

A creature struck by a lightning ball (or one that touches a ball with natural or melee weapons) takes 2d6 points of electricity damage (Reflex saving throw for half damage).

A creature that comes into contact with multiple balls of lightning takes damage individually from each and receives a saving throw for each.

A creature with spell resistance makes a separate spell resistance check against each lightning ball; success means that ball cannot harm the creature.

Material Component: A handful of copper and iron pellets.

CALIGARDE'S CLAW

Evocation [Force]

Level: Sorcerer/wizard 4

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Invisible claw of force

Duration: 1 round/level (D)

Saving Throw: None

Spell Resistance: Yes

Caligarde's claw creates a Medium claw of invisible force at any spot you designate within the spell's range.

You can either send the claw to attack one specific target or order it to guard an area.

The claw's orders may be switched each round as a free action, if you so desire.

The claw has Strength 22, Dexterity 18, AC 16 (+4 Dex, +2 for invisibility), and hit points equal to one-half your full normal total.

It attacks at your base attack bonus, applying modifiers for its own statistics as appropriate (+6 for Str and +2 for invisibility).

It can make multiple attacks per round with a full attack action if your base attack bonus is high enough to allow it. Since it counts as an invisible attacker, the target loses its Dexterity bonus (if any) to AC unless it has uncanny dodge. A *Caligarde's claw* deals 1d6+6 points of damage with each successful attack.

The claw is corporeal and can be destroyed, which ends the spell.

Since it is invisible, any attacks made against it have a 50% miss chance.

If ordered to attack a single target, the claw moves from its current position toward the designated target at a speed of 90 feet, provided the target is within range of the spell.

It attacks on your turn and continues to attack until it or its target is destroyed, or the spell's duration ends, or you redirect it to a new target or to guard duty.

While it is assigned to attack a specific target, the claw cannot make attacks of opportunity.

If you order the claw to guard an area, it flies at a speed of 90 feet to any 5-foot square you designate within the spell's range and waits there.

While on guard duty, it does not attack on its own, but it makes attacks of opportunity whenever a foe performs an action that provokes such an attack within 5 feet of its position.

The claw functions as though it had the Combat Reflexes feat for this purpose, so it may make a total of five attacks of opportunity per round.

A claw in guard mode cannot take attack actions or full attack actions; it can only wait for an action that provokes an attack of opportunity.

Material Component: A small, dried claw from an animal.

CLOUD OF BEWILDERMENT

Evocation

Level: Bard 2, sorcerer/wizard 2
Components: V, S
Casting Time: 1 standard action
Range: 10 ft.
Area: 10-ft. cone
Duration: Instantaneous
Saving Throw: Fortitude negates
Spell Resistance: Yes
You breathe out an invisible cone of noxious air. Each creature in the area is nauseated for 1d6 rounds.

EYE OF POWER

Evocation

Level: Sorcerer/wizard 9
Effect: Magical sensor
This spell functions like the 4th-level spell *arcane eye*, except as follows.
You may cast any spell of 7th level or lower that has a range other than personal through the eye.
Any spell so cast functions as though it had been cast from the *eye of power's* location rather than yours.
Casting any spell of higher than 7th level through the eye not only produces no effect (though the spell is still expended), but it destroys the *eye of power* and ends the spell.
Unlike an *arcane eye*, an *eye of power* is visible and corporeal, so it can be destroyed.
The eye is a Fine object with AC 18 and 77 hit points. It uses your save bonuses for saving throws.

GEDLEE'S ELECTRIC LOOP

Evocation [Electricity]

Level: Sorcerer/wizard 2
Components: V, S, M
Casting Time: 1 standard action
Range: Close (25 ft. + 5 ft./2 levels)
Targets: One creature/three caster levels, each of which must be adjacent to another target
Duration: Instantaneous
Saving Throw: Reflex half; see text
Spell Resistance: Yes
You create one small stroke of lightning that targets one creature per three caster levels you possess (maximum four creatures).
Each target must be in a square adjacent to another target. The spell deals 1d6 points of electricity damage per two caster levels (maximum 5d6) to each target.
A creature that fails its Reflex save must make a successful Will save or be stunned for 1 round.
Material Component: A loop of copper wire and a magnet.

HANDFIRE

Evocation [Light]

Level: Initiate of Selûne 1
Components: V, S
Casting Time: 1 standard action
Range: Touch
Target: Creature touched
Duration: Instantaneous
Saving Throw: None
Spell Resistance: Yes

You surround your hand with winking motes of light that resemble a cluster of constantly renewed sparks. The lights can be any color you choose, but the color cannot be changed once the spell is cast.
Handfire provides illumination equal to that of a candle, but it does not give off heat and cannot ignite objects. *Handfire* can be used as a melee touch attack up to once per two caster levels.
Against a living creature, this attack deals 1d8 points of damage +1 point per caster level (maximum +5).
Against undead, *handfire* deals 2d6 points of damage +1 point per caster level (maximum +5).
It has no effect on targets that are neither living nor undead (such as constructs).

HOWLING CHAIN

Evocation [Force]

Level: Sorcerer/wizard 6
Components: V, S, F
Casting Time: 1 standard action
Range: Medium (100 ft. + 10 ft./level)
Target: One creature within range
Duration: 1 round/level
Saving Throw: See text
Spell Resistance: Yes
This spell summons a shimmering, blood-red chain of pure force that winds around the target, hampering its movement and attacking it.
The spell is named for the unearthly howl the chain emits while constricting its victim.
The noise is so loud that each creature within 100 feet of the chain takes a -2 penalty on Listen checks.
The chain does not hold its victim fast, nor does it prevent the target from acting, but the target takes a -2 penalty on all attacks, saves, and skill checks and must make a Concentration check (DC 15 + spell level) to cast any spell with somatic components.
Each round, the chain attacks its target twice (+13/+8 melee), dealing 3d4 points of bludgeoning damage per hit. Additionally, if the target of the *howling chain's* attacks attempts to cast a spell during a round in which both of its attacks hit, the Concentration DC increases by 5.
When the *howling chain* spell is first cast, the target may make a Reflex save to evade its constricting coils. A successful save means that the chain manifests somewhere within 5 feet of the target.
(Use the rules for missing with a thrown weapon on page 158 of the *Player's Handbook* to determine where the chain actually appears).
Assuming that the target does not move away, the chain once again attempts to ensnare its designated target on your next action, requiring another Reflex save.
If the designated target is no longer adjacent to the chain, it moves toward its quarry each round at a speed of 20 feet, attacking as soon as possible.
The *howling chain* is a Medium object with AC 12 and 33 hit points, and it uses your save bonuses for saving throws. However, all damage dealt to the chain also applies to the target of the *howling chain* spell.
The target may make a Fortitude save for half damage. The spell ends when its duration expires, when the chain is destroyed, or when the target dies.

Focus: A small length of platinum chain worth at least 500 gp.

LAWFUL SWORD

Evocation

Level: Paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 round/level

Saving Throw: None

Spell Resistance: No

This spell works like *holy sword*, except as follows.

The weapon functions as a +5 *axiomatic weapon* (+5 enhancement bonus on attack and damage rolls, lawful-aligned, deals an extra 2d6 points of damage against chaotic opponents).

It emits a *magic circle against chaos* effect (as the spell).

LIGHTNING RING

Evocation [Electricity]

Level: Sorcerer/wizard 8

Components: V, S, M

Casting Time: 1 full round

Range: Personal; see text

Effect: Two lightning bolts/round or eight lightning bolts all at once

Duration: 1 round/two levels or instantaneous; see text

Saving Throw: Reflex half; see text

Spell Resistance: Yes

This spell conjures a crackling ring of bright white lightning that hovers around you at chest height.

The ring moves with you and does not interfere with your spellcasting or attacks, or with others attacking you.

As long as the *lightning ring* is in effect, you gain resistance to electricity 20.

Each round on your action, the *lightning ring* emits two *lightning bolts*, exactly as the *lightning bolt* spell (caster level 5th), in any directions you choose.

Each bolt may be aimed separately.

A creature struck by one of these bolts may make a Reflex save for half damage.

The DC for this save is calculated for an 8th-level spell, even though the bolts mimic a 3rd-level spell.

Alternately, you may choose to release the *lightning ring's* power all at once.

When you complete the casting of the spell, you unleash eight *lightning bolts* that travel in all directions.

(See the diagram for missing with thrown weapons on page 158 of the *Player's Handbook* for an illustration of the directions these bolts travel).

This use of the *lightning ring* spell has an instantaneous duration.

You must choose whether to store the power of the *lightning ring* or release it all at once when you cast it.

Material Components: A small glass ring and a bit of fur from any animal.

MACE OF ODO

Evocation [Force]

Level: Initiate of Helm 3

Components: V, S, DF

Casting Time: 1 standard action

Range: 0 ft.

Effect: Mace of force

Duration: 1 round/level

Saving Throw: Fortitude negates; see text

Spell Resistance: Yes

You create a glowing mace of force that appears in your hand.

You must make a melee touch attack to strike a target with the mace.

If it hits, the *mace of Odo* deals 1d6 points of force damage per caster level (maximum 10d6).

An undead target takes an additional +1 point of damage per caster level (maximum +10).

Any creature struck by the mace must make a Fortitude save or be paralyzed for 1 round.

You may attack once with the *mace of Odo* on the same round that you summoned it.

The *mace* occupies your hand but does not disappear if you cast another spell.

If you are targeted with a spell while holding the mace, you may choose to have the mace absorb that spell.

When the mace strikes a creature, or is used to absorb a spell, or is removed from your grasp for any reason, it vanishes.

The point in space where it vanished glows as though under the effect of a *light* spell for the remainder of the duration.

MANYJAWS

Evocation [Force]

Level: Sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One pair of disembodied, flying jaws per caster level (maximum ten pairs)

Duration: 3 rounds

Saving Throw: Reflex half

Spell Resistance: Yes

When you cast this spell, you summon several pairs of mystical, disembodied jaws that fly about and attack your foes.

These pairs of jaws may be commanded to attack separate targets, or multiple pairs may be sent to attack a single foe.

The jaws originate at your location and fly out to attack their targets, moving at a fly speed of 40 feet with perfect maneuverability.

You may redirect as many of the jaws as you desire as a standard action.

Each round on your action, each pair of jaws automatically hits its target and deals 1d4 points of damage, or half that amount with a successful Reflex save.

A creature targeted by multiple pairs of jaws in a single round makes only one saving throw, with success halving the total damage.

Material Component: A pair of teeth.

MYSTIC LASH

Evocation [Electricity, Evil]

Level: Initiate of Bane 3

Components: V, S, DF

Casting Time: 1 standard action

Range: 15 ft.

Effect: Electric whip

Duration: 1 round/level

Saving Throw: Fortitude partial

Spell Resistance: Yes

You create a long whip of ghostly red energy that emanates from your hand and never harms you.

You can wield this weapon as if it were an actual whip and you were proficient with it.

You must succeed on a ranged touch attack with the *mystic lash* to strike a target.

Any creature struck by it takes 1d6 points of electricity damage per three caster levels (maximum 4d6) and must succeed on a Fortitude save or be stunned for 1 round.

You gain a bonus on damage rolls equal to your Charisma modifier, but your Strength modifier does not apply, since the lash is immaterial.

If you release the lash from your hand after it hits a target, it continues to attack that target automatically, leaving your hand free.

If the lash's target falls unconscious, dies, or is destroyed, the lash returns to you on its next action.

If you do not grasp it on the round it returns, it dissipates; otherwise, you can use the lash on another creature and begin the cycle again.

As with a normal whip, you can use the *mystic lash* to make trip or disarm attacks, but only if you are actually wielding it.

It cannot make such attacks on its own.

NCHASER'S GLOWING ORB

Evocation [Light]

Level: Cleric 4, sorcerer/wizard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Effect: Magical, controllable light source

Duration: Permanent

Saving Throw: None

Spell Resistance: No

This spell places a magical light source inside a glass sphere roughly the size of a human fist.

You may control the light level generated by a *Nchaser's glowing orb* by mental command, provided that the orb is within 30 feet of you.

The light level ranges from no light at all to illumination within a 60-foot radius.

There is no limit to the number of *Nchaser's glowing orbs* you may possess, and you may control their light levels independently or in concert.

If a *Nchaser's glowing orb* is smashed, the magic is lost.

If you die, however, the orbs retain their enchantment.

Any cleric, sorcerer, or wizard capable of casting 4th-level spells may gain control of a dead character's orbs simply by touching them.

Focus: The glass sphere into which the light is placed.

An orb usable for this purpose has a hardness of 0 and 2 hit points each.

PRESPER'S MOONBOW

Evocation [Electricity]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: 1d4 motes of electricity

Duration: Instantaneous or 1–4 rounds; see text

Saving Throw: None

Spell Resistance: Yes

This spell conjures 1d4 glowing motes of electricity, which gather and spin a round you in the manner of a *faerie fire* spell.

You may immediately direct any number of the motes to fly off and attack targets within the spell's range.

Multiple motes may be fired at the same target, or each may be sent against a separate target.

You must succeed on a ranged touch attack with a mote to strike a target.

Any creature struck by a mote takes electricity damage according to the following table.

Motes	
Created	Damage per Mote
1	4d6
2	3d6
3	2d6
4	2d4

If you do not immediately fire all the motes created by the spell, you may choose to fire as many of the remaining ones as you wish as a standard action during the next round.

If a round passes in which you do not fire one of your motes, the spell ends and all remaining motes vanish.

Material Components: A small piece of moonstone.

PRISMATIC EYE

Evocation

Level: Sorcerer/wizard 6

Components: V, S, F

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Magical eye

Duration: 1 round/level

Saving Throw: See text

Spell Resistance: Yes

You create a visible orb that can produce ray effects duplicating the beams of a *prismatic spray* spell.

You can move the eye up to your speed as a move-equivalent action, but it cannot go beyond the spell's range.

Starting in the round the eye appears, you can command it to fire a ray (50-foot range) as a free action once per round.

You must succeed on a ranged touch attack with a ray to strike a target, but each ray uses a flat +6 bonus on attack rolls instead of your ranged attack bonus.

A target struck by a ray suffers the effect of one beam of a *prismatic spray* spell (roll 1d8 to determine the effect, rerolling any result of 8), except that the save DC (if applicable) is 19.

After a particular color ray has been used, it is no longer available to the eye.

Once all seven rays have been fired, the eye remains until the spell's duration expires.

You can still move it, but it can fire no more rays.

The eye is a Fine object with AC 18 (+8 size) and 9 hit points.

It uses your save bonuses for saving throws.

Focus: A polished, rainbow-hued abalone shell.

SHROUD OF FLAME

Evocation [Fire]

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level

Saving Throw: Reflex negates; see text

Spell Resistance: Yes

Sometimes called “trollkiller”, this spell causes a single creature to burst into flames, taking 2d6 points of fire damage immediately upon a failed saving throw.

Each round thereafter, throughout the spell's duration, the target takes another 2d6 points of fire damage.

In any round when the target takes a move action to douse the flames, it can attempt a new Reflex save.

Success on any save after the first round causes the flames to die out and ends the spell.

In addition to the above effects, the target shoots off goutts of flame every round that it remains on fire.

Any creature within 10 feet of the target takes 1d4 points of fire damage per round.

A successful Reflex save negates this damage.

Material Component: A pinch of saltpeter, a small piece of phosphorus, and a scrap of lace cloth or a spiderweb.

SUNRISE

Evocation [Light]

Level: Initiate of Lathander 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 5-ft.-radius burst

Duration: Instantaneous

Saving Throw: Reflex partial; see text

Spell Resistance: Yes

You create a burst of dazzling light that is equivalent to natural sunlight.

Any creature in the area to which sunlight is harmful or unnatural is blinded and takes 4d6 points of damage; every other creature in the area is blinded and takes 2d6 points of damage.

A successful Reflex save negates the blindness and halves the damage in either case.

An undead creature caught within the burst takes 1d6 points of damage per caster level (maximum 10d6).

A successful Reflex save negates the blindness and halves the damage.

The ultraviolet light generated by the spell also deals damage to fungi, molds, oozes, and slimes just as if they were undead creatures.

Sunrise dispels any *darkness* spells of 3rd level or lower within its area.

SWORD AND HAMMER

Evocation [Force]

Level: Initiate of Tyr 4

This spell functions like *spiritual weapon*, except as indicated here.

When you cast the spell, two weapons made of force come into being: a longsword and a warhammer.

Both weapons grant you a +1 bonus on attack rolls.

If you direct the weapons to attack the same foe, they flank that opponent, and each gains the appropriate bonus (+2) on attack rolls for flanking.

The weapons do not deal sneak attack damage even if you have levels in a class that grants the sneak attack ability.

SWORD AND HAMMER, GREATER

Evocation [Force]

Level: Initiate of Tyr 6

This spell functions like *sword and hammer*, except as indicated here.

The longsword and warhammer are sized for Large creatures, and each deals 2d6 points of force damage +1 point per three caster levels (maximum +10) on a successful hit.

Each weapon grants a +2 bonus on attack rolls.

Furthermore, each threatens critical hits as if you had the Improved Critical feat (the longsword on a roll of 17–20, and the warhammer on a roll of 19–20).

WALL OF MOONLIGHT

Evocation [Good, Light]

Level: Initiate of Selûne 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Vertical plane with an area up to one 5-ft. square/level

Duration: 1 round/level

Saving Throw: None

Spell Resistance: Yes

An immobile, shimmering tapestry of swirling, pearl-white light springs into existence.

This wall need not be anchored to any surface, and creatures can readily pass through it.

Any undead creature that comes into contact with the wall takes 4d12 points of damage.

A creature of evil alignment, or any creature carrying the holy symbol of Shar or Umberlee, takes 2d10 points of damage.

Magic items that come into contact with the wall glow with a red *faerie fire* effect for 1d4+1 rounds.

The wall sheds bright light for 20 feet in all directions and creates shadowy illumination in a 40-foot radius. The *wall of moonlight* counters and dispels any *darkness* spell of 4th level or lower within 40 feet of any part of it. If you evoke the wall so that it appears in a spot occupied by creatures, each creature takes damage as if passing through the wall.

Wall of moonlight can be made permanent with a *permanency* spell by a caster of at least 12th level at a cost of 2,000 XP.

ILLUSION

SKULL OF SECRETS

Illusion (Shadow)

Level: Initiate of Cyric 4

Components: V, S

Casting Time: 1 full round

Range: Close (25 ft. + 5 ft./2 levels)

Effect: Intangible skull

Duration: Permanent until discharged

Saving Throw: None; see text

Spell Resistance: No

You create an intangible image of a floating skull that trails black flames.

The skull and its flames are illusory, so they neither deal damage nor take damage from attacks.

The skull has a fly speed of 40 feet (perfect), but it cannot move more than 20 feet from its point of origin.

It simply floats about aimlessly but threateningly within its available space until the spell is discharged.

Upon casting this spell, you set two triggering conditions for the skull.

The first activates a message that the skull delivers as if it were a *magic mouth*.

The second causes the skull to spit a line of flame 10 feet long that deals 1d8 points of fire damage per two caster levels (maximum 5d8) at the creature that triggered it.

A target can attempt a Reflex saving throw for half damage. Anyone failing this save must succeed on a Fortitude saving throw or be dazed for 1 round.

The triggering conditions for the two effects can be different, or they can be the same.

In the latter case, the skull would spit flame and speak its message at the same time.

Once the triggering conditions for both effects have been met, the skull disappears.

The skull can produce each effect only once, so if it has already spoken its message, it does not speak it again even if the message trigger occurs a second time.

TRIPLE MASK

Illusion (Shadow)

Level: Initiate of Cyric 7

Components: V, S, DF

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Three shadow duplicates

Duration: 1 round/level (D)

Saving Throw: Will disbelief (if interacted with)

Spell Resistance: No

You create three shadow duplicates of yourself.

These images look, sound, and smell like you but are intangible.

You can switch your perceptions to any shadow or your own body as a free action on your turn.

When you use the perceptions of a shadow, it mimics your actions (including speech) unless you concentrate on making it act differently.

Any shadows you are not controlling remain motionless and unreactive.

If you desire, any spell you cast whose range is touch or greater can originate from a controlled shadow instead of from you.

(The shadows are quasi-real—just real enough to cast spells that you originate).

A shadow can cast only spells that affect shadows on itself. The shadows behave like the servant conjured by an *unseen servant* spell.

They are mindless, so while they can perform simple tasks such as opening doors, they cannot perform complex tasks such as puzzle solving.

A controlled shadow can also be programmed to move in a particular direction or to a location you know.

It moves at your speed and continues to move in this manner until either it reaches its destination or you shift your perceptions to it and program it to go somewhere else.

If you use *dimension door*, *teleport*, *plane shift*, or a similar spell that removes you from the same plane as the shadows, even momentarily, the spell ends.

Normally this spell is used to give you several false bodies—one that acts as a safe haven for casting spells (similar to *project image*) and the other two as distractions.

NECROMANCY

BLACK TALON

Necromancy

Level: Initiate of Cyric 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Saving Throw: No; see text

One of your arms transforms into a retractable, rubbery appendage ending in a taloned claw.

You can attack with this claw as if your natural reach were 5 feet longer than it is.

(Thus, the spell provides a 10-foot natural reach for most Medium casters).

You gain a +1 profane bonus on attack rolls with the *black talon*, and this bonus increases by 1 per four caster levels (to +2 at 5th level, +3 at 9th level, and so forth).

The talon deals 1d6 points of slashing damage +1 point of negative energy damage per caster level (maximum +10).

A successful Will save reduces the negative energy damage by half.

You can also use the talon to make touch attacks, and the profane bonus on attack rolls applies to these as well.

A successful touch attack deals only the negative energy damage.

As with similar effects, the negative energy damage from this spell heals undead creatures.

DREAD BLAST

Necromancy

Level: Initiate of Cyric 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: Ray

Duration: Instantaneous

Saving Throw: Will half; see text

You fire a black ray of negative energy at a single target as a ranged touch attack.

Any creature struck by this ray takes 4d8 points of damage +1 point per caster level (up to +20) and becomes dazed for 1 round.

A successful Will save halves the damage and negates the dazed effect.

The spell has no effect on constructs or inanimate objects. Since undead are powered by negative energy, this spell cures them of as much damage as it would ordinarily deal.

FAVOR OF ILMATER

Necromancy

Level: Initiate of Ilmater 4, paladin 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One willing creature

Duration: 1 min./level

Saving Throw: None

Spell Resistance: Yes (harmless)

The target becomes immune to nonlethal damage, charm and compulsion effects, and attacks that function specifically by causing pain.

It is further immune to effects that would cause it to be dazed, exhausted, fatigued, nauseated, sickened, staggered, or stunned.

The target remains conscious at -1 to -9 hit points and can take a single action each round while in that state.

If any of the above conditions were in effect on the target at the time of casting, they are suspended for the spell's duration.

(Thus, an unconscious target becomes conscious and functional).

When the spell ends, any effects suspended by the spell that have not expired in the interim (such as fatigue, which normally requires 8 hours of rest to abate) return.

Effects that expired during the duration of this spell do not resume when it ends.

In addition to these effects, the target gains the benefit of the Endurance feat for the duration of the spell.

FLESHSHIVER

Necromancy

Level: Sorcerer/wizard 5

Components: V, S, M

Casting Time: 1 standard action.

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: Instantaneous

Saving Throw: Fortitude partial; see text

Spell Resistance: Yes

This ghoulish spell affects the target's skeleton, causing excruciating pain by twisting and snapping bones. The target is automatically stunned for 1 round (no saving throw).

In the following round, it must make a Fortitude save or take 1d6 points of bludgeoning damage per caster level and be nauseated by the pain for 1d4+2 rounds.

Material Component: A bone, which is snapped during the casting of the spell.

GENERAL OF UNDEATH

Necromancy [Evil]

Level: Cleric 8

Components: V, S, DF

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 day/level

This spell increases the number of Hit Dice of undead that you can control by an amount equal to five times your caster level.

When the duration expires, you lose control of the extra undead as if you had voluntarily relinquished control of them.

PACT OF MARTYRDOM

Necromancy [Good]

Level: Initiate of Ilmater 4

Components: V, S

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Target: One willing creature

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes (harmless)

You exchange hit point totals with a target that has fewer hit points than you do.

If the target was unconscious and dying, you become unconscious and dying.

If the target was unconscious but stabilized, you become unconscious but stabilized.

The spell transfers only actual hit points, not temporary hit points.

Pact of martyrdom does not function if you have fewer hit points than the target when you cast the spell.

POSSESS ANIMAL

Necromancy

Level: Initiate of Malar 3

Components: V, S, M

Casting Time: 1 round

Range: Close (25 ft. + 5 ft./2 levels)

Target: One animal

Duration: 1 round/level (D)

Saving Throw: Will negates

Spell Resistance: Yes

You project your spirit into the body of an animal, forcing it to behave as you direct.

The target must be a normal animal (not a magical beast, vermin, or other monster type), and your caster level must exceed its Hit Dice.

The animal's soul remains in its body but has no control over it while your spirit is there. Your own body lies comatose for the duration of the spell. While in the animal's body, you keep your Intelligence, Wisdom, Charisma, level, classes, base attack bonus, base save bonuses, alignment, and mental abilities.

You can cast spells while you possess the animal only if you have the Natural Spell feat or an equivalent ability, and you can't activate the body's extraordinary or supernatural abilities.

Furthermore, for every 2 points of damage taken by the animal body while you are possessing it, you take 1 point of damage.

If the animal body is killed while you are possessing it, you must make a DC 10 Fortitude save or die as well.

If your body is destroyed while your spirit is in the animal's body, you die at the end of the spell's duration.

Material Component: A bowl of incense and a morsel of food appealing to the target animal.

SKULL WATCH

Necromancy

Level: Cleric 3, sorcerer/wizard 3

Components: V, S, F

Casting Time: 1 standard action

Range: Touch

Target: One humanoid skull

Duration: 1 hour/level or until discharged

Saving Throw: None

Spell Resistance: No

The skull affected by a *skull watch* spell floats gently 5 feet off the ground, facing a direction you choose.

It monitors an area 20 feet wide by 90 feet long, though walls and other solid barriers can curtail this area.

If any living creature enters the area guarded by the skull, it emits a piercing shriek that can be heard up to a quarter of a mile away and falls to the ground, its magic expended.

Every creature within 60 feet of the skull when it shrieks must make a Fortitude save or be deafened for 1d6 rounds.

Whether or not you can hear this audible alarm, you instantly become aware when one of your *skull watch* spells has been triggered, provided you are on the same plane as it is.

The skull can be moved from its original position by anyone who can get to it without entering its monitored area.

The skull has an AC of 12, a hardness of 1, and 1 hit point per caster level.

You are not magically made aware of the skull's destruction if it has not been triggered.

Skull watch can be made permanent with the *permanency* spell.

A permanent *skull watch* resets 1d4 rounds after it is triggered.

Focus: The humanoid skull upon which *skull watch* is cast.

UNDEATH AFTER DEATH

Necromancy [Evil]

Level: Initiate of Bane 7

Components: V, S, M

Casting Time: 10 minutes

Range: Touch

Target: Willing living creature touched

Duration: Permanent until discharged

Saving Throw: None

Spell Resistance: No

You tear off a piece of a creature's life force, corrupt it with negative energy and the power of undeath, then bind it back to the same creature's body.

This process initiates a blasphemous transformation when the creature dies.

The subject of this spell loses 2 points of Constitution upon casting.

When it dies, the corrupted life force initiates a slow change in its body, causing it to animate as a crypt spawn at the next sunset (see Chapter 6 in *Monstrous Compendium: Monsters of Faerûn*).

If the creature's remains are destroyed, the *undeath after death* spell cannot bring it back as an undead.

Even if the spell is dispelled before the subject dies, it still does not regain its lost Constitution points.

Material Components: A piece of obsidian shaped like a heart, which is placed on the subject's chest, and a black onyx gem worth at least 50 gp per HD the subject creature possesses at the time the spell is cast.

This gem must be placed in the subject's mouth.

TRANSMUTATION

BATTLETIDE

Transmutation

Level: Initiate of Bane 5

Components: V, S, DF

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Targets: You and up to one creature/level, no two of which can be more than 30 ft. apart

Duration: 1 round/level

Saving Throw: Will negates

Spell Resistance: Yes

You steal energy from others.

Each target other than you takes a -2 penalty on saving throws, attack rolls, and weapon damage rolls.

As long as at least one enemy is affected by the spell, you receive the following benefits.

- You gain a +1 bonus on attack rolls and Reflex saves, and a +1 dodge bonus to AC.

Any condition that causes you to lose your Dexterity bonus to Armor Class (if any) also negates this dodge bonus.

- All of your modes of movement increase by 30 feet, to a maximum of twice your normal speed with each form of movement.

This increase counts as an enhancement bonus.

- When using a full attack action, you may make one extra attack with any weapon you are holding.

You make this attack using your full base attack bonus, plus any modifiers appropriate to the situation.

This effect is not cumulative with similar effects, such as that provided by the *haste* spell or a weapon with the speed special ability.

- If you do not make an extra attack, you may cast any 0-level or 1st-level spell you have prepared as a free action, as though you had applied the Quicken Spell feat to it.

For every two caster levels beyond 9th, you may apply this benefit to a spell one level higher (to 2nd-level spells at 11th level, 3rd-level spells at 13th level, 4th-level spells at 15th level, and 5th-level spells at 17th level). The benefit cannot be applied to spells higher than 5th level.

If all the affected enemies are freed from the spell (by death, entering an *antimagic field*, receiving a successful *dispel magic*, or the like), the spell ends immediately.

BLINDING SPITTLE

Transmutation

Level: Druid 2

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Effect: One missile of spit

Duration: Instantaneous

Saving Throw: None

Spell Resistance: Yes

You spit caustic saliva into your target's eyes with a successful ranged touch attack.

A -4 penalty applies to the attack roll.

The spittle blinds the target until it can wash its eyes with water or some other rinsing fluid.

This spell has no effect on creatures without eyes or creatures that don't depend on eyes for vision.

BLINDSIGHT

Transmutation

Level: Cleric 3, druid 2, sorcerer/wizard 2

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 1 min./level

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell grants the subject the blindsight ability out to 30 feet.

(For details, see page 290 of the *Dungeon Master's Guide*).

BRIARTANGLE

Transmutation

Level: Initiate of Nature 4

This spell functions like *entangle*, except as follows.

The entangling plants are changed to tangled briars covered with sharp thorns that grow to a height of 6 feet. Each entangled creature takes 1d8 points of piercing damage +1 point per two caster levels in the round it becomes entangled.

In each subsequent round that it attempts to break free or move within the briars, it takes a like amount of damage.

An entangled creature attempting to cast a spell within the briars must make a successful Concentration check (DC 20 + the spell's level) or lose the spell.

The briars are thick and tall enough to grant cover to creatures within or behind them.

CLAWS OF THE BEAST

Transmutation

Level: Druid 1, ranger 2

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

Your fingers sprout claws.

When you cast this spell, your hands become weapons that deal 1d8 points of damage each or your normal unarmed damage, whichever is greater.

You are considered armed while this spell is in effect.

FIENDFORM

Transmutation [Evil]

Level: Sorcerer/wizard 6

Components: V, M

Duration: 1 min./level

This spell functions like *polymorph*, except as indicated.

You may take the form of any fiendish creature, demon, or devil that can be summoned by a *summon monster* I, II, III, or IV spell.

You can assume only one form with each use of the spell, but you gain all the assumed form's extraordinary, spell-like, and supernatural abilities.

Your type changes to outsider, and spells and effects that harm or ward evil outsiders affect you.

Any effect that would banish you to your home plane ends this spell and leaves you staggered for 1 round per caster level but does not send you to another plane.

Material Component: A bone from any fiendish creature, half-fiendish creature, demon, or devil.

FIREWARD

Transmutation

Level: Druid 5, initiate of nature 5

Area: One 20-ft. cube/level (S)

Duration: 1 hour/level

Saving Throw: None

Spell Resistance: No

This spell functions like *quench*, except as indicated above. In addition, it has the following effects.

While *fireward* remains in effect, no magical fire effect can function inside its area.

This effect is similar to that of an *antimagic field*, but only fire spells are suppressed.

Any nonmagical fire created inside or brought into the spell's area is immediately extinguished as well.

ICELANCE

Transmutation

Level: Druid 4, sorcerer/wizard 3

Components: V, S, M

Casting Time: 1 standard action

Range: Medium (100 ft. + 10 ft./level)

Effect: One lance of ice

Duration: Instantaneous

Saving Throw: See text

Spell Resistance: Yes

This spell transforms a quantity of ice into a long, deadly lance, which is then magically propelled at a target you designate.

You must succeed on a ranged attack to strike a target. A +4 bonus applies to your attack roll.

If you hit, the *icelance* deals 5d6 points of damage to the target.

Half of this damage is piercing damage; the rest is cold damage.

In addition, the target must make a Fortitude save or be stunned for 1d4 rounds.

Regardless of the result of the attack, the *icelance* shatters upon its first use.

Material Component: At least 10 pounds of ice or snow.

Most mages cast this spell in an area with natural ice or snow, but in a pinch the ice left over from an *ice storm* spell will suffice.

INFERNO

Transmutation [Fire]

Level: Druid 5

Components: V, S, M

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: One creature

Duration: 1 round/level (D)

Saving Throw: Fortitude negates

Spell Resistance: Yes

You cause one creature to burst into flames.

The target of the *inferno* takes 6d6 points of fire damage, and its clothing, items, hair, and flesh burn with ferocity. In each round thereafter, the fire deals 1d6 fewer points of damage (minimum 1d6) until the spell ends or the subject manages to extinguish the flames.

Thus, the fire deals 5d6 points of damage in the second round, 4d6 points in the third round, and so forth.

Flammable, nonmagical items carried by the target automatically fail their saves to resist this damage.

After the first round, the target can attempt a DC 15 Reflex save as a full-round action to extinguish the flames before taking additional damage.

Rolling on the ground allows the target a +2 bonus on this save.

Leaping into a lake or magically extinguishing the flames automatically ends the effect.

Material Component: A gob of beeswax.

LIVELY STEP

Transmutation

Level: Bard 2, sorcerer/wizard 2

Components: V, S, F

Casting Time: 1 standard action

Range: 0 ft.

Area: 30-ft.-radius emanation centered on you

Duration: See text

Saving Throw: Will negates (harmless)

Spell Resistance: Yes (harmless)

This spell, whose verbal component is a lively marching song, was commonly used by the elves of Myth Drannor to speed their scouting parties home.

Once the spell is cast, as long as you perform only move actions, you and all allies within 30 feet of you move at a speed 10 feet greater than normal.

In addition, you and your allies may hustle during overland movement for 1 extra hour per day per caster level (see page 164 of the *Player's Handbook*).

Even with this spell, however, you still suffer the ill effects of forced marching if you attempt to walk for more than 8 hours in a day.

Focus: A small drum.

NATURE'S BALANCE

Transmutation

Level: Druid 4

Components: V, S

Casting Time: 1 standard action

Range: Touch

Target: Creature touched

Duration: 10 min./level

Saving Throw: Fortitude negates (harmless)

Spell Resistance: Yes (harmless)

You lend some of your ability score points to your target.

You take a -4 penalty to any single ability score of your choice, and your target gains an equivalent enhancement bonus to the same ability score.

You get no saving throw to avoid the loss, but your target may attempt a Fortitude save to avoid the gain, if desired.

If you cast this spell a second time within 1 hour, you take 2d10 points of damage in addition to the normal effect.

SIMBUL'S SPELL MATRIX

Transmutation

Level: Sorcerer/wizard 5

Components: V, S, F

Casting Time: 1 standard action

Range: Personal

Effect: Matrix that holds one of your spells

Duration: 10 min./level (D)

You prepare a magical matrix that allows you to store one of your spells and use it later as a free action.

In the round after you cast *Simbul's spell matrix*, you may cast one spell of up to 3rd level to be stored in it.

The matrix closes after 1 round, whether or not you have stored a spell in it.

Only a spell that can be altered by the *Quickened Spell* feat can be placed in the matrix, and any spell stored there is treated as a prepared spell.

Casting *Simbul's spell matrix* deals 1d6 points of damage to you, and this damage cannot be healed by any means while the matrix exists.

While the matrix is active, you can cast the spell stored in it as a free action.

Once cast from the matrix, the spell is gone.

A *dispel magic* spell that successfully dispels the matrix also dispels the spell held inside it.

If you are affected by an *antimagic field*, the duration of the matrix is interrupted, but the spell does not activate.

The matrix becomes active again when you emerge from the *antimagic field*.

If you die while the spell is still held in the matrix, both the spell and the matrix dissipate harmlessly.

Focus: A piece of amber with a minimum value of 500 gp.

SIMBUL'S SPELL SEQUENCER

Transmutation

Level: Sorcerer/wizard 7

Effect: Matrix that holds two of your spells

This spell functions like *Simbul's spell matrix*, except that you can store up to two spells of up to 3rd level, and you take 2d6 points of damage instead of 1d6 upon casting. The matrix closes after 2 rounds and no more spells can be added, even if it is not full.

In addition, you may decide to link the two spells stored in the matrix into a spell sequence if both are 2nd level or lower.

You may then discharge the two linked spells as a single free action, just as if you were casting the lone spell from a *Simbul's spell matrix*.

A *dispel magic* spell that successfully dispels the matrix also dispels all the spells held inside it.

If you are affected by an *antimagic field*, the duration of the matrix is interrupted, but the spells do not activate.

The matrix becomes active again when you emerge from the *antimagic field*.

If you die, all spells in the matrix dissipate harmlessly.

Focus: A sapphire with a minimum value of 1,000 gp.

SIMBUL'S SPELL TRIGGER

Transmutation

Level: Sorcerer/wizard 9

Effect: Matrix that holds three of your spells

This spell functions like *Simbul's spell matrix*, except that you can store up to three spells of up to 3rd level, and you take 3d6 points of damage instead of 1d6 upon casting. The matrix closes after 3 rounds and no more spells can be added, even if it is not full.

In addition, you may designate one spell or one spell sequence held in the matrix to come into effect under a condition you dictate when casting *Simbul's spell trigger*.

This function works much like a *contingency* spell.

The spell (or sequence of spells) to be activated by the triggering condition must be of a type that affect your own person, such as *levitate* or *feather fall*.

The conditions required to bring the desired spell or spells into effect must be clear, although they can be general.

In all cases, *Simbul's spell trigger* immediately brings into effect the designated spell or sequence of spells, which is cast instantaneously when the designated circumstances occur.

You cannot choose to have the spell or spells not activate when the triggering event occurs.

Focus: A diamond with a minimum value of 1,500 gp.

SKULL EYES

Transmutation

Level: Initiate of Cyric 5

Components: V, S

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/three levels

Saving Throw: None; see text

Spell Resistance: Yes

You gain a gaze attack out to close range (25 ft. + 5 ft./2 levels) that lasts for the duration of the spell.

Each creature within range that can see you must attempt a Will saving throw every round at the beginning of its turn to avoid the effect.

In addition, you can actively gaze as an attack action by choosing a target within range.

Depending on the foe's Hit Dice, the gaze attack may have either of two effects, as follows.

HD	Effect
Equal to or greater than caster level	Charmed
Less than caster level	Confused

While this spell is in effect, your eyes are black and have skull-shaped irises.

SPELL ENHANCER

Transmutation

Level: Sorcerer/wizard 4

Components: V

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round

This spell enhances the next spell you cast, making it more difficult for targets to resist.

After you cast this spell, you can cast another in the same round (as if it had been quickened) at +2 caster level.

SPELL PHYLACTERY

Transmutation

Level: Initiate of Mystra 5

Components: V, S, DF

Casting Time: 10 minutes

Range: Touch

Target: Scroll touched

Duration: Permanent until triggered

Saving Throw: None

Spell Resistance: Yes (object)

You create a set of triggering conditions for a scroll that bears a spell on your spell list.

The spell must be one that affects your person, and it must be of a level no higher than one-fourth your caster level (rounded down, maximum 5th).

Any limitations that would normally apply to your reading of the scroll (such as a minimum ability score or a caster level check) still apply.

The conditions needed to bring the spell into effect must be clear as defined by the *contingency* spell description, although they can be general.

For example, a *spell phylactery* used with a scroll of *water breathing* might prescribe that any time you are engulfed in water or any similar liquid, the *water breathing* spell instantly comes into effect.

Or a *spell phylactery* used with a *feather fall* scroll could trigger any time you fall more than 4 feet.

Complicated or convoluted conditions may cause the *spell phylactery* to fail when called upon. The scroll is activated based solely on the stated conditions, regardless of your wishes at the time.

When the stated conditions are met, the spell on the scroll is cast upon you as if you had spent a standard action to use the scroll yourself.

If the scroll contains a spell that is not on your spell list, or limitations on the spell that would prevent you from casting it at the time, it is not cast when the triggering condition occurs, and the magic of the *spell phylactery* dissipates.

The scroll prepared with this spell must be bound to your arm or forehead (usually rolled tightly or placed in a small box for this purpose), and it counts as a bracer or headband in terms of space limitations for magic items.

This spell must be cast once for each spell you wish to effect on a scroll.

If another person wears the *spell phylactery*, the magic of this spell ends.

You may remove and replace the *spell phylactery* without penalty, but if 24 hours pass without you wearing it, the magic of the *spell phylactery* ends.

The termination of this spell does not harm the spell on the scroll.

STONE BODY

Transmutation

Level: Cleric 6, sorcerer/wizard 6

Components: V, S, M

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 min./level (D)

This spell functions like *iron body*, except as indicated here.

You gain damage reduction 10/adamantine and a +4 enhancement bonus to Strength, but you take a -4 penalty to Dexterity (minimum Dexterity 1).

You are vulnerable to all special attacks that affect stone golems.

Your speed is reduced to one-half normal, and your weight increases by a factor of three.

Arcane Material Component: A small piece of stone that was once part of a stone golem, a greater earth elemental, or a castle's outer wall.

STRENGTH OF THE BEAST

Transmutation

Level: Initiate of Malar 4, initiate of Selûne 4

Components: V, F

Casting Time: 1 standard action

Range: Personal

Target: You

Duration: 1 round/level

This spell functions only if you are a lycanthrope, and it benefits you only while you are in your humanoid form.

While under the effect of this spell, you gain certain characteristics of your animal form while remaining in humanoid form.

You gain the same damage reduction you have in animal form (normally 5/silver or 10/silver), the scent special quality, and the feats you have access to in animal form.

In addition, you gain one-half the adjustment for each ability score that you gain in animal form, rounded down to the nearest multiple of 2.

For example, if you are a werewolf, you gain Str +8 (half of your animal form's +16) and Con +4 (half of +8), but no adjustment to your Dexterity because half of +2, rounded down to the nearest multiple of 2, is +0.

If you must make a Control Shape check while under the effect of this spell, you take a -4 penalty on your check.

Focus: A lock of hair from your animal form.

THORN SPRAY

Transmutation

Level: Initiate of nature 4

Components: V, S

Casting Time: 1 standard action

Range: Close (25 ft. + 5 ft./2 levels)

Target: Up to one creature/level

Duration: Instantaneous

Saving Throw: Fortitude partial

Spell Resistance: Yes

You hurl a thorny plant in the direction of the targets.

The spell transforms the plant's small thorns into a spray of thorns that deals damage to the targets you select.

You make a normal ranged attack against each target separately, taking no penalty for lack of proficiency.

The thorns deal a total of 1d6 points of damage per caster level (maximum 20d6), but you can divide this damage among the targets you select.

You must choose how to divide the damage before making your attack rolls.

Thus, an 8th-level caster can target a single creature with an attack that deals 8d6 points of damage on a successful hit, two creatures for 4d6 points of damage each, four creatures for 2d6 points of damage each, and so on.

You may divide the damage as you wish.

A creature that takes damage from the thorns is wracked with pain as though its body were covered with stinging nettles, and it is also sickened for 2d4 rounds.

A successful Fortitude save negates the sickened effect.

UNDEAD BANE WEAPON

Transmutation

Level: Paladin 3

Components: V, S, DF

Casting Time: 1 standard action

Range: Touch

Target: Weapon touched

Duration: 1 min./level

Saving Throw: None

Spell Resistance: No

You give a weapon the *undead bane* special ability in addition to any other magical or mundane properties it has. Against undead, your weapon's enhancement bonus (if any) is +2 higher than normal, and it deals +2d6 points of bonus damage.

The spell has no effect if cast upon a weapon that already has the *undead bane* special ability.

If you are caster level 9th (paladin level 18th) or above, the weapon gains a +1 enhancement bonus if it is not already a magic weapon.

Alternatively, you can affect up to fifty arrows, bolts, or bullets with this spell. These projectiles must be of the same type, and they must be together (in the same quiver, piled in the same spot, or the like). Projectiles (but not thrown weapons) lose this effect after an attack has been made with them. A weapon affected by this spell is considered good-aligned, so it has special effects on certain creatures. Any weapon affected by this spell glows with a serene gray radiance that sheds as much light as a candle.

PLAYER'S HANDBOOK 3.0 (3.0)

ABJURATION

ALARM

Abjuration

Level: Brd 1, Rgr 1, Sor/Wiz 1

Components: V, S, F/DF

Casting Time: 1 action

Range: Close (25 ft. + 5 ft./2 levels)

Area: 25-ft.-radius emanation centered on a point in space

Duration: 2 hours/level (D)

Saving Throw: None

Spell Resistance: No

Alarm sounds a mental or audible *alarm* each time a creature of Tiny or larger size enters the warded area or touches it.

A creature who speaks the password (determined by you at the time of casting) does not set off the *alarm*.

You decide at the time of casting whether the alarm will be mental or audible.

Mental Alarm: A mental *alarm* alerts you (and only you) so long as you remain within a mile of the warded area.

You note a single mental "ping" that awakens you from normal sleep but does not otherwise disturb concentration. A *silence* spell has no effect on a mental *alarm*.

Audible Alarm: An audible *alarm* produces the sound of a hand bell, and anyone within 60 feet of the warded area can hear it clearly.

Reduce the distance by 10 feet for each interposing closed door and by 20 feet for each substantial interposing wall.

In quiet conditions, the ringing can be heard faintly up to 180 feet away.

The ringing lasts for 1 round.

Creatures within a *silence* spell cannot hear the ringing.

Ethereal or astral creatures do not trigger the *alarm* unless the intruder becomes material while in the warded area.

Arcane Focus: A tiny bell and a piece of very fine silver wire.

ANTILIFE SHELL

Abjuration

Level: Animal 6, Clr 6, Drd 6

Components: V, S, DF

Casting Time: 1 full round

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: Yes

You bring into being a mobile, hemispherical energy field that prevents the entrance of most sorts of living creatures. The effect hedges out animals, aberrations, beasts, magical beasts, dragons, fey, giants, humanoids, monstrous humanoids, oozes, plants, shapechangers, and vermin, but not constructs, elementals, outsiders, or undead. (See the *Monster Manual* for an explanation of creature types).

Note: This spell may be used only defensively, not aggressively; forcing an abjuration barrier against creatures whom the spell keeps at bay collapses the barrier (see page 157).

ANTIMAGIC FIELD

Abjuration

Level: Clr 8, Magic 6, Protection 6, Sor/Wiz 6

Components: V, S, M/DF

Casting Time: 1 action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: See text

An invisible barrier surrounds you and moves with you.

The space within this barrier is impervious to most magical effects, including spells, spell-like abilities, and supernatural abilities.

Likewise, it prevents the functioning of any magic items or spells within its confines.

An *antimagic field* suppresses any spell or magical effect used within, brought into, or cast into the area, but does not dispel it.

A *hasted* creature, for example, is not *hasted* while inside the field, but the spell resumes functioning when it leaves the field.

Time spent within an *antimagic field* counts against the suppressed spell's duration.

Golems and other magical constructs, elementals, outsiders, and corporeal undead, still function in an antimagic area (though the antimagic area suppresses their supernatural, spell-like, and spell abilities normally).

If such creatures are summoned or conjured, however, see below.

Summoned or conjured creatures of any type and incorporeal undead wink out if they enter an *antimagic field*. They reappear in the same spot once the field goes away.

Time spent winked out counts normally against the duration of the conjuration that's maintaining the creature.

If you cast *antimagic field* in an area occupied by a conjured creature who has spell resistance, you must make a caster level check (1d20 + caster level) against the creature's SR to make it wink out.

(The effects of instantaneous conjurations, such as *create water*, are not affected by the *antimagic field* because the conjuration itself is no longer in effect, only its result).

Normal creatures (a normally encountered troll rather than a conjured one, for instance) can enter the area, as can normal missiles.

Furthermore, while a magic sword does not function magically within the area, it is still a sword (and a masterwork sword at that).

The spell has no effect on constructs that are imbued with magic during their creation process and are thereafter self-supporting (unless they have been summoned, in which case they are treated like any other summoned creatures). Undead and outsiders are likewise unaffected unless summoned.

These creatures' spell-like or supernatural abilities, however, may be temporarily nullified by the field. *Dispel magic* does not remove the field.

Two or more *antimagic fields* sharing any of the same space have no effect on each other.

Certain spells, such as *wall of force*, *prismatic sphere*, and *prismatic wall* remain unaffected by *antimagic field* (see the individual spell descriptions).

Artifacts and creatures of demigod or higher status are unaffected by mortal magic such as this.

Note: Should you be larger than the area enclosed by the barrier, any part of your person that lies outside the barrier is unaffected by the field.

Arcane Material Component: A pinch of powdered iron or iron filings.

ANTIPLANT SHELL

Abjuration

Level: Drd 4

Components: V, S, DF

Casting Time: 1 action

Range: 10 ft.

Area: 10-ft.-radius emanation, centered on you

Duration: 10 minutes/level (D)

Saving Throw: None

Spell Resistance: Yes

The *antiplant shell* spell creates an invisible, mobile barrier that keeps all creatures within the shell protected from attacks by plant creatures or animated plants.

As with many abjuration spells, forcing the barrier against creatures whom the spell keeps at bay strains and collapses the field (see page 157).

ARCANE LOCK

Abjuration

Level: Sor/Wiz 2

Components: V, S, M

Casting Time: 1 action

Range: Touch

Target: The door, chest, or portal touched, up to 30 sq. ft./level in size

Duration: Permanent

Saving Throw: None

Spell Resistance: No
